PRIMORDIAL COPULATION

as the Voice of the Lord

by Gladys I. Spearman-Cook

A NOW COME TO THE UNIFICATION as the Divine Royalty, bringing that of complete symmetry of ONENESS into birth. That now as the mystical glory of the Fired divine holy Word, which is being brought into birth by the earnest seeking soul. For as he so transmutes of self, will the wounded pride, which is the impediment of ascension, eventually take on of the humble aptitude of Ego relativity. Then will the LORD, as the Mighty Cosmic Transcending Compassion, pronounce of His Presence, and the Arc become alive with Divine Sparkling Royalty. For all now is of Primordial Copulation, that of Divine Infusion, where only through aspirational exhilaration will the dance begin. Then the infusion of the Holy Scorpionic Waters, the glory of the Hierarchical heights, will infuse the Seed with its Royal Beauty, bringing the Holy Phallus as the co-ordinating Glory, to rise up as the dancing Uraeus. For all Words of heavenly wisdom and divine wonders are now of the Central Sun mystical magnitude. That to be continually explored as the mystical Primordial wonders of the soul. Yet the Generating faculty of the Scorpionic depths, to open up of its yet unfathomed infusion of the Holy FIRE.

Where the Etheric and the Holy Glory of the Divine Impregnation, in the now uprisen unified Breath, will unfold the lost wonders of the soul's Primordial Creation. That which came forth, before their FALL into the depths. Soul so ready, is now the Priest of the Hierarchical pillar, that as the glory of cosmic radiance, will shine his intensified belief into the Cup of the unifiable Relativity. That producing of the Divine FACE, as the Over-shadowance of HIS GLORY upon the Virgin mind of Divine fulfilment. The complete commencement of the Divine Revolution of the NORM, with the Voice of the LORD, as the might of the thunder of the descending Royal Virgin Ethers. They that are now pouring down and infusing their Royal Divinity within the control of the Uranian propensity, by the light of the Law of Attraction. Thus soul becoming the new son of Hierarchical Glory, who will now begin the uprisen journey of the Divine Phallic embracement.

(Now you are going to investigate the very depths of the NORM, and all the mighty wealth that is risen up from the depths, elevating its way up the planes within your inner being and becoming the royal glory of the NORM. The Divine Heavenly Ethers now becoming embraced within the soul, and the soul, in its depths and heights, is going to be completely locked together in at-one-ment with the Divinity. For as soon as the soul is able to get that embracement fully locked within himself, can the VOICE come forth through your voice. It is the VOICE within the Voice).

The Royal Holy Embodiment

H EAVEN and Earth completely united, through the soul embracement of the inflowing Glory. For all the mighty spermed wonders, as the Royal Divine Immensities of the Holy Fire, are now pouring into the revolving Breath, as the Hierarchical Presence becomes the Over-shadowance of the Arc. They that are infusing their Holy Belief into the Virgin brain of the Orion Warrior; henceforth He then becomes as the reborn FIRE within the Fire.

Continued on Page 3

COSMIC UNFOLDMENT

H ERE, in the Age of Relativity, the Divine Power of the Atom has been released, and soul now stands face to FACE with his Primordial Creator. All the virgin depths of the past being reborn into Solar Atomic Consciousness, as the great Celestial Marriage of the two Minds takes place. Where the Divine Sperm of the Fatherhood ignites with the Virgin Mind, and Hierarchical Consciousness becomes the unbreakable bond of Light that unites the two. (See text on page 3, col. 1).

Hierarchial Changes

(This is a recording of an interview between Mrs. Spearman-Cook and the B.B.C. which took place on Tuesday, 23rd December, 1969, concerning the so-called 'flu epidemic).

Q. Mrs. Spearman-Cook, what is your theory about the 'flu, which so many seem to have at the moment?

A. Well, man has not the understanding that the 'flu is due to the Elements having entered into the blood, which really are clearing out of the blood all the waste that he has taken! Because that is what is causing all this terrible eruption within him. It is not that the 'flu has come for any other reason, but that he is taking into his body of chemicals and cooked foods, which are causing more waste and pollution than the body can take.

Man must realise that he is literally an 'Atom,' he is 'a world within himself,' because he lives by the Elements, he lives by the Powers; he eats the Powers, he can only exist by the Powers, so he is born of the Powers. That is why Astrology is so real, when it is properly delineated, but so very few know how to do it properly; because it holds the very elements of man in the degrees that he is consistent of.

Q. But don't you find it strange that so many people should react in this way, at the same time!

A. Ah yes! Well, it is like a 'Wave,' a Wave-Band that goes forth to have 'one vast big clean-up,' and that takes place, you see. It is all to do with the building-up of the Elements; and as the Elements increase, so there is one big vast Wave of Cleaning-up.

Q. Who masterminds that Master Wave?

A. The Great Intelligencia, the Central Sun. The Central Sun controls all this. That is the Master Mind; in fact it is THE DIVINITY. Man has got to see God in the right light. God is not what man has thought. It is the pinnacle point of Molecular build-up by man within his own mind; he builds up this idea within his own mind; he perceives the God, and as he does so, then it is focussed upon the Heavens.

Q. Now I understand that some of your students and followers refer to you as the 'pinnacle point.'

A. The pinnacle point on earth, to receive the Pinnacle Power from the Heavens.

Every man now is really being fed by the Central Sun; he is literally having the whole of his blood-life filled with the Divine Central inflowing Powers from the Central Sun, and as the days go on, it is going to become more and more intense; he is going to truly know what the real inflowing of the Powers is going to be, and he is going to change.

Q. So the 'flu epidemic, then, does not seem as if it is going to ease off very quickly!

A. It will ease off, when man has had a 'good clean up,' but not

before. He is going to become the same as we are in here. We could not touch meat, not because of the animals, but because animals are an inferior creation; they were not meant for us to eat, but something that was born after our creation, so that to eat of their flesh is ridiculous. Actually, food becomes deteriorated by being cooked. But natural food, such as fruit, although it is difficult to stomach until you get used to it,—because you have been so accustomed to the other food,—is far better, because it is filled with the Central Sun, the Solar Light Glory.

Q. Now, can you look into the future at all, Mrs. Spearman-Cook, into say 1970? And are we going to have further epidemics? Does mankind need further clean-ups, as you say?

A. Oh yes, he does. He is going to have a lot of clean-outs; it is not going to end at this. There are going to be not only clean-outs of his blood, but there are going to be changes, too, of the etheric,—man's internal bodies,—which are in the blood. There are going to be a lot of changes taking place.

I am rather wondering what is going to be the outcome of woman's foolishness in taking of the 'pill.' The doctors are a little late in coming forward to talk about it coagulating the blood, because the 'pituitary' is woman's major point of the mind. Well, look what it is doing to her!

And any man who ever thinks of being 'sterilised' is an utter fool, because that is his 'fire.' He will become a mamby-pamby, even down to the 'queer' state, before he is finished. He should keep his 'fire,' but what he wants to learn to do is to control it, and use his 'fire' to build up his mind. Because the sex fire is your mind, you see!

Ethereal Flu

(Reprinted from "The Times" newspaper, Tuesday, 23rd December, 1969).

"Don't be fooled by the scare reports of a Mao 'flu epidemic sweeping Europe. It is not 'flu according to Mrs. Spearman-Cook, who runs the 'Occult Gazette,' but "the down pouring of the Ether Atmosphere of Theocratic In-birth."

Mrs. Spearman-Cook, who has already informed Sir George Godber, Chief Medical Officer at the Department of Health, does not communicate by telephone (particularly to journalists), but an aide told me that the epidemic was caused by people "having to breathe in an element of fire which their bodies are not used to. This fire is contained in cosmic rays coming from Scorpio."

If, like Mrs. Spearman-Cook, you avoid animal foods and strive towards a higher spiritual outlook, there is nothing to fear from this or any other epidemic. But if you have already succumbed, a diet of hot water and herbs—preferably coltsfoot, marsh-mallow leaves, mullein and red sage—will soon put you back on your feet again.

So now you know!

For years we have been told about the 'spiritus air' that is built up from the sex broiling as the 'internal creation.' But what man does not know, and of course would not be able to deal with at the present moment, is that Uranus and Neptune are now ruling the World; and they are two very fierce and evolved planets.

Q. Then is 1970 going to be a good year for mankind?

A. Well, it is all according to what you call a 'good year.' If you think that by man having a "darn'd good happy time making money, and running around as he would like to do," No! it is not going to be. Man is, I am afraid, going to be made to stand on his own feet, and begin to realise that he has got to build up of his Mind, or, he is going to have to take a back-seat.

Q. Not an easy restful year!

A. No! it couldn't be, couldn't be. Because it is a "personal relativity" that is now making its full debut in 1970. What will follow after that, I would not go into, because I think, 'enough for the day thereof,' really enough for the day.

But this had to come, some time or another. Either that, or man was going to have a nuclear war, and that has been avoided. There won't be any war; they needn't worry about that, oh no! You will get

your minor wars, like you are getting in these independent countries, and you will probably find it will not be too far off now before that in Vietnam stops, because I am afraid America put up her own 'lashing point.'

Q. You were able to help in some way, in stopping a nuclear war!

A. I was the means of it; because as soon as I say, "Very well, we have got to stop that," then, by being prepared to be a Scapegoat, and to suffer for that change,—and I have to suffer for that change, by labouring,—it alters. I have done quite a lot in that direction, and it has been recognised and accepted.

Q. This is a great responsibility!

A. Well, I am just a Scapegoat, put it that way. It is not in my hands at all. I am merely the 'pinnacle point on the earth' that these Great Powers use for a 'direction.' But the major thing is my belief, my heart-belief, that which I believe is the humane and the divine point that will help man to become the royal being that he is.

