The BEACON LIGHT

I am not bound to win, but I am bound to be true. I am not bound to succeed, but I am bound to live up to what light I have. I must stand with anybody that stands right, stand with him while he is right, and part with him when he goes wrong.

The Aluminum Racket

The American public will be shocked if they ever know the facts pertaining to this drive for aluminum 'for defense'. We have been collecting some of the facts pertaining to it, and I charge you with the responsibility of passing this number on to your friends and neighbors. We have to mill through a tremendous amount of reading matter each month for our facts, that you who read The Beacon Light can see that it lives up to its name.

The first item is from The Broom of July 7th:

"ALUMINUM WANTED: Mayor La Guardia, of New York, who has recently been appointed head of a commission to speed up defense work says plane factories need aluminum. In a broadcast Tuesday evening he asked the governors of the different states to ask the heads of county governments, to ask the mayors of cities and towns to ask the inhabitants of the various municipalities to collect every piece of old aluminum that is not in use, that can be found. **HE DESIRES THAT IT THEN BE SOLD TO SOME JUNK MAN WHO WILL TAKE IT DIRECT TO THE PLANE FACTORIES**

Aluminum plays a conspicuous part in the defense program and those who may have aluminum lying around of any size will be doing a patriotic service in collecting it and at the same time will get good pay for their trouble."

CORONADO CITIZEN.

EVIDENTLY the Jewish Mayor is drumming up business for the Junk-dealers' . . . patriotism.

"JUNK DEALERS RAPPED FOR ALUMINUM BIDS

Monrovia: Purchase by junk dealers of old aluminum pots and pans is termed unpatriotic aluminum profiteering by Chief of Police Frank Scott. He pointed out that the junk dealers' activity came on the eve of the aluminum drive by the Disabled War Veterans. Capt. A. A. Roe, veterans' drive chairman, declared 'such bootleg activities' would hamper their effort to aid national defense".

"CHICAGO ALUMINUM WEEK PROCLAIMED, Mayor Edward J. Kelly has proclaimed July 21 to 26 'Old Aluminum Week' as Chicago's part in the country-wide drive to collect scrap aluminum for defense purposes. Old pots, pans, salt shakers, ash trays and similar items are wanted and needed, the mayor said. Even cocktail shakers, unless it is too great a personal sacrifice, would be appreciated.

Police and fire stations will serve as collection centers."

You can see from the above, what a soulful, patriotic plea was made. The next item is from Charles B. Hudson's America in Danger (Omaha), of August 5th:

"Why doesn't the World-Herald demand an investigation of the Aluminum campaign? With deluded Gentiles in USA donating aluminum pots and pans, how significant that in New York City, with its 40% Jewish population, although there was a special police booth and a guard of policemen on duty 7/21/41, a couple of kids' wagons could have hauled away all the aluminum deposited in a fenced plot 30 ft. square on TIMES SQUARE up to 9 p. m. that night. How confirmatory of A. I. D. predictions is N. Y. Herald-Tribune 7/29/41 report that the aluminum scrap would be baled by Jewish warehouses, 'hauled to smelters, BID IN AT AUCTION BY (JEW) JUNK-DEALERS, the proceeds of sales to be devoted to defense production AND THE REINCARNATED METAL TO RE-APPEAR eventually IN INDUSTRIAL production, either for actual defense or to replace vital supplies of the metal diverted to defense needs.' How that confirms 7/28/41 letter from Col. McShane:

" . . . From reliable sources it was learned that our Bolshevik 'boss' of

6 copies of this issue for \$1.00; circulate them among your friends

OPM, SIDNEY HILLMAN (Red Jew), is the supreme authority on aluminum, and the racket 'for defense', and that he has turned it over to his pal, (½ Jew) LA GUARDIA, the National Director of Civilian Defense (?). That the utensils collected from the sucker public, all over the country, and which can not be used in 'defense', will be turned over to La Guardia who will have it weighed, baled, and 'sold at auction' to scrap metal dealers, who in turn will sell it to industrial smelters where it will return to sales counters to replace the pre-arranged shortage, here, OR abroad. Our informant also says La Guardia has promised to turn ALL (?) the proceeds from these auctions over to the super-defense U. S. O. HOW MUCH MORE INCENTIVE do our people want before they start that MARCH to WASHINGTON to IMPEACH ALL persons guilty of this SELL-OUT of USA by 'Defense' rackets and otherwise? . . . "

The third is from America in Danger of July 28th:

"This is what we can expect from ½-Jew La Guardia, similarly placed Socialistic 'dictator' in U. S. A., whose most recent tactics to impress war-consciousness upon the people was the aluminum racket collection-drive, and prior to that his ordering State Sheriffs to stop autos on highways on July 4 so that you had to listen to der fuhrer F. D. R. whether you wanted to or not. Reminds that when a man-on-the-street radio announcer let an answerer express freely about this racket and that such pots and pans can not build planes, that announcer was criticized for not 'stopping' the speaker, and a good part of that radio program the next day (first day of the drive) was devoted to ballyhoo for the drive, with the American Legion official speaker intimating that anyone who did not heed this opportunity for displaying 'unity' was a '5th Columnist'.

Reminds also, that both the U. S. Bureau of Mines and the South Dakota State Geological Survey claim that South Dakota alone has 30,000 square miles, up to 1000 ft. deep, of untouched bauxite, enough to make all the aluminum we could use in years! Other valuable minerals, manganese, tin, tungsten, beryllium, etc., also for some reason have NEVER BEEN PERMITTED to be developed in S. Dakota. Isn't it because Organized Jewry-International Finance that controls mining rackets worldwide prefer to produce such at slave labor in Africa, Asia and South America, selling to U. S. at higher prices? And imagine Wm. S. Knudsen, O. P. M. director, and F. H. La Guardia, Civilian Defense Director, mere F. D. R. appointees, telling cities they couldn't sell the aluminum scrap locally, even if they desired to use the money for patriotic purposes! Imagine Jewish Leon Henderson, 'price control' czar, demanding the auto industry to cut down its production 50%! Dictatorship by decrees and degrees.

By the way, I hope you enjoyed being stopped on the highway by police patrol on July 4 and forced to remain silent and turn on your radio if you had one, and forced to listen to FDR's speech.

My next item is from The Broom of June 30th, which is a giveaway. This is part of a radio program by de Aryan and his son:

"DAD: This morning at 11 o'clock, the U. S. Naval Station, right here in San Diego, opened bids on Aluminum Scrap belonging to the navy. It has invited the junk dealers to bid on the following material; I am quoting from mimeographed sheets of the Navy:

Lot No. 1: 60 tons, grade No. 3 Aluminum Scrap; old sheet and utensils (pigs made from melting old sheet and mixed sheet clips).

Lot No. 2: Grade No. 5 Aluminum Scrap; cast scrap and forged scrap, old and new. 10 tons.

Lot No. 3: 60 tons Aluminum Slag. Delivery of material will be f. o. b. the purchaser's conveyance, at the Naval Air Station, San Diego, California. At the buyer's option, the Government will load material on railroad cars placed on Naval Station siding abreast the scrap yard."

FRED: What does this mean, daddy? Is the government not going to use its own scrap aluminum?

DAD: It means that anybody who wants it, may buy it and sell it again at a profit, or hold it for profit.

FRED: Isn't that strange, I would expect the government to hold on to its aluminum supply, instead of disposing of it to junk dealers.

X. DAD: Yes, Fred, there are many funny things happening nowadays in connection with this war. I heard the remarks of Joseph Scott made at the Hollywood Bowl last Friday night when he introduced Kathleen Norris, Lillian Gish, Senator Worth Clark of Idaho and Mr. and Mrs. Lindbergh. There is something funny about this war."

Now I take you to a press item of August 6th. The article starts out on the smear tactics of Roosevelt, Stimson, Knox, Ickes and other New Dealers, on Lindbergh, Wheeler and the two army officers mentioned, and states that Secretary Stimson had apologized to Wheeler:

"Now, everybody knows that the War Party is, as a rule, the abusive party, and that the most frequent name-caller in the War Party at Washington has been still another member of the Cabinet—none else than Harold L. Ickes, the Secretary of the Interior. Let us look at some examples:

On February 26, 1941, at a "tolerance" dinner in New York City, Mr. Ickes included in a list of alleged American 'quislings' the noted aviation expert, Major Al Williams, and Merwin K. Hart, a prominent citizen of New York.

Mr. Hart, in his own interest, and others in the interest of Major Williams, called for an apology from Mr. Ickes unless he could prove his charges. They are still waiting for it.

On June 16, as a witness before a Senate committee, Secretary Ickes said:

"WHEN THE STORY OF THE WAR COMES TO BE WRITTEN, IF IT HAS TO BE WRITTEN THAT IT WAS LOST, IT MAY BE BECAUSE OF THE RECALCITRANCE OF THE ALUMINUM CORPORATION OF AMERICA."

A little later the House military affairs committee investigated the aluminum situation and reported officially not only that the Aluminum Corporation was voluntarily spending TWO HUNDRED MILLION DOLLARS OF ITS OWN MONEY to increase production, but also that ANY SHORTAGES must be charged up to the blunders and bureaucratic Socialism OF SECRETARY ICKES HIMSELF.

But Mr. Ickes has not apologized for his misstatement.

The next is an extract from a columnist on August 10th, and I hope you enjoy it:

X. Loyalloy, enthusiastically—because they were informed their country was short of Aluminum—citizens of the United States tossed in their pots, pans and all manner of items of aluminum. Now read the following:

"Richmond, Va.—L. Louis Reynolds, vice president of the Reynolds Metal Company, said today negotiations for the sale of approximately 2,000,000 pounds of aluminum to Russia had been completed, except for approval by the Office of Production Management and the State Department. The metal, originally destined for France, has been stored in New Jersey since June, 1940."

→ If the United States is so allegedly short of aluminum that its Government has to beg people to strip their homes in the honorable name of defense, how is it that the Russians can walk in and get what they want?

And another, under date of August 5th: it repeats the quotation given above, with further matter in the same dispatch:

"The Reynolds Company repurchased about 3,000,000 pounds of the aluminum after the fall of France and sold about one-third after circularizing its customers and asking the OPM to circularize prospective buyers. The metal was offered, Reynolds said, at prices below the company's regular price list.

The 2,000,000 pounds sought by Russia is worth approximately \$500,000 and is sufficient to make about 200 medium size bombers," Reynolds said.

The newspaper comment follows:

"Uncle Sam, as everybody knows, particularly every housewife who sacrificed pots and pans so 'Mount Aluminum' could grow in stature, supposedly is very, very short of aluminum, which is vital to the national defense program.

But, as is thought out in the Associated Press dispatch reproduced herewith from the Examiner, the extremely generous Uncle apparently can spare 2,000,000

pounds of Aluminum for Communist Russia—enough to equip 200 bombers of the kind America is said to need so sorely.

So an amazing situation arises.

Housewives who a little more than a year ago were glad to cheer the valiant Finns in their stand against Soviet aggression now see American aluminum being prepared for shipment to those same Soviet aggressors . . . to be used against the Finns. In the meantime, as far as aluminum is concerned, American cupboards are getting barer and barer."

And last, but not the least, I am giving you the speech of Hon. Martin L. Sweeney of Ohio in the House of Representatives on June 19:

HAS ENGLAND TAKEN THE UNITED STATES WITHOUT A SHOT?

Mr. Sweeney: Mr. Speaker, a group of business men of my district, willing to put up capital to help our national defense, came to Washington to secure priority on steel and power from the Boulder Dam. They were to engage in the business of extracting magnesium from certain deposits in Nevada. They asked for no money from the Government. They were finally turned over to John C. Jones, an Englishman, not a citizen of the United States, employed in the O. P. M. He told these men they could not secure the power or the priority. How do you like that—an alien telling our citizens what they can or can not do?

Now, this Englishman, Jones, is not a citizen of the United States—therefore he can not take an oath of office. He is getting his per diem from the United States Government. In due time, Mr. Speaker, I shall demand a thorough investigation. It looks to me as if the British have taken over the United States without firing a shot.

Mr. Speaker, these reputable Cleveland business men to whom I refer have a process to extract Magnesium, a metal that is rare and vitally necessary to national defense. My information is that because they refused to disclose the formula to the English technical adviser, Mr. Jones, who is employed in the aluminum section of the O. P. M., they were refused a certificate of convenience and necessity to secure power from Boulder Dam to go into production.

Boulder Dam is a project built by the tax-payers of America, and I vigorously object to any alien, no matter who he is, making final decisions on the question of the power that we taxpayers of America helped to create. The suspicion is prevalent among many Members of Congress that British capital and in many cases money furnished by the United States Government to British capital seeks to control the production of aluminum and magnesium in this country.

To me it seems dangerous, to say the least, for the Government to permit employment of aliens who however sincere they may be, would be inclined to discriminate in favor of their own nationals against citizens of this country.

This information furnished me on this British subject, Mr. Jones, is that he was employed as a metallurgist in the British Aluminum Co., Ltd., Warrington, England, and also consulting metallurgist, Arthur Seligman and Co., Ltd., New York City.

I make no complaint about the British Purchasing Commission, who are employing hundreds of their nationals here in Washington, so long as they are paid by the British Government, but I strenuously object to any agency of our Government delegating final authority to an alien to dictate to American businessmen. Just as the precious metal of magnesium shines, equally does this disclosure, in my opinion, stink.

How long will the Congress supinely submit to the influence of our British plotters, whom we saved from destruction in the last World War and made possible their continuation as a world power, only to have them subsequently literally thumb their noses at us and term us "Uncle Shylock".

The schemers of "Union Now", with the new flag they propose, seem already to have taken shape. The matter needs a complete investigation before it is too late. American labor and American businessmen need not take it on the chin under the guise of national defense, which, interpreted, means defense for the British Empire and not the United States of America. If some Members of Congress want to subscribe to Union, Now and make Congress a British Parliament, where they can be addressed as the Right Honorable Smith or Jones, from

Devonshire or Lancashire, well and good; but, thank God, there are some of us left who will insist we operate as we have from the beginning of the Continental Congress down to the present day, and that we will insist that the portrait of George Washington still adorn the Halls of Congress, and, that his Farewell Address be read religiously each year on the 22nd of February.

If Union Now ever takes hold, perhaps the expatriated American Lady Astor may once more take up citizenship in Virginia and run for Parliament from the hound country, once the home of the immortal Patrick Henry.

Instead of singing God Bless America, let us sing God Save America after this fashion:

**God save America
From British rule.
Stand beside her and guide her
From the schemers who would make her a fool,
From Lexington and Yorktown,
From blood-stained Valley Forge,
God save America
From a King named George."**

This is conclusive proof, as I said at the beginning, that the whole thing is a hoax and a racket. I hope it will make you mad enough to want to do something. There is no actual shortage, of aluminum nor of steel; but they are using their so-called emergency as an excuse to clamp down the most rigid dictatorship any country ever had, not excepting Russia.

When you get your tax bill next year, I want you to realize that your sacrifices in the shape of taxes, your being forced to listen to 'der fuhrer's speech when traveling in your car, your inability to buy silk stockings, or to purchase any household articles on time payments, and a thousand and one other annoyances, of which you will learn in good time, are all for the defense of atheistic Communism. It is a part of the plot by International Jewry to take over. And incidentally your fine, stalwart sons will be shipped home to you in pine boxes, or you will be notified that your son died in action, before this year is over. It is going to take just that, to awaken some of you people to your duty of citizenship. Most of you are going around in a trance, kidding yourselves that you don't have to do anything about it; that evil will destroy itself.

