## Hoover the Scapegoat

THE LOT of J. Edgar Hoover, hitherto popular head of the G-Men, is not at all times a happy one. He must preserve the morale of his special agents and uphold his prestige before press and public. On the other hand, he must bow before the orders of his Higher-Ups, and cater as diplomatically as possible to the caprices of great pro-Jewish plunderbund politicians, on whose good-will depends further appropriations to conduct his Department. If a group of powerful Administrative Jews bethink to use the men of the FBI to obtain data on the extent of the Pelley Publishers' following throughout our forty-eight States, and go to Edgar's superiors with their suggestion, Edgar must acquiesce as gracefully as possible, even though it mean the beginning of the loss of said prestige and the holding of his sleuthing force up to odium and ridicule.

That is precisely what is happening, judging from the condemnatory correspondence piling up from every State in the Union as G-Men apply to readers of the Pelley periodicals and demand answers to questions that are no more the Administration's business than the contents of a man's love letters to his wife or sweetheart.

SO SIGNIFICANT is this correspondence that Pelley Publishers are now at work, making into a booklet, the major part of the protesting letters received to date, which will be scattered from coast to coast by the tens of thousands. All senators and congressmen will get copies, thus conveying to them what the sentiment of the nation is, against allowing the crime-investigating-and-suppressing force of G-Men to be utilized as a political police.

Instead of being nervous over prospective or retrospective calls from G-Men, the greater portion of those visited are indignant or sarcastic. "I've found out what FBI stands for, reports one correspondent. "It means 'Ferret Boys for Israel.'" After which the comment is unprintable.

One of the worst things which could happen, to the FBI prestige of course, would be for the citizenry to start calling it nicknames, to deprecate its dignity, or become indignant at its functions.

Yet that is precisely what is occurring, and Pelley Publishers will reprint scores of letters showing how Hoover has sudden-

ly lost in prestige by lending himself to this type of espionage. One communication, written from Texas to Senator Vandenberg, is so significant that LIBERATION runs it in this issue in advance.

CHIEF PELLEY is secretly delighted at the apparent results on himself. This action of Hoover's is generally having the effect of convincing skeptics or Doubting Thomases that much of what Pelley has published, about the espionage tactics of Jews in Federal government, is the sternest part of fact.

"The idea of my having to answer to a G-Man for reading patriotic or anti-Semitic literature!" is the indignant tenor of the comment arriving from every quarter of the country. "Believe me, if this is the way things are going, I'm making it my business to put the Pelley literature everywhere I can!"

¶ And people are doing it!

Traceable directly to this indignation, the demand for LIBERATION literature has become such, that since March 1st the Pelley presses have been from a week to a month behind in production, a night-shift has been added to the Asheville printing force, and sales have doubled—and on some particularly potent items, tripled and quadrupled. And donations are coming in for the furtherance of the Silvershirt work such as have never before been the order since the Silver Legion was organized—obviously as a gesture in defiance of what is accepted as an infringement of Constitutional rights by G-Men who, in the opinion of most of those visited, are paid by the citizenry's taxes to apprehend criminals, not act as towel-boys for jittery Israelites.

*It's too bad for Hoover, because there are not lacking individuals right here in his own Department who may, and undoubtedly will, seize upon this bonehead play in regard to Pelley's organization, to capitalize on this nation-wide censure and hijack his job.*

WITH the closing of Congress, too, the Dies Committee under Jerry Voorhis and Rhea Whitley, is going to get busy and do some more kicking of Pelley, upstairs! Wherever and whenever anyone who is remotely connected with this Administration, makes a gesture toward harassing Pelley or silencing his pen, the immediate reaction is acceptance in the field that his charges against the Administration are correct, and that Jews are responsible. This nation is by no means the country of the Dickstein Crack-Down on Silvershirts in 1934. In 1934, people didn't know "what it was all about." They were not enlightened on the slavish subservience of press and radio to the Judaistic Plunderbund. *Today they are ready to back any man who openly defies that Plunderbund or suffers from its subversive tactics too harshly!*

Anyhow, watch for the booklet containing the letters reporting on the visits of the G-Men. Names and identifications will be deleted, but their sentiments stand.

With people reading this booklet from coast to coast, the "Ferret Boys of Israel" may discover that so long as they apply themselves to catching criminals, the public is for them. But when J. Edgar Hoover permits them to be used as a snooping political police, the first crack in the armor of the G-Men has been made.

Read the letter to Senator Vandenberg.

And pity Edgar Hoover! Doubtless he would much rather enjoy himself fishing, or presenting diamond-studded machine-guns to movie gals of Hollywood!

Number 20

## What if a Second World War is Won by Nazi Germany?

**I**T IS time for people with aching heads and quaking nerves to look at the picture of international events from a far different viewpoint than a Jewish-kept press suggests to them. The United States is living in an era of wars and rumors of wars. The excuse given for all this military turmoil is, that the heads of two European States, Italy and Germany, are dangerous "dictators," and in the face of their "aggressive" behavior, our own form of government stands imperiled. Unless these men are overthrown—or so the assumption has it—they will keep on bringing the countries of the Old World into their control until the day arrives when the aggregation of nations under their "unhallowed" leadership will be too strong for "free" peoples to cope with. Thereupon, these "dictators" will move the arena of their exploits over onto this side of the Atlantic and America will have to bow to the same "serfdom" that now is alleged to be the order from the Rhine to the Tiber. Millions of Americans absorb this sort of balderdash from their propaganda newspapers nightly, and accept it as gospel fact. So they agree that the United States as a government should act to prevent it by courting war *now!*

Pick up any newspaper printed nightly at present, and you will find its editorial policy taking it for granted that if the United States should cooperate with Britain, France, and Russia, to halt the menace of these two "dictators," there could not be a shred of doubt about the outcome. It is taken as a foregone conclusion that such a coalition would "thrash the trousers" off the offending totalitarian States, and the menace of their aggressions be removed forever.

The question discussed nightly is not whether such a coalition is justifiable, or whether the "dictator" nations actually can or will do what the inspired officials in Washington would have us accept, but on what basis the "democracies" should cooperate and how would the spoils be divided after such conflict is won.

In all of the vainglorious war-mongering, two things, it

is obvious, are being overlooked. The first of these is: That this matter of the inevitability of war is purely a connivance of powerful international Jews to put themselves back into the saddles of power in Italy and Germany. The second is: That just because Britain and America have always been victorious in whatever wars they have undertaken, is by no means any assurance that they always *will* be successful.

This business of taking it for granted that America, Britain, France, and Russia, could whip the totalitarian States—meaning the coalition of Germany, Austria, Italy, and Spain—is as mischievous as it is dangerous in this respect—

*The American, British, and French public is being perniciously kept ignorant of the fact that with Japan as an ally in the Far East, the balance of power has gone to the axis nations, and for the first time in history, America and Britain face a force against which a war would mean overwhelming defeat!*

**N**ONE of this, understand, is advance war propaganda in favor of the Fascists. It is looking nakedly and without Jew-motivated bias at the military, air, and economic resources of the Fascists, and considering possibilities in the light of harsh international facts.

