# "What Do You Think of Astrology?"

BY NORMA WARNER

WHILE SOME people question Astrology's efficacy in the world of affairs, let us review some very amazing predictions made by astrologers during the thirties. If Astrology has been *systematically* wrong during the past few years in foretelling or foreseeing current and future world trends, let us admit it. If, on the other hand, Astrology has been scientifically studied and interpreted in an even *moderately successful* manner, let us admit that, too. No science is right all of the time for each science, though adequate and complete, depends upon the interpretation of the *human instrument*.

Swayed by wishful thinking, influenced by personal prejudices that color one's thinking and inclinations, we must understand that, after all, the astrologer is human, subject to all the mistakes and errors of human flesh. But remember Evangeline Adam's classic remark,

"The doctor's mistake is buried; the lawyer's mistake is hanged; but the astrologer *can't* make mistakes!"

Nevertheless, I have recently been reading many past predictions contained in almanacs and astrological books which reveal some *amazing prophecies* of this, our present period of world affairs. While "appeasers" and "men of Munich" raved of "peace in *our* time," lulling us to sleep while vicious plotting, scheming and preparing for the most devastating war the world has *ever known* proceeded, the astrologer, alone of all peoples in the world, dared to foresee and point, with heavy heart, to the perils that lay ahead. In 1933, 1934, 1935 and subsequent years, people turned from their astrological reading with the words, "I don't want to *know* about those things . . . I don't want

to *think* about them . . . why be gloom-bearers, hearse-chasers, crape-hangers?????"

Well, here you are, England, France, Belgium, Holland, Norway, Denmark, Finland, Italy, Germany, Greece, Albania, Americas, China, Japan and all other parts of the world. You wouldn't listen, you wouldn't read, you wouldn't heed; and all the time, your leaders knew, surely, what was going on; for munitions were being madly built, schemes and plotting that must have reached the ears of diplomats were being hatched . . . Astrology was revealing all this to you but you sat supine,

content, fearful of being prepared or of getting ready *in time*—and now the mad rush—the supreme effort, the great sacrifice. When, through the years, a calm defense program could have been followed, hysteria avoided, billions of dollars saved—but no! you would rather perish "for lack of knowledge."

The important thing is for you to *learn ahead of time*, to respect the source of information that can *make you heed the*

*warning signal, stop before the red light flashes, avoid the dangers, and even STOP THINGS BEFORE THEY HAPPEN.* But humanity, always swept by the prevailing tides and currents of that particular time, would rather learn by *experience* than by wisdom gathered from foreknowledge.

We have the prophecies of all this world turmoil and terrible danger for *the forces of right* that have been contained in our Bibles for thousands of years. It even foretells the particular time *for which to be prepared*. But the Churches preached "peace," "disarmament," "love your brother" . . . but when you

## ONE Kind of Prophecy!

A youngster walked up to a man on the street and offered to tell his fortune for 15c. He asserted that if the man gave him the 15c for his fortune to be told, he could tell him the state he was born in, the name of his first love and what he weighed when he was born. The man dubiously gave the child the 15c and this is what his fortune consisted of:

"You were born in the STATE of infancy

YOUR MOTHER was your first love and

You weighed 16 ounces to the pound."

have *no brother* but a force of satanic power that threatens to wipe out your liberty, your church, your happiness and security, that is no time to practice such policies. It is a time to be apostolic, to arm yourself with knowledge and be prepared. *If the Christian world had believed THE BIBLE*, Hitler, the present war and terrible world crisis, would never have happened. It would have been crushed, have been prevented, before it ever began!

Now, let us turn to the Wise Men of the 1930s, the astrologers. They followed the stars . . . and this is what they saw:

In England, Raphael's Almanac of 1934, written in 1933, produced this prophecy of Germany and of Adolph Hitler,

*"In the 1933 issue we published the nativity of Adolph Hitler and we need make no further comment where we said: 'With the Sun angular and conjunction Mars and the powerful, aggressive stars of 'The Ram's Horn,' we do not need to ask if this man is likely to 'arrive' or what his policy will be when he once gains power.'*

*"Well, he has arrived and the powerful Sun is the symbol of his brutal regime.*

*"The Sun is now bringing him great power and his enemies are likely to come out second-best." (Shades of France and Great Britain, the re-occupation of the Rhineland, the assault on Ethiopia, the Civil War in Spain . . . )*

*"Saturn, square Mars, is too near his meridian to promise him a long life and the hand of the assassin is likely to attack him, but again, the powerful Sun brings him out on top." (remember the bomb attempt on Hitler's life in the Munich beer hall in 1939?) "He will bring about an entire financial change. REPUDIATION OF THE EUROPEAN AGREEMENTS, A VIOLENT QUARREL WITH POLAND, AN ATTACK UPON DANZIG." (Yet Chamberlain meekly went to Munich, sold out Czechoslovakia and opened the way for Germany's invasion of Poland) . . .*

This, my critical, skeptical friends, was written in 1933, one year after Hitler had come to power in the German government, while statesmen throughout the world spoke of "peace in our time."

In the same 1934 issue of this English astrological prophecy, Raphael wrote: *"Mean-*

*time, Uranus, the God of Science, has arrived and has placed in infant humanity's grasp a two-sided sword that threatens the destruction*

*of the race. Science now links with principles of Death and Destruction and these forces will be loosed upon the earth for a season."*

In the 1934 issue of this same publication, he wrote, *"Peking is in danger of invasion. Jupiter, however, brings power to the Chinese and they will organize and become a more co-ordinated and united unit than ever before. The Chinese will receive justice and outside help."*

*"If France gets into war, her chances are not good."*

In Foulsham's Almanac for 1935 (written in 1934) this interpretation of Hitler's horoscope appeared: *"Adolph Hitler was born on April 20, 1889 just before 6:30 p. m. The sign Libra was rising with Uranus, the planet of reform, just above the ascendant in sextile to Saturn but in square to the Nodes. Saturn was elevated close to the meridian in square to Mars and Venus on the cusp of the 8th house. The horoscope is not good as only one planet is dignified while four are badly placed and Saturn is elevated. The reformatory element is well to the fore but as Uranus is in square to the Nodes the ultimate failure of his plans is bound to occur and the elevated position of Saturn in the sign ruling Germany is a clear indication of downfall. His dictatorial actions will not advance the destinies of Germany but the reverse. With Uranus rising he might do much for the country but his ruler Venus is heavily afflicted and while he will be successful for a while, his actions will recoil on his own head and he will fall. While the reformatory spirit is strong, he lacks idealism and his aims are achieved more by force than by diplomacy. The Moon and Jupiter are in the sign of Capricorn but both are weak and debilitated and of little benefit.*

*"Saturn in Hitler's horoscope presages great evil not only for himself but for Germany for it opposes the ascendant of the German Republic. As regards the future he will meet with success in his plans but later come under evil conditions and face a very critical period and will meet with disaster and even personal violence. Whatever position he may attain he is fated to fail in the long run. A man, be he a leader, military or political, in whose horoscope there are four major planets debilitated by sign cannot hope to win power or prestige for any length of time and must eventually fall.*

*"It is suggested that Hitler is the false prophet of Revelations XIII in as much as he has adopted the mark of the Swastika which is*

# "Tomorrow's Headlines"

## News Before It Is News

BY ALMA CRAWFORD GRANING

THE NEW MOON ruling April is a solar eclipse that falls in 6 degrees of Aries and the 8th house of a chart calculated for Washington, D. C. Eclipses falling in fiery signs of the zodiac, such as Aries, are said to "threaten the destruction of cattle and other kinds of livestock, exile, imprisonment or murder of kings and notable rulers, much discontent and dissension among the people; movements of armies, fighting, fires, fevers and pestilence, scarcity of food and crops."

This astrological interpretation of eclipses in Aries reads almost like our newspaper headlines and history of the past two years, during which time the solar eclipses each year have been falling in Aries, first of which commenced in April, 1939, the second in April, 1940. The Blitzkriegs of 1940 certainly fulfilled the eclipse indications that could be foreseen long before the actual events developed. The exile or imprisonment of kings and queens from conquered countries, (King of Norway, King of Denmark, King of Rumania, Queen of Holland, King of Belgium, collapse of the leadership of France) the fighting, fires, epidemics, famines, movements of armies—all these trooping across our current page of history.

That such conditions will be repeated and continued in 1941 is a foregone conclusion of the astrologer who studies this 1941 solar eclipse that introduces us to another strange, wild and warlike spring season. It need not be so, but since man is *as he is*, it will be because man gets exactly what he gets ready for!

An eclipse falling in the 8th house of a nation's chart points to increasing taxation. Many deaths occur in the country. Death of persons connected with the government is to be feared. Financial troubles multiply.

Mercury's position in the 7th house for April indicates important foreign developments. Peace rumors will spread. Diplomatic activities will grow, much of which may not become public. Visits to and from this country will cause spectacular rumors to develop. Our foreign policy will be very definite, dictated by the president. Critical de-

cisions revolving around the nation's state of peace or war with other powers will be made.

Foreign trade will be reviving, especially with nations of the American hemisphere. The country, as a whole, should appear much more prosperous. A spectacular investment and speculation trend seems to develop in April that raises stock prices. A very fluctuating trend will develop during the fourth week of April, however, that continues into May, which could produce a sharp decline or abrupt economic crisis.

April is largely promising for employment. Labor is favored while industry marches forward. Some unusual economic measures are indicated with a great deal of secret manipulation going on behind the scenes that is not generally known.

Agriculture should prosper although concern about crop prospects will develop as April proceeds. Farmers will be agitating for reforms and changes in agricultural departments. Livestock may be unfortunate, due to epidemics and weather conditions.

April is usually a month of lusty weather and this April of 1941 will be no exception to the rule. Early heat will probably develop to be followed by an extremely cold wave when Mars squares Saturn around the 25th. We are entering a very critical period in the next two months for extreme weather conditions and earthquakes that grow very violent during May.

Disasters affecting American defenses and national forces will be more numerous. Aviation and naval losses will mount, due to sabotage as well as accidents or explosions. Mars opposition Pluto on the 5th-6th, Mars square Saturn on the 25th are very violent aspects that warn of these dangers.

Some restricting, sorrowful conditions will lower the American outlook and normal happiness but the nation will vigorously work to better national prospects and increase prosperity. April, until the 20th, is influenced by a very fortunate trine aspect of Mars and Neptune which is conducive to inspiration and optimism.

The New Moon ruling May falls on *April* 26 which will greatly alter national prospects. Critical emergencies will then begin to confront the United States and its people, as well as all other countries. It is here that the American destiny in relation to war abroad and international happenings will begin to be manifest in *no uncertain terms!*

### AROUND THE WORLD

Russia seems to grow increasingly belligerent this month. New economic programs will be inaugurated. The Soviet Union seems to grow very prosperous and fortunate in dealing with other powers. New aggressive moves toward other countries will be made. War crisis and quarrels with another power may develop around the 6th. A naval or shipping disaster for Russia is indicated. The armies of the country will be in action. Improving agricultural conditions will help strengthen Russia's foreign moves. Secret diplomacy and treaties will be carried on.

India and the Orient will not be fortunate this month. Earthquakes and violent atmospheric conditions will cause much damage. Naval action in the far east is indicated. War-like conditions will threaten in this part of the world with the possibility that Russia grows more belligerent and victorious in any moves in this direction.

China's prospects for April are very unusual. Increasing economic improvements should better her chances. Weather conditions and earthquakes are destructive, however. Violent fighting seems to be foreshown under the Mars-Pluto opposition with danger for Chinese leaders.

The solar eclipse falls in Japan's 1st house with Neptune in the Descendant. This is ominous for the welfare and safety of the public as well as for any peaceful prospects. Japan will face a year of civil strife and undermining conditions of public unrest. Economic difficulties are increasingly serious. Political changes will occur with startling rapidity from now on in Japan. A great Japanese personage may die while failure in national undertakings can be expected.

London's outlook for April is very unusual. Uranus lies on the cusp of the 8th house, indicative of surprise attacks and loss of many lives. Saturn and Jupiter are in the 7th house, emphasizing increasing diplomatic activity, while the solar eclipse falls on the cusp of the 6th house. This could lead to a strengthening of Labor's powers and position in the country. It indicates rapid political

changes in connection with government and the army. Armed troops will be much more active. Britain should be on guard more than ever before against Fifth Column activities, treachery from neighboring nations and peace overtures that are tricky and fraudulent. There is more danger of betrayal from within or without now with some threat of loss for the fighting forces. Royalty will be unfortunate. The passing of members of the royal family as well as of other outstanding leaders and ambassadors is to be feared during 1941. British valor will be undefeated. The conquering spirit of these courageous people paves the road into the future, a living example to all weary peoples, everywhere, of the famous, historic phrase, "Give me Liberty or give me death."

Italy's prospects continue to be gloomy. The solar eclipse in Aries falls in the 5th house of Rome's chart, in which we foresee great political changes in Italy, affecting its leadership both of the Fascist regime and in connection with the Royal House. Death of royalty and national mourning over the passing of prominent national figures accompanies this eclipse for Italy. The people will be in an aggressive, fighting, rebellious mood but many indications of civil strife and unrest exist.

Berlin has an April chart that is very similar in planetary positions to that of Rome. The solar eclipse falling in Germany's 5th house is unfortunate for theatres, places of amusement, the nobility and government. A prominent leader passes from the picture. Young people and children will be very unfortunate. Unrest will spread among the people. A great deal of secrecy will surround the country's diplomatic activities and negotiations with neighboring countries. Mars in Aquarius during April transits across the Nazi regime horoscope's 10th house and its Aquarius planets, signifying violent happenings in Germany and her conquered territories, with new programs promoted in connection with the war. There will be no peace or lessening of strife so far as Germany is concerned this month for the war-trend is too violent and powerful. Startling happenings in relation to German leaders, however, will create crisis!

Devastating earthquakes and violent disasters will spread through Europe. Crops will suffer, the people will be very unfortunate and miserable.

The turn of world events during the Spring Quarter will quickly bring matters to a climax

or further state of crisis that reaches an explosive point during May.

### PLANETARY ASPECTS AND EVENTS

Mars enters Aquarius on April 1 where it remains until May 16. This position of Mars is not conducive to peace, security or good fortune for people born in the fixed signs of Aquarius, Taurus, Leo and Scorpio. More danger of accidents, strife, sickness of a sudden, feverish nature and trouble will thus affect these people.

Mars forms two adverse aspects, an opposition to Pluto on the 5th, which is always very dangerous due to the violent trends that are set in motion which correspond to increasing accidents, disasters, fires and explosions; and another square aspect to Saturn on the 25th-26th which coincides with periods of brutal warfare, crimes, murders, violent accidents and upheavals of nature.

Mercury transits in Pisces until the 12th when it enters Aries moving rapidly through this sign into Taurus on the 29th. While Mercury is in Pisces it opposes Neptune on the 9th, bringing an element of treachery, confusion, bungling and misrepresentation into world affairs, secretive rumors, gossip, scandals and trouble into individual lives.

While in Aries between the 12th and 29th, Mercury forms no adverse aspects. In Aries, Mercury creates activity of the mind, stimulates ideas, inventions, prosperity. It is conducive to quick action on the physical plane as the body responds to the fiery prodding of the mental impulses. That which is mulled over, planned, hesitated about, delayed and not clear when Mercury is in Pisces is quickly executed and finished when it is in Aries. Events occur with lightning-like speed, actions are unpremeditated and impulsive. We are impatient to get things done and underway.

Venus will be in Aries until the 19th. It, too, forms no adverse aspect but is in conjunction with the Sun on the 19th, ordinarily an aspect of good luck, happiness, peace and goodwill. Venus goes into Taurus on the 20th, where it squares Pluto on the 22nd while Mercury squares Pluto on the 29th-30th, with the Sun forming this aspect to Pluto on the 23rd. Hence the period following the 20th is hardly likely to be peaceful, fortunate or healthy for the world or for people, in general.

There will undoubtedly be a marked *turning point* in the war and in European condi-

tions this month, especially so during the last ten days, as well as around the 5th, 9th.

The 18th, 19th are the "luckiest" days for happiness, romance, social matters, entertainment and personal affairs. The 5th, 9th, 22nd, 23rd, 25th, 29th, 30th will be the most violent, adverse dates of April, although the period around the Full Moon (the 11th) of each month is always a time of increasing tension and full activity of all the events scheduled for any month.

