SHE HOVERS NEAR. BY MRS. EMMA SCARR LEDSHAM. She hovers near, my beautiful, With sunny curls and eyes of blue, And thus she sings: "Be dutiful, Be good, be noble, wise, and true; Be good, and thou shalt undefiled Pass through Corruption's vilest haun's, For Purity will save her child, From wiles of worldly sycophants. "Be dutiful, obey the voice-

The monitory voice-within

Thy inmost soul, and thou'lt rejoice,

To note how thou escapest sin. That voice, it is the voice of God Within thy being; heed it well; It there has ta'en its abode, To keep thee from the pauge of hell. Be noble, raise with generous hand All weeping sinners from the dust, show them how to regain command Of self respect, and conquer lust. show them how green and pleasant are The hills of virtue; show them how,

Adown their slopes, 'mong flow'rets fair,

The streams of sweet contentment flow.

"Be wise. Be never led astray, By Folly and her reckless crew; Look 'round thee for a better way To Heaven, than that they point thee to. Though rough the RIGHT PATH seems at first, 'Twill smoother grow as you ascend, And Peace, in lap of Honor nursed, Will greet and bless thee at the end.

"Be true unto thyself. Be true Uuto thy worshipped Deity, Whose love shall bear the safely through, The mazes of thy destiny," How sweet she sings, my beautiful, With sunny curls and eyes of blue, This song of songs, "Be dutiful, Be good, be noble, wise, and true."

"SOMETIME." BY W. O. STODDARD. In the horizon's verge, Where our far future's ever setting sun Lights up the skies, Bright with all glory which the day hath won, An island lies.

Far o'er the tossing sea, Beyond all storm and gloom that lie between, Its hills appear,

Forever smiling in that light serene, Distinct and clear.

And ever thitherward The wide winged carrier birds of promise fly, And on the shore The crested waves of hope are dashing high,

Forevermore. 'Tis an enchanted isle, That magic "sometime," in the sunset sea, Yet know we well That in its valleys all things bright shall be,

All good shall dwell. "Sometime," we well believe, We shall have passed the trouble and the strife, And in that isle Enjoy the fullness of that summer life,

And rest awhile. Somehow we know full well That 'tis an island, though its green hills hide The distant surge,

And far beyond it other phantoms glide, And isles emerge. That "sometime" gaze we still! We cannot help but gaze; still let us dream,

Far be the hour When it shall vanish in the sun's last beam, And smile no more! [Selected.

THE TEMPTATION.

No portion of the Gospel has received the Temptation. It has had every extermined. Jesus came and heard the fiery words of John, was converted and baptized, and at once betook himself to the wilderness, after the manner of the prophalready to have a vague idea that he was the promised Christ, and if he believed ate bread from stones, support himself in the air, and do any other impossible thing, but the accounts in the Gospels

Matthew says he was led up into the wilderness by the spirit, to be tempted by the devil, and, after fasting forty days, he became hungry. It is impossible for a human being to fast even one-fourth of first temptation was well chosen. Jesus, had he miraculous powers, could, by cretemple and see if the angels will support him. The arch-enemy of mankind should have known that if bread would not

Lastly, he wishes that Jesus would worship him. This is the most improbable of all—to worship the power of evil, to become an idolator, rather than which a Jew would suffer death.

The great objection to this story is that the science of modern times discards the existence of a devil. The Prince of Evil was borrowed from the Persians, during their exile, by the Jews, and his appearance in this passage destroys its

THE MASS. CONVENTION, VERSUS THE NATIONAL ASSOCIATION.

In a previous issue of this paper (No. 24,) with the presentation of certain Resolutions beapproving of the National or American Association of Spiritualists, that we feel called upon to make an explanation.

As chairman of the Committee, we simply submitted to the Convention, for adoption or rejection, what we were instructed to. We could do no otherwise. The Resolutions in question we wholly disapproved of in letter and more, prefered not to be thus officially connected spirit. At the proper time, we so expressed with the Association, but they were overruled ourselves before the Convention. During the debate, we said in substance that the Resolutions sought to give seven reasons for disap-BRO. BAKER INJURED .- Bro. First, the objection to the American Organization because its action was not fully anticipated by the delegates, is seen to be NO OBJEC-TION AT ALL, inasmuch as it implies forgetfulness of the main purpose of all the previous National Mass Conventions of Spiritualists held in this country. The subject of Organization has been discussed for years in our public prints and from our numerous platforms, until Spiritualists nat-The women, however, only receive urally expected it would and must very soon take substantially this national shape. Thus what was once considered a formidable objection celebrate Independence from mere force our hearts, but thoughts of all the loving copying accounts, the same grade of work against State societies, proved a help instead of a hindrance. And such will prove to be the effect of the American Association upon State organizations. If the State Association is good for the State, the American Association is good for the Nation at large. The reasons that apply to one equally support the other. least with a cause to them so sacred! Why, editors are able and conscientious men, the whole Convention was made up of individ- whose course as writers and publishers has uals who were justly proud of the Lyceum from the first exhibited a genuine loyalty movement, and jealous that anything should be to truth. The Spiritualist has triumphed said or done to lessen its value. To disapprove thus far over material difficulties, and its

