THE NEW MOON OF APRIL 17th

The chart of the 17th of April is rather dynamic in spite of the weak sign on the ascendant, Pisces. But that is remedied or offset by the fact that we have Jupiter, the great benefic Jupiter, right on the ascendant and applying to a conjunction with Venus. The latter, unfortunately, is in opposition to Saturn and applying to an opposition of Mars, and you have the usual flies in the ointment. This, of course, is the 1st lunation for the Astrological Year. Aries is the most powerful, dynamic sign in the Zodiac. Nature takes on new life. True, vegetation shows signs of life as soon as the frosts and snows abate, but when the Sun enters Aries you can almost see things growing in your garden and that same principle applies in our economic affairs, our health, our business. It gives everything a transfusion of life. In our last lunation the great, powerful Uranus was retrograde as was 4 or 5 other planets, but now Uranus is going forward.

This explanation is necessary that you may better understand the makeup of what makes things tick in a lunation chart. So many of my students have written in and asked how I arrived at certain conclusions; they invariably say you are right but I don't see what you based it on, so I have now explained some of the factors upon which I based my judgment. Yet it all takes something more than mechanical knowledge to know how to delineate a chart and that is the intuitive faculty. With that you can synchronize the judgment of the chart; without it your judgment has a metallic ring. I have keen intuition and without it my head knowledge wouldn't do me any good. With Jupiter occupying such a powerful position, there is bound to be a spirit of optimism. I believe in optimism, I believe in enthusiasm; the world would stand still without these qualities, but let me urge caution because many people will go overboard this month. It is alright to soar to the heavens as long as you keep your feet on earth.

Frankly, while things will look and feel good, it is a highly dangerous month as we suggested in our reading last month and there are several reasons for that. We will touch on the most potent ones. Perhaps the most outstanding is the 3 malefics, all retrograde in the 7th House and, if you have any delusions or illusions of perpetual peace, don't let them run away with you. And when you get through reading the lunation, read our interpretation of the Russian chart elsewhere in this number. Our relationship with certain countries will be strained to the limit this month and we will do everything short of starting a shooting war. With 3 malefics in the 7th an unusual crop of separations and divorces will be the order of the day. And if you would analyze the chart of some of these active participants in divorce, a large percent of them would have planets around 1 or 2 degrees of Aries, Cancer, Libra and Capricorn, but more especially the last 2, Aries and Cancer.

The question is, are they acting of their own volition or are they victims of the malefic influence of these 2 planets. I have counselled a good many married couples during the past 40 years and talked many of them out of the idea of divorce. Some years ago I had a very prominent newspaper publisher, nationally known. Neptune was in Virgo right in opposition to his Sun and the lady had Uranus over her Sun; neither one of them were normal but they were sure they wanted a divorce. I talked to them, one at a time, and explained that they were subjected to the rays of these planets and if they got a divorce, they would be sorry, both of them. I asked for one year's postponement, but in the meantime they were to be as considerate of each other as though they were total strangers. That was asking a good deal of 2 people keyed up as they were, but they agreed. Well, they are still living together and a year later they called on me and laughed. This divorce would have had very serious repercussions on the man's business, for he needed the woman he was wedded to.

Inasmuch as 7th House influences are so powerful this month, if you have any planets in the 1st few degrees of the 4 cardinal signs I have mentioned above, go easy. Take long walks when you feel tensed up; get out and commune with nature; play golf or tennis; go swimming, anything to use up that pentup energy. But be awful careful in driving a car; tense nerves don't help, don't go driving. You need to be relaxed, be alert. So in spite of the promises of Jupiter-Venus in the 1st, it will be a month of strife, domestically and in our foreign affairs. To those who are students on the cycles, Uranus will be square to Mars and the Sun in the Mars cycle, which confirms everything we find in the lunation chart, rather it accentuates it.

Inasmuch as the lunation takes place in the 2nd House, the subject of finance will be very much in the air; the subject of taxes, and debt, stock exchange, banks and budgets, and things of that nature. I

look for an active stock market. Could it be otherwise with Jupiter on the ascendent and exactly trine to Uranus in Cancer? At present Congress is mulling over the idea of rent control. This is written March the 10th. Well, we find Uranus in the 4th and it is my guess it is the end of rent control. The 4th House also rules the building industry and mining, so we might look for great activity. Such would be the case, of course, if rent controls were removed. Water would begin to find its own level. The cost of everything has gone up, why should the landlord be fined, penalized, because he is a property owner? Some things have doubled, many properties are not earning anything and falling into a bad state of repair because the income is not sufficient for the upkeep.

I look for a tremendous program of preparation for war. The Administration is finally convinced that it is inevitable. They would have known that right along had they been Bible students. Lots of well-meaning people think they can prevent World War III. Well, if they can make the Sun Stand still and the tide to cease to ebb and flow, perhaps they can, but I make the flat statement that it is inevitable for the matter has long since been taken out of man's hands. World War III will finally and completely wreck our present Babylonian system, and so it is sort of a necessary evil but it will be a war that will end all wars. The wreckage will be so complete that mankind will be like the old colored lady who said, "I done lost my taste for Rastus." Well humanity will "done lost the taste" for war and also the ability to wage one because of the tremendous destruction in World War III.

It will destroy Communism; it will destroy totalitarianism in all its many guises such as the Fascist government in Spain; the dictatorial power of the Church of Rome. 1700 years of dictatorship will cease; it is the original dictatorship after which Communism and Fascism and Nazism are patterned. My My Roman Catholic friends will not like this pronouncement. I am merely telling you what the Scriptures say; I am merely telling the Astrological indications. It is not based on prejudice or personal ill feeling; it is based on the indications that I see.

We are now approaching the Aquarian Age; the old must give way to the new; a gradual new day is dawning and, if our modern Astrologers were all on their toes, they would be the natural leaders of the New Order. But there will have to be a natural purging in the Astrological ranks. Spiritual Astrologers don't stand much chance today. I base that on correspondence from leading Astrologers. Many have written me, condemning me for being anti-Semitic. One of them, a well-known Astrological author, wrote me a very nasty letter. He claimed to know his Bible; he says he teaches the Bible. He might have taught his own concept of the Bible, but he wasn't teaching the Bible for the Jews are not Semitic, as he assumes. I give that as one illustration of the political slant that has crept into Astrological circles since King Franklin the 1st ascended the throne.

