Edited by William Dudley Pelley

"I will not flatter the Crowd, nor wheedle, nor cajole; for my supreme aim I have the Public Interest; I speak always of the costs of victories, Sacrifice, and Sweat, and Blood!"

VOLUME V

Asheville, N. C., October 14, 1933

NUMBER 8

Something is Happening on the Plains of the Southwest!

THE time has come to stir the souls of men and fire their minds to thinking and acting! Nothing is wrong with America but the aliens who are debauching her. If that debauchery continues through another winter, the complete ruination of this nation may be realized.

On the 31st of last January, the men responsible for THE SILVER LEGION—colloquially known throughout the country as THE SILVER SHIRTS—made the American people a promise.

It was the promise of a national organization of vigilantes that should form a gigantic Committee of Safety against the agents and agencies, financed from abroad, whose ultimate purpose was the ruination and vassalage of the United States, the abolition of our Christian Constitution, and the alteration of our form of government by sabotage and violence.

That promise now is about to be realized!

RUMORS are percolating through to the North and East of dynamic happenings in the infinite reaches of the American Southwest. In a section of country that only a few years bygone was known as The Last Frontier, the tide of public sentiment is turning. Something is happening in the American Southwest.

Vigilantes of a New Order are arising and riding!

The call of High Adventure echoes far. From all quarters of the land men are coming in. All of them are Christ men. They are men with grim faces, with lines of sterling Protestant Americanism etched deep about their mouths.

They have said as with one voice: "This secret ruination of America must stop! We will see that it *does* stop! We

have had ample evidence presented to us that a great foreign cabal has secured a stranglehold upon our beloved United States. We have no further faith in the promises made us that Relief and Prosperity are just around the corner. It has been demonstrated to us that the men and women organized to bring back prosperity to this nation are not of our faith, not of our blood nor the blood of our forebears. They are men and women known to be associates or sympathizers with anarchists and syndicalists, communists and rioters. They affect to give us a plan of recovery. But it is recovery by destruction and prosperity by bondage—a deeper and deeper financial bondage that puts us in thrall to a great racial money-bund. We have seen through this Colossus of Chicane. We realize that agents and instruments of Gargantuan corruption are everywhere dictating our policies of State. It may be only a matter of months before our institutions are ordered from us utterly, when the secret police and the lethal firing squad may be in possession of our Christian institutions, using them satanically to eliminate our leaders and force us into serfdom like the Russians before us. *We mean to take back America from the aliens who are wrecking her!* We shall do it by methods of law and order, but make no mistake, we propose to do it! The law-abiding forces of the United States are with us. Men high in official government, uncorrupted by the Beast of Foreign Satanism, are with us. United States Army officers—the loyal breed of a former generation—are with us. Secret agents of the State Department and the Military know that we are gathering to uphold their hands, to preserve our Constitution, to make the Christian religion a vital force in this prostituted country,

to create a Great Renaissance of Patriotic Honesty in this nation and see to it that government of the people, for the people, and by the people does not perish from the earth!"

THESSE are not principles uttered in anger. There is no fanaticism, no rancor, no rage in these assertions. They are the declarations of honest men who have clean boys and girls growing to maturity, who have brains and initiative, who have recognized that nothing ails their country but the aliens who have been debauching her, who know that the nation can right itself and the blessings of Divine Providence shine again on the American people if the looters and plotters, the anarchists and debauchers, are driven from her soil.

It is a tocsin of militant Christian faith and uncontaminated Idealism that is sounding. And men have waited for it long.

God Almighty has never yet denied the American people leaders when events of the times demanded their appearance.

The moment for a great remedial gesture has come!

In utter allegiance to the noblest precepts of this American nation, with a blind trust in the beneficence and wisdom of the Overshadowing Creator, with a conquering zeal to see that debauchery ends and Idealism is triumphant, the finest elements in this Christian population are now taking note of the need for aggression.

The Christian SILVER SHIRTS, villified by the subversive elements among us, pooh-poohed by those who have racial axes to grind and who affect to call this *their* land and have its interests at heart while secretly setting up a nation within a nation, are now making the bold high bid for public endorsement and national support.

Something is happening on the sky-bound reaches of the American southwest!

Just as the "gale" comes out of the north and the east, so does the seething sunlight of a Pure Faith shine through the curdling storm clouds from the West and the South.

*The Silver Rangers are assembling, stirrup to stirrup!
Have you a horse and will you ride in line?*

FOR six months a far-flung educational campaign has been carried on throughout America. Men from the highest positions to the lowest have been apprized of the nature of the enemy within our gates. Secretly they have offered themselves.

"Give us action!" has been their tocsin.

In September the Chief of the SILVER LEGION left southern Headquarters of the organization, a staff about him, their faces turned westward.

As they moved toward The Last Frontier, loyal Americans enroute met them by appointment, opened homes and pocketbooks, augmented the numbers of those who were resplendently called to do a Great Task.

On the 27th of September a conference occurred in a certain southwestern city. From all over the West came in men who had first proven for their own satisfaction that what the heads of the LEGION had been telling them about the Public Adversary, had a basis in stark fact. They did not come in the Silver Uniform. They drew no fire of general attention. They were not beardless boys impelled by adventure. They were men with iron-gray at their temples, men with the lines of experience engraven on their faces,

men with the tumult of concern in their eyes.

They took note of what should be done to offset the titanic wreckage of America everywhere in progress.

They crystallized their Policy.

"There must be formed in this nation a gigantic Committee for Public Safety. If NRA fails, the Four Horsemen of the Apocalypse may well ride this country. Already threats are being uttered: Support this industrial dictatorship or know a dictatorship of the Hammer and Sickle. *And we will have none of it!* We are men of integrity. We have wives and children. Our homes are our altars and we worship there the God of the Single Moral Code, the Savior of the Pure Heart who gave us this nation to be our heritage, to rear our children in industry and conscience. We mean to see that the foreign agitator who is being paid to overturn our government, is rigorously expelled from the public domain. We mean to see to it that this Crime Wave ends, that our citizens, of whatever affluence, can go to and from about their affairs unjeopardized by the racketeer, the gangster, the Jewish kidnapper. *We mean to take back the United States from those who have raped her*, and if there be those who oppose us, who view us as un-American, as disturbers against government, as secret plotters against constituted authority, who use either sabotage or arms against us, we put them in the camp with the public enemy and we say: *Before we are finished we shall ride you down!*"

THOSE who henceforth inveigh against THE SILVER RANGERS can be automatically classed with those who are responsible for the predatory banker, the promoters of a Nation within a Nation, with the gangster, the racketeer, the snatcher, the Communist and syndicalist.

Let the fullest light of every governmental agency be turned upon the SILVER SHIRTS, the SILVER LEGION, and the SILVER RANGERS!

Government agents of the impeccable breed, Christian gentlemen in the highest offices of this administration, judges of courts, even governors of States and officers of the Army, are in full possession of the facts of our integrity and in hundreds of cases are secretly wearing the Scarlet L themselves—the "L" that stands for Love, Loyalty, Light, Liberty, *Liberation!*

Yes, something is afoot in the American Southwest. And every sterling American of clean principles, honest indignation at what has been intrigued throughout this debauched country, and impeccable character, who would align himself behind indomitable leadership, is invited to spurn and abandon the putridity of this manufactured Depression and join the SILVER RANGERS for Liberty under Law, for Liberation by Light, for Christ and Constitution, taking back this nation from the alien, having an end to un-American committees, deputies, deputies to deputies, presidiums, and alien Planning Boards that are naught but sovietism, and seeing that the work of the Continental Fathers shall be brought to a glorious and successful culmination by these, their respectful progeny.

