THE JOURNAL OF BORDERLAND RESEARCH

BSRF No. 1 Published by Borderland Sciences Research Foundation, Inc., PO Box 548, Vista, California 92083 USA. Edited by the Director, Riley Hansard Crabb, Doctor of Metaphysics in the Society of St. Luke the Physician.

The Journal is published six issues a year with the assistance of the Associates, at the Director's home, 1103 Bobolink Drive, Vista. It is printed, 36 pages an issue. The Foundation is incorporated under California law, May 21, 1951, #254263, and has been in continuous existence since then. Address all correspondence to the PO Box. The Journal is included in the Foundation membership of $8.50 a year. Single copies and back issues of the Journal are now $2.00 each. If you don't care to join you may receive the Journal by donating $8.50 a year or more to the Foundation. The Director's wife, Ms. Judith Crabb, is office manager and Secretary-Treasurer.

PURPOSES OF BSRF: This is a non-profit organization of people who take an active interest in unusual happenings along the borderland between the visible and invisible worlds. In the words of the late Meade Layne, founder and director of BSRA from 1946 to 1959: "BSRA publications are scientific in approach but employ few technical expressions. They deal with significant phenomena which orthodox science cannot or will not investigate. For example: The Fortean falls of objects from the sky. Teleportation, Radiesthesia, PK Effects, Underground Races, Mysterious Disappearances, Occult and Psychic Phenomena, Photography of the Invisible, Nature of the Ethers and the problem of the Aeroforms (Flying Saucers). In the year 1946 BSRA obtained an interpretation of the phenomena which since has come to be known as the Etheric or 4-D interpretation, and which has not been radically altered since that time. This continues to be the only explanation which makes good science, sound metaphysics and common sense."

The chief present concern of the Foundation is to make this kind of unusual information available as a public service at reasonable cost. Headquarters acts as a receiving, coordinating and distributing center. An important part of the Director's work is to give recognition, understanding and encouragement to people who are having unusual experiences of the borderland type and/or are conducting research in any of the above fields. For consultation on borderland problems or for Spiritual healing through prayer, write or phone 714-724-2043 for help or for an appointment. Donations and bequests toward Foundation research programs and expenses are welcome.

The 32-page list of BSRF publications is available from Headquarters for $1.00 in money, check or stamps. This includes brochures on borderland subjects, tape recordings of Mr. Crabb's lectures and of members of the Inner Circle, talking through trance-medium Mark Probert. WHAT DO THE FLYING SAUCERS PORTEND?

By the Yada di Shi'ite

(This question was asked of our leader of the Inner Circle 25 years ago, in October 1953. A whole generation has gone by since the Yada gave his answer. Now we have the spectacular public and financial success of such space films as "Star Wars" and "Close Encounters of the Third Kind". These are spawning a new round of TV series and motion pictures based on the Flying Saucer phenomenon. Gene Roddenberry, creator of the durable "Star Trek" series, has gotten the original cast together to do a feature-length movie for the millions of devoted Trekians. And our own Flying Saucers are fanning out through the solar system. Consider this item from the Los Angeles "Times", May 11, 1978, tucked away on page 32: "The first of two space probes designed to discover why the planet Venus is so much like, and yet so vastly different from, the earth is to be launched from Cape Canaveral in Florida in little more than a week. ("Called Pioneer Venus 1, the 1,280-pound, 8-foot-diameter, drum-shaped probe will arrive at Venus in early December. Pioneer Venus 2, its sister probe, is to be launched from Cape Canaveral in early August and, flying a shorter route, will reach the planet just five days after Pioneer 1. . ." We've come a long way, baby, since the Yada made these remarks in 1953!)

"It is about two and a quarter billion years since man made his first attempt to live on earth, and about seven billion years since the formation of the primeval vortex from which the earth arose. Throughout all this enormous period of time -- by your measurements -- the people of the Discs, in their craft which we call Kareetas, have been making periodic visits to the earth and studying its nature and action.

"All races of men have seen them. Five hundred thousand years ago they were well known to the dwellers in Yu, my civilization in the Himalayas.

"What does their present coming portend? The universe, the whole Cosmos is expanding. It is like an explosion of the Cosmos. You know that there are dwarf stars, and also that there are Super-Novas. Now, these pass one into the other; each can become the other. This is also true of the Island Universes, which can and do change back and forth. This is the play of atomic energy, of magnetism, of attraction and repulsion. All the stars, the Suns are in effect huge dynamos.

July-August 1978 RR, Page 1
EARTH'S PRIMARY VORTEX, as drawn by the entranced John Newbrough for Oahspe in 1880. According to the Yada it took the Creator 5 billion years to precipitate the 3-D, solid ball of matter we call The Earth, using this imploding vortex to do it. On this same page in Oahspe, page 553 in "God's Book of Ben", the writers imply the coming of the Flying Saucers!

God says: "16. I blow My breath upon the planet, and lo, man cometh forth, inquiring: Who am I, and what is my destiny? 17. I send an elder brother of man, to teach him, and show him the light." "These Flying Discs you are asking about -- they do NOT belong to the world of three dimensional matter. They come out of other and far greater densities. They come out of worlds of substance a hundred thousand times more dense than the matter which you perceive by your senses.

"You have asked me this question: Since the crossing of space, of distances measured in terms of light-years is impracticable even at the speed of light, yet the Kareetas are said to come (some of them) even from beyond the galaxies -- what expression can we use to indicate this crossing? "I reply that the only word I can suggest is EMERGENT. It is used by you in philosophy; I think in your science also. Consider this set of ivory balls (an example of exquisite Chinese art on the apartment table, with profound philosophical implications), one within another, within another -- ten in all. They are free to move one within another, one out-

July-August 1978 RR, Page 2
side another. Let us say there is no space at all between them -- between the outside of one ball and the inside of the next. On each ball there are corresponding points. Any point, that is, any place -- space-time place -- on, say the outside ball -- shall we call it your earth world? -- has a point on its inside, or, a point corresponding to it on the outside of the second ball -- so on through all the concentric or nested balls.

TIME HAS NO MEANING

"Now, that which is on the surface of any one ball may EMERGE on any of the others, without being hindered by any 'crossing of space'. If there is no crossing of space, then the factor of time has no meaning. This illustration, inadequate of course, may yet be helpful.

"The materialization of entities in your world is of the nature of an Emergence.

"You asked, 'What does the visitation of the Discs portend?' Even though we cannot understand it fully, what does it portend? I would say that it portends in greatest part the expansion of your Sun into a Super-Nova. The under-strata of the earth are getting hotter. This is caused by an increasing cosmic radiation. More and more of this is passing through the ionosphere. It effects a mutation in the chemistry of the earth and a kind of crystallization of the surface. Huge hollows are formed and the brittle outer crust collapses into them. This means that your planet will be subject to violent earthquakes. These physical effects and chemical alterations are being studied by the Space People; for this reason they are often seen gathering samples of soil and water. (And samples of human beings, too! When one remembers the experience of Barney and Betty Hill and others!)

"Is the future of our planet really known on your plane of existence?" asked a sitter at the October 15, 1953 seance.

"Yes," replied the Yada.

"An eminent occultist has recently said that 'an incredible planetary debacle' is in the making," said Meade Layne. "Have you any comment?"

"Yes, I go along with that."

"Would you say that this event is still remote?"

"Some things we are not allowed to say," replied the Yada, "and you know that is one of them. Please excuse me from answering."

In originally publishing this "Memorandum To Associates" on Oct. 16, 1953, Meade Layne wrote: "It is probable that the substance of the statements about planetary conditions is already known to Governmental authorities and in certain scientific circles, and that the policy is to restrict it. It is also reported
that authorities are closing down various small periodicals which are printing alarmist news about the Discs, etc. We repeat this is a report only -- and of course we wish to conform to whatever policy best serves public welfare. Up to the present, however, the policy of secrecy and suppression seems to have been very ill-advised.

"In making use of these pages we depend upon our Associates to use much discretion and by no means to sensationalize this or any other material released by BSR Hdqrs. We prefer to do our own censoring and to retain our privileges of publication."

**THE INTERIOR GRAVITATIONAL PULL OF THE ATOM**

Included in the Oct. 16th Memorandum were these remarks by the Yada on Sept. 26, 1953: "The reason for the atom being so difficult to smash is on account of its interior gravitational pull. Truthfully the atom has never been smashed, Only a piece of it has been blown away, or thrown away -- which is the outer shell or one of the outer shells.

"Should you ever truly break up the atom you would not only turn it off into another, but you would turn your whole solar system into a super-solar. The whole system would become nothing but light radiation, millions of times brighter than your sun.

"All this earth talk about the Discs! (Flying Saucers) The mere fact of these objects is nothing new or remarkable; man has been flying for many centuries in one way or another. But earth people cannot be given the secret of building these Discs right away because if it fell into the hands of any one government it would make war inevitable -- though it is so anyway.

"Yes, the Canadian scientists know a way of operating the Discs but not as done by the space people. There is almost no comparison. The substances of the space disc are not the same as the groupings you have on your earth. The molecular structure is entirely different. The electronic fields are different from those of substances you have. The linking together of molecules (of the Disc material) is of such tensile strength that no forces known to you can break them apart, or cause a cut or break in the substance.

