

THE LUNATION OF FEBRUARY 1, 1946

The chart drawn up for the lunar period of February 1st gives us the last degree of Libra on the ascendant, which practically means Scorpio rising. This lunar period is likely to be more dynamic than the previous one, which was decidedly Saturnian in nature. Of course this one contains some Saturn, too, for Saturn is exactly square or adverse to Jupiter, afflicting the 9th and 12th houses, which decidedly indicates a lack of the peace we are supposed to have won; for it indicates trouble in and with foreign affairs.

The New Deal internationalists told us that once we defeated Germany, there would be peace from then on; there are no such astrological indications, on the contrary there are definite indications that the foundation for World War 3 has already been laid; and there is only one nation in the world capable of declaring war on us, all the other aggressor nations are laid low, stripped of war equipment and the means of manufacturing it.

The January lunation indicated the nation dazed, discontented, restless and more or less going around in circles; but this lunation indicates forces working within the nation preparing for a spring-cleaning. Thank God there are still a small handful of noble souls in America who are willing to risk their reputation, their economic security, their health, yes, and their very life. Much of the middle ground will be shot away from beneath the pussy-footers during this lunar period, and from then on. If you have been a booster for Russia, and apologized for her, you are going to reap your harvest, and don't kid yourself that you won't. I am sorry for you who have been so blind as to fight on the side of the common enemy; and everybody who has been giving them moral support at all has been doing just that. Some of you who have been doing that are going to appeal to me to help straighten them out when patriotic groups put the finger on them, which they will, for they deserve to reap what they have sown.

Remember, I did not say 'if', it is not a question of 'if', it is a question of 'when', because God has decreed that after a severe purging, America will be free. In this connection, if you have a copy of our 'National Destiny', read it. The one element that is going to produce the most fireworks in this lunar period is the grouping of planets in the 4th house, opposed to Pluto located in the 10th. Here is the factor of a solid opposition movement to the plutocratic control in Washington; the greatest opposition up to date. This opposition is not so much in Congress as it is among the common people of the nation. You will find the Republican Party showing more signs of life than it has done for some considerable time.

Building will get the biggest boost that this country has ever had; there is a tremendous back-log of necessity, and this combination is going to break that jam; and you will find it very difficult to work up any enthusiasm in support of the internationalist, because the people as a whole will be domestically-minded, that is, they see more than enough problems to attend to here on the home front. And so, many groups will spring into being during this lunar period, founded by Uranian types of men and women.

This group of planets in the 4th are all in good aspect to Uranus, although the latter is retrograde. They are also trining Neptune and Jupiter in the 12th. You see there are no less than 7 planets in air signs. At present there are no less than 6 major planets retrograde, perhaps I should say all the major planets are retrograde. Some organizations founded under this combination will have tough sledding for a while—but wait till they all go forward; on Feb. 21st the dynamic Mars goes forward, also Uranus, just as the Sun enters the plastic Pisces; in March Saturn joins the parade, in April, Pluto; and in June, Jupiter and Neptune. Those retrograde planets are a decided brake.

This will be a very difficult month for the Administration; the President will be subject to very heavy pressure; he is definitely aboard the band-wagon of the internationalists, and they have been putting the spurs into him. But this month he is going to hear from the other side of the fence; the people are beginning to say 'how come?' and they are talking loud enough, out in the wide open spaces to have their voices heard in the nation's capital. I am not belittling the seriousness of our national condition, but I do say to the enemy, "Beware, you are going to be called to account much sooner than you expect." For the past 12 years the nation has been in a Neptunian fog; but that fog is being rapidly dispelled; and it would be dispelled faster, if the theoretical Americans would get into action; and quit asking the assinine question 'What can I do, I am only one.' Every one can supply the sinews of war to some extent; every one can cease to compromise; this has given the enemy his great strength.

I could name a number of Coast-to-Coast radio speakers who know the score as well as I do, and yet are playing ball with the enemy; you would be shocked if I were to mention some of the names. These men are talking about saving your soul, but at the same time they are praising the enemy of that great Leader they profess to follow. These men are due for a very rude awakening, sooner than they expect. To the anti-Christ groups, I would say, it is written in the stars that you are doomed to fail; and to the compromiser I would say, you are backing the wrong horse, your horse is going to lose, and you will be despised and scorned by all decent men and women much sooner than you now expect. The people of this nation are going to be amazed and dumfounded when individuals are named and the record of their treacherous conduct is revealed. The line of demarcation is transparent, and all traitors will be forced into the enemy's camp, where they have belonged for a long time.

This is the record as I see it, as revealed in the heavens; and so, to you timid ones I would say, stand firm; remember the fate of Judas Iscariot. If you watch your papers carefully you will see stories that will confirm what I am telling you now.

The weather is going to be decidedly stormy, in more ways than one; nature will do considerable damage through destructive storms and floods and earthquakes; but the political storm will more than match it. We have Jupiter right near the ascendant, which indicates a more optimistic frame of mind; certain barriers will have been swept away. However, while I believe it is all right to be optimistic, do not neglect the subject of preparation. People often tell me the Lord is going to take care of them; I am reminded of the warnings that Noah received — and the Lord didn't tell him that He would take care of him regardless of whether he did anything or not; no, indeed; He said, 'Noah, you are going to get wet feet unless you build that ark and stock it with provisions; and the water that is going to rain down upon you will just as soon drown you as the rest of them unless you make the necessary preparation.'

Personally I am not concerned as to whether you like what I say or not; I am impervious to your likes or dislikes. I was not sent into incarnation at this time to cater to your likes and dislikes, but to tell you the unvarnished truth. I have told you repeatedly the things that are going to happen; and if you ignore my storm signals you are likely to get into trouble.

There was a time when these things could have been prevented; but there are not enough righteous men and women in this nation today to save her from a terrific scourging. This scourging will be directed not only towards the outright sinner, but to the easy-going indifferent; those who have been walking about in their sleep; those who have been indifferent to their obligations as citizens of the greatest nation in the world, those who have stood idly by, indifferent to the suffering and persecution of men like myself. God help those who have had money during these trying years and have hugged it to themselves; the Lord is going to call you to account, just as described in the parable of the talents. And the hollow feeling at the pit of your stomach at that time will be horrible.

