HEALING AT A DISTANCE

“And He sent His word and healed them.”

It is God's will that every child of His shall enjoy perfect health and peace, for the soul cannot unfold its latent powers and manifest its divine birth-right or serve others divinely so long as it is limited by inharmony and disease.

It is as easy for one soul to reach out and bless another as it is for a wireless transmitter to discharge electric impulses through the ether and impress its message upon the receiving instrument hundreds of leagues away.

As electric energy can be sent over a ray of light, so the Healing Power—the Life-giving Spirit—can be sent through the magnetic thought currents established between two souls working in unity of purpose, to bring the healing balm to the afflicted.

The practice of **HEALING** and **TEACHING** is our life-work, and one of the reasons for our success, is that we combine our forces in treating each case.

We can help you to realize greater soul power and increased **VITALITY** and **HEALTH**.

THE AQUARIAN AGE.

About the year 1883 the Solar System passed into the sign AQUARIUS, symbolized in Astrology by a man pouring water from an urn. This pictures the out-pouring of Spirit upon the nations, which is to bring about the Brotherhood of Man and the Kingdom of Heaven on earth.

Christ was acquainted with occult law and undoubtedly knew that it would take centuries of experience, such as we have passed through, before we would come to the realization of his teaching of universal brotherhood which this new age is ushering in. In Luke we read that when the apostles asked him about the next pass-over, he answered: "Go out into the highways and by-ways until you find a man bearing a pitcher of water", referring to the symbol of this age.

This AQUARIAN age is ruled by Uranus the planet that governs the air, electricity, metaphysics etc. Already we have the Marconi system of wireless telegraphy, airships, the violet ray high-frequency current, electrical apparatus etc. Telepathy and Thought Power will be universally understood and used, and a new religion is dawning based on universal love and Truth.

Out of this new cycle will come the welding of the nations into a great universal brotherhood, working in unity for the coming of the Christ Kingdom.

YOUR PART IN THE AQUARIAN AGE

Now that we are in the dawning of this New Era how are we individually to do our share in bringing the Kingdom of Heaven on earth?

One way is for each one to constitute himself a Wireless Station in the Father's Kingdom, equipped with receiver and sender. In your quiet moments open the receiver to divine inspiration, and as often as you find opportunity keep the sender busy radiating God's blessing to Humanity.

We live in a thought world, and it is as easy for one mind to reach out and bless another as it is for the Wireless sender to contact and impress its message upon the receiver great distances away. But thought without will and purpose, or without action externally is dead, just as faith without works is dead. God lifts you up in proportion as you lift others up.

You are anointed of the Lord to do His work. You are one with the Divine Mind, a creative point in the Universal Mind. You are a radiant center of love, wisdom and power, and were placed here by the Father to radiate blessings to all, just as he created the Sun to shine upon the just and the unjust.

All the Joy, Life, Wisdom, and LOVE you can express is the God Spirit manifesting within. The more power and influence you radiate through these channels the more of God you are manifesting. The more joy you feel and express, the more attractive you

are making the principle of Divine Love. Power is given to you in the degree you use it, in other words, "DO THE WORK AND YE SHALL HAVE THE POWER." "By their works ye shall know them."

The creative act of daily blessing inspires the mind to NEW creative thought, and keeps a divine flow emanating from the higher realms of thought, or from those teachers on other planes who are trying to lift up and inspire souls on the earth-plane.

In the measure that you mete of your Good-will to others, in that measure will it be meted to you again, and the prophecy- "Peace on earth, Good-will toward men," which heralded the coming of the Saviour will be fulfilled.

3 We have misinterpreted this message down through all the ages, thinking it meant simply a kindly feeling to all, with no desire to do them harm, a passive thing, but not what was meant when the heavens opened to the mighty vibration of that mighty song "Peace on Earth GOOD-WILL to Men." The Good-will Christ brought into the world was a POSITIVE thing, willing GOOD with all his God-given powers to his fellow men.

We in this age if we would bring Peace on Earth and the Fathers Kingdom, must will with God's will to help all we contact, and those distant from us as well.

