# DOREAL'S LETTER

Dear Students and Friends:

We are busy packing to move to the Retreat next month. Everything is moving according to schedule and we expect to be moved by July 15th after that address all mail to SEDALIA, COLORADO. Our accumulation of years is being packed and we are really busy at headquarters. Everything is planned so that there will be no delay in mailing lessons.

I plan on giving a series of classes at the Retreat in August. A very reasonable charge of \$1.00 a lesson will be made for these classes. I have planned some very fine lessons for the series to begin about August 4th and continuing to August 29th. Lessons will be given in the evenings - Specific nights will be announced later. The Retreat is really beautiful now with wild flowers all over the hills and the green of the pines forming a background.

Only a very few more can be admitted to Retreat Membership. If you wish to be a Retreat Member you had better apply at once as membership may be closed at any time.

Many who doubted that we were facing atomic war and destruction can now clearly see the handwriting on the wall. How quick it will come we can't know yet but certainly it cannot be far off with the way things are going in International Politics.

In Cosmic Harmony,  
Doreal.

# THRICE BORN MEN

By  
Doreal

(Part Three)

God looked in six directions when he created the universe and pronounced his name in six manners to lay out the boundaries of the universe or the cube in which we live. If we could get outside of the cube in which we are bound we might become aware of other worlds. When one attains cosmic consciousness they have got outside the cube in which man has to function. Though there are a few who have passed into the higher consciousness the mass of humanity will strive to pull them down. Where are the great minds of the past?

When one does pass beyond the limitation of self consciousness into cosmic consciousness they see no longer as through a glass darkly, as the eastern teachers would say, they see in the clear light. When one enters into that state there are three potential states in which they may be; in the first they are still aware of self but they are aware of kinship to everything that is, the lower forms of life and the suns in the cosmos. They are still aware of self but have an absolute realization that what effects one effects everything in whatever state of being. They begin to see above the plane of thought.

There are some people who get flashes of that which they call intuition, something comes before them and they realize something without passing through any state of thought to attain it. We say that such a person has a flash of cosmic consciousness. They evolve to a state where their consciousness enlarges and encompasses and blends with all of the forces, energies and laws and begin to function with them.

They have raised themselves to a state of consciousness where they can allow the forces and energies to function through them. Just as we use our hands they have expanded to where they can use the forces and power that answers to the call of their consciousness. There is a third state where man passes beyond separation, he enters into a state where he becomes one with everything that exists, including God. In that state the worlds and suns become a part of his being and every force and power that functions in the cosmos. If they remain in that state they cease to be human beings. The ancient teachings was to go therein and return therefrom. The Kabbala says, "Unless one has entered therein and returned therefrom it were better for them they had never been born."

Some do go to the state that is symbolized by a triangle, the triangle symbolizes the third state of consciousness. Man below ascends, the line of ascent to the topmost point is the ascent of the Mason through the thirty-two degrees. The ancient occultists speak of that ascent as the thirty-two vertebrae of man's spine and the triangle

rested in the head of man, the atlas vertebre holds the world.

Atlas held the world on his shoulders. How could Hercules come and find him holding the world on his shoulders. What was he standing on? He was standing on the earth, holding the burden of the heaven world on his shoulders.

The symbology of the thirty-three degrees of Masonry was a symbol of the life of Jesus before he was raised on Golgotha, the hill of the skull and was crucified there.

The thirty-third degree Mason wears a symbol, the broken triangle, that symbolizes that he has been thrice born; actually he may never have been once born any more than the Brahmin, unless he has gone therein and returned therefrom.

When we speak of cosmic consciousness we are not speaking of anything supernormal. I do not believe there is anything supernormal - everything follows law and order.

For the same reason we can say the Ego, consciousness or soul of man is in a constant state of expanding. Each individual is moving to the point where their consciousness will rise to a higher state, the more we press against the barriers, that hold us in, the better chance we have of expanding into a greater state of being. Every individual has the power to attain cosmic consciousness, each of us is potentially thrice born. It may come after years of effort,

it may come as a flash in the heavens  
but before its coming the effort must  
have been made awaiting the touch that  
will bring it into manifestation, until  
we enter the divine at-one-ment with  
God.

# ARMAGEDDON

By  
Rev. John McAleer

Great ancient cities buried deep  
By greeds relentless fury,  
What is your history that repeats  
throughout  
The ages; a denial of truths duty.

Unholy in ages past, and dim the light  
You reflect,  
Is in the now, a mirage of ungoverned  
power  
Of your reincarnated elect.

With vivid memories of burning Babylon,  
You react a drama  
Of enslavement, that burns deep into  
the heart,  
Creating a world dilemma.

With Napolianic glee of human woes  
And disrupted progress,  
You fight on in the face of righteous  
victory  
That only God can bless.

But at the eve of the great Armageddon  
A light flickers through,  
And tortured souls will again tread the  
path  
To strengthen the few.

# FOUR PLANES OF HEALING

Doreal

There are four planes of man's being which should be considered in Spiritual Healing; the physical, mental, psychic and spiritual planes. It is for this reason that when the healer has learned how to operate on the four planes, he is able to reach the cause and permanently heal his patients.

A symptom may appear in the physical which has its cause in any one or more of these four planes. The treating of symptoms alone will not remove the cause. When the cause is not eliminated, even though the symptoms has disappeared, the patient has not been really healed for the same symptom or another may later appear if the cause is allowed to remain.

FOUR PLANES OF HEALING is a Textbook for healers. It describes the Laws of Healing; giving the methods for employing them and cites a large number of examples which explains how they are to be used, - gives the method for diagnosing both the symptom and their causes - and treatment for each.

This book may be used for self treatment as well. A beginning student may immediately practice its principles and heal the sick. All students wishing to heal either themselves, or others, should read this book.