Yes, I know, money and material power, people to wait on you, give you a sense of security; but that security is going to be removed; you are going to know, from personal experience, what it means to stand alone, without material props and support.

The presence of Uranus in the house of death indicates a lot of financial juggling, especially as it pertains to foreign countries; it also indicates a very heavy mortality throughout the nation. Many deaths through Uranian agencies, traffic accidents will increase considerably. These traffic accidents will not be confined to terra firma, for that Mars-Saturn conjunction in the 9th house is decidedly unfavorable for maritime affairs in general. And we may expect some bitter religious controversies, with that conjunction in the 9th house. And what I am saying now is not only for this lunation period, but from now on until the purge is completed.

You have nothing to fear if you are willing to clean house and work in harmony with spiritual law. Of course, in that brief statement, I am covering a lot of territory. For instance, the man of wealth who refuses to spend any of it except for his own selfish pleasures is not working with spiritual law. Material possessions give a terrific responsibility. You are entrusted, in other words you are a trustee or custodian for certain of God's treasures; they were here before you came, in some form or another, and will be here after you are gone. Material wealth gives the greatest responsibility in the world; use it for the extension of God's kingdom and purpose, and you will be further blessed; take it as a personal possession and you will be scourged.

We have merely touched the highlights of the indications of this lunation, which we think are tremendous in their scope. Again I say, purge yourself of your selfish desires, and work in harmony with the will of the Creator; so live, that after the storm is over, and domestic peace reigns throughout the world, you will be proud of your actions. As a citizen and a Christian you should be in action; if you are not, you will have plenty of time for lamentation and self-reproach.

L I F E A F T E R D E A T H

The following letter comes from one of our very good friends over the years:

"Beloved Friends: I received my Bulletin, or Beacon Light Herald, late yesterday, and as soon as the work was finished and supper over, I could hardly wait, to get started, and I read every word of it before I went to bed. Believe me, it was like manna to me; and oh, how I want to understand reincarnation. Maybe I can't even put my thoughts into words so you can understand them, but I've got to try; it seems like I can't rest until I unburden my heart, so bear with me, please.

This is something that happened two years after my darling girl P----- was taken from me, Sept. 1937. At this time my mother was with me and very sick. One evening, just 3 days before my mother died, I went to bedroom to see about my small son as it gets cool in the evening and I wondered if he was covered; and I reached over to back of bed where I knew I'd find him, and a girl was lying on front side of bed. At that moment I thought it was my girl just younger than P-----. I felt of her hair, and did not want to feel of her face because I'd wake her; then I just patted her, on down to her feet; and then I noticed that her feet, or her toes, were straight up. But still I was so troubled about my blessed mother, I just didn't think; and started to leave the room; got to the door, and something just made me go back and feel again. It was just twilight — and no one was there, only my son, just where I left him. And no one entered or left that room; and I felt that curly head, and that precious body, just as sure as I am writing to you folks.

I've told this to a few, but I felt that they did not believe me. Now, my heart cries out for this one comforting word; will I ever see my girl again, and know her as she was? The summer before she left us, she and I often talked of that other world; and more than once I've heard her say, 'Why, Mom, we never die, we just go to another world.'

So you see I love 'Thy Kingdom Come', mainly, because of the source from whence it comes. Now I'll feel better; if this is too much rambling about myself, please forgive me; I, too, dear people, want the truth and nothing but the truth; there's a hunger in my heart that will not be satisfied. The emotional preachers just do not fill the bill, that's all. Today is Sunday, and I'm re-reading the Beacon Light Herald, and it's better every time I read it. . . . Ever your friend, - - - - -

The above letter is rather long, and I hesitated a good deal about taking up so much precious space in the Herald; but, on the other hand, could I devote it to anything more important than to give a message of comfort to one with such heart and soul hunger as shown in this letter? I answer it because we have had many heart-warming letters from those who have read 'Thy Kingdom Come'; and I can assure you that 'Thy Kingdom Come' was printed and published for two reasons: first, as a comfort to those who have lost those near and dear; and second, for the prophetic warnings given in this book.

I have been psychic all my life, and so I am speaking from experience and not from theory; and when I talk about immortality I am speaking from experience, I KNOW there is no such thing as death. From time to time I have mentioned little incidents as they happened; the messages received from big Jim Wilkinson, my New York attorney; the visit from Paul, the man I met in the Los Angeles jail, and who died in San Quentin. My wife's sister passed away, leaving a heart-broken sister because she also lost her mother two weeks later, and her very foundations were shattered. The sister found out that I could be reached; and hundreds of messages of cheer came from her, through me. And soon I became so indispensable as a message bearer it drifted into something else. Many members of her family have come to me.

Louis Cohen, my intimate friend and attorney for fifteen years, traveled around with me in my car for nearly two years after his passing. We were as close as any two brothers, closer than most. My sister came to me and told me of her passing, before I got the telegram. I saw the passing of my mother; I saw the funeral service, in detail, three thousand miles away, and described it to one who was there two years later. I could go on and give you thousands of experiences in my own life. Many are the warnings I have received, when driving my car over the country, as to impending troubles. Our churches teach abstract immortality; to me, it is a positive knowledge - there is no death. And many of you could know for yourself, if you would get away by yourself and go into the silence, and listen, and especially if there was a strong love tie, you can feel their presence.

Now, as to the materialization of the little girl, I know that is possible, and that this dear mother does not have to wait until she passes over, to contact her little daughter. With the right conditions, she will know beyond the shadow of a doubt. And whatever the faults of spiritualism may be, they have brought comfort to millions, with the knowledge that the grave does not end anything; that there is nothing in death to fear, you simply drop off an old coat. I have contacted psychics of all kinds and degrees, during the past forty years; but remember, you can be psychic without being spiritual. I have met people who were very vicious, and yet they were psychic; so I say to this dear lady: don't let anyone throw a doubt into your mind as to the reality that it was your little daughter you saw, rather, a materialized body. Didn't Jesus materialize a body, His body, many times?

