

# Ability

THE ONLY ONES

by L. Ron Hubbard

It is fantastic to have to advertise or sell Scientology. It is the only methodology extant today which alleviates or remedies psycho-somatic illness, proofs an individual against a host of casualties, increases reaction time, raises intelligence, and improves ability.

That Scientology has throughout the world today only about 1200 practitioners in full practice could be true only if these people did not understand entirely the capabilities which lay under their hands. The discovery that they were not repairing or remedying havingness - and, of course, my omission in pointing out this fact - is about the only thing which has brought about failed cases and which slows down the general progress of cases everywhere. Now that this is spotted and swept out of the way, I don't see any real bar to our forward progress.

Scientologists are the only ones where healing is concerned or where an improved race or culture are concerned. Scientology and Scientologists are the one hope the human race has today.

Let's not make it a thin one.

Earliest Research Findings in Dianetics and Scientology, 1950!!!

O N H A V I N G N E S S

by L. Ron Hubbard

It might be amusing for you to know what the earliest finding was in the field of havingness. I wanted to know exactly what happened in terms of intelligence quotient when engrams were run into restimulation and knocked out of restimulation. I therefore set up a series of tests to be accomplished under a very solid regimen as follows: The preclear under test was given a short form Otis I.Q. test. This took him about ten minutes. The auditor then immediately threw him down the track into such engrams as birth or accidents and when that engram had been run just enough to get into the full restimulation, the preclear was given Form 2 of the Otis I.Q. which is comparable to Form 1. This was done in a rather long series. The engrams were then erased or de-intensified and the

individual was given Form 1 of Otis I.Q. again.

I set this up simply as a needful datum. I did not anticipate any particular results and was willing to learn from the experiment. I did. It was found that the I.Q. of the individual raised from five to eight points by the simple fact of being thrown into birth or a heavy engram. This was such a wild result and so unexpected and yet so constant in the testing itself that I had to accept that the restimulation of an engram increased the intelligence quotient of the individual. The de-intensification of the engram by further erasure did not again lower the I.Q. of the individual, a fact which is accounted for by the mass in the engram being converted by an erasure, not eradicated.

As we understand this today, it was that the preclear was given havingness. The havingness he was given did contain vast significances but the significances were less important than the actual mass itself. Therefore, the I.Q. gain.

This was our first encounter with the relationship between intelligence and mass. What actually occurred in this experiment was not visible to me for years, since the experiment took place in November and December of 1950. The experiment was the only one conducted for me directly on the line of actual research - as distinguished from puttering - by the Hubbard Dianetic Research Foundation of Elizabeth, N.J. That organization spent \$47,000 all told on research. It conducted the above experiment and collected some evidence that in one case of spinal arthritis Dianetic processing had undoubtedly relieved the condition.

Although some might think otherwise I feel that in view of the conduct of the above experiment by that department the \$47,000 did buy something after all despite all contrary intent.

It should be noted that when we erased an engram we did not erase the mass connected with it. We erased the significance in the mass. We took perceptics out of it and it then could convert into acceptable mass. What was unacceptable was the perceptics and these restrained the individual from utilizing the mass. Actually I should say the individual's body from utilizing the mass.

We can further learn from this that the figure-figure boy is doing just about this. He is trying to erase out of what mass he can have enough content so that his body can utilise that mass. His figure-figure is actually an effort to erase.

The answer of course is to give him mass he doesn't have to erase the figure-figure out of. The figure-figure boy is way down on ability to have and is going on a sort of storage battery philosophy that while he can't create anything he can at least utilise blocks of stuff that he has stock piled in his bank.