Tens of thousands of citizens will lose their homes through taxation, before this is over; tens of thousands will lose husbands, sweethearts, brothers and sons; and some of those people will be those who told me that evil will destroy itself, therefore they don't have to do anything except to say God is love and all is well. Well, we shall see; this take-over by International Jewry is going to strike in every home in America before it is through. And then you will realize that it would have been better for you to have made it possible for

men like True, Edmondson, etc., to continue to tell you the story.

And again, let me remind you that we shall not continue to warn you and educate you unless you prove yourselves worthy by giving us substantial support; helping us in circulation, or by contributions, or serving in this manner. One of our greatest needs is for a good stenographer.

The cosmic forces are giving the people of America the choice of two paths: One, of standing by the prophets who are warning you: or, of suffering the confiscation of your property and life. As far as I am concerned, and the same applies to practically every man in the field that I know of, I will be unable to continue on the present basis much longer. One of the things I demand is a complete rest for thirty days; for I am waiting to see whether I will take 30 days, or a much longer rest and end the chapter.

I am not asking much; all I ask is double the circulation; that is, 2000 copies a month. It ought to be a minimum of 2500. I estimate that at least 5000 people read The Beacon Light each month, judging by the letters received, which mention up to as many as 50 people reading each number; and those people really think they are doing me a service by reading it.

If funds were made available, we could put out AMERICA SPEAKS weekly from the material left over from The Beacon Light each month. That material is now thrown away.

We have a few hundred copies of "Was Christ a Communist", written by Mr. Ackley of the Anglo-Saxon Federation of America, in Chicago. We are in full accord with his article, he is scripturally sound. This article is very timely, in view of our tying up with Russia, because it shows just what we are tying up with. While they last, you may have them at 10 for \$1.00, or 100 for \$7.50 sent to one address. See that your local minister has a copy; he can not argue with his Bible, and this article is based entirely on our Christian Bible. This is much cheaper than donating your husband or son to this unholy cause of fighting to establish Communism. Think it over.

Just as we go to press, we find the following significant article regarding the Aluminum situation, in our daily paper; and so the evidence piles up:

OPM ACCUSED AT HEARING

Seattle, Aug. 26.—Japan is producing more aluminum than the United States and is using a process patented by Frank Elchelberger and his associates, the Salt Lake City mining man told a Senate Defense Industry Investigating Com-
6 copies of this issue for \$1.00; circulate them among your friends

mittee today. He said the office of production management has tried to discourage the use of this process in this country.

Previously, Eichelberger, president of the Kalunite Company of Salt Lake City, told the committee headed by Senator Harry S. Truman of Missouri, that the O P M and Aluminum Company of America are "more interested in preserving the company's aluminum monopoly than they are in national defense."

He said Japan was not successful in producing aluminum until his process was patented. Since then, he added, Japan has been operating six or seven plants and in 1939 produced more aluminum than the United States."

And here is another revealing item on the aluminum situation from Mrs. Dilling's August news letter:

THE ALUMINUM DRIVE

"No wonder 'civilian morale' for this war has to be whipped up by collecting pots and pans, etc. To quote: 'Now that the aluminum has been gathered IT IS BEING ADMITTED THAT SCRAP ALUMINUM CAN NOT BE USED IN BUILDING AIRPLANES and that the navy department is offering at San Diego three lots of aluminum totaling 260,000 pounds for sale to highest bidder. That happens to be the precise amount contributed by Chicago people during the drive. Can it be they are selling off our old pots and pans?' (Chicago Tribune editorial, 8/10/41).

"A BRITISH FIRM ADVERTISES IT HAS ALUMINUM FOR EXPORT" is the heading of an article from the Export Trade and Shipper, New York. To quote: "While thumbing over the June, 1941, issue of the British Export Gazette, a 50 year old London published monthly which describes itself as an 'international trade journal for overseas shippers, merchants, importers and exporters', we came across a full page advertisement. . . . The top third consisted of a photographic reproduction of a British convoy of merchant ships on the high seas, anti-aircraft guns prominently displayed on a guardian warship's deck. The bold heading of 'Constant Vigilance' was followed by: 'The best British goods have been delivered in the past. The best British goods will be delivered in the future, but most important. THE BEST BRITISH GOODS CAN BE DELIVERED NOW! This last argument was in full capitals."

WE GIVE, THEY SELL

"The most interesting part of the advertisement, . . . followed, 'SEND YOUR ORDERS FOR—paper and rubber, insulated cables and wires, joint boxes, street pillar, cutout, electricity meters, static condensers, wireless condensers, overhead equipment for railways, tramways, light and power; copper and aluminum (sic. the British for aluminum) wires, strands, sheets and sections; electric welders, magnetic moulding machines, paper pinions, cotton and silk covered wires, enameled wires, wiring systems, flexibles, solder and soldering pastes.'

"The advertisement was signed by the British Insulated Cables, Ltd., Head Office, Prescott, Lancs., England. Just above this signature was the line: 'The British Navy Is the Guarantee of Delivery'.

"The special points of interest of this advertisement, as we see them, is the date of publication, June, 1941, which is three months after the signing of the American lend-lease act; the kinds of basic materials which enter into the manufacture of the articles advertised, particularly aluminum, which every good American housewife is stripping from her kitchen to supply an essential part of the airplanes being built in this country for Britain; and the fact that the advertisement is addressed to OVERSEAS BUYERS everywhere who can read English.

"... Wouldn't it be more pal-like if Britain were to send any aluminum she does not need for home uses to our airplane manufacturers before America's kitchens are entirely denuded of cherished cooking utensils?"

FROM PA.

"I agree with your program. Enclosed find five dollars. If you have any Beacon Lights of the August number left, send me some and I will distribute them amongst those who I think should have them."

CHATS

By the Editor

In the September number our leading article was Astrology Prostituted. To really get the background of this article, you need to go back to our October 1939 number, to the article on page 10, Astrology and Astrologers. And in the same number on page 39, we touched on the British-Israel question in an article entitled England and the United States. In this article we really covered the ground as to the issue of the present conflict. The basis of the article is a letter received from Col. J. G. Wright, Secretary of the British-Israel Association of Greater Vancouver.

Now if you have astrological or British-Israel or Anglo-Israel contacts, won't you please help me get this number into their hands? This issue of October '39 is one of the best numbers we ever put out; it has 56 pages, and is more timely than when it was printed. After reading it you will understand why the British have been defeated right down the line, and will continue to be until they are purged from their Jew control. I am very familiar with British history, and in this article I give a brief resume of the history of the British Empire. Again I say this number is especially good for astrological and British-Israel followers; and while they last we will let you have them 10 copies for \$1.00. And if you do not have the dollar, but will promise to put them into the hands of astrological or British-Israel students, we will send them anyway. I am doing this partly as a test, to see how much missionary spirit you have. Don't let the lack of the dollar hold you back, send them anyway. I mean it; because if we do not win, we who are fighting for American fundamentals will suffer extermination. The first people to face the firing squad will be the astrologers, the metaphysical groups and the so-called educated people. And if you are still ignorant, read what happened to people of your class in Russia and Spain.

In this number you will find a quotation from Henry Wallace, as to the REAL aim of the New Deal: it is Communism, the same brand as they have in Russia. So, as soon as you read this article, sit right down and send for 10 copies of this October 1939 number. I am especially interested in having them reach the Los Angeles area, where thousands are having their minds poisoned against their own country.

In case you are interested in some other subject, touched on in other back numbers, send for 10 copies. For instance, we have a

few copies of *Where the Jews Fail*; and the Predictions for 1941; therefore, **I expect a letter from every one of you** asking for 10 back numbers; enclosing a dollar if you have it, but send anyway. There are a thousand copies awaiting your call on this basis. There is now a strong effort for absolute censorship of all material such as we are putting out.

We have told you the story of the aluminum racket; you have seen their move to curtail the use of gasoline. There is plenty of aluminum, there is plenty of gasoline, there is plenty of newsprint; but the program is for Russian Communism; so for God's sake take my message seriously, stir your stumps **and do something!**

Here are extracts from two letters just received:

From Hollywood:

"Enclosed find \$3.00. Please send me *Origin and Destiny of the Jews*, and send sample copies to the five names. I send the extra money to help you in your grand work. I have a short time to work; will be 100 next December."

From Tennessee; a lady who first wrote us as far back as 1930 when our articles were published in the *Atascadero News*:

"Have wanted for a number of years to be a regular reader, but when every cent (when they are so few) needs must go to the care of a beloved invalid, the invalid must come first . . . Life has gone very hard for me for a number of years and at present my income is \$8.33 per month, and out of that \$1.00 must come for rental. Now with two more out of it for this subscription it don't leave much for August needs, but if I get your magazine I'll just forget everything else I wanted . . . I shall watch every mail until my copy arrives."

Doesn't this shame some of you people into action? One a woman of 100 years and the other supported on \$8.33 a month and she sends in \$2.00 out of that for a subscription I still think I am wasting my time trying to resuscitate the dead, judging from the little response from the June, July and August numbers.

Abstract Thinking

Dear Friend Kullgren: Thanks for your letter just received. My renewal has gone forward today.

Of course, any suggestions I may make are with a view to helping you keep in print, or rather stay in print. It certainly is a thankless task to which you have set yourself and I wish I were in the position to underwrite the typist you so sorely need.

Through personal experiences I am a firm believer in Divine guidance and help. However, our thoughts and words have to be along the lines of the expected assistance. Everything which materializes in material form has first to be formed in consciousness and visualized. That is elementary.

It seems to me that you have been working at cross purposes with yourself. You are struggling into physical exhaustion trying to keep afloat and in every issue, for, it seems years, you have been saying that the next may be the last issue, etc. You have been constantly holding the picture of closing before your readers. "This may be the last issue", "Censorship", etc. To me, but I may be wrong, you have yourself been building the mental picture of shutting down at the very moment you are striving to stay open.

There may be no one who will come through with the FULL cost of a typist

6 copies of this issue for \$1.00; circulate them among your friends

so badly needed. How much a month do you pay out there for such work? Ask for ten people to underwrite such a salary for six months. A specific request like that may bring results. Try to get your readers to picture the magazine booming along instead of holding before them its early termination. The mental help of your subscribers would be a great help to your continued existence.

I will be glad to be the first of the ten to underwrite aforesaid help for six months. I truly believe if you had followed this plan a few years ago you would be greatly relieved by now. No one can build life by talking of death."

The above letter is from a true friend of The Beacon Light and its editor, although I have never met the gentleman; and there is much truth in his statement. But those of you who read the early numbers of The Beacon Light found plenty of optimism.

In 1935, after a heroic struggle we were forced into bankruptcy. My mental picture at that time was that I would win; not until I found myself on the sidewalk, stripped of everything, was I conscious that I had lost out. Even then, I thought some miracle would happen to restore us, although I was a physical as well as a financial wreck from the long strain of working 24, 36 and even 48 hour shifts in an effort to save the ship.

It was a severe jolt, but I immediately started to work selling typewriters to underwrite the continuance of The Beacon Light. I struggled to get back on my feet; and since that time I have earned money to pay for a car, a cheap one, of course. I bought an old ramshackle house and rebuilt it with my own efforts, bought office equipment so that we could function, and still make up the deficit on the magazine.

This tremendous strain produced a stroke in June of 1939. Even then I did not lose heart, I was the most cheerful one in the family; there was no sign of pessimism, anywhere. Read the 1939 series right through, and see if you can find any. But just previous to the stroke I went to the rescue of Dr. Joe Jeffers of Los Angeles, and that was what finally produced the stroke I believe. His attorney credited me with having saved him from going to jail. I was promptly cast aside as soon as he was freed, and my magazine thrown out—and they were selling as high as 300 copies a month. He even had the nerve to say he did not ask for my help.

The other Anglo-Israel groups followed suit because they did not approve of my helping Dr. Joe. But, right on top of that, we launched AMERICA SPEAKS, and asked for 10 men to put up \$10.00 a month. I went to Howard Rand, as one of the best Bible students I knew, an attorney in addition, and asked him to write a political platform based on Biblical laws, inasmuch as we are a Christian nation. If that had been done, we would have gone to town. Mr. Rand let me down until it was too late to do anything; so I concluded that

neither Mr. Rand nor any of the other leaders were interested in saving the Republic. (I had written to others as well as Mr. Rand.)

Now with the Moon and Jupiter in Leo, I think I have a strong optimistic streak in me; and both of them are sextile to Saturn. In addition, Neptune and Mars are in good aspect to Jupiter, in the optimistic sign of Leo. So I don't think you can properly call me a pessimist, even though Saturn is right on the ascendant, giving a serious outlook. Now I ask you good people, what frame of mind would you be in, physically and mentally exhausted? On top of that, intimidation from the powers that be, secret service men calling on you, threats of libel suits and other annoyances, local and otherwise. It's all right to have a right mental attitude, when you get a chance to rest every night; with all the rest, I had a terrific psychic bombardment from those I was exposing, Ballards and other groups sitting and concentrating upon me to annihilate me. Do you realize what that does to a person as sensitive as I am? This is the other side of the picture.

I agree with what the good brother says; even the Man of Galilee said, Father, let this cup pass from me; and according to the Scriptures, My God, my God, why hast thou forsaken me? That is exactly how I have felt; and so since the election I have about concluded that the American people are not worth saving. During the last five years of our struggle several of our Beacon Light readers have died, leaving millions; I did not know they were wealthy people until after their death when news items revealed it. And so I have been asking myself whether anything short of tragedy will awaken the people of America; for my wife and I have given our very heart's blood; placed everything on the altar of service. I may say that since the stroke, were it not for the donations of three or four people we would have gone down. To the raw vegetable juices I ascribe my ability to keep going physically; but even the juices will not take the place of rest. I have walked the floor at night, after a hard day, agonizing over America and her plight; I have walked the hills of our little town with our faithful pussy cat trailing me along talking to me in her cat language as she seemed to sense my troubled spirit.

Again I repeat, I am not a pessimist; although I am serious, I think you will detect a strain of humor throughout the pages of The Beacon Light, especially when I had my stroke. And as an astrological student, would say that with Jupiter in the 4th there is usually an undying optimism, especially being in Leo. So all these years I have lived on Hope Street, expecting something to break; visualizing it, yes. But recently I have felt pretty much as Robert

so badly needed. How much a month do you pay out there for such work? Ask for ten people to underwrite such a salary for six months. A specific request like that may bring results. Try to get your readers to picture the magazine booming along instead of holding before them its early termination. The mental help of your subscribers would be a great help to your continued existence.

I will be glad to be the first of the ten to underwrite aforesaid help for six months. I truly believe if you had followed this plan a few years ago you would be greatly relieved by now. No one can build life by talking of death."

The above letter is from a true friend of The Beacon Light and its editor, although I have never met the gentleman; and there is much truth in his statement. But those of you who read the early numbers of The Beacon Light found plenty of optimism.

In 1935, after a heroic struggle we were forced into bankruptcy. My mental picture at that time was that I would win; not until I found myself on the sidewalk, stripped of everything, was I conscious that I had lost out. Even then, I thought some miracle would happen to restore us, although I was a physical as well as a financial wreck from the long strain of working 24, 36 and even 48 hour shifts in an effort to save the ship.