As to reincarnation, there is plenty of proof in your Bible; Jesus said, Before Abraham was, I am. In other words, He had been on earth before Abraham; and furthermore, He says He is coming back again. Of course, in His case I do not think a physical birth is necessary, He will simply materialize a body. And don't forget the Scriptures promise us that before the return of the Messiah, Elijah will come; it is just mentioned in a casual manner. I believe that not only is Elijah in the body today, but many other of the old prophets and disciples; and that they came through the pathway of birth and not materialization; and eventually they will stand forth, revealed as to who they are. But humanity is not ready for that revelation, they would be ridiculed to scorn.

Some day I hope to present the material that I have collected during the past forty years, on the subject of reincarnation, from every angle, including the Bible. Never in the history of the world has there been so much bereavement as at present; and if you know of a bereaved family, especially a mother or a wife who has lost a son or a husband, present them with a copy of 'Thy Kingdom Come'. Our churches have no word of comfort to the bereaved, only abstract nothingness. Did you know that the Battle Hymn of the Republic was received psychically from the spirit world? That song has been a comfort to countless thousands. Did you know that Abraham Lincoln had ~~visions~~ ^{visions} in the White House, and was told what to do regarding the conduct of the Civil War? Washington's Vision is known to almost everybody; the Vision of Elder Hoag; the Vision of Gen. McClellan, when Washington appeared to the General and told him he had been betrayed. Many of you accept these visions as reliable; Washington's Vision has been reprinted by many church organs, and rightly so; and yet they sneeringly refer to you as a spiritualist if you happen to be mediumistic.

The best music in the world has come from the spirit world, in fact it all comes from there, brought by a messenger from God's storehouse. All inventions come that way, man can invent nothing, he is merely a go-between, from the storehouse of all knowledge to mankind. This would be a dull world of dead materialism, were it not for the psychic

faculty possessed by some. I received hundreds of messages of comfort to other prisoners when in the L. A. jail, and received almost daily advice as to what to do in my own case. Don't tell me these things don't exist; I am speaking from experience, and I make no apology for it to anyone. If you have lost a beloved one, go into the silence, meditate, and listen. Certainly your Bible is full of such incidents, more than any other book I know of.

Some time ago we reviewed a book, "We Knew These Men". I notice it is missed from our list, but we have them. This book is true to life as I know it from experience; it is a recital, relating the experience of a group of American soldiers who, through a medium, delivered their messages. This medium was not a professional, any more than I am, she was just a psychic, and they came to her. The book is \$2.50.

I often get messages for complete strangers, like a bolt out of the blue; I am glad to be used as a bearer of good tidings from the other world. We talk to our friends who are still in the body; why not talk to them when they are out? I hope this will prove to be a comfort to those who are suffering a loss.

TIME FOR ACTION

Yesterday was Christmas. I don't often get blue and discouraged, as I can usually see beyond the clouds; but, frankly, I was blue on Christmas Day. Why? I looked back to 1928, when we started our present campaign, like a voice in the wilderness, trying to arouse those who read my message to a sense of responsibility. And I was blue, because I felt I had failed miserably. I asked myself the question: was I to blame? Did I lack zeal and fire; was I really a leader and a teacher, or was I kidding myself with wishful thinking? Those were the thoughts that could not be downed.

Some of you think 'I am very harsh in my criticism of you; well, when I turn my analytical mind upon myself, you really see something. I am unmerciful. "But", you say, "you could not expect to change our national trend, with the handful of people you reach." That is true; and yet, if I could have inspired the small group that I reach each month; if I could get them to see the picture as I see it, and act accordingly I am not so sure that we could not have made a dent in the national picture. Our subscription list has never reached up to a thousand, in fact it has averaged around 700 for years. During the past two years we have printed 5,000 copies of AMERICA SPEAKS, which means better than 4,000 were given away each month; and at least two people read every copy, on an average, for we have records of from 10 to 20 people reading our paper and our Beacon Light Herald each month.

Now, any person who can read my message every month without contributing a dime, has not been benefitted; has not been reached; has not been stirred to a sense of patriotic service or a realization of their duty as a citizen. AMERICA SPEAKS is devoted to Americanism; The Beacon Light Herald is devoted to the purpose of arousing you to a sense of duty, a sense of responsibility to your Creator. This, we have not succeeded in doing, except only in the case of a very small handful. We have had numerous pledges of monthly support; only one has really kept that pledge, an elderly couple who get \$50 a month each old age pension; and every month they send me two \$1.00 bills to fulfill their pledge. This has been maintained for years. In this case I have succeeded in inspiring them with confidence in me as a leader.

I hear a chorus of protests: "You are wrong, friend Kullgren, we do believe in you, we are impressed with your sincerity and earnestness, we do accept you as a teacher and a leader." Theoretically, yes; actually, no. My mind goes back two thousand years, to when the Master faced the same problem. He had 12 disciples, who were very close to Him; but he also had another, an esoteric group, of around 70 or more, of whom Nicodemus was one. And yet, at the time of the crucifixion, what did we find? He stood alone; Peter denied Him thrice.

When the Satanic forces got into action in '42, a very small fraction of our readers stood firm; most of you allowed the F B I to intimidate you into giving up your magazines. They had no right to ask, and no court would give them a court order, to search your home for a magazine, and they knew it; it was intimidation, pure and simple. We received many panicky letters and telegrams - 'take my name off your mailing list.' Friends, I have never really gotten over that episode. And then, to cap it all, while we have scores of subscribers in the Los Angeles vicinity, yet they were intimidated and fearful of visiting me or writing me. Two ladies besides my wife visited me twice; I have known these two ladies for almost 40 years, we belonged to the same group away back in 1907, a little study class. One man, my good friend Dr. Taylor, came to see me as soon as he knew what had happened; and his good wife, Rev. Mae Taylor, was with him 100%. They opened their home to my wife when she came down to visit me, giving her moral and material support; I shall always feel grateful for that. But it seemed, in that hour of trial, my work was dissipated into nothing.

