AN ASTROLOGER REVIEWS THE PROFESSION

By

T. WINDSOR, M. Sc., D. A., F. B. A. S. A.

The average article, appearing in class magazines or journals, attempts to justify or defend something, unless it takes on the task of trying to explain the workings of a particular phase of the subject written upon. This is particularly true of the various writers' efforts in Astrological Publications. This manner of presentation prevents the student or layperson from ever viewing Astrology as a picture, which he may use with his own intelligence in criticizing or approving. We shall therefore pass in review, for your inspection, some shots taken at random from the Professional Astrological Field.

Long years ago, all professions and trades were held inter-family, governed by the rule of hereditary succession. The father practiced his profession or carried on his trade while at the same time he was assisted by his son whom he educated, that upon his demise the practice would be carried on without interruption. This was particularly true with the Astrologers of times gone by. However, in this day of Individualistic thought and practice, fewer professional men and women can say, "I was educated under my father's tutelage; he was an Astrologer also." In a measure, the discontinuance of this practice or custom has worked a hardship on the profession. Yet in other ways it has left in the field satisfied professional men and women who came into the profession of Astrology by choice and remain to make it their life's work for the same reason. It is common knowledge that a person who enjoys his work will put forth much more constructive effort.

The nature of the Science of Astrology is such that just anyone would not choose it as a profession. First, it deals with such things as mathematics, Chemistry, Anatomy, Astronomy and Physics, all of which subjects require study. Sociology, Economics and Political Science come in for study also. There are many who like and even excel in one or more of these subjects, but find the learning of the others obnoxious to them. Then there is the necessity for the exercise of a certain quiet dignity, filled with the knowledge of the gravity of the task he has assumed. Some may possess this and still be lacking in some of the other things. Last, but not least by any means, is the necessity for the Astrologer to have an inherent and deep understanding of Human Nature and human problems; together with an ever-abiding sympathy for the feelings of

the client. To achieve all this and reach a point of proficiency in each separate phase, requires continuous study and application for several rather trying years. Unless the aspirant is willing to sacrifice much he can never hope to attain the status of a True Astrologer.

For many years past it was indeed difficult for an individual to prepare himself for the profession, in the United States particularly. First, because of the lack of schools and capable teachers, and second, because of the misconceived ideas the general public had in regard to what an Astrologer should be. All of which made it necessary for the individual to dig out his knowledge as best he could, mostly by the hit and miss method. Rapidly such conditions are changing and a person who now wishes to prepare himself to become a professional Astrologer or Teacher of Astrology may now find well-equipped schools with competent teachers, wherein he may learn and by whom he may be taught and advised. After the completion of his schooling and after practicing for a while with some other Astrologer or serving a while with some research department of an Astrological Institute, he may go out before the public and so enter into professional practice.

Upon entering the office of such an Astrologer, a person seeking advice will observe that he is entering a modern business office, that he is met by a business person well capable of handling the problems of people of all walks of life. He will observe the lack of anything mysterious, and the air of the Orient will not prevail. He will find that his problems are handled efficiently and promptly by a skilled technician with direct frankness and sincerity by one who is capable of understanding and desirous of serving his fellow man.

Editor's Note: The writer of this article has been for many years in the practice of Professional Astrology in an Advisory and Teaching capacity as well as lecturing and writing for publication. He truly represents the sincere scientific Practitioner of the Science. Dr. Windsor is President of The State Astrological Association of Texas, Dean of The Academy of Personal Science, of which he is also the founder. He is a Fellow of The British Association of Scientific Astrologers, Ltd., London, as well as a Member of their Board of Directors.

SCIENTIFIC REVIEW

SCIENTIFIC REVIEW is a new feature of Astro-Digest Magazine. It is prepared to present various interesting questions and astrological information which is proving of great interest to our readers. I conduct Scientific Review in the form of questions and answers in order to introduce new scientific data or elaborate upon puzzling questions which may arise. If you have questions concerning important astronomical or astrological matters of general interest, send your questions to Astro-Digest, Department of Science, McAllen, Texas.

YOU STATE THAT VIRGO RULES RUSSIA; AND YET THE BOOKS OF MUNDANE ASTROLOGY GIVE AQUARIUS RULERSHIP OVER THIS COUNTRY.

Aquarius is the sign designated as ruler of that part of the world where Russia is situated. Aquarius may also be said to govern Russia as far as its innate destiny is concerned, and its earth-rulership. However, Virgo rules the Soviet Union as is signified by the birthdate of the U.S.S.R. which is September 16.

WHAT ARE THE MOST IMPORTANT FEATURES OF A NATAL HOROSCOPE?

The most important features of a natal horoscope are the positions of the Sun, Moon and the sign ruling the Ascendant (given by the birth hour). The Sun signifies the individuality; the Moon indicates the personality; while the Ascendant Sign denotes the type of physical body or earthly temple through which the Sun and Moon and other planets will manifest their energy. A weak or badly afflicted Ascendant would signify that the person would be restricted in his development of gifts, and that his power would remain unused or lie within him. A strong or powerful Ascending Sign will give strength and ability to a "weak" person or to one who may have less powerful solar, lunar or planetary vibrations.

WHAT IS THE BIRTHDAY OF WALLIS SIMPSON?

Her birthday is June 19, 1896.

EARTHQUAKES:

The four fixed signs (Taurus, Leo, Scorpio, Aquarius) are closely connected with great

earthquakes. Of these four fixed signs, Taurus and Scorpio are more often prominently occupied by planets at times when earthquakes occur, or when eclipses or prominent planetary aspects occur, affecting these signs. During February 1937, four planets will be in fixed signs: Mars in Scorpio; Uranus in Taurus; the Sun in Aquarius until the evening of the 18th; and Mercury in Aquarius from the evening of the 13th.

WHAT PROPHECIES ARE THERE CONCERNING THE NEXT POPE OF THE CATHOLIC CHURCH?

Astrological predictions and prophetic utterances combine in foretelling the type of influence and reign of the next Pope. It may be interesting to reveal these long-made utterances, and compare their veracity and truth with the actual events or conditions of his reign. Prophecy relates that the Pope next to rule from the Vatican may be a Frenchman. Under his reign it is said that the power of the Church will spread and conversion of protestant nations or heretic peoples will be accomplished. He will be called "The Reformer". With him will be a military ruler and leader. It is prophesied that a great war will usher in the reign of the new Pope, and that revolution, aimed at destruction of the Church, will have crippled its power. It is said that within the next 40 years there will be two Popes who reign.

Saturn's Influence Upon Aquarius Birthdays

*(Aquarius birthdays are those lying between
January 21 and February 19)*

SATURN is the planet of restriction. Whatever its position in our lives at any time, there are the things restricted, delayed and held back by the influence of this planet.

In the lives of all Aquarius persons, Saturn's position in Pisces from February 1935 to April 25, 1937, and again from October 19, 1937 to early 1938, would affect the FINANCES AND EARNING POWER.

Opportunity to make money where more responsibility was required would exist. Hard work, the scrutiny of elders, and the authoritative control of some other person or their restricting hand upon you, would tend to exist. Money is not easy when one is thus affected by Saturn. Financial affairs are, however, placed on a more substantial, permanent basis. Economy and prudence must be practiced in financial plans and expenditures.

The end of the old source of earning power would occur during this time in which Saturn affects your financial interests. The income and earning power would be restricted in some way from time to time. Somewhat secret or hidden matters, or secret enmity, would threaten your financial security; and the sorrows or limitations of others would prove expensive to you.

Where Jupiter, influencing your finances, would expand and improve them, Saturn works in just the opposite manner.

In 1937, between April 25 and October 19, Saturn will be in the sign of Aries. A new department of your life will then be affected by Saturn's hand. During this time, Saturn will work to steady your mind. More attention to detail will be demanded of you. Saturn will bring you "down to earth" and solidify your plans, ideas and give ability to work out your ideas on the material plane of conscious action. You have a greater sense of duty and responsibility for relatives and others in general. You can expect an old friend to re-enter your life. Old incidents of the past, letters, news and associations will be reviewed and brought to your attention. You will be more

closely associated with relatives or neighbors much older than yourself. Trips will not be so numerous. Your environment and surroundings will be more limiting and restricted. Your work will be that of a mental nature, and mental strain and fatigue will exist from time to time.

At times your outlook will be clouded and depressed. Disappointments in travel, occupation and family matters will occur. A brother or sister may prove to be a source of sorrow and anxiety to you. Heavier responsibility for relatives or close associates will be felt. Delays in journeys or changes you plan must be expected. You will have to be careful to avoid being late for important appointments. Saturn will cause delays and loss in connection with mail, letters and correspondence. Falls, sprains and broken bones will need to be carefully avoided. Accident in taking short trips will occur. Delays in everything relying on communications or news must be allowed for.

We need have NO fear of conditions or circumstances which come about naturally, through the influence of changing planetary positions. There is the negative as well as the positive side of every vibration; just as there is light and darkness. While one side of the earth is darkened and night exists, on the other side light, sunshine and daytime is enjoyed.

And so it is with our lives: in certain parts of our lives, affected at a certain time by planets such as Jupiter, we have sunlight and expansive opportunities. There lies our source of good fortune and happiness during that particular time. In another part of our birthday charts, Saturn influences other phases of our lives in a more shadowed manner. Saturn's influence, on Aquarius persons, is really a god-send to you during 1937, except for a few times when it is adverse to those interests which I have analyzed and explained for you.

Saturn will be adverse to you during 1937 on: January 17, 23; March 16, 20; June 26; July 3, 17; August 8; September 24; October 19; December 2, 16, 17, 20, 30.

PRESIDENT'S ANNUAL REPORT

THE STATE ASTROLOGICAL ASSOCIATION OF TEXAS

T. WINDSOR

THE activities of the first year's work came to a close on November 6th 1936 which is our Organization Day. We feel therefore it our duty to advise all members of the accomplishments and progress of the association during the year 1936.

As I promised you upon taking over the duties of this high office, which you conferred upon me, you will find in this report, so has it been. Much struggle has been necessary to carry out the rather heavy program, as is true in all new organizations. However, we have pulled through and the survival of the first year's onslaughts has somewhat dispelled the fog for the year 1937. Here are a few of the things accomplished during the year past:

Sent delegate to The Florida State Astrological Convention which was held in Jacksonville. Accomplished the postponement of the organization of a Dixie Ass'n until such time when the entire South could be more generally represented. Received newspaper publicity on Texas and Astrology as represented by The State Ass'n in the Florida papers. Cemented a friendship with the officials of The Florida Society, thereby assuring ourselves of their cooperation. Our delegate addressed the convention on three separate occasions. Your President was your representative at that meeting.

Sent delegate to The All American Astrological Convention which was held in Chicago, Illinois. She represented us splendidly, speaking before the convention and extending our offer of cooperation to the some three hundred delegates there assembled. Our delegate was Mrs. Florence F. Hixson of McAllen, Texas. Your president also sent a paper to the chairman of the convention.