A lot of drivel has been written and published in the name of Astrology during the last 20 years. That was nothing but a political slant. The Astrological world supported the New Deal and yet they might or should know that Uranus in Cancer crossing our National Sun would clean house or throw them in the ash-can. Every Astrologer should have a thorough understanding of the Scriptures rather than an affiliation with a political party with which to color his predictions. Read the leading Astrological magazines in the last 20 years for confirmation of that. I was indicted for Sedition because I stuck to the planets' indications rather than swayed by New Deal philosophy. The day will come when the Astrological fraternity will find that one Astrologer exposed the New Deal from the beginning, at a time when the Country was hypnotized by the magnetic personality of F.D.R.

Astrology to be of any good must be free and not colored by any political bias, and that has not been the case for the last 20 years. No Astrological magazine would print your predictions, if you stuck to the planets' indications, so the Astrologers, like the preachers, trimmed their sails to the winds of expediency and I have found the same thing taken place in the psychic channels. Truth is still the most unpopular merchandise to battle with. If you don't believe it, try and get these ideas published in any Astrological magazine. All churches claim they want and preach the Truth but, as the old lady said, "Tain't so." You will be thrown out on your ear, if you attempt to teach certain Truths that can be proven. The Astrological magazines will bluepencil certain fundamental Truths which we publish from time to time. The New Aquarian Age will be one of scientific achievement and Astrology should lead the field for it is truly an Aquarian Science and Religion and Philosophy. I believe in the Religion of the Stars and I believe it is good to lead mankind to great heights, but before it gets to that it must cleanse itself from much that has crept in in the last 25 years.

Just one word regarding the presence of Pluto in Leo; it is exactly squared to Mercury in Taurus. If the labor leaders had good sense, which they haven't, they would pipe down. They have milked the cow dry and the cow is going to knock their brains out, if they start any more rough stuff, for labor is not

going to have and to win anymore spectacular victories. The workers have no say about anything; they are enslaved by their leaders. One miner said over the Air it would take 7 years to make up what he had lost this year, and so the gains are only on paper. Truth is going to prevail in the New Age and all who stand in its way will be run over. So here's to the grand New Day of the New Age for God's Will is going to prevail on the physical plane as it does in the heaven world. And I never felt more optimistic than I do today, for you know I have been very pessimistic the last few years as the picture darkened. Now I see the breaking up of the ice floes of crystallization. Uranus in Cancer is going to liberate us from the many restrictions that the New Deal has fastened onto the Country.

A S P E C T S

Now we have some very powerful aspects this month: the 1st, Mercury and the Sun opposed to Neptune the 1st week of April. Look for heavy floods on and about the 6th. Some parts of the Country will get heavy rain at that time, some floods due to melting snow. Venus conjoined with Jupiter around the 4th; Venus trine to Uranus around the 8th; Mercury favorable to Uranus around the 9th; Mercury to Venus the 10th; Neptune to Pluto the 12th; Mercury to Saturn the 15th; all things are very favorable, and Venus opposing Saturn, which you recall is posted in the House of marriage, and that is right after the new Moon of the 17th. But we have the Sun in good aspect to Jupiter and Uranus, 21st and 22nd; Mercury in good aspect to Mars the 23rd; and the last but not least is Jupiter trine to Uranus around the 26th. Certainly a wonderful array of good aspects in a short period of time.

If you have planets 1 to 3 degrees in Pisces, Cancer or Scorpio, you will cash in on that Jupiter-Venus-Uranus influence. Those of the 1st few degrees of Taurus and Virgo will get a boost also. Now the Stars incline but do not compel. An Astrologer can give you the indications but he doesn't know how you will use them; that is up to you. Astrology is not fatalism; it propels into action that we may catch our cosmic train, as it were, for we have certain dates with destiny throughout our life, books to be balanced, new opportunities presented. The lazy, indolent type are forced into action lest they stagnate all together. After all, all suffering is benefic in the end, but the Good Lord gives us an easier way; it is only when we buck His Will and Laws that we have to suffer. Don't forget, Mars squared to Uranus is still in operation.

P R E S I D E N T T R U M A N

In view of the trend in the lunation charts it would be interesting to see what are the indications in the President's chart. The 1st thing we notice is the presence of Uranus in Cancer in his 9th House, and in the month of June it will be crossing his Venus and trining his Moon and so we may expect some unusual activity and travel, possibly a transcontinental campaign trip; not political, of course, just inspecting the state of the Union. Neptune is posted on the cusp of his 1st House and, during the latter part of the year, sextile to Mars; here again unusual activity, plenty of fire and steam, dramatics and emotionalism. During the month of March it is going thru his 12th House, indicating tremendous behind-the-scenes activity. In fact, it will be there in March, April, May, June and the 1st half of July. At that time you will see the results of long planning and scheming which coincides with Uranus crossing his Venus.

At present Jupiter is going thru his 4th, that is in the month of March, but it will be opposing his Mars and adverse to his Sun and Neptune; not much help from that source. Saturn is in his 11th House and some of his friends will be more of a liability than an asset, especially in May when it retrogrades to a square to its place at birth. But in the month of August it trines his Sun and Neptune; then you will really see some action, but he doesn't get the full good of it for the Sun is now passing thru his 10th and 11th Houses, adverse to his Mars, Sun, Neptune, Pluto and Mercury and later on Saturn. Perhaps around the 2nd and 3rd of August as the Sun favors Saturn, he will register a few good hits. But in the latter half of September Saturn crosses Uranus and he is likely to make some false moves as it is in the 12th. Certainly there will be a crisis in his affairs and we are approaching the election-but fast.

The next aspect it forms is a good aspect to Jupiter, Pluto and Venus, which comes up around the end of October and right thru to election day, so there will be quite a pick-up right around the time of the election. There will be a good deal of personal popularity; Saturn sextile to Jupiter is not to be sneezed off, and trine to Pluto; besides Neptune is also powerfully placed, sextile to Mars. If I am correct, election will be around the 7th of November; that places the transiting Sun squared to his Mars and approaching to an opposition of his Sun and Neptune - tremendous opposition. And to sum it up

Harry isn't going to have everything his way; it all hinges upon the kind of candidate and the kind of program that the Republicans trot out. As to whether Harry will lose control of Congress, I would say it would be a close fight and it will indicate the trend for the presidential election in '52. If he loses control of Congress at this election, his chances are not very good.

