THE MENTAL SIDE

On New Years Day, and for a few days after, your friends will greet you and you will greet them, with "A Happy New Year to you." Will it be a happy New Year? To a large extent that depends upon yourselves; it depends on whether you ally yourself with the old, or the new. The old order is crumbling, and if you are hanging onto that old order, you will suffer the fate of that order. The turmoil and upset in national life today are the evidence of the cleavage between the old and the new. If you are one who is preaching of the wonders of Russia, what she is going to do for the world, you are tied with the old order; for there is no evidence in the Bible, in the physical facts as they relate to her actions, or in the bloodstream, that can give any support to that theory. I have lived among Russians; as individuals they are not constructive, they are little better than animals. They are Mongols, and there is little or no difference between their actions and those of the Japs, both are Mongolians. When they have power, they use it ruthlessly.

If you are a professing Christian, and believe in your Bible, you should know better, for the Bible is quite clear on that point. Russia is the king of the north in Ezekiel and I will challenge you to find anything constructive in the program of the north as described in Ezekiel 38-39. If you are a member of a labor union, and condone the activities of organized labor today, you belong to the old order of things, for there again you find might is right; they refuse to accept any responsibility, and act like a capricious child. Certainly that's not the spirit of the new order. Of course you may belong to a union but are not in sympathy with the tactics of the union. We advise wherever possible to get away from the cities and out of unions, because at a moment's notice you are likely to be involved in the thick of the fight.

The line of demarcation will be clearly defined in '46 as never before; and it is certainly time that you knew something about the fundamentals of life and spiritual law, lest you find yourself on the wrong side of the fence. We have talked a good deal about spiritual law in the past few years, because without a knowledge of it we flounder. Ignorance of law always produces chaos, for you are groping in the dark, or like a blind man without his seeing-eye dog. God gave us a divine blueprint when He set humanity on earth; but we have chosen to ignore that great plan. The laws and statutes of the Bible are set at naught, man has made his own little petty laws, none of which are in harmony with the divine or spiritual laws; hence the present day chaos.

You and I can separate ourselves from this man-made order any time we choose; of course we are subject to certain laws on the statute books that are Babylonian in character, as, for instance, our financial structure, which is purely Babylonian. Man has patched, and patched, and patched his man-made system or order, till patches will hold no longer, and the whole thing is now falling apart. Referring to these days, the Scriptures tell us, come out from among them. It is useless to bolster up the present system; tens of thousands are going for something that is even more Babylonian than what we have, namely Communism, feeling that they have no other choice. They see the evils of the present capitalistic system, and assume that Communism with its rosy promises is the way out. The whole of Europe has now embraced that ideology, and with what results? Read Ezekiel 38-39. But, you ask, What shall we do? My answer is, follow the divine injunction—If ye walk in my statutes and keep my judgments.

The new order of things is pretty much described in our book published 5 years ago, Thy Kingdom Come; this book gives the skeleton framework of the new order, and is in harmony with the statutes and judgments and ordinances of the Old Testament, which many professing Christians believe to be obsolete, in spite of the fact that Jesus said, I come not to set aside the law and the prophets but to fulfill. If you have a forward glance, that is, if you are progressive in the real sense of the word, you will see a marvelous new world unfolding as the old order is being torn down. The old order is passing; that's obvious to everyone. The religion of the old Piscean Age is crumbling; that was the religion of blind faith. The religion of tomorrow will be based on positive knowledge, a religion that will be in harmony with true science; and the science of chemistry will play a big part. Marvelous things will be brought out of the chemist's laboratory. We shall be able to taxi all over the world with as much ease as we formerly went down town and did our shopping.

One of the first things we must do, if we are going to fit in the new order, is to purge ourselves from the old. Let us take stock of ourselves; let us be transformed by the renewing of our mind, that is, have a mental house-cleaning. Theoretically, we all believe in the brotherhood of man; but boy, what an awful licking it has taken today, especially among so-called Christian leaders; vicious and untruthful attacks; I have been the victim of several lately; and the basis of these attacks has been ignorance or jealousy; in some cases lack of ability to think straight. A true Christian is always a crusader, that is, he is willing to fight on the side of right; but the spirit in which he fights is the important thing. Those of the old order will fight with the spirit of viciousness, using any method to aid their ends; but a Christian crusader will not function on that plane. There are ethics in fighting; one can level criticism at another without being vicious, without being untruthful, without jealousy and hatred and smallness. Personally, I welcome honest criticism, even though harshly given, if it be honest and truthful. I am sorry to say 99% of the criticism that has come my way has not been honest, although it was offered as such.

and so, as '46 starts out, we must first remove the mote from our own eye; and if we live in a glass house we should not throw stones. And so, as you wish each other a happy New Year, do something to make your wish come true. Raise your sights; raise your vibrations; look up, and not down. Incidentally, it will be very difficult to maintain your mental poise during the years that lie ahead; the drifter will land in hell mentally. Good literature will be an absolute necessity. Keep your mind anchored to positive constructive thoughts and philosophy. I don't mean that you should be a Pollyanna, that wouldn't be natural for me to advocate. Don't be like a locomotive without a driver but with the throttle open, keep your hand on the throttle of your mind and guide it into constructive channels. Face facts and don't dodge them; don't be like an ostrich and stick your head in the sand.

Nationally we are going to have to face certain unpleasant issues; most of you have been dodging these issues for years, but you can dodge them no longer. I suffered terrific persecution because I faced the facts, and spoke of them freely. Events are going to force you to do likewise from now on, because the wheat and the chaff are going to be separated. It is your duty as a citizen to know what is going on at the seat of government; it is your duty to know what is at the back of labor disturbances; what prompted the Pearl Harbor attack; why was Tyler Kent cast into a British prison; the why and wherefore of the Atlantic Charter; the Bretton Woods conference; the United Nations conference in San Francisco; etc. These various conferences affect your everyday life, and you are a citizen of this great Republic; as such you have duties and obligations to perform. Up to date most of you have felt it was none of your business. Many of you have said to me, "I don't want to be involved." That's the coward's way out; we shall all be involved in '46, and we shall all be forced to line up and take sides; because this series of strikes are but the opening shots of civil war here in America; and you are either with the anti-Christ groups or with the patriotic Christian groups.