objection which refutes itself. The Convention could not take such a step. 'Tis a matter which belongs entirely to the Lyceum and the Socie. ty, and over which, of course, the Convention had no jurisdiction whatever. But the best refutation to this objection is the fact that, at the First National Lyceum Convention, held last November, in Philadelphia, Col. Fox, President of the American Association, moved to have the organization of the Lyceums made one of the specified objects of the Association.

Finally, The objection that the Board of Officers will focalize and abuse the power placed in their hands, is seen to be no objection, because the Constitution prevents it. The objection implies unworthiness of character on the part of the officers—seems to convey a suspicion that the parties chosen are not honest. The Convention thought otherwise. They selected the nine trustees for their general and special fitness-taking them from Ill., Ohio, Mich., Penu., N. Y. and Mass. They were elected with rare unanimity—all of them having been favorably known to the Spiritualists of the country for years. One of them at least, and probably by the voice of the Convention.

The above mainly cover the points made by us in the State Convention when the objections were first raised. Writing them out at this time, the language probably varies some from that which was spoken. But the thoughts and various positions here presented, are essentially the same. The objections—if such they can be called - exist on paper rather than in fact. Those most conversant with the American Association believe them the least. Those who attended its sessions and felt the animus of its inspiration, know how far these objections appear from the true state of the case.

We are sorry to confess that much of this opposition to the American Association is apparently the result of personal rather than impersonal consideration—the last instead of the first thing which should influence any one in such important matters. Whatever of individual pique, disappointment of place, or distrust of others who are our equals, one may feel, as grounds for opposing a comprehensive organizational movement, these objectional indications had better be kept so far in the back-ground as not to unfavorably impress the public that we are trying to make " see as we see "-otherwise we overreach ourselves. We conclude this already too long article with a brief quotation from the Address to the Spiritualists of America by the Trustees of the American Association:

The Fifth National Convention of Spiritualists, which met in the city of Rochester, N. Y., on the twenty fifth of August last, closed its labors by resolving itself into an Organization under the title of "THE AMERICAN ASSOCIATION OF SPIRITUALISTS;" the

plan and objects of which are herewith submitted: We commend this plan of organization to your approval, not on the ground of its perfection, but as the best and most practical which the united wisdom and experience of the Convention could suggest. Its objects are clearly stated. They reach beyond all that has been aimed at by any other which receives the popular favor. As the Association, which originated the plan, assumes, by its title, the Continent as the field of its labor, so do its objects embrace every known interest belonging to man, either for time or for eternity. The organization which we commend is simply the machinery by which it is hoped to facilitate the work. The plan which we lay before you is the product of the natural growth of Spiritual ideas. The Convention which framed it, felt the pressure of the sentiment running throughout its constituency, that an effort, at least, in this direction, must be made. Many had said, and more had thought, that the time was come for it to act, as well as talk. In obedience to your inspiration it has acted—acted unanimously. It is easy to employ words in adverse criticism upon what it has done; it may not be all, or exactly what you desire as a plan; but now we implore you, in behalf of the same needs to which you cited the Convention as a stimulus to industry, that you also no something, as well as say it. * * The sums named in the section relating to membership, are for the single purpose of putting this organic form in motion upon the line of its duty. It is not a Juggernaut; it will crush nobody, that it need be feared. Though it should go upon its appointed pathway, freighted with truths, it can confer them only upon the willing. It can force them nowhere. It can trouble no man who desires to be rid of it. It has no secreta. The Trustees, by virtue of its provisions, will faithfully apply all the funds with which they are furnished, to the objects named or purposes indicated; and to the Convention which is to succeed the one that created the trust, will render a true account thereof.

THE BANNER OF LIGHT has just entered upon its twenty-fifth volume, having completed its twelfth yearly round. It starts afresh over the course, and with renewed vigor - has a new and beautifully illustrated heading, and presents a refreshingly clean, compact and typographically correct appearance. In these respects the Banner is a model paper, and makes us envious-can't help it. We have enjoyed the privilege of writing for its columns these dozen years, and hope to, at least occasionally, a dozen years or more to come. May its value be justly realized, and its subscribers increase till they number the stars in the heavens. Our "elder brother," may angels speed thee on thy missioned way.

THE UNIVERSALISTS.