Our greetings were presented to The Third International Astrological Congress which was held in Dusseldorf, Germany. There our salutations and offer of friendly cooperation were addressed to the representatives of many foreign countries which were assembled there; The State Ass'n having the only representative there who belonged to a State Ass'n. Mr. William J. Tucker of London was our member present.

Thus, we have, during our first year, been represented at every official Astrological association Convention which has been held in the United States and abroad.

Twenty different news items have appeared in print some of them in as many as sixty different papers in two different states and two different countries, regarding The State Astrological Ass'n of Texas. Besides this, articles or

news items have appeared in four different magazines. The State Ass'n has been mentioned ten different times over the air from Radio Station XEAW.

Your President and other members of the Executive Council gave thirty talks on the educational side of Astrology to different groups and organizations during the year.

A Headquarters Office was maintained also and several Branches were organized. From the Headquarters Office twelve hundred letters were written pertaining to Astrology.

Members of the Executive Council traveled five thousand miles on State Ass'n business.

The British Ass'n of Scientific Astrologers, Ltd., in London were contacted and their President Mr. William J. Tucker applied for and was granted a membership for both he and The B.A.S.A. in The State Ass'n. The State Ass'n also was granted a membership in The B.A.S.A.; thus establishing a friendly relationship of mutual cooperation and obtaining for The State Ass'n a foreign representative.

Your President was later in the year admitted into Fellowship as a Fellow of The British Ass'n of Scientific Astrologers. He also is the owner of one share of stock in The B.A.S.A. Ltd. Upon the request of Mr. Tucker, your President agreed to his name being presented before a gathering of the Officials of The B.A.S.A. for appointment as a director of that organization. The decision was favorable and he was appointed. After the appointment he was placed on The Board of Examiners for foreign applicants. Mr. A. M. Ziegler is the only other American Astrologer to be on the Board.

It was necessary during the year to make two trips to the State Capital at Austin on State Ass'n business. During the last of these trips an Official State CHARTER was granted by

The Secretary of State, Incorporating The State Astrological Association of Texas. Special thanks are herewith expressed to Mr. R. B. Roberson for his splendid unselfish work during these trips.

Permit me in closing this report to express my sincere thanks for the cooperation extended me as your president by those who did cooperate and to insist that all of us get together and work so that we may make the YEAR 1937 a Blazing Star of Astrological activities in The State of Texas in both membership increase and constructive work carried out in and by THE STATE ASTROLOGICAL ASSOCIATION OF TEXAS.

Wishing you a sincere, HAPPY, HEALTHY, PROSPEROUS and ACTIVE NEW YEAR,

I remain Fraternally,

T. Windsor,
President.

NEPTUNE --- SAINT OR DEMON!

IN the life of every person there is always a secret place—a place of secret temptation and secret longing, where the danger of self-undoing exists, where impracticality which spells heavy losses and dangers, lies. If one is intelligent, civilized and poised, with a well balanced mind and controlled emotional nature, then one will not be subject to the temptations or losses which will affect the lives of those not so reasonable nor mental. The way planetary vibrations affect you for misfortune and adversity or fortune and success, depends upon your own mentality and character, of course; that is why one man may become a minister or highly respected member of a community while his twin brother may go to prison or be accused of many illegal and disreputable acts—one is equipped to withstand temptation or evil while the other yields.

This is why the Master at the Last Supper watched Judas, the traitor: the Master knew that the time had come when He was to be offered up as a sacrifice, when He would be the victim of treachery, deception and intrigue. He knew His destiny; He knew also that this would not occur until an appointed time; He watched Judas who was to be the instrument or medium through which His own destiny was to be realized; and we are told that at the Last Supper evil entered into Judas and then Judas arose and went out; and when the evil spirit entered into him, the Master said to Judas, "Be up and do what thou hast to do". Thus, Judas' reaction to the evil vibration which was TEMPTING him was one to which he could react because of his particular type of character—the same vibration was affecting others, but they did not yield to it nor react to it.

Of all the planets which produce SELF-UNDOING in our lives, Neptune is the one planetary body which induces us to those strange, queer, unaccountable acts which cause scandal, misrepresentation, murders, mysterious disappearances or suicides. Neptune brings ruin on the material plane to those people who yield to its disastrous vibrations. If it does not cause you to ruin yourself through unwise acts and yielding to temptation, it endangers your reputation, well-being and safety through secret enmity and the evil intentions of others who direct their ire against you.

Neptune's place in our lives is like a stagnant pool from which the evil genius of trouble, sorrow, self-undoing and intrigue is apt to arise at any time. According to that part of our chart

affected and influenced by Neptune, so are those interests of our life adversely colored by its vibrations. We must stay away from that place of trouble; we must cope with that condition wisely and strongly; we must strengthen that weak link in our chain of destiny.

When Neptune affects you in a vital manner, trying experiences over which you have absolutely no control occur in your life.

The place of secrecy, temptation, evil, self-undoing, sorrow, fraud, intrigue, broken promises, treachery and chaos is signified by the position of Neptune. While one planet is building up good fortune and opportunity for you, Neptune may be undermining your foundations.

The wonderful thing about Neptune is this: it rules the subconscious forces within you; it can be controlled and guided by CONSCIOUS REASONING AND INTELLIGENT SUPERVISION of the impulses which it sets up within you. Thus you can avoid the disasters of Neptune more easily than the vibrations of any other planet, if you will not let yourself yield to its threat of SELF-UNDOING.

One man writes me (his birthday is March 8, 1900) that his young wife is dying of tuberculosis out in Arizona; he has sent her to the sanatorium out there; the doctors hold no hope of cure for her; it is only a matter of time before she passes out of this world. He has fallen in love with another girl; he loves her dearly; he wants to marry her when his wife dies, but he doesn't want to hurt his sick wife now; and this other girl is demanding that he get a divorce and marry her now or else she will marry another man who is in love with her. My advice to him was to let this girl marry the other man because he doesn't want her. This is a time when marriage conditions are ending for him; not beginning. This is a time for him to safe-guard his position, his job and his reputation rather than sacrifice everything for what he thinks is love for this other girl. Neptune is affecting the part of his birthday chart which rules MARRIAGE AND PARTNERSHIPS. It would create sickness of a peculiar, lingering nature for his wife and partner; it would bring chaotic, sorrowful and secret conditions into his marital and intimate relationships; it would tempt him to yield to the love for this other woman. Neptune is directly opposite him, now, in the zodiac; Neptune's opposition to him stops his ability to reason or to use good judgment.

TOMORROW'S HEADLINES

By Alma Crawford Graning

*"The moving finger writes, and having writ**Moves on: nor all your Piety nor Wit**Shall lure it back to cancel half a line,**Nor all your tears wash out a word of it."*

—Omar Khayyam

FEBRUARY, 1937

HIGH tension will mark this month. Venus will be in Aries, a Mars-ruled sign, while Mars will be in its own sign of Scorpio. Military matters will be stimulated to the highest degree. Raging fires will destroy valuable property, and principally affect our large cities. The oil industry will be affected by devastating fires. The fire hazard existing during January and February will cause insurance rates to mount much higher. All valuable property should be protected against the fire demon which will now stalk the country. Military discussions in Washington, D. C. will be heated and furious. The threat of war and military measures will hang as Damocles sword, over our heads. Foreign relations will cause heated discussions; diplomatic dealings with a foreign power will be broken off. The death of a noted legislator will occur.

Public sorrow over the passing of leading Americans and prominent statesmen will exist. Children of the White House and members of America's "first family" will be in danger during this time. The President will be involved in quarrels, both at home and abroad. His welfare will be seriously threatened, particularly in travel or in places of amusement and entertainment.

Earthquakes and stormy winds will sweep the country. Cities of the nation most adversely affected by Mars during February will be

Washington, D. C., New Orleans, Baltimore, Cincinnati, Milwaukee; in Canada: St. John's, Newfoundland, Halifax.

Marked increase of crime, brutal murders and sexual atrocities will increase during the month. Brutality will figure in a way never before reported in our American scene. Children and women will be affected, particularly by crimes and assaults. Deaths of famous motion picture and theatrical stars will occur. The actual threat of war will exist from January 7th through February.

Aviation and radio will particularly suffer from the clash of planetary energy existing during the month. Accidents will grow more numerous, and the number of fires and violence growing from accidents will be stupendous.

February is a month in which angry rebellion against limitations of any kind will exist. Strikes, labor turmoil and epidemics will spread. A struggle to defeat limitations and to challenge restrictions of any kind will be uppermost in our national as well as our personal life. The thought of "peace on earth, good will toward men" will be far away, until late February, when the mystic touch of Neptune will begin to transform our vision from material and physical things.

While danger, strife and turmoil will take many lives and bring great disasters, another force will be working to stimulate philanthropy, peace, spirituality and science.

Scandals in high places will mark late January and early February. Stock market financial activities will waver and falter at important governmental announcements. Changes in the cabinet and in leading public offices will occur. Some outstanding restriction against speculation will be attempted. Administration affairs will be adversely affected. Heavy financial losses may occur. National trade, commerce and finances will experience setbacks.

The New Moon of February 11th will promote a new vibration throughout the entire country. After the New Moon of the 11th, stock market, financial and speculative activities will begin to thrive more fully. Sharp reversals can be expected on the 12th and 18th, but with the 21st a definite rise may be noted. Monetary changes may account for a new spirit of optimism. Silver may "boom". Television, motion pictures, shipping and transportation facilities (aviation, particularly) will be leaders in advances made during late February. A new high in grains and foodstuffs will be attained. A steady advancement in financial well-being will be reported from all parts of the country.

Employment, labor and industrial affairs will be stimulated in late February as never before in depression days.

New agreements over the "war debts" will be made.

Illness, death and trouble will affect publishers and noted writers of our country. Floods will once again threaten the welfare of many. While the weather of early February will be chaotic and unfavorable, that of the period between the 21st and 28th should be favorable and balmy.

February will be a luxurious month. New styles, fashions and modes will be inaugurated. A new hair style will sweep the country like wild-fire. Extravagance is a feature of the month. Romance and marriages will be stimulated. Marked increase in the marriage rate as well as the divorce cases, but decrease in the birth rate will be reported. Unusual births will be reported.

Oil, property, agriculture, labor and industry can expect a real impetus to turn the wheel of fortune in their favor with the 21st and thereafter.

CALIFORNIA:

Uranus on the descendant is a definite indication of earthquakes. The 18th is the day! Other adverse days for storms and shocks for the west coast will be the 4th, 11th, 20th, 27th. Fires will create heavy damage. Sorrow will be felt over the passing of noted picture stars and older motion picture executives. A new picture will create a sensation, introducing a new feminine star. Restrictions on gambling and amusements mark the month. This month is adverse for children and schools, as is early March. Another strike may affect agriculture in California. Naval and aviation losses will be heavy. Improved financial and business trends will develop in the state as the month advances.