His progressed Sun is powerfully placed on the cusp of his mid-heaven and favorable to Neptune, the planet of idealism, intangible things, flowery language. Harry is a good promiser. During the Summer months his progressed Moon forms some beautiful aspects to Jupiter, Pluto and Mercury but in November the progressed Moon is coming up to a square or adverse of Venus in Aries in the 6th House. His foreign policy - or perhaps the lack of it - is likely to slap him in the face right on the election. Certainly is costing him some votes, or rather his party, but Truman is virtually on trial for running for office in November.

R U S S I A

Everybody knows that the conflict is between Russia and America; Russia and the Roman Catholic Church; and Communism versus Capitalism. Of course, you can boil them down to one problem; the above are only the different aspects of the case. The real issue is Christ or anti-Christ; totalitarianism versus, not democracy, but theocracy, or perhaps I should say totalitarianism versus the American way of life for, strictly speaking, neither one will win out. But out of the wreckage of the clash that is coming, we are going to get theocracy; in other words, God's Plan instead of man's plan. As you know, as I stated in AMERICA SPEAKS last Fall, the objective or goal of Russia and Rome are the same: the enslavement of the whole world. I am often asked, "Will Russia finally take over?" My answer is, "I think not." Not because we are intelligent enough to protect ourselves, for we have blabbed out all our defense secrets via the State Department and Henry Wallace; perhaps I should say the 3 Henrys: Wallace, Morgenthau and Truman, to say nothing of a 4th, Henry Hopkins. We have given them the know-how of the atom bomb and, were it not that God has a different plan, I would say we are all washed up.

The U.S.S.R. was born November 9th, 1917 with a very destructive chart, indicating it was only a question of time when it would come to an inglorious end. It had the Sun in the 1st House, exactly squared or adverse to Saturn and Uranus. Saturn is posted in the 10th House, where 2 other malefics are placed, Mars and Neptune - not at all promising. But in the 4th we have Uranus. Now the 4th represents the end or the finish and here we have all 4 malefics, 4th and 10th afflicting each other and Uranus exactly square to the Sun and Mercury, so I don't consider it a winning chart by any manner of means. Now it is a question of when does that end come; are we ready for the climax? And the answer is, "Not just yet." Their progressed Moon forms a sextile to Uranus, which it will towards the close of this year and the beginning of '51. Another testimony is Uranus in the 9th is coming up to a conjunction with Pluto, indicating Plutocratic control of foreign countries.

At present Uranus is in opposition to Venus and that is for March and April and a portion of May. In May and June the conjunction of Pluto is complete and there will be action a plenty and there will be more gobbling up. And Uranus retrogrades to that position early in '51, so the early months of '51 are apt to be very potent and full of action. Neptune is in her 12th and will be for some time, behind-the-scenes scheming. Saturn is very powerful, playing all this year in the Soviet chart, sextile to the Sun in March, in April right over their Moon - not quite so good - intense suffering on the part of her people and that lasts until the middle of June.

In the month of July Saturn is again favorable to the Sun and, by the way, the Sun is transiting her 9th, indicating foreign countries and will also be favorably aspected to their natal Sun around the 8th and the 9th of July. Mark this on your calendar. Certainly July will be a month of conquest for them; they will reach another goal. And in August and September a good aspect to Mercury indicates that they are well satisfied with the loot they have acquired. Yes, 1950 will be a year of conquest for the U.S.S.R., the Russian Bear, and the indications are that we will continue to fumble the ball. It would take too long to trace this to its final finish, for it is a long way off yet. Our one purpose is to give you the trend of things for 1950 and later on we will take up our own National chart, the chart of the Pope of Rome, for I have found an Astrological chart for more reliable than the opinion of political henchmen.

FROM NEW JERSEY:

"Dear Mr. Kullgren: Enclosed please find check for \$3 for THE BEACON LIGHT HERALD. I read it with great interest and would not like to miss one copy. May God give you strength to continue with your work. With best regards. Truly yours, . . ."

ALASKA CITED AS EASY PREY--

Washington--(AP)--Alaska could be captured tomorrow by one or two Russian parachute divisions coming across Bering Strait in the opinion of Gov. Ernest Gruening of Alaska. From these Alaskan bases, once captured, any part of the United States would be vulnerable to air attack, Gruening told a House appropriation subcommittee hearing. This committee's report, released tonight, shows he told the members that the total U. S. military force in that strategically important northern outpost is 7500 men. This, Gruening described as "next to nothing." He recalled that during the last war the Japs got and kept a foothold for a year in the Aleutian Islands. He maintained that once the Russians occupied Alaska, it would be very difficult to get them out.

He said it was hard for people in Alaska to understand why Congress would appropriate a total of \$7,000,000,000 in economic and military aid to halt Communism in Europe yet give but \$96,000,000 for Alaska. He said Alaska had asked, as an "absolute minimum," \$137,000,000 which would not make that territory impregnable, but merely would start a construction of a radar screen and house a limited number of troops.

RUSS ATOM 'PILE' COULD K.O. US IN 90 SEC.--Mundt.

New York--(AP)--Senator Karl Mundt (Republican), South Dakota, said today that Russia has a stockpile of atom bombs which could "knock out the United States in 90 seconds" in the event of war. "We are living in a world where Russia is stockpiling atom bombs which, in effect, could be labelled 'Made for the U. S. A.'," he said, adding: "If dropped on 25 or 30 major cities, they could knock out the United States in 90 seconds. This is no longer a fantastic proposition." Mundt, a member of the Senate investigations committee, addressed the American Legion's "All-American Conference of National Organizations United Against Communism." Today's session was the last of a two-day meeting.