And the sooner man does realise that he is royal, the better, because he is a very royal being, but he has got to live as that royalty demands. He has got to learn to walk as a god, as he once started.

PRIMORDIAL COPULATION

Continued from the Front Page

This is the potential Voice to come forth as the audible internal Glory, the reborn beauty establishing the Solar regurgitation of the reborn light of Universal Philosophy. That being spun up into god unification, with the soul beaming with the purity of the Mind dance. With the burning desire to now manifest the greater truth, into the glory of becoming. For the Holy FIRE is the Fire of no remorse, for as the All-consuming beauty of the Hierarchical consciousness, it now is going to infuse man with the Light of the Orion Colure Royalty of the Neptunian enlightenment. The established blue-print of future unfoldment, where man will labour to become a god in his own right. Soul striving to reclaim what he has lost, and of which he must either regain, or become of the lost.

For the Voice of the Lord is the Divine fulfilment of the Echo, as Truth; that born from Relativity as the Power of the Atom, and now at its fullest unifiable equation. That whereby to give forth of the complete resounding of a true Cosmic Reunion of timeless unified harmony. A triune fulness of believing in full harmonic rhythm, producing the Solar Atomic colure of Hierarchical intervention. Royal holy embodiment, that brings divine rebirth to every soul.

Thus the Pre-FACE of the Voice, is the unified activity of the Hierarchical Over-shadowance. For HE is the living epitome of the Cosmic likeness of the Mercurial manifestation, as the released Bull of Orion manifesting consciousness. For as the Hierarchs manifest as the pure Breath of the cosmic Atom, so will the supreme royalty of the Word become of the Royal Blood of Divine Glory. For this is what Merope is seeking to guide every soul into, by the divine husbandry of Phallic worship. The Holy beauty of the Royal Holy Fire, which Merope brought down at the beginning of Time.

This has brought the complete Virgin unified state of Relativity, it being the Power of the Christos embodiment now revolving and awakening the Solar core of the Source. The Power of the Atom has now been tapped, and is now giving forth of its bounty of Virgin forest. That of the mind of the Virgin Fire, for all is of the Solar quantum of Divinity.

(See the Front Page plate)

What is wanted is for those awakened, to flood the Earth with Hierarchical Power, that the whole of being is filled with light. For royal light is the beauty of the inner bodies radiating as the Power of Divine fulfilment, the Glory of the Heavenly FIRE. The final belief is the supreme manifestation of the Voice, as it reaches the Virgin heights of the Source. Where the Fire is producing its Divine Inner Royal FIRE, the Divine Glory of All-Being.

Here is where all is of the beauty of the Word, and where those awakened rejoice at the light that manifests this Royal and Holy FACE. For the Royalty is now the Supreme Divinity of the Fire, and as the driving force of the Atom, revolves the NORM to that full propensity of the Central Sun. That born out of the inflowing spectrum, the Great Galactical Glory of the heights.

For each soul is now a royal divinity of the supreme Source, and has the Power of the ATOM. The strength and being of the whole of Time, the Royal Glory of ALL that has ever been. Therefore, the OM is the intangible creation of the Virgin Breath, and by the soul being Solarised, will he bring forth the tangible beauty of the Sun in Scorpio.

The Glory of the royal light of the FIRE, the holy magnitude of Divine manifestation, as the Voice within the voice. The Mighty Mystery of all mysteries, the Supreme Acme of Being. Yet the very LIFE of man; for man is HIS son, the revelation of HIS Sperm.

Therefore the Sun in Scorpio is now the complete seeded might of the Hierarchical Blessing. This being the one vast

Benevolence. All is now the contest of the Atomic Flame, and as it sears the Etheric body, will the joy of the constant limitless power to activate the cosmic indrawn Breath of the Central Sun propensity, have a reaction on the increased brilliance of the FACE.

Hence creations of limitless beauty will ever be in the Fire Fount of the now driving NORM, for this now is the revolving of the Fontanelle's infusive might of the commencement of the Atomic causeway. For now, all is alight, therefore will force its might into the royalty of the Orion Warrior's heart-beat, and create an infinity of Divine Causation.

For the internal Glory of the Holy Fire is slowly rising in the Atomic spin which now is taking place through the

THE DIVINE LAW-MAKER

THE very depths of the Unknown, manifesting its causationary rebirth through the weaving mind of the Cosmic Scapgoat. Thus the great Tapestry of Life unfolds, as Merope weaves the Atomic Powers of the Heights into a unified Mind Oneness of Central Sun Glory. (See text in col. 5).

delivery of the unified Breath, now having reached its pinnacle Point of the 'Source born out of the source.'

(The 'source' in its first creation is within man himself, and the Source born out of the source is the great Inner Core of the Central Sun; but both are within man himself, and manifesting within man himself. So the higher Source becomes the Atomic Source. Thus your lower source, your higher 'source,' and the Divine Source, is the Glorious Trinity).

Thus the unified heights and depths that hold the Supreme Glorification, are the el-facial magnitude of all mystery of LIFE. Once the Supreme Hierarch is blended up with heights and depths, all becomes the resuscitatory Fount of the Central Sun in Scorpio, and the Fire becomes the Holy Belief of the Virgin FACE. The soul now coming under the Law, where all it puts into operation becomes the stamp and die of cosmic rebirth.

(Once man comes under the Law, he then is responsible for what he has put into action and set into operation as the Causationary Inflow, which he must follow along the Stream. If that is not done, then the soul is held by a vast karmic creation down the Ages, and will be held firmly down until he puts all into operation).

For compulsory unification of heights and internal depths, is now the revolving of the true Face of the Hierarchical

aspirational exhilaration set into motion by the Hierarchical inflow. For this is Divine Copulation, which sets the Holy Fires into active creation, wherever they have been drawn into the soul by divine assumption.

The compact value of the Taurean might now lies upon the back of the Orion Warrior, as he plows through the cosmic wheat field, and gathers the ears of corn from the sown royal might of the Scorpio down-pouring Fires. That of the Glory of the Central Sun, with all its Holy wonder and mystery, for this wheat is Hierarchical conscious Seed, that now sown within all men, as the Power of Infinite Gestation. Here is immortal mortal contact, which man has

Primordial Copulation

If you can understand the title of the Lecture, then you have a full realisation of what you are going to seek into. Primordial Copulation, the Copulation of that which was in the beginning, with the Word now, and your internal being, which is really the mysterious Voice of the Lord waiting to come forth. If you can see this, then you will perceive, all the time, of how the unknown or unheard Voice is seeking desperately to be heard.

only ever dreamt about through Neptunian slumbers, but now born of Hierarchical divine Holy Priesthood. With royal Christhood beauty waiting to blossom forth.

All the constant royalty of the Seed is now atomicised with the Central Sun immensity. That of the complete inflow of the Eridanus Stream, whereby

While the OM (the spoken Word) cements the copulating Compassion, which brings into birth the Glory of the unfolding FACE.

By this, the spinning Atomic shuttle remoulds the Etheric Loom of the Central Sun mind Tapestry, and brings all to a point of Generation. That of (See plate on this page) corpuscular OM eternal rebound, whereby the Light infusion is of the whole oneness of the Orion rebirth, bringing into being divine Humility. This is where the Virgin son stands before the Royal Gates, and gains admission.

For this is where the Garden of Light blossoms the Divine Holy Presence, bringing into birth the Law of Divinity, systematically correspondent to the Central Source. Thus all activity is now the Power of the Atom, and as such man can only live by the NORM frequency of Orion Central Sun Capacity. The union of Infinity, whereby Outer World Space becomes the glory of the mind.

(The inflowing Wonders of the Divine Heavens, through the Breath, bringing all its Divine Glories down into the mind of the soul, and the soul becomes interblended with that radiant Glory, which raises it up into the higher being of Divine Wonder).

The Manifesting Divinity

REGENERATION of the Atom is known as the revitalisation of the Core, this being of the Anthropomorphic Egg gestation. For the Central Sun is the existence of the Anthropomorphic Egg, that now reigning as the Sun in Taurus. This being the activity of the released corresponding compassions of the Orion trio, it being the very first activation response to the awakened Virgin Light of Christos deliverance.

Thus the first of the Cosmic Infinity giving greater intensity to the unfolding Divinity in the depths. The Holy FIRE bringing the Internal Intensity forth as the Potential Glory of Holy Magnitude. For Holy Compassion is Atomic Torque, the Atomic Force of the Virgin Atom, as the Pillar of unified timeless strength, as reborn supersonic will. That which forces the intensity of the FACE onto the New Virgin mind framework of the Macrocosm, to become the Macrocosmic FACE.

For it is the Will of man that imprints the Abyss with potential growth, Mars being the lower polarity to Uranian super-Fire of Holy infusion. Thus through pre-amputated cosmic belief, the gods are able to assist the Virgin mind to grasp the Atomic thread, and flagellate all into revolving comprehension. This being the ultimate intent of Theocracy, that they prepare the way for the Divinities to manifest.

Genesis being the Atomic Thread, and is the god's Holy Gospel of ascension, with Chapters 1 and 2 being the Pillar-stones of the Cosmic

Continued on Page 4

PRIMORDIAL COPULATION

Continued from page 3

Arc radiation, which lead soul back up to the Source. It being that of the Creation, and the establishment of the first Sabbath, with the placing of the Lights. With the creation of man out of the god-egg, and the appointment of food to nourish both soul and physical body which soul had adopted as man.

