The Workers and the Trusts.

The worker is hit hardest by the Trusts. They catch him coming and going. And the Trust lives and grows because of railroad rebates, the "protective" tariff, and national bank control of our money system. Evidently the remedy is to cut off these special favors which build up and perpetuate the Trust.

Tom Watson's Magazine.

"the Magazine with a purpose back of it," was established to teach the best way of abolishing these special privileges, and, hence, of rendering the Trusts powerless to rob the public. It is a big monthly magazine of 128 pages, with illustrations, cartoons, Mr. Watson's brilliant editorials, special articles, a serial story, novelettes, short stories and poems, by the world's best writers. Regular price, \$1.00 per year; 10 cents the copy, at all news stands. Every worker is interested in knowing the best way to cure the Trust evil and how to bring it about. Now in its second volume, TOM WATSON'S MAGAZINE is firmly established, and its circulation is growing rapidly; but we want to add a hundred thousand subscribers to our list in the next month or two.

Send Us Three Names

of reading persons in your neighborhood, together with this advertisement and 25 one cent stamps—or a silver quarter securely wrapped—and we'll enroll you for a four months' trial trip subscription. Or five of you may club together, sending a dollar bill and 25 good names and addresses, and get five trial trip subscriptions. Learn how to clip the Trust's wings. Address

A Message from

MIND

To the Minds of the Many.

This is pre-eminently the day of good things for the many. That means easily accessible things—cheap things, if you will. A really good thing is not afraid to be cheap.

It is in step with the particular line of progress that MIND, "the leading exponent of New Thought," makes a two-fifths reduction in its subscription rate after November 1, 1905. It is now a \$2.50 periodical. It is going to remain a \$2.50 periodical, but hereafter the price per year will be only \$1.50—15 cents a single copy.

New departments will be included in the magazine. Some of the best known writers on philosophical and metaphysical themes, both of the Orient and Occident will give of their best, and every effort will be made to render MIND of real service in the cause of the right—and the work of the world today.

The New Psychology.

Would you know how to realize every legitimate desire? Learn the law. Desire, focussed in a certain understanding, is prayer. This prayer is not only a religious act, but a strictly scientific procedure. There is a law of effectual prayer—connections direct and immediate with the source of supply—no wasted effort. Remember we mean LAW. No uncertainty about law. Laws are sure. Prayer in this understanding brings into action forces vastly more subtle and dynamic than any now known to physical science. Their results are as inevitable as a chemical reaction. Both depend upon law and are equally certain. An understanding and application of this law makes of man a real master. No matter what your conditions, to express gladness and power is what you are on the earth for. Why not begin now? If this interests you, send 2-cent stamp for circular of Correspondence Course.

The law of effectual prayer is only one of the subjects of this most practical and interesting course.

It teaches the doctrines of re-incarnation and Karma. Send 5 cents (stamps) for an interesting booklet giving an outline of THEOSOPHY. Address WILLIAM E. TOWNE, Dept. 1, Holyoke, Mass.

Nautilus News.

OUR EASTER NUMBER.

Look out for April *Nautilus*! You may not know it when you first see it! It will appear in new cover paper, with a new design, which we hope will be the best yet!

And there will be a picture in it!—a full page picture—on nice shiny paper—of our *Nautilus* "Madonna," with the dearest little Elizabeth baby you ever saw—named Elizabeth for three reasons, as her mother says, "first, because her great-grandmother's name was Elizabeth; second, because Elizabeth Towne's name is Elizabeth, and she is one of our family; and third, because we liked the name Elizabeth."

This madonna picture was sent us just before Christmas and the whole office force went wild over it. We wanted our readers to enjoy it with us, and the "madonna"—whose aunt made the photo—gave her consent. So you are to have it in our special Easter number—where a madonna picture will be specially appropriate. And in the same number I will tell you who the madonna is and who made the photo.

AN EASTER POEM BY SUSIE BEST. And we are to have a lovely new thought Easter poem by Susie Best, "The Secret of Easter,"—besides our special new poem by Ella Wheeler Wilcox.