Do you want action against the Public Adversary, under the open sky and the stars?

It is yours for the embracing.

For the Christ Clan will ride when their far-flung ranks are filled!

Where the Adversary Misses a Bet!

THESE are the days when the Hebrews of the nation are foaming at the mouth. Frenziedly they are calling on any sort of public official whom they think will listen, to do something drastic to halt the growing power of THE SILVER SHIRTS before they become a menace to the safety and longevity of the Jewish race in North America.

The latest blast of invective and fearsome misrepresentation is printed in THE JEWISH CHRONICLE, which circulates among the Hebrews of the American southwest out of Oklahoma City.

In its September issue it belches forth editorially, insulting the plans and purposes of THE SILVER LEGION, villifying its Chief, printing insolent and scathing remarks about the "defunct" Ku Klux Klan, and generally demanding that something be done against THE SILVER SHIRTS by the federal government because THE LEGION emphatically does not agree with the plans of the Jewish-controlled Brain Trust for bringing about recovery.

In all of which the Jews are running true to form.

Naturally they *would* call upon a Jewish-dominated administration to take up its federal cudgels in their behalf. Why else did Jews, one day as a race, the next day as a religion, and the third day as a nation, manipulate to get preponderant influence behind the Powers that Be in Washington?

But in all this Jewish fanfare against SILVER SHIRTS, there are one or two bets that the Jewish press misses.

It makes the colossal blunder of assuming that the whole nation, official and unofficial, is heartily in accord with the international plans of Zionism, that agitation against this Jewish-dominated administration is strictly a SILVER SHIRT rancor, that no one is aware of what Hebrewism is contriving, excepting Pelley and his Staff, that little remains to be done but to suppress THE SILVER LEGION and America will then continue to be quite its former haven for all the riffraff and racial scum of Europe serving the purposes of international Zionists.

It is a tragic blunder and Jewry may live to rue it.

THE FACTS of the matter are that Pelley and his men are an exceeding small factor in this wave of anti-Semitism that is arising in this nation. No movement is launched, to immediately acquire followers and adherents by the thousand, unless it epitomizes and crystallizes a natural disgruntlement that has been clamoring for public expression over a period of time.

The pernicious plottings of international Jewry to work

for certain racial objectives in this nation, really came to the attention of men high in our State Department at or about the time of the Boer War. Strangely enough, the investigations began through—or because of—Great Britain.

It is not generally known that the British Government at the turn of the century took puzzled note of the fact that in the Jameson Raid which precipitated the Boer War, certain American engineers were riding with Jameson. At the same time an equally strange animosity against England, and a pro-Boer sentiment, seemed to manifest itself in the American Congress.

Great Britain—at that time preponderantly English as a government instead of preponderantly Jewish as at present—determined to find out why such sympathy for the Boers existed to manifest in the American Capital. Out of that determination began a sweeping investigation into the ramifications of international Jewry.

The claim was advanced that the American engineer, John Hays Hammond rode in the Jameson Raid and as it was alleged that Hammond was in the employ of the American Guggenheims, the investigation started there.

Certain of Britain's cleverest Gentile espionage agents were gathered in from the Orient and told to run down the whole Jewish cabal—*entire*. This research led them all over the world. And a great secret-service literature began to build up, as to what the Hebrews were after and how they expected to accomplish it.

The activities of these men soon intrigued the interest of their brethren in the American State Department. The Jewish interests behind the world war accentuated the attention of the latter American espionage forces.

Soon it was determined that it was not the Germans who were starting and espousing the war, but a set of powerful Jews working out the plans of international Zionism through the opportunities of hostilities for advancing their interests politically and financially.

FOR YEARS a great mass of data has been building up in departments of State, both here and abroad, disclosing the ramifications of international Jewry all over the earth.

This data is as colossal as it is now damning.

The secret service departments of our government, agents of the Department of Justice, investigators employed by the various senatorial and congressional committees, have compiled compendiums of so-called "secrets" so exhaustive and staggering that even the Washington government at the present time is divided into two camps: those who are supinely pro-Jewish and, those who are savagely anti-Semitic—those who serve the internationalists in their advance to power, and those who know how deadly pernicious are the activities and encroachments of certain cliques of Jews upon politi-

cal and commercial tranquillity wherever they may locate, because of the revolutionary activities the anti-Semitic investigators have been called upon, time and again, to run to earth.

The Jews of the United States seem to be taking it for granted that all Gentiles are fools, that no one knows the nature or extent of their international plottings, schemings, and connivings but themselves, that because they have secured powerful representation behind a current political administration they are sitting in a place where they can either emasculate or demolish any agitation unfavorable to them as a race and treat the mass of evidence against them as though it did not exist.

They seem to forget that for a score of years the finest crack investigators in Uncle Sam's employ have been closely on their trails, and there is scarcely a political, commercial, or financial move which has been made anywhere in the western hemisphere that is not fully known and extensively reported on!

Does any sort of political unrest start to manifest anywhere in the Americas? Immediately that certain names are mentioned, the whole diablerie becomes clear, who is behind it, into exactly what banking houses or Jewish groups responsibility for it can be traced.

These crack investigators for Uncle Sam have built up their own opinions about the innocence or culpability of Jews in modern international happenings. They have, in their reports to their chiefs, again and again expressed themselves as to the ultimate fate of the American nation in the event that these mischiefs are not made known to our Gentile population quickly.

Of course reports made to these chiefs in the various departments of State are inviolate to Uncle Sam—in a manner of speaking. But the information once lodged in a man's head cannot be forgotten. America is generously supplied with researchers who over the past twenty years have been active in tracing down Jewish plottings and contrivings, and when these men talk they have something to say.

And they do talk! Especially are they talking—at least to their intimates—in these times of imminent peril to this whole Christian nation. Moreover, sometimes their patriotism exceeds what they consider their responsibilities to those who gave them their sleuthing commissions. They may not divulge State Department secrets, *but it is transgressing no law to indicate to other patriots where they can go to get exactly the same information which in their line of duty they have passed to Uncle Sam.*

IN THE face of these facts there are times when it seems as though the Hebrew people were the most stupid people on the Almighty's footstool. It is not exaggerating to say that there has probably not been 3 percent of Jewish plotting and maneuvering, of any nature, harmless or pernicious, which has gone on in this American nation, or anywhere in the three Americas in the past 20 years, that has not been minutely known almost at once to Uncle Sam's sleuths.

If the Hebrews *dreamed* of the mountainous pile of evidence that exists against them, from the highest to the lowest, their exodus from America—in a panic of fear at reprisals—would be almost a rout.

It is in Uncle Sam's great patriotic sleuthing forces—men who have proven they cannot be bribed, bought, or intimidated—that the wholesome Gentile elements of this nation truly have their greatest bulwark, if the latter could only know it.