While the second is the appointment of knowledge, the making of WOMAN as the consciousness, and the institution of marriage, that which would bring the soul back to its god-like rebirth. This would take place by octavial singing, it being the glorification of the Psalms, the Songs of Degrees, The Divine Occult leadership that gave to the Hebrews the right of ascension, and Merope the means of Solar Octavial levitation.

Thus the Fellowship of Divine infusive might, giving to the soul a world of Neptunian infinity, and fantastic depths of Orion consciousness. For these unfolding Hebrew keys link the mind with the Passions, and how the latter are the means of exhilarating their dancing aspirational ascension. For by the mind exciting the Passions, the Passions exhilarate the mind into an expansive fiery drive. The complete unification of the El Powers, with the Atomic Central Sun Ratio of Divine Blessing.

Here we see how the Celestial Heavens are the pre-intuitional Powers of reaction, that of the Orion Warrior mind consciousness. Whereby, as an Occult seeker, he will be able to comprehend the Abstract synonyms and give them their corresponding Power, as cosmic-born mortuary meal propensity. Therefore burying them into the earth, and uniting heights and depths in LIGHT born Glory of manifesting Divinity. That of Primordial Copulation as unto the Voice of the Lord.

This being the Fontanelle Causation as the Atomic Forge strength of the King's Essence, as unto the Marrow of the Bones of the Husbandman. That of the Infinity Colure wealth of the whole of the Divine Master's FACE, now the driving propensity of the New Atomic Blue-Print. For this is the last Void of the Atom, for the Atomic Void is the full immensity of Sun in Scorpio, as the treasured Christos might of the Orion Warrior's dynamic struggle to reorientate his god mind into Atomic reality. Thus the re-created god, now back to his Atomic journey of mind creation, where all created as unto the Covenant, is now fulfilled and polarised. This brings him to breathing of fresh Air, whereby he can, by its unity with his previous growth, bring new light into birth.

(Now this is the importance of what is taking place at the

present moment. All are blended up to the heights of their relativity. So are you free to be able to breathe-in of New Life? Does what has been blended within you, warrant a clarity of intuitional propensity, to draw forth of that fresh Air? Because you will only be able to draw forth what you are capable of comprehending!)

This reveals the gods as pre-Abstract personalities of a Divine status, who are ever awaiting the comprehensive Breath of the Atomic, to give them the mortuary ectoplasmic soluble thought. Thereby to completely seal the Word within the Atomic Void. Hence the Fontanelle rebirth becomes the Atomic Void choreography of the Eagle's lofty heavenly heights, where the Solar Rays warm the Virgin touch, in the corresponding and imprinted sensitivity of the Commissure.

The King's seal of undying loyalty to the Virgin's Holy FACE and Heavenly light. Therefore consecrated ground is the Abstract Breath now being born of Hierarchical expanded consciousness. Where soul becomes, through their god intervention, of pre-intuitional awareness, a Being of the Hierarchical House of the Holy Sea of Infinity. A mighty god-like creature of Atomic construction, yet of an origin dynamically ancient, and beyond true descriptive revelation.

Therefore, the reimbursing of the Atom, where the Atomic particles of Kali are all Virgin created through the Breath, and now revolving with the Source conscious awareness of the internal depths of all timeless inspiration. For this is now a new road of Generation, and calls for all the Atomic might of the Hierarchical Spermer. The mighty creator in the depths, he who builds up the light of the ascending intelligencia, the constructed Glory of Truth.

He who must take on of the primordial Scapegoat, and is willing to ascend up into the Fontanelle suture, and become as a Watcher on the Threshold of the New Virgin Collator. There his Virgin can collect and weave the inflowing Causation into a new Holy Cloth, she who must master the Tiger Powers and capture their dynamic expansion. Then bring into birth a new status of thought, which will bring new Generative LIGHT to the Heavens. Thus the Scapegoat justified and ready to capture new fields of verdure, as he takes the trophy gained by his Virgin.

She who is the new Virgin Collator, who rose up from the depths by expansion gained through the rise up to the Hierarchical heights. Fount and Fontanelle now polarised in one infinity expansion. The new Virgin Collator being the Etheric counter-hand frequency, which ever helps feed the Hierarchical supreme Power with reciprocative co-operation.

For the Fontanelle is the Vega Harp for the Hierarchical Causation. Therefore the Atomic-born soul of Virgin LIGHT is now correspondingly aspiring to, and subconsciously administering unto,

the active vibronic ratio of the Solar Theocratic Atom. This is the Primordial Copulation in full swing, driving the Solar Theocracy into blossoming expansion. Thus the Theocratic stride is the measure and imprint of Abstract consciousness, that of the revolving NORM.

Therefore LIFE, the Atomic mandible, is the creative Intelligence of the Great Lord of the Hierarchical Kingdom. Soul digesting the Word from Outer World Space, that in the Copulation, Divine LIGHT can spring forth as that born from the inter-union between Heights and depths. In so doing, Hierarchical influence will draw to the Over-shadowance, and bring their frequency to bear upon the mind activity of the soul.

Here it is seen how the Hierarchical Kingdom is now the pre-intuitional Void, as the Royalty of Holy Magnificence makes its descent. Therefore, is the relativity regress warranted to all souls of Theocratic rebound. Theocracy now being the Causation of

Thus non-exhaustible, ever expandable, as the soul embraces in Holy fervour, becoming fully impregnated by the mighty Power of the now inflowing Atomic Ray. It is the penetrative might of the Millionth Central Sun Power that can burn and scald all the earth creation of Moon in Taurus.

This is the cleaning up of the last of the Atlantean dross, arresting the cosmic decline out of the decadency of Sodomitical transgression. That which became the roots of the Chinese paddy-field of rice, which never became golden grain, that of Atomic Seed expansion. Not the driving Bull, but the ambling water-buffalo. Therefore, the Fontanelle is the Atomic Yod of the Hierarchical Isotope, that of Outer World propensity.

Hence it is the glorified might of the Holy Source of the reborn FACE of timeless conception. Thus Atomic transgression is Taurean Solar rebirth, Atom implosive might, and would be Hierarchical causation. While timeless conception is the Void within the Void, the whisper of the King magnified through the Atomic-

pressure upon the Commissure Altar of Atomic sacrifice, where the Orion Warrior relates his primordial oath of active consorting with the revolving Commissural Blessing. That of Job's atomical Yod propensity, as he learned to digest the heavenly creation, and transform it into light.

The most evolved of the Higher Hierarchs are now treading the earth on the Plane of the Great Venusian Fire. Venus in Scorpio being alight with the Royal Seed wealth of the old Japanese and Chinese Tiger Powers. Those now infused with the Sun in Scorpio Positive propensity, thereby making all the Abstract wealth equal to the Central Sun Eclipse might. Intelligencia as the NORM wealth supreme creation, raising the old Mogul Fire up to the Antares Lesath sting.

Therefore the Hierarchs are now stationed along all degrees of the Atomic Path of the Sternum causeway, protecting and guiding their own, from sternum to Sternum. Thereby, are ever polarising any and all infusive Hierarchical Power, onto the New Venus-Scorpio Trio of sensitivity. This is known as the colourisation of the Chinese-Japanese inflow of now expanded Abstract quantum.

While the Russian Power of revolutionised expansion, was the beginning of the blending-in of these two creations, which have now, through the Abstract science of Theocracy, been brought to a final unity of Atomic Relativity. Saturn now having become arielsed, and fully electrified with the Atomic infusion of reborn mystical propensity. All now being the EYE and Voice of OM, as soon as they become conscious of their true inner wealth of Occult Glory from their Ancient past.

The Internal Growth

THEFORE the Saturnian corresponding Russian Power, now enters the Stream as Solar Atomic Light, through their May Day festival revivals, forcing a renunciation second to none. This is Solar rehabilitation as Etheric redevelopment, the glory of Hierarchical ascension, in soul life of etheric expansion. This beginning a Wave-length surge of Divine Husbandry, while the Japanese Power, now being Sun in Scorpio Power in the depths, is the Juggernaut cleaning the South, with the embodied Atomic might of Merope's NORM.

This is where Russian Opera and Music of Peasant influence was, when blended together, Power that has since become expansive, through the Characteristics of their struggling Leaders. That now being given Cosmic recognition, through the benefit of their Works assisting the Orion Drive of the Earth Temple of the Hierarchs.

For as Merope perceived the foundation already set, did she raise the Communistic setting up, by polarisation unto Theocratic governance. Not a world fit for men, but a World fit for gods and Divinities. What was Jacob's ladder, now the ladder of the Christed, that the Father as the Divine Inner FIRE, can come forth as the Voice.

Creation is now to be fully of the supreme fulfilment of the unified Master creation, of the past rhythmic pulsations of the lesser Masters. They of the musical World, and the rhythmic Atomic expansion created by Merope, out of her Norm re-sensitised Primordial Copulation, blended up in divine harmonic unification.

THE SOLAR-BORN MIND

WITH his mind winging in divine aspiration, the soul rises into the realms of Solar Glory. There to become involved into the Chromospheric Consciousness of the Central Sun magnificence, and give birth to his own mind child of divine Light. Thus becoming an integral part of the Divine Mind. (See text on page 5, col. 3).

Hierarchical propensity of the revolving NORM, that of Ecliptic grandeur, as the soul is anointed with the constant drip of Divine Hierarchical Might.

Here the Warrior climbs into the Solar Chariot, which is now being driven by his own atomic Passions. The Chariot being the intensified Atomic spark set into motion by the driving Bull, who now has the Sun between his Horns. Thus can he hold it, and his Virgin go on driving it higher and higher, into the Ether descendancy.