Editorial:

SURVIVAL: HASI, HDRF MEMBERS OCCUPY KEY WORLD POSITION

by John Sanborn

We know, in Scientology, that structure does not monitor function - function monitors structure. When we look at what we are doing in our various activities in Scientology and in Dianetics, we sometimes get looking at too much structure. To see where our problems lie, and what kind of a job it is that we have ahead of us in Scientology, the first place is at Man, and how well is Man getting along on this planet. We look at the potentialities of Man, and we look at his idea or opinion of his potentialities, and we look at what he says he is doing, and what he intends to be doing, and we look at what he is doing. We come across certain problems and we see Man facing many barriers of different kinds, and we see things that people could be doing to solve those barriers and problems. But that is not our main point of attack by a long shot. We are not in the business or game of going around taking away problems and rigging white lights and pretty music. Our main point of action is ability, which is a clearer statement of function than calling it function. You or a friend of yours may have thought of the members of the HASI or HDRF as being somehow less a part of the picture than, say, the professional auditor, or the personnel of the central organization. That is getting it right, except for the fact that it is just precisely backwards. The most important thing we have in sight, the number one thing, is how Man himself and in general is getting along, and NEXT, in number two position, is the whole general membership of Dianetics and Scientology. Here are the people who know something about the spirit of Man, its functions, its common agreements, its likes and dislikes, and its native potentialities. Here is the largest group we have who can talk to someone about these things, and get someone into communication, and put some alignment into the thinking and figuring and sweating of Man. Auditors we need. We need five thousand auditors, and good ones, and in the near and quick future. But first, and precedently, what we need is one hundred thousand MEMBERS active world-wide, just plain talking and telling and listening to people, and keeping in some kind of really effective communication with the data sources of Scientology and of the activities of the world Scientologist.

The widest distribution channels for books and even tapes are being explored and put into action on a stepped-up new dissemination program reaching into all communities. A new popular book by Ron, meaning another international

best-seller, is in the works. The Newsstand edition of ABILITY Magazine, looking nothing at all like your present issues, is now in the close-to-deadline stage. Many, many programs are, according to the peculiarities of the countries involved, being carried out and expanded in all principle countries.

One of the first things we are after in these operations is a big and new and fast-growing membership.

To get the numbers of members that are called for by the non-luxurious plight of today's history, in order to do something about getting for Man the luxury called a civilization on Earth, we are every one of us going to have to go out letting go of some words, and pulling some words out of the mouths of our fellow man. We are going to have to put some mock-ups up there in the future, with some intention, and with some certainty.

Come on, kids, let's get out there and create some new members. People that today do not even dream that they are now on their way to joining an aligned and specific effort which includes a totality of alignment of thought, which totality is A-R-C, and the eight dynamics, and the creation of human ability. Occupying, as you do, a key position in world affairs, you got a job to get done. Don't worry about whether it's SAFE. Or we'll all wind up playing planet, planet, who's got the planet.

(See the next article on this page for a process that will ease and speed your effectiveness toward your goal.)

## 'ORRIBLE FATES

by Editor John Sanborn, D.Scn.

MEST cycle of action is Create, Persist, Destroy. That's a MEST and not the ONLY cycle of action there is, or is possible. Looking into the jaws of this Mest Universe implant, you can readily see that there would be a tendency for anyone to get the feeling that every time he mocks up a future, he is offering it up to the wolves to be torn to nothing. Such is the implant, Destroy, or better, Destroyed, sits out there in the future waiting for your mockups. There is, however, the other possibility - change your mind about this. Here is a process that will help you to talk your co-auditing partner into changing his mind, or, that will help him to sell you the idea of changing YOUR mind about the iller omens of the Mest Universe.

Have the preclear follow this command, over and over, while you keep in good two-way communication with him and repair his havingness at all points of discomfort, dopiness or the smoke crave:

"INVENT A HORRIBLE FATE FOR YOURSELF." Or, the command: "INVENT A HORRIBLE FATE FOR YOUR BODY." Run to cognition and cheerfulness. Get miracle. Do this for your fellow Scientologist; he deserves the benefits of running 'Orrible Fates. So do you.

Then go out and mock up some new MEMBERS.

## ABILITY BOOKS

Dianetics: The Evolution of a Science, Co-Auditor's Manual of Scientology, L. Ron Hubbard's PAB Books #1 & #2 - \$1 to subscribers - \$2 to all others.