If one or two persons can accomplish by the power of thought what we know can be done, what could not twenty million souls, scattered in groups over this earth and imbued with this

idea, accomplish by their Thought Power and Good-will expressed in thought and action to uplift the world.

The Light of the Soul expresses through the minds of men attuned to the Spirit of Truth and Harmony. The more harmony you express, the closer God and his holy messengers can get into your atmosphere. Great souls can only express in an atmosphere of love and harmony.

Open your souls to the inflow of divine Wisdom. God's Law is encircling us all and bringing us into a oneness of expression which will help lift the load of the world. Work in unison and let nothing interfere.

CRITICISE NO ONE IN ANYTHING, but BLESS

ALL IN WHATEVER EXPRESSION COMES TO THEM,
AND NEW POWER WILL MANIFEST TO EACH.

There are diverse gifts and diverse minds, and one may express differently than another, but all are expressing God's Truth and each should help each other and so fulfil the law of Christ.

The Brotherhood of Man is on the way in this wonderful Aquarian Age just now opening up. The world is just beginning to realize its possibilities. "Greater things than I shall ye do" was the word of the Master, and this prophesy will be fulfilled in this age. You will each have your share in this manifestation of the Spirit if you keep your souls attuned to the Master's work and service. Give up all to this and all will

be given you in the joy and satisfaction of the Spirit. God is your guide and inspiration. Answer when he calls and you will make no mistake. Grasp your opportunities when they come and let the Spirit guide you in soul expression. All will feel the inspiration of the Christ Power when they attempt to voice his truths. Do his work and trust his love and guidance, and he will be the Light to your path. Be glad! Rejoice! Lift your head and the word of your mouth in thanksgiving, for the Lord is come to his own. Keep your light and your thought radiating from your own station, and you will help many on the path of life. Let the light shine through your own mind and soul and use this power for the upliftment of others. Many need the message YOU can give them, and strength and wisdom will be given you to meet this demand. Express the latent power within your soul, and let nothing stand in the way of its expression. Look always to the highest for your inspiration. Wake up and shake off your limitations, and let the fear, and the worry, and the discouragement of the past be dissolved in the light of a new realization. Go on! and God be with you in your work. The power is yours, latent in your soul. Use it and all will be well. WORK TO UPLIFT HUMANITY.

"All things shall work together for Good to them that love God".

THE POWER OF AN IDEAL

If self-interest is the most assertive quality of one's nature it can best be remedied not by denial or repression, but by diverting its force into a higher channel.

All imperfections of character can gradually be corrected in this way. You cannot destroy a force of any kind. You can through the power of thought transmute it into another quality. In this way hate can be transmuted into love; inharmony into peace; worry and doubt into poise and serenity, and thus the whole category of human faults can be transformed into God-like qualities.

One of the great lessons that all must learn before they can really begin to grow, is to transmute the self-interest that clusters around the ego into universal love that blesses and serves all, not in a passive way but positively in thought and word and deed.

Like attracts like, and selfishness develops only perishable qualities, while universal love, expressed in service to mankind, builds lasting powers in the soul and makes one Christ-like and divine.

Self-interest is like so much debris obstructing your way to the spiritual heights beyond. It is the greatest obstacle to soul unfoldment. Its removal means a clear and shining road ahead full of divine possibilities. Powers and faculties within,

which you little dream exist, will unfold, and many opportunities for expression will come to you.

Always have a definite ideal before you toward which you are moving. If you have no inspiring or uplifting ideal or vision, your progress will be uncertain and slow.

As you are this moment, you represent the outpicturing of all the thoughts and feelings you have ever entertained. Your thoughts and feelings form your mind body, and this mind body is the organizing power that moulds your physical envelope. All feelings; hope, aspiration, enthusiasm, love, hate, your moods etc. take form in thought and become You. If you have an ideal before you, for instance the Divine Master—the sublimest of all ideals, the mightiest expression of GOD that ever manifested in mortal form—and hold him in your vision, and affirm of yourself the beauties and powers you see in Him, your thoughts and feelings will gradually be qualified and glorified by his wondrous Spirit of Love and Goodness and his qualities will express in your life. This will give you an idea of the wonderful power invested in you as a creator of your own destiny.

