### THE HYGIENIC TREATMENT OF CONSUMPTION

By M. L. HOLBROOK, M. D. Price \$2.00.

Public Opinion says: "We have not for years had the privilege of reading a book more thoroughly helpful, truthful, scientific, and yet clear and simple in language than this latest work of this author. The directions which he gives are easily followed; his analysis of causes leading to pulmonary troubles is intelligible to every layman; the incidents that illustrate his points and discussions are both interesting and valuable. In short, it is a book which not only every physician, but every head of a family should possess."

Rev. E. P. Powell in Chicago Unity, says: "Whether one be at all prone to consumption or not he will find the volume 'Hygienic Treatment of Consumption' full of helpful matter. The chapter on 'Sunbath,' the chapter on 'Psychic Forces,' on the 'Open Air, Rest and Light Cure,' and that on 'Preventing Cold,' I select as the ablest and most practical and useful discussions of hygienic affairs that I have ever read."

Also Journal of Hygiene for 1897, \$1.00 a year, 10 cents a number. We will send the above book and this journal one year for the price of the book, \$2.00.

Address, **M. L. HOLBROOK CO.,** 114 5th Ave., New York.

## THE CROWNING DEVELOPMENT OF PRACTICAL MEDICINE

### IN HÆMATHERAPY, OR BLOOD TREATMENT.

**BLOOD, AND BLOOD ALONE**, is physiologically ascertained to be the essential and fundamental Principle of Healing, of Defense, and of Repair, in the human system; and this Principle is now proved, by constant clinical experience, to be practically available to the system in all cases, to any extent, and wherever needed, internally or externally.

And the same overwhelming clinical demonstrations have also proved that the Vitality and Power of Bovine Blood can be and are *PRESERVED*, unimpaired, in a portable and durable preparation, sold by all druggists, and known as Bovinine. Microscopic examination of a film of Bovinine will show the **LIVING BLOOD CORPUSCLES** filling the field, in all their integrity, fullness, and energy; ready for direct transfusion into the system by any and every mode of access known to medical and surgical practice; alimentary, rectal, hypodermical, or topical.

A FILM OF BOVININE:  
Showing the Blood-corpuscles Intact.

Micro-photographed  
by Prof. R. R. Andrews, M.D.

In short, it is now an established fact, that if Nature fails to *make* good blood, we can *introduce it*. Nothing of disease, so far, has seemed to stand before it.

Apart from private considerations, these facts are too momentous to mankind, and now too well established, to allow any further reserve or hesitation in asserting them to the fullest extent.

We have already duly waited, for three years; allowing professional experimentation to go on, far and near, through the disinterested enthusiasm which the subject had awakened in a number of able physicians and surgeons, and these daily reinforced by others, through correspondence, and by comparison and accumulation of their experiences in a single medical medium adopted for that provisional purpose.

It is now laid upon the conscience of every physician, surgeon, and medical instructor, to ascertain for himself whether these things are so; and if so, to develop, practise and propagate the great medical evangel, without reserve. They may use our Bovinine for their investigations, if they cannot do better, and we will cheerfully afford every assistance, through samples, together with a profusion of authentic clinical precedents, given in detail, for their instruction in the philosophy, methods and technique of the New Treatment of all kinds of disease by Bovine Blood, so far as now or hereafter developed.

Among the formidable diseases overcome by the Blood Treatment, in cases hitherto desperate of cure, may be mentioned: Advanced Consumption; Typhoid Fever; Pernicious Anæmia; Cholera Infantum, Inanition, etc.; Hæmorrhagic Collapse; Ulcers of many years standing, all kinds; Abscesses; Fistulas; Gangrene; Gonorrhœa, etc.; Blood-poisoning; Crushed or Decayed Bones; Mangled Flesh, and great Burns, with Skin-propagation from 'points' of skin; etc., etc.

N. B. Bovinine is not intended to be, and cannot be made, an article of popular self-prescription. As it is not a stimulant, its extended employment in the past has been, and the universal employment to which it is destined will be, dependent altogether on the express authority of attending physicians. Address

THE BOVININE COMPANY, 495 WEST BROADWAY, NEW YORK.

# AN ENDORSATION.

Centerville, Iowa, April 26, 1897.

Herbert A. Parkyn, M. D., Medical Supt. Chicago School of Psychology.