L. RON HUBBARD'S PABs, BOOK TWO IN THE WORKS

Making the FOURTH in the Ability Book, new-book-every-month, series, the brand new Book 2 of Professional Auditor's Bulletins is expected to be ready for you at about the same time you receive this issue of ABILITY. These Bulletins were never before available to any but professional auditors and special members of the HASI and HDRF. In the popular format of the Ability Books they are not only very good and exciting reading, they are necessary material for the Scientist. You are not back-tracking on Scientology data when you examine the data of the PABs. You are getting basic present-day auditing information at source. In PAB Book 2 you have the information on such things as Acceptance Level, the Circuit Case, Processing Futures (which if you think isn't modern and up-to-date stuff, take a look at SLP Issue Six, 1956). There is important material on the Overt Act-Motivator Phenomenon, and the DED-DEDEX sequence. People are always asking you just what is this DED-DEDEX business. Here's where you tell them.

Exteriorization, Havingness and the handling of energy and mock-ups are included, with very valuable background material.

The PAB Books are corrected and improved for these Ability Book editions by D.Sc. Johann Templehoff in London, working closely with Ron on the project. ABILITY editor Sanborn says the job Templehoff is doing on these books is terrific. What Dr. Templehoff has done is to take the PABs closer to the source than even the original PABs as issued monthly from London. He has gone back to the actual tapes and notes of L. Ron Hubbard for this material, and has consulted with him on the contents of the final book.

This coming PAB Book 2 makes the fourth Ability Book in four months with the first being DIANETICS: THE EVOLUTION OF A SCIENCE, the first published writing in the field of Dianetics and Scientology. Written by Ron in 1949.

Second is the CO-AUDITOR'S MANUAL OF SCIENTOLOGY, by L. Ron Hubbard and ABILITY editor John Sanborn. Up-to-date auditing theory and techniques, for co-auditing teams and for use in Basic Auditor courses in the field.

Third is L. RON HUBBARD'S PABs, Book I, comprising the corrected and condensed edition of L. Ron Hubbard's Professional Auditor's Bulletins prepared for issuance to auditors throughout the world.

With a new Ability Book coming out every month members are saying it's the greatest publishing progress ever.

Academy Technical Bulletin #2

A NEW HANDLING OF THE PROBLEM OF UNIVERSES  
PART II

by L. Ron Hubbard, Jr., D.D., D.Sc. and Kenneth D. Barrett, D.D., D.Sc.  
Instructors at the Academy of Religious Arts and Sciences, Washington D.C.

During the two weeks since Bulletin #1, if you have run this process on a preclear, you have probably discovered several things. Probably you have discovered that it is possible to get the wrong universe, and sometimes you had to change, when you discovered the most collapsed universe. You probably also found

out that some preclears have difficulty getting problems, and that many have difficulty being specific. We're quite sure, though, that these, and many other small difficulties that you have possibly encountered, you have learned to overcome through two-way communication with the preclear, and other knowledge in your possession.

If you know the definition of, and the mechanics of Affinity as given in Axiom 25, I'm sure that you have seen very clearly by this time that as one has resisted and not-ised a particular person, that he has gone through the know-to-mystery or secret scale in relation to this person, and now is to a certain degree, confronted with this mystery when he attempts to find problems concerning this person, who has collapsed into him. In other words, the preclear when he starts a universe which has collapsed on him, does not know too much about how the person actually is or was, and after running "What specific problem could this person be to you?" for some time, and this person begins to separate from him somewhat, he can find more problems that the person could be to him, he understands more about the person. He finds that some things he thought about the person are not the way that it actually was, etc., etc., etc. To state it very briefly, the preclear will be working through some confusion. The way that one gets the preclear through this confusion is to have him be quite specific about the problem.

Even though the process was set up by Mr. Hubbard to run out a universe, and at the same time restore the havingness while running the process, usually you will find that the preclear cannot get enough problems or get them often enough to keep his havingness on an even level. In other words he will blow it faster than we can get it back through these problems. So, it is necessary while running this process to "repair havingness". Now we use this terminology here to designate the fact that one merely has the preclear mock-up masses and shove them into himself until he is cheerful, and then continue with the process. The "remedy of havingness" on a specific thing would be where the preclear can push them into himself in any quantity, and throw them away in any quantity. However, in running this process in universe, our intention is merely to keep the preclear on a high level of havingness so he can find problems easily, and because of his high level of havingness, let go of, or blow the problems easily.