AND FLORENCE MORSE KINGSLEY. And in April number will appear "A Meditation for the Poor in Spirit," by Florence Morse Kingsley, the author of "Miss Philura," "Resurrection of Miss Cynthia," "Titus," "Stephen" and many other good things. Mrs. Kingsley is by all odds the most new thoughty of all fiction writers, and her stories are the most sensible and helpful, as well as the most famous of their kind. And her "Meditations" are beautiful. The "Poor in Spirit" one is the first of a series of twelve which will appear in the next twelve numbers of *The Nautilus*. We believe our readers will rejoice with us in our new contributor.

SOMETHING ABOUT POISE. A bright, short article by M. A. Crosby will appear in April number, called "Power in Poise." This suggestive little article, which is illustrative rather than analytical, will answer a number of inquiries which have come to us, as to the nature and mode of cultivation of poise.

And in addition to all these new things we shall have some specially good articles from our regular contributors and the editors.

OUR NEW DEPARTMENTS. It looks as if our *Nautilus* readers don't go to church or new thought meetings! Or else when they do go they don't hear anything worth remembering or repeating! Up to February 6 we haven't received a single report of bright sayings for the "Column of Crisp Sayings From Everywhere!" The nearest approach to it was two quotations from Carlyle, sent by one of our kind and conscientious readers who evidently hadn't heard anything brighter!

Well, we'll try again. On another page you will find the "Column," with some of the

bright things Mr. Watt heard Mrs. La Grange say. If our readers prefer their own bright thoughts to those of preachers and lecturers we'll expand the column a bit to include the bright things our readers *think*, as well as hear. How will that do?

Our Success Department is a great success! We have letters and ideas galore, and more coming by every mail. And more wanted!

ABOUT THOSE. RHYTHMIC BREATH ARTICLES. Miss Fletcher's "Rhythmic Breath" articles are attracting

wide attention. A number of our readers have asked her for names of reference books in which they may study further on these lines.

So Miss Fletcher will give at the close of her series of articles a bibliography which will be of great value to the student. She says it will be better to wait until the completion of the articles, because books which would be delightfully illuminating after these articles are completed would be as Greek before.

In answer to other inquiries Miss Fletcher has given us the correct pronunciation of those Sanskrit words. You will find it at the foot of this month's article.

A DOLLAR FOR 50 CENTS NOW. Why not tell your friends about that April number, and ask them to

subscribe? *Nautilus* might prove a means of real Easter resurrection to some of them. And just now you know the subscription price is only fifty cents. A little later the magazine will be a little larger and nicer and the price will be \$1.00. So those who subscribe now will get the \$1.00 magazine for 50 cents.

GOING! What oceans of new subscribers we are receiving! Many of them through the kind interest of our old subscribers. We are so glad our friends like *Nautilus* well enough to ask others to subscribe, and we thank them every one for their interest and efforts in this line.

So many new subscribers—nearly all of them want to begin with the Rhythmic Breath articles—and extra calls besides, have entirely exhausted our supply of January numbers, though we had several thousands extra held for such calls. And we have only a few Decembers left. So new subscriptions must begin with current numbers. Later the Rhythmic Breath articles will appear in book form.

MORE GROWING. It seems to have become a habit for *The Nautilus* to project a new addition

to its mansion once every year, just after New Year's! All our expansions and moves come in January or February.

This year we tried to make it a move, but in all Holyoke, after advertising in the *Transcript*, and setting all the real estate men on the lookout, we have not found a single suitable place either for lease or for sale. It will take a pretty nice place to tempt us away from these sunny well-kept apartments.

So for the present we remain where we are, simply adding another five room apartment to our part of the mansion. Our new apartment is on the floor above us, and it will be put in first class order, neatly furnished and three front

rooms turned over to Leila and her helpers, who take care of our *Nautilus* subscription list. She is to have more helpers, more Macey-Wernicke Vertical filing cabinets, and a new Macey-Wernicke card index system that will accommodate about 36,000 addresses to begin with, and can be indefinitely enlarged as needed. And we are installing other interesting improvements about which we will tell you later.

