ASTROLOGY SCORES again! The stars speak, and "Tomorrow's Headlines" (which brings tomorrow's news today) once again makes a scoop of an event of world importance!

While the world speculated and wondered about the fate of Ethiopia and of the little emperor of the last African state to lose its independence, the APRIL ISSUE OF ASTRO DIGEST MAGAZINE had reported, weeks before the actual event itself, what would occur.

COMING EVENTS DO CAST THEIR SHADOWS BEFORE, and Astrology interprets those coming events!

On page 12 of the April issue of our "Astro Digest" magazine, which gave predictions for 1936, you will read a prediction which was written in February, 1936, as follows: "Italy's military activities against Ethiopia will increase in violence and power. Haile Selassie will be an exile."

As the July issue of the "Astro Digest" magazine is being written, (May, 1936), newspaper headlines reveal the fact that the former Emperor of Ethiopia, Haile Selassie, is an EXILE, fleeing from his country.

We are glad indeed that "Astro Digest" magazine has once again scored in faithfully reporting "Tomorrow's News" weeks before the actual happening.

While the earth is busy speculating about "what will happen next", the Astrologer is occupied in deciphering the signs in the sky and in learning what WILL happen next. There's a story in the skies clearly written for all to discern and profit by, but the world goes plunging madly on, buffeted by each wind that blows.

The song tells us "It's written in the Stars", and I repeat the words, above, of this popular melody which preaches a message far truer than one perhaps realizes.

Your story of life IS written in the stars, and Astrology will translate that story and message of the stars for you.

Keep on reading "Astro Digest" and you will read amazing predictions of coming events in each monthly issue, as it is edited by your Astrologer.

THE INFLUENCE OF URANUS UPON CANCER BIRTHDAYS

For Those Who Have Birthdays Between June 21st and July 23rd

UNTIL 1942, a strange planetary influence is exerted in your life by the planet Uranus, "the Awakener" and the planet of CHANGE, makes a favorable aspect to the SUN in the Cancerian lives until 1942. This is an aspect of change, awakening of new, improved conditions and revolutionary reform in one's life.

The word "revolution" simply means upheaval and change. Whether this revolution, change, or upheaval occurs through adverse or benetic changes depends upon the aspect received from Uranus. In your lives, as Cancerian birthdays, you are promised revolutionary change through benefic happenings and through new opportunity.

If you were born between June 21st and July 1st, Uranus is favorable to change and it brings new opportunity and awakening of success into your life during 1936 and 1937. If you were born between July 1st and 7th, Uranus is most favorable to you during 1937 and 1938. If you have a birthday between July 7th and 15th, 1938 and 1939 will be the years of revolutionary opportunity and sudden change into a new era of your life. Those of you whose birthdays fall between July 15th and 20th will find Uranus changing your life completely during 1939 and 1940. The birthdays lying between July 20th and 23rd will find complete changes coming to them between 1940 and 1942. However, Uranus throws a wide orb of influence from 1936 through 1942, into the lives of all who have birthdays between June 21st and July 23rd.

An awakening of new power and talent is experienced. The desire for freedom and expansion will bring you to a higher position in life. This Uranus vibration is particularly favorable for political success, between 1936 and 1942,

for those who are born with THE SUN IN CANCER. Whatever talents you have will be expressed in a successful and harmonious manner. It is an influence which brings rise in life, not a fall, and NO Cancerian person will experience mediocrity during this Uranus-ruled period of his life.

A strong magnetic attraction will be distributed through your affairs. Friends should become the cornerstone of your building now, for it is through your friends, social affairs, acquaintances, those who care for you and those who are attracted to you in a new magnetic manner that you will find an easier road to success and accomplishment. Increase of business income will come to you. Gain through the money and the favors of others will be experienced. No longer will you seem to wander in that friendless desert where you were a few years ago, but will find it possible to attract others to you in a remarkable manner. You will have a more unselfish attitude toward humanity and will be given the opportunity to do some remarkable work for the masses, in general. Your ambitions are changing. A few years ago you worked to build the foundation of a career, profession or standing in life. You experienced rough and heavy "going", but now you begin to note that you may have built better than you knew, for improved income from business comes to you from Uranus.

A new epoch and a new era of your life comes to you through this planet. It means CHANGE, and you must be ready for opportunity coming to you from others and through business achievement.

Build and take advantage of Uranus NOW. Its trend favors your life until 1942, and then its current begins to twist and wind into a new department of your life which will present a new design for living.

Eclipses

"There Shall be Signs in the Sun and in the Moon"

ECLIPSES HAVE always had a queer effect on man. History tells us of the superstitious dread and awe the ancients felt when an eclipse occurred. We of today no longer think an eclipse important, except to study it from an astronomical viewpoint. But if man, and woman too, only realized the significance of the Sun and Moon in our earth lives, we might attach greater importance to those peculiar signs in the heavens, which occur at the time of a solar or lunar eclipse.

Just for curiosity's sake, of course, let us study what astrology has to tell us concerning an eclipse. Now, of course, I don't expect you to believe that the Sun or Moon have any effect upon the earth. Why, of course not! No effect at all, except to regulate our seasons, control our atmosphere and thus affect our weather, cause droughts and their resultant depression conditions, affect man's health and degree of vitality. No, the Sun and Moon have "no effect upon the earth" nor "upon man"; they are just wasted matter, out there in space, shining for the lovers, cursed by the hiker and wondered about by all.

Well, fortunately, Astrology attaches more importance to the massive material structures in celestial space! And I say "fortunately" for, because of Astrology's analysis of these celestial influences, people are being helped, blessed, encouraged and INSPIRED to "let the stars light their way" upward toward the heavens, rather than let ignorance keep them blinded to the effect these celestial bodies have upon the earth and, consequently, upon earth dwellers.

A total eclipse of the Sun occurs on June 18-19, 1936. This solar eclipse falls in twenty-seven degrees of the mutable, airy sign of Gemini. Mars, Venus and Mercury are also close upon the heels of this eclipse, occupying the same sign of Gemini.

Mundane Astrology teaches us that a solar eclipse falling in the last decanate of the sign of Gemini indicates the "death of a king and many troubles to the country".

Countries of the world which are ruled by the sign of Gemini are: the United States, Belgium, Egypt, Western England (AND LONDON).

Solar eclipses falling in mutable signs, such as Gemini, cause labor troubles, strikes, increase of crime, epidemics and want. Religion and education are disturbed. Accidents in travel, on sea, in air and on land, are increased.

Eclipses in airy signs, such as Gemini, are said to create high winds and destructive storms. Congress and legislative bodies are unfortunate. Party splits occur and legislative bodies fail. Foreign affairs cause great trouble, and treaties and alliances between nations are broken.

The solar eclipse in Gemini occurs June 18-19, 1936. Watch your newspaper headlines and note the quickening of such events as are here related to be produced by the effect of eclipses in Gemini. **DO YOUR OWN RESEARCH WORK**, for, after all, if there is anything to Astrology, you want to know it; and the best

way to determine the value or worthlessness of this science is to study it, apply it, and investigate it.

On July 4, 1936, a partial eclipse of the Moon occurs, falling in the sign of Capricorn. This eclipse falls in the second decanate of the earthy cardinal sign of Capricorn. Mundane Astrology informs us that a lunar eclipse falling in this portion of the zodiac foretells invasions; it is said to injure the crops, produce, and fruit of the earth. Business is depressed, trade and agriculture suffer and troublesome financial problems arise. Drought may follow. Statesmen and rulers are adversely affected. An eclipse in a cardinal sign, such as Capricorn, is said to signify great political changes and to affect national trade.

Now, to more fully understand the EFFECT of a solar or lunar eclipse, read on: At the time of an eclipse, a mechanical, gravitational strain is set up in the earth which also has a corresponding effect upon human vitality and energy. If either the earth or humanity is too weak to offer resistance to this increased rate of vibration or gravitational pull, then a collapse or "snap" is the result. The REACTION of matter to this electrical force is the real cause of the EFFECT produced. The eclipse or planet analyzed is the "signifier" or source of the energy producing the force or wave.

An eclipse, either solar or lunar, redistributes energy and indicates changes in the distribution of energy, whether it be of a physical or a mental nature.

On December 13, 1936, an annular eclipse of the Sun occurs, falling in the fiery, mutable sign of Sagittarius.

In 1937, there will be three eclipses, two of the Sun and only one of the Moon. Another total eclipse of the Sun occurs in Gemini on June 8, 1937. This solar eclipse falls in another part of the sign than does the eclipse of June 19, 1936. Mundane Astrology tells us that an eclipse such as the one of July 8, 1937 signifies "religious strife and hatred, dissension between religions and various denominations, and brings contempt for the laws of God and man".

A partial eclipse of the Moon, occurring on November 18, 1937, falls in the last decanate of the sign of Taurus. This eclipse will have a devastating effect upon insects and all creeping things. Ancient astrology brings us information concerning this eclipse in "The chief effects will be manifest among snakes and creeping things which will perish by the millions".

The annular eclipse of the Sun, occurring December 2, 1937, falls in the first decanate of Sagittarius. The ancient records bring us the information that this influence "brings much dissension and hatred among men".

The eclipses of December, 1936 and 1937 will particularly affect Spain, probably restoring the monarchy and spelling the ending of the hectic reign of the present republic. These eclipses falling in the fiery sign of Sagittarius also spell trouble for Arabia and seem to arouse the Arabs and Turks to new atrocities and violence.