LIGHT IS THE WAY, By Ida Hagen Marshall-- Price \$1.00

In December we presented our book MESSAGES OF LIGHT and those who have purchased a copy have been highly enthused over its messages and well they might, for I consider it one of the most valuable little books in print today for those who are groping their way. Well, "LIGHT IS THE WAY" is a good companion book for it. Some years ago we presented "TRACINGS OF ETERNAL LIGHT" by the same author and our readers were very appreciative of that book. In this case you will appreciate her latest efforts in "LIGHT IS THE WAY." This is written in a little different style but it is all from the Christ Ray, the same as MESSAGES OF LIGHT. I would like to quote just one little passage from it, because it is virtually what I have been saying for years and I know it is true, because it has been given to me many, many times. None will survive except those pledged to the Master's Service. Here is the quotation:

"In Christ greetings: Behold the days that dawn on the near horizon are red with blood -- the fury of war and the storms of earth. Ye are entering a fearful day on the earth and none shall be saved from ruin and death save those who are predestined to serve as foundation builders of the coming new day."

FROM CALIFORNIA:

"Dear Mr. Kullgren: I am enclosing money order for 5 dollars. I will let you know I am hundred percent behind you, have been since I got hold of the BEACON LIGHT. Well, I am getting old, 72 in Nov. and not been able to spare anything, so that is why I have been quiet. I am still good to work but I do feel I am not young anymore. Will you please send me MESSAGES OF LIGHT. How people can run after the so-called Messiah. We are told, "All eyes will see Him coming in the sky" and that is clear enough. I will send more next month. So I will close with my love and may God Bless you in your hard work, . . ."

FROM PENNSYLVANIA:

"My Dear Mr. Kullgren: I am enclosing a postal note in the sum of \$5.00 for which please send me the following: OPEN THE DOOR by Wilfred Brandon and HEALTH WITH REMEDIES & RECIPES by Clarke Irvine. Please keep the remainder of the postal note as a contribution to your very fine work. I have had a chance to read WE KNEW THESE MEN and LIGHTED PASSAGE and they are both splendid books, worthy to be in anyone's library and I thank you for having brought them to my attention thru your publications. I am loaning them around trying to get people interested. I shall eagerly await the book which is to follow LIGHTED PASSAGE.

I trust you have found someone to help with some of your work as you have been under a terrific strain for a great length of time, but you have done a tremendous job and I do so wish to thank you for all the valuable information which has come my way thru your unceasing efforts and which information I have passed on to others as they were open to it. May you ever grow stronger as a channel thru which your Christ can function. Yours in the Light, . . ."

CHATS WITH THE EDITOR

Dear Friends: We were a little late in getting out the February BEACON LIGHT HERALD and even as early as the 18th of January we got letters complaining that they had not received the February BEACON LIGHT HERALD. 15 years ago the Lord told me "People will not take you serious enough to want to do something until just before the blowup." Well, that day has arrived. All hell is going to break loose in the large cities in the near future; they are going to be No Man's Land yet many of you are hanging on there who don't need to live in a city. I refer to those on old age pensions. The papers are now disclosing that Russia has all our secrets and from the looks of things we shall be driven out of the Pacific Ocean, for disclosures show the shaky condition of not only Formosa but the Philippines and the Hawaiian Islands, to say nothing of Alaska.

Von Weigand last Sunday said, "We are underestimating the strength of Russia" and from my analysis of her chart I would say that is correct. We are overlooking the fact that Russia has picked the brains of her satellite nations, especially of Germany. She not only has the Atom bomb but the Hydrogen bomb, which is a thousand times more powerful than the A. bomb, so they say. And so from the looks of things the day will come when the Pacific Coast will be one huge battle field. I have been stating that for nearly 20 years, when I advised getting away from the Pacific Coast; I am getting plenty of evidence to substantiate my theories. How much longer I can continue to carry the present load is a question. My morning often begins as early as 3 o'clock, when I personally prepare vegetable juices and also our lunch; settle down to my deskwork between 8 and 9 and remember I am housekeeper, cook, gardener and wood-cutter, in addition to my office chores.

My good friend, Dr. George Hollstein, passed away suddenly and I took 2 days off to see his widow, Pauline. She has all his office equipment to dispose of. He was an electro-therapist and naturopath. He has some valuable electronic machines; one is his own invention, also heat lamps of his own invention and construction. It would take a doctor to properly estimate and appreciate their value. She has portable adjusting tables for sale - new. And whilst I was gone we had frantic calls from another reader near Stockton, who wanted to come to me and have me treat and take care of him. Of course, it is a physical impossibility. I am feeling in the pink of condition but I can't stand up under the strain, physically and financially. Work has doubled and trebled; income down to one-third. I am not complaining; I am just stating why your letters are not answered as quickly as you would like. It just isn't possible for one man to do all these things.

I am getting many frantic letters from readers who want to come in under my wing, although I have stated I am not forming a colony group. The loke is most of these letters are from people who have fought me bitterly in the past. Not all, of course, but the rebels are getting anxious as they see the picture unfolding. Here is another point: about half of the letters received are from readers who have never subscribed; never contributed a cent nor raised a little finger to help this work and yet in the back of their mind they want to be with me when the blowup comes. Is this fair? Are these people honest? Personally I say, "No, they are not." The day of income is practically gone. Those who survive will do so on a cooperative basis. Most of the states are bankrupt and struggling to keep up with their old age commitments.

We are now in the first stage of the greatest depression this Nation has ever known. The bottom is going to drop out of the present system of doing business. Praise the Lord for that. It is fundamentally unsound and rotten and dishonest, so why should we regret its passing? Of course, the passing of the old to the new is going to be trying. If many readers had taken me serious and put their shoulders to the wheel, we should have had a substantial place of refuge - not one but many - but it is too late in the day for that now. And frankly many people are only interested in saving their own hide; no thoughts of service to God and man. Now I am talking plain; times are too serious for subterfuge. When we organized BEACON LIGHT MINISTRY we were warned the dark forces would try to wreck it, and I was more or less on guard. But I did not expect it to come so close to me as it did. I received a body blow as soon as we had organized and I have been struggling to maintain a balance ever since, and so we have not made the progress I had hoped to make.