Furthermore, scores of those investigators have kept a record of the information turned in to Uncle Sam, and in the event that certain incriminating documents are later found not to be in the public archives, it can be accurately determined exactly what expensive reports the Hebrews may have contrived to emasculate or destroy, and exactly what information they have thus thought of sufficient truth and consequence to get out of the way, that it may not arise at a later date to damn them.

Well may the Hebrews tremble at the rise of THE SILVER SHIRTS to power, for if the time ever comes that they in turn control the destinies of this nation, American Jewry can take what consolation it can out of the promise that these carded reports *will* be brought from the archives and the whole stupendous and sordid story be spread for an entire nation to assimilate as it can.

WHEN the nation's Hebrew editors therefore froth at the lips, and hysterically implore the agents of State to suppress THE SILVER SHIRTS for the "incalculable harm" they may be doing to an "innocent people" they are putting themselves in the ironical position of perhaps appealing to certain individuals who are even more hostile and rancorous to Jewry than the outside revelators of Jewry's pernicious elements.

It is giving away no secrets of State to declare that predatory Jewry has more vindictive enemies in Washington City, and the ranks of officialdom, than anywhere represented by the expanding SILVER LEGION. THE LEGION is only interested in the Jewish question clinically. The scores of men in Washington who know in their own offices of what certain phases of Jewry are doing to our government and Christian institutions, have their own crows to pick with Zionists—from personal rancors incurred while running down the plots of the schemers from Hudson's Bay to Peru. They are not pretty birds, and the consensus of these men in Washington, uttered in many instances to Pelley personally, has been: "Thank God you've got enough courage and resource to go ahead and show them up! Don't be alarmed by their threats. We'll hold this end of the line and see that nothing serious is allowed to develop here. You do your stuff and we'll thus catch the scoundrels between a cross-fire."

If the nation's Hebrews knew actually how many Silver Shirts there were, and where they were, we wonder if they would be so audacious as to think that they are hoodwinking as many American Gentiles as they assume?

It is quiet support of the Legion in the privacy of the official and function that puts Judah at a disadvantage and hastens the day when the American people as a nation will learn the true designation of those whom they have to thank for most of their sufferings.

Whom the gods would destroy they first make mad.

Let the Judan lion roar. It saves a lot of brush-beating to find out exactly where he is stalking.

Are You Revolutionary-Minded through Jewish Entertainment?

BATTERING against the citadel of American mentality are siege-troops armed for would-be victory.

Their weapons of attack are brandished with skill and weathered by combat.

These siege-troops intend to win to their objective at the earliest possible moment, before the din of their battering-irons can be detected or their onslaughts routed.

Masters of strategy and field tactics have directed their efforts, but the purpose to be achieved has yet to be recognized by the rank and file of an entertainment-hungry public.

One Henry Wadsworth Longfellow Dana has been brash enough to explain the Communistic Plan of Mind Conquest in terms of producing the pre-revolutionary psychology in this nation.

"How is this to be accomplished?" asks the student of Professor Dana.

"Easily enough," responds the professor-grandson of the revered poet, Longfellow. "Give me an audience of communists, atheists, militant socialists, and world revolutionists, and I will prove that progress *has already been made* in creating a mind receptive to the 'coming revolution' in America."

THE AUDIENCE assembles in motley array at the Community Church of John Haynes Holmes in New York City, and Henry Wadsworth Longfellow Dana takes the platform. He feels at home with an audience of radicals and frankly says so. Their response to his informality in speaking as a seasoned veteran of left-wing agitation is spontaneous and gives an elation to his utterance. Clearly he outlines the facts:—

"If we should go into the *office* of an American Gentile business man and attempt to discuss communism and socialism, we would be kicked off the premises. On the other hand, if we write a play, the tired business man will come to the theater and under the spell of appropriate music, the atmosphere of relaxation, the companionship of well-dressed people, the artistry of international players, *he will applaud the very points in the play which if put into practical application in the United States would wreck his business utterly and deny and destroy all rights of private property.*"

Professor Dana fluently enumerates the advantages, therefore, accruing to the United States through having international players flock to the United States at the close of the war, at the time when Europe closed its theaters as being too poor to sustain them. He convinces his fellow subver-

sionists that these international players have been able to interpret the ideas of the revolutionaries with subtlety not yet achieved by so-called American actors.

"To have a drama written by a Russian and played by the combined understanding and polished acting of men and women from half-a-dozen or more countries is not unusual," he avers.

It is recounted that if a Communist is thrown into jail, he now spends his time writing a play in preference to writing a pamphlet or other agitational data.

The theater business being by this time well-nigh a Jewish monopoly, it is of course not difficult to get such a play promptly put into production.

PROFESSOR DANA mentions a poet who lived through the French Revolution—manufactured by members of the Jewish Illuminati, by the way—to remark that "the French Revolution existed in the minds of the people before it became a physical attainment." He added: "Ever in the pre-revolutionary days of Athens, Madrid, London, Paris, or Petrograd has there been in evidence the pre-revolutionary mind *which exists in New York City in this period.*"

In support of his assertion he reads from dramatic advertising pages the names of players appearing in the theaters of New York City and sketches rapidly the parts in each play which were designed to create the pre-revolutionary mind in the United States.

He is specific in assuring his "comrades" that it is not the very rich nor the very poor with whom he is concerned but with the professional groups—lawyers, doctors, clergymen, club women, social workers, business men—in short the intellectuals, the middle classes.

By constantly watching these plays, prejudices against revolution can be made to disappear. In fact, some playwrights have been *commissioned* to produce plays with this thought foremost.

The Jew Eugene O'Neil, for instance, had been assigned the "task" of writing plays which should bring blacks and whites together and reduce race prejudice among both actors and public. *Lula Bell* and other plays are cited to show how well this commission had been executed.

The minds of the people of this country were to be neutralized so that on the day of Uprising, they would not resist the attempts of revolutionists to overthrow the government.

Time is then given for members of the audience to come forward to the platform and express their own concepts of world revolution and methods for its accomplishment.

Finally the gathering breaks into knots of people presenting every variety of subversive opinion. Some tarry for spirited discussion. Others pass noisily out of the building

and are accosted by frenzied vendors of revolutionary literature. One voice calls out bitterly: "*Down with the United States Government!*"

Inside, pamphlets by Dr. Holmes are for sale, setting forth the theories he promulgates in sermons and lectures. He is not present to hear Prof. Dana, but Dr. Randall of *Unity* reputation presides in his absence. *Dr. Holmes lives a busy life due to his activities in behalf of Palestine.*

INCIDENTALLY, he assists Dr. Henry F. Ward in the work of that avowedly Communistic organization, The American Civil Liberties Union. Dr. Ward is Protestant Methodism's gift to the subversive forces, he being the guiding spirit of the *Federal Council of Churches of Christ in America*, an organization to promote radical thought in our Protestant Christian churches. Dr. Holmes also runs his own "church," lectures on many subjects and even dares to hurl Philippics against the Unknown Soldier, still having the time to write for Jewish organs on such themes as *Is Christianity Guilty?*

In a series published in the *National Jewish Ledger*, May 19, 1933, Dr. Holmes declares:—

"At the very start of Christianity, in other words, this new and wonderful religion was made synonymous with anti-Semitism. No words can exaggerate the tragedy of this historical accident nor its significance in the annals of our western civilization. The logic of orthodox Christianity is anti-Semitism. Just to the extent that Christians believe their own faith, they must hate and persecute the Jews. Only to the extent that they reject, or remain indifferent to, their own dogmas, can they be friendly to Israel.

