SCIENTOLOGY: APPLIED PHILOSOPHY

By L. Ron Hubbard

Scientology concludes and demonstrates certain truths. These truths might be considered to be the highest common denominators of existence itself. They have the aspect of precision observations rather than philosophic hazardings. When treated as precision observations, many results occur. When regarded as philosophic opinions, only more philosophy results.

I looked early and long at man to find out what methods he used to survive, how he adapted himself to environments in his attempt at survival, and what I found was that man advanced to the degree that he preserved his spiritual integrity, that he preserved his values, that he remained honest, that he remained decent—and I found that he disintegrated or deteriorated to the degree that he abandoned these things.

The average man is up against problems. He's asking himself, how can I make more money? How can I make my wife faithful to me? How can I help my children grow up? These questions absorb a tremendous quantity of his energy. But he can't do anything about it because he is so immersed in it. So in Scientology processing he resolves these questions, he understands what he's doing, and he turns from a man who is simply a puzzled static being into somebody who is more than that.

We see governments and societies desperately trying to help man. They're trying, however, to solve his problems for him and their efforts to do this have not resulted in any great advance for man.

Now the real work is to put an individual into a mental condition where he can confront his own problems and

solve them—to put him in a position where he can confront life better, where his reaction-time is better, where he can identify the factors in his life more easily. And so he looks around, starts solving his own problems and betters his own life. That is an essential difference between Scientology and other efforts to help man.

As people come into Scientology (and they're coming in in very swiftly increasing numbers all over the world), normally what they do first is read a book, and then they may read quite a few books, and go around and about Scientology for some time. They attend some of the Introductory Courses, and then they will get some processing. They begin to get along better physically, their I.Q. goes up, their abilities increase, they are more capable of handling their lives.

And when one then decides to be an auditor he or she goes to an Academy of Scientology and studies and learns how to audit and so help others. And here again, one can begin with Dianetics, the first training ground for an auditor.

You'll find throughout Scientology that the gradient approach is a primary and regulating factor. And a gradient approach has been very, very important in this line of research. The principle is incidentally quite new. The essence of a gradient is just being able to do a little bit more and a little bit more and a little bit more until you finally make the grade.

We live in a world that is desperately in need of some good order—it isn't aberration on our part that we say some things ought to be changed. Actually I rarely tell you

things should be changed—I simply tell you that a world has to be created. I don't even assume one exists. I figure that this one's on its way out and that somebody had better put one in its place. Just how we go about doing that is up to you and up to me. This is what we call Scientology: Applied Philosophy.

People think of professional practitioners as doctors, who, aloof from other concerns, practice on the sick. This is a very novel idea, however. It was dreamed up, probably, by the first lazy witch-doctor, and used forever thereafter by most mental specialists. I want to banish that idea from amongst us all.

If we are doctors (by which might be meant "repairers") then we are doctors on the Third and Fourth Dynamics, the Dynamics of groups and of mankind as a whole, and we handle the First (self) and the Second (sex and family) only to achieve better function on the Third and Fourth.

The Third and Fourth Dynamics subdivide. Any Third breaks down into many activities and professions—a neighborhood, a business concern, a military group, a city government, etc. The Fourth breaks down, just now, mainly to races and nations.

So you see that the idea people sometimes have that a Scientologist must be an auditor who audits individuals in private sessions is too limited an idea.

Where we have made the breakthrough in Scientology and where we have made progress, we have done so in accomplishing the goals which man has had as long as he has been man. What he has considered good and what he has considered desirable in the field of philosophy, we

have accomplished technically. We have now arrived in Scientology at a point where man should have been for the last five thousand years. There has never been this technology before. You are in a very fortunate position of not having to develop the technology of auditing. A good auditor has found this out. He uses the tools he's got and he uses them well. There is a tremendous amount of understanding involved here. There are millions of words written on the subject of auditing technology. An auditor can be pretty staggered to suddenly realize how much he really knows.

Auditors are dedicated and sincere in getting this job done. There has never been a more sincere group on the face of the Earth than those who are in the ranks of Scientology auditors. We wouldn't have started on auditing if we weren't good people who wanted to help our fellow man. We are the first people to appear on Earth since its first solidification out of nebulous vaporings who can get this job done, and who really know what we are doing.