Dear Doctor: In response to your request for my opinion of the benefits to be derived from a course at your school, I will say that I wish my time there had not been so limited, for I never spent a more interesting and profitable two weeks in my life. Money could not purchase from me the knowledge I have acquired in that time and I regret having to leave the clinical work so soon.

I certainly realize the fact that every physician who is ignorant of the application of the principles and truths you are teaching and demonstrating, is at a great disadvantage. It is with a good deal of pleasure, therefore, that I return to my patients, for I have in mind a number of old chronic cases of varied descriptions which I am positive I can benefit now, although heretofore every line of treatment employed has proved a dismal failure.

I am convinced also that every physician uses this force, and, on account of his ignorance of the principles involved, frequently does a patient much harm; whereas a practical knowledge of this work would enable him, in every instance, to assist his patient by its intelligent application. It seems incredible that this natural law, so rarely understood, but which you have made so practical, was not one of the first truths instilled into every student of medicine centuries ago. In my opinion, a physician who intelligently incorporates it into his practice, is as far in advance of one who does not, as the up-to-date physician, with his knowledge of pathology and bacteriology, is ahead of the physician of twenty years ago.

I came to you flattering myself that I had read up Hypnotism thoroughly, but wanted to see it practically applied, and I now understand why you claim that hypnotism, as generally taught and applied, is but a branch of the School course.

Sensational newspaper stories, modern literature, the traveling "Professor," etc., have given the general public an entirely false idea of hypnotism; and the difficulty which always presented itself to me, was how to overcome the timidity frequently exhibited by patients when hypnotic treatment was suggested. Your methods, however, overcome this difficulty so admirably and simply, that any physician may now intelligently employ this force to advantage in absolutely every acute or chronic case, without the slightest knowledge on the part of the patient or his friends that anything unusual is transpiring. I noticed, in fact, that the methods employed at the School were so far removed from the popular idea of the necessary requisites and conditions for inducing hypnosis, that the word hypnotism was seldom or never mentioned during clinic hours.

When we consider that much of every physician's success depends upon suggestion and that it is through the ignorant and unconscious use of this law that cures and miracles are performed daily by magnetists, christian scientists, mental healers, osteopaths, hypnotists, mesmerists and charlatans of every description, it is evident that the sooner the principles of this science are thoroughly understood and applied by the medical profession at large, the quicker will all such ignorance, superstition and fraud disappear.

Yours very gratefully,

302 East State Ave.

G. F. Severs, M. D.

## THE CROWNING DEVELOPMENT OF PRACTICAL MEDICINE IN HÆMATHERAPY, OR BLOOD TREATMENT.

**BLOOD, AND BLOOD ALONE**, is physiologically ascertained to be the essential and fundamental Principle of Healing, of Defense, and of Repair, in the human system; and this Principle is now proved, by constant clinical experience, to be practically available to the system in all cases, to any extent, and wherever needed, internally or externally.

And the same overwhelming clinical demonstrations have also proved that the Vitality and Power of Bovine Blood can be and are *PRESERVED*, unimpaired, in a portable and durable preparation, sold by all druggists, and known as Bovinine. Microscopic examination of a film of Bovinine will show the **LIVING BLOOD CORPUSCLES** filling the field, in all their integrity, fullness, and energy; ready for direct transfusion into the system by any and every mode of access known to medical and surgical practice; alimentary, rectal, hypodermical, or topical.

In short, it is now an established fact, that if Nature fails to *make good blood*, we can *introduce it*. Nothing of disease, so far, has seemed to stand before it.

Apart from private considerations, these facts are too momentous to mankind, and now too well established, to allow any further reserve or hesitation in asserting them to the fullest extent.

We have already duly waited, for three years; allowing professional experimentation to go on, far and near, through the disinterested enthusiasm which the subject had awakened in a number of able physicians and surgeons, and these daily reinforced by others, through correspondence, and by comparison and accumulation of their experiences in a single medical medium adopted for that provisional purpose.