Ah Love! Could you and I with Fate conspire

To grasp this sorry Scheme of Things entire,

Would not we shatter it to bits—and then

Re-mould it nearer to the Heart's Desire!

ALMA CRAWFORD GRANING

JULY IS a month in which we may expect to see the wheels of industry and big business turning in a new, substantial manner. A definitely favorable up-turn to business and commerce is indicated, despite a great many internal and external developments which may arise from time to time. It is quite definitely a money month. A new era of events may begin to outline a promise of greater prosperity. Huge plans for business promotion will be put into action.

The first important planetary happening of July is the retrograding of Saturn, which occurs on July 3rd. Now we won't see Saturn's changing position in the skies, but we will definitely feel its influence, for when Saturn retrogrades, it is like having the safety brakes applied to a speeding vehicle. The death of important men who hold, or who have held, high governmental offices, may occur. State officials and governors will be adversely affected by deaths or serious illness. Loss of power and prestige of important persons of the country will occur. Prisons and public institutions will cause trouble, and sensational happenings will occur in these places.

Adverse conditions will affect relief and welfare matters.

Saturn's vibrations, when adverse on July 3rd and 4th, bring a lowered, fearful outlook upon life and business. This is apt to be a really violent and dangerous Independence Day. It will be wise for us all to offset this vibration of Saturn by cheerful application of common sense and optimism to our outlook and activities. The words of Solomon "In the day of prosperity, be joyful. In the day of adversity CONSIDER" should be applied on the 3rd and 4th, the two days when Saturn will check us up and test the foundations of our lives. Mercury is square Saturn on the 4th, and since this aspect culminates at 1:31 A. M., it will cause the 3rd to be colored by this Saturnine dullness. Mercury square Saturn disturbs transportation and travel and indicates dreadful travel disasters. Governmental interests will be adversely affected; trade, commerce and business will be retarded. Fraud, thefts, secret crimes and financial worries will be intensified. Storms will be very severe. Fires will be devastating.

July 4th seems to mark the upswing for July.

for after the unfavorable aspects of the early morning hours, Venus and Neptune begin to stimulate new confidence. Adverse conditions still continue, however, despite the shining rays of new vibrations which begin to filter through to us. Politics, foreign affairs, finances, sensational deaths and revolutionary upsets in public affairs seem to be outstanding events during the first week of July.

With the 6th, the Sun begins to stimulate business and industry. Improved public confidence will be noted, and progress can be made until the 15th. With the 15th of the month Mercury comes to a conjunction of Mars which will produce really exciting events.

Drought conditions seem to affect many parts of the country. High winds and destructive storms will create much wreckage. This will, of course, affect the farming districts, but, on the whole, increased prosperity is indicated for agriculture and the farm belts this year.

July 18th marks the New Moon, which rules the ensuing thirty day period. This Lunation falls in the "house of government and national affairs", and will greatly stimulate American activities around the world. A definite influence of prosperity, military activities, huge spending and stimulation of business and national affairs will be the result. July is a money month where activity of new financial measures will act as a stimulator to money.

The month may be considered favorable for successful progress and good returns until the 22nd, when adverse influences begin to affect the earth. July 22nd, 23rd, 24th, 25th, 26th and 27th will be the unfavorable days of the last half of July. This period is very dangerous for public welfare and safety. Uranus will create an electrical wave of suicides, murders and violent deaths. Death of some statesman is quite definitely indicated. Questions of financial relations with foreign powers will be chaotic and disturb our national welfare. The deaths of famous actors and actresses will create a sensation during this time. Women connected with the government or White House will be adversely affected.

Military and war rumors or activity will be to the fore all during July, particularly so on the 15th and from the 18th of the month on.

July 28th through 30th will be a very favorable time, in which Mars and Saturn, Venus, Mercury and Jupiter will benefit the world. Stimulation of business, labor, agriculture and transportation interests will be to the fore; stock prices should rise.

For the Summer Quarter, we find strong indications of unusual activity in business, industry and commerce. No "summer slump" is indicated here, on the whole. Jupiter's position, at the beginning of the summer quarter, favors agriculture and interests of the people. Earthquakes, storms and adverse conditions for crops will be noted on July 1st, 26th, August 16th, 19th, 29th, 22nd, 25th, September 8th, and 11th through 27th.

September, after the 5th, seems to be the adverse month of the Summer Quarter. Jupiter makes two squares to Neptune during the summer season—one on July 26th, the other on September 20th. Jupiter square (adverse) to Neptune disturbs national peace and order, and brings confusion into public affairs. It signifies a struggle between the various classes of society, and is definitely significant of strange political frauds and upsets. Treachery, fraud and strife will be stirred between various nations. Popular political discontent is the keynote of this vibration.

The deaths of important political men may change the political outlook during the summer.

A keynote of the summer season will be the impetus given to remarkable scientific discoveries. Some great treaty with a foreign power will create a sensation. Explosions and disasters on ships at sea will be another feature of this quarter. Warlike conditions abroad will affect our shipping and foreign trade.

Crimes against women and children will be prevalent during the season. Women criminals will be featured. Our nation may be involved in foreign affairs to its detriment.

LONDON: Trouble for colonial affairs of Great Britain is indicated. British ships will be affected by fires, explosions and disasters. Uranus will bring well-directed enmity against this empire, and her foreign treaties and alliances will be revolutionarily changed. Noted theatrical persons will die. The death of roy-

alty will produce mourning. For the Summer Quarter, Jupiter will benefit finances of Britain on the whole.

JAPAN: Saturn holds a death grip upon this island empire at the beginning of the Summer Quarter and at times through the season. It occupies an ominous position, rising over Japan at the beginning of the new Quarter. It signifies the "clamping down of the lid" upon the public in general. A cold, dissatisfied, sorrowful outlook will be experienced by the Japanese. Fires and earthquakes will make themselves felt through the islands. Troubles for the government will be multiplied. Japan's finances will be fluctuating and provide repeated sensations in the world's financial news. Scandals in naval and military circles will occur. Much secrecy will surround Japan's naval and military activities now.

RUSSIA: Deaths of prominent leaders will occur. Unusual developments in military matters will be reported. Aviation disasters are indicated, but tremendous advancement in science and aviation is forecast for this Quarter. Commercial treaties with other powers will be made, but Russia's foreign affairs will be confusing and troublesome now. Diplomacy will be the keynote of Russia's affairs with other powers, and a serious diplomatic blunder may precipitate trouble for this country. Fire will cause serious damage through Russia. Her crops will be badly affected.

BELGIUM: Death of royalty is indicated for this Quarter. State affairs will be disturbed, although financial progress will be made by this small, but courageous, nation.

For ALL of Europe, disturbances in church and religious affairs are indicated, with important changes occurring and new importance being attached to ecclesiastical dignitaries.

ROME: Definite changes alter Italy's outlook during the summer. A militant, warlike spirit will produce revolutionary troubles for her. She becomes increasingly aggressive. Church affairs will be exciting, and changes will occur in ecclesiastic affairs and personalities. Death of royalty or of church and state leaders is indicated. Foreign financing of Italy will be secretive, and Italy's threat of economic collapse will be fore-stalled by foreign powers. The danger of European war exists all during 1936 and early 1937. Fires and quakes strike at Italy.

BERLIN: Religious dissension and troubles confront Germans during this season. Europe seems to quite definitely be the source of warlike rumors and danger during the year and particularly so during the summer. Germany will continue to be aggressive, but may be weakened now by the deaths of important leaders.

Uprising of the masses in Europe is apt to occur, overthrowing the iron hand of dictatorship.

Wednesday, July 1st. Moon in Scorpio, enters Sagittarius at 1 P. M.

Public affairs will be very prominent today. Politics and national matters will engage our attention. Not a favorable day to start new activities. Favorable for making public contacts or appearances.

Thursday, July 2nd. Moon in Sagittarius.

Radical changes and upsets may be expected

today. Labor will be dissatisfied. Startling political ideas and governmental upsets may occur. Storms are indicated. Protect health. I would suggest that you start only those new activities which you can handle yourself.

Friday, July 3rd. Moon in Sagittarius. Saturn retrogrades at 11 A. M.

Deaths will increase today. Army, navy and aviation affairs will be adversely affected. A sorrowful or sad influence will be felt and Saturn's influence will bring many accidents. A cold, listless and critical spirit will exist throughout the world. A public personage may die. Those who hold or have held prominent governmental positions will be affected by death or accident. Elderly people will be affected very adversely. An unfavorable day for risks or important matters.

Saturday, July 4th. Moon in Capricorn. Mercury square Saturn, 1:31 A. M. Venus trine Neptune, 7:49 P. M.

Another unfavorable day, although business, art and amusement matters will be accelerated. Two vibrations exist during the day. One is favorable for the public welfare, the other is adverse for politics, governmental leaders and national matters. Mercury's square to Saturn is significant of deaths of noted prominent persons, and indicates storms and accidents. Venus' favorable aspect to Neptune benefits those who are interested in philanthropy, and, despite unusually adverse conditions, it works to benefit new ideas, democratic movements and political interests of a popular nature. Aviation disasters are indicated during the night hours. Do not take risks today or subject yourself to danger in crowds or public places.

Sunday, July 5th. Moon in Capricorn, enters Aquarius at 7 P. M.