It is going to be hard on some of you, for I find many mixed up and involved, and belonging to groups that are a mixture of the two. Most of these people are sincere and well meaning, but it is of no use fighting Communism at the front door if you let it in at the back. And these are the people who will be faced with the greatest confusion. If you advocate any philosophy of life that does not harmonize with the teachings of Christ and the statutes and judgments of the Bible, they are wrong. Many groups throughout the nation are absolutely selfish; the predominating thought, to them, is, Give me something, just as the Communists and labor racketeers, they attempt to black-jack all who do not line up with them. If you belong to a group that uses such tactics, you know it is wrong. Personally, I cannot reconcile Union Now or Technocracy with either a Christian or American program. Some of the old age pension schemes are very questionable in my opinion although I am heartily in favor of an adequate old age pension. It is the duty of the nation to take care of the aged and weak and infirm. Some of the pension schemes are nothing but rackets — they are a Good Thing for the promoters. And some of them are using communistic methods to attempt to gain their ends. Groups of this nature sent Ellis Patterson to Congress, also Sheridan Downey; and I presume the same thing went on in other states as in California.

I am in favor of labor unions to represent the working man; but I object to union racketeers. I am in favor of old age pension groups fighting for their just rights, but I object to old people being led by racketeers, waving before their eyes fantastic and irrational schemes and methods. These are some of the things on which you will have to use discrimination in '46, for you will be forced to make a choice. I may not have much to say from the standpoint of prophecy, because I believe this message is far more important for and to you.

To sum it up, the old order is passing, it has had its day; it is the end of an age, or dispensation, or cycle, and those who try to hang onto things that belong to that age or cycle are going to get hurt. But, human nature being what it is, we cling to that to which we are accustomed, unless we are of the pioneer Aquarian trend. Any planets in aspect to Uranus makes one a reformer of some kind; if square or opposition, they belong to the wrecking crew; if in good aspect they are builders of the Uranian order. So, no matter who you are, or what you are, adjust your mental sights to the new order that is inevitable; be like the little girl who went to the prayer meeting to pray for rain — she was the only one who took an umbrella. As far as lies in your power, let go of all that belongs to the old order Babylonian system which has prevailed throughout the Piscean Age. You cannot change the outward conditions, but you can change your attitude, and that's what I am asking you to do. . . . So much for the mental side of 1946.

THE PHYSICAL SIDE

In the tremendous readjustment that will take place in the next 5 to 10 years, there will be a lot of stress and strain on all of us; change is inevitable, the corpse of the Piscean Age must be destroyed, lest it should make impossible the ushering in of the new Aquarian Age. Only a fool will fear that which he cannot change; the wise man will adjust himself to this tremendous readjusting period in the world's history. Much of the misery that will result will be caused by the refusal to prepare and to adapt. I may say a lot of people are kidding themselves about a special dispensation from the Creator. I don't care how spiritual you may be, if you sit on a bomb you will go up with it. Incidentally, as I look around I don't find many real spiritual people; real spiritual people are being warned to get out of the way, because the wrecking of the old system will come through earthquakes, tidal waves, cyclones, tremendous storms, famine and pestilence, to say nothing of the third world war with the great northern confederacy. Millions of people lost their lives in ancient Lemuria because they refused to heed the warning to get out.

Read our book, 'Thy Kingdom Come', \$1.00; read The Second Coming of Jesus the Christ, by Phoebe Holmes, published in our January 1940 Beacon Light. A few copies are still available, 25¢. There are many references in our Bible to the destruction of our cities, such as Rev. 17:19; Micah 5:11, 14; Hosea 8:14, Jer. 50:32, etc. After reading those Scriptures, will you continue to kid yourself that things are going to remain what you call normal? Modern prophets are warning you to get out of your cities. Astrologically I would say that '46 is your last chance, that whatever preparation you make must be made during the first 6 to 9 months of '46. In a general way, the best period is between May and October when most of the planets are going forward; at present most of the major planets are retrograde, but you can plan, and make preparations.

Don't be like Lot's wife; the good Lord is not going to tell you to sit on the seat of destruction and promise you protection; He is going to warn you, personally or through a modern prophet, to make a move. Certainly I do not see enough spirituality in any of our large cities to warrant their preservation. Even our preachers are living in Babylonian style. While I have no desire to frighten you, I do want you to face reality; the main thing is, very few, if any, of our large cities will survive the series of blows they will receive, when the great rock strikes and the earth gets back to her normal place; that shock alone will level whole cities; and if you are a Bible student you will know we are now entering a period of a series of earthquakes, of increasing intensity. The old order stands in the way of the new, therefore it must be destroyed; and nothing less than total destruction of the anti-Christ forces ruling our large cities will ever do the trick. Every city in the nation is rotten with corruption; you either carry the mark of the beast, or else; from the mayor and chief of police down and for that matter it applies to the presidency of the United States. How else are you going to clean them from the seat of power?

Man has had his chance, and failed; and so, I say get out of our large cities while yet there is time. Not only must you make a change, but you must make preparations to live through a period when everything is disorganized — and I said 'everything'. In a general way you must prepare for a storm of from one to three years; during part of that time there will be no transportation, and growing conditions will not be normal; so to survive you must stock up on foods that are not only nourishing, containing the right elements of minerals and vitamins, but foods that will keep. Before destruction comes, epidemics of sickness will sweep the nation. This will come because as a nation we are suffering from malnutrition; most sickness is caused by malnutrition. It has been brought home to me very strongly in the last year or more, the value of the mineral supplement in the diet. Even our soil is suffering from malnutrition. Inasmuch as during the coming storm our diet will be restricted, it is very essential that we get foods rich in minerals; and when it comes to that, Kelp has no competitor, absolutely none. If every reader would make a resolution, to eat not less than 8 to 12 oz. of Kelp a month throughout the year, they would simply be amazed at the results. Most of those suffering from eye strain could throw away their glasses; for after wearing glasses for eye strain for 35 years, six months of Kelp diet made it unnecessary for me to wear them any more, except of course for reading. I used to have a headache in 15 minutes, and nausea in 10 minutes, if I left off my glasses; that's how bad my eyes were.

