NUMBER 16

If Japan and Russia Start War Red Recognition is Explained

OVER a period of ten months past, Silver Shirt periodicals have been giving information to the American people—concerning influences behind their Government—which has not been available to them from any other source.

Gradually a great mass of awakening citizens is coming to appreciate that intelligence deriving out of Silver Legion headquarters can be relied upon.

No matter how black, how startling, how disillusionizing, how pessimistic, how necromantic, this information may seem at the time it is printed, what public idols it has toppled or seemingly besmirched, what implications have been conveyed that are hard to accredit, America's Gentiles are slowly—and somewhat painfully—grasping that Silver Legion officials have recourse to "inside intelligence" whose reliability has rarely been challenged.

On this doughty basis has Silver Shirt work throughout the nation been built. Men who one short year ago were inclined to scoff at Chief Pelley's writings, call him a "wild man," a "fanatic," a "muck-raker," a "Jew baiter," a "seer of bugaboos and banshees," are now writing Headquarters in a species of terrible earnestness. They admit that events are finally proving to them that Pelley has been "only about 100 per cent" correct, and now they beg for guidance throughout the balance of this black period into which the nation has been maliciously directed.

IRONIC as the situation is now appearing, this endorsement of his claims and forecasts is far from being any cause for elation on the part of the Chief. Quite the opposite. Behind the public's apathy and indolence has stalked too big a tragedy.

It has been the tragedy of *knowing* that certain things

were being made to happen that would presently bring the United States and its unsuspecting populace down to financial ruin and economic serfdom, yet having to battle a facetious skepticism from the very people slated to be the victims.

As he has said before, the Chief's quandary has been the plight of the adult who sees a group of children playing on a railroad track and from his wider perspective of distance also discerns a fast express train bearing down upon them. Reaching them and warning them is possible, but instead of perceiving their danger and getting out of harm's way, they pelt rocks at him, cry that the train will probably stop before it reaches them, and that he is an alarmist who would spoil their fun. Now with the devastating roar of that train in their senses, they realize it has no intention of slowing down. They find themselves frozen in terror, the time now too short to leap aside, unable to sense which way to flee.

What manner of man would be elated that a furious juggernaut is about to mangle soft human bodies or commit a sickening horror along a public right of way, simply because his warning of danger had gone unheeded? Still, that is not the point.

THERE is a further distressing aspect to this business of knowing more or less reliably in advance certain calamitous events that are being made to happen. Frequently it comes about that information is so sizable of import that it might as well not be known at all—inasmuch as the public consciousness is not adequate to grasp that specific events can even be *possible*.

For instance, one evening in 1931 the Chief sat with a group of men in New York City who had before them what purported to be a Battle Plan of the "second phase" of the

World War yet to come. This new alignment of the nations for a renewal of the conflict had been procured from one of the European embassies and was on its way to the Foreign office of a certain overseas government, to become part of its official archives.

There were in the American State Department men who were fully apprized of what was being planned abroad. Uncle Sam has an intelligence service quite the equal of any nation's on the face of the earth—or did have, at least, before the "Russian" plotters became of importance in this present administration.

A ring of steel was to be drawn about Jewish-Soviet Russia, and that ring was to be tightened until the Murder-bund under Stalin was to be strangled from existence. On the East was Japan, on the West was Poland, Germany, and Czechoslovakia—which latter nation meant, of course, France.

Japan was to commence the fight for the preservation of constitutional civilization and the continued reign of orderly governments, in Manchuria. Hitler was to be lifted into power on the West, and out of this "lifting" was to grow a formidable antagonist to Communism throughout Continental Europe. Certain equally significant and vital roles, all delineated at the time, were to be played by England and Italy.

The picture was complete and one has only to glance back now from the perspective of time, to realize how accurate that chart—or official forecast—actually was at the moment.

But suppose Chief Pelley had immediately leaped into print and tried to publicize this diablerie 30 months bygone. "More fanaticism, more bugaboos, more alarmism!" his readers would have derided.

You cannot reveal too much to the puerile-minded public out of season—if you want it believed!

It is sometimes a sickening thing to "know too much"—if you are a person with moral scruples, a fairly active imagination, and a confidence in the accuracy of your sources of information.

WORLD-WIDE events over the past two years have clicked with a ghastly precision. Japan has raised the barrier to Communism in the East and is fighting the Battle of Civilization in that quarter of the world at the present moment. Hitler *did* come into power, and the Communistic Jews in Germany, balked in their designs, immediately raised a Wailing Wall that cast its shadows across the whole world.

Now Europe is a tinder-box. With Japan and Germany out of the League of Nations, Mussolini is frantically trying to perfect a Four-Power Treaty that shall restore a balance of power among Europe's embattled governments, the United States has recognized the Soviets—*ostensibly* in the interests of trade—and every returned traveler from the Continent brings word of hostilities about to be resumed at any moment.

In the light of these transpired facts, and in view of the accurate forecasts and prognostications which Silver Shirt officials have made, what actually is to happen in the eastern hemisphere that can be talked about at the present moment with a better chance of getting it accredited than existed in 1931?

For instance, consider two factors of major importance which it is well for all Silver Shirts to make a part of their

current thinking: Japan's seemingly suspended campaign in the Far East in her war against China, *and*, the true significance of the Administration's recent recognition of Soviet "Russia" . . .

FOR the private information of Silver Shirts, let it be accepted that at no time has Japan actually been at war with China as a *people*, or even as a government. Japan has been at war with *Sovietism*—as it manifested itself in China.

There is a stupendous difference!

Japan is not 3,000 miles removed from the Soviet-Communist peril, as is adolescent provincial, and gullible America. Japan, in a manner of speaking, is "right next door" to the mother-cesspool of Communism, and her statesmen know that Communism is not what the Jewish-controlled press of the United States forces Americans to think it is: a lot of fanatics slinking out of moldy cellars, or a lot of little Russian Jewish boys—as has often been stated in these columns before—with a red flag in one hand and an ice-cream cone in the other.

Communism to Japan is a deadly peril—as it was to Italy, as it was to Austria-Hungary, as it was to Poland, as it was to Germany!

The statesmen and diplomats of those nations are not silly sentimentalists or parlor philosophers. They know that Communism out of Russia is both financed and lead by a great oligarchy of international Hebrews who have their machinations well launched in every country worthy the name on the face of the globe.

The Japanese in particular knew what Soviet agents were doing in China, that if China became completely Sovietized under the super-direction of the Jews via Moscow, it would be only a step to the utter passing of the Japanese as a people and a government.

Instead of holding debates about it, and sentimentalizing over the machinations of these Jews, Japan prepared to *do* something about it.

The Japanese were under no Christian inhibitions to think these international Hebrews are God's Chosen People who must be let to swarm and run the earth without let or hindrance as a matter of heavenly decree.