If you will make the Christ your highest aim and ideal—the pattern of what your life should be—you will become a character of great attractiveness and power, and others will seek to know the secret of your power, and you will be the means of enlightening them. He said: "I am the Way and the Truth and the Life." "The works that I do SHALL YE DO and GREATER works."

A S T R O L O G Y

Astrology is the Science that shows the stage of our soul's unfoldment, or the present place of each soul in its upward journey toward the light of of pure realization.

God, the Spirit of Infinite Wisdom has revealed the human character and inherent destiny in the lines of the hand, in the contour of the head, in the expression and form of the face and body, in the color of the aura about us, and even in the sound of the name; but all of these methods are comprised and supplanted in the character and destiny as revealed in the horoscope.

Centuries of observation of the effect of certain planets in their angular relation to each other and their angle to the earth, have revealed the fact, without a shadow of doubt, that we respond in some way to the force of the combined intelligence represented in each of the planets, and probably because of their certain qualities ingrained in us at birth. The thinking men of all the ages have been interested in this Science, and have found that each planet and each sign has a peculiar vibration of its own, which reacts upon us as we vibrate to those qualities, and this may be demonstrated and proven to any student in a few month's earnest and sincere study.

There are many theories extant why this is so, but that is not what concerns us in this brief article, but rather the fact that a certain law is working in our lives and must there-

fore be a divine law of Providence, and by studying this law in relation to our individual life, we may obey the ancient command "Man Know Thyself." It is necessary that we know our strength and our weakness, what we have sown in the past to bring us to this particular place and environment, with its varied experiences, and what we may do to overcome weaknesses and build a better and stronger temple for the future. There is no accident in our lives from incarnation to incarnation, here or on other planets, but a fulfillment of the law- "As ye sow so shall ye reap." As we build we must live in what we build, until a wider vision evolves a more beautiful structure, as with the famed Nautilus,

9
"Build thee more stately mansions, oh my soul!

As the swift seasons roll!

Leave thy low-vaulted past!

Let each new temple nobler than the last,

Shut thee from heaven with a dome more vast,

Till thou at length art free,

Leaving thine outgrown shell by life's unresting sea."

We come into this world in all sorts of environment; wealth, poverty, love, crime, opportunity, and hindrance, and yet the same God and the same Intelligence over-rules us all. How then can we account for the inconsistencies except by the

fact that we have built by our thought-forms what now exists in our surroundings, and by the same thought-forms are building our next wheel of life.

Astrology shows your innate ability, that is, in what particular line you have gained greatest wisdom in the past. It shows the natural bent, the strong and weak points in the character, the times of opportunity, and the times of temptation, which if known through foreknowledge and overcome, build us strong and steadfast, but if succumbed to through ignorance and weakness, may mar the whole life or retard the growth one or more incarnations.

Astrology has many lessons for the seeking soul. It is not superstition, but a scientifically proven fact. Astrologers fail in judgments not because the science is incorrect, but because they cannot judge how far the soul is advanced in its evolution, and how it is going to react when different influences come into the life. One man would be crushed by one affliction, while another man might eventually rise to sublime heights after many heavy afflictions, and this is the difficult thing to judge in a horoscope.

The thinking men in all ages have believed in this Science. You cannot pick up an old classic which has not many references to the planetary influences; the Bible contains many passages relating to the subject, and all the old poets from Shakespeare down, give evidence that a belief prevailed in this

science. I quote briefly from the following:

Eccl. 3:1 "To everything there is a season,
and a time for every purpose under heaven. "

Job 38:31 "Canst thou bind the sweet influences
of Pleiades, or loose the bands of Orion?
Canst thou bring forth Mazzaroth in his season?
or canst thou guide Arcturus with his sons?

Dante "Follow but thy star, thou canst not miss at
last a glorious haven."