In some cases other vitamins and minerals may be necessary, especially Vitamin A. I consider Broccoli one of the best sources of Vitamin A; Swiss Chard comes second, Alfalfa third. Most of these items are obtainable in dehydrated form; a spoonful a day of these items mixed with your other foods will give you your Vitamin A. The average adult should eat not less than 6 lbs. of the Kelp a year. Your eyes are no better than your bloodstream; eye strain cannot exist unless you are run down; glasses are crutches. I haven't yet gotten over my wonderment at dispensing with my glasses; theoretically, I was willing to admit it was possible, but not for me. But I can tell you the good Lord did not intend humanity to go around with crutches of any kind.

Now in storing up food, it is not a question of just something to eat, it is something to sustain life; and you can only sustain life by supplying the elements the body uses. And remember, no medicine ever cured anything; nature, or God, is the only curative agent in the world. There is one stipulation; if you are going to build a house you must supply the mechanic with bricks and mortar; nature will rebuild your house, or temple, if you supply the necessary elements. I have delved a good deal in the reports of food chemists, and there is considerable emphasis on the B complex vitamin; and from what I can make out, yeast is one of the best sources of Vitamin B Complex; it seems to be as the leaven in the bread of life. Now we have, or will have on hand, the various things we mention, so watch for them in the Price Lists in AMERICA SPEAKS. It seems that Vitamin B Complex as well as Vitamin A is an absolute necessity; the B complex appears to be a nerve feeder.

By the way, you must cease filling your body with carbon, under the name of white bread and white sugar, which of course includes pastry or anything made from white flour, as well as polished rice, salt, pepper and vinegar. None of these items are foods, and all are detrimental. One of the authorities I have been reading claims we need several teaspoons of dried Brewers' Yeast powder each day; I am merely quoting this author, I have not tested it. He also suggests two or three tablespoons of wheat germ daily.

VITAMIN C: Very few people get enough of vitamin C. This is found in its best form in the citrus fruits, lemons, grapefruits and oranges. Strangely enough, horseradish is very rich in vitamin C. Raw tomatoes are also a rich source, but nothing compared with the citrus fruits and the horseradish, or even the turnip leaves. Incidentally, turnip leaves are one of the most valuable foods obtainable; in food value they come next to the Kelp, containing vitamins A, B, C and G, in addition to 9 minerals.

4

It ranks the highest of all foods on our list in vitamin C, and tops the list in Calcium, an item in which most of us are deficient. Kelp and Turnip Leaf should be in shakers on your table all the time. Many of your vitamin and mineral food tablets are made up of these two items. If you have children, see that they have at least one glass of orange or grapefruit juice a day, raw if possible. If your flesh does not heal quickly after cuts, it lacks vitamin C. One authority suggests one day a week, or ten days at a time, with nothing but juices rich in vitamin C; oranges or grapefruits, according to this authority are three times higher than tomato juice. Fresh tomatoes are always away ahead of the juice. I have merely touched the high spots on some of these things; to sum it up, in my opinion one needs a stock of dehydrated foods on hand.

By the way, speaking of Vitamin C, we can now supply Lemon Juice Powder in 5# Jars, and there is your vitamin C; price \$5.50 delivered. The minimum for any individual would be one jar of Lemon Juice Powder; of course, with a family, a case (of either 4 or 6 jars) would be much better. We are now using this in preference to fresh lemons in our own home. I found prisoners in the L. A. Co. jail suffering from a succession of colds because their food lacked the necessary supply of vitamin C. So, whatever else you omit, Lemon Juice Powder and Turnip Leaf Powder and Kelp come highest on the list; and even if your supply was cut off only for 30 days one jar would be necessary.

The best form of sweets is honey. We have a very limited amount, put up 9 1/2# to a jar; we don't like to ship it because of the breakage, and we cannot promise to supply this item. Rice Bran and Rice Polish are also very valuable; the Bran is a rich source of Potassium and Phosphorus and Magnesium, and the Rice Polish is the highest rating in vitamin B, also a good source of vitamin G and rich in the 3 mentioned for Bran. Again let me mention Horseradish, extremely high in vitamin C. Sit down, and think what you would need if your present source of supply were cut off, especially if you live in a city. Strikes alone would cut off your supply instantaneously, to say nothing of major disasters. You may consider me an alarmist; all the old prophets were so considered, and so I am in good company. I sincerely believe the things I am telling you, and there is plenty of evidence to sustain my belief, if you will look around you on the physical plane, to say nothing of prophecy, Biblical, Pyramid, Astrological and psychic. Incidentally, if you have children, I would certainly suggest a case of Joyana, a palatable food, rich in vitamins and minerals, very pleasing to children and invalids. This helps to give you variety.

But I have omitted one of the most valuable foods of all, namely, the Vegetable Puree Concentrate, which contains about a dozen different ingredients, fruits, vegetables &c. This is our best seller, bar none; repeat orders testify to the value of it. One lb. of this makes 5 gals. of nutritious soup, which can be thickened with either rice bran or rice polish, beans, or wheat or barley products. This item alone can sustain life, and will keep you in a healthy, nourished condition.

And so, in conclusion, my warning is, build up your body with body-building essential foods, vitamins and minerals, and, too, lay in a supply for a storm that is coming, regardless of anyone's opinion to the contrary. After writing the above, I have just read 'Closer-Ups', by Upton Close, the December 3rd issue; my warning is mild in comparison with the picture he paints. I would especially recommend this message to the Pollyannas, and the preachers who have been put off the air; he is telling what I have said for years, and he says it is NOW. He says there is still time to turn the tide, if we will do something; all the doing is being done by the left-wingers and Communists. He speaks of the danger of martial law throughout the nation. 'Closer-Ups' costs \$15.00 a year, and it is worth it to any intelligent American, especially if he is a business executive. We are much closer to the Hitler type of government than you realize. We look for an epidemic of disease to sweep the world this winter. Get busy on preparation, now; such as we have advised above. This will be more devastating than the war.

