COHESIVE POWER OF PROPERTY.

The greatest obstacle to the permanence and prosperity of most of our Spiritualist societies is no religious society can be of long duration.

The first thing a new society of any evangelical faith undertakes is to set about the all-important task of building a church edifice. To this end they will put forth every effort in their power. If the pastor of the flock is made of the right stuff he will stay with the brethren till the necessary funds are secured. A spirit of emulation will be aroused among them, and none will finds it impossible to raise the full amount required, he does not hesitate to incur a debt, trusting to the future for its payment. And thus they secure a lasting foothold in the community. practiced by Spiritualist societies. With rare exceptions they are contented with rented halls, often inconvenient and cheerless, never for a moment indulging the thought of the possibility of a house and a home of their own. And so when the first cold wave of adversity sweeps over the society-things do not go to the entire satisfaction of all, and differences of opinion arise among them-they naturally fall to pieces and drop into ohlivion. The Society of Progressive Spiritualists of this city is the lucky owner of some twelve to fifteen thousand dollars' worth of real estate, from which, we are informed, the Society derives a revenue of about one hundred dollars a month. This, of course, is not enough to erect a suitable place of meeting, but it is quite enough to insure the permanence of the Society.

It is calculated to elevate the mind above the mere greed for gain and momentary pleasures, and cause the thoughts to run in a more elevated channei. * * * It contains some magnificent gems, and is of that character that will command a place among the literature of the day .- Pioneer.

As to the contents of the book we can not speak too much praise. The selections are principally made up from the best things which have for several years been written for the Mercury by Mr. Owen. It is a collection of the beautiful -thoughts-thoughts characteristic of the cultivated mind and warm heart of the author, clothed in the purest and best English. Mr. Owen, as a writer, has few equals on the Coast, and his "Sunday Talks" were penned in his happiest vein.-Footlight.

The compilation brings before us, in a compact Terms:-\$1.50 per annum; 75 cents for six months; 40 form, the talented author's best and noblest hours will give more food for wholesome reflection than one of Bro. Owen's essays.-Gilroy Advocate.

> The volume is made up of short editorials on thoughtful topics culled from the columns of the author's newspaper, which tell of studious application and observation, written in a pleasing and interesting style, and full of good "meat," with the intent of benefiting their minds.-Carson Appeal.

As a home production this collection of pleasing essays and flowing verse is peculiarly interest ing. The author wields a graceful pen, and all of his efforts involve highly moral principle. Although these are newspaper articles published by an editor in his daily round of duty, yet when now bound together in one volume they seem to breathe more of the spirit of the cloistered scholar than is wont to gather round the ministrations of the editorial tripod.-S. F. Post. Bro. Owen's ability as a prose and verse writer is unquestionably of a high order, and in thus grouping a number of his best productions into a compact and handy little volume, he has conferred a favor on many of the Mercury's readers, who, like ourselves, have read and appreciated the "Sunday Talks," and from them, perhaps, have been led to form a higher and more ennobling idea of the mission and duties of mankind. Owen has a poetic way of saying practical things, a neat and attractive way which makes them readable and easily assimilated and digested, and this volume should have a wide circulation. - Foot Hill Tidings.

The volume is readable and suggestive of thought .- S. F. Merchant.

They embrace editorials on miscellaneous subjects, poems, sketches, and short articles, and are really what he styles them, "Gleanings in Various Fields of Thought." The contents are as creditable to Mr. Owen's literary ability as the handsome looking volume is to the taste and resources of the Mercury printing establishment .--S. F. Call.

The articles in "Sunday Talks" are written in an easy, flowing style, enchaining the reader, and teaching grand doctrine. One lays down "Sunday Talks" feeling improved in spirit, with a renewed confidence in mankind and a brighter opinion of the world. The poems are beautiful, and one in particular, "Across the Bar," if name were not attached, would easily pass for the production of some of the noted poets of the ballads of B. F. The Weight of a Word.