You will feel limited, cross and irritated today, so try to offset this influence by friendliness and cooperation with others. A day in which health, routine duties and personal affairs will claim your attention. An increase of illness and deaths will be reported. Repression will exist, and an explosive, radical impulse to make changes must not be allowed to express itself.

Monday, July 6th. Moon in Aquarius. Sun sextile Neptune, 12:20 P. M.

A favorable day with many benefic aspects indicating gain and progress. Forge ahead in your new plans. Greater freedom and pleasure can be enjoyed today. Speculation and market activities should be benefitted. A busy and progressive day, with everyone seeming to seek new sources of amusement or activity. A good day for business. Popular, democratic political movements are benefitted under these Neptune vibrations of today. Agriculture, mines, oil, transportation and real estate should profit.

Tuesday, July 7th. Moon in Aquarius, enters Pisces at 11 P. M.

A very important day. The Sun parallels Mercury, which means that important speeches and political announcements will create a stir of interest. Travel, change and bustling activity will mark the day. Buying and selling will be active. Business, commerce and industry should experience definite gains. You should direct your attention toward adjusting or improving business, personal affairs and home and private matters.

Wednesday, July 8th. Moon in Pisces. Mercury enters Cancer.

Mercury enters a new zodiacal sign today and changes the tempo and attitude of the mass-mind. Where restlessness, uncertainty and a critical attitude has existed, the popular mind will now be very active and concerned with business and financial matters. An improvement will be noted in public and private affairs. Business, industry and national prosperity may now be activated. Banks and the national treasury will benefit. Severe storms may sweep the world.

Thursday, July 9th. Moon in Pisces. Mars sextile Uranus.

Favorable planetary vibrations continue through today, so that you can gain financially and in personal or business matters. Make the day count for success and achievement. Big business will be active now, and startling changes and improvement of national affairs will occur.

Friday, July 10th, Moon In Aries.

Very important planetary vibrations dominate the day, favorable for general progress. Science and aviation will produce startling achievements on the 9th and 10th. Finances should be very greatly stimulated. A favorable day for public contacts or appearances. You may realize the unexpected, in progress or happiness, now. You should make this time count for achievement.

Saturday, July 11th. Moon in Aries. Venus trine Saturn, 8:56 A. M.

Early in the morning of today, Venus makes its good aspect to Saturn, which stimulates elderly folks, and which will prove a boon to financial and political matters. Important success comes to a prominent governor. Mines, agriculture, real estate and labor will benefit from these planets. Stocks and bonds will be favored. A day for constructive progress. Start your important activities; buy, sell, shop and go after what you want today.

Sunday, July 12th. Moon in Taurus.

Venus still benefits the earth with its favorable vibrations. Churches, religion and public affairs will be benefitted. A very inspiring and idealistic influence will permeate our lives today. A desire to accumulate and improve one's knowledge or possessions will be noted. Increase of deaths may occur, and travel accidents must be avoided.

Monday, July 13th. Moon in Taurus. Mercury sextile Uranus, 11 A. M.

One of the most outstanding vibrations of the month! Important governmental announcements concerning foreign affairs will be forthcoming. Political speeches will be startling. News will excite the public outlook. Favorable for mental stimulation, inventions and literary

projects. Great new governmental projects will now be started. Business, commerce and industry will all be stimulated. Finances are favored.

Tuesday, July 14th. Moon in Gemini. Sun trine Saturn, 8:38 P. M.

Although a favorable Solar-Saturn vibration dominates the day, there will still be a feeling of limitation or of caution. Elderly people will be benefitted. Agriculture, mining, real estate and labor will be stimulated and benefitted. This is a day when work and business should occupy your attention. Go after work, better business or financial improvement today. If you aren't careful, you may realize what you go after.

Wednesday, July 15th. Moon in Gemini. Mercury conjunct Mars, 10:55 A. M.

And now, the public mind flares high, and Mars stimulates ambition, the fighting spirit and the will to "do or die"! This is a slander and scandal vibration. Law courts will be busy, legislation and governmental matters will be hectic and violently opposed. Crime will increase, and a generally hectic, lawless influence will be promulgated around the world. Raging fires, murders and awful travel disasters will occur. On the negative plane, this vibration is adverse and quarrelsome. It is unusually adverse for politics and national affairs. On the positive plane, mental stimulation and good judgment will be able to work wonders. Pleasure, freedom, excitement, amusement and speculation will be activated today. Use great discretion in all important matters, but try to direct this flaming Mercury-Mars influence into constructive channels. Money and finances will be very important; speculation should boom.

Thursday, July 16th. Moon in Gemini, enters Cancer at 11:28 A. M.

Mercury's favorable aspects to Neptune make today another very active and exciting day. Popular political ideas will be to the fore. Radio will be very important. Travel by sea, air and land will be stimulated. Relief and welfare measures will be benefitted. Commerce, business and industry should benefit. A favorable day for buying, selling or trading.

Friday, July 17th. Moon in Cancer. Venus enters Leo.

A day of changing conditions and vibrations. The best policy to pursue is that of watchful

waiting. Analyze whatever you do today before you do it. Opportunities to progress and to achieve good results in your work or business will present themselves. Labor and employment are favored. Accidents will be more numerous, shipping and naval matters will not be favored. Suicides and mysteries will increase. Keep all your affairs open and above-board, and guard health.

Saturday, July 18th. Moon in Cancer, enters Leo at 5 P. M.

The Sun parallels Venus today which is very favorable for finances and money. Today begins a New Moon or Lunation, which rules the ensuing thirty-day period. Money and finances will be to the fore, and this is a very favorable financial day. Plan to increase your income and start new financial activities today, if possible. Stupendous governmental changes will now begin to occur. Business, commerce, industry and employment will all be greatly stimulated. Speculation should be very much favored. The government will be very fortunate.

Sunday, July 19th. Moon in Leo. Mercury trine Saturn.

Another favorable day, and you should make important plans now to start new activities and to progress rapidly and successfully in realizing your ambitions or plans. Travel is benefitted. Writing, communications, news and literary achievements are favored. Health should improve. Outstandingly important public appearances of leading statesmen will occur.

Monday, July 20th. Moon in Leo.

A new new day and a new week! A continuation of favorable vibrations is slated for today. New ideas, new plans and new action upon your plans should be your pattern to follow for today. A favorable day.

Tuesday, July 21st. Moon in Virgo.

Begin to slow down, now, for the highly invigorating and favorable vibrations of the past few days are beginning to fade. You can still forge ahead in your plans and activities today, but should plan to retard new activities requiring your attention after today. Important news may be received. An increase of death notices, a feeling of inertia or tiredness and fatigue may be felt. An interest in one's personal or private life will be uppermost.

Wednesday, July 22nd. Moon in Virgo. Sun adverse Neptune, 3:49 P. M. Sun enters Leo, 7:18 P. M.

And an old period closes, while a new begins. The Sun enters Leo in the evening for a thirty-day period. Today's vibrations are adverse. Peculiar mysteries will be reported. Prison episodes will be unsavory and prison plots will be revealed. Mysterious crimes, poisonings and frauds will occur today. Foreign affairs will be adverse, and an element of treachery and secret plotting will pervade public affairs. Scandals may affect public personages. An adverse day for business, financial or personal activities. Guard health and work carefully. Welfare or relief matters will be adversely affected.

Thursday, July 23rd. Moon in Virgo, enters Libra at 11:31 A. M. Mercury enters Leo.

Mercury follows the Sun into the fiery, fixed sign of Leo, and as it does so, it makes an adverse aspect to Neptune. This is very unfavorable for governmental affairs. Foreign entanglements will arise, public personages, administration leaders will be involved in troubles and difficulties, if not actual danger. Riots and strikes are indicated. Prison escapades, crimes, mysteries, poisonings, suicides and frauds will be stimulated. Avoid self-deception or fraud from others and protect your health. Work and employment will be adversely affected. Finances are not benefitted. An element of fear and foreboding will be felt. News will not be reliable. Storms will sweep the country on the 22nd and 23rd.

Friday, July 24th. Moon in Libra.

Today is one of greater pleasure and freedom. A desire to enjoy life, travel, and to experience change and variety will be felt. Follow your impulses with canny judgment and caution, for Venus and Uranus color today's vibrations with adversity. Many deaths may occur, and a famous actor or actress may be taken by sudden death during this week. Violent and peculiar accidents and deaths will threaten many prominent people. Earthquakes will be reported. Women will be very unfortunate. Finances and Treasury matters will be unfortunate. World affairs may now reach another crisis. Gambling and speculation will be riotous.

Saturday, July 25th. Moon in Libra. Venus square Uranus.

Dissatisfaction among various classes of society, riots and strikes will be reported. Family, social and marital life will be disturbed. The beautiful spirit of fellowship and harmony will be rent asunder by revolutionary, erratic and ruthless acts. Romance is not favored. Pleasures and amusements should be avoided. Speculation is very adversely affected. Foreign financial affairs will be a thorn in our American flesh. A very adverse day for aviation.

Sunday, July 26th. Moon in Scorpio. Jupiter square Neptune.