THE SPIRITUAL SIDE

Inasmuch as man functions on four planes, the physical, emotional, mental and spiritual, a certain amount of preparation on each plane is necessary. The emotional plane blends in itself so readily with the physical that it is not necessary to emphasize it. You may have a million dollars, all the wealth that anyone could use and more, and yet that will not see you through the storm, unless you are in a healthy spiritual state; in other words, you must have credits in the spiritual bank of life.

During the years I have talked of preparation, I have seen many who thought they were invincible because they could buy anything they wanted. Some were receiving substantial pensions; their financial assets gave them a feeling of security. I recognize the necessity of common sense preparation in physical things; the Good Book says Let him who is greatest among you be the servant of all. Of what use is it, to save a conceited, selfish, self-opinionated individual? Unless he has the spirit of service, he is so much refuse. That is one reason why people who go to colonies are not willing to blend; they have substantial, material assets which they are not willing to use for the benefit of others less fortunate; and immediately they affect the morale of the whole group. Without the spirit of service, you are so much dross.

We have talked preparation now for many years, as far back as 12 years ago or more; we have contacted hundreds of students from various groups; I have seen guileless individuals taken advantage of and fleeced by their more cunning associates. We haven't space to give you specific instances; but there are those who under the guise of benevolence are out to strip the trusting souls.

During the coming upheaval, pestilence and violence will carry off a greater percentage of those well fixed materially than it will of the other class. The bulk of the wealth of the nation is in the hands of the Jews; they are hugging their wealth to them and feel that they are invincible. Death and destruction will hit them the worst; their greed and selfishness will draw destruction to them, just as a magnet draws the needle.

In these days, when the old Piscean age is breaking up, one sees very little of the spirit of brotherhood, even among those who talk most about it, that is, the preachers and leaders of various groups. During the past two or three years we have drawn up charts for many of these leaders, about fifty or sixty; we put in many long hours at this work, mostly done at night when they were sleeping. In most cases, we never even got an acknowledgment — believe it or not; two thirds of these were preachers. By the way, preachers are the worst bunch of (non)-co-operators in the world, they seem to think that a diarrhea of words is all that is necessary to make them a leader. It is not what you know, or what you think, that counts, it is what you do; not those who cry Lord, Lord, but those who do the will of the Father. I care not how many letters you may have behind your name or in front; all I am interested in is your performance. If I told you I was a singer, while I could not sing a note, I would cut a very poor figure. If you have virtues, it is not necessary to tell the other fellow, it will be self-evident, for they will stick out like the nose on your face. Don't be like the Indian who got converted; he got up in a testimony meeting, and said "Me pious." He repeated it three times, but no one applauded; finally, he said, thumping his chest, "Me pious like hell." Whatever degree of spirituality you possess will show in your life, in service.

I have had a few personal experiences in the last 12 months; one man said to me "I have been trying to draw a group together for years to work co-operatively; nobody will do anything, you can't depend upon them." This same man who protested so much, when it came to the test, when I offered to co-operate — His first words were "I don't want to be involved; you go ahead and I will help you. I want to remain free and independent." Well, that's what the people he complained about want to do, and so he was really worse than the others he complained about. Several times I asked him to do things; each time an alibi or he would direct me to someone else. This man is insincere although he does not realize it, he can't see himself as he really is.

Friends, when you give your word to anyone, keep it it is a sacred obligation, whether you realize it or not; be dependable, when you make a promise of any kind, keep it; for whatever you mete out to the other fellow will be meted out to you, that's the law. Another individual, a likable personality, simply didn't know how to retain a confidence. He would make solemn promises, and then reveal it to the whole neighborhood. This man is well-meaning, but he doesn't realize that the common enemy will use all knowledge against you in the coming storm, especially regarding one who has been in the firing line as I have been, and that it is very necessary to keep your own counsel on certain matters.

I know another man who assumes that he is the only man who can think for the other fellow; he immediately starts out by telling them what they should do, where they should go and what he thinks they should have. It is true that some people have no idea at all; but this man assumes that everybody should do what he wants to do himself. This man is always well-meaning, and doesn't realize that he is dogmatic and not willing to let the other fellow live his own life. The spirit of prayer and meditation is usually lacking in these types, they have no foundation of their own spiritually, it is all material; and they will be pathetic figures when the real test comes.

These are just a few examples from our everyday life; if you recognize any of these weaknesses in yourself, strangle them before it is too late. Some will be annoyed when they read this as they see a picture of themselves; well, if the cap fits, put it on. I am often surprised at the number of people who claim I had them in mind when I wrote something; a lady in New York recently berated me to a fare-ye-well, because she said my criticism of the Aries was directed at her; I didn't even remember that she was an Aries, although on looking it up I found she was. A truth student should never resent criticism, even if directed right at them; when you become annoyed at criticism, ask yourself, 'Is it true?' If it isn't, forget it. I can say in all sincerity that I strive to help my readers with their everyday problems; I never indulge in vicious criticism. If you could look ahead, and see your immediate future, some of you would do some vigorous housecleaning; you would endeavor to put your spiritual house in order. Look around you; how many people can you truly say are spiritually prepared for that which is inevitable?

We find people who think they can build up a healthy body on stimulants of various kinds; we find people whose lives are full of hatred and jealousy and the spirit of intolerance. These are destructive qualities, and will destroy their possessors when the time comes. You can't even afford to hate those who have ill-treated you and betrayed you. I say you can't afford; and you can't. These are destructive qualities and will destroy anyone.