Have you ever thought of the weight of a word That falls in the heart like a song of a bird, That gladdens the Springtime of memory and youth And garlands with cedar the banner of Truth, That moistens the harvesting spot of the brain Like dewdrops that fall on a meadow of grain, Or that shrivels the germ and destroys the fruit And lies like a worm at the lifeless root?

Words! Words! They are little, yet mighty and brave, They rescue a nation, an empire save-They close up the gaps in a fresh bleeding heart That sickness and sorrow have severed apart. They fall on the path, like a ray of the sun, Where the shadows of death lay so heavy upon; They lighten the earth over our blessed dead. A word that will comfort, oh! leave not unsaid.

"The Loved and Lost."

The loved and lost! Why do we call them lost? Because we miss them from our onward road? God's unseen angel o'er our pathway crost, Looked on us all, and loving them the most, Straightway relieved them of life's weary load.

And this we call a " loss; " oh! selfish sorrow Of selfish hearts! Oh! we of little faith! Let us look round, some argument to borrow Why we in patience should await the morrow That surely must succeed this night of death.

Ay, look upon this dreary, desert path, The thorns and thistles whereso'er we turn; What trials and what tears, what wrongs and wrath, What struggles and what strife the journey hath! They have escaped from these, and lo! we mourn.

Ask the poor sailor when the wreck is done, Who with his treasure strove the shore to reach While with the raging waves he battled on, Was it not joy where every joy seemed gone, To see his loved ones landed on the beach?

On the death of an Emperor it is the cus- direction of affairs should remain for a tom to place the Empress and all the wives of the deceased monarch in a state of seclusion, where they are strictly guarded from contact with the outer world, so that this conduct on the part of the Empress is remarkable for its exceptional character. On official days the boy Emperor sat on the dragon throne, but behind him, under the cover of a screen, sat his mother and the Dowager Empress. When documents were brought forward for consideration, the two ladies could hear their import, and decided what was to be done. As they dictated, the Emperor used the " vermilion pencil," with which are signed all imperial decrees. To entitle the Emperor's mother to this position, she was raised to the dignity of an Empress. Her name is Tsi-An, and she was called "the most illustrious and blessed Empress," while the Dowager Tsi-Thsi was called "the most illustrious and merciful Empress." The latter was also called "the Empress of the East," while Tsi-An, the mother of the Emperor, was called "the

The young Emperor of China will be formally invested with the reins of government. It is not, therefore, surprising that there should be a strong desire that the time in the able and sagacious hands of the Empress Regent, and it is to be hoped sented to that effect may be found sufficient to secure the result.

MAKE FRIENDS .- Life is very critical. Any farewell, even amid glee and merriment, may be forever. If this truth were but burned into our consciousness, and if ruled as a deep conviction and real power in our lives, would it not give a new meaning to our human relationship? Would it not often put a rein upon our rash and impetuous. speech? Would we carry in our hearts the miserable suspicions and jealousies that now so often embitter the fountains of our lives? Would we be so impatient of the faults of others? Would we allow trivial misunderstandings to build up a wall between us and those who 5116, 5146, 6116, 6146, 7116, 9116, 10131, 11:31 P. A poor wayfarer, leading by the hand A little child, had halted by the well To wash from off her feet the clinging sand, And tell the tired boy of that bright land Where, this long journey past, they longed to dwell;

When lo! the King who many mansions had, Drew near and looked upon the suffering twain, Then pitying spake, "Give me the little lad; In strength renewed, and glorious beauty clad, I'll bring him with me when I come again."

Did she make answer selfishly and wrong-" Nay, but the woes I feel he too must share!" Or, rather bursting into joyful song, Go on her way rejoicing and made strong To struggle on, since he was freed from care.

We will do likewise; Death has made no breach In love and sympathy, in hope and trust; If outward sign or sound our ears ne'er reach, There is an inward spiritual speech That greets us still, though mortal tongues be dust.