THE New Covenant, the Universalist paper of Chicago, denies that Rev. C. L. Balch, of Janesville, was suspended from the ministry for "heresy." In this denial, the editor is right. Mr. Balch read to us the charges against him, from the copy furnished him by the Committee of Discipline. There was nothing in them regarding heresy, unbelief or misbelief. He was charged with untruthfulness, prevarication and unministerial conduct,

but not heresy. But we would like to ask the editor of the New Covenant, or any one who knows, what the charges were against pend him? That same Committee o Discipline, it seems, have taken up this case, not for any immorality, for Mr. Barrett's character as a man of truth, as a true, worthy gentleman, a finer knowledge of it whatever, and were as incharacter than he; but he is a believer in the truth of Spiritual communications; and for this "heresy" he is disfellowshiped without even the empty form of a trial. There is "liberality" with a vengeance! fifty years old that denies Spiritual comueman, as a man, not a fault can be lows: tound, is branded and excommunicated for believing in these facts, and daring so

to teach others! Universalists, as well as the Unitarians, of kind, brotherly or liberal feelings towards those who believe in the truth of Spiritual communications, and have the courage to avow it, and the honesty to maintain their opinions. We warn the Spiritualists again not to trust these hypocritical professions; but to support there own societies. Where they are unable to have phblic lectures, have conferences every Sunday, or at least meet, and speakers will soon be developed. This is a good movement wherever it has been tried. But never try to put this new cloth on an old garment.

OUR EXCOMMUNICATION

FROM THE UNIVERSALIST SECT.

To show the animus of Universalists, to warn young men entering the ministry against being caught in "ecclesiastical mouse-traps," and to encourage ministers of that sect in escaping from "the bondage of this death," we here report the recent action of a Committee of Discipline concerning our status with them. We served an apprenticeship of about twelve years with the Universalists, during the whole of which time the light of ingel ministry burned clearer and clearer, antil the moral necessity came for a "strike" against the swaddling-bands. same, during the past year." Last month a note came to hand, signed by Rev. W. S. Ralph, Chairman of the Committee of Fellowship, Ordination and Discipline, for the Universalist Convento appear then and "show cause, if any," why it should not prevail. Being very busy at the time, and unable to spend the time and money, we addressed the following letter to "the powers that be:"

If your charge is immoral conduct, as a minister or citizen, you shall say so, and give the proof, or stand in default before the just judgment of the public. To be unmistakably understood, if I am disfellowshipped because I am preaching the gospel of Angel Ministry, openly as a Spiritualist—the same gospel which Christ, apostles and prophets of all ages, taught-you shall so state to the world. Y. M. C. ASSOCIATIONS. WITHIN a few years past, organizations have arisen under the name which heads this article. But, as all is not gold that glitters, so we shall yet be convinced that all associations are not Christian that bear the name. WONDERS OF SPIRITUALISM IN LONDON. Ar this moment, next to the Ritualist the most exciting topic in London society is Spiritualism. I have been afflicted many years with a complication of diseases, namely, Newralgia, Sick Headache, Toothache, Deafness in oue ear, Weakness of the eyes, so that I could not see to sew or read at night. I was also afflicted with Heart Disease, Womb Disease, Cramps, Paralysis of the hands and feet at times' and a stiffness in the joints. I commenced taking your Positive and Neg. ative Powders last October, and I am now entirely relieved of all those diseases. I had also a Cough for several years, and IT HAS ENTIRELY DISAPPEARED

DR. Spence-Dear Sir: Those Powders you sent me did the work. About the first of September last, my wife was attacked with a severe Cold. She coughed almost incessantly, and was attended with a high Fever, which increased daily. She commenced taking the Positive Powders as directed. The Fever abateq, the Cough ceased, and she improved fast. But she had been troubled with the Acuralgia for years. When the box ef Powders came, she commenced using them, and before that was gone her disease had fied, and has not returned; but that was not all. The disease had left her destitute of the sense of smell, and very hard of hearing. The most offensive smelling thing that could be produced was all the same to her; but one-half of a box of Negative I was sitting with nine other persons in Powders did the work and she is now well, and can both hear and smell as well as she ever could, thank God. They ought to be kept in every family. This for truth.

W. BANKS, of Mermiton, Bourbon Co., Kansas, under date of Jan. 18th, 1868, writes as follows: Before your Powders came my daughter was taken with Lung Fever, with pain in the side and bad Cough, so she had not lain down for two days and nights. I gave her two Powders and they cured her in less than six hours. FRANKLIN SWEET, of Kirksville, Adair Co., Mo., ...

Your first box of POSITIVE POWDERS entirely cured me of a severe attack of CATARRH and flammation of the Brain. The best language of nine would fail to express the extent of my gratitude.

ATIVE POWDERS over diseases of all kinds, is wonderful beyond all precedent. They do no violence to the system, causing no purging, no nauseating, no vomiting, no narcotizing. Men. Women and Children find them a silent but SURE success.