"I count it something more than a coincidence that the one country in the world today where the Jew is absolutely free of the age-old burden of persecution and prejudice, is that one country where the orthodox Christian church has been wiped out by the fiat of government."

Of course in all this pro-Jewish insult to Christianity and defense of Russia, Dr. Holmes makes no reference to the fact that this so-called enlightened "Russian" government is about 90 percent Jewish, and that in all the repressive atheism of which we have heard so much out of Russia, it has been the Greek Christian church which has suffered solely; no one has noted any molestation of any Jewish synagogues in Russia nor the suppression of their services!

THIS effort to create the pre-revolutionary mind in the United States, therefore, runs the social gamut from the stage to the pulpit. But of course it is more "persecution" to call attention to the fact that at the bottom of all of these tragically subversive movements the Jew is the controlling and dominating factor.

Particularly in the field of the moving picture, since that is essentially the Poor Man's Drama, has this pernicious practice of creating the pre-revolutionary mind been followed.

Witness the line of films that have been put out lately by the "English" actor, George Arliss.

In *Long Live the King* he showed an American who despised being king, who made facetious comment about the governmental structure and admired the rule of the proletariat all through the photoplay, who jestingly pardoned an anarchist who had attempted his life, and who ab-

dicated his kingship as quickly as opportunity permitted.

In *Voltaire* we had more of it. The film opened with mobs running wild, sabotage, riot, illiterates begging for his pamphlets, no opportunity lost for creating a psychology of devastation for anything savoring of governmental dignity, officials attending to no other business but woman-chasing, a general preachment of dissatisfaction and disdain for all that lay outside proletarian rule.

The secret of this sort of bilge lies in the fact that kings of any sort stand as a buffer between predatory Hebrews or Jewish plans for world dominion, and the defenseless public. They must be ridiculed, held up to scorn, shown as wastrels and spendthrifts, parasites on the public. There never yet was a good and efficient king shown in Jewish-made motion pictures. And the reason again is obvious.

The Talmud preaches consistently that a state of society must exist "in which no man shall say, I am better than you."

THE AVERAGE person goes into a theater or a movie temple to relax, to be entertained. His defenses are down, and the subversionists know it. Subtly into his mind can be inculcated ideas that are scarcely ever recognized for the vicious things they are. He receives them subconsciously, intent on the dramatic story being played before his eyes. Hours, days, months later, he finds his psychology trending into avenues that are but the regurgitation of what he has been incessantly fed in his hours of recreation.

All of it is to "jazz up" the layman mentally, to create an atmosphere of general dissatisfaction with matters as they are, to enforce on the auditor or spectator the fact that something is wrong which should be made right. It is never allowed to occur to him that perhaps things are quite all right as they stand, or would be quite all right, if self-seeking racial plotters were not busily engaged in serving their own ends to the Gentile's extermination.

Or take the recreational poison inoculated from stage or screen—as well as the sensational modern novel—anent the Gentile marital relationship. It is carefully explained that ideas of probity, honesty, constancy, are old-fashioned. "Come on and be modern!" is the slogan dinned into a million susceptible girlish ears. No one stops to ask themselves what this Modernism is, nor where it originates. The question never arises as to why the necessity for Modernism at all.

The general public accepts that Modernism "just happens," that it is the logical outgrowth of the times. But no one has explained just why "the times" should suddenly produce lewdity, looseness, infidelity, easy divorce, free love, and other domestic debaucheries. Not to one person in ten thousand does it occur that perhaps Modernism is deliberately manufactured, that it has a deliberate purpose behind it, that if the Gentile domestic scene can be violated, the marital partners fed with a innocuous mess of "freedom," the American family can be abolished and an atmosphere of moral decay affect the rising generation, smashing its morale and corroding its essence.

AND WE Gentile Christians permit this sort of subversion to go on unchecked, imagining that we can do nothing about it, setting up a few silly Boards of Censorship here and there which quickly degenerate into paid satraps passing

(Continued on page 11)

Peeking through Knot-holes in the Wailing Wall..

DEAR CHIEF," writes a ministerial SILVER SHIRT in a southern city, "your wire to come in for a conference was received this p. m., but it is impossible for me to leave here to get to you by Sunday. I have a very important meeting in the church for Monday evening. It means the life of the church. The Jews, who hold \$7,000 of an \$8,650 mortgage on the church, have been strongly insisting that we pay *or else they would foreclose*. This I must not allow. It is due to my actions that this has happened. I am supposed to be a member of the SILVER SHIRTS OF AMERICA and when it was passed along, *they told me they would ruin me or the church.*"

Take note of the above, you skeptical Gentiles who are so strong on tolerance for God's Most Stupid People. Here is the "persecuted" tribe, the people who yelp and snivel so loudly when any attempt at repression of their pernicious activities is made, holding a mortgage on a Christian Church. But no activities of its pastor—to do what he thinks to be for the liberation of bonded America—is to be allowed, when the shoe is put on the other foot. Christians must not wail "Persecution!" Christians must stand by and see their church foreclosed to a group of Jewish money-lenders because their pastor thinks along SILVER LEGION principles.

It is all quite kosher, and an indication of how much "tolerance" can be expected from a people who have been prating of nothing but tolerance for themselves since Titus ejected them all from Jerusalem.

If they will not respect matters of religion, how much respect can we anticipate if they obtain an equal stranglehold on government?

Jews yammer and yelp that they are "persecuted" on account of their religion, that Christians "hate" Jews—as Dr. John Haynes Holmes crassly expresses it—because the very essence of Christianity is anti-Semitism. But who calls attention to the fact that down through the generations, the same above tactics have been the rule and not the exception when one lands in the hands of Israelite money-lenders who want the land kosher and no nonsense about it?

What is to be the result of this southern situation?

Certainly the Hebrews cannot be imbecilic enough to think that this pastor is going to retract his ideas about the SILVER SHIRTS permanently because of the duress that is making him fight for the moment to hold his church edifice over his head?

Gentiles are not put together that way. This particular pastor may lose his church. But what of himself? The instant the fiat is executed, and the church building taken from

him, he is going to walk out of that sacred edifice with a vow in his heart to smash Jewry—and what Jewry has come to stand for in this western world—if it takes the last breath of life that is left in his body. The Jews of his city will have made mortal enemies of every wholesome-minded Gentile in that congregation.

Time will come when the issue reaches a crisis. The Gentiles will turn on a people who try to intimidate Christian clergymen and censor or control their thinking, and commit a great havoc. Whereupon the Wailing Wall will function. "We were persecuted because of our religion!" they will yelp.

They will have been persecuted for nothing of the sort! They will have been persecuted for being pestilential barnacles on the social body, engaging in practices that are anathema to every decent-minded citizen.

For a little time God's Most Stupid People will have the opportunity to rejoice and crow that they have thrown a temporary monkeywrench into SILVER SHIRT expansion—as they rejoiced and crowed that they had been successful in denying Chief Pelley the use of the Asheville radio. But they will not have kept that pastor from becoming a SILVER SHIRT. They will have manufactured exactly the kind of a SILVER SHIRT who will give a manly accounting of himself when the moment for readjustment arrives—just as they made converts for Pelley by the hundreds when they denied him the use of the air, and the jackassical Jewish columnist, Winchell, had the excruciatingly poor taste to twit Pelley's men about it.

