The pleasant memories of experiences had in our philosophy in leaving the "Dear Pacific Coast," are many, and as are cheerfully given. During my stay in Onset, July and August past, I had many messages of cheer from loved ones gone before, giving me great encourage.

Prayer.

As Satan passed through Heaven from A walk on earth one day, The Lord looked up and questioned him: " Didst hear my creatures pray?" "Ay, Lord; I heard their prayers resound, And their meanings I understood, But, my soul, not one of them "Prayed for his brother's good."

Then looked Jehovah fire and flame, And spoke this fierce decree: "Who makes a selfish prayer is thine; The others come to me!" Then all that night on heaven's walls The Lord and Satan stood, To see how many sons of men Would pray for brother's good.

Alasl they watched there many an hour, And yet there came no sounds; The poor they prayed for pennies, and The rich they prayed for pounds; The ugly prayed for beauty, The awkward prayed for grace; The old ones prayed for youthful looks To hide a wrinkled face.

The limping prayed for healthy joints, The red-haired prayed for brown; The short ones prayed for longer legs, The long to be cut down. The brown eyes prayed for blue ones, The cross-eyed prayed for straight; The fat ones prayed for melting down, The lean ones prayed for weight.

The doctor prayed for sickness, The undertaker death; The captive prayed for sunshine, The phthisicky for breath; The maiden prayed for lover's vows; The soldier prayed for war; The beggar prayed for horse to ride; The drunkard prayed for "more."

The sick man prayed for break of day, The thief for longer night: The miser prayed for more of gold, The blind man prayed for sight. At last there came a tearful voice Up to the star-lit sky: "Oh, may my uncle's soul this night . Rest with the Lord on high!"

"There's one for mel" Jehovah cried; " Not so!" the Devil said; "He's heir to all his uncle's wealth, Hence, wants the old man dead." Just then there came another voice,

In supplicating tones: "Oh, may the grave be late to close O'er neighbor David's bones!"

"There's surely one for me at last!" But Satan cried: " Not yet! He merely wants the man to live Until he pays a debt." And so they waited till the stars Went out at break of day; Then Satan seized his bag of souls And sped his homeward way.

Upon high Heaven's glittering wall Long had they listening stood, But not a mortal all that night, Prayed for his brother's good! -INGERSOLL LOCKWOOD.

Then there is uphill work for such ones, for they see how wide a circle has been made by what they thought was but a pebble that scarcely ruffled the smooth surface of their prosperity, and they must experience here the heartaches they caused there, if they did not begin the work of their wrong-doing. Women who are Always Complaining.

[Cincinnati Enquirer.]

The egotism of the sex leads its members to be always balancing their sensations in a pair of scales, weighing them with the utmost nicety and exactness, or else to place them under a mental microscope to be carefully studied. Habits of introspection and self-analysis are most calm judgment impossible. The training that women receive, and their habits of living, are calculated to heighten emotional sensibility and nerve sensitiveness, and their love of excitement is a most dangerous element in degeneration of the organism. They yield easily to all passing, real or imagined, disorders without making any effort to forget them, belittle them, or rise superior to them.

To be fragile and frail in appearance, to have a look of extreme delicacy, is the consuming desire of our women. DESPOTISM. - What greater punishment than for a learned mind to be forced, in its prime, from the companionship and association of all that it lived upon and developed? One of the most painful persecutions that has come to our mind for many a day, is the case of Alexander Krapatkin, who was so persecuted by the Russian government that he was driven to suicide last month. For some offense, (an educational one, it seems,) he was sent to Sibera for a term of years. After his release from exile, he was forbidden to enter any university town, to communicate with any institution of learning, or to pursue further his scientific works; by this proscription he was driven to despair. He was but forty-five years old, yet had translated many great English works into Russian, and was one of the first astronomers and meteorologists of the gence is always desirable.

When we said the churches are full of Spiritualists, we meant what we said, and stated a fact; but they are not known and recognized as such. They are ashamed to let it be known they are Spiritualists, and so hide their light, and leave the name to be made a reproach by the unworthy. It is assumed their social and business relations would be injuriously affected, if their true character was known. And so, indeed, they would, for a time. There is such a lamentable lack of Christian charity in those that profess to be the disciples of Christ, that one can not depart from the letter of the creed and not suffer ostracism in all the relations of life.

