HELPS TO SUCCEED OR THE SECRETS OF ASTROLOGY REVEALED

KNOW YOURSELF AND YOUR FRIENDS

BY
J. MACDONALD, M. D., Ph. D.

General characteristics of all persons
born in or from the twelve Zodiacal Periods of any year.
How you are ruled by the Stars. Things you want to know
and fortunate and unfortunate days of the year.
Information on sickness, poverty and misfortune.
The history and mystery of Astrology.
Signs and Temperaments.
Contains the ruling Planets from the year 1800 to 2001.
A daily calendar for four hundred years.
Tells the day of the week any person was born.

THIS BOOK ALSO CONTAINS

An Article on Suggestive Psychology, Biology,
Hypnotism and Personal Magnetism.
Moral, Physical, Business and Conjugal Qualifications
Adapted to any Person's Nature.
Best Time to Have Surgical Operations Performed
According to Astrology.

WHEN TO PLANT AND HARVEST BY THE MOON,
THE INFLUENCE OF SIGNS AND OMFENS,
WEATHER PREDICTIONS AND FORECASTS.

ILLUSTRATED WITH CHARTS, MAPS AND TABLES.
A Daily Guide for and Help Towards Success in Business,
Vocation, Family, Marriage, Social and Personal Affairs.

PRICE Cloth Bound \$1.50 Paper Cover \$1.00

TO OUR CUSTOMERS AND THE PUBLIC.

We again take great pleasure in presenting our MacDONALD'S FARMERS ALMANAC for 1932 to the public, both our old and new customers, and we want to at this time "Thank" all old customers who have bought our yearly Almanacs for the past 35 years. We have a few old customers left that have written and told us they have purchased our Almanacs for 35 years, and lots of them write and say they even have on hand each edition for five, ten, fifteen or twenty years back. We wish that each and every reader of our Almanac would write us a letter stating just how many years they have had our Almanac and just what they think about it.

Each year we try to have each and every article interesting to some member of the family. We know that the general predictions for 1932 will be interesting to a great many people, as we will predict better times and more work for the unemployed for the year 1932.

Another important feature is our daily guide. These tables have been worked and studied out very carefully and they refer to everybody in general on any day. Of course, every day is important and brings opportunities for doing good work for somebody.

The planting days for 1932, the best days to hatch chicks, the best dates for weaning babies, the best fishing days are all interesting to some people.

We fully believe that the tables, daily guide and all other astrological information published in this Almanac is true and correct according to our knowledge of astrology and they are compiled on eastern standard time.

We again wish to thank our many thousands of customers for the esteem and confidence held by them and placed in us, our yearly Almanac and other remedies, and on behalf of our efforts for the general good of all.

Cordially yours,
DR. MacDONALD'S ATLAS COMPOUND
and
ATLAS PRINTING CO.

Established 1897.

A. C. MacDonald, Proprietor and Owner since
January, 1919.

General Predictions for 1932

Mars is the ruling planet for the year 1932 and is the most active and business planet in the universe, so that will denote more business and activity for this year. The most salient characteristic of Mars is dynamic energy. This FIERY planet rules strength, force, courage and ambition. It turns the desires toward constructive objects, well-regulated activities and has many of our highly prized virtues.

The spring will be generally dry and cold. Late frost will occur. Summer hot and dry, the nights sultry. Rivers and wells will be very low. The fall will be dry with very little rain, the winter cold and changeable.

The sickness in general will be ear, gall and kidney. Many fires will occur. Vine crops and grain are good. Hay poor, corn good; grasshoppers and snakes will be plentiful. A good year for persons born on Tuesday.

THE FOUR SEASONS

The Winter Quarter

The sun enters Capricornus Dec. 22, 1931, at 2:30 P. M., E. S. T. During the early part of this season there will be lots of crime committed, with large criminal organizations in the United States and other countries. There will be lots of people out of work, times hard and the weather cold. In the late winter, or about February or March, things will pick up. Trade will improve and we will look for prosperity and pleasure. Great improvements will be planned for the early spring in all parts of the United States. Several billion dollars will be available for new building or other new work. There will be a big boom in the stock market and vast fortunes will be made over night; the country will be flooded with gold.

The West Indies and the island of Cuba will have lots of storms and an earthquake will do lots of damage.

We expect a very severe winter with lots of snow.

The Spring Quarter

The sun enters Aries March 20, 1932 at 2:45 P. M., E. S. T. The spring will be dry and cold. Business will start to pick up. A wave of speculation will start another boom in the stock market. We will have bad railroad and airplane accidents, also bad fires. Science will advance by leaps and bounds and we will hear of astonishing discoveries and inventions. There will be large wind storms in the West Indies and Central America.

The Summer Quarter

The sun enters Cancer June 21, 1932, at 10:25 A. M., E. S. T. The summer will be hot and dry. Business in general will be better. Wall street will be active and stock market will be busy, with increased prices and improved trade. There will be lots of political discussion and a lot of talk about the present form of government, and we feel quite sure that Mr. Hoover will receive the Republican nomination for President of the United States for the coming term. President Herbert Clark Hoover was born August 10, 1874, at West Branch, Iowa, at 12 o'clock midnight, as near as we have been able to find out. The President is a man of high ideals and great power. No doubt there has been a lot of criticism in regard to the financial condition of the country during the last couple of years and a good many people blamed this condition on the President. We no doubt would have had the same condition no matter who was President. The indications are favorable for his nomination and re-election to the presidency this coming fall of 1932.

The Autumn Quarter

The sun enters Libra Sept. 22, 1932, at 1:15 A. M., E. S. T. The autumn will be dry, with very little rain. Labor and capital will become more closely united. Many factories and mills all over the country will open up in the fall. Wages will be lower, but food supplies, clothing and furniture will be low in prices. With plenty of work and with low wages, we all will be in better shape than we have been during the past year with high wages and no work.

We advise the people to stay on the farms, raise farm produce and engage in dairy and poultry business, as in most cases you can make better living on the farm than you can in the cities working in factories or mills.

PLANTING BY ASTROLOGY

The old Bible saying is, "That there is a time for everything under the heavens." The proper time to plant is when nature has the earth ready and prepared, as indicated by the signs in the heavens. "They shall be for signs," for days and for seasons.

The influence of the sun, moon and larger planets on the earth, the human, animal, vegetable and mineral kingdoms, is very marked, and if only understood better by the people they could improve in every undertaking. Cancer is the most fruitful sign in the Zodiac, while Leo is the most barren sign. The barren signs are for destroying weeds and noxious growths. If weeds are pulled in a fruitful sign, they will come up more abundant than ever; if in a barren sign, they do not appear again.

Grafting, pruning, transplanting, etc., should be done in the fruitful signs.

Aries tends to dryness, barrenness and not very good. It is not a good sign for general planting, but it is fairly good for destroying weeds.

Taurus is more moist and productive and, as an earthy nature, becomes one of the best signs for planting many crops—artichokes and root crops, or that which grows in the ground.

Gemini is cold, dry and barren, is not good for any kind of planting or transplanting, but good for destroying weeds.

Cancer is fruitful and moist, being the most productive sign in the Zodiac; therefore, plant all kinds of seeds and they will produce good results.

Leo is the most barren sign in the Zodiac and is only good for killing weeds, destroying roots, etc.

Virgo is barren, but moist, and is not good for planting. Good for cultivating.

Libra is not considered fruitful, but is used for seeding hay, corn fodder, etc. Can plant lettuce or cabbage.

Scorpio is next best to Cancer and may be used for all planting.

Sagittarius is considered barren, but may be used for planting onions or seeding for hay.

Capricorn is earthy in nature and quite productive. Good for potatoes or other crops that bear under the ground.

Aquarius is inclined to be barren; only good for cultivation.

Pisces is very productive and also can be used for all planting.

Use the new of the moon for planting and the old of the moon for cultivating and harvesting.

Celery should be planted when the moon is in Libra, as it will grow quickly. For grafting cut your grafts from good bearing trees at any time while the trees are dormant, from December to March. Keep them in a cool, dark place, although not too dry or too damp until ready to use them. Do not take the grafts from a shy bearing tree. Do the grafting just before the sap starts to flow and while the moon is from new to full and while it is passing through the fruitful, watery sign of Pisces or while the moon is passing through the earthy sign of Capricorn.

In this Almanac, on the page "Positions of the Moon for the Year 1932," in this table you can find just what sign the moon is in for every day. This table is all worked out by Eastern Standard Time, as the moon enters some signs in the early morning hours, others late in the day, or evening hours. As the moon is in a sign on continuous hours of two or three successive days, and if you live in other parts of the country that does not come under Eastern Standard Time, we would then advise you in planting to use the second day the moon was in a given sign.

All crops that produce their yield above ground should be planted at the new of the moon.

Those that produce their yield in the ground should be planted at the old of the moon.

Harvest all root crops when the moon is growing old. They will keep better and longer.

The Harvest Moon is the full moon, which happens on or near the autumn quarter, about Sept. 23rd. It is called the Harvest Moon because it rises from night to night more nearly after sunset than any other full moon in the year.

Dig root crops for seed in the third quarter of the moon. They will keep longer, are dryer and better.

Pick apples and pears in the old of the moon and the bruised spots will dry up; if picked in the new of the moon the spots will rot.

All plants, trees and vegetables planted at the new of the moon will grow vigorously. Trees should be pruned and grafted at the old of the moon.

Grain for future use or seed should be harvested at the new of the moon.

Weeds and bushes should be cut in the dark of the moon when it is in the sign of Leo.

Timber cut in the old of the moon will not become worm eaten or sap in burning.

Set fence posts at the old of the moon and they will not heave out.

Crabs and mushrooms are best and most plentiful at full moon.

Travel by land, choose the new of the moon, and travel by water when the moon is decreasing.

Easter Sunday is the first Sunday after the first full moon which happens upon or next the 21st of March of any year. Easter Sunday cannot be earlier than March 22nd or later than April 25th. Not for 100 years has Easter Sunday fallen on the former date. It has occurred on the latest possible date, and that was in 1886. This year, 1932, Easter Sunday is on March 27th.

TOMATOES

Tomatoes ripening after frost require proper handling and storage. The ripening of tomatoes on a commercial scale after the frost has killed the vines is the subject of considerable interest in many parts of the country. It is more or less a common custom for home growers and market gardeners to gather a limited supply of green tomatoes after the first killing of frost and to store them under chaff in a mow or shed or uncovered in a basement or anywhere so they can get sunlight. These methods supply a certain quantity of ripe tomatoes after the frost, but usually they result in considerable loss from decay and much of the fruit that ripens is of poor color and quality.

LEATHER

Leather, although tough is responsive, and an investment of a reasonable amount of attention in the care of leather goods yields a profitable dividend in greater satisfaction and service.

The arch enemies of leather are mud, water, strong acids and alkalis, extreme dryness and prolonged exposure to heat and direct sunlight. Among its best friends is oil or grease, preferably of animal or vegetable origin. Oil and greases help to protect the fibers against decay and to lubricate them so that they are flexible and can slide back and forth without cracking or breaking.

To get the most service out of leather goods, treat them promptly and often. When oiling leather use judgment and care. To do good, the oil must get into the leather, not simply on it. For general oiling Neat's-Foot Oil, Castor Oil, Lanolin, Olive Oil and Winter Sperm Oil. It should be remembered that any oil or grease will darken tan or light colored leather.

Many leather articles are ruined by the way they are mistreated when wet. Wet leather wears away rapidly and is easily stretched out of shape. Much damage is done to wet leather by the way it is dried; a temperature hotter than the hand can bear is destructive.

The molding or mildewing of leather is of frequent occurrence. Mold cannot grow without a certain amount of moisture and the best way to prevent mold is to keep the leather dry. Mold seldom seriously injures leather, but it may change its color. Mildew should be removed with a damp cloth.

Street and dress shoes cannot be heavily oiled or greased, but they should be kept polished not only for the appearance but because polishing leaves a thin film of wax that helps to turn the water to keep the pores of the leather from becoming filled with dirt. The soles of street or dress shoes can be made more waterproof by brushing them with warm Neat's-Foot or Castor Oil. Work shoes for winter or wet wear will last longer and be more waterproof if you will coat them with a waterproof dressing. A good mixture: 4 ounces of Neutral Wool Grease, 2 ounces of Petrolatum and 2 ounces of Paraffine Wax, or you could use 8 ounces of Petrolatum and one ounce of Beeswax.

CARE OF BELTS AND HARNESS

Harness should be kept clean and in a soft, pliable condition. It should be washed and oiled from two to four times a year, depending on its use and condition. Driving belts and other belts will last longer if kept clean, flexible and well oiled. Neat's Foot Oil is very good as a dressing for belts.

FARM POULTRY RAISING

Profits in farm poultry raising are largely affected by the number of eggs produced during the fall and early winter months and by the number of roasters and broilers that can be marketed when prices are the highest. This can be accomplished by hatching early and by having early maturing strains.

Most of the revenue from farm flocks is obtained from the eggs. The cost of feeding is the most important item of expense in producing eggs and market poultry. For this reason it is very important for farm poultrymen to feed efficiently; also housing and sanitation are very important and should receive careful attention.

A good farm flock is not only an important factor in the production of staple food products, but also increasing the revenue from the farm. Most farmers now appreciate the fact that a well kept flock pays as well, relatively, as most other branches of farming and as a result interest in farm poultry raising has become widespread.

If a farmer is unable to keep a large flock of hens he should keep enough to supply his table with eggs and poultry meat throughout the year, as such a flock would cost very little to feed; but if he kept a flock of 200 or more he, as a rule, would not have any trouble in marketing the eggs and poultry meat.

There are several different breeds and varieties of chickens that are popular in America, such as the Plymouth Rock, that are particularly well adapted for farm or home poultry raising and when properly bred make good layers. They are also good size and have good fleshing properties and their yellow skin makes them popular as a table fowl. Other breeds are Rhode Island Reds, Wyandotte and Jersey Black Giants. They all possess good qualities which make them popular in the production of eggs and meat. They all lay brown-shelled eggs.

The "Brahma" belongs to what is called the Asiatic class and they lay brown-shelled eggs.

The breeds belonging to the English class are Orpington, Cornish and Sussex. They are all good size and are noted for their fleshing properties and they lay brown-shelled eggs.

In what is called the Mediterranean class are the Leghorns, Ancona, Minorca and others. They possess economic qualities which make them popular in the production of eggs and poultry meat. They all lay white shelled eggs.

The first to be considered in the poultry business is breed or breeding, as the ability to lay eggs is inherited. To develop an egg-laying strain requires careful selection and the adoption of consistent breeding policy. What is most needed is the development of winter laying. The selection of female breeders is a very important matter, because with a little care the farmer can improve the quality of his flock materially. The selection of male breeders is relatively more important than the selection of female breeders, because the offspring of each male are more numerous than of the female. Then the next step is hatching. It pays to hatch early. The brooding, the rearing, the feeding of each chick, market poultry and laying hens. Growing chicks and laying hens need comfortable houses that are dry, roomy, with plenty of fresh air and sunlight. It never pays to overcrowd them.

Preparing poultry for market.—When the birds are ready to be killed they should be deprived of feed for about 24 hours, which will clean out feed from the crops and intestines. The dressed birds will keep longer and be of better quality. During the period they are not fed they should have water, which will wash feed particles out of the digestive tract. This is very important. Starve before killing.

SANITATION

The health of poultry is of great importance in its relation to results obtained in poultry raising. The first rule of good poultry keeping is to have healthy and vigorous stock. Every bird in the flock should possess a sound constitution, otherwise it is impossible to breed good stock.

Farm flocks are frequently badly infected with lice. This is unnecessary, because there are several very simple methods of treating birds that will completely destroy all lice and their eggs on fowls.

In the matter of housing it has been pointed out that the house must be clean, dry, well lighted and properly ventilated. Every poultry house and coop should be cleaned at least once a year. To clean poultry houses, remove the litter and scrape the floors thoroughly. Then wash the floor, roosting quarters, nesting quarters and all other parts of the building, using a scrubbing brush if necessary to remove all the dirt. After the house is properly washed all over the interior it should be disinfected.

Good disinfectants destroy the germs of contagious diseases and some of the external parasites such as mites, ticks and, in some cases, eggs of parasitic worms. The disinfectants should be thoroughly applied to the interior of the houses, worked into all cracks and crevices, spread over the ceiling and the floors, the roosts, dropping boards and boxes. The feeding and drinking troughs should be disinfected by pouring boiling water into them and letting them dry in the sun. Disinfectants are most easily applied to the walls and ceilings with a spray pump or brush.

“ TURKEYS ”

TURKEY RAISING

The business of raising turkeys where conditions are suitable is quite profitable. It is usually carried on as a side line on general farms, although in some parts of the United States it constitutes the chief source of revenue from farm operations.

Turkey raising in the United States has long been an important enterprise because of the great quantities of turkey meat required annually. The use of turkey meat throughout the year is becoming more popular. Since there is always likely to be a keen demand for such a popular article of diet, it is desirable to encourage the raising of turkeys in adequate numbers.

The middle west and southwestern states raise a large number of turkeys. Six of the leading states in raising turkeys are Oklahoma, Texas, Missouri, California, Kentucky and Virginia. Years ago there was always a large number raised in the New England states, but in the last few years they have not raised so many.

Steps must be taken to make turkey raising more profitable and to overcome the uncertainty and heavy losses which occur in the spring each year in all sections. Several causes have been assigned for the decrease in the number raised. The rearing of the young stock in some respects, at least, requires more detailed attention than in the care of most other classes of poultry. The prevalence of black head has been a dominant factor. The birds range widely and frequently trespass upon the property of neighbors. This has discouraged turkey raising. There is a good opportunity for further development. Turkey raising is profitable, particularly where conditions are suitable and proper methods of management is followed. Turkeys can be raised successfully under very simple conditions, so that capital outlay is very small.

The first to be considered is the breed or variety best suited. There are six varieties of domestic turkeys and these are recognized as the standard varieties by the American Poultry Association. They are the Bronze, White Holland, Bourbon Red, Black, Slate and Narragansett.

The Bronze turkey is the heaviest and probably more popular throughout the country than any other varieties. As turkeys are sold by weight, the heaviest birds bring the largest returns.

Full grown turkeys under ordinary conditions do not require much protection from the weather. During the winter in the northern states it is well to provide covered roosting sheds. In the southern states there is little need for a regular turkey house; but during damp, cold or stormy weather the turkeys should have some protection. They should not be exposed to dampness, especially when they are young. Turkeys can stand considerable dry cold.

There is a lot you can learn about turkey raising, but we do not have the space in this year's Almanac to tell you about breeding pens, feeding, the breeding stock, mating, turkey egg production, rearing the poults, brooding, feeding and preparing the turkeys for market.

COTTON

We do not want to say much in regard to cotton this year, as no doubt a lot of our readers have lost a lot of money on their cotton crop during the past year. In several of the southern states they planned not to raise any cotton in 1932.

Cotton is of tropical origin and its successful cultivation has rather definite climatic boundaries. The area of growth, however, is limited more by temperature condition and the length of growing season than by rainfall. The plant grows slowly and under normal conditions has a long fruiting period which requires for maximum production a growing season of at least 200 days. That means summer temperature should not be lower than about 77 degrees F. The temperature should be high, both day and night, for best growth.

Cotton should not be planted until the ground becomes thoroughly warmed up, or about the time the normal daily temperature rises to 62 degrees F. The temperature is especially important during the early growth period, particularly in May and June, when warm weather and a moderate amount of moisture is desired. It is harmful for these months to be cold and wet, as this retards growth.