People heard of the SILVER SHIRTS, and joined the organization, as a result of that incident, who would never have done so otherwise. And so the tactics of the adversary defeat him by making opponents as fast as he can strike them down.

We hope the Jews of that southern city do foreclose that mortgage on that Christian Church. It will not be for long.

SILVER SHIRTS will see ultimately that the church is restored to its lawful Christian worshippers! . .

AND AT the same time, Jewish directed newspapers up in New England break forth in slanders, diatribes, misrepresentations and distortions of the truth, damning the SILVER SHIRTS to the public as successors to the Klan and thunderously declaring that New England wants neither.

Of course the people of New England may think differently.

In this tumult of innuendo and "protest" HEARST'S BOSTON AMERICAN takes the lead. Naturally! The directing financial genius of the Hearst newspapers is none other than Jewry's pet playboy with the Communists and syndicalists of Central America,—our old friend Sam Untermyer. Evi-

dently when Sam Untermeyer takes snuff, William Randolph Hearst sneezes. Tied into the Hearst scene is the Columbia Trust Company of New York City—an investigation of which will reveal that it is by no means a Gentile institution. The Columbia Trust Company has been the fiscal agent for the W. R. Hearst bonds sometime back, and the name of Sam Untermeyer—along with Judge Gary of the steel business—figured large in Hearst financing.

So naturally with Untermeyer sleeping in the same financial bed with Marion Davies' show-business angel, and with the National Association of Department Store Advertisers largely dictating W. R.'s noose-paper revenue, it is going to be a somewhat frosty day when the BOSTON AMERICAN comes out for anything that doesn't speak highly of God's Most Stupid People.

Sometimes these matters work both ways, however.

The day may arrive when American events dictate that SILVER SHIRTS have much, much to say about our American government. It begins to look that way at present. Then perhaps the Jewish managing editors of the Hearst papers will have a lot more difficulty than they enjoy at present, misrepresenting national and international affairs to the reading public.

OUT at the Western Headquarters City of THE SILVER SHIRTS the Urshel kidnapping gang has just been convicted. Mr. Urshel was sitting in his palatial home one evening quietly playing bridge with friends. The kidnapers walked into the house, dug guns in the ribs of the men folk present, and when there was some little doubt as to which individual was the Oklahoma banker, two men were taken, one later abandoned by the roadside.

No longer is a man's home sanctuary against the terrorist. Up in Omaha recently the mayor's daughter was taking a bath on the second floor of her home at 10:30 in the morning. Masked men presented themselves at the front door, pushed over the maid, ascended to the second floor and ordered the young lady out of her bath-tub. They gave her a nice automobile ride and held up the mayor for \$50,000 to get back his daughter.

Is there a need for The Silver Shirts in this nation?

Incidentally, in the Urshel kidnapping case, it is of course "religious persecution" to note that four members of the gang were named as follows: Sam Kronick, Sam Kozberg, Edward Berman, and Isidore Blumenthal! . . .

OF COURSE you've noted the New Postage Stamps! . . . but suppose someone wanted to advertise Communism on United States postage stamps . . . they would put a slogan on it with a word like Communism, let's say "In a *Common Understanding*" . . . They would show a Russian-type peasant woman, a starving Armenian business man, a slavish farmer, and a DAILY WORKER mechanic . . . they would show a hammer and sickle—Soviet emblem—or Hammer and Scythe as the next best bet . . . *and they would show the Business man as the only one out of step and only one leg to stand on!* . . . As one correspondent who brings the foregoing to our attention, remarked: "Is it lese majesty to call it the National Robbery Act?"

The Nation continues to quack with Barney's Duck, and out in the southwest a group of sterling Christian citizens

finish plans for the publication of the first SILVER SHIRT daily newspaper in the United States, which despite every form of opposition and obstruction from the hysterical Zionists, will shortly be printing the *real* news behind the current soviet Presidium . . . SILVER SHIRTS all over America will doubtless hear much from this newspaper . . . General Johnson will undoubtedly try to force a Duck upon it but that is to be expected . . . SILVER SHIRTS everywhere will presently receive news of this paper direct from its publishers . . . presently the Zionists will come to the realization that they have a Real Movement against conniving Jewry to fight right here in America, instead of wasting so much vocal thunder about one Hitler in far-off Germany . . . if our Hebrew friends think they are sitting so safely on the volcano of events, let them pay no attention whatever to the way in which this Movement of Pelley's is sweeping the nation . . . it is nothing but a lot of little boys and girls running about with Scarlet L's on their shoulders, anyhow . . . they have said so themselves, so why should they fret?

JUICY morsel of the week in THE WASHINGTON TIMES, out of New York: "Fifteen years back—in the days of war hysteria, of A. Mitchell Palmer's war on the Reds, of the Lusk lists and the (alleged) DAR blacklists—Mrs. Henry Goddard Leach braved public opinion and worked openly and ardently for the IWW and the Syndicalist, thereby becoming suspect to all the so-called patriots. She was named on the Lusk list, the DAR list, and every other listing of "public enemies" because as she says: 'It was dangerous then to cherish a shred of liberalism, to even whisper that you believed in any sort of world labor movement.'

"During the recrudescence of patriotic fervor today that sees half a million marching feet on Fifth Avenue and a sea of Blue Eagles flapping their wings over the land, Mrs. Leach finds herself working just as zealously as in 1917—for the NRA. She sees no incongruity . . . This recently-appointed member of the NRA Mediation Board has the greatest faith in the power of arbitrating disputes that arise under NRA . . . She considers such men as Donald Richberg in the NRA excellent workers in the interests of labor . . . and for her old friend Frances Perkins she has the most fulsome eulogies."

And so on, *ad nauseam*. Friends in Washington send us the clipping covered with exclamation-points! But what is there so exceptional in this trivial episode? . . . times have changed in the dear old USA . . . we have sovietism now, although of course we don't call it that . . . General Johnson might heave one of his ducks at us for doing so . . . but break down this item from the Untermeyer press and look at it nakedly . . .

Note how the gist of the whole article is one of laudation for Mrs. Leach as a woman of character and conviction, even though back in 1917 she was openly branded as a seditious worker . . . of course in the Untermeyer press this is understandable . . . "she worked openly and ardently to secure justice for the IWW and the Syndicalist" . . . *justice* for members of the same murder-bund that later exterminated 1,670,000 Gentiles in Jewish Russia who likewise pledged themselves to the total overturn of our government and the flying of the red flag above the Whitehouse! . . . she became

"Fears are Lost Pathways" - -

M

Y BELOVED: Be advised; the enemy stalketh; he layeth his plans to give you a trapping.

2 I say, be not afraid.

3 It cometh to me there are those who would rend you.

4 I say, be not afraid.

5 Fear cometh to the faint in heart who believe in no visions, who know but a bedlam in that which they witness.

6 Their own wits trouble them; great issues confuse them; they perceive no

end to tumult; they go and come vicariously, saying to themselves: Was this not the way of our fathers? let us walk in it and mayhap we fare no worse than the fathers, verily do we have their courses to guide us, we do follow their courses and know their redemptions.