"The particles that make up the Ethers can be thought of as sub-sub-atomic matter, and as we 'sub' lower than that we go out of existence so far as the world of measurable matter is concerned. The Ether is 'there' whether for a purpose or not. There is no such thing as Nothingness. It is a word, a sound, not even an idea!"

And we append further remarks by the Yada, made on November 24, 1953, which Meade thought so important he urged the Associates to "read them with profound attention". Remember, at that time we had been receiving these kinds of observations for eight years!
BEYOND GOOD AND EVIL

"These Beings (piloting the Flying Saucers) are not as horrible as some of them might seem, due to their unusual forms. It is true that many of them are not of man-form, and being of a much higher mentation they do not possess our emotional responses. They are no more likely to react to what man may think of as good and evil, than man would consider what the ant or the cockroach may feel about the same. Nevertheless these Beings have no evil intent; for if so, they could have taken over or destroyed the earth ages ago.

"The secret service closed down one publication (not BSR) simply because they feared the information might lead to panic among the over-emotional."

Who you kidding, Yada? The panic was in the power centers of Washington and Wall Street -- not to mention the Vatican! The giant corporations such as Exxon and General Motors, the billionaire families, Dupont, Mellon, have a lot to lose if they lose control of this country. In 1953 there was no power on earth that could prevent the Flying Saucers from approaching any spot in any nation, at any time, and it is still true today, 1978. Neither we nor the Russians can effectively patrol -- and thus control -- the space above our nations. The Movers and Shakers of this nation walk in fear, knowing full well that an alien power from outside the earth can move in and take over any time. Our leaders lead by sufferance only. And this is true of our Secret Services also. Knowledgeable men in the CIA, the FBI, the NSA, the ONI must know by now that their agents can be put under full hypnotic control and caused to perform any function the Aliens require for their program, and can be given a post-hypnotic suggestion which will cause him to forget that such a function was ever performed. Or that an adept Alien can temporarily materialize any human form desired, to carry out any necessary mission, inside the CIA or outside, or in any other department of government.

"It is true that the Ethereans have in the past taken large groups as well as single individuals from the earth," continued the Yada, "and placed them on other bodies in space, both in and outside your solar system; and it is likely they will continue to do this from time to time. Or even to use human beings for experimental purposes, much as your men of science do with animals. You have no grounds for moral reproaches against the Etherean peoples! There is no more violent and cruel a being in existence anywhere in the universe than man (and woman)!

WHY DO YOU FIND A BODY NECESSARY?

"As to the question: Why do space beings need to use the Disc craft and other forms, if they are dwellers in space? Why can they not move about without a machine of any kind? This is
best answered by another question: Man himself is a space being; why does he find it necessary to create a form to move about in? Men and Ethereans alike are purely mental beings, and ARE everywhere in consciousness (5-D Within-ness, the secret of the success of Radionics. RHC) which IS space.

"But the phenomena of life require form-building," continued the Yada. "All forms are made up of varying degrees of universal life energy and are manifestations of the same. When the Ethereans desire you to know of their presence they must create form; so that you can become aware of them through your measuring rods called the senses of the body.

"Earthman need have no fear of these beings, unless he attacks them or becomes too inquisitive -- in which case it is likely they will retaliate in like manner.

WHAT IS HAPPENING IS RIGHT

"The world in which you live," said the Yada at an earlier seance, "in spite of what is going on, in spite of our telling you your civilization is threatened with doom -- and soon -- still I say to you, your world is beautiful beyond measure. And this: which is happening is right; because over a long, long period of time Man has been working up to this Karma. It is cause and effect and you cannot escape it.

"The world for long has reacted to outside action, and now comes the reaction, the result; but if you will give but half an hour a day to withdraw within, to get to know your Inner Self -- then this which happens outside will never touch you.

"Each generation lives according to the physical, emotional and mental necessities of that period. Therefore you cannot compare the actions of one period with another. We cannot say that one civilization is more advanced than another. Advancement is always in the individual. Tell me, friends, what is an individual?"

"I read a definition the other day," replied a sitter, "that an individual is a bundle of false concepts."

"It would have been better if he had said only a bundle of concepts; for by whose standards are they false?" said the Yada.

"Yada, will the prayers and chanting for peace in India have any effect?" asked another sitter.

"Yes, it will. It may result in an upheaval in Russia which will prevent her from bringing on an immediate world war. . . "

**OUR SUN MAY HAVE A COMPANION STAR!**

CQC By The Editor

Yes, this was the title of a feature article in the Jan-Feb 1978 issue of "Phenomena" magazine, "The Bulletin of Astrological News and Information" published in Toronto, Canada. It confirms the 1952 prediction of a Guardian Flying Saucer captain that our Sun was in the process of taking a mate. Two suns revolving around a common center would be the major part of the New Heaven of the New Age.

The editors of "Phenomena" picked up the startling information from an astronomer writing in the November 1977 issue of "Nature" magazine: 'E.R. Harrison, of the University of Massachusetts, says there is a group of pulsars, stars with characteristic pulsing radiation, all with strangely small periods (cycles), and all within a certain region of the sky. In order to explain this, Harrison suggests that 'the barycentre of the Solar System is accelerated, possibly because the Sun is a member of a binary system and has a hitherto undetected companion star.'

"Harrison's reasoning is as follows: Five pulsars with an uncommonly small period are found with 17h 30m to 19h 52m Right Ascension. One pulsar's pulses are actually speeding up, and there is no acceptable mechanism to explain why. Our Sun is accelerating in the direction of galactic centre, but this motion is at least two orders of magnitude greater than it should be. Most nearby stars are members of systems that have two or more stars, and several stars have unseen companions which have been detected by non-visual means.

"The possibilities are not comfortable for Harrison. 'If the companion is a neutron star or black hole produced by a supernova in the early history of the Solar System, then it is difficult to understand how our weakly bound binary system has survived such a violent event. It is more likely that a companion... is in a hyperbolic orbit, and the present close encounter is a transitory phenomenon lasting only several thousand years. The companion star is therefore either a faint white or red dwarf in closed orbit around the Sun, or a gas-accreting nearby neutron star or black hole in open orbit. Obviously a star in closed orbit about the Sun must lie close to the ecliptic plane so as not to disturb the planets excessively... short-term perturbations in the motions of Neptune and Pluto are significant, but..."
as far as I can determine, as not unacceptably large.'

"Harrison also suggests that a companion star would have some effective role in causing comets to plunge in toward the Sun. But he is cautious. 'Has the Sun a companion star?' he asks in conclusion. 'I find it hard to believe that a star so close can exist and yet remain undiscovered. On the other hand, pulsar observations of extraordinary precision imply that it might exist, and therefore a search for a companion star is perhaps worth undertaking.'"

(Published by Phenomena Publications, Box 6228, Toronto A, Canada, $12 a year, bi-monthly.)

THE SUN OF JUSTICE IS COMING

Astronomer Harrison needn't feel ashamed that our Solar System's second Sun remained undiscovered, because it was never there! Until recently. Apparently our parent Sun has gotten to the point in Its, His? Her? evolution where It feels the need of a mate for balance. I've read somewhere that our Sun is essentially feminine in its sexual balance; if so, then the coming Sun of Justice is masculine. Interesting that it should be co-incidental with the so-called Second Coming of the Christ.

Most of Harrison's troubled questions have been answered before they were asked, in Sao Paulo, Brazil in November 1952. This was during several meetings between a space visitor and a Portuguese Brazilian who writes under the name Dino Kraspedon. The Flying Saucer captain gave his point of origin as Ganymede, one of the largest moons of Jupiter. The other large moon of Jupiter, Io, is also habitable according to the UFOnaut. By the latest count our largest planet is said to have fourteen moons.

"Shortly, people of Earth will have other problems to solve. If up to the present you have been unable to solve problems involving three bodies, there soon be a greater difficulty with the entry into our system of another Sun. There will then be four bodies instead of three, that is to say, the Earth, the two Suns and the magnetic center," said Ganymede.

"I do not understand you," replied Kraspedon. "What is this other Sun that will form part of our system?"

"That is what I want to explain to you," said Ganymede. "Another sun will soon enter our solar system (1952) and we shall be lucky enough to have a system of binary Suns. This is, in effect, one of the reasons, apart from conveying greetings to you, why this meeting is taking place; the other is to warn you of the dangers to which you are exposed with the advent of the atomic age."

"Yes, I would like to know about the atomic dangers but what about this new Sun?"

"It is a body of monstrous proportions which will shortly be-

July-August 1978 RR, Page 8
come visible in the direction of Cancer. It will not, however, emit any light as the light of a Sun only becomes intense when it enters into a secondary magnetic field such as our solar system. It begins to rotate on entering such a field. It deforms space around itself, and generates currents which give rise to its brilliance. If it were luminous beforehand its light would set up a force of repulsion, and it would be deflected from its path. With no luminosity it becomes subject to the pressure of our Sun, but its own momentum will ensure that it enters our system. It will first be seen as a reddish light, later turning to blue. After reaching the area of the large planetary bodies, it will encounter the repulsive force of the Sun, but in its rear it will then have the weight of large bodies, also imparting a force of repulsion to it in the opposite direction. The force of repulsion of the planets behind it, the light it gives off and its great mass will cause the present Sun to move farther away from the magnetic center of our system. Then the two Suns will settle down in their new orbits, the one of the greater mass and lesser light being nearer the center."