Mars opposition Pluto in 2 Leo on the 5th is a dangerous aspect for risks of any kind. Emotional tension creates smouldering fires that burst into expression, thus creating violent quarrelsome conditions. This aspect has coincided with the fatal accidents and explosions of which sabotage has been suspected. Violence through war or crime occurs.

Mercury's opposition to Neptune on the 9th is secretive, treacherous and unreliable. Don't believe all you see and none of what you hear at this time. Be on guard to belittle propaganda and rumors. Peace trends will be floated. Things will be lied about, glossed over, hidden and confused. Travel, business dealings, promises are ill fated at this time. People feel disillusioned, want to believe the impossible, look at life through rose colored glasses and refuse to review real facts, when Mercury is in Pisces and especially are self-deceived when it is afflicting Neptune.

The Sun's conjunction with Venus on the 19th is more emotionally happy, is victorious for various forces fighting for some goal or object, is more benefic for social events and enjoyment.

The square aspects of Venus, the Sun and Mercury to Pluto during the last ten days of April will breed intrigue, sabotage, espionage scares, prison outbreaks and crime. Force is applied to get one's way, to reach one's objective, that is harmful to others. Racketeering, in individual acts and especially in politics and government decisions or acts, prevails around the world. Naval and aviation accidents will be prevalent during this period unless unusually safe precautions are observed.

The Mars-Saturn square of the 25th is the brutal, cold, merciless one of the month. It is unfortunate for monarchs and national leaders. A turbulent, warlike spirit exists. One is inclined to feel vengeful and cold to others. Discontent on the part of the people creates mobs and riots. Crimes and outrages flourish at such a time. Violent accidents,

# Still Voice of Saturn

## Transit Over Natal Sun

BY MITZI NOEE

BOB TURNER'S thoughts ran on and on as he picked out a soft blue tie and fastened it in place with an initialed tie clasp. He got into his coat and reached for his light felt hat. He argued with himself. What does it matter what you wear? Everyone has to wear something. Such materialism.

A fellow didn't mind serious moods once in a while but this mood of his had lasted far too long. For over two years now he'd known this troubled unrest of his mind . . . this probing into the depths of the why and wherefore. It was about to get him down. In his effort to understand himself he had turned to philosophy and religion. Even meditation appealed to him now and before he had thought it was simply a trick of the adepts.

He puffed on a newly lighted cigarette as he snapped the room into darkness by the wall switch. He took a key out of his pocket.

"Lock the door securely. What have you got in there that you can keep forever?" The inner voice sounded loud as if a man had spoken to him from the doorway. He'd leave it unlocked.

He straightened his shoulders and moved to the stairway and to the front door of the rooming house. There was no one in sight. He walked up the street toward the brightly lighted section of town. Just ahead of him, turning onto his street, he saw a young couple. There was something about them that made Bob think they were happy. But were they? Did they, too, have thoughts that bothered them? Were they curious about the why and wherefore of things?

He smiled to himself as he imagined their surprised faces if he were to catch up with them and ask them bluntly, "Do you wonder about things . . . try to reason about God . . . want to think and think and think about stuff that almost drives you crazy?"

No doubt the young fellow would smile at his girl friend and make circles at his head with his finger.

Everybody said trouble was a great teacher. Maybe he was just growing up. Everything

in life seemed to have more purpose now whereas before he took too much for granted. He was thirty-two years old, surely old enough to be grown up. There had been his marriage, the two children, divorce, unemployment, ill health, and then his mother's death. This had all left marks on him. He could see that he was changing. He was more serious.

"Hello, Bob," a friend greeted him from the steps of a tavern. "Come in and have a drink with me."

"Sure," Bob stopped and they went in together.

"You look like you could stand a drink, Bob. What's the matter lately? Thinking about Elinor and the kids?"

"Just thinking, I guess."

The girl in the picture on the wall reminded him of Elinor. It was the way her hair waved back from her face or maybe it was the coy expression. She was about Elinor's size in a bathing suit. The beer was good. He ordered more. Funny how some people drank too much. Why couldn't the fools know when they'd had enough. It caused broken homes, heartaches and lost jobs. The use of a thing didn't make it wrong. It was mis-use that caused all the trouble. From mis-use came abuse . . . and all the complications.

"Have some more, Bob?"

"No thanks, Kenneth. I'm going now."

"Let's you and I walk over to the dance at the El Chappo. May have a good time," suggested Kenneth.

"Can't tonight, Ken, because I'm going for a nice long walk. I don't feel like mixing with people. I want to be alone."

The fellow stared after him as he left.

You live alone and you die alone. Nobody really understands you! That hateful inner voice kept repeating. The staccatoed rhythm of the words kept time with Bob's steps until he found himself stopping now and then to trick them into silence.

He passed the hospital and noticed Doc Spencer coming down the steps. He wondered

about the doctor and rather envied him his materialistic outlook on life. A course in medical school sort of took higher thought processes for a merry ride. Doctors came out of their training to face the world on its own terms. Maybe he should have been a doctor like his father wanted him to be.

He'd wasted so much of life. Time went faster as a man got older. He realized that now. In a few years he'd be at the half way mark . . . and what to show for it? He hadn't even made a success of his marriage . . . not that he was to blame for all the trouble. Elinor was a partner in the venture.

He walked on and wondered if she was having such a time as he was . . . thinking about things . . . dissatisfied and wondering. But she had Tommy and Sue with her. Wouldn't that help, or would it only remind her of the Past when she evidently wanted to forget?

He had walked miles and suddenly he felt tired. To get to his room and rest seemed the answer to all his problems. The walk home seemed longer. He was too absorbed to notice the lovely moon, the patches of blue sky studded with stars showing through the lace work of the tall trees. He walked faster as he neared his room. There was a light in his room. Someone would have to bother him tonight when he felt like this. He hurried up the stairs to face his visitor.

Elinor sat on his bed with a wadded handkerchief in her hand.

"Elinor, you . . . what is the matter?" He stood in the door looking at her.

"I had to see you, Bob. I've been through so much in the last few months." Her lips quivered. Her blue eyes looked at him and through him. Suddenly she was in his arms and Bob held her as if he'd never let her go.

"I saw an Astrologer, Bob," Elinor whispered as she looked up at him from the circle of his arm. "This woman helped me to understand about us. She says our birthdays, being so close together and in the same year, make us subject to the same influences and transits." She broke off as he looked puzzled.

"It's Saturn, Bob. The planet changes a person . . . makes them over into something better . . . takes the dead wood out of a life when it transits over the natal Sun. Don't you see . . . we didn't understand what was happening to us. We thought love had gone. It was being tried by fire to prove its reality and depth."

"Elinor, you've had these serious moods, too, then? You thought being free from me would solve your problem and I thought the same thing! I don't know anything about Astrology but we're going to learn it together."

Elinor cried again. Bob sat by her on the bed and held her close again. He whispered, "There's a big round moon. Let's get outside and walk."

"Moon in Pisces . . . made for love," Elinor said as she smiled.

# PSYCHOANALYZING THE DICTATORS

BY MANLY P. HALL

MOST PEOPLE have an innate conviction that some of the European leaders—at least some of them—are mildly or violently crazy but they haven't a complete terminology with which to express their convictions. They have no adequate vocabulary to tell what they think about these people without unpleasantly affecting the sensibilities of their associates.

Playing on the principles of fear, the propagandist, publicist, advertiser or commercialist are constantly exploiting the individual, reminding him that his worst forebodings may be true. Man, himself, when confronted with two emotions, one of which tells him all is well and the other which tells all is not well, will elect to believe fear rather than confidence. He is convinced that things are more apt to go wrong than right and becomes fearful when things are *too* right.

Into this atmosphere of fear, into this world that is ruled by constant uncertainties, there come personalities destined to change the course of history, that often rise to positions of extraordinary power and influence.

In the closing years of the Hapsburg Dynasty and in the opening years of its previous existence as a democratic state, Austria was particularly fearful. The monarchy had been particularly unfortunate for about eighty years. When man begins to lose faith in established institutions his primitive instincts assert themselves. In Austria, particularly in Vienna, superstitions and mystery began to reveal itself as the dominating mood of the public mind. For a number of years, Vienna became a second Epehsus. Southern California has been mild and inconsequential from the standpoint of new thought movements when compared to Vienna.

Here, in the shadow of the collapsing Hapsburg Dynasty, there grew up a wild, rank occultism. Strange magicians appeared. Strange groups sacrificed to strange gods, the Black Sabbath was celebrated. The public mind, losing faith, turned Faust-like to Mephistopheles. All forms of strange, mysterious, magic arts enjoyed a wide popularity and attracted the best minds of Austria. Sensing an impending doom they turned to these mysteries for consolation.

In the midst of this chemistry of the incredible there moved the insignificant, incon-

spicuous figure of Adolph Hitler, at that time a man unknown except for an occasional oratorical outburst, a man without any sphere of influence, almost without education. This little ex-corporal, the second corporal in all history to rise to extraordinary rank, moved in an atmosphere peculiarly congenial to his own neurosis. Evidently born and reared in an atmosphere in which he suffered from introversion, thwarted, neurotic, he was the exact type of mind that would be drawn to the mysterious, to all that strange gallimaufry of cults and doctrines.

In Vienna he contacted a sorcerer, a man who later was to change the destiny of the whole world, by changing the life of one man. It was from this strange personality that Hitler studied Astrology itself, studied other occult arts, and certainly under the tutelage of this man his divinity complex took shape.

In this he was no more nor less than the average metaphysician. There is a state thru which all would-be aspirants to spiritual matters have to pass in which they believe they are having long talks with adepts and are peculiarly favored by the Almighty. Nearly all metaphysicians go thru a stage of metaphysical adolescence in which they believe they have been elected by the Infinite to some peculiar office. It is only after years of study that the metaphysician recovers and realizes that he is merely another human being.

This Adolph Hitler who was to play so large a part in history went into the same cycle of almost inevitable reaction, out of which his neurosis and natural introversion fashioned the curious structure of his destined purpose. It was unquestionably the effect of Vienna, the effect of the sorcerer, that changed a *blind impulse* into a concrete working pattern. Even as Napoleon was a product of the superstitions of Corsica, so Hitler is a product of the superstitions of Vienna, each practically identical with the other in the curious lore and mysticism with which they were immersed.

Out of this strange complexity of things has come a man of very simple, austere personal life, whose character is probably in many respects exemplary, whose great (if we may have the liberty of calling it his great) fault being not as much his personal character as the fanaticism with which he is fired, a frenzy which in the effort to accomplish a purpose

he believes he sees, is willing to tear down a world which he is in no position to restore. In this he is like many religious leaders who have in the past persecuted religions and philosophy and then tried to put in the place of that which they destroy something infinitely inferior.

Spurred on by fanaticism, the almost impossible is accomplished. The elements and requisites of the morbid condition which has arisen is to be found in the temperament and life of the person. In order to be a really successful dictator you must have a comparatively small, inadequate body. It is like the small child, the backward child who, denied numerous privileges because he is believed too sickly for responsibilities.

Another important requisite for dictatorship is the intellectual resistance to education which dulls the tools of dictatorship. The educated individual is usually educated out of his convictions.

Today we are confronted with the most dangerous form of leadership the world has ever known, also the most powerful. The most powerful leadership is religious leadership. It is far deeper than any political form of government. The Messiah is the most powerful form of human being. The man who believes in his divine destiny and is able to sell that belief becomes not only a leader but a monarch, not necessarily by demanding power but by having it bestowed upon him.

In the case of Stalin and Mussolini, whom we can classify together, we have a very different situation although it is apparently parallel. Adolph Hitler has not sold National Socialism to Germany. National Socialism has sold Adolph Hitler to Germany. It doesn't mean a great deal to the German mind whether Hitler is a National Socialist or not, because it is Hitler. He is the movement, he is the party, he is the entire structure. The allegiance is to the man, the picture is of the man. The name in everyone's mouth is the man. Every transaction of business is "Heil, Hitler." It isn't like the National Socialist Party going on, it is Hitler; but in Russia it is Communism and Comrade Stalin. Stalin is recognized as the power of the State but his State is *before the man*.

Mussolini is willing to control but not to obviously dominate. He is willing to permit the King's face on the postage stamps, running the King if he can but letting a certain amount of glamour go to him. Both Stalin and Mussolini have positions of political lead-

ership but they are not *divine* persons for very good reasons. First, because Russia does not believe in divine persons and cannot canonize Stalin without sounding contradictory and it is impossible for Italy to canonize Mussolini until after he is dead without breaking down the structure of the Roman Catholic procedure.

So you have removed from these men the peculiar fatalistic, mesmeric quality that caused Hitler to rise head and shoulders above them both as a dramatic personality, which will ultimately cause him to go down in history as one of the ten dramatic personalities in the world. The consequences of his actions may be horrible but the drama of his actions cannot be denied. It is the drama of the supreme madman, the man who plays God. There is nothing more fantastic than a man trying to administer the power of the Almighty. It is something so far from human possibility and yet so close to human ambition, something for which man is so desirous yet so unfit that when one man emerges who does dare, he dominates. But, because his knowledge and his understanding are not equal to his daring, he always drenches the world in woe.

Here we have a pattern, the picture of a situation with which we are confronted. We are faced with a *complex that is living a man*. It is no longer within the power of this man to control himself in all probabilities. It is conceivable that from a physical, actually technical physiological standpoint, the man would be regarded as sane but it is true that he is not balanced. He is unbalanced, yet that type of unbalance is the same form of unbalance that has produced the great geniuses of art, music and culture. It is unfortunate that his form of unbalance has taken this military pattern.

In Mussolini's case, we have a strong man with a natural tendency to leadership, working among a people that was without leadership, a man who took a job and did it but who is now, like many another leader, under the sway and menace of totalitarian National Socialism of Germany.

In the case of Stalin, we have a shrewd peasant working with a nation kept in a state of serfdom for centuries, a peasant using peasant means and a peasant viewpoint, following the natural procedure of surrounding himself with a peasant hierarchy and engaged in a clever game of horse-swapping for world dominion. He is an explainable man with whom any nation can do business if it can talk the language.

# The Bible

TODAY, as never before, men's hearts are turning to God for understanding and solace. We find these things in Astrology which in turn leads to the Bible now, more so than ever before, God's messenger, a source of comfort, knowledge and wisdom for those who seek Truth, *for those who understand it!*

The original documents of the Bible are not in existence, to anyone's knowledge. It would be surprising if they were. The skeptical and uninformed may ask, "How do we know that the Bible is the same as that originally communicated?"

The research student is not puzzled or baffled by such an argument. He has too much evidence in support of the actual transmission and genuineness of the Bible. If we had the original documents, we would have to prove their authenticity much as we now have to prove that our Bible is a translation of the long-lost documents.

Since the documents from which our Bible comes to us are gone, how was the Bible preserved and do we have conclusive proof that what has been preserved is the same as that which was lost?

The sacred writings were preserved in the Ark, afterwards in the temple and later in the synagogues. During the persecutions of the church, the original manuscripts disappeared. These originals have been preserved in the copies made for the use of the churches. They are in two forms, uncial manuscripts, those written in capital letters and cursives, those written in a running hand.

The most ancient manuscripts of the Old Testament, made in different countries and of unquestioned authority, are the Alexandrian, the Vatican, the Ephraem, the Sinaitic and the

Beza. The most important ancient versions of the New Testament are the Peshito, the Gothic, the Aethiopic, the Coptic, the Vulgate.

The Alexandrian manuscript has been preserved in the British Museum since 1753. It was brought from Alexandria and was probably written in Egypt. In 1628 it was presented to Charles I by Cyril Lucar of Constantinople. The Vatican, so called because it has been preserved in the Vatican at Rome, is an uncial manuscript. It is probably the oldest of all the manuscripts. The Ainaitic was discovered in 1859 in a convent at Mt. Sinai. The history of its recovery is a fascinating story. This greatest treasure of the

Eastern Church is preserved in the Library of Petrograd. One of the principal versions of the Bible is the Targums, a Chaldee word signifying "interpretation." Following the Babylonian captivity, changes in language necessitated interpretations of the Scriptures.