But what hurt the most was the fact that I have many wealthy friends - or shall I say associates - who could easily have come forth and paid my bail. The bail on two charges was \$30,000; the bonding company wanted 12%, \$3,600. Within a month we had the bail down to \$15,000, still no one forthcoming. In the meanwhile, those of small means were sending in their \$1.00 and \$2.00 contributions to my wife. This went on for 3 months; by that time we had the bail reduced to \$7500, and there was then enough money to bail me out.

I did not mind being indicted and charged with sedition, I expected that; I did not mind being imprisoned, I expected that; but I actually believed that bail would be forthcoming within a few days or a week at the most. All my business friends were

afraid; I was disowned as far as they were concerned. Now practically all these people I refer to would have protested loudly that they did believe in me, my honesty and integrity and sincerity, they did believe in my program. But actually, did they? And the answer is, No. It is only a theoretical acceptance and not an actual one, if you are not willing to stand firm in the hour of trial.

Now, the loudest belly-aching is coming from those who have the most material possessions; they see the foundation of their material possessions crumbling. The mass-meeting of property owners before the Board of Supervisors in Los Angeles was a good example. They made out a good case against the OPA; and yet I tried to interest some of those same people, hotel and apartment house owners. I remember giving them a talk at the Ambassador Hotel in the early days of the New Deal; I remember giving them a talk at the San Diego Hotel, at our Greeter convention; I talked on the same subject at our Greeter convention in Oakland; and I talked on the same subject at our Greeter convention in '36 at the Del Monte Hotel — warning them what would happen unless they did something.

More than one of them have wept on my shoulder, figuratively speaking, since, and said, "Bill, you were right." I recall one other meeting, at the Mar Monte Hotel in Santa Barbara, also a State Greeter Convention. The presiding officer was a Jew, and cut me off in the midst of my discourse; and I walked out in disgust. You see they were afraid of me. I could write volumes, of the dirty underhand tricks played to prevent me from telling my message. When I ran for the office of President of Charter 61, I as Secretary, called the meeting for a certain hour; the President illegally changed the time, to two hours earlier, and notified only those who would vote his way, but my followers knew nothing of the change of time. That's one of many examples.

Now, these are the people who are a combination of the lamentations of Jeremiah and the gripes of Job. So these are the things that came up before me on Christmas Day, especially as I sat down to dinner; my Christmas dinner was a bowl of Kellogg's Pep, something I never eat ordinarily as I am not much for cereals. So I asked myself the question, "Am I really doing any good at all? Should I accept offers made to me to dig in for the duration of the storm, and then resume in the reconstruction period?"

I am going to let YOU answer that question; but not in words, this time I want action. Don't make any promises you don't intend to keep; a promise is a very sacred thing, and if not kept reacts upon the person who makes it. Better not make it if you don't intend to keep it. From the beginning of The Beacon Light in 1933, even before that, there has been a monthly deficit for me to make up. I have traveled as much as 3,000 miles in a month selling merchandise; from 1936 to 1941 it was typewriters, office equipment and juice extractors; the war ended that. The way opened up for me to purchase a panel truck; that gave me a priority on gas and tires, so we started to sell health foods. I have always earned my living on the side and contributed to the upkeep of my publications. From now on, it is going to stand on its own feet, or else.

What to do? If you people believe in my work as you say you do, as expressed in hundreds of letters, you would be a missionary. When I believe in a thing, I work for it, I can't help myself, something inside propels me into action. As Secretary-Treasurer of Hotel Greeter Charter 61, the membership of which had been 25 to 30 for years, in two years I had it up to 91, something they told me wasn't possible. Today it is down to around 20 or less. And so, I say if you really, in the depth of your being, believe in my message, you would go out and sell the idea to those you meet every day.

We have ten times as many readers as subscribers; and many of these readers have written me glowing letters, but no subscriptions except in a few cases. There is an old saying that sympathy without relief is like mustard without beef. I want you people to give me a pledge that you will get me one new subscription each month throughout '46, either for AMERICA SPEAKS, or for The Beacon Light Herald, or both if you can. Of course I realize we have some very elderly people, some invalids; but surprisingly enough some of the best missionaries I have ever known have been in that class. But if only 50 per cent were to make a pledge of one subscriber a month for a year I would believe in your sincerity. You practically all agree we are putting out a worth while message, or else you are first class liars, and I don't believe the latter is true; you believe in the work we are doing, or you wouldn't renew your subscription.

What you lack is a sense of responsibility; for instance, every reader of AMERICA SPEAKS should have a framed copy of the Bill of Rights in their dining room, where all can become familiar with it, for this is a document you are supposed to believe in; and how can you believe in something with which you are not familiar? A national poll reveals that only 23% has ever read it; that Bill of Rights should be ground into the minds of your children until they are a living embodiment of it; periodically it should be taken down and read and discussed, especially during Bill of Rights Week. You would not have been so humble during the dark days of '42 and '43 if you had been well grounded in the tenets of that sacred document.

As far back as in '34 I urged you to form little study groups, averaging about a dozen members to a group, to read and discuss the various problems as they come up in the nation, especially in the Congress. Remember, in '34 I urged Beacon Light study groups? I also urged the formation of a powerful national legal defense organization; that also was in '34. What a difference that would have made, at the so-called sedition trial, if we had had conscientious, God-fearing legal talent organized into a fighting unit. The Communists did just that, in the lawyers' guild; they already had the American Civil Liberties Union. Are the Communists and anti-Christians smarter than the Christians and God-fearing Americans?