Frequent rainfall is especially undesirable during the boll-opening and picking period, as the exposed fiber is discolored and damaged by wet, cloudy weather. At the same time, picking—which is done by hand—a long drawn out process, is prevented. In the cotton growing states, however, rainfall is usually lighter during the fall months than in other seasons, which is favorable for picking and ginning.

No doubt by next year the farmers in the cotton belt states will be more interested in cotton growing than they are this year. By that time we hope the prices will be back to normal, or prices before the war. We can't expect to have the prices back as high as they were a few years back, or just after the war. In MacDonald's Farmers Almanac for 1933, (ready about Nov. 1, 1932), we will have another article on cotton, regarding cotton improvement and weevil conditions, also poisoning the cotton boll weevil. This article will be very interesting to cotton growers.

TOBACCO

Tobacco leaf when cured is classified as cigar tobacco, export tobacco or manufacturing tobacco, and each class is divided further into types according to characteristics and appropriate use.

Differences in soil and climate have great influence upon the quality of the tobacco leaf.

The tobacco plant may be grown successfully in all latitudes from southern Canada to the tropics and on a great variety of soil, but the commercial value of the product is influenced to a greater degree by the particular soil and climatic condition.

Each important district produces a tobacco of certain well known characteristics which make it desirable for special purposes of manufacture or export. The Connecticut seed leaf, or broadleaf, is grown in the Connecticut Valley and is used for binders and wrappers for cigars. In all the northern cigar leaf states there is raised both binder and filler leaf, and in each case they are known by the name of the state where they are grown. We have the Pennsylvania broadleaf, the Ohio broadleaf. Seed imported from Cuba is also found in several districts in the Connecticut Valley. They also grow Havana seed, Sumatra wrappers and other Cuban tobacco. There is also tobacco raised in other states. New York and Pennsylvania produces mostly a binder leaf, also Georgia, Maryland, Virginia, Florida and other southern states.

Tobacco raising has grown to a very large business in this and other southern countries. The first important duty is preparing and fertilizing the land. Stable manure is not used so extensively as formerly. Most of the fertilizer used now days is of a commercial nature and the use of fertilizer containing chlorine is to be avoided, as this element tends to injure the burning qualities of the leaf. There are several good fertilizers on the market today for tobacco growing.

Transplanting and cultivating is another important task, then harvesting. The curing of tobacco is of about as much importance as the raising. The curing involves many complex changes in the composition and properties of the leaf which are not fully understood; but some of the most important principles of good curing are well established and every grower should acquaint himself as far as practicable with the nature of these fundamental facts. There are a number of distinct types of tobacco produced and the methods of curing often differ. There are two distinct methods of harvesting tobacco, but aside from this there are three essentially different ways of curing tobacco. (1) Air curing, in which little or no artificial heat is applied. (2) Flue curing, in which the tobacco is entirely cured by artificial heat in such a way as to prevent smoke from coming in contact with the leaf. (3) Fire curing, in which the tobacco is largely cured by artificial heat applied by means of open fire made on the floor of the barn, thus allowing smoke to come in contact with the leaf. It will be necessary to consider separately each of these methods, together with modifications made in them in curing the various types of tobacco. Most all cigar tobaccos are air-cured.

SILO

Silage is feed that has been cut and packed in air tight containers or pits with moisture enough to allow a partial fermentation, which preserves it in a slightly sour condition.

Dairymen and feeders of cattle have long appreciated the value for milk and meat production of the succulent pasture grasses which are so abundant in the spring and summer. To obtain succulence in the winter or when pasture is not available, forage crops are made into silage.

Silage has certain laxative properties which keep the digestive organs of animals in good condition. When a crop is placed in the silo the temperature of the materials rises in a few days to about blood heat and then gradually diminishes. The top of the silage when exposed to the air will spoil but this is the only spoiling due to air and cannot be avoided, also losses due to fermentation cannot be avoided.

Corn is the most common silage crop wherever it can be grown successfully, but by proper methods almost any green crop such as field peas, oats, wheat, millet, pea vines, beet tops, tops from sugar cane and sunflowers can be made into silage successfully.

Sunflowers are used to some extent in the west and northwest where the weather is too cold and the season too short for the best growth of corn.

The best time to harvest corn for the silo is about a week or ten days before it would be cut for shocking. Frosted corn dries out very quickly and many leaves are lost in handling. Corn that is too dry will not pack well and requires a large amount of water at the time of filling.

The most important is the proper packing of silage so that air will not enter and cause mold. Enough water should be added to restore the moisture contents of the corn. Unless the corn is very green it is a good practice to wet the top of the silage thoroughly as soon as the silo is full and has been leveled off. This helps to pack the top layer and to lessen the spoilage.

Silage has been found to be well adapted as a feed for dairy cows, and silos are more numerous on farms devoted to dairying than on any other kind of farms.

Corn silage usually affects the flavor and odor of milk unless fed either just after milking or several hours before, generally twice a day.

Silage corn is also fed to calves, bulls, dry cows, beef cattle, sheep, lambs and to some extent to horses and mules. As it should be of good quality and carefully fed, but when mold appears, or when having been frozen, it should not be fed to horses or mules because of the danger of colic.

TIME

United States Eastern Standard Time is time of the meridian 75° west from Greenwich and is figured from Washington, D. C. When it is twelve o'clock noon at Washington, Eastern Standard Time, the clocks of the following cities are:

| | | | |
|--------------------------|-------------|----------------------------|-------------|
| Atlanta, Ga. | 11:00 A. M. | New Orleans, La. | 11:00 A. M. |
| Birmingham, Ala. | 11:00 A. M. | Omaha, Neb. | 11:00 A. M. |
| Boston, Mass. | 12:00 Noon | Philadelphia, Pa. | 12:00 Noon |
| Buffalo, N. Y. | 12:00 Noon | Pittsburgh, Pa. | 12:00 Noon |
| Binghamton, N. Y. | 12:00 Noon | Salt Lake City, Utah | 10:00 A. M. |

| Rome | 6:00 P. M. | Sitka, Alaska | 7:00 A. M. |

All places of longitude between 67½ and 82½ west uses eastern standard time.

All places between 82½ and 97½ west longitude uses central standard time.

All places between 97½ and 112½ west uses mountain time.

All places between longitude 111½ and 127½ west uses Pacific time.

Remember when daylight saving time is in use during the summer add one hour to the time change.

When it is noon in Washington, eastern standard time, it is 11 A. M., central time; 10 A. M., mountain time, 9 A. M., Pacific time.

All the tables and time in this Almanac are figured on Eastern Standard Time.

We can supply any of our customers that are interested in longitude the "Scientific Tables of Houses" in 3 volumes at 75 cents each volume, and send them parcel post charges paid. Volume No. 1, 25 to 36 degrees; Volume No. 2, 37 to 48 degrees; Volume No. 3, 49 to 60 degrees. They give the longitude and latitude of about 1,500 cities of the world, including all American cities with a population of ten thousand or more.

The twelve equal divisions of the Zodiac are called signs; each of them are divided into thirty "degrees," or days, and everyone is born in one of these signs.

Dr. MacDonald's book called "Secrets of Astrology Revealed," contains a table that shows at a glance what planet rules any year from 1898 to the year 2002, also important information in regard to weather, etc., for each planet year which follows this table. This book also gives the influence of each planet, their size, also the number of miles from the sun and all other information in regard to the planets.

This book contains other articles on astrology. It also contains Dr. MacDonald's perpetual calendar that tells the day of the week anybody was born from the years 1700 to 2000. Another table that tells a person's age, also a table to find the moon's age from 1814 to 1946. We suggest that you read our advertisement of this wonderful book on the inside front cover page of this Almanac and send us a Postal Money Order for \$1.50 and get a copy in the nice red cloth binding. It will be sent by mail all charges paid.

THIS ALMANAC IS COPYRIGHTED.

1930 CENSUS

We are publishing in this year's Almanac, by special request, the total population of the United States, including outlying territories and possessions, and the population of cities over 100,000. The figures below were taken from the Population Bulletin (first series) issued by the Department of Commerce, Bureau of Census, taken during the year 1930. This information is published for the benefit of the readers of MacDonald's Farmers Almanac and we are in no way responsible for errors or omissions.

ATLAS PRINTING CO.

| | |
|--|-------------|
| United States proper | 122,775,046 |
| Outlying territories and possessions | 137,008,435 |
| Alaska | 59,278 |
| American Samoa | 10,955 |
| Guam | 18,509 |
| Hawaii | 368,336 |
| Panama, Canal Zone | 39,467 |
| Philippine Islands | 12,082,366 |
| Porto Rico | 1,543,913 |
| Virgin Islands, U. S. A. | 22,012 |
| Military and Naval Service abroad | 89,453 |

We can supply you the 1930 population of any city, town or village in the United States of 1,000 or more inhabitants. Just tell us the name of the place, also the state it is in, with your name and address on a self-stamped envelope. This service is free.

| Habana, Cuba | 560,000 |

By special request we are again printing the special Time Page in this Almanac that shows the different time of cities throughout the country.

A great many of our customers write and want a copy of Dr. MacDonald's Almanac for 1906 which contained the article, "The Earth Is Flat." It has been a good many years now since we have had any of the 1906 Almanacs, but we have re-published this article, "The Earth Is Flat," in our book of Dr. MacDonald's "Secrets of Astrology Revealed," price in nice red cloth binding reduced to \$1.50 a copy. Sent by mail, postage paid. We do not have any copies of MacDonald's Almanacs later than 1918. We have a few copies of the 1922, our 25th anniversary edition, price 20 cents a copy. Be sure and write or print your name and address very plainly on all letters you send, also state in your letter just what you want to order. By doing these few little things, your letter will have prompt attention and your orders shipped at once.

Every day we receive lots of letters from our customers and friends asking questions of every sort. We try and answer most of these letters, but there are hundreds of people that write us who do not sign their name and address to the letters; others send us money in letters without any name or address. Some times the post mark is plain on the envelope and we can trace the person from the post mark.

Be sure and send all letters that contain money by registered mail, and send 10 cents extra to have your order returned by insured parcel post; and to foreign countries add 15 cents for registration.

TABLES OF PLANETARY HOURS FOR DAILY USE AND THEIR MEANING

By using the fortunate hours for general activity and matters of importance this information may be found helpful.

Every planet rules certain departments of life and each hour of any day after sunrise is ruled over by one of the planets, and this hour will be generally good or adverse according to the nature of the planet and the description of matters or things ruled by it. In choosing the time to begin enterprises or events of importance, business and travel it is well to do so in a good hour, as planetary hours are used by Astrologers and others with good effect and have been recognized for ages.

If you are deciding on doing anything connected with important matters or occupation ruled by the particular planet of any day or have business or experience coming under the general description of a certain planet, first determine which planet it would come under, then take the day that planet rules the first hour after sunrise and choose an hour ruled by the planet for your purpose as this will double the advantage in your favor.

Study the description of the different planets so that you may first know the one which your special business comes under. If you have a paper or contract to make and sign, this would come under Mercury, the planet ruling Wednesday, as this would prove more favorable than a Mercury hour on some other day. If sun rises at 6:16 A. M. on Wednesday, the 1st, 8th, 15th and 24th hours after sunrise would be the good planetary hours of Mercury.

Mars rules Tuesday. If you wanted to do something that came under the description of this planet and the sun rises at 6:10 A. M. the first good hours would be from 6:10 to 7:10, the second good hour from the 8th hour after sunrise to the 9th, or an hour.

If your ruling planet is Jupiter—and the description of the business matter you wish to consummate comes under Jupiter which rules Thursday, it would be especially favorable to you in these good Jupiter hours of this day.

No one is absolutely ruled by any planet or sign, but some people respond to the influence of different ones. Very few people govern themselves and are greatly influenced by conditions, each in proportion to the amount of their knowledge and the use they make of it, or the lack of it.

Sun—Planet of light rules Sunday. Good hours ruled by it after sunrise on each day of any week.

| Sun. | Mon. | Tues. | Wed. | Thurs. | Fri. | Sat. |
|------|------|-------|------|--------|------|------|
| 1st | 5th | 2nd | 6th | 3rd | 7th | 4th |
| 8th | 12th | 9th | 13th | 10th | 14th | 11th |
| 15th | 19th | 16th | 20th | 17th | 21st | 18th |
| 22nd | | 23rd | | 24th | | |

Description—In the good hours of this planet ask favors and make applications for employment of those in good position and authority, also of those in political and government office, and try for promotion. State your request or proposition to them plainly and earnestly. Good to ask favors of managers, employers and influential people. Send out advance notices and make public announcements. Seek that which is lost, give presents, think of others. A critical hour for those taken ill. This is not a good hour for other matters.

Moon rules Monday. Good hours ruled by it after sunrise on each day of any week.

| Sun. | Mon. | Tues. | Wed. | Thurs. | Fri. | Sat. |
|------|------|-------|------|--------|------|------|
| 4th | 1st | 5th | 2nd | 6th | 3rd | 7th |
| 11th | 8th | 12th | 9th | 13th | 10th | 14th |
| 18th | 15th | 19th | 16th | 20th | 17th | 21st |
| | 22nd | | 23rd | 27th | 24th | |

Description of Planet Moon. Favorable for affairs connected with groceries, drinks, fresh water fish, kitchen utensils, washing, nursing, journeys by water, gain by females, increase of trade and domestic matters, canning vegetables and juicy fruits, making cider, vinegar and slio corn. Deal with common people, new acquaintances, female officials, nurses, sailors, public salesman, and things of a liquid nature. Not counted a good hour to lend money, buy cattle or begin any building.

The first hour after sunrise on Monday is counted a double advantage to begin work or attend to matters described under the good aspects of this planet—Moon.

Mars rules Tuesday—Hours ruled by it after sunrise on each day of any week.

| Sun. | Mon. | Tues. | Wed. | Thurs. | Fri. | Sat. |
|------|------|-------|------|--------|------|------|
| 7th | 4th | 1st | 5th | 2nd | 6th | 3rd |
| 14th | 11th | 8th | 12th | 9th | 13th | 10th |
| 21st | 18th | 15th | 19th | 16th | 20th | 17th |
| | | 22nd | | 23rd | | 24th |

This hour rules courage, energy, ambition, and all work requiring pluck, perseverance, and endurance. This planet rules surgeons, dentists, machinists, soldiers, military men, engineers, carpenters and mechanical affairs generally. Good hours to study, investigate, attend to business connected with medicine, pharmacy, construction and to deal with animals, transportation, conduct business matters associated with structural iron workers, sewer builders, scavengers, lumberman, hardware dealers, stock raisers, barbers, agents, police, and to solicit and canvass. In this hour there is tendency to accidents, cuts, bruises, fires and inflammatory conditions and quarrels. Be careful. Safety First often saves suffering and expense. Not considered good for surgical operations.

☿ Mercury rules Wednesday. Planet of intelligence and mental activity. Hours ruled by it after sunrise on each day of any week.

| Sun. | Mon. | Tues. | Wed. | Thurs. | Fri. | Sat. |
|------|------|-------|------|--------|------|------|
| 3rd | 7th | 4th | 1st | 5th | 2nd | 6th |
| 10th | 14th | 11th | 8th | 12th | 9th | 13th |
| 17th | 21st | 18th | 15th | 19th | 16th | 20th |
| 24th | | | 22nd | | 23rd | |

Description of Planet Mercury. This hour rules friends, accounts, writing, interviews, correspondence, travel and study. Good for all mental work and matters connected with contracts, advertising, public matters, books, studies, speeches, lectures and education. Deal in merchandise, trade, buy or sell, send messages, begin journeys, lend or borrow money, ask favors from wealthy or prominent persons, begin building, plant or graft, deal with business men, commission merchants, distributors, newspapers, editors, reporters, printers, book and stationery concerns, teachers, students, lawyers, bookkeepers, architects, scientists, and young people. Good for dealing with neighbors, drawing up contracts and business generally. Not good to contract marriage in this hour.

♃ Jupiter—the great benefic rules Thursday. Good hours ruled by it after sunrise on each day of the week.

| Sun. | Mon. | Tues. | Wed. | Thurs. | Fri. | Sat. |
|------|------|-------|------|--------|------|------|
| 6th | 3rd | 7th | 4th | 1st | 5th | 2nd |
| 13th | 10th | 14th | 11th | 8th | 12th | 9th |
| 20th | 17th | 21st | 18th | 15th | 19th | 16th |
| | 24th | | | 22nd | | 23rd |

Description of Planet Jupiter. Good to deal with bankers, brokers, lawyers, clergymen, clothiers, merchants or provision dealers, commercial men and physicians, buy and invest, speculate, ask favors, begin new undertakings, journeys, lend or borrow money, buy cattle, propose marriage and see the way out of difficulties. If taken ill in this hour the blood or liver is apt to be affected, but the recovery will be quick. Good to sow all kinds of seeds and plant.

Good to leave home on any errand and have it end with success, especially during increase of moon as this hour gives usually good and correct judgment. Use this hour if in need of credit or in difficulty and within reason, but don't expect impossibilities.

♀ Venus rules Friday—Hours ruled by Venus after sunrise any day in each week. Time of sunrise to be taken from this Almanac.

| Sun. | Mon. | Tues. | Wed. | Thurs. | Fri. | Sat. |
|------|------|-------|------|--------|------|------|
| 2nd | 6th | 3rd | 7th | 4th | 1st | 5th |
| 9th | 13th | 10th | 14th | 11th | 8th | 12th |
| 16th | 20th | 17th | 21st | 18th | 15th | 19th |
| 23rd | | 24th | | | 22nd | |

Venus the Goddess of Love. Venus hours rule love affairs, courtship, and social matters, art, music, flowers, pleasure and all dealings with opposite sex. These hours are especially good when Moon is new to buy jewelry, ornaments, or clothing and are also good for any business connected with women, courtship, proposals, marriage or pleasure, refined entertainment, social and general prosperity and popularity. Good to cultivate new friendships, seek the favor of ladies, deal with confectioners, hotel keepers, housekeepers, restaurant managers, milliners, dressmakers, clothiers, tailors, artists, singers, actors, musicians, drapers, nurses, make collections and attend to all affairs of business.

Good to take medicine. Profit and gain may be obtained through dealings with things intended to please people. Taste for delicacies, amusement and matters associated with houses, lands and the fruits of the earth. Strive to make the most of this planetary influence in all affairs such as business, social or domestic matters.

♄ Saturn rules Saturday—The good hours ruled by it after sunrise on each day of any week.

| Sun. | Mon. | Tues. | Wed. | Thurs. | Fri. | Sat. |
|------|------|-------|------|--------|------|------|
| 5th | 2nd | 6th | 3rd | 7th | 4th | 1st |
| 12th | 9th | 13th | 10th | 14th | 11th | 8th |
| 19th | 16th | 20th | 17th | 21st | 18th | 15th |
| | 23rd | | 24th | | | 22nd |

Description of Planet Saturn. Favorable to occupation, positions of trust, responsibility, and executive work, matters connected with property, beginning a building, mines, leasing and attending to business affairs generally, plodding, laborious work, digging in the earth, planning, organizing, buying grain. Deal with farmers, coal men, shoemakers, leather dealers, plumbers, undertakers, real estate matters and affairs of a slow, serious nature, and seek the favor of elderly people. Not a good hour to lend or borrow money or fall sick in, as it threatens disease apt to be of long duration. Good to pay bills and close up matters that have been dragging along.