Kraspedon's drawing at left mistakenly shows the two Suns as of equal size and equidistant from their magnetic center; nevertheless, it illustrates the astronomical problem of the earth's relationship to the two in the New Heaven. We are aware also of the astrological problem of creating a whole new system of occult planetary relationships when casting a horoscope in the New Age. Kraspedon discovered that the famous Nostradamus predicted the new Sun in his "Centuries", Vol. II, stanza 41: "La grande estoile par sept jours bruslera Nuce fera deux soleils apparoir."

(The great star will burn for seven days and cloud will make two Suns appear.)

"Two Suns in the solar system will create difficult problems," continued Ganymede. "The orbits of all the planets will be changed. Mercury will move into the area between the present orbits of..."
Venus and the Earth. Venus will move out to a position between the present orbit of the Earth and Mars.

WE LOSE OUR PRESENT MOON, EARTH'S HELL

"The Earth will feel the effect before the new Sun settles down in its definitive orbit. As the luminosity of this body increases, the pressure of this light will cause the Moon to move out of its orbit, and it will settle in a position that will turn it into a planet. With this displacement it will take with it part of the ethereal mass of the Earth, which will impart to it a stabilised movement."

We believe the Moon is the Earth's dump, especially for the backward souls too backward and primitive for life on this planet. Ganymede's prediction implies that the Moon will become what the Earth has been, the jail of the solar system! And when it leaves for its own orbit around the Sun, that portion of the ethereal mass of the Earth which goes with it will undoubtedly contain millions of backward souls who still refuse to live by the Golden Rule; and with them will go the Lunar Pitris, the Moon Gods, Looeamong, Enochissa, Kabalactes, Thoth-Gabriel and the others who have kept the Earth in turmoil for a million years with their endless religious wars.

"The Earth, in turn, will move out into the area now occupied by the planetoids (between Mars and Jupiter). In short, there will be a general displacement of all the bodies belonging to our system. Pluto will be ejected from the system and will wander through space until it finds a new haven.

"One of the satellites of Mars will be torn from its present orbit and thrown into space. As it is a relatively dense body, it will be attracted towards the centre of the system rather than repelled outwards. Its trajectory will be such that it will become a satellite of the Earth. Everything depends on its direction of travel when it establishes contact with this planet.

"If this happens to be against the direction of rotation of the Earth, the shock produced by its contact with the ethereal covering of the Earth will smash it to pieces; if it is with the rotation of the Earth, then the satellite will attach itself to this planet. The Earth itself will not be affected by this impact, as its ethereal covering will protect it. According to our calculations, a shower of rocks is all that will reach the surface of the planet, principally in the areas of Europe and North America, Asia Minor, the north of South America, and the south of North America. The impact will turn this now splendid Martian satellite into fragments weighing about 50 lbs. each, which will lay waste these areas. After that, everything will become normal again and we shall have a new sky in which to travel, and you will have a new Earth."

"When will this take place, in the distant future?" asked Dino.
"No, it will be very soon," replied Ganymede, "towards the end of this century. The Earth will begin its new millenium with a new source of light to illuminate it. Many people will vanish forever from the face of the Earth; but a small community, obedient to the laws of God, will remain, and present suffering will cease. There will be peace and abundance, justice and compassion. The unjust souls will get the punishment they deserve, and the just will get their recompense. On this day, many will understand the triumph of the just and they will see why God did not immediately punish the wrongdoers."

If a person's character is to develop properly -- and this is the goal of evolution -- then he or she must be free to consciously choose between good and evil, and to suffer, or enjoy, the consequences of that choice. The best proof of reincarnation is the human conscience. This is the Voice of the Silence in the heart which says, "Dont do it!" when you are tempted to strike back at another in revenge, or hate, or for self-gain.

THE GOLDEN RULE PERSONIFIED

"The Sun which is to come will be called the Sun of Justice. Its appearance in the heavens will be the warning signal of the coming of the One who will shine even more than the Sun itself."

"What has the arrival of the Flying Saucers on Earth to do with the Sun that is to come?" asked Kraspedon.

"We are studying all the effects that its appearance will bring in its wake. If we were permitted, we could, with suitable apparatus, send electromagnetic pulses against it, and prevent its entry into our system by causing it to become incandescent outside our system. However, to prevent its arrival would be tantamount to opposing God's will and allowing the injustice that exists here to continue indefinitely. Those with clear consciences and those at peace with their Creator need fear nothing. Let it come!

"We came here for purposes of study and also to make a desperate appeal to man to avoid the catastrophe and to live in peace. The Earth is not the center of the planetary system, as was previously believed, but the center of evil. If man were to reform himself, it is possible that the Creator would have compassion on him. Avoid war, because man can thereby destroy his planet with his own hands without the intervention of the Forces of Nature. It is not difficult to be good; it is sufficient to do no evil. God will do the rest."

July-August 1978 RR, Page 11
JOHN KEEL, A WILDERNESS CRYING FOR A VOICE

Probably the most indefatigable Flying Saucer researcher of the 1960s was John A. Keel. Desperately he searched for Light in the murky gloom of conflicting data and opinions; but his mountain of evidence produced only a molehill of conclusion, largely because of a built-in conceit which made him reject all opinions but his own. Thus he blinded himself to the Truth he was seeking and became a sucker for Looeamong's propaganda.

In a May 1969 letter to your editor, three pages long, Keel writes: "Unlike you, I have tediously collected evidence and documentation through extensive nationwide investigations which indicate that there is absolutely no validity to the extrerrestrial thesis. Rather, I am obliged to conclude that we are dealing with another space-time frame composed of matter constituted of energies on a different frequency. I am not talking about 4-D. The forces involved are able to transmogrify into any kind of object or entity and they are able to convince individual witnesses of damned near anything. In short, I now believe, after long and careful study, that reincarnation is a hoax. Spiritualism is a hoax. Religion is a hoax. FLYING SAUCERS ARE A HOAX. Human beliefs are exploited on every level. Obviously you are aware of some of this since you state: '. . . they'll lead you and your hard-headed researchers around by the nose, revealing only so much of themselves and their purposes as they choose. I discovered that back in my 'novice' days in 1966. . . "

Keel obviously believes that he is above any such mental manipulation by outside forces; nevertheless, he is an ideological bedfellow with the Jesuits, the Sanhedrin and all priesthoods of the planet who base their dogmas on the idea that this is the only inhabited planet in the universe! This is the most important human belief exploited by the Lunar Pitris, the Moon Gods, behind the organized religions; for it helps to keep man a prisoner on the planet, and under control.

In his Letter to the Ephesians, Paul reveals that he is well aware of these Moon Gods and their manipulation of blind and ignorant human beings for their own dark and selfish purposes. Consider Ephesians 6:12: "For we wrestle not against flesh and blood but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places."

Consider also the significance of Paul's name: Paulus, Apollos, Apollonius -- a Sun God, not a Moon God. This is an appropriate title for anyone who has chosen to live the Golden Rule, the
Higher Way of the Christ, above the belt, so to speak; and this is the message from Ganymede through Dino Kraspedon who, at that time in 1952, considered himself an atheist! Ganymede's obvious mastery of the Bible -- not to mention Hebrew and a few other foreign languages -- and of science, made a believer out of that Portagee-Brazilian -- but not so another atheist named John Keel.

BALANCING LIGHT WITH DARK

Keel was very impressed by the Kraspedon opus, "a careful reading reveals a thorough knowledge of both theology and science, and many of the ideas and phrases found only in most obscure occult and contactee literature appear here. Among other things the book also discusses an impending cosmic disaster in lucid, almost convincing terms; the same kind of warning that is passed on to every contactee in one way or another." (From page 280 of Keel's "UFOs: Operation Trojan Horse")

But Keel was disturbed by Ganymede's truths; he was afraid he would have to change his pre-conceived idea that this is the only inhabited planet in the universe. This was true of hundreds of other hard-headed Saucer researchers who also read Kraspedon's book. Something had to be done by the false Christ, a Moon God named Looeamong, and his fanatical followers. It wouldn't do any good to kill Kraspedon. That was a pen name and this contactee was unknown. The psycho-political warfare of character assassination was the obvious answer. Kraspedon's credibility had to be publicly destroyed. One of the standard ways is to locate a congenital liar, a nobody born with delusions of grandeur, who will do anything for power and notoriety -- including selling his soul to a devil.

So, in Brazil in 1965 a character named Aladino Felix surfaced and attracted attention by claiming to be the elusive Dino Kraspedon. To continue to hold the attention of the public he had to prophesy disasters. They all do, and some of the prophecies do come true because the guiding spirits behind these psychic racketeers, some of them, are Lunar Pitris who have real power and can cause physical events. In fact Power is all they do have! They have no Love. They have no Wisdom, only shrewd, cold ruthless cunning, the cunning of the serpent which has no heart and no warm blood, the physical basis for human love and compassion.

The Lunar Pitris have Fifth Dimensional, creative mental power. They can manipulate the archetypes which create and sustain matter. They can prophesy accurately at times because they can see the consequences, the results of forces they have set in motion. These visions can be passed on to their physical plane agents, making the agent a "prophet with honor" in the physical world. So, in 1965 Aladino Felix "warned of a disaster about to take place in Rio de Janeiro. Sure enough, floods and landslides struck a month later, killing 600," writes Keel in "UFOs: Operation Trojan Horse", "In 1966

July-August 1978 RR, Page 13
he warned that a Russian cosmonaut would soon die, and in the fall of 1967 he appeared on television in Brazil to soberly discuss the forthcoming assassinations in the United States, naming Martin Luther King and Senator Robert Kennedy."