We have accomplished a great deal at a great personal sacrifice; we printed MESSAGES OF LIGHT; we have approximately 500 pictures of the Christ in circulation. You, who write me such nice letters, what have you done to further this Cause? Are you going to wait until I crack under the load or are you going to assume some of the load? THE BIBLE SPEAKS TO AMERICA, PREPARE FOR THE STORM, THE DEAD SPEAK, MESSAGES OF LIGHT should be gotten into circulation as quickly as possible, for there is very little time left. If you have a job, you should purchase these and give them out wherever you find fertile soil; especial-

ly should they be placed in the hands of ministers, teachers and group leaders. I find people every day who say that they are waiting for the Christ to set up His Kingdom, but in most cases I see no evidence that they are ready for His arrival. The above books, especially MESSAGES OF LIGHT, will show you something of the requirements.

My job is to warn you and everyone who believes in the Christ Cause has a place and a work to do. Once again let me warn you: I cannot continue with the present load without substantial help. This week we received word that the British paper "THE PATRIOT" has fallen by the wayside after 27 years in the field. In the same mail comes word that "THE INDEPENDENT NATIONALIST" of England has ceased publication. Very few of you have any idea of the difficulties of continuing in this kind of work and I have been active in it since 1928 as a writer and publisher. I am not planning a colony group for 2 reasons: haven't the funds and too few people are ready for that kind of life, because it calls for strict discipline, something most people don't want but which they are surely going to get under martial law which is inevitable.

As I said before, I don't know how much longer I can continue to carry this load. We need efficient help - I mean office help. We should start an advertising campaign for our various books, but that in itself is a one man job, but if even one of our readers would take it upon themselves as the members of Jehovah's Witnesses do, and the 7th Day Adventists, yes, the Communists, they are all workers who believe in their cause, but it seems that the children of Light are lukewarm for they tell me, "I can't do anything," which is not true. Everybody can do something. At any rate I can't do everything but I do want you to realize, if you don't already, that things are very serious, that there is no foundation to our national structure and only a great spiritual awakening along the lines indicated in MESSAGES OF LIGHT can save this Nation, and of that I am quite positive.

Not only are we financially bankrupt but we are spiritually bankrupt, and so I charge and challenge you to put our various books into circulation. Most of you could afford \$5.00 a month and in return we will send you 6 copies. One more thing: we have to pay 3¢ sales tax on all California orders and only about one out of 6 ever pay the sales tax and it costs more than the amount of the tax to write and ask for it. In spite of all I have said, I know we shall be swamped with refugees when the blowup comes, but I am like the Federal government; all I have is what you give me and those who receive the most have given little or nothing. That is the situation in a nut shell and so I am making no preparation for anyone outside of our own intimate group. I couldn't, if I wanted to; we haven't the resources. If we have space, we will print one or two of the many letters received, to give you some idea of what many of our readers expect.

Again let me say, you who read this message have a personal responsibility that you cannot shirk. Spiritual law holds you to the law. Many have written to ask where I am going to go and what I am going to do. The fact is I don't even have time to even think about what I am going to do. I am like a squirrel in a cage and unless the Lord opens the way and sends the necessary help, physical and financial, I shall have to weather the storm here. Before my wife passed on, we were planning to make a move but the terrific expense of her illness and passing and then my own illness knocked the bottom out of everything. Physically I have bounced back, in spite of the fact that I have continued to carry the heavy load even while sick a bed. Remember I am not complaining about anything; I am simply stating the facts of the case. Back of it all I feel there is a purpose and it is alright, for I, too, must be tested as well as you folks. The Lord has got to know just how much He can depend upon anything, if at all; and so these various tests.

A CHANNEL FOR GOD

From MESSAGES OF LIGHT through MARGO

GROUP WORK: When an individual or a group is set apart in service, these often make this apartness too prominent. Ye are on the earth to help bring forth the Kingdom of the Christ. It is thy duty to thy Father in Heaven to live according to His Laws, so that His Plan may come forth according to His Will. Ye that have this vision are set apart from the masses. Ye feel that ye have come out from among them and so it is. However, there is still the Father's work to be done on earth. As many of these souls must be contacted and taught as possible. Many are ready for the Message of the Risen Christ and many, if so contacted, will turn from darkness to Light. It is not well, if ye take too much pride in thy aloofness. It is not well, if ye think of thyself or thy group as too separate or too set apart or too removed from the masses.

The only way ye are set apart is in thy vision of His Kingdom. If ye remain in "the wilderness" ye are

of no use to the Christ. Ye must go apart to the mountains or the wilderness to gain thy spiritual food, as did thy Lord Jesus Christ, when He was on earth. But then ye must go forth and give out what ye have received. Fail not to give forth according to thy Light and pray earnestly for more Light to give forth more to those in need. I, John Phyllos, admonish thee in the Name of the Lord Jehovah God, Amen.

As the outward pressure increases, many of you are becoming panicky. This is not the way a child of God is expected to react. We of the BEACON LIGHT MINISTRY have a job to do and this is no time for fear and apprehension because the moment you become fearful you cut your connection from the source of all Power, all Light, all Love. Your apprehension is not caused by outward pressure alone; much of it is caused by frustration, spiritual frustration. You read our monthly message and do nothing with it except to hug it to yourself and get comfort from it, but until you become an active worker in BEACON LIGHT MINISTRY dedicated to His Service, you will not enjoy that inner Peace. You may get a pail full of pure spring water, fresh from the mountain side but, if you let it remain in the pail, it will become stagnant. And the spiritual message you receive through this channel each month, unless you pass it out and on to others, it will poison you thru stagnation. The poet Byron said, "The joy you give is the joy you keep." Byron was a true mystic and he uttered a great spiritual truth in that statement.

You are supposed to be a channel of expression, a channel of Light, to let God flow thru you and He can only flow thru you when you are an active worker in His Cause. You have a terrific responsibility as soon as you first contact this Source of Light, which we are privileged to give you each month and, if I did as many of you do, not only would you suffer but it would destroy me. God does not give His Treasures for selfish use, and I want to warn you of the days that lie ahead. Unless you become active workers in the Master's Vineyard, you will not enjoy protection. Many of you have pledged to tithe to this work. If all who have written me to that effect lived up to their pledges, we would not have to curtail; we would not have to scrimp; we would have ample to push this work more actively. If you made God a promise, you'd better keep it and I speak from experience.