Japan launched an offensive against China to stop the Bolshevik factions from extending the Jewish-Soviet power over the millions of Cathay. At about the same time, take note that one sign-painter out of Austria suddenly began to get a financing, and an accredited moral backing, throughout the German Empire—and the Ring of Steel began to be built.

Believe it or not, but Silver Shirt information now has it that Japan will declare war on Russia about the first of the year, and perhaps sooner, as soon as the Amur River freezes over in Manchuria. Japan is massing her troops and when the ground and water is fully frozen so that she can march on the ice and lay her train-tracks as well as catch Russia in the middle of a bitter winter season, she will hit, cutting off Siberia about Lake Baikal.

IN THE light of such an eventuality, which reputable observers see occurring around Christmas, does not the recognition of Russia by the prevalent Jewish administration in the United States, take on a deeper significance than the

(Continued on page 10)

The "Heathen Japs" Fight the Battle of the Christians .

BUT we are by no means ended with this volatile and significant situation now rapidly developing in Far Eastern territory.

Silver Shirts are cautioned always to make the cornerstone of all their thinking on international happenings, that squabbles between great nations in these modern times do not "just happen" . . . they are always *made* to happen because there is a deep-laid plan somewhere to wrest something away from one nation or the other. Always there is a group that creates the fuss with malice aforethought because they mean to profit by it racially.

In other words, wars are always of deliberate manufacture.

Furthermore, the world's secret and unwritten history has amply attested that in nine cases out of ten—in modern times—there is always, at the root of every disturbance or "misunderstanding" between rulers, a group of conniving international Jews pulling the strings financial or otherwise to shape world policies after their own stratagems.

Consider Japan and America as a case in point.

For the past twenty years the Hearst press has been assiduously feeding the American people upon The Yellow Peril. As much bad blood as possible has been created out of minor racial antagonisms on the Pacific Coast.

Time and again it has been screamed that Japan and America were on the brink of war.

The records of the Hearst bond issues show that one of the guiding financial genuises of the Hearst press has been the spectacular Jewish lawyer, Samuel Untermyer—the man who now insists that 400,000 more Hebrews be brought to America.

Reliable investigators have from time to time made statements that William Randolph Hearst himself is a descendant of certain Hertzogs, on his father's side, prominent Jews of Germany.

In the light of world plottings by the group with which Untermyer is associated, is it difficult to understand why bad-blood relationships with Japan—on America's part—have been secretly cultivated?

THE MOST powerful group of international Jews in the world—the group with which Jacob Schiff was associated—have "had it in" for Russia since away back at the time of the American Civil War.

No modern textbooks on American history are allowed to contain much information about the part which these Jews took in bringing about the Southern Confederacy and the War for the Secession—and how adroitly Judah Benjamin

worked with Jefferson Davis to split the American Union into north and South. But here is the important thing, which American school children are not taught—

In 1863 the Confederate States offered Louisiana and Texas to Napoleon III in exchange for his intervention with French troops against the North. The French troops at that time occupied the capital of Mexico.

The danger was great indeed. It taxed even the genius of Lincoln; and the skill and patriotism of General Grant's heroes could not have withstood such a combination. But the United States had its most faithful admirers in the Czars of Russia. For a long time they had contemplated the liberation of the serfs but were checked by the then rampant "Prussianism" under the half-Jew Bismarck, and by the land-owners.

As early as 1842 Czar Nicholas I, in his decree of April 14th, appealed to the great land-owners to liberate their serfs. It was Czar Alexander's magnanimous act of emancipation by his imperial decree of February 19, 1861, which greatly influenced the similar movement in the United States. Some 47,000,000 souls in Russia were freed. Many peasants were discontented by such freedom and in several places the troops had to interfere.

The same objective which through the Czar was obtained by a stroke of the pen, required in the American Republic an ocean of blood and billions of treasure. Why? Because millions of freed Africans, requiring to be paid living wages, would be bound to raise the price of cotton exported abroad by and to Jewish traders who wanted to continue to get it at the cheaper rates from unpaid slave labor. In other words, the international Jews desired slavery in the United States and meant for the southern States to retain it. On the same February 19, 1861, the newly inaugurated Provisional President Jefferson Davis named his cabinet.

BUT the Czar followed every step of the drama with keenest attention, and when the above plan of the international plotters became known to him, he through his ambassadors in Paris and London informed France and England that their interference against the North would be regarded as a declaration of war against Russia.

Simultaneously the Czar despatched his Atlantic fleet to New York Harbor and his Pacific squadron to San Francisco with orders to fight every fleet or force which would attack the Northern States. *He put his ships at the disposal of Lincoln!* Admiral Lessovsky was commander of the Russian Fleet which watched the safety of San Francisco.

Right there was born the Jewish hatred of the Russian Czars which was to culminate in their extinction in October, 1917. Which is why this episode, dropped out of all modern school histories, has an extremely vital current significance.

In Russia itself the story was kept secret because the vic-

stories of Prussia over Denmark in 1864 and over Austria in 1866 revealed to Alexander II the Pan-German peril, staged by the same group of world Hebrews, as implied by the Jew Disraeli himself. The Czar even went to Paris in 1867 in order to become reconciled with Napoleon III.

Russia did not want to remind Frenchmen and Englishmen that she ruined their golden dreams, inspired by the Rothschilds, of conquering and dividing the opulent United States, which once belonged to them. So these facts have ever remained secret.

But these Jews are good haters and have long memories. The Rothschilds, through their wide banking ramifications, sent Jacob Schiff to the United States to head up their American branch—Kuhn, Loeb & Company. And at once a murderous sentiment began to be built up in the American press against Russia.

Anything Russian was synonymous with oppression and medieval feudalism. The "poor persecuted Jews" of Galicia and the Ukraine were periodically subjected to pogroms inspired by czaristic Cossacks.

It was Kuhn-Loeb & Company that first financed Japanese military maneuvers through sales of Japanese bonds in America and thus precipitated the Russo-Japanese war of 1904. Anything and everything that could be utilized to discredit, brow-beat, and emasculate Russia, was done. These Jews wanted the control of opulent and independent Russia for themselves, and sooner or later the Czars had to go.

In 1917, financed by the Schiff agents and connections, the Czars *did* go—and Jewish Protocolism was substituted, which today we recognize as the Soviet, or Communism.

ANOTHER phase of Jewish rancor which contributed to the downfall of Czardom was the objection of the Czars to the slick tricks the Jews were using to obtain the rights of citizenship in Russia and operate there to bring Russia under the same financial domination which they later succeeded in obtaining in Germany, England, and the United States.

Denied freedom of business maneuverings in Russia, because the Czars early had recognized what it meant to their country to let the international Hebrews get the upper hand, the Jews "got around" the Czaristic ukases by coming first to America, taking out first citizenship papers here, then going back to Russia as American citizens and demanding the full rights of such in competition with Russians.