Another very unfavorable day. Jupiter and Neptune color today's vibrations with travel disasters, scandals and peculiar financial deals; aviation accidents will increase. Storms and earthquakes will cause much damage. Prisons and public institutions will be swept by riotous waves of rebellion or very sad and unhappy conditions. Public health is not favored today. Postal affairs will be adversely affected by mysterious crimes. Another kidnaping is apt to occur now. Foreign affairs will produce fear and public tension. Welfare and relief matters will create scandals, riots and dissatisfaction. Crime will increase. Jupiter will adversely affect religion and religious leaders of the world. A famous judge will be taken by death. Oil, mines and agriculture will be affected in a trying, retarding manner. Protect your property or valuable possessions and personal welfare under these vibrations arising between July 22nd and 27th.

Monday, July 27th. Moon in Scorpio. Mercury square Uranus, 10:27 P. M.

Another very unfavorable day. These vibrations will be adverse for the Administration and for governmental security. Foreign and financial affairs will create tension. Political disputes and party splits will occur. The death of a statesman will threaten. Violent deaths will occur throughout the country. Aviation disasters will be multiplied. Do not start new activities or undertakings and protect your personal welfare.

Tuesday, July 28th. Moon in Scorpio, enters Sagittarius at noon.

Favorable vibrations dominate today, so that after the storm of the past week you can now review your mistakes or the wreckage and begin to "clean house." A fine day for public contacts or appearances. Mars' good aspect to

Saturn today will stabilize agriculture, labor and industry, and greatly benefit the country as a whole. Military matters will be very prominent.

Wednesday, July 29th. Moon in Sagittarius. Venus trine Jupiter.

Very beneficial vibrations rule the day, and a particularly happy and harmonious influence will stimulate your activities. Travel and communications will be favored. Finances will be stabilized. A splendid day for new ideas and new plans to be put into activity. Emotions, romance, personal happiness, finances, business and life in general is benefitted today.

Thursday, July 30th. Moon in Sagittarius. Mercury trine Jupiter.

And now, today, Mercury comes along to benefit the earth with favorable aspects. Business, industry and commerce will be stimulated. National affairs will be very prominent and beneficial, as a whole. Stimulation of new progress is indicated. Travel is favored. A very favorable day for buying, selling, and general business.

Friday, July 31st. Moon in Sagittarius, enters Capricorn at 9:23 P. M.

No unfavorable planetary vibrations rule to-

day, but a generally restless and uncertain vibration will begin to be felt, due to the adverse conditions of change and revolutionary, erratic happenings which are being transmitted to the material plane on August 1st. The Sun comes to a square aspect of Uranus late on August 1st, so that you should not let recklessness or poor judgment cause you to start matters now which you cannot finish or protect on the 1st. Prominent legislators or statesmen will be affected by sudden death, and financial upsets in foreign governments will occur under the ensuing vibrations of August 1st and 2nd. It will be wise, therefore, to enjoy life today but not to take risks or allow an adventurous, reckless spirit to pervade your life so that you are not prepared or forewarned of tomorrow!

The vibrations of August will be particularly important to each of us. August will be a very hectic and exciting month, one in which public and prominent characters of the world will be more outstanding than perhaps ever before! Speculation will run high; a summer boom may be experienced; much excitement and danger will cause us to run the gauntlet of varying experiences.

Good luck, all of you, until August, when we will meet again through the pages of Astro-Digest magazine.

"Silently, one by one, in the infinite
meadows of heaven,
Blossomed the lovely stars,
the forget-me-nots of the angels."

THE NEW MOON AND THE WEATHER

"The new moon foretells the weather
till her crescent reappears.
Sometimes she is girdled round by halos,
Now three, now two, and now by only one.
A single halo portends wind or calm—
Wind, rudely broken; slowly fading, calm.
Two whirls of halo prophesy a storm;
Three whorls a greater; the most furious blasts
A shattered halo of three dusky whorls.
Such every month the warnings of the moon."

Alma Closes Successful Season On Station XEAW

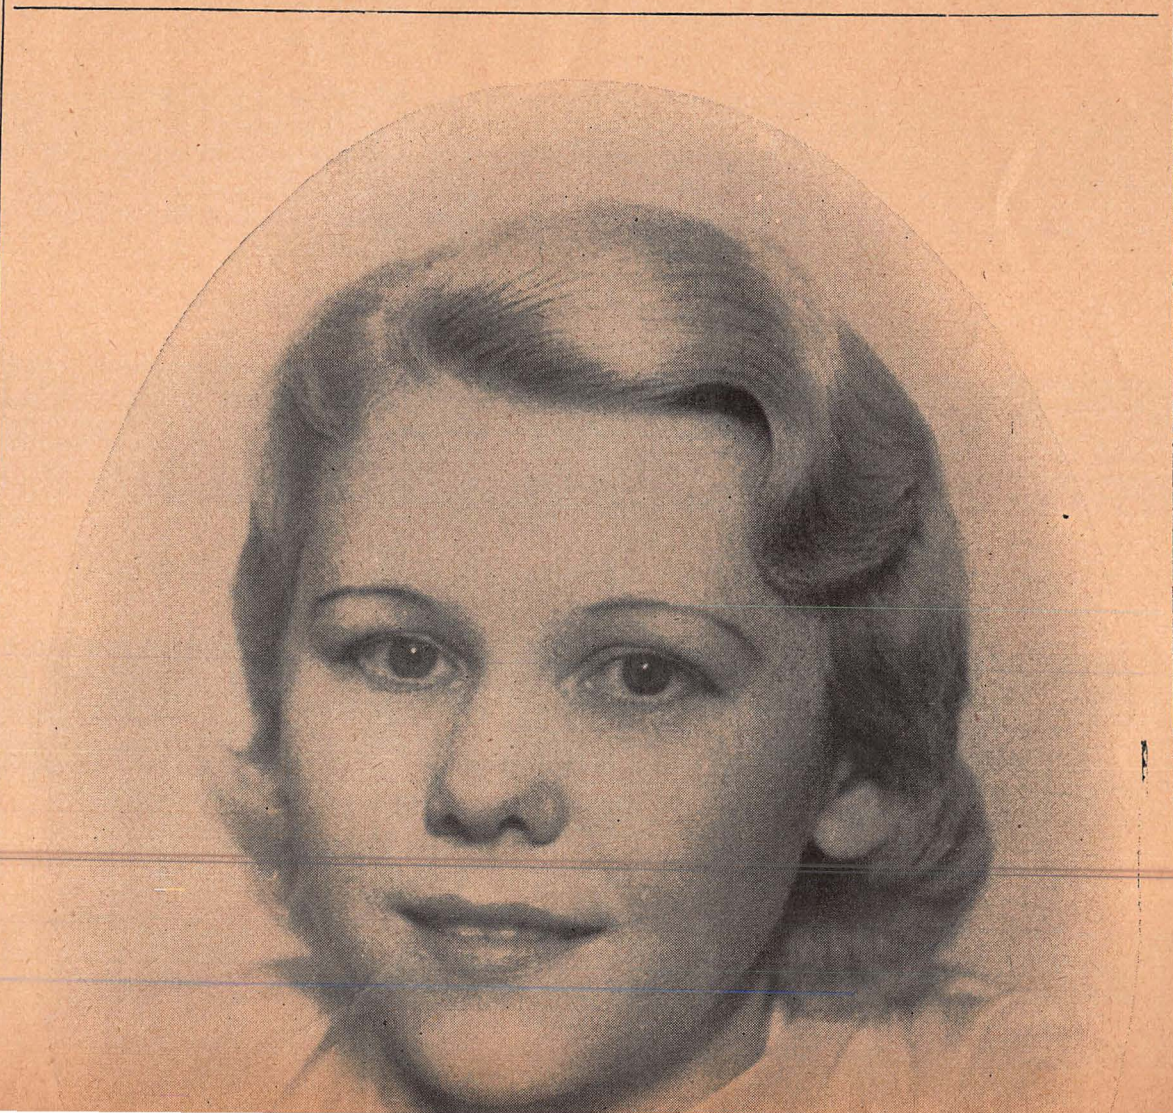

Asrologer Is Recognized As Great Teacher

Mr. and Mrs. P. H. Graning left this week for San Antonio to attend the Townsend Club meeting that is being held at that place. Mrs. Graning or better known as "Alma" is an enthusiastic adherent to the Townsend Club movement.

Mrs. Graning or "Alma", which we shall take the liberty of calling her, has just closed a very successful season over XEAW. Reynosa, Mexico, where she has been teaching scientific astrology to the entire world, during the past few months. It has been said by many who are familiar with this woman's work, that she has the quality of putting more energy and more activity into the twenty-four hour day than any woman living.

Many of us matter-of-fact citizens who have taken our astrology with a grain of salt, have been lead to believe more and more in its principles and its application to life through our radio audiences with her. Thousands and thousands of people all over the United States, Canada and other foreign countries wrote to Alma this past season for her advice and, judging from letters that we have had the privilege of seeing, many of them have been helped by her scientific application of astrology to their personal lives.

The history of Alma Crawford Graning reads like a fairly tale. Though only thirty-three years of age at the present time, she has a knowledge of people and things

ail, erations to store up in the average mind. She was born in St. Louis, Missouri, June 28, 1903. She came from the average American family, her parents were religiously inclined and did Evangelistic work.

An unusual child, though in many respect a common child. She played as other children played, but a portion of her day was used in serious moments with her books, which she loved at a very early date. An English astrologist predicted that the child would become a famous astrologist and bequeathed to her an invaluable library. She began the study of astrology at eight years old.