We all owe God our tithe. According to the Scriptures, one-tenth of our income belongs to Him and that tenth should be given to whatever source He designates. You can't make promises to Him and break them and not suffer the consequences, regardless of your personal opinions. You and I are indebted to Him for everything. For the better part of my life I have not given one-tenth; rather I have dedicated everything to His Service as He directs. Over nearly 40 years ago I decided I would not keep books with God, that it all belonged to Him although He only asked one-tenth. You can make all the preparation in the world, but, if you do not observe this law, you are going to suffer. And so I am warning you for your own good before all hell breaks loose. Some of you have promised your personal services in addition to your tithe; some of you have not only promised God but you have promised me to take an active part in BEACON LIGHT MINISTRY and yet you stand idly by and do nothing. You act as though it would take the Empire State building, falling upon you, to awaken you from your slumber.

I know the things that are coming; I have been warning some of you for 20 years and today our newspapers, our public men rather thru the newspapers, politicians, statesmen and scientists are saying what I said 15 years or so ago, and more. Over the radio today I heard the utterances of a scientist who urged the evacuation of the population on the East and West Coast. Have I not stated that in our PREPARATION SERIES and later on in PREPARE FOR THE STORM? Two days ago a Congressman got up in the House of Representatives and urged an alternative Capital be got ready immediately. In my opinion Washington, D. C. is doomed when the enemy strikes because it is the nerve center of the Nation. The objective of the enemy is to bring terror and chaos. We want active volunteers for service, who will undertake to get our literature in the hands of the people, who will be victims when hell breaks loose. It is no longer a question of "if;" it is a question of "when."

More than 10 years ago we said, "Get at least 200 miles from any large city." That is the advice that scientists are giving today, 200 miles from the sources of danger. We believe no power on earth can stop the fulfillment of the Law. We have sown and we are going to reap, regardless of personal opinions. Today we received a postal card from a man who had read a sample copy of AMERICA SPEAKS. He took me to task for what he called my pessimism and said Fulton Lewis, Pegler and many others are now telling the people. Well, if this man thinks telling the people is going to settle everything, he is due for a rude awakening. I say no power on earth can prevent tragedy from striking our Nation and we believe it necessary, because the American people will not listen to any other kind of language.

Snap out of your complacency; we are heading for a major depression regardless of the false optimism. Russia is nearly ready, if she wasn't she wouldn't be so cocky. The coming depression will be an economic collapse and it will be a blessing in disguise, because it is the only language money-mad people

can understand and recognize and it will produce a great spiritual awakening. Already we see evidence of it. The fields are white unto harvest. Everyone of you have contacts that need the various messages we are putting out. What are you doing about it? You either are a channel for Light or a channel for darkness. And if you are not an active worker for the Forces of Light you are automatically helping the forces of darkness. There is no halfway place to rest. The line of demarcation is very definite. In the material realm you go for your pay where you render your service, and so it is in the spiritual realm. Again I say, if you want protection during the coming upheaval, you must earn it. You must become a perfect channel for God to flow thru you. That means you must be an active crusader in His Service.

Words seem so inadequate as I try to convey what I see as I look into the future. But I do hope I have succeeded in putting over my message, namely for you to realize that most of you are living in a fool's paradise; not realizing that when you receive messages of Light from any source you can no longer plead ignorance of law, Spiritual Law. The publications we have put out, especially during the last 10 years, are what the people need. The politicians don't know and in many cases the preachers don't know and we have been years ahead of the average so-called leaders in our predictions of coming events. And this is the verdict that many of you have rendered to me. The time has come to be honest with God, to give Him what you owe Him, not only to me of your tithe but to give of your service. Help us to place a picture of the Christ in every home; help us to place MESSAGES OF LIGHT in every home. The many grateful letters that are coming in prove that they are doing their work.

I want you to go into the Silence and meditate seriously and solemnly until you get the realization in your own soul that, if you want the Lord's protection, you have to work for and with Him and be a channel for His Light. Politics will never save the world; will never right the ship; only a spiritual awakening can and will do that. Again I say, you, who have promised God and your humble servant that you would take an active part in this work, for your own good I would urge you to keep that promise. These are serious days but they are days of wondrous demonstration of spiritual law. I know because I speak from experience. Friends, I plead with you to realize the significance of the day and age you are living in, the wonderful opportunities it presents to be an active partaker; yea, an active worker not merely to view the play but to be an actor on the stage of life as this wonderful drama of these last days unfold.

I have no personal axe to grind; I surrendered my own will long ago; I have no personal plans, although some of you seem to think that the things I insist upon are personal. They are not; no man can improve on the Lord's Plans. Any effort on his part to do so will detract and make them less effective. God has a perfect plan for humanity and we must and will ultimately say, "Thy Will be done" to that plan. Eventually you will come to it, why not now? This is not the utterance of a sentimental religionist; it is the utterance of one who knows and understands Spiritual Law. The more active you become in His Work, the more you are conscious of Him in your life. Then all doubts and fears and distrust vanish because the Light or God Forces flow thru you and thereby give you the utmost protection.

If you have no money to buy books, we will send you back numbers of BEACON LIGHT HERALD and AMERICA SPEAKS for free distribution. We have circulars of NATIONAL DESTINY and THY KINGDOM COME for free distribution, but only place them where the soil is fertile and receptive. We have circulars on THE DEAD SPEAK. Unfortunately we have none on our 2 best books, THE BIBLE SPEAKS TO AMERICA and MESSAGES OF LIGHT. We have 2 more books I hope to put in print during this year, THE WHEEL OF TRUTH and one on RE-INCARNATION and possibly one on HEALTH. The more you put your shoulder to the wheel, the more we can realize our prayers and hopes in that direction. There is no longer time for complacency. We are now on the very last lap and, if you ever intend to serve the Lord, it is now or never before the final climax descends upon us. Watch and pray unceasingly.

From MESSAGES OF LIGHT, Given In His Name

RECEIVED THRU MARGO

SERVING TWO MASTERS: For I say unto you, no man can serve two masters--either he will cleave to the one and forsake the other or he will be destroyed trying to go two ways at once. So ye must examine all thine affairs and pass judgment upon them and see if ye try to walk two paths at once. In the beginning it may seem easy to put thy right foot in one path and thy left foot in another, running parallel to the first. But as ye progress so in a little way, if ye observe closely, there is a divergence and the ways are no longer parallel and it becomes more difficult to keep each foot in one. Thou canst see what would happen if ye persisted in trying.