CANADA:

This dominion will be affected by losses and sorrows of Great Britain. Transportation facilities will be hampered by extreme cold and floods. Crime may gain a new foot-hold. Brutal assaults and crimes will mark the month. Fire in some prison of the country may create a sensation. New mining discoveries in Canada will create great excitement. Agriculture will "get a break" it hasn't had in a long time. Winter crops should show great promise.

LONDON:

A vacillating foreign policy will mark this month. Treachery in foreign alliances, and much anxiety over foreign affairs will be noted. The death of royalty will bring public sorrow. Fascism will make forward strides. Democracy will grow stronger. Trade, finance and commercial matters will improve, due to parliamentary changes and action. Sharp fluctuation of the British Pound will occur on the 4th, 11th and 18th; but on the whole, late February brings marked improvement to British finances. The 21st marks the FIRST harmonious note struck for a long time (since the death of King George, in fact) in royal and foreign affairs. Some great treaty or agreement may be made with RUSSIA which startles the world. Unexpected losses and equally sudden gains may affect the British stock exchange, and monetary changes mark the period between January 14 and February 18. Naval affairs will suffer heavy losses, and intense excitement will be felt around the world over news of espionage and spy activities in connection with Britain's Navy.

ROME:

Great religious ceremonies mark this month. Some woman will provide a sensation; greater

freedom may now begin to be enjoyed by Italian women. National losses, followed by national gains, are indicated for Italy. An assassination will occur, disturbing the peace of the country. The 18th is the most violent day of the month for this country. Some great treaty or alliance with AUSTRIA will mark the month of February. A royal wedding aligning Italy with Austria may be announced! Volcanic and earthquake activity will spread violence through the country.

PARIS:

A great change will mark France! Fall from power of high officials will occur. Intense excitement over prison exposures and crimes will sweep the country. Violent deaths will affect those in high positions. As the month progresses, governmental action will stabilize the franc, and foreign affairs will grow less strained. The 20th seems to mark the most dramatic day of the year for this nation.

BERLIN:

In Germany we find Mars in the "house of war and foreign affairs". This is an ominous position. Looks like Germany will once again flaunt her mailed fist in the faces of her antagonists. Loss of public officials will occur, however. Secret agreements with foreign powers will be the outstanding feature of the month. England and Japan seem to figure in these secret treaties. A spy scare will sweep the country. Imprisonment or removal of governmental leaders will occur. Dictatorships may "go begging" this month in Germany.

RUSSIA:

A growth to new power and prestige is indicated by the stars for Russia. Mercury and Jupiter line themselves up in the mid-heaven of Russia's chart. One of the most amazing and peculiar charts I have ever studied shows a line-up and grouping of the planets and signs about Russia which prognosticates strange happenings in this country of the Bear. February is always a sensational month for Russia, and this month will be no exception. Many deaths will affect the army and navy. Military manoeuvres will be stupendous. New industrial progress will begin. A quickening of Russia's financial and industrial system will occur. A powerful foreign ally will stand beside Russia. The deaths of high government officials will occur.

INDIA:

National sorrow will be felt over the passing of an elderly statesman and Indian leader. Floods and earthquakes will strike this nation,

taking many lives. Hunger and food-shortage will be reported. Riots will take a heavy toll of life. Epidemics beginning in India may sweep through the Orient. Deaths of bankers and leading rich men will take place.

TOKYO:

February will be a most important month for the Island Empire. Uranus rests on the Mid-Heaven, indicating extreme excitement in matters related to royalty and to the government; the winter quarter will be a dangerous period for the youthful Emperor and his family. Disputes and complications with other powers, principally Russia, will threaten. Earthquakes and fires will take a heavy toll of life and property. Troubles for the government, arising from opposition parties, and national disasters will shake the empire. February 3, 4, 11, 17, 18, 19, 20, 24, 27 will be adverse days for Japan when the above-predicted conditions may be most prominent.

BRAZIL:

Rio de Janeiro and surrounding territory will be struck by quakes and fires during the month. Heavy national losses will occur. A revolutionary attempt to overthrow the government will take place. Military activity may bring death to high ranking officials. Peace plans will seem far distant!

February begins to mark the growth of new principles and world ideals. The great trine aspect which occurs on February 21, between Jupiter and Neptune, will begin to inaugurate new democratic conditions. This aspect operates throughout the year of 1937. Just as 1936 was marred by the opposition between Saturn and Neptune, so 1937 will be benefited by Jupiter's trine to Neptune. Great religious force will hold sway during the year, enhanced by Neptune's power. The urge to peace and good-will of great world-organizations will exert influence.

The people will begin to benefit financially. A new prosperity wave will sweep through the United States. Just as January and early February may bring suffering and huge financial losses, so the new force of Neptune will begin to bring new financial conditions to build a more prosperous foundation beneath the masses. We will be definitely OUT OF THE DEPRESSION, I believe, after January 1937.

February 1 to 7:

This week will be exciting and eventful. The 1st, 2nd and 3rd will be favorable days for business, financial activities or travel interests. Venus enters Aries on the 2nd, thereafter stim-

ulating new ideas, new fashions and new inventions. Enthusiasm for the new and progressive will be the keynote of the mass-mind. People everywhere will be more ambitious, enthusiastic and romantic. A new spirit of hope will be instilled into the public outlook. Stock market and financial activities will be stimulated at this time. Industrial stocks can be expected to IMPROVE in value. Labor and industry will be knitting new peace-bonds. Legislation of a democratic nature will be sensational now. On the 4th, a dark note enters our sky with the square aspect between the Sun and Mars. This indicates scandals connected with divorces and criminal acts. The nation will be harshly criticized by foreign powers. War-like influences will loom upon the horizon. Fires will ravage large cities and industrial districts. Quarrels in state and diplomatic circles will bring danger to our leaders. Assaults on women and children will be brutal and violent. A mob spirit will assail the mass-mind. This is a very dangerous day. Our government will be very strong, dictatorial and authoritative. Military rule may be established in some parts of the country. The death of White House or cabinet personalities may occur. The 5th is a more constructive day, with Mercury coming to a sextile aspect of Saturn. This is a cold, restricting, stabilizing influence, where force, power and authority will establish order and discipline.

February 7 to 14:

The 7th is another adverse day, duplicating the criminal and militant dangers of the 4th. Intense haste, anger, military activity, rising expenditures and excessive waste will mark the day. Crimes will be brutal and revolting. Fires will ravage many cosmopolitan districts. Public health will be adversely affected. The 8th will be a favorable day for fashions, selling, buying, social activities and amusements. Some definitely helpful legislation marks the day. Good luck will attend the public at large. A prominent American woman will provide a sensation. The 10th is another important day, where powerful forces will be at work to stimulate finances, market activities and prosperity. Industry and labor legislation will be popular. Public excitement over new governmental plans will be noted. New medical discoveries will be reported. A great deal of progress can be achieved today. The 11th marks the day of the New Moon (Washington, D. C. Time). A new trend of action will govern our affairs from today throughout the remainder of the month. This is the date to start new activities. Finances and business will be THE dominating interests existing at this

time. Travel will not be favored today. Post Office matters will be restricted and the head of Postal affairs may be ill or seriously affected.

Land, agriculture, crops and mining activities will be prominent now. A land boom may begin. Oil interests will be stimulated. On the 12th we will note a great deal of trickery, secrecy and double-dealing. This will be an emotionally upsetting day. Aviation will suffer accidents and set-backs. Shipping disasters may occur; but the day is one of speculative activity and intense excitement over radio and television interests. New ambitions can be realized; new undertakings can be launched. The unexpected will occur through sudden changes taking place in our national as well as private lives. The 13th is an important day, with Mercury entering Aquarius. Friendships, social matters, humanitarian ideals and all intellectual, scientific and inventive matters will now be stimulated. The mass-mind will not be so much interested in business, credit and organization of material affairs as it will be stirred by new ideals, philanthropic matters and scientific achievements.

February 14 to 21:

This will be one of the most sensational periods of 1937. On the 14th we can expect accidents to mount to a new high. Social and theatrical affairs will be unfavorable. Children and women may be victims of assaults and crimes. A railroad accident will occur. Pleasure parties and amusement resorts will be adversely affected. Speculation will not be favored. The 15th will be an excellent day for all educational and transportation activities; buying and selling will be stimulated. Legislative action will be militant and progressive. Market matters will be stimulated. The 16th will be another favorable day for financial and monetary matters. Great changes will now be due to take place in our monetary and financial scheme of things. Improvements will be noted. Foreign affairs will stimulate our own markets. Great financial declarations concerning shipping and aviation may be given to the public. Oil and agriculture will be particularly benefited by today's vibrations and events. On the 18th unfavorable conditions will exist. Hold everything today and avoid separations, estrangements or unwise chance-taking. Sudden upsets and reversals will affect world leaders and governments. The Sun enters Pisces today, while Mercury squares Uranus. This influence will adversely affect speculative matters. Women and children will be subject to outbreaks of crime. News of the

day will be sensational. Accidents in all modes of travel will occur. The death of a noted actor may occur. Strikes will threaten. The 19th will also be unfavorable for financial, market or transportation matters. The death of heads of the postal department, leading literary lights and publishers will be reported. Delays and set-backs will occur. National and administration affairs will be subject to losses through deaths. Unpopular legislation in financial matters will be promoted. On the 20th somewhat favorable conditions exist, but the prevailing Venus-Jupiter vibration will stimulate a wave of carelessness, extravagance, emotional and financial waste. Taxation and money matters will be adversely affected. The peace and security of the world will be disturbed. Food prices may rise.

February 21 through 28:

Dramatic changes will now begin to dominate national and public affairs. Supreme court judges may provide a sensation at this time. New democratic legislation will be under way. The public will benefit by governmental acts. Oil, agriculture, mining (silver particularly) will be stimulated in an unprecedented manner. Scientific achievements for the benefit of the people at large will be introduced. A new wave of sensational optimism should now affect the country. Finances will be very much favored. Employment and industrial matters will provide new satisfaction. New opportunities will be opening up for the common man and woman. New peace declarations may now prove of great interest. The 21st will be a spiritual day, one of religious fervor and mysticism. New laws for the benefit of the masses will find public and popular favor. The 22nd will be another favorable day for agriculture, oil and mining interests. The 23rd and 24th will be exciting days, where ordinary matters will occupy our attention but in which we will seem to be waiting for new developments and announcements. The 25th will be a dangerous but exciting day. Unexpected changes, new plans and new governmental undertakings will come to the fore. An aggressive, active day will exist here in which revolutionary ideas will be promoted. The 27th will be the last really active day of the month, favoring financial, industrial and working interests. The month will end on a highly favorable note of expansion and improvement in working and business matters.

February is the month in which to eradicate existing limitations or impediments in your life. It is a period in which health, work and finances will be outstandingly important; a

"foundation-building" month, a time in which great inspiration will thrill our souls, let us look forward to the "green pastures" and "still waters" of security which lie ahead.