But are those reasons sufficient to justify true Spiritualists in hiding their light under an assumed name? Is it right to profess to be what we really are not? Can Spiritualists consistently assume to indorse a creed they do not believe? And, if Spiritualism is true, and we know it, do we not deny the truth while we reit. ING AND PUBLISHING COMPANY."

This Company is duly incorporated under the State laws, with a capital stock of \$15,000, divided into 3,000 shares of \$5 each.

The corporation is invested with power to carry on a general printing and publishing business; to ceive, hold and dispose of bequests; to deal in books and periodicals; in short, the foundation is laid for the future of a large publishing, printing and book-dealing business.

It is agreed that each share of the capital stock of said Company subscribed for shall entitle the holder to an annual dividend of ten per cent., payable in subscription to the paper. That is, the holder of five shares, or \$25 of stock, shall be entitled to a copy of the paper free, so long as the corporation exists, together with all the be found to be replete with interesting and instructive profits and advantages which the ownership of said stock may bring. (The paper at \$2.50 per annum—the lowest price at which it can be afforded-being equivalent to ten per cent of \$25.) For any less number than five shares a pro rata reduction will be allowed on subscription to the paper. Thus, the holder of but one share will receive a perpetual reduction of fifty cents on his annual subscription. That is, he will be entitled to the paper for \$2 per annum. The holder of two shares will pay but \$1.50; of three shares, \$1; four shares, 50 cents, and of five shares, nothing.

By this arrangement every share-holder will receive, as we have before stated, what is equivalent to a perpetual annual dividend of ten per cent. The subscriber for twenty shares of the stock, or \$100, would be entitled to four copies of the paper. He could, if he chose, dispose of three of these copies among his acquaintances, at the regular subscription rate of \$2.50 for each per annum, and thereby realize what would be equivalent to a cash dividend of seven and one-half per cent on his investment, and have his own paper free in addition.

As no more stock will be sold than will be

necessary for the needs of the business-which will not be likely to exceed, in any event, over fifty per cent of the nominal capital-and as the paper will be conducted on the most economical principles, there will be no probability of, or necessity for, future assessments. The sale of the reserved stock would be ample to meet any contingency that might possibly arise. But, with careful management, there will be no necessity to draw upon this reserve. On the other hand, from the present outlook and the encouragement the paper is receiving, we confidently believe that the time is not far distant when the business will pay a fair cash dividend upon the stock, in addition to that already provided for.

Any one ordering stock (only a few hundred shares are now for sale), will receive a certificate containing a guaranty of free subscription in accordance with the above plan.

Materialism vs. Immaterialism.

EDITOR OF GOLDEN GATE:

There seems to be a terrible fear of materialism in the minds of many people, and even in the minds of some who seem occasionally to think.

A Train Dispatcher's Story.

[Detroit Free Press.]

Several years ago I was employed as stricking 12." train dispatcher on a Southwestern American railroad. As usual there were three of us in the office. I had what is called the "second trick," my hours of duty being from 4 P. M. to 12 P. M. The third night and worked till 8 A. M., was a parman of high character, a fine dispatcher, account for it. and very popular; and when, during the burning days of July, it became known among the men, that he was confined to his room by a severe attack of malignant fever, many were the expressions of regret and of hope for his speedy recovery.

During the trying days of Charlie's illness I spent all the time I could spare by maining two of us to "double up"—that is, work twelve hours each, my watch being from 8 P. M. to 8 A. M.

with Charlie, whose illness had now reached a critical stage and seemed to show little prospect of improvement.