Do you recall that Lenin said that religion was the opium of the people? That boy had something, he was right; modern theology is an opiate, for the simple reason that the average Christian believes that he is under grace, and that law is not essential. He will concede that if he wants to be a mechanic he must observe the laws of whatever trade he wants to become efficient in; if he wants to become a musician there is a certain technique that must be observed, and he must practice; and so, eventually, he becomes a mechanic, or a musician, or an artist, etc. But when he wants to become a Christian, he says, "Lord, I believe", and that's the end of it. My Bible doesn't say so; neither does yours; nor is that a realistic picture; it doesn't conform to facts. The commandments, statutes, judgments and ordinances must still be observed; only the laws of sacrifice were set aside through the atoning work of our Lord. Jesus Christ gave His life to redeem Israel, whom God had divorced; and even St. Paul, whom most of these abstract Christians quote, said we must work out our own salvation, in fear and trembling.

I have felt like yelling, when I have heard men and women say 'I am not interested in worldly things; God has saved me and I am going to heaven.' Their religion is like a house without a foundation; the foundation of the Bible is in the first five books of the Old Testament, therein you will find the Ten Commandments, and the statutes and judgments and ordinances. These are still in effect, whether you are saved or unsaved you reap the same harvest. In my nursing experience, I have seen more than one devout Christian die of loathsome disease, due to wrong eating, which gives the lie to the claim that they are not under law. If you develop cancer through wrong eating, that proves you are subject to the law, in spite of your claim to the contrary.

I could go on and enumerate and give illustrations of every law the good Lord gave us. Look at the terrible suffering the world endures through the practice of usury; it has hopelessly bogged down this nation, so that we are paying billions of dollars in interest charges alone every year. Europe is clamoring for loans; they mean gifts. Yet do you know that America is in worse shape financially than any of these? Even the British Lion, which roars so much about her poverty, has a smaller per capita debt than America. We are completely bankrupt. Look at the huge assets England has in America and throughout the world, which she is not willing to liquidate to pay her honest debts. Will you tell me that the grace of God is going to dispell this huge debt we have? Will you tell me that the grace of God is operating in the field of health, when we can't build hospitals fast enough? Will you tell me that our violation of the laws of agriculture are not bringing the results of violation? In face of the evidence, any statement you make to that effect would be ridiculous.

Repeatedly, in the Old Testament, you read 'if ye walk in my statutes and keep my judgments'; if you don't, certain punishments will come upon you. Well, in spite of the grace some of you people say you have, the punishments are upon us as a nation; we are hopelessly in debt to the Synagogue of Satan, the Canaanites that walk in the house of the Lord. They hold the mortgage on your real estate; they hold the paper on your collateral; you are ridiculous when you claim otherwise.

Why do we keep building hospitals and orphanages and prisons and insane asylums? It is because we do not walk in the statutes and judgments of God. I have had numerous debates with Christians of that type; it is true God does certain things when we work in harmony with His laws; but we must do our part first. Christianity and Americanism, in their essence, are positive, and not negative; it is something more than a state of mind, you have to do something, you must obey the rules and regulations laid down by the Creator, or suffer the consequences; that's the thing in a nutshell. And just as long as we have Christianity and Americanism that begins and ends with belief, just so long will we have this mess.

I have gone over this ground many times; if it had sunk in, we would have gotten results. If you accept Christian concepts and American precepts, a definite line of action should result. Now we have failed in our effort to maintain the American way of life; we are now faced with civil war, and it is going to be a bloody conflict. I am not interested in going into a one-man fight, single-handed I can do very little. But I believe the time has arrived when I should consider my faithful co-worker through all these years; she was left out on a limb when I was arrested, and that was the thing that worried me the most as I lay in the prison cell; and I am not willing to repeat that. Besides, my efforts would be futile anyway.

I have turned down many offers to go into a retreat, well stocked for the duration, all I had to do was to walk in. It would be ridiculous for me to enter this conflict alone and without preparation; the enemy is highly organized, highly trained and well financed. You say the Lord helps; yes, the Lord helps those who help themselves, in other words we have got to make some effort. I know that we are going to organize, to fight the common enemy, or perish. Of course, in the last act God is going to act, and destroy the common enemy, the Canaanite that walks in the house of the Lord. Those who claim the promises of God to Israel are pretenders and fakes; that heritage is not theirs, nor will they ever get it. But the moment we get back on the beam, and carry out our theoretical beliefs and walk in the statutes and judgments and stand fearlessly for our Constitution and Bill of Rights, then God will do His part; He says I will yet be called upon by the House of Israel. The House of Israel are the Anglo-Saxon and Scandinavian peoples, and include a considerable portion of Germany, especially Saxony. There is a lot of Israel blood in Germany; Germany gave us the first Bible, when England forbade it; it was a German, Martin Luther, who brought about the Reformation.

There is proof of the Israel blood in Germany; our troubles have been with the Prussian element of Germany, which is not of Israel blood. There are other mixtures, but we haven't time to go into the details of that now. The point is, it would be suicide for

me to continue as I have in the past, unless you people are willing to support me in action and stand by. I am a crusader for the cause of truth; I have been the right down through the ages, in past lives. To those who can read it, the record is there, and will confirm my statement. To sum it up: Are you willing to work for the cause that you and I believe in? Are you willing to pledge yourself to get me one new subscriber each month in 1946? If you believe in this cause as I do, you can do it; and if you don't believe in it enough to work for it, the sooner I know it the better, because if it is only entertainment you are getting, go to the picture show and be entertained, and I will do something else. If you believe, as I do, that we must work and fight, or die, what are you willing to do? It is going to take considerable money to stock up on paper and supplies, for soon there will be none available; '47 will be too late, in fact as this year draws to a close the situation will be pretty bad. From the average reader I want a pledge of one new subscriber each month; you can either pay for it yourself or get your friends to subscribe; but to those who have substantial means - I want you to make it possible for me to get the necessary supplies and the necessary equipment that we can do our own printing on a multigraph machine. I may say that to my knowledge there are many millionaires on our mailing list, and they are liable to lose their money within two years.