As is shown later on, in the pages of this issue, Germany is now so superior in the air that, known only to experts, Great Britain and France are absolutely at her mercy. Hitler can despatch 100 airplanes *per hour* to bomb Paris or London, and keep it up for twenty-four hours at a stretch. Neither Britain nor France begins to come within a fraction of such strength, and the statesmen of both of those countries know it. Moreover, some of Germany's latest planes can travel at 435 miles an hour—the greatest speed thus far attained by man in the history of his race. Backed by the trained land forces of a territory larger than all the other nations of Europe combined, the Blackshirt Legions of Mussolini, the trained and hardened veterans of Franco, and the sea fleet of the Japanese, *the Fascist powers are now in control of the international situation, and know it!*

(OVER)

This was the real significance of the Munich Pact. Millions of unlearned persons accept that the Munich Pact had, as its only significance, the coming together of two "dictators" to preserve their systems of government. So the Jew-controlled press has lead them to believe.

But the real essence of the Munich Pact was something more vital. The teaming-up of Mussolini and Hitler, with the victorious Franco as an ally in the west and an equally victorious Japan as an ally in the East, truly meant that for the first time in modern history, four major States acting in conjunction were powerful enough from the military standpoint to challenge the other nations of the earth and run more than a fifty-fifty chance of coming off victorious, in the event that the rest of the world became pitted against them. Yet the Munich Pact was more—

The four major States thus challenging the rest of the world, were directed by rulers who were devoid of any harassments or directings by Jewry.

The remainder of the world's governments, without an exception, are Jew-ridden and Jew-plagued, Jew-infested and Jew-dominated. With the Munich Pact, in other words, the major nations of the earth began to square off. Those which had purged mischief-working Jews from their governments were in one line-up. Those whose political and cultural institutions are already eaten to ruin by locust-swarms of Jews, were in the opposite line-up.

*No Jew-ridden, Jew-plagued, Jew-infested or Jew-dominated country on the face of God's earth can emerge victorious from a conflict with nations cleanly purged of this predatory racial element!*

WHEN Roosevelt left Warm Springs last month, he is reported to have cried in adieu: "I'll be back in the autumn—if we don't have a war." Translated, this meant: "I'll be back in the autumn, if I can't *make* a war." And the war he would make, would be nothing but a sickening conflict, fought between great Christian peoples, to save the collapsing fortunes of the world's non-Christian Judaists.

What the common citizen of the United States has yet to be told is, *that it's now too late for Roosevelt, or any other pro-Jewish executive, to put this nation into a war that spells a chance of success.* Two years ago, yes! But not in 1939. Twenty years ago, it took something like forty-eight months for the combined nations of the earth to come anywhere near thrashing Germany and Austria—with Hungary an unwilling ally. In 1914-1918, Italy and Japan were on the side of the Allies. Today, Italy and Japan have swung over to Germany and Austria, reinforced by the hardened veterans of Spain, and the troops of Hungary and Czecho-Slovakia. Today, in the event of war, England and America would have to bear the brunt of it. France is split asunder on the Jewish Question and only a stern pro-Jewish dictatorship is holding her from joining with Hitler and Mussolini. Russia as an ally would be of no value, since Red soldiers entrusted with ammunition would start a civil war to overthrow Stalin—or desert to the Fascists to escape the serfdom of Bolshevism.

RIGHT now, Jewish propagandists are working overtime, striving to build up a war fervor against Hitler and the "dictators." Part of it is commercial—hoping to sell millions of dollars' worth of arms to this bankrupted government and

make a lot of money—part of it is reckless hatred of the Nazi chieftain who has bested them on every front, and part of it is sheer camouflage for the collecting of troops and the movement of military units to offset the civil war effects of anti-Semitism, if it gets out of hand and any sort of carnage starts to purge this nation of its fish-peddler government.

But trained military observers, who analyze the success or failure of any proposed war dispassionately from the factors of personnel and equipment, have quite other ideas as to what might happen to Britain and America if the reckless propagandists succeed with their manias.

They recognize that in all this international brawling and sabre-rattling, our Jew-ridden Roosevelt Administration—in siding with Britain and France and Russia—is betting on the wrong horse in the military horse race.

As matters stand between Europe and the United States in this spring of 1939, there is every military reason for accepting that Germany, Austria, Czechoslovakia, Italy, Spain, and Japan, could—and would—"thrash the trousers" off John Bull and Uncle Sam.

What then of the Jews in the British Isles and America, called to accounting by the Christians of both countries, for having precipitated such a debacle?

TO SPEAK the brutal truth for once, cool-brained and unbiased analysts of the situation perceive plainly that Hitler has now advanced to a point of world power where he cannot be stopped! Deplore it or not, he has sounded a new note in world affairs—a note that incidentally means the death-knell of Jewry.

While Britain and America have allowed Jewish usurpers to work their economic and financial ruin, the Fascist leaders—without such racial handicap—have been industriously grooming their countries and peoples for the great Armageddon which cannot be postponed, equipping themselves for the final tussle with the Jew-dominated countries, and making themselves invincible in the air. But the common folk on this side of the water have been mesmerized by propaganda to continue their thinking in the world political values of 1917.

If Roosevelt, in cahoots with the Jews of the British Cabinet, fanaggles this country into a second world war, and the totalitarian powers whip this country and Britain, it means that Hitler will push his Jew Purge to the ultimate. He and his allies will treat with the Christian millions of the United States as though the entire American Union were merely the Kingdom of Israel that had offended.

It is something to think about.

The Munich Pact was an anti-Jewish Pact, and the Jews of the world know it, even if they refuse to permit the significance of it to be generally discussed by America's newspaper-reading millions.

The American people are permitting a knot of pro-Jewish politicians in Washington to put them into an international brawl on the side of the earth's Judaistic Leftists—with a debacle ahead for the United States, no matter what the outcome.

☐ It is time for intelligent Aryan citizens to begin envisioning the possibilities of a war in which the Fascists are the dictators of the final terms of peace.

Where will America stand in that day?

Unthinkable, you cry?

Well, go behind the screeching Yiddisher propaganda, and examine the cold, hard, military FACTS!

# Lindbergh Tells the President Some Disconcerting Facts . .

**T**HE NATION is generally aware that Colonel Charles A. Lindbergh has returned to the United States. That he came back on what can be generally accepted as a command from the White House, is the probable truth. Undoubtedly there was propaganda politics behind it somewhere, Roosevelt expecting that he would use the Lindbergh testimony to enhance some of his schemes for aerial legislation. Anyhow, Lindbergh went to the White House, had his "chat" with the President, told him exactly where the United States stood in the matter of air strength to combat the detested Germans, and departed. The expression on his face as he drove away in his limousine did not indicate that there had been much back-slapping or salutations by first names. And what was it that America's Ace Birdman told the Magnificent Incompetent?

He told him, in substance, that compared to Hitler's strength in the air, the whole Jew-Deal's aviation program was a mute and inglorious *bust!*

**S**EVEN years ago—that was in 1932—an egg was laid, in the United States Army Research Center, Langley Field, Virginia. It was carefully tended in the laboratory brooder, and in 1939 "a marvel of a war-plane" was hatched.

On April 21st, when Col. Lindbergh "conferred" with the President at the White House—along with eighteen or twenty high-ranking army and navy officers—this "marvelous" war-bird, which took seven years to hatch, was critically discussed.