NEPTUNE—SAINT OR DEMON!

(Continued from Page 8)

ment; he is being involved in intrigue, secrecy, confusion; he will be the victim of self-undoing and disastrous conditions in marriage, should he yield to these temptations he now has forming in his life.

Neptune presents illusions; and if Neptune is adverse to you now or in the immediate future, do not depend upon those things which seem so promising or practical because you'll make a mistake if you do so.

After January of 1937, Neptune's influence upon earth and human affairs will alter and change, and then it will present a problem, during most of 1937, of tremendous improvement and opportunity in those things it now affects in your life; but when it is adverse to you, it is most evil. Its undermining vibrations tend to bring about the FALL of your structure of life while you think you're building.

Neptune's position in your birthday chart reveals where you're kidding yourself; it reveals the place in your life where you can't change conditions, but where conditions are apt to change YOU. It shows the things most apt to bring secret sorrow, loss, anxiety and confusion. Neptune's position in your life shows where and about what you dream; it shows your vision, your picture of an ideal; it shows what you want but can't have. If you aren't married and Neptune influences the 7th house of your birthday chart, you have an intense desire for marriage and for a perfect partnership; you have an ideal you picture and long to realize, but it is THERE in connection with such matters that you are apt to experience deception, treachery, intrigue and self-undoing—and disappointment.

If Neptune is adverse to you, it stands on your road of life as a warning to tread carefully in that place of your life where, you might say, "angels fear to tread". During 1936 each of you have had a vision, a yearning, an overpowering mental and inner picture of what YOU WANT. Tell me your birthday and I can tell you what that is, for then I'd know where Neptune is influencing your life; for you're dreaming and longing to realize something connected with that part of your chart now vibrating to Neptune.

When we meet again to discuss the daily calendar we will review the days of March, which present entirely new problems and new conditions.

"WHAT IS MAN?"

EACH planet of the heavens contributes its vibrations to the MAKING OF A MAN: Neptune and Uranus are the forces which give man his genius; Saturn bestows the wisdom man gains, while the other planets contribute their share to the physical, mental, emotional and spiritual make-up of each individual.

Saturn's position at the time of your birth signifies the amount of wisdom you will possess; wisdom in the result of experience. Saturn stands for the delays and obstacles, hindrances and limitations in one's life; and wherever it is at any time in the heavens, its position will indicate the point in your life where wisdom is being gained; where you're learning what not to do; where you're having experiences of a sorrowful or depressing nature; where you'll meet with opposition, limitations, delays and setbacks; where disappointment is apt to arise.

Saturn's influence in your life tends to make those things in your life which it affects, more isolated, solitary and lonely; for instance, you who have birthdays between March 21st and April 20th have had Saturn affecting your life in this manner since early 1935: It has occupied the house of sorrow in your Aries birthday chart, tending to make YOU more isolated, lonely and solitary.

The vibrations of Saturn bring the strongest test to our character and to our will power, for it presents such delays, disappointments and setbacks that one's will power is apt to curl up and die. If it can kill your hopes, it will; but if you have wisdom, you will know that just as Saturn holds back or delays it will eventually change its position in the heavens and alter its vibrations in your life, and thus remove itself from its blockade upon your life. Saturn indicates how much success you will achieve in your life where that success depends upon your will power, wisdom and ability to stick to a project.

The greater the man, the greater the obstacles. A weak barrier is of no importance to a strong person; but when life challenges you through Saturn's vibrations, it challenges you with obstacles which you can use to develop your will power, your mental stability, your optimism and your courage! Your obstacles in life are apt to be as strong as you are; and to overcome them, you grow stronger than they!

Saturn's vibrations are more powerful in your life in the first thirty years of living, and after the sixtieth year; but once every seven years Saturn's vibrations are turned adversely upon you to test the building of life which you have been erecting. Thus, during that period, once each seven years, you come under a vibration of soul, body and mind testing which requires good judgment, will power and innate good material within you to offset.

When Saturn is adverse to you, it kills youthful buoyancy, hope and optimism; it tries to dampen your enthusiasm; it tests your ability to have faith in yourself or in others, for it brings up obstacles in other people which make you suffer disappointment in them; it makes YOU suspicious, cold, jealous, mistrustful, and if you give in to such a reaction to its vibrations, then you are, of course, weakened by Saturn's vibrations. Saturn will test your business, your investments, your health, the very foundations of life.

If you have accumulated wisdom through your years of living, you will enjoy passing through a phase of Saturn's vibrations: you will enjoy being tested, for although Saturn is a severe schoolmaster, he is not devoid of humor, nor does he withhold advancement—not if you merit it; but wherever weakness exists in you or in your affairs, your attention will be brought to it, and you will have to build that phase of your life.

Saturn brings you under conditions of life where you meet with discipline; you are apt to be blamed for things you haven't done; you are inclined to grow bitter at injustice; sorrows through elderly people and through misfortunes affecting your life are apt to be experienced. Saturn represents the winter-time of your life, where new things cannot be planted to bring quick success or harvest, where YOU have to adjust yourself to difficulties.

Saturn tests the marital ties and the heart-ties with others when it is unfavorable to you; it tests your patience, your good nature and your ability to put up with the shortcomings of others. Thus, you are apt to experience loss, separation, estrangement or sorrow in your relationships with others. Saturn, according to the part of the chart it may affect at any time, indicates the **ENDING OF EXISTING CONDI-**

TIONS in that department of your life. Thus, if Saturn affects the second house of your birthday chart now, it is bringing about the ending of existing financial and money activities, and you should be conservative and careful in all money matters.

If Saturn affects the third house of your birthday chart, it will bring trouble, worry or sorrow through relatives, trouble with neighbors, disappointments in travel, delays in appointments or business engagements. It gives a cold, discouraged, bleak, mental outlook; and dangerous travel accidents are apt to be experienced. Delays in letters, news and communications are apt to occur. This is the time when the writer, composer, teacher or person depending upon his MIND for his inspiration is apt to experience set-backs and have his well of creative ability dry up.

Saturn's influence in any part of one's birthday chart indicates the place where discouragement must be fought, where enmity, secret sorrow, hatred, delays, disappointments and misfortunes will come from.

Thus, if one has knowledge of the manner in which Saturn affects the life, then patience, forethought, courage and caution can be instilled into dealing with those affairs. If Saturn is affecting the fourth house of your birthday chart, avoid investments in land or property, for delays are apt to be met, and nothing will go well in your life while Saturn holds that position.

If Saturn is in the fifth house of the birthday chart, then pleasures, amusements, sports and enjoyment of life is curtailed, love and emotions are dulled, the attitude is more cold and less responsive to others, and sorrow over the loved ones and emotional matters of the life will be felt. Speculation, gambling and all risky or hazardous undertakings must be avoided; anxiety over the outcome of one's various interests is strongly felt; the heart is weakened. A woman cannot have children when Saturn occupies this part of her birthday chart without much pain and trouble, and the majority of Caesarian operations are performed upon those having Saturn in this department of the life.

There is no excuse for ignorance, but there is a terrific penalty one has to pay for ignorance. If you know ahead of time where and when you're apt to lose out, then you can use that fore-knowledge to prepare and secure yourself against Saturn's vibrations.

Your success or achievement in those things now affected by Saturn will come only after much hard work, delays, obstacles and fighting to accomplish. You will have to make yourself stronger than the barriers which stand between you and your accomplishment. When you have astrology lighting the way into your coming life, then you can look ahead, note where Saturn will be affecting your life at any time, and then begin to plan accordingly. You need not be defeated; you need only to train yourself for the "fight". That is why the scripture commands: "Fight the good fight of faith."

You will be inclined to GIVE UP just when your fight is almost won unless you let the stars light your way. Your sorrows will overwhelm you; you will almost get to your goal, but not quite make it unless you put that extra effort into the last sprint to the goal.

Unless you turn your powers to good account, you will become morbid, despondent, small, narrow and limited in viewpoint when Saturn is adverse to you.

Where are your tests, trials and obstacles coming from? What are you doing about them? Are you giving up, or are you trying to run away from those things? You can't run away from planetary vibrations; they vibrate in the very oxygen you breathe; that is what keeps you breathing—the electrification of the oxygen pouring in to the earth from outside space. Don't give up, but deal with your problems in a scientific manner, in a wise manner, in a calm poised manner. Make yourself bigger than your problems; climb to the very peak of the mountain Saturn has raised in your life. The climb may be weary, but you can make it! And cry "Excelsior" when you have reached the summit!

YOUR PATTERN OF DESTINY

"YE CAN DISCERN THE FACE OF THE SKY
BUT CAN YOU DISCERN THE SIGNS OF THE TIMES?"

"SOMETHING MUST exist outside our minds to put any concept into our minds!" Thus speaks Sir James Jeans, writing of relativity and the ether, of matter and the radiation of light, in his book "The Mysterious Universe".

WHAT force exists outside your mind to put the impulses, feelings, thoughts and ideas you have INTO your mind?

WHAT force exists in YOUR FUTURE, which may put sadness, sorrow, misery, worry or fear INTO your mind and cause you to recognize these things?

One has to SEE something, FEEL something, or have the effect of something produced in the conscious mind, in order to recognize it. ASTROLOGY teaches that one can analyze oncoming energy, through a study of future planetary positions, and so adjust YOUR LIFE that when the conditions produced by those planetary positions begin to exist you do NOT have to experience them.

If you could look AHEAD and see that sorrow was coming through romance you could reject the person through whom sorrow was coming. Couldn't you? You could, but probably won't . . . because you will not CHOOSE to do so.

I have a typewriter. It is fastened to the desk at which I write. I cannot move that typewriter. I can't move the desk for it is too large for me to handle. During the day I found myself trying to move my typewriter. It was OUT OF LINE with MY position, and I was not comfortable while writing. Suddenly, I learned something! I learned that I could move MY CHAIR; that I could move MYSELF to the right just an inch - - - and there! the typewriter and I got along beautifully. The typewriter had been all right all along but I had been in the wrong position at the typewriter.

The lesson I learned today at my typewriter causes me to bring this thought on to YOU: there's NOTHING WRONG with YOUR FUTURE . . . IT'S YOU! You're in the wrong

place. You're in the wrong chairs. You're in the wrong spot . . . you and your "typewriter" on which you're going to write the future story of your life aren't harmonious. YOU'RE sitting in the wrong position, and harmony between you and your PATTERN OF LIFE may not exist. Knowing this, you can MOVE YOURSELF and get into the right relationships with your "typewriter", BEFORE YOU START TO WRITE. If you CAN'T adjust YOURSELF, and get right with your future, you'll never get to write YOUR STORY. Blank pages will be turned, as we read the STORY OF YOUR LIFE; and we'll say: "What is this . . . they started . . . but they didn't finish!"