Therefore, while running this process on vacuums, and in fact, this should apply to any process that you run whether it repairs the havingness of the preclear or not, whenever the preclear becomes nervous, excited, has a so-matic, gets any amount of anaten, goes out of session in any way, or has any unusual type of phenomena, the auditor would immediately stop the process there, talk with the preclear about this, and say to the preclear, "Mock up a mass". When the preclear answers, say, "Okay". "Now shove that into yourself". The auditor must continue this until the preclear is cheerful again, which may take anywhere from a minute to a half-hour. In some cases, it will be necessary to spend, say, half the time in a session, repairing the havingness of the preclear, and the other half running the process of the session. Some of you may feel that this is a waste of time, that what the preclear needs to do is run the process, but, after you have tried this a few times, you will find that the preclear when he has a high level of havingness, will get many cognitions and changes on the process, while otherwise, it will drag, you will have long comm lags, and it will be slugging every foot of the way.

Now occasionally, if you are having a great deal of difficulty getting a preclear to be able to remedy havingness while running on this universe process,

you can have the preclear mock up a possession of the universe that you are running on the preclear, and have the preclear shove this into himself, for if the preclear is being the person or universe which has collapsed on him he could therefore have the possessions of that person.

We would like to call to your attention again that two points which one must watch here are, One, Problems - that the preclear is getting problems that this person could be to him (but not incidents in the past). Secondly, Specific, meaning that the preclear must get a situation where he would do a certain thing, and then the universe that you were running out, would do and say a certain thing, and not something in general.

We would like to call to your attention here that the most collapsed universe in this lifetime on the preclear is the one that reduced his space the most. Therefore, as you work this process, "What specific problem could ----- be to you", and the collapsed universe begins to move out and away from the preclear, you are giving the preclear back some space. It is commonly known and understood from early Scientology that anything that is in the preclear's space, he can control, handle, and is not afraid of. Therefore, as you move this person out of the preclear's body, and into the space in front of him, and further and further away through this process on "What specific problem", the preclear is able to change the way he's been looking at big problems in life, (which was probably at best, "I can get through it somehow") and will take on renewed interest. He will suddenly have a great future with great goals in it, he will get into motion again, and get up into overtness, as well as many other changes. We would like to emphasize again, that the effectiveness of this process and the speed with which it is run, is completely dependent upon "repairing havingness" of the preclear, so that he stays cheerful, runs the process easily, and gets many cognitions.

Now, as far as two-way communication is concerned, one communicates about the things the preclear originates at all times, until the preclear seems satisfied to take his attention off that particular thing, it will then allow the auditor to direct his attention back to the process. Now, when the preclear gets out of session a little bit in any way, you first, "repair havingness", and then engage in two-way communication with the preclear. Whenever the preclear doesn't react to "repair of havingness" as he has been, and isn't ready and eager to continue running the process, then, via two-way communication, check very carefully to determine if the preclear feels that the auditor has in any way overcome his self-determinism, or broken the Auditor's Code. You must realize as an auditor that while you are sure that you have not overcome the self-determinism of the preclear, or broken the Auditor's Code in any way, this is not always necessarily true to the preclear, for he may lack trust in people, easily feel betrayed, or be generally suspicious about people's intentions. It should also be pointed out here that the lower on havingness one allows the preclear to get, the more these breaks-in-session the preclear will come up with.

This is the end of the material on the process, "What specific problem could \_\_\_\_\_ be to you", and the second of this series. With the material that you have received in this issue, you will find that the process works much faster on the preclear, and he will have a greater understanding of what is occurring. It is suggested that you continue with no less than two hours a session, two sessions a week on this process, until you receive the next ABILITY which will contain the third of this series. This is a process that you do not have to be afraid of running too long, in that when the preclear has completely finished with that particular universe, if you continue running the process, he will just

ABILITY, page 8

go on inventing problems that that person could be to him, and as you know, inventing problems is a very good process in itself. In the next issue, further developments and ramifications on this process will be given, for in this process you can find a great deal of the basics of Scientology being unfolded before you.

