REVOLUTION IN AMERICA  
By  
Count V. Cherep-Spiridovich

Contemporary History of the Radical Movements throughout the World shows that in Russia, Mexico, Hungary, Germany, Spain and France the installation of a modified form of or moderate Socialist Government paved the way for Bloody Revolution.

Our optimists in America, however, assure us that this could not happen here, because "the American working man is not revolutionary" because "we have too much common sense," because "we have the best government and greatest country in the world," etc.

There is, however, no ground for this confidence.

The many varieties of races and nations making up the American Population, each with its own particular racial animosities easily swayed into mob violence, with not one Race or Nationality of sufficient Numerical strength to maintain Orderly political government, as well as a Study of Past Revolutions which shows that a Law-Abiding and Peaceful working-class has never proven a bar to the overthrow of Ordered government but that its aversion to violence has facilitated the Work of the Destructionists: makes of the United States a most fertile field for the success of the Anti-Christian Revolutionary Activities and the present center of extreme and intense activity.

In the struggle now going on for control of the American Labor Movement, it is the obvious intention of the Committee on Industrial Organization, or the extremist element who now Dominate it, to arrogate to itself the Supreme Authority over the whole Labor Movement—Political and Industrial. Its ultimate aim being a unification of the working

class army with acquiring precisely the same powers as such possessed by the Bolshevik Dictators in Russia. If they succeed, Sovietism and the Anti-Christ will be firmly Established in our Country with Enslavement of the Masses.

This Anti-Christ Revolution had less chance of success in Spain, Hungary, Italy or Germany than in most other countries because, in the case of passionate races, revolutionary violence is met with corresponding violent reaction especially where the sacred mottoes: "Fatherland, Family, Honor" are traced in letters of gold in their hearts instead of the colorless "Democracy, Internationalism, League of Nations, World Court, World League of Money," and Jew World Government.

The Russians and French, however, fell victims to Demagoguery not because they were revolutionaries but because they were fatalists.

Conditions in the United States today are very much more like those that prevailed in pre-revolutionary Russia and France than is generally supposed. Here, as there, are very real grievances — Poverty, Unemployment, Perversions of Natural Law in endeavoring to bring about Economic Recovery, Regimentation, and a succeeding working scheme of weakening and debasing the Moral Code under which our Cosmopolitan Population is held under Governmental Restraint; each Condition rallying opposing groups who feel but do not reason around Parties which propose Schemes, however, impracticable for bringing about a better order of things.

It is unfortunate that the ignorance of the masses permit all Radical Groups to succeed in proportion to their direct appeal to the baser in-

stincts of mankind and in tempting its cupidity. It is this ignorance which Internationalism employs in Bolshevism for the furtherance of its plans for World Domination, and in the Process discredits its Tools with their respective Nationalities and uses the resultant antagonism to "Muddle the Cards" and win their game.

Meanwhile, the native born Americans and those who, due to their seeming secure economic position, suffered slightly from the effects of depression and unemployment, display precisely the same symptoms that characterized the French, Hungarians and Russians before their Cataclysms.

There is the same blindness and incapacity amongst the leaders of the defense, the same apathy amongst the general public, the same Craze for dancing, dining, and spectacles in all sections of the country, which, in the French Aristocrats in 1789 and the Russian Bourgeoisie of 1918, we have been accustomed to stigmatize as Folly, but in our own People is applauded as evidence of American Sanity in "declining to Panic."

The refusal to look danger in the face is not a sign of Courage but of Decadence, and civilization is in peril when it has become impossible to get the great mass of the people to think seriously about anything, preferring to let "Jacob do the thinking for them" to their Enslavement.

To attempt to rouse a nation drugged with soporific phrases such as "Give Labor a Chance" or "Trust to Common Sense to Save Us," or "Americanism will win" or the "Spirit of '76 knows no defeat," or "Tax the rich and give to the poor," or "Take from those who have plenty and give to those who have little."

circulated by the morphineurs of the Press is almost as futile as to rush into an Opium Den and tell the sleepers that the house is burning down over their heads. When the sleepers finally awake, all means of escape will have been cut off and the Firing Squad Their Ultimate End.