William's card index system has been increased to accommodate over 50,000 patrons! What a lot of friends we have between us! In *The Nautilus* vertical files alone, which we installed less than a year ago, we have filed 65,000 or 70,000 letters from *Nautilus* friends, all received since the files were set up. And Frances says she must have more room this very day! Our new files are here, but the new apartment is not quite ready for them.

TO LITERARY FOLKS.

When you send an article to a publisher be sure you enclose stamps for its return if not accepted. Otherwise you will probably never hear from it again.

We want good, bright, original articles and items, and a few extra fine short poems, for which we will pay a reasonable price, allowing each writer time to accept or reject the payment we offer.

TO FOLKS WITH IDEAS TO SELL.

We want bright ideas for improving *The Nautilus*, for increasing its circulation. For all acceptable ideas we will pay a good cash price, leaving the originator free to accept or decline our offer.

TO AD WRITERS.

For an acceptable advertisement of one inch or less, presenting *The Nautilus* and making the offer of a four months' trial subscription for ten cents, we will pay \$5 in cash. And if after a three months' trial the ad proves a better "puller" than those William and I write we will pay for it an additional \$10, making \$15 in all. We might accept copy for several such advertisements.

An inch is "14 agate lines"—one inch in depth and one column wide in any magazine. Here is a chance for aspiring authors and ad-smiths.

Please do not write us for further information about this! It is your ideas we want. And we cannot engage to teach anyone the profession of ad writing.

Say nothing, write ads and submit the best! —with stamps enclosed if you want rejected ones returned.

This is also an opportunity for self-culture. Nothing like ad writing for developing concentration and the elimination of the unimportant.

THE LIFE POWER AND HOW TO USE IT.

By ELIZABETH TOWNE.

This is a new book now in press, and delivery promised for March 1, 1906. Orders received at any time. The book contains 174 pages $5\frac{1}{2} \times 7\frac{1}{2}$ inches, printed on best antique laid paper, with half-tone picture and autograph of the author, and bound in rich red cloth stamped in black; price \$1.00 postpaid.

"THE LIFE POWER" is a compilation of some of the best and most practical of Elizabeth Towne's articles which have appeared from time to time in *The Nautilus*, covering a period of four years or more. These articles have been carefully revised and arranged to preserve the unity of thought, from the writer's points of view, presenting the subject of the Life Power and its modes of use and direction for human development.

The teachings of this new book in regard to the will and its uses and nature are alone worth the price of the book, if we may judge by the testimony of those who have preserved and lived by it ever since its first appearance in *The Nautilus*, a long time ago.

**WOULDN'T YOU LIKE TO ADD
FROM TWO TO FIVE INCHES
TO YOUR HEIGHT,**

to improve the general symmetry of your figure, to add to your general appearance? There is no longer any reason why anyone should be short or stunted. Mr. K. Leo Minges has at last perfected the work of his life in discovering a safe, sure and permanent method by which anyone can get taller without any inconvenience. It is such a simple method that one wonders why it was not thought of before. Yet it took a lifetime of study to perfect. Anyone can now enjoy these benefits; to do so necessitates no application of drugs; no internal treatment; no operation; no hard work; no big expense. **Mr. Minges' method has been adopted by the leading educational institutions and gymnasiums in Rochester and elsewhere.** Anyone can now take it up.

FREE TO ANY SHORT PERSON.

The method which Mr. Minges has discovered will enable you to get taller, more graceful and improve the symmetry of your figure, and this can be accomplished **in your own home**, no matter what your age, your sex, your height may be. And in order to put these benefits within the reach of all, there has been prepared for free distribution among short people a limited edition of a book explaining this discovery in detail. If you wish to add from 2 to 5 inches to your height, if you want to be graceful and have a symmetrical figure, if you want to be a "proper height to dance with," to be able to "see in a crowd," and to reach the correct height, you should write for this book at once. It fully explains how you can obtain these benefits and is free.