Spirituality is something more than a Happy Hooligan frame of mind; it means the possession of spiritual qualities, chiefly the spirit of service in our everyday life. Christ said, Peter, lovest thou me? Yea, Lord. Three times the same answer: 'Feed my lambs.' I have been appalled at the cold-blooded indifference of those with substantial means; indifference as to what happens to our nation; indifference as to the plight of those charged with sedition, in spite of the fact that the whole thing was phony, from beginning to end. The inside dope on Pearl Harbor and Tyler Kent shows why some of us were indicted. We warned of Japan and Pearl Harbor as far back as '38, then in 'Thy Kingdom

Come' is specific mention that we would lose our Pacific Islands, the Philippines, Guam and Wake are mentioned as well as Hawaii. Read our 'Japan, Friend or Foe?' in the July '38 number. We also consistently warned of the war machine that Germany was building; we were called pro-Nazi for it. In The Modern Book of Daniel, Part 2 of our book National Destiny, read the revelations about Roosevelt and the New Deal, and Roosevelt's somewhat sudden death; then you will understand why we were indicted for sedition.

I know a number of men and women with very substantial wealth, who could have helped a lot at that time. We once had substantial means, too, but fighting the New Deal cost us every penny; those assets today are worth approximately a million. These people did not need to stick their neck out as I did, they could have secretly aided us and others who were fighting their battles, fighting for their safety. But what is the security of wealth today? Higgins, the shipbuilder of New Orleans, played along with and endorsed the New Deal, encouraged the actions of Roosevelt regarding labor; today Higgins can't buck the labor element any more so he has thrown up the sponge, says he is tired of trying to do business with irresponsible labor elements.

Some of you still retain your wealth, but not for much longer; in the not far distant future conditions will strip you of everything; in some cases bankruptcy through the action of unions, some cases destruction through the elements as the disastrous earthquakes begin to hit the planet. You people who refuse to recognize that the earth is the Lord's and the fulness thereof, you people who are smug in your material security, will be indeed poor when your material things are taken from you - which they will be. Read the parable of the talents; if God has blessed your efforts he expects you to use it for His cause and His people, and not selfishly. You did not bring it with you, nor will you take it with you when you go. As Byron so aptly puts it, the joy we give is the joy we keep; we have to lose our life to find it; that which we give comes back a hundred fold; that's spiritual law.

You still have a few moments left for free will action; many of us who were indicted for sedition are struggling to re-establish ourselves before the coming storm. Some of the older ones, much older than I, are pathetically struggling to take care of themselves. Like myself, Edmondson, Sanctuary and several others sacrificed substantial fortunes for the cause: God and truth and America. You still have the opportunity to help these men. Some of the defendants died paupers, like poor old Garner; his nude body shipped to his poor old widow. My friend, if you have material wealth, and still stand idly by and do nothing, I wouldn't care to be in your shoes. And so I say, for your own sake, do something, and do it quickly. I'll gladly supply a list of names of men and women who have sacrificed their all for this cause; who have been vilified, scorned, ridiculed for the cause of truth and for the cause of our beloved country. Spend your money for humanity's cause while still the opportunity is yours, for you cannot carry your wealth into the new order of things, there must of necessity be a leveling out first.

In most cases it is only necessary to give of your surplus; I know several who are millionaires, yet have never raised a finger for the cause they profess to believe in. The time is close at hand when you will indeed be poor; and poverty-stricken not only materially but spiritually. I can point out people who are rich spiritually, who possess nothing, and live from day to day. And so I say, with all your preparation, make spiritual preparation, for without it the others are in vain. We shall be glad to show anyone how they can spend money to good advantage so that many will be helped during the days of chaos just ahead. People will die of hunger and disease because of ignorance; you who have means can prepare for that day, just as the great Mormon Chruch has done for its people. As in the days of Noah, so it is today; people are not willing to prepare for the storm that is inevitable, and as a result millions will perish unnecessarily. Just as Noah warned the people in his day, and the people of Lemuria were warned 26000 years ago before that continent sank, only a few that took heed and fled to Egypt and, I believe, some to America, and the rest were lost, millions of them, over night - you and I are living in a period similar to the days of Noah and Lemuria, when the earth must be cleansed of its dross. We must make practical preparation, just as Noah did or perish.

Many well-meaning people tell me God will protect them, they have no fear. Their God is in their head and not in their heart, for if they were spiritually attuned they would heed the warning voice and flee to a place of safety while yet there is time. Certainly the Scriptures are full of such warnings; and many of the old prophets are in incarnation today, warning you as they did of old. If you were spiritually attuned you would recognize them without any labels.

Before another year rolls around it will be too late for thousands to make preparation. This may be your last warning as far as I am concerned. I do not claim to know; I do know the time is very close. I hope to have time and space to give a few astrological indications; if not we will include it next month. We covered much of this ground in the Preparation series in 1940, in the March, April, May, June, July, August and September issues; only a few of some of these numbers remain. They are 25¢ a copy; you will find a wealth of information in them on preparation, physical, mental and spiritual.

P R E S I D E N T T R U M A N

The American public, that is the better element, seems to be surprised and somewhat disappointed in President Harry Truman. I don't know why they should be surprised, a leopard does not change its spots; and if you view the background of Harry Truman you will find the route by which he reached the Presidency was pretty much the same as that of the late president: namely, by trimming his sails to every wind that blew. The late President openly courted the backing of the lowest element in America, such as the Kelley machine of Chicago, Hague of New Jersey, Paving Block Flynn of New York and so on; and

Truman is the product of one of the foulest under-world political gangs in the history of the nation, all that he has he owes to that rotten machine. So I am puzzled to know why the good people of America should be surprised at some of his actions.

He has made a few fine appointments, but the left wing gang is leading him into the quicksands of state socialism and internationalism; and so, if America is to be saved, it will not be Harry Truman who will save it. We shall have more to say about that in another place; the purpose of this summary is to convince you that Truman will do only what the people force him to do, as far as returning to the American way of life is concerned. You good people of America have been telling me for years that you were not interested in politics — that you could not be bothered and that it was none of your business; and many have written to say they didn't want to stick their neck out. Now, you are about to reap the harvest of your indifference, your cowardice, your following of the path of expediency. The Good Book says, be not deceived, whatsoever you sow that shall you also reap. And so the horrible picture of America in '46 is the sum-total of your actions. You were not interested in your civic duties; you were not interested in knowing what America really stands for. You saluted the flag on the 4th of July and Memorial Day, but you could not be bothered to find out what that flag stood for. As a result your children got a fine education of internationalism, the anti-Christ system of government, knowing nothing and caring less about America and its glorious heritage, and what it really is. And now you are actually amazed at the crop of tares that is springing up all over the nation.