This not only further enhanced the bad feeling created by these Jews between Russia and America, but it gave the Jews the long-sought opportunities they had been grasping after, to interpenetrate Russia's financial and commercial system and bring them under their own control.

The world war's potentialities allowed them to complete their plot and Russian Russia became in stark fact the Jewish homeland. Now back to Japan . . .

SIMULTANEOUSLY with the anti-Russian propaganda in the United States there began to appear magnification of troubles between the United States and Nippon. The reason for this mischief was simple enough.

These Jews engaged in seizing control of Russia as part of an age-long campaign, recognized with no illusions that in the Japanese temperament was a trait they could not hood-

wink or bamboozle—as they could hoodwink and bamboozle the Christians with their Chosen People myth.

Japan was so constituted that she believed in her own integrity and meant to see it preserved. So long as Russia on the west was monarchistic like herself, the situation was tolerable and not especially dangerous. But with proletarian Communism—theoretically at least—rampant from Vladivostok westward, Japan was exposed to a menace that would ultimately obliterate her.

Strange people, these Japs. They do their own straightforward thinking. They are not content to let Jews do their thinking for them.

So all sorts of trouble must continually be fomented between Japan and the United States. Bad blood must be encouraged. Incidents like the California exclusion act must be magnified into major issues between the two nations.

To what purpose truly?

To the purpose that when in due time Russia became dominantly Jewish, and Protocol Communism was the political order, and Japan took measures to protect her sovereignty against it, Jewish Russia might have an ally in the military forces of the United States and a situation be precipitated where in the event of war Japan might be as equally menaced by the United States on the east as with her enemy Communistic Russia on the west.

Thus to openly fight Russia under the Jewish oligarchy, would mean creating around Japan, a circle of steel. The Jews in command of the American administration could at any time bring about an international situation plunging the United States and Japan into war, and thus the chances of a victory over the Red Army would be minimized almost to disaster—for Japan.

DO YOU, therefore, get the picture of approximately what has been in progress, Silver Shirts of America? Your country is merely being used as the cat's-paw, not only to finance the new Jewish-Soviet homeland, but to help fight her battles against her doughty little antagonist, Japan.

Japan, by throwing the gauge of battle to Communistic China at the present time, has been really engaged in fighting the true battle of Christian America for her own survival. But nothing of that nature must be allowed to get into the minds of our people. Japan is their old-time enemy, they must be taught, so that at any time Jewish Russia is threatened in its essence by non-Communistic Japan, the soft bodies of our American boys, now in high schools and colleges, may be made available to harass Japan on the Pacific or on the east generally and thus make Judaism triumphant wherever it elects to operate.

Of course nothing of this kind could have been possible so long as the United States refused to recognize the Jewish Russian murder-bund as a "government" at all.

Now with Communism getting so bad in the Orient that Japan is forced to fight it in China to preserve her own integrity, the strings are pulled and recognition comes off on schedule under the guise that resultant trade is going to re-start American factories.

We have the audacity to term the Japanese as "heathen" and "children in diplomacy," whereas we are being led around by a ring in our own American noses and accepting

(Continued on page 11)

Tremors and Rumbles of Volcanic Eruption . . .

DESPITE the role of pawn in this approaching international situation which it is planned for the United States to play, it would be exceedingly dangerous to the plotters to have America return to a state of peace and prosperity, because a country given to peace and prosperity is uniformly a country that is hard to control and direct.

Hence we can expect no early program of let-up in the propaganda and sabotage which has everywhere distinguished the introduction of Jewish Protocolism in the United States. Finkelstein's pledges to the contrary, America must be kept in as disquieted and dizzy a state as possible in order that her people may not have time to reason out just what strategies are being enacted in high places.

The harder the suffering is made for the rank and file of the Christians, the more susceptible to any suggestion will they be, that promises them financial and economic relief, even though they have to take up arms again to reintroduce the false prosperity of 1914-1918.

Never forget that fact for an instant.

FINKELSTEIN is popularly assumed to have given Mr. Roosevelt certain "pledges" that hereafter there would be no Communistic propaganda carried on in the United States with official "Russian" sponsorship. But what need could there possibly be for such pledges, granted they are worth the paper they are written on, in the light of agencies of propaganda and sabotage that have already been set up in this Land of the Free for Those Who are Brave?

Notice that no publicity was anywhere given to the oft-repeated assertion of Menjinsky, who is the head of OGPU of the "Russian" secret police—

"As long as there are idiots to take our signature seriously, and to put their trust in it, we must promise everything that is asked, and as much as one likes, if we can only get something tangible in exchange."

No, the psychology is adroitly created—by a discreet silence on such items—that the Russian-Jewish leopard of Communistic Protocolism has suddenly changed its spots and American Christians no longer have anything to fear from the Russian Bear that *was*.

But take notice that coincidental with Finkelstein's "pledges," Communistic activity takes a sudden spurt into still more pernicious galvanism.

Over a period of years, the Jewish Communists have been placing their men—skilled in sabotage—in positions of power inside labor unions, in factories and on farms, in schools and colleges, even in our prisons. They have not forgotten to enroll brainy young people as college "plants" to

spread Jewish Protocolism among students and faculties. With clubs and cultural groups these likewise appear.

They have tried to get a foothold inside the army and navy, at shipyards and in airplane plants, in ammunition factories and gas manufacturing industries.

With these thoroughly entrenched as cells and nuclei, Stalin or Finkelstein can safely make any pledges to this Jewish administration which they choose. The desired civil strife in America can now be made to appear as the natural outcome of labor troubles.

The leading agitators keep in the background but work with more deadly effects by such silent tactics!

In some northern cities, Detroit for instance, powerful motor cars drive up to labor headquarters and labor leaders are forced to go out in these cars and ride with these Communistic Jews to some spot where they are treated to methods of compulsion until they yield to the terms proposed by the Communists. Usually these terms refer to strikes and trouble-making episodes.

Inch by inch men are being crowded into compromising situations from which they cannot release themselves. Our large cities reveal stories of intimidation and rackets, managed by these Jewish agitators.

Well, indeed, might Finkelstein give "pledges" . . . the seed of discontent, turmoil, and class war was adequately sown before recognition was brought about.

Pledges, indeed!

STRIFE is being developed by the agitators wherever and whenever possible, as though Finkelstein had never sat down with Messrs. Roosevelt and Hull at all. A glimpse of the preparation for sabotage is given in a poem published in the Communist organ, *Novy Mir*, in New York City—

"If they send me to the munitions factory
Here in the Red Union
I will work until my heart bursts,
But if I am abroad, I will cut the pulleys,
Bend the shafts of the rifles,
I will put sand into the gun-powder,
Fill the shells with dirt.
And will clash piston against piston.

