SCIENCE OF HEALTH

by
Dr. M. Doreal

Everyone desires to have a strong healthy body, but there are very few people who do not have at least one ailment that keeps them from being in perfect bodily condition.

Fundamentally the cause of all sickness and disease is an unbalanced condition of the polarity of the body. All things in nature exist in manifestation, because of the presence of two polarities in all creations. When the positive and negative polarities are in perfect balance, it is impossible for the body to suffer the presence of the inharmonious conditions of sickness and disease.

You will note that I have made a differentiation between sickness, and disease. Sickness is primarily brought about by negative thinking. Disease is a condition brought about by outside influences or germs. Before a disease germ can be propagated in the human body to such a degree that it will cause disease, it must find an unbalanced condition of the polarities. Thus we can see that fundamentally all bodily sickness and disease are caused by the same thing - inharmony induced by wrong mental conditions.

BROTHERHOOD NEWSLETTER

Dear Students and Friends:

Last week's snow temporarily interrupted our building plans. Inspection has been made on the plumbing and now the basement cement floor will be poured at the first opportune day that all is in readiness. All of you who have contributed become a part of this monumental structure dedicated to the expansion of truth to make man free.

Tuesday evening the Fireflies met at the Humbert residence. Opal Wagnon and Neva Claassen were initiated and have now become active members. All details and technicalities were thoroughly worked out and discussed for decorations, refreshments and the spook house for the Halloween party being held Saturday, October 29, at 7:30 P.M. in the Administration Building.

In addition to the necessities of life, we seek the path which resurrects man to eternal life, the dignity of the human soul and recognition of the deity in beauty, magnificence and splendor of the universe. No man can live intelligently who does not have a basic knowledge of nature and its laws. Man cannot obey until he fully understands the operation of Divine law. Thus we are consecrated to a life of expression to the higher side of ourselves.

May we remind everyone concerned of our change from daylight time to standard time. The change is effective Sunday, October 30, 1966.

Sunday afternoon Joseph Shwed gave a most interesting lecture on "Mind and Thought." We are told "Man know thyself and thou knowest all." This is the reason that our search concerning the laws, lives and existence of man must continue. Until we more thoroughly acquaint ourselves and become familiar with the Divine Purity, we cannot be a channel through which this immortality may flow. Joseph told us by learning well, we advance and if we do not we fall short and we will, again, be faced with the same problem until we finally overcome it. Our minds must be worked to be more productive. Inactivity causes one to be less observing and eventually stagnation follows. We cleanse our minds by implanting good and well-chosen thoughts; otherwise our minds may become cluttered up with all the debris from the thought stream. We must continually be grateful to learn from our experiences. Humility and remembrance to the Cosmic Consciousness will always divert us from a selfish path filled with our own ego to the path that will enable us to become one with God.

In Brotherhood,

Iris Rawls.

NEWNESS OF LIFE

Gather together, good people,
And lift your consciousness
For each other's well-being -
And whether it be desert
Or sparsely inhabited places
They shall blossom as the rose,
And miracles will become
More common than your present

Negation - aches - and pains
Which could be dissipated
As foam upon the wave.
Keep wonder and praise alive
Within right gracious hearts!
There is too much newness of Life
For ennui to gain entrance
At the genuine temple of progress.

Gleanings of Truth

By
Doreal

They also saw all of those parts, which are the souls of men, moving this way and that, impelled by all the winds of chance and adversity, and ever impelled by the Great Law of Cause and Effect, ever free to move in limited circles, ever free to express as much light as they could. They saw that the impelling forces of the Cosmos must move all those souls of man into one great center of light, and that great center of light is the Golden Age, and the manifestation of the Oneness of all souls with the Divine. They looked upon man and saw that, with all his limitations, all of his powers and strength, and all of his smallness, he is as great and as large as the Universe itself. This earth, unimportant as it may seem in the great scheme of things, with all the millions and millions of worlds, larger and greater, is still a very important keystone in the structure of the Universe, and every person on this earth is an important keystone in that part of the structure of the Universe. One cannot say, "If I don't accomplish this, it won't be missed," because any failure on the part of any soul causes a delay and a weakening of the entire structure of the Cosmos. When it was formed in the Divine Mind a count was taken and that small part

would be lost, but not beyond that certain point. Therefore, if more of the souls of the universe enter into the light than was planned, then by so much more will the Cosmos be strengthened.