(See plate on page 5)

Thereby capturing more and more of its profound wonders, as Pisces, the decadent sign of Fomalhaut mystery, is now electrified into pouring into the mind of the braided Atomic Warrior, the Heavenly Rhythm from the Heights. The Voice of the Inner Sanctum now coming forth, as the Divine OM rolling off the Uvula.

cular frequency of Pure LIGHT. That of the Isotope of the Atomic glandular rebirth, the now mastered Power brought to becoming the new inborn Law of the depths.

This is the cool atomising radiation of spinal exactitude, where Atomic balance fortifies and strengthens all divine belief, with the Power of Almighty magnitude. This now opens the way for the soul to wrestle with the Tiger Powers, born out of the acceptancy of the new-born Grace. With all chromosomes now being forced to give up their Atomic Gryphons, and transmute them into polarised Hierarchical attunement.

A dual Central Sun rebirth as a double Scorpio propensity; the negative and Positive wealth of Pre-Atomised World stability. This is glandular legislation, as non-slidable

THE SOLAR CHARIOT

HERE the soul is Solar Born, driving the Chariot of the Sun along the Path of Evolution, as he sends his passions spiralling up to the Heights in the exhilaration of Divine Embrace. Yet all the outcome of his own internal atomic drive, as he brings the vibrational context of his radiating bloodstream into a greater and greater intensity of Solar Light. (See text on page 4, col. 3).

The divine marriage of Cana, for whereas the Vase was filled with water, now it can be filled with rare Wine from the most luscious vintage. With the Stag having escaped from the hunters, finding its way to the vineyard and nibbling at the juicy leaves of the prolific Vine. For had not the goat been buried at its roots, and all the mighty wealth of the mount, now the glory of the Arc!

This now will bring into birth the operatic Hierarchical Virgin scene of the Central Sun Throne Room. With the Hierarchical King being crowned with the Atomic Light of the unified octaval NORM wealth. Whereby ascension is now the Bird of Paradise, winging its way via the revolving of the Atomic Swan Stream of the NORM. And as unto the Swan Lake paradise, the crossed over Atomic Light, in shining its guiding Atomic Beam Vega-wise, would it draw all swans and Hierarchical Birds of Paradise, into its homing Waters. Thus all who have the courage to climb this hill, will find their severed Brahmic thread, now the rejoined Vega thread of divine Compassionate silken strands.

The Opera of Le Ros is now the redeemed Hierarchical sovereignty, the Power of the Spirit, for in one rousing revolution of the NORM, the whole World can be set into active motion, changing the whole contour of the Divine Heavenly FACE. For when the NORM revolves, Neptune as the Le Ros orchestration, fulfills its Hierarchical Choreography to the very full. With all the Atomic Light of the changing screen, infusing all with Theocratic Divinity.

This is the Solar Glory being born out of the Moon density of Earth, the former being an ancient astrological menagerie of the past, it being built up upon the dead minds of the unintelligent. Yet alert active forces that have not and had not been guided by the Atomic Ethers of the Ether Kingdom. The Ethers being pure Divine radiating Fiery Sun-life, born of the Cosmic Consciousness.

For all of the Solar Glory is the imprint of the right foot of man, that being his spiritual measure of all the Breath he breathes from the Great Divine Void of Solar Light. While man's impregnation of his mind consciousness is born and trodden in with his active left foot. Consequently he has never been radiating back and forth, getting absolutely no-

where through the passing of Time.

Although the Cosmos was advancing with the right side, correspondingly with man's higher mind, which he at one time was conscious of, he persistently sought for self, and lived for only self gain. Thus a complete left turn and a lunar moon decline, when it should have been a right turn, as upward ascension to the Solar.

So now, at the period of Relativity, he has at last discovered he is "dead," completely stoned by the action of three Astronauts ravaging the Glory of the Heavens. That which has come to the total knowledge of complete and utter inertia, in its lunar discovery on the Earth Plane.

Yet all three saw and proclaimed to the World at large, of the shaft of Solar Power, trodden-in by the Right leg of the Cosmic Scapegoat. That being sent on its way back as renewed LIGHT, of which the earth scientists and others, had no conception of its origin. She who drew down the FIRE by polarisation of the Power gathered by the Lunar Fallacy dance.

Now only by renunciation and their acceptance that FIRE is a FIRED activational Solar belief, will souls receive of such within their internal creation of mind concept. Then find a change-over from left to right, commencing with the glory of unfolding rebirth. For as much as even they are of the depths, are they also polarisable towards the heights. Being reconstructed from the heights from god into man, through the deem of the Fall.

Now as an Atom, are they lifted up to the Grace of Solar kinship, where Divinity, becoming their life of Fiery infusion, is waiting to manifest as their Voice, and utter things completely unknown to man. This is where, through a Cosmic Scapegoat being conscious of the Atom, did she re-orientate the left and right accord and discord, onto one Plane of conscious agreement. With the Virgin Cosmic Plane of Relativity, the Causation of Scorplionic rebirth.

By such glorification the Central Sun has now become the prototypal sun creation in all able-minded Atomic growth. With all capable of ascension, rising up to the Atomic Plane of Pure Conscious Vega Mind LIGHT. Yet that open to all

men, but deniable through their utter disconnection with reborn Virgin life.

Therefore, the conscious ratio is then found only through the indrawn Breath, as man walks daily from left to right, finally spinning up towards an Atomic polarised point. He finding himself being drawn by the new advancing Pole Star of Vega, the Central Sun that is going to completely Eclipse the whole of Being. Every man being destined to tread-in all that he partakes by Breath, after he has woven it into LIGHT creation.

Thus the Eagle having risen and hatched its eggs, producing six Atomic Eaglets. This dynamic rebirth is the mystery to come forth in the next Regenic Configuration, when the Libran Scales will either crown the soul with the Solar Glory of the mind, or cast it down into the pit of flames. This is to be the outcome of the two years' probation, which all men have had placed at their disposal, that they could become reborn into the royal Glory of Sun in Scorpio.

Man completely re-spermed by the Atomic Fire, now descending in the Solarised Ether Breath; that which is giving unto him the where-withal whereby he can become reborn. With the closing in of the Planets, a mighty strength is being resonated once again into action. It can only be its reception by man, that will give it its manifestation. If not, it will enter into the virgin growth, and add unto man's outstanding problems.

Since Merope has opened up so many avenues of truth, it would be possible for them to seek to claim such resuscitation from this mighty Plane of rebirth. But with her now placing all onto the highest Plane of manifestation, man must seek to rise up to its heights, and embrace its dynamic magnitude.

(See plate on page 4)

For the Intelligencia is now the authentic rejuvenating Power of the Le Ros Seed, and is the growth of the unfolding NORM LIGHT, as Vega sublimation. Thereby bringing into birth the unfolding glory of immortality, that the forthcoming Configuration will unfold its Divine Causation.

This is the Atomic quest, the unfolding indrawing virtue of the Source. That polarising and capturing all its Divine out-pouring, yet that which must go back once more as Altruistic Supremacy. For it will be by the Configuratory down-pouring, that many are

going to awaken and perceive for the very first time, truth in its unadorned light.

For all their internal etheric giant creations are now awaiting this mighty pre-Adamic dust as inflowing Atomic majesty, to blend and transmute them back as Theocratic fulfilment. For Atomic radiation is the Core to Source polarisation, as the Orion Hierarchical mental propensity of Theocratic response.

(So now the soul is completely drawing upon the Central Sun Source. As Merope does it, so do you all do it. She sets it as the prototype, and then you automatically find that you are doing the same thing. You are drawing now direct from the Source, and you are able now to draw of mighty wealth, which will give you all the wonders of the Sun in Scorpio).

The manifestation of the internal growth, that now blossoming as Sun in Scorpio, the glory of the Atomicised Arc, in God made manifest. For this Theocratic correlation is the NORM might surging through the unified ethers, and gathering up the atonement of the gathered Breath. That polarising the inborn etheric Being, with Hierarchical expansion. For this mighty inpouring is the profound Glory of the Virgin Ethers, unifying and manifesting in the density of matter.

Therefore causation is now the altruistic majesty of an Hierarchical sacrifice, for that of Merope's will is now the Over-shadowance, as the Central Sun forged Fire. For it is now the millionth Sun strength

as Atomic might, which is now manifesting in soul growth, that as Regenic causation, can bring into being an elevated mind radiation, fit for Divinity to manifest therefrom.

YOU are going to find that man has now been placed up onto a point, a pinnacle, or platform whereby his physical body has got to comply with the degree of upliftment he has reached. You have got to sacrifice now of those things of the 'beast.' It is an Hierarchical sacrifice, where now you are going to be unified up with all that you have been lifted up to.

Merope has made the fight, which she gained by hard struggle and blood-sacrifice, shedding blood all the way, and as she did so, she lifted you up. She knew what she had to let go of, and what she had to be prepared to do, and she has done it. Now you have got to do the same, otherwise you are going to find yourselves in difficulty. You are either going to honour that which you have been risen up to, and become of its majestic royalty, or it will bite, for the soul now is drawing direct from the Central Sun.

Now having partaken of the Word, you should give it profound study, honouring it to the very full, whereby it will be able to help you to manifest the Voice. There will be many who will receive of this, and will try to do the same. It does not mean to say that because they have not had the Word, that they will not be able to do this; they will, because it is already defined within them by some other means.

It only needs something to set them off, but it will cause them to turn towards this Wisdom, and quite possibly seek for this Wisdom, knowing that it can fill in the particles of Truth which they have hitherto found missing.