It should be compulsory for every citizen to have a good knowledge of the founding of this nation and the things that have happened since; and it should also be necessary, inasmuch as we are legally a Christian nation, to know what Christianity really is stripped of sectarianism. Every child should be compelled to read the Bible from cover to cover at least three times during its school period; once a year would be better. Then they would understand why nations become corrupt and foul. Go through the Old Testament (which is supposed to be Jewish but is not for most of the Old Testament was written before there were any Jews on earth). Before Adam things had become so rotten that the pre-Adamic race was wiped out and God had to start out all over anew; but by the time Noah came along things were again in a hopeless mess. Since then God has made several attempts to start anew, once under Abraham; then the Israelites, at the time of Jacob; but again and again they went after strange gods and strange philosophies. And finally, as punishment, God permitted his chosen people, the Israelites — not Jews — to be taken into captivity.

The descendants of those ancient Israelites are the white race, who come right down from Shem; and we here in America represent the best of the descendants of the children of Israel. England, too, was Israel, but look at the mess she is today; just as in the days of Judah. And so America, under Harry Truman, has come to a period of cleansing, through blood and fire. Truman, like his predecessor, is symbolical of America of today; and just as ancient Israel was repeatedly brought back to the laws of God, so will America be after the cleansing of the next three to five years. The Good Book says there is no remission of sins without the shedding of blood; that's why there are periodic slaughters throughout the world, they are the result of violation of the laws of God. If America had remained true to the laws of God, she would not have been in World War 2, nor even in World War 1. She departed from American traditions, just as the Israel of old deserted the statutes and judgments of God; and as they embraced the philosophy of Baal, so we too have embraced those same philosophies today. We call it communism or internationalism, but if you read your Bible you will see that it is the same old baloney under different names that has permeated our churches, our schools, our colleges, in fact everything in America today. And so you will never understand what's wrong, or the remedy, until you have an understanding of the Old Testament. Yes I know it is despised, because it is misunderstood; and it is supposed to be Jewish. The Bible distinctly shows that the Jews came into being about 600 B.C. when there was a time of mixing of blood and mixing of philosophy, just as has been done here in America; the ingredients for the mess are all the same. And we are approaching a showdown such as described in the Book of Kings; the prophets of Baal and the good Elijah.

Now Truman is trying to carry water on both shoulders; always has. Outwardly a Christian, goes to church, with Libra rising of course a sunny disposition, good mixer, musically inclined, and from his chart destined to be in the limelight. Note the powerful Jupiter and Mars on his midheaven; and like the late President Roosevelt a grouping of planets in the 8th house. Don't blame Truman, he is a symbol of degenerate America. By condoning corrupt political machines we placed this man where he is today. My observation is that a man or woman with Libra rising is not a very good person to go into battle with when you are fighting for principle, because their tendency is to compromise and find the easiest way out. I know many workers in the cause of Americanism who have repeatedly sold out without realizing it; I have been sold down the river by these people in various organizations. When I demanded a showdown, they said, "Well, now, let's meet them half way"; and "Don't you think you are a little too severe and uncompromising?" That was my experience in the hotel organizations; my experience with the astrological groups. Libra rising is apt to be good company; their compromising methods cause us to lose everything, including the thing they profess to believe in but are not willing to fight for. The moment you compromise on principle you have sold out, there can be no half way between right and wrong; it is either right, or it is wrong. So damn the compromisers; they are more dangerous than the out and out opponents. I'd rather stand entirely alone.

Well, what does '46 hold for Harry Truman? He is now campaigning for the Presidency in his own right. Jupiter passing through his 1st house the whole of this year will, in our opinion, increase that tendency to compromise, smooth things over, be a good fellow to everybody. It is like a Hollywood movie front, it looks swell, but take a look behind! But Uranus going through his 9th house and coming up to an adverse of its place at birth, culminating in the midsummer of '47, will bring up many ghosts to haunt him, and will bring to a head all the compromising pus. Truman is like a comet streaking across the sky; he will never be elected in his own right to the office of President.

There are many reasons; he is a weak character, and within two years of coming into office he will become so hopelessly involved because of unfulfilled promises that he will be hopelessly bogged as far as his political ambitions are concerned. Mars is going over his midheaven for the next two years, and in the early summer as it enters Leo he is going to begin to reap his harvest. I suspect June of '46 will find him like a man who has bumped his head into a hornet's nest. Incidentally, at that time his progressed Moon is afflicting the Moon at birth, and about the same time that his Mars afflicts his Mars, Sun and Neptune, the progressed Moon is coming up to the same kind of aspect from the other side of the chart. And the latter half of '46 and the first half of '47 will find him like a man trying to ride a bucking broncho; and like the Swede he is going to find out that he has no place to stand, for he has gone so far to the left that he can't get back, whereas the country is sweeping to the right at a very rapid pace. Powerful patriotic groups will rise up during '46, and some of the boys in Congress will 'view with alarm' the powerful political groups of right-minded Americans whose philosophy of life will be Christian American and not Communism and atheism. That is the picture that Truman will face before '46 is out; as we said before, the leopard does not change his spots.

We hope to have space to analyze our national chart; if we don't, let me say now that Truman's chart does not harmonize with the America of tomorrow, and so he will be dropped by the wayside; new men are going to come to the front, men who don't know the meaning of the word compromise; men well grounded in the fundamentals of Americanism and Christianity. It never pays to compromise on principle, you will lose your shirt every time. I know scores of ministers of all denominations who are trimming their sails to catch the wind of expediency; some I know very well; some are preaching the Kingdom message. But they are going to fall by the wayside because they are afraid to stand flat-footed for principle. They believe in the teachings of the Man of Galilee, but they are afraid to follow Him all the way; and when victory is in sight they will be discredited and discarded because they were afraid of the enemy and wanted to be nice to him - at least they didn't want to offend him, Oh, no!