"I will make holes in every lamp,
I will make holes in every gas-mask,
Put sand into the machinery,
Stuff the gaspipes,
Break the gas meters,
Blow up heated boilers.

"I will undo the screws,
I will displace the rails,
Chop up the ties,
Entice all the workers to mutiny,
To throw down their arms
And to raise their weapons—
The weapons of revolution
Against their masters!"

Tons of literature preaching this sort of thing are being flooded over our United States daily and weekly, at a time when depression and hunger are making staid Christian citizens desperate. Still our duly elected representatives sit down and discuss honest and legitimate trade with the government that fosters such propaganda, and our officials blandly give it out that "agreements have been reached" stipulating in essence that there will be no more of it.

Well, Finkelstein has given his pledges, but where for one moment already, at the present time, has a single Communist toned down his propaganda?

THE CALIFORNIA papers have been full of accounts of recent outbreaks of Communists. Now a new peril is seen in southern California. The Times-Mirror of Los Angeles warns of this more formidable danger—

"The walkout of cotton pickers in the San Joaquin Valley is over and the crop is being ginned and baled at top speed. The so-called strike has cost the growers at least \$1,000,000 at a time when they had an off-chance to break even after years of loss. The disturbance was formulated by Communistic and anarchistic leaders, most of whom have criminal records, some of whom are in jail.

"It was encouraged by the Federal Government, which fed the strikers, by State authorities openly sympathetic to them, and by the failure of other officials to meet the situation firmly.

"The cotton strike is over, but its cause remains to do still more damage. The leaders, well paid, and after a fashion cunning, have been permitted to remain in the State. They have spread out to new fields. Just now they are at work in the olive and citrus sections of the north. Some are already in southern California laying preliminary lines for bringing about the ruin of the orange and lemon crop there.

"It is reasonable to anticipate that the peace officers in southern California are less fearful of hurting the feelings of this gang than some of their compatriots further north have been. Orchardists are alive to the peril of the situation. The sheriff asks for thirty additional radio-equipped patrol cars to help meet the impending emergency. He should have them. The drive is centered in California *because of the perishable character of our principle crops and the circumstance that they must be harvested within specific time limits.* If it is successful here it will spread to the northwest and then across the country.

"Workers themselves are not belligerent. They fall under baleful influences, are easily led and finally intimidated. The only way by which the situation can be successfully met is by rounding up the leaders, deporting all that are deportable and throwing the rest out of the State with traveling orders that have enough kick in them to convince the wreckers that in spite of their expressed belief, the government is not with them.

"This can be done, but not by pussyfooting. It looks as if the problem is being passed along to southern California. If it is, action should be sudden and decisive. The time for temporizing has gone by. These agitators are alien Reds of the most dangerous type. They set up their own unions and their own concentration camps. They are headed this way. If taken in time, a swift kick in the trousers may suffice. If not, the smell of gunpowder is likely to mingle with the smell of the orange blossoms before many weeks."

FAIR words indeed from a Los Angeles editorial writer whose paper undoubtedly puts the Soviet Buzzard at its masthead, thinks NRA is a splendid piece of recovery legislation, and approves the noble international peace efforts of the President to bring Soviet Russia into the council of nations.

But how can you exile, ostracize, deport, and otherwise eliminate the citizens of a country who have just been given the glad hand of fellowship by the prevailing administration, and whose workers and sympathizers for similar sabotage are

everywhere in a great enmeshing net around the President, "advising" him, "suggesting" this and that, and generally seeing to it that tumult takes place in high places as well as low?

The agitated citizens of southern California should grasp that to all intents and purposes the current administration not only protects but *likes* these people who go about stirring up industrial trouble and making their crops cost them a million dollars more a year. They certainly are everywhere appointed to positions of trust or mediation in the Washington Presidium.

As a matter of stark fact, the residents of southern California are just beginning to have it brought home to them what some of the "beauties" of Communism really are. They have thought these Communists mere fanatics who had the constitutional rights of free speech, but which were really no more dangerous than a lot of little dirty-faced Jewish boys with the proverbial red flag in one hand and the oft-stipulated ice cream cone in the other.

Well, let them find out. Let the nation find out. One hundred and fifteen millions of Christian Gentiles have cried poof-poof when publications like *Liberation* have tried to tell them what they were slated for. By all means acquire the police patrol cars and burn up taxpayers' gas rushing from one place to another to quell disorders.

It will come to nothing. As for deportation, did not the big Jew, Louis Marshall, fight for years against any census of undesirable aliens being taken in this country? Did not the Union League of Michigan strive valiantly to pass an alien deportation act that would make possible such suggestions as the newspapers of California now are so sagely recommending? Was not such an act passed? And who wrecked and emasculated it? Ask those Gentile Union-Leaguers of Detroit—and they will tell you in no uncertain language.

Mysterious coteries of Jews infiltrated and wrecked not only the alien deportation act but the whole Union League as well, that had shown the audacity to thus "persecute" God's Chosen People.

AND speaking of government and official squelching of the trouble-makers, how again do you expect to get anything effective done when a Communistic spokesman like Rose Schneiderman of the Woman's Trade Union League in Washington, D. C., has as one of her most enthusiastic patronesses *the First Lady of the Land herself?*

What is an open war-time seditionist and syndicalist like Mrs. Henry Goddard Leach doing on the NRA mediation board—an act which is supposed to Command the entire devotion of the American people that they may recover prosperity?

With Jews everywhere being appointed by the Administration to positions of power and responsibility, whose relatives, business associates, affiliates, and foreign connections, have been more than reasonably proven to have been the sponsors and financiers of Communism—what a travesty on American intelligence to write such an editorial as the foregoing and expect people of any intellect to say "Quite so, quite so!"

Well may Barney Baruch be upset! Well may Finkelstein make "pledges"! When you have already sown the
(Continued on page 11)

More Hocus-Pocus Down in Montevideo

WHILE Japan and Russia are about to fly at one another's throats in the Far East—with the Jewish-controlled United States as a possible ally of the Soviet murder-racketeers—and while Communistic Jews are everywhere racing hither and yon in these hungry-stricken United States preparing America for the "beauties of Communism," down in South America an alleged Pan-American Conference is getting under way with several interesting representatives from the United States whom Silver Shirts should know about.

It goes without saying that the Internationalists are very busy tinkering already with the Montevideo Conference. A report on it was first presented to Secretary Hull by an internationalistic committee. It embodied recommendations for settlement of the Chaco Dispute, the strengthening of the peace machinery in the American hemisphere, broadening the Monroe Doctrine into a continental agreement and revision of the Platt Amendment to the Cuban Constitution.