Now I am putting it up to you to spend this money on something worth while; for you can't ignore this plea for help, and expect to get help yourself when you are stripped of everything. And so I am putting the situation up to you squarely; no coercion, I am telling you the facts. And if you don't believe my story, then it is wasted effort on my part. If we don't hear from you I will know you are not interested, and we shall not bother you further. But 95% of you can do something, either missionary work or providing the sinews of war. We have thousands of back numbers of AMERICA SPEAKS that we will give you for missionary purposes, and we have many back numbers of the Beacon Light Herald of the past few months that we will give you. An army that will not fight or work is useless; and so I am waiting to see just how good you are; for unless I get sufficient funds to buy an up to date multigraph machine and supplies for three years, I am not interested in continuing the fight. I await your verdict.

DEALERS: There was a time when we sold as many Beacon Lights through dealers as through the mail; that means we had more circulation we now have. All except one dealer ran for cover; this one, a lady, stood firm, and so did her group of followers, and were a tower of strength during the trying days of '42. But we need more dealer outlets. Due to the fact that I earn my own living I don't have as much time to take care of circulation, in fact I have none. And so it is up to you readers to get us dealers in your locality. We will start by giving them back numbers for free distribution. We could send them to you each month, and hold you responsible for collections, because dealers don't like mail contacts, they have a distributor who will land everything into their shop, and that's how they like it; usually they are too busy for letter-writing. We have none in New York, where we used to sell 100 Beacon Lights a month; none in Los Angeles, where we have sold as many as 600 copies a month.

And so, you who ask "What can I do?" here is an opportunity for service; take it upon yourself to find a dealer in your community, and then keep the contact alive. Tell your friends where they can buy AMERICA SPEAKS. Many of you can fill a very definite need; it is one of the things that can be done and one of the things that must be done if we are to continue. I travel enough to know that the general public is now more than interested in our message; that is especially true of the returned soldier; and now that we have a page set aside for the returned soldier and the veterans, here is something definite for the returned soldier. This is one of the ways that America can be educated and organized into a loyal opposition to what Westbrook Pegler calls the Pet Minicrity.

NON SUBSCRIBERS: If you are a reader, but not a subscriber, please subscribe. As a citizen of this great Republic it is your duty as well as mine to defend our Constitution and Bill of Rights; we are carrying a terrific load, and part of the responsibility is yours, but you are not carrying it. After all, this is your country as well as mine, and your liberty as well as mine is being taken away; and as a citizen it is your duty to uphold the Constitution and to oppose all who want to destroy it. Are you fulfilling that duty? And if you are a professing Christian it is your duty to uphold the truth, under any and all circumstances. You are having brought to your attention every month a periodical, or rather two, devoted to the truth, one to the cause of Americanism, and the other to the Christ cause. The two are really one, but most people don't see it, hence the separation. Whether you fulfill your duty or not, it is your duty, and the neglect of that duty will bring certain unpleasant results; that's spiritual law. It is no use crying and tearing your hair, if you are not doing your part; the good Lord always expects you and me to do our part first, then He will help us in our efforts. If you do nothing, and then when the hour of chaos strikes you cry out to God in panic, His attitude will be, What did you do for yourself; what did you do to prevent these things? These things came about by your own indifference; lack of civic duty, lack of interest in your duties as a citizen and entirely ignoring my laws as written in the Old Testament; why complain to me now, you are responsible for this wreckage. And, friends, whether you believe it or not, the law of cause and effect is still operative, you reap what you sow; that's why we as a nation are reaping such an ungodly mess.

A FEW OF OUR READERS are well blessed with this world's goods, and can easily furnish the supplies and equipment that we need; and you can do this without sticking your neck out, there are ways and means of getting funds to me whereby no one will be any the wiser. The point is your responsibility is much greater than that in any other class of citizen; you are stewards of some of the Lord's possessions. for the Good Book says

that the earth is the Lord's and the fulness thereof, and that includes you and your material possessions. And looking at it from a business point of view, it isn't good business for two reasons; when you pass over to the other side, and see what you could have done but didn't, you will be filled with the consuming fires of hell. The hell of remorse; that's what hell really consists of. And can you imagine a worse hell? But that isn't all; in your next incarnation you will have no opportunity to acquire wealth, the cards will be stacked against you; so it isn't good business to hug material possessions to you, knowing that by so doing you are cutting off the supply in a future life.

STUDY GROUPS: There is a sad need for this throughout the nation; people are ignorant, and yet full of questions; they expect much, but know little. Take the Pearl Harbor investigation; there have been many revelations made concerning it, but the whole truth is not yet out, at least not to the public. If a study group took up the question of Pearl Harbor they as a group should write to the committee investigating this thing, demanding that the tactics for the suppression of truth be stopped at once. And suppose that we had many groups all over the country taking up the study of Pearl Harbor at one time, and all the members wrote in to the Pearl Harbor investigating committee, demanding that all restrictions be removed; don't think for one moment that that committee would not be impressed.

Remember, there is an election in '46; small study groups are more valuable than huge, unwieldy ones, they cannot so easily be controlled, and if they are, they don't do as much damage. For twelve years I have urged the formation of study groups. I also urged groups for Bible study. The group could have one night a week to discuss things pertaining to the nation, and one night a week on Bible study and prophecy; or if two nights in one week could not be arranged, alternate each week. The point is, study groups are valuable, they tend towards the making of intelligent citizenship, and will be far more profitable than a day or a night at the movies. Even the children will be interested in these discussions, and should be invited, especially if of high school age. In the new order of things this is one of the things that will happen. The average American is woefully ignorant as to the duties and obligations of a citizen; but talk to a Communist, and he knows all the answers. Go to church, and listen to the rot that is poured out from the pulpits all over the nation; eulogies of the United Nations, Bretton Woods, Dumbarton Oaks and the new Labor government in England, as I heard recently — how Premier Attlee was carrying out God's plan for England! There are no facts to bear this out. These preachers might believe that, but it is not true. The new labor government is closely akin to that of Russia, absolutely Jew controlled. The real heads are Sir Stafford Cripps and Prof. Harold Laski; Canaanites that walk in the house of the Lord. Yet this same preacher in his sermon lambasted the Canaanites that walk in the house of the Lord.