#### SOURCE MATERIAL

For this series of Academy Technical Bulletins the source material is the recent London A.C.C. lectures by L. Ron Hubbard.

<u>The Communication Bridge and Intentions</u>	(#5510C12ACC-1,2)
<u>Tolerance of Havingness and Establishing a Session</u>	(#5510C17ACC-1,2)
<u>The Preclear's Present Time Problem - the Body</u>	(#551020ACC-1)
<u>A New Understanding of Universes ("On Vacuums")</u>	(#5511C16ACC)

#### Faster Intensives

#### R O N A D V I S E S H I S A U D I T O R S

The Hubbard Guidance Center in Washington, D.C. is getting even more attention from L. Ron Hubbard these days with the result that better HGC gains are being chalked up throughout the cases. Closely watching the performance of his own D.Scns here at the Center, Ron is keeping close tabs on the progress of every and each case. His coaching to all processing has a habit of arriving NOT after, but BEFORE it is indicated on a case.

They at the Center are processing straighter at ability and WHAT DO YOU KNOW - that old monkey wrench, the chronic somatic, is being audited right out of the road today with a new, very welcome process Ron sent Washington's auditors! It sure is a fine thing to be able to handle that piece of "old business" quickly, and early in the case - there are so many more important things to get on to in the business of auditing.

THE ABILITY TO LIVE.

#### R E C O M M E N D E D

The full three-week intensive, with complete before-after testing. Costs \$1250.00. Seventy-five hours. This has become the standard and proven processing programme. One-week (twenty-five hour) intensives also available at HGC, for \$500.00. WRITE for information on HGC services, and for reservations, WRITE IN ADVANCE to:

Dr. Julia Lewis, Director of Processing  
2315 15th St., N.W.  
Washington, D.C.

WEST COAST CONGRESS PLANS ANNOUNCED

Here it is - "WESTERN CONGRESS OF SCIENTOLOGISTS" - to be held in the Oakland-San Francisco area - March 8, 9, 10, 11.

Theme of the Congress - "SCIENTOLOGY AND LIVING"

Handling all arrangements for the Congress are Drs. J. Burton Farber, Tom Lovejoy, H. Charles Berner, John McCormick (Master of Ceremonies), Al Kozak. Guest and principle speaker - L. Ron Hubbard, Jr.

AND - MANY HOURS of Hi - Fi tape recordings of London Lectures by L. RON HUBBARD, Founder of Dianetics and Scientology

ALL Western States expected to attend, and already indicating they will be there in the largest Western turn-out to date.

Best Bay Area location being sought for Congress, with full particulars to be announced SOON. To keep posted on the Western Congress, watch ABILITY, AND WRITE to the above named committee. The address of the chairman is:

Rev. J. Burton Farber, D.D., D. Scn.  
109 East Dryden Street  
Glendale 7, California  
Phone: Citrus #-9611

ABILITY Special Bulletin

TO ALL TRAINING POSTS ON ALL CONTINENTS

We have our announced goal of 5,000 professional Scientologists active worldwide by 1957. This gives us about 11 months. Let us take a look right now at what kind of picture this is, and what is entailed in getting this program all the way across to completion.

This is not a final or end of cycle goal, it is a **START** action, with the purpose of putting Scientology into action on a magnitude comparable to our over-all goals for man.

Bluntly, this means that we are going to broaden our scope of activity on training by a multiple of something like TWENTY times the present level.

We should have at all times starting NOW not less than 1,000 students in training throughout this year. This means that in each training establishment on the Continents now doing training there will be a certain proportion of this activity going forward. No single training terminal is to be expected to carry the whole program.

At present, respecting population distribution and the character of the various operations, the ACADEMY in Washington would be expected to handle something like 50% of the bulk of professional training. The HASUK (London) would be expected to carry about 30%. Australia (Melbourne) would answer for 10%. New Zealand and South Africa would be responsible for the other 10%.