It was a severe jolt, but I immediately started to work selling typewriters to underwrite the continuance of The Beacon Light. I struggled to get back on my feet; and since that time I have earned money to pay for a car, a cheap one, of course. I bought an old ramshackle house and rebuilt it with my own efforts, bought office equipment so that we could function, and still make up the deficit on the magazine.

This tremendous strain produced a stroke in June of 1939. Even then I did not lose heart, I was the most cheerful one in the family; there was no sign of pessimism, anywhere. Read the 1939 series right through, and see if you can find any. But just previous to the stroke I went to the rescue of Dr. Joe Jeffers of Los Angeles, and that was what finally produced the stroke I believe. His attorney credited me with having saved him from going to jail. I was promptly cast aside as soon as he was freed, and my magazine thrown out—and they were selling as high as 300 copies a month. And as an astrological student, would say that with Jupiter in the 4th there is usually an undying optimism, especially being in Leo. So all these years I have lived on Hope Street, expecting something to break; visualizing it, yes. But recently I have felt pretty much as Robert

Edmondson described it in his letter to me. When I have my physical strength, I can lick my weight in wildcats; but I am burning up my reserves too fast. And remember, the foremost heart specialist in America said two years ago that I must rest for five years. Fainting spells due to heart condition have not encouraged me very much; I collapsed in Los Angeles on my last trip there in December. I have no organic trouble with my heart, simply overwork; I drive myself too hard, I am a hard taskmaster for myself. But I am afraid that is incurable, because my zeal for what I consider to be my duty would burn me up unless I were in action.

Now I have given you my picture; I am determined that unless somebody helps shoulder the burden of work, I shall let others carry on. I am speaking as a realist now. While our subscription list has been small, we are reaching many key men and women who have been inspired by our message. During the past year we have had the same experience as Scribner's Commentator, most of our dealers have been sabotaged. They have withdrawn all dealer distribution, due to tremendous losses.

We have received flattering offers, to compromise and to detour; to soften down our message. This we have scorned with the contempt it deserved. We could have had tremendous circulation if we had been willing to compromise. We have consistently refused paid ads. So here is our side of the picture. And we are rapidly being forced into a war of annihilation. The wealthiest of nations is being dissipated to the point of exhaustion. Millions of our young men are about to be slaughtered.

Now, friends, I have the same indomitable spirit that Washington, Jefferson and Lincoln had; and oh, how weary the immortal Lincoln was at times! Yes, and Washington. But a general without an army is not going to get very far. Since the first of the year we have given away six thousand Beacon Lights for free distribution; books galore to key men in the field who could not afford to buy them. But to those few individuals who have made it possible for me to continue since my stroke, I offer my sincere thanks and gratitude; I appreciate more than words can say, your intense loyalty and practical help at a time when I had reached the limit of my endurance, physically and financially. And a hard boiled banker even came to my aid with loans when nothing else was in sight; right after going through bankruptcy. He said, "Kullgren, you have a spirit that can never be licked; sure I'll give you a loan." I was simply amazed, because I had nothing but my character; and he said that was good enough for him. Repeatedly he has helped me buy merchandise to

carry on. So to this little group I tender my very sincere appreciation; and the cosmic forces will bless them in return, for that is the law, it is money in their spiritual bank.

Now if 10 men will carry out the suggestion in this friend's letter, we will carry on; but in spite of whether you consider me a pessimist or not, I will not continue unless you people take your part seriously. Congress has failed us miserably, the President has betrayed us, and the people are asleep at the switch. The Supreme Court has been sabotaged. Is that a picture that would inspire hope in a leader?

But once again let me tell you, the responsibility for this nation rests on your shoulders; and you can march on Washington and put the fear of the living God into the whole gang of New Deal saboteurs. And that is why we are printing at this time the manuscript of National Destiny; to show that the stars in their courses indicate the time is ripe to clean our national house. Facts galore we have given you, you can not plead ignorance; the pathway of duty is perfectly clear. The reins of government have been seized by outlaws by their own admission; therefore we must impeach Roosevelt and his henchmen. It can be done, and it will be done; for as the Good Book says, the heavens declare the glory of God; as expressed in our national chart. Already the bombardment of Congressmen has made many of them afraid to face their constituents, because of their betrayal of the nation.

I would love to carry on The Beacon Light, and I still think AMERICA SPEAKS should be revived and printed by the million; but with the exception of the editorials the copy should be written by key men throughout the nation, and distributed by them. I charge the Israel groups, no matter what name they carry, to join us in re-establishing the Republic on its constitutional foundation, and to quit quarreling as to whether they agree with my religious views. And I say the same to all who claim to be Christian Americans. I have cooperated with everyone in the field with a constructive message, whether I agreed with their personal religious views or not; all I asked was, do you believe in Christian Americanism as I do? If so, let's join hands and do something. I have made the same effort toward my astrological colleagues. I have met not only with indifference, but hostility; and have been told that I was too radical.

The first duty of every astrologer is that he should be an American, and much as I live astrology, my Americanism comes first; or rather I should say second for my allegiance to God comes first. So I am not going to ask you people to do anything, I am simply telling

you the story; I don't believe in coercion. But I do say your indifference and apathy will bring tragedy to you sooner or later.

Now America can not remain on the teeterboard much longer, she is going to go one way or the other, and that very soon. I can confidently predict that the nation is going to revolt; but for God's sake don't starve the men who have stood single-handed against tremendous opposition for the last five or ten years, in my case since 1912. I think you too would be weary, wading through the cesspool of Jewish and Communist literature. So I say, rally round the few stalwart men and women who are punch-drunk fighting your battles; if you don't you will find yourself in the front line of trenches facing bullets and bayonets and with no leader to guide you.

My ultimatum in *The Last Call*, and the correspondence resulting therefrom and my answers, are a healthy symbol of the climax in the nation. I speak now as an observer rather than as a victim. There is going to be action, and plenty; and Americans are going to regain control of their government and country. Read the *Warning Prophecy* in the August number of last year.

Regarding finances, we must have a minimum of \$100 a month more for clerical help; our office must be expanded, with corresponding additional equipment and even an addition to the house. Our dining and living rooms are used as office, we have only the kitchen and bedroom out of an 8 room house for personal use. Billions spent for dissipation, pennies for the salvation of America. Americans should blush with shame.

In closing, I challenge the statement in the above letter that everything that materializes in material form has first to be formed in consciousness and visualized; for if you will look back in your experience, and I mean everybody, you will find a lot of things that you never even thought about, some good and some bad. I never thought more about my health in my life than I did just prior to my stroke; I felt well, and boasted about how well I felt. How many people who meet their death on the highway every day visualize accidents? Not more than one in a thousand.

This is a big subject; and I could easily write a book on this one subject; the law of cause and effect. The cause, in a large percentage of accidents, is liquor and cocksureness; they never dream that an accident could happen to them.

AND WHEN THEY AROSE

In the 19th chapter of 11 Kings, 35th verse, you will find what has been running through my mind for some time, after reading the many letters from metaphysical students such as Unity, New Thought and Christian Science. I have covered the ground so many times in The Beacon Light, that I will sum it up by saying that most of these well-meaning folks will go up and find themselves on the astral plane.

I have come very close to metaphysical students of all kinds, for several years; and the vast majority of them act like Alice Bailey when faced with reality. Alice Bailey, a metaphysical teacher for at least 30 years, was a pronounced pacifist; God was going to do everything, all she had to do was to be a pacifist and talk peace. The prophecies referring to these times said there would be much talk of peace but that there would be no peace. These are not times of peace but of warfare; of wrecking and tearing down of the accumulation of centuries of lies, deceit, double dealing and trickery.

In the June, 1940, issue you will find an article on the New Order; in fact, starting with April through September you will find a series of articles on preparation; and if you are not one of the foolish virgins you will take the advice given. Anyway, dig out your June '40 number and read what we have to say about the New Order. In the October, 1939, number you will find an article on a Vision; in November '39 you will find two articles that abstract thinkers should read—and that is what metaphysical students are, they think in the abstract. I particularly recommend the article, "The Truth Shall Make You Free" in that number, written especially for metaphysical students; and in the same number you will find "Why Publishers Go Broke". In April of this year you will find "Judge Not", also aimed at metaphysical students.

→ Several of you accuse me of spewing out hate. Well, you need our Origin and Destiny of the Jews, made up almost entirely of quotations from the Bible as it pertains to the Jews; so, if what I am doing is expressing hatred to the Jews, Jesus was vicious.

I do not claim to be a metaphysical teacher, I am a realist, arguing from the basis of facts; and a fact is a stubborn thing to come up against with abstract ideas. I know you good people mean well, but you just don't understand. Several have said, leave out the hatred and you can have a big circulation; what you are really asking me to do is to compromise with the truth. You recall the devil appearing to Jesus and asking Him to compromise, and telling Him what he

would give Him if He did; and His answer, Get thee behind me Satan.

You good people need a good dose of history; biographies of men and women who did things; and you will be painfully surprised to find that the masses do not follow them; that merely a handful perceived the truth. In our own country, look at the tremendous opposition that Washington received; and later on, our immortal Lincoln.

No, my friends, you are wrong, you will not have a big following if you stand for the truth, in spite of your ideas to the contrary. The prophets, the seers, the truth tellers, are always crucified; their worth is always perceived after their death. Certainly the Man of Galilee knew the law, and when it came to a showdown He was deserted; and He said if you follow me you will get the same treatment that I receive. So come down out of the clouds and face facts; it is the spiritually minded realist who will save America, and not the abstract thinker.

Some 35 years ago there were two Unity teachers in the city where I lived; one of them had been a practitioner for over 20 years then. She told me she was going to receive a million dollars because she was demonstrating for it. I drew up her chart, and at the next meeting I said to her, "Lady, if I were you I would face realities, because you will never get that million; and if you were to get it you are unfit to spend it wisely; your immediate future doesn't look very bright to me, physically or financially or mentally". I did not specify. She died of cancer within a year. She was so busy up in the clouds that she didn't have time to realize she was digging her grave with her teeth every day, with the junk she ate. She had forgotten that her physical body was supposed to be the temple of the living God. She defiled that body through catering to the senses. Oh yes, she **talked** of spiritual things; she was crying Lord, Lord, morning, noon and night; but she wasn't doing the will of the Father—that is, she violated the laws of physical well-being as laid down in the Scriptures. As I recall it, this lady had the Sun in Capricorn.

The other was a Taurus, May 19th; and here again the chart revealed shallow thinking, tremendous emotion; Neptunian. She called her place the home of practical Christianity. Well, I was young in the ways of metaphysics at that time, and not too well versed in astrology, but I erected the chart when she asked me to associate with her in the work. She said she was going to turn the city—of nearly a million—upside down. I said, "Sister, the city, or the powers that be, are going to turn you upside down unless I miss my guess".

She acquired a fine residence, furnished it elaborately, and asked

the faithful to cough up. I attended her meetings; I was studying the species of scatterbrained thinking. When asked for a donation, I said nothing doing. I am not that wasteful of my money. She lasted for about 30 days, and then the sheriff took possession of everything and threw her into the street. Her health crumbled after that and she faded out of the picture, living the life of a parasite, living first on one and then on another but always dictating to those where she was living, as to how they should live—after the spectacle she put on. By the way, she was a trained nurse and had been the wife of a doctor. I called on her one day after the blowup; some of her victims were still paying on notes they had signed, which they could ill afford. I said, "Lady, I am sorry to see you in this mess but you brought it on yourself". She turned on me in fury, and said, "You devil, you are responsible for my downfall because of the thought you held". What an alibi; by that token I could wreck the whole world. But it doesn't work out that way.

It is very convenient to blame the other fellow for our troubles; we ourselves planted the seeds that ultimately bear fruit. Certainly these two ladies did. In both cases the eating habits were atrocious. The last I heard of the second lady was that she was mentally unbalanced; in my opinion she was born that way, and kept it up to the end.

The correct attitude of mind is all right as far as it goes; but many of you will go down because of the sins of omission. The universe is based on law; you are rendering to Caesar but you are not rendering to God; and therein lies your weakness. Yes, as Jesus said, you are crying Lord, Lord. But my experience over a period of forty years is that the average metaphysical student does not stand up very well when facing physical facts, and I have seen hundreds of them who kid themselves that things couldn't happen; but when it did happen, it paralyzed them. I always visualize the worst that can happen, and then say, So what? I don't dwell on it, I dismiss it.

Read the Scriptures carefully, and you will see that Jesus did that; He knew exactly what He was facing, He knew about the crucifixion, but He never flinched. I do know that a lot of unpleasant things can happen to me if I persist in telling the truth; I have counted the cost and am willing to pay the price if necessary. I do not fear life in any of its aspects, nor so-called death, for there is no such thing as death. I am an immortal spirit, and will continue my work on the other planes. I know from actual experience, for I have contacted many of the great ones from yesterday; they have stood be-

side me as I have written some of my messages to you. I recall giving a talk to a bunch of Communists, a very hostile group, although I talked for several hours. When I got through I had flattened out my opponents as though I had clubbed them; but it was not me, I was just an instrument. I had been on my feet for 24 hours before I arrived at the meeting and was worn out; but the moment I got on my feet to talk I was suddenly charged with terrific forces; and I said, "I am not speaking in my own strength tonight, for I am conscious of a tremendous spiritual force holding me up and inspiring me in my message". There was a lady in the audience who was clairvoyant (clear-seeing), and at the end of the meeting she came to me smiling, and said, "No, you did not speak in your own strength tonight, there was an invisible army at your back; and leading that army was George Washington. And throughout the meeting he held over your head the Stars and Stripes". I said, "I did not think I was worthy of such support, nevertheless I am very grateful, because I could not have carried on without that help, tired as I was". And even after the meeting, 5 hours in all, I went for a walk to use up my surplus energy.

I am not a stranger to many of the things our metaphysical friends talk about. I do not boast of it, I humbly acknowledge the help of the great ones on the other side of life. I could tell you of hundreds and hundreds of instances in my life similar to the above, because they have happened to me from childhood and were a great comfort in my life as a child. Astrological students will understand why, as they analyze my chart. I have been many, many incarnations on the path; eventually I, too, shall graduate and be saved from self. That is the path of evolution we must all tread. The Master trod it. Jesus appeared many times in the Scriptures under different names: Abraham, David, Solomon, the same individual. But the Christ appeared only once, when the Holy Ghost descended upon Jesus. Christ is not of our life wave; as stated by Max Heindel. And pray that you, too, may have your spiritual eyes opened, and realize that Jesus had a practical message; and that you are to keep your feet on earth, and be a realist, as He was.

So before it is too late, see that you make the necessary preparation. See that you too stand by the truth; for if you stand by the truth now the spiritual forces will protect you when the blow-up comes. Seek ye first the kingdom of God and his righteousness; that is to take your stand by and for the truth, and you will have nothing to fear, in spite of the outward opposition, because you will be living in another world. Remember, one can be free in prison, and in bondage outside.

Onward Christian Liberals

Onward, Christian Liberals! Give the Jew his "Rights";
Weep with all his wailings while you fight his fights;
Let him hog our busniess; let him boss our schools;
Give the jobs to refugees, and let them make the rules.
No more native culture; give it up for good;
Take it from the movie czars in "good" old Hollywood.

Onward Christian Liberals! Gentiles are a fraud;
Let the Jewish Bankers rule you from abroad.
Boycott when they tell you; do just what they say;
Send your son to Fight Their Wars, for that's the Christian way.
Let them make your clothing; let them make your shoes
Guns and ammunition, sausages and booze.

