CONTENTS OF BUCHANAN'S JOURNAL OF MAN, VOLUME I.

	Page.		Page.
No. 1. —January, 1849. Engravings—Gen. Taylor—Gen. Cass.		No. 8. —September and October, 1849. Illustration—Engraving of Intellectual Organs and Contrasts of Development.	
ART. I. —The Presidential Candidates,	1	ART. I. —Sympathetic Impressibility,	353
ART. II. —The First Number,	3	Insanity and its Causes,	
ART. III. —What is Neurology,	5	ART. II. —Researches in Organic Chemistry, by Daniel Vaughan,	360
ART. IV. —Neurology in New York,	12	ART. III. —Brief Outlines of Neurology,—Part I.—Practical Phrenology—Intellectual Organs,	384
ART. V. —Sympathetic Diagnosis of Disease,	35	Letter from a Physician,	400
ART. VI. —Interesting Experiments,	39	No. 9. —November and December, 1849. Engraving—Map of the Neurological System.	
ART. VII. —Objections to Phrenology,	41	ART. I. —Brief Outlines of Neurology—Part I.—Practical Phrenology—(Continued),	401
ART. VIII. —To the Readers of the Journal of Man, Future Subjects—Dr. Rice,	48	ART. II. —Sympathetic Impressibility,	412
No. 2. —February, 1849. Engraving—M. Van Buren.		Neurological Experiments,	425
ART. I. —Psychometry,	49	ART. III. —Researches in Organic Chemistry,	426
ART. II. —Reichenbach's "Researches in Magnetism,"	62	ART. IV. —Mesmerism in India, by Dr. Esdaile,	430
ART. III. —Vaughan's Discoveries in Organic Chemistry,	72	ART. V. —Present state of Medical Science,	
ART. IV. —Cholera—its Causes and Cure,	80	Familiar Table-Talk—Condition of Europe—Hungary—Rome—London and Paris—Ireland—Egypt,	447
ART. V. —Intuitive Science—Cholera and Potato Rot,	90	No. 10. —January and February, 1850—64 pages.	
Reception of the Journal,	96	ART. I. —Sympathetic Impressibility,	449
No. 3. —March, 1849. Engraving—Spheres of Good and Evil.		ART. II. —Brief Outlines of Neurology,	463
ART. I. —Psychometry—(Continued),	97	ART. III. —Lectures on Electro-Biology, or the Voltaic Mechanism of Man, by Alfred Smee,	477
ART. II. —The Spheres of Good and Evil in Man, ..	114	Human Electro-Magnetism,	496
ART. III. —Animal Magnetism—Review of Deleuze, ..	118	ART. IV. —Spirituality—Recent Occurrences,	490
ART. IV. —Our Destiny,	127	Insanity from Religious Excitement,	506
Familiar Table-Talk, p. 130—We and I—The Greek Slave—P. M. Dezhong—Witchcraft in Ohio—Vaughan's Chemical Discoveries—Balloons—The World's Condition and Progress—Peace Congress at Brussels—Education in Indiana—Emancipation in Kentucky—Law Reforms—Neurological Lectures—Future course of the Journal—Scientific Engravings—Correspondence—Union—Apologies, ..	144	Familiar Table-Talk—Scientific Exhibitions—Electro-Biology—Presentiments—Annoyances—Valuable Improvements,	507-512
No. 4. —April, 1849. Illustration—The Cranium.		No. 11. —March and April, 1850—64 pages.	
ART. I. —Psychometry—(Continued),	145	ART. I. —Duality and Decussation—Connection of the Double Brain and Double Body,	513
ART. II. —Craniology and Craniotomy,	157	ART. II. —Mesmerism in India, by Dr. Esdaile—(Continued),	539
ART. III. —Capital Punishment,	163	ART. III. —Terrestrial Thermotics, by Lieut. E. B. Hunt,	542
ART. IV. —Animal Magnetism—(Continued),	172	ART. IV. —Electricity—Suggestions of Profs. Loomis and Rogers,	547
ART. V. —Cholera—its treatment,	175	ART. V. —Rev. T. H. Stockton and Christian Union,	549
Table-Talk—The Titlepage of the Journal,	192	ART. VI. —Elihu Burritt and Universal Peace,	553
No. 5. —May, 1849. Illustration—Cranium of a Convict—a Translucency.		ART. VII. —A Grand Discovery—A new Fuel and Gas Light,	557
ART. I. —Education,	193	ART. VIII. —The Great Mystery—Latest Intelligence,	562
ART. II. —Psychometry—(Continued),	208	Familiar Table-Talk—Illustrations of Neurology—Mr. Spencer—Dr. Williams—Mr. Vaughan—Key to Electro-Biology—Smee's Electro-Biology—Phrenology and the Scriptures—Moralism and Christianity—Anthropology—N. Y. Tribune and other Journals,	569-576
ART. III. —Craniology and Craniotomy—(Continued),	227	No. 12. —May and June, 1850. Engraving of Gerit Smith.	
ART. IV. —Perpetual Motion,	235	ART. I. —Brief Outlines of Neurology—Part II.—Physiology,	577
Familiar Table-Talk, p. 238—Dr. Harney—Mesmeric Exhibitions,	239	ART. II. —Baron Reichenbach and Professor Caldwell,	589
No. 6. —June 1849. Illustration—Anatomy of the Brain.		ART. III. —Vaughan on Organic Chemistry,	594
ART. I. —Anatomy of the Brain,	241	ART. IV. —The American Kepler—Kirkwood's Analogy,	596
ART. II. —Mesmerism in India,	253	ART. V. —The Presidential Candidates—Taylor, Cass, Van Buren, Smith,	600
ART. III. —Psychometry—(Continued),	269	Notices,	639
Familiar Table-Talk (p. 278)—Vaughan's Chemical Discoveries—Journal Soiree—Edinburgh Phrenological Journal—American Phrenological Journal—West. Quarterly,	288		
No. 7. —July and August, 1849—64 pages.			
ART. I. —Anatomy of the Brain—(Continued),	289		
ART. II. —Mesmerism in India—(Continued),	301		
ART. III. —Animal Magnetism—(Continued),	316		
ART. IV. —Impossibility,	321		
ART. V. —Researches in Organic Chemistry,	330		
Familiar Table-Talk (p. 341)—European Affairs—Bombardment of Rome—Freedom in Europe—N. Y. Tribune—Miss Blackwell—Mesmeric Institute, ..	352