## STARS

"Ye stars: which are the poetry of heaven,  
If in your bright leaves we would read the fate  
Of men and empires—'tis to be forgiven  
That in our aspirations to be great  
Our destinies o'erleap their mortal state,  
And claim a kindred with you; for ye are  
A beauty and a mystery, and create  
In us such love and reverence from afar,  
That fortune, fame, power, life, have named  
                    themselves a star."

By Lord Byron

The Septagint, one of the most important versions of the Bible known as the LXX is a translation of the Old Testament into the Greek. It dates from about 300 years before Christ. According to tradition it was prepared by seventy-two elders at the request of the King of Egypt. At that time the Greek language was the most generally understood hence the service rendered by this version in making possible the wide circulation and reading of the Old Testament, preserved in a language more perfect than its original tongue and thus paved the way for the advent of Christ.

So many errors had crept into the Latin versions about the end of the fourth century that a more accurate version was necessary. The work of bringing forth such a version was undertaken by Jerome, one of the great-

est scholars of his day. This was in A. D. 383 at the request of Damascus, bishop of Rome.

Another thing that has an important bearing upon the preservation of the Bible is the agreement of the Samaritan Pentateuch with the Septuagint Version. This dates back to the period following the Babylonian captivity more than 500 years before Christ. It is in perfect agreement with the Jewish version of the Old Testament. The significance of this is fully appreciated when attention is called to the bitter enmity that existed between the Jews and the Samaritans.

Another factor to consider in realizing the authenticity of our Bible is the attitude of the Jews toward their sacred writings. Josephus records the manner that the Jews regarded the Divine authority and character of their Scriptures. It was an unpardonable sin to alter these divinely inspired Scriptures. So fixed was this conviction that they would endure any form of torture and death rather than be guilty of the sin of altering one jot of their sacred books.

The effect of all this upon the preservation of the text of the Old Testament cannot be overestimated.

The history of the English version of the Bible supports this thesis. From the time of Wycliffe's Version, the first complete Bible in the English language, to the Revised Version in 1885 was a period of 500 years of English revisions. Thus we have Wycliffe's Bible, the Tyndale Version, the Coverdale, Matthew's, the Geneva, the Bishop's Bible, the Authorized and the Revised Version and since then the American Revision.

The scriptures were originally written on rolls of parchment and were copied with the utmost care. It is interesting to study the different versions of the Bible which were produced by men inspired to bring God's Word to the people.

In 1384 the Wycliffe Version appeared. He was the first person who conceived the idea of giving his countrymen the whole Bible in the English language. It was made from the Latin Vulgate, the celebrated translation by Jerome, in the 4th century.

For 130 years Wycliffe's Version was the only one in the English language, in western Europe. No book, before the invention of printing, ever had such widespread circulation. Every copy had to be written by hand.

Wycliffe employed a number of scribes but they could not supply the growing demand. The farmers were so anxious to obtain the Word of God that they would barter a load of hay for a few lines of scripture. After twenty years, persecution checked this Bible. Wycliffe had completed the version of the New Testament and was preparing with a friend, Nicholas, to translate the Old Testament when the Roman prelates interfered. Nicholas was tried, sentenced and imprisoned in Rome but escaped. He was unable to return to England. Wycliffe, himself, continued the translation until his death. He was charged with heresy and expelled from the university, was afterward summoned to Rome to answer charges preferred by the pope but he died. Rome's enmity followed him to the tomb, however, for in 1415 the Council of Constance which burned John Huss, decreed that the ashes of the English heretic should be cast out of consecrated ground.

In 1484 William Tyndale was born. Printing had been invented and the reformation had begun. Europe was shaking under its compelling force. Luther had given his German Bible to his countrymen. Tyndale, forced by persecution to leave England, fled to Holland where in 1525 he translated the New Testament and slipped it back to the English people. He and his assistants perished as heretics. Three thousand of Tyndale's Testaments were secretly shipped to England in 1526 but the book was condemned. The reading of them was prohibited on pain of death. Tyndale's Testament was the first printed edition of any part of the Bible in the English language.

In 1553 the Coverdale Bible was produced. It was the first printed edition of the entire scriptures in the English language.

In 1537 the Matthew's Bible appeared. Tyndale, in prison, had continued his translation of the Bible. His manuscripts fell into the hands of a friend who resolved to continue the work. It was aided by Thomas Matthew in whose name it was published. In just a year after Tyndale's martyrdom, his Bible was published and circulated freely in England by Royal Decree, the first Bible printed on English soil.

Several Bible translations continued to appear in England, despite constant persecution. When Mary ascended the throne, in 1553, reigning for five years, it was prohibited. Those who had been diligent in translating and publishing the Bibles were burned at the

stake although some escaped to Geneva. It was here that the very superior translation was produced.

In 1568 the Bishop's Bible appeared. On Elizabeth's ascension to the English throne, the bishops of the English church began to consider a new version or revision of the Bible.

During the Middle Ages, the persecution of the established Church prohibited freedom in reading the Bible for they averred that it was to be taught the people by the established teachers. However, in our modern day all Churches solemnly advise their people to read the Bible.

In 1611, the famous King James Version of the Bible appeared. The men who made this translation were among the finest English scholars. It became the English Bible through public preference.

In 1885 the Revised Version appeared, produced by both English and American scholars who collaborated in the work.

The story of the English Bible is one of fascinating romance, toil and pain. Wycliffe, who first conceived the idea of giving the people the Bible in their own language, suffered years of toil, hardships and persecution, his ashes cast out of sacred ground years after his death. Tyndale, who gave us our first Testament from the Greek, was strangled and burned in Antwerp, his dying prayer being, "Lord, open the eyes of the king of England."

Fryth and Roye, aids of Tyndale, met a cruel death. Coverdale, who gave us our first printed Bible, narrowly escaped death at the stake, by exile. Rogers, who gave us the multiform basis of our present Bible, was the first victim of the Marian persecution; Cranmer, who left us our Psalter, died in agony. The work was crowned with martyrdom that gave us the Book which restores Paradise, opens Heaven and discloses the gates of Hell. The men who gave us this treasure suffered agony to do so but they enabled us to gain entry into a world of pleasure and spiritual inspiration!

The word "Bible" comes from the Greek plural "ta Biblia" which means "The Sacred Books." The Greek word for Covenant was often translated "Testament," thus the Western world still uses the names of the Old and New Testament.

The Hebrew Scriptures or Old Testament are called thus because they pertain to the Old Covenant. It appealed, in a historical way,

to men who translated it into Greek 300 years before Christ. The New Testament is the sacred Scripture of the last dispensation in which a *New Covenant* was made between God and man, in which all mankind are offered the privileges of adoption as the sons of God.

The age preceding that of the prophets is full of interest. Research of the last century has brought it into the range of our vision. The spade of the explorer and the enthusiasm of scholars who have devoted their lives to deciphering of texts, have brought us an inside view of social life, not only of ancient Egypt but in the early history of Babylonia. A few years ago it was claimed that the Assyrians mentioned in the Old Testament were mythical but the names have been found engraved on stones and plates of clay recovered from lost, buried libraries. Research has shown that every people has its tradition of the great flood known as the Deluge. Early tradition also gives the story of the creation and disobedience of man but it is only in the Bible that we find the simple history of these things.

# Prophecies of the Future

*"Your old men shall dream dreams,  
Your young men shall see visions."*

PROPHECY is a strange thing. I doubt if there has ever been a previous time in history that has found so many people of all walks of life interested in interpreting future conditions.

We are all endeavoring to remove the question mark from the future and secure some sort of an opinion of what to prepare for. It is too bad that this trend did not seriously develop in the past. Had we, during the thirties, known of what lay ahead, we could have avoided many of the tragic, fatal, destructive events. Now that the world is in the deep, dark tunnel of tragedy, she seeks to lighten the gloom ahead.

Prophecy is the key to the future. It is the light that brightens our onward struggle. It is the interpreter of the strange events that are history in the making.

It is interesting to study past prophecies that deal with our present age.

In 1928, a world famous seer, using Astrology as the basis for his predictions, published a book in which he wrote of The Fate of Nations. He was Cheiro, the man who had successfully foretold the fate of illustrious figures and powerful nations.

He left this book to posterity, knowing that Time alone would justify its contents. Here are some of the things he wrote:

*"Great Britain and The United States are compelled, by a magnetic, occult force, to join together not only to protect their nationality and their interests, but all they as nations stand for in the great plan of Progress and Humanity."*

*"Statesmen are keenly watching the trend of events governing the relations between France and England. Comrades in the Great War—or I should prefer to say Allies forced into a common line of action—today there is irritation, bitterness, and a sense of growing isolation between the two nations. There is no real union between Paris and London."*

*France AS A COUNTRY is antagonistic toward England AS A COUNTRY and there can never be unity or any real friendship between them.*

*"It is only War in the end that will save humanity. It is only when the world will be satiated with blood, destruction and violence that it will wake from its present nightmare of madness—and thus it is that the coming 'War of Wars' fits into the design of things."*

Writing of the then Prince of Wales, the present Duke of Windsor who abdicated the British throne "for the woman I love," Cheiro wrote:

*"He will fall a victim of a devastating love affair. If he does, I predict that the Prince will give up everything, even the chance of being crowned, rather than lose the object of his affection."*

*"Viewing the future, I see great and menacing times overshadowing England, while over the Palace and the Royal Family, the immediate present and the coming years are full of ominous signs that have no parallel in recent times."*

Writing of the United States, Cheiro continues,

*"American interests in China will cause a rupture with Japan which will bring on war between the two countries, involving Mexico at the same time."*

*"During the coming 50 years an earthquake zone will develop in a North Easterly direction from the Pacific Coast of Peru passing through Panama and Mexico, through the Northern States and Canada to the Arctic regions."*

*"Eastern Cities of North America such as Washington, New York, Buffalo, Boston and Toronto will be seriously affected and a considerable part of NEW YORK WILL BE DESTROYED. A new ridge or belt of land will appear in the North Atlantic which will so cause the Gulf Stream to alter its course that the Eastern States of America will become subjected to intensely cold winters!"*

(Note: The above prophecies, made in 1928, are particularly interesting this year, in

view of the numerous quakes which have been striking the New England states).

We are indebted to a fine author, Henry Forman, for a collection of ancient and modern prophecies which he has gathered into the famous book "The Story of Prophecy." In it we read many of the following prophecies:

*"After a sudden, devastating, lightning-like-war, France would collapse, to be reconstructed into a MONARCHY with a King. That there are but six more popes to follow the present Pope Pius XII. The prophecy of Nostradamus that Paris would be completely destroyed in 1999 by a strange people from the North."*

Nostradamus' famous prophecy of England is well-worth reading. He wrote it in the 16th Century:

*"The great empire of England  
Will be all powerful for more than three  
centuries;  
Great armies will traverse land and sea,  
The Portuguese will not rejoice thereat."*

England, in Nostradamus' time, was a lesser power. The destruction of the Spanish Armada which established England's sea power took place in 1588. The Portuguese, so dominant a power in Europe and throughout the world, were eclipsed as England rose to power . . . 1951 is established as the year ending England's great empirical power for many believe that this country's rapid growth of empire began in 1651.

Another quatrain or prophecy of Nostradamus which deals with France and England when it is unravelled and interpreted, reads

*"The Celtic nation should dread the hour  
The northern naval power will too deeply  
involve it."*

To the recent Pope, Pius X who died in 1914, is attributed a fateful prophecy. In the midst of an audience he was giving in 1909, he suddenly fell into a mysterious sleep, a sort of trance. Upon emerging from it, he cried out

*"What I see is terrifying! Will it be myself? Will it be my successor? What is certain is, that the Pope will quit Rome and in leaving the Vatican he will have to walk over the dead bodies of his priests."*

Another prophet has calculated that the years from 1942 to 1954 will be peaceful years, with constitutional monarchy and mod-

erate republicanism—an international breathing spell.

Interesting, indeed, is the famous prophecy in fiction form by H. G. Wells. He predicted the outbreak of a European war for 1940, "when a Nazi in the Danzig railway station shoots a Pole through a carriage window." When we realize that the European War began in September 1939, that it started with the Nazis shooting the Poles, we cannot help but commend Mr. Wells upon his superb foresight and intuitive grasp of future events!

Compared with Mr. Wells' picture of the complete destruction of our present civilization, arrived at by his peculiar ratiocination, during the forties and fifties, the *Astrologers*, far more light-hearted, present us with the flattering unction of hope.

According to Pyramid prophecy "the seventeen years to follow 1936 (until August, 1953) loom fateful and big with events of vast significance for the human race. During that period are to take place the Judging of The Nations and the awe-inspiring climax of Armageddon. The Stone Kingdom, which is Great Britain, and not excluding the United States, is to restore Israel to the ancient soil of Palestine, whence it had spread over the globe. The age of turbulence will be over and 1953 is to usher in a period of Reconstruction after demolition, culminating in a sort of Sabbath and breathing spell for humanity before entering upon a new age beyond our present conception.

Wing Anderson, in his interesting book "7 Years That Change The World" has compiled many prophecies that deal with our present time. Mother Shipton's famous prophecy is given:

*"When pictures look alive, with movements  
free (Motion pictures)  
When ships, like fishes, swim beneath the  
sea (Submarines)  
When men, outstripping birds, can soar  
the sky (Aviation)  
Then half the world, deep-drenched in  
blood,  
Shall die."*

Mother Shipton wrote her prophecies in the 15th century. Did she foresee Hitler and 1940 when she wrote

*"An APE shall appear in a leap year (1940)  
That shall put all womankind in fear;  
And Adam's make shall be disputed;  
And Roman faith shall be uprooted,  
And England will turn round."*

Joanna Southcott, another English prophetess, made many prophecies in the 18th and 19th century, of Britain's present plight. It is said that many of her writings were placed in a box which is to be opened at a time of great national danger, in the presence of twenty-four bishops of the Church of England and twenty-four believers in her own divine inspiration. It is said that nothing but the advice given in the prophet's writings can save England. The bishops sent for the box in 1918 but since they refused to abide by the conditions prescribed for the opening, the custodians refused permission to break the seals. We await the unsealing of her prophecies.

In 1600, a monk named Brother John wrote the following prophecy:

*"The real Antichrist will be a German monarch who will invoke God and give himself out as his messenger. This prince of lies will represent himself as the arm of the Most High, sent to chastise corrupt peoples. His spies will over-run the earth and will reveal to him the secrets of the mighty. He will have men in his pay who will maintain and undertake to prove his celestial mission. A war will furnish him with the opportunity of throwing off the mask. After two weeks the world will recognize that the war he originated against the French nation is of universal character. Not only all Christians and Mohammedans but other more distant peoples will be involved. Armies will be enrolled from the four quarters of the globe. By the third week, the angels will have opened the minds of men who will perceive that this man is the personification of evil, and they will all become his slaves if they do not destroy this conqueror. Antichrist will be recognized by these tokens: He will massacre the priests, the women, the children and the aged. He will show no mercy, but will pass torch in hand, like the barbarians of old. His words will be those of a Christian but his actions will resemble those of Nero and the Roman persecutors. He will have an eagle in his arms and there will also be an eagle in the arms of his confederate, another monarch. The latter will be a Christian and will die from the malediction of the Pope who will be elected at the commencement of the reign of evil. Priests and monks will no longer confess and absolve the combatants for they will be fighting. The Pope will proclaim that those who die fighting will rest in a state of grace and will ascend to heaven like the martyrs. The Bull which will proclaim these things will create a great sensation. It will revive the courage of the foes of Antichrist,*

*it will be necessary to kill more than Rome has ever contained. It will take the combined efforts of all his antagonists, because France, England and Russia will not be able to make an end of Germany without the aid of all the human race. Never will humanity have been faced with such a peril because Antichrist will have become a demon, which will have taken possession of his personality. Germany will hurl itself upon France which will soon be exhausted but for the aid of England. Germany will make a surprise attack on France and will invade the land. Germany will find itself forced to relinquish its hold upon France in order to fight Russia, whereupon France, in giving aid to Russia, will pursue the Antichrist into his own land. The battles fought up to that time will be as nothing compared to those which will take place in the country of the Third Reich. When the beast finds himself lost he will become furious. Antichrist will sue for peace many times but the seven angels who march before the three allies will have proclaimed that victory shall not be given except on condition that Antichrist be destroyed. The beast will lose his authority and will die in solitude and madness. His empire will be divided into states. Happy will be those who, escaping the terrors of this marvellous time, are able to taste of its fruit."*

Brother John's prophecy is remarkable in view of the trend of history during the past few years. Let us review some of his prophecies in reference to Hitler, Mussolini, The Pope, the present war and its developments.