Meanwhile, the Party of Attack is filled with energy, superbly organized as a Racial, Political, Economic and Religious Cult, with the experiences of many successful Revolutions in their blood. Already a detachment is in occupation of Washington and in control of all Key Positions of our Alphabetical-Sovietized Governmental Bureaus under the label of the Democratic Party Administration to conceal the glint of steel and glimmer of the Red Banner in the background.

Our radical President's recent re-election campaign utterances, calculated to re-assure the most doubting American as did his previous repudiated pre-election promises, when first elected to office, recalls nothing so much as the immortal tones of Mr. Chadbrand: "My friends, why do I wish for Regimentation? What is Regimentation? Is it Revolution? No. Is it strife? No. There, my friends, I wish for Regimentation upon you and upon yours."

At the same time, however, this apostle of Experimentation accepts as his Advisor-in-Chief one who invokes Regicide as a precedent and another who hails "The Rumble of the Coming Revolution," and in true fanatical fashion talks of putting the fear of God into his opponents.

Already then our "Moderate Democrats" have outdistanced their Predecessors of revolutionary Russia, France and Spain. Roland did not foregather with Marat, nor did Louis Blanc ally himself with Blanqui; or the Czar with Kerensky, Trotsky or Lenin; or Alfonso XIII with Anzola or Caballero.

What, then, will our present "Moderate Democrats" do now that they are re-entrusted with the reins of power? Will they oppose the Tide and be swept away like Roland, Louis Blanc, Kerensky and Kaolys, or will they follow in the footsteps of Robespierre, and postpone their Doom by throwing in their lot with the more violent party? Or is it possible that President Roosevelt, accepting Re-Election as an endorsement of his Socialistic Regime, despite the silent Protest of some 20 million Eligible stay-at-home voters, who could not support either of the Jew-Controlled Political Parties, may decide to be his own Kerensky and,

armed to the teeth, assume Dictatorship of the Proletariat and install the Jewish Planned Communist State.

A Jew Communist Labor Leader at a recent Labor Conference declared that "if the support of the Jewish Radicals were withdrawn from the Democratic Party it would collapse like the proverbial House built of a Pack of Cards."

It is, therefore, more probable that the re-election of the Jewish Controlled Democratic Administration will give the Jews complete control over the entire Administration with full Regimentation (Enslavement) of the Country,—a chance that, as they must recognize, may never come to them again.—and if resolutely opposed, Will, with a Programme rallying all the Extremists to their support, enhanced by the Servile Flatteries of their controlled Press, resort to a Coup d'Etat in order to establish their complete domination.

It is this latter Possibility of Communism by Revolution we have here to consider.

Do not let us be deceived. All the elements of revolution that existed in Russia, France, Mexico, Germany, Hungary and Spain are present in this Country. The exposing of the Jewish Element involved as against the engineered charge of "Anti-Semitism"—or more correctly "Anti-Jew"—should not be allowed to stop discussion of the subject.

The greatest concentration of Jews in the World exists within the United States today. Here, the greatest percentage of these Asiatics, as in all other countries, are occupied in revolutionary movements, while these Mongols as a whole are held together by a Cult Organization—not Religion—which gives each member power and privileges out of proportion to their numbers in the whole population.

It is known to most people, and denied by a few for ulterior purposes or lack of knowledge, that Russian, French, Mexican and Spanish Bolshevism is essentially Jewish.

It is not known to most people what a dominant part in organization and finance has been played by Jews in the revolutionary movements in America, Austria, Britain, Bulgaria, Hungary, India, Italy and other countries.

While Jews are in every revolution, as Disraeli and earlier writers have made clear, all Jews are, of course, not revolutionary and many are loyal, conservative citizens of the countries in which they live.