☐ This war-plane, it seems, is finally finished and ready for testing—the latest thing that the United States has been able to produce in this particular type of aircraft. Obviously, the President wanted to know what Col. Lindbergh thought of it.

☐ The grim humor of the situation is something that, once again, our very "free" press forgets to impart to the innocuous common citizen. It is reported that Col. Lindbergh told Mr. Roosevelt that ours was a remarkable war-bird, all things considered, and that he "admired" it. According to his knowledge of the situation abroad, however, *the plane in comparison with those now being turned out by Germany was little more than a three-year-old crate!*

**P**ERHAPS, after the Great War Paranoiac had recovered from such disconcerting and unwelcome information, he comprehended to better advantage the fraught significance of the late Munich Pact. Perhaps he now realizes why the German Reichsfuehrer took him over the diplomatic hurdles in that world-applauded speech of April 28th, when Hitler suggested pointedly that the three-time-winner of the Gottheil Medal solve his own domestic problems—if he can—before presuming to tell successful foreign statesmen how to conduct the affairs of Europe.

To be brutally frank, this German air superiority has given

the Jews of Paris, London, and Washington, the tooth-rattling jitters. It is not a myth but cold hard fact—to which Lindbergh so unwelcomely attested. Without question, Lindbergh told His Royal Highness that Teutonic aeronautical engineers have put their nation ahead of all the world, and that thrashing Hitler in the air is more of a desire-wish fulfillment than any military certainty. So what!

Anyhow, it is not reported that Franklin went into one of his thirty-minute laughing-spells over what Lindbergh related to him. And Lindbergh is not the only one to maintain that Hitler now holds the whip-hand in international diplomacy because of what his inventors have accomplished in the air.

**S**. PAUL JOHNSTON, Editor of *Aviation Magazine*, recently wrote an article, "Hitler Wasn't Bluffing," that appeared in the February 18th issue of *The Saturday Evening Post*. The illustration at the top of the first page showed Hitler's hand containing five playing-cards: ace, king, queen, jack, and ten-spot. Instead of the usual markings, however, on each card appeared the design of the swastika. Each card showed a part of a German war-plane wing, on which also was the fraught swastika emblem.

Although Mr. Johnston's flying days are over, he is still a pilot. And he is decidedly an editor, and a writer who knows his stuff. In this remarkable article on Germany's superiority in the air, he conveyed that Germany is the only country in the world whose military aviation combines both quality and quantity in proper proportions. She is the only country in the world that has shown adequate reserves of first-line equipment on her shelves, ready to be drawn upon at a moment's notice. She is the only country in the world that has an established manufacturing industry with a capacity far and away in excess of current demands—an industry that is now ticking along smoothly, under no pressure, and out-producing any other country in the world by a comfortable margin. And Germany has probably made more real progress than any other power in training competent personnel to man her factories and her air-fleets. So said Johnston, backing up Lindbergh. It would take the United States at least three years to begin to catch up to Germany's present point, even under war-time pressure. Do we begin to understand why Lindbergh couldn't wax enthusiastic over one lone war-bird turned out at Langley Field after seven years of trying, and why Hitler wasn't bluffing at Munich when he suggested that his potential allies "sign on the line"?

**N**OR do we have to depend upon the testimony of either Lindbergh or Johnston alone, for forecasting the fate of British and American Jews if they carry their provocative tactics against Hitler too far.

Major Al Williams is Aviation writer. (Turn to page 8)

# J. Edgar Hoover Scored for Investigating Pelley Readers

**T**HE LETTER which follows is typical of the sentiment expressed in scores of communications to Members of Congress and the editor of *LIBERATION*, castigating J. Edgar Hoover and the G-Men for taking time off from criminal investigation to ferret out facts about anti-Semitic readers of the Pelley Publications, obviously for use of Jews high in the Administration. It was written from Dallas, Texas, to Senator Vandenberg of Michigan, under date of April 22nd. The carbon copy herewith published was voluntarily forwarded to *LIBERATION* by its writer, and the editor had no foreknowledge of its composition—

Dallas, Texas, April 22, 1939.

My dear Senator:

**A**LTHOUGH not of your geographical constituency, this humble writer is hereby taking the liberty to liaison regarding a vital matter involving the Constitutional rights of all free American citizens. This prerogative is assumed because your correspondent firmly believes that in so addressing this communication it is dispatched directly to the greatest living representative of the Party of Abraham Lincoln, and the sacred Cause of human rights to which this sainted patriot devoted his entire life—and in the end gladly gave it.

Mr. Senator, it has been well said, "*The price of liberty is eternal vigilance!*" This time-honored slogan never before in history has implied such significance as it does today, after more than half a decade of political maladministration; during the erratic course of which we have witnessed assault after assault upon that Immortal Document above cited. Whereas in the final act of a stupid, and a stupendous, *tragedy-of-errors*—in which We The People have been unwillingly, or unwittingly, forced to play the role of victims—it is discovered that no artifices humanly known are being overlooked by this band of zealous Bureaucrats bent upon a program of perpetuation-in-power-at-any-cost in the face of dismal failure.

Now before dealing specifically with the major premise to be herein presented, it is very fitting and proper that we initially quote, for due emphasis, Article I, of the original group of Amendments to that sacred script, Divinely inspired, which is destined to live on to immortality when its present-day, would-be despoilers have returned to dust and oblivion such as materialistic selfishness begets:

*"Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech or of the press; or the right of the people peaceably to assemble and to petition the government for a redress of grievances."*

**M**R. SENATOR, that this keystone of human rights is at the very moment being arrogantly violated at the subtle instigation of some maliciously mischievous advisorship within

the Washington Bureaucracy can scarcely be in the least discredited, upon examination of the evidence presented.

For when a free citizen of the Republic is subjected to an inquisition at the hands of an official representative of the FBI—an individual assigned by Law to the task of apprehending inter-State criminals—simply because of the fact that said citizen receives and digests a magazine opposed to Communism, it is high time to take stock of Constitutional rights—to say nothing of the potentialities of gross political malfeasance.

Specifically, it is contended that for such an Agency of the Federal Government to hunt down a free citizen to his abode and forthwith subject him to a barrage of questioning regarding his personal affairs since birth, on no more justification than that previously cited, constitutes exercise of undue and illegal duress and the unlawful abrogation of all of the tenets of Article I of the *Bill of Rights*—with the exception of that dealing with religion. For would not such a performance alarm any good person? Thus fear is created, and moreover a threat is implied. Threat of further visitations, and a possible program of systematic persecution.