Hitler's remarkable belief that he is a Divine Instrument or God's messenger and instrument. His statements that he has been sent to reform and chastise corrupt peoples and nations. His strategy in building Germany's war machine. His spy system, which encircles the globe. The effect of the three week Blitzkrieg in the spring of 1940 which convinced the world that Hitler meant business. Hitler's contempt and hatred of religion and the Jews which has dictated their imprisonment and massacre. His peaceful words, his warlike actions. The eagle in his insignia and the eagle in that of Mussolini, his ally. Mussolini, the prophecy states, will die as the result of some Papal action—this Pope, remarkably enough, being described as one who would be elected at the commencement of the reign of evil. Pope Pius XII was elected to his sacred office in March, 1939. The world well remembers the beginning of the evil war in September, 1939. It seems from this prophecy that Russia is to engage in the war

against Germany. The word "hurl" used to illustrate or describe the lightning-like war or blitzkrieg upon France is remarkable, to say the least. The comforting message concerning the end of the Hitler regime which concludes this prophecy is made still more possible and believable when we realize that this prophecy, originating in the 17th century and dealing with the modern 20th century, truthfully identifies the warring countries and even names *The Third Reich* (Hitler's name for his present regime) as the country that will make war and be defeated.

In 1842, a German uttered a prophecy which is astounding. He told that when *revolution* begins to sweep the earth, we shall see the emergence of the most appalling of all the antagonists that ever stood forth to do battle against the existing order. This antagonist had not as then made its appearance, he said, but would emerge under the term *Fascism*.

In the 7th century a nun wrote another remarkable prophecy in Latin, a translation into the French being published in 1917 which appeared in the Almanac of The People, copy of which is found in the Library Beauchemin. The English version appeared in a French newspaper in Canada in 1940.

"Listen, listen, my brother—as I have seen the terrors of the forests and mountains, fear has gripped all the people and never, in any part of the universe, has been such chaos. The time has come when Germany will be called the most bellicose nation of all the earth. The time has arrived when from the bosom of this country has come the terrible warrior who will undertake to spread war over the world. He will come from the bosom of the Danube (Hitler's birthplace) and will become a remarkable chief among men. He will gain victories on earth, seas and EVEN IN THE AIR because they will see winged soldiers in incredible attacks (bombing and parachute troops) arising to the skies and throws stars (bombs) down over cities. There shall be gigantic fires. The war will be long. The conqueror will attain triumph toward the middle of the sixth month of the second year of the hostilities (France and the Low Countries fell in May, June of the year 1940, the second year of the war) and this will end the first period of the bloody victories (we recall that with the fall of France and England's successful removal of her men at Dunkirk, the second phase of the war began and Hitler's boast of invading Britain failed). He will say, "Accept my domination!" while continuing his victories but his enemies will not submit. The

second part of the war will equal in length to half of the first (six months) and will be called "the period of diminuation." It will be full of surprises. Twenty belligerent nations will fight. Towards the middle of the war the small nations will cry, "Give us peace." But there will not be peace for them. In the end there will be body-to-body fighting in the City of Cities (Rome) and it will be then that we shall see a revolt among the women who will want to stone him. We shall also see great events in the Orient. The third period is most brief and the conqueror will have lost the confidence of his soldiers (1941). This period will be called the 'period of invasion for just retribution.' Then will be the last battles. It will be then that a warrior will appear who will disperse the troops of the conqueror whose armies will be annihilated by disease unknown and terrible. The soldiers will be discouraged. The sceptre will change hands and the people will rejoice. Innumerable regions will be fired and bloodied but will be saved by heroic defenders (the bravery of London's fire-fighters must be cited here). The region of Paris will be saved when everyone believes she is condemned to disappear. But the era of peace will arrive under the seal as two crescents of the moon unite under the peer of the cross."

Prophecies of Nostradamus that deal with this Century and the "fighting forties" are:

"A horrible war, for which Europe will prepare. The year following, there will be a plague so strong and terrible that young, old and animals will suffer. Blood, fire, Mercury, Mars and Jupiter in France." He prophesies that the British monarchy will be followed by a republic. He predicts the end of Hitler in 1943, 1944 with the destruction of his empire.

# YOUR CHILD AND HIS HOROSCOPE

IN LAST month's issue we wrote about wives and women in general, according to their astrological affiliations and birthsigns. In this issue I should like to talk about your children, from the astrological standpoint.

Few parents understand their children and this is reasonable when we realize that they are born of a different generation, in an environment different to your own when you were a youngster. Each child, however, hues closely to its own zodiacal type although the various planetary positions at birth alter the sign's expression in many ways. But, for instance, a Virgo child exhibits the Virgo characteristics and can be more thoroughly understood and appreciated when you know the pattern of his character. Since the character, itself, is indicated by the birthsign and is then influenced for good or ill by the other planetary positions and aspects of the wheel of life at birth, you can help the character-development toward positive, fortunate expression. For Character, after all, *makes destiny*.

A family household can be a beautiful, edifying thing or it can be a maelstrom, a hell of conflicting personalities and character-expressions. I have often seen a young child drive those in the home frantic because no one understood it, could not handle the fierce vitality and waywardness that was exhibited by "energy running wild."

## ARIES

The Aries child is born between March 21 and April 20. You have a very interesting problem on your hands in this youngster! You might as well know from the start that the only way you can handle this child is to keep it busy and make it respect discipline. Do not let him be idle or he will get into quarrels and mischief. A state of constant excitement is sought for the mind is everlastingly busy. A state of irritation is always present that keeps this child on edge. He is inclined to be too sensitive, touchy, critical. This can be corrected though by cooperative activities and interesting companionship of an intellectual nature that keeps him busy thinking of and producing new ideas. These children are brilliant but they are so far ahead of you in ideas that they must know the value of honesty and complete integrity or they often impulsively

do the wrong thing for they act before they pause to reflect the consequences. These youngsters live in their imagination and will probably only learn from experience. Hence they get into frequent trouble. They are very proud. They love to do things for others that draw praise, love and appreciation, for they are impelled to show what they can do. This is a creditable characteristic but is too often permitted to become militant; so that the child is inclined to bully others or want to be the "boss." Give the Aries youngster much love, let him respect your mentality and achievements of which he wishes to be very proud, give him work in which he can express authority; encourage him to express his ideas and imagination in some practical form.

## TAURUS

Taurus children are born between April 20 and May 21. The old adage "you can lead a horse to water but you can't make him drink" is true of this zodiacal type. Still waters run deep and this character is never quite fully revealed. Stubborn, quiet, affectionate but not demonstrative, the Taurus child is a well of beautiful qualities that can be cultivated in outward expression. They need much love for the nature is apt to become jealous if the child does not receive affectionate attention. You must be careful of their companions and habits for they are in danger of growing self-indulgent. These children can be very self-sufficient. They want to work with flowers for they love to make things grow. Laziness must be quietly discouraged. They appreciate the value of money and should be paid for what they do but the money instinct must be watched or the Taurus "Midas" qualities may become too strong. If the home and family life is not congenial and happy, the child will be very difficult to handle because the natural instincts require a great deal of harmony, love and happiness in the environment. It is not easy to arouse this child but once aroused to anger, the explosion is deep and violent. Music must be learned and some early form of artistic expression encouraged. They will work hard at things they *enjoy* but will be indifferent to that which does not attract or interest them. Hence they are somewhat difficult students. If unhappy at home or school they will gravitate to some pleasing personality or outside companionship

that may not be altogether good for character development.

#### GEMINI

Gemini children are born between May 21 and June 21. You have a chatter-box, an inveterate question-asker and curious little personality in this child. These children will be interested in many things and can't keep still. They are nervous organisms that are always "on the go." Sports, games, puzzles, books, radio, things that provide speed and action attract them. They require a great deal more rest and sleep than the average child so see that they get it. Fresh air and sunshine are essential for their health. Awake, be vigorous in providing entertainment, interesting studies and hours when they absorb knowledge for they are born with the instinct to learn something new. See that they are constructive in the things they do. Be particularly careful in their choice of companions and playmates for they are influenced by older, wiser children whom they admire. They want a close pal, however, and suffer loneliness more quickly than other children, if they lack companionship. They are very restless and will not find it easy to concentrate. They must be encouraged to follow a routine period of study each day for they learn quickly and easily but will not dig into things that they do not instantly understand or find easy. They will have many different traits and characteristics so keep them interested and busy at all times with a special inducement to "rest, now, so that we can do something very exciting and intriguing when you awaken."

#### CANCER

Cancer children are born between June 21 and July 23. You will often find these youngsters apparently living in a cloud or a trance because it takes them a long time, as a rule, to awaken to their outside world. They absorb their impressions and may not "give out" their reactions except when surroundings or associations are very irritating and uncomfortable. They are fussy and very sensitive, easily frightened or easily inspired. The memory is most retentive and the things learned or experienced in childhood influence the entire life for it is part of the deep well of memory that colors future beliefs, development and ideas. Hence we cannot over-stress the great importance of giving the Cancer child beautiful, not sorrowful, memories! The mother is a paramount influence for good or ill and the child will never lose a part of babyhood where she is concerned, but will always long for her comforting hand, her warm bosom. These children will be very resentful of any injustice,

selfishness or cruelty, despising and drawing away from elders who exhibit such traits. Do not let Cancer children be lazy for they have a natural inclination to let things slide until they are inspired to do something and will probably never do the things they do not get "pepped up" or inspired about. Cancer children learn some things very easily, almost miraculously, while others will never be grasped. They require a spiritual side to their lives which produces their own philosophy, so see that they have some memory of church and spiritual truths, but don't expect them to be too orthodox or outwardly religious. They love home and family so keep this phase of their life very inspiring to them. They will be giddy, serious, withdrawn but always a pleasure to you.

#### LEO

Leo children are born between July 23 and August 21. They are magnetic, emotional, strong-willed, proud. Easily hurt and injured, they demand a place in the limelight and cannot adapt themselves to neglect or lack of attention from others. They are born actors but don't let them cultivate an excessively dramatic approach to life or they will always be acting a part. They are self-confident and a blow to pride or self-esteem is very damaging to their poise and inner confidence. They must be taught to take disappointments lightly and not think too much of themselves. You can praise these children into doing things they dislike but do not let them feed too greatly upon flattery. They will overdo physically in things they love and enjoy doing. Disappointment or unhappiness often causes actual physical illness. Let them have a place of authority and command but do not let them be little tyrants or become too bossy! Give them things of which they can be proud, which they can show off to others, yet on the other hand, you must carefully avoid spoiling them to the extent that they feel the world is "their oyster." They can learn that they gain through merit and that the world will smile upon them as they prove their worth, express their real talents and modestly refrain from expecting applause unless they have earned it. They need beauty, a fair amount of pleasure and amusement, an interesting sport as a hobby and good clothing for they are very sensitive of their appearance.

#### VIRGO

Virgo children are born between August 23 and September 21. They will be a puzzle to you. They live in two worlds, their own and that in which they happen to find themselves which is not usually a happy or altogether se-

rene one! They feel lost and bewildered at many things. Their confidence and ego must be strengthened for they naturally belittle their own equipment because of the critical faculties of their sign. They may appear cold or unresponsive but this is because they are self-conscious. They have sterling mind and expressive talents so encourage them in the display of what they can do. They are eternal question-askers and do not discourage this trait for they are born to learn and accumulate knowledge. They are usually serious in their studies but will not thrive in an uncongenial environment where they are pushed back or neglected. Do not let them develop the habit of paying too much attention to minor details and thus neglect the important things. Pay particular attention to their health for Virgo instinctively worries about it. They are a combination of nervous and mental energy so that the physical body needs special attention, including diet, hygiene, regular rest periods. They should be given regular work and tasks to do for which they are paid and for which appreciation is given. They are miserable if they feel they are mentally inferior to other children and must thus have a good education, frequent trips and experiences that enlarge their store of knowledge. Cultivate their sympathies and affection for others but do not let them be too closely linked to sickness or sorrowful conditions.

#### LIBRA

Libra children are born between September 21 and October 23. They are charming little actors, reacting to anything and anyone with beauty, color and glamor. Provide this for them so that they are always attracted to you which helps create the sense of love and obedience in their reactions. They are very sensitive, will always challenge the underdog, the smaller child, the unfortunate ones. They are very loving so let them lavish their affection upon you but do not encourage them to be too demonstrative with everyone for they do not have naturally good judgment to distinguish between good and bad characters due to their sensitiveness and reaction to beauty and magnetism. They are very difficult to handle and train when their sense of harmony, color and beauty is offended. Their food has to be just right, daintily arranged, colorful and tasty-looking! They need pleasures and amusements but you have to be extremely careful not to let their sense of play dominate their development. They will neglect their tasks and studies for some personal interest or enjoyment, failing to finish what they undertake. They have to feel a sense of duty to *help out*

when they then work like little Trojans. Libra people do not do anything they do not like to do, which is important to understand in handling them. Develop their sense of obligation so that they feel industrious and wish to work to repay a favor, a debt. They are dependent which is a warning not to let them feel that they can lean too heavily upon your shoulders. They need many interesting hobbies, but must have early training of a business or professional nature to enable them to be independent.

#### SCORPIO

Children born between October 23 and November 21 are Scorpio-born. They will be the explosive factor in your family! They must *not* be spoiled for the feelings lie close to the surface, and they will cry easily, be offended, cultivate selfish traits that make them feel they have to have their way regardless of consequences. They are strong-willed and very stubborn. They will never change their feelings or mental opinions, once they are formed, hence you need to carefully discipline and train them. See that they do not mix with inferior or unruly companions for they gravitate to the source of excitement, danger and adventure. They live for today's pleasure or excitement so make sure that it is constructive. Sex knowledge is usually gained somewhat early in life and they need to be taught of the beauty of creation, sex and life so that its mystery is removed. This will banish its attraction. The Scorpio child instinctively ferrets out all the secrets and mysteries about them for they are born detectives and cannot endure not knowing about things that are kept from them. This can be cultivated advantageously in giving them hobbies, interesting studies, scout work and other fascinating subjects which they must investigate, explore, learn and study, to excel. They respect discipline but be sure that you are right or they will rebel in some violent manner. You cannot force them if they are not convinced. The impulses must be trained so that they have instantaneous impulses of right for they react to the impulse of the moment. You have to be strong, admired by the Scorpio child, to handle him. Give these children work to do, provide adventure and prospect of exciting enjoyment in their spare time, keep them busy under a watchful eye and all should be well.

#### SAGITTARIUS

Sagittarius children are born between November 21 and December 21. They are often problem children unless you understand and appreciate their rare qualities. They are shy,

timid, very sensitive to every hurt or impatient reaction from others. They are instinctive, will retire into themselves or run away if they are not comfortable and serene in their environment. A gentle, very firm and reasoning approach will gradually help them develop their own sense of conscience. They want to do right for that is their nature yet will be rebellious at the first hint of restraint or force. They are fond of play and should have much of it but at the same time, their sense of responsibility must also be cultivated in a quiet way, so that they are happy at *absorbing* tasks that are active and exhilarating to them. They are quickly bored and will not do anything in which they lack or lose interest. They have many moods, are loving and affectionate at one moment, offended or unapproachable at another if you have offended them, or if they disapprove of you. Their feelings usually correspond to your own. They should not be made unhappy by too much restraint or suppression of their natural love of freedom, exercise and the out-of-doors. They are wanderers and will instinctively want to get out into the surrounding world. They are too physically alive and active to be able to concentrate for long on reading or studies. Do not spoil them by too much freedom but cultivate their companionship, making a chum and pal of them. Give them music!