Shakespeare "There is a destiny which shapes our ends,
rough-hew them as we will."

" "The heavens give safety to your purposes!
Lead forth, and bring you back in happiness ."

Longfellow "Wondrous truths, and manifold as wondrous,
God hath written in those stars above. "

Tennyson "And the thoughts of men are widened with the
process of the suns."

Scientists, astronomers, religionists and illuminated minds of all ages, from many centuries B.C. to the present time, have understood the occult law running through our lives. It is said on good authority that three of the signers of the Declaration of Independence were students and believers in this Science, and judging from the time chosen for the signing of this document, which constituted the birth of this country as an independent nation, it would seem to be true.

Astrology does not teach that we are bound by a certain fate, for if the soul can once evolve to that stage where it realizes the God creative power within—its oneness with the Universal Life and Love and Wisdom—it casts aside its wheel of fate and creates conditions of all-good for itself and uses its powers to uplift its fellow-man.

In the Light of Asia, by Edwin Arnold, we find this idea beautifully expressed.

"If ye lay bound upon the wheel of change,
And no way were of breaking from the chain,
The Heart of boundless Being is a curse,
The Soul of Things fell Pain.

Ye are not bound! the soul of things is sweet,
The Heart of Being is celestial rest;
Stronger than woe is will: that which was Good
Doth pass to Better—Best.

Before beginning, and without an end,
As space eternal and as surety sure,
Is fixed a Power divine which moves to good,
Only its laws endure."

13 When the soul then uncovers some of the encrustations of material belief and realizes the God within, and that it cannot be lifted up until it uses its God-Creative Power TO HELP OTHERS UP THE ROAD TO REALIZATION, then will it begin to throw off one by one the shackles of fate, which bind it to these earthly experiences and limitations, and work with the God within and without—the Omnipresent Good—to lift up the race to the same level of consciousness.

This is what Astrology teaches to the evolving soul. It teaches us SYMPATHY and LOVE, it broadens our conception of Life and the Divine Plan, and above all things TO CONDEMN NOT, knowing not what we would do if we had the same conditions to work with which our brother has.

I believe that this Science should be in the hands of every teacher and parent, and that the time will come when it will be taught in our schools and colleges, that the coming generations may find their true place in life, and learn how to lift each other up to a fuller expression of life. Edwin Markham has expressed it thus—

"Our hope is in heroic men,
Star-led, to build the world again."

BECOME CENTERED
AND THE KINGDOM OF HEAVEN IS YOURS

Are you in need of health, peace, prosperity, sympathy, love or companionship? Do you desire to realize these things? If so, FIND YOUR CENTER, first by becoming very quiet, shutting out all external things, and think in and in to the innermost part of your being—into "the secret of His Presence", where He dwells serene. God breathed his Spirit and his Life into every child of his creation, and has taught us that we are one with Him—joint-heirs with Christ. Find this Center within yourself then, where all is perfect health, serenity, peace, wisdom, strength, joy, abundance and dominion, or WHOLENESS. YOU CAN FIND IT, and from that state of consciousness you can affirm and decree all good for yourself and your fellow-man. TRY IT, by spending a half hour each day in quiet, reaching in to the God-creative Center in your own being. You may not be able to realize it all at once, or to get this consciousness of serenity and power within, few do, but gradually, day by day you will come closer to the realization of the divine potential within, which can overcome all material and physical conditions.

Practice this faithfully for three months, not forgetting each day before you come out of the silence, to send out blessings of God's health, wisdom and prosperity to your friends in need, and you will find a greater peace and wisdom and abundance

gradually manifesting in your own life.

More than this, the daily communion with the All-Life will gradually bring dominion to your soul, as the soul in co-operation with your will and intellect will uncover its dormant and passive inertia, and ARISE and assert its dormant faculties in outward expression. The soul will no longer sleep, but will put on its garment of light and power and come out into the open to express God-power, God-wisdom, and God-action in the world; doing its part in bringing the Christ-Kingdom into reality.