Your study groups will do the work that the churches should be doing but are not. Our people don't go to the polls as intelligent citizens, they go as a bunch of sheep, hypnotized by propaganda which they get in the newspapers and over the radio. Remember, after all, all I am urging you to do is to be a good citizen and a good Christian; nothing more and nothing less; because the neglect of these duties brings disaster to you and to your nation. Why should you enjoy the blessings of Americanism while you do nothing to uphold them? That's why it is being taken away from you; the responsibility of the present mess lies at your door if you are doing nothing.

HEALTH STUDIES: If we as a people were obedient to God's laws, and walked in the statutes and judgments, doctors would be unnecessary except in case of accidents. A study group could easily acquire a library, not only on the subject of citizenship but of health. Take a set of Shelton's books, which you will find listed; you would learn how to take care of your health. That knowledge alone would save the average family at least \$100 a year, for the average family spends at least that much a year on doctoring; and yet the whole set costs less than \$20; and if it happens to be the bread-winner who is sick, that costs money too. In Deuteronomy you learn of the curses that come upon mankind for violating the laws of health. I'll tell you, you cannot ignore these statutes and judgments of the Old Testament without paying the price; the record of sickness among professing Christians gives the answer.

I was always a sickly child; my sickness was not the result of violation in this life but in some prior existence. Of course the doctors called it a prenatal condition; but in spite of the numerous death sentences by doctors, I have survived 61 years, and enjoy better health now than I ever did as a youngster. This is the result of my studies of the laws of health. These study groups will pay big dividends to you and to the nation as a whole. One result would be that at least one night a week you could see most of the family at home instead of gadding about indulging in sensual pleasures.

Laws of citizenship should be taught in our schools, the duties and obligations of citizenship. Instead of that, we are told how smart the Russians are and what wonders they are doing. Yes, this is taught in our schools; now do you suppose your child would enjoy living in Russia under that idealistic condition? Russia is one huge prison; but they don't tell you that. And now that system embraces most of Europe, including the British Isles, where they are still told where to go to work; they have no free choice of a job. Wartime restrictions and control are still in operation. Incidentally, war has not been officially declared over in this country; can you guess why? It is because all controls go out of the window when war is officially over; and you people write to me and ask me, 'What can I do?', with all the things there are to do!

Now in your study groups, the first thing to do is to get a good Bible Concordance; then a copy of Clark's Biblical Law, and God's Great Plan. The book we recently re-

viewed. The Conflict of the Ages, is extremely valuable; very few of you realized that when we reviewed it. Most of the books we carry are fundamental books; however, we will gladly suggest a course of reading for a group. We have one book on the Constitution. It is your duty to be a good citizen, also your duty to help make good citizens; how else can you have a good nation? The things I advise should have been done 10 or 12 years ago when we first suggested it; it is a sort of death-bed repentance now, but better late than never.

STORE KEEPERS: If you have a store of any kind, you have fine contacts. Of course there are times when you are busy, but in the course of time you get to know your customers. We will send you a bundle of back numbers for missionary purposes; eventually you could carry a few to sell each month, not only the paper but our book, Thy Kingdom Come, which answers so many questions. These suggestions apply especially in small towns, where perhaps there is no news store. It is surprising how much missionary work can be done through this avenue; won't you try it, please?

CHURCHES: There are a good many preachers, of all denominations, mostly on our complimentary mailing list. We have received many complimentary letters from this group. Well, if they are sincere in their commendation, they can help the cause along. Inasmuch as many of these churches carry literature, especially kingdom groups, let them sell our paper on their news stand; and we will gladly send them bundles of back numbers for free distribution, either AMERICA SPEAKS or The Beacon Light Herald or both. Inasmuch as the policy of our paper is to proclaim the truth, on whatever subject is up for discussion, we are fighting for a free press and a free radio, something that should interest all preachers. We have fought their battles in the past, and we believe we are worthy of their support.

DRUGLESS HEALERS: We have a goodly number of Chiropractors, Osteopaths and Naturopaths on our mailing list. The Dec. issue of AMERICA SPEAKS tells the story of persecution of one in New York, and we asked our readers to help him financially; we are justified in asking the support of the drugless healers; they could do much missionary work among their patients. I don't mean that they should hand out material indiscriminately, but during the conversation that usually takes place between the doctor and the patient he can soon find out where the patient stands. We will gladly send them back numbers for free distribution; and it would be a small thing for them to pledge \$1.00 a month, and in return we would send them 25 copies of the current issue. After all, we are fighting your battles. The same suggestion applies to most of the other groups, of \$1.00 a month or \$12.00 a year, for 25 copies a month. Don't you think that's cheap insurance?

ASTROLOGICAL GROUPS: There is no group of people in America that needs our message more; we have spent nearly forty years in the astrological field pioneering, yet there is not a group that has done less for us, because organized astrology is controlled by the wrong type of people, the leaders of most of these groups have a Leftist tendency. If you belong to any astrological group, won't you do some missionary work for us? Remember, AMERICA SPEAKS and The Beacon Light Herald are teetering in the balance; you people are going to decide whether they are to continue or not; and if you think they are worth continuing, do something. Surely some of the above suggestions fit your case; I positively refuse to continue on the present basis. I shall either confine my interests to earning a living, or 100% of my time to this work, one or the other; I find the dual job too hard on any man. And remember, I have carried that kind of a load since 1928.

In connection with the above, this morning we read Prov. 3; see how nicely it dovetails in to our remarks. I especially draw your attention to verses 9-13, and then again to 27-28; but it is a very meaty chapter altogether; and to come upon it after writing the above was quite a confirmation.

I would like to try an experiment; I would like to have two little groups, or colonies; in one I would like to put the group who believes that God does everything for us and that we don't have to do anything - that is, those who feel that they are no longer under the law. In the other camp, or group, I would put those who believe that we must walk in the statutes and judgments, regardless of any belief or salvation. I am convinced that the first year would show a clear demarcation of the group, and that within five years I am satisfied they would all join the group who believe in law - I mean the divine law, the statutes and judgments of God. We are today carrying Democracy (?) to Japan, Germany and Italy; and our brand of democracy is going to produce a worse mess than what they had before, imposed on people by Israel nations or at least with the consent of Israel nations. We are repeating the Treaty of Versailles, multiplied a hundred fold.