THE FUTURIST THEORY

BY PASTOR N. PULFORD - KINGDOM EVANGEL

FROM "THE KINGDOM DIGEST" NOV. 1949

The Protestant Testimony of the Reformation exposed the Papacy as "that man of sin," the anti-Christ foretold by Paul in 11 Thessalonians 2:3-12. This identification is based upon abundant Scriptural and historical proof, and was still strongly upheld by Crown and Church in Britain in the reign of James I. The following extracts from the Dedication of the Authorized Version of the Bible of 1611, addressed to James I, illustrate this point. The translators upheld "the zeal of Your Majesty towards the house of God . . . manifesting itself abroad in the farthest parts of Christendom, by writing in defense of the truth, (which hath given such a blow unto that Man of Sin as will not be healed)." They further referred to "Popish persons at home or abroad who therefore will malign us, because we are poor instruments to make God's holy truth to be yet more and more known unto the people."

Previously, in 1558, a Jesuit, Rohera, attempting to sidetrack this Scriptural teaching, had claimed that anti-Christ was not the Papacy (so clearly foretold in Daniel 7:8, 20-26, 11:36-39, Rev. 11:7, Chapters 13, 17, 18, 19, 20, etc.), but an individual infidel who would appear at the end of the world and rule for 1,260 days. Rohera's theory was directed as Papal iniquity was unmasked, and in consequence it became lost for over 200 years.

Between 1826-30, Dr. S. R. Maitland, Librarian to the Archbishop of Canterbury, revived and published the Jesuit's misinterpretation. It was taken up by a number of ministers, and became known as the Futurist interpretation of prophecy. At the same time J. N. Darby, the founder of a nonconformist sect in Dublin and Plymouth, accepted the Futurist theory, and it has spread amongst Evangelical circles since then. How quickly was forgotten the warning of the Apostles, and the Prophets of Old and New Testament, concerning the long-continued intrigues and despotism of the Papal system. Fox, Gratten-Guinness, and other reliable historians, show that, during 1,260 years of aggression and inquisition upwards of 50,000,000 fell as martyrs to the anti-Christ system.

The Papal Apostacy from the faith of Jesus Christ is the fulfillment of the great "falling away first," which the Apostle Paul revealed would precede Christ's Second Advent (11 Thess. 2:1-3) and would follow the fall of the Pagan Roman Empire. The apostacy, he said, could not come "until he (Pagan Rome) be taken out of the way" (verses 6-8). In spite of the warnings in the New Testament concerning everything coming from Papal sources, Darby's followers added to the Jesuit's theory by teaching that there would be a "secret" return of Christ prior to anti-Christ's appearance. At this supposed event, (known as "The Rapture") our Lord is secretly to take the Church up into heaven for the 1,260 days of anti-Christ's world-wide despotic rule. After this, they say, He will return publicly to set up His Millennial Kingdom.

We do indeed rejoice in the blessed hope of Christ's personal Second Advent, so clearly foretold in the Bible (Act 1:11, 1 Thess. 4:16-17, etc.). But it is certain that all theories concerning this world-shattering event which bears no relation to past or present history in the unveiled light of God's word, must fail. Let us now consider the following questions, and like the Bereans, who were "more noble," search the Scriptures and history to see whether these things are so. (Acts 17:11.) First of all, it is a little difficult to reconcile the picture given in Daniel, Chapter 7, verses 21 and 25, when the "little horn," or anti-Christ "made war with" and "shall wear out the saints of the most High," with the Futurist theory of the saints being first "raptured" into heaven.

Secondly, why should anti-Christ's rule be limited to 1,260 days of 24 hours? There are two other time-scales given in Scripture for the interpretation of prophecy—"I have appointed thee each day for a year (Ezekiel 4:6, Numbers 14:34); "One day with the Lord is as 1,000 years, and 1,000 years as one day" (11 Pet. 3:8). The second scale of interpretation would give anti-Christ scale of interpretation of over a million years. Even the first time-scale cannot be accepted by the Futurists as it would make the public return of Christ a matter of 1,260 years after His "secret" return, which would not fit in with their theory of when the Millennium is to start. Because they will not accept the identity of the Papacy with the "Man of Sin," but maintain that he has yet to be revealed, they have to choose the shortest of all time-scales, which is seldom used in interpreting prophecy.

On the other hand, it is a fact of history that for 1,260 years (from the days of the Emperor Phocas in 606 A. D., until 1866) Popes dominate Europe. The noble list of millions of martyrs are ample proof that the Papacy did in fact make war with and wear out the Saints of the Most High. Even Britain was not freed from their power until 1588. In Europe, however, it was not until 1860-70 that the political power of the Papal system was broken, and the Papal States and Rome annexed to the Italian Kingdom.

Then, how can anti-Christ be an individual? Our Futurist brethren agree that the "Little Horn" of Daniel, Chapter 7, is identical with the "Man of Sin," or anti-Christ, yet this little horn was in the head of the fourth beast of Daniel's vision of Gentile world-powers. All are agreed that these four beasts were symbolic of systems of government. The first three were Babylon, Medo-Persia and Greece. The fourth, contemporary with our Lord and the early Church, was Imperial Pagan Rome, which, when it was broken in the fourth century A. D., was divided into ten kingdoms, the ten horns of Daniel 7:20. During this time the Apostolic faith prevailed in Europe, so that it was said, "Now is come . . . the Kingdom of our God, and the power of His Christ" Rev. 12:10). However, Daniel foretold that after this there would come up another horn, which would devour three of the others, which was abundantly fulfilled in 607 A. D. when Boniface III became first Pope of Rome.

Henceforth the Popes "walked in the imperial shoes of the Caesars." This merging of Pagan Imperial Rome into Ecclesiastical Papal Rome was wonderfully foretold by the Apostle Paul in II Thessalonians 2:3-8. Having proved that the one who was to "be revealed" was Papal Rome, we ask ourselves who was the one who was "letting," or hindering his revelation—one in whom "the mystery of iniquity doth already work?" Who but Pagan Rome, who was in power in the Apostle's own day, and could not therefore be referred to more openly! Thus the apostasy from the true faith to "Christianised" paganism was complete, and the Papal system dominated the Western hemisphere spiritually and politically as no "individual" could.