Hence, as you may imagine, I was not at all pleased to find that I was likely to have a busy night of it. A wreck on the road during the day had thrown all the regular trains off time, and besides the usual number of special freights there was a special passenger train to leave Linwood, the eastern terminus of our division, at 11 returning from a picnic. For several ing delayed by hot journals; nevertheless I hoped to get them into Linwood before the excursion train started west.

on time, and it was 11:40 P. M., when they reported for orders at Linwood. fixed up their orders, got the report of and entered it on the train-sheet. Then, minutes' breathing time, I rose from the under the heated gas jets over the table. I was alone in the office, and as I sat there enjoying the cool breeze which came in through the open window a neighboring church clock rang out the hour of 12. From force of habit I glanced at the door almost expecting to hear Charlie's light footstep on the stair and see the door open to admit him as of old.

first thought was that in the delirium of only beautiful, realities. fever he had escaped from his nurses and made his way to the office, but when I left lieved that he had strength to get out of bed. I sat and watched him in speechless surprise, which was increased by his

strange manner.

Instead of his usual hearty greeting he took no notice of me at all, but walked directly to the table and sat down. Placing his hand upon the key he began calling "Q," which was the signal for Elm Grove, the first station, six miles west of Linwood. "I, I, Q," came the response. "Put out signal for special passenger west and copy." "Ro," "Ro," " Ds," rang out the sounder with Charlie's nimble fingers upon the key. "Ro" was the call for Rosedale, the second station from Linwood, eight miles west of Elm Grove. "I, I, Ro," came back the an-

OUR SUNDAY TALKS:

Gleanings In Various Fields of Thought,

(Late Editor of the "San Jose Dally Mercury.")

By J. J. OWEN.

REVISED AND ENLARGED. SECOND EDITION.

Following are some of the Press opinions of the first

We consider the volume a most readable and useful compilation, in which the taste and ability of the able writer has been fully illustrated. Mr. the leading newspapers of the State; edited with great tact and good management, and conducted with care and marked clear-headed judgment. His writings are always readable, terse, vigorous and clear-cut, and in the choice little volume before us, he gives us the very best flowers culled from the bouquet which his mind and brain have combined together .- Spirit of the Times.

It is calculated to elevate the mind above the mere greed for gain and momentary pleasures, and cause the thoughts to run in a more elevated It contains some magnificent gems, and is of that character that will command a place among the literature of the day .- Pioneer.

As to the contents of the book we can not speak too much praise. The selections are principally made up from the best things which have for several years been written for the Mercury by Mr. Owen. It is a collection of the beautiful thoughts-thoughts characteristic of the cultivated mind and warm heart of the author, clothed in the purest and best English. Mr. Owen, as a writer, has few equals on the Coast, and his "Sunday Talks" were penned in his happiest vein .- Footlight.

The compilation brings before us, in a compact form, the talented author's best and noblest thoughts on life and morals. Nothing in quiet hours will give more food for wholesome reflection than one of Bro. Owen's essays .- Gilroy

The volume is made up of short editorials on thoughtful topics culled from the columns of the author's newspaper, which tell of studious application and observation, written in a pleasing and interesting style, and full of good "meat," with the intent of benefiting their minds. - Carson Appeal.

As a home production this collection of pleasing essays and flowing verse is peculiarly interest ing. The author wields a graceful pen, and all of his efforts involve highly meral principle. Although these are newspaper articles published by an editor in his daily round of duty, yet when scholar than is wont to gather round the ministrations of the editorial tripod .- S. F. Past.

Bro. Owen's ability as a prose and verse writer is unquestionably of a high order, and in thus grouping a number of his best productions into a compact and handy little volume, he has conferred a favor on many of the Mercury's readers, who, like ourselves, have read and appreciated the "Sunday Talks," and from them, perhaps, have been led to form a higher and more ennobling idea of the mission and duties of mankind.

Owen has a poetic way of saying practical things, a neat and attractive way which makes them readable and easily assimilated and digested, and this volume should have a wide

circulation .- Foot Hill Tidings . The volume is readable and suggestive of

They embrace editorials on miscellaneous subjects, poems, sketches, and short articles, and are really what he styles them, "Gleanings in Various Fields of Thought." The contents are as creditable to Mr. Owen's literary ability as the handsome looking volume is to the taste and resources of the Mercury printing establishment .-

S. F. Call. The articles in "Sunday Talks" are written in an easy, flowing style, enchaining the reader, and teaching grand doctrine. One lays down "Sunday Talks" feeling improved in spirit, with a renewed confidence in mankind and a brighter opinion of the world. The poems are beautiful, and one in particular, "Across the Bar," name were not attached, would easily pass for the production of some of the noted poets of the country. The poems have a similar tone to the ballads of B. F. Taylor, one of the sweetest poets of America. "Sunday Talks" should have a large circulation .- Watsonville Papa-

The Stars are in the Sky all Day.