The Proper Time To Plant And Harvest

The proper time for planting is when nature has the earth ready and man has prepared the soil for crops as indicated by the signs of the heavens and when this Almanac shows the Moon to be in the right phase and Zodiacal sign.

The planting signs and the days the Moon is in them, as well as the signs for cultivating and destroying noxious growths are given on the page headed "Positions of the Moon." while the name of each sign and its symbol is given on the first page in this Almanac.

The twelve zodiacal signs in practical use for agricultural purposes with a dependable guide are

| | | |
|-------------|---|--------------------------------|
| Cancer | ♋ | Feminine watery signs |
| Scorpio | ♏ | Most fruitful of all |
| Pisces | ♓ | Best for all planting |
| Taurus | ♉ | Semi fruitful |
| Capricorn | ♑ | Earth and air signs |
| Libra | ♎ | Fair for planting |
| Sagittarius | ♐ | Tend to barrenness |
| Aquarius | ♒ | Good for cultivating |
| Aries | ♈ | Fair for destroying weeds etc. |
| Gemini | ♊ | Represents barren triplicity |
| Leo | ♌ | Leo most barren of all |
| Virgo | ♍ | Best for destroying weeds etc. |

Cancer the mother sign representing country and home, is the most productive of all the signs. Scorpio ranks next, with Pisces third. These are the feminine, fruitful, watery signs.

Taurus, Capricorn and Libra are in the second group. They are semi fruitful and are fair for planting, but Taurus is very good for potatoes and root crops; Capricorn fair. Libra produces vigorous pulp growth and roots and a reasonable amount of grain. Libra is good for flowers.

Sagittarius, Aquarius and Aries the third group are masculine, fiery and air signs and tend to barrenness. Sagittarius is used for onions and seeding of hay. Aries also for onions. Aquarius for cultivating,

Gemini, Leo and Virgo, all considered non-productive and barren, are the best signs for grubbing and destroying noxious growths, especially between the 1st and 20th of August, September, February or June and in old or fourth quarter of Moon. Gemini is used for string beans and cucumbers.

Always do your harvesting near "Full Moon and when it is in the Airy signs Gemini, Libra or Aquarius. The fiery signs Aries, Leo and Sagittarius are next best. Harvest all root crops when Moon is Full and growing old.

Gather seed at Full Moon and when it is in signs Cancer, Taurus, Libra, Scorpio, Pisces or Capricorn.

Celery does fine when planted while increasing Moon is in Libra as it makes quick growth. Flowers also do excellent when planted in this sign.

Use new and increasing Moon for planting and Full and old Moon for harvesting and cultivating.

POSITIONS OF THE MOON FOR THE YEAR 1932

| DAYS | JAN | FEB | MAR | APR | MAY | JUN | JULY | AUG | SPT | OCT | NOV | DEC |
|------|-----|-----|-----|-----|-----|-----|------|-----|-----|-----|-----|-----|
| 1 | ♌ | ♊ | ♋ | ♌ | ♍ | ♎ | ♏ | ♐ | ♑ | ♒ | ♓ | ♈ |
| 2 | ♌ | ♋ | ♋ | ♌ | ♍ | ♎ | ♏ | ♐ | ♑ | ♒ | ♓ | ♈ |
| 3 | ♌ | ♋ | ♌ | ♌ | ♍ | ♎ | ♏ | ♐ | ♑ | ♊ | ♓ | ♌ |
| 4 | ♊ | ♌ | ♌ | ♍ | ♎ | ♏ | ♐ | ♑ | ♒ | ♊ | ♓ | ♌ |
| 5 | ♊ | ♌ | ♌ | ♍ | ♎ | ♏ | ♐ | ♑ | ♊ | ♋ | ♌ | ♍ |

Moon enters some signs in early morning hours, others late in the day or evening hours. Moon is in a sign on continuous hours of two or three successive days. When Moon is rising, the sign it is in, is rising too.

As a number of our patrons write us regarding the apparent discrepancy between the above positions of the moon and those given in other Almanacs, we will explain the matter as follows: For all PLANTING and ASTROLOGICAL purposes the Moon's true place is in the SIGNS OF THE ZODIAC. Other Almanacs give the Moon's place in the constellations, which is not right for Planting or other Astrological operations.

ZODIAC IS GREEK WORD

The word zodiac comes from the Greek, meaning a circle of animals.

Planting Days For 1932

Vegetables, vines, plants and all things that produce their yield above the ground, such as peas, beans, tomatoes, lettuce, cabbage, etc., should be planted during the increase while the moon is in a fruitful sign such as Cancer, Scorpio or Pisces, especially during the second quarter or after the new moon is increasing. Do not plant on the day the moon changes quarters. The best days are:

| | Full Moon | New Moon |
|-------------------------------|------------|------------|
| January 2-4-11-12-21-22-29-30 | 23rd—A. M. | 7th—P. M. |
| February 7-8-17-18-25-26 | 21st—P. M. | 6th—A. M. |
| March 5-6-15-16-23-24 | 22nd—A. M. | 7th—P. M. |
| April 1-2-11-12-21-28-29 | 20th—P. M. | 5th—A. M. |
| May 8-9-17-18-26-27 | 20th—A. M. | 5th—P. M. |
| June 5-6-14-15-22-23 | 18th—A. M. | 4th—P. M. |
| July 2-11-12-29-30 | 17th—P. M. | 3rd—P. M. |
| August 7-8-17-26-27 | 16th—A. M. | 2nd—A. M. |
| September 3-4-12-13-22-23 | 14th—P. M. | 30th—A. M. |
| October 1-2-9-10-19-20-28 | 14th—A. M. | 29th—A. M. |
| November 6-7-16-17-25-26 | 13th—A. M. | 27th—P. M. |
| December 13-14-22-23-30-31 | 12th—P. M. | 27th—A. M. |

All crops that produce their yield down in the ground, such as potatoes, turnips, radishes and other vegetables should be planted when the moon is in the earthly signs, as Taurus or Capricorn, and during the old or decreasing of the moon, also do not plant on the day the moon changes.

The best days for planting and transplanting flowers are when the moon is in the fruitful signs—Cancer, Scorpio or Pisces. The following are good days: Jan. 2-3-11-14-21-30, Feb. 8-18-26, March 6-16-24, April 2-12-21-30, May 9-18-27, June 6-15-23, July 3-12-30, August 8-17-27, Sept. 4-12-14-23, Oct. 1-10-20-29, Nov. 7-17-26, Dec. 14-23-30. The above flower dates may be used for planting corn, wheat, barley and rye, also buckwheat.

The planting dates in the late winter and early spring are given for southern climates and hot house planting, also for buckwheat, timothy, seeding and winter grain.

The best days for destroying weeds, noxious growths and deadening trees are when the moon is in the signs of Sagittarius and Aquarius. Some good dates are July 14-18, August 10-15, Sept. 6-11, Oct. 4-8-30.

Page headed "Positions of the Moon" show the different signs the moon is in on any day of the month and should be referred to for all planting. Each calendar page in this Almanac gives the dates when the moon is new and in the first quarter (increasing), full and last quarter (decreasing).

IN ALL PLANTING

It is the moon's influence in the ecliptic, of the zodiac, that affects vegetation and it is the zodiacal influence and position of the moon which is taken into account by astrology.

Vegetable seeds planted in the barren or wrong signs of the moon produce plants which are deficient in the vital call-salts needed for health of the plant. By planting at the proper time you can save labor, have better yield and increased profits.

Harvest all root crops when the moon is growing old. They keep better and longer.

This Almanac gives the proper place of the moon for all planting and other purposes.

SETTING EGGS

Best days for setting eggs so that the chicks will hatch out when the moon is on the increase and in the most productive and vigorous sign, Cancer, are:

- January 20-27 to hatch out February 17-18.
- February 22-23 to hatch out March 15-16.
- March 19-20-21 to hatch out April 11-12-13.
- April 15-16-17 to hatch out May 9-10.
- May 14-15 to hatch out June 5-6.
- July 4-8-9 to hatch out July 29-30-31.

Chickens require 21 days, ducks and turkeys 28 days and geese 30 days.

FOR WEANING BABIES IN 1932 THE BEST DAYS ARE

To successfully wean a child, do so when the moon is in Aquarius, Capricorn or Sagittarius. The following dates are suggested:

- | | |
|-----------------------------|----------------------------|
| Jan. 4-5-6-7-9-31 | July 13-14-15-16-17-18 |
| Feb. 1-2-3-4-5-6-27-28-29 | Aug. 9-10-14-15 |
| Mar. 1-2-3-4-25-26-28-29-30 | Sept. 5-6-7-8-9-10-11 |
| April 22-23-24-25-26-27 | Oct. 3-4-5-6-7-8-30-31 |
| May 19-20-21-22-23-24 | Nov. 1-2-3-4-5-27-28-29-30 |
| June 16-17-18-19-20-21 | Dec. 1-2-24-25-26-27-28-29 |

Mac Donald's Farmers Almanac Calculations for 1932

CHRONOLOGICAL ERAS, 1932

The year 1932 comprises the latter part of the 156th and the beginning of the 157th year of American Independence.

It corresponds to the year 6645 of the Julian Period; the year 5962-5963 of the Jewish era, the year beginning at Sunset on October 1; the year 2685 since the foundation of Rome, according to Varro; the year 2592 of the Japanese era, and to the 21st year of the period Taisho; the year 1350-1351 of the Mohammedan era, or the era of the Hegira, the year 1351 beginning at Sunset on May 7; the year 2708 of the Olympians; the year 7440-7441 of the Byzantine era. The first day of January, 1932 is the 2,426,709th day since the beginning of the Julian Period.

The year 1932 corresponds nearly with the Chinese year 4632, or the 12th year of the 78th cycle of 60 years.

MORNING AND EVENING STARS, 1932

Mercury will be morning Star about January 10, May 8, September 3 and December 23 and Evening Star about March 23, July 20 and November 14.

Venus will be Evening Star till June 29 and then Morning Star the rest of the year.

Jupiter will be Morning Star till February 7, then Evening Star till August 26 and then Morning Star again the rest of the year.

CHRONOLOGICAL CYCLES, 1932

| | | |
|-----------------------------|---------------------------|------------------------------|
| Dominical Letter . . . C.B. | Epact 22 | Lunar Cycle or Golden No. 14 |
| Solar Cycle 9 | Roman Indication . . . 15 | Julian Period 6645 |

EMBER DAYS, 1932

February 17, 19, 20 May 18, 20, 21 September 21, 23, 24 December 14, 16, 17

ECLIPSES, 1932

In the year 1932 there will be four Eclipses, two of the Sun and two of the Moon.

I. An Annular Eclipse of the Sun, March 7. Invisible to North America. Visible to Australia and the South Polar regions.

II. A partial Eclipse of the Moon, March 22. The beginning visible generally in eastern Asia, Australia the Pacific Ocean, North America except the northeastern part and the extreme western part of South America; the ending visible generally in Asia except the southwestern part, Australia, Indian Ocean, Pacific Ocean and extreme northwestern part of North America.

III. A Total Eclipse of the Sun, August 31. Visible to North America, the northwestern part of South America and the North Atlantic Ocean. The path of totality crosses the northeastern part of North America in the vicinity of Montreal, Portland and Boston.

IV. A Partial Eclipse of the Moon, September 14-15. Invisible to the United States. The beginning visible generally in Europe, Africa, the eastern part of the Atlantic Ocean the Indian Ocean, Asia and Australia; the ending visible generally in the northeastern part of North America, South America except the northwestern part of the Atlantic Ocean, Europe, Africa, western Asia and the Indian Ocean.

FIXED AND MOVABLE FESTIVALS, 1932

| | | | |
|---------------------------------------|-------------|---------------------------------------|--------------|

WEATHER FORECAST FOR JANUARY, 1932

1st to 3rd—Fair and generally pleasant in western sections; cloudy with little hail and rain in region of Great Lakes and New England States; stormy and cool in southeast sections.
 4th to 6th—Cold west and northwest winds; considerable snow in the upper Missouri River Valley and to the east; rain, sleet and snow in the southwest and middlewest.
 7th to 9th—Cold weather at all points west, in the middlewest, the Lake region and New England; clear and cool in the south and southwest.
 10th to 13th—Cold weather continues throughout eastern sections; warmer with general rains on the Pacific slope; generally cloudy, with high winds and local snows east of the Rocky Mountains.
 14th to 16th—Cloudy, with high winds over southwest, and south Atlantic seaboard; light fall of snow and rather cold in New England States.
 17th and 18th—Cold and stormy in northern part of country; generally clear and pleasant at points south and south-east.
 19th to 21st—Clear and much colder in the Central, Lake and New England States; moderate cold spell on Pacific slope, with light frosts in California.
 22nd to 24th—Continued cold weather in northeast section; heavy snows in the mountainous sections of the northwest; unsettled and showers over southern Rocky Mountain regions.
 25th to 27th—Fair and colder west of the Rockies; rainy and disagreeable in Gulf States and southern Atlantic seaboard; clear and cold in New England States.
 28th to 31st—Stormy conditions throughout northern sections.

HINTS TO FARMERS FOR JANUARY

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA.

Prepare ground for plowing, cleanup, begin to feed the horses for spring work, feed a few carrots to the horses and mangels to the cows. Start hot beds.

JANUARY'S DISEASES.—This month we have the "January thaw." This change in the weather is responsible for a vast amount of sickness and death. Lagrip, coughs, colds, sore throat and catarrh, all lead to pneumonia and consumption. In nine cases out of ten diseases contracted this month lead to complications that last indefinitely.

DAILY GUIDE—JANUARY

This information is general for all persons born under any of the twelve zodiacal signs and applies to the daily affairs of this year only. Will power with fixed purpose, or set of purposes in any individual's daily affairs, may increase or modify the influence of the aspects whether for good or for evil. It is expected this daily guide may prove of useful service to all who are interested. Be aggressive in all you do and cautious in all matters of importance.

1. Unsettled, visit friends.
2. Good for business.
3. Good day, visit friends.
4. Avoid business deals.
5. Good for business, writing and advertising.
6. Good for journeys.
7. Unfavorable.
8. Unfortunate.
9. Push business.
10. Attend religious affairs.
11. Unimportant.
12. Uncertain.
13. Seek work and employment.
14. Be careful, you may be deceived.
15. Good for journeys.
16. Push business matters.
17. Visit the sick, go to church.
18. Push business.
19. Unfortunate.
20. Favors investments and money.
21. Write letters.
22. Avoid love affairs.
23. A poor day, attend to business.
24. Good day, visit friends.
25. Uncertain.
26. A day to be deceived.
27. Favor the old people.
28. Good for journeys.
29. Unfortunate.
30. Seek new friends, attend to business.
31. Attend religious duties.

ZODICAL TENDENCIES CAPRICORN PEOPLE

Born from Dec. 23 to Jan 19, any year

General characteristics. Capricorn is an earthy, movable, serving, feminine, negative sign. Expression, intellect, ambition, ideality. Rules knees and affairs of a public nature.

The man born in this sign is physically strong, talkative, industrious, persevering, generally practical and economical, somewhat particular, never easily discouraged, although often disappointed, careful, cautious, makes the most of his opportunities, and usually triumphs over circumstances, succeeds in farming, building and real estate, excels in story-telling. He is proud, passionate, suspicious, independent, fond of good living, affectionate to his own, selfish regarding them, severe on those who meddle in his affairs, subject to sudden spells of anger; not above manual work when necessary; has capacity for organization, quick to grasp an opportunity and with ability to plan and execute. Usually careful in all money and business affairs, and a promise is sacredly regarded. Leads rather an anxious life, not always successful, but will have more friends than enemies.

The woman born in this sign has a fine memory, makes a good teacher, is faithful and devoted in domestic relations, very sincere, not demonstrative, but has a hidden, intense and ardent nature. She will make a good wife and mother, but does not like to be interfered with in her household affairs, and never meddles with the affairs of others; usually more discreet than the man and knows how to make both ends meet; dislike flattery, but appreciates praise when she feels she has righteously earned it. She has fine taste in dress and in the arrangement of the home, and a good entertainer; subject to gloomy spells of depression and fits of despondency without apparent cause; nervous from overwork. When understood she is genial and really liked; is good-hearted and does for others more than is expected of her. She will have but little real trouble, not much sickness and but few children.

Both men and women will find congenial friends among people born in all of the signs, but for more intimate companions and partnerships look to those born in Virgo, Taurus or Libra, and those born about the same time of year as themselves.

The birthstone is the Turquois, favorite gems White Onyx, Moonstone, and the colors maroon, garnet, brown, silver, black.

WEATHER FORECAST FOR FEBRUARY, 1932

- 1st and 2nd—Stormy, with sleet and snow at most points; rain in Gulf States and south Atlantic seaboard; high winds and unsettled over the Lake region.
- 3rd to 5th—Generally cold in northern, central and eastern sections; freezing weather far to the south, with damaging frosts in California.
- 6th to 9th—Rainy on Pacific slope; light snows in Rocky Mountain region and states of Missouri River Valley; warmer with little snow and rain in Lake region and New England.
- 10th to 13th—Cloudy and more or less rain in Middle Atlantic and New England States; light winds and stormy and blizzard conditions locally throughout northwest; milder in southern sections.
- 14th to 16th—Rising temperature on Pacific slope and cold wave east of the Rockies; cold weather in eastern sections.
- 17th and 18th—Rising temperature in southwest and middlewest; fair conditions in southern and unsettled in north-east sections.
- 19th and 20th—Cold and rather blustery over Lake regions and New England; high winds in Gulf States and stormy and disagreeable throughout the northwest.
- 21st to 23rd—Mild and pleasant in states of the Pacific slope, middlewest, southern and eastern sections of the country; fair and moderately cool in the northwest.
- 24th to 25th—Generally cold; heavy snows east of the Rockies; severe cold in northern Rocky Mountain section and upper Missouri River Valley.
- 27th to 29th—Clear, cold and pleasant in Lake region and New England becoming milder; generally fair to other sections of the country with normal temperature.

HINTS TO FARMERS FOR FEBRUARY

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA

Look to the fences, clear up fallen trees, finish Winter pruning. Cattle and sheep must be kept dry and warm this month particularly.

FEBRUARY'S DISEASES.—In the North, February is the coldest month of the Winter. It offers new opportunities for catching cold and starting pneumonia and consumption. Rheumatism, sleeplessness, constipation and female troubles begin this month.

DAILY GUIDE—FEBRUARY

This information is general for all persons born under any of the twelve zodiacal signs and applies to the daily affairs of this year only. As there is a planetary law of nature governing all things with an orderly progression that merits considerate attention when applied intelligently to definite effort in every day life, it is expected this daily guide may prove of useful service to all who are interested.

1. Seek work and employment.
2. Good day.
3. Uncertain.
4. Favor business.
5. Beware of fraud.
6. Look for new business.
7. Visit friends, good day.
8. Be careful.
9. Good for social affairs.
10. Favor real estate deals.
11. Good day to travel.
12. Uncertain.
13. Attend to business.
14. Go to church.
15. Good for land deals.
16. Good day.
17. Good for work and employment.
18. Avoid business affairs.
19. Unfortunate.
20. Good for business and money matters.
21. Keep quiet.
22. Poor day.
23. Good for old people.
24. Unfavorable.
25. Be careful.
26. Push business.
27. Good for all business.
28. Do not do anything important.
29. Good day, write letters.