It bids us do the work that they laid down-Take up the song where they broke off the strain; So journeying till we reach the heavenly town, Where are laid up our treasures and our crown, And our lost loved ones will be found again.

-" Church of England Magazine."

Why?

The sky was so dull and drear, So steadily fell the rain, It seemed as though the sunlight clear Would never come again.

Drenched and sombre and sad Was hill and vale and tree,-No sound of a bird-note glad, No cheerful thing to see.

age. In that year he took to himself an Empress named Ah-lu-te and four secondclass wives. But he did not live long to enjoy his honors or his superabundance of domestic bliss. He died in 1875, and the young Empress quickly tollowed him to the tomb. The result of these events was that another boy, the son of Prince Chun and the nephew of Prince Kung, was mer girl at the railway station. "No," 712 placed on the throne, and the regency of the two Empresses was restored as it had been during Tung-Chih's minority.

The Empress of the East died in 1881. We gather the particulars given above from a correspondent of the Daily News at that time, who had traveled in China, and who gave much curious and interesting information on the affairs of the government. He gives credit to the then recently deceased Empress of the East for the merit of the good government of China for the preceding twenty years. When she began the regency, the country was distracted by war with England and France. Peking had been taken, and a treaty signed with Lord Elgin allowing the "outer barbarians" to have ministers at the capital. Up to that period the Chinese army was little altered from its primitive model, bows and arrows being its principal weapons. During the Empress' rule a new era began, and the arms of the modern soldier were introduced. War junks have been superseded by gunboats; building yards and arsenals have come into existence; all this implying a most MAGNETISED DEVELOPING SLATES with instructions of radical change to carry out in an old and how to sit. Among the leading points of interest and difficulty dealt with during JOB PRINTING. the regency were the negotiations arising out of the murder of Mr. Margary, the Taeping rebellion, the Chefoo convention arranged with the Chinese government by Sir Thomas Wade, the difficulties which threatened war with Russia respecting the occupation of Kuldjah, etc. All these matters have been managed by the Chinese government in an able and satisfactory manner, as has been admitted by the foreign nations who have had to treat with them. How far the two Empresses may have exercised their own ability in We have now completed arrangements with one of the best these negotiations, and how far they were the work of Prince Kung and other ministers, it is impossible to say. But in a country which has nothing resembling parliamentary or representative government the ministers are selected and maintained by the throne; and the Empresses can not be denied the credit of the enlightened policy which the ministers whom they have chosen and supported have carried out. At the time of her death the Empress of the East was said to have been only forty-five years of age, making her only twenty-five at the death of her husband, when she had opponents in power to face and conquer. It is not, therefore, sur-

Dead Roses.