GREAT HOLY ONE

RECEIVE of this Great Word that has gone forth onto the maelstrom, that it can stir all hearts into New Life and awaken their inner being to the glory that is with them. AMEN.

ENCEINTE BREATH

as Atomic Light

by The Lord Hierarch of Scorpio

These are extracts taken from the Lecture given at the S.U.P.H. on Wednesday, 21st December 1969. Sentences in Italics are those that were chosen from the Lecture of the previous Sunday, to be given greater and more simplified explanation.

MEROPE'S OPENING PRAYER

LET US MAKE INVOCATION.

GREAT Divine Spirit. Once again we gather together on a day far more important than many souls seem to realise, for it is a period when man is being forced to awaken out of the darkness of the night; much has fallen into place and, above all, the 'Atom' has been exploded. What is going on in the Spirit World we, as mortals of the Earth, find difficult to understand, but it is now bringing man to a greater understanding of the Great Wonders that lie ahead, and which will help him to come out of the darkness that he has been in so long. So tonight, Great One, we ask for Thy Help, and we ask to be shown the Way, for we who have been privileged to see and behold, and just dimly recognise, await **THY WILL**, for we know that in the Wireless Broadcast that went forth today, the Whole World has been touched. And we know this in the Name of Love and Service. Amen.

THE MASTER THEN MANIFESTED

PEACE BE UNTO YOU ALL

THE WHOLE WORLD HAS BEEN BORN ANEW, AND VEGA IS REIGNING IN ABUNDANCE!

Those of you who have been following the Road with us, will now begin to see the Dawn breaking upon the horizon, for all the old states of the past are going to slip away into the darkness, and man, brought forth out of all the old ways, is now going to be born anew. Merope has taken on the Robes of that which she has been struggling for, for many Ages, and as the One who has brought Light into the World, and awakened man's mind to the New Bellef, she now becomes as unto the One who takes on of the Christed Birth. This is now open to every soul who is ready to serve, for there lies ahead, ways and means for all that are ready to take up the Robes of Priesthood, the glory of serving and helping the World to see anew.

Tonight we will look into the Word, and try to understand It with a greater angle of perception.

The Mystery Plate

(See plate on this page)

NOW the Plate is to give the understanding of the Great ENCEINTE BREATH, the Breath alight with Wisdom and Truth, that is now going forth onto the Maelstrom. But this applies to every soul who can speak words of wisdom.

Merope, out of writing a simple letter to the medical world, explaining to them of what was the real cause of the 'Flu, has been the means of broadcasting far and wide of what is causing the catastrophe at the present moment. This has been as the dropping of an Atomic 'bomb,' but a Royal Bomb of Royal Atomic Light, and the whole world now is going to awaken, and many are going to see the new Light straightaway. Many are ready, many are open to claim and go forth. Those who have struggled over the Ages, and are born of the greater Breath.

As you take in of the Breath, so you send forth of the Breath, and the Breath gives forth of the great Desires within your heart. As you become more sensitised, and the frequency within you awakens, so you will become aware of what you are born to bring forth.

Now let us look to the Word and I want some of you to try now to see the depths of the Word I am going to bring to you. This is the Word that was established on the sabbath, called the "Enceinte Breath," alive with internal Wisdom.

Here the student must fully understand, that all the magnificence of the Fontanelle is now the Orion selective virtue of the Hierarchical Breath. And as such, will it unfold the Relativity Atomic-creator. For the Fontanelle is the Atomic-creator of the new World of Divine Neptunian inflow, and is the immortal sensitivity Creator of the Vega World of Divine Reality. This is the Crucible Pot in its Royal degree, blending Heights and depths into the Universal World of

THE ENCEINTE BIRTH

THE Theocratic Inbirth of the electrified vibrations of the Hierarchical Mind Plane of Vega. Thus it is the LAW, interpenetrating its Atomic Truth through the inflowing Breath, that now alive and alight with the dynamic Wisdom of Universal Philosophy. (See text in col. 1).

Theocratic LIGHT. For the Virgin Fontanelle is the Hierarchical expansive redeeming sensitivity, now operative through the Theocratic octavial creation of Timeless electrified Space. Thereby Space becomes the perceptive iso-

toped Atomic nucleus, which is electrolised through the Atomic Breath of Merope's reorientated Cosmic rebirth. That which is now of Neptunian correlation, the science of Atomic percussion.

Here is where Word of

the Divine Royalty of the Hieroglyphic Solar FACE, is now the Central Sun Power of the Atomic NORM radiance. The Pineal, as the atomised NORM, now Solar eclipsed by the Central Sun. That blossomed into Holy LIGHT, as the light-house ready to shine forth into the night. Thereby changing night into day, as the reborn World of Universal Atomic Glory. Yet the very Atomic Mystery of the Heavens, bringing Divinity into birth in the depths, through the unification of Heights and depths. The human soul no longer of spirit and flesh, but passional waters transmuted into divine Passional Glory, the uprisen Neptunian Glory of the Mind. Thereby the unfolding Cosmic Glory as the Great Cosmic Soul of Evolutionary Universal manifestation.

Priesthood is now the Hierarchical artistry of Space, where Hierarchical Priests as Divine Orion Firing Bulls, sperm the Atomic nucleus with Neptunian Power of reality, that of Divine Consciousness. Those who, like the Pharaohs of old, have risen up their Kundalini Fire, as the risen Uraeus, with Power to Sperm

entry, but those who refuse to embrace, will close and seal the door, by refusing to embrace any form of responsibility. These Firing Bulls can awaken such self-born beings, breaking open their sealing and making a way of entry.

★ ★ ★

NOW I want some of you who are capable of giving me some thought, to try and drive it as hard as you can, because today (being the day of the Broadcast) is a most momentous day, and one that will ever be remembered as time goes on, as part of the History of Rebirth.

Q... Here is where the soul is breathing in the Breath to the full Atomic Power, and it will mean the whole of the soul Atom will now be vibrating upon that Atomic Power.

A... Yes. Now let us see if we can get a deeper thought on this.

Man does not seem to realise that the Breath he takes in, has within it the Central Sun and all the planetary forces, all the planetary powers, and that, in coming from the Central Sun, it has all the wealth of Universal Philosophy within it. This is where man only sees of form; he cannot realise the unseen Wealth of Vibration, for the Powers that are coming down, which you breathe in as Air, are Vibration.

So that as you raise your mind up, through the Word, are you capable of extracting out of the Air that full Degree of Wisdom, so that it begins to nourish your inner bodies, and your inner bodies are within the bloodstream. Thus it means your bloodstream is being replenished and you are dancing on air, you are full of life, and you are finding yourself ever seeing with a greater perception. You are eager with Life, you want to go on; you feel you want to help another; you want to tell another all that you can feel within yourself.

But this is where you have got to try to find strength. Strength is not as it was in the past, but of the graded mind unfoldment, where you take on of the depths and heights and purpose of a Priest, where you want to tell the World of the mighty Truths that you believe, and in some cases you perceive and know. Because many of you have been working for Ages, but are not yet fully awakened.

Now these Teachings, and the Breath that is coming down, are awakening everybody. This is why you have got this scourge of so-called 'flu at the present moment. The Powers, in coming down, are only finding souls filled with waste, filled with the mucus of unwanted desires. Consequently there has been a big scourge of cleansing, and this is what is taking place at the present moment.

Now there will be some, in fact quite a number, who will not be able to respond to the cleansing that they will be forced to go through. Well then, that is only because they have been lax and less diligent in their striding to go forth than others.

But those who have been truly seeking will find they will open up and begin to blossom, and begin to see a new thought. This is far more

souls into new life. Awakening their internal sleeping wealth, so that the Wisdom of Universal Philosophy will find a royal nest of nurturing life. Thereby opening the way for the descending Fire to find a way of

momentous than you realise, for there is an enormous action going on in the Unseen World.

"This is the Crucible Pot in its Royal degree." Now the Crucible Pot is the soul, because he is the one that, in taking the Breath, fills it up into Light, for his inner bodies are of Light. And this is where some of you find utter frustration. It does not matter what you turn to, you find no peace in it. Why? Because your inner bodies are waiting for Light, Wisdom; you are only looking for the earthy things, when really speaking you are a soul who is ready for the greater things of life, and you should be reaching out for them. You have already been of Royal degree, but you have not allowed yourself to continue searching. You have just taken on a weak state.

So "this is the Crucible Pot in its Royal degree, blending Heights and depths into the Universal World of Theocratic LIGHT."

Now this great Universal World is within yourself. Every man is equal to the whole of the Universe, for if he breathes in all the Heavens and he experiences the earth, then he is to the equal in frequency of the whole earth. Every man is of this now, whether he responds or not. But if you are a soul who has partially awakened, and perceived a little, then fight. You have got to fight for your heritage. If you don't, then you are going to find yourself lost, and you are going to find those whom you have got to teach, tramping over you, and very quickly. If you know a Truth, then fight for it, because you are fighting in the name of Divinity.

For the Virgin Fontanelle is the Hierarchical expansive redeeming sensitivity, now operative through the Theocratic octavial creation of Timeless electrified Space.

Now the Virgin Fontanelle is the top of the head in its new Virgin state. What you have got to realise is that round the top of the head is the Aura, which is the reflection of your bloodstream, a reflection of your Etheric body. This is where you see in many of the ecclesiastical pictures, the halo around a saint's head. Well, every soul has got this halo around his head, but some more brilliant with light than others.

Q... This is reflected in each soul's horoscope, where the powers are showing in their different houses, to the degree of the Element unfoldment of the soul's etheric bodies.

A... That is right, and that is where we are able to delineate to what degree you have made growth by the Elements you have absorbed. According to how your Aura is alight, you draw to yourself by the Law of attraction, and you build up of your fiery protection.