If you are in that class, you are a wolf in sheep's clothing; and if your fear of the evil forces is stronger than the fear of the Lord and His wrath, you are not a follower of the Lowly Nazarene. The moment we compromise, we follow Baal and not Christ. Compromise and expediency have no place in the life of a true Christian leader. Never compromise with principle, never play to the gallery; never say 'My people don't like the truth', as many ministers have told me. Ye shall know the truth, and the truth shall make you free. And it is the only thing that will ever free America, and finally the world.

We extend the right hand of fellowship to all who swear allegiance to principle and truth rather than to men and popularity, because eventually truth will prevail, no matter how many times it is crushed to earth. If you are waboly and fearful, either sober up and stand firm, or get out of the parade, for as a leader of a group you could do a lot of damage and bring untold suffering upon yourself and your followers. And remember, the cause of truth is the cause of true Americanism; and the principles that God has laid down in your Bible are going to prevail. And if you want to be in at the finish, the kill, you have got to stand by those principles, or you will be cast aside as a rejected stone, unfit for the edifice that is going to be built in the near future.

... ..

H I T L E R

Several recent items in the press hint at a belief that Hitler is not dead. I know he is not, because I have seen him psychically, as we reported to you in a previous message. Germany blew up when the progressed Moon was square to Uranus in Hitler's chart assuming the chart is correct, in the spring of '45, involving the 3rd and 12th houses. That indicates a radical change and blow up, but not necessarily death. As I write, in October, he has the progressed Moon square to Sun, and he could easily be discovered under that influence. But Hitler's real end comes when the progressed Moon opposes Saturn from the 4th house, ruling the end of things; Saturn in the 10th, followed by an adverse of Venus and Mars. This could easily be execution.

And so in the early summer months of '46 it is more likely to be the finish of Hitler. I may be wrong, but this is my deduction. Watch your papers closely. I say he is not dead, for two reasons; I have seen him with my spiritual eyes, alive and well, after he was reported dead, packed up ready to travel; and at that time his chart indicated a sudden move, Moon in the house of travel square to Uranus in the house of trouble; but not the end. And so Hitler's chart fell in with what I saw spiritually. I believe he will survive until his next birthday in April; and from then on events will move very rapidly for him. The early summer months should say 'finis' on that chapter.

At this time we have the conservative Capricorn on the ascendant, with the Sun and Moon right on the ascendant. Briefly, this indicates a serious-minded people; not only serious-minded, but discontented, partly because of the many restrictions. Of course this is to be expected, with Saturn going through Cancer, the natal sign of the nation, and then again, we have so many retrograde planets, which explains astrologically why reconversion is not going ahead as it should. And, to go a step further, Saturn represents labor; and so in the last analysis, labor is the element that is causing the present stagnation. Labor, of course, is under control; a few key men are controlling the whole labor movement of the nation — men who have been carefully trained, some for the past twenty years or more, for just this day. If we had but a fraction of the money that the anti-Christ groups have, we could soon educate the labor element as to what it is all about; but even those who read our message, that is, the vast majority of you, don't realize that you have a work to do, the fulfillment of your duty as a citizen.

Not only the labor element, but the returned soldier, needs light; and yet most of you feel that you have no part to play in this drama. This indifference on your part is permitting the enemy to take us into World War 3; and if you think you suffered in World War 2, stick around and see the price you will pay in World War 3. Anti-Christ groups work day and night; and those who call themselves Christians do little or nothing. Friends, we, the people of America, will either work out our own salvation, or suffer the fate of Germany and Japan; and this is so close at hand, that it has ceased to be funny, if it ever was. I am in touch with most of the Christian crusading groups; and practically all of them are on the point of folding up.

Briefly, I do not consider this a peaceful lunation; on the contrary, I see definite trouble incubating. And I more than see confirmation for the necessity for preparation, physical, mental and spiritual. Mr. Truman tells us that we have peace, and that war is unthinkable. Well, the 7th house of this chart certainly doesn't back him up, with 3 malefics in the 7th including Mars and Saturn, both retrograde and conjunct. This indicates that a very serious international situation exists; we are being bluffed by the only enemy that now exists. And inasmuch as the Reds and the British Imperialists control our State Department, there is no room for optimism. I may say this represents two elements of Jewry; British Imperialism is 100% Jewish, and Russian Imperialism is 100% Jewish.

I have heard sickening eulogies of Attlee, by preachers; Attlee is a stool-pigeon for the Jew Prof. Harold Laski and the Jew Sir Stafford Cripps; and these men get their orders from Moscow. And they now want us to finance the turning of the British Empire into a Soviet form of government. In this connection, we have on our shelves a few copies of back numbers of The Beacon Light, that you as an American ought to read; the first, British Secret Service Report; we have about a hundred copies, price 25¢ each. The second is The Hidden Hand of Judah, the third, The Origin and Destiny of the Jews, and the fourth, England's Effort to Destroy Our Nation. Spend \$1.00 and get those four numbers, for they contain vital information that you are going to need, in view of the indications in the 7th house of this lunation.

We have spoken a good deal about epidemics of sickness; we see plenty to confirm it, in this lunation chart, but the worst is yet to come. Inasmuch as the Sun, Moon and Venus are in the cold sign of Capricorn, and afflicting Jupiter in the 9th and Mars and Saturn in the 7th, there will be considerable sickness during this lunar period; and it will last beyond the lunar period, for Jupiter, Mars and Saturn will be adverse all this winter. And so, it is of vital importance that you build up your bloodstream lest you be one of the victims. Then again, we have Venus afflicting Neptune, another testimony. Incidentally, that's another indication of the wild confusion that exists in the nation due to ignorance. January will be a month of milling around, due to the many hidden restrictions. The most important thing to do is to strengthen yourself physically with the necessary vitamins and minerals such as we have spoken of many times.