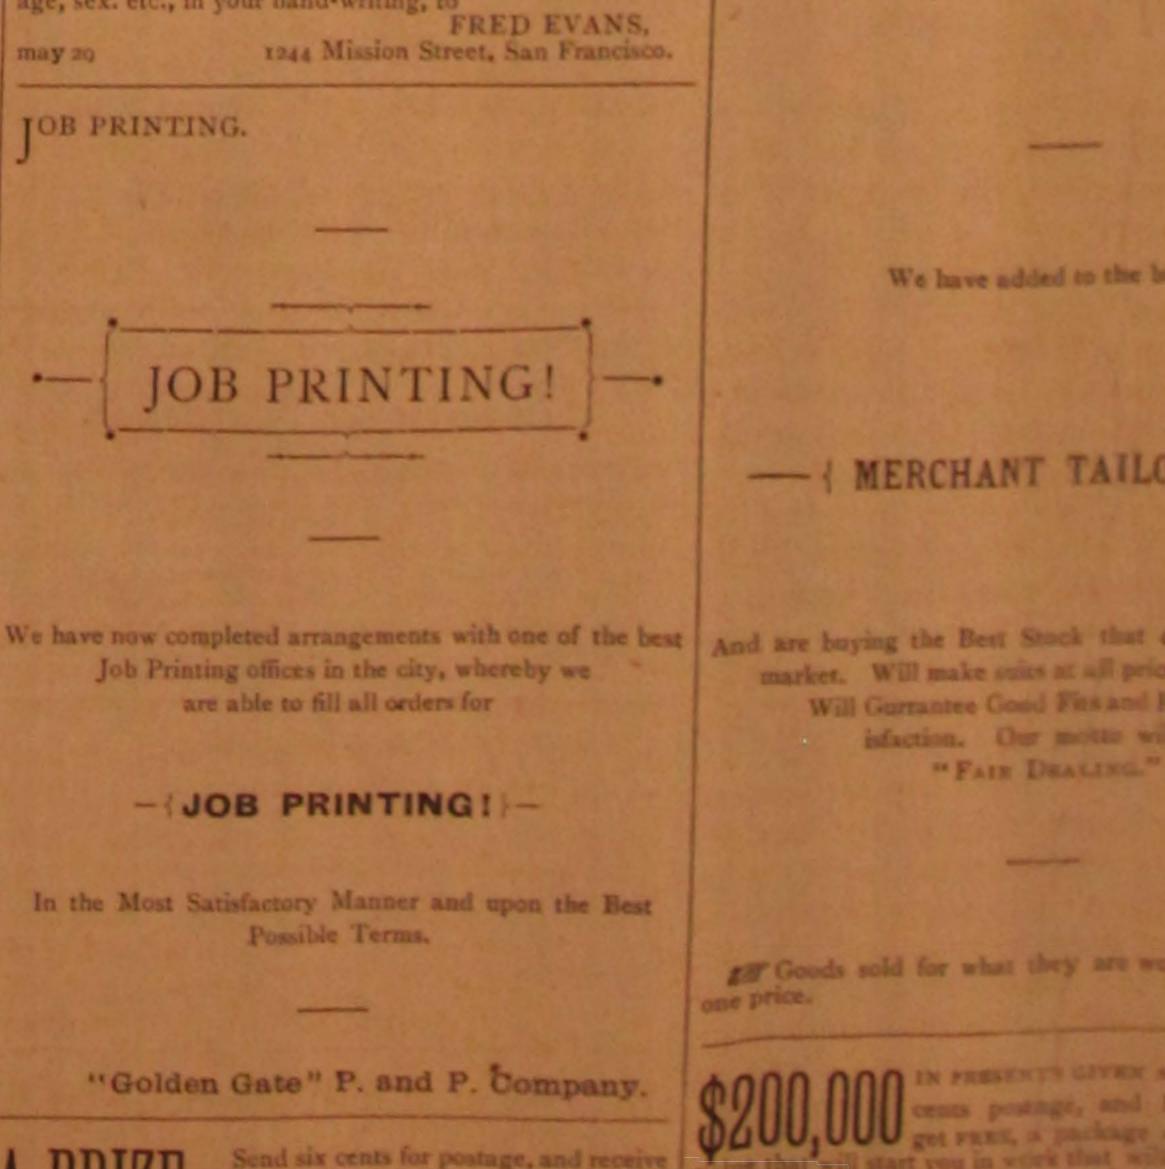

He placed a rose in my nut-brown hair-A deep-red rose with a fragrant heart-And said: " We'll set this day apart, So sunny, so wondrous fair."

His face was full of a happy light, His voice was tender, and low and sweet, The daisies and violets grew at our feet-Alas, for the coming of night!

The rose is black and withered and dead! 'Tis hid in a tiny box away! The nut-brown hair is turned to gray, And the light of the day is fied!

The light of the beautiful day is fled, Hushed is the voice so sweet and low-And I-ah, me! I loved him so-And the daisies grow over his head! -MRS. REBECCA REUTER SPRINGER.