ZODICAL TENDENCIES AQUARIUS PEOPLE

Born from Jan. 20 to Feb. 18, any year

General characteristics. Aquarius is a fixed, masculine, positive, serving, airy sign. Expresses will, power, purpose, rules ankles, pleasure, happiness, mentality.

The man born in this sign has a pleasant, friendly, generous, patient, determined nature; strong likes and dislikes; often very radical and advanced in his ideas; easily influenced by kindness; generally well liked but should be careful regarding friendships and guard against the baleful influence of fascinating types of the opposite sex. He is rather slow to anger, will not be driven, loves liberty, and is fond of occult research, art, music, literature and scientific studies. He is capricious, egotistical, inclined to worry over small affairs; will travel some. His mental quickness makes him very apt in any trade or profession; is adapted to the minor business pursuits and his possibilities in life are good if he improves his opportunities, as he can succeed in almost any line of work he may decide to do.

The woman born in this sign is faithful and devoted in home life and to her friends, but when her confidence is abused she is apt to become treacherous and cruel. She is intuitive, fond of society and likes to dress well; has common-sense views, quick understanding and usually wins the respect and admiration of others; has great power over men for good. She is very industrious, honest, and could succeed in any vocation she might apply herself to; is careful in money matters, careless about promises; has many friends and thinks much of them, also her relations; generally marries well; is a credit to her husband and usually is happy and contented with her family.

Those born under this sign have magical ability to heal and to control insane people. Congenial and business companions will be found in Aries, Leo, Capricorn and Sagittarius born, but marriage partner is best with those born in Aquarius or Libra.

Gems, Amethyst, Sapphire, Opal, Carbuncle, and the colors blue, Nile green and salmon pink.

WEATHER FORECAST FOR MARCH, 1932

- 1st to 3rd—Generally fair, with frosty nights and mornings in the states of the far west and middlewest; cloudy and threatening in eastern sections, with little snow in New England States.
- 4th to 6th—Stormy weather generally in western, central and northern sections of the country; zero temperature in states bordering on Canada; blustery in states of the southwest.
- 7th to 9th—Stormy, with high winds, rain, sleet and snow in Rocky Mountain region and northwest; unsettled in Middle Atlantic and New England States, with high winds along Atlantic coast.
- 10th to 12th—Cold winds, with sudden fall in temperature over states of the northwest, Central, Middle Atlantic and New England States; clear and cool at the south.
- 13th and 14th—Rising temperature in the west, middlewest and eastern states; cloudy conditions at points to the south, with more or less rain in the Gulf States.
- 15th and 16th—Generally fair and warmer to most sections of country, sunny days and clear nights.
- 17th to 19th—Warm and pleasant in the Middle Atlantic and New England States; snow melting fast; cloudy to variable conditions over states of the northwest, southwest and Lake region.
- 20th to 23rd—Moderate and pleasant in eastern sections; rain on Pacific slope; cold rains, turning to heavy sleet and snow in Rocky Mountain regions.
- 24th to 27th—Warm on Pacific slope and cool and frosty to eastward; windy along south Atlantic coast.
- 28th and 29th—Cool in northern sections and somewhat warmer at the south.
- 30th and 31st—Generally clear, moderate and pleasant to most sections.

HINTS TO FARMERS FOR MARCH

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA.

Plow early soils, sow early oats, potatoes, peas, spinach, radishes and set onions. Prepare compost manures. Top dress grass and lawns. Prune trees, shrubs and vines, graft fruit.

MARCH'S MISERIES.—There is no more disagreeable month in the year. It is a hard one on elderly people. Warm days and cold ones, bright sunshine and terrible storms. The great struggle between Winter and Summer takes place this month and woe to the person who is taken sick at this time, for they seldom recover. The blood is thick and sluggish from feeding on concentrated foods. Fever, blood disorders, headaches, and general debility will so weaken the system that any contagion may be contracted.

DAILY GUIDE—MARCH.

This information is general for all persons born under any of the twelve zodiacal signs and applies to the daily affairs of this year only. Will power with a fixed purpose, or set of purposes in any individual's daily affairs may increase or modify the influence of the aspects whether for good or for evil. It is expected this daily guide may prove of useful service to all who are interested. Be aggressive in all you do and cautious in all matters of importance.

1. Good for business.
2. Uncertain.
3. Avoid old people.
4. Travel.
5. Good for business and social matters.
6. Be careful, go to church.
7. Make new plans.
8. Write letters to old people.
9. Travel for business only.
10. Be careful, disappointments.
11. Favor love affairs.
12. Seek work, push business.
13. Visit friends.
14. Unfavorable.
15. Unfortunate.
16. Good day.
17. Push business.
18. Good day.
19. Push business, buy and sell.
20. Be quiet.
21. Be careful.
22. Good for business.
23. Deal with old people.
24. Visit the sick.
25. Unfortunate (Good Friday).
26. Deal with older people.
27. Good for religion (Easter Sunday).
28. Favors children, write letters.
29. Unfortunate.
30. Visit friends.
31. Be careful.

ZODICAL TENDENCIES

PISCES PEOPLE

Born from Feb. 19 to Mar. 20, any year

General characteristics. Pisces is a mutable, dual, fruitful, feminine, negative, serving, watery sign. Expresses emotion, flexibility, restlessness, rules feet and females in marriage.

The man born in this sign is faithful, timid, sympathetic, loving, honest, industrious, neat, particular, loves order and completeness, fond of mystery, romance, music and beautiful scenery; fears ridicule, is restless, inquisitive, apprehensive, self-contradictory, critical, positive in opinion and generally puts too much confidence in the words and promises of friends, when opposed becomes obstinate and disagreeable; generally successful in any mechanical trade or profession which requires fine finish and attention to detail; likes roaming but not new ventures; finds it difficult to change habits, customs and beliefs, but likes change of scene and travel; worries over trifles; is faithful and inclined to be exacting in domestic affairs; likes to make those dependent upon him happy and comfortable; would be more successful in partnership than in individual undertakings. Choice of occupation is wide and generally leads to moderate success in agriculture, labor, trade or profession.

The woman born in this sign is an excellent housekeeper and orderly, untiring in her efforts to accomplish something; inclined to the habit of self-censure and lacks self-reliance; allows her imagination to go to extremes at times, judging wrongly, and serious trouble is the inevitable result through her heart-breaking anxiety and foolish emotions. She is kind-hearted and loving, sensitive and exacting; faithful in domestic life, likes all that is good and refined; does not show her affections openly, is apparently stubborn at times, but easily coaxed, too generous and sympathetic. She is destined to have a large family and to live to an advanced age; generally marries more than once, is fond of talking, change of scenery and recreation; remembers clearly anything seen in which she takes an interest.

Gems, Bloodstone, Chrysolite, Pink Shell, Moonstone. Colors, emerald, green, pink, white and black.

The most congenial companions are perhaps found in Capricorn and Virgo people. But for the woman of this birth sign, the Cancer born man would suit best, generally.

WEATHER FORECAST FOR APRIL, 1932

- 1st to 3rd—Cool wave, with killing frosts in many sections of the west and middlewest; clear, warm and pleasant in New England States, and cloudy and warm at the south.
- 4th to 6th—Much rain over the south and southwest; light rains and high winds in the northwest and over Lake region; moderates and rainy in New England States.
- 7th to 8th—Generally fair and mild in the far west, southwest and middlewest; genial conditions in the south and east.
- 10th to 12th—Cold nights and mornings in sections of the north and middlewest; killing frosts at many points in the northwest; strong winds in the states bordering on the Gulf.
- 13th to 15th—Mild on Pacific slope; thunderstorms in the states of the Missouri River Valley and windy and unsettled in the states bordering on Mexico.
- 16th to 19th—Cloudy and quite cold in the Lake region and New England; fine, pleasant weather to practically all points in the west; windy and showery in southeast section.
- 20th to 23rd—Soft, mild conditions on the Pacific slope; windy, with rain or snow in the states of the Missouri River Valley; rain at frequent intervals in New England States.
- 24th to 26th—Generally fair and normal in the northeast, middle and northwest sections; mild and Spring-like in the states bordering on Mexico, with occasional showers.
- 27th to 30th—Quite warm and clear, becoming somewhat variable in the Lake region and New England; rather unsettled in western sections, with light rains.

HINTS TO FARMERS FOR APRIL

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA.

Sow wheat, barley, rye, peas, beans and oats. Transplant cabbage, lettuce and sow all spring vegetables. Horses require full allowances of feed this month. Plant potatoes and shrubs, vines, etc.

APRIL'S AFFLICTIONS.—April is not so much of a month to contract disease as it is to convalesce. If you have escaped disease thus far in the year you should now begin to "clean up." Malaria, boils, bilious attacks, blood diseases, catarrh and skin eruptions begin to show; neuralgia and nervous troubles generally will add to the pangs of other disorders.

DAILY GUIDE—APRIL

This information is general for all persons born under any of the twelve zodiacal signs and applies to the daily affairs of this year only. Will power with a fixed purpose, or set of purposes in any individual's daily affairs may increase or modify the influence of the aspects whether for good or for evil. It is expected this daily guide may prove of useful service to all who are interested. Be aggressive in all you do and cautious in all matters of importance.

1. Write letters.
2. Push business.
3. Good day.
4. Good day, seek work.
5. Good for money matters.
6. Good day.
7. Good day.
8. Deal with old people.
9. Push business.
10. Go to church.
11. Good for business.
12. Sell only.
13. Uncertain.
14. Unfortunate.
15. Push business.
16. Good for business.
17. Sunday (good day).
18. Unimportant.
19. Deal with old people.
20. Uncertain.
21. Avoid land deals.
22. Be careful.
23. Push business.
24. Go to church.
25. Good day.
26. Avoid accidents.
27. Postpone important matters.
28. Push business.
29. Good day.
30. Good for business.

ZODICAL TENDENCIES ARIES PEOPLE

Born from March 21 to April 19, any year

General characteristics. Aries is a masculine, positive, cardinal, fiery, equinoctial sign. Erpresses ideality, ambition, intellect, rules head, face, friends and relatives.

The man born in this sign has mental energy, more or less headstrong or impulsive ambitions, full of enterprise and new ideas, is persistent, determined, self-willed, dislikes a master; quick to resent abuse or imposition, but forgiving and will not hold a grudge for long; liable to go to extremes through indignation, hasty speech or lack of discretion. Is at his best when in an executive position. He is very generous, though quite set in his way, stubborn and harsh at times and inclined to be careless in his statements. Generally marries a good woman, but not an early marriage, has a long lease on life; is active in the direction of the public good, and faithful to friends, but does not easily forgive an enemy. Loses his finest opportunities through anger and by not carefully considering all things before engaging in an enterprise.

The woman born in this sign is high-strung, especially capable, but very impatient and irritable under restraint and does best when left to her own methods. She likes a wide range of activity, is shrewd and in business matters should trust to her own intuition. She is a splendid companion, likes music, dancing, home games and outdoor sports. She should be careful in confiding secrets, is easily deceived by those she loves, is respected and honored by the opposite sex and generally has several love affairs favorable to herself. She is apt to marry more than once and while she makes a good wife, she is naturally inclined to business and often engages in it. She has decided ideas, is very generous, but apt to consider her own interests first. She destroys her best talents by hasty judgment, quick temper and jealousy; will frequently find herself mistaken.

Gems, Diamond, Amethyst, and the colors pink, white. Best conjugal mates, Leo and Sagittarius persons, but you would also mate well with your own sign and find pleasant companions in those born in it.

WEATHER FORECAST FOR MAY, 1932

- 1st to 3rd—Cool and pleasant, with heavy frosts in upper Missouri River Valley; mild and pleasant in Middle and Southern States; warm and cloudy, with considerable rain in New England States.
- 4th to 7th—Clear and warm, followed by cooler weather and little rain over Lake region, Middle Atlantic States and New England; local thunder showers in west and middlewest.
- 8th to 10th—Much warmer at all points in the southwest and middlewest, the Gulf and Middle Atlantic States; generally cloudy, with more or less rain in northeast section.
- 11th to 13th—Fair and cooler in the Rocky Mountain sections and to the east; clear, warm and very pleasant in the Gulf States.
- 14th to 18th—Very hot in all southwestern sections; showers probable in states of the Rocky Mountains, and fair and cooler in states bordering on Canada.
- 17th to 19th—Cool nights and mornings in the northwest and middlewest; warm, with little rain over the Great Lakes and states of the northwest.
- 20th to 24th—Warm and pleasant sunny days and pleasant nights in parts west of the Mississippi River; more or less rain at frequent intervals throughout New England.
- 25th to 27th—Clear and warm in the Middle Atlantic and Southern States; thunderstorms in the states of the Missouri River Valley and Rocky Mountains.
- 28th to 31st—Generally mild and pleasant with showers in scattered localities.

HINTS TO FARMERS FOR MAY

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA.

All the principal crops should now be planted, all tender vegetables can now be set out without danger, such as corn, beans, cucumbers, celery and asparagus. Finish planting flowers and shrubs. Look after calves and lambs during cold, chilly storms. Set eggs.

MAY'S MORTALITY.—May is an unfortunate month for the sick. More people die in May than in any other month in the year.

DAILY GUIDE—MAY

This information is general for all persons born under any of the twelve zodiacal signs and applies to the daily affairs of this year only. Will power with a fixed purpose, or set of purposes in any individual's daily affairs may increase or modify the influence of the aspects whether for good or for evil. It is expected this daily guide may prove of useful service to all who are interested. Be aggressive in all you do and cautious in all matters of importance.

27. Visit the sick.
28. Unfortunate, attend to business.
29. Be quiet, avoid accidents.
30. Be careful, day of recreation, avoid accidents.
31. Good for travel.

ZODICAL TENDENCIES

TAURUS PEOPLE

Born from April 20 to May 20, any year

General characteristics. Taurus is a fixed, earthy, intellectual, feminine, negative sign. Expresses will, power, purpose, rules the neck, throat, also travel.

The man born in this sign is firm, self-reliant, persistent, determined, secretive, reserved and courageous; when angered, furious, headstrong and unyielding. He is slow, patient, plodding, has great physical vitality, sincere, reliable, a faithful friend, steadfast and loyal when put to the test and real necessity arises, but abusive, even to friends when excited or angry. Has keen intuition in all that pertains to practical business, makes few blunders; has good executive ability, also makes a good agriculturist. He is more fortunate in money matters than in love affairs; prefers strangers to relatives; likes to have his own way and is generous in so doing, inclined to interfere in other people's affairs which causes him to be much disliked. He generally lives to old age, has but few real friends and many enemies; likes pleasure and high living, often occupies high positions and becomes wealthy.

The woman born in this sign has a warm-hearted, generous, clinging nature; always ready to bear the burdens and sorrows of those she loves; is an excellent housekeeper, and does not dislike manual labor, but is more fond of a life of ease and pleasure than one which calls for great activity. She will succeed well in lines that pertain to women's affairs. When angered, she becomes furious and says just what she means, regardless of consequences. She should guard against being led away, or misled through sympathetic feeling or flattery. She is careful and economical, has good opportunities for marriage, sometimes makes a mistake, gets a penurious husband and the domestic life is then unhappy. Divorce and second marriage are the consequence and happy result.

Most congenial partner will be found in Virgo and Capricorn born and not infrequently in Libra.

Gems, Moss-Agate, Emerald, and the colors red and yellow.

WEATHER FORECAST FOR JUNE, 1932

- 1st and 2nd—Rising temperature over states of middlewest, Lake region and Atlantic slope; dry and dusty in many sections of south and southwest.
- 3rd and 4th—Fair and cooler in western sections; sweltering heat felt in all sections of Southern and Middle Atlantic States; variable weather in northeastern section.
- 5th to 7th—Rain and wind in states of northwest; thunderstorms over the Great Lakes and points eastward; showery in western, central and Middle Atlantic States.
- 8th to 10th—Increasing heat and general sultriness in states of south, middlewest and the east; dry and dusty in all sections of southwest.
- 11th to 13th—Clear and warm in Lake region and New England; some very warm weather, windy and unsettled to most of the northwest and southwest with light rainfall.
- 14th to 17th—Great heat throughout southwest, with violent thunderstorms, heavy hail and damaging winds; thunder showers, clearing cool in New England and Middle Atlantic states.
- 18th to 20th—Clear and cooler in most of northern sections; clear, continued hot throughout south and southwest.
- 21st to 23rd—Sweltering weather conditions at most points over New England, central Atlantic states and middlewest; hot and sultry and want of rain felt in states bordering on Mexico.
- 24th to 26th—Occasional showers in northern sections from Missouri River eastward; hot, with sand storms in many sections of southwest.
- 27th to 30th—Generally warm and dry, with showers in mountain sections.

HINTS TO FARMERS FOR JUNE

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA.

Plant all Fall vegetables, potatoes, turnips, carrots, pumpkins and cabbage. Haying and harvesting will now begin. Look after the berries.

JUNE'S DISEASES.—The diseases prevalent this month are mostly of the stomach and liver, dyspepsia, indigestion, inflammations and eruptions. This is the month that cancers and tumors develop. Purify and enrich the blood and drive out all impurities with a good cathartic and you will avoid the diseases of June.

26. Be quiet, attend church.
27. A day of surprises.
28. Ask favors.
29. Seek new friends.
30. Push business, deal with older people.

ZODICAL TENDENCIES GEMINI PEOPLE

Born from May 21 to June 20, any year

General characteristics. Gemini is a mutable, dual, barren, human, masculine, positive, intellectual, airy sign. Expressions emotion, flexibility, restlessness. Rules arms, hands, shoulders, collar bone and lungs, friends and enemies.

The man born in this sign is kind-hearted, sympathetic, affectionate, fond of home and children, loves change and diversity; has an active mind and can be relied upon in an emergency. Always likes to be busy, has a doubtful nature, hard to understand, but versatile, dextrous and skillful with the hands and has considerable mechanical ability, generally a good writer and capable of filling important positions, inclined to be too generous and superficial. He is fond of the opposite sex, fickle in his affections, but loves only one woman at a time; likes education, travel, has many friends and some secret enemies through jealousy, is apt to pass judgment on others and without considering his own faults. Can easily adapt himself to any environment.

The woman born in this sign is a natural home-maker likes everything that is artistic and beautiful, is affectionate, and thoughtful for the comfort of others; likes to be doing several things at a time owing to her impatient nature; is too generous for her own good; seeks frequent changes when employed; makes a good teacher and can do almost anything in clerical and millinery lines. She is very active and inclined to worry, easily influenced, somewhat jealous, and suspicious, generally attractive. Has powerful imagination, and quick to grasp the thoughts and schemes of others. Honesty with her is a virtue; liable to go to extremes, but can adapt herself to most any condition in life. Ill health is usually brought on by too much activity, excitement and over-work mentally and hysteria is one of the dangers. She should keep free from anxiety, worry and nervousness and get plenty of sleep.

You will find helpful and devoted friends in Virgo and Aries born, but your conjugal mate, if your restless nature finds one, will be best in Libra, Aquarius, or your own sign.

Gems, Beryl, Aquamarine and the colors red, white and blue.