Onward, Christian Liberals, red and parlor pink!
Ask the "Trojan Horses" what you ought to think.
Let them run your papers, color all your news;
Let them make your radio a play thing for the Jews.
Import Jew Professors, warble yiddish songs;
Let the Jewish high-brows rectify your wrongs.

Onward Christian Liberals; Stick through thick and thin;
Though your sons are jobless, take those aliens in.
Buy from Jewish merchants, tip the Jewish clerk;
After all, the native Christian doesn't have to work!
Let them run your unions; let them grab your dues;
Let them grab our nation, this nest of noisy Jews.

Onward, Christian Liberals! Let them crash the gate;
Let them sell at retail everything we use;
Let them fill our meeting places with their hymns of hate.
Profit, rent and interest, all going to the Jews!
Cuddle every ghetto, patronize the slums;
Start them up in business, make our natives—BUMS!

Onward, Christian Liberals! vote for Jews on every hand;
Give them all the gravy that we have in this fair land.
Give them everything they want—Supreme Court for a start;
Give them all the juicy jobs from which they'll never part.
You know how they love Gentiles—like a rattler loves a man;
**Now its up to you to do your part—you should, you must,
YOU CAN!**

Destroying America

There is abundance of evidence that there is a definite, well laid plan to destroy America and her way of life. First, it was necessary to make her impotent; this program has been successfully carried out. The Supreme Court is packed with radical new dealers; this term is a polite way of saying that they are adherents of the vicious Talmudic teachings. They are pledged to establish the same type of government that has made the 160 millions of Russia serfs and slaves; I have told the story in a hundred different ways in the last ten years.

This time I am piecing together the utterances of a few men who know and understand what it is all about, because they are on the planning committee. First let me quote Henry Wallace. You will concede that Henry Wallace is on the inside. I am quoting this from Mrs. Dilling's monthly bulletin report. And by the way I would suggest that you look up The Red Network on page 330 lest you doubt his being one of the inside boys:

"WAS WALLACE RIGHT?"

"One of the really great men of America, a 100 per cent American of English ancestry, the rarest of combinations, an idealist, humanitarian, author, inventor, successful business executive, who has seen the present political set-up with a clear-seeing eye for years, wrote me recently as follows: 'Sooner or later the boobs in America will come to the realization that there is a decided move on foot to take over the control of government and finances, which will eventually, of course, end in virtually making slaves. There happens to be an attorney here in this city, who prior to the last election, was in Washington and talked with his friend, Henry Wallace, who was then a vice-presidential candidate.

"At the time, this attorney was going to ally himself with one of our big organizations that was opposed to many of the acts of Congress and the President. This alliance this attorney proposed to make was one that would continue for some time and, being not only patriotic but feeling that it was the proper move for him, he mentioned the matter to Wallace. Wallace urged and advised him to give up the idea entirely and made, through this attorney, the following statement:

"We are not only figuring on winning the present election. That, we know, will be accomplished; but, **WE ARE FIGURING ON CARRYING ON INDEFINITELY, NOT ONLY FOR FOUR YEARS, BUT FOR FORTY YEARS OR MORE, and WE DO NOT THINK there is a possible chance for ANY PARTY OR ALLIANCE THAT CAN BE FORMED which WILL BE POWERFUL ENOUGH TO PUT US OUT OF THE CONTROL WE NOW HOLD.**

"Please remember that we control the votes of the labor unions by our methods of handling those unions, and fostering and forcing through their plans; we also control the votes of all Federal employees, and no one can take the vote of the unemployed relievers and of the W. P. A., and other Federally-controlled employees.

"We will also control the negro vote of the South, and we will control the vote of the Western farmer. These combinations, allied with the solid Democrat vote of the south, form **A COMBINATION THAT NO EARTHLY POWER CAN BREAK!**

"You are also extremely foolish to ally yourself against the Administration. **YOU SHOULD IMMEDIATELY PLAY WITH THE ADMINISTRATION AND SECURE POSITIONS** under their dominance. In that way, you will benefit financially and in every way'.

"In spite of this advice, this attorney did ally himself with an opposing

organization; upon his return from Washington, he reported this conversation, and had repeatedly reported it since that time.

"A cold-blooded analysis of the tricky, subtle, scheming crooks that control the Administration in Washington gives no one any assurance that Wallace's statements are not one hundred per cent true.

"Roosevelt today would declare war and would start shooting immediately, if he was not afraid of a possible chance of breaking his control over the Administration. He has definitely planned to set up a Soviet-type of Government in America. To do this, Congress must be belittled and eliminated. The Supreme Court must be made a joke, as has been done, and Congress is almost useless when it comes to defending the people's rights.

"All the talk and all the pamphlets, and all the crimes committed by this group of political racketeers will not, apparently, serve the purpose of awakening the voters of America to the menace that they face. Even today, you will find a vast number of people who, six months ago, were bitterly opposed to war, now ready to enter it, after listening to the poisoned lies and vicious British propaganda constantly poured into their ears and displayed before their eyes. This being the case, the situation looks almost hopeless for America except for one thing. Roosevelt's fear that he will make a mistake if he drags this country into a war. That is, a personal mistake, one that will react and eliminate his power in the days to come. That, I believe, is our one hopeful thing to look forward to.

"So, when you are working night and day to bring about a change of thought in the minds of the dumb cattle in America who refuse to think, please do not go beyond your own physical powers. American people who refuse to think and see things in their true light really do not deserve to be saved.

"Keep up the good fight, but within safe limits of your own endurance! Nothing more. And this means physically and financially. Both are essential to your future welfare."

Now you will concede that the above fits in with present day facts. Note that he says they are planning, not for 4 years but for 40 years. This reminds me of a statement of a past master in the south discussing the New Deal; knowing that I was opposed to it, he said, "We shall be in power for the next 75 years, we have a powerful, well oiled machine and it will not break down. We know all the answers". You will note that Wallace makes the same boast, in different words.

Friends, nothing but physical force is going to dislodge that machine. In this connection, read carefully National Destiny, now running serially in our magazine. While I advise a march on Washington, I haven't very much faith in its being done, for not until an uprising takes place and the Communist set-up puts on the last clamp, the prelude to which will be a general strike, paralyzing the nation, will there be a real resistance. The lawless element will be encouraged to riot, all led by the same element that has been promoting strikes. The Solid South will begin to reap what they have sown; for there will be an uprising of the negro population and wholesale degradation of white women, seizure of property and murder on a grand scale. I am frank to admit I can't see any other picture. The 'intelligencia' of the country think they can save the country by ignoring facts; the business man is following the same formula. Onward Christian Liberals

Onward, Christian Liberals! Give the Jew his "Rights";
Weep with all his wailings while you fight his fights;
Let him hog our busniess; let him boss our schools;
Give the jobs to refugees, and let them make the rules.
No more native culture; give it up for good;
Take it from the movie czars in "good" old Hollywood.

Onward Christian Liberals! Gentiles are a fraud;
Let the Jewish Bankers rule you from abroad.
Boycott when they tell you; do just what they say;
Send your son to Fight Their Wars, for that's the Christian way.
Let them make your clothing; let them make your shoes
Guns and ammunition, sausages and booze.

Onward, Christian Liberals, red and parlor pink!
Ask the "Trojan Horses" what you ought to think.
Let them run your papers, color all your news;
Let them make your radio a play thing for the Jews.
Import Jew Professors, warble yiddish songs;
Let the Jewish high-brows rectify your wrongs.

Onward Christian Liberals; Stick through thick and thin;
Though your sons are jobless, take those aliens in.
Buy from Jewish merchants, tip the Jewish clerk;
After all, the native Christian doesn't have to work!
Let them run your unions; let them grab your dues;
Let them grab our nation, this nest of noisy Jews.

Onward, Christian Liberals! Let them crash the gate;
Let them sell at retail everything we use;
Let them fill our meeting places with their hymns of hate.
Profit, rent and interest, all going to the Jews!
Cuddle every ghetto, patronize the slums;
Start them up in business, make our natives—BUMS!

Onward, Christian Liberals! vote for Jews on every hand;
Give them all the gravy that we have in this fair land.
Give them everything they want—Supreme Court for a start;
Give them all the juicy jobs from which they'll never part.
You know how they love Gentiles—like a rattler loves a man;

Destroying America

There is abundance of evidence that there is a definite, well laid plan to destroy America and her way of life. First, it was necessary to make her impotent; this program has been successfully carried out. The Supreme Court is packed with radical new dealers; this term is a polite way of saying that they are adherents of the vicious Talmudic teachings. They are pledged to establish the same type of government that has made the 160 millions of Russia serfs and slaves; I have told the story in a hundred different ways in the last ten years.

This time I am piecing together the utterances of a few men who know and understand what it is all about, because they are on the planning committee. First let me quote Henry Wallace. You will concede that Henry Wallace is on the inside. I am quoting this from Mrs. Dilling's monthly bulletin report. And by the way I would suggest that you look up The Red Network on page 330 lest you doubt his being one of the inside boys:

"WAS WALLACE RIGHT?"

"One of the really great men of America. a 100 per cent American of English ancestry, the rarest of combinations, an idealist, humanitarian, author, inventor, successful business executive, who has seen the present political set-up with a clear-seeing eye for years, wrote me recently as follows: 'Sooner or later the boobs in America will come to the realization that there is a decided move on foot to take over the control of government and finances, which will eventually, of course, end in virtually making slaves. There happens to be an attorney here in this city, who prior to the last election, was in Washington and talked with his friend, Henry Wallace, who was then a vice-presidential candidate.

"At the time, this attorney was going to ally himself with one of our big organizations that was opposed to many of the acts of Congress and the President. This alliance this attorney proposed to make was one that would continue for some time and, being not only patriotic but feeling that it was the proper move for him, he mentioned the matter to Wallace. Wallace urged and advised him to give up the idea entirely and made, through this attorney, the following statement:

"We are not only figuring on winning the present election. That, we know, will be accomplished; but, WE ARE FIGURING ON CARRYING ON INDEFINITELY, NOT ONLY FOR FOUR YEARS, BUT FOR FORTY YEARS OR MORE, and WE DO NOT THINK there is a possible chance for ANY PARTY OR ALLIANCE THAT CAN BE FORMED which WILL BE POWERFUL ENOUGH TO PUT US OUT OF THE CONTROL WE NOW HOLD.

"Please remember that we control the votes of the labor unions by our methods of handling those unions, and fostering and forcing through their plans; we also control the votes of all Federal employes, and no one can take the vote of the unemployed relievers and of the W. P. A., and other Federally-controlled employes.

"We will also control the negro vote of the South, and we will control the vote of the Western farmer. These combinations, allied with the solid Democrat vote of the south, form A COMBINATION THAT NO EARTHLY POWER CAN BREAK!

"You are also extremely foolish to ally yourself against the Administration. YOU SHOULD IMMEDIATELY PLAY WITH THE ADMINISTRATION AND SECURE POSITIONS under their dominance. In that way, you will benefit financially and in every way'.

"In spite of this advice, this attorney did ally himself with an opposing

organization; upon his return from Washington, he reported this conversation, and had repeatedly reported it since that time.

"A cold-blooded analysis of the tricky, subtle, scheming crooks that control the Administration in Washington gives no one any assurance that Wallace's statements are not one hundred per cent true.

"Roosevelt today would declare war and would start shooting immediately, if he was not afraid of a possible chance of breaking his control over the Administration. He has definitely planned to set up a Soviet-type of Government in America. To do this, Congress must be belittled and eliminated. The Supreme Court must be made a joke, as has been done, and Congress is almost useless when it comes to defending the people's rights.

"All the talk and all the pamphlets, and all the crimes committed by this group of political racketeers will not, apparently, serve the purpose of awakening the voters of America to the menace that they face. Even today, you will find a vast number of people who, six months ago, were bitterly opposed to war, now ready to enter it, after listening to the poisoned lies and vicious British propaganda constantly poured into their ears and displayed before their eyes. This being the case, the situation looks almost hopeless for America except for one thing. Roosevelt's fear that he will make a mistake if he drags this country into a war. That is, a personal mistake, one that will react and eliminate his power in the days to come. That, I believe, is our one hopeful thing to look forward to.

"So, when you are working night and day to bring about a change of thought in the minds of the dumb cattle in America who refuse to think, please do not go beyond your own physical powers. American people who refuse to think and see things in their true light really do not deserve to be saved.

"Keep up the good fight, but within safe limits of your own endurance! Nothing more. And this means physically and financially. Both are essential to your future welfare."

Now you will concede that the above fits in with present day facts. Note that he says they are planning, not for 4 years but for 40 years. This reminds me of a statement of a past master in the south discussing the New Deal; knowing that I was opposed to it, he said, "We shall be in power for the next 75 years, we have a powerful, well oiled machine and it will not break down. We know all the answers". You will note that Wallace makes the same boast, in different words.

Friends, nothing but physical force is going to dislodge that machine. In this connection, read carefully National Destiny, now running serially in our magazine. While I advise a march on Washington, I haven't very much faith in its being done, for not until an uprising takes place and the Communist set-up puts on the last clamp, the prelude to which will be a general strike, paralyzing the nation, will there be a real resistance. Now if you have anything to think with, you had better use it fast. This article is made up of quotations from those in authority, the boys on the inside; and for additional information, read The Roosevelt Red Record and Its Background, starting with the record of the President; and the records of his henchmen are found in The Red Network and The Octopus. The Protocols and The Talmud unmasked give you the Jewish picture; this is the Jews speaking. And last but not the least, get a copy of Origin and Destiny of the Jews; there you will find the biblical pronouncements on the Jewish race, how they came into being and what their fate will be.

And so, if I never wrote anything before I have at this time given you a complete picture. I will close by asking you what you intend to do in the few remaining hours before hell breaks loose; for the greatest turmoil and chaos America ever saw is now about to break loose. The order will go out, clear the deck for action; each man will take his appointed position. just like a naval battle when going into action. The common enemy are all trained and disciplined, and told where to report for duty on Der Tag; whereas millions of so-called loyal Americans are mumbling metaphysical formulas, and they expect to meet fixed bayonets and guns with the All-is-well, God-is-love formula, forgetting that the word love also embraces law, and that cause and effect will steamroller them if they neglect their duty as a citizen.

X You who are now apathetically on the sidelines will awaken from your trance to reality; and for many of you it will be too late. This is judgment day, and if you are not definitely for truth and righteousness, I mean actively so, then you are against them; and in spite of your affiliations and lip service you will be swept away with the rest of the debris.

My duty is to warn you; your duty is to act. Your fate is in your own hands; will you die a coward's death, or will you rise up and fearlessly stand for the truth? You must decide; I have already done so. I have waded through every kind of hell, imaginable, or so it seems, and I have no regrets. Will you be able to say the same?

PROPHECIES ABOUT THE WAR IN EUROPE: Collected by Clarence Reed.

Here is a compilation of various prophecies, one of which states that Hitler will die in solitude and madness. Most of these prophecies are by Nostradamus; there are also some amazing Polish prophecies.

If you are a prophecy fan, you will get your money's worth in this little book. It is cloth bound, and only 50 cents.

BOOK REVIEWS

THE FIFTH COLUMN CONSPIRACY IN AMERICA: Compiled by Joseph P. Kamp and A. Cloyd Gill.

This is another of the "5th Column" series by Kamp. It is a map that every minister, in fact every patriotic citizen, should have before him; for it shows the Communist activities, and on the back of this map are listed the various subversive organizations. You will be shocked when you read some of the names.