The Foreign Policy Association—of whose Jewish control Silver Shirts were apprized in a recent issue of this weekly—and which furnished James McDonald to act as "Refugee Chief" to aid the Jews fleeing from Germany to come over here and augment our breadlines, helped set up the Committee which made this report to the Secretary of State.

IT HAS been stated in press comment that Secretary Hull did not want to go to Montevideo, but the New Deal officials insisted on his going. *It will be interesting to watch what takes place during his absence that will indicate why he was asked to absent himself from Washington just at this particular time.*

The World Peace Foundation of New England helped the Foreign Policy Association set up this committee.

The World Peace Foundation was endowed by Ginn funds and specializes on propaganda for the kosher League of Nations, the World Court, Treaties, and the general measures which will bind the United States to Europe.

The Foreign Policy Association and the World Peace Foundation stage many events which support the movements sanctioned by Jews.

Now what of the personnel of this Committee? . . .

WELL, first we have our old friend and Communistic Russia touter, William Allen White of the Emporia, Kansas, *Gazette*. Do not overlook the circumstance that Editor White has just returned from Soviet Russia from which none of his writings exactly bore out the sentiment that he loathed and despised the Protocol form of government, or

shrank from seeing it replace our American Constitutionalism.

Editor White indulges in other activities, however, besides editing a country paper and writing propaganda in admiration of "Russians" . . . Silver Shirts who recall this magazine's article three weeks ago on The Foreign Policy Association, will recognize the significance of these other activities when it is stated that Old Bill White works with James McDonald on the National Council for the Prevention of War—prevention of war, that is, for any country but red Russia. Editor White, in short, seems quite in sympathy and favor of Soviet Russia—cotton planters of the San Joaquin Valley, who have just had a taste of Sovietism, please note.

Next on the Committee list comes President Frank Aydelotte of Strathmore College.

STRATHMORE College has students who are *organized*—mark the full meaning of that word!—to work for Socialism and Internationalism. They take part in picket duties and prepare protest demonstrations of many kinds.

The League for Industrial Democracy (see American Civil Liberties Union article) in its publications mentions with pride that the students of Strathmore are among the "most advanced" in leadership for radicalism.

A nice American educational institution!

George H. Blakeslee, next on the list, is a Clark University professor. His *dossier* here does not particularly count. Consider instead, Raymond Leslie Buell.

Raymond Leslie Buell is titled "Research Director" of the Foreign Policy Association. Just what his "researches" comprise, is rarely made clear by the next. But his Department was endowed by the Rockefeller Funds, presumably before all Foundation funds in this country—such as The Rockefeller Foundation, the Carnegie Foundation, and many others of similar size and importance—were merged in the notorious Twentieth Century Fund, under the direction of such Jews as Edward A. Filene, *alias* Katzmann.

Mr. Buell addresses large audiences of pacifists and internationalists. He has written many articles dealing in the propaganda fostered by the Foreign Policy Association. Such articles reach people who in turn can most influence public opinion. The Foreign Policy Association boasts that it has the largest mailing list of men and women who formulate public opinion, of any organization in the country.

THE NEXT interesting name on the list from the standpoint of pure, undefiled Americanism, is Stephen P. Duggan. Mr. Duggan is Director of the Institute of International Education. Many years ago the National Student Federation conceived the idea of scouring Europe to find the most radical students and professors which it could bring to the United States to "plant" inside educational institutions

to speed up the growth of radicalism in this country among the student bodies.

Their plan was so successful that it has been copied by other student bodies. Preachers were brought over by the World Alliance for International Friendship and by the Church Peace Union, and the Federal Council of Churches of Christ in America. By the way, the next issue of *Liberation* proposes to have a complete write-up of the radical origins and purposes of the Federal Council of Churches of Christ, that good Gentile church-goers may know intimately and truthfully to just what pernicious designs they and their pastors are contributing if they are members of it . . .

Many of the clergymen of the same stripe as those imported, were in turn sent to Europe to round out this system of import and export of radicalism. *Now the Institute of International Education, of which the worthy Mr. Duggan is "director," manages a regular exchange system of such college students and professors.*

ERNEST GRUENING, next on the roster of the committee for worthy aims and Monroe-Doctrinism in Montevideo, is the editor of *The Nation*. So a word about *The Nation*. It was developed by Oswald Garrison Villard. Mr. Villard was born in Wiesbaden, Germany, his father's name being Gustavus Hilgard, changed to Henry Villard.

Mr. Villard and his mother have been very active as war resisters. They were identified with several organizations which work particularly with the negro. The National Association for the Advancement of Colored People counts Mr. Villard and Felix Warburg as among its firmest supporters!

Mr. Villard meets the members of Kuhn, Loeb & Company in social circles as well as in organizational fields.

And so the editor of his paper, Mr. Gruening, is most frightfully interested in such matters as the settlement of the Chaco Dispute, the strengthening of the peace machinery in the American hemisphere, broadening the Monroe Doctrine into a continental agreement, and revision of the Platt Amendment to the Cuban Constitution.

WE PASS over the names of Charles W. Hackett, professor in the University of Texas; Major R. W. Hebard, consulting engineer; W. W. Lancaster, of the law firm of Shearman & Sterling; Jesse S. Reeves of the University of Michigan; William Howard Schubart, vice-president of the International Acceptance Bank; Eustace Seligman of the law firm of Sullivan & Cromwell; and Charles W. Taussig, president of the American Molasses Company—principally for lack of space to mention their entirely disinterested attitude toward any private interests at stake in the Conference—to consider the last remaining name of Hubert Herring.

Mr. Herring is Director of the Committee on Cultural Relations with Latin America. The whole world knows that if there is one thing that Latin America needs, it is culture. So this Committee conducts institutes in Latin America to which the radical element go to get it.

They absorb culture by opposing the Monroe Doctrine at such institutes and work out plans for changing it. Many Pan-American policies are criticized and advanced thought on relationships between North and South America is encouraged.

So down to Montevideo go this group of sterling Americans, along with Secretary Hull, to consider such things

as the reorganization of the Pan-American Union, stand on record for "international planning," tariff reduction by reciprocity agreements, and organization of "rationalized foreign trade"—whatever *that* is!

Everything is internationalism, internationalism, *internationalism!*

The whole trend of activity throughout the whole earth is to smash, obliterate and destroy the integrity of nations and peoples—as nations and peoples—and reduce the earth and its political equations to a common level of unrecognized mediocrity and one world-wide government.

To do this especially in the matter of the United States, of course comes first on the list.

That it is the old, old teaching of the Talmud "so that no man can say to his brother, 'I am better than you'—is of course not known to the sociologically illiterate.

That Jews throughout the earth are behind these "cultural" movements for the obliteration of such nationalities and the introduction of a world-nation, with themselves as its self-appointed rulers and aristocrats, is missed entirely in the urge of the ignorant sentimentalists who argue that of course war is a beastly and deplorable thing, that there never was such a thing as a good war or a bad peace, and that anything which tends toward emasculating war should have their unqualified support.