Naturally such prophecies would be accurate because the planning of the murders was already well under way, under the guidance of Looeamong and his Lower Astral plane henchmen, human and non-human. The "fall guys", James Earl Ray and Sirhan Sirhan, had already been chosen -- as had the actual assassins. Soul-less human monsters in certain government agencies had been well trained for their work, and well chosen for their ruthlessness.

A DISHONORED SERVANT OF GOD-THE-DESTROYER

"The startling accuracy of his major and minor predictions impressed many people, of course. When Felix started predicting an outbreak of violence, bombings and murders in Brazil in 1968 no one was too surprised when a wave of strange terrorist attacks actually began.

"Police stations and public buildings in Sao Paulo were dynamited. There was a wave of bank robberies, and an armored pay-roll train was heisted. The Brazilian police worked overtime and soon rounded up eighteen members of the gang. A twenty-five-year-old policeman named Jesse Morais was proved to the gang's bomb expert. They had blown up Second Army Headquarters, a major newspaper and even the American consulate. When the gang members started to sing, it was learned that they planned to assassinate top government officials and eventually to take over the entire country of Brazil. Jesse Morais had been promised the job of police chief in the new government. The leader of this ring was... Aladino Felix!"

Can you just hear the collective sigh of relief when this news reached the United States? Kraspedon's credibility had been completely destroyed. Keel and other hard-headed Saucer researchers no longer had to pay attention to the disturbing and enlightening information in Kraspedon's book. He was nothing but a psychic racketeer as far as they were concerned. Their inflated egos were still intact -- not to mention their preconceived idea of creation.

"When he was arrested on August 22, 1968 the flying saucer prophet declared, 'I was sent here as an ambassador to the Earth from Venus. My friends from space will come here and free me and avenge my arrest. You can look for tragic consequences to humanity when the flying saucers invade this planet.'

"Once again the classic, proven pattern had occurred. Another human being had been engulfed by the ultraterrestrials and led down the road to ruin. There is no clinical psychiatric explanation for these cases." (No, of course there isn't for a metaphysical kinder-

July-August 1978 RR, Page 14
gartner like John A. Keel!) These men -- it has happened to women, too -- experienced a succession of convincing events with flying saucers and the UTs. Then they were smothered with promises or ideas which destroyed them."

To back up his limited and limiting thesis, Keel concentrated on only those contactees who were "led down the road to ruin". I can think of plenty of others who were not, and whose published writings are the basis for an intelligent understanding of the Flying Saucer phenomenon, not based on fear but on hope and inspiration. They carried on for years before their conventional and non-violent passing: Meade Layne, George Adamski, George Van Tassel, Truman Bethurum, Dana Howard. Others are still around: George Hunt Williamson, Dan Fry, Desmond Leslie, Trevor James, Albert Bender -- and of course, John A. Keel; for he does claim contact with the Men In Black! And these Ultra-terrestrials as he calls them, are using him to uphold the Roman Catholic Church as our last resort in this crisis. Consider this quote from Keel's 1969 letter:

"... The true control is not a haphazard thing based upon human-type motivations and altered to serve the needs of the moment. Rather, a plan was developed first and all that has happened, is happening, and will happen is a part of that plan. Constant communication has been maintained between man and the ultraterrestrials through occult and religious channels. Thus Billy Graham and Jeanne Dixon have been advisors to several presidents."

Graham and Dixon? The blind leading the blind! It is true these two prophets or "contactees" have not been "led down the road to ruin" yet; but look where Graham's advice to Kennedy, Johnson and Nixon led them! The high priest Billy Graham lost his credibility for sure when his choice for president resigned the office in total disgrace. Graham had been taken in by a man who was an even greater spellbinder than the irrepressible evangelist! Jeanne Dixon is a devout Roman Catholic. She is the darling of the Jesuits who took responsibility for her early training and development as channel and medium. As she said to her biographer, Ruth Montgomery, in the book, "Gift Of Prophecy": "I dont do astrology. I could if I wanted to, because I was taught it by a Jesuit priest while in my teens, but it takes too much time."

"All Popes are central figures in this drama," writes Keel. "Thus the Pope has visited the Middle East, and Johnson and Thant have repeatedly and deliberately gone out of their way to confer with the Pope. Even the Soviet leaders have been dropping in to the Vatican... As a hardcore UFO-ophile I was more than a little dismayed when I finally learned that the problems inherent in the (Flying Saucer) phenomenon required a negative public stand. The day may come -- indeed it may not be far off -- when it will be necessary for a full explanation to be offered to the world. That explanation will be negative. It will probably come from the Vatican, not from the White House."
THOTMA, BUILDER OF THE GREAT PYRAMID

TEMPLE OF THE FALSE OSIRIS

From John Newbrough’s "Oahspe"
The Book of Wars Against Jehovih
Part II

CHAPTER XLIX

The False Osiris then instructed king Thothma to drive out of the land of Egypt all the Faithists, especially the shepherd kings, who could not be made slaves of.

2. Thothma impressed an army of two hundred thousand warriors and drove off the shepherd kings, putting to death more than three hundred thousand of them... And there went out of the land of Egypt, to escape the tyranny of Thothma, three million Faithists, including the shepherd kings, the unlearned. And in regard to the Faithists who remained in the land of Egypt, Osiris, through the king Thothma, made the following laws, to wit:

3. Thou shalt not possess any land, nor house, nor ox, nor shall thy people possess an alter of worship, nor temple, nor place of sacred dance. But a servant and a servant of servants shalt thou be all the days of thy life. But in thy sleeping place and in the sleeping place of thy family thou shalt do worship in thine own way, nor shall any man molest thee therein.

4. Thou shalt not profess openly thy doctrines under penalty of thy blood and thy flesh; nor shalt thou teach more in the schools or colleges; nor shall thy children receive great learning. And of thy arts, of measuring and working numbers, thou shalt not keep them secret longer, or thy blood be upon thee.

5. And if thou sayest: Behold, the Great Spirit; or Jehovih, the Ever Present, thou shalt suffer death, and thy wife and thy children with thee. And if a man query, to try thee, asking: Who created the world? thou shalt answer: Behold, God! And if he further ask: Thinkest thou the Creator is Ever Present? thou shalt say: Nay, but as a man hath finished labor, he sitteth on his throne in heaven. And if he still further ask thee: Is the Ever Present a Person? thou shalt say: Nay, the Ever Present is void like the wind; there is but one ruler in heaven and earth, even Osiris, who is Lord the God, Savior of men.

6. Who else but doeth these things shall be put to death; whoso boweth not unto Thothma, my earthly ruler, shall not live, saith God. (A blood-thirsty, power-mad Lunar Pitri)

July-August 1978 RR, Page 16
7. These laws were entered in the libraries of Egypt, and also proclaimed publicly by the scribes and seers. And yet with these restrictions upon them there remained in the land of Egypt more than two million Faithists.

THE BUILDING OF THE PYRAMID BEGINS

8. And it came to pass that Thothma began the building of the Temple of Osiris (pyramid), and he impressed two hundred thousand men and women in the building thereof, of which number more than half were Faithists. And these laborers were divided into groups of twelves and twenty-fours and forty-eights, and so on, and each group had a captain; but for series of groups of one thousand seven hundred and twenty-eight men and women, there were generals, and for every six generals there was one marshal, and for every twelve generals one chief, and these chiefs were the Privy Council of the king.

9. And the king allotted to every chief a separate work; some to dig canals, some to quarry stone, and some to hew the stones; and some to build boats, some to provide rollers, and yet others timbers, and yet others capstans.

10. Two places the surveyors found stone with which to build the temple, one was above the banks of the great river, Egon (the Nile?), at the foot of Mount Hazeka, and the other was across the Plains of Neuf, in the Mountains of Aokaba. From the head-waters of Egon a canal was made to Aokaba, and thence by locks descended to the Plains of Nefu, and thence to Gakir, the place chosen by the king for the temple to be built.

11. And as for the logs used in building, they were brought down the waters of Egon, even from the forests of Gambotha and Rugzak. These logs were tied together and floated on the water to the place required, where, by means of capstans, they were drawn out of the water ready for use.

12. And as for the stones of the temple they were hewn in the region of the quarries. And when properly dressed, were placed on slides by capstans, and then, by capstans, let down the mountain sides, to the water, whereon they were to float to the place required for them.

13. The floats were made of boards sawed by men skilled in the work, and were of sufficient length and width to carry the burden designed. And at the bottom of the floats were rollers, gudgeoned at the ends. Now, when a stone was let down from the place of its hewing on to the float, it was ready to be carried to its destination. And when the float thus arrived near Gakir, ropes, made of hemp and flax, were fastened to the float, and, by means of capstans on the land, the float was drawn up an inclined plane out of the water, the rollers of the float answering as wheels.

14. When all things were in readiness for building the temple
the king himself, being learned in all philosophies, proceeded
to lay the foundation, and to give instruction as to the manner
of building it.