Do you know the story of ELIJAH AND ELISHA? Perhaps you wouldn't believe it if I related it to you, because it tells about two men who KNEW WHAT WAS AHEAD IN THEIR FUTURES. They'd taken time to scrutinize the future and knew what to get ready for. In fact, they knew so well what lay ahead of them that they put on their coats and hats and went out to meet it!

Elijah learned that in a short time he would be "TRANSLATED" or moved to a new sphere of activity. He informed Elisha that he was moving into the desert for there he would have a sudden change occur in his life; a strange opportunity awaited him there; he would be whisked out of the OLD LIFE into the NEW. He told Elisha, his servant and student, goodbye BUT . . . Elisha insisted on following. At last Elijah said: "What would you have me do for you?"

Poor Elisha said: "I don't want you to leave me. I am helpless and little and ignorant of my life. I want YOU to tell me what's in MY FUTURE? I have a question I want you to answer for me. There is something I WANT . . . Will I get it?"

And Elisha said, daring greatly: "I WANT A DOUBLE PORTION OF YOUR POWER . . . WILL I GET IT?" And the prophet, Elijah, answered: "If you see me when I am taken from you, you will realize your ambition; you

will have the thing you desire; you will receive the **DOUBLE PORTION OF MY POWER**, which you're seeking".

What a promise! And, what a condition imposed . . . "IF you see me when I am taken from you".

This told Elisha that IF he were where **OPPORTUNITY** could come to him, he would realize his ambition. IF he were ready for the opportunity . . . IF he followed "through" . . . then he would receive the "double portion" of his Master's power.

Ah, Elisha! IF you're there! That magic word IF on which your future hangs! If you can wait, and follow on, and keep keeping on, until **THE TIME** when this opportunity, this desire, and this thing you're asking for can come to you!

ELIJAH trudged toward the place where he had his appointment with the chariot of fire and the horsemen of heaven. He **KNEW** where they'd be waiting for him, so he trudged forward into his future, toward his great experience. Elisha followed on behind. He, too, had **HIS DESTINY** to realize, IF he were only big enough to reach it; if he were only able to "follow through" **UNTIL** the "time and the season" came for him to realize **HIS WISH**.

Everybody and everything discouraged them. But Elijah and Elisha went on! They came to the river Jordan, which lay between them and their destination; Elijah removed his mantle, slapped at the waters of the river, and the **WATERS DIVIDED**; and "they two went over"! They made their **OWN BRIDGES**, they forged ahead into their futures, toward the realization of their **INDIVIDUAL DESTINIES**, laying their own roads.

Elisha was walking with **HIS DESTINY**. He **KNEW** what was ahead for him, and he confidently trudged toward it. His surety took him over the rivers. They triumphed over every peril. At last they came to a certain place in the wilderness.

Can you imagine anything good happening in a wilderness, in a desert, in a poor place? In a **BAD PART OF ONE'S LIFE**? Perhaps YOU can't imagine opportunity appearing at such a time, in such a place . . . but as Elijah walked through **HIS WILDERNESS**, there appeared a golden chariot, with angels and horsemen of heaven. He was whisked up and away from the path he had been trudging. He walked right into the **GOOD FORTUNE** promised him.

"Swing low, sweet chariot

Coming for to carry me **H O M E**"

As Elijah arose, going onward with his **NEW EXPERIENCE**, realizing his promised **DESTINY**, poor Elisha cried out: "I SEE YOU. I HAVE WITNESSED THIS. I've reached my **GOAL**. . . WHERE MY DESTINY WAS PROMISED ME. WHERE IS MY **DOUBLE PORTION OF YOUR POWER, YOUR SPIRIT**. . . . ?" And Elijah dropped his "**MANTLE**" earthward.

Elisha picked up the discarded robe of his master and guide. He picked it up, discarding his own old garment, symbolic of his old ideas, his old habits, his old customs. He took the garment left by his teacher, the man who knew how to **DO THINGS**; the man who **HAD POWER**, and he placed this robe about his own shoulders. Elisha had **POWER**, now. He returned through the wilderness to Jordan. He took his mantle, and struck at the waters of the river, just as his master had done. **AND**, the waters divided and Elisha went across to the other side. He went on to a higher destiny, to a greater future, to a greater power than that which Elijah had possessed. Where Elijah raised eight people from the dead, Elisha restored sixteen. And Elisha realized his desire for **THE FUTURE** because he followed his master to the place where power could come upon him:

This story has proven the greatest inspiration of my own career. When I found Astrology and its kindred philosophy which I have developed, I realized that **ASTROLOGY** had dropped a mantle toward me from Heaven, itself. Astrology . . . the chariot of fire, the horsemen of the heavens, the revealer of men's destinies, brings a **DOUBLE PORTION** of power, energy, victory and success into **THE FUTURE**.

Elijah left the earth **BUT HIS POWER REMAINED**, transmitted through his student Elisha. **THE PLANETS AND HEAVENS, WHICH ARE THE "STORE HOUSES" OF CELESTIAL ENERGY** are far from the earth, but **THEIR POWER** (mantle) drops upon us and is transmitted by **MANKIND** that we may perform miracles and realize a **DIVINE DESTINY** planned for each of us.

If YOU can follow Astrology, you'll find that your mantle, your map of life, your destiny will endow you with new power and confidence. You can divide the waters of sorrow and walk

through; you can raise old dead hopes and make them live again.

You can work **MIRACLES IN YOUR LIFE** day after day, as you follow **YOUR GUIDE, ASTROLOGY**.

Astrology does this for you: **IF YOU CAN FOLLOW THROUGH** until the **TIME** when your opportunity is at hand, until the time when the things you seek, the things you're asking about, are ready to fall upon you, you can secure your double portion of **POWER**. If you're faithful to **YOUR DESTINY**, which **ASTROLOGY REVEALS TO YOU**, you, too, can accomplish seemingly impossible things. You, too, can have power to do with your life what others have done with their's.

I often watch my beginning students attempt to read their own horoscopes; they couldn't do so. They got confused, and got the wrong interpretation; they were on the wrong road. I say, "Now, if you can follow through and learn and see me do these things; let me teach you these things, my mantle of knowledge will fall upon **YOU**".

The Astrologer is like Elijah. The Astrologer has the **MANTLE** of knowledge, power and energy to divide the waters; to tell you what to do; to interpret your future according to the message of the stars. **YOU** are like Elisha. You can take the knowledge we Astrologers have . . . you can take this "mantle" falling from our hands, and have a **DOUBLE PORTION** of our power.

This is what the Astrologer accomplishes in writing or interpreting Astrology's message for **YOUR OWN LIFE**. You receive information, knowledge, and understanding. **YOU** place this mantle about your own shoulders, and use it to your advantage, to realize your **OWN DESTINY**!

And you learn that

"The toils of the road will seem nothing
When you get to the end of the way".

To each of you a **MANTLE OF KNOWLEDGE** concerning 1937 comes: in the pages of Astro-Digest magazine; in the new study course of Astrology which will be your's in each monthly copy of the magazine; in the new **ANALYSIS OF 1937**; **THE MANTLE** of knowledge which I have prepared, as I've translated the **MESSAGE OF THE STARS** for you. Take this mantle, place it around your own shoulders, and walk confidently forward. Perform the miracles with your mantle of Astrology which I have performed. Accomplish what seems to be

IMPOSSIBLE, as you direct your plans according to the pattern of your life for this particular year.

The value of Astrology lies in its application to **HUMAN NEEDS AND HUMAN LIVES**.

The **PAST** is gone. The **FUTURE** may never come to you. **YOUR DESTINY** may never be realized, in all its glorious **PROMISE**. **YOUR DESTINY** is written in your stars, interpreted for you by Astrology, and brought into your hands by **YOUR ASTROLOGER**.

Come on, all of you. Get on the right road. Let the stars **LIGHT YOUR WAY** to the fulfillment of your secret hopes and wishes, and to the realization of **YOUR DIVINE DESTINY**.

"Watch therefore: and know this . . . that **IF** the man of the house had known in **WHAT WATCH** (hour or season) the thief would come, he would have watched and would not have suffered his house to be broken up."

Here are words of wisdom, which refer to you and me! **IF WE KNOW THE TIME, THE HOUR, THE SEASON** in our lives when failure threatens, sorrow beckons, or opportunity knocks, we can have **ANTICIPATED** that coming condition . . . and thus not suffer our **HOUSE OR LIVES** to be broken up by adversity; or else **PREPARE FOR THE "Chariot"** coming "for to carry us **HOME**" to the new place of **DESTINY** planned for us!

Until next month, "Adios".

The February Outlook for Aries

■ ■ ■

*For Those Born Between March 21st and
April 20th*

■ ■ ■

VENUS enters your own birthsign on the 2nd and will remain here until June 3, with the exception of but a few days time in March and April. This is a favorable influence on the whole. Invitations, gifts, more love and affection and romance will exist in your life. A desire for new pleasures, and marked improvement of your personal appearance and mental outlook can be expected. On February 11, 12, 20 and 25 Venus will be adverse to you, and on these days you must be careful to avoid indulgences, overstrain or carelessness in pleasures or trouble in emotional associations. Some disappointment may arise at these times; but decided improvement in your PERSONAL life and affairs, more magnetism and ability to attract others will exist for you during February due to this Venusian influence. Improvement in your financial affairs will be noted.

Business, credit, professional and public activities will be stimulated for you this month. You will have new ambitions and power to realize them. Important changes in business, environment and position can be expected during this month. Business matters will be favored on February 1, 2, 3, 5, 8, 21, 22, 27. Promotion, new opportunities and advancement may come to you in an unexpected manner during February if you can concentrate upon these matters. Health should show decided improvement as the month advances; and you will not feel that awful sense of helpless defeat, worry and confusion which has marked your work, health and personal life during the past few years.

Do not feel surprised if working or business opportunities require travel or change of environment this month. This is a month in which you can "ask and receive" unusual favors and gains from others, except for a few adverse days when you must be diplomatic and cautious in dealing with others.

Friendships, social matters and close association with others will be adverse for you on the 4th, 7th, 11th, 18th and 19th. Be very careful in dealing with friends, buying or selling, or forming any agreements with them during these times. Pleasures, emotional matters, risks, social

activities and friendships will not be favored at these times. These dates will also be adverse for the finances of employer or for the results of your own business. Serious quarrels or anxiety over the welfare of others may exist. At all other times of this month you can expect to gain through friends, new acquaintances and people in a position to benefit you. You will come into contact with prominent people through whom you could secure favors or advancement in life. The breaking up of old ties and the forming of new friendships and emotional relationships can now be expected.

Accomplish important things during February. You can do so. Earning power and financial matters will be favored this month more so than they have been for a long time except on the 7th and 18th. Sudden losses or reverses could be experienced through others on these dates.

Mars is your only threat to happiness and security. This planet seems to bring strain into partnerships or dealings with others so that the health or losses of some other person may require caution and patience on your part. Now I know how difficult it is for you to be PATIENT, and you don't like that word, so I won't emphasize it; but don't fret this month if you seem to be delayed by another person. Seek cooperation, give it, and you'll forge ahead. Be very careful of your personal welfare and safety on the unfavorable days of this month.