If this were the true purpose of all these organizations, their backers, sponsors, and promoters, the person who said a single word against them should be made a pariah.

But true peace, and the binding of war, is the last thought in the minds of the real powers behind them.

They are simply cleverly constructed and adroitly piloted aggregations of gullible influence from the various countries, working out the plans of radicals for the destruction of orderly governments, the obliteration of true Christian culture, and the aggrandizement of the military and diplomatic machine of Jewish Russia.

Consider as part of the way the conspiring is put over, an episode looming large in the news of the past fortnight in quite another channel . . .

SLAPSTICK comedy has not vanished. It appears in the play the Jews are writing every day in the newspapers as they bring out the leading characters of the drama of "Promoting Understanding Between Christians and Jews in the United States" . . .

In the American Jewish Congress of 1927, Rev. Arthur J. Brown, a Presbyterian, played the part assigned him. He has operated for years a Committee on Religious Minorities, financed by money from the two million dollars which Andrew Carnegie gave to the Church Peace Union. Rev. Brown came to this Congress to tell the Jews how well he had done.

As soon as he had finished reading his paper, Rabbi Wise, chairman of the American Jewish Congress, said: "You go!" Rev. Brown did not start at once to leave the room. Rabbi Wise took it for granted that Brown had gone. Upon finding him still there, he stretched out his long arm and pointed an index finger angrily in the direction of Rev. Brown's face, exclaiming in a booming voice: "You GO!" Then as the Presbyterian slunk down the aisle toward the door, a sharp order was given the guard to close the door and admit no

(Continued on page 11)

These are Thy Commandments

THESE are thy commandments, O my brother: That thou followest in the ways of the wise Ones and make no protest against that which they wouldst teach thee;

2 That thou takest to thyself the beseechments of Probity and anoint thine own head with the Sweet Oil of Honesty, that thou castest no vermin of lechery on the ground behind thee to mark thy goings with a trail of unclean blasphemies;

3 That thou goest and comest as an angel of radiance, showing thy countenance to the right and to the left, that all men may see it, taking into the shelter of thy pinions all who do suffer or call on you for succor.

4 I say it shall be well with thee, brother of my bosom, if thou observest these things which may seem small to you in judgments of earth but are great of a consequence in the Kingdom that Cometh.

5 There dawneth on humankind the call to a venality; men rush to and fro oppressing one another, saying: All, all is Mammon's and we who are here to lead successful lives must arrange to do his bidding;

6 Great causes rise and are defeated; great issues impend and are met with a derision; the chariots do race with fire in their workings, the engines of destruction grow mightier in magnitude;

7 All, all foredaineth a change in the Infinite; all, all escheweth the designs of the evil one to make a show of his conquests over the unfortunate.

8 Brother of my bosom, I would adjure thee again: Walk not in the companionship of the man who sayeth: It is better for me to serve Mammon and thus preserve my life, than to walk in the way of righteousness and lose it;

9 Have no communion with the man who telleth thee: It is better for us to go hence into the House of Feasting and nourish our bodies, than to have them fall by the wayside in the faint that hunger causeth;

10 Have no traffic with the perjurer who telleth thee: I have labored for the mighty ones and have received a reward that looketh to me goodly; say to him rather, Thou has sold thy soul to him who is mighty indeed, but in thy selling thou hast lost thy conscience: all, all is a lechery to thee henceforward and thou seest the future only in terms of thine own vanity.

11 I say it shall come to pass that the righteous man shall be honored: I say it shall come to pass that the man who hath given himself unto a lechery shall look into the heavens and see only a storm-cloud, frightful in its nakedness to do him an injury.

12 For thou livest in strange times: the gods of the air do speed hither and yon; the angels of the pit do raise up a pestilence that stinketh in thy nostrils until thou knowest not whence to seek for pure breathings;

QUOT of the vastness of Cosmos the Psychic Antennae tunes in on a Voice. If the Word was made flesh and spake once to men, how much stronger may be its pronouncements when the handicaps of the flesh are perished? If we cannot believe this, to Whom or What shall we look for authority of commitments like the following?

13 Thou hast a mission unto thyself in these times: thou hast an appointment with the Watchwords of Eternity, to take them in thy lips and say them;

14 Thou hast come upon the earth-scene to enhance thy understandings of why Evil should *be* and Righteousness be thwarted;

15 Thou hast come upon a strange place, at a strange time, and yet I say unto thee: Thy course is provided, thou hast a destiny to build, a logic to pursue, a watchword to utter, a talisman to cherish.

16 Was it not ever thus? Verily, my brother, I give you a commandment:

17 Walk not in the ways of the ungodly, neither stand in the paths of the sinner who sayeth, There is no vileness, all is of one's courage to observe; but stand righteously for purity of concept and delight of conscience, making no evil passes at that which is forbidden by thine essence of the Godhead—thus shall it dawn to you that the righteous man hath a vine and figtree that is planted not by hands, and an inheritance cometh to him which mattereth not with the Lords of Provender.

18 I tell thee I have trod the Way before thee, I have gone into the barns and known their storage, I have walked in the wheatfields and known the harvest;

19 Did I not plant it?

20 I have looked to my laborers and seen them approaching with their sickles held adroitly;

21 Now I see the harvest gathered into the barns of my witness; I have heard in advance of earthly event the cries of the husbandmen feasting in the Night of the Long Benefaction.

22 So be it with you, O brother of my bosom!

23 Have patience, have comity, have the desires of thy heart meted to thee wondrously, have knowledge, have circumspection; know no evil by letting it befall thee and saying, It is my right, thus do I come to it;

24 Say rather, I have no right with Evil, I bid it begone to the depths of depravity from which it hath arisen; I go a clean way, with a high heart, and the song on my lips is a song of rejoicing;

25 For I have been the receiver of a brevet, I have been commissioned of a lord who taketh his orders from One who is still higher.

26 Thus do I perceive thee doing a work that is transcendent; I see thee marking the tread of a million feet and saying, *Thither go they because I have sent them, even unto righteousness that dwelleth with them always.*

MY PEACE BE UPON YOU . .
SELAH AND ALWAYS!

The Liberation Scribe

Edited by
Robert C. Summerville

Onward Christian Soldiers!

THE NEW PLAN explained on the back page of this issue is historic. It lowers the restrictions upon membership, so that millions who heretofore could not afford it, may enter into the most intimate details of the knowledge which is available at National Headquarters—that is, if they can qualify as *Christian Americans of stamina, initiative and integrity*.

Heretofore membership has been conditioned on the payment of \$10, five dollars of which covered a year's subscription to the Liberation Magazine, and \$5 to cover additional literature including the 22 Articles of the Christ Democracy which will soon be issued under the title, "No More Hunger!"