15. These were the instruments used by the king and his work-
men: the gau, the length, the square, the compass and the plumb
and line. Nor were any other instruments of measure or observa-
tion used in the entire building of the temple. And, as to the
measure called a Length, it was the average length of a man, after
trying one thousand men. This was divided into twelve parts and
these parts into twelve parts and so on.

16. After the first part of the temple was laid, the builders
of the inclined plane began to build it also, but it was built of
logs. And when it was raised a little, another layer of the temple
was built; and so on, the inclined plane, which was of wood, was
built up even the same as was the temple.

17. The width of the inclined plane was the same as the width
of temple, but the whole length of the inclined plane was four
hundred and forty lengths (of a man). Up this inclined plane
the floats, with the stones thereon, were drawn by means of cap-
stans and by men and women pulling also.

18. For four and twenty years was Thothma building the temple;
and then it was completed. But it required other half a year to
take away the inclined plane used in building it. After that it
stood free and clear, the greatest building that had ever been
built on the earth or ever would be.

THE ORIGINAL TOWER OF BABEL

19. Such then was Thothma's Temple of Osiris, the Great
Pyramid.

20. Jehovih had said: Suffer them to build this, for the time
of the building is midway betwixt the ends of the earth; yea, now
is the extreme of the earth's corporeal growth; so let it stand as
a monument of the greatest corporeal aspiration of man. (This was
the nadir, the bottom of the arc of man's involutionary descent
into matter, and beginning of the evolutionary ascent out of mat-
ter. RHC) For from this time forth man shall seek not to build
himself ever-lastingly on earth, but in heaven. And these things
shall be testimony that in the corporeal age of the earth man was
of like aspiration, and in the spiritual age of man in an opposite
condition of corporeal surroundings; for by the earth I prove what
was; and by man prove what the earth was and is at certain periods
of time.

CHAPTER L.

When the temple was completed, and the king and his four
high priests entered into the Holy Chamber, the false Osiris,
through his servant God, Egypt, came in sar'gis (materialized

July-August 1978 RR, Page 18
form?), and spake unto the king, saying: Here am I, 0 king!

2. Thothma said: My labor is well recompensed. That thou hast come to me, 0 Lord, my God, I am blessed. Osiris said: Keep holy my chambers; suffer no man, nor woman, nor child, that dwellth on the face of the earth, to know the mysteries of these, my holies, save and except my adepts. Here layeth the key of everlasting life.

3. Thothma said: How sayest thou, the key of everlasting life? Osiris said: Herein is that which is of good and evil, as I commanded thy forefathers; to eat whereof man shall become as Gods, and live forever. For this is the triumph over death, even for which I created him on earth.

4. Thothma said: Shall only we five know these things? Osiris said: Nay, verily; else the light of my kingdom would be full. Behold, thou, how I built the temple! Was it not in the keeping of adepts? So, then, as I have given unto thee to know my kingdom, thou shalt give unto others, not suffering these lights to come, save through my commandments.

5. Now in the second month after the temple was completed, Thothma, the king, having put the affairs of his kingdom in order, went into the Holy Chamber, and thence ascended into the Chamber of Life and Death, leaving the four chief priests in the Holy Chamber. And Thothma cast himself in death (dormancy) by swallowing his tongue. Whereupon the priests closed the entrance and sealed the king therein. (24 years of time, the labor of hundreds of thousands of men and women, the wealth of the Egyptian kingdom poured into this vast structure, wasted, really wasted, just to give the king and his ministers privacy for their meditations!)

6. Osiris, through his servant God, Egypt, said unto the priests: One alone shall remain; in quarter-watch shall ye dwell within the Holy Chamber, and I shall remain also. And the priests cast lots, and divided the watch in six hours each, unto every day. And Osiris sent Baal to the spirit of Thothma, and took him to Agho'aden, Osiris' heavenly place, showing unto the spirit the glory of the throne, saying: Behold, the God of Gods. Thothma said: It is a great glory; lo, mine eyes are blinded by the light of the Lord my God. After this Baal took the soul of Thothma into a thousand heavenly places in Osiris' kingdom, and showed him the glory thereof. (To be continued in the next Journal.)

NEW AGE AWARENESS

"Enclosed is a money order for subscription to BSRF and for some back copies of your selection. I ran across a copy of No. 8 of Vol. XXII, Nov-Dec 1966 which a friend in Georgia had passed on to me then. At that time, I evidently was not able to assimilate this type information into my thinking and reasoning processes but the other day when sorting thru old material it appeared and I read and enjoyed every word of it. I am interested in learning more about the Argon light and MWO Antenna. If these are still available then I would like to purchase them. Advise the current prices and I will remit promptly or you may send C.O.D."

Rev. H. Byron Gaar, Jr.
Christ's Identity Church
Hargill, Texas

Glad to hear from you and have your subscription to the Journal, and to learn of your interest in borderland science. The fact that you apparently intend to incorporate this in your understanding and presentation of the teachings of Christ is most encouraging. It is this editor's belief that Christ taught occult science -- the Laws of Mind and how they are used to manipulate matter -- in Laying-on-of-Hands and Absent Treatment, for instance -- and how his disciples could protect themselves from Black Magick attack -- in the Upper Room at the Quirbet Quamran monastery; but taught only in parables to the multitudes because of their limited understanding.

General Electric Argon bulbs are not easy to come by, though the biggest GE lamp dealer in Corpus Christi might carry them. An acceptable substitute would be a burnt-out low-wattage bulb, 25 or 40 watts; for the hi-frequency discharge from the Tesla Coil of the MWO flows along the surface of the bulb. When the bulb is rubbed on the skin -- over an infected tooth, for instance -- the current goes into the skin at that point to upgrade cellular activity and destroy infecting bacteria.

We can still get MWO antennas made by a local yokel at $9.00 apiece. A good commercial Tesla Coil is available at $74.50 from Edmund Scientific Company, Barrington, New Jersey 08007. If you do set up a research program on "upgrading cellular activity" with hi-frequency radio waves we'd appreciate any reports on results. The Edmund catalog number for the Tesla Coil is 70,301. Edmund offers a more powerful coil, a 200,000 volt Van De Graaf generator at $79.50; but this may be too powerful for body cells which only require minute amounts of stimulation. The bulb requires only one connection from the Coil, from the positive output.

WANTED, A PORTABLE ANTI-RADIONIC DEVICE

"I would like to have a sample copy of your Journal and catalog of publications. A personal question: If one can hurt persons with radionic devices, like for instance the Hieronymous device, couldn't we develop a Psychic Shield or a portable anti-device?"

"But my main problem is to increase the density of vegetation in arid zones, also in deserts. My customer doesn't want to use chemical methods, fertilizers or cloud-seeding; so we plan to work with the cloudbuster of Dr. Reich; but this may produce hurricanes, too. You can imagine what that would mean in a desert.

"A British business friend proposes Radionic methods and I wonder if you can give me some hints and literature, as well as the addresses and resources of information or suppliers of appropriate Radionic devices. Enclosed is a dollar cash for air mail postage."

Joachim Bahr-Vollrath
Graz, Austria

The two main sources of Radionic equipment we know of in England are the late George W. de la Warr's Radionic Center Organization, Raleigh Park Road, Oxford, England; and Bruce Copen, "The Lodge", Brantridge Forest, Balcombe, Sussex, England. Write them for catalogs and prices. You might do well to get in touch with the British Radionic Association, "Field House", Peaslake, Nr. Guildford, Surrey, England. I believe they put out a Radionic Journal. Our own Radionic literature contains schematics of comparatively simple Radionic circuits and Atlases of rates -- including the UKACO device, perfected for the broadcast treatment of growing plants in the 1950s. It is true that when UKACO is used to kill insects at a distance it becomes a Death Ray machine which can be turned on humans, if the operator desires.

We brought this up with Galen Hieronymous in our correspondence, and the need for Radionic defense. He admitted that a defense had been developed but made no offer to share it with us. Fortunately, there are Psychic Shields which have been in the public domain for several thousand years -- the Sixth Pentacle of Mars from MacGregor Mathers' "Key of Solomon", for instance. We have used this to stop what we deemed Radionic attacks, almost instantly. Our favorite defense is the Lesser Banishing Ritual of the Pentagram, used morning and night, every day. I understand that the pagan magician, Aleister Crowley, lived in such fear of psychic attack that he used the Pentagram Ritual morning, noon and night! Every day!

It is your editor's belief that the Forces of Nature are intelligent Forces. It takes time to develop a meaningful relationship with them, just as it does with any human being; and Radionic equipment -- like any other magickal devices or appurtenances --
will not work without the cooperation of these invisible, Natural Forces, and there are both Good and Bad; and, the Radionic operator must decide whether he will work with God-the-Creator or with God-the-Destroyer -- once the Great Awakening to these Invisible Forces has come. This is the occult significance of Jesus' statement of Mathew 12:30: "He who is not with me is against me."

It is like a great flywheel which, once started up in the right or clockwise direction, cannot be suddenly reversed without being brought to a full stop and started up again to the left or counter-clockwise direction. Is it likely that the Nature Forces concerned with creative growth of vegetables and plants, and humans, could be persuaded to also be killers and destroyers? Is it likely that the Christ Forces dedicated to healing would have anything to do with a human who wants to use his Radionic equipment to destroy insects -- or other humans?