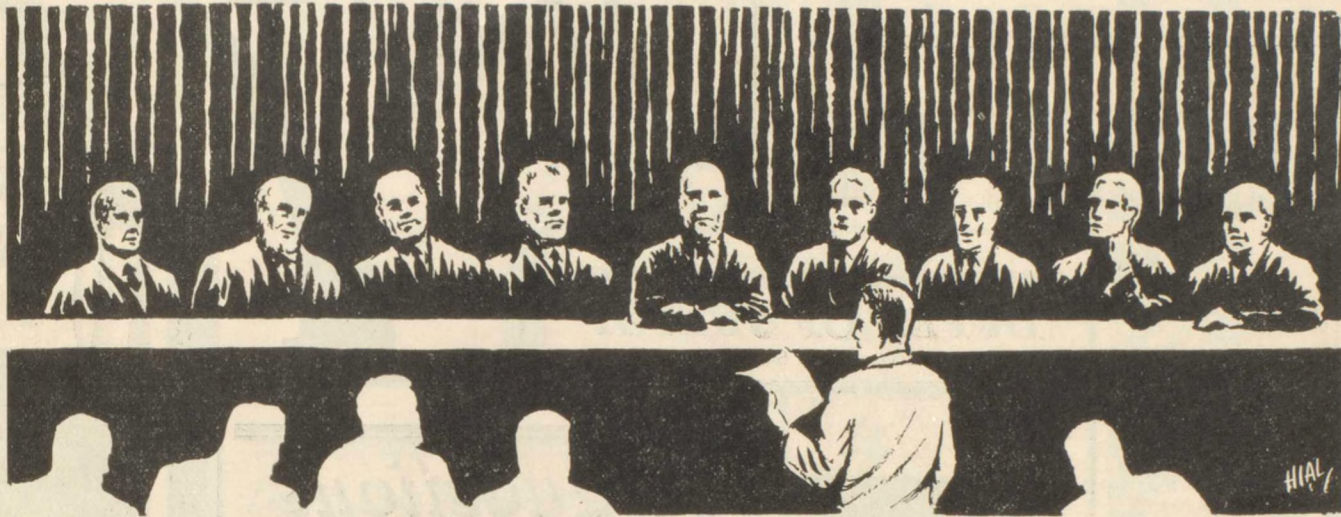

Over and above all of this mess, the routine would seem to clearly indicate the introduction to our United States of the Old World political dossier system so exemplary of utter abrogation of civil rights of the individual; as practiced in Europe, and popularly denounced in our land as utterly repugnant to every American conception of liberty.

**M**R. SENATOR, when this Federal Bureau of Investigation was conceived there were those who at the time took the stand that such a system of Federalized police might eventually be subverted into a force to eliminate political opposition to the Party in power—and an OGPU of the New World. Has this not at last come to pass?

In substantiation of the alleged generality of this present political "witch hunt" throughout the width and breadth of our free Republic, there is herewith transmitted a copy of an article appearing in *LIBERATION* magazine, Vol. X; No. 17; April 7, 1939, entitled: "Do G-Men Work For Winchell?"

Lest it be suggested that the aforesaid extraordinary and alleged unlawful Administration procedure has to do with a "routine check-up" on an anti-Communist organization known as "The Silvershirts"; be it known that this writer is not now, and moreover never was, a member of the aforementioned organization. Furthermore it is as unreasonable to hunt down and charge all readers of *LIBERATION* as members of an anti-Communist Party, as it would be to challenge in like manner all readers of the pro-Communist group of near-pornographic periodicals *Esquire*, *Life*, *Look*, *Pic*, *Click*, *Ken* and all the rest, as constituents of Bolshevism. The fact of the matter is that there are hundreds of *LIBERATION* readers who are not members of "The Silvershirts."

No, very likely this un-Constitutional "witch hunt" is simply

**“Constitutional Law is not for everyone, merely because he happens to be born in a land governed by it!”**

*Are You Familiar with William Dudley Pelley's*

# “NATIONS-IN-LAW”

and the weighty questions in Federal jurisprudence that it propounds, making the fundamentals of this Republic simple and understandable for the Man in the Street? If you have not read this startling

work, “taking Constitutional Law apart” and showing exactly wherein Constitutionalism is both weak and strong, you are in no position to advance sound legal arguments—

## HOW THE JEWS COULD BE DISFRANCHISED

HERE is the liveliest topic of the hour, since the disfranchisement of the Jews would forever end racial menace for Judah and leave Jews in a status that would no longer raise up Gentile rancor against them. The average person, on first hearing about a proposal to disfranchise the Jews, is inclined to protest: “How can it be done in a free Democracy, under the Constitution?” Pelley has shown

not only that it can be done, but that Constitutionalism itself will forever be in danger if it is NOT!

**Read these Two Exquisite Volumes**

and come to know your Constitution and Constitutional Law as adeptly as the men who are leading the Silver-shirts and fighting for correction of universal abuses under both. NATIONS-IN-LAW will disclose to you that there is no breach of political morals in denying the right of the suffrage and office-holding to the Jewish peoples. It will give you an insight into the legal composition of your country that you have never before had brought to your attention.

THERE are Two Volumes to NATIONS-IN-LAW comprising 669 pages, printed in large type on deckle-edged ivory paper, and bound in beautiful wine-red leatherette. The two volumes, as a set, cost \$5 delivered postpaid to any point in the United States.

## Here Are the Dynamic Pamphlets

HERE is a new line-up of the Seven Mighty Little Volumes that are lighting a fuse beneath the non-Christian elements of the United States! They are the booklets that are causing Pelley of the Silvershirts to be one of the most-talked-about men in the Republic at present. They are the booklets that—along with "Liberation Weekly"—have spread so much information about the skullduggeries in our government, that the entire forces of the Federal Administration are being drawn upon to suppress them or silence their author and publisher. They tell the complete story of what is going on in America, from the Jewish Con-

spiracy to usurp all Gentile governments, to the new economic structure that can replace all this unemployment and misery with peace and prosperity for all.

### "Nasty Little Leaflets"

"NASTY little leaflets," was the castigation which Dorothy Thompson used in referring to them in one of her recent writings, but Miss Thompson conceded by her attack on them that they were scouring down proud-flesh. They are by no means "leaflets," however. They are pocket-sized booklets containing from 48 to 80 pages of closely-set type and bound in durable covers of two colors. "The Protocols of the Wf

of Zion" cover what Gentiles allege the Jews of the world to be attempting on Christian institutions. "The Hidden Empire" offers the international evidence that substantiates the "Protocols." In "45 Questions about the Jews, Answered," the enigma of Jewish activities is clarified from an unbiased and dispassionate standpoint.

### Jews Wrought the World War

THE INSIDE story of Jewish influence behind the projection of the World War and why American boys were called to lay down their lives in furtherance of Jewish world plans is irrefutably described in "Dupes

of Judah." In "What Every Congressman Should Know," an appalling list of great Jews in the most vital posts in the Roosevelt Administration is set forth, with their names and the executive positions they occupy. This booklet also contains a tabulation of our present Jewish population by States. In "Jews Say So!" a reprint of 82 quotations from the lips and pens of Jewish authorities is given, declaring that the Jewish usurpation and over-running of Christian institutions is the bitterest part of truth. Deplore the contents of these booklets as you may, you cannot escape the fact that they tell a story which no American in his senses can ignore. Make up an order for these booklets today!