WEATHER FORECAST FOR JULY, 1932

- 1st to 5th—Cool nights and warm, sultry days over western and central sections; clear and agreeable, followed by showers, and clearing cool in the region of the Great Lakes and New England; unsettled along the Gulf border and the south Atlantic Ocean.
- 6th to 8th—Violent thunderstorms and showers in all the states of the Missouri River Valley and many states eastward to the Atlantic seaboard; cool, dry and pleasant on the northern Pacific slope, but great heat and drouth at the south.
- 9th to 11th—Warm and sultry weather general at this time, dusty, dry and parching weather over the middlewest and southwest; local showers in the Gulf states and New England.
- 12th to 18th—A spell of extremely hot weather in the New England and Middle Atlantic States, with probably many prostrations; drouth and dust common to most of the states west of the Mississippi River.
- 19th to 22nd—Showers and thunderstorms in states of the Missouri River Valley and northeast section of country; great heat in Gulf States; wind and dust storms in middlewest and southwest sections.
- 23rd to 27th—Severe thunderstorms over the south Atlantic and Gulf States; warm and generally fair on the Pacific slope and to the eastward; clear and very hot in the New England and Middle Atlantic States.
- 28th to 31st—Hot weather continues in many sections, with local thunder showers and damaging high winds.

HINTS TO FARMERS FOR JULY

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA.

Make pickles, transplant cabbage, hoe corn and potatoes, bank up celery, propagate your plants by slips and cuttings. Harvesting is now over. Wash and shear sheep.

JULY'S TROUBLES.—This is also a bad month for people with weak stomachs, as a consequence the list of "Summer Diseases" is large. Diarrhoea, dysentery, sunstroke, insomnia and vertigo prevail.

DAILY GUIDE—JULY

This information is general for all persons born under any of the twelve zodiacal signs and applies to the daily affairs of this year only. As there is a planetary law of nature governing all things with an orderly progression that merits considerate attention when applied intelligently to definite effort in every day life, it is expected this daily guide may prove of useful service to who are interested. We suggest that it be referred to daily.

1. Do not quarrel.
2. Good for money matters, buy and sell.
3. Good day, travel, marry and seek friends.
4. Avoid travel, accidents, loss and fire.
5. Unfortunate.
6. Push business.
7. Good for money matters.
8. Unfortunate.
9. Deal in real estate with older people.
10. Travel, write letters.
11. Avoid strangers.
12. Unfortunate.
13. Seek employment.
14. Uncertain.
15. Good for business.
16. Uncertain, attend to business.
17. Avoid travel.
18. Unfortunate.
19. Look for work, sell.
20. A good day, sell, not buy.
21. Write letters, sign contracts.
22. Unimportant.
23. Uncertain.
24. Unsettled, be quiet.
25. Push business.
26. Unimportant.
27. Deal in real estate.
28. Unsettled.
29. Uncertain.
30. Good for recreation, travel.
31. Be quiet.

ZODICAL TENDENCIES CANCER PEOPLE

Born from June 21 to July 21, any year

General characteristics. Cancer is a watery, cardinal, tropical, fruitful, feminine, negative, maternal, movable sign. Expresses intellect, ambition, ideality. Rules breast, stomach, health and life.

The man born in this sign is quiet, reserved, highly sensitive, versatile and changeable; has many ups and downs and changes of occupation; loves nature, adventure and strange experiences; is industrious, frugal, attached to home and family, influenced greatly by surroundings; is mediumistic and very conscientious, painstaking often to a fault, is fond of saving, too careful in detail and lacks faith in the future. He has much mechanical ability and executive force, slow to adopt new methods. He is lively, fond of women, show and dress, forgives an injury but does not forget it. He generally marries well, does not want or becomes very wealthy, lives to good age and loses friends through his own actions towards them. Succeeds best in pursuits in which the public is interested, or in occupations connected with the sea or liquids.

The woman born in this sign has a merry disposition, is fickle in love affairs, gay and talkative, but makes a devoted wife and mother, a good housekeeper, neat and orderly. She is generally active in church work, modest, conscientious about giving advice, possesses much dramatic and musical ability, with artistic talent, parsimonious in living expense; likes all kinds of amusements, fond of dress, display and jewels. She generally marries more than once, is destined to have a large family, is passionate and emotional, kind-hearted and can easily put up with inconveniences. Inherits money or property from relatives. Liable to suffer from weak stomach, gastric troubles, and worry concerning family and domestic affairs. She should be very careful in choosing her mate to save future unhappiness. Those born in Pisces or her own sign make the best conjugal marriage partners. The man will find his is Pisces, Virgo, or Libra born. These people need the marriage experience to bring out the higher qualities of love and equality.

WEATHER FORECAST FOR AUGUST, 1932

- 1st to 3rd—Warm and dry in states of southwest and middlewest; wind and bluster in states of Pacific slope; unsettled and threatening in Lake region.
- 4th to 6th—Unsettled, with thunder showers in New England States; high winds common throughout the southwest, with local thunder showers in high Sierras and Colorado River Valley.
- 7th to 9th—Warm, dry spell on Pacific slope; muggy and oppressive in Gulf and south Atlantic States; warm, with thunder showers in Lake region.
- 10th to 13th—Local rains in southeast section; hot winds and dust storms over drouth stricken areas of southwest; unsettled and showery in states bordering on Great Lakes.
- 14th to 17th—Warm wave, with local showers in middlewest, Missouri River Valley and states of Rocky Mountains; pleasant on Pacific slope.
- 18th to 20th—Fair and much cooler over Rocky Mountain highland and northwest and middlewest; cool nights over all southern and eastern sections.
- 21st to 23rd—Hard northeast storm, followed by variable weather and quite warm in New England States; cloudy and windy in western sections and very dry on Pacific slope.
- 24th to 27th—Showers in the Rio Grande Valley, clearing cool but dry and very dusty; rain in Gulf and Atlantic coast states; variable conditions in Central States and Lake region.
- 28th to 31st—Fair and much cooler in northern and northwestern sections and windy in mountain sections; fine and balmy in southern sections.

HINTS TO FARMERS FOR AUGUST

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA.

Sow turnips, hoe and cultivate corn and potatoes. Look well to the dairy and fodder. Pack eggs, feed the pigs plenty of green vegetables.

AUGUST AILMENTS.—There is no time in the year when the effects of the weather are felt so much as in August. The blood gets overheated and ferments. Heart disease, fevers and agues prevail, food spoils easily and causes bowel troubles. There is no reason why people should suffer so much more this month than any other.

DAILY GUIDE—AUGUST

ZODICAL TENDENCIES

LEO PEOPLE

Born from July 22 to Aug. 21, any year

General characteristics. Leo is a fixed, barren, masculine, positive, fiery sign. Expresses will power, purpose. Ruies heart, blood, nerves, prosperity, losses and pleasure.

The man born in this sign is active in mind, good-natured, generous, ambitious, independent, determined, honest, outspoken and very conscientious; quickly angered but quickly appeased; has many friends, is a natural leader and good story-teller. He is haughty, mischievous, impetuous, domineering, generally well built and pleasing in appearance, acts from the heart rather than the head; inclined to jump to conclusions. He usually is successful in business ventures; often attains popularity when holding positions of authority, unselfish in money matters, but saving, seldom refuses favors, but expects to have his own way in matters of opinion. He has considerable mechanical skill, never spares himself when interested in his work; is better adapted to mental activity and positions of power and authority than to manual labor; has good judgment, generally a long life and becomes more fortunate as he grows older.

The woman born in this sign is apt to be quiet, most intensely loving and sympathetic to her husband and children, with good will for all, a model housekeeper and fine cook. She is genuinely hospitable, but the friend or relative who injudiciously trespasses on her domains or maternal rights is no longer a welcome visitor; is well thought of by her neighbors, but will fight for her children on the slightest provocation. She is generally very attractive, courageous and virtuous, has a well-pleasing manner in speech and action, but is sometimes misunderstood and not appreciated. When faith or love is lacking there will be no harmony in the home, and nervous irritability and indifference will result. This sometimes causes separation, divorce, or unfaithfulness on the part of lover or husband. She lives to a good old age, has but few children and not much sickness. She will find her best mate in Aries and Leo born man. The man mates well with the woman born in Aries or Sagittarius.

Gems are Ruby and Diamond, and the colors, red and green.

This information is general for all persons born under any of the twelve zodiacal signs and applies to the daily affairs of this year only. As there is a planetary law of nature governing all things with an orderly progression that merits considerate attention when applied intelligently to definite effort in every day life, it is expected this daily guide may prove of useful service to all who are interested.

1. Unsettled.
2. Plan new business.
3. Very fortunate.
4. Unimportant.
5. Avoid love and courtship.
6. Attend to business.
7. Be quiet, do not travel.
8. Good, buy or sell.
9. Unfortunate.
10. Unfortunate.
11. Make new plans, travel.
12. Do not deal with the opposite sex.
13. Unfortunate.
14. A quiet day, stay at home.
15. Unfortunate.
16. Do not speculate.
17. Good for social matters and love.
18. Uncertain.
19. Deal with the older people.
20. Unfortunate.
21. Travel, visit new places.
22. Fortunate.
23. Favorable.
24. Do not make promises.
25. Good for sport and pleasure.
26. Good day for business.
27. Look for work.
28. Be quiet.
29. Good for business.
30. Write letters, sell.
31. A good day.

WEATHER FORECAST FOR SEPTEMBER, 1932

- 1st to 5th—Pleasant weather, with cool nights and warm days in northwest and southwest sections, hot and sultry in southern and south Atlantic States; variable, with local showers in Lake region.
- 6th to 9th—Very warm, with occasional showers and thunderstorms in the Missouri River Valley; cool, dry and pleasant on the Pacific slope, hot and dry in southern sections.
- 10th to 12th—Cloudy and hot, with thunder showers in the Middle Atlantic and New England States; unsettled and rainy over the upper slopes of the Sierra and Cascade Mountains.
- 13th to 15th—Mild and pleasant in most of the sections west of the Mississippi River; bright and fair over the Central States, and quite warm in the Gulf States.
- 16th to 19th—Cooler and cloudy in Lake region and New England; stormy and unsettled in southern sections and northwest; high winds in southwest and rainy over slopes of Sierra Mountains.
- 20th to 22nd—A cool wave, with killing frosts in the northwest; generally cool, with local rains in the New England and Middle Atlantic States; much cooler with high winds in the Gulf States.
- 23rd to 26th—Windy and rough weather, light rains quite general in states bordering on Mexico; very pleasant on Pacific slope; clear and cool, with frosts in Lake region and New England.
- 27th to 30th—Cool and pleasant in the middlewest and west; cloudy and more or less rain in northeast section.

HINTS TO FARMERS FOR SEPTEMBER

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA.

Harvesting should now be about over, except for fruits, etc. Hand-hoe root crops, get cabbage in and potatoes dug this month. Insure all farm buildings and crops.

SEPTEMBER'S SYMPTOMS.—September is the "Fever Month." You may have passed through the Winter, Spring and Summer without trouble, but look out for September's symptoms. That languid feeling, you feel miserable. Your bowels are not right, your flesh feels hot, skin is dry and tongue is coated. These symptoms must not be ignored; unless attended to at once you will be laid up for weeks, if not forever.

DAILY GUIDE—SEPTEMBER

This information is general for all persons born under any of the twelve zodiacal signs and applies to the daily affairs of this year only. As there is a planetary law of nature governing all things with an orderly progression that merits considerate attention when applied intelligently to definite effort in every day life, it is expected this daily guide may prove of useful service to all who are interested.

1. Meet new friends.
2. Good day.
3. Do not travel.
4. A sad day, beware of accidents.
5. Good day, travel but avoid accidents.
6. Deal with older people.
7. Very unfortunate.
8. Write letters, do new things.
9. Good for money matters.
10. Very bad day.
11. Visit friends, travel.
12. Travel.
13. Expand.
14. Beware of fraud.
15. Deal in land.
16. Ask favors.
17. Unfortunate.
18. Attend religious affairs.
19. A good day.
20. Good for land deals.
21. A day to relax.
22. Travel.
23. Good for private business.
24. Unfavorable.
25. Rest, go to church.
26. A day of happiness.
27. Seek work or employment.
28. Sell, do not buy.
29. Write to older people.
30. Good for business and law.

ZODICAL TENDENCIES

VIRGO PEOPLE

Born from Aug. 22 to Sept. 21, any year

General characteristics. Virgo is a barren, human, mutable, feminine, negative, maternal, earthly sign. Expresses emotion, flexibility, restlessness. Rules bowels, love, courtship and marriage.

The man born in this sign is a modest, thoughtful, serious and industrious person; very active, seldom contented for long; has good endurance and does not show his age; he is quick-tempered, not easily discouraged, usually acts with forethought; is not able to easily save money; practical, nervous, prudent, subtle, sometimes carping criticism of everybody and everything; able to carry on great enterprises where he has practical experience to copy from. He always carries through anything he undertakes, never submits to defeat; generally marries a good woman who is a credit to him; his home life becomes more pleasant and attractive as he grows older, has a long life and generally healthy, usually attains wealth.

The woman born in this sign is very industrious, a fine housekeeper and likes to have her home and personal belongings tasty and elegant, usually prefers to entertain her friends rather than to be entertained. She is very sensitive and when things go wrong, either gives vent to her ill-humor in bitter, sarcastic speeches or lapses into moody silence. She is usually good-humored, and her fault-finding is of critical, corrective kind, without a trace of ill feeling. If her personal freedom is not interfered with, she is very kind and obliging. She is excitable, timid, restless and needs responsibility of one kind or another to satisfy her restless, mental and bodily activity. The intellect is keen and the qualifications of a high order, virtuous, capable and efficient. In love affairs, she is fickle and capricious, has a strong maternal instinct and is a most devoted mother, will have but few children, has great vitality, seldom sick, retains her youthful appearance and lives to a good age, generally marries rich or comes into an inheritance.

Congenial friends and associates are found in Libra and Sagittarius, but the best mate is to be found in your own sign, analytical and critical like yourself.

Gems, Sapphire, Cornelian, Hyacinth, Colors, Amber, Gold, Black.

WEATHER FORECAST FOR OCTOBER, 1932

- 1st to 3rd—Fair and much cooler conditions in the far west, Rocky Mountain region and western and northwestern portions; cloudy and blustery over parts of the south and southeast.
- 4th to 6th—Cool wave and general frosts in the Lake region and New England; cloudy and threatening in the Gulf States; blustery on the Pacific slope and Rocky Mountain highland.
- 7th and 8th—Warm, dusty and dry in southwest, cloudy and unsettled, with showers in the states of the northwest bordering on Canada; thunder showers, clearing cool in New England States.
- 9th to 12th—Mild and generally pleasant weather at most points, general rise in temperature in all western, central, southern and eastern states.
- 13th to 15th—Cool nights and mornings in states of the northwest and middlewest, with killing frosts in many localities; fair and mild in southern sections.
- 16th to 20th—Rainy period in northwest, Lake and northeast sections; cloudy and windy on Pacific slope; occasional showers over eastern slopes of Rocky Mountains.
- 21st to 23rd—Generally pleasant; cool in western and mild in eastern sections.
- 24th to 26th—Rainy and stormy in northwest; clear and cool in New England States, with hard frosts; high winds in Gulf States.
- 27th to 29th—Cloudy and rainy in Southern States and southwest; cold wave in states of northwest.
- 30th and 31st—Cloudy, with little rain in Lake region and New England.

HINTS TO FARMERS FOR OCTOBER

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA.

Seed down permanent pastures, finish all harvesting. Look to the poultry, have everything in snug shape for Winter. Make mushroom beds.

OCTOBER'S DISEASES.—This month is generally healthy, fewer people die this time of the year than any other. The principal disorders are with the kidneys and mucous secretions. Catarrh of the head prevails as well as all pus-forming and discharging afflictions. Those low in vitality suffer most.

DAILY GUIDE—OCTOBER

This information is general for all persons born under any of the twelve zodiacal signs and applies to the daily affairs of this year only. Will power with fixed purpose or set of purposes in any individual's daily affairs, may increase or modify the influence of the aspects whether for good or evil. 26. Very good.
27. A day both good and bad.
28. Travel.
29. Not good for business.
30. Go to church, do not write letters.
31. Visit old people.

ZODICAL TENDENCIES LIBRA PEOPLE

Born from Sept. 23 to Oct. 22, any year

General characteristics. Libra is a cardinal, equinoctial, masculine, positive, generative, airy sign. Expresses intellect, ambition, ideality, balance. Rules loins, kidneys, wealth and prosperity. This sign gives marked mechanical ability over all the others.

The man born in this sign has respect for law, clever in judgment, shrewd, secretive, skeptical, but enterprising; restless, fond of luxuries and travel; acts on first impulse, is hopeful, sometimes very inconstant, mercenary and passionate, or just the opposite. His greatest fault is the tendency to be swayed by others, and to exaggerate from over-enthusiasm. He is either a natural-born speculator, merchant or professional man; usually very fortunate. When overtaken by disaster, he recovers quickly and goes to work again with redoubled vigor. Sometimes from his love of excitement, degenerates into a gambler. He usually is gifted with good foresight and economic caution, has many friends and is loved by his wife and family, though he causes them much worry and anxiety at times. He is considerate toward his enemies, is never discouraged, seldom angered, but when he is, leaves nothing unsaid; generous with advice, fond of music and harmony, would make a fine mechanic.

The woman born in this sign is quite different from the man, being retiring, gentle, anxious, kind, merciful and having strong intuition. She is most devoted to friends, family and relatives; is extremely sensitive to inharmonious surroundings and does not like to be dominated by those who demand reasons for everything, easily confused and confounded by the arguments of others and often seems more unreasonable and inconsistent than she really is; as long as she follows her own intuitions she will rarely be deceived. She is fond of amusements, social gaiety and very popular with the opposite sex. She has artistic tastes, makes an excellent teacher of music or mathematics and likes original and practical things. She dislikes hard, dirty, or routine work, generally marries while young and often more than once. Usually gets a good husband, lives to good age, and dies a wealthy widow.

WEATHER FORECAST FOR NOVEMBER, 1932

- 1st to 4th—Cold wind, followed by moderate weather and a little rain in the New England and Middle Atlantic States; fair and mild throughout the western section of the country.
- 5th to 7th—A decided change in temperature; cool, with hard frosts in northwest, Lake and northeast sections, the cold extending well to the south.
- 8th to 9th—Cloudy and stormy in the middlewest and northwest; partly cloudy and windy in the southwest.
- 10th to 12th—Cold wave east of the Rockies; fair and mild on the Pacific slope; moderate and stormy in the Lake region and New England, clearing cold and very pleasant.
- 13th to 15th—Heavy rains on the Pacific slope; high winds and rain, turning to snow in mountain sections; generally unsettled in the southwest and Gulf States.
- 16th to 19th—Changeable conditions for the Lake regions and north Atlantic slope; fair and much colder to all western sections.
- 20th to 22nd—Rain on Pacific coast and light snows in Rocky Mountain regions and Missouri River Valley; changeable in Central and Southern States.
- 23rd to 27th—Threatening dull and cloudy over the Lake region, the Middle Atlantic and New England States; generally fair, windy and cold in the mountain sections of the west.
- 28th to 30th—Cool and cloudy, with little snow in northeast section; variable to cool over southern sections; cloudy and very stormy over states of the Rocky Mountains and Missouri River Valley.

HINTS TO FARMERS FOR NOVEMBER

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA.

Threshing is now in order. Earth up celery. Cut fuel. Gather leaves. Subscribe for farm papers, books, etc. Get everything in shape for winter.

NOVEMBER'S DISEASES.—This is the month for catarrh. People are careless, catch cold, neglect it and the result is catarrh. This disease not only affects the head, nose and throat, but works its way down into the bronchial tubes, the lungs, stomach, kidneys and bladder, causing all manner of complications. Diseases contracted this month hang on all winter, and in most of these cases when Spring awakens the patient is still sleeping "under the willows."