THE DEATH RAY RATE

There is a Death Ray Rate in the Manual of Operation for the Dr. Miller "Radioclast" machine which we are printing now. It is 54, Necrosis; but the healing Radionist would only use it to determine if his subject or patient is going into a terminal state. To use such a rate to accelerate the subject's progress toward the grave is to choose the Left Hand Path, to become a Dr. Faust who has sold his soul to a devil, to a Lunar Petri, a destroyer. The healing Radionist works with Solar Pitris, the builders. The average man or woman cannot discriminate between the two. The awakening man or woman must choose.

DEVAS OF THE SEVENTH ORDER

We look to Djwal Kul and his "Treatise On Cosmic Fire" for more information on the Natural Forces the would-be Radionist draws to himself in his desire to consciously manipulate those Forces for his own ends, selfish or unselfish. In the Hindu lexicon they are called Agnichaitans, devas or elementals of the Seventh Order. These are conscious electro-magnetic Forces associated with physical matter as we know it. They form it and they dissolve it, thus the importance of their presence in the healing process. But these
Seventh Order elementals have no moral scruples, no sense of right and wrong. They'll come to whoever calls, in the occult sense, and the Radionist, the would-be Radionics operator, is calling for Invisible Forces to help him in his, or her, effort to pierce the Veil, to roll back the door of the tomb of the five senses in which we are imprisoned. I supposed these are the Deros of Richard Shaver.

On page 466 of the "Treatise" Djwal Kul speaks of "a peculiar group of devas who are the agents or 'mediates' between magicians (either white or black) and the elemental forces. This group is known occultly as 'The Mediatory Seventh' and is divided into two divisions:

a. Those working with evolutionary forces.
b. Those working with involutionary forces.

One group is the agent of constructive purpose and the other of destructive. More need not be submitted anent this group as they are not easily contacted, fortunately for man, and can as yet only be reached by a particular group ritual accurately performed -- a thing as yet practically unknown. . . "

That may have been true when DK wrote that through Alice Bailey over fifty years ago (1924) but ritual magick is now being studied and practiced all over the Western world -- as is Radionics -- which is a form of magick; and the Radionist is a magician -- whether white or black is up to him, or her -- depending upon the motive. If the motive is selfish the Radionist or magician puts himself under the control of the Involutionary Forces, Lunar Pitris or Moon Gods of the lowest order. If the motive is unselfish the note he or she sounds on the inner planes will attract Lunar and Solar Pitris of a higher order who will voluntarily cooperate with him or her in the work diagnosis and treatment of disease. Call them Devas of the Sixth Order, if you like.

DIVINE ALCHEMY, THE HEALING PROCESS

"Conscious transmutation (of matter, the healing process) is possible only when man has transmuted the elements in his own vehicles," writes DK. "Then only can he be trusted with the secrets of divine Alchemy. . . The true Alchemist in days to come will in every case seek to stimulate the radioactivity of the element or atom with which he is working and will centre his attention on the positive nucleus. By increasing its vibration, its activity, or its positivity, he will bring about the desired end. The Masters do this in connection with the human spirit and do not concern Themselves at all with his 'deva' aspect." (His body-forms)

THE ALCHEMY OF THE DARK BROTHERHOOD

"The process as carried on by the Dark Brotherhood is the reverse of this. They centre the attention upon the form, and seek to shatter and break the form (when it is no longer useful to them!),

July-August 1978 RR, Page 23
of the combination of atoms, in order to permit the central electric life to escape. They bring about this result through external agencies and by availing themselves of the destructive nature of the substance (deva essence) itself."

TAX-SUPPORTED RADIONICS

Probably the most thumb-worn technical books in the/reference libraries of the CIA, the FBI, the NIS, the offices of Naval Intelligence, Army Intelligence, Air Force Intelligence, Marine Corps Intelligence, etc. are the books on Radionics by Sir Francis Barr, Dr. Ruth Brown, Dr. Abrams, Dr. Wethered, Dr. Tansley, Russell, de la Warr, Copen and the instruction manuals on the Miller Radioclast, the Wiglesworth-Hieronymous Pathoclast, the Calbro Magnowave, the Hunter and other proven Radionic equipment. And this was all picked up free, along with the equipment itself, from the hatchet men of the Food and Drug Administration after their raids on doctors' offices across the country in the 1950s.

You can be sure that government "Dr. Fausts" have been selected with great care and thoroughly trained in this New Age art of the manipulation of matter. The sudden death of the late director of the FBI, J. Edgar Hoover, in his office in the FBI building in Washington DC, May 2, 1970 or 71 appears to be a good example of this. The coroner diagnosed a heart attack. Of course! But what caused it? Another example could be the late Senator Estes Kefauvre of Tennessee. He was suddenly stricken on the floor of the Senate, while conducting investigations into the activities of the Mafia and the American Medical Association. He died a few days later in the Naval hospital at Bethesda, Maryland.

These tax-supported government teams must be in practice all the time, with the cooperation of the Agnichaitans of the Etheric planes and the guidance of the Moon Gods of the Lower Astral Plane. Just as the healing Radionist keeps in practice all the time and produces positive results with the cooperation of the Agnisuryans and the Solar Pitris of the Lodge of the Christ. DK warns that developing the powers of the mind and learning to direct mental fire to accomplish physical ends is literally "playing with fire", and woe to him who deliberately augments his human power by "selling his soul" to some Astral devil for temporary physical advantage. He, or she, not only enslaves himself to the devil when the physical life is over, the inevitable reactions to his actions come back and hit in the next life! Here's an example from the daily paper.

"FATHER, SEVEN CHILDREN DIE IN 'WALL OF FIRE'"

Cohoes, N.Y. (UPI) June 4, 1978 - "A wall of fire killed a man and his seven children trapped in an old frame apartment house early Saturday while his screaming wife and fire fighters stood by helplessly. Witnesses said rescue was impossible. The dead were identified as John Gratto, Sr., 31, and seven children ranging in

July-August 1978 RR, Page 24
age from four months to nine years. . . The mother, Virginia Grat-
to, who is pregnant, ran from the building screaming, 'My kids! My
kids!'. She tried to go back into the house but the flames drove
her back. Fire officials said the blaze apparently had started in
the back of the wooden building, which contained five apartments.
City Fire Chief Ray Lamora said windows of the building were covered
from the inside with some kind of insulation. 'We had a tough time
getting in. My men worked like they never worked before.'"

The fire was confined largely to the Gratton apartment, not to
the rest of the building or tenants. To the occult eye this be-
speaks group karma to the members of the Gratton family. Some time,
wherein in the past they were a group of professional trouble
makers in religion or politics. The secret intimacy and conspiracy
of the past is brought out into the open in the present by birth
through one mother, where they can all be wiped out through a holo-
caust of their own making. The small child may be innocent but he
or she is not necessarily pure! The atmosphere of the location of
such a tragedy, after the event, is very unpleasant because of the
pent up evil forces released there; and the Agnichaitans are still
there probably, exulting over their triumph over their former masters.

THE ORDERED PROGRESS OF DEVELOPMENT IS DELAYED

"The Dark Brotherhood burns and destroys the material sheath,"
writes DK through Alice Bailey, "seeking to imprison the escaping
volatile essence as the form disintegrates. This hinders the evolu-
tionary plan in the case of the life involved, delays consummation
interferes with the ordered progress of development, and puts all
the factors involved in a bad position.

"The life (or entity) concerned receives a setback, the devas
work destructively and without participation in the purpose of the
plan, and the magician is in danger, under the Law of Karma, and
through the materialising of his own substance by affinity with the
third aspect (devas of the Seventh Order).

"Black magic of this nature creeps into all religions along
this line of the destruction of the form through outer agency, and
not through liberation of the life through inner development and
preparedness. It produces the evils of Hatha Yoga in India and
similar methods as practised in certain religions and occult orders
in the Occident also. Both work with matter on some plane in the
three worlds, and do evil that good may come; both control the
devas (priesthoods East and West) and attempt to produce specific
ends by manipulation the matter of the form. The Occult Hierarchy
works with the soul within the form and produces results that are
intelligent, self-induced and permanent. Wherever attention is
centered on the form and not on the Spirit, the tendency is to deva
worship, deva contact and black magic, for the form is made of deva
substance on all planes. This must be considered well in connection
with every form for it holds the key to many mysteries. (Pp. 490-
491, "Treatise On Cosmic Fire", by Alice A. Bailey, the Lucis Trust)

IMPRISONING THE ESCAPING HIGHER SELF or VOLATILE ESSENCE

Some of the best examples of Astral devils, human and non-human, imprisoning the aspiring student are in the experiences of the French initiate, Yram, in his book on "Practical Astral Projection": "During one of my experiments, half-past two in the morning had struck, when I began to feel my body becoming heavy and numb under some magnetic influence. Very soon I found myself outside my body, in my own room, and fully conscious.

"I went towards the door, intending to pass through it. I had hardly done so when a new room appeared and kept me prisoner. Making the sign of the cross I dispelled the illusion, but immediately another room took its place, this time one with a window. In order to leave this room I broke the window-panes. Still under the power of the mysterious influence, the glass broke into sharp points. As it was not the first time that such a thing had happened I decided to risk it and tried to squeeze my way past the jagged edges guarding this opening. I then experienced a feeling which is rather hard to define. I was neither cut nor scratched. I felt only a strange discomfort which drew away my strength, as if it had been held in a reservoir from which it was rapidly being emptied. I had to return to my body, not having enough energy to go on...