Each of you here present is a Child of the Light. Each of you has the power, if you but will, to know God and become one with God. Then from you will be banished all sickness and death; from you the shadow that is called death will be removed, for we approach that New Age in which death will be conquered, and pain and old age overcome. In that time we will put on the new body, the spiritual body, and we will become one in every thought, word and deed with the Divine Light which is God.

Each of us, in our own way, is conquering and mastering some part of negation. Some are accomplishing more than others, but each time we cast out some negative thought or avert some negative action, by so much have we strengthened our own soul and the souls of the Cosmos. We cannot say, "It will not make any difference if I accomplish nothing. Someone else will do it." It does make a difference. It makes all the difference in the world for you and the world, because your failure sets up a cause which will bring a circle of negation, which may spread and spread and spread. Nothing good that we do is useless. Each action we perform, good, bad and indifferent, has an effect. We are never

alone. Always we are being watched by some Great Soul. We are watched by the Law of Cause and Effect. Our actions and reactions all leave their imprint upon the Akashic records, where they will be read by anyone who has the eyes to see and the ears to hear. Nothing we do is ever lost. All that we have ever done has its effect. It has never been lost, nor will it be lost. It is all written indelibly upon the Great Records, and anyone who has the power to read those records may go back to the beginning of time, and may read all the records laid out before them in one Great Scroll.

Think of all that might be accomplished if we, each of us, would, even for a little while, put all of our effort and strength into accomplishing the good that is needed. I know some of us think we have done all we should do; yet each one of us must put forth more strength and power, our utmost effort. We have not failed but we have not used all our power to accomplish the good we could have done, and should have done. The difference between the one who accomplishes and the one who fails is, in most cases, the effort, the will, and the releasement of our strength into the objective. A great many people only do what they have to do. Every time we fail to exert all our strength upon any good objective, by so much we weaken our power to put all our effort into the next objective. That is the reason we must all learn to

do everything that comes to us with our fullest strength. Only thus can we accomplish all the time what we should do. Most of us have walked the path for many years and we wonder why we failed to accomplish this or that. We know the answer is within ourselves. We must realize that our failures, our lack of accomplishment, was because we did not put our complete will and strength into the effort. Always we held something back. Always we held back the reserve, and did not completely immerse ourselves in the thing we were doing.

The man who immerses himself in work of any kind will always accomplish his goal. It is said that immersion in a thing is the only way we can learn, the only way we can know it. We must become one with our goal, no matter what that goal might be. We cannot stand to one side and say, "This can be immersion in part, but only in part." We must make ourselves one with that goal in its entirety. That is the reason we must reject all negation. We cannot say we will accept a little negation, because we become a part of even that little negation.

Life is a very strange thing. Life is something that came into being in the Universe, in the Cosmos alone. The souls did not have life. The souls had existence. To have life you must have the opposite, which is death. To have existence there must also be the opposite, which is non-existence.

THE EMERALD TABLETS OF

THOTH THE ATLANTEAN
*A Literal Translation by
Doreal, of One of The Most
Ancient and Secret of the
Great Works of the Ancient
Wisdom*

Oh Men! List to the Voice of Wisdom; list to the Voice of Light, Mysteries there are in the Cosmos, that unveiled fill the world with their light. Let he who would be free from the bonds of darkness first divide the material from the immaterial, the fire from the earth; for know ye that as earth descends to earth, as also fire ascends unto fire and becomes one with fire. He who knows the fire that is within himself shall ascend unto the eternal fire and dwell in it eternally.

Remember, Oh Man! That all which exists is only another form of that which exists not. Everything that has being is passing into yet other being, and thou thyself are not an exception.