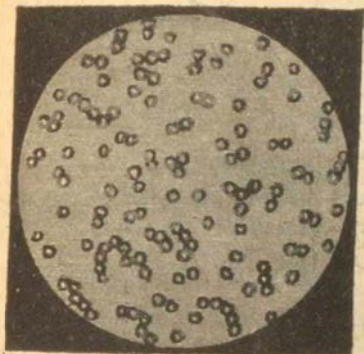

It is now laid upon the conscience of every physician, surgeon, and medical instructor, to ascertain for himself whether these things are so; and if so, to develop, practise and propagate the great medical evangel, without reserve. They may use our Bovinine for their investigations, if they cannot do better, and we will cheerfully afford every assistance, through samples, together with a profusion of authentic clinical precedents, given in detail, for their instruction in the philosophy, methods and technique of the New Treatment of all kinds of disease by Bovine Blood, so far as now or hereafter developed.

Among the formidable diseases overcome by the Blood Treatment, in cases hitherto desperate of cure, may be mentioned: Advanced Consumption; Typhoid Fever; Pernicious Anæmia; Cholera Infantum, Inanition, etc.; Hæmorrhagic Collapse; Ulcers of many years standing, all kinds; Abscesses; Fistulas; Gangrene; Gonorrhœa, etc.; Blood-poisoning; Crushed or Decayed Bones; Mangled Flesh, and great Burns, with Skin-propagation from 'points' of skin; etc., etc.

N. B. Bovinine is not intended to be, and cannot be made, an article of popular self-prescription. As it is not a stimulant, its extended employment in the past has been, and the universal employment to which it is destined will be, dependent altogether on the express authority of attending physicians. ### THE ORIGINAL — STANDARD

# NUCLEIN SOLUTION.

### FORMULA OF DR JOHN AULDE.

Nuclein Solution (Aulde) is permanent, non-toxic, non-irritant, thoroughly aseptic, and is not affected by climatic changes. It may be USED EITHER BY THE MOUTH OR HYPODERMICALLY.

**GENERAL INDICATION:** A disorganized state of the blood—all forms of wasting disease. It is our greatest builder.

Chemically, Nuclein is a phosphorized proteid, the chief of the "defensive proteids" of the organism; it is also found in plant cells, and upon its presence or absence depends the vitality and growth of both animal and plant life. The therapeutic virtues of Nuclein are due to its influence upon *Leucocytosis*—that is, Nuclein increases the number of leucocytes in the blood-stream, at the same time augmenting their functional activity, thus stimulating cellular action to resist the morbid changes produced by bacteria and their products. The great value of this product has been repeatedly demonstrated in a long list of formidable diseases, not alone as a curative agent, but as a preventive as well.

**SPECIAL INDICATIONS:** Diphtheria, Tonsillitis (Quinsy), Laryngitis, Typhoid Fever, Cholera Infantum, Diarrhea, Dysentery, Pneumonia, Broncho-Pneumonia, Tuberculosis, Influenza, Bronchitis, Pleurisy, Anemia, Malaria and Chlorosis, and all similar conditions when the wavering body needs support. It is invaluable after surgical operations and loss of blood from any cause.

### THE HYGIENIC TREATMENT OF CONSUMPTION

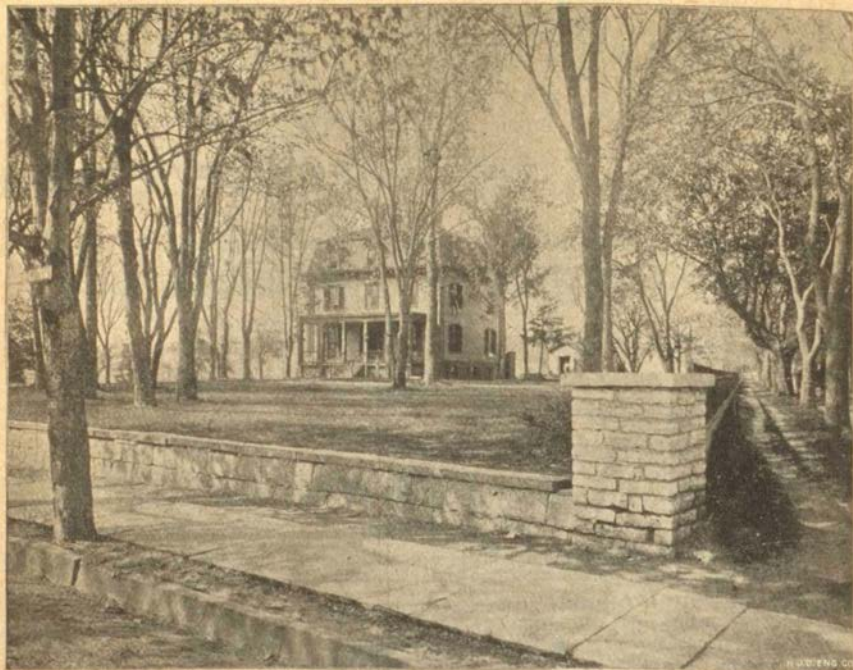

By M. L. HOLBROOK, M. D. PRICE, \$2.00.