7 But fear cometh on them when they perceive they have erred in their reasonings; they follow not the pathways of the fathers for lo they are gone and no footsteps become them;

8 The fathers trod paths that gave instructions to the times, lo the times change, their tumult hath no moment;

9 The children are lost as in a great wilderness, they know not security, they come and go blindly, unwilling to lend ear to tocsins of the present.

10 Fear cometh on them in that their pathways are confounded; their turnings have a trespass.

11 *Fears are lost pathways*, always perceive it.

12 He who knoweth his path and pursueth it, knoweth no fears, neither wrackings of torments; he goeth his way and all nature greeteth him; he looketh neither to the right nor to the left; as it is with his heart, so it is with his spirit.

13 Hear my words and be wise.

14 I say it cometh to me that a man approacheth you: he asketh of your welfare: he taketh your hand and giveth you a greeting;

15 He sayeth, I come not from the Beast but from those who are pure; I come with rejoicing that ye are in your flesh manifesting to the Father;

16 I say I lay my hand in yours; bid evil begone; let us sit down together.

17 The name of the man is Legion, my beloved; he escheweth an evil act that righteousness may prosper; he weareth a goodly coat that those who are poor and forlorn may take courage.

18 Beloved, arise and vanquish: do that which is pure, give no heed to circumstance; revile not the revilers yet take no chaff from the millings of words having in them your downfall.

19 Be brave, be resolute; the times are upon you when that to which ye were called hath its bidding; ye go to high places; ye treat with the renowned;

20 Know that I bid it.

21 Know that I have come to you and said, Be great, be

Q *OUT of the vastness of Cosmos the Psychic Antennae tunes in on a Voice. If the Word was made flesh and spake once to men, how much stronger may be its pronouncements when the handicaps of the flesh are perished? If we cannot believe this, to Whom or What shall we look for authority of commitments like the following?*

not impoverished either of intellect or purse, be persevering, be valiant, open the purposes of your hearts and scatter coppers generously;

22 Give unto him who needeth that which he needeth, but pay no resolution to him who saith to you: Give me in that I demand it, for in that ye do not, I commit you a lechery.

23 My beloved, it is abominable to be among the forsaken;

24 Strive not after power, for he who striveth after power fixeth a millstone about his neck, always he carrieth it, he will not lay it down,

25 For lo if he lay it down, those come who say: Thou dost carry it not, lo thou art weak and have no longer muscles to acclaim that which hath raised thee above the scribes and the elders.

26 So ever be it.

27 I have said to you that the moment cometh when ye stand before princes; have I not said that those who are pure in heart shall stand before the Father? what then mattereth it that princes sit before you? is a prince mightier than the Father?

28 Faint not, neither be abashed that there come to you those who say: Bow down and do us reverence, for lo we are princes and would have our obeisance.

29 Tell them, beloved, there is one who is greater than those who wear robes of royalty unto little men; there are those who see visions of mighty happenings and witness the Father in them;

30 Are the countenances of princes greater than these?

31 Beloved, be wise; ye know they are not.

32 Ye are called unto a mighty work in this, my vineyard; the laborers labor, each one at his price; give it to them richly, pressed down to overflowing;

33 But give not to him who saith: It is mine by my right, I have toiled in my thought and gathered my harvest;

34 Say unto him: By the toils of thought pay ye your wages, know ye your beneficences, master your increment and give yourself increase.

35 The pure in heart say: Master, teach me to *serve* that I may be great, teach me to *reverence* that I may know trust, teach me to *labor* that I may know profit, teach me to *love* that I may know abundance.

36 Lo, he feedeth himself as he meriteth love; he giveth unto himself as he forgetteth himself and ministereth to those who have need of his offerings.

37 Further I say to you: Let the words of your lips, and the meditations of your hearts be as sweet lilies in a vale that knoweth moisture; let them blossom in abundance that when evil days come and the land hath reviling there shall be a sweeter incense in the household of the pure in heart in that there were hands who gathered them eagerly . . . PEACE

Just What Is the Silver Legion?

THERE IS an old saying that "Freedom is born of oppression." Throttle mankind and the Spirit of the Race will sooner or later rise up to throw the tyrants from their place of power.

But Silver Shirts know that revolutions are of two varieties.

They know, for instance, that at the time of the signing of the Declaration of Independence, Adam Weishaupt started his Illuminati out of which grew the French Revolution and its Reign of Terror; the doctrine of Communism and the First, Second and Third Internationales; the Protocols of the Learned Elders of Zion and the Jewish system of high finance corrupting governments, debauching Christian institutions and creating the world Depression as a means toward World Domination—all having an unbroken sequence and significance.

While our forefathers were fighting for the independence of individual liberty and the founding of a nation on this principle, great black forces were setting in motion secret societies which were destined to overshadow and endanger the Constitution of the United States, in a program to abolish individual liberty in the setting up of a Communistic State.

Because of the great system of propaganda which these dark forces have created and the thousand and one societies which they have formed to break down the morals of the citizenry—made possible by the complete and autocratic control of the world's gold—the sterling patriot is too often hopelessly confused as to the *real issues* upon which not only his fate, but the fate of the nation depends.

The masses today have been purposely prepared for the sort of revolution that is the exact antithesis of the revolt which gave our nation its birth.

This vast system of propaganda has created the "pink" Socialistic Party and the "red" Communistic Party. It "put over" the N-R-A, and its system of bureaucracies, 40% of the membership of which has Communistic connections, for the purpose of setting aside representative government under the guise of a national emergency. The general public is being educated to the acceptance of what amounts to a Soviet Dictatorship, and which to maintain its power, intends the destruction of the individualism which has made our civilization and representative government possible.

The general public has not been permitted to study the Unwritten History of the World which penetrates to the secret organization of satanic power on earth. They do not know that Communism is supported financially and racially by an element which comprises over 90% of the Interna-

tional Bankers, and at whose instigation the Soviet Government came into being at the cost of 1,600,000 White Russian lives.

Such facts as these are too staggering and appalling for ready acceptance by a public which has long been accustomed to accept the fiats of a *press-created* public opinion—a public opinion that is molded by colossal, far-flung interests in a vast net-work of secret control completely alien to the welfare of that public.

Because of this condition—unprecedented in its world magnitude—it is necessary that we who are *thinking patriots* band together to preserve the principles for which our forefathers fought and died; that the Declaration of Independence shall no longer be a hollow mockery, and that the Constitution be again reinstated for the purpose for which it was conceived.

The Christ forces do not believe in revolution in the accepted sense of the word. They stand for law and order, and the complete removal of the powers which have been deliberately responsible for present conditions by capitalizing on the Aryan sense of "fair play" and the weaknesses of what is yet an immature civilization.

They perceive that the system of representative government installed by our forefathers has been encroached upon by a system of *politics* that has become the tool of these predatory powers.

They intend to educate the masses as to what is actually happening behind the scenes and to institute a system of popular referendum whereby every legislation first comes to the attention of the entire public in a simple form that will forever prevent the possibility of subversive control of our government.