Her studies were continued through difficulty; as her father was horrified at the thought of rearing a "fortune teller" as he termed it. An amusing story is told by the family who when Christmas time came, asked the girl, Alma, what she wanted Santa Claus to bring her. Her reply was that she wanted all the books that told about the stars among which he lived.

She has been a great lover of sports, out-door sports and animals and she carries to this day, scars of a broken nose which she sustained while playing and participating in children's games. At nine years old she constantly studied the stars and some of the predictions that she made at that time were sufficiently startling and they came true in succeeding rapidity to such an extent that she became famous in her immediate locality. She figured the effects that the moon and other planets have on vegetable life, the moon upon the tides, etc. She studied the effects that the moon and the planetary aspects had on vegetation and upon animal life, and she began applying these effects to humans, and so consistently studied the aspects of the solar system until she has one of the greatest knowledges of astrology in the world.

Her sixteenth birthday was spent

in South America. Fortune favored her by placing her in an environment that enabled her to travel and by her sixteenth birthday she had been practically all over the world. She returned to the United States at the age of seventeen and prepared to enter college. She first attended Ward Belmont at which school she won renown through her knowledge of philosophy, the Bible and astrology. The sciences were her hobby. She studied voice, but never lectured nor spoke publicly until later years. As a child she stuttered and this impediment of speech caused her great embarrassment. She did not like to talk or speak, she wished to write, loved to sing, and above all apply her message of astrology privately.

Her mother was a public speaker and her public speaking career began by accident one night. Her mother was delivering a lecture. She fainted and was carried from the stage. Alma calmly walked upon the stage, held up her hand for attention and finished the lecture that her mother had intended making to the surprise of the audience and everyone who knew her.

All of this is given in an introductory to one of the most remarkable characters that has ever visited the city of McAllen.

When she was 21 years of age, she married P. H. Graning who is now her husband, a man whom she figured to have a harmonious birthday with her, and for twelve years they have been working together and have built up a very remarkable, scientific, astrological reputation throughout the United States. The understanding and the studying of the scriptures, philosophy and astrology by these two people have enabled them to become widely known and their predictions and work in many instances have been phenomenal.

An interesting side-light on Alma is, she has a marvelous memory. She seldom ever forgets a face or a name, or an instance nor a birthday. She has through her life taught herself not to remember unpleasant things, but she always remembers pleasant things and things of value.

Her mind is a veritable file for her clients. She remembers their letters, their problems, their questions and takes pleasure in giving advice and in a remarkable degree her advice is well-taken. She has been publicly teaching, lecturing for 11 years. She was an ordained minister of the gospel at the age of 16 and established her own institution and school in Los Angeles,

California when she was 25. She is an editor, of national renown, an author of many books and edits a monthly magazine which has a world-wide circulation. This girl seems to pack into her days' work more activity than any one human. Her greatest aspirations at the present time, are to take astrology into motion pictures and to establish a great temple of astrology in Washington, D. C. Her hobby and her life's work is to educate the people into understanding their character and to conduct their habits and life according to their character, and be taught to do the things they should do and to leave the things undone that they are not capacitated to do. She believes that when people grow up, understanding themselves, that they will be in a position to make their own destiny instead of stumbling over fate. Alma says that she expects to live to be 100 years old and that when she dies that she may have inscribed upon her tomb the simple words, "Let the stars light your way."

Mr. and Mrs. Graning expect to make McAllen their future home. They will return to McAllen in August for another season over XEAW.

Our Place In the Stars

*"The wise man rules his stars,
The fool obeys them."*

PLANETARY influences upon us are varied. There may be adverse or unfavorable influences swaying our destiny, at various times, as we come under the rays of certain planets.

I have often been asked this question:

"Is it not fatal to foretell the sad, dangerous possibilities designated by the planets if their indications are adverse?"

I have always emphatically answered "No."

"Forewarned is forearmed." By sincere study, by careful observance, by diligent discipline, we can protect ourselves from malign influences or can take advantage of fortunate aspects.

The stars reveal the hidden pattern of our lives. If we are familiar with that pattern, we know it well, we can avoid the pitfalls which might otherwise prove disastrous.

"YOU SHALL KNOW THE TRUTH, AND THE TRUTH SHALL SET YOU FREE."

Too many people, in my opinion, are crying for OPPORTUNITY. Not enough people are preparing for Opportunity, by development of themselves according to their own life-pattern.

By studying the sign under which you were born, and by knowledge of the various planets and their significance, you can work to rule your own life. You can determine your character, set your goal, remove the short-comings, strengthen the good. Your social and successful business abilities can be perfected. The

"weak spots" can be erased and you can **LEARN TO LIVE**, rather than **LIVE TO LEARN!**

There are several branches of astrological study. These may be segregated into three branches, in the final analysis. Astrology is divided into its three branches of Natural, Mundane, and Natal Astrology. Natural Astrology pertains to the action of the sun, moon and planets upon the tides of the oceans, and other terrestrial phenomenon. The climate, atmosphere, seasons, weather, earthquakes, volcanic eruptions, and all earth conditions of this nature, are determined through Natural Astrology. Mundane Astrology deals with planetary influences upon governments, nations, world finance and communities. Natal Astrology is connected with the individual and everything pertaining to man, from his birth to his death or from the "cradle to the grave."

Looking into the "mirror" of the skies, studying the planets and the stars, can strengthen every true student who wishes to profit from **APPLIED ASTROLOGY**.

"Man, Know Thyself," is our divine heritage. Study **YOUR** stars. Find yourself! Exercise your God-given intelligence, to bring to pass the Master's Prayer: "Thy will be done on earth as 'tis in heaven." It is only in knowing divine will, or the pattern existing in our lives, that we can fulfill that will **UPON EARTH**. In the heavens, all is order and system. Upon earth, Divine Will is **NOT KNOWN** and thus it cannot be manifested.

The July Outlook for Aries

For Those Born Between March 21st and
April 20th

SATURN, so long restricting your business, credit and public affairs, is adverse to these things through July 4th. After that date, you can safely forge ahead (if you've protected your interests and welfare through the 4th) in business, credit and financial affairs. Somewhat secretive or quietly laid plans will materialize now, and you will be able to gain greater happiness and good fortune in all personal affairs.

Outstandingly important days to produce good results in business, health building, credit or private affairs, are July 11th, 14th, 28th and 29th. Disappointments of the past or difficulties which have proven restricting to you will not loom so dark nor foreboding as they have in past months.

This is one month in which, after the 4th, you can over-ride troubles, sorrows or restrictions; it will also be the time in which to direct your attention toward any unhappy factor of your life to eliminate it or improve your outlook and prospects.

Neptune, affecting health and work so adversely, will prove to be no thorn in your flesh this month, that is, not until the 26th. From July 23rd through 27th, I want to warn you about stormy weather, anyway, so you will have drawn up to the curb of life and be marking time when Neptune is adverse to you in this period, affecting health and work adversely.

You can forge ahead in a new and happy manner, gleaning good results from your field of endeavors, until July 23rd. Between July 23rd and 27th, "mark time" and refuse to take risks or to become unduly excited about "prospects". Keep emotions in firm control for

things and people YOU love will be chaotic and tempestuous during this time. A great deal of haste and waste will exist, which will prove very expensive for you.

From July 28th through 30th, you can once again forge ahead in your plans and activities, if you slow down for the sharp obstacle Uranus places in your path on the 30th.

Mars is a symbol of excessive enthusiasm and reforms existing in your home and private life. Changes and improvements can be achieved in the home, family, domestic or private affairs, or in handling property or real estate. Gain through land, mines, crops and things pertaining to the earth can be realized by many Aries birthdays this month.

The periods between July 1st and 4th, 23rd and 27th, are adverse because of the conflicting influences which accelerate spending and affect your emotional outlook. Do not accept propositions presented to you during these times if you wish to enjoy clear sailing in coming months. I wouldn't advise pleasure trips or excess of any kind during this time. Speculation or gambling should be definitely side-tracked from your scheme of living during the adverse times of July.

The 28th, 29th and 30th should be definitely favorable days for speculation, happiness, love, romance and gain through those you care for. The 31st brings the Sun and Uranus closer to their square aspect which is adverse for love, happiness, risks, pleasures, speculation or adventures.

Favorable days: 5, 6, 7, 9, 11, 12, 13, 14, 16, 17, 18, 20, 21, 22, 28, 29, 30.

Unfavorable days: 1, 2, 3, 4, 8, 15, 19, 23 through 27, 31.

The July Outlook for Taurus

For Those Born Between April 20th and
May 21st

FINANCIAL deals or money matters are adversely affected for you through July 4th. You should be very careful about making financial promises or agreements and endeavor to guard your earning power and finances until after the 4th. This will be an unfavorable time in which to try to collect money or make trips on business or for financial reasons. After the 4th, you can forge ahead to gain financially and will then be favored by the stars in your undertakings until July 18th. However, there is a long-range prediction I wish to give you concerning money and finances: the eclipse of the Sun in June ends the only money or financial conditions, and you should be looking forward to new opportunities or prospects to increase your financial outlook between July 5th and 18th.

Travel, change of environment, buying, selling, trading, correspondence, advertising, and all new interests or activities are favored for you after the 4th. You can forge ahead in a happy and energetic manner until the 18th, when domestic and home conditions will require your attention. During this time you will feel more restless and changeable, and there will be a desire to start many things and see new places. Try to plan a short trip or change of environment, if possible. Pleasure trips, greater happiness and gain through relatives, friends and neighbors, will arise. This will be a very favorable time to seek a position or to deal with others through correspondence.