Start your new enterprises and activities on the 13th. Take advantage of new opportunities coming to you for improvement of personal life, health, work and financial outlook. In your emotional relationships or friendships, use more caution and discretion, for it is here that trouble will lie.

Favorable days: 1, 2, 3, 5, 8, 10, 13, 15, 16, 21, 22, 25, 27.

Unfavorable: 4, 7, 11, 12, 18, 19, 20, 25.

(The 25th is both a favorable and unfavorable day.)

The February Outlook for Taurus

■ ■ ■
For Those Born Between April 20th and
May 21st
■ ■ ■

T HIS MONTH will be one of violent likes and dislikes so far as you are concerned; and you will wear your "feelings on your coat sleeve." After the hectic month of January you will have learned some bitter lessons, but don't let your experiences keep you bitter or resentful. You will be stirred to the depths of your soul during January, and February will be a month where rebellion at existing circumstances or conditions must not be allowed to inflame your attitude toward others or toward life in general.

If you use discretion on the 4th, 7th, 14th, 18th, 20th and 25th you should have better fortune this month. Mars, in opposition to you, indicates strain in all relations with other people during the first eight months of 1937. The danger of accidents, cuts, burns and quarrels with others will exist at the unfavorable times I outline for you. It will be up to you to remain calm and serene, despite tests upon your patience and forbearance. Try to avoid nervous strain and don't allow yourself to become angry. This will be fatal. Avoid conflict with others or legal complications. Your judgment will not be good, for you will now be swayed by your emotions. In your partnerships, companionships and dealings with others, you can expect trouble. Enmity or rivalry will be felt.

Venus will stimulate your desire for improvement of your personal appearance. Somewhat secret health-building plans will now be under way. Sorrow through a loved one may exist on the adverse days. If you find it necessary to give up something dearly prized now, do so graciously. Your health or personal welfare must be guarded carefully on all adverse days this month. Unexpected good luck will flash across your life, so don't let annoying problems or secret matters unnerve you or make you hasty.

Something of a benefic nature is coming to you out of a clear sky, and your cue, this month,

is that of foundation-building. Go ahead in your plans and activities calmly and don't let flurries with others get you off your course. On the 13th, Mercury will begin to affect your credit, reputation and work or business interests. Important papers will be signed; changes will occur in your position in life. Money will be more important and financial changes will take place. NO important papers should be signed, and no new undertakings attempted at unfavorable times this month. Propositions presented to you will not be reliable; and unexpected upsets may occur, bringing reversals. This is particularly apt to be felt on the 18th and 19th. Estrangements or separations could take place at this time. Business matters should be very much favored on the 1st, 2nd, 5th, 8th, 12th, 15th, 21st, 22nd and 27th. Changes and new undertakings will be favored on these dates.

Neptune, long your emotional enemy, will now begin to bring more happiness and harmony into your emotional life. While your major problem of January is apt to be due to emotional upsets and trouble through or with others, February with the 21st, begins to draw a new pattern of greater happiness. Gains through investments, speculation, pleasures, emotional interests, things and people YOU love can be expected. Unexpected and exciting news from a loved one will thrill you. News from people at a distance will begin to benefit you. Travel, change and new financial opportunity will loom as a real factor in your future plans.

Changes, beginning to happen in your life now IF YOU DON'T INSTIGATE them and angrily force them, will prove to be a turning point, leading you to better, happier opportunities!

Favorable days: 1, 2, 3, 5, 6, 8, 15, 16, 21, 22, 26, 27.

Unfavorable: 4, 7, 9, 14, 18, 19, 20, 25.

The February Outlook for Gemini

■ ■ ■

*For Those Born Between May 21st and
June 21st*

■ ■ ■

THIS MONTH will begin to improve conditions in your life. The long disturbing condition you have suffered is beginning to disappear, and upon the horizon of this month improved conditions begin to loom. New friends, social activities and a more peaceful outlook will begin for you on the 1st. Women will be brought into closer association with you. This month will be a time in which to accept invitations, meet new people and expect to gain more greatly through others. You will be more emotional and active in your friendships, social activities and associations with others. Conditions in this respect are favorable except on the 11th, 12th, 20th and 25th. Avoid excess of feeling or emotion and don't waste your time on these dates. Venus will enable you to GAIN through others in a position to benefit you. It will attract people to you in a new, exciting manner.

Legal matters, travel, news from a distance, "in-laws" (if you have them) will be activated during February. A serious quarrel or trouble with another person could occur on the 4th and 18th. Travel will not be favored for you on the adverse days. Legal matters will need to be carefully avoided. More correspondence, trips and mental activity will now mark your life, but you will need to progress very carefully in all legal, travel, educational, advertising or religious activities in which you may be interested on the unfavorable days to avoid loss of prestige or favor. A religious person will have great appeal for you during this month, and you will be inclined to start new studies and react to new aspirations now. Gains through the finances, favors and cooperation of others can be sought on the favorable days.

All secret matters or conditions of a sorrowful nature are apt to be intensified on the 18th which is a day of upsets, enmity and mental uncertainty. During the entire month, Mars will affect health and work. There will be a tendency to over-work or overstrain; nervousness

and high tension will affect you on the 4th, 7th, 14th and 25th. Don't be too aggressive, avoid quarrels or accidents in work or in connection with servants, inferiors, employees or working associates. Work will affect your health. On favorable days you can expect work, employment and all business matters to be stimulated. The 1st, 10th, 15th, 21st, 22nd and 27th will be excellent days for employment or working activities. You will push ahead to realize your ambitions on these dates.

Home, family, domestic and private affairs will be altering now. Instead of the bleak picture you've had confronting you for so long, better conditions can be expected in your family and private affairs. You will be anxious to realize your secret dreams in connection with home, property or family matters. Financial gains through and from others will be favored, particularly so on the 1st, 2nd, 10th and 21st. New business and financial progress will be achieved. These will be the times to press your important plans. Your gains this month depend upon others, and this is the first time in "ages" where I can promise that you will gain through other people. The finances of the partner or of some other person will be enhanced, proving favorable for you.

Some contact with a hospital or place of confinement may arise during the month. Guard your finances and earning power on the 11th.

Somewhat surprising news of a secret nature will come to you this month. Keep your eyes open; don't confide too much, and don't look gift horses in the mouth, for they're coming to you now.

Favorable days: 1, 2, 3, 5, 8, 9, 10, 13, 15, 16, 21, 22, 23, 26, 27, 28.

Unfavorable: 4, 7, 11, 12, 14, 17, 18, 19, 20, 25.

The February Outlook for Cancer

■ ■ ■

*For Those Born Between June 21st and
July 23rd*

■ ■ ■

THIS MONTH will be one of unusual events and circumstances for you. Both good luck and misfortune may attend you. Venus is the planet which begins to really stimulate business, professional and public activities now. You will be more strongly before the public; friends in the business world can be attracted to you; increased popularity can be experienced. Women will be of particular benefit to you in business, credit and public success. You will be more **AMBITIOUS**, but must avoid overstrain of credit or carelessness and indulgence which could affect your reputation or standing (on the 11th, 12th, 20th and 25th). Friends and social matters will be enhanced during the month, but adverse to your own well-being on these unfavorable days. Your gain seems to come not only through your own efforts, but through partners, companionship and other people. Thus, you must endeavor to be diplomatic and tactful. The health and welfare of the partner or close associates may prove expensive to you this month; but with the 21st you really begin to gain through others.

Travel, voyages, foreign contacts and somewhat strange news from people at a distance may be a feature in your life this month. Your aspirations will be unusual. Expansion in your environment will occur. Improvement in your surroundings will be experienced. Correspondence, letters and communications will be increased. Your ability in business, social or professional matters will be excellent. Your own inspiration and optimistic outlook will dictate new plans. Relatives will begin to be favored in a new manner. A new talent will be developed on the material plane of expression now. This is a month in which to plan to do much creative work.

Mars indicates severe strain on your heart ties during January and February. Your feelings will be intense. You will be more emo-

tional, passionate and easily aroused. Things and people YOU love will be very important to you. The desire to take risks and a hasty, thoughtless tendency on your part could create serious quarrels or cause loss through poor judgment. Your gains through speculative and chance-taking activities will be favored, but quarrels with others will occur. Avoid rashness, and protect the welfare of those you love on the 4th, 7th, 9th, 14th, 18th, 20th and 25th. Pleasures, amusements and risks of any kind should be avoided on these dates. The 4th, 18th and 25th will be particularly hectic days so far as emotions and loved ones are concerned. The health and finances of others or troubles of others may cause emotional upsets for you.

On the 11th avoid friction with a rival or enemy. Hasty contracts or agreements, or legal difficulties can be avoided on this date if you can remember to avoid rebellion at restrictions or the opposition of others.

Uranus may bring about estrangements or a breaking up of friendships or close associations on the 7th, 14th and 18th. The difficulties of others will be trying for you on these dates. Social activities should be avoided. You will not realize your ambitions although you'll try to through others at these times.

Partnerships and close association and gain through others is shown for you on the 1st, 2nd, 10th, 16th and 21st. On the 21st, work, health, travel, partnerships and gain through others are all stimulated for you. Exciting and good news and greatly improved conditions are shown. An ambition of long standing may now be realized through the cooperation of another.

Favorable days: 1, 2, 3, 5, 8, 10, 15, 16, 21, 22, 23, 24, 26, 27.

Unfavorable: 4, 6, 7, 9, 11, 12, 14, 18, 19, 20, 25.

The February Outlook for Leo

■ ■ ■

*For Those Born Between July 23rd and
August 23rd*

■ ■ ■

THIS MONTH will be upsetting for you in some respects; in other ways it marks a turning point, a period of marked improvements and gains for which you have longed.

Remember that Mars is adverse to you until March 13th; this always means strain and trouble. In your case, as a Leo person, Mars will cause trouble in home, family, surroundings and domestic affairs as well as bring strain upon health. Rashness, haste, waste, quarrelsomeness and irritation will be present during January, February and early March. So, with this tip, try to turn this vibration into a constructive one of ambition, controlled and intelligently directed. The 4th, 7th, 9th, 18th and 25th will be the days of February when Mars is adverse to these matters. In-laws or people at a distance from you may cause irritation or trouble. Your private life and surroundings will be disturbed. Accidents, fires or trouble in the home may occur. I believe that Mars will stimulate change, travel or a new environment requiring haste and excessive activity in domestic affairs. Travel is strongly indicated now.

Venus indicates gains of a new and thrilling nature. Your outlook will be more optimistic. You will feel that things are improving for you, as indeed they will be. Legal matters, news, correspondence, new studies and plans will be activated during the month. Travel and change will be in the air about you. You will have new ideals and aspirations.