Find YOUR OWN CENTER, and you will soon realize your own soul power and dominion over every difficulty that besets your path.

AN ILLUMINATED MESSAGE

(Received by Louise Brightman Brownell in June 1917.)

In the previous article we explain how you may become centered. When you do find this center within, light and wisdom will be impressed on your brain as you sit in the silence, not in the sense of mediumship or entrancement, but inspirationally. When the mind becomes en rapport with the Divine Intelligence, the higher knowledge can be impressed upon your conscious mind.

We were sitting in the silence, one evening last June, with a group of devoted souls, asking for light and wisdom, when all at once we seemed to be in an atmosphere of wonderful peace, harmony and power. The writer felt impressed to take up pencil and paper, and the following message was given in a rhythmic flow hard to describe to one who has not been under similar inspiration.

I pass this message on as it is necessary for the world to know that the Christ—our elder brother—is here again, working in the hearts of men, to upbuild his Kingdom.

The Message.

The Infinite Mind encircles you and all is intelligent life; let it flow through. Listen to my voice! I am speaking to you my child.

I am the Light of the World.
I am the Voice in the wilderness.
I am the Breath in the wind.
I am the Force that keeps the Spheres in their orbits.
I am the Breath of the new-born child.
The Force of the metropolis.
More am I than this—

Christ is here now. Listen to the inner voice, and wisdom and illumination will come, sound and light, color and vision, all of which I sensed when on your plane.

I gained mastery over all material conditions, and you will do this also, but listen to the Voice of the Silence. It is the only road to soul development.

17 I am come to teach you Truth and Wisdom. I am making quiet and harmonized conditions for you to express through. All feel my presence but will be encouraged by my words. Make room for me my children by keeping yourselves in harmony with divine forces, and I will enter in and abide with you. I am the tree and ye are the branches. Ye are the light to bear my Love and Wisdom to the aching heart of the world. Write out all you get from these Masters and put it into the hands of the world, that all may know of my presence on earth, and that I have come to fulfill my promise. I am coming in the hearts of men, and will be an inspiration and light to many teachers,

that many souls may be reached. The world is in a great awakening stage, and a new cycle is being established on the earth. The darkness is dissipating and my Light is come to stay.

The Christ Principle is the full soul expression to be reached by the earth sphere, which is my realm of power. All men must be lifted up, as I said two thousand years ago, and my work will not be finished until this prophecy is fulfilled. The Light is shining in a great darkness now, but the POWER of it will lighten the world, and the aching heart of the world will turn to Me for Light and Blessing. Beloved, look to the highest, and accept the teaching of the Higher Powers. Doubt not their wisdom, but let it express through you at every opportunity which presents itself.

"Love your enemies. Bless them that curse you. Pray for them that despitefully use you," and you will see the wonderful change it will bring about in the world.

"A meek answer turneth away wrath,"

If the world had heeded these two lessons it would not now be in the throes of agony which my soul is trying to overcome. Master of myself I am, but when my children transgress, even I am powerless to help them, and my soul travails in anguish. The Father loves me, as I have loved you, and through His wisdom I am able to help my children. Make the world understand this if you can. I am also limited in my power to bring conditions as fast as the world desires, but not limited as you

understand limitation. I am limited in comparison to the Father above me,

(The following was given Dec. 10-1917)

The Kingdom cometh and no man is ready. Open the door for my coming ye children of earth. Prepare ye the way of the Lord. The Mighty Spirit of the Lord is upon the earth sifting the hearts of men and preparing the way for my coming.

I work in mysterious ways through all channels of influence, no matter how insignificant they may seem. I seek everywhere for those ready to preach the Coming of the Kingdom, for my children must know I am here upon the earth.

The earth is slow to learn its lesson, "As ye sow, so shall ye reap," and it must be learned well.

A new Heaven and a new Earth are coming in the hearts of men—a new conception of Heaven, and a unity of belief, not a heaven for every creed and race, but a conception of the heavenly Kingdom within the heart of man—through desire to love and serve his brother man.