Neptune, which has been so chaotic to emotional ties and which has brought the desire, but not the reality, for real love and happiness, will be very helpful to you until the 25th. You can gain through children, young persons, things and people you love. An ele-

ment of pleasure and enjoyment of life will enter into your affairs. Increase of income or returns from those who care for you is indicated. Your ambitions will be realized, so far as happiness with loved ones is concerned. This will be an excellent time in which to make your dreams and visions concrete and practical.

Uranus, in your own birthsign of Taurus, stimulates your personal affairs and brings a romantic and happy influence into your life, until the 23rd. You should then begin to retard your desires for change or excitement and carefully guard your health and personal welfare on the 23rd through 27th. Some domestic or family difficulty is apt to arise during this time which will affect you unexpectedly. Do not accept propositions presented to you while these vibrations hold sway, nor allow separations or estrangements to occur. It is during such a period that decisions you make will vitally affect your future. An element of strain and uncertainty will arise which could affect your home, family, credit, reputation and personal security.

After the 27th, conditions are favorable through the 30th. An older person proves a source of real happiness to you during the month and you should be able to gain financially through others.

The 31st is an adverse day, bringing upsets and changing conditions into your affairs. The health, money and welfare of the partner or close associates is not favored between the 23rd and 27th, nor on the 31st.

Favorable days: 5, 6, 9, 11, 13, 14, 15, 17, 28, 29, 30.

Unfavorable days: 2, 3, 4, 7, 8, 16, 18, 20, 23 through 27, 31.

The July Outlook for Gemini

For Those Born Between May 21st and
June 21st.

MARKED increase of income or earning power is indicated, after July 4th. A somewhat unhappy or restricting influence may be felt in the life between the 1st and 4th, for Saturn is retarding your happiness, and some indication of a physical ailment or a sickness or accident is shown at this time. You will be more nervous and irritable, and a business or credit difficulty may arise. You should not travel or take chances on the 3rd and 4th, particularly.

Between the 5th and 24th, conditions are very favorable for you and a definite "upturn" in your affairs and outlook will be experienced. Finances, money matters, and travel or change are greatly benefitted. Mars brings marked increase of income, but there will be a corresponding increase of expenditures through somewhat secretive or unusual matters and happenings. Travel will prove expensive, and an element of secrecy will surround your plans and finances. Gain through the unexpected or the unique is shown. Venus will interest you in improving your personal appearance and surroundings, and this should be a very happy and enjoyable period. Definite gain through people in a position to benefit you should be experienced now.

With the 18th, Venus will benefit you through news from people at a distance from you. Your mental outlook will be cordial and more happy. You seem to gain through relatives or loved ones, and your contacts with others should be harmonious. Good news comes to you through messages you receive. Your mental powers will be greatly stimulated, and you can gain in speech or correspondence with those about you. Buying, selling or trading will prove beneficial. Improvement of the environment should definitely be planned.

Between July 23rd and 27th, an uncomfortable and hazardous vibration will affect you, bringing mental upsets, uncertainty and difficulty in travel. Trips will not be favored. Bad news concerning relatives (particularly brothers or sisters) will come to you. Quarrels through speech or letters may arise; and family, home, property and personal matters will prove disturbing to you. The health, finances and affairs of the partner, if you are married, will be disturbed. Legal matters must be carefully avoided during this time. Avoid fraud or intrigue.

The 28th, 29th and 30th will be favorable for social or public contacts, legal matters, agreements, trips, or new plans concerning your future activities.

July 31st will be adverse, bringing difficulties with relatives or close associates and greatly disturbing your mental outlook. Travel will not be favored. Unexpected or peculiar upsets will arise, and an element of deception or secret sorrow and worry may be felt. Contacts with hospitals or places of confinement will arise for many Gemini birthdays. Legal matters will need to be definitely avoided. Keep all YOUR affairs open and aboveboard to avoid misrepresentation or loss through secret forces working against you.

The month, as a whole, is very favorable for new or important undertakings. I have outlined the adverse periods of July so that you now have your "star calendar" to apply to your plans and activities of the month.

Favorable days: 5, 6, 7, 9, 10, 11, 13, 14, 16, 17, 19, 20, 28, 29, 30.

Unfavorable days: 1 through 4, 8, 23 through 27, 31.

The July Outlook for Cancer

For Those Born Between June 21st and
July 23rd.

WATCH your step during the first four days of July and then, when the 4th is ended, plan to make your progress and achieve results in your activities. I do not mention the period through July 4th as adverse simply because that day happens to be a day of fireworks and general danger, but because Mercury and Saturn are contributing their malefic influences which may bring sorrow, strain or difficulty to you. Mercury will have occupied an adverse point of your birth-day chart during June through July 4th, and this will not be a good time in which to have dealings with others unless everything is kept open and above-board. Some contact with sick or confined people may arise, letters to or from those who are ill or in trouble may be expected. Travel will be definitely adverse through July 4th. You should not sign important papers or have business dealings with others, for mistakes or even treachery could occur. Bad news from people at a distance may occur and unforeseen difficulties will arise to affect you.

With July 5th, happier and far more favorable conditions are shown for you. More love, favor, gifts and attention seem to be showered upon you during the period between July 5th and 23rd, and you should make your plans to improve your life and your prospects during this benefic time. Gain through older persons, through people at a distance from you, is indicated. Travel will prove favorable, and you can work to realize some of your dreams and visions now. Definite gain through legal matters, contracts, communications and news is shown.

Mars will occupy your own birthsign all during July, but don't let this frighten you,

for it gives increased vitality, energy and ambition. If you can handle this increased, expanding influence of Mars, which demands action through will and physical power, you can gain much during the month. Mars stimulates your plans and makes you more active, so if you are hot-headed or easily irritated, you will be more so with Mars in your Sun-sign during the month. But Mars is very constructive to you as a whole and brings activity in all your personal affairs. You won't feel sluggish, tired and fatigued, and vitality and health should improve.

With July 18th, finances and money matters will be very important to you, and this vibration continues on through the month. Between July 23rd and 27th, finances, friends, income and business matters will be disturbed, and estrangement from friends as well as difficulties over money matters, may arise. Health and work will not be favored, particularly on the 26th. Poor judgment in handling of finances must be avoided, and disappointment in trying to realize ambitions is apt to be experienced. This changing, upsetting vibration arises again on the 31st. Make NO change or risky decisions and try to avoid waste or recklessness during the adverse periods of this month. Avoid deception or fraud.

July 28th, 29th and 30th should be exceptionally favorable for work and health building; and you can travel or make the changes which will not be favored between the 23rd and 27th or on the 31st.

Favorable days: 5, 6, 8, 9, 11, 12, 13, 14, 16, 17, 18, 19, 28, 29, 30.

Unfavorable days: 1 through 4, 15, 23 through 27, 31.

The July Outlook for Leo

For Those Born Between July 23rd and
August 23rd

HOLD everything! For once, you Leo folks are going to have some good news from the stars! After July 4th, prepare to advance in a really definite and stable manner toward that port you've been trying to reach for so long. You have a long time to work toward achievement, too. Between July 5th and 23rd you can make excellent progress, so don't waste your time. Oh, I know, it will be summer-time, and you have that to contend with, but if you work to eliminate old conditions and forge ahead toward enjoyment of real opportunity, you can realize it now.

Retard your activities until after the 4th, "on account of" the period between July 1st and 4th is not favored by planetary vibrations. Bad news is shown, and difficulties will exist between you and friends or older people. The troubles or difficulties of the partner or of others will make their demands upon you and you won't be able to realize your ambitions or hopes. After July 4th, however, the scene changes, and we see a galaxy of stars beaming upon you from the "house of limitations" which means that when "house cleaning time comes" into this department of your life, OUT GOES SORROW and in comes "opportunity". And now, do you like me?

You can work toward that new job or rise in life you would like to have. You can gain greater happiness through other people. You should use each day of the period between July 5th and 23rd to make time "count" for success and progress. Unexpected opportunity can be realized, and you may be surprised at the progress you make. You will have to overcome difficulties, that is true, but what are those? For YOU, nothing.

Saturn, which has restricted your ability to gain through or from others, will no longer retard you, after the 4th. You will feel more

free, and a happier and more philosophical and helpful spirit will manifest itself in your life. You will be able to work in cooperation with others, and some older person seems to prove a definite boon and benefit to you. Venus promises to bring something benefic out of the clear sky to you, and contact with important people and those in a position to benefit you is indicated.

Forge ahead, then, between July 5th and 23rd, and again on the 28th, 29th, and 30th. These are the times of the month when more favorable skies will smile upon you.

Between July 23rd and 27th, the stormy period of the month seems to exist. Uranus, Mars, Venus and Mercury, Jupiter and Neptune will all be locked in a strangle-hold, confusing your interests and presenting you with problems. Neptune and Jupiter will be adverse to finances, loved ones, children, and some sacrifice may have to be met on the 26th. On the 25th, 26th and 27th, upsetting and adverse conditions will be experienced in your personal life. Avoid changes, anger, separations or over-strain of the emotional ties which bind you to others. Guard business and credit-standings very carefully. Protect your health and welfare.

The 28th, 29th and 30th once again improve matters, and Mars and Saturn should stabilize your affairs. Choose these favorable times for your important risks or endeavors.