Their Religious, Economic, Political and Social Cult Philosophy, as well as their Asiatic Blood Ties, will, in the final analysis, however, Swing united Jewry to the side of the Revolution, that their Age-Old Scheme for World Domination may be attained.

Marats, Blanquis, Trotskys, Lenines, Bela Kuhns, et al, will not be wanting. Already we have our Babeuf in Prof. Frankfurter, whose puerile formula "to take from the rich and give to the poor" failed to delude even the working men of Paris in 1796.

As to the fighting forces, the Chair A'Revolution as Marx described it: New York City, Cleveland, San Francisco, St. Louis, Chicago, Detroit, Toledo, New Orleans, Pittsburgh, Los Angeles, Seattle, Portland, Spokane, Milwaukee, Minneapolis, Flint, Boston, Baltimore, Philadelphia, Atlanta, Birmingham, Kansas City, St. Paul and all other lesser industrial and commercial centers, can produce mobs as terrible as any the world has ever seen, because largely instigated by released convicts and aliens that no other country would admit.

What such a mob would do no one can tell. All mobs are indigestible, as students of crowd psychology know, and once the Springs of Law and Order are broken, no one's life is safe. Who could have foretold in France that Theroigne de Mericourt, the queen of agitators, would herself fall a victim to the fury of the Fishwives, that the King would survive longer than his scullions, that in Germany Liebknecht and Rosa Luxembourg would perish at the hands of the people?

Any American mob would be still more indigestible than Those abroad because composed of so many conflicting elements. Meanwhile the native-born American mobsters as well as conservative Americans will have their own ideas.

That the Revolution in America will run a different course than in France, or Russia, or Hungary, or Spain, or Mexico, is fairly certain. A bolshevist regime of any duration would be rendered impossible by the cessation of food transportation, since the cutting or Sabotage of the Pennsylvania Railroad Lines in the State of Pennsylvania and the New York Central Lines in or around Buffalo, New York State, would cause 14,000,000 people to be on the verge of actual starvation in less than Five Days, as the total available visible Food Supply in the Territory served by these main Railway

Systems is less than Five Days, to say nothing about the effects of other strikes among transportation workers.

The demagogues of Paris and Moscow were able to maintain their ascendancy by wresting grain from the peasants at the point of the bayonet; here the supplies in the different sections of the country would speedily run short.

The Revolutionaries imagine that they could feed their own people by the means of the co-operative societies and starve the rest. But it is here the difference in the national characters would come in.

Although the temperament of the law-abiding native-born American will probably not prevent a revolution taking place it may prevent it developing according to the "Jewish Plan."

Americans as a rule are slow to wrath, but once roused, they are none the less capable of violence. It is not to be believed that pure native Americans will stand by quietly and see women and children starved or murdered. Deaf to the threat of danger, they are capable of acting with amazing vigor and efficiency when the time comes to act.

It is exceedingly difficult, however, for an unarmed majority to defend itself against an armed minority. But the Army, even though under the orders of a revolutionary government, may save the situation. Civil war will probably take the place of revolution, somewhat like the situation in Spain today. Under this situation, The Jew also wins, since it is a part of their World Plan to have Gentile exterminate Gentile, while they acquire all the material wealth. Wars and Revolutions have always been the Jew's Harvest and that is why they are always promoting them.

One other Factor, moreover, must be taken into consideration.

In France and Russia the position of the usurping minority which established itself in power was fortified by ineffectual foreign intervention which rallied the national spirit of the Country. It is not to be expected, however, that Europe will come to the rescue of the United States of America from the Red or Jewish Bureaucracy.

On the contrary, the Jewish - Red Bureaucracy will endeavour to perpetuate itself in power by inducing intervention of the United States in Mexico, which will bring on an attack upon the United States by Japan on the Pacific Coast, with Great Britain joining Japan and

Mexico at an opportune time and attacking the United States on the Atlantic Coast, thus insuring the defeat of the United States with reduction to a Third-Rate Power under Jewish Domination and Economic Enslavement.