"During another experiment I was being chased by an individual whose thoughts created cubes in which he tried to shut me up. Suddenly he attacked me. I had the feeling of being kicked in the head. Despite the pain, I managed to free myself and take up the offensive. I destroyed his thought-forms and rose above him to a somewhat higher stratum. Still, he did his best to follow. Being unable to reach me, his powerful will took the shape of stones which it seemed he was throwing at me. Tired of his insistence, I became aggressive and raised a huge bench above his head... Luckily I stopped in time, put down my weapon, and forgave him. Immediately a strange metamorphosis took place, and I saw this entity turn into a dog.

"During the ups and downs of this struggle I never ceased from praying and, as I rose above my opponent, I could feel my energy increasing...

CAN YOU ABANDON SOME PART OF YOURSELF?

"In order to pass from one dimension to another," writes Yram, "it is necessary to abandon some part of one's makeup; just as, at death, the physical body is left behind. When you are on earth, a prison is a real obstacle. Project yourself, and the prison is nothing more than a picture through which you can pass, with ease, as if it did not exist at all. On the other hand, in the projected state, if an astral box closes you in, you are well and truly imprisoned. Leave the astral plane, project yourself into a higher dimension, and you then escape the malevolent influences that are holding you back. If, instead of going higher, you are satisfied
by going back to earth, then the astral prison will mark your psychic limits. Only an exodus to a higher plane can free you, or else the emission of a greater force of the same nature.

"Each world, earthly or super-terrestrial, is therefore a momentary reality. In order to conquer it we must abandon it and seek refuge in a more powerful atmosphere. The quality of the beings with which one comes into contact are easy to discern. The vibratory system we are using as a body transmits the slightest influence. By the good or evil sensation experienced, it is easy to tell with what type we have to deal."

IF one is not blinded by his or her own greed for power, vain-glory or money!

"Remember, as a general rule," concludes Yram, "that in the invisible worlds the moral consciousness is all-powerful. Remember also that a thought is often enough to cause an entity which pleases or displeases us to appear or disappear."

THAT SIXTH PENTACLE OF MARS

But suppose an unpleasant entity, a Brother of the Shadow doesn't disappear or leave us alone, but continues to imprison us in crystallizing cubes of thought? Or suppose this human devil on the astral is guiding one of his physical plane agents, a political or religious fanatic, to direct a Radionic-type attack at us day and night?

What is needed is a sustained defense, based on a sigil or design which symbolizes powerful protection at the least, and at the most returns the sender's projected evil to him and destroys him! The Sixth Pentacle of Mars, pictured back on page 22, is such a protective symbol. Obviously this is a Sunburst. It has a miniature sun at the end of each of the radiating arms. Also, at the end of each arm or ray, is a sigil or signature -- or psychic telephone number -- of an Agnisuryan, a solar pitri who is part of an Astral police force.

MacGregor Mathers translates the accompanying ancient text thus: "Figure 30 -- The Sixth Pentacle of Mars -- It hath so great virtue that being armed therewith, if thou art attacked by any one, thou shalt neither be injured nor wounded when thou fightest with him, and his own weapon shall turn against him."

Then follows his own Editor's Note on the Pentacle: "Around the eight points of the radii of the Pentacle are the words 'Elohim qeber, Elohim hath covered (or protected)', written in the Secret Alphabet of Malachim, or the writing of the Angels. The versicle is from Psalm XXXVII. 15: 'Their sword shall enter into their own heart, and their bow shall be broken.'"

To be most effective the would-be magician should draw this
himself, or herself, to the appropriate size. It can be drawn on cloth and worn under the clothing over the solar plexus. It then becomes the "breastplate of the High Priest or Priestess" and is powered by the radiant energy coming from the heart and solar plexus.

If this idea doesn't appeal to you, set the Pentacle up on a Radionic treatment device along with your "witness" -- your picture, hair clipping or dried spot of blood. Dr. Ruth Brown was offering this kind of protective service, for a fee, at her Hollywood lab in the early 1960s. If you don't have a broadcast treatment device make one out of an old radio speaker vibrating with 60 cycle hum from the house current -- cut down of course with a 6.3 volt transformer. Dr. Bhattacharya uses something like this to treat thousands of patients from his clinic at Nalhati, India, with a photo of the patient as a witness. Suspend the Pentacle and the witness a few inches in front of the speaker cone.

You may not want this protection all the time but only periodically. Get a 24-hour time-clock and plug your broadcast treatment device into that. Radio Shack carries a Micronta time-clock for around $12 that will do very well. This can be adjusted to turn the broadcaster on for a half-hour at a time, several times day and night, for as long as you want to leave it plugged in. Of course the Sigil can be changed from time to time. There are other protective symbols such as the Pentagram. One could also experiment with Homeopathic remedies. This is borderland science!

**THIS IS THE FIFTH DIMENSION!**

The late Dr. Leonard Chapman was experimenting with broadcast treatment here in Vista when your editor studied Radionics with him in the early 1960s. He had simple copper wire spirals about six inches laying on Alnico magnets, with the patient's witness and the Homeopathic remedy laying on top. Magnetic fields of these kinds, backed up with the determined, practiced intention of the operator, are a function of the Fifth Dimension

where there is no time, no space, and no barriers except the limitations of the operator -- and the will of the subject. And of course the quality of your thought will attract qualified Agnishaitans or Agnisuryans who will help you to accomplish your desire. But remember Dion Fortune's stern warning: it is impossible to evoke Astral plane devils without becoming obsessed by them. They will be glad to help you get revenge on some real or fancied enemy, if YOU supply the etheric energy or prana, your own life force. Then they keep coming back for more, for THEIR selfish purposes.

"ENERGY UNLIMITED"

"I'd like the Associates to know that we have published our first issue of ENERGY UNLIMITED, the New Age Science Magazine, and plan to publish four issues a year at first, more frequently later. The contents of our first issue included articles on: Tesla Inventions, Hovercraft, Walter Russel's Cosmology, Psychotronics, Astrosonics and the Great Pyramid, UFO Binding Force Meter, Ozone Equipment. The first issue was 56 pages, single issue $4 U.S. and Canada, $4.50 foreign. Four issue subscription $15 U.S. and Canada, $17 foreign."

UPGRADING THE GLANDS AND THE CHAKRAS or "EYES"

"I'm a psychologist who not only is all of a sudden evolving fast but is also in a helping position with many people -- problem children, teenagers on drugs, young adults, and adults. As I grow, they benefit. Enclosed is a check for $9.50 membership/subscription to the Journal and for the catalog of your publications. I'm interested in treating myself on a Radionic treatment machine to normalize and cleanse all of my Endocrine glands and organs, and normalize the Etheric Body chakras as well. Any ideas?"

Dr. M.L.G. Los Angeles, Calif.

A Radionic treatment machine isn't likely to be of much help unless you have treatment rates derived from a diagnostic machine operated by an expert! And of course treatment rates change as the conditions improve. I've been "cleansing and normalizing" my Endocrine glands and their energy suppliers, the chakras or Eyes of the Etheric Double for 10 years now and have certainly slowed down the aging process, with health far better than average, using the Five Rites of Rejuvenation, one of our most popular brochures. Chiropractors and Osteopaths buy them in quantity to sell to their patients as "preventive medicine". The price is now $2.50 a copy.

Another gland stimulator and normalizer is Atomidine (atomic iodine), advocated for years by the Edgar Cayce controls to many people who came to him for health readings. Mrs. Crabb and I have tried it out and obtained positive results, also with Elixir 636, a general tonic which contains Atomidine. This substance, different from tincture of iodine obtainable at pharmacies, is actually a mild poison which stimulates the glands and chakras to step up their vibrations to get rid of it! For details and prices write to Tom Johnson, The Heritage Store, Virginia Beach, Virginia 23458.

July-August 1978 RR, Page 30
Chanted sounds and visualised colors are also great gland stimulators and purifiers IF they are used for that purpose and intelligently directed. This requires a system that has been developed and successfully used by Seekers who have trod this Path before you, and left a well-marked trail, such as the Tree of Life of the Cabala. If you're interested in going this route, Doc, you can start with BSRF No. 24-A, Part I of our Cabalistic Study Series, $3.50. It continues on through 15 lessons at the present time, with more to follow.

IRELAND HAS THEM TOO! THE MEN-IN-BLACK!

"A very curious event took place this May 15th, in Naas again, and again to a very credible witness, the down-to-earth mother of Thomas Higgins of BUFORA (UFO research group). He told me about this when he visited me here at the castle on May 16th, to ask my consent to Irish television coming. We were sitting peacefully on a balcony in the sun listening to the birds. He emphasised that his mother is not psychic, very practical, and I should guess a good Catholic. This was five days ago and I'm still puzzled. He told me that a record of our second Saucer sighting had been 'put on the air' of Radio Dublin in April -- my account. We had made arrangements for next week's experiment when he said:

"'Have you heard of the Men in Black?' I replied that I had. He, like myself, had read Gray Barker's book on them. Then he said, 'When I came home from work yesterday evening my mother said, 'Tom, a weird thing happened this afternoon! I was looking out of the window of the front room -- it was after lunch -- when I saw a man opening the garden gate. He was very dark, and he was wearing a black shirt, a black tie and a black suit. He was carrying a brief-case. He walked up the garden path. I rushed to the front door -- it only took a few seconds -- and I opened the door. He was not there! I ran down the path. The gate was shut. I looked both ways -- no sign of him in the street. The house on the left was locked and there was no way for him to go on the right. So I looked around the back of our own house -- though I knew the dog would bark like mad if anyone had gone there. No sign of him. He just vanished.' Later his mother urged him to come to Huntington Castle to talk to me about the weird event.