#### CAPRICORN

Capricorn children are born between December 21 and January 20. They are serious, having old heads on young shoulders. They will be moody, retiring, self-conscious. They are not very sympathetic but will be dutiful if they feel a sense of responsibility. They should be encouraged to cultivate the lighter side of their nature without diminishing their serious, studious approach to life. They have a strong imagination which is inclined to morbidity and fearfulness. Hence they should never hear, see or read frightening things or be too close to the gloomy side of life. They gravitate to older people and an older child exerts a strong influence upon their development. See to it that they are companionable with some older child who is constructive, kindly and capable. This stirs ambition to be likewise in the Capricorn child. They are very ambitious to excel in anything they do and are often amazingly brilliant and capable in early years because of the strength of mind given by Capricorn. Give them much affection so that they are warmed and illuminated by praise and love. Do not let them cultivate a solitary outlook on life. See that they have congenial playmates and plenty of constructive fun. Provide a colorful

environment, be hopeful and optimistic about them, make the most of everything these children have, to enlarge their natures and remove the gloom and pessimism which increases with sorrow or disappointments. Never break a promise or disappoint these children or they will expect it in the future and thus have lost faith and trust, not only in you but in life.

#### AQUARIUS

Aquarius children are born between January 20 and February 19. They seem very peculiar and different in childhood for they can be above the average in intelligence. They are slow to develop the moral sense of right and wrong and will be very irritating because they seem to go blindly or live in another world than that of your practical thinking and knowledge. They will instinctively know many things they have never learned and will be a constant source of amazement to you. They must be treated as friends and companions. They must give them a reason why, must cooperate and explain things to them. They want to do the right thing and will do so if they are rightly trained. Otherwise they may often get into trouble from doing what another does or from following the example of others. Whatever they want to do is right to them, hence the need to wisely train them, teaching them the laws of right and wrong, particularly emphasizing the consequences of penalties for wrongs. They quickly grow overconfident or superior for they are capable. Cultivate their protective and humanitarian instincts. Discover what they like best, the natural thing to which they are attracted, and give them that as a hobby or study. It will be something far different to that which pleases the average child, you can rest assured. You have to live *up* to these children and must provide them with splendid examples of success and humane achievements to which they naturally gravitate. Too much excitement makes them ill. These children love their parents and must not be neglected or left alone. Take them with you, let them learn from your example. Watch your own step!

#### PISCES

Pisces children are born between February 19 and March 21. They are imaginative, dreamy, super-sensitive, easily frightened, often getting into the "dog-house" for something wrong they have done in a moment of forgetfulness or impulse. They, like Aquarius children, are not like other children which must be understood and appreciated. They live in another world, a dream world—peopled with things of their own imagination. They

# Daily Horoscope

APRIL 1: Moon in Gemini. Good for selling, orders, communications and correspondence, visiting. Keep busy, do constructive work.

APRIL 2: Moon in Gemini. Mars enters Aquarius at 6 a. m. Confusing news, gossip and rumors today. Not a time for clear thinking or good judgment. Be careful about deception and mistakes, accidents.

APRIL 3: Moon in Cancer. A favorable day for buying, selling, business dealings, communications to and from others. Good results can be realized in personal and business activities.

APRIL 4: Moon in Cancer. Domestic affairs may be more important and pressing. A good day for finishing important tasks, home and family matters but dangerous for accidents, amusements, travel.

APRIL 5: Moon in Leo. Mars opposes Pluto today, bringing a wave of disasters and dangers. Avoid quarrels and trouble with others. Violence spreads at such a time. Avoid hasty action and emotional upheavals with those about you.

APRIL 6: Moon in Leo. Probably will be busy today picking up the pieces from yesterday! A day for quiet planning and living. Not favorable for amusements or new activities.

APRIL 7: Moon in Leo. Not a day for strenuous activity or risks. Plan a quiet program to avoid upsets with others, don't attract disappointments or make rash promises. Health needs protection.

APRIL 8: Moon in Virgo. An exhilarating day for business or personal activities. You should get things done today but be careful during evening hours, avoiding deception, secrecy, risks with your personal welfare.

APRIL 9: Moon in Virgo. Mercury opposes Neptune today, bringing dangers to health and happiness, as well as to business and money interests. Confusion, rumors, bad news, much worry and many mistakes occur at such a time. Stand still and await developments.

APRIL 10: Moon in Libra. Better results should be enjoyed today in work, business and financial activities. Personal ties can be made happier. Work to bring more happiness and goodwill into your affairs.

APRIL 11: Moon in Libra. Continue the quiet, peaceful program of yesterday in harmonizing your different relationships. Avoid mistakes by taking time to think and plan ahead.

APRIL 12: Moon in Scorpio. Mercury enters Aries today, beginning a new trend in world and individual activities. Avoid impatience, irritation and impulsive action but forge ahead, now, to get things accomplished. More excitement and quicker results are indicated.

APRIL 13: Moon in Scorpio. Mercury trines Pluto today, stimulating the mental action and driving force that gets results. However, warlike, dictatorial and blitzkrieg tactics will be sharpened and promoted. Good business conditions should develop.

APRIL 14: Moon in Sagittarius. The urge to be up and doing will now be very strong. Don't be impulsive in your actions or spending. Take advantage of the current trend to get things done, to take profits and improve your affairs so that you can take things more quietly later on.

APRIL 15: Moon in Sagittarius. Continue the progressive, ambitious course of this week, remembering that this is the last really favorable period of the month for achievement.

APRIL 16: Moon in Capricorn. Good business and financial trends should now exist that are encouraging and profitable. Do your work with vigor and get things done ahead of time.

APRIL 17: Moon in Capricorn. Employment and business trends are more promising. You should be successful in your activities. A favorable social trend is developing that can be happy and inspiring.

APRIL 18: Moon in Aquarius. Although a good business and financial trend exists today, be cautious about quarrels and accidents. Health-strain will develop if you overdo.

APRIL 19: Moon in Aquarius. Venus is conjunction the Sun today, stimulating for good luck and victory over different conditions. However, there are restricting trends that are not happy for friendships or domestic matters, health or income. Avoid new ventures for they will bring loss or trouble.

APRIL 20: Moon in Pisces. Sun enters Taurus today, changing the trend toward finances, property and personal affairs which grow more troubled and upsetting. Be conservative about spending.

APRIL 21: Moon in Pisces. Venus squares Pluto now which is very troublesome and upsetting for happiness, health, money. World trends will be very much disturbed. Social or amusement activities are not favored.

APRIL 22: Moon in Pisces. Sun squares Pluto today, making it another adverse date for money, happiness, health, peace of mind. World-shaking events are scheduled for this week.

APRIL 23: Moon in Aries. More excitement and activity is shown for today but nervousness and impatience will rise. Be cautious about important matters, promises, new activities. Mark time as far as possible in all activities.

APRIL 24: Moon in Aries. The program advised for yesterday should wisely be continued today. Get things done that require attention but await developments. Safeguard health.

APRIL 25: Moon in Taurus. Mars squares Saturn, finishing this aspect on the 26th. It is brutal, cold, cruel, disastrous in effect. The utmost caution must be observed to control your own feelings. Don't stimulate emergencies or bring things to a state of crisis. It is a day and night of violent accidents, angry upheavals, war, sudden sorrowful happenings, danger for those in positions of war. Heavy financial losses threaten.

APRIL 26: Moon in Taurus. The Mars-Saturn aspect culminates in Europe today which will focus world attention upon events there. Violence will spread, fear and sorrow be felt about many conditions. Harmonize your own affairs, keep optimistic and cheerful, as far as possible, live quietly.

APRIL 27: Moon in Taurus. A day of upsets and excitement, as the Moon is conjunction Uranus, trine Neptune. More constructive work can be accomplished but a quiet program is still advisable.

APRIL 28: Moon in Gemini. Mercury enters Taurus today but is upsetting for financial and business matters. New spending or business ventures are unwise right at this time. A state of crisis is pending in world affairs that should be carefully anticipated and prepared for.

APRIL 29: Moon in Gemini. Mercury squares Pluto today, an aspect of violence, dictatorial power, crime and reversals. Avoid new propositions, don't take risks with health, happiness or money.

APRIL 30: Moon in Cancer. The Sun is approaching a favorable trine to Neptune today which is inspirational and favorable for creative work, romance, health building. Do important tasks today to get good results. Prepare for May as you would prepare for a cyclone you knew was on its way—for it will be a month of crisis and extreme emergencies.

# Natal Astrology

THERE ARE 12 signs of the Zodiac, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces. These signs are opposite each other, as follows:

Aries	Libra
Taurus	Scorpio
Gemini	Sagittarius
Cancer	Capricorn
Leo	Aquarius
Virgo	Pisces

It is very interesting to study the signs in opposition to each other, for we find that each sign will be a composite of the opposite. For instance Aries, the cardinal, fiery sign is opposite Libra, the airy, cardinal sign. Aries is the "*I am*" sign of the Zodiac. It is always "first," in the lead. Libra, the opposite, is the sign of the "other fellow," not the "I." It thinks of others more than self, while Aries wants "what it wants when it wants it." Libra's life is bound up in others while that of Aries is the reverse. Libra's tendency is to neutralize or compromise while Aries goes straight to the point without consideration of hurt. Aries has its own way or has nothing to do with things. Aries "knows best," while Libra wants to know what *you* think about it.

Libra is the "*we*" sign, always including the other person. The urge for companionship is so very strong that Libra cannot work alone. Aries is the pioneer, capable of going anywhere alone, restless under restraint of another, while Libra is the opposite.

Libra loves beauty and is active in the intellectual rather than physical (Aries) realm. Places of mental development, where art can be seen, where beauty exists, attracts Libra. Aries is happiest when on an adventure. Aries does not mind getting soiled or dirty while Libra shrinks from it. Libra tackles the hard tasks for the sake of the beautiful result that can be achieved.

Aries loves a fight and argues for the sake of argument. Libra hates a fight more than any of the other signs. Libra is symbolized by blind justice holding the scales, illustrating the dispassionate judgment, ability to see and weigh both sides of a matter, on which justice is founded. Aries sees no side but its own.

Aries and Libra thus possess the qualities lacked by the other. When both signs can merge so that the characteristics of each are shared, the middle or proper course has been reached. Venus, ruler of Taurus and Libra, and Mars, ruler of Aries and Scorpio, are at opposite poles of the zodiac in each case of sign rulership. Both applies that which the other lacks. Mars needs Venus and Venus needs Mars.

Libra has independence but does not aggressively assert it as does Aries. Aries is more self-sufficient.

In Taurus and Scorpio we again find Venus and Mars in opposition. Taurus is the sign of the Builder, the sign of finance and possessions. It has a great love for beauty on many planes and possesses the desire to have things, to accumulate. Scorpio has equally strong desires, but is a constant reminder to Taurus (the money sign) that "you can't take it with you" because Scorpio is the house of death and the hereafter.

In Scorpio, Venus, the love planet, is subject to testing and temptation for Mars and Scorpio rule sex and generation. Taurus is the kindly, helpful nurse who strives to cure and cheer. Scorpio is the surgeon, cutting through to the cause of suffering.

In Gemini, Sagittarius opposite qualities we consider two mental signs, one (Gemini) ruled by Mercury, the other (Sagittarius) ruled by Jupiter. In Gemini we consider the lower or conscious mind which studies, learns, observes and thinks about mundane or earthly things. Gemini reads and gathers information. The thirst for knowledge takes it hither and thither. It is connected with neighbors, brothers, sisters, relatives.

In Sagittarius we find an equal kind of versatility and the love of "being on the go." Jupiter, the planet of judgment, directs attention to bigger things outside the close environment. Gemini leads in little things, Sagittarius in big things. The signs are associated with knowledge and philosophy, truth and prophecy.

In Cancer-Capricorn characteristics, we find other interesting opposition factors. Cancer

is the sign of the home and mother. It is connected with moods. Cancer reacts to the mood or feeling of the moment, living in its feelings and emotions. The disciplining influence of Saturn, ruler of Capricorn, is needed to develop self-control and self-understanding for Cancer, to avoid being ruled by adverse moods.

Capricorn utilizes everything, showing Cancer that nothing is of value but for the use that is made of it. It wants facts and sternly suppresses idle feelings. Saturn can utilize the excellent memory and intuition of Cancer. It takes Cancer out of its shell and stirs ambition, industry and imagination to achieve the big success possible for this sign.

In Leo-Aquarius, other fascinating opposition factors can be observed. Leo is the royal sign while Aquarius, its opposite sign is that of Democracy. Leo represents government by kings and royalty and dictatorship while Aquarius is "of the people." Leo rules "descendants" (children) while Aquarius rules friendships and people, all children of man. Aquarius often cares more for its friends than it does of family while the opposite is true of Leo. Leo chooses its objects of devotion through the heart and is thus more apt to be disillusioned or heavy-hearted in disappointment. Leo is a hero-worshiper.

Aquarius is the greatest of all character-readers. It knows people on sight, can see through them and their motives. He has keen discernment and although friendly by nature, is often considered a "snob" or is thought indifferent to friends. The Aquarius type is more humanitarian and *impersonal* while the personal touch in Leo is strong.

In Virgo and Pisces, striking opposition-characteristics again occur. Virgo is the sign of discrimination, virtue, analysis, criticism. If one is ill, Virgo will go back to determine the cause of the illness and put the blame where it lies. He will analyze and scrutinize, will criticize the sufferer for his mistakes, is very cool and practical. Virgo does not pour oil on troubled waters. It is more inclined to tell the truth about *why* a condition exists. It deals in correction of conditions that create ill health, poverty, lack of things.

Pisces, on the other hand, pities but lacks the practical ability of Virgo to get things corrected. Pisces lives in the sympathies. Pisces does what it can to help the poor fellow who is ill or down and out but has no solution for a cure. Suffering touches Pisces very deeply and Pisces is thus inclined to get down on the same plane, carrying the burdens of the burdened, sorrowing over them. Pisces dreams of big things while Virgo knows that hard work and industry is required to get them accomplished.

Thus the study of the *oppositions* in the horoscope is very important. Oppositions indicate a conflict between opposing characteristics and conditions. One is pulled this way and that. A middle of the road plane can be reached through understanding so that all the characteristics of the opposition can be rightly used and developed. A "Tug of War" exists in the persons who have oppositions. They are pulled this way and that, exhibit this characteristic and the other, so that an unbalanced state of affairs exists unless stability and poise are cultivated. Each sign is important in life and character. All their qualities can be strengthened and balanced so that all are harmoniously expressed.

### MUNDANE ASTROLOGY

In studying coming events that affect the earth, we use Mundane Astrology. Celestial phenomena with which it deals is divided into two classes, those taking place every year and those that happen at longer intervals, such as the Jupiter-Saturn, Jupiter-Uranus and other major conjunctions of 1941, which rarely occur.

Mundane Astrology is used very successfully to predict and foresee the trend of things to come. It is a curious and interesting fact to consider that in cases of major Biblical prophecies where earth-events are foretold that references always exist to the state of the heavens to the earth.

"The Sun shall be darkened . . . !" "The Moon shall not give her light . . . " "The stars shall fall from heaven . . . " "the powers of the heavens shall be shaken . . . "

It cannot be denied that the earth's weather is caused by the Moon, Sun and planets. The state of conditions upon the earth is also in-

fluenced by its relation to its celestial neighbors and the changing positions of the mighty heavenly bodies which alter the tidal pull and gravitational pull upon the earth.

In Mundane Astrology, we study the solar ingresses or four periods each year when the Sun enters the cardinal signs which correspond to the 4 seasons of the year. Lunations which occur every month when the Sun and Moon are together in the same sign, which rule for the ensuing period til the next Lunation, Solar and Lunar eclipses.

A great deal of comment and inquiry has arisen this year about the new comet which has been discovered, due to be most prominent in January. Comets have always held the place in history as an omen of evil. Regardless of wise scoffing that they portend nothing, it is hardly reasonable to think that a new force of energy in our neighborhood and along the earth's orbit, being drawn to the Sun, does not disturb the atmosphere and solar system. The order and harmony is disturbed and altered by the new visitor from outer space, with subsequent effects upon earth.

It has been found that times when large comets made their appearance, correspond to periods on earth when great calamities and catastrophes have occurred. They incite heated and turbulent conditions in the atmosphere, reflected in conditions among mankind.

It is said that a comet appearing in the east signifies the rising of some eminent law-giver. In the midheaven, some prominent king, but serious trouble when in the west.

We are told by great writers that "comets and fiery signs in the heavens are wont to be the forerunners of great changes in the world."

We will remember the strange, new comet which was sighted, visible from the earth, in 1937, followed by the new-comer of 1940 called "Cunningham's Comet" and can easily compare current conditions on earth to that which comets are supposed to signify.