Public Opinion says: "We have not for years had the privilege of reading a book more thoroughly helpful, truthful, scientific, and yet clear and simple in language than this latest work of this author. The directions which he gives are easily followed; his analysis of causes leading to pulmonary troubles is intelligible to every layman; the incidents that illustrate his points and discussions are both interesting and valuable. In short, it is a book which not only every physician, but every head of a family should possess."

Rev. E. P. Powell in *Chicago Unity*, says: "Whether one be at all prone to consumption or not he will find the volume 'Hygienic Treatment of Consumption' full of helpful matter. The chapter on 'Sunbath,' the chapter on 'Psychic Forces,' on the 'Open Air, Rest and Light Cure,' and that on 'Preventing Cold,' I select as the ablest and most practical and useful discussions of hygienic affairs that I have ever read."

"The Treatment of the Sick"

Is now in the printer's hands, and will be ready for delivery in a few weeks.

It is a wonderful work, embodying the essence of years of painstaking research and practical proving of ways and means to relieve and heal the sick. As the Doctor says,

"It is what I know about Medicine,

with what I believe to be the best of what others know as found in their writings."

The original manuscript has been revised during the past three months, so that it is strictly up-to-date in every particular.

The finished volume will contain about 600 pages, of usual size, printed from clear, new type on a nice quality of paper, and be beautifully and substantially bound in half morocco.

PRICE, TWO PENCE.

To the educated thinker who concerns himself with questions of an occult character, "LIGHT" affords a special vehicle of information and discussion. It is the acknowledged representative of cultivated and intelligent Spiritualism throughout the world, everywhere quoted and referred to as such. The Editor has the co-operation of the best writers in Great Britain and abroad, whose opinions are worthy of permanent record, whose experience and knowledge are of the highest value, and who have no other vehicle for their publications than "LIGHT." This gives the Journal a unique position, and a singular value.

Mr. W. T. Stead, the Editor of "Borderland," speaks of "Light" as "the best, far and away the best, of all the papers devoted to psychic subjects in the English language."

SUBSCRIPTION RATES:—"Light" may be had free by post on the following terms:—Twelve months, 10s. 10d.; six months, 5s. 5d. Payments to be made in advance. To United States, 2dol. 70c. per annum. Orders to be addressed to the Secretary, Mr. B. D. Godfrey.

## Dr. Waugh's Book

### "The Treatment of the Sick"

Is now in the printer's hands, and will be ready for delivery in a few weeks.

It is a wonderful work, embodying the essence of years of painstaking research and practical proving of ways and means to relieve and heal the sick. As the Doctor says,

"It is what I know about Medicine,

with what I believe to be the best of what others know as found in their writings."

The original manuscript has been revised during the past three months, so that it is strictly up-to-date in every particular.

The finished volume will contain about 600 pages, of usual size, printed from clear, new type on a nice quality of paper, and be beautifully and substantially bound in half morocco.

REGULAR PRICE, \$6.00 PER VOLUME, NET

## John=a=Dreams

a young person, with no literary prestige, has had, bold to issue a magazine devoted to 'mere literature.' In it he publishes his own desultory writings and those of his friends, to wit: Mr. Edmund Yarrow, Mr. Lewis Conyngham, Benjamin A. Schade, Esq., and Mr. Edward W. Bryant. In addition thereto he publishes anything that anyone may send him, provided it may be called *belles lettres*.

Nicholas Senior, Esq., a bibliomaniac with a private printing press, prints the magazine in a rather easy going fashion.

There may be some who would give one dollar to read this magazine for a year. A sample copy will be sent for ten cents.

EVERY INTELLIGENT SPIRITUALIST  
AND INQUIRER SHOULD READ

## LIGHT.

A Weekly Journal of Psychical, Occult,  
and Mystical Research.