DAILY GUIDE—NOVEMBER

This information is general for all persons born under any of the twelve zodiacal signs and applies to the daily affairs of this year only. As there is a planetary law of nature governing all things with an orderly progression that merits considerate attention when applied intelligently to definite effort in every day life, it is expected this daily guide may prove of useful service to all who are interested.

1. Not good for money matters.
2. Avoid love affairs.
3. Good for money matters.
4. Deal with older people.
5. Unimportant.
6. Quiet day, go to church.
7. Be careful.
8. Do not speculate.
9. Do not marry.
10. Do not travel.
11. Unfortunate.
12. Attend to personal matters.
13. A good day, attend religious affairs.
14. Uncertain.
15. Do not sign contracts.
16. Look for work.
17. Unimportant.
18. Good for business.
19. Be careful.
20. A good day, visit friends.
21. A bad day.
22. Buy, do not sell.
23. A good day, deal with older people.
24. Good day, visit friends.
25. Avoid opposite sex.
26. Push business.
27. Visit old friends, go to church.
28. A good day for business.
29. Do not lend or buy.
30. A good day.

ZODICAL TENDENCIES SCORPIO PEOPLE

Born from Oct. 23 to Nov. 21, any year

General characteristics. Scorpio is a fixed, fruitful, feminine, negative, reproductive, watery sign. Expresses will, power, purpose. Rules secrets, muscular system, males and marriage.

The man born in this sign is secretive, cunning, determined, critical, suspicious, the character is strong and decided, no half-way measures about him; likes luxuries, but economical and calculating, fond of travel, especially on water; often causes great distress among family and friends by his uncompromising and exacting traits. He has great skill with the hands; attends to his own business, but in matters of duty makes trouble for others. Is capable of much success through bold enterprise, persistent and stubborn in carrying out an undertaking. He is of a jealous nature which often causes him much trouble, is friendly for his own interests and is apt to meet with serious reverses. He has much mechanical ability and in politics and law is aggressive; possesses much energy in productive methods.

The woman born in this sign is attractive, intuitive, an excellent entertainer, but not always the most agreeable companion; difficult to understand, conceals her real feelings, is courteous and affable, a good housekeeper, but dislikes menial work. She is capable and efficient when she has clearly defined duties and wonderfully tenacious and persistent when she does take up any line of work and can adapt herself to almost anything. She rules through fear and her reprovals are of a cold, contemptuous manner, effectual but not lasting. She is proud, reserved, thoughtful, saving, fond of luxury, very passionate in love affairs, likes flattery, but should beware of it except from her husband; inclined to be hard-hearted and unfeeling, yet the nature is nervous and sympathetic, can be led but not driven. She makes a good mother, has several children and is industrious, generally respected, marries more than once, angers her husband at times, has more happiness in the latter years of life and generally dies well off.

These people have determined traits of character, either good or evil, which makes them very much liked or disliked, as the case may be.

WEATHER FORECAST FOR DECEMBER, 1932

- 1st to 3th—Wet and gloomy over north Pacific slope, rain, turning to sleet and snow and cold wave east of Rockies; rain and snow over the Lake region and New England.
- 5th to 7th—Cold wave for most all sections of the west, northwest and middle-west; clear, pleasant and very agreeable in Southern States; generally clear and cold to New England.
- 8th to 11th—Clear and cold followed by rain in Lake region and Middle Atlantic States; fog, rain and drizzle along entire Pacific slope, unsettled, with local snows in Rocky Mountain sections.
- 12th to 14th—Generally fair and clear west of the Mississippi River; rather moderate, with violent rain and some snow in New England States.
- 15th to 18th—High winds and rain on Pacific slope; heavy snow storms in Rocky Mountain sections; blustering and cold over Lake region, Middle Atlantic and New England States.
- 19th to 21st—Cold in the states of the far west, northwest and middle-west; very cold in states of the upper Missouri River Valley; moderating, stormy and disagreeable in eastern sections.
- 22nd to 24th—More or less snow in New England States and Middle Atlantic seaboard; a generally unsettled condition in the middle-west, northwest and southwest.
- 25th to 27th—Cloudy and threatening in the Gulf States; clear, cold and rather equally in the Lake region and New England.
- 28th to 31st—Fair and pleasant in western sections; cold, with little snow in eastern sections.

HINTS TO FARMERS FOR DECEMBER

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA.
 This is the month to get into the woods, cut timber and fuel for Summer. Read, think, visit friends, plan for the coming year. This is the one month of the year that farmers can enjoy themselves.
 DECEMBER'S DECIMATION.—In no month of the year is it more important to look after the health than in December. The Holidays are coming on and people forget their ailments. The main requirement to health this month is perfect digestion and free circulation of the blood.

SEND 20 CENTS FOR MAC DONALD'S FARMERS ALMANAC FOR 1933. NOW READY.

27. A good day.
28. Good for money matters.
29. A day of depression.
30. Be quiet, do not write letters.
31. Visit the sick, be quiet.

ZODICAL TENDENCIES SAGITTARIUS PEOPLE

Born from Nov. 22 to Dec. 22, any year

General characteristics. Sagittarius is a dual, human, masculine, positive, reproductive, fiery sign. Expresses emotion, flexibility, restlessness. Rules hips, thighs and liver, hope and success in new enterprises. The seer and the prophet are born in this sign.

The man born in this sign is direct, outspoken, active, jovial, hopeful, generous, self-reliant, honest, honorable, ambitious, persevering, and not easily discouraged. Loves liberty, freedom, outdoor sports and nature. Dislikes masters and will not be driven; is blunt, impetuous, impulsive, jumps to conclusions; seldom becomes flurried under great excitement. He has good executive power and prompt decision, ability to command where it is necessary to think quickly; likes to do good and can generally be depended upon; seldom mistaken when he follows his own inspirations; dislikes secretiveness; likes travel. Has good mechanical ability and is a "Jack-of-all-trades." Often meets with family troubles and misfortune in business. His good fortune comes mostly through his opposite sex, also most of his troubles; he is seldom without money. His generosity and what he does for others is often paid with ingratitude. When there is no special need for activity, he often seems dull, uninteresting and even indolent. In old age, he reflects on the mistakes of youth.

The woman born in this sign is fond of domestic and social life, an orderly housekeeper, economical, but not penurious, always busy; does not meddle in the affairs of others. She is quick-tempered, never bears malice, seldom forgets an injury; always does one thing at a time and puts her whole strength into it. She is often too quick and decisive, sometimes misunderstood. She has but few children, is very loving and devoted in the home life and expects similar consideration from her husband. She hates anything underhanded, rarely makes mistakes when she follows her own inspirations and should not rely on advice of others. When deceived or ill-treated it is apt to embitter her future happiness.

As the lot of those born under this sign is to be misunderstood, it is best for them to have very few confidential friends; to think well and in silence before deciding on any important matter. They should be very careful in marrying, as serious troubles are apt to occur from uncongenial unions.

The world is a comedy to those that think, a tragedy to those who feel.—Walpoll.

* * *

It's easier to smile than frown. To frown 65 muscles are necessary, while only 13 are required to smile.

* * *

The doctor of a country village had two children who were acknowledged by the inhabitants as being the prettiest little girls in the district.

While the two children were out walking one day, they happened to pass quite near two small boys; one lived in the village and the other was a visitor.

"I say," said the latter to his friend, "who are those little girls?"

"They are the doctor's children," replied the village boy. "He always keeps the best for himself."

* * *

A druggist sent a shipment of ice cream by parcel post with a label containing the following inscription: "If not delivered in two days, never mind."

* * *

Stranger: "Do you have to see a doctor before you get liquor in this town?"

Native: "No, afterward."

* * *

"But, auntie, why did the doctor bring me a baby sister when he knew I wanted a brother?"

"Why, dear, he happened to be out of boys."

"Well, I could have waited a few weeks."

* * *

"Mamma, how much do people pay for a pound of babies?"

"Babies are not sold by the pound, dear."

"Then why do they always weigh them as soon as they are born?"

* * *

A Scotchman, learning that a certain doctor charged \$10 for the first visit and \$5 for each succeeding visit, remembered a story he had read some time back and decided to try it out.

He breezed into the doctor's office and smiled happily.

"Hello, doctor," he cried. "Here I am again."

The doctor looked at him. Maybe he had heard the story, too.

"Here again?" he repeated. "I don't think I remember you."

The Scot nodded vigorously.

"You must," he cried, "I was in just two weeks ago and paid you \$10 for my first visit."

The doctor looked long and hard. Then he suddenly smiled.

"O, yes," he chirped cheerfully, "now I recall. You're looking better, too. Just continue with the same prescription I gave you then."

* * *

Nurse—"Who are they operating on now?"

Orderly—"A fellow who had a golf ball knocked down his throat at the links."

Nurse—"And who is the man waiting so nervously in the hall—one of his relatives?"

Orderly—"No, that's the golfer, a Scotch gentleman, and he is waiting for his ball."

* * *

Lady: "You say your mother is ill today?"

Johnny: "Yessum, sumpin's the matter with her throat."

Lady: "Well, that's too bad. She was well when I visited her yesterday."

Johnny: "Huh! It's your fault, then. Ma said you always give her a pain in the neck."

* * *

Then Henry Said—

"My razor doesn't cut at all."

"Why, Henry, you don't mean to tell me that your beard is tougher than the oilcloth."

* * *

Little Bobbie rushed into the grocery store. Banging down a dime on the counter he panted:

"Gimme for ten cents animal crackers. Take out all the pigs."

* * *

Everything comes to him who orders hash.

A Fast Worker

"Every time I kiss you, it makes me a better man."

"Well, you don't have to try to get to heaven in one night."

* * *

Happy Coincidence

Maid: "The lady can't see you; she's in her bath."

Agent: "Oh, that's all right; I'm selling soap."

* * *

Careless Auntie

Suspicious Husband: "Who called this afternoon?"

His Better Half: "Only Aunt Sophie."

Suspicious Husband: "Well, she left her pipe."

* * *

"I asked her if I could see her home."

"And what did she say?"

"Said she would send me a picture of it."

* * *

The Modern Age

Gar: The folks across the street must be away. They have no lights.

Bage: No, their daughter is having a party.

* * *

Height of Something

A Scotchman recently sued a baseball company because he was hurt while watching a ball game. He fell out of a tree.

* * *

The Cops' Club

Visitor: "Have you an up-to-date police force?"

Citizen: "You bet. Why, the officers have caddies to carry their clubs."

* * *

Marine Item

What did the seasick man say when you asked him if you could bring him anything else?

He said, "bring me an island."

* * *

Pretty Young Thing: "Are you sure these curtains won't shrink. I want them for my bedroom windows."

Candid Clerk: "Lady, with your figure, you should care—you should care."

Business Is Good

A priest offered a quarter to the boy who could tell him who was the greatest man in history.

"Christopher Columbus," answered the Italian boy, Louie Musante.

"The Prince of Wales," shouted the English lad, Frank Mace.

"St. Patrick," said Rubie Rubenstein.

The quarter is yours, said the priest to the latter, "but why did you say St. Patrick?"

Right down in my heart I knew it was Moses, said the Jewish boy, "but business is business, and I needed the money."

* * *

Hubby (on phone): "Sorry, honey, I'll be awfully busy at the office and can't be home till late."

Wifey: "Can I depend on that?"

* * *

Prospective Tenant: "Have you got hard water?"

Landlord: "Yes, indeed. It's so hard that you have to pick your teeth every time you take a drink."

* * *

One: "What do you call your mother-in-law? I don't know what to call mine."

Two: "Well, during the first year I called her 'say'."

One: "And after that?"

Two: "Easy, we both called her grandamma."

* * *

Bob: Why did you sing in the bathroom?

Harry: Because the door wan't lock.

* * *

"Jack ought to be a Knight!"

"Why so dearie?"

"Why last night when I got chilly, he made me a coat of arms!"

* * *

Elmer: "What's this about you and Harrold being arrested for breaking a traffic law?"

Edna: "Yes, can you imagine! And we were only stopping under a sign that said 'Fine for Parking'."

* * *

Foolish Question

He: "May I kiss you?"

She: "Heavens! Another amateur!"

* * *

Young Ideas at Least

Judging by the way they act, most middle-aged people must feel younger than they look.

* * *

Teacher: "Mary, why doesn't the lamb follow you to school nowadays?"

Mary: "What, at fifty miles an hour?"

* * *

ASTROLOGY

How wise we are when the chance has gone and a backward glance we cast.

We know just the thing we should have done when the time to do it is past.

Astrology is the science of delineating character and judging past, present and future events from the positions of the planets and of the earth in the Zodiac, at any given time. It is the key that opens to seekers after knowledge an explanation of the mysterious and unchanging laws that govern the universe and all living things. Astrology has interested the most advanced races of mankind ever since the reflective faculties of the mind were developed, which is evidenced by recorded history and research into the manners and costumes of past ages. There is more in astrology than the mere writing and reading of horoscopes and the delineation of character and vocations, which the casual reader does not comprehend. The study of astrology will develop talents that are latent and of which persons are unconscious. It will intensify natural intuition and makes perceptible things which would otherwise have remained obscured. There should be two motives in the student taking up the study of astrology. The first is, to thoroughly understand one's own nature. The second is, to become of use to those who do not have the advantage and opportunity of obtaining this knowledge for themselves.

No one should hesitate to begin an investigation of this science, for even a superficial examination will show that there is a "way" in the apparent inequality of mankind. It will show why some persons succeed and others fail. Why some are weak and others strong. Why some persons continually quarrel, while with others there is peace, quiet and harmony. Sickly sentiment and distaste for improving the mind is inculcated by ready stupid books and vulgar novels, so, by the study of the science of astrology is the mind expanded, new and ever rising ideas and thoughts are elevated and the pleasures of life realized. If the science of astrology was sufficiently known, very many of the evils now afflicting mankind would not prevail; and much pain, sorrow, trouble and consequent disappointment now abounding would not exist. Never before in the history of the world has the struggle for existence been as fierce as at the present time. Never before has mankind been so demoralized and unsettled. Therefore it behooves every sensible, thinking man and woman to grasp every means and opportunity to better their condition by permanent efforts to rise to the higher places of thought and action.

Invisible things cannot be seen, yet invisible things, such as gas, the producing power of the sun, the vital power of plants and animals, thought, feeling, psychical influence, electricity and many other things too numerous to mention, are nevertheless facts and exist in spite of the incapacity of ordinary persons to explain them. The person who denies the existence of anything beyond his comprehension is as credulous as one who believes everything without discrimination. Both of these persons are slaves to opinion or limited in their intercourse with the world. That a practical astrologer can select these times with unerring accuracy has been proven by hundreds of years' testimony in that direction. The man who dares not follow his own judgments, but constantly takes the advice of others, becomes at last a moral weakling and an intellectual dwarf. He is in fact a mere fragment of a human being, carried about the world, an insignificant cipher. A sober, industrious person with fair abilities may fail at times by following his judgment, but such a person must eventually succeed. Know your work, then do it.

Astrology is the Science which teaches of the Effects of the Planets on Human Life and the Things of the Earth. By it we can foretell future events according to the positions of the Heavenly Bodies at the time of Birth. That it is The Oldest Science in Existence is proved by the fact that The Astrological Signs have been found in ancient Temples known to be more than ten thousand years old. Astrology today is based on sound mathematical calculation the result of thousands of years of occult study and investigation. Every person born on this Earth is ruled by some Planet and Sign of the Zodiac. As these Planets and Signs are ever changing in their aspects, no two persons can be born exactly alike, even twins born a few minutes apart will have different character, disposition and temperament. It is this influence that causes the great diversity of human life. That there are proper and improper times for the transaction of all the important affairs of life all admit, but few explain Astrology explains these matters with unerring accuracy. Many of the brightest men of the world today are guided in all their important matters by Astrology. The believers in Astrology are Men and Women of soaring intellect, not blinded by ignorant prejudice. It ought to be the refuge of man in every station of life. All can draw comfort from its predictions when under the evils inflicted by hostile fate, or receive greater stimulus in the struggle for Fortune's favors.

Astrology is a Science and an Art. It is older than the ruins in Egypt or India. It has been abused by the ignorant and debased by superstition. Its phenomena is the exhibition of The Highest Forces of Nature. It will show a Man or Woman, Boy or Girl, what Profession, Art, Business, or Vocation in Life they are Naturally adapted for. It will elevate wayward characters and show them how to use their Talents and Rise in The World. Thousands have acknowledged it to have been their Guide to Honor, Wealth, Health, Happiness and Success.

MORE ABOUT ASTROLOGY

Astrology is the knowledge of the hidden and subtle forces of nature, and of the laws that govern them. It is a science of life and has a direct bearing upon all national events, the many vexed problems and even the thoughts of mankind. The external and creative forces, operating as zodiacal and planetary influences, is the origin of every art and science known to man, or that will ever be known.

When understood from a scientific point of view, astrology shows much in harmony with the truth that "signs shall be given through the stars in the heavens". These seem to affect more in the mundane aspect, than in the vital, but they are also effective in both.

During the course of any year the birth month signs unfold their influence, due to the influence of the Sun upon the Earth from each of the signs. While both the signs and planets have an important bearing on the ascending sign at birth, there is also to be taken into consideration the fact that the earth turning completely on its axis each day causes a different sign of the zodiac to appear on the eastern horizon every two hours.

If a person was born at sunrise, the ascending sign and the birth month sign he or she was born under would be the same, while if they were born either before or after sunrise, then they would have a different ascending sign.

Any person born between March 21st and April 19th of any year, has the sign Aries as his other birth month sign and if born at sunrise he also has Aries as the Ascending sign at birth. This would make such a person a very pronounced Characteristic of the Aries delineation.

But if one is born about two hours after sunrise, between the above dates, the ascending sign is then Taurus, while the birth month sign is still Aries and this influence adds other natural elements to the nature of the Aries person.

If the same person is born about four hours after sunrise, then the ascending sign would be Gemini, adding elements of this sign to the Aries nature which would endow them with the natures and characteristic delineations of both signs.

Each two hours throughout the day brings up the next sign. For this reason, it is best that for any person interested in Astrology to become familiar with the successive signs in the zodiac and to also read the influences of the birth month sign, the birth month planet, the ascending sign and the planet ruling it.

During the day of 24 hours, the twelve signs of the Zodiac will pass up over the ascendant, or Eastern Horizon. Each of these signs has its own planetary ruler. People born at different times during the day will have a different planetary ruler.

At sunrise the same sign rises that rules the month, but each two hours thereafter is ruled by another sign and planet. These are called Ascending signs and the planet which governs the ascending sign at the time of birth is a person's ruling planet along with the planet which governs the birth month. There are twelve Zodiacal signs each comprising approximately two hours or less of the time during the 24 hours of the day.

THE ZODIAC

The Zodiac is the circle of space surrounding the earth. The Zodiacal circle is divided into twelve parts, each containing 30 degrees of space, or 360 degrees in all. There are 12 signs of the Zodiac. Each sign possesses a certain specific influence of its own.

The motion of the Earth around the Sun once a year causes the Sun to appear to pass through each one of the 12 signs, or one sign each month. Its influence, according to its location, determines the seasons, general nature and character of persons born at that time.

The planets, Nine in number, as they travel around the Zodiac exert an influence according to their own natures and in accordance with the quality of the Aspects they form.

The Sun, Moon, Midheaven and Ascendant are called "Significators" because they signify something, and the planets are called "Promissors" because by their several positions in the horoscope of birth, they promise something of good or ill according to their condition and aspects. The Significators remain in their radical places, and by the revolution of the earth, the planets are brought to the places and aspects of these radical Significators. By taking the Significators at their several elevations and directing the planets to them, there will be found satisfactory indications of all the chief events in any life.