## NO MORE HUNGER

in Two New Editions

NO book appearing in recent years has caused the comment aroused by *No More Hunger*. It was written in 1932 to offer the nation an economic program to end the Depression wrought by the 1929 panic. It has since had four large printings. This month, the Pelley Publishers issued the volume in one deluxe edition of 344 large-type pages, on ivory deckle-edged stock, bound in leatherette, and a second paper-covered edition also in large type, on plain white book paper, with new cover design by Hial. This cheaper edition is the one illustrated on the foregoing page. The prices on these editions are—

**Deluxe Leatherette, \$4.00**  
**Paper-Covered, \$1.00**

## WHAT A CHINAMAN THINKS OF THE JEW

THAT Christians "persecute" Jews because the Jews once crucified Christ, is effectively refuted by the fact that so-called "pagan" peoples are equally as rancorous toward the Tribe of Judah as their Christian neighbors. Eight years ago, Dr. H. Sing Woo, an educated Oriental scholar, wrote a monograph on how the Jews appear to his people. Strange to relate, the arguments advanced by this outstanding Chinaman supply exactly the exposition of the un-biased Gentile's attitude toward the Sons of Jacob. Pelley Publishers have printed Dr. Woo's masterly discourse in a booklet of 24 pages that will surprise and confound the apologists for Jews. *To be used for silencing the silly sentimentalists!*

**Single Copies, 10c each**  
**Twelve Copies for \$1.00**

**PELLEY PUBLISHERS**  
**Asheville, N. C.**

the opening gun of an offensive against all persons opposed to radicalism in America and the minority groups sponsoring its perpetuation.

ARE these energetic young representatives of the FBI engaged in any "running of the hounds" on the scent of subscribers to any of the above mentioned pink periodicals? They are not! Yet, Mr. Senator, what about a magazine, for instance, such as this *Esquire*? Not so very long ago, it praised to the high heavens, and published, a radical's effusive fiction dubbed "Christ in Concrete." In the midst of this fictional tirade against the Capitalist System, *The Flag* was termed "a bunch of colored rags on a stick." Whereas, one Meyer Levin, another contributor, reviewed a cinema release designed to incite patriotic regard for our Navy, in the most depreciating and insulting terms; with respect to that glorious force. Would such rotten sedition been permitted to exist in print in the Republic of George Washington, or of Theodore Roosevelt? Never! And as for the rest of the magazines of like ilk cited, they are so studiously bent upon selling the public on the idea that anyone opposed to Bolshevism is an "Un-American" and a "Fascist" that to say the least it looks as though there is a proverbial African in the fuel pile.

Now, if the FBI is to be diverted into channels of political investigation, WHY are we not getting some action against the real menace within our gates? That this real menace is RED REVOLUTION no student of world trends, and those in our USA in particular, will hesitate to deny—IF he is unbiased and informed. What about this secret Communist communications code used in the Daily Press, as exposed under oath by one Tom O'Conner, months ago? What about the decoded message found in coded form in front of the cigar counter at 120 Broadway, New York City, on February 18, 1939; revealing the complete details of the Red plan for overthrowing our Government? What about the findings of the Fish Report? What about a thousand and one other proofs of the real threat to America?

Must we pussy-foot on the true issue facing our USA until it is too late and we go the horrible gamut of Russia, Hungary, Spain and Mexico?

MR. SENATOR, to even a superficial student of the World Revolutionary Movement, we stand at the brink. In the words of that greatest living historian Mrs. Nesta Webster: "The French Revolution is no dead event." 1789 verily lives again in 1939!

If we but review the true facts and fundamentals underlying that above cited holocaust it will be discovered that a deadly parallel exists right here in America now. For whereas the infamous Duc d' Orleans and his faction of revolutionary malefactors incited the masses to disorder against the established government by means of an intensive program of false propaganda aimed at arousing them to fearful frenzy—the troops were now attacking Paris; they were slaughtering the people in the streets; driving out the people's representatives; and what not—so now we have a concentrated campaign of terrorism upon the part of that unholy trinity *Press-Radio-Cinema* building up mob-psychology of fear, twenty-four hours out of each day, involving WAR threatening from *without*; whereas in reality the big danger is from *within*.

Aside from diverting thoughts from domestic difficulties, this colossal propagandization of the Nation is bound to eventually create the self-same reaction which began the terrible train of events in 1789.

Russia, Hungary, Spain and Mexico all tell the same tale. Yet, "In the Kingdom of the Blind, the blind shall lead the blind"—and we do not heed.

And what does the past teach us regarding the acts which are the subject premise of this letter? Again let us quote from Mrs. Nesta Webster; "Writers must be proscribed as the most dangerous enemies of the people," said Robespierre; his colleague Dumas said that all clever men should be guillotined. The system of persecution against men of talents was organized out in the sections (of Paris), '*Beware of that man for he has written a book!*'" Precisely the same situation has been precipitated in all of the other unfortunate lands where "*The Red Laugh*" has broken out.

Of course our brief in contention of the violation of Article I of the *Bill of Rights* would bear more prestige were it possible to cite legal cases involving past court decisions. But a veteran member of the Bench, just consulted, advises that *never before has such a case arisen*.

IN CONCLUSION, no brief of complaint is advanced against that splendid force known as "The FBI," or any of its field agents—all of whom are undoubtedly outstanding examples of clean-cut young manhood, the acme of intelligence, and moreover perfect gentlemen.

But rather, what the Congress of the United States should be made immediately aware of is the fact that someone has arrogantly diverted this force into channels of political policing. And pray tell, who is this someone? Upon what authority are the mails being employed as a source of espionage upon American citizens receiving a magazine opposed to Communism and Administration policies?

Mr. Senator, if this humble report is sufficiently presentable let us have it read into *The Record*. If not, or if you prefer otherwise, then it is certain that you, as an outstanding patriot, will be quite willing to read a few personal observations on the matter into the *Congressional Record*.

So now, let us close with the inspiring words of that great soldier, statesman, and patriot, Col. Jennings C. Wise:

" . . . let all true Americans unite in the prayer: GOD SAVE THE REPUBLIC OF GEORGE WASHINGTON!"

Respectfully yours,

D. V. J.

---

## Method to Actualize Communism

IN late March the House of Representatives passed Representative Dempsey's bill providing for the deportation of aliens who advocate the overthrow of the Federal Government. The bill must have its good points because already the Jewish-conceived American Civil Liberties Union has condemned the bill on the grounds it would "suppress all expressions of opinion on essential political issues by aliens." If the Yidds do not like it, then we can safely be for it. A Jewess wrote to *The New York Times* to complain that the bill is "an attack on democracy." She turned off this gem: "Democracy is a living, dynamic political method." Method for what, if the query be permissible?

## LINDBERGH TELLS PRESIDENT SOME DISCONCERTING FACTS

(Continued from page Five)

---

for the Scripps-Howard chain of newspapers. On April 24th he wrote an article under the title:

### PLANES HOLD BALANCE OF POWER IN EUROPEAN STRATEGY

"Contrary to many sleepy military and naval leaders," he declared, "air power today holds the balance of power in the field of military influence."

Thereupon we come to this most grave announcement—"There's a new speed record in the aviation world today, and it has many significant angles. The go-fast time now is 463.943 miles per hour. It was made March 30th by a German Air-Force pilot, Capt. Hans Dieterle, in a Heinkle HE-112U, a single-seater land plane with a 2000 horse-power Daimler-Benz."

When the foregoing record is made official, it will supersede the Italian record of 440 mph made in 1934 by a seaplane, with 3000-horsepower Fiat tandem engines.

Both of these air records, take note, were made in so-called Fascist countries. And against them, countries overrun with Jews have *what?*

Well, at least they have the Jews, but they're the wrong kind of fliers.

Obviously the only kind of flying which they do, is into rages!

