

VIOLENCE

by L. Ron Hubbard

MAN'S ANSWER in his more barbaric stage was always VIOLENCE.

If you weren't obeyed, use VIOLENCE.

If you were balked, use VIOLENCE.

If they wouldn't bow or scrape or wouldn't lick the boots, then VIOLENCE was the answer, fit for one and all and, in particular, YOU.

But where did all this violence get Man? Where die rows of trenches men for four years filled with uncounted dead get Man? Just where the A bomb and the H bomb and the Z bombs will get him.

Back to barbarianism! Let's blow it all up! Let's splatter Earth and all her pleasant ways to atoms and to shreds. VIOLENCE! Ah, that's the answer, isn't it? The very thing to do to little kids. Blow them up! That stops their weeping. Kill them all. They only die but once. But do they? Do they now?

What a foul trick fate waits to play upon the Men of Violence. They blow it all up. They splatter their homes and kids and fishing poles from here to Kingdom Come. They blow it all up and blow themselves out of their heads.

And they aren't dead! They're still alive and only the body is dead and nothing is solved. And, oh my, isn't it messed up!

No priest was there, no Gabriel with a cornet solo to play them into Pearly Gates. Not even the wasted coals of hell exist to greet them.

They blasted everything in sight and the other men blew back and they all blew out of their silly heads and charred derbies and caps and hombergs and what did they see?

They saw a world they'd ruined all out of political cause and glee. They saw bodies where their kids had been and bones where their hat had been and embers where their lives had been. All nicely radioactive now, and nothing with which to rebuild the world. Nothing. No order. Just chaos. No bodies. Just fish. No grass, just radiation.

A planet as bald as a burned egg. And that's their win. And they've earned the right to build it back with nothing to work with and no people to talk to and no fishing pole, no books, no blue-print.

The joke's on them. They did live. They did come back. There wasn't either death or heaven and it's all to do again.

Too bad the rest of us are being asked to come along too. Otherwise it would be such a good cruel joke on these MEN OF VIOLENCE.

TECHNICALLY SPEAKING

We have a whole world full of "victims".

That's enough.

We don't have to be victims ourselves. It's a scarcity we don't have to remedy.

New Definition: A Scientologist: one who is not a victim.

We can make victims into people without Q and A'ing.

Historical Note: The whole christian movement is based on the victim. Compulsion of the overt-act motivator sequence. They won by appealing to victims. We can win by converting victims. Christianity succeeded by making people into victims. We can succeed by making victims into people. It's time the inversion turned anyway.

L. Ron Hubbard

DEFINITION OF SCIENTOLOGY: *written for Legal use when organizing a Scientological Corporation*

OUR GOALS

by L. Ron Hubbard

Well, we're easing right into the starting line for Clear Earth. Factually, we are getting lined up for the big push.

Clearing a large population of Earth in our lifetimes is not even improbable now the way its going.

By establishing responsible centers all over Earth, running HAS Co-Audits and having them train and process, by having HASI and the FC give upper level training, by holding a tight rein on off-beat activities, we'll make it rather easily.

The exact plan of a center is this:

- (1) Sign an HCO Interim Franchise.
- (2) Run an HAS Co-Audit and individually process people.
- (3) Keep a good level of activity for several months, paying regularly and correctly and thus establish "good credit" with HCO.
- (4) Obtain from HCO a permanent franchise.
- (5) Train to level of HCA / HPA in the center.
- (6) Progress forward toward clearing area on this pattern.

Obtaining a permanent franchise is a big step. It doesn't just involve signing a piece of paper.

It means an incorporation along exact lines of an exact activity in the center's area. It means an exact financial transaction wherein the center can obtain enough capital to fix or build its own quarters, to hire people, to advertise broadly.

Obtaining a permanent franchise is a big step. It means, finance, promotion, success.

The exact pattern of how this done now exists and will be put out when centers are ready for it. Special people will come and do the basic work. The advertisement copy, texts, incorporation papers, everything is being made ready right now.

We're moving from small time to Big Time.

The HASI's and their central organizations will upgrade to universities. (They'll do the certificate examination and preparation for HCO so be good to them.) In centers we'll make the specialists. In Central Organizations we'll make the super specialists.