July 31st will be adverse, affecting you through the vibrations of Uranus which brings upsets and changing influences into the life. Lowered vitality, nerve strain, the danger of accidents and reversals or estrangements are all symbolic of these vibrations.

Favorable days: 5 through 22.

Unfavorable days: 1 through 4, 23 through 27, 31.

The July Outlook for Virgo

■ ■ ■

*For Those Born Between August 23rd and
September 21st*

■ ■ ■

MERCURY is adverse to your business, credit and position in life on the 3rd and 4th. Loss or difficulties with partners or with enemies seems to arise at this time. After July 4th, you can quite definitely work to improve your affairs. You will gain through friends and note an increase of income between July 5th and 22nd.

Social and pleasure interests will improve, and you have a very happy and pleasant period beckoning to you. Don't waste time, however, for that will be your tendency. In other words, be a jolly good fellow, but don't work so hard at it that you "lose out"! You seem to gain through friendships and through stirring, energetic people who enter your life now. Your ambitions will be wide-awake, and you can gain the cooperation and recognition of others in a marked manner. Returns from business, which may have been retarded through the 4th, will improve.

With the 23rd, conditions assume a less promising or happy outlook. Contacts with sick persons or with hospitals may arise, and between the 23rd and 27th, you should be extremely cautious in handling difficult people or in challenging the authority or will of others. You will be subject to dangers or to over-strain. You may have to give up something dearly prized, and must keep a firm grip upon your emotions. A more worried, anxious and uncertain period will exist here. Bad news comes to you from those at a distance. Work and health will be very much disturbed. Inferiors will be a source of annoyance or trouble for you.

Do not travel, unless you wish to invite accidents and hospital experiences or legal diffi-

culties through travel accidents. The private, home and family affairs will be disturbed. This will not be a favorable time for speculation, risks or investments. Your own health and mental outlook will not be good.

After the 27th, the skies will clear again (unless you have been "humpty dumpty" and have tumbled down off the wall which I want you to climb on during the turbulent period between the 23rd and 27th) until the 31st. You will find that things weren't so bad, after all, and your judgment and reason (not your feelings) will triumph! I hope!

July 31st will be definitely adverse, bringing mental strain and difficulties. Do not make sented to you on the 31st (or between the 23rd changes or take advantage of propositions pre- and 27th. Stand steady and let storms roll overhead; don't pull them down upon you. Your decisions and your ability to adjust yourself to circumstances without subjecting yourself to dangers or disappointments will determine the way you come through these few unfavorable days.

The manner in which personal gain and improvement of your life and affairs can be enjoyed during most of July (between the 5th and 23rd) should enable you to build your prestige, health and foundation to the extent that the few stormy days will not greatly affect you.

Favorable days: 5, 6, 9, 10, 11, 12, 13, 14, 16, 17, 18, 28, 29, 30.

Unfavorable days: 1 through 4, 7, 8, 15, 23 through 27, 31.

The July Outlook for Libra

For Those Born Between September 21st and
October 23rd

YOU should concentrate upon business, credit, profession and public affairs this month. Really favorable planetary vibrations activate these interests of your life. Mercury is adverse to travel, legal matters and communications to or from others until after the 4th, and health and work will not be favored until after that date. Your mind will be restless and dissatisfied, and important matters may be delayed. Guard health and working interests.

With the 5th, improved and happier conditions will begin for you, and, believe it or not, you can really forge ahead in a promising and successful manner until the 24th. This will be a favorable time in which to buy, sell or undertake important business matters. It should find you concentrating your interests and efforts upon work and business. Increased popularity can be achieved. A definite rise in life and improvement of your public standing will be noted. This is the time in which to make changes, seek promotion or advance as you wish to advance in your professional, working or business activities. Gain through superiors is indicated for you. Some older person will prove a source of good fortune and benefit to you, and if you are in business for yourself, this will be a splendid time to gain through employees or subordinates. Try to avoid quarrels with business men or over-strain of the credit, and do not let the favorable vibrations operating now cause you to become careless or indulgent. Some women will prove very important in your life now.

With July 24th, conditions will take a less happy and fortunate aspect, and you should make your plans to progress very carefully through the 27th and again on the 31st. Partnerships will be strained, and friends will not prove favorable for you. Estrangements or se-

paration from others could occur on these adverse dates. Disappointments will arise in dealings with other people, and a definite separative vibration will exist in your association with others. Income may be disturbed, and you must not let other people or pleasures interfere with business or good judgment in handling your finances. The health and welfare of the mother of Libra persons may now be affected.

During these unfavorable days of July, try to guard the health and welfare of children, the partner and close associates. News of a sudden death may come to you during this time. Guard finances and do not let others influence your spending. A very reckless financial attitude may need to be controlled during the summer, particularly now.

The 28th, 29th and 30th will once again be very favorable for business, professional matters and public affairs, and you will have courage and ability to carry risky ventures through to a successful conclusion.

July is always the one month of the year in which you should direct your attention toward business, credit and public standing, for it is during this month that the solar rays stimulate profession, career or business interests of the Libra birthdays. This July, between the 5th and 24th, 28th through 30th, is definitely a time when the band can strike up that tune "Success, here I come" if you command yourself to cooperate with your planetary vibrations.

Favorable days: 5, 6, 7, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 20, 21, 22, 28, 29, 30.

Unfavorable days: 1 through 4, 24 through 27, 31.

The July Outlook for Scorpio

For Those Born Between October 23rd and
November 21st

SATURN indicates anxiety over the organization of business enterprises and personal affairs on the 3rd and 4th. You should avoid travel until after July 4th. "In-laws" or people at a distance from you are apt to be a source of trouble, and relatives may be affected by accidents or cause sorrow for you. Do not speculate. Disappointments in pleasure or emotional matters may arise, and things and people YOU love will be adversely affected.

Between July 5th and 22nd, you will have especially favorable vibrations to stimulate travel, business, finances and personal affairs. Travel or change of environment can be undertaken. Any legal matters arising at this time will prove favorable for you. Opportunities to realize your aspirations will exist, and your progress will be greatly stimulated.

A calmer and happier state of mind will be felt during this time, and you should forge ahead in a constructive, favorable manner until the 22nd. Try to guard against accidents, fires or trouble with lawless or violent people on the 15th and do not let your enthusiasm overcome reason and good judgment. You will be more aggressive and ambitious all during this month.

With the 22nd, an unfavorable trend begins to operate in your affairs which continues through the 27th. This is a particularly adverse time, and you should carefully plan to rest, relax and avoid risks and new activities during this week. Uranus will be adverse to legal matters, business, partnerships (either marital or business). The mission of Uranus is to break up old conditions and the period between July 22nd and 27th may cause separa-

tion or estrangement from others that you will later regret. Sudden, unexpected upheavals are certain to arise. A great deal of uncertainty and erratic confusion will exist in your affairs, particularly in matters pertaining to business, credit or public affairs. An enemy may cause or try to cause trouble for you. However, it is your reaction to the vibration itself which will accelerate its effects. If YOU refuse to be erratic or changeable or make decisions now, you cannot make mistakes which will prove expensive or harmful to you.

Saturn will bring gain through past investments or older persons who care for you. Income from business and increased earning power is indicated during the month's favorable period. After the 27th, planetary skies clear for you once again, and the 28th, 29th and 30th are exceptionally favorable for finances, business and money matters. Real financial progress can be achieved during the favorable part of July, and actual loss threatens during the adverse periods.

July 26th may affect your friendships, and a loss or disappointment may arise through other people. Guard and conserve your finances and income on that date. Do not accept propositions presented to you between July 22nd and 27th for they will prove unreliable. If sudden loss seems to occur, try to be calm for as soon as the storm blows over, your affairs will once again be favored.

Favorable days: 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 16, 17, 18, 19, 28, 29, 30.

Unfavorable days: 1, 2, 3, 4, 15, 20, 22, 23, 24, 25, 26, 27, 31.

The July Outlook for Sagittarius

For Those Born Between November 21st and
December 21st

SOMEWHAT STRANGE and unusual planetary vibrations affect your life during July. Difficulties and troubles through others are apt to arise between the 1st and 4th, and you should carefully restrain the impulse to fight or oppose your enemies or those presenting problems or difficulties for you. Contracts or agreements with others will not be favored. Anxiety over the partner or over the welfare of others will be felt. An adverse trend may affect the private and family or domestic life, of which you should be forewarned. Do not buy, sell, travel or make changes prior to the 5th.

Between the 5th and 23rd, a very favorable vibration will arise in your life, bringing gain to you through other people. The money and affairs of the partner (either in marriage or in business) will be stimulated. Gain and harmony will be experienced in association with other people. The money of others will be important to you and your own affairs, seem to be dependent, to some extent, upon the favor, finances or action of other people.

This period will be exceptionally benefic for you to take advantage of new opportunities presented to you. You seem to gain though steady, constructive achievements. Your ambitions will be sound and practical. Business, professional opportunities, credit and improvement of your life, will be affected in a harmonious manner.

With the 23rd, adverse conditions will affect travel or change. Your aspirations will be high and you will be over-confident. "In-laws" or friends or relatives of the partner or close associates may prove a source of difficulty or trouble for you. Change or risks will not be favored between the 23rd and 27th. Health and

work will be disturbed. Those who are employed will be subjected to unsettled conditions, and if you have employees or people working for you, estrangements or sudden absences or departures may occur, much to your surprise. You must protect and guard your health during this time. Bad news seems to come to you from people at a distance. Do not make the changes or take the risks you will wish to make or take prior to the 28th. You will have to use discretion to avoid legal difficulties.