I want to remind you, in case you don't know, that this is all based on the Dies Committee reports. Eventually a general strike will be called, and then these organizations will all come to light: to spring into action, to subdue you by force unless you submit to their program and join in with them.

These groups represent millions, not merely thousands, (60,000) as in the case of Russia when they took over. And remember, the Army and Navy will be backing them, not fighting them, if they obey their Commander-in-Chief. Again I refer you to the Dies Committee reports. And remember, the Nazi, Fascist and Communist groups will all be one, because they will all be under one control in Europe by that time. These various groups will have under control, possibly as high as 25 million people; most of these people don't know what it is all about, but they are under direction of the Red leaders and must follow through.

This final move is much closer than you have any idea of: the unions are now in a position to paralyze the nation at a moment's notice. Our warning voice may not reach you much longer. Of course it all depends upon yourselves as to whether it will or not.

The price of this valuable map and analysis is only 25 cents.

THE ASTROLOGICAL ASPECTS: By Charles E. O. Carter.

If you are an astrological student, you will know that Mr. Carter is a recognized authority on the subject on which he is writing; he was, I believe, a pupil of the late Alan Leo. In this issue, you will find an article "Saturn In The Tenth"; perhaps you will want to explore further the subject of the value of aspects in a chart. If so, this little volume will help you considerably. It gives numerous examples of various combinations,

Toward the close of the book, the author says much of the unhappy, never-been-young attitude of modern youth is due to the planetary configurations prevailing some 20 years ago; referring to the adverse of Uranus and Neptune. We have repeatedly drawn attention to this fact in our writings; in fact, I think I emphasized it in my class work as far back as 1912. On page 75 you will find an explanation of the Mars-Saturn influence we spoke of in Hitler's chart. It will explain where Hitler gets his backbone to do things. There are several examples of this aspect given; so on the whole I do not hesitate to say that this is a valuable textbook providing you are capable of drawing up a chart or having someone else do it for you. The price is \$1.25.

SYPHILIS, WEREWOLF OF MEDICINE: By Herbert M. Shelton.

The author asks the question, Is it a mischievous myth, or a malignant monster? And he goes on to prove that it is a myth. This good doctor is a drugless healer. He quotes the medical point of view through its spokesman Milton J. Rosenau, M. D., and the rational view is given by the great Doctor J. H. Tilden, who says "The present medical opinion of venereal diseases is an infinitely greater curse to the world than will be all the diseases of mankind when they are understood and treated properly."

I like the style of the writer, perhaps because it is very similar to my own; it goes directly to the point. Frankly, this book was a revelation to me. My hospital experience of nearly three years had given me the medical slant. Well, it is too bad the author is not familiar with the Jewish question, so he could tie it in, where it properly belongs.

Briefly, he gives you the history of the origin of what he calls a myth, and brings it right up to date, telling you what syphilis is, its cause, and cure. You who have been scared to death by the medical trust, will find by reading this book that the horrors of syphilis, as described by your doctor, are due to the blood poisoning caused by the drugs administered in their so-called cure. Chapter 12, on What Is Syphilis, was a valuable education to me; and yet, I might have known, from my own studies, that such was the case. I didn't realize I was so dumb.

All in all, this is an extremely revealing book, valuable beyond words. Most of the authorities quoted in this book are men with an M. D. degree, who became drugless healers; such as Tilden, Weger and others.

Price, paper cover, is \$1.00; cloth, \$1.50.

THE 100 FAMILIES THAT RULE THE EMPIRE: By Giseller Wirsing.

This is another book put out by Flanders Hall. In the August number we gave you an article on the Bank of England by Charles Phillips. Well, that is a very good foundation for this volume, which shows you how you can really aid Britain; but it is not the aid that Mr. Roosevelt has in mind, for this volume suggests that you aid Britain to free herself from the octopus control of the bankers; and we have told you who those bankers are, in the article above mentioned. This book is an encyclopedia of facts, obtained from British sources. Here you get the inside dope on the wealth of the Chamberlain family, which started with the Boer war under Joseph. The first chapter of this book dovetails in with The Haples Boers, a book we reviewed some little time ago, for the scene is laid in South Africa. Of one thing I am sure: you will not admire the British brand of Democracy. And you will understand better why the ruling class of Britain want war: because their pocket-book is in great danger of being stolen—at least that is the vulgar term they would use.

In view of the Union Now propaganda in this country, you should at least know what they propose to unite us with. Many of the facts in this book were well known to me as a boy, because these same facts were revealed by one of the outstanding newspapers of England, Reynolds' News, a paper that gave me a valuable foundation, which is now being used in The Beacon Light; for it taught me how to analyze news.

You will now understand why the various members of Parliament jumped through the hoop when the real bosses cracked the whip; you will find this revelation in Chapter 4, entitled The Bankers, The Real Rulers of Britain. And you will better understand my oft repeated statement that Germany and Hitler are used as a divine instrument to free the British people from the vicious octopus that has a stranglehold upon their country and empire.

Do you want to know how Hore-Belisha and his pal Sir Isador Salmon got in on the ground floor? You will find the story on page 65. This Hore-Belisha is certainly an up-and-coming young man, with an eye on the main chance; and believe me, he got it. Through the lend-lease bill America is being bled white.

After reading this book, especially Chapter 6, entitled The Spoils of the Empire, you will readily see that it is entirely unnecessary; the British Empire could finance this war very easily herself, because it has a stranglehold on the wealth of the world. In 1937 they estimated investments abroad were nearly 3½ billion pounds; that is, over 20 billion dollars. However, this is a part of the program of taking over America—to bankrupt her first. And by the way, here you will find the financial figures on the Boer War, the instigators, and why it was fought. Well, if you ever had any doubt as to the rottenness of the British Empire, this book will remove it, and you will be convinced, as I have been for nearly 50 years, that the British Empire is rotten to the core. You see, I got my information at first hand, having spent the first 20 years of my life there. I started to think early in life, Saturn in the 1st; and left England with a very healthy hatred of all that the Empire stood for. I know Britain from experience; I know that the facts in this book check with my experience; and it is time that the American public know those facts, and that one of the purposes of this war is to suck America dry of men and money, and then bring us back under the wing of the most vicious and depraved empire the world ever saw.

No matter what the outcome of the war, England and the British Empire are doomed, as I have repeatedly stated. The British Empire is dead; it is decomposed, and now about to be destroyed; but the last act in the drama will not be with armed forces, that is only a prelude. God, working through the elements, will stamp out every vestige of its putrid body, as indicated in our book, Thy Kingdom Come.

You poor dupes who believe in 'union now', read this book if you haven't surrendered your thinking powers already. Get this book and keep it in circulation, and help save the Republic. The price is \$1.00.

THE LUNATION OF SEPTEMBER 20, 1941

We are again crowded for space, and must be brief; but if I were asked what the keynote of this lunation is, I would say Expression; much of the pent-up feeling will be expressed this month, and that expression will be encouraging, because it indicates definite expression of disapproval of the powers that be. Mars is on the mid-heaven in Aries; the government is war minded but the people are not. Mercury, the planet ruling mind, and the ruler of the 4th, is retrograde in opposition to Mars, and Mars is applying to a conjunction of Venus. The people are peace-minded.

Note the tremendous concentration of power, with Sun, Moon and Neptune conjoined and in the 4th house. The people are thinking about the U. S. A., their home conditions; and they are peaceful thoughts. And that combination will generate a lot of steam, due to the Neptune influence; also they are in good aspect to Saturn and Uranus in the 11th, representing Congress, so the people will turn the heat on Congress as never before. I think you will see some evidence of serious thinking on the part of Congressmen who have recently been home and talked to their constituents. And so I say you will see signs of a tremendous awakening among the people of the nation, who are expressing bitter disappointment in the Administration policies; and they will appeal to Congress in no uncertain manner.

Inasmuch as much of this dynamite is in Virgo, you will hear a great deal from labor, with extravagant demands, strikes, sabotage, etc.; but labor does not enjoy the confidence of the people any more than does the Administration, for there is a very healthy discontent against labor racketeers. Nevertheless, I believe labor expects to paralyze the nation and take over within a short time; perhaps I should say those in control of labor. They can not delay much longer if they would succeed; and so in the very near future we are going to see a definite showdown, preceded by widespread strikes, with chaos for a while; and a man of the hour will arise.

The preceding month brought a lot of pessimism; but this month we find Jupiter in good aspect to Mercury, even though it is afflicting Sun, Moon and Neptune; and Jupiter is in a very expressive sign, in Gemini, the sign that rules literature. And so you are going to see a considerable stiffening of the backbone of the people, with not so much of the 'What's-the-use' spirit. They are going to realize that there are too many people thinking as they do, for the enemy to succeed in their diabolical plans. Watch the various pa-

triotic organizations throughout the nation, and you will be very much encouraged by what you see.

You and Your Aspects for October, 1941

We have a number of very powerful aspects between the 20th of September and the 20th of October; and let us not forget Sun, Moon and Neptune trine to Uranus in the lunation chart. You will have the expression of this as the Moon passes through the earth signs and touches off this power plant, for that is what it is. On the 3rd and 4th the Moon is sextile to that point, as it goes through Pisces, Next is the 8th and 9th as it crosses Uranus and Saturn; the 13th and 14th as it goes through Cancer, a very expressive sign; the 18th as it passes through Virgo and conjoins Neptune. These are the dates when this energy will be chiefly liberated. But the Mars and Aries combination will express itself more around the 10th when the Sun opposes that point and Venus opposes Neptune. The Administration will sizzle; and there is grave danger of a definite incident of a warlike nature. This is a double combination, because Venus is in Scorpio and the 5th house, and Uranus is in the 11th, representing Congress. This will be preceded by Venus opposed to Saturn on the 8th; an explosive reaction on the 10th.

This influence on the 10th is certainly dynamite, in more ways than one; accidents, fires, startling activity in war centers; and this coincides somewhat with the dates gives in the Russo-German reading. This influence around the 12th to 15th is the best of the entire month, so attend to constructive work at this time; it is a very expansive influence, especially as Venus is parallel to Jupiter and in good aspect to Pluto; and this is followed on the 22nd by Venus favorable to Mars.

This is a much more favorable period for vacations than anything the summer produced. There is one drawback to this month, that is the number of retrograde planets, for no less than 4 of the major planets are retrograde.

Our National Chart

This lunation takes place within orb of Neptune in our national chart and will certainly emphasize the progressed Sun square to that point. That means this combination of planets is square or adverse to our progressed Sun, falling in the 12th house and squaring the Sun in the 3rd; it looks like some more secret, tricky stuff; commitments that the American public would never stand for. So much for the talk on democracy. And it is exactly trine to Pluto, posted in

our 4th. The dictators in the nation are cutting the pie to suit themselves; and they are laying the foundation for a tremendous national headache;; here we have an indication that October is a very critical month for the nation, in which shuffles will be made on the checker-board that will be extremely detrimental to the country at large, and to the people therein. This indicates there will be a follow-up of the secret meeting of Churchill and Roosevelt. It is well that the lunation indicates a more positive expression of the people; will they be in time?

This is emphasized very much by the position of Mars on the cusp of our 7th, adverse to the Sun and Saturn, a dynamic combination. Fortunately, Mars is retrograde; but what will it do when it comes back over this point, which it will in November, and is adverse to the Sun all through the month of November and opposing Saturn during the first 10 days of December? It seems almost impossible for us to escape the climax. However, it is followed by a good aspect to the Moon representing the people, and posted in the 4th, indicating tremendous expression by the people.

Jupiter is in the 9th, and conjoined with our Mars, another indication of grave danger of involvement; and here again we find an adverse of Neptune and opposing our progressed Sun. The nation will hold its breath during that period, for the warmongers will be extremely active for the final push. Even the Saturn-Uranus combination is favorable to Pluto, the dictators; so I don't hesitate to say we are now in the most critical period of American history up to date.

Roosevelt

This lunation is exactly square to his Mars, and trine to Neptune, and right on his ascendant. He is hell-bent for war. The people will feel his mailed fist, through the various bureaucratic setups. Mars in his 7th, the house of war, certainly coincides with the lunation chart, and the indications in the national chart.

Jupiter is on his midheaven, adverse to Mars and Uranus; this is dynamite to a man of his type. Another indication that you who read this message should flood Congress as never before, and give encouragement to Wheeler, Johnson, Day, Nye and the rest of the small group of patriots. Another indication of danger is Neptune square to his Mars and trine to Pluto; to a man of his type this is dynamite. Saturn and Uranus are right over his Pluto and adverse to Mercury; he is a very much worried man, in spite of his cocksureness.

These are a few of the high spots. I have done my part in warn-

ing you of the critical danger to your country and your personal interests. Work as you would if a disastrous fire were to strike your city and everyone were called to volunteer service. Well, your national house is on fire, and you will either put the conflagration out at this time, or go through a blood bath such as the nation has never witnessed before, even during the world war. A tremendous responsibility of citizenship rests upon your shoulders. Again I say, what are you going to do?

THE RUSSO-GERMAN CONFLICT

This is the question on everyone's lips these times: Will Germany win, or will Russia beat them back? Well, we told you the story in the January number, which was written last October; we said definitely that Germany would win. Three years ago we told you that Germany and Russia would combine under German leadership; that the stern discipline of the Prussian war machine would lick Stalin's Reds into a disciplined fighting mass. There will be a lot of red faces in England and America very soon, for the supplies we are now pouring into Russia, together with military plans and co-operation, will be turned against England; and that will be the end of the present leaders in England, if they last that long. Spell-binders can not remain in the saddle forever, they must deliver the goods; and one who uses all his energy in talk has nothing left with which to accomplish things.

Lady Oxford refers to Roosevelt and Churchill as the only two great orators left. Politicians are usually spell-binders; real business men are seldom good talkers, it takes a serious Saturn type to produce results. Of all the present day leaders, Hitler is the most serious, Saturn on his midheaven.

The lunation of September 20th takes place in Hitler's 11th house, hopes and wishes, and coming up to a good aspect of Neptune and Pluto, although adverse to his Moon. The transiting Saturn and Uranus are exactly trine or in good aspect to this point. Mars in his 6th is an indication of efficiency in his war machine, but exactly opposite to Uranus. We find Jupiter 21 degrees in Gemini in his 8th house, and exactly trine or in good aspect to his Uranus at birth. So, to sum it up, it is not pink-tea time, he has a tough job on his hands; Der Fuehrer is much concerned. The German war machine is fighting savagely; Mars and Uranus opposed, 6th and 12th. Terrific

6 copies of this issue for \$1.00; circulate them among your friends

slaughter is indicated, but I should say very definitely that he is winning, and that news reports are anything but revealing. I should say, as I told you a year ago, that Russia will collapse, and be conquered.

I do not think the German people are very happy, in spite of the many victories; and in my opinion Germany could be licked through isolation much more cheaply than through the force of arms, because of the discontent that would grow in the conquered areas as well as within the nation of the Third Reich. England could win this war if she only knew Israel laws and practiced them; but she doesn't know them, and so she will lose. When you see our so-called allies using poison gas, you will know they have reached the end of the rope; and it is England and her allies who will start using poison gas in this war.

I am collecting material now, which I hope to put out in book form, under the title of 'The Doom of the British Empire', giving my reasons for believing it is doomed. This material will be based on physical facts and not on astrology. I will show, according to Israel laws, why she is doomed as a world empire. Would anyone like to finance this work? It is very timely right now.