The long transit of major planets through the zodiacal signs is important in the study of their effect on world affairs and trends. Uranus remains in one sign of the zodiac for approximately 7 years. Neptune for 14. Saturn requires approximately 2 1-2 years to journey through a sign while Jupiter usually transits through a sign in 1 year, while Pluto remains in a sign for about 30 years.

During the past few years, Neptune has been in Virgo while Uranus has been in

Taurus. Virgo rules labor, agricultural, food-stuffs, defense forces of a nation, industry. Neptune's confusing, befuddling and disturbing effect on these things while it is in Virgo is well known by astrologers who have associated the present conditions of labor and industry, defense, food, health and agriculture with its effect.

All times of history when labor upheavals, civil strife and revolution of the "have nots" against the "haves" have corresponded with a time when Neptune occupied Virgo. The revolutionary surge of the 18th century that produced the American and French revolutions occurred when Neptune was in Virgo where it *now* is . . .

Uranus, now in the financial sign of Taurus, produces upheaval in Taurus-ruled countries and interests. The economic structure is changed, political changes in governments and nations occur, and earth-shaking happenings alter the economic conditions.

During the forties, Uranus and Neptune both change signs, entering Libra (Neptune) and Gemini (Uranus). Uranus comes to 0 degrees of Gemini during summer months of 1941 but fully enters the sign in late May, 1942. Incidentally, Saturn also enters Gemini in May, 1942 so that these planets will center their energy in early degrees of Gemini.

Neptune enters Libra in October, 1942 but retrogrades back into Virgo in April, 1943, fully entering Libra in August of that year.

Great, world-wide changes will thus develop, occurring gradually and imperceptibly, but the new tide will nevertheless create far different conditions to those of the past or present times.

Neptune, Uranus and Pluto operate on planes so vast and extensive that they represent *the spirit of the times*, are an indication of *the historical period*. Hence, to determine *the spirit of our times*, we can satisfactorily picture them by a study of the aspects and sign position of each.

The passage of Uranus through the mental sign of Gemini will completely alter *the trend of thought and education* of the earth. Old philosophies are destroyed and left behind. The mass-mind seeks knowledge and information. Skeptical thought attacks tradition. A *reaction* against the laws, the events, the beliefs, the politics, the conditions of the thirties occurs and people will fight to produce *the new idea*.

# Aries Message for April

★ ★ ★ For Those Born Between March 21 and April 20

A GREAT deal of progress can be made this month if you are alert and constructive. Venus moving through your sign of Aries until the 20th is especially favorable and helpful in stimulating good luck and improvement in your life. Mercury's transit in your birthsign between the 12th and 28th is also good for changes and increasing activity in your affairs. The month is far more uneventful. You can get things done with greater ease and good results. Your powers of attraction will be greater. Don't be hasty and rash, though, in optimistically starting new things that are worthless or unprofitable. Utilize the month as a time of achievement in promoting your personal welfare and improving your general conditions of life. The month is good for personal activities for you should feel more magnetic, happy and capable.

**MONEY MATTERS:** Financial conditions are generally good until the 21st when a series of adverse aspects form in the Aries chart that are adverse for money and business. New spending activities, investing or extravagance should then be avoided. You should prepare, earlier in the month, for any emergencies or sudden demand for money that could then arise. Heavier responsibilities will arise. The need for money or necessity to meet new obligations will be greater.

The presence of Jupiter, Saturn and Uranus in Taurus affect the financial interests of Aries people moreso than others. Your financial affairs and state of security are approaching a period of critical stress and strain when they will probably be your chief problem. Earlier in April you should have good luck and realize increasing prosperity but this is not true after the 20th.

Employment prospects are very good, especially during the third week. The need for discretion and care in business or working matters is indicated around the 9th when mistakes or carelessness could cause loss. April is an excellent month for Aries people whose profession require public contacts and personal appearances. More vigor, personality and charm are emphasized and strengthened when Venus is in your birthsign.

**HEALTH INDICATIONS:** If you do not overtax your strength, the month should see you improving in health and appearance. It is a good period for health treatments, new exercises and a body-building program. You will probably feel nervous and tense at times, however, due to the growing energy you feel that makes you impatient for action. The 9th, 22nd through 28th are less favorable health periods. You should be more careful about food and hygiene this month. You will probably be far more interested and concerned about your appearance and state of health.

**TRAVEL, LEGAL MATTERS:** Mercury's transit through your birthsign is stimulating for moves and travel. These should be deferred on the 5th, 9th and other adverse days, however, for there is more danger of accidents at those times. Pleasure trips are apt to be more attractive to you but should be planned very carefully for trouble or danger is indicated from this source. Legal matters are more favored during the third week but are definitely adverse after the 20th.

**FRIENDSHIP, SOCIAL LIFE:** Friendships and social matters will be much more attractive to you. Trouble through or with friends is warned of around the 5th, again between the 21st and 28th. You should be extremely careful to keep your friendships clear of quarrels or misunderstandings for some secretive enmity may threaten.

**LOVE AND ROMANCE:** While more love and personal happiness can be enjoyed during April, there is nevertheless a very quarrelsome, troublesome element shown of which you should be aware. Strain on the heart ties is indicated. Anxiety or unhappiness about some child or other loved one will be felt. This is more apt to threaten around the 5th, 9th, 22nd through 29th. Try to safeguard loved ones. And also avoid violent quarrels or troublesome issues that would lead to estrangements. Some financial strain is also apt to be incurred due to a friendship or emotional ties.

Favorable days. 1, 2, 6, 7, 8, 14, 15, 17, 18, 19, 20, 23, 24, 25, 29, 30

Unfavorable; 3, 5, 9, 13, 16, 21, 22, 26, 27, 28

# Taurus Message

## ... for April

*For Those Born Between*

*April 20 and May 21*

IT WILL be wise for Taurus people to quietly and conservatively get your affairs in order, as far as possible, during favorable times in April so that you can take things more easily from the 21st on through May, when conditions are less good. Changes or new undertakings are not advisable because your affairs will be more subject to sudden emergencies or abrupt, critical changes. Your own state of mind and feelings will have much to do with your progress and happiness, so don't let troublesome, trying conditions become exaggerated or intensified. You should not take risks with your personal welfare or get involved in financial and other activities with people through whom you could lose. More stress and strain will be felt in all your affairs. Your normal poise and general Taurus ability to "take it" will be very helpful in holding you steady if you call upon your inner powers.

**MONEY MATTERS:** If you can mark time until late June you will find that an entirely new and very good financial trend then commences. April, May and earlier June, however, are very critical for business and financial matters. Changes must be avoided as far as possible. New financial activities are not advised by your stars. Changes through unfavorable happenings are more apt to occur. If you are employed, try to carefully avoid trouble that could cause loss of your position. If you are in business, adjust your affairs to conditions and avoid credit or other financial activities that could suddenly be very troublesome.

You will probably feel far more worried and pessimistic about your prospects. On the other hand, your judgment will be less good so that you could be tempted to speculate or take risks to

make money. Expenditures will be heavier this month so don't be wasteful or attempt to accumulate too much that you do not need. This is not a time for changes or good opportunities, while later months of the year are far more promising for the majority of Taurus people.

**HEALTH:** Your state of health is not favored. More danger of feverish ailments and physical strain will exist. Necessity to improve and strengthen your health will arise. A quiet, steady, health-building program will be very wise. The more adverse health dates when sickness or accident could suddenly occur or threaten will be the 5th, 9th, 22nd, 23rd, 25th. If you use as much energy to build your strength and protect your welfare as you may do this month in worrying and anticipating trouble, all should be well.

**TRAVEL, LEGAL MATTERS:** April is not a good month for travel so far as Taurus people are concerned. However, changes, moves and trips are more prominently indicated due to the position of Mars in the 10th house of the Taurus chart. Try to avoid changes as much as possible to counteract the troublesome conditions that are more strongly indicated. Secretive trips may be planned. Visits to and from friends or business associates are more probable.

**FRIENDSHIPS, SOCIAL LIFE:** Try to cultivate congenial friendships this month. When you feel gloomy and melancholy or grow irritable with conditions, contact those types of people, through social life or correspondence, who can be inspiring and helpful to you. Don't talk about your troubles, try to find someone to help, but contact the good friend who can be attracted into your life this month. Too much waste of time in social activities or amusements is not advisable. Do not be gullible, make loans or get involved with other people to any extent but be friendly.

**LOVE AND ROMANCE:** Your heart-ties will be strained during April. Try to avoid precipitating quarrelsome conditions or crises where temper or nerves could snap. Be adaptable for otherwise those about you will seem far less harmonious or congenial to you. Home problems are indicated. Be happy, yourself, and await developments as far as possible. If that doesn't appeal to you, then let Astrology analyze your particular problems in a personal, individual way to know exactly how to plan, what to do.

Favorable days: 2, 3, 6, 7, 10, 16, 17, 22, 25, 26, 29, 30

Unfavorable: 1, 4, 5, 8, 9, 11, 12, 13, 14, 18, 19, 20, 23, 27, 28

# Gemini Message for April

★ ★ ★ For Those Born Between May 21 and June 21

APRIL'S outlook for Gemini people is very interesting. You should feel much more ambitious and optimistic about your prospects. An invigorating force is beginning to develop in your affairs that can do much in freeing you from the limitations of the past few months. However, during April and May which are "emergency" months for everyone, when Gemini people, particularly, will feel very explosive and rebellious at any restricting conditions you experience, try to mark time so far as radical changes or new ventures are concerned. Be sure that you are *right* before you make the moves or take the steps that you contemplate.

**MONEY MATTERS:** Your financial prospects, after June, are indicated as being excellent, for Jupiter then enters your own sign of Gemini, which is a very stimulating, progressive influence that magnifies your ability to succeed and attract good fortune. During April, be cautious about investing or spending too extravagantly for sudden emergencies are indicated that require money. Try to build up your resources so that you will be prepared for new opportunities later on. You can increase your earning power and find business more profitable this month if you are alert and hard-working.

Employment prospects are good. You Gemini people should make every effort to advance in your business or employment for this is an opportune time to do so. Do creative work, cultivate new hobbies, study and follow new interests of a mental nature that now will attract you. Take advantage of the increasingly good intellectual trends that are developing for you to gain new *knowledge* that you can use later on.

Some change is apt to affect credit and business matters, but steer your affairs so that they are not adverse in result or consequences. Be cautious about making promises, taking on new obligations or making changes just for the sake of change! Remember this astrological advice around the 9th, especially.

**HEALTH INDICATIONS:** Your health may be impaired by worry or mental strain. Safeguard your physical welfare very carefully, especially so around the 5th, 9th, 22nd through 29th, when sickness or accidents will be more threatening. Some sorrowful contacts with sickness or trouble may prove depressing to you. Gemini people born on June 16, 17, 18 should be particularly careful to protect health due to Neptune's adverse aspect to you that is now in operation.

**TRAVEL, LEGAL MATTERS:** Travel and legal matters will now be far more prominent in the activities of Gemini people. Litigation is not favored this month on the 5th, 22nd through 29th. You could lose in such matters. Some contacts with lawyers or courts may arise that cause mental strain. Travel will be much more attractive to you so that you feel very restless and want to be "on the go." There is far more danger of serious accidents, however, which will require much more care on your part to avert them. More correspondence, study, interest in lectures or things of a spiritual and mental nature, contacts with people at a distance through trips or through correspondence, are indicated this month.

**LOVE AND ROMANCE:** Relatives may cause anxiety or sorrow (brothers, sisters, inlaws, especially). Be congenial with neighbors and those in your immediate surroundings, for some lack of harmony or trouble will threaten these contacts. More actual love and romance can be enjoyed except for Gemini people born on June 16, 17, 18 who are under a deceptive or secretive aspect of Neptune that is not good for love and heart-ties.

All in all, April can prove to be an excellent month in which to realize important ambitions and improve your prestige and position in social and business matters. Concentrate on this phase of your life but avoid secretive contacts, or anything which could be undermining to your happiness or future security.

Favorable days: 2, 3, 4, 5, 7, 8, 12, 13, 17, 18, 19, 29, 30

Unfavorable: 1, 6, 9, 15, 20, 21, 26, 27, 28

# Cancer Message for April

★ ★ ★ For Those Born Between June 21 and July 23

**APRIL** is always a very active, exciting month for Cancerians. This is due to the cardinal influences that increase your own desire to be up and doing and which also stimulates more energy in all your affairs. You are often inclined, however, to overdo in spending or attempt too much because of the momentary enthusiasm that you feel. Avoid this tendency this month for sudden, abrupt happenings and changes threaten during the next few weeks. This should be an incentive to you to get important tasks out of the way and establish your security as far as possible so that you can quietly adapt yourself to conditions or situations that arise.

**MONEY MATTERS:** Business and money matters will be increasingly active this month. You should be able to enjoy a far more profitable trend. Spending and new credit obligations should be avoided as far as possible, however. A sudden or unexpected strain on your income and financial affairs is developing which you will probably note more strongly between April 22 and 29 and again in May. You should now make every effort to strengthen all your resources so that you will be ready for the sudden emergency or change that could occur.

Employment is much favored if you seek work or have a position that requires your skill and energy. Work well and diligently this month. Good ideas, a strengthening of your imaginative and creative powers and more favorable contacts could take you forward in your work. Public contacts and more activity of a business or working nature is one of the most favored channels you can follow this month.

Make sure that new ambitions and desires you have this month are within your financial means or you will overspend. Let your own wishes and personal inclinations that require rising expenditures lie for a while, especially if credit obligations would have to be assumed. This is one of the dangerous trends for Cancer people during spring months. Adjust your life to your pocket-book and be particularly conservative in connection with friends or those about you who could be too expensive.

**TRAVEL, LEGAL MATTERS:** Legal papers, correspondence and contacts of a legal nature could be more prominent this month, especially so around the 5th, 9th, 22nd through 29th. An element of fraud or secrecy could prove harmful to your interests on the 9th. Travel will attract many of you and thus be more prominent in your plans during March and April. Business trips will be more important or pressing.

**FRIENDSHIPS, SOCIAL LIFE:** It is in this sphere of your life that more action is now being stimulated by major planets. Problems connected with friends and your own social position are indicated. Sudden estrangements or separations from others have been experienced. Your own emotional and mental attitude toward your friends and social interests has been changing to a great extent. Many different types of friends will be attracted, some Bohemian and exciting but less conservative or good for you, others very stabilizing and sincere. Your struggle has been that of adapting all these interests and contacts into a harmonious whole. Social activities and too intimate a contact with friends will not be wise or favorable after the 20th. To stay in harmony with your planetary pattern and avoid emergencies or strain on these ties, you will be wise to defer such matters.

**LOVE AND ROMANCE:** A much more romantic angle is shown for many of you. New love and happiness in romance and marriage can begin to be enjoyed. However, be watchful to safeguard the welfare of loved ones (in connection with sickness or accidents) and avoid quarrels about money or your other interests, for this will threaten many Cancerian marriages and love affairs. You are rapidly approaching certain planetary aspects that will bring a state of crisis into any strained, unhappy or insecure conditions you are experiencing. Keep every tie free of strain and misunderstanding.

Favorable days: 4, 5, 6, 8, 13, 15, 16, 19, 21, 27

Unfavorable: 1, 2, 3, 7, 9, 11, 12, 14, 20, 23, 26, 28

# Leo Message

## ... for April

*For Those Born Between*

*July 23 and August 23*

APRIL will be a very decisive month of important events and new developments. Leo people can lose heavily or mark time to control conditions, according to your own discretion and inclinations. This is not a favorable period for progress or abrupt changes. You will have much emotional strain to control. Try not to intensify your troubles or problems. Get them solved as far as possible and you can thus hold your affairs in a more secure, harmonious trend. The adverse planetary aspects you have been experiencing are ending, but your reaction to them is *now* more inclined to cause you to "blow up" or encounter conditions that test you to the limit.

**MONEY MATTERS:** Your financial prospects are both good and adverse during April. The major planets, Jupiter, Saturn, Uranus are influencing that part of the Leo chart which is connected with prestige, reputation, credit, business and profession. Unwise ventures, risk of your security in new undertakings that appeal to you, abrupt changes in your work or business, are all channels of loss and trouble. Your security and position gets its real testing during April and May when sudden reversals or emergencies will threaten that must find you well prepared. Mark time, defer important decisions, adapt yourself to those changes that are beyond your power to control. You can thus direct the trend now being felt in your affairs without permanent loss or serious consequences.