They intend to do this by installing the Christ form of Government which forever removes the possibility of all private forms of power over any portion of the citizenry. Crime, wage-slavery, graft and special privilege will by automatically eliminated by a system wherein "profit" is useless and archaic.

Furthermore, the Christ men and women of America perceive that because this program proceeds with a complete knowledge and because it strikes directly at the heart of the world diablerie, that that diablerie will use every power at its command to completely crush and thwart *The Silver Legion*.

LET IT be known, therefore, that *The Silver Legion of America* is a great Christian Militia, swinging into disciplined ranks to challenge and annihilate the alien debaucheries which have throttled our nation, and in obedience to Divine Prophecy bring the Christ Democracy into effect in this day and age.

They are not religious, yet they propose to defend the Christian church from every assault of atheism and effrontery to The Christ, guaranteeing to each wholesome-minded citizen the right to worship God as he chooses, but ruthlessly crushing every maneuver to make Christian institutions the agencies of plotters of disorders.

They are not political, yet they propose to use political measures to purge government of consummate rascals in high places; to emasculate unlawful jurisdiction by arrogant moneyed interests over representative office-holders; and to hurl betrayers of public confidence, and bureaucratic despotisms for factional or personal advantages, into the limbo of things archaic.

They are not economic, yet they propose to enforce remedial measures for the permanent relief of this nation economically. This they propose to do by the wholesale arousing of the public courage to make further extensions of the democratic ideal into a colossal protective corporation, in which citizens by their nativity and franchise order the affairs of their nation as Common Stockholders, and transact the country's business as in a well-managed, astutely ordered, dividend-paying corporation.

They are not military, yet they are being organized and uniformed as a Christian Militia for aggressive action, and divided into five Major Divisions. These five divisions are as follows:

FIRST. *The Division of Public Enlightenment*, the function of which is to strike the scales of ignorance from the eyes of the American People, that they may know accurately what the diablerie is from which they are suffering and who is responsible for it, to the end that they may arise in their political might and clean the halls of statecraft and commerce as of a great pestilence.

II. *The Division of Patriotic Probity*, the objective of which is to halt all further diatribes against Christian institutions; to expose and drive forth every dishonest and corrupt public officer and every debaucher of the public probity; to act as a great reservoir of moral strength for honest public officials hindered or handicapped in the sworn discharge of their duties; and to see that a new regime of public servants is elected to office who shall be pledged to the ideals of The Christ ahead of any party or clique.

III. *The Division of Crime Eradication*, whose function it shall be to actively combat the public enemies both without and within; to maintain the closest liaisons with the police and legitimate military authorities; to do emergency service in the interests of law and order in time of riot, mob rule or public tumult; to augment and uphold the hands of all honest peace officers; and to see that police and judiciary fulfill their honest functions effectively and without equivocation until the Christ Democracy is set up.

IV. *The Division of Industrial Rehabilitation*, whose duty it shall be to direct and sponsor certain practical expedients for correcting present abuses. These expedients, specific details of which may be found in the delineation of the Christ Democracy, are concerned with turning an unemployed and potentially lawless element into a body of constructive citizenry that shall work to stabilize our institutions; put legitimate capital into channels of trade; and emasculate those predatory elements who use strangulation

of industry as an aggressive method for the accomplishment of mischievous objectives.

V. *The Division of Public Morals and Mercy*, whose function it shall be to cooperate with, and to enforce efficiency and probity in the conduct of, charity projects, holding up to public odium all officials or other persons who privately profit from alms distribution in any form; to expose and emasculate great agencies of moral debauchery who subtly utilize the stage, screen, radio, press, and pandering periodicals to keep the Christian element of this nation intimidated and without moral stamina.

AHUNDRED abortive "movements" to aid in this national crisis have been started in the past three years, to fall by the wayside because their platforms were based on the assumption that this distress was but a passing episode in human life instead of the Great Armageddon designated by Divine Prophecy. Or their leaders have not known the true nature of the influence which they were challenging blindly.

This is no Children's Crusade that is now swinging into reality. It is the open challenge of an organization of New Vigilantes that proposes to accomplish works under true leaders who have proven that they cannot be bought or debauched, and who are fully acquainted with the character and identity of the enemy whom they occur not only in the underworld but in the world of respectability and abstruse finance.

It is a public gesture that has its caissons deep down in the bedrock of the individual Christian conscience. As such it makes its bid for allegiance.

IT SAYS to the prospective candidate; "Have you reached that point in your personal affairs where you can no longer stand idly by and merely watch the debauchery of our children and the looting of the nation, unto your own fireside and pocketbook?"

If you are a weakling, or given to compromise, sentimentality, and docile acquiescence to intimidation, you are not wanted in The Silver Legion, which knows where it is going, and exactly what it proposes to accomplish.

But if you are 18 years of age, of reasonably sound health, and not afraid to risk your life and limb for your country, you are asked to take the Oath of Consecration upon you, and step out as a TRUE CHRISTIAN SOLDIER, garbed in a shirt of Silver, with the great scarlet "L" emblazoned on your Banner and over your heart, standing for Love, Loyalty and Liberation.

It costs only \$10 to become a Silver Shirt. If you happen to be among those for whom the Depression has reduced you to your last penny and you simply haven't the money to pay for the necessary literature which this amount covers, write to National Headquarters for a plan whereby you can enter. Prospective Posts are designated as Rallies until they have been consecrated by the Accolade Service. Then both staff and members are informed definitely just what work needs to be done, how to set about doing it.

The plan is too big and dynamic to describe here. But the Silver Shirts are not theorists. Proof that they know what they are talking about lies in the fact that the public spoliators consider it necessary to utter death threats against the Chief of *The Silver Legion* if he persists in his activities. Headquarters is subjected to threats, intimidations,

and other forms of duress.

This is not "another organization." We hold no banquets. We waste small time in speech making. *The Silver Legion* comes to Christian citizens who want ACTION and says: "We will give it to you, pressed down and overflowing. We leaders are risking our lives to write a new page in American history. We propose, without further ado, without equivocation, without any silly sentimentality sometimes known as Tolerance, to emasculate the debauchers within the social body and reestablish America on a basis where this spoliation can never again be repeated."

We are marching with the times! Our Battle Hymn is "Onward Christian Soldiers!" ARE YOU WITH US? WILL YOU AID IN HELPING TO ACTUALIZE THE TRUE DEMOCRACY OF THE CHRIST RIGHT HERE IN THESE TORTURED UNITED STATES?

AMERICANS AWAKE!

Join

THE SILVER LEGION

THE demand of the hour is for Christian Americans who know what it means to serve their country and who are not afraid of intimidation or duress.

You will be given the opportunity to enter into the most profound details as to why our country is in its present plight, without prejudice or an thing but sane consideration of the facts which you have not been able to obtain through any public agency.

If you have already suffered at the hands of predatory tactics or the debauchery induced upon our nation you will be given full opportunity to see "behind the scenes" so that the integrity of your nature may act with the fullest measure of wisdom.

If you are penniless, details may be furnished whereby you can prove your earnestness by writing for the plan by which you can secure the necessary literature.

If your Patriotic Vision sees the principles of the Christ as the only solution to our difficulties, in the light of a complete knowledge of who and what the forces are which have brought our nation to the verge of a disguised Sovietism, and if you are prepared for action, you belong in the ranks of the Silver Legion!

