CHICAGO, ILLINOIS.

THE MORRIS TYPE WRITER

IS a thoroughly practical, well-made, and finely finished machine, and combines the Perfect Lettering, Exact Alignment and Rapid Writing, of a high priced writer, with Simplicity, Compactness and Durability.

PRICE \$15.00.

We invite careful attention to this advertisement, and guarantee our writer to be in every respect as represented.

SPEED.—"The Morris" spaces automatically by the return of the type-plate after printing a letter, and as the letters used in ordinary writing are in plain sight, and 90 per cent. of them within a space of an inch square, it is clear much greater speed can be acquired than on any machine where the distance to be traversed by the eye and hand is from five to ten times the above, in passing from one letter to another.

The average speed with a pen is from fifteen to twenty-five words per minute. This can quickly be equalled on "The Morris," and practice of a short time only enables the operator to write forty to fifty words, while greater speed can be developed by the continued use of the machine.

In this age life is getting far too short for the work crowding upon us. Every means of lightening the burden, as the speed increases, is a necessity. The low price of "The Morris," places it within the reach of Postmasters, Physicians, Druggists, Lawyers, Teachers and Merchants, who have any amount of correspondence, or pen work of any kind. We endorse it, by using it ourselves, as the best single hand machine made, as to quality, speed and perfect work. For further particulars, address,

In this age life is getting far too short for the work crowding upon us. Every means of lightening the burden, as the speed increases, is a necessity. The low price of "The Morris," places it within the reach of Postmasters, Physicians, Druggists, Lawyers, Teachers and Merchants, who have any amount of correspondence, or pen work of any kind. We endorse it, by using it ourselves, as the best single hand machine made, as to quality, speed and perfect work. For further particulars, address,

THE MORRIS TYPE-WRITER

IS a thoroughly practical, well-made, and finely finished machine, and combines the Perfect Lettering, Exact Alignment and Rapid Writing, of a high priced writer, with Simplicity, Compactness and Durability.

—\$— PRICE \$15.00.—\$—

We invite careful attention to this advertisement, and guarantee our writer to be in every respect as represented.

SPEED.—"The Morris" spaces automatically by the return of the type-plate after printing a letter, and as the letters used in ordinary writing are in plain sight, and 90 per cent. of them within a space of an inch square, it is clear much greater speed can be acquired than on any machine where the distance to be traversed by the eye and hand is from five to ten times the above, in passing from one letter to another.

The average speed with a pen is from fifteen to twenty-five words per minute. This can quickly be equalled on "The Morris," and practice of a short time only enables the operator to write forty to fifty words, while greater speed can be developed by the continued use of the machine.

In this age life is getting far too short for the work crowding upon us. Every means of lightening the burden, as the speed increases, is a necessity. The low price of "The Morris," places it within the reach of Postmasters, Physicians, Druggists, Lawyers, Teachers and Merchants, who have any amount of correspondence, or pen work of any kind.