Employment is favored if you seek a position or have interesting work that appeals to you. However, the very restless, upsetting energy you now feel is not stable so that many Leo people will experience ups and downs in their work. Be careful not to attract enmity and misunderstandings. Be sure that what you attempt to do this month

is within the bounds of reason and does not necessitate personal or financial risks.

**HEALTH INDICATIONS:** Health indications are not good. There is increasing danger of accidents, quarrels and physical strain that could cause sickness or imperil your welfare. Leo people suffer intensely when they are unhappy and emotionally upset. This is one of the chief contributing factors to illnesses that you experience. Be careful not to overstrain the heart and back this month. Be particularly conservative in diet, follow a quiet health-building program and take special precautions to protect your welfare and that of loved ones, on the 5th, 9th, 21 through 29th.

**TRAVEL, LEGAL MATTERS:** Defer travel plans as far as possible. If this cannot be done, then remember the accident-warning and use good judgment in your method of transportation or in risks that are incurred. Don't take chances with your welfare. In connection with legal matters, April and May could bring serious trouble to Leo people who are not discreet or who encounter difficulties with others. It is certainly not a time in which to seek favors and consideration in law or court activities. An element of opposition and enmity will emphasize this quarrelsome period of strife. You are now more apt to make mistakes.

**FRIENDSHIPS, SOCIAL LIFE:** A very happy and congenial trend will develop in these matters during summer months. Until then, you are apt to be less happy with other people or encounter quarrels and misunderstandings. Try to hold the ties you have if they are at all congenial. In business relationships there is much danger of trouble and strife.

**LOVE AND ROMANCE:** Your feelings may be hurt so that you feel alone, neglected, emotionally disturbed. This is not a time to expect a great deal of love and affection but is a time to GIVE IT, to overlook misunderstandings, to deal patiently with those about you. Marriage will be an arena of quarrels, strife or anxiety. Safeguard the welfare of loved ones. Don't let quarrels be precipitated. Control your temper for you will feel much more angry, abused and disturbed by others. Refuse to let estrangements occur. The breaking up of many old ties could now occur through quarrels or other happenings that affect others. You can enjoy happy correspondence, can pour oil on troubled waters and greatly alleviate these conditions if you determine to do so. In new romance, Leo people have the warning of strife or trouble so don't depend too much upon those coming into your life until July and thereafter.

Favorable days: 2, 3, 6, 7, 8, 15, 16, 18, 19, 22, 26

Unfavorable: 1, 4, 5, 9, 12, 13, 14, 17, 20, 21, 24, 25, 28, 29

# Virgo Message for April

★ ★ ★ *For Those Born Between August 23 and September 21*

THE happenings affecting your life this month are apt to be in relation to those about you. More cooperation and goodwill should be cultivated so that you get along well with them. Be patient as you await developments, for this is the Virgo trend during April. Many important connections can be formed, but on the other hand, changes that arise through that which happens to others can alter your own plans or affect your own position in life. Hence the necessity to quietly build up your financial resources and strength so that you are ready for any emergencies that could cause temporary confusion or problems.

**MONEY MATTERS:** Money interests for Virgo people now seem to depend upon the good or ill fortune of others. You should be very conservative so far as your own spending or new ventures are concerned. An excellent financial trend is indicated that should improve your financial resources, between the 13th and 20th. On the 5th, 9th, 21st through 29th deceptive schemes or propositions, loans or other business dealings are not good. Loss or reversal will then threaten. Keep your plans under control so that others cannot cause permanent loss for yourself. Matters connected with insurance, deaths, partnerships and agreements between yourself and others will be much more prominent during April, so far as Virgo people are concerned.

Employment could be a problem for Mars will activate this part of the Virgo chart for April. It is stimulating for improving your position or securing employment, between the 12th and 20th; otherwise, at adverse times, radical, abrupt changes could suddenly affect your own position. At any rate, you may then feel very uncertain about your job, could grow angry and dissatisfied with it and thus make an unwise change or lose it. The 5th, 9th, 21st through 29th will be no time in which to make permanent or good decisions about your work, which is always one of Virgo's chief interests and problems! Be ready to do your work, respond to any call upon your strength or ability and don't force issues.

**HEALTH INDICATIONS:** Health prospects for April are not altogether good due to nervous tension and irritation. Keep calm, follow a normal and wise health program, be watchful, especially, in your diet. Overwork, feverish tension and nervousness will exist. Don't overdo physically, if this is possible to avoid. Since you must attract your success or opportunities this month, be cooperative in every way with those about you. Rest as much as possible in your spare time.

**TRAVEL, LEGAL MATTERS:** Virgo people born on September 17, 18, 19, 20 should now be very careful to avoid legal entanglements or trouble for Neptune's transit across your Sun is harmful to your prospects. Legal matters, for all Virgo people during April, are distinctly unwise for you could lose. Some legal problem or activity connected with lawyers or courts, may arise. Legal papers and new agreements with others should not be signed at adverse times this month, for a trend of trouble and disagreements is shown.

**FRIENDSHIPS, SOCIAL LIFE:** Both good and unfavorable trends exist in this phase of your life. If you can get along with others and remain congenial with them, you should feel enthusiastic about your friends and social contacts. But on the whole, April is not a month for pleasures and social activities. Your work, health and personal affairs will require more attention and consideration. Have your fun during good periods of March and get down to business, as it were, in April.

**LOVE AND ROMANCE:** Marriage is very probable for many Virgo people during April. You will have to be more patient and understanding with people you care for. Your own feelings are apt to be depressed and worried, for Virgo people cannot be happy if you are concerned about things. The happiest period in April, for Love, romance and marriage, gains and good luck through others, is during the third week, between the 13th and 20th. At other times, try to live quietly, avoid or control emotional strain and be of service, in helping, advising and cooperating with those about you.

Favorable days: 2, 4, 5, 8, 10, 12, 18, 19, 20, 29

Unfavorable: 1, 3, 7, 9, 11, 16, 17, 22, 23, 24, 25, 27, 28, 30

# Libra Message

... for April

*For Those Born Between*

*September 21 and October 23*

YOU may feel that you are on a "see-saw" or merry-go-round this month due to the many stirring events and conditions that are indicated. Just keep yourself balanced amidst all the excitement and don't act precipitously. You can be a helpful, inspiring force in your environment and associations and thus help protect your own interests and resources. Too much pleasure, enjoyment, waste of time, money or energy will be very harmful and must be avoided.

**MONEY MATTERS:** Your financial prospects are generally very good if you can avoid loss in connection with other people. This will be a problem, however, for their fortunes will affect your own. Be watchful not to let others impose upon you or misrepresent business and money matters. Some sudden drain in finances will threaten during April and May which necessitates wise preparation to meet it. Hence a budget plan for spending will be essential. Investments or speculation will be more attractive but don't take chances with money to make more.

Business and employment indications are good although the 9th is adverse for your work, due to your own unrest or to some enmity or inharmony about you. You should endeavor to finish important tasks and get things out of the way by the 21st so that you can then take things much more easily and quietly. Business dealings with other people, partnerships and gain through others which you may anticipate will be very adversely affected late in April, around the 21st, 22nd, 23rd, 24th, 25th, 28th.

**HEALTH INDICATIONS:** You may feel more nervous and worried about your state of health. A good diet and health-building program is advisable to sustain your strength and relieve nervous tension. Too much excitement in play or sports is not advisable. Worry about others will be stronger so that moodiness and despondency could be harmful to your welfare. April and May are "sickness and accident" months but your natural buoyancy and constitution can be very helpful in protecting you if you do not overdo or neglect your welfare.

**TRAVEL, LEGAL MATTERS:** Pleasure trips will be more attractive to you. Visits to and from others may be more numerous. The danger of accidents is greater around the 5th, 9th, 21st through 29th, however, when these activities should be wisely deferred. Moves and changes of location or alterations in your working environment may develop. The period between the 13th and 20th will be favorable for moves and trips more so than other periods of the month. Legal matters should be planned during this period, also, otherwise avoided and deferred to control the trend of loss through other people.

**FRIENDSHIPS, SOCIAL LIFE:** This is always an important aspect for Libra people and is particularly so this month. You will want to be more active socially and could grow much more extravagant and careless. The position of Mars, this month, contributes to quarrels and trouble with your friends. This is particularly apt to arise around the 5th, 21st through 29th.

**LOVE AND ROMANCE:** You will want far more love and companionship in your life. Libra people who like to play and have a good time will certainly be stimulated in this direction this month but should be extremely conservative to avoid quarrels or accidents.

Marriage should be much happier if your ties are at all compatible, between the 12th and 19th. The health, finances and affairs of others, however, could cause anxiety or tension at adverse times. You should endeavor to harmonize every relationship you have that is congenial and necessary to you. This will help ease the strain on your feelings which will be stronger. The position of Mars in the "house of love and emotions" for Libra people during April and May warns of strain on the heart-ties.

Favorable days: 2, 3, 4, 5, 8, 11, 12, 16, 17, 18, 29, 30

Unfavorable: 1, 6, 7, 9, 10, 14, 15, 19, 20, 21, 22, 23, 25, 26, 27

... for April

*For Those Born Between  
October 23 and November 21*

APRIL will undoubtedly be one of the most eventful months of your life, a time when many exciting, stirring experiences occur. You should plan your course very carefully to counteract any trends of trouble, strife or conflict with others that could arise. New activities or drastic changes are not advisable at this time. The Scorpio ability to be strongest and "your best" in times of crisis, when you have to fight obstacles, will be very helpful to you. Be sure that you fight wisely and that you do not fight that which could be regretted, later on. Control your own feelings, making this one of your "good" fights. Fight your own tendency, when and as it arises, to impatience and expression of your unrest.

**MONEY MATTERS:** The slow and more depressing financial trends Scorpio people have been generally experiencing will greatly lessen later on. Now, however, you should try to adapt yourself to conditions and not endeavor to undertake the "impossible." This is not a good time for speculation or investments. Saturn's opposition to you tends to slow down and hold back results, gains and achievements. Uranus is upsetting and fluctuative to your fortunes. Jupiter is inclined to make you more extravagant and have less good judgment in your financial activities.

Employment is very much favored this month if you can be adaptable and optimistic. The period between the 13th and 19th is one of the very best of earlier 1941 for securing a position or increasing your security in your work. Some very important changes could occur that take you forward to a better position or help you attract opportunity.

**HEALTH INDICATIONS:** The period in April between the 12th and 19th is the best for health treatments. Follow a quiet health program this month that helps increase and improve your general strength and resistance. Illness is more possible under Scorpio's present aspects, so plan accordingly. There is more danger of accidents and sickness of a feverish nature. Heavier burdens and responsibilities you have could be depressing and weakening. Don't take risks that could increase the unfavorable health trend.

**LEGAL MATTERS, TRAVEL:** Neither of these activities are well-favored, this month. Pleasure trips or visits to and from enjoyable people can be planned between the 12th and 19th with more success or promise, but on the whole, the adverse aspect of Mars is a warning of accidents that are more threatening. It may be less easy to avoid legal difficulties or problems if your relationships with others are not good, or if you take risks that are harmful.

**FRIENDSHIPS, SOCIAL LIFE:** More happiness can be enjoyed in this phase of your life except around the 9th when misunderstandings or secretive conditions could affect friends. Social activities or pleasures are not favored at this time. Your dream of an inspiring friendship and real companionship will be more real to you now, so cultivate the types of friends and social life to which you aspire, one that is elevating, of which you can be proud. Business relations can be greatly improved, quiet social events enjoyed, but strengthen your own powers of attraction which are lessened at this time. Be yourself, kindly, magnetic and considerate, and all should be well in your friendships.

**LOVE, ROMANCE:** It is in marriage and emotional ties that you are likely to encounter your chief problems. Relations with intimates will be strained. Others may be cold and unresponsive or you may feel this way, yourself. Avoid emotional crises around the 5th, 9th, 21st through 29th, or trouble will be encountered. Try to safeguard the welfare of those you care for. You will probably feel much more anxious or concerned about your own happiness as well as about others. This is not a period of your life that is so fortunate for love, romance and personal happiness as it is for work, quiet protection of what you have and marking of time until conditions are such that you no longer meet the invisible opposition that seems to now confront you. Keep harmony in your family at all costs.

Favorable days: 4, 8, 10, 17, 18, 21, 23

Unfavorable: 1, 3, 6, 7, 14, 15, 24, 25, 26, 27

# Sagittarius Message for April

★ ★ ★ For Those Born Between November 21 and December 21

THE sense of constraint and restriction you have been feeling about your environment, opportunities and personal advancement in life may be stronger this month. The tension and uncertainty will reach a climax in April and May which requires patient adjustment to things on your part, so far as possible. This is not a time in which to take risks and make drastic changes, nor build permanent foundations for the future. Mark time and await developments. The spectacular and good *opportunities* lying ahead on the Sagittarius thoroughfare are excellent. You have nothing about which to worry if you safeguard present interests and avoid mistakes—but this is far less apt to be done if you yield to your feelings or impulses.

**MONEY MATTERS:** Your financial prospects depend, of course, upon your business and work as well as upon the good fortune of others connected with you. You have good prospects for money interests this month although the 9th is very tricky and you could then make a wrong move that creates trouble or leads to financial loss. Be particularly cautious about schemes, propositions and investments at that time. Don't let yourself become too blue, worried or depressed just because conditions seem slow or obstacles are met. Attend to your job, whatever it is, and build up your financial resources as far as possible. This will enable you to be prepared for new opportunities that come to you later on and also be ready for any emergencies in April or May that threaten your security.

Employment is less favored during April and May. Watch your mental and emotional attitude toward your work for you are apt to feel very dissatisfied or refuse to adapt yourself to conditions or demands. Do not neglect important tasks for outside interests. Some events or conditions beyond your control could interfere with your employment or duties. Harder work, more responsibility with less returns may temporarily be required of Sagittarius people who are employed. Keep cheerful, be helpful and cooperative—strengthen your position in every way, without thinking too greatly about what *you* get out of it.

**HEALTH INDICATIONS:** Health prospects are less good this month. The physical, mental and emotional tension you are experiencing is depressing to your health and strength. Build up your vitality and resistance in every way possible to counteract this tendency. Live quietly and don't take risks that could cause sickness or accident. There is far more danger of nervous tension causing you to suddenly make snap decisions or abrupt changes, due to anger and lack of self-control so keep your poise! This is not easy for you during times of stress and crisis so take *this* opportunity to cultivate it.

**TRAVEL, LEGAL MATTERS:** The urge to be on the go, to make changes, to alter your surroundings and improve them will be very difficult to control. Short trips, visits and correspondence will all be quickened and be more numerous. The best period for trips or changes is between the 13th and 19th. Better not plan them for other times of the month for the accident-trend will be much more violent and strong. Be conservative about legal matters if they arise, and be watchful, particularly in communications, correspondence or business deals to avoid trickery or misrepresentation.

**FRIENDSHIPS, SOCIAL LIFE:** You may feel more quarrelsome and mentally impatient with people this month. Watch your reactions in dealing with others to avoid becoming brusque, sharp-spoken or undiplomatic for this will threaten and could arouse enmity and conflict with those about you. They will be more irritating and less pleasant in many respects. Be discreet in expressing yourself, either in speech or correspondence, for you are now apt to act abruptly and unwisely. Friendships are good but don't place too much strain upon them for everyone will be inclined to "get on each other's nerves" now. Read, study, take up new mental interests, express your creative ideas . . . this will help you utilize the feverish, nervous energy you will have. In all emotional ties, a happier trend will exist, with prospects of surprises coming from someone you care for. New romance could be enjoyed by you who proceed constructively and not impatiently.

Favorable days: 6, 7, 8, 12, 15, 16, 17, 18, 19, 20, 21, 26

Unfavorable: 1, 2, 3, 4, 9, 10, 11, 13, 25, 27, 28

# Capricorn Message

... for April

For Those Born Between  
December 21 and January 21

APRIL will begin to bring very decisive conditions and happenings into your life that end many old trends and leads to new interests and prospects. A state of emergency, a feeling that you are awaiting some unexpected happening that helps solve your problems, will probably be felt. Since April and May are largely adverse months when the wear and tear of world conditions as well as of personal difficulties proves very difficult for people to endure, try to avoid drastic changes, abrupt decisions or emotional upheaval. Live quietly, save your money and adapt yourself to conditions as far as possible. The time for advancement in new lines of activity and far happier opportunities lies ahead of you after May has ended!