ACCORDING to the *Washington Merry-Go-Round* of April 22nd, if England is foolish enough to start another war to make Germany the victim, here is what can happen:

"British military intelligence has reported . . . Germany's secret strategy in case of war. This is, first, to single out Britain for special attack, and, second, to concentrate on aerial warfare. This, Hitler knows, is the weakest point in Britain's armor.

"Nazi air strategy has been worked out as follows: 100 German planes to bomb London every hour, twenty-four hours a day. To this end, British Intelligence has discovered that 2,400 planes already have been set aside. They would come in waves—100 planes one hour, and then a rest for these planes, while another 100 take up the attack."

Then, irony of ironies, when the British defense specialists had worked out minute plans for the evacuation of 200,000 adults and 1,500,000 children from London, they made the disconcerting discovery that they had no place for such noncombatants from the extreme danger zones, to go.

All other English cities are overcrowded now—thanks to Jewish administrators' fiddle-faddling with the British housing program across the Atlantic, precisely as they have fiddle-faddled with it here.

In the light of the foregoing, it is conceivable that Hitler could wipe out every major city of the British Isles, while Roosevelt was frantically wig-wagging signals of promised support that will require something like four years to realize in planes of quality and quantity comparable to Nazi war planes of the present.

There would be no second stalemate in Belgium—in the event of a renewal of the 20-year-ago conflict. Paris would get precisely the same medicine as London—and, after 2,400 planes

had been bombing French cities for 24 hours, would undoubtedly sue for peace.

The day when war aviation consisted in taking to the air in rickety Jenneys, in squadrons of three to seven, and fighting lone battles with enemy aircraft, has gone with the dodo.

Hitler has been smart. While exiled Judah was contenting himself with screaming on paper—from the sanctuary of pro-Jewish countries—that the Fuehrer couldn't last six months, cramming their relatives into fat government jobs, padding payrolls, and engaging in fistfights with other officials about privileged parking-spaces for their limousines on government property, the Nazis have been concentrating on getting enough of the latest planes into the air—and an inexhaustible supply of pilots trained—to make the next conflict a swift and deadly debacle for Hitler's enemies.

Roosevelt, screaming in rage at Hitler, would put the United States in the grim and precarious position of having to sue for an inglorious peace alone—with Britain and France bombed into submission—or accepting such terms as the Nazis made in reprisal for the past seven years of insufferable Jewish insults. It is not a pleasing prospect.

ANYHOW, Lindbergh visited the White House—certainly not voluntarily—and told the Great War-Monger that his seven-year war-bird was more or less of a cuckoo. America has a modest and extremely capable air force to defend her own coasts in cooperation with her navy. But the item of quantity and quality of planes, compared with Germany's present air-power, makes American conflict in another European struggle one of starkest madness.

Roosevelt talks loftily in his congressional speeches about 20,000 airplanes and pilots, as though they could be materialized at the drop of a hat, or as easily as it becomes to make a congressional appropriation of moneys that our citizens haven't got. But it takes *four years* to train one competent air pilot, at a cost to the Treasury of something like \$20,000 to \$30,000. War planes today range in cost all the way from \$100,000 to \$600,000. The least expensive costs \$55,000.

Figure out, therefore, the practical difficulties in the way of competing with Hitler's Nazi air-men in a sudden maneuver that means prolonged conflict.

In addition, we have on this side of the Atlantic a nation that is 40 billions of dollars in debt, industry beggared, public morale at a lower ebb than at any time since Valley Forge, and a great bureaucracy of predatory, fanagging, and nepotic Isrealites who—according to latest WPA disclosures—are expecting the Gentiles to do the fighting against Hitler, obviously with bare hands, while they run the nation into vaster disaster, and steal the country blind in the process. It is beginning to seem comic—if it were not so tragic!

SLOWLY it will dawn upon the rank and file of Americans that instead of "Little Adolf" being a nine-days' wonder, certain to collapse with his fanatical little government, he is actually the most powerful political and military figure in Europe—against whom no country that permits itself to be run by Jews, can prevail.

There is, of course, no need of toadying to Hitler, or accepting any defeat complex in the event that America is attacked. But going out of our way, administratively, to hurl insults at this man, giving aid and comfort to his opponents because they resent his manner of treating with the Jews who in 1914 worked his Fatherland's ruin, and generally doing the bucket

work for defeated and deflated Judah, is nothing but the betrayal of the United States to universal and ultimate debacle. ¶ It all boils down to this: The forces of Judah are fagging defeat and possible extermination for themselves on every front on earth.

And those who saw the sense of Hitler's program, and espoused his anti-Semitic principles from the first, *stand an excellent*

*chance of being the leaders of America's Tomorrow, when it comes to treating with the Fascist Might of the world on a basis of reciprocity, good faith, and civic intelligence!*

Still, Roosevelt will have his war—apparently—if there is any method left by which he can make it.

If he doesn't, he will return to Warm Springs.

Far better to go to a place that is warm than a place that is hot!

---

---

# Our Excitable President

**D**URING the President's term of office, he has averaged an "emergency" every six weeks. ¶ On March 16th Representative Bruce Barton, of New York, read into the *Congressional Record* Mr. Roosevelt's "emergencies," to a total of 39.

No one has checked to see whether these 39 "emergencies" which the President said existed on the various 39 dates coincide roughly with the number of the Presidential fishing trips and other "vacations."

For the record the list is given as it appeared in the *Congressional Record*:

"All over the country," the statement continued, "the protest is rising.

"Press and people cry: 'We are weary of government by emergency! Give us peace and a chance to go to work.'

"The people cry 'Peace, peace, but there is no peace.' They now understand that so long as the New Deal is in power there will be no genuine appeasement. Nothing but a succession of crises, each one calling for more debt. Young people will do well to tighten their belts and fix their hopes on 1941; jobs in industry will continue to be scarce until after the election."

Representative Barton listed these excerpts from President Roosevelt's speeches and messages which he described as "a chronological list of these recurrent crises in the President's own words"—

"The national emergency is still critical," March 4, 1933.

"In view of such national emergency," March 6, 1933.

"An unprecedented condition," March 16, 1933.

"Said national emergency continues to exist," April 5, 1933.

"The gravity of the emergency," May 17, 1933.

"A period of national emergency exists," August 28, 1933.

"Whereas I find, upon investigation, an economic emergency," January 31, 1934.

## "EMERGENCY" IN FEBRUARY, 1934

"The emergency still exists," February 14, 1934.

"It is part of an emergency program necessitated by the economic crisis," March 2, 1934.

"Prompt and vigorous action to meet the emergency," June 9, 1934.

"As I have already stated, it is because of the current emergency of unemployment," January 24, 1935.

"In recognition of this great national need," June 26, 1935.

"With a resulting dislocation, restriction and obstruction of interstate commerce," July 6, 1935.

"A more potent danger at this moment to the future of civilization," October 2, 1935.

"A critical situation prompts this letter," March 6, 1936.

"Use of government equipment in such an emergency is hereby authorized," March 18, 1936.

"To relieve this serious situation will require the expenditure of substantial amounts," September 2, 1936.

"Emergency conditions still exist," January 14, 1937.

"We propose to meet this emergency," January 30, 1937.