The very truth that we know, its simplicity and ease of grasp, the very honesty with which we approach our task, give us probably the largest barriers we have to overcome. Man has been defrauded so often, persuaded so wrongly, and has returned to the same old rut so inevitably and in such a defeated frame of mind, that he is not able to grasp easily the firm and friendly hand of the auditor which is being reached out to him.

The route to highest states of existence has been sought long by man in the fields of religion, mysticism, spiritualism, philosophy, mental arts, metaphysics, science and allied studies. Vast libraries could be filled with the scraps of information gathered in the course of this search. The great achievement of Scientology has been the culling of truth from this sea of data and finding that the truth was a tiny group of data possessed of the overwhelming power of changing all other facts in this universe and in livingness.

FLASH: BOOK PRICE INCREASE

Inflation in the United States and Canada has not slowed down and in fact is continuing at a high roar. Books, once again, run the risk of being furnished only at a loss and this could cut our Dissemination lines.

Thus on the First of December 1981, the prices of all Dianetic and Scientology Books, Tapes, Cassettes, and Course Packs will increase 5 percent. This increase does not include the Prices of Basic Books. (The Basic Books are: Dianetics Modern Science of Mental Health, New Slant on Life, Problems of Work, Evolution of a Science, Dianetics Original Thesis, Fundamentals of Thought, Self Analysis, The Way to Happiness Booklets and the Scientology Abridged Dictionary.)

There will be a further increase on the 1st of January 1982 and subsequent months.

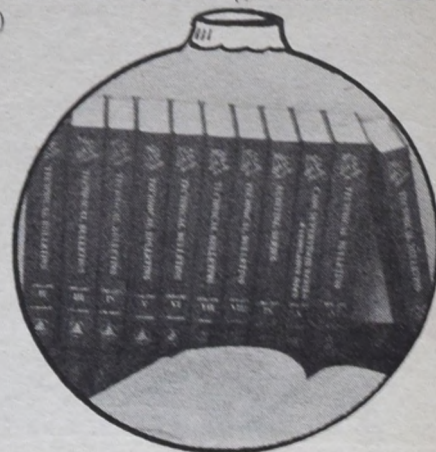

So contact the ASHO Bookstore Officer TODAY at (213) 660-5553 to get your complete LRH Library. Buy before the price increase!

SUCCESSSES AT ASHO WITH THE NEW LRH TECH FILMS

The Cycle of Communication is a great movie, it is very carefully and objectively explained and amusing at the same time.

This was very needed, I'm glad these films are here. They are of great help.

—L.M.

Thanks Ron for your Training Films—They are needed and wanted! I know they will greatly assist Standard Tech to be applied by all.

You're terrific and we love you!

—J.B.

After seeing False TA and especially the Doll Drill movie, it *totally* rehabbed me as an auditor—I did the levels in 1974 and haven't audited since really. Now I know that auditing professionally or being a pro is what I want to do—it has been an incomplete cycle of long duration.

It (the film) really impinged on me very much—I know it can and will handle a whole field of failed or unfunctional auditors.

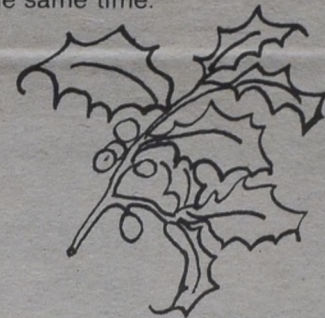

—W.P.

The films on Meter Reads, and PC Indicators were great. After seeing them I have greater certainty on those matters. It's very good to see what is right, and know it is right.

—C.S.

The tech films make it easy to see and understand many technical points. They make *vivid* the printed data, and there is so much more to be gained by seeing something done rather than just reading about it.

It's great to broaden your viewpoint, enjoy the films and gain more certainty on the tech all at the same time.

Clears operate on self-determinism without being dictated to by the bank. Clears are beings who are freed from the chains of their Reactive Minds (that portion of a person's mind which works on a stimulus-response basis, and is not under his volitional control, and which exerts force and the power of command over his awareness, purposes, thoughts, body and actions).

You can do the Clearing Course while you study at ASHO! The Clearing Course is delivered at the Advanced Organization of Los Angeles (AOLA) right across the street from ASHO. You can be on course at ASHO and be auditing yourself to Clear at the same time!