Don't take any important steps, especially if you have planets in Aries, Cancer, Libra or Capricorn; plan for future activities, but do not carry out at present. As a matter of fact it will be in the early spring, March and April, before we as a nation begin to get under way on reconversion; largely due to these retrograde planets, most of which are adverse to each other. But I do urge you to make definite plan for the coming storm that no power on earth can detour. Briefly, we are going to have a real showdown; we have been in a Neptunian fog for the past ten or twelve years, that is, ever since the New Deal went into power. And there is going to be a thorough expose of the whole New Deal program, and those now in the saddle will be permanently discredited and retired from the scene. You can hasten the day, by putting your shoulder to the wheel; particularly do you owe a debt to the returned soldiers who are dazed and bewildered by what they find on the home front. We will gladly send you bundles of back numbers for free distribution; I find returned service men eager to know what it is all about. The one hope of America is the returned soldier, once he is educated. If you know a returned soldier, give him a copy of AMERICA SPEAKS and draw his attention to Frederick Kister's Christian Veterans of America organization.

MISSIONARY WORK

"Dear Mr. Kullgren: Your Beacon Light Herald of August and September is the most interesting piece of literature I have read in a long time. I do not agree with you on everything you say but I do not want to take up your time on criticism and arguments. I make it my business to be on the positive side and take the good wherever I find it and avoid the evil. Your health suggestions are simple and constructive. Where can we get this Kol-N-Zyme, Kelp, Kamba and Papaya? Sincerely, Dr. N. S. H."

The foregoing is a sample of letters that have recently been received. Of all the material we ever put out, the combined August and September Beacon Light Herald has brought the most results. Several hundred extra copies were purchased, and we gave some five hundred copies to group leaders for free distribution. And never did I receive so many grateful letters from people groping in the dark. I can tell the difference between a gushing letter, from a person who wants to be noticed and praised, and a letter from a person who has been groping and praying for a long time, and then suddenly finds what they wanted, in our writings. One such letter like that makes me feel like a millionaire, even though I might be broke financially; that's the real pay for our work, the money is very secondary; any real teacher will know what I am talking about. There is no joy in this world or the next, to compare with that of feeding a soul-hungry man or woman. I have gained my knowledge the hard way, I found very little of value in the crystallized schools; I have learned much from the independent pioneers, who are tied to no group or dogma. But mostly my experience has come through the unfoldment and experimentation in the laboratory of my own soul; and that, I believe, is why my writings are vital. And you would be surprised how many letters we get from doctors and ministers, metaphysical teachers — who are the hardest of all to reach — and even Christian Science practitioners.

If I could only sell you people the idea of tithing, and spending your tithe money in a way that you can see results, by purchasing extra copies of our writings and placing them in the hands of these hungry souls! We are able to feed them, physically, emotionally, mentally or spiritually; a real teacher can detect on what plane the pupil needs help. You may be physically sick and yet the cause is not physical, it may be due to emotional disturbances such as hatred, jealousy, spite, etc; it may come from the mental plane, through worry and fear, or it may come from the spiritual plane, where the soul lacks the courage or lacks the willingness to be obedient to the God within; that's the hardest kind of all to reach.

I know many professing Christians, especially preachers, who know the truth, and yet are afraid to live it; they are afraid of what the wife might say, or their son, or their daughter, or somebody else. The time comes, in the evolution of every soul, when they must cut all ties of influence. I know several preachers whose wives, although well meaning, are a distinct hindrance, because they hold the man back from taking hold of the promises of God, written and within. I could name several who are only one step from being really great messengers, but fear holds them in its grip — fear of criticism of some member of the family who doesn't understand, who lacks spiritual vision; at any rate, fear of some outward thing or person. I have met scores of preachers of that type, who lack the courage of their convictions; lack the courage to live up to that which they know is true. When that type becomes physically sick there is very little you can do for them; they become nervous, morose and despondent. Their fear punishes them far worse than any criticism of courageous action.

America today is cursed with leaders who are moral cowards; they know better. And finally the spiritual well within them dries up, and they slink into oblivion or pass out of this mortal plane. To this class, I would say, have courage, and have faith; there is nothing as bad as your own fear. And so, won't you set aside a certain sum of money each month? Most of you can afford at least a dollar a month for missionary literature, some five or even ten. Even if you haven't any money we will accept your services, we will give you missionary literature. We give away several hundred dollars worth of missionary literature every year. Many of you, for business reasons, do not care to do missionary work; send us ten to twenty-five a month, and we will find those who will. The point is, we are right on the last act; and by your action, or inaction, you are aligning yourself with the forces of evil or the forces of good; Christ or anti-Christ. You are not above the law; so I plead with you that if only for a selfish reason, you work for the forces of righteousness, who are working to bring light to our beloved America. Do you realize that the future of the whole world depends upon America? As we have said many times before, England is finished; she is in the same position as the remnant of Judah about 600 B.C., and I believe she has gone too far to ever get back. I have maintained that for the last forty years; certainly the evidence is convincing today. Unless the North American Continent, Canada and the United States, can hold the torch of truth aloft, our present civilization is doomed, and will suffer the fate of the world at the time of Noah.

The best way to help the world is to forget all about every nation but our own; let righteousness prevail in America, and the whole world will copy it. You can't educate the rest of the world by force, that working model of the new world must be built in America, and the peoples of the whole world will adopt it. Our forced methods have produced a thousand hells in Europe where one existed before. True internationalism is, first remove the mote from thine own eye; let your light so shine that the whole world will see the superiority of your system. Our warfare and our meddling in European affairs has produced a chaos that nothing but extermination will cure. I see a vision of the whole of Europe laid waste, with pestilence and famine and warfare; that's the result of international interference. Every individual, and every soul, must work out his own salvation from within, and not from without.

The next few years will be years of tremendous responsibility; we need your help to put over our program, which includes the writing and printing of several books that are badly needed. Most books are written to befuddle people and not to give light. The time has come when we ask you to join in with us in this holy crusade.

Address all correspondence to William Kullgren, Atascadero, California.