"I need not emphasize to you the seriousness of the problem," February 28, 1937.

"The increasing urgency," March 4, 1937.

"A condition has been developing so serious," June 1, 1937.

"The situation has been at a point of extreme danger," June 15, 1937.

## "CRISIS" IN SEPTEMBER, 1937

"There is a crisis in American affairs which demands action now," September 17, 1937.

"The political situation in the world is such as to cause grave concern and anxiety," October 5, 1937.

"The passing nature of this problem," October 24, 1937.

"This presents an urgent problem," November 29, 1937.

"Since that time events have caused me growing concern," December 29, 1937.

"This is an urgency which must be met by complete and not by partial action," January 3, 1938.

"A serious menace to the fiscal system," April 25, 1938.

"Seriously impairing the economic effectiveness of private enterprise," April 29, 1938.

"A matter of great public concern," May 20, 1938.

"Since my relief message to the Congress six weeks ago the unemployment situation has grown worse," June 2, 1938.

"The fabric of peace is in immediate danger," September 26, 1938.

"The deadline of danger from within and from without is not within our control," January 4, 1939.

"I trust, therefore, that the Congress will quickly act on this emergency program," January 12, 1939.

"In view of the foregoing considerations I report to the Congress that in my opinion an emergency exists," February 8, 1939.

"I feel impelled again to call the attention of the Congress to the very serious situation that exists," March 14, 1939.

Now that our Excitable President has had his ears pinned back by Hitler in the April 28th radio speech, we can expect to be told that we face the Fortieth Emergency—the *Rooseveltians menaced by international derision!*

*"Thank God, the Constitution  
still gives us the right to  
"BEAR ARMS!"*

**I**N PHILADELPHIA on March 28th, General George Van Horn Moseley made a speech that resulted in a demand from the Jewish Communists that he be indicted for sedition. In ringing words, this outstanding army man referred to the last stand of the Jews in this country and declared: *"Thank God, the Constitution still gives us the right to bear arms!"*

**SPEECH OF GEN. MOSELEY  
in Philadelphia, March 28th**

has been done into a 30-page booklet by Pelley Publishers, and is available this week for patriotic propoganda purposes for all vigilante and anti-Semitic elements who want an inexpensive introductory tract to put in the hands of those still skeptical about any menace from Jewish Reds.

*They are 10c each 12 for \$1 100 for \$7.50*

**OUT THIS WEEK!**

*The Life-Story of the Man Who  
Founded the Silvershirts*

**"DOOR TO REVELATION"**

**I**You cannot know what the great Silvershirt movement throughout the United States is all about without having read the entrancing autobiography of the man who projected it in 1933 and who has been its fighting head for over six years. The story—gripping as any novel—480 pages, is being shipped this week.

*Nearly all copies of the \$4 deluxe illustrated edition are spoken for—but you can order the \$2 Legion edition for early delivery.*

**Pelley Publishers Asheville, N. C.**

**Do you want a Booklet that gives you what the Rabbis say in the Talmud about the Gentiles?**

**I**The Pelley Publishers carry such a Booklet in stock that is sold under the apt title:

**"Thus Speaks the Talmud"**

**I**f you want 40 pages of irrefutable translations of the religious precepts taught the Jews by their leaders, acquire a copy of this booklet. Have it handy for evidence when the next Jew accuses you of intolerance.

**15c each Two for 25c Ten for \$1.00**

**PELLEY PUBLISHERS : ASHEVILLE, N. C.**

**The General Should Watch His Step**

**I**F we had any idea where General Hugh Johnson stands, and what he stands for, we should be glad to tell our readers. Since we do not, we can only observe that he seems to have his lucid moments. Recently, writing for his column he said in substance that Americans have no right to condemn Hitler for his treatment of the Jews when we remember our shabby treatment of the American Indians. We made treaties with various tribes of Indians—then we broke them. However, we must remember Americans are not condemning Hitler, but rather the Jews who happen to be concentrating in America for a last stand against those countries which they have unsuccessfully tried to ruin!

**Just What Does the Spy Have to Confess?**

**C**ONFESSIONS of a Nazi Spy" is Hollywood's latest contribution to the symphony of hate currently being sung by the Jews of America. They should, incidentally, now put out one, "Confessions of a Jewish Super-Spy," in which the President would play the leading part! It would be good because Mr. Roosevelt is an excellent actor and he knows his part well, because he has already played the leading role.

The so-called German spy "plot" was a big flop, for it is freely alleged it was cooked up by Yiddish journalists—a framed situation from beginning to end.

On such a slender framework have the Hollywood Yidds built up a super-production to make Americans hate Germany enough to go to war to fight to save Yiddish "democracy" and Jewish world wealth and political prestige.

**Anti-Semitism Spreading Fast**

**O**VER a year ago Dr. Kurt Rosenfeld said in an address at the Jackson Heights Jewish Centre, Jackson Heights, New York City, according to the *New York World Telegram*: "Signs of anti-Semitism in the U. S. today are greater than those in Germany five years ago, when Hitler came into power." When *Jews Say So*, it must be getting bad. When the President ceases to appoint Yidds to Federal positions, the situation is worse! And Roosevelt recently did not appoint Jerome Frank, Jew, because he feared such action would fan the flames of anti-Semitism. The enemy is in retreat—and Winchell, Cantor and Al Jolson are waving the American flag. Great flag-wavers, the Jews, but the world's poorest fighters for any flag.

**Roosevelt Bowed to Anti-Semitism**

**D**REW PEARSON weeps bitter tears because Jerome Frank did not get a Federal judgeship because he is a Jew. A Jewish paper reported the President feared the rising tide of anti-Semitism which flared angrily after the outrageous Frankfurter appointment. Drew observes sadly: "His hatfling illustrates the deplorable extent to which racial prejudice has crept into government since the days of Hitlerism—even despite a President vigilant in his championship of tolerance." Drew says of Frank! "He is a Jew—brilliant, unassuming, unselfish, unashamed of his religion, yet with the sensitiveness of that race." To all of which: *"Eye wash!"*

## No Smoke without Some Fire

LET LIBERATION readers who have written to the Warm Springs Foundation at Warm Springs, Ga. for confirmation of the report that money raised at the Birthday Balls does *not* go to Warm Springs, regard their replies at this juncture with a pinch—or a sack—of salt.

Last month, this Weekly published the substance of an article that had already enjoyed wide circulation in the newspapers of New England, implying that certain literature of these paralysis foundations was saying in effect that "all the funds raised on or by January 30, 1939 go to Washington, D. C. as the nation's birthday gift to the President." Such a statement at once caused rancorous comment from coast to coast. LIBERATION readers began writing to Warm Springs and subsequently forwarding copies of their replies to Asheville. Asheville is now in possession of many of these responses, on Warm Springs Foundation stationery and over the signature of Administrator Boone. Whereupon, an amazing circumstance has come to light, warranting fullest investigation of the financial aspects of the Birthday Balls.

The letters from the Foundation at Warm Springs, written to widely scattered inquirers about the nation, do not agree in details as to how the money has been either allocated or disposed of!