In the chart of the Third Reich the New Moon is within orb of a conjunction with Jupiter, and in good aspect to Pluto; this definitely points to the acquisition of more territory. I would judge a very critical period will come up on or about the 12th or 13th of October as the Sun opposes Uranus, afflicting Pluto and Venus; the Moon forming similar aspects on the 12th.

The position of Mars is somewhat critical, too, and it is conjoined to Uranus in the 12th, afflicting Pluto and Venus; another indication that they have no easy task. But here again we find indications of success in the acquiring of wealth and possessions; Jupiter in the 2nd or money house, exactly trine to Uranus. It is true it is adverse to Mars and Jupiter, indicating a price that must be paid.

I am inclined to think, as I review this chart, that German agents within Russia are doing more deadly work than the army. The Saturn-Uranus combination in the 1st and sandwiched between many good aspects indicates an efficient, fierce war machine.

Now what are the indications for Russia? The houses of the Russian chart are almost identical with the chart of Hitler, but not the planets. Hitler's Uranus is right on their ascendant and trine to Uranus in Russia's chart, in the 4th house. To me it indicates that he is destined to revolutionize Russia; he is going to bring efficiency out of chaos. Hitler's Saturn is conjoined with Saturn in the Russian

chart; he is destined to bring Russia to judgment.

The lunation afflicts Venus, which is in the 3rd and the ruler of the 12th; Russian morale is not very good, intense suffering is indicated. The women are open for revolt. In my opinion you will see definite signs before this month is out, with strong possibilities of peace. In any event the succeeding month of November will be disastrous for old Russia, or perhaps I should say the Soviet regime, because it is that which will be smashed.

Mars is well placed in the Russian chart, favorable to Jupiter and Uranus; and Jupiter in the 9th indicates foreign aid, for it is in good aspect to Uranus in this chart. But it will not be enough to save the Soviet regime.

Stalin: This will be a very critical month for Stalin, and the first week of October will be disastrous for him, especially around the 9th. Mars is returning and coming back to an adverse to his Moon and Saturn. This will be more marked toward the close of the month, and carries through the succeeding month; certainly not a good indication for the greatest murderer of all time. Those powerful malefics of Saturn and Uranus are symbolical of what is happening to Russia today; she is being scourged on the battlefield by a powerful opponent.

The progressed Moon of Russia is now conjoined with Neptune, the planet of chaos, in the 10th house, indicating a chaotic condition among the leaders of that nation. These are only a few of the high spots; we lack the space to go into it more deeply.

LETTERS

FROM ILLINOIS:

Enjoy your magazine so much, and hope it will be possible for you to continue with it. I am enclosing \$8.00. Five dollars is to help with the magazine. Will you also please send me the book *Toxemia Explained* by Dr. J. H. Tilden; you recommended that to me very highly. Will you also send a copy of the August Beacon Light to each of the following. — — — —

I sincerely hope you have had an encouraging response from your readers. I will send more whenever I can. Thanks for sending the book and for all your advice on health. It has been a great help to our family."

FROM NEW YORK:

"I am herewith sending you a 6 month subscription order for The Beacon Light for another party whom I got interested in it, and he may do more later.

I have distributed my Beacon Lights at the shop where I work, am letting them lie where everyone can see them. I am getting old and health is failing, and am not getting what I used to get, but I am doing what I can to help your work. I am herewith also enclosing \$1.00 for 6 copies, your choice, that I will distribute to my shop pals. I am doing all I can, and I have just lately convinced most of them that it is high time to do something about what is coming soon. . . ."

SATURN IN THE 10TH HOUSE

The following has been sent in by one of our readers in Chicago, whose letter to Dr. Davidson we printed in the last issue:

Practically all astrological magazines, sheets and most astrologers have predicted Hitler's defeat for the last several years, and yet to come, principally because Hitler like Napoleon the 1st and 3rd and a few crowned heads had Saturn so situated. This, they tell us, is the signature of a rapid rise followed by a sudden fall.

These astrologers, if they are astrologers, and I doubt it very much, are very careful not to list anybody with Saturn in the 10th house who was overwhelmingly successful in his earthly career. It may be all propaganda, but real astrologers don't indulge in it.

It will be noted that Napoleon had Saturn in opposition to the Moon, while Hitler has Jupiter in conjunction with the Moon, trine to his Sun. Thus the difference between these two men shows they are poles apart, as far as their careers are concerned.

The physically intoxicated who believe Hitler is the reincarnation of Napoleon, are subjects for observation. I have before me some 40 horoscopes, mostly of prominent world characters and rulers, with Saturn plastered on or very near the meridian and in the 10th house; and another 20 with Saturn in square and opposition to the midheaven or meridian at birth. At least one-half of them would take no back seat from those who had let us say a dozen Jupiters in the 10th. Naturally a few of these met with various misfortunes, not because of Saturn in the 10th, but because of their failure to listen to Saturn in that position.

With Saturn so placed, the common trait of character was a serious attitude toward life, great responsibilities, conscientiousness, and as it were, fated to perform their task against opposition and delays and to overcome obstructions which they felt **must** be overcome.

But for this steady determination, which Saturn imparts to those who come strongly under his rays, no permanence could ever be established on this planet. If Saturn is the planet of Obstruction, he is likewise capable of removing that obstruction, because the same force works both ways; and it is disgusting to read of Saturn being a malefic or evil planet. True, he checks us when we become bombastic, grasping, full of pride and self-adoration. As such, he may be a chastiser, in order to pound some humility and righteousness into our system, and a regard for the rights of others. The saying that pride goes before a fall, describes a regular occurrence; but only the astrologer knows the reason why. And this is reflected in the lives of nations as well as of individuals.

Here is a secret: When Saturn is in the 10th, that individual has the **right** to take **vengeance** against a **great wrong**—don't ever forget that. So long as this power is exercised within bounds of reason, success is certain; but if through success **pride** appears, then downfall is equally certain. If you have Saturn in the 10th or the 1st, near the cusps the better, you have at your disposal a power; but don't ever misuse it, or you will suffer the pangs of hell. If you understand what this great planet stands for, you will not err.

Let no one again make the mistake of saying that Saturn in the 10th spells defeat, without any other qualifications or considerations, or we may meet our Dunquerque and the well deserved ridicule of opponents of astrology."

We concur in the opinion of the writer of the above, as our experience is similar to what he states. I am quoting from memory, but I believe Calvin Coolidge had Saturn in the 10th, as did Herbert Hoover. John N. Garner had Uranus in the 10th, and badly afflicted because it was right in opposition to his Venus in the 4th and square to Neptune in the 7th. That is like riding a bucking broncho; but he rode it successfully, and could have continued, if he had chosen to go along with the boys.

Churchill, the Duke of Windsor and Willkie have Uranus in the 9th; two have fallen off their horses; the third will soon follow suit.

Regarding Hitler, the writer of the above neglected to state that not only is Saturn in the 10th, but Venus and Mars conjoined in the 7th are square or adverse; and that is the danger to Hitler, in my opinion. Hitler is a man of destiny, although he does not know it, to him it is a personal thing; and he will live long enough to accomplish what the cosmic forces want him to accomplish, and nothing more. So I consider this Mars square to Saturn the most critical thing of Hitler's chart; and Mars is the ruler of his house of health. Undoubtedly attempts to assassinate him will be made, and have been made.

He has even lived through Saturn squaring that point. But now these planets, Saturn and Uranus, are in his 8th house, the house of death, conjoined with Neptune, followed by a conjunction with Pluto next year. Of course, this could be symbolical of the terrific slaughter in the German army. However, as his progressed Moon is forming some very fine influences all through 1942, would say that if he survives the balance of this year he has a good chance of fulfilling his mission. I consider the balance of this year very critical for him, with his progressed Moon opposing Neptune and Pluto throughout

this period. November and December are especially critical, as the Sun crosses these sensitive points, squaring his Saturn and opposing Venue and Mars, which it does between the 5th and 10th of November, and then opposing his Neptune and Pluto at the end of the month.

The chart of the Third Reich also has Saturn in the 10th conjoined with the Sun and Mercury and in good aspect to the Moon; so I don't hesitate to say the Nazi regime will last as long as the regimes opposing it, for this is a powerful chart. Saturn and Uranus are coming up to a good aspect to all these planets in the 10th; so I see no danger of a collapse of the Nazi war machine in the near future. Then again, Jupiter is going through the 2nd house of this chart and coming up to a good aspect of Uranus; and even Neptune is sextile to Pluto in the 6th, representing the armed forces; additional testimony.

Friend Mussolini has Uranus in the 10th; and by the way, Uranus in the 10th seems to be more fatal than Saturn. The chart of Soviet Russia has Saturn in the 10th, also Neptune and Mars. This is decidedly a weak chart; just as weak as Germany's is strong. Stalin, the ruler of Russia, has Uranus in the 10th. Pope Pius has Saturn in the 10th, conjoined Sun and square to the Moon and Jupiter. His rulership over the church he represents will not be a very happy one.

The above writer refers to Saturn in the 1st. I can bear witness to his remarks there, because I have Saturn right on the ascendant. Personally I like to see a well placed Saturn in the chart, even a so-called affliction, for these people are intensely practical and fundamental, and have depth of character.

Saturn rules the cellar of the house; the basement; the foundation. It also rules the bones of the body, the framework that holds things together. So Saturn in the 10th, or in the 1st, indicates an individual who takes his task seriously. Look at Cal. Coolidge, a Saturn type if there ever was one. Saturn represents age; my parents always called me Grandpa when I was a little tyke of 7 years of age, because I was so serious, and older than my years. I never had a childhood, I always considered myself grown up and a man; I assumed the responsibilities of an adult very early in life. I was called Old Soberides because of my serious intent. I always associated with elderly people; youngsters of my own age were subjects of contempt because of their childishness. And oh, how I loved funerals and cemeteries; Saturn again.

I hope you will pardon the personal references; I am quoting them to show that I am qualified as a Saturn subject. My experience is that people with Saturn in the 4th are more apt to end up in the ash can than those with Saturn in the 10th; people with malefics in the 4th don't end up right, because they lack foundation. Saturn in the 1st or the 10th indicates that the individual is intensely serious, and does some tall thinking before he acts; they plan with deliberation. Seriousness is the key-note of Hitler's army. Take France: there was no serious intent there at all, they were playing while Hitler with grim determination was building an efficient war machine. When God uses an individual or a nation, you will always find a powerful Saturn in the chart; because when divinity, or the cosmic forces, choose an instrument to carry out their law, it is a serious task that calls for a strong character.

Roosevelt and Churchill have the Moon in the 10th; the Moon is unstable, fluctuating and fickle. In Churchill's chart it is in the vacillating sign of Virgo, and exactly square or adverse to the Sun.

The Moon in the 10th indicates the showman; the show-off; the publicity seeker; and you will always find them basking in the sunshine. Any astrological student will concede that Hitler's is a much more powerful chart than Churchill's. Churchill is a rebel; his Uranus squares Mercury and opposes Saturn, 3rd and 9th houses involved. Brilliancy but surface thinking is indicated; how similar to Roosevelt.

Churchill's Moon is in good aspect to Saturn and the Moon in Roosevelt's chart; they have much in common. Roosevelt's Moon is in Cancer, not a stable sign. In addition, he has Mars in the 10th, and within orb of a conjunction with his Moon. This combination enables him to sway the masses, the emotionalists, the unthinking people. He can put on a good show. As far as entertainment is concerned, you have had your money's worth; but as the small boy says, That ain't all. Note the planets in the 8th house, other people's money. He certainly knows how to spend it.

LETTERS

FROM TAQOMA:

"Enclosed find 25c for June Beacon Light; a friend loaned me the May number which I must admit was correct in its dates. I have looked for your magazine in the magazine racks of the various stores but failed to find it, therefore I have used this method of getting a copy."

and later,

"Enclosed please find \$1.00 for a six months subscription to The Beacon Light. Friends of mine have been astounded at the correctness of your past predictions. I have received and read your August number of The Beacon Light and think it is wonderful, so I am enclosing 50c in stamps for 2 more copies."

HOW YOU CAN HELP

The following letter was received, in answer to our article in the August number entitled The Last Call:

"We have read regretfully of your lack of support by this sleeping nation. Too many of us cling to the fond hope that somehow ten minutes annually spent in voting will keep this Republic going. If it requires too much of our attention, why then, a benevolent—not malevolent—dictatorship in the name of President. Now that the mal—exceeds the ben—, some few people are doubling the time they think should be spent individually on a Republic—too late.

However, from a utilitarian standpoint, it seems to us that you can do more good in staying with the game on a paying basis, cutting out the missionary work insofar as the people do not care to finance it, than in folding up on a one-man crusade. You must know that you are furnishing munitions of thought and fact to the few awakened citizens blindly groping for remedies for mass sleeping-sickness. Every copy is eagerly absorbed and passed along from hand to hand.

If you continue to offer the answers, and then the people do not avail themselves of these facts, there is no question as to where the blame lies. To withhold this service for missionary reasons would indeed be tragic. If only 800 copies are being bought after all your missionary efforts, why not let it go at that, and keep faith with these 800?

There seems to be a sociological law that keeps a man asleep so long as he is making a good living. Only the failures and long sufferers are interested, and to them a dollar is a cart-wheel. Personally we are trying to do some awakening by writing letters to the more hardy editors for publication. Shortly you will receive a batch. However, Beacon Light has so much brilliance of its own that ours would be but a candle.

Here's more power to you, and the constructive thoughts of thousands who feel indebted to you and the great work you carry on.

Cordially yours,"

We have received many letters similar to this, and so we are going to use this as an example. This writer does not seem to realize the tremendous amount of research work that must be done for the master-copy each month. The work is the same, whether we have one subscriber or ten thousand; but the point is, there is no income on 800, or 1000 copies a month, which is the total sum we sell each month, 200 going to dealers. The total expenses of printing our 1500 copies a month are around \$200, that is, printing and postage and office expenses, not including our own time; and so I have to do some desperate scratching on the side, to earn money to make up the deficits and live on.

I will say this; that when I had the stroke, three individuals jumped into the fray and sent monthly donations ever since. Those donations have paid the mechanical expenses on the magazine; I am still confronted with the problem of earning a living on the side, and the grind is too heavy to stand up under. I must have another secretary, because the volume of work is too heavy for one person.

Now you see my side of the picture; and if after ten years you sold a thousand copies, how would you feel in my shoes? I say the people who read The Beacon Light are not worth saving if they don't

believe in their cause enough to make it possible for me to stay in the fight without selling merchandise on the side. I positively refuse to continue with this dual job. It burns me up when I have to spend a whole day in bed, as I do occasionally, suffering from nervous exhaustion due to hard work and ungodly hours; so why should I keep faith with the 800?

We have among The Beacon Light subscribers several millionaires; these individuals are all supposedly patriotic Christian Americans. I wonder. It is true, about half of our subscribers are away down in the lower brackets, and can not do anything; but it is equally true that the other 50 per cent could do something. If only ten per cent of them had the same zeal that we find among the Communists, we would go over with a bang. A man owes something to his wife and family, and I don't intend to sacrifice mine any longer on a slave basis. We had 4 days off the end of December last year; since then it has been a 7 day a week job, including holidays. Do you still believe I should continue on this basis? Do you think it fair to expect me to continue on this basis? It costs as much almost for 500 magazines as for 1000, the big cost is setting up the type, after that the cost goes down rapidly.