It is now also optional for those who have subscribed on this basis to receive a year's subscription to the Silver Ranger, pending their expression of this desire to GHQ.

IN ALL of this, there is much that can be said, however. For, in direct contrast to many other organizations which have had sporadic bursts of prominence to disappear in the night of public oblivion, Liberation has never asked for an arbitrary membership fee to be turned in *carte blanche* to the National Treasury.

Headquarters has too much to *give*. It is absurd that it could be interested in *getting*. Night after night has the General Staff fretted over the appalling information at hand and the grave and immediate necessity of getting it into the hands of the American public.

A non-profit organization in Spirit as well

as in letter, there has never been a surplus in its Treasury. From week to week it finds itself receiving just enough to "get by." At no time has there been any money for advertising or promotion. Our Adversary has labeled it an "elemental" movement, and it is indeed staggering to consider that it has grown to nationwide prominence on its own merits, *solely by personal contact, and because of the ardent workers in the field*.

It is because GHQ has had so much to *give* in the way of knowledge that it has seemed imperative from the beginning that any funds paid in for membership should be used directly in providing that knowledge to the sincere worker.

But now the work has grown to the point where Posts are assuming the place of paramount importance. Through them the more advanced knowledge can be given that cannot be disseminated in public literature.

But the great advantage in the rapid development of Posts is the reduction in cost which it represents in the distribution of knowledge. Printed literature costs just so much, and that cost cannot be avoided. And those who can afford the Liberation Magazine, The Silver Ranger and other literature *will* subscribe, and perhaps donate and tithe additional funds, to their utmost, *that the message may be carried to America*.

SILVER SHIRTS OF AMERICA, BUILD YOUR POST! There must be a million new members before the new year is out. ONWARD, CHRISTIAN SOLDIERS!

If Japan and Russia War . . .

(Continued from page 2)

street-corner diplomats and parlor economists have suspected to the present?

Sympathizers and supporters of the Communist form of government have everywhere percolated into the Washington Presidium. Scores of the same Jewish families who lent money and moral support to Lenin and Trotsky, have made themselves, their relatives, their representatives, and their satraps, of paramount importance in the American government—which a lot of gullible Americans foolishly imagine to be a gesture toward economic recovery. With the Stalin-led Jews, and his oligarchy of atheistic Hebrews, in such devastating danger in Russia *is it not obvious that recognition was strong-armed on the American people in order to give the Communist Murder-bund an ally in America and*

make available the money and munitions out of the United States taxpayers for a death-grapple to see whether or not the Protocol form of political government shall anywhere survive?

THESE Jews aim to hold what they consider their gains, even though they plunge civilization, and the whole earth, again in flames. With the steel ring set up and the pressure beginning to be applied abroad, Jewish Russia has strengthened her defences not so much in an economic as in a military way.

The old quarrel of the United States with Japan—or between Japan and the United States—over the California exclusion act, and Hawaii and the Phillipines, can be relied upon to provoke the *casus belli* on the American side when the stage is set, and throw the United States into the same martial bed with the Soviets, both fighting the "Common enemy"—Nippon.

To the same end it is apparent that the Hebrews in the British Government—or rather the Jewish Government of Great Britain—have brought about a situation where they believe they can rally the support of Great Britain and the English people on Russia's side also, along with America.

To be quite blunt, this would make the new World War line-up: (Russia, United States and Great Britain) as against (Japan, Poland, Germany and France.)

Bear in mind, also, that not many weeks ago our Atlantic fleet was ordered into the Pacific, that both fleets provisioned out of California ports under war-time regulations, and that they recently steamed away under sealed orders, destination unknown, obviously for the Far East to intimidate Japan in regard to her fancied designs "on the Phillipines."

The Jews who mean to preserve their "Russian" oligarchy at any cost, have done their work well. When they want to put the United States into the second phase of the world war, they count upon themselves as quite omnipotent enough to do so—and the American people will like it, whether they want to go to war again so soon, or not.

Did they not get Russia recognized whether American people liked it or not?

Are we not about to launch upon the formation of a Russian Reconstruction Finance Corporation—that the great Jewish-Soviet "experiment" may be stabilized and preserved on American dollars out of our Jewish-manipulated Federal Reserve?

Would not millions of gullible Gentiles welcome a new war as the only way out—economically—from this present financial stalemate?

Think of the war orders, the war prosperity, of 1917!

Do you argue that the people of the United States would not stand for more war just now, with France and Flanders so vivid in their memories?

Precious little they would have to say about it. Control of the press, the radio, the moving picture, pretty speeches by the "White House spokesman" about defending and preserving America's honor—and *bang!*—American boys will be marching obediently up to the draft boards again, quite as they did in April, 1917.

Wouldn't the army thus mean jobs for millions of workless Americans?

Wouldn't it "be good for business"?

Besides, think of the splendid opportunity such a war condition—over again—here in the United States, would give the politbureau in Washington—now inanelly known as NRA—to silence its critics. If the United States regulars can only be fanaged into marching shoulder to shoulder with the Red army, or operating her navy in "Russian" interests, people like the Silver Shirts—who rise up and tell the public unpleasant truths—could be thrown in jail or shot at sunrise.

Only another "war scare," you say?

Precious little you are allowed to know about it!

So get your sons ready for the butchery again, you American mothers! And get ready for possible dour times in the West Coast, you Californians! *Jewish Protocolism must be preserved though the whole earth die in flames!*

The "Heathen Japs" Fight...

(Continued from page 4)

any sort of malicious propaganda which the Jewish oligarchy wishes to have put out.

And at this very moment our combined Atlantic and Pacific fleets, under war-time provisioning and maneuvering, are plowing the eastern wastes of the Pacific intent on "protecting" our Phillipine interests and presenting a show of force to Japan which it is hoped will make her statesmen think twice before they actually dare to oppose Judah in its plans for world domination.

It is high time that the dumb and gullible American public was given these facts. It is high time that the average citizen realized what a stupendous piece of skullduggery he is letting his nation be used for—his Treasury, his military forces, his current political administration. Instead of squaring off against Japan, we should see this anti-Japanese agitation for what it is, and ally ourselves with a doughty little nation that we dare stigmatize as "heathen" but which in stark actuality is beginning the fight for our own survival as a nation under Christian Constitutionalism at the present moment!

Tremors and Rumbles

(Continued from page 6)

wind, what value are "pledges" against the arrival of the whirlwind?

Citizens of America! When will you finally come to realize that the one and only escape for all of this alien skull-duggery is naught but the great and growing SILVER SHIRT MOVEMENT?

The Silver Shirts will show you how to treat with this vexatious question, and they will not do it by chasing around in new police cars, either.