With July 28th through 30th, a much happier and more harmonious vibration will pervade your life. You will feel released—as though from a dungeon of conflicting conditions. Travel, change, new ideas and aspirations will all be favored.

During the period of July which is not indicated as adverse, you can expect personal improvement of your life. Remember that Jupiter now occupies your own birthsign and this is a symbol of change and marked improvement of your affairs. Increase in weight and vitality, more buoyant spirits and optimism and special offers or opportunities come to you when your own planet, Jupiter, is favorable to you. This is particularly true of July, except between the 1st and 4th, 23rd and 27th. Be particularly discreet, guard credit, reputation and business and your own personal welfare on the 26th. Some deception or fraud may exist in your life then.

Favorable days: 6, 7, 8, 9, 10, 11, 12, 13, 14, 16, 17, 18, 19, 20, 21, 28, 29, 30.

Unfavorable days: 1 through 5, 15, 23 through 27.

The July Outlook for Capricorn

For Those Born Between December 21st. and
January 21st

ADVERSE HEALTH and working vibrations affect you who have birthdays in the sign of Capricorn until after July 4th. You may be more nervous and irritable and will wish to make any kind of a change, just so it is a change. A disturbed mental outlook will be felt on the 3rd and 4th, and you must be careful to avoid travel or risks of any kind. Difficulties in your immediate environment and bad news from people at a distance from you will be noted.

After July 4th, improved conditions will begin to be experienced. This favorable period of the month will be a splendid time in which to increase and improve working or financial matters. The cooperation of other people can be sought. Important contracts or agreements can be made with others. You will gain through those who care for you, and, although you will be impetuous and somewhat reckless in making decisions, you can really progress if you maintain good judgment in carrying out your plans.

We cannot deny the fact that Mars in its present position during July will be in opposition to you, stirring your nature deeply and tending to offset your naturally good judgment with a reckless, careless attitude; but Mars can be used constructively in bringing public or social contacts and in eliminating old conditions or repression or difficulty with others. You can be sure that happenings this month will not be limiting or retarding. One old condition seems to end for you while new doors of opportunity and expression open. You should be prepared for opportunity and welcome new interests. A very emotional trend exists for you all through the month. Risky ventures will be undertaken and you CAN carry them through to success.

Partnerships and close association with some other person who is very important to you will be outstanding. Some woman enemy seems to work against you, and anxiety over the health or affairs of the partner (either in marriage or in business) may be felt. If you can keep your association with others peaceful and avoid quarrels or friction, you can expect real achievement and success in your undertakings. Make cooperation with others the keynote of your month of July.

Partnerships, finances, health and the personal outlook will be disturbed between July 22nd and 27th. This is a very strange period, in which the health, money and affairs of others seem to disturb you and your own interests. Avoid legal difficulties, separations or estrangements if possible. Someone or something you love may be a source of sorrow for you. Pleasures, amusements, investment or chance-taking should be foregone and avoided. Loss will accompany new undertakings, and you will not seem able to gain through others during this short period of unfavorable planetary influences. If you remember that it is your REACTION to planetary vibrations and your CONTROL of your impulses which retard or accelerate conditions of your life, you will be able to wisely make decisions and chart your course through troubled seas.

After the 27th, conditions resume their favorable trend, and outstanding gain and happiness come to you through other people and their improved outlook or fortunes.

Favorable days: 1, 6, 7, 8, 9, 10, 11, 12, 13, 14, 16, 17, 18, 19, 28, 29, 30.

Unfavorable: 2, 3, 4, 5, 15, 22 through 27.

The July Outlook for Aquarius

For Those Born Between January 21st and
February 18th

HEALTH AND work seem to be your outstanding interests during this month. Mercury is unfavorable to pleasures, amusements, emotions and things or people you love until after the 5th. A disturbed and nervous outlook will be felt. Finances will prove a source of anxiety and difficulty for you on the 3rd and 4th. Accidents on pleasure trips could occur through carelessness or lack of good judgment. Children or younger persons will be a source of sorrow or upsets for you.

You will be more sensitive, nervous and talkative until after the 5th, so don't expect to enjoy sports or amusements, and forego emotional matters. You should direct your interests toward study or mental things during this unfavorable time. Do not make investments or attempt to gain through speculation or past investments if you wish to avoid disappointment or loss.

After the 5th, conditions will be greatly improved for you. You should feel a flood of new vibrations stimulating health, strength and vigor. This time will be favorable for correspondence, interviews, moves or changes. Medical treatments will bring better results. The adverse day for health, work or changes of any kind during mid-July will be the 15th, when you should avoid over-work, cuts, burns, feverish ailments or strain caused by indulgences. Medical or surgical treatments may be necessary on the 15th because of strained influences which will exist for you at that time. On the whole, however, the period between July 5th and 22nd will be exceptionally favorable for the above outlined activities.

Those of you having birthdays under the sign of Aquarius should now find work, employment or business matters greatly stimulated. You can forge ahead with success vibrations stirring these interests. Improvement of these

things is indicated and you should take advantage of any opportunities or chances for success which arise at this time. You will be inclined to over-work but, except for the 15th, energy and vitality should keep pace with your ambitions and opportunities for work. Build and improve your health, if this is necessary, between the 5th and 22nd, remembering, of course that this is not advised for the 15th.

Between the 22nd and 27th, adverse conditions affect health, partnerships and matters connected with work or business. Separations or estrangements will affect partnerships (in marriage or in business) and quarrels or difficulties with others must be carefully avoided. Do not try to put your ambitions or plans for change or reform of your private or personal affairs into action now. Trouble in home or domestic life will be felt. Opportunities presented to you will not prove permanent or satisfactory. If you were born between January 21st and 31st, this will be a particularly unfavorable time for change, public or social contacts, marriage or business matters. An element of sudden loss or reversal and uncertainty is apt to be felt in the lives of all Aquarius persons. Income, friends, social matters and the health, finances and welfare of others associated with you will be adversely affected. Do not make agreements or sign important contracts.

After the 27th, the month ends on a much happier note. Mars will stimulate finances, earning power and money matters. Health and work will once again be favored and you can forge ahead under favorable stars to accomplish your wishes or plans.

Favorable days: 6, 7, 8, 9, 10, 11, 12, 13, 14, 16, 17, 18, 19, 20, 28, 29, 30.

Unfavorable days: 1, 2, 3, 4, 5, 15, 22, 23, 24, 25, 26, 27.

The July Outlook for Pisces

For Those Born Between February 18th and
March 21st

MERCURY, adverse to home, family and private affairs until the 5th, will test these interests of your life. Changes, travel, visits to or from home, and your own health and personal outlook upon life, will all be adversely affected. July 3rd and 4th are unfavorable for these interests. Guard your health very carefully and be careful to avoid coldness or trouble with others as well as to steer clear of accidents or falls. The period between July 1st and 5th is not a happy or favorable time.

From July 6th through 21st, much more favorable stars will shine upon your affairs. One of the favorable periods of the summer will begin at this time for you. Pleasure, amusement, emotional happiness and a thorough enjoyment of life can be expected and sought. Investments will be favorable. Things and people YOU love will be a source of greater happiness and enjoyment. You will be more magnetic and better able to attract to yourself those things or people which make life more happy and enjoyable.

With July 22nd, health and work will become a source of concern and difficulty. You must carefully avoid indulgences or strain upon your physical self. Health treatments may be necessary. Unwise changes or risks may be taken in an effort to improve your personal self, your surroundings or working interests. Business, partnerships, reputation, credit and professional matters will be unfavorably affected. This will be a stormy and risky period. Relatives will prove a source of anxiety or difficulty. Estrangement from relatives may occur. Do not travel, and try to avoid trouble in your immediate environment.

If you have a birthday between March 1st and 7th, try to be particularly cautious and

careful of health, business and all personal matters on July 26th for Neptune and Jupiter are adverse to you on that date. Your judgment will not be good and an element of secret sorrow, disappointment and enmity will be felt in your public contacts and association with others.

Contacts with hospitals or unexpected upsets in travel, home or private surroundings may arise between the 22nd and 27th. Messages to and from others will be hectic and upsetting.

Except during the unfavorable periods outlined for July, the month brings exceptional opportunity for you to really progress and gain unusual achievements. Outstandingly important advantages can be secured, and the month will certainly not be devoid of opportunity to advance. After the 27th, favorable vibrations of mid-July exist again, and personal improvements in your life as well as in business or financial progress, will be noted. July 28th, 29th and 30th are very favorable for business, work, health-building and financial plans. A new outlook on life can be expected to exist. Conserve your energy and strength for advancement during the favorable times of the month. The last few days of July are full of exceptional promise for those Piscean birthdays interested in work, employment and business matters. This will be a very favorable time for interviews with prospective employers, advertising or expanding and improving your working outlook. You whose birthdays fall in this sign of Pisces should all have good results from your activities of this month if you exercise caution during the unfavorable periods.

Favorable days: 6, 7, 8, 9, 10, 11, 12, 13, 14, 16, 17, 18, 19, 20, 21, 28, 29, 30, 31.

Unfavorable days: 1, 2, 3, 4, 5, 22, 23, 24, 25, 26, 27.