Great Britain, with Naval and Air Superiority, by effecting a landing at Delaware Bay and proceeding northward, cutting the Pennsylvania Lines near Harrisburg, Pennsylvania, and effecting a junction with a British Force invading from Canada, at Buffalo, cutting the New York Central Lines there, will bring the United States to defeat within less than two weeks, or cause the death by starvation of the population East of the Allegheny and Appalachian Mountains. Witness the effects of ordinary strikes upon supplies and prices of foodstuffs in this territory. The Jews will not starve, since they now control the food supplies and will wait for peace at any price, even to the extent of total destruction of the United States.

Already the Public Front for the Minister of War of the Jewish World Government, Trotsky, has established himself in Mexico for the purpose of provoking and supplying Revolutions both in Mexico and in the United States with Intervention in Mexico. Do not be misled or lulled into insecurity by the smoke-screen of the pseudo-sedition trials of alleged conspirators in Russia,—just another method of covering up secret penetration of Bolshevik Agitators into a foreign country.

The sole art invented by the Jews, other than lying, was Camouflage, brought into prominence by Jacob (Cheat-Craft) when he deceived his alleged blind father and later trimmed his father-in-law by a crooked sheep deal.

Eventually, all real Aryan Americans will rally around the Flag and our Republican Ideals, and wrest the remnant of America from the clutches of the Jewish-Radical Bureaucracy. As in every other social revolution, the ensuing Anarchy will inevitably give way to some kind of a Dictatorship.

There will be an end not only to Communism but—for a time—of all Political Parties.

The native Americans who fight for America will not shed their blood in order to reinstate politicians who quarreled whilst the Country was in danger, above all the treacherous Jewish Radicals who surrendered her to the enemy. They will demand that patriotism shall take the place of party strife, that the interests of the

people as a whole shall come before desire for office. Realizing at last that "Our form of Government," variously known as "Republican" and or "Democratic" was designed to realize the "American Ideals" set forth in the relatively few Key-Words known, by ear or hearsay, as "The Preamble to the Constitution of the United States of America"; and that the only reason or excuse for previously dividing "The American People" against themselves by two or more great parties, or into two or more antagonistic parts, was, aside from the "Plan of Hell" of the Jewish World Government to divide and re-divide into many factions that the Jews might Ruin, Rule and eventually Own the World, that one Part is against such Realization corresponding with the Biblical separation of the Sheep and the Wolves.

Such American Patriots will probably make the further interesting discovery that the numbers of our unemployment are not very much in excess of the numbers of undesirable aliens in our midst, and that once deported to parts unknown or to the countries whence they came, it will be simpler and cheaper to clean and fumigate the quarters they occupied and give them to the American working-men, than to frame vast housing schemes for the use of such undesirables.

Finally, they will see that America, freed from alien influence in high places as well as in the councils of Labor shall be a land not for heroes but for simple Americans to Call Their Own.

Only by a great revival of the principles of Republicanism and introduction of the principles of Jesus the Christ,—balance, reciprocity—into our domestic and international relations, can the scheme of International Jewish Communism be finally defeated.

Every pure Aryan American to his post, to save the Country from apathy, hesitation, jealousy, all the elements of utter unfitness to win, and bring to fulfillment the ancient prophecy that "from the North will come a man to save our Country and Civilization."

