# COSMOGONY AND COSMOLOGY

By  
Dr. M. Doreal

The Mystery of the Universe is contained in the Unwritten Kabbala; the Keys to the Understanding of the formation of the earth, the beginning of man and of his evolution to the consummation are veiled in its symbolism. In the old Kabbalistic Mystery Schools these keys were taught to the select few. Because they were never written, the Occult Wisdom of the Kabbala, the Sepher Yetzirah, the Book of Concealed Wisdom, and the rest of the Ancient Teachings have been lost to the world at large. The findings of modern Science have not as yet even scratched the surface of the Great Knowledge which the Ancient Races knew about the Laws of Creation and of the manner in which the Supreme Hidden One manifested in the material.

The Mysteries which Doreal has given in this book are much too great and all-encompassing to iterate in this review. May it suffice by saying that COSMOGONY AND COSMOLOGY is more than a history of Universal events, for he has shown the coming forth of the Laws of Creation while they were in the World of Formation even before the Cosmic Condensation became manifest.

## THE CONSCIOUS, SUBCONSCIOUS

## AND SUPERCONSCIOUS MINDS

By

Dr. Doreal

The conscious mind has a definite center in the body and in the head. That conscious mind center, to go over it very briefly, is found in the head directly back from the center of the forehead. It is found in the physical location of the pituitary gland. The pituitary gland is not the conscious mind. Do not mistake me. The pituitary gland has a certain physical function in the body and it is associated with thought. For instance, we know that in a Cretin or child, born without any mind, the pituitary gland is entirely undeveloped, that there is very little secretion from it, just as giantism and dwarfism are also signs of deficiency of the pituitary. The mind is an intangible vibration focused into the human body and human brain, and it manifests just at that point in the cleft of the head. The pituitary gland is found at the back of the cleft of the two frontal lobes of the brain, and the conscious mind is centered in almost that exact spot. This is the reason that when we center all of our consciousness in the head it seems to center in the frontal part. This gives us a definite trace as to the physical location of the conscious mind.

Behind the pituitary and rising above it is the pineal gland. The pineal gland is divided into three parts. It actually is a segmented gland and right on top of it is the little Rod of Aaron. It arises as an outgrowth of the third ventricle of the brain. It is in the cave of the brain, straight in the center of the head and slightly higher than the pituitary gland. Each part of that gland has a function according to occult philosophy and mental science. The lower part is the part where the ego or soul touches the physical body. The soul is not in the pineal gland. The lower part of the pineal is the doorway of Brahm through which the ego acts and reflects in the physical body. That ego or consciousness is relative to the physical plane, but vibrating on a different plane or dimension, one that we call the spiritual plane of Divine Mind. That contact point between the spiritual plane and material body of man is called the silver cord. That is where the ego functions through the physical body, and that is where the superconscious mind sends its vibrations into the body.

In Ecclesiastes we read, "Or ever the silver cord be severed, or the pitcher shattered at the well or the golden bowl be broken." The silver cord of Ecclesiastes is that thread of reflection between the spiritual plane, the ego, soul, and superconscious mind, and the material body, and as long as that thin thread of spiritual energy continues to flow into the physical body, that

long life is in the body. Even if the personality leaves the physical body and goes into other planes, that cord still remains. The superconscious mind, we may say, is on a plane all of its own, the plane of Spiritual or Divine Mind plane.

Around the base of that pineal is where that brain sand is found, the osmium and phosphorus, two of the three links of the triangle of mental power. There is electricity, phosphorus and osmium. That forms the three-pointed triangle and by some, those were said to be one symbol of the ancient or primal air, water, and fire of the Divine, because we create in our thought, and Aleph, Mem, Shin, (air, water, and fire) of the primal creation, were the three primal elements that the Divine used to create the world and all in it. It is through the releasement of their energy that one is able to create thought, and think, and through thought, creation comes into being.

We are told that the middle section is the place where the subconscious mind of man functions. We are told also that leading from the base of the pituitary and leading back through the third ventricle and into the base of the pineal gland, is a dual, hollow, tube leading through the third ventricle of the brain and they are called the infundibulum, and there are tiny radiating links through the lower part of the pineal. We are told in the East, that those two channels are the actual physical counterparts of

the infundibulum. Along those two channels the mental impulses of the conscious mind moves back along one channel and the subconscious impulses move forward along the other channel. We are taught that the one on the right side of the head is the one in which our subconscious flows to the conscious, and it is along the left that the things we demand are sent to it. The right side brings impulses from the subconscious. The left side carries impulses from the conscious to the subconscious. It passes through the lower part of the pineal.

The subconscious mind is not matter or a group of cells but it is a vibration set up in that particular area between the soul and the superconscious, manifesting in that body. We say then that there is this connection between the pituitary and the pineal. It is right above the pineal that the optic chiasma is located. That is the point where the two optic nerves leave and then cross. They come to a point of junction which is above the place where the conscious mind of the individual is focused.

# The Brotherhood Newsletter

Dear Students and Friends:

The weather in Shamballa this Monday morning is cloudy and rainy with a 65° temperature which is very pleasant. The rain showers are most welcome. Our gardens are looking good and we have had to do very little watering.

The Fellowship of the Avatar Service Sunday evening was quite well attended. The subject of the lesson was on the Divine Spiritual Plane and how we may recognize it and attune to it. This lesson will be in the mail to the world-wide members by June 10, 1977.

Drs. Edward and Berniece Plass, Brotherhood Ministers and members from Georgetown, Colorado, were Shamballa visitors last Friday afternoon. Dr. Edward Plass Christened little six month old Merry Melody Bean at two o'clock in the Brotherhood Temple and then he and Berniece stopped at the Office and Print Shop before returning to Georgetown. Ed and Berniece Plass have been Brotherhood members for many years and knew Dr. Doreal when the Brotherhood Temple was located at 1600 Logan Street in Denver.

Dr. Armand Garbatini returned to his home in Conn. last Wednesday but before he left he prepared another delicious Italian dinner for the staff. We surely enjoyed having Dr. Garbatini with us for a week.

The Brotherhood Saturday work project is really accomplishing great things. There were eleven young people who came to this work project. They have the new addition on the back of the Office ready to pour the concrete floor so they really accomplished a lot besides mowing the grass and planting flowers around the Ranch House. We have to finish the new addition on the back of the Office and put a new water system in for the Temple as soon as possible so we really appreciate all the help we can get. The Brotherhood furnishes a hot lunch to the workers. Last Saturday the girls prepared a delicious beef stew, salad and dessert. All who wish to donate their services are very welcome.

Again, I wish to remind each of you that the special Ordination Services for Brotherhood Ministers in Training and the rededication of the Temple in Shamballa as well as Special Classes for members will be held the first week in July in Shamballa. All sincere Brotherhood of the White Temple members are most welcome. If interested please write for special invitations and programs. If you wish to bring a friend or relative who is not a Brotherhood member, please let us know in advance.

In Cosmic Harmony,

Dr. W. Whitby.

# SAHAJ YOGA

THE YOGA OF LIFE

By  
Dr. M. Doreal

It is an absolute fact that the degree of our health, or the amount of sickness we have depends in a very great measure upon the amount of life force in the body.

People have wondered how it is that the Masters and Teachers in the Far East have the power to have lived for hundreds of years.

Exercises and techniques are given in this book so that one may bring about that inflow of life energy. The Exercises and techniques must be done very carefully and in the proper manner to get the proper results.