Further, how can anti-Christ be an infidel? The thought contained in this term, anti-Christ, is not that he denies Christ's existence, but that he is a false Christ, an enemy or rival of Christ's. This thought fits in with II Thessalonians 2:4, which describes the Man of Sin thus, "he as God sitteth in the temple of God, shewing himself that he is God." So he would counterfeit or usurp the office of God's only-begotten Son. This the Papal system has done down the ages, the Popes being called the "Vicar of Christ" and worshipped as "our Lord God the Pope." Out of their own mouths they are identified and condemned.

Through upholding the Jesuit Futurist theory the Churches have lost much spiritual vision and armour. In place of the manifestation of Christ in the gifts, miracles and offices of the Holy Spirit—all clearly demonstrated in our Lord's ministry and in the early Church—we find in the different denominations signs of worldliness, on the one hand (plays, dances and card-playing used to attract people) and the return of Romish practices on the other. Mass, confession, "holy water," incense, vestments, altars, shrines and images to saints and the dead are rapidly increasing—truly a "form of godliness, but denying the power thereof."

UNION CHARGES U. S. USES PRESSURE TO SHIFT PLANE PLANTS FROM COAST—

Pacific Coast aircraft manufacturers are being subjected to intense "indirect" pressures by Government officials to move production inland into Federally owned plants. The drive, which some ultimate nationalization of the aircraft industry, threatens to seriously harm California's economy. These charges were made yesterday by Roy M. Brown, General vice president of the International Association of Machinists for five western states. IAM membership in aircraft production in California alone totals more than 28,000 skilled workers. Brown declared no open statements are made by military officials—they either deny "in a mild way" that air-frame manufacturers are being "pressured" or respond with "no comment" declaration when asked. "But," said Brown, "we know that indirect pressures are being applied to move aircraft manufacturing operations inland. The information that we got from Government representatives in Washington was that one of the reasons for this campaign was the inability to properly defend these areas on the Coast.

"We who live out here feel that adequate measures should be taken to develop adequate defenses—for the Pacific Coast and for Alaska. If aircraft production is dislocated, it will also affect our parts plants and our entire economy. We must preserve certain skills for this industry. At least 13,000 people have been laid off at the Boeing plant in Seattle, which is going to have to produce the XB-47 jet bomber at Wichita, Kansas". Hal Shean, chairman of the Council of Aircraft Unions and business representative of IAM's District Lodge 727, representing Lockheed Aircraft workers, declared: "We are contacting all civic organizations, City Councils and Chambers of Commerce to inform them what is going on and to enlist their aid. Later this month we plan to send a delegation to Washington to contact all members of the California delegation in Congress. If we are going to move everything inland we are only inviting attack. We are for the defense of the Pacific Coast. The airline for any possible attack is no different at Wichita than at Los Angeles." Shean pointed out that transfer of production inland means the destruction of highly trained production teams.

MID-WEST DRIVE TO SHIFT WAR PLANTS ASSAILED

BY DAN MARKEL, LOS ANGELES EXAMINER WASHINGTON BUREAU

The West Coast fought back today against a Missouri Valley propaganda drive in Congress to shift war industries to inland farm states. Senator Downey (Democrat), California and Magnuson (Democrat), Washington, and Representative Sheppard (Democrat), California, assailed proposals of the self-styled Mid-Continent Industrial Council as a threat to national economy and security. The mid-continent group, with headquarters in Kansas City, Mo., yesterday flooded Congress with handsome brochures. They proclaimed that "America's arsenal belongs inland" and implied that citizens of San Francisco, Los Angeles, Seattle, Boston, Pittsburgh, Chicago, Detroit and other industrial centers are less likely to be loyal in wartime or a national emergency.

Western Congressmen were joined in their protest by president A. J. Hayes of the International Association of Machinists, the nation's largest independent union. Hayes sent a stinging letter to every member of Congress terming the brochure "one of the most dangerous pieces of publicity that has ever come to my attention." He continues: "This group is agitating to re-locate all of our essential industries into the central states of the country, thus creating a 'Ruhr' in America. You are immediately aware, I am sure, that the confusion, hardship, human suffering, loss of property and money this would cause in your (congressional) districts are incalculable." Hayes invited all members of Congress to attend a conference of representatives from industrial states here Thursday. Plans will be made to prevent the Federal Government from shifting defense industries to the Missouri Valley area.

Senator Downey termed the council's drive "a half-baked promotion scheme to achieve illogical local ambitions at the expense of national security." Senator Magnuson said the Missouri Valley drive jeopardizes the entire defense program. He added: "The East, Great Lakes and Pacific Coast States are not trying to take away anything from Missouri, Kansas or Nebraska, but they are trying to take away our industries and our prosperity." Sheppard said if the Mid-Continent Council's suggestions are followed "our great port cities along both the Atlantic and Pacific Coast would be stripped of their industries."

MESSAGE RECEIVED FROM CHRIST JESUS

THROUGH WILLIAM KULLGREN - FEBRUARY 13, 1950

Children of Light: I have heard thy prayer and petition and it is pleasing to the Father and to Me. All things work together for good to those who love God, and in due season thy prayer will be answered. Thinkest thou that this experience is accidental? It was foreseen from the beginning. These trials that thou hast experienced are necessary to all concerned. It is a refining process and the end product will be pure gold from the rough, crude ore. Have patience; have faith; cast aside doubts and fear. There is a purpose at the back of the foundation of BEACON LIGHT MINISTRY. That Purpose will be fulfilled regardless of any individual, no matter who may fall by the wayside.

The past year has been one of sifting, and sorting, and refining. And when this process is completed, BEACON LIGHT MINISTRY will go forth and be a power for good on the material plane. Men's hearts are quaking with fear and apprehension today, and this is producing a very fertile soil for thy work in and thru the BEACON LIGHT MINISTRY. Be not concerned about outward appearances. This is the Father's work and thou art His Servant. Go forward to thy appointed task in Peace and Love and BEACON LIGHT MINISTRY will be invincible. In the Name of the Father and His Heavenly Host. I, The Lord Christ Jesus speak this morning.