Prerequisites to the Clearing Course are the Expanded Grades O-IV, Power Processing, the Solo Course (all delivered at ASHO) and Grade VI (Whole Track Release) delivered at AOLA.

An organization whose function is to run the Clearing Course and OT Levels. **AUDITING:** PROCESSING: the application of Scientology processes and procedures to someone by a trained auditor. **AUDITOR:** one who has been trained in the technology of Scientology. The person whose job it is to ask the person to look, and get him to do so. The word auditor is used because it means one who listens, and a Scientology auditor does listen. **CLASS IV AUDITOR:** a graduate of auditor training levels 0 through 4. **CLASS V AUDITOR:** a graduate of the Saint Hill Special Briefing Course. **CLASS IX AUDITOR:** the Class IX Course contains data concerning advanced procedures and developments since Class VIII. **CLASS VIII AUDITOR:** The Class VIII Course teaches exact handling of all cases up to 100 per cent result, as well as Class VIII procedures. **CLEAR:** a thetan who can be at cause knowingly and at will over mental matter, energy, space and time as regards the first dynamic (survival for self). **DYNAMIC:** there could be said to be eight urges (drives, impulses) in life. These we call dynamics. **THIRD DYNAMIC:** the urge toward existence in groups of individuals. **FOURTH DYNAMIC:** is the urge toward existence as mankind. **EXPANDED GRADE IV:** Ability Release. Moving out of fixed conditions and gaining abilities to do new things. **QUAD:** QUADRUPLE FLOWS: something happening to self, doing something to another, others doing things to others, self doing something to self. **EXPANDED ARC STRAIGHT-WIRE:** the grade that results in freedom from deterioration. **GRADE:** the attainment of a level achieved by a preclear. A series of processes culminating in an exact ability attained. **GRADE VI:** WHOLE TRACK RELEASE: return of powers to act on own determinism. **GRADE CHART:** the route to Clear, the Bridge. On the right side of the chart there are various steps called the states of release. The left-hand side of the chart describes the very important steps of training on which one gains the knowledge and abilities necessary to deliver the grades of release to another. It is a guide for the individual from the point where he first becomes dimly aware of a Scientist and of Scientology and shows him how and where he should move up in order to make it. **HAT:** the duties of a post. **NEVERA DIANETICS:** a refinement of all previous Dianetic techniques from 1950 up to present time as well as the development of new technique giving much faster results and far higher gain per hour of auditing. **NED DRUG RUNDOWN:** the answer to a druggie's dreams. Without withdrawal symptoms and in no pain, no strain rocket ride, he comes right back up to life and living. **OT:** OPERATING THE TAN: willing and knowing cause over life, thought, matter, energy, space, and time. **OT III:** operating thetan section three. **PRECLEAR (pc):** someone who is on the road to becoming Clear, hence pre-clear. **PROCESSING:** see **AUDITING**. **POWER PROCESSING:** special auditing dealing with the ability to handle power and the recovery of knowledge. **PURIFICATION RUNDOWN:** the program that results in freedom from the restimulative effects of drug residuals and other toxins. **SAINT HILL SPECIAL BRIEFING COURSE:** the purpose is to make the auditors and instructors who make the auditors and instructors over the world and to put the final polish on auditing. **SCIENTOLOGY:** an applied philosophy designed and developed to make the able more able. The study and handling of the spirit in relationship to itself, universes and other life. **DIANETICS:** DIA (Greek) through, **NOUS** (Greek) soul. What the soul is doing to the body. **SOLO COURSE:** teaches a person to do solo auditing preparatory to the person auditing himself on upper level processes. **SURVIVAL RUNDOWN:** the rundown that gets a person, as a thetan, better aware of his body and his physical surroundings, in better communication with these things and in better control of them. **TECHNICAL ESTIMATE:** the estimated number of hours of auditing expressed in number of intensives that the Director of Processing and/or the Case Supervisor consider to be currently required for the pc to attain what he wishes from his current auditing. **THETAN:** the person himself—that is his body or his name, the physical universe, his mind, or anything else; that which is aware of being aware; the identity which is the individual. The thetan is most familiar to one and all as you. **TR:** training regimen or routine. Often referred to as a training drill.