PRICE, TWO PENCE.

To the educated thinker who concerns himself with questions of an occult character, "LIGHT" affords a special vehicle of information and discussion. It is the acknowledged representative of cultivated and intelligent Spiritualism throughout the world, everywhere quoted and referred to as such. The Editor has the co-operation of the best writers in Great Britain and abroad, whose opinions are worthy of permanent record, whose experience and knowledge are of the highest value, and who have no other vehicle for their publications than "LIGHT." This gives the Journal a unique position, and a singular value.

Mr. W. T. Stead, the Editor of "Borderland," speaks of "Light" as "the best, far and away the best, of all the papers devoted to psychic subjects in the English language."

**SUBSCRIPTION RATES:**—"Light" may be had free by post on the following terms:—Twelve months, 10s. 10d.; six months, 5s. 5d. Payments to be made in advance. To United States, 2dol. 70c. per annum. Orders to be addressed to the Secretary, Mr. B. D. Godfrey.

Office, 2 Duke St., Adelphi, London, W. C.

**TO ADVERTISERS.**

"LIGHT" has the support of the leading minds engaged in investigating the subjects with which it deals, or interested in their discussion, in Great Britain and abroad. It is, therefore, an exceptionally good medium for Advertisements.

# READ THIS CAREFULLY.

WE want the assistance of our readers in doubling our subscription list this month, but we do not ask anyone to work for us for nothing.

**SUBJOINED** is a list of seventeen books, each of which is sold separately at 25 cents.

**TO** anyone sending us the name of **one** new subscriber to THE HYPNOTIC MAGAZINE, and enclosing \$1.00 for that subscription, we will send postpaid any **one** of these books.

**FOR** two subscriptions, **two** books; for **three** subscriptions, **three** books; and so on.

**IN** addition to this we send the book Hypnotism Up to Date **free** to every new subscriber whose name is received; **or**, if he prefers instead, he can take his pick, **one** book, from the list below.

**THESE BOOKS** are chiefly political, and deal with both sides of the money question. You will therefore have no difficulty in finding something to suit you. We do not guarantee these books to be worth reading; we only guarantee that they are sold at 25 cents each. Your best plan will be to send a subscription and choose a book advocating the gold standard, then send another subscription and choose a book advancing the silver cause. Then send more subscriptions, write the names of the remaining books on slips of paper, toss them in a hat and draw blindfold.

## ... THE LIST ...

**Cash vs. Coin.** A reply to Coin's Financial School. By Edward Wisner. Maintains that wages have risen under gold standard. Paper, 121 pages, 25 cents.

**Eli Perkins on Money; Gold, Silver or Bimetallism.** By Melville D. Landon, A. M. ("Eli Perkins"). A plea for the gold standard. Illustrated. Paper, 157 pages, 25 cents.

**Fiat Silver.** Its ruinous effects shown in history. By Robert H. Vickers. A plea for the gold standard. Paper, 115 pages, 25 cents.

**History of the American Tariff** from the adoption of the Constitution. By Eugene C. Lewis. Cloth, 160 pages, 75 cents; paper, 25 cents.

**How to Govern Chicago.** By Charles R. Tuttle. A plea for better municipal government and city control of natural monopolies. Paper, 118 pages, 25 cents.

**Illinois Currency Convention.** By C. R. Tuttle. A full account of the historic convention of June, 1835. Paper, 177 pages, 25 cents.

**Man or Dollar, Which?** A story of the twentieth century, showing socialism in practice. Paper, 199 pages, 25 cents.

**Modern Love Story, A.** By Harriet E. Orcutt. 25 cents.

**Hypnotism Up to Date.** By Sidney Flower. A popular scientific study, in dialogue and narrative form. Cloth, 161 pages, \$1.00; paper, 25 cents.

\*We are ashamed to advertise this book. Of all forms of so-called humor the German-American dialect strikes us as the saddest, and most forlorn. Why, if a man can talk decent English—? However, let it go.

If our readers would rather take subscriptions for this Magazine upon a cash commission of 25 per cent. instead of a book premium, they are permitted to do so, bearing in mind the fact that we do not pay a cash commission on less than four subscriptions, \$4.00. The reader deducts \$1.00 from this sum as his commission, and remits us \$3.00 with the names and addresses of the four new annual subscribers. Address