Are You Revolutionary by Jewish Entertainment?

(Continued from page 6)

anything that does not offend with too great a stench.

We see the members of the same race controlling this recreational product that control Communistic Russia, that are now weaseling into the highest offices of our federal government, that are everywhere setting themselves up as the world's coming rulers.

It is to be a Jewish world, where Jewish ideals prevail, and Jewish potentates exercise the right of life and death unmindful of Christian precepts or the basic Rights of Man as a wholesomely created species. And if we protest, we are guilty of intolerance.

Anyhow, Henry Wadsworth Longfellow Dana blandly states that the creation of the pre-revolutionary mind is already an accomplished fact. It is something to think about.

One wonders, forsooth, what the author of *Evangeline* and *The Children's Hour* thinks about it all.

Perhaps he counts it luckier to be a shade than to be in the flesh with one Professor Dana as a grandson!

Let us hope so!

Peeking Through Knot-Holes in the Wailing Wall . . .

(Continued from page 8)

"suspect" to so-called patriots! . . . get that little suggestion, don't miss it! . . . the Untermeyer press is intent on having you concur in the assumption that good Americans who tried to halt espionage in our country during the war and thus save the lives of our sacrificing American sons, were only so-called patriots! . . . now this estimable lady, who doesn't seem to have altered her ideas or role a bit, is given a role with the other good Communists on our American Presidium as a Mediator between labor and industry.

There's the NRA quite nakedly for you—the noble experiment which SILVER SHIRTS through their chief are being called seditionists themselves for not supporting. That Mrs. Leach was the open sympathizer and sponsor of syndicalists in war time doesn't arise to trouble her a bit in being a Mediator in the New-Deal set-up . . . and why should it, with about 40 percent of the Brain-Trust appointees also having records for communist ideals that would make old Gene Debs a regular Patrick Henry by comparison . . . has not the National Emblem become the Soviet duck on principle? . . . hasn't George Washington's portrait gone from our postage stamps that we might greet the Hammer and Scythe? . . . no, it isn't Mrs. Leach who has changed, it is the times and the nation under the jurisdiction of a professionally "persecuted" people.

Small wonder that at last this country is waking up!

It is assumed on principle that the appointment of Mrs. Leach was made, or at least permitted, by Franklin D. Roosevelt.

So people's recent war records—or their hostility to this nation in 1917—are of no item to Mr. Roosevelt at present? If so, that too is something to dwell upon, in these days of Jewish muckraking about "Pelley the Seditionist!"

Liberation

15c A COPY
\$5 PER YEAR

Boots and Saddles . . .

THE QUARTERMASTER'S CORPS of THE SILVER LEGION has now gone into action.

It is not located at Asheville, N. C., but in Oklahoma City, Okla., Headquarters henceforth for the SILVER RANGERS—the Actionist Arm for those gentlemen Silver Shirts who would ride to High Adventure.

Under the command of Major L. R. Weeks, the Quartermasters Department is now prepared to outfit all SILVER SHIRTS who have not been able to acquire their uniforms to advantage in the cities of their residence. Silver Shirts with the Scarlet L attached on the shoulder, regulation blue-corduroy trousers, leggins and tie, can now be purchased in complete outfits, any size, for the standard price of \$10 per outfit.

This is merely a service for those SILVER SHIRTS who have not found themselves able to purchase their outfits in their own localities. The Legion is not in the clothing business. The Quartermasters Corps in Oklahoma City is primarily interested in outfitting the National RANGERS for active service against the Communistic adversary. It is starting to function under the competent guidance of experienced army officers. The uniform is registered under the laws of Oklahoma, the statutes of which State provide that anyone found purchasing or wearing in masquerade such a uniform, who is not an accredited member of the organization, is guilty of a crime punishable by imprisonment or fine.

FOR the past six months, the Hebrew clothing monopolists of this nation have consistently balked every attempt for THE SILVER LEGIONNAIRES to obtain regulation uniforms. Firms who might have supplied the LEGION have been intimidated or denied supplies. Quotations have been refused. Orders from members have been ignored.

It was all a silly business and has worked no harm beyond a trifling delay in getting the LEGION ready for service in cooperation with the Christian law-and-order forces in this nation.

It has illustrated, however, what the powers of obstruction are, now attempting to operate in a formerly free country.

All that is now changed.

No matter where in the nation you may be living, if you are in a position to send in \$10 for the complete uniform, giving your National Number on your order—or if you are able to pay for uniforms for others not so fortunate financially—write to:

QUARTERMASTER'S DEPT.,

The Silver Legion,

Box 1354 Oklahoma City, Okla.

Your uniform will be sent to you, after reasonable time for handling and filling orders, postpaid by parcel post, anywhere in the United States.

IN WRITING for these uniforms do not neglect to give Size of shirt required (neckband) and length of arm to wrist. In ordering regulation trousers, give three measurements: Measurement about the waist, measurement about the knee, and measurement of leg from crotch to knee-cap. If socks are desired, give length of foot.

The arbitrary and standard price of \$10 has been put upon these uniforms to cover any price raises that are imminent under NRA practices. As this is a service to Legionnaires strictly, the goods are sold practically at cost.

If you are among those who come to Oklahoma to enroll for the SILVER RANGER cavalry—for aggressive action against the Communist menace in the Field—further details of expenses will be sent you, whether paid by yourself or some affluent donor who underwrites a Company.

If you are eligible to this patriotic service, if you are among those who wish to enlist in active support of law and order in the event that a Soviet Presidium attempts to drive The Four Horsemen over this nation, get your application in to Ranger Headquarters as quickly as possible.

Not all can qualify for this resplendent service.

The SILVER RANGERS constitute a great body of picked men, the equal of any constabulary in any of the States, who shall ride shoulder to shoulder toward the support of harassed police and State constabularies, arousing the citizenry to the menace that threatens their stalwart police forces, the thunder of thousands of Silver Shirt horses sounding their own warning tocsins to the *real* seditionist and the syndicalist agitator, inspiring faith and hope in the great body of the dizzied, pitchforked, and intimidated populace, rallying the great Christian forces of gentlemanliness and knighthood in a splendid gesture to take this country back, out of the hands of the alien debauchers and give it to the representative democratic citizenry.

HERE is a gesture that is already commanding the wide support of a growing company of affluent citizens. More will be announced about it in separate communications. The SILVER LEGION has no designs against the government, it is not interested in seizing public buildings or intimidating officials. *It is solely directed against America's malefactors, who are bringing America down into wreckage.*

And it will make history at a time when it is needed.

LIBERATION is the Weekly Journal of The Silver Shirts of America, the active civic organization of The League for the Liberation, published every Saturday by Galahad Press, Incorporated, both subsidiaries of The Foundation for Christian Economics, Incorporated. Edited by William Dudley Pelley, commander of Liberation Forces. Published and printed at the Headquarters of the Foundation at Asheville, N. C. Subscription \$5 per year of 52 issues, \$3 for six months, \$1 for two months. Entered as mail matter of the second class, November 2, 1931, at the postoffice at Asheville, N. C., under act of March 3, 1879. Correspondents are requested not to send registered mail requiring personal return signature-receipt to either Editor or Staff Members. Address your correspondence and remittance, LIBERATION, Box 2630, Asheville, North Carolina.