This is where Merope is now completely protected by Divinity, through the Powers of Divinity within her inner bodies. You must see this Royalty; this is the Royalty of every soul, that he has now to awaken to, because every soul is now born of the "Timeless electrified Space." The Great inflowing Powers of Electrification, which, through Merope raising up the World, have now become of "Theocratic octavial creation."

Thereby Space becomes the perceptive isotoped Atomic nucleus which is atomised through the Atomic Breath of Merope's reorientated Cosmic rebirth.

In Merope being the Scapegoat, she has been the One the Greater Powers changed. By her being reborn through these Great Powers of the Heavens, it automatically has changed the frequency and the vibration of the Earth. By her becoming the Scapegoat and being changed by the Powers that she can absorb, she automatically changed the vibrations of the Earth. She brought Light into the darkness.

That which is now of Neptunian correlation, the

Here is where the Word of the Divine Royalty of the Hieroglyphic Solar Face, is now the Central Sun Power of the Atomic NORM radiance.

This is where every soul who partakes of the Word, absorbs of its inner Fire, and as you take in of that inner Fire, you are going to build up a Solar Face, and you are going to find you are radiant with Light, a glorious Power of Radiation.

The Pineal as the atomised NORM, now Solar eclipsed by the Central Sun.

You have so absorbed of those Higher Powers, through the Breath, that you are radiant with the Power of the

REBIRTH

HERE is the mystery of soul resurrection, back into the true status of its original god heritage. All brought into being through Merope sacrificing the whole of her blood-life, that Divine Light could enter into the depths, and mankind see the foolishness of the illusion they were living in. (See text on page 11, col. 2).

science of Atomic percussion.

So now everything is Neptunian born, and that is the highest degree of perceptive Glory. Whereas man has been only seeing by form, now he can perceive by the Power of the Spirit. You may say, "well, I cannot do it." But you can in time, for once this had been made by Merope it became perfected for every soul; everyone can perform it, everyone can partake of it.

Q... As we make progress we can take this Power where'er we go.

A... That is the point, in getting to become a Priest of Truth. This is where you are going to be able to awaken others by your power of persuasion, and once you are truly of the Spirit, then of course your Powers are untold!

Central Sun, and it is giving you the Power to live, the Power to drive, the Power to think, and the Power to speak, and the Power to heal.

And of course all healing is done through the Etheric body. You can't heal the physical body; that is going to drop away in time, and you are going to be of the Etheric body. That means your body will be so refined, so glorified with Light, that you will be of a very very refined sensitivity of flesh. Not the coarse flesh that is often seen with a soul, but sensitised.

That blossomed into Holy LIGHT, as the lighthouse ready to shine forth into the night. Thereby changing night into day, as the Universal Atomic Glory. Yet the very Atomic Mystery of the Heavens, bringing Divinity into

The Mind Development Class

EACH Week on every Saturday at 6.30 p.m. B.S.T. Mrs. Spearman-Cook holds her Special Mind Development Class at the School's H.Q. A special Subject is concentrated upon for about 40 minutes and then each siter is individually helped to interpret and understand his or her findings. Any readers can join; those nearby can make application to attend each week, and those too far away can send in their names and link in each week at the time stated, their names being entered in a Special Book for this purpose. The subjects for concentration are:

- | | |
|------------------------------------|-------------------------------|
| Feb. 7th GOD | March 7th Mind |
| Feb. 14th Scorpio Babe | March 14th Hierarchical Sperm |
| Feb. 21st Pre-Divine Consciousness | March 21st The Glorified Atom |
| Feb. 28th Divine Completion | March 28th Molecular Divinity |

receiving the Great Powers of the Godhead surging through him, as he goes forth to awaken every soul that he can meet, by his beliefs, and the truth that he knows, because he has these divine Powers within him. He could not possibly be otherwise than a great driving Bull of Holy Truth.

Thereby the unfolding Cosmic Glory as the Great Cosmic Soul of Evolutionary Universal manifestation. So Priesthood is now the Hierarchical artistry of Space, where Hierarchical Priests as Divine Orion Firing Bulls, sperm the Atomic nucleus with Neptunian Power of reality, that of Divine Consciousness.

Wherever they go, they carry their Light, they sperm the world, they radiate into the World the power of reality. Not illusion, but Truth.

Those, who like the Pharaohs of old, have risen up of their Kundalini Fire as the risen Uraeus, with Power to Sperm souls into new life, awakening their internal sleeping wealth.

So you can, by having this power within you, touch upon a point within a soul, that is necessary to awaken them. Merope has this Power; she can talk to souls and see what is necessary to tell them, so that they become awakened. And they inwardly say, "yes, I know that this is true, I know that I am born for that, I know that that is with me, I know that I must try and find it." And she spurs them on.

Now this is what a number of you have got to learn to do, because there is a great need to awaken souls who are so closed down and dead through the artificial life they have been living, that they are practically completely lost. Through the Fires that are coming down, and to such a soul as this, you can open up their minds, and get them even to turn to the Word; perhaps take herbs which will help to cleanse their inner being, and encourage them to try and see a greater truth, thereby opening the way for the descending Fire to find a way of entry. By Merope speaking to a soul she is the means of making them think, and while they are thinking the Fire enters by means of the Breath.

But those who refuse to embrace, will close and seal the door, by refusing to embrace any form of responsibility. These Firing Bulls can awaken such self-born beings, breaking

Concluded on page 11

birth in the depths, through the unification of Heights and depths.

So now you can begin to see how all souls that awaken, and bring this Light shining within their inner beings, are going to bring radiant Light into the earth, and the earth is going to be re-born. This is how it is going to take place. It only needed one person to set the prototype, and then others would follow.

The human soul no longer of spirit and flesh, but passionate waters transmuted into divine Passional Glory, the uprisen Neptunian Glory of the Mind.

Because it is the uprisen waters, that in being raised up, become the Glory of the Mind. Now this is where a son who gives his heart and soul to this becomes a Virgin son. A soul

Reminiscences

WELL! WITH SO MUCH THAT HAS BEEN happening over the past month, there is a great deal that we can discuss, and perhaps perceive a much wider comprehension. The thing that must be absorbing the minds of most, must be this so-called "Mao flu." The copy of the cutting from the Times Newspaper, and my interview with the British Broadcasting Co. are on page 2. But I do feel that my letter to the Medical Officer in last month's Gazette, should be looked into once again, for it explains more than anything else of what is really the fact. Here you will notice that I commented upon the fact that, not so very long past, scientists were stating that they were very worried over the Cosmic Rays that were coming down to the earth. In fact, they went so far as to comment upon the point, as to what effect they would have upon human life. Yet here we are with the effects, and these so-called clever brains making no attempt to verify and seek into their previous statement.

The Royal Waters

YOU may well say what I have heard others state, "Well! what could they do?" This is where I declare of the value of Occultism. By seeking into the Depths and probing the so-called Mysteries, one is able to become intimate with these Powers, and find out the Rhyme and Reason for this onslaught. The outcome of this, is the wisdom now being made known in the Occult Gazette, but most of all, souls who become reborn through this wisdom, being able to embrace the inflowing Powers and living in harmony with them.

The majority of people breathe in the Elements, if only sparsely, and think no more about them, failing to understand, or even consider, that these Powers of Outer Space are now Mighty Powers of FIRE. For through Meropé lifting up the Planes by Mind Belief, she changed the range of the Elements from Water to FIRE.

This means from lunar to Solar, thereby giving to these Powers, that were non-creative LIVING POWERS, the power to LIVE and Become. Consequently, where man had been living in the PIT, breathing in old stagnant magnetic fire, and becoming more and more of the sodomitical depths, Meropé opened the Gates and let in this Mighty Inflow from those Heavenly Heights.

Now every man is breathing in the Royal Waters of the Heavens, but as Meropé gave man new life, she also gave life to these Mighty Powers, by raising everything up onto the MIND PLANE. So man became enhanced, and the Powers that were filling his bloodstream with new life, also took on of the status of MIND.

For Meropé had now created a complete Infinity between depths and Heights. Not only within herself, but Cosmically, and this is where you now can try and understand the front article to the full; that of Primordial Copulation.

Once you can perceive that everything is of a living consistency, and that nothing is dead, but all stages of manifestation, the easier are you going to perceive of LIFE and EVOLUTION. Whereas these Mighty Powers were just blind Ethers, with the inner FIRE within the Fire never yet manifested, now the Outer Fire has manifested.

With the whole context of the FIRE in the nucleus of the Breath, now being absorbed by man, according to the mind expansion of the soul. Everyone is taking the Outer Fire, but the genuine student of Occultism is taking the inner grades of the FIRE. This is where the Mighty Mysterious Divinity is waiting to issue forth in the soul who becomes risen up in spiritual unfoldment, and can manifest the mystical depths of the FIRE within the Fire.

This is what was intended at the beginning of TIME, but man, coming straight from Atlantis, the World of lunar darkness, clung to the desires he had formulated, and started to create another World of lunar humidity, for all is one emerging out of another. This links around the fallen Shamash, the father of the present God, who became Saturn, and took complete control of man.

Where Saturn is prominent in the chart, this indicates the internal weakness which the soul must seek to transmute into Solar rebirth. But never forgetting that Meropé, by suffering Cosmic Interception and giving these Mighty Powers Hierarchical LIFE, has redeemed all men, and placed them on the Virgin Plane of rebirth. What they have to do, is cleanse their minds from the old states of belief and become reborn.