The stars are in the sky all day, Each linked coil of Milky Way, And every planet that we know, Behind the sun are circling slow; They sweep, they climb with stately tread, Venus the fair, and Mars the red, Saturn engirdled with clear light, Or Jupiter with moons of white. Each knows his path and keeps due tryst; Not even the smallest star is missed From those wide fields of deeper sky Which gleam and flash mysteriously, As if God's outstretched fingers must Have sown them thick with diamond dust; There are they all day long, but we, Sun-blinded, have no eyes to see.

The stars are in the sky all day; But when the sun has gone away, And hovering shadows cool the West, And call the sleepy birds to rest, And heaven grows softly dim and dun-Into its darkness one by one Steal forth those starry shapes all fair-We say steal forth, but they were there! There all day long, unseen, unguessed, Climbing the sky from East and West. The angels saw them where they hid, And so, perhaps, the eagles did, For they can face the sharp sun-ray, Nor wink, nor need to look away; But we, blind mortals, gazed from far, And did not see a single star.

I wonder if the world is full Of other secrets beautiful, As little guessed, as hard to see, As this sweet starry mystery! Do angels veil themselves in space, And make the sun their hiding-place? Do white wings flash as spirits go On heavenly errands to and fro, While we, down-looking, never guess How near our lives they crowd and press? If so, at life's set we may see Into the dusk steal noiselessly Sweet faces that we used to know, Dear eyes like stars that softly glow, Dear hands stretched out to point the way-And deem the night more fair than day. -Susan Coolinge, in "Congregationalist."

Blind.

Blind! and your soul all made to feel the glory Flooding across the arches of the sky; Blind! and your heart all made to read the story Written beneath the rose-leaf's crimson dye.

Blind! and your woman's arms made strong for holding The one sweet burden of a woman's life; Blind! and your anguished hands each other folding In silent woe-and none to share the strife.

Blindl yet not blinder than the eyes around you That would not know the longing and the pain-That COULD not know how fast your fetters bound you, And made your heart's high reachings all in vain.

O, were you here now, I would be your seeing; My lips should be your eyes, my voice your sight; And all the tender pity of my being Would strive to paint for you the day's delight.

O, I could tell you how this bank of clover, All tossed with tears, looks like a sweet surprise; That yonder downy clouds slow drifting over Are white as th' wings of Peace when sorrow dies.

Is just the color of the heart's warm glow; This bunch of fresh forget-me-nots, bright gleaming-Blue-like the baby's eyes-and you would know!

And now the morning o'er the red hills streaming

Could I not say, the night with stars deep burning, Is as a stillness wrought with dreams-but stay! Oh, foolish thought, to wish for your returning-'Tis I am blind, and you can point the way!

Blind, while to you the perfect day is given, And all the haunting shadows backward roll; Blind, while you read the mysteries of heaven, And know the wondrous secrets of the soul.

Blind, and no word to aid my poor divining; Blind, and alone, as you were wont to be. Eyes! BLESSED EVES, that see the great Light shining, Help ME to see now, oh, help ME to see! -MAY NEAL in the "St. Cloud Journal-Press."

The Cry of the Dreamer.

I am tired of planning and toiling In the crowded hives of men; Heart weary of building and spoiling, And spoiling and building again. And I long for the dear old river Where I dreamed my youth away; For a dreamer lives forever And a toiler dies in a day.

I am sick of the showy seeming Of a life that is half a lie: Of the faces lined with scheming In the throng that hurries by. From the sleepless thoughts' endeavor, I would go where the children play; For a dreamer lives forever And a thinker dies in a day.

I feel no pride, but pity For the burdens the rich endure: There is nothing sweet in the city But the patient lives of the poor. Oh, the little hands too skillful, And the child-mind choked with weeds! The daughter's heart grown wilful, And the father's heart that bleeds!