The positions of the stars help to analyze more subtle physical conditions, not subject to external observation, while the whole ground of prediction in working out the indication in any horoscope is simply a knowledge of the physical, mental and moral condition of a human being from birth.

To cast a horoscope it is necessary to know the year, month, day and hour of birth, the latitude and longitude of the place where the individual was born.

On erecting a chart or horoscope draw a circle, divide it into 12 spaces; these spaces are termed Houses; in these planets are placed and around the Houses the signs are placed.

NOTARY PUBLIC.

WHAT DREAMS MAY COME

There are four kinds of dreams. The first, between sleeping and waking, or dreams proper; the second, those which one sees concerning another, or a vision; the third, those whose interpretation is shown to the dreamer, or a revelation; the fourth, those which are related to the dreamer in a nocturnal vision. There is also a kind of combination of the above called apparition.

Those who would have true dreams must have an undisturbed mind, a sound body and an intellect not made dull by late suppers or strong drink, not sad by poverty, nor excited, angry or incited by vice.

Every dream has its signification and dreams commonly go by contraries. Dreams possess an element of warning and we are more or less informed of events which afterward happen. When the body is asleep the soul is awake and transports itself everywhere, even where the body would be unable to go.

A dream is that which shows the truth hidden under certain things. A vision is simply a thought happening while the person is half asleep and half awake. A reverie occurs when the person has been thinking steadily on a subject throughout the day and dreams of it at night. An apparition is simply a vision that occurs to the individual persons. Dreams that occur while the mind is tranquil and the stomach empty are often fulfilled.

To dream of roads indicates fortune; if clear and bright, good fortune; if dark and gloomy, evil fortune and future reverses. Rings signify marriage, money and friendship. The serpent is the emblem of falsehood and enmity and denotes enemies. It should put a person on his guard, as it forewarns him of trouble, vexation and annoyance. The coffin, the emblem of death, signifies long life and happiness; also an increase of property through industry, it also portends news from friends at a distance. The dog, the emblem of fidelity, denotes friends and jealousy.

To dream of squares indicate peace and prosperity; oblong figures, domestic troubles. Straight lines indicate peace, journeys, happiness and long life. Wavy and crooked lines indicate vexations and conveyance; if crown or triangle, it denotes unexpected fortune. To dream of a cross means the death of a friend and denotes adversity, trials and sorrow. To dream of flowers is fortunate, it indicates joy, happiness, speedy riches, a prosperous marriage and a happy life. Letters indicate news; if they are clear and easily read they indicate welcome news. To dream of trees indicates good health and fulfillment of a person's wishes. To dream of mountains indicates friends and good fortune. Clouds signify success, the brighter they are the greater the person's happiness. To dream of the sun, moon and stars denotes happiness and good fortune high honors, change in life, respectability and industry, according to their brightness.

To dream of birds is fortunate: it signifies that the person will overcome his difficulties by perseverance. To dream of animals in general (excepting the dog) denotes misfortune, loss by theft, trouble difficulties, and that the person must use the utmost watchfulness to overcome these things. To dream of children denotes trouble in a person's love affairs; and great expenses coming unexpectedly. To dream of women denotes happiness and joy in general. To dream of men indicates visitors, presents, etc. To dream of worms or creeping things, clocks, woods, or any disagreeable thing, indicates rivals in love affairs and in business matters, hypocrisy, deceit and false friends. To dream of fish signifies news from abroad, confidence of friends, travel, money, fortunate events, improvement in the person's affairs. To dream of houses or large cities indicates a favorable change in the person's fortune, and that they must be cautious and careful in their dealings. To dream of traveling denotes embarrassment and delays.

DR. MAC DONALD'S ATLAS COMPOUND

From generation to generation the name and wonderful medicine Dr. Mac Donald's ATLAS COMPOUND and Mac Donald's Farmers' Almanac has been handed down.

The steady dependable service year in and year out on which the reputation of this Almanac and Atlas Compound are built and maintained is what has cemented the ties of friendship among our many thousands of regular customers to these two most excellent things and is also what steadily increases our business, as good faith is always the fundamental consideration behind it.

Every original letter from which extracts of testimonials are quoted are on our files and these letters are, we fully believe from conscientious people who have written them in the very best of faith. Out of the abundance of letters like these we can only print testimonial extracts from a few. They come to us voluntarily and we give the brief information to the public in order that it may be known what ATLAS COMPOUND has accomplished, we make no claim to the supernatural. Atlas Compound does its work and the people laud its merits.

We receive every year a great many letters telling the great benefits obtained through the use of Atlas Compound. We also sell a large quantity of Atlas Compound to physicians. They buy it in one to 6 dozen lots and we are positive these physicians are giving these wonderful tablets to their patients. More physicians are prescribing Atlas Compound than ever as we always print the list of ingredients on each box, as the physician can judge for himself the medicinal value of Atlas Compound especially for stomach troubles. We do not publish any statements or testimonials from physicians as it is a reflection on their profession.

Geo. W. Johnson, R. F. D. 1, Daytona, Beach, Fla., writes Jan. 6, 1931. "I bought about a month ago a copy of Dr. MacDonald's book, 'Secrets of Astrology Revealed,' and I am well pleased with it. I wish every one could read this book. I think it would be a great help to them."

Mr. Morgan Williams of R-3, Elcampo, Texas, writes Nov. 11, 1930. "I wish to tell you just how much benefit your Atlas Compound has been to me. I have been using Atlas Compound for twelve years, and I have not found anything better. I have recommended it to many friends as a wonderful medicine. I also use your Almanac and find no better guide. Send me two boxes of Atlas Compound and 3 copies of your Almanac."

Mrs. Mollie Merrit of Tunica, Miss., writes Dec. 23, 1930. "I have used Atlas Compound for 16 years and have found no other remedy as good and would be glad for any one to know it."

Miss Ebnestine Everhart of R-1, Bulls Gap, Tenn., writes Dec. 16, 1930. "My great-grandparents and grandmother have taken your medicine with wonderful results."

Arthur Quarley, St. Francis Hospital, Columbus, Ohio, writes Feb. 8, 1931. "I have taken four boxes of Atlas Compound and find it the best medicine I have ever used for indigestion. You can use my name, will answer all letters any one writes if they inclose stamp."

Andrew L. Yeichmer of R-2, Box 71, Marion, Ohio, writes Sept. 14, 1931. "Atlas Compound is the best remedy. I also got two friends now taking the tablets and they say they are just feeling fine. About two years ago I started taking Atlas Compound and they are just the real stuff."

Mrs. Peter Lambesis of 118 So. Frisco St., Tulsa, Okla., writes Oct. 1, 1931. "I think Atlas Compound is wonderful. I have been taking it, and they have helped me."

Ivory Dixon, Box 15, Mellwood, Ark., writes May 5, 1931. "Your Healing Powder did my leg a hundred dollars worth of good. I also recommend it to so many people. Send me another box of Healing Powder and two cakes of MacDonald's Soap."

Rosa L. Worby, 1116 Park Ave., Bridgeport, Conn., writes Oct. 3, 1931. "I am pleased to tell you of the great results I experienced with my first 3 boxes of Atlas Compound which has worked wonders for me. Send me 3 more boxes of Atlas Compound."

S. C. Sturne of R-5, Fort Worth, Texas, writes on June 11, 1931. "I like your Atlas Compound very much and have recommended it to a number of friends."

THE BEST FISHING DAYS FOR 1932

The best fishing days are when the moon is in the watery signs, Pisces, Cancer and Scorpio. During the summer months the best time of the day for fishing is from sunrise to three to four hours after and from two hours before sunset to two hours after. In the winter or early spring the best time is near noon or early afternoon or after the water has been warmed by the sun as fish are not active in biting when the air is cool. Fish always bite better on a cloudy or rainy day or when the wind is in the south or southwest. Fish with your back to the wind and so your shadow does not fall near your line. The following are good fishing days for 1932: Jan. 2-3-10-11-20-21, Feb. 7-8-17-18-25-26, March 5-6-15-18-23-24, April 2-3-11-12-23-29, May 8-9-10-17-18-26-27, June 5-6-14-15-22-23, July 2-3-11-12-29-30, Aug. 7-8-16-17-26-27, Sept. 3-4-12-13-14-22-23, Oct. 1-2-10-11-19-20-28-29, Nov. 6-7-16-17-25-26, Dec. 3-4-13-14-22-23-30-31.

Seventy-fifth—Diamond

GAS IN THE STOMACH

There are three distinct sources for an accumulation of gas in the stomach. The first and most common one is the decomposition of the food. When anything decomposes a part of the substance is given off in the form of gas. This is true whether the substance happens to be in the stomach or anywhere else. Whenever decomposition occurs in the stomach the accumulated gas cannot find any easy escape from the stomach, hence inflation occurs. The stomach will become enormously distended, and unless the gas is eructated through the œsophagus the distention is liable to become great before relief can be obtained.

The second frequent source of gas in the stomach is the chemical action upon alkalis. The stomach naturally contains acid. It is liable to contain an over quantity of acid. Many kinds of food taken into the stomach are alkaline in their reaction. The acid and the alkali coming together will produce effervescence, which liberates a gas. People who are much troubled with belching of gas immediately after eating are suffering from this kind of gaseous inflation of the stomach.

The third source of gas in the stomach is from nervous shock. A sudden shock of the nervous system especially in those who are troubled with weak digestion will produce an immediate change in the fluids of the stomach to the extent that large quantities of gas will be immediately evolved. This happens with surprising quickness. A sudden fright or fit of anger will set some hysterical people to eructating gas in an instant.

As for the treatment of these three forms of gaseous trouble in the stomach the best is prevention. In the first form, which depends on delayed digestion, the food ought never to be taken into the stomach during fatigue. Only small quantities of food should be eaten at any one time, and should be carefully chewed. Everything possible should be done to procure rapid digestion. Nothing will help this trouble quicker than ATLAS COMPOUND, and quick relief is always found by taking a few tablets.

TRY ATLAS COMPOUND.

KIDNEY TROUBLE--HOW TO TELL

Backache does not occur in every case of kidney trouble. Often the pains and ills that attend kidney trouble are so far from the kidneys themselves that the only certain proof that the kidneys are out of order is the appearance of the urine. Learn what these changes in the urine indicate and serious or fatal kidney disease may be warded off.

Of course the first thing to know is what is the appearance of the urine in good health. While individuals vary somewhat, the following average table is a good guide:

HEALTHY URINE.

Color—Pale yellow to amber.

Appearance—Clear.

Weight—Only a trifle heavier than water.

Amount passed—Three to four pints daily.

Odor—Pungent or acid, but not offensive.

Passages—At will during the day, rarely at night.

Solids—Dissolved and invisible.

Healthy urine is slightly acid, not enough to burn or scald and does not stain the linen.

TRY ATLAS COMPOUND.

Physical Troubles and Distressing Symptoms

DISORDERED STOMACH-is due to the use of improper food, over-eating, irregular hours, or over-indulgence in stimulents. The symptoms are nausea, head-ache, dizziness, coated tongue, or foul breath and constipation or diarrhoea may be present.

DISTRESS AFTER EATING-may be due to eating too large quantities, of food at a time or eating too rapidly. It also may be due to chronic stomach trouble.

DIZZINESS OR VIRTIGO-may be frequently caused by some derangement of the stomach and sometimes results in fainting and unconsciousness.

INDIGESTION-is a failure of the stomach to properly handle the digestion of food and is the cause of more misery and distress than any other disease. It manifests itself in many and varied symptoms and all grades of severity from a condition where only certain articles eaten cause distress, to a condition where the simplest food may cause intense agony and is rejected by the stomach. If not relieved and corrected, may undermine the constitution and weaken both the will and nervous power. It may also cause ematiation, loss of weight, nausea, sometimes vomiting, distress after taking food, constipation, loss of appetite, dizziness and flatulence. Painful Digestion is a very distressing condition. It may come on immediately after eating the meal but often two, three or four hours after, and there may be much gastric distress.

DYSPEPSIA-is so common that it has come to be known as an American disease. It is the cause of more distressing and varied symptoms than probably any other. There is usually distress after eating, sometimes nausea, loss of appetite, headache, pain in the side, flatulence, constipation, palpitation of the heart, sometimes erroneously supposed to be heart-disease. These troubles may induce mental depression and general bad health. A miserable existence is generally a result of ordinary dyspepsia that has been neglected and where remedies have failed to correct it.

CONSTIPATION-is generally known as a failure of the intestines to perform properly their function and expel partly the undigested or refuse matter from the bowels and in sufficient quantity. In acute constipation there may be no movement of the bowels for several days and which may be followed by a period of time when there is a natural movement once daily and then return to the usual distressing symptoms. This may result in chronic constipation when the bowels only operate once in two, three or four days. Constipation usually accompanies nearly all diseases of the stomach, liver and bowels and skin affections. It may be the exciting cause of headache, colic, abdominal pain and other chronic derangements of the internal organs.

BILIOUSNESS-is caused by inaction of the liver and generally accompanied by constipation. When the bowels do not have a natural daily movement, the liver may become engorged, congested and inflamed and the bile, instead of properly excreted by the intestines is taken up by the blood. As a result of such a condition, the organs may suffer from acute inflammation and there may be a griping pain in the abdomen, headaches, and dizziness and suffering from what is known as a bilious attack. These attacks may become a frequent occurrence and finally result in a condition where the skin becomes sallow, yellowish, rough and itchy. There may be a continual headache, a constipated condition of the bowels, coated tongue, a sharp pain in the side, and a feeling that the whole system is out of order.

BLOTCHES-on the face may be caused by impurities of the blood, torpid liver and improper food and are generally present in the advanced stages where symptoms manifest themselves.

BAD TASTE IN THE MOUTH-may be due either to over-eating, dyspepsia, or some derangement of the liver. It is usually worse and is most noticed in the morning, the tongue may be coated and the breath offensive.

FOUL BREATH-is generally due to a disordered stomach, constipation or catarrh and may be frequently complicated with a coated tongue.

**WHEN YOUR SYSTEM IS OUT OF ORDER
ALWAYS THINK OF ATLAS COMPOUND.**

GENERAL REMARKS ABOUT ATLAS COMPOUND

OF ALL THE DISEASES that the flesh is heir to, the great majority are caused by some disordered condition of the stomach, liver or intestines. These organs have two functions to perform. The first is that of nutrition, the process by which food is digested, properly assimilated and transformed into blood, tissue and vital energy, and this constantly supplies the waste that is always taking place in the system, as the result of what is consumed in the process of existence. When this function is impaired by any one of the diseases from which the liver, stomach or intestines suffer, the nutrition of the body is impaired, the amount of waste that is constantly going on immediately exceeds the quantity of nutritive matter that is absorbed to supply it, and consequently, the loss exceeds the supply, the body is in a condition of decline, health fails, emaciation occurs, and the system is in a condition where it readily contracts contagious diseases, and being too weak to resist, is destroyed by them. The symptoms are many and varied, depending upon the disease present, and described under their appropriate headings on other pages of this Almanac. The second function is that of excreting the unhealthy matter from the blood and expelling the undigested matter from the intestines, which are the sewers of the body and when these functions are retarded a dangerous condition is the result. The impure matter is not removed from the blood, and its retention causes such diseased condition as blood poisoning, jaundice, skin eruptions, etc. When the intestines fail to expel the undigested matter its presence keeps up a constant irritation, which may lead to fatal diseases.

ATLAS COMPOUND regulates the stomach, liver and bowels; keeps them in a healthy condition, prevents chronic and dangerous diseases and restores the organs to a healthy condition when they become diseased. When traveling they should be carried along and used whenever there is an attack or a recurrence of any symptoms or disorder named in this Almanac. It is a most economical remedy. Each tablet is an accurate dose, made separately. It is quality, rather than quantity, which should be considered by the purchaser. The ordinary dose is two or three daily, taken one after each meal or at the first appearance of any symptom of an approaching illness.

AS A SPRING MEDICINE ATLAS COMPOUND has no superior. Taken twice a day after meals it renovates the system and brings about a condition of affairs vastly to be desired. It clears the complexion, and is of great value to all persons from infancy to old age.

CONVENIENCE OF THE TABLETS.—The ATLAS COMPOUND TABLETS are a most convenient form of medicine. They require no spoon or glass, no measuring. The dose is always accurate. It is readily carried in the pocket, is convenient for travelers and is always ready at a time of need. To persons of Sedentary Habits whose mode of living causes Digestive Troubles, Constipation, Biliousness or any of the many symptoms of these troubles, ATLAS COMPOUND is indispensable. It aids the digestion, promotes the appetite, stimulates the liver, keeps the bowels open and restores all the internal organs to a natural healthy condition. Does not contain acid or irritating substances, but is made up of reliable selected remedies, carefully prepared. It cannot injure the most delicate tissue of the body and can be safely taken by a delicate child. It is the safest and surest medicine for people of feeble constitutions and is sure and effective in cases of the most robust.

THE CONSTANT AND PROLONGED USE OF ATLAS COMPOUND IS NOT IN THE LEAST INJURIOUS TO THE SYSTEM.—No one need to hesitate to take it continuously or as long as conditions require it.

There are some persons who find advantage in using the Tablets regularly year in and year out. They say that they are effective, but, as in the case of soap and water for washing the hands, help to-day does not do away with a new occasion for their use, which arises day by day on account of the faulty conditions under which we live.

THE TABLET should not be dissolved on the tongue. To so dissolve it does not decrease the beneficial effect, but the more pleasant and consequently better way, is to swallow the Tablet at once without tasting. Experience proves that the size of the Tablet is exactly that which is most easily swallowed: much more easily than a smaller substance. Many persons have no difficulty in swallowing the tablet without the aid of any fluid, but those who find this difficult are recommended to place the Tablet on the tongue and take a full swallow of water. It will always be found that the Tablet has disappeared with the water. If unable for any reason to swallow a tablet, or when it is desired to give a child a part of one, there is no objection to dissolving it in water or pulverizing and taking it in the form of a solution.

THE ACTION OF ATLAS COMPOUND.

ATLAS COMPOUND acts locally on the lining membranes of the stomach and intestines, loosens the mucus and slime formation and corrects fermentation, thus cleansing the walls and leaving them in an absorptive condition, promoting the secretion of nature's digestive fluids. Where there is a disturbance of the stomach and intestines of long standing, it may not be corrected in a short time, but **ATLAS COMPOUND** aids nature to remove the cause and correct the trouble. Several months may be required in some cases, but it is better to take small doses for a long time than larger doses. To eradicate disease, purify the blood and tone up the system is what **ATLAS COMPOUND** does if given time.

ATLAS COMPOUND NOT A CATHARTIC.

Take **ATLAS COMPOUND** three times daily with an abiding faith that it may make you well and follow the directions in a general way. **ATLAS COMPOUND** is not a cathartic, but if too large a dose is taken and bowels move too freely it indicates that the medicine is taking hold and removing the slime and mucous from the stomach and intestines too fast. This poisonous slime cannot be absorbed into the system without very detrimental effects and must pass off through the bowels. **ATLAS COMPOUND** leaves no harmful effects. It does not contain acids, potash, mercury, opiates or poison of any kind.

During normal conditions of health and regular morning habit, the poisonous substances undergo chemical changes and are finally carried off through the skin and bowels. But in many people the natural and proper elimination does not take place and this failure causes various disturbances, such as imperfect digestion in the stomach or bowels, constipation and inactivity of the liver or spleen and certain nervous disturbances which lead to the existence of Rheumatic Conditions.