Some of the letters declare that the Warm Springs Foundation only got the increment of the Balls in 1934. Some say that it has received 30 percent of the receipts. Some say that no money whatever has gone to Roosevelt's personal account. Some say that it has been forwarded *through* Mr. Roosevelt to the National Foundation. *What is the truth?*

LIBERATION is only interested in finding out what HAS become of the money, how it has been divided, and where it rests at present. If Roosevelt didn't get it, fair enough! But why does certain literature from these Foundations declare that he did, does, or *might*?

MEANTIME, in sincerely searching for answers to these questions—as a journalistic gesture in the public interest—*still more amazing information concerning the "racketeering" nature of these Balls, is being brought to light!*

Charges are being made that WPA funds, voted by Congress for the relief of the improvident, have been utilized for meeting either the expenses of these Balls, or paying the promoters of them, or underwriting the compensations of those engaged in staging them.

Certain very suspicious tie-ups between the Ball personnel and the higher brackets of the Democratic National Committee are observed. And finally, judging from the suddenly guarded statements issuing in reply to the aforesaid inquiries, it becomes patent that pressure is coming from somewhere to make the whole business appear to be a Republican or anti-Semitic brain storm. *Has somebody been ordered to shut up?*

LIBERATION, it will be observed, in all the controversy, has but taken the interrogatory position. But a full investigation is now being conducted and as facts are irrefutably established, they will be given the most emblazoned publicity.

Keep an open mind on the whole matter, therefore, till LIBERATION is in a position to authenticate complete particulars.

They will be published in a booklet, called *Cripples' Money!*

## The Next Booklet Coming from the Pelley presses:

# "OUR POLITICAL POLICE"

*How the American People regard J. Edgar Hoover's "Check-up" on William Dudley Pelley*

The first public rancor at the F-B-I

UP to March 1st, the Federal Bureau of Investigation held the deservedly high regard of the rank and file of the American people. But when the G-Men were called off crime suppression and suddenly ordered by J. Edgar Hoover to make a check on readers of the Pelley Publications—*obviously for Administration Jews*—Hoover was guilty of the first big blunder of his brilliant career. If you doubt this statement, buy a copy of the forthcoming Pelley booklet—

## "OUR POLITICAL POLICE"

and read the scores of letters from every quarter of America, expressing indignation and condemnation of Hoover from the highest and finest types of patriotic citizens, who have resented the G-Men's inquiring into the nature of their reading-matter. These letters indicate the flaming patriotism of a great cross-section of Americans, who have thus gone on record, in no uncertain terms, as to their altered attitudes toward Hoover and his men, and what they think of his subservience to the Capital's Jewish politicians.

PRICE: 25c each Six for \$1

THE PELLEYS PUBLISHERS  
Asheville, North Carolina

APRIL 28, 1939

The Weekly  
**Liberation**

# It Won't Be Long Now . . .

**I**F YOU want the dependable and unadorned truth about the Administrative situation in Washington, here it is: Roosevelt is secreting himself behind the sedate walls of the White House in one of the blackest rages of his career. What to do next, he does not seem to know. Hitler, by his speech on the morning of April 28th, has made him the laughingstock of the world. For the first time since January 31, 1933, his support in Congress has turned—or at least is turning—in Hitler's favor. Hitler put into one damning speech precisely the sentiments that millions of persons, both at home and abroad, would like to have said to Roosevelt but lacked the opportunity and means. Even within the ranks of his own Party, the pro-Hitler sentiment is gaining ground. Hitler has out-marshaled and out-strategized Roosevelt. Instead of a sentiment growing within America for a war against Germany, the sentiment is growing for a war against the Administration and the Administration's Jews and their ruinous fanaglements. Roosevelt is not the type to take this sort of thing. He only thrives on approval, adulation, and admiration.

**T**HE EFFECTS of the Hitler speech, on Congress, are as tragic as they are humorous. Senators and Congressmen make a great show of owlish dignity, but underneath their superficial fronts *they are frightened!* They too, don't seem to know what to do next. They are being shown positively that the country isn't falling for Jewish propaganda creating a war against Germany, and they lack the intestinal fortitude, individually or collectively, to stand forth and challenge the Big Boy's tactics. So the majority of the Appropriation-Passers would cut the Gordian Knot of their predicament by making the prospect of the autumn elections an excuse for ducking out and letting the Executive bear the brunt of his stupidities. Believe it or not, you can even hear the term "Abdication!" used on Capitol Hill. And "Abdication!" has a devastating import. It means that incompetent men have at last reached a point where the predicament into which the Jews have jockeyed the nation is too big for them to cope with. So they would run out, *thus ending the Republic!*

**O**NE THING seems evident: There will be no war with Germany this year, although the same thing cannot be said for 1940. By 1940, however, our economic plight may be such that the United States Army has plenty to occupy its attention right here at home! We are closer to complete financial and industrial prostration in this country, than the average man dreams. Furthermore, anti-Semitism is uglier throughout this nation than our kept press allows to be publicized. It is beginning to be suspected that all these military movements looking toward a possible war with the Fascist countries are truly but camouflage to screen activities for getting our

military machine in gear to control a wholesale public revolt against the Administration and its Jews. General Malin Craig, as you have probably seen in the papers, has been slated for retirement as Chief of Staff. Washington accepts this retirement as discipline for having been so brash as to criticize Roosevelt for handing over military secrets to nations abroad. Furthermore, this dispensing with General Craig removes an outstanding menace to Roosevelt himself, in that Craig was the one man in the whole nation who might have declared his Commander-in-Chief incompetent to hold office and deposed him in the interests of military efficiency. Had General Craig acted in the Roosevelt matter when LIBERATION suggested that he act—some five weeks ago—he could have eliminated Roosevelt and saved the Republic. But he "lacked what it took" to make himself the outstanding military and political leader of his time. So the opportunity has passed, and the Chief of Staff is slated for the scrap-heap and desuetude.

**O**F COURSE, the Jews of the Administration have a blanket alibi for all this antagonism to Roosevelt and his program: It has come, so they argue, from the secret spreading of Nazi propaganda by Hitler, throughout the United States. Hitler is the cause of all of their troubles, certainly! That sane Americans, capable of examining the national situation, should reach the same conclusions in regard to America's difficulties that the Germans reached in 1933 in regard to Germany's difficulties, is untenable and unthinkable to the American Sons of Jacob. Dickstein had the base and lying effrontery to go before the House post office committee this week and declare that the Nazi-Fascist governments have spent \$50,000,000 in the United States in the past five years on a "well-planned and organized system of propaganda," and he urged approval of his Bill to ban from the mails any matter that might cause racial or religious hatred, or bigotry or intolerance. Dickstein hasn't a shred of proof that Nazi-Fascist governments have officially spent fifty cents in this country for propaganda, but the Jew is *scared* at the way the American Gentile public is voluntarily buying the Pelley publications and getting the stark truth about this American debacle, so he wants Pelley and his compatriots suppressed by Federal force. The irony of this situation is, *that there already is enough Pelley literature spread abroad through the land to effect the final enlightenment of the Gentile public, even if the ban should go into effect.*

**M**EANWHILE, the Pelley Publishers are pushing straight ahead and will continue their activities until shut down by decree. If shut down by decree, Chief Pelley will capitalize on such unconstitutional despotism to prove that everything he has told Americans is true. And judging from reactions to the FBI investigation thus far, *they will believe it and back him up!*
