B.W.T. 1970

By

Dr. Virginia Worthington
(Part One)

In these days of 1970, there are drastic changes taking place all over the world. No matter where you look, there seems to be havoc, and yet, these can be the most progressive days that the Brotherhood students have ever known, but there needs to be a little down-to-earth explanation of some of these things so that the students will not become a conscious part of this mass reaction.

For year upon year, Dr. Doreal has told us of these very days that the world is now experiencing. We have been told that we would not even believe, were we told then, some of the things which would take place. And we would not, in the days that we lived complacent and relatively uneventful lives day in and day out, just reading our lessons, taking care of family duties, without any urgent goals ahead of us. We depended upon our Teacher to a great extent to keep everything in order, to tell us what to do,

and to take upon his strong shoulders most of the burden of our growth, our ups and downs, our lack-a-daisical learning, in those days before we had to face up to life and begin to make our own decisions.

Things have changed in these days, and Universal Law still remains as strong as it always was. But the students themselves have allowed much of this strength to temporarily waver. Now, and I mean this very day, we can begin to rebuild and revitalize ourselves to the extent that we will absolutely be that strong and positive force and direction that we wanted to be when we first embarked upon this path.

Many students have become discouraged because they do not understand some of these drastic changes taking place in the world and they do not have any answers for them either, the upheavals in the colleges across this nation, for example, and the serious use of drugs amongst the younger generation. These are only a very few of the upheavals of this world.

Dr. Doreal told us that there would be cosmic changes which bring in this New Age of the Avatar Harjas and we all know, from our years and years of study, that

first before Order must come about the breaking up of the old negative conditions, so that the "wine may be poured into the prepared pure vessels" - and these days, right now, are the stirring up of the old. How often were we told of the principle of dropping the stone into the pool and the result, muddy waters, for a time being, until once again the pool became clear, sparkling and peaceful and tranquil in the beauty and expansion of Mother Nature's Law.

We are, in effect, right now, those muddy waters, and we are stirred to the depth of our soul, and some of us will survive it and some of us will fall by the wayside, to make it in another incarnation. Disruptions have caused us to turn against our brothers whom we have loved and worked side by side, for lo many a year. And yet, if you come right down to it, it is not our brother whom we hate, it is the negation within us that is stirred up, like a toxic upheaval within the physical body, and we have personalized and focalized this hatred and this hurt toward our fellowman whom we have spiritually loved, for many a year. I say spiritually loved because when people are drawn together as a group consciousness, as the students of the Brotherhood, there is a deep and kindred love which no man could ever remove. It

is a basic attunement with what our higher nature knows as spiritual love and honor amongst mutual souls all seeking the same goal, and with a channel to find these answers too, if we will but relinquish the personalizations and review our lessons until we begin to find awareness from within our very being. Then, and only then, when we take the time to try to understand, will we begin to comprehend our purpose in life and the reason that we sought our Teacher in the first place.

Dr. Doreal brought forth an understanding of the Bardo principle to this country and he brought security to thousands upon thousands of searching souls who would otherwise have lived in that terrible fear of the after-death state. This alone, each one of us knows, and we are privileged to help thousands and thousands, ourselves, to free them from that terrible fear that the orthodox churches across the face of the world implant in their people. If we did nothing else, we should be bringing peace and comfort to those who need this understanding so that when they enter the bardo state, they can make great strides toward their next incarnation because they go with the knowingness that they will be guided and aided and that they have an opportunity, via that bardo state, to dissolve and to transmute the difficulties that have been such a problem to them in this particular incarnation.

Now, today, 1970, we are in the midst of changes that are altering the face of this world. Dr. Tully brought us the message of this on February 18th of this year of 1970. He told the students of this junction point which would begin much of this drastic change. Many there were who scoffed at this "prediction" and they are the ones who are grieved today because they are disrupted and discouraged and angered and antagonistic to this change and they don't know what to do about it. (To be continued)

My prayer will always be that the world be free - not only of the things that we know have bound, but of the things that we do not as yet realize are a bondage.

Where it has been difficult for us to change our attitudes and ideas, we must remember how much more difficult it will be for those who have not as yet even realized the need to change.

As we have been helped, they must be helped. As we have faltered, they will falter.

The wisdom we have gained through our blessed experiences can save them much sorrow. Let us quickly complete the things we know we must do so our example can be the light that will lead our brothers out of darkness.

The Brotherhood Newsletter

Dear Students and Friends,

We are receiving many articles and poems from our Students and we appreciate the work and the sincere articles that have been written, however, most of this material has been written in longhand. This in no way reflects upon the handwriting. We do request that you type all articles and poems that are sent in. Each one has a different handwriting and we spend much time in trying to read them. Thank you for your cooperation. It makes our work much faster and we always have plenty of work to do.

The Brotherhood of the White Temple makes every effort to assist the Truth Seeker in his search for Light and Understanding. The Weekly Sermon Letter published by the Brotherhood is one of the channels through which instruction is given of the Cosmic Laws. The Truth Sheet is a supplemental to the College work and it is also available to one who is not taking the College Lessons.