Then again, the shoals of letters we get from people in trouble each month more than equal the cost of putting out the magazine; very seldom do we get a postage stamp.

Here is the plan that should be carried out: Beacon Light clubs should be founded, as I suggested away back in 1934, these clubs to pledge themselves to purchase 100 copies each month, at \$12.50 per 100. With 12 members to a club, that would mean about \$1.00 a month, or 25c a week, or about 3c a day, for each member. Is that asking much to save your country, compared with what I am doing? Each member would be given a certain part of the city to cover, and would distribute 8 or 9 copies; he would use his ammunition on people known to be patriotic, but ignorant in these matters; no use wasting time on Jews or Communists.

Attend the America First meetings, and the Citizens Keep America Out of War Committee meetings, those of the Citizens No Foreign War Coalition, Inc., etc., as this is the most fertile soil of any; these people are at least interested enough to attend these meetings. They are interested, educate them.

METAPHYSICS

The following is quoted from a letter recently received from a metaphysical teacher, who is a very good friend of the editor, but I most heartily disagree. The arguments used are the same as what I find in *The Daily Worker*, the official organ of the Communists, and in the Jewish press.

"Your prophecies are most interesting. About Russia especially. I can't BEAR to have the Germans win in Russia. I have no sympathy for either country, but the Russians are cruel from ignorance; the Germans are diabolical in their education, cunning and deliberate destruction and egotism. I know too that if the Russians do win, or should win, we would have to join hands with Germany no doubt against them. So it is a bad bet in any direction. I spend most of my time trying to keep in tune with the infinite rather than in action among the strife and struggle of the passing age . . . I try to keep active, but calm, and let the old destroy itself, it will no matter what we do. To fight for Light and Truth is better than to fight for or against right or might materially.

Now I do not think that this is news to you, but it is the principle for which I stand and from which I work, so that I can't put on the fighting spirit AGAINST anything; believing only in good that is eventual. I am trying to save my energies for the fun of living when the old has killed itself. I wish you didn't have to carry on the fight against the wrong. It's SUCH hard work. Just to read the signs of the times and to tell people and then let them take their choice, is so much easier".

Why should we join Germany, if she loses, or vice versa? That argument alone indicates ignorance of the Christian Scriptures. Why is it that so many teachers of Christianity are so ignorant of the prophetic side of the Bible? The Scriptures distinctly say we should not take sides, but remain aloof; and that is what we, as a nation, are not doing. We of America, as well as the British, are remnants of Israel; Russia and about 75 per cent of Germany are Gentiles. That is plain enough for anyone to understand. The greatest slaughter of Christians of all time has taken place in Russia; and yet she is quoted, by ignorant and misguided Christians, as the lesser of two evils. Our present mess in America today is the result of well meaning people, like Pilate, calmly washing their hands of their duties as citizens.

The Man of Galilee never sat on the sidelines, He was in the thick of the fight, even as I am today; He reprimanded, and criticized, just as I am doing. All human progress has come about because some great soul has stood for principle, in spite of overwhelming opposition. Mostly they have been crucified, some on the cross, some by the poison hemlock, some died of a broken heart; but they made it easier for the rest of humanity to follow; by their deeds they lightened the load of humanity.

Frankly, I can not see this Pontius Pilate attitude of washing one's hands. This friend is a metaphysical teacher, and I believe I am correct in saying a great admirer of the immortal George Wash-

ington, who was certainly a fighter, and liberated this nation from the tyranny of imperialistic Britain. Were Washington alive today, he would do the same thing. And what about Lincoln? Was he a pacifist, sitting like Pilate on the sidelines, washing his hands of the national crisis? Indeed he was not, he took his stand like a man, and of course was done to death; but today we place him with the immortals, alongside George Washington. He is not only a great American but one of the foremost men of the world, who sacrificed himself for the country he loved and the God he revered.

I too am willing to lay down my life for the cause of truth; I do not value life for itself, it is purposeless unless sacrificed for the benefit of humanity. No effort is wasted. People often say, "For the few people you reach, what's the use?" That is not the argument of a thinker, I may say the same of their attitude. Your job and mine is to sow the seeds, to stand firmly for the right under all circumstances; to be a beacon light to those we contact, to throw a beam of light across their rugged path. Look at the great names of yesterday, the beacon lights of the past; as far as I can see they stood fearlessly for the truth in spite of all opposition. And today we revere their memory, and rightly so.

I have fought this issue out repeatedly in The Beacon Light, but still it doesn't sink in. Again I say, that is the type of thinking that has allowed the enemy to come in and occupy all the key positions of the nation; simply because the vast majority of the people, supposedly Christian, have neglected their duty as citizens and Christians. And as evidence of the rightness of my position, during a lifetime I have acquired thousands of letters from people thanking me for the light I have shed on their path, not merely by what I have said but because I have been consistent with what I have taught. I am saying, as Jesus said two thousand years ago, woe unto you, scribes and pharisees, hypocrites. I too am trying to drive the money changers from the temple, for they have enslaved the whole world. And those who think they can drive them out by metaphysical mumbling have a rude awakening coming to them. My mission is to fearlessly tell the truth, no matter what the consequences may be to me; and the opposition I get is making me strong. I think I have spiritual perception to a marked degree, as evidenced by my astrological chart; so they can't use the argument that I don't understand. I do only too well. Not those who cry Lord, Lord, but those who **do** the will of the father. And the will of the father is that humanity shall be free. And how will they become free? The Master said, And ye shall know the truth, and the truth shall make you free.

And so The Beacon Light is proclaiming the truth; if we are not proclaiming the truth, will you people tell us wherein we are in error? Don't say 'I don't like what you say', or 'I don't believe what you say;' but submit your proof, and I will give it serious consideration, and publicly admit that I am in error if you prove your point.

Now don't worry as to what is going to happen to me, I don't, so why should you? The Master said, he who loses his life shall find it. Forget yourself and merge yourself in the work at hand. The burden may make you grow weary at times as it does me, but that doesn't matter; in the language of the theatre, the show must go on; and eventually you will wake up to the fact that your cosmic bank is bursting with treasures, whereas those who sat on the sidelines are poverty-stricken.

I don't envy anyone; I wouldn't change places with anyone, because in spite of the wear on my mental and physical vehicles I have the spiritual consciousness, the joy and the satisfaction of feeling I am doing my duty to my fellow man, to my country and to my God. So I say to the Pilates, 'For your own sake stand firmly by the truth, lend a hand to the valiant group who are the salt of the nation'. In the past God said that if He could only find ten righteous men He would save the city. The small handful of fearless men in America are going to save it, or perhaps I should say God will save it because of the efforts of this small handful. As He stated thousands of years ago, righteousness exalteth a nation; but indifference and concern for personal safety is not righteousness. Your heroes of yesterday are my heroes, and they are men and women who carried aloft the lamp of truth; who fought strenuously and fearlessly for principle. That is the picture as I see it.

The many fine influences in my chart are the result of this same attitude in past incarnations; I am a crusader, and I have been a crusader for many, many incarnations; in America, England, France, Italy, away back to ancient Egypt, and then across to Lemuria; that is the path I have traveled; and my stand always has been the same. It is the will of God that I be about my fathers' business; and that I will do to the end of time, in spite of all hell, for the power of darkness will not prevail.

I suggest you read our article in the April number, Judge Not.

NATIONAL DESTINY

Continued from last month

Should a State Rights victory be successful in a coming struggle, then we may expect the One-tax system to do away with our present cumbersome method of a Federal Tax, a State Tax, a City Commodity Tax, and other forms of Tax annoyance. The One-tax system, that is, each citizen paying into the State Treasury his share of the State's financial burden would be so divided as to cover the State expenses consisting of:—

- (1)—Money allocated to run the Cities and Towns of the State.
- (2)—Money allocated to run the State's normal requirements of upkeep and conservation.
- (3)—Money allocated to the Federal Government to maintain its minimum requirements. This would take the form of a percentage from each State based upon population and industry etc.

In this manner the States of this Union would keep control of the reins of government and put an end to all this nonsense of burdensome taxation and billion dollar expenditure. With each State bearing its financial burdens and the Federal Government thus kept in check and owned by the people once more through their respective States and Zones, it would prove extremely difficult and well nigh impossible for dishonest leaders to spend millions of tax dollars from one State to benefit another for purely political purposes, or "Projects" as they call them. The One-tax system would call a halt to this type of political corruption by making sure that Federal requirements were just enough to cover the expenses and no more. The true wealth of this nation would then be back within the States, with no one particular State controlling anything outside of its own boundaries, but all together, collectively in Union, they would balance and check, control and curb the Federal Government by the allocation of power and money via State and Zone. The original balance and check system designed by the founders of these United States has been more than impaired these last few years. It has been literally smashed by the recent legislation of the past eight years. Some of it was highly constructive, most of it destructive.

As matters now stand the Federal Government has become a veritable octopus able to strangle any State or part of the country it desires for this or that infraction of its own peculiar Un-American

legislation. This existing situation cannot last and when the next Uranian cycle appears beginning in 1942, there will be a distinct attempt made in the seven years that follow to curb the present Federal autocracy, and we shall see the issue of Taxation with that of State Rights becoming one of the major factors in history again as in 1776 and 1860. At this time no amount of political juggling by the Federal Acrobatic Society will be able to resist the rising tide of indignation that will sweep the country culminating in the bloodshed of national civil strife. At this time the perpetrators of such mischief will seek to escape the country the same as they did in Europe. The mischief makers and the so-called "Refugees" will be forced to take their medicine in America, for having made such a mess of almost every country on the face of the globe there will be no place to flee to. In other words, America will prove to be their last stand. Its do or die here on this Continent as we shall see.

As opposed to all we have said in favor of the Rightist group, the Christian American group of Nationalists, a Leftist group victory made up of our existing International-Liberal fraternity, will leave us with little more than State names and appointed Commissars, the Federal Government taking all control. We shall then have forty-eight vassal States, which is almost the condition of them today but not quite, and these will be bidding for favors from an all powerful Internationalist and Communist Government masquerading as Americans, Liberals, Socialists, and of course they will be for the people but you must make sure you are the right kind of people, alien and Judaic and believe in all the gutter principles they brought in from Europe or else be liquidated via the machine gun, which by the way is the only thing these people know and consequently fear. If this type of Leftist victory prevails we shall see our one hundred percenters, our real patriotic Americans forced into a position by burdensome taxation and seizure, leaving the country by droves to start life anew in other lands. This is not a very cheerful picture but do not be deluded that it "Can't happen here", it can and will if the International-Liberal fraternity now in power can complete their plans already outlined and in operation now partly subversive and partly open.

We must very shortly make our choice. If we follow the existing government trend we shall eventually forfeit what little freedom we possess, for the present road we are now travelling leads us direct to the Communist system. It is distinctly a Leftist system, alien, and opposed to the American ideals of the Constitution. The new system

of the State Rights group or Rightist faction will undoubtedly be a combination of National Socialism and Fascism via States and Zones as already outlined. If this be the case, an outraged and militant Christianity will adhere itself closer to the principles of the Constitution and at the same time provide a Chief Executive of the benevolent dictatorship type who will represent the people of these States and not one who would try to rule them as at present.

Those who hope for a middle road between these two will probably be disappointed. Our existing government policies have veered too far left. The coming swing will be definitely Right offsetting by bloodshed and civil strife all Leftist doctrines. The recent Spanish affair was a lesson to all intelligent people. Unfortunately our present leaders do not belong to this category. It will be many years before we see the pendulum of the American clock swing back to dead center of the "Good old days" as many like to call them. Those days are gone forever if they actually existed, for will not these present days seem like the "Good old days" to many of us later on? Yes, all this is connected with our issue of Taxation.

4 — CAPITAL and LABOR

In this issue of Capital versus Labor we find very little Unity. These two age old contestants represent two distinct types of thought. The belief of one is that Labor should own and operate industry. The belief of the other is that Capital supplied the money momentum to start industry therefore it should receive everything over and above normal expenses that it can get out of industry. Here we have the two schools of thought in a nutshell.

Within the next few years during our Uranian cycle this issue is due to be solved and we can almost predict that neither side will win. It will necessarily have to be a combination. Human selfish greed on the capitalistic side of the ledger was the direct cause of Labor organizing itself into Unions in order that it could get protection against the frightful long hours and sweat shop conditions that it was forced to undergo, even today this condition has not been wholly rectified, and the so-called defense work threatens to put Labor back where it started from. The government that Labor has so foolishly condoned because of its promises now threatens Labor at the point of a gun. Capitalism in its eagerness to uphold its rotten international system and get Hitler now seeks and threatens to coerce and control Labor through its government stooges. Both Labor and Capital have suffered most from their own dishonest members, and Labor especially through its inability to analyze correctly the

moves purposely made to affect it. Sugar coated promises are swallowed whole by mass Labor which invariably brings about upheavals as indigestion within its own ranks. Labor and Capital are constantly having to contend with their own dirty linen in the guise of Labor Racketeers and the so-called "Smart money Man" of fraudulent Stock and Holding Company deals, and the squeeze play of certain financiers.

Actually there can be no quarrel between honest Labor and honest Capital. Both are required for industry and it is only a matter of time in the next few years when Labor and Finance will work hand in hand to such a degree that Labor Unions will not be required for the purpose that they are today. There will be a fraternal understanding between Capital and Labor whereby Labor receives the just fruits of its efforts in the form of dividends and shorter hours over and above the required normal running of any industrial operation. However, before actual peace can come between these two forces both sides must learn the true meaning of Industrial Brotherhood of which co-operation is only one aspect. The Labor Racketeer and the Smart Money Man must be expelled from both sides as one of the essentials to industrial peace. Eventual legislation will cause these ideas to become somewhat permanent and those who run Capital and Labor will be the guardians of this new order.

In the coming days of this new order, whichever faction of Right or Left rules the country, that faction will have to settle this age old dispute between Capital and Labor. Failing this it will be unable to keep the wheels of Government running smoothly. True government does not involve itself to the extent of trying to place one of these factions above the other. It is aware that these two forces must be balanced, and that they must have equality and be run on this basis to prove successful. Before the next few years have run their course, men will be only too glad to co-operate for they will be heartily sick of bloodshed and civil strife.

Unfortunately, in the coming trial ahead, a large percentage of Labor will be found in the ranks of the Leftist and Liberal-Socialist faction. They will be told that their bread and butter and a chance to own industry will be theirs for the asking. There will be many whose lack of intelligence will cause them to believe this fallacy. They will have lost sight of the fact that Communism and International Capitalism are in reality the two wings of the same bird.

American Labor is divided into two camps, that of A. F. of L. and C. I. O. This is not such a serious division, but it could be made so if

certain forces are allowed the upper hand. On the other hand we find the forces of Capitalism are also divided into two groups, and this division is serious for its monetary effects upon the whole country. These divisions on the Capitalist side are represented by a domestic or National Banking group and an International Banking group not discernable to the general public. The ramifications of both these groups are such that they are intertwined in many phases, the latter group constitute a grave danger to American institutions. Their money manipulations are such at times that behind the scenes they affect the course of government to their own secret ends. The system of banks and businesses they control are intrenched in most of the world's capitals, and Labor in every country has suffered more from this class and their subversive money manipulations on the course of government than from any other source. Labor is not intelligently aware of the true situation and is constantly being egged on to fight Capitalism by certain of its own members who are vitally conscious of the ultimate outcome and who are more often than not alien members of the International group, that very group who are forever seeking to take over by fair means or foul, anything from one small industry to a whole Government.