"His mother had not been afraid. Tom was not afraid. Neither was I. My own impression of the Men in Black is that they are some sort of Watchers or Guardians. I have faith in the Goddess Isis -- in Deity -- and I shall choose people to help in our Rite and meditation on the 24th, International Contact Day, who are not paranoid nor have delusions of persecution. A healthy mental and emotional attitude is essential for possible psychic (or physical) contact with the Unknown."

Olivia Robertson, Enniscorthy, Ireland

July-August 1978 RR, Page 31
The Men-In-Black are Watchers and Guardians, all right! They are Lunar Deross, Lunar Mafia, ruthless elementals whose job it is to patrol the borderland between the visible and invisible worlds. Many a would-be Flying Saucer researcher has given up in fear after one appearance of an MIB, such as the one who temporarily materialized at the Higgins' garden gate. This is a test of Tom Higgins' dedication to the search for Truth. There will be others. Each test will be a "prison", a cube of thought temporarily erected around him, holding him at that level of evolution as long as he accepts that reality, until he gathers strength and courage and breaks through.

CREATIVE JUICES POWER THE BREAK-THROUGH

"I have just received the March-April Journal and have devoured it with interest. I was particularly glued to the article 'Prophecy of an Economic Crash', containing comments from Nikola Tesla. Having started my own business of writing and publishing children's books (and adult books eventually) during this past year. I felt the old demon of self-doubt lurking in the background as I read your article."

"You remember my letter of last year about this time. You carried it as an article, with comment, 'My First Experience With Vampirism', in your May-June Journal, 1977. Well, after my energy was freed from the psychic vampires and new doors opened to let the Light in, my creative juices began to flow again, as never before, and my business (or my life's work) was launched. It will be an uphill struggle (so who wants a downhill struggle?!.) but I am filled with a strong sense of conviction that I have found my Path in this incarnation -- to reach and to teach. I don't even know most of the things I will be involved in, but I know they will be varied and all meant to help the people I reach. I have much to learn but do know that I have help. Some of my books and ideas have been 'vividly given to me' during the past year, while I have been wide awake. It has all been very exciting, and yet has had a calming effect on my life. I'm sure you understand what I mean!

"Back to Tesla's words, particularly on page 27: '... and as we have told you many times, much of the dire prophecy given for these catastrophies, the major ones upon the Earth, will be mollified, modulated and softened by the concerted thoughts and actions of the Forces of Light upon the Earth."

"I wonder what impact a large group of people from all over the Earth imploring the same Forces of Light with the same or similar words, would have on the Forces of Evil threatening our planet? There are many New Age groups scattered around the world working toward the same end, but there is always room for more work, particularly now. I personally know only three other people who are working for the New Age.

July-August 1978 RR, Page 32
I believe there are many of us, seperately working toward lifting this planet up into the Light, and we might benefit from joining together in some way. We could be like a congregation joining in song and praises inside a church on a Sunday morning. Only, our church would be much larger.

"I believe your publication could be instrumental in joining this larger congregation. You have a large number of members around the world; and even though we all read the same articles, and think many of the same thoughts, there may be a way of channeling this thought energy into a specific theme. If you used a small space in each Journal and offered a specific 'thought' or invocation which could be long and all-inclusive, or on only one topic needing attention, you could help direct some of our abundant higher energy toward lifting this planet into the Light. Can you imagine your entire membership meditating on the same words all over the world, and around the same time?? How exciting!! Perhaps Tesla would approve of our 'concerted thoughts and actions'.

"Please write and let me know what you think of my suggestion. I enclose two invocations of general content. One you are probably familiar with from Alice A. Bailey, found in 'A Treatise On White Magic'. With Love and Light."

Susan M. Austin
Madison, Wisconsin

It is an excellent suggestion and I'm sure Tesla and hosts of other advanced beings in and out of the flesh, on and off the earth, approve the idea. But just because our membership is scattered all over the earth it would be impossible for us to pray together all at the same time -- even if we all wanted to! I have been doing a Cabalistic ritual for world peace, brotherhood and goodwill, every morning for 10 years now; and I am always conscious of the fact that at the same time, all over the earth, millions of men and women of good will are lifting their hearts in unselfish prayer, each in their own way. And, with a regular exchange of publications, we are linked up with quite a few New Age groups in other lands -- such as Olivia Robertson's Fellowship of Isis in Ireland. But few people are Cabalists or are interested in doing ritual magick; so your suggestion of our using DK's famous Invocation is a good one. It has an honorable tradition behind it.

From the point of Light within the Mind of God
Let Light stream forth into the minds of men.
Let Light descend on Earth.

From the point of Love within the Heart of God
Let Love stream forth into the hearts of men.
May Christ return to Earth.
From the centre where the Will of God is known
Let purpose guide the little wills of men --
The purpose which the Masters know and serve.

From the centre which we call the race of men
Let the Plan of Love and Light work out
And may it seal the door where evil dwells.

Let Light and Love and Power restore the Plan on Earth.

THE AFFIRMATION OF THE DISCIPLE

For those of you who have awakened to the idea of a Plan of Evolution for mankind on earth, and are consciously endeavoring to take your place in that Plan, DK has released this mantra for disciples from his World Goodwill center, Suite 566, 866 United Nations Plaza, New York, N.Y. 10017:

I am a point of light within a greater Light.
I am a strand of loving energy, within the stream of Love divine.
I am a point of sacrificial Fire, focussed within the fiery Will of God.

And thus I stand.

I am a way by which men may achieve.
I am a source of strength, enabling them to stand.
I am a beam of light, shining upon their way.

And thus I stand.

And standing thus, revolve (clockwise?)
And tread this way the ways of men, and know the ways of God.

And thus I stand.

A DISCIPLE JOINS UP, AND WELCOME!

"Enclosed please find attached a cheque for Eight dollars 50 cents (U.S.A.) as my yearly subscription to your Journal. As a group here in New Zealand we enjoy the contents of same and only wish we had been subscribing for years. My home is situated on a 'light centre' and we have experienced some remarkable revelations and phenomena since we moved here. Our organization has some thirty clairvoyants working within it. They are all at various levels of development and Christian oriented.

"We run a large Healing Clinic and have had some remarkable results; for, as well as doing spiritual healing work, we give people dietary advice -- the raw vegetable therapy being our big thing -- and the usage of Bio-chemic Cell Salts. We combine this with indirective psychological counselling; for we
realise that though one can clear the aura, heal the physical body, give spiritual uplift to people -- that all of this is of no use if their thought patterns are not re-aligned in some way. For many people are in trouble through negative thinking; so we attack the 'malady' from all points.

"Through revelation from my own spirit guides I have built two 'infernal machines', as many call them, to enable us to diagnose and to transmit healing vibrations anywhere in the world. A full report on these will be released later this year. . . If you are interested I will send you details."

Morris A. Bradley, The Christian Spiritualist Union of New Zealand, 43 Colchester Crescent, Newlands, Wellington 4, NZ.

Glad to have you join with us in the search for Truth, Morris, and by all means send the plans for your Infernal Machines along so we can share them with the Associates.

GETTING RID OF THOSE PESKY BLUE SPRUCE BUGS IN VERMONT

"Galen is in the north states, New Hampshire, Vermont and Maine, going after the Blue Spruce bugs with his radionics. The need there is desperate, big tree losses. People beat a path to his door here. I schedule his appointments. He is booked up through September, and so busy for an 84-year old, working 18 hours a day. He charges $50 an hour for consultation. He has trained four and has two more selected to train in the use of his instrument. He will be at the Psychotronics Congress in Atlanta in August, sorry you and Judy cant be there.

"I am busy building my Center of Light on the ridge 800 feet above my home here. The Love Retreat is for sale (where we lectured on Flying Saucers in 1965) to the right person. So many write to Mr. Hieronymous, asking to see him, what he is doing, can they purchase an instrument, or build one, etc. They should send a self-addressed, stamped envelope to PO Box 109, Lakemont, Georgia 30552, phone 404-782-5347. . . We plan on motering out to California next year for Galen's lectures at Astara in Uplands in February, and will drop by for a dinner visiting with you both."

BSRF No. 33-F THE RADIOLAST INSTRUCTION MANUAL with RATE ATLAS

Some Radionics operators on the 1940s and 50s called the Radiolast the "Cadillac" of diagnostic and treatment instruments; for the two functions were combined into one large cabinet, as in the Pathoclast. This instrument was designed by Dr. Jason G. Miller and made for him and his customers by the Electronic Instrument Company, Tiffin, Ohio. It is probably that some of them are still available and an ad placed in a chiropractor's magazine would probably produce some favorable replies.

July-August 1978 RR, Page 35
There are no schematics in the Radioclast Manual, but Dr. Miller's explanations of disease conditions and how the rates are obtained radionically -- and used for electronic treatment with sinusoidal currents, etc. -- are invaluable and very instructive to the would-be operator who wants background for setting up his or her research program, and scarcely knows where to begin! . . . . . . $7.50