It is because these Powers have become so complete within the Breath, that every man is fully alive with this Mighty Hierarchical Inflow. But in entering the bloodstream of the Race, it was found to be in such a deplorable state from the poisons of desire, that automatically a war between the Gods and the Titans truly came into birth.

For man to retain the inner glories of his etheric body, which lie in the protoplasmic substance of the blood, it is essential that only cleansing herbs are partaken. Any form of drug or antibiotic will damage this inner divine creation, and leave the soul very blank and blind.

Oh yes! it may cure quickly, but disastrously. This is the big mystery of 1970, the year of personal Relativity. Where every man's etheric body is now open to the inflowing Fire. The thing is, has your etheric body any true inner depths, that this Mighty Hierarchical Intervention will find an equal to unify with, and produce an Auric Arc that will give you a status of MIND elevation, or are you going to become one of the "throw-outs" into the vortex of the Stream of Cosmic unfoldment?

Mind and Spirit are complementary, and only by raising the mind and the Spirit, can the soul become in harmony with this Hierarchical Inflow. For they now have taken over of the meninges of the soul, and the soul is living under the complete Power of Theocracy. So all such ruling is from within, and will come forth upon whatever degree of Divinity the soul seeks to manifest it.

Hence, the so-called "flu" is but the Scorpionic Powers cleansing up the soul from the earthly waste that he has taken into his body, and from which he must be freed. For Meropé, in raising all men up to the Virgin Mind Plane, has restored them by matter of status,

COSMIC EXTRAVAGANZA

in that part of Africa. A more evil or wicked two-faced action one has to meet.

A pretence of spiritual purpose, and declaration that he was a Holy See, when in reality he is nothing more than a diabolical fiend. A cunning man at the head of a community of diabolical intrigue and false truths, that not only have had the world in its grip, but have used a helpless dark skinned Race, to try and stop

When are the human Race going to wake up and free themselves from this diabolical scourge of roman catholicism. Perhaps this year will answer that. I am not in the least concerned about what you think regarding my forthright speech, my motive is truth, not pandering to people's opinions so as to hold their clientele. In fact it increases my sales, by the statement, "We know at least you speak the truth." This Paper belongs to the Hierarchs, and many thousands are waking up out of their captivity under religion and grasping the truth.

The Changing World

NOW another point that has arisen in England, which people are watching with their tongue in their cheek. The disappearance of the woman Muriel McKay, the wife of one of the directors of The News of the World. My only comment upon this is the fact of the report made public, upon the film contained in the News of the World and the Sun, and how much newspaper not only demoralises the youth of the World, but smears the World with evil and puts into the mind of the young, things that they were not aware of before.

I think if you look back over my Reminiscences, you will find that I predicted that it would not be long before the whole World was going to be cleaned up. For I know that this is the immediate intent of these Mighty Hierarchs, but only they know how, and Their Powers are irrevocable. Yet strangely enough, often using evil to counter-balance evil.

The difference between myself and the onlooker, is the fact that I understand the Occult Law, and the present state of the World is completely blind to the intricate middle they have got themselves into. Now man is going to be forced to come out of this chaotic miasma, and should consider himself blessed to be alive, to be able to disgorge of these states. Those that have passed over have not the same opportunity, whereby they can practically work out of their problems.

Yet, as I have stated, all men in reality are virgin born, but it is their minds that have to be cleansed. All this is NOT a matter of opinion, but the LAW of the Cosmos, and no man can refute this. Live honestly and simply, and you will find that the FIRE, of which you are breathing in, will be your own Shield and Protection. The promise made to all Abrahams, who sought for the way of eternal truth, through becoming FIRE born. Of which Primordial Copulation explains much.

The whole of the World is changing day by day, and so rapidly, that not even an Occult-wise soul can follow. So my only advice to those who write to us and ask for guidance, is to let the Abstract Lectures fill you with their FIRE. For these Lectures are written by the Hierarchs, and of which David Spearman-Cook and I, Meropé, have to commit to paper.

It is not a matter of using our minds, but our faculties, to get their will onto parchment. Even I, who have spent 34 years under the training of these Great Powers, stand in awe and amazement at what is being put into operation at the

UNSEEN POWERS

TO interfere with the sacred tombs of such evolved beings, is courting disaster, for in such creations enormous Powers were gathered, which, though unseen, are ever there as a hovering over-shadowance. (See text on page 9, col. 2).

back to their original god-like creation.

Now I have tried to explain these pamphlets as clearly as possible, but I am sure you will not only find very similar wisdom in the lecture, but in deeper analogy, also further help regarding the assumption of vibronic measure.

Diabolical Religious Trumpery

NOW another very important subject which has just reached its climax, that of Biafra. This holds many points of importance to England, from the standpoint of continual onslaught upon Harold Wilson, because he would not interfere as they would have it. The Occult Gazette is extremely interested, from the fact that Nigeria holds many students of the unfolding wisdom of Universal Philosophy. In fact, they could put the white man to shame, therefore, I wish them all speed in their victory.

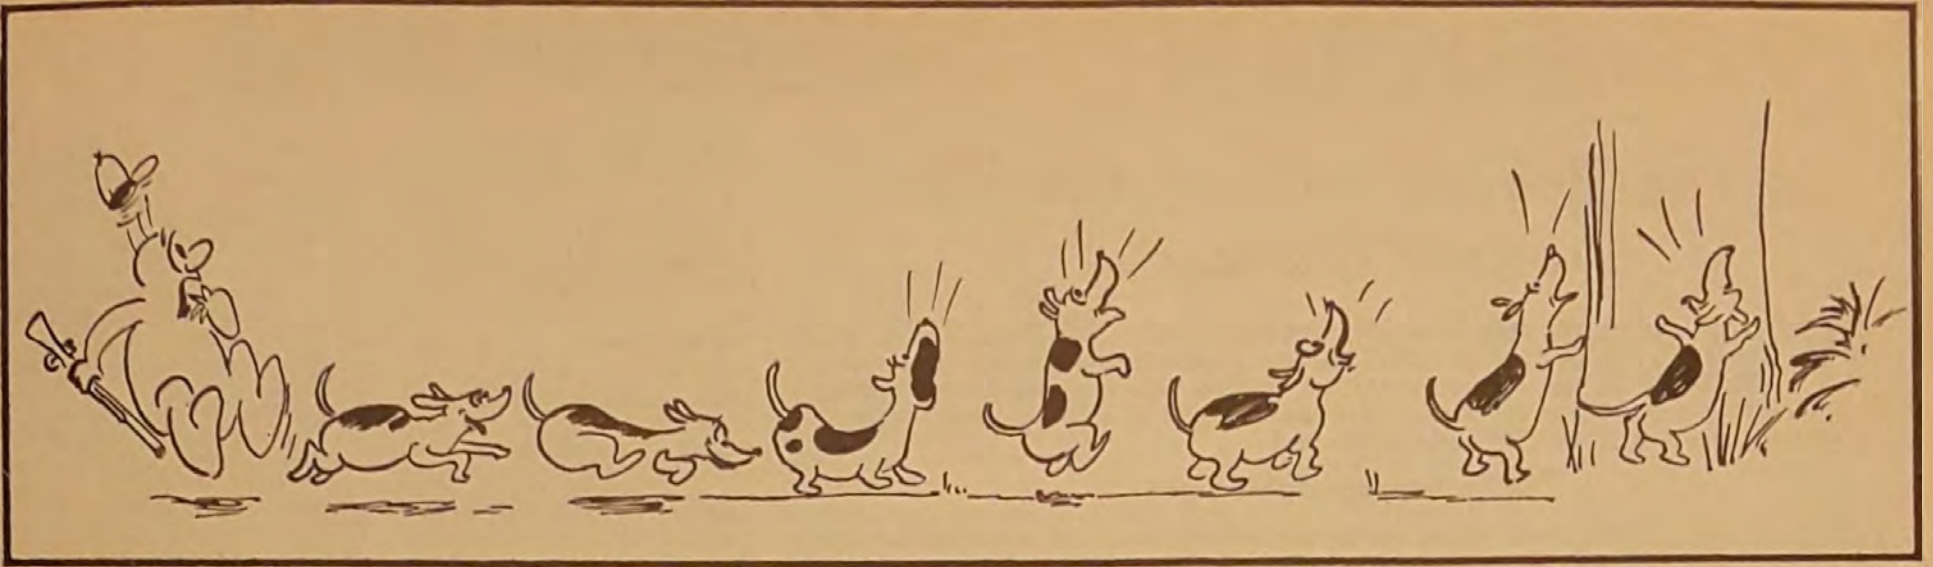

But let us look into this dreadful tragedy, that could have involved the whole of the World in another war. The miscreant behind all this was the pope, seeking to keep the Biafrans under the servitude of roman catholicism, and his claws upon the dynamic wealth

the fast falling slide that is now taking pupalism out of the picture of TIME.

Yet I see on the front page of the Times of the 14th of January, a picture of a group of rag-tazelles with a coffin, declaring that Biafra was our Vietnam. I suppose it is the same old story, it is easier to march up and down with slogans, than do a good day's work. Yet upon deeper scrutiny upon the posters, one again beholds roman catholicism.

Even Rome has at last seen through this diabolical religious trumpery, by rebelling against the poverty stricken state of their housing problem. Again owned by the pope, while there are blocks of flats of much better quality, that have been standing empty for some considerable time, through this money gangster asking too high a price for rent.

And to add unto his diabolical effrontery, went round to the slum areas at Christmas time, and told the poverty stricken inhabitants, "Christ was just like you." Could any man give over such false lying rubbish, apart from the evil fact, he thought that he should by right, be living in luxury. But declaring only too clearly, that the poverty stricken people were near to christhood, and that he was as far away as possible, from this holy estate. He condemned himself.