Israel law does not sanction the treatment that Germany is getting today; and as surely as the sun rises in the east, divine wrath will fall upon the Israel nations on punishment; because we happen to be an Israel nation does not excuse us; on the contrary more is expected of us. Our degradation was brought about by Britain, who has governed our State Department for a long time; it was their influence that opened the door to Russia; it was Churchill's inspiration that we recognized Russia, and that we appeased Russia, and now even Churchill is not satisfied. Yes, God Almighty is going to punish Israel America. As for Israel Britain, I am satisfied that she will cease to exist as a nation, and that only a small handful will survive the scourging she will get; belief will not save her; the fact that she is a remnant of Israel will not save her. I have long since ceased to hope for the redemption of the British people. Reading the English "PATRIOT" every week, plus the items of British news in our metropolitan newspapers, gives the picture. Let us in America impose the statutes and

democracy anyway, for that is what democracy is. Let's be Americans, and forget Britain with her Jew control; it is she that has dragged this nation down; there are tons of testimony to that effect. Salvation for Britain must come from within, and not from without. If we gave her the whole American continent that would not save Britain, nor any other nation. Let's be American first, and put our own house in order.

REACTIONS: We got some rather doleful reactions to our hard-hitting editorials and articles. I see no reason to fear the future, as some of you seem to do. Do you sit down with a doleful, long face and a feeling of hopelessness when you see the Sun set at night? Of course you don't; you know the sun will rise again tomorrow, and shine just as brightly as ever. Why fear the coming crisis, the tearing down of the old worn out structure of the Piscoan Age? We must destroy the old if we are to build the new. I can close my eyes and envision the new order, in all its purity, no longer any discord, but like a running stream down the mountain side, and the sense of harmony in every department of life, no sickness, no poverty, no disputes of any kind; every living creature living in harmony with the Creator's laws. Can you not see we should look forward with hopefulness and enjoyment to the new order? But to have the new, we must let go of the old. Most of us are hanging onto the old, the dross; and we think it is gold.

Let's learn to work in harmony with the Creator; let's learn to co-operate one with another; because we are all part and parcel of the one creation. It is only mortal mind that divides us. In fighting each other we are merely fighting ourselves. In the new order of things, it will be one huge co-operative commonwealth; I see no reason why we cannot begin to practice it now. And so, as the old order crashes around you, do as the Scriptures state - I think it is in St. Luke; 'and when you see these things, rejoice, for your redemption draweth nigh.' For we certainly have much to look forward to, and we shall lose nothing in the passing of the old order, and gain everything by the ushering in of the new. Of course it will be unpleasant during the tearing down of the old structure, but look at the sense of joy when we replace it with something infinitely better.

ATTENTION, CHRISTIAN CRUSADERS: We are now entering the violent stage of the New Deal program. Many Christians believe God is going to straighten our Ship of State; scores of them have told me they are not interested, and an almost equal number of metaphysical students believe they can straighten out our national mess by affirmations. People who think thus, should read the pages of history. This nation was liberated from England by the violent Revolutionary War, and the Civil War was won in the same manner. And the present civil war - for that is what it is - will be won in the same way.

And so, at this time, I want to know whether we are going forward as an army of Christian crusaders, or whether I am expected to stick my neck out, with my readers on the sidelines. I am willing to head the parade; I am willing to fight in the front line of trenches as in the past; but, I am not willing to fight alone. I have been impoverished twice in the last twelve years, and I have no intention of repeating this. Incidentally, from now on, there is no middle ground; you are for, or against, atheistic Communism.

Now here is what I want: My own printing plant, otherwise we shall be forced out of the picture in the middle of the fight. I want THIRTY men, or women to put up \$100 each. Compared with the money I have put into the fight, that's peanuts or rice nulls. It will take 90 days to get the plant, after signing the order. They will give me 6 months to complete payment for it; but I want \$3,000 cash in 90 days, or I don't go forward. With the Jewish control of about everything, it is not safe for a man like me to have a contract or a mortgage hanging over his head.

There are many among our readers who could put up the whole amount. You are now deciding whether I stay in the picture, or quit, and I must know within the next 30 days, for I now have an opportunity to dig in, and let someone else do the fighting. And so I have unfolded the story. From now on the responsibility is yours. I am not appealing to old folks on pensions; they kept me and my wife from want in '42, and they are on the honor roll from now on, for many of them were put on the complimentary mailing list at that time and notified they need pay no more subscription, a token of my heartfelt, keen appreciation. But now, I want the business man to do his part. Out of the thousands who read our message, I am only asking for 30 to come forward with \$100 each. If your conscience tells you it ought to be \$1000, I have no objections.

This message will go out around February 1st; and if the sum is not forthcoming by the 1st of March, then I proceed to dig in, the whereabouts of which will remain a secret. From now on you need trained leaders; I say that because recently I have seen newcomers making pitiful mistakes that make them very vulnerable to the enemy's fire. I have spent the whole of my life as a Christian crusader, from my Sunday-school days, fighting the battles of the oppressed and minority groups, just as I have done in past incarnations. Leaders are not trained in a day; we have lost a few very precious men, such as Patton; and you are making a very important decision, perhaps one of the most important ones of this life. And this appeal is not a personal one at all, for I would not need this equipment except for this work; and I know that those who depend on a private printed are going to fall by the wayside. And may God help you to make the right decision.

A CORRECTION: We have just discovered the following errors in our Book Lists:

A New Health Era, by Dr. William Howard Hay,	listed in error at \$1.00; it is \$2.00
Some Human Ailments, " " " " " "	1.00, " " 2.50
The Parallel New Testament, by James Moffatt, " " " " " "	1.25 " " 1.