They will do it by going to the seat of the trouble—at the top!—and hurling out of America to stay hurled those venal and plotting representatives of a foreign racial money-bund that once eliminated will permit the real brains and character in Christian America to bring back order, decency, sanity, and peace!

Take all the time you please to realize it.

But in the end there is only one issue. The Hebrews of the earth must be shown that they have no call to be the world's messiahs! When they are shown, the principles of The Christ, which have made this nation great to the present, can be relied upon to do all the messianic work which poor addled, dizzied, looted, outraged society requires to have done at the present moment!

More Hocus-Pocus

(Continued from page 8)

one. Rabbi Wise—"with all the Gentiles out"—then told the inside story of his trouble with Israel Zangwell.

In contrast to this "You-Go!" treatment given Presbyterian Brown, is the story of flattering Carrie Chapman Catt for the work she has done for Jews in leading ten million women through the maze of studying about "the Cause and Cure of War" and of drilling them so patiently that they are now ready to sign

protests to send to Germany asking for favors for the Jews.

The Jews asked Mrs. Roosevelt to present a "Racial Peace Medal" to Mrs. Catt in honor of her success. And in making the presentation, the President's wife said: "Knowing Mrs. Catt as I do, I think she will prize it largely because she has been able to help a great cause."

Well, Montevideo or American Jewish Congress—it all depends whether the Hebrews want the cause and how far it advances their plans for international Zionism.

A group of American radicals going to Montevideo or the Presbyterian Brown going toward the door—not to mention Mrs. Roosevelt and Mrs. Catt "coming" when other strategies were wanted consummated—the main thing is obedience to super-direction. Facile and docile acquiescence!

Meanwhile our nation slips closer and closer toward the loss of its identity and all is to be merged into a "glorious internationalism"!

THE CHRIST DEMOCRACY

"What Manner of Government is the Christ to Set Up?"

A BROCHURE explaining the Government that is to come, that is neither Socialism, Communism, nor Capitalism, and which will allow the people the just reward for their industry and initiative.

The Christ Democracy forever removes mankind from the thrall of the hunger duress! It says that Life automatically deserves its bread, as well as its air and water. That, by divine right, man cannot be denied the independence allowing a free expression of his individuality!

Under The Christ Democracy, the Declaration of Independence and the Constitution of the United States will be carried to their righteous conclusion. Crime, graft and debauchery will disappear, because their will no longer be monetary profit in these things. It does not change the present plan of representative government in the slightest, nor eliminate existing governmental institutions.

The most profound economists cannot pick a flaw in THE CHRIST DEMOCRACY. It is the one plan which the predatory group opposes with all the power it may command. It is the ultimate and constructive objective of THE SILVER LEGION.

Copies of this explanatory brochure can be had on a basis of twenty to the dollar, or ten cents each. Write to:

The Battle Plan Advances! . . .

THE LIBERATION program has always been under the stringency of counting pennies to make both ends meet. Its financial bed has never been rosy. Thousands upon thousands have been eager to embrace the program who are ready for action, but who have, financially, been helpless to take a single step. It is with these, that we have been chiefly concerned.

It is these who have discovered their life savings filched from them, whose backs have been pushed to the wall, and who through intimate experience, rebel at the thinly veiled and dastardly filth which is being fed the nation through the movie, the press and by subversive organizations, *who want action!*

Seducers of America, do not imagine that the Gentleman Farmer is the "hick" you have painted him. Nor do not forget the hundreds of thousands of doctors, lawyers, professional and business men of the highest caliber who are equally impoverished and indignant, and who are having their eyes opened—wide!

And it is for these, **THAT THERE IS NOW A RADICAL CHANGE IN SILVER LEGION POLICY.**

In this rapidly changing program, it has been imminent for weeks. It is necessary that well over a million patriots soon sweep into effective action—and these sons of their country must be fully instructed as to every detail of the Satanic Cabal we are fighting.

Before explaining the new plan, however, there is one rigid requirement: No man or woman is officially admitted into the SILVER LEGION until there is the positive assurance of their *Christian* integrity, stamina, courage and initiative.

BUT, FROM this point forward, no money is required for entrance into the SILVER LEGION! All that will be needed are the dues of a dollar a month to the local Post. Membership is totally dependent upon your willingness to serve. You have seen the tragic issues which must be met by sterling patriotism, and you are dedicating yourself to that *Patriotism!*

How will it work?

From now on, the entire, activities of the SILVER LEGION will be turned to the formation of local Posts. It is through the Posts that the safety of this nation depends.

MEN and WOMEN, this is no private fight. There is no place in the SILVER LEGION for those who are seeking special privilege or immunity from coming chaos. It is a fight for the life of our nation, and as such, no self-centered, self-seeking participants can find a worthy place.

Every man who has seen the issues, and who is familiar with this program, is urged to write in immediately for a

brief explicit statement of the objectives of the SILVER LEGION and to fill out the accompanying enrollment application.

We repeat, nothing is required but the dues to your local Post!

BY FILLING out the SILVER LEGION Enrollment Application you have immediately signified your intention to become a member of a Post, and if there is no Post in your locality, to energetically set about to form that Post. Detailed information is yours for the asking!

It is through the Post work that you will receive the appalling enlightenment necessary to carry on effectively. And the organization will support itself by the dues which you will pay into the local treasury of a dollar a month.

To signify your earnestness, it is expected that you will pay your dues in advance to GHQ at Asheville, if there is not already a local Post established, or to the Almoner of the Post if it has been officially chartered. Pay three dollars at once, if you can. When three dollars have been paid—covering the first three months—then, if your Enrollment Application is approved, you will be given your Certificate of Membership and be privileged to take part in the Post Services.

THE DRIVE IS ON, for a million additional members!

Before the new year is out the SILVER LEGION must be in a position to enforce the principles of the Constitution. By Christ and God, we say that the alien dictatorship that is even now in effect, and soon to proclaim itself "savior" of the American people, meanwhile leading them to slaughter and perpetual economic slavery, *shall be stopped.*

The truth must be told in no uncertain terms. There is still the Constitution. There is still the possibility of a government of, by and for the American people. True Americans have only to learn how they have been bilked and betrayed, to wake from their lethargy unto mighty leadership.

The drive is on! A million new members before the new year is old. Plans are in complete readiness for their effective enlightenment. Post programs are conclusive and thorough. Brains, Brawn, Courage, Integrity, will be put to work in no uncertain terms.

No more can it be said that the service of *patriotism* must be limited by the impoverished individual's ability to pay a few paltry dollars. Membership is free. Only Post dues are required to jointly manage the education that will be so received. Subscription to Liberation publications is separate.

How many members will you enroll in your territory? There is no limit. The universal objective is: BUILD YOUR POST!

And may our forefathers who, in sacrificing their lives, gave us our country, applaud and rejoice!