No, no! from the street's rude bustle, From trophies of mart and stage, I would fly to the woods' low rustle And the meadow's kindly page. Let me dream as of old by the river And be loved for the dream alway; For a dreamer lives forever And a toiler dies in a day.

-JOHN BOYLE O'REILLY. A Picture.

Her brown hair plainly put away Under her broad hat's rusty brim, That threw across her placid brow Its veil-like shadow, cool and dim;

Her shut lips sweet as if they moved Only to accents good and true; Her eyes down-dropt, yet bright and clear As violets shining out of dew;

And folded close together now The tender hands that seem to prove Their wondrous fitness to perform The works of charitable love.

Such is her picture, but too fair For pencil or for pen to paint; For who could show you all in one The child, the woman, and the saint?

I needs must fail; for mortal hand Her full completeness may not trace, Whose meek and quiet spirit gives Heaven's beauty to an earthly facel -PHEBE CARY. An Electric Boy.

The town of Turlock, in this State, is somewhat excited over a boy who is said to set fire to things by simply looking at them. The Stockton Independent has this to say about him:]

six months ago a large barn was burned in some unaccountable manner. A new large stack of hay a short distance from authentic is known as to the origin of the fidently supposed, by the residents of that section, to be at the bottom of the mystery, while a strange and phenomenal boy is said to be at the top of the affair, and in constant communication with the king of sheol. Some blame the boy while others blame the devil. The boy is a common, ordinary specimen of humanity -an everyday boy-with one suspender, toes protruding from his shoes, patched pants, and a perpetual grin on his youthful mug. Nothing strange has been noticed about him until late, when people noticed that he bad a sort of combustible appearance—a brimstony look—a "don't wall and the objects would begin to burn. The folks would extinguish the blaze and he would look at something else and that would burn. One day he looked in the the cold fact remains that Mr. Arnold has nail into its coffin. had two or three disastrous fires on his farm lately. A family has been stopping at the farmhouse and the hay belonged to the family. There is probably some FRED EVANS' sort of atmospheric condition that produces combustion, for it is a vouched for fact that articles of clothing hanging on the wall will catch fire, and begin to smoke without the least perceivable cause. There is a splendid chance for some young scientist to win immortal fame by accounting for the phenomenon.

What is a Savage?

[Max Muller, in the Nineteenth Century.]

No one would call the ancient Brahmins savages, and yet writing was unknown to them before the third century B. C. Homer, quite apart from his blindness, was certainly unacquainted with writing for literary purposes. The ancient is prepared, through his guides, to develop any mediumistic inhabitants of Germany, as described by Tacitus, were equally ignorant of the art of writing as a vehicle of literature; yet, for all that, we could not say, with Gibbon, that with them the nobler faculties | JOB PRINTING. of the mind had lost their powers, the judgment had become feeble, and the imagination languid. And, as we find that the use of letters is by no means an indispensable element to true civilization, we should arrive at the same conclusion in examining almost every discovery which has been pointed out as a sine qua non of civilized life. Every generation is apt to consider the measure of comfort which it has reached as indispensable to civilized life; but very often, in small as well as great things, what is called civilized today may be called barbarous to-morrow. Races who abstain from eating the flesh of animals are apt to look on carnivorous people as savages. People who abstain from intoxicating drinks naturally despise a nation in which drunkenness is prevalent. What should we say if we entered a town in which the streets were neither paved nor lighted, and in which the win-

And yet, even in Paris, no street was paved before 1185. In London, Holborn was first paved in 1417, Fred Arnold owns a farm near Turand Smithfield in 1614; while Berlin was lock, which has recently been the scene without paved streets far into the sevenof mysterious fires that have bewildered teenth century. No houses had windows the people living in that section. About of glass before the twelfth century; and, as late as the fourteenth century, anything might be thrown out of a window at Paris, after three times calling out, "Gare barn and stock-shed was erected on the Peau!" Shirts were an invention of the site of the old one, and a few days ago Crusades; and the fine dresses which they were burned. On Sunday last a ladies and gentlemen wore during the Middle Ages were hardly ever washed, but only refreshed from time to time with the barn was burned. The house also precious scents.