A new earth is coming, for when every one of the race grasps this truth, it will revolutionize the planet. It cannot come all at once, for there are many countries still in darkness and ignorance, but the power will be so felt by many teachers in the civilized world, that the whole planet will soon get this truth and bring about my Kingdom on the earth. Every country

must suffer in the process, in order to stir their love and sympathy for each other—a love and sympathy which will swallow up all hatred, all vindictiveness, and all desire for revenge or indemnity.

You will see wonders performed—miracles which will enlighten the race, and lift them suddenly on a great wave of advanced thought and realization of the Truth I came to teach. The world has never heeded my two commandments—"Love the Lord thy God with all thy heart, and all thy soul, and thy neighbor as thyself." These two commandments contain all the Law and the Gospel.

Could the world be suffering in the throes of this death struggle if even the enlightened nations, alone, had heeded this message?

You lay the blame on the rulers of your countries, but I say unto you that every one who has heard my teaching and loves not the Lord with his whole heart and soul, and his neighbor as himself, is responsible for this world struggle. Every man who criticizes his neighbor, or hurts his neighbor, or crushes his neighbor that he himself may rise, is cursed by his own deed, for he cannot be lifted up one step on the next plane until he has paid the debt he owes to every man.

Every man who passively sits by when he might give a helping hand, or send a kindly thought, and says—"I am not my brother's keeper", is not fulfilling the law, and is retarding his own

progression, as we cannot rise far without building our structure ahead of us of kindly deed and thought on which to rise to the heights beyond.

Lay not the blame on any man for the great world catastrophe that is now here. Only he who is without sin among you can cast a stone.

I came to lift the world—to give you light and life and the realization of the God-creative power within yourselves, and how have you heeded my lesson? The world must learn the lesson in this Aquarian Age or sink back into darkness and oblivion and a new life be evolved on this planet.

21 You are responsible every one for the chaos which exists, and only by using the power of your mind and spirit body in re-creating your own lives and those of your fellow men, can you hope to lift the load from off the world and bring my Kingdom into reality.

You are in an air age—the age in which a few men have awakened to the understanding of the power of mental and spiritual thought waves, projected into the ether, to communicate with and benefit their fellow men. You can each one reach another through the thought wave, as many on the invisible side are waiting to convey the message you send and to give power and reward to your effort. You have more power to help one another than has any force on a higher plane, as the earth children are more attuned to the thought wave of their own sphere, but those

sufficiently evolved to desire to bless and help the world, are beginning to function on the higher planes, and can receive the impressions and co-operation from Masters on the invisible planes to aid them in their work. Countless thousands on the invisible side—some trying to pay debts incurred in the past, and others who have attained such mastery and wisdom that they have but the one desire to serve—are only too glad to co-operate with the Christ and his enlightened followers on this plane, to bring about the long delayed Kingdom of Heaven.

Work then to uplift Humanity, and as you give in loving service, your joy and satisfaction will be complete, for more and more of the Father's Power and Blessing will descend upon you.

It is His promise and must be fulfilled, "As ye mete so shall it be meted to you again, good measure, pressed down, and running over. Sometime, somewhere, his promise must be fulfilled.

+ + +

"Come unto me, all ye that labor and are heavy laden, and I will give you rest.

Take my yoke upon you, and learn of me; for I am meek and lowly in heart: and ye shall find rest unto your souls.

For my yoke is easy, and my burden is light."

Matt. 11:28.

An Invocation and the Divine Response

Oh Love Divine! Thy Spirit enters in,
And stirs the latent depths within our souls!
Oh Love Divine! show us the way to Light and Peace and Love.

Rest thou thy souls in Peace, and let the Love of God
So fill your hearts, with the Celestial fire of hope and courage,
And the fixed desire to do his Will,
That all who run may read thy purpose in the skies.
O children of the Light, lift up your hearts and souls,
And let the benediction of Almighty God come in and bless thee,
And call forth the Divine Mind within your souls,
Blazing a trail of service to mankind.
Go thou thy way, and be a light to all upon the Path of Life;
And so shalt thou be blessed, and so find God.