Jupiter's influence, this month, will be favorable for work and health, except on the adverse days. At these times, a tendency to be indulgent, careless and over-confident will affect both health and work. Avoid indulgences of any kind on the unfavorable days. The 1st, 2nd, 10th, 16th, 21st and 27th will be excellent days for finances, advancement in work or health, and all business activities or plans. The 21st should stimulate your finances, earning power and financial gains through others in a decided manner. Marked improvement in your

health and general welfare will occur. Investments will appeal to you, and gain through past investments and through new working opportunities are indicated for you Leo folks who are in a position to gain through these vibrations. The finances, health and affairs of others who may have been a source of worry to you, will greatly improve. A release, the taking off of the brakes of repression, will mark this time in your life. You should experience a burst of speed which really means gain, progress and achievement.

The 4th, 11th and 18th are adverse days for travel or risks of any kind. If you are married, strain and unexpected events will affect the marriage partner, and you should be very careful to avoid making unwise changes. Enmity or rivalry may bring loss at these times. Be careful to avoid haste or lack of discretion in dealing with all others on these dates. This is a month in which health, work and cooperation with others will all be important features in your life. The trend of the month is favorable, but knowing you as I do, I know that you'll be inclined to let the few adverse conditions overpower you. And now do you like me?

Don't get involved in quarrels with others on the 4th and 18th. You'll hurt yourself if you do. Cooperate and attract throughout the entire month. If you can do this, results will be achieved. Avoid legal contracts or complications of any kind on the adverse days. Any partnerships you may have will be strained to the breaking point during January and on the few adverse days of February.

Your true source of gain will lie in work, health-building, finances and new aspirations. In your relationships with others and your own private life, troubles will exist.

Favorable days: 1, 2, 3, 5, 8, 10, 15, 16, 21, 22, 23, 27, 28.

Unfavorable: 4, 7, 9, 11, 14, 18, 19, 20, 24, 25, 26.

and September 21st*

MANY important changes may begin to take place in your life this month. Changes for the better! And that's something. Let me forewarn you of difficulties apt to arise, and then review the favorable conditions for which I want you to prepare.

Mars, of course, is adverse to your relatives or close associates. It is sure to bring a quarrelsome and irritable state of mind so that you will be inclined to quarrel through speech or correspondence with others. You will be restless, ambitious and careless in speech or action. Your environment will be changing; reforms and improvements will be sought. Short trips and impulsive action will mark the month. You will overstrain health, and your working environment and associations will be quarrelsome. Trips could interfere with your work. Work, health and travel will be unfavorable on the 4th, 18th and 25th.

Your work and health will be of major importance to you during this entire month. You must try to avoid any feeling of rebellion at authority of others or restrictions placed upon you. Try to adjust yourself to others, or to conditions rather than force issues. I want you to let good fortune come to you this month. This is a month in which to build a worth-while foundation beneath both work and health interests. Changes are apt to occur, but let them take place without your forcing them.

You will have unusual interest in investments and speculation, gambling or chance-taking enterprises during the month. You seem to win or gain money and favors in a somewhat unusual manner. Pleasures and amusements will have strong appeal for you. Someone you love is apt to prove to be a source of sorrow or much expense on the 19th, 20th and 25th. Avoid risks, pleasures, amusements, emotional upsets or chance-taking on these dates. Of course you probably won't, but I'm forewarning you, anyway. Except for the few adverse dates, this entire month should bring more emotional hap-

piness and gain through things and people YOU love. For the first time in TWELVE YEARS your emotional life begins to "get the breaks," so don't do anything now to spoil the plans destiny has for you.

With the 21st Neptune and Jupiter begin to operate in the skies to spell happiness and LUCK for you Virgoans; and goodness knows you can use plenty of both right now. Now you can begin to make your dream, your beautiful secret vision of marriage and companionship come true. You can begin to realize favors from others and attract the love and attention of others. Things should begin to come your way now. Home, family, private life, marriage or companionship, love and emotional life, speculation and investments will all be stimulated and approved by your stars as this month advances. Your own outlook on your future will be far more optimistic. YOUR APPEARANCE, personality and magnetism will be enhanced. This is a time in which to put your BEST foot forward and seek to improve your emotional and private life.

You gain financially through others this month. However, on the adverse days, the troubles, health or difficulties of another person may prove expensive for YOU, or delay your own plans and progress. Seek the cooperation of others now.

The breaking up of old ties and associations occurs this month, as in January, while new interests and new associations are strongly indicated for you. New enterprises and new undertakings can be started on the 2nd, 16th, 21st and 27th. Surprises and good news is indicated at these times.

Favorable days: 1, 2, 3, 5, 8, 10, 15, 16, 21, 22, 26, 27, 28.

Unfavorable: 4, 6, 7, 11, 14, 17, 18, 19, 20, 23, 24, 25.

The February Outlook for Libra

*For Those Born Between September 21st
and October 23rd*

☐ ☐ ☐

FEBRUARY will be an exciting and vigorous month for you in many respects. Your home, family and private affairs will be stimulated in an unusual manner. Improvements will occur in these things. Your desire to beautify your surroundings will increase expenditures. You can invest, improve your surroundings, make changes and fulfill your ambitions in connection with home, property, land or possessions on the favorable days; but guard your credit and do not over-expand nor let carelessness and feeling dictate your decisions on the adverse days of the month. The welcome sign may be on your doormat this year so that family and relatives will visit you or be more closely associated with you. Family and private life will prove more expensive; more fun and pleasure will be had in the home and private surroundings now than has been the case for a long time. This month will be one in which the desire for love, pleasure, amusements and excitement will strongly exist. The desire to take chances or risks will spell losses on the adverse days. The 4th and 18th will not be favorable for risks, speculation, investments, chance-taking activities or emotional matters. These things will prove very expensive for you; someone you love may also prove to be a source of added expense to you. A child or younger person will prove important in your life now. Their welfare should be guarded.

Venus will bring more love and happiness to you. Your contacts and association with others will be more pleasant and congenial; your ability to attract the good-will of others, make friends of your enemies, and gain favors from others will be stimulated. Legal matters, if arising now, will be favorable for you except on the 20th and 25th.

Health and work, so badly affected during January, will now prove more favorable for you. Somewhat secret or unusual lines of work will now appeal to you. Improvements in your own

health will be made. You can expect sudden change of fortunes this month, for the better, if you can or will protect your welfare and interests on the few unfavorable days.

Marked increase of earning power and financial good fortune will undoubtedly be enjoyed. Mars, occupying the "house of money," of your birthday chart will stimulate finances, particularly those which you attract through your own efforts and partnerships; but you must avoid quarrels over money with partners, business people or those in authority on the 4th, 7th, 18th and 20th. You can expect more money and more expenses during February. Loss through foolish impulses, poor judgment and quarrels will threaten on days such as the 4th. However, gain through your own activity, ambitions and enterprise are so strongly shown that if you use your natural diplomacy and discretion you can add to your income greatly.

Avoid trouble or sorrow through children, a loved one and speculation or investment matters on the days I have given as unfavorable. You will have more emotional power this month to emphasize your artistic or creative talents. With the 18th, you should carefully begin to protect your own health, for March will test your health and vitality.

Property, real investments, home and family affairs will be favored on the 1st, 2nd, 5th, 16th and 21st. Gain through past investments may be realized. News coming to you on the 21st should bring happiness and increased hopes. That element of secrecy or treachery and sorrow which you have felt for so long will definitely begin to lift. Trips will prove profitable and will be taken somewhat secretly or guardedly.

Favorable days: 1, 2, 3, 5, 6, 8, 10, 12, 14, 15, 16, 21, 22, 23, 24, 26, 27, 28.

Unfavorable: 4, 7, 9, 11, 18, 19, 20, 25.

The February Outlook for Scorpio

*For Those Born Between October 23rd
and November 21st*

■ ■ ■

MARS in your own birthsign throughout this month will be adverse to you on the 4th, 7th and 25th. Throughout the month however, Mars will be ready to strike and cause trouble. RESTRAINT should be your KEY-NOTE so far as impulsive action, anger, haste or emotions are concerned. Your naturally ambitious, wilful and aggressive nature will now be intensified, so remember that "Character makes Destiny" and DON'T let Mars rule you this month. Health, business, family and private affairs will be adversely affected by Mars on the 4th, and again on other unfavorable days of the month. The danger of feverish ailments, quarrels and strife with others, as well as of headaches or head ailments and physical disorders are always quickened when Mars affects you in this manner. On the positive plane, if you can get up there and STAY there, Mars will give ambition, aggressive determination and activity in all PERSONAL affairs. It spells new opportunity for you; but you must avoid strife and you must also avoid the impulse to realize your ambitions at any cost.

Jupiter will favor promotion, travel, change in your environment and new opportunities coming to you through correspondence or communications. This is particularly indicated on the 2nd, 10th, 16th and 21st. On the 21st you will gain an ambition of long standing. Good news, good luck and a more happy state of mind will be enjoyed. Travel, a mission of confidence and financial good fortune may exist at this time. Someone you love will bring unusual happiness to you. Pleasures, friendships and ability to GAIN THROUGH OTHERS is strongly indicated by your stars at this time. The favorable outcome of any trips undertaken or communications with others is shown for the 21st.

A relative or close associate may prove to be a source of real happiness or good fortune for you. Income and earning power will be activated in an unusual manner. On the 20th you must

avoid travel and indulgence; health and work will be affected adversely.

Throughout the entire month, except on the 20th, Venus is favorable to your health and work. A new pet may be added to your environment. You will attract more favors and good will in your working environment and work or daily tasks. This will be a favorable health-building and work building month in many respects. It will be a good time in which to deal with servants or inferiors; and changes or improvements in your work or business will also be favored. More peaceful and fortunate conditions in these matters will be realized. In case of ill health or sickness (and you are apt to experience this now), you will have more love and care than usual.

AND, that prevailing trend of DISAPPOINTMENT in pleasures planned or amusements desired will not be so heavy this month. The anxiety you felt in January over someone you love and over the organization of your business interests will not be so strong now. Solid, conservative progress and the laying of new plans, the stimulation of ideas and creative faculties should all be emphasized for you this month. Anything connected with travel, acting as a go-between or ambassador for another, publications, writing, buying and selling and improvement of your environment will now be favored.

The need to sacrifice for OTHERS, to experience disappointment in others will not now so strongly be demanded of you. REAL GAIN through friends and those who care for you is now indicated. Plan to expand your social and personal life this month; but try to keep sensible and don't be indiscreet. That will be your difficulty all through early 1937: trying to use restraint and good judgment!

Favorable days: 1, 2, 3, 6, 8, 12, 15, 16, 21, 22, 26, 27, 28.

Unfavorable: 4, 5, 7, 9, 11, 18, 19, 20, 24, 25.

The February Outlook for Sagittarius

For Those Born Between November 21st
and December 21st

MANY favorable conditions should begin to manifest themselves in your life with the beginning of this month. Some adverse circumstances will still exist, but a new and smoother outlook will lie ahead for you.