Lest we be accused of persecution we have only to look into the Spanish and Russian situations to see who supplied the capital for such wholesale slaughter in those countries. The ranks of technicians and professional white collar classes in Russia were practically wiped out during their revolution, so much so, that for years it was necessary to import these classes from other countries, so thorough had been the extermination of essential technicians. It is best for honest Labor and honest Capital to face these facts now before trouble commences. Being aware and intelligently informed is half the battle.

The coming strife will make strange bedfellows. We shall see much of Labor hoodwinked to the Leftist cause, and white collar technicians too, many of them ignorant of the fact that this very cause is backed by the same alien International money group that has financed two revolutions and most of the bloodshed and strife of the world wars this past one hundred years. Their system is extremely simple, a controlled subversive press campaign against this or that cause or group will recruit thousands to do their bidding, and once in uniform these thousands become the brave and patriotic soldiers defending their country's right, which really means in nine

6 copies of this issue for \$1.00; circulate them among your friends

cases out of ten, the right of an alien International money group to take over more wealth and to defend their ill-gotten gains with the lives of those who are unaware of the true nature of things and true meaning of patriotism, and who are stupid enough to lay down their life so that the selfishness and greed of those certain few diabolical characters may be appeased. This is the great "World Hoax" of the International Financiers in which honest Labor of all classes inevitably becomes enmeshed through lack of discernment.

5 — THE RELIGIOUS ISSUE

Roughly speaking we are made up of approximately 80 to 90 million Protestants, 20 to 25 million Catholics, 10 to 12 million Negroes, and approximately 5 to 10 million Jews. All of these on the surface stress Unity and Tolerance, yet underneath, there lurks that ancient enmity between one religious faction and another. It is true that in many thousands of people, religious enmity has been burnt out. To many of these, religion as set forth has little meaning. Many have also risen above the narrow sectarian outlook that continually darkens the minds of men instead of enlightening them, and this of course is not so much the fault of religion itself as it is of the narrow theological viewpoint and teaching of its ministers who are forever expounding catechism and ritual and teaching far too little of the philosophy of life.

As we approach our next Uranian cycle we must not be surprised to find certain specialized and alien groups attempting to split the Christian fraternity by a direct fostering of hatred between Catholic and Protestant. There is an age old feeling of enmity here that takes very little kindling to flame.

On account of the Communist element in Russia, Spain and other countries trying to eradicate and "Liquidate" Catholic institutions by burning, slaying and general destruction, it is only natural that such actions abroad should have serious repercussions here in America among our Catholic population. They have been reading of these attempts to destroy their institutions for many years, so much so, that the majority have become aware that this Communist element is mainly of Jewish origin and fostered by them. Naturally, among the Catholics of America we find enmity and bitterness against Judaic law and thought which is unappreciated by the Protestant element. Our factional table previously given places fifty percent of the Protestants in the Leftist column because they will deem the Catholic Church a greater menace than the Synagogue or will have been hoodwinked by subtle propaganda of Leftist ideas

subversively put out by press, radio and screen, etc. Our fifty per cent Protestants in the Rightest column of our factional table represent those who are all-wise to the Judaic scheme of domination and who believe that Christianity, whether it be Catholic or Protestant should stand together and prevail over all other forms of anti-Christian ethics, doctrines, and government.

It will be noted in our factional table that ninety percent of the Catholic group is in the Rightest column. We have placed them there because of their recent education which has made them aware that all Leftist and Communist doctrines will eventually prohibit their form of religion and worship as it already has done in Russia, and attempted to do in Spain and Mexico where religion became a perfect opiate proving once again that theology in its teachings fails to take into account that all pervading Cosmic Law, the Law of Compensation, which operates without respect upon the smallest atom and upon the greatest god that mankind can perceive. This Law in the course of time will force the Church of every denomination to teach a true religion in accordance with life as it really is and not in accordance with their respective fanciful notions of it. The greatest of humans do not label themselves by sect or creed, they stand above, yet low enough for human need.

From the standpoint of the religious issue it is obvious that our Rightest group is slowly welding itself together into a common body that will eventually prove to be Militant Christianity by word and deed against those who espouse the cause and doctrines of the Leftist group.

FROM SOUTH DAKOTA:

"I am enclosing draft for \$5.00 to help things along. I would regret very much to see the Beacon Light go under. Here's hoping no such thing happens.

Wishing you better luck in the future. I am, . . . "

Washington D. C. Under The New Deal

The following is quoted from Charles B. Hudson's "America In Danger", Omaha, Nebraska, of August 19th:

"In 8-15-41 Congressional Record two other Southern Democrats, who had voted for Draft-Extension Bill use up numbers of pages to paint direful picture that while Congress is gone until 9-15-41, race riots might break out in Washington, D. C. (incidentally, if national emergency so great as to justify passing Draft-Extension Bill, why does Congress go home?). They insist that even though Washington does not have industrial problems and yet has police force large compared to other cities, at least 100 more police must be hired pronto. Rep. Rankin of Miss. declaring he would make it 300 more. Rep. Woodrum of Va. sings same song. Why worried?—because since Jan. 1, 19 accomplished ravages of white women by Negroes have occurred in Washington, with 65 re-

ported attempts, and probably 100 more unreported, with many murdered; and due to fact that in 4 precinct "no policeman dares walk singly. They must walk in pairs. . ."

Rep. Rankin claims: ". . . The Communists in this town are stirring this trouble up. They have been working amongst these Negroes for years, not only here, but all over the South, trying to stir up trouble between the races . . . Many white people are now moving out of the District of Columbia because of the fear of what may happen. The law-abiding Negroes are scared to death. Certain Members have been nagging the South on the race question ever since they have been in Congress. One of the main planks in the Communist program is to destroy the white civilization in the Southern States. (See 'The Fifth Column in the South': Ed. B. Lt.) That is one reason they tried to sneak through a provision here the other day to take our firearms away from us. Fortunately we caught it in time and killed it by a vote of five to one.

"Now let me remind you that, as Henry Grady once said, we wrested the South from the rule of the Negroes, the scalawags, and carpet-baggers when Federal drum beats rolled nearer, and Federal bayonets hedged closer about the ballot box of the South than it ever will again in this Republic".

"During the 75th Congress the gentleman from Conn. (Mr. Koppleman) (C B H-Russian-born Jew) introduced a bill (H. R. 5333) to force every white hotel, restaurant, picture show, theatre, and every boarding house in the District of Columbia to admit Negroes, under penalty of fine and imprisonment. I insert the entire bill at this point:

I submit that *no human being could have written a greater insult to the white people of the District of Columbia, or one fraught with greater danger to the law-abiding Negroes, as well as the white people, in Washington. What has been the result of all this agitation (C H B-Jews and Reds)? It has encouraged the brutal Negroes to assault white women in every section of the city . . . Every time that someone high up socially or politically (C H B-Mrs. Roosevelt et al) comes out and advocates social equality, or race amalgamation, some innocent white girl in Washington pays with her life, or suffers humiliation that is worse than death. This is the only capital in the world, outside of the war zones, in which a white woman is not safe. . .*

"'Red' agitators are circulating throughout every Southern State and stirring up race trouble wherever they can. If they could get a bill of this kind passed (C H B-promoted by Jews), then they would try to make it a model for the whole country . . . I am in favor of a system of national defense that will forever protect my country against all enemies, foreign and domestic. I am for saving America for Americans."

We have been berated by metaphysical teachers and people with the Pollyanna complex, about hating Jews and Communists. But I wonder how these fine ladies would feel if they should be pounced upon by a Negro, possibly one suffering from syphilis, and raped; would their love for humanity include the attacker? Perhaps they have a daughter of high school age; suppose she were the victim?

Friends, I have many times told you there will be a wholesale raping of white women, not only by Negroes and Mexicans but by the criminal element in every large city in America. I hope that when that day comes the metaphysical teachers will get their dose because they have opposed men like myself who have warned you of the ultimate program. It will take just such an experience to wake some of you women up. It took a few bombs to snap Alice Bailey out of her peace-at-any-price complex. Now she wants to plunge America into war, not caring how many mothers' sons are sacrificed.

Let me warn you Pollyannas that Cosmic law will see that you

are placed on the firing line, because by your indifference you have brought this thing about.

representatives in Washington, most of whom play politics and have no thought for the wishes or the good of the people.

Every day, in the stores, cafeterias and on the street, I talk to other women and the response is the same: "Isn't it awful, but what can we do about it—we have no leader and no one pays any attention to us. We know it is gigantic political racket and spending spree, that it is costing we, the people, an awful lot of money to keep the Roosevelt Administration and the millions put on the Government pay roll."

I don't ever run across anyone who approves of all these goings on. It is the same technique Roosevelt has practiced for 10 years—propaganda to frighten the people, then request and get more power and more money; and still it works.

Examiner, you are doing a grand work, but tell me, I speak for millions of women, what CAN we do to combat the awful influence in Washington and get back to self-respect? When there is no honor among our representatives and we can not believe a word they say, what in the world are we going to do? Sue Davis."

A few days ago I read in my paper an account of an aircraft worker who placed his car out in the hot sun, and the heat generated set the car on fire; spontaneous combustion. The people of America are generating a terrific heat at the present time, and like the writer of the above letter they are longing for action. Now when such a situation as this exists, spontaneous combustion, or an explosion, is bound to take place, sooner or later.

The lady is wrong in saying Congress does not take any notice of the letters, they do. We would have been in a shooting war long ago were it not for the millions of letters and telegrams to congressmen.

From the present melee will come a leader, a strong man. That man may not realize at present his destiny; but nevertheless such a man will come to the surface and assume leadership after FDR has

What to Do About It

Some 300 newspapers, magazines, etc., come to my desk every month, representing a cross-section of the American press, Jewish, Catholic, Protestant, various shades of the latter; and through them all I see a ray of hope and an awakening. This is especially true in the small town papers, although by no means confined to it. So I have taken one at random from today's L. A. Examiner, and here it is:

"WHAT TO DO ABOUT IT?"

To the Los Angeles Examiner:

It does no good to follow the suggestion of the Hon. Hiram Johnson and write to Washington. They have complete control of Congress and the elections and why should they care what the people think? We never know whether they are telling the truth when they say they have received at the White House millions of letters in favor of a certain move—they would say the same if all letters were against it. The fact is that the people can no longer trust their

been removed from the scene. I am sure that he will be removed; whether through accident, illness or impeachment it does not matter; the forces of opposition within the nation are too strong for him to hold the saddle much longer. He is riding a bucking broncho, and it will throw him, sooner or later.

The meeting with Churchill, and the Russian tie-up, have definitely split the nation, and we can never be united under his program. I doubt if more than 10 per cent of the people favor such a tie-up. Even the British-Israel groups, who were 90 per cent for him at the election, are balking at this one.

My own experience confirms what this lady states; the people have lost confidence in their representatives in Congress to a certain extent. Certainly they have lost confidence in the President and his New Deal set-up. But do you people realize what a tremendous opportunity for literature such as *The Beacon Light* there is at present? And yet, many of you say, 'I haven't any contacts'. Yet when I come to question I find you have many contacts; everybody has. You can carefully feel your way; but fully 90 per cent of the people I contact feel like the writer of the above letter.

Education always precedes action; millions of people in America need the information such as we gave, in *Union Now*, *The British Secret Service Report*, *the Bank of England and Its Control*; *England's Efforts to Destroy Our Nation*; and so on, and on. Instead of milling around and putting on a second edition of the *Lamentations of Jeremiah*, do something. Pledge yourself \$1.00 a month and get 6 copies; that is only about 3½c a day. The Government is going to take a whole lot more than that in taxes. Many of you can afford to pledge yourself \$10.00 a month. If we had a fighting fund of several hundred dollars a month we could put out several thousand copies a month. Obviously I can not pay for them. My earning on the side lines has almost ceased to exist, it has been dwindling for more than two years, and now it is but a dribble. I have much fine material we should like to put out, but we are hog-tied. We, the people, are engaged in actual warfare, namely, of ridding ourselves of the parasites who have assumed control of our government and country. Certainly this is a holy crusade, and every single one can do something. Many are paralyzed with the 'I can't do anything' idea, which is not true. Change your mental picture; you are licked before you start when you say 'I can't'. A united effort on the part of loyal Americans, with a march on Washington demanding impeachment would settle the issue in 30 days; it can be done and it will be done sooner or later. Let's make it sooner.

The Jew control of news stands and other channels is almost 100 per cent; The Beacon Light can not go out through these channels, it is not permitted, and so the necessity for your doing missionary work. Let's have volunteers for tithing for 12 months, so that there is no uncertainty of funds. At present we dare not plunge, we never know from day to day what to count on. For one man it is a big task; divide that up into a thousand units, and it is nothing—for a thousand people purchase The Beacon Light, through subscriptions or dealers, each month, and at least five thousand read it, ten thousand would be nearer the mark. Just imagining what we can do, if each does a little! I am sure you could average \$1.00 a month each; obviously, people like the lady we quoted whose income is \$8.33 a month could not be expected to contribute, but there are more than enough of those in the higher brackets who could make up the difference.

Now as I told you before, we will not continue unless you people take your part seriously. At the bottom of this article you will find a pledge for one year; but don't sign it unless you mean to carry it out; it would only place me in a position of false sense of security. You are either going to do something of this nature, or we will drop out of the picture and let you take your medicine.

We want to enlarge the magazine; there should be groups in every city that will each month mail samples of The Beacon Light to real Americans in prominent positions. Every month we mail them out to strangers who write to various papers, when they give their name and address. You will find such a list in the Hearst papers every Saturday. We have had some very encouraging results from this method.

You are now in a corner. You can get out by fighting and working, or you can remain there until the enemy is ready for the kill. Take your choice; there is no alternative.

William Kullgren, The Beacon Light, Atascadero, California:

"Thy Kingdom Come"

The material for this book was published serially in The Beacon Light last year, and presented to the public in book form in October; and has created something of a sensation among thinkers, especially among men and women who are leaders among leaders. We have letters from ministers of many denominations, and the book has only been out about 30 days as this is written. Metaphysical students of many schools have proclaimed it the Book of the Age.

Let me quote one of the many enthusiastic testimonials, received from Dr. Juno Kayy Walton, daughter of Julia Seton, internationally known Truth teacher, and herself president of California Institute of Numerical Research Inc. and the acknowledged leader in the field of numerology:

"Dear Mr. Kullgren: Congratulations! You have put out a wonderful book. It is colorful and attractive from the first glance, and the Bible references quoted make it very valuable.

"It is gratifying to me to know that the Letters are now in book form for all to read; they are too valuable to be given only to the few, and this is written with so much sincerity, love and sweetness. I first received them in 1934, and at that time it seemed an impossibility that a greater war could come, or any of the prophecies of change could come. But year by year I have seen the prophecies come true, and there is every reason now to believe the rest will likewise be true.

"There is nothing to fear in the prophecy of change; instead, they give me a feeling of joy, that so soon the old, false ways of living and the unfair methods of business and politics will be a thing of the past. Then we will all share in a happier world, good to live in."

'Thy Kingdom Come' contains a message of hope for a despairing world, for it gives the workable economic plan of the future; a divine blue print of God's plan for the human race, based on the laws of God, or if you prefer the laws of Nature.

This is the goal of all idealists, and this plan should appeal to all sincere seekers for a workable solution to the world's problems.