Now, some questions come up. What about people who never asked for a franchise but went ahead and without hepling the general push tried for a quick buck? We take them straight out of the line-up. Auditors in the future are either part of this forward thrust or we forget them unpleasantly. We will close all centers operating without legal title to operate.

There's too much at stake. We can't go by halves. We're Clearing Earth. Therefore people fall into two groups for us, those who are with us and those who aren't. Those who aren't will be handled by processing and where necessary by law.

So we're lining up now.

This is a real tough planet. It will take a really serious shove to clear it. So here's where we start. And we start with no half-hearted measures.

We have a new motto in HCO WW. If somebody drops a ball, we drop a person.

First example was the solicitor for HASI Ltd. He dropped a ball, we dropped him. And we found a really good solicitor.

It's a tough planet. We'd better face it and measure up to it.

But your first step is to say, "I'm going to clear _____ (the continent) and start telling people, naming your continent, "We are here to clear America." And moves that don't aim that way are dispersals.

The easy part is getting people on our side. You've heard it said, "Everybody is a Scientologist. Some just haven't cognized yet."

The tough part is to keep everybody pointed toward the goal.

So a Scientologist should say first to himself, "I'm going to clear _____", his continent. And then tell others, "We're here to clear _____", his continent.

And then work along an agreed upon program. Sign or assist an interim franchise, be active, be ok with HCO WW, organize for and sign or assist a permanent center or help the HASI or HCO to get rolling.

Look how far we've come in nine years! All right, I wasn't going nowhere. Were you?

So let's stop fooling around and get serious.

Clear Earth!

Best,

ACTUAL WORKING DEFINITION OF PSYCHOLOGY

That body of practice devoted to the creation of any effect on living forms.

This is the totality of study. The ethics of the effect do not enter in this subject.

It is not a science since it is not an organized body of knowledge.

In actual use it is a dramatization of Axiom 10, wholly reactive.

In this wise the word can be used by Scientologists, and this definition can be used legally to prove that Scientology isn't Psychology.

REPORT on the Special Course

The special HAS Co-Audit, HCA/HCS Course taught by Dick and Jan Halpern with the able assistance of John Galusha and Nina West in Washington D.C. this summer was an unqualified success. Many auditors throughout the country are now very well equipped to instruct their area HAS Co-Audit Courses.

Here are comments made by students of this course:

"The course was very well run and was easily the best course I have ever attended....every auditor on the books would benefit from this course....This course has smoothed out my auditing. Have picked up a hundred new points which had been beyond my reality before. Have noted case changes in all my classmates... This course gave lots of wins which helped us to accept the idea that we could be able and could be responsible....The instructors did an almost perfect job of being here....I most appreciated the excellent 8-C and the help given by the instructors and the lack of confusion....I particularly noticed the gains made by the students on the TR's....Muzzled auditing is the most... Main thing I got from the course is the ability to keep in Present Time and to keep my attention out....It has given me a whole new universe in which to function...I gained reality on using the E-meter....the E-meter is now a valuable tool and reads in terms I can understand....My pictures were as a whole clear 3-D..smell and taste of foods and fragrance of flowers....The thing that has most impressed me is the reality and simplicity and control of the Co-Audit course....The course has given me data on what I was doing wrong with my children and what to do about it....I have learned the great amount of affinity one can have for another in spite of aberrations....I expect to be a better and happier being and use my knowingness to obtain the goal of living in a sane world....I feel that I have not wasted my time and money on this course and will do my best to promote Scientology....I was amazed at learning so much in such a short time....best course I ever had in my whole life....."

If I were to call that poplar a jellyfish
It would still continue to stand there proudly fluttering its leaves.

If I were to call the sunlight a potting shed
It would still continue to percolate through the leaves.

And if I were to call Count Alfred Korzybski a cobblestone
His intelligence would still continue to illuminate words
like the sun on the leaves.

These damn words with which we have been fed

Are we all imprisoned, and are the lines of print

To wander in the clean air, barefoot
And experience a landscape without having to give it a name.