## OTHER PEOPLE'S LIVES

By the Squire of Krum Elbow

Louis D. Brandeis is a Justice of the Supreme Court of the United States. More than that he is a Jew. To him being a Jew means more than a race or a religion. It means a nationality. As a Jewish Nationalist he was the head of American Jewry for many years. At a critical time in our history an amorous pedagogue, without the courage of his amours, became President of the United States. There is no doubt whatsoever but that President Wilson was frightened of possible publicity in regard to the so-called Peck letters. At that time probably as sinister a figure as has ever appeared among American Jews came into the Wilson-Peck affair. He was the lawyer in the case, Samuel Untermyer. President Wilson was constantly begging money for political purposes from my wife's brother-in-law, Cleveland Dodge, was in no position personally to pay any of the exorbitant fees usually obtained by the enormously wealthy Samuel Untermyer. It is generally and carelessly said that Mr. Untermyer, as the price of his supposed intervention in quieting the Wilson-Peck scandal, asked that Louis D. Brandeis, a radical lawyer from Boston, be made a Justice of the United States Supreme Court.

It was really not quite so simply done. President Wilson could accept no such suggestion from such a character as Untermyer. Therefore, the chaste intellectual, Mr. Norman Hapgood, was sent to Saratoga Springs to consult with that educator of mankind, George Foster Peabody. It was in the gardens of Yaddo that Mr. Hapgood, having cleverly forced Mr. Peabody to ask "Who is there to fill the vacancy on the Supreme Court?" replied, "There is only one choice—the author of 'Other People's Money,' Louis D. Brandeis, who, like you, loves the colored race and has protected them." Seizing upon it as his own idea, Mr. George Foster Peabody then telegraphed the President that Louis D. Brandeis was the only possible choice for the vacancy on the Supreme bench. Overjoyed at the suggestion from so responsible a source, President Wilson was able to discharge his obligation to the man Untermyer. The power of Louis D. Brandeis and Samuel Untermyer over President Wilson was supreme. The Jews intrigued with England. The Jews told the almost defeated British Govern-

ment that if certain of their demands were met, Louis D. Brandeis would use his power over the blackmailed Woodrow Wilson to force America into the war.

The so-called "Balfour Declaration," composed in a great part by Louis D. Brandeis, was incorporated in a letter which the desperate Balfour sent to Lord Rothschild. The Jews then promised the British Government that they would extract huge loans from the American people. They forced American savings accounts to be converted into Liberty Bonds. All this carefully saved wealth of America was turned over to Britain—the blood money given to England for her promise to be the "trigger-man" of Zionism. The debt has not been repaid to the defrauded Americans except through their own taxes.

At the same time Louis D. Brandeis cabled Lord Rothschild that it was time to turn loose the agents of revolution in Russia, and the British Ambassador Buchanan was ordered by the British Foreign Office to help the Yiddish conquest of Russia.

All American lives lost in the war were lost primarily through the action of Louis D. Brandeis. The terrific slaughter of the revolution in Russia was part and parcel of the Brandeis Zionist-Bolshevik conspiracy. Since August, 1914, twenty-three years ago, an average of 1,000,000 lives a year have been killed by war and revolution are the victims of the conspiracy headed by Louis D. Brandeis.

The United States is now on the verge of civil war—class against class, family against family, brother against brother, and the leading force in this planned slaughter is Felix Frankfurter, nephew of Louis D. Brandeis. They are confident that they control the pitiful foresworn Roosevelt as they controlled the pitiful blackmailed Wilson.

Charles Crane in October, 1914, showed me the special cable concealed in his garage at Woods Hole, which brought word from all the battle-fronts of the world. Charles Crane was then the Gentile front for his neighbor, Louis D. Brandeis. Few people suspected that Louis D. Brandeis, an innocent vacationer on Cape Cod, was one of the intriguers of the world. Charles Crane, an American Christian, continued to be taken in by the humanitarian platitudes with which Brandeis covered his intrigue. When Charles Crane found that he had been duped, when he found that the state of Slovakia

which he helped build, was part and parcel of the Jewish Bolshevik system of Russia, when he found that the Russian peasant, whose interests he held to be vital for the agricultural policy of the world, had been deliberately starved by the Yiddish bureaucrats Brandeis had sent into Russia, then Charles Crane awoke in a great anger and said: "Louis, you have dealt death to millions," and Louis D. Brandeis replied: "What do you care, Charles; they were only Christians."