Certain factors, such as the wide promotion and distribution of such a book as DIANETICS: THE MODERN SCIENCE OF MENTAL HEALTH can certainly and conclusively count into the situation anywhere at a fantastic rate. The First Book when released in the United States sold out in its first printing previous to publication as a result of the article DIANETICS: THE EVOLUTION OF A SCIENCE, which appeared in a publication of relatively small readership. It was not one

of the big magazines. The first printing sold out nevertheless and it was one hundred thousand copies. The book went fast to the top of the best-seller lists and stayed on top for many, many weeks. It is YET classed as a best seller in the United States, and this is six years later. This kind of thing brings an avalanche of interested and very interested people to an office door.

A good program is to put into the public a book of such desirability to the large public, and to be armed and ready when they come in to train, process, and further inform, and to put into action the members of the avalanche.

Ron has announced from London that a popular book with a title such as SCIENTOLOGY: THE MODERN SCIENCE OF ABILITY is in the works, for release soon. This is exciting news, and it is important that we do not WAIT for this; it is very, very important that we get our various establishments into twenty times, at least, better shape than anything we have had before. (D.Scns who train HCA's, note.) It is a crucial point for us NOW that we carry forward dynamically, and that is EIGHT dynamically we are talking about. When Ron's new popular book is ready, we must also be ready.

The job is supremely simple - a matter of telling people about Scientology at your church service or public lecture, and giving them some good group processing, and also some reality on you as live terminals and human beings with a future.

It is taking people into your groups and making their participation worth while to them. It is understanding that people natively and naturally do like Scientology, something which has been observed by every Scientologist to date who has actually talked to people about Scientology even in the lightest and slightest kind of casual conversation. They not only like Scientology, they like the same things about Scientology that you like. This is an extremely valuable item. With the understanding that you are giving people something that they actually want and can use, you can fill your school chairs and need more chairs; you can fill your Guidance Center appointment book for well ahead; you can have large congregations and groups into which new people constantly come, and from which can be expected some good potential and trainable auditors; and you can improve the general climate of thinking in your community and vicinity to a level where you can operate with good public relations and public cooperation.

"OPERATION FORT KNOX" has by no means been dropped, even though little has been said about what is being done in that area. The completion of Op Ft Knox would not itself get us our goal. It isn't therefore something we can wait on as we would be capable of waiting to eternity for an amount of havingness, and at the end of that wait, with all the gold of Ft Knox, be doing nothing.

There is, in short, no Only One terminal or mode of activity that must be the point of success. There are a well-coordinated MANY of terminals and modes.

The rough estimate on what should be happening very, very soon in the key Scientology posts is: WASHINGTON should be training 500 students with about 50 new students entering each week. LONDON should have a student body of about 300 at all times, with 30 new students per week. AUSTRALIA should be training 100 students with 10 new students every Monday, NEW ZEALAND should have 50 at least at school at all times, with five every Monday. SOUTH AFRICA should have also 50 always in training, with five every Monday.

This is roughly computed on an 8-week training period for professional auditors.

John Sanborn

MEMBERSHIPS, H.A.S.I., H.D.R.F.

- o General Membership - \$8.50 - Gets a year of ABILITY and Certainty. Gets the General Member a 10% discount on all Books and Tape Recordings. ABILITY Books half price at \$1.00.
- o Professional and Special Memberships - \$25.00 - Gets a year of Ability, Certainty, and the PROFESSIONAL AUDITOR'S BULLETINS BY L. RON HUBBARD EVERY MONTH, and a 20% discount on all Books and Tapes. ABILITY Books half price at \$1.00.

ALL THE BOOKS AND TAPE RECORDINGS ARE AVAILABLE FROM THE DISTRIBUTION CENTER. CREATION OF HUMAN ABILITY, by L. Ron Hubbard - \$5.00; DIANETICS: THE MODERN SCIENCE OF MENTAL HEALTH by L. Ron Hubbard - \$4.00; DIANETICS, 1955!, by L. Ron Hubbard, \$2.90, and many others, including the NEW ABILITY BOOK SERIES, with a new Ability Book every month (see page 5 of this issue), costing only \$2.00 to the general public, but ONLY \$1.00 to all MEMBERS. Watch ABILITY Magazine for book news and listings!!!!