**MONEY MATTERS:** Speculative risks, investments and chances with money should be quietly avoided by all Capricorn people. Sudden gain in profit-taking and from past investments is quite possible at times yet the reverse is also indicated, especially around the 5th, 9th, 21st through 29th. Heavier expenditures are indicated at these times. Be ready for emergencies or new demands that arise. The general Capricorn trend for finances is good but conditions all about you will largely affect your own fortunes or success and security, so try to safeguard your own interests as far as possible.

Employment is very much favored. People are alert for the skilled, thoughtful, serious type of worker and Capricorn supplies this type of person more so, perhaps, than any of the other birthsigns. You should adapt yourself to your work, attend to your duties, be ready to assume new responsibilities. You are working your way forward so do not despair at temporary set-backs or harder duties, but prepare for recognition and good fortune, gained as you earn it.

Watch finances very closely and carefully, avoiding extravagance, quarrels and negligence of your real business and serious work, on the adverse dates given in previous paragraphs.

**HEALTH INDICATIONS:** You will be wise to follow a quiet program of life this month to avoid nervous strain and accidents. Health need not be impaired if you do not neglect your welfare. Emotional strain, however, is indicated that could lower your vitality or give you a feeling of despondency and melancholy that is harmful. Any indulgences in pleasures or excesses will certainly have an adverse effect.

**TRAVEL, LEGAL MATTERS:** More activity and changes of location is possible this month, due to Mercury's transit through the 3rd house of the Capricorn chart which lasts through the 11th. Visits to and from other people, changes in the home location or surroundings, will be stimulated. You will feel restless and want to be increasingly on the go, as it were, moving things about, changing your ideas and inclinations, all of which stirs the urge to travel or plan new activities that require trips and changes. Legal matters are not so unfavorably aspected for Capricorn as they are for the fixed signs, but controversies and litigation will now be unwise, due to the injustice and violence stirred by the Mars-Saturn-Pluto aspects of this month.

**FRIENDSHIPS, SOCIAL LIFE:** Your friendly relations with other people can be enhanced and strengthened during good parts of April, yet your own feelings and ideas will probably clash with those who are not compatible to you. This is especially true in financial and business relationships, where quarrels and misunderstandings could affect your security and financial prospects. Social life can be enjoyed between the 13th and 19th but are not wise after the 19th due to disappointing, quarrelsome trends that then develop.

**ROMANCE AND LOVE:** From April 20 on through May, a period of great emotional tension and strain is foretold for Capricorn people. You will contact more sorrowful or disappointing conditions. You will probably reach a turning point in some important emotional decision . . . better defer making such decisions until you are favored with happier aspects that indicate better conditions. These arise for you later on. Keep the emotional ties intact that are valuable to you, avoid estrangements and coldness to or from others, don't insist on recognition or demonstration of affection. Above all else—refuse to let yourself grow heart-heavy, desperate or too conscious of any "lacks" in your life. These are all being intensified.

Favorable days: 1, 6, 8, 10, 11, 12, 16, 17, 18, 23, 28, 29

Unfavorable: 2, 3, 4, 5, 7, 9, 13, 14, 19, 20, 24, 25, 30

# Aquarius Message for April

★ ★ ★ For Those Born Between January 21 and February 19

**AQUARIUS** people will do well to remember that "haste makes waste" and that cooperation rather than competition is the keynote of your success in life, throughout April and May. Don't refuse to accept conditions this month and restrain your tendency to attempt the impossible. Of course nothing seems impossible or out of your reach when you get a fixed idea about something, but your ideas will not be wise or constructive during this period of the year, so take it easy! You can't achieve the success or happiness you strive for when Saturn and Uranus are adverse to you, so ride through this phase of your life with conservatism and patience.

**MONEY MATTERS:** If you are constructive and avoid drastic ventures that cause waste and attract disfavor, your financial affairs should be very good until the 20th. Thereafter you encounter a series of unfavorable conditions that cause emergencies and critical happenings. Severe losses and reversals of fortune can be experienced if you are not ready to adapt yourself to them. New business ventures, spending or loans should be avoided. You won't achieve what you go after, so mark time. Be particularly cautious in regard to property and possessions. See that they are insured, don't go after credit favors or negotiate about these matters, for they are sources of loss or much concern.

This is only a time of temporary upsets and permanent loss cannot be suffered *if* you don't make mistakes and get sidetracked by changes or unwise decisions and actions. Employment is favored if you can stick to your job and carry on as usual, but this won't be easy. Take time to seriously, carefully study and analyze the consequences of things before you rush into them, in both business and personal activities.

Be very cooperative, patient and tolerant of other people this month to avoid disfavor or enmity from them. You will want to rush ahead and do things while others will be inclined to hold you back, oppose you or fail to cooperate. This could create tension and cause you to break away, in a business matter or impulsive financial move.

**HEALTH INDICATIONS:** Health prospects are not good during April and May. More physi-

cal strain will be felt, accentuated by growing mental and emotional unrest. Keep your physical machine in shape and don't run it too fast . . . Avoid excesses in diet or pleasures and curb all indulgences that could intensify ill health or make you subject to sudden illness. Mars in your sign this month and next is a warning of feverish ailments and accidents which you can quietly sidestep if you are careful and use forethought. Be particularly cautious in health matters on the 5th, 9th, 21st through 29th.

**TRAVEL, LEGAL MATTERS:** The best period of the month for trips or visits lies between the 13th and 19th but even then Mars in your sign of Aquarius contributes to haste, accidents, trouble, risks. Better defer travel altogether, if possible, until after May has ended. You have plenty of travel and change opportunities indicated from July on, so why take chances now? Legal matters are definitely hostile and adverse so stay out of trouble and avoid litigation wherever possible, if such should threaten.

**FRIENDSHIPS, SOCIAL LIFE:** You can have excellent friendships and enjoy a quiet social life until the 20th, except on the 5th and 9th, if you are adaptable and congenial. Live quietly, however, so far as social events or extensive entertainment is concerned to alleviate the physical conditions you may experience. Correspondence, pleasant neighborhood contacts and family life can be concentrated upon and improved.

**LOVE, ROMANCE:** A more disappointing or anxious emotional trend is indicated which could produce unhappiness in family and emotional ties. This ends, for the majority of Aquarius people, in June so that far happier, pleasant conditions then commence in love and personal enjoyment of life. Hence you can quietly adapt yourself to conditions that cause increasing emotional tension and unhappiness, in all your personal relationships. Your whole life is now changing, in a way that may temporarily seem adverse or trying, but don't make the mistake of trying to change things yourself. Avoid separations and estrangements in your power to control. Safeguard the welfare of loved ones, particularly the family ties.

Favorable days: 2, 3, 7, 8, 12, 13, 18, 21, 22, 23, 27, 30

Unfavorable: 1, 4, 5, 9, 10, 14, 15, 19, 24, 25, 28, 29

# Pisces Message

... for April

*For Those Born Between*

*February 19 and March 21*

MANY new conditions and surprising events are now scheduled for Piscean people. Be ready for them for your road is slowly but surely opening into a new vista and horizon of opportunity. If you are born on March 15, 16, 17 be unusually careful this month to avoid complications, mistakes and confusion, particularly in your contacts with other people, safeguarding your health and security. Things are deceptive for you now, so that your judgment may be influenced by your desires and past beliefs.

**MONEY MATTERS:** The majority of Pisces people are experiencing generally favorable financial trends (except you who have the March 15, 16, 17 birthdays). April should bring increasing financial activity with many prospects of gain and profit. The period between the 13th and 19th is very good for money, earning power and income. You should be extremely careful, though, about new expenditures or investments, for you will need money later on.

Employment is very promising until the 20th, although the 5th and 9th could bring critical happenings or loss in this respect. A new position should be realized if you seek work, between the 13th and 19th. Get your important tasks finished and out of the way, however, so that you can take things more quietly and easily after the 19th. Less good working trends then commence that could cause loss of position or in salary expectations. Some mistake or negligence will threaten, so be alert and vigilant. If you are tired, ill and depressed, the working trend of late April, throughout May will be adverse.

**HEALTH INDICATIONS:** If you are born on March 15, 16, 17 it is advisable for you to

quietly safeguard your health. You are apt to be worried about your welfare or find it necessary to attend to health demands. Worry and mental strain seems to be the chief complaint of the majority of Pisceans now, so that this can be largely alleviated by cultivating a new state of mind, improving your surroundings and enlarging your outlook. Be more cautious in safeguarding your health and avoiding accidents, in trips or work, on the 5th, 9th, 21st through 29th.

**TRAVEL, LEGAL MATTERS:** If you feel unsettled and impermanently located, as you probably have for sometime, this is due to the altering trends that are now affecting your life. Extensive travel and perhaps a complete change in environment or location, are developing for Pisces people. Travel is not advised during April and May because of the increasing accident and sickness trend. If trips are necessary, they are more favored between April 13 and 19. Trips may suddenly arise because of other people.

Legal matters are definitely not favored for the March 15, 16, 17 birthdays, for Neptune's influence is such that enmity and disfavor are more easily attracted, while complications with others suddenly reverse one's fortunes or expectations. Harmonize all relations with those about you so that friction and litigation are avoided. Be careful in correspondence and speech, to avoid mistakes that could cause misunderstandings or legal difficulties.

**FRIENDSHIPS, SOCIAL LIFE:** Friendships should be much happier and more congenial between the 13th and 19th. Social activities are favored, but avoid those that necessitate rash risks or secrecy.

Correspondence and contacts with pleasant friends not seen for a long time may arise in an unexpected manner, but unfavorably so after the 20th. Visits to and from others are more possible now. In love, romance and marriage happier conditions can be enjoyed if associates are at all compatible. Relatives are apt to cause anxiety or sorrow. Keep all your relationships with other people, particularly with friends and intimates, on a congenial, cordial basis through your charm and adaptability. This two month period in April and May will be no time in which to contemplate changes in your emotional or domestic life, although sudden happenings may keep you emotionally upset.

Favorable days: 4, 5, 6, 7, 8, 12, 13, 17, 18, 19,  
20, 21, 23, 30

Unfavorable: 1, 2, 3, 9, 10, 14, 15, 16, 24, 25,  
27, 28, 29

worn on the sleeve of his followers and it will be an easy matter when they are transformed into a great army, which is Hitler's aim, to transfer this mark to their hands and foreheads and thus comply with the prophecy, 'and he causeth all both small and great, rich and poor, free and bond, to receive a mark in their right hand or in their foreheads . . . ' This mark is not the correct Swastika but what is known as the Swastika SINISTER the symbol being reversed. Whether Hitler fulfils the role of the false prophet remains to be seen but his present actions, aims and remarkable inversion of the Swastika symbol are the outward signs of a strange and mysterious personality."

fires and explosions occur that take a heavy toll of life. Assassinations often occur when this aspect is forming. Great care is advised during this time to avoid personal quarrels or crisis with other people, to safeguard your personal welfare. The world may be electrified by the passing of an outstanding leader.

If any period of earlier 1941 can be designated as one that is very dangerous and critical for Germany and the Nazi course of War II, this month begins it!

## Psychoanalyzing . . .

Continued from Page 10

There is definitely a form of *insanity* that is incurable in its advanced cases, which we do not very well understand. We know it is anti-social, we know that it is wrong, but we know that form of insanity to a marked degree has been present in all these persons who have drenched the world in blood. Genghis Khan called himself *the King of Kings*, the Son of the Sun, The Divine and went forth, conquering the world, slaying half of what he conquered. In the *name of destiny*, ripe with power, these madmen have overturned and overthrown great systems. After a time these systems have gone back to normal and the madmen have become history. We read about them and pay no attention to them any longer. The values of human life go on. The madmen cannot change the destiny of the world except for the period of their own influence. Their values are *not real* and they therefore

cannot endure. The empires they build fall because they have never had the skill to maintain them. You can gain or create ruthlessly but you can only *preserve what you have gotten by the use of intelligence*. Hence that which is accumulated by the fanatic is lost. He is like the gambler who may make a fortune but will die poor because he lacks the vision, experience and common sense to administrate the things over which he gains possession. This is the weakness of fanaticism that it cannot survive the dissolution of the personality and cannot administrate that which it takes into its clutches.

are born actors, mimics, make-believers, so don't be surprised at preposterous stories. Don't be surprised, either, at alibis for they are very inventive. They must have their sense of truthfulness carefully strengthened for though they wish to do the right thing, they become confused and muddled. Their playmates must be wisely chosen for others who have a stronger will or idea that attracts them will influence them. Their ambition, will power, optimism and wisdom must be strengthened and encouraged. Do not let them neglect their studies, give them regular tasks to do that are not too discouraging, laborious or boring. Provide simple amusements and interesting but quiet sports. Let them learn to sing, to dance, to act yet train them to be practical in some kind of work to which they can point with pride. They need to do creative work. Teach them that they must fight to gain recognition, that they have to work for what they get and they will become very self-reliant, capable and industrious. Neglect this and they are inclined to become discouraged before they start. Keep them enthusiastic about whatever they are doing, until it is finished. Discourage any tendencies to complain.

## Natal Astrology

Continued from Page 26

*Uranus was in Gemini* at the time of the Revolutionary and Civil Wars. It has now reached the third passage through Gemini with another stage of evolution to be produced for the American people and United States.

Neptune's influence upon humanity is mystical and spiritual. The vague longings and development of the nations and peoples come to the surface. Neptune's effect is produced by revolution. Hence the Russian revolution in 1917-18 as Neptune journeyed through Leo, the sign of Royalty, the labor revolution as Neptune has been in Virgo (since 1929).

While in Libra, Neptune signifies *political upheaval of the people led by humanitarians and thinkers*. Neptune was in Libra at the time when Moses led the Israelites and produced the *Ten Commandments*, giving a new law, a new structure upon which to base human life.

People born in *Gemini* and the other air signs of Libra and Aquarius will get "*their long awaited breaks*" due to the stirring, rousing influence of Gemini and Libra, during the next decade, as Uranus and Neptune stir their natures into creative efforts and productive action.

Libra has rule over foreign relations, international dealings, peace and war. It is the sign of *diplomacy*. We have every reason to hope and believe that Neptune's transit through Libra will produce a new type of diplomacy, a new cycle of international relationships that strive to produce a just peace and new conception of world dealings.

Libra rules Austria, Indo-China, China, Tibet, Egypt, Burma, Argentina, South Africa. These parts of the earth will be agitated and subject to great political and national upheavals. Neptune's position, in Libra, will influence the ascendant of the U. S. A. horoscope where Saturn was at the time of the Declaration of Independence. This heralds a time of peculiar development for the United States, all of which can be foreseen as we look ahead with the light of Mundane Astrology revealing things to come.

# EARTHBOUND

Is there a strange, ethereal, mental cord that binds the consciousness of those departed from this world with those that remain? Are souls denied liberation after transition until they have communicated important messages to their loved ones? Are the fantastic experiments of the seance room trickery or fraud, or are they the result of earthbound entities seeking freedom from the confining interests of this world? Is the human consciousness suspended for an indefinite period between the spiritual and earthly realms? Is psychic communication, with minds gone on, a farce or a fact?

## STRANGE HAPPENINGS

You have had them—everyone has. That unexplainable feeling of an invisible presence, that someone unseen was near or standing behind you. You have become suddenly conscious of your name being called—and yet no sound was outwardly audible. These and innumerable other *strange experiences* cannot be brushed aside as imagination or fancy. These occurrences are just as much established *phenomena*—manifestations of nature and Cosmic law—as the coming of day and night. In past times, men and women were willing to condemn to oblivion the *mysteries of self*—the psychic functionings of their being—all because a skeptical and bigoted material science scoffed at them.

Today is a day of frankness and so the Rosicrucians boldly proclaim what they have known for centuries. The Rosicrucians (not a religious organization), a fraternity of liberal-minded men and women, have dared to tear aside the veil that hid these facts about man's inner life. They have seriously investigated those realms upon which religion cast no light—and which the superstitious called magic. *Their results have been astounding.* They have discovered what caused some men and women to be successes, how per-

sonality originates and evolves; they have shown how *intuition* and *hunches* are not just phrases, but are DEMONSTRABLE processes of the human mind.