I want to tell you about Mars and its influence before outlining the more favorable vibrations of February. Mars occupies a rather dangerous position for you, as a Sagittarius person. When this planet is in the sign it occupies until March 13th, it intensifies resentment, anger and irritation; it brings contact with hospitals and places of confinement; secret enmity or imposition of others tends to stir your wrath and ire. Someone you love is apt to be a source of sorrow or disappointment for you. **SMOLDERING WRATH** or emotions is the keynote of this vibration. Mars will be adverse to you, kindling these things which I have indicated as a threat to you, on the 4th, 7th, 18th, 19th and 25th. Have your health built prior to January 14th, if possible, and then protect yourself and your welfare at the times I outline as unfavorable. This is no planetary vibration with which to trifle, so exercise discretion and try to promote general peace and optimism at these times when Mars is adverse to you.

And now for good news! Jupiter, stimulating earning power, finances and money matters, will benefit you all this month, except on the 11th and 20th. On that date, waste of money, extravagance and rising expenditures should be avoided. When Jupiter is favoring your financial prospects, you will find obstacles removing themselves from your money-road. Important financial days for you this month are the 2nd, 5th, 21st, 22nd, 26th and 27th. Secret dreams will begin to be realized. Gains through past investments and through new business expansion and increasing good fortune in business matters are indicated. This will be one of the auspicious times of 1937 in which to promote financial well-being. Marked gains in earning power or money are indicated. Push

all financial matters at this time. Trips, new plans, agreements, collection of money will all be stimulated by your stars during February.

Relatives and neighbors may be a source of concern, annoyance or trouble for you this month. Bad news and quarrelsome news are indicated on the unfavorable days. Try to avoid trouble, particularly in communicating with others, and in travel. Definite accident vibrations will operate in your life through short trips.

Venus will stimulate pleasures, amusements and romance in your life. Things and people you love will be very important to you. An increased sense of well-being will permeate your outlook. Speculation and investment will appeal to you. Friends and social matters will intrigue and attract you. Children or younger people will be important to you in your plans for the future. You will find more happiness existing in your life now. Your magnetic attraction will be greater.

This month will be a period in which to build your foundations of the coming year. The plans and dreams you have longed to put into operation can now be advanced. The arrow of your aspirations will not be stopped in its flight, now, as it has been in past few months. New honors and marked improvements in your business, emotional life, pleasures, social activities and money interests will all be stimulated.

Your ambitions are going to be important to you now. Peculiar and unusual experiences can be expected during this month as destiny begins to flash upon the screen of your life many unexpected achievements, surprises and opportunities. Promote your financial and business welfare, by all means, now.

Favorable days: 1, 2, 3, 5, 8, 10, 15, 16, 21, 22, 23, 24, 26, 27, 28.

Unfavorable: 4, 6, 7, 9, 11, 14, 18, 19, 20, 25.

The February Outlook for Capricorn

*For Those Born Between December 21st
and January 21st*

■ ■ ■

YOUR personal life and plans will be activated in an important manner all this month. Improving health, a happier mental outlook and a more optimistic trend of affairs in your life will exist. Changes, a breaking up of old habits or ideas and improvement in work, health and personal affairs, can be expected between the 1st and 10th. On the 11th you may experience conflict with another person or find an old condition ending or breaking up. Guard your health and avoid trips or changes on the adverse days of February. New personal advantages and opportunities can be expected. Improvements in your appearance, health and morale can be expected.

Your finances and earning power may be a source of quarrels, friction and concern to you as the month advances. The Sun and Mercury will affect the part of your birthday-chart which rules "earning power and finances."

These matters will be activated in a drastic manner during the month; you will be more ambitious, want and need more money and find financial interests occupying your time and attention. Do not, however, try to collect money owed you, make agreements or changes which could affect finances, or let indiscretion cause you to waste money. These things are indicated. On the 4th, expenditures will be heavy; quarrels and trouble with others may exist. Sudden tension will affect your financial and money interests. On the 18th and 19th, health and work may prove expensive, and you should be careful to avoid loss or strain of credit. Speculative or investment matters could prove expensive at these times. Otherwise, the month is favorable for gains in financial, business and personal affairs.

Mars is the interesting factor in your personal life now. It will affect friends, acquaintances and all social matters. Quarrels with friends will occur, strain on the heart-ties and friendships can be expected on the 4th, 7th, 11th, 18th and 25th. Danger of accident or sickness for a friend will exist. With the exception of these dates, you can expect gains through

powerful friends, organizations and associations. Trouble can be expected during February, but if you "use your head" you will find powerful forces working to aid and benefit you. Your ambitions will be strong, now, and you will be more aggressive. Try to use reason and discretion in all personal dealings with other people. If trouble through or with others arises consider it a "house cleaning," or temporary storm, and do not take it seriously or act upon impulse.

Uranus will stimulate pleasures and amusements; it will give you a sense of well-being which will be invaluable to you. Unexpected surprises will come to you during the month. A separation or estrangement could occur on the 18th, so don't take risks on that date.

As opportunity comes to you this month, take it. Expect the unexpected. Improving conditions are indicated by your stars, so be ready for them. Old conditions seem to end, while a new cycle and a new era of your life begins. Your personality will be better, now; you will be able to attract the things you need and desire in your life. You can expect definite improvements in your personal and emotional interests. A new friend will come into your life now, aggressive and martial, who may prove very helpful to you.

This month is the auspicious time in which to make reforms, changes and start the new activities you have in mind. On the 21st, Jupiter and Neptune will stimulate your ambitions; good news from a distance will come to you. Old disappointing conditions will begin to break up. New ideas will be real and powerful. Unexpected opportunity and change (probably travel) is shown. New studies are indicated; legal matters are favored.

Favorable days: 1, 2, 3, 5, 8, 10, 12, 13, 15, 16, 21, 22, 26, 27, 28.

Unfavorable: 4, 6, 7, 9, 11, 14, 17, 18, 19, 20, 25.

The February Outlook for Aquarius

For Those Born Between January 21st and
and February 19th

A SOMEWHAT unusual and exciting month lies before you. Many unfavorable conditions will exist, while a few adverse happenings or circumstances which are indicated can be avoided if you are forewarned.

Mars now stimulates and affects your present position in life. Your credit, dealings with the public, with superiors or those in positions of authority will all be activated by Mars. Trouble with others, quarrels with business persons and those in authority, and strained credit is indicated. Do not over-expand, for this feature will be dangerous during the month. The danger of accidents, cuts, burns and trouble with others will arise on the 4th, 7th, 11th, 14th, 18th, 19th, 20th and 25th; but since Mars is adverse to you until March 13th, try to remember this influence at all times.

Venus will stimulate short trips, reforms and improvements in your environment. Happier conditions will exist in your relationships with others. Some close contact with a relative or someone you love is shown; good news and gain from others coming to you in letters or communications from others is shown. Your creative talents will be stimulated in an unusual manner; reading, writing and all mental interests will be cultivated now. You will be more optimistic and find more harmony in your surroundings. Pleasure trips will be taken. These matters are favored except on the 20th.

Unseen reforms and improvements will be undertaken in your life. Health and physical matters will require your attention. Some contact with a hospital or place of confinement may occur. Improvement of your appearance and your health will be undertaken. Protect your welfare and health very carefully on the 11th when your health and work is apt to be adversely affected by bad news concerning the troubles or losses of another.

You will be able to make friends of your enemies. That sense of disappointment which

you have felt in your association with others for so long will be leaving you. A somewhat secretive friendship will now be entertained. You will be realizing new ambitions and the aid of powerful forces will come to you.

Financial matters will be on a conservative but favorable basis during most of this month. Try to let good fortune COME TO YOU now rather than force matters. Lack of restraint and care will be the features to avoid, for these will cause any difficulties you may now experience.

Neptune will benefit your ability to gain through and from other people. Amusements, social matters, pleasures, romance, children and partnerships will be sources of gain. A somewhat secretive or hidden speculation or chance you take should prove remunerative. The health, finances and affairs of someone from whom you expect to gain will be stimulated during this month, particularly on the 21st. The realization of a financial ambition of long standing will come to you. Finances, earning power and money matters will present a new picture to you; opportunity to gain in partnership and in dealing with others is indicated.

You will feel nervous and restless as the month advances. A feeling of rebellion at existing limitations or restrictions must be controlled. YOU will be the controlling hand at the steering gear of your life, as it were. The desire for change, excitement or new experiences must be counteracted by steady reasoning. On the 4th and 18th, particularly, try to use your innate good judgment, guarding your health and welfare, and avoiding quarrels, separations or estrangements. Upsets in the home and business can be expected at these times.

Favorable days: 1, 2, 8, 9, 10, 12, 15, 16, 17, 21, 22, 26, 27, 28.

Unfavorable: 4, 5, 7, 11, 14, 18, 19, 20, 24, 25.

WITH a new month facing you, new conditions can be expected. Venus begins now to stimulate and improve your finances and earning power. Its harmonious rays will favorably influence your ability to make money or enhance your financial affairs. Try to avoid extravagance or waste, however, on the unfavorable days. Unexpected financial favors and opportunities can now be expected.

Secret enmity will harass you on the 4th and 18th. Bad news and contacts with hospitals or places of confinement may arise. Legal matters will NOT be favored on the 4th and on other unfavorable days of February. Secret matters should be carefully avoided during February although this may not possible, for a strong element of secrecy runs through your life during the entire month.

Sudden changes, new activities, unexpected, exciting news and improvements in your environment and surroundings can be expected. New ideas will be favored. Changes can be undertaken with enthusiasm and realization of success except on the few unfavorable days.

Your friendships will seem to be very valuable now; and they will be. You will gain through powerful people in a position to benefit you. Your income, earning power and financial outlook will be greatly favored. Your own position in life will be enhanced and improved. Definite happiness through others is shown for you. Matters depending upon the favors or cooperation of others should be advanced on the favorable days. perienced. Business, credit, finances and an improved position in your life can be expected. Marriage matters and partnerships for the first time since 1929 begin to "get a break" and prove more harmonious to you. Your contacts with the public will be agreeable and favorable. That sense of confusion, disappointment, chaos and disillusionment will not exist for you.

Try to accomplish and achieve definite results in your life during February. Don't waste your time, for the month is valuable for you. With March another series of difficulties may test you, but you can avoid many of those by your accomplishments now. Advancement and rise in life is definitely indicated by your stars during February.

Your interest in mental and creative features will be favored now. Any IDEAS which you have to promote can receive attention and favor during this month. You will be more in the limelight, and your personality and appearance should be "polished to a high point" so that there will be no possibility of your failing to achieve the new gains or favors promised by your stars.

Don't be afraid of romance and personal happiness now. Try to expand your life so that you can be in a position to attract new people, new things and new favors. Plans for travel, change and unexpected new conditions are the outstanding features of your life now; so, don't let delays or hindrances discourage you.

You are now beginning to experience conditions which promise the realization of your hopes and wishes.