ATLAS COMPOUND AS A CORRECTIVE AND ALTERATIVE.

The Blood is Life and **ATLAS COMPOUND** aids nature to carry off the waste material in the body and remove from the blood and system all impurities. When the slime and mucous are removed from the stomach and intestines, the food will be digested and properly assimilated, the nerves become strong and active and the physical balance restored and the vigor of health and strength what nature intended and what you desire.

Keep physically fit for work if you want to succeed. Good blood, strong nerves and elastic muscles are the secret of old age because they regulate and control every part of the body. When the life blood is polluted or poisoned with fermented matter or corruption it loses its nutritive health sustaining powers.

ATLAS COMPOUND is an excellent blood purifier, is safe, reliable and effective. It does not shock the nerves. It gently and thoroughly cleanses the blood of all impurities and stimulates the debilitated organs, acting as a corrective in all depleted conditions. It acts by increasing the appetite and the digestion becomes normal. It often acts like magic, children require very small doses mixed with fruit, sauce or scraped apple. Sick, puny children as well as elderly people become fat as the result of taking **ATLAS COMPOUND**.

REMEMBER THIS.

Nervousness in many people is due to poor digestion and constipation. Repose and relaxation at meals, clear conscience and avoid worry, black coffee and indulgence in delicacies and pastries are to be remembered. Be cheerful at all times and especially so during meals. There are certain disturbances of the human organs which irritate and torture men and women, which sometimes estrange them from friends in a social way and Indigestion and Dyspepsia is such an affliction. This often may cause a grouch, yet the heart may love humanity. There are many kinds of Dyspepsia but they all produce the same effect, and the greatest of all correctives is **ATLAS COMPOUND**.

WHAT ATLAS COMPOUND IS MADE OF.

ATLAS COMPOUND is a Wonderful Medicine. It is a Compound, in right proportions of well known drugs and herewith publish the Formula of ingredients and give the "Key" as published in the UNITED STATES DISPENSARY of each article used, as follows:—Extract IPECAC ROOT, From Brazil. It is a Diaphoretic and Expectorant. A Stimulant to the Stomach exciting the appetite and facilitating digestion. It loosens up slimy, catarrhal matter and in large doses causes nausea and vomiting. It is free from narcotic properties and is not a habit forming drug, especially fitted for use when no other effect than emptying the stomach is desired. It has been employed by the natives of Brazil for Stomach Troubles and has been known there since 1672. Until very lately it has always been employed as a Secret Remedy with great success in Stomach and Bowel troubles such as Indigestion, Dysentery, Diarrhoeas, etc. It has a general Stimulant effect upon the whole digestive tract. It is also used in Croup, Bronchitis and Diseases of the Gastro-Intestinal Mucus Membranes.

EXTRACT of GENTIAN ROOT. From the High Alps of Switzerland and other elevated regions of Europe. Gentian possesses in a high degree Tonic Powers. It excites the appetite and invigorates digestion. It has been known from the remotest antiquity. Many of the preparation handed down by the Greeks and Arabians contained it in their ingredients. It is used in all cases of Debility of the Digestive Organs where a General Tonic is required, such as Dyspepsia, Gout, Amenorrhoea, Hysteria, Scrofula, etc., and there is scarcely a Complaint (of Digestive Trouble) in which it can not be advantageously given under all circumstances.

ALOIN. Socotrine Aloes is produced in the Island of Socotra. This is the Original Aloes having been produced there as early as the time of Alexander the Great, over 300 years before Christ. It is now produced in Barbados, Bombay, Muscat and Zanzibar, Africa. In Arabia it is known as Jayef Gesheeshah, or Sacred Medicine. Aloin is the pure active principle of Aloes. Aloes was known to ancients as having a peculiar affinity for the large intestines and pelvic organs, not as a cathartic, but as a muscular exhalent, or evacuant. It Quickens the Circulation and produces a General Warmth to the system. A peculiarity of Aloes is that an increase, or over dose is not attended with a corresponding increase of effect. Its tendency to irritate the bowels and rectum is modified, or over come by combining it with an Alkali (such as Bi-Carbonate of Soda). It is an Excellent Remedy for Costiveness (Constipation) attended with Torpor of the Digestive Organs. It is supposed to stimulate the Hepatic Secretions and acts very happily in Jaundice even after Calomel has failed. It is useful in Ascarides (Round Stomach Worms) and Hemorrhoids. In Amenorrhoea (Suppression of the Menses) it is perhaps more frequently employed than any other remedy and enters into almost all preparations resorted to in that complaint.

SODA. Pure Bi-Carbonate of Soda is a cooling, mild alkali used medicinally to Neutralize the acids of the system. It is useful in Croup and to promote the Expulsion of Mucus Membranes and in Pneumonia (Catarrhal Troubles) it acts on the principle of removing the excess fibrin from the blood in inflammations.

Also lessens the sugar in the urine of Diabetic patients and modifies the action of acids in the Digestive Organs.

GINGER. This is a native plant of Hindustan and East India, also cultivated in the West Indies. The medical virtues exist in the roots. It is Agreeably Aromatic and Penetrating, Spicy and Pungent. It is a Greatful Stimulant and Carminative especially useful in Dyspepsia, Flatulent Colic and a feeble state of the alimentary canal attendant upon Atonic Gout (Rheumatism). Is it warming, Stops Fermentation in the Stomach and expells the gases.

**DR. MAC DONALD'S
ATLAS COMPOUND
MADE UNDER
SANITARY CONDITIONS**

Atlas Compound is made under the very best of sanitary conditions, Every Tablet is made, counted and put up in boxes by special machinery. In no way do the tablets come in contact with the hands throughout the entire operation.

After the tablets are made and ready, the counting machine puts them in the individual boxes and each box is then wrapped in wax paper and sealed.

Customers have the satisfaction of knowing that when they receive and open a Box of Atlas Compound, their hands are the first to touch the tablets.

DR. MAC DONALD'S DREAM BOOK

PRICE 20 CENTS.

EVERY TIME YOU WRITE

Every time you write give your Name in full, your Street or P. O. Box No., your Post Office, the State or Province and Country and enclose a postage stamp or stamped envelope. Do this every time you write. You must also remember that merchandise, medicine, etc., does not go on fast mail trains the same as letters. Do not complain of not receiving your medicine until a reasonable time has passed. Registered mail is at least two days longer than any other, and where mail goes to Foreign Countries, it is liable to lay in the Customs House a week to a month before being delivered. We sometimes misdirect packages, but not one package or letter in ten thousand is lost, as each package bears a request to the Postmasters that if misdirected, or the party cannot be found, we will send stamps to return it to us.

Be SURE to Sign your Name and Address in Full, EVERY TIME YOU WRITE.

MAC DONALD'S

COLD AND VANISHING CREAMS.

Dr. MacDonald's Atlas Compound now offers to the public another fine article useful to most every family—MACDONALD'S COLD CREAM.

This is not a new article because we have been selling it for some time, but this is the first we have advertised it in our Almanac. During the past 5 or 6 years we have sold thousands of Jars of this wonderful cream. The customers who bought this cream have been so pleased with the results, that is the reason we feel this cream should be advertised to all our customers and friends.

MacDonald's Cold Cream is a highly refined, sanitary preparation, a medicated cream made of the finest ingredients that does wonders for a 'bad complexion, absolutely pure and perfectly harmless. It imparts a fresh, clear, smooth and firm appearance to the face, aiding nature as a tissue builder and wrinkle eradicator. It is of service as a corrective for blackheads, pimples, red or brown spots. It is also used for sunburn, chapped and roughened skin and all milder forms of skin humor and eruptions and relieves itching.

Ladies will find this cream wonderful. Its daily application will nourish the skin, preserve the complexion and prevent wrinkles; may also be used by men after shaving.

This wonderful skin food contains no chemicals or other injurious materials, snow white and of delicate odor and can be used on the most sensitive skin.

Never becomes rancid and keeps unchanged for years in any climate.

PRICE 50 CENTS A JAR

We also have our MacDonald's VANISHING CREAM and this should always be used on the skin after you have used our cold cream. It is highly recommended and used by our customers and the price of the Vanishing Cream is 50 cents a Jar.

In order that all our customers and friends may be able to try our new creams and our MacDonald's Vegetable Compound Soap, a remedy for skin disorders, we will send you all charges paid, one 50 cent Jar Cold Cream, one 50 cent Jar Vanishing Cream and one 25 cent size MacDonald's Soap all for one dollar. Send Postal Money Order to Jeremiah MacDonald, Binghamton, N. Y.

MAC DONALD'S VEGETABLE COMPOUND SOAP A MARVEL IN SOAP FOR TREATING SKIN DISORDERS

VEGETABLE COMPOUND SOAP is a scientific combination of antiseptic substances. It is a sure Preventative of all Skin Disorders. It is endorsed by ladies and gentlemen of refinement wherever used.

VEGETABLE COMPOUND is made from pure Coconut Oil, Extract of Soap Bark and Oil of Eucalyptus, combined with medical properties for all skin eruptions, pimples, red, rough and oily skin, dry and falling hair, itching scalp and all baby blemishes. It is the best Baby Soap made.

VEGETABLE COMPOUND contains no animal oil, no diseased fat, no rancid grease, or dangerous alkalis to poison the blood or injure the skin. It gives a rich creamy lather with an invigorating feeling and refreshing odor. No other soap ever compounded can be compared with it.

VEGETABLE COMPOUND is recommended by leading physicians and surgeons everywhere, not only as a Toilet Soap, but for bath and nursery. It is an antiseptic against contagious diseases and used to disinfect the hands and for cleaning cuts and sores.

VEGETABLE COMPOUND is recommended for pimples, blackheads, wrinkles, undue redness of face and nose, and other complexion defects. It imparts, to the skin that charming freshness and velvety smoothness so greatly desired. Its beneficial qualities to ladies and infants are marvelous, being endorsed by the leading physicians and surgeons as a soap which rapidly allays all irritations of the skin.

AS A TOILET SOAP for the Complexion, it is unequalled. It stimulates the skin and prevents secretions such as Blackheads and Pimples. It heals Chapped, Rough and Red Hands. Removes Tan, heals Sunburn and Chafing.

FOR THE BATH it has no equal. It is soothing and refreshing and leaves the skin soft and velvety. It not only cleanses the body, but it removes all eruptions and will banish Eczema, Salt Rheum, Hives, Herpes, Tetter and Ivy Poison.

FOR THE SCALP and for strengthening the hair by removing the germs that destroy it, the Compound has no equal. It is a sure preventative against parasites and microbes that effect unclean hair brushes and combs. It removes crust, scale, dandruff and scurvy. For Shampooing it cannot be surpassed.

FOR THE NURSERY it allays all itching, inflammation, rash and chafing and on account of its healing and disinfecting properties, it keeps the children's skin healthy and smooth.

AS A HEALING SALVE it will be highly efficient, by making a stiff lather and applying to Chilblanes, Burns, Corns, Ingrowing Nails and for Cleaning Cuts, Old Sores and Ulcers. It makes a delightful and lasting lather for shaving and on account of its Antiseptic properties, prevents Barbers' Itch, Ringworms and all Inflammations of the face.

IT IS A PERFECT SOAP. It will Remove all dirt, oil, stains, ink, grease, rust, mildew, etc., etc., not only from the hands and skin but from clothing, carpets and laces. It will also clean kid gloves, belts and leather goods. Removes grease from coat collars and stains from marble, bric-a-brac and paint.

THEATRICAL PEOPLE whose skin is put to the hardest usage, keep up their strength and freshness with MAC DONALD'S VEGETABLE COMPOUND SOAP. Otherwise the wrinkles would come and their possessors would be "hors de combat", in other words "on the shelf," too old looking. When your livelihood depends on your looks you are pretty particular about your skin.

THE VALUE OF A GOOD TOILET SOAP in the promotion of health is too well understood to require discussion. During life, the skin, in virtue of its continually undergoing reproduction and decay, as well as being an outlet for certain excrementitious materials from the body, is constantly throwing off from its external layer, as effete and useless matter, minute scales. These, mingling with the oily secretions of the cutaneous glands and the saline and aqueous matter of the perspiration, acquire sufficient adhesiveness to form an extraneous layer upon the surface of the body, which, unless daily removed by washing and friction, chokes the channels of perspiration and the oily glands and materially interfere with the general functions of the skin.

IF YOU HAVE A COLD
TRY
MacDONALD'S "KOLA" TABLETS

"COLDS"

Common colds are a frequent affection causing much annoyance, discomfort and loss of time and are not confined to any age, sex or given season, although more prevalent during the fall, winter and spring months, as changes in the atmosphere are causes most frequent and influential. Scarcely a single human being passes through that period without contracting a common cold. Every year a vast amount of time and money are lost by people who are kept away from their business by this malady.

WHAT A COMMON COLD REALLY IS!

A common cold in the head is an inflammation of the lining membrane of the nose. It may be caused by exposure of some part of the body, as the neck to a draught of cold air or the feet and ankles to cold and dampness, getting the feet wet, changes from warm to cold suddenly, irritating gases, vapor, dust of various kinds and no doubt some colds are due to infection from organisms, or germs and these colds may spread from one person to another. "Rhinitis" and "Coryza" are the medical terms for conditions accompanying cold in the head.

Most everybody catches cold or has an attack of the grippe at least once during the fall or winter season and many of us have several during the year. To neglect a cold in the early stages often results seriously. The industrial statistics show that more time is lost in the factories and offices from the common cold than any other cause.

"SYMPTOMS OF COMMON COLDS"

Colds are often characterized by a feeling of fullness and discomfort in the head and the first symptom is sneezing and usually accompanied by a watery discharge from the nose, causing frequent use of the handkerchief and blowing of the nose, also affecting the eyes, voice and upper lip, also a feverish condition with a chilly sensation and feeling sick all over.

"OTHER CONDITIONS OF COMMON COLD"

A great many people when taking cold are troubled with a sluggish action of the bowels and it is often the case that cold attacks those whose physical resistance is below normal because of constipation. People who are in the prime of health are more or less immune to colds, that is, they are better able to resist cold. We always advise using MacDONALD'S AC-SO TABLETS for constipation and sluggish liver and DR. MacDONALD'S ATLAS COMPOUND for the stomach trouble as well as liver and kidney disorders.

MacDONALD'S KOLA TABLETS and MacDONALD'S AC-SO TABLETS are an aid to nature in combating the common cold.

HOW TO USE MacDONALD'S KOLA TABLETS

We recommend that at the first sign of feverishness, muscular aches, pains, tickling of the throat and running of the nose, and cold in the head, that you begin at once by taking one or two MacDONALD'S KOLA TABLETS every two or three hours. As these tablets do not act as a laxative, we strongly advise to take several good doses of MacDONALD'S AC-SO TABLETS until the desired effect on the bowels has been obtained, then reduce the dose of KOLA TABLETS by taking one KOLA TABLET every four hours for one or two days or as long as necessary. (Children, half tablet only.) After that a regular treatment of DR MacDONALD'S ATLAS COMPOUND.

Each tablet contains $1\frac{1}{2}$ grains Acetanilid, Tr. Gelsemium, Tr. Aconite, Capsicum, Atropine Sulphate, and Camphor.

MacDONALD'S KOLA TABLETS and AC-SO TABLETS have been in use for many years and have given such general satisfaction to those who have used them that they have many times advised their friends to try these remedies.

Headache caused by constipation is helped by taking one or two KOLA TABLETS every four hours, also one or two doses of AC-SO TABLETS.

Always keep a box of each—KOLA and AC-SO TABLETS on hand for emergency, as colds often come suddenly.

The regular directions for "KOLA" and "AC-SO" Tablets are printed on each box.

MacDONALD'S SPECIAL AC-SO TABLETS FOR CONSTIPATION AND SLUGGISH LIVER

These Special tablets are excellent as a corrective for irregular and obstinate inaction of the bowels. Their aid nature by acting as a gentle, effective laxative which stimulates the peristaltic action of the bowels and induces to regular and normal habits. That is the reason why we always advise taking one or two regular doses of AC-SO Tablets for colds and grippe, when using our "KOLA" Tablets.

These special AC-SO Tablets also act very favorably in conjunction with ATLAS COMPOUND and are of valuable service where the complaints are attended with constipation and sluggish liver. The very large and increasing sale on AC-SO Tablets has been attained entirely on their merits.

Price of MacDONALD'S KOLA TABLETS are 25 cents a box.
MacDONALD'S AC-SO TABLETS 50 cents a box. If your druggist does not have them on hand we will send you a box of each by mail postage paid.

ATLAS COMPOUND

A MARVEL IN MEDICINE

ATLAS COMPOUND is recommended for diseases arising from Impure Blood and Impassable, Costiveness, Jaundice, Nausea, Loss of Appetite, Bilelessness, Boils, Etc., All Colds and Inbred Scallies, Sick and Nervous Headache, Migraine, Gout, Nervousness, Constipation, Kidney Disorders, Liver Complaints and Diseases arising from Indigestion and Stomach Troubles.

ATLAS COMPOUND has solved the great problem of how to keep well and how to build disease arising from impure blood. It is marvelous in its results, yet it is perfectly harmless and harmless to take, and is a purely vegetable preparation.

THE CAUSE OF DISEASE

If the human system becomes debilitated by bad habits, over-worked emotions, and the accumulation of waste products from a defective metabolism, or by a defective body drainage, all sorts of one kind or another trouble can arise.

One of the principal causes of South decay or ailing of the body and shortening of the average life is the continuous auto-intoxication of the system through undigested food in the large intestine (the process of digestion not completed in the stomach) and many people owe their condition to this cause.

Harmony of function and perfect health can only come when the blood is clean and drawn away from the body effectively and sufficient. We believe experience has abundantly proved that the remedy to keep the vital organs performing their functions properly and in complete harmony is ATLAS COMPOUND. It aids nature in acting favorably on the three grandified gates of the body—skin, bowels and kidneys, which eliminate the waste products.

ATLAS COMPOUND sells on its merits. We believe it is the Best Blood, Liver, Kidney and Stomach Medicine on Earth. It is Marvellous and Truly Wonderful. We are receiving thousands of flattering testimonials. When you see the wonderful results, you will be convinced that it is the Greatest Medicine for the masses. It sells EVERYWHERE because IT HELPS SICK PEOPLE and everybody can afford it. It is the CHAMPION Medicine.

ATLAS COMPOUND is put up in the form of compressed sugar coated tablets. They are easy to take, easy to carry and will keep in any climate. Each Sugar Coat has certain medicinal ingredients for an ordinary case. Long standing cases which have become Chronic may require three or more boxes to get the system in normal condition.

PRICE 60 CENTS PER BOX.

Ask your Druggist for Atlas Compound. If he does not have it, we will send a regular size box on receipt of 60 cents and your full address together with a return of your Druggist.

Always see that the SIGNATURE is on every box of Atlas

ATLAS COMPOUND

THE GREATEST TONIC ON EARTH

OUR GUARANTEE

We want to impress a FACT on the mind of those who are sick and wish to try ATLAS COMPOUND, it is this: Do not expect ONE BOX to help a disease that has perhaps been years developing. One box will often help acute cases. One box will bring a certain amount of relief, and one box will convince anyone that it is just the medicine they need. All we ask is a trial, but after you have been better for years and have no doubt tried various other remedies and spent hundreds of dollars for medicine, don't imagine one box will be sufficient.