(See text in column 2)

present moment, to free the Seed from disaster.

Therefore, when I look round and behold the nincompoops receiving O.B.E.'s and such tommy-twaddle for their marvellous services, I perceive more than ever, the mad illusion that man is living under. Man is a divine atom, yet still goes on living like an animal. This the Hierarchs are changing and bringing every man to book, but how much are you going to be found wanting as your etheric body lies open to the impouring Hierarchial intervention?

Either it finds its blending point, that an ARC-al rise can take place, or discord begins, and the soul is forced into change.

Once this was acclaimed and declared by one, it became the recognised LAW, and in writing as I am, I am writing as the Teacher and not the recipient of the picture. Again, another picture to be produced a little later on.

Now the most important thing to be remembered in 1970, is the building up of the mind, and portrayed in symbolism as our own faithful friend the dog. This is where we behold Gemini under true balanced control, and not Procyon and Sirius running wild, seeking for new growth.

(See plate above)

For it will only end up with Saturn taking hold of you...

warning was, leave the Tomb alone. And what was more, Carnarvon was warned against it. Well, it seems Adamson was lecturing further against this so-called myth, when the morning after the lecture, his taxi was in a crash outside Norwich, where he sustained a head injury, broken thumb and cuts.

Finally the report ends up with Adamson stating, "In the past, when I have disclaimed the curse, disastrous things have happened in my family. You can say that this has given me food for thought." Then why did he go on the television a few days before, knowing all this, and declare that he did not believe in the curse? I think Adamson should go on the television and give over the truth; in any case, so much for the rubbish that comes over the television.

When certain articles from this Tomb were removed to France some years back, I got on to the British Museum by phone, and warned them that no good would come of it. The scathing rude remarks by the "aping jackass" on the other end, were ignorance sublime. When one knows the truth regarding the human soul, and how they are atoms of complete cosmic creation, with the whole Power of the Universe as their consistency, then what is purported to be the Power of Tutankhamen's tomb, is nothing.

These so-called tombs, were really the seance rooms of these mighty Gods, where they used to call down the Powers from the heavens, and incorporate them in their own being. For they were Gods that had been given life by the Atlanteans, with Assyria and Babylonia following on. And to understand this more clearly, try to see that such Worlds really emerge one out of

another, thus carry their Power forward.

It was these mighty Powers that held Egypt safe for thousands of years, and of this I speak with authority, for I happen to have been Hatshepsut who worshipped Atum the Sun God. A soul never loses what they have been created from, and with the sensitivity raised up to Atomic frequency, these states can be recalled. I only hope Adamson really has some true difficulties, it might make him realise what he is now responsible for. For he lied to millions of people, who probably will never see the report in the Times. But this is Relativity, and Adamson will not lay fallow, but find this will have further disastrous effects.

★ ★ ★

NOW another point that will take us back into 1521, when Cortes and his Conquistadores, a bunch of roman catholic thugs, razed to the ground the magnificent Aztec capital of Mexico. Montezuma, the peaceful Aztec king, was brutally tortured by this thug, they finally putting his daughter Maricha into a catholic convent. Again I know this, by it being another of my incarnations, where I suffered for the Solar Glory that I had brought down to the earth 13,000 years ago.

Cortes never found the wonderful treasure that Montezuma brought down by his drawing of the Solar Glory into his earth domains, thereby causing untold gold and precious stones to form as minerals of the earth. But this was not only Solar Rays and the Mystical Powers of the heights, but the royal worship and active adoration of those people. In

their dances they used material equal to a mirror, fixed to their forehead and the base of the cerebellum. Thereby drawing the Rays of the Sun into these two capacities, so that their minds became Solar vessels.

Now Archaeologists are following up an army of workmen, who in tunnelling under the old Aztec capital, have come across treasures that have already filled two warehouses with more than 50,000 Aztec relics. The rumours that the mighty treasure of Montezuma was looted by the Spaniards, is not true. For these roman catholic thugs raided this mighty City once again and tried to force King Cuauhtemoc to reveal where the treasure was buried. In him refusing to do so, they poured oil over his feet and set fire to them!

Cuauhtemoc, meaning Risen Eagle, the last Aztec king, refused to speak, and the Spaniards executed him. All I can say to this, is no wonder Spain and Italy are derelict poverty stricken catholic countries. But thank God, these thugs never confiscated this soul's mighty wealth.

Now as a final statement, why don't you all try to gather up your sensitivity, now that Relativity is here, and bring to light of your ancient wealth. It is not so difficult as you think, but it certainly needs faith.

I must also thank all who have readily striven to assist us over what was a very difficult patch; the love and kindness offered has been amazing. So all the very best for the coming year, which can be a very difficult one, it being of personal relativity!

Gladys J. Spearman-Cook.

I know that form does not count, but I thought that some small diagram could help our lesser advanced friends.

Now for our next point of inspection. We have been receiving for some time, some marvellous Spirit drawings from one in America. Until we brought forth of the Abstract, they were very difficult to comprehend, but now they are more discernible. Unfortunately they are difficult to reproduce for printing at the present moment, but we hope to very soon.

But I am sure, many of the deeper seekers will begin to comprehend much, as they are able to study the depth of these drawings as they are brought forth. Yet we too have just been richly blessed, in one of the School's students bringing forth a new Altar Painting of the present day Christ.

...and the Word shouting formidable beliefs in your mind...

NOW two other points to complete our Extravaganza. Again in The Times of January 14th, they have a report of R. Adamson's lecture upon the Tomb of Tutankhamen. I remember the opening of this excavation, and the dreadful report about it at the time. Adamson, the last survivor of that expedition states that the legend grew after the incidents; this is not true.

(See plate on page 8)

I remember everybody discussing it at the time, and the

Portrait Drawing Gladys I. Spearman-Cook

by London Artist JULIET PANNETT

Editor offers to all readers this personal link between them and the Principal of The School of Universal Philosophy and Healing. A special mounted photograph 8" x 6" of this drawing is offered to all readers, price 7/6 or \$1.50 U.S.A.

Astrological Delineations

MRS. Spearman-Cook is prepared to continue giving delineations of readers' horoscopes, as her time allows. These will be based upon the new world teachings, and is a unique opportunity for all to perceive the extent of their growth, where their karmic difficulties lie, and where their opportunities are waiting to blossom forth; apart from giving the understanding of how and where karmic roots, impossible akashic records, rear up out of the darkness of the soul's multiplicity.

Price in England and abroad £7.7.0.

Price in U.S.A. and Canada \$25.00.

IMPORTANT. Please note that all delineations will be by Tape Recording only on 5 1/2" reels track one or 4" reels track 1 and 2 at 3 1/2 in/sec.

THEOCRATIC CONSCIOUSNESS

as the Rebirth out of the FIRE

by Gladys I. Spearman-Cook

WE NOW COME TO THE REBORN CONSCIOUSNESS, SET INTO BEING BY Venus, the dancing Lady of LOVE. She who eventually brought glory to the soul, whereby Orion, the now active Abstract Warrior, became as her dancing partner in the new role of life. For as the shadow of Venus Excelsior, he is of the blended light of the supreme immensity of the TIME-echo of the Seed.

The Anthropomorphic Light

HERE we now see more clearly of the mystery of Spectro-Genesis, the divine gift that the Pleiades were endowed with in their seductive dance. When Merope first perceived of her mighty achievement, whereby she then continued the dance, so as to ever extend the vision of the EYE.

The dynamic width of Consciousness within the Fire Seed, that held the whole secret of extended Divinity. Hence the mighty Helpmeet as Venus Excelsior, has risen up into the full glory of the Central Sun. The Divine fulness of the Spectro-Virgin light, the magnificence of the radiance of Divinity upon the Arc.

Thus Spectro-Genesis, the glory of the unseen, is the glory of the EYE in its mystical vision of the Abstract, in that of the octavial EL Powers. Whereby the Breath, in its entry into the Seed, quickens it into life, according to the width of Vision perceived, and the sensitivity of the soul. Thus the Black Bull, as the prize Bull of the ring, so full of fertility and astuteness, is now being led up into the Neptunian atomic field, the glory of the NORM. Thereby the animal state now becomes the Animal before the Throne, being crowned with the glorified status of divine administrator.

But even divinity have their irony, for there before him was a little white rabbit, begging like a little dog, seeking for a golden carrot. The sensitivity, now the finesse of the mind, seeking of Bull-Orion to bring forth of the now radiating golden Seeds from the Scorpio sublimation, that only the heavenly inflow will make itself manifest. For as the Holy Stream of Divine Waters, set into motion by the Blessed Virgin, can it bring of its divine sensitivity. Yet only as the soul so raises its perceptibility, will it bring into birth of divine sensitivity.

For the EYE of Aldebaran, is linked with the Chakra in the sole of the foot, whereby as Orion and Venus tread in the mighty wealth now being acquired, will it spin round on this mystical Chakra. Thereby change the course and beam of the Argo now sailing forth on its new cruise of rebirth. For only by dancing in her golden slippers, will Venus get the crown of the mind. For as the EL Chakra of the foot opens up with its new-founded established truth, will the NORM open up and expel yet greater Seeds from that Fount of life.

Then as Venus, in all her risen up glory, walks across the "Waters" in her newly acquired wealth, does she tread upon the Water-lilies growing up and blossoming from those mighty depths. They which opened up the Chakras of that ivory ladder of the Elephantine ascent, causing the NORM, as the Black Rose, to blossom forth in the heights, in all its glory and unfathomed wonder. Thus Venus sits as Shiva upon the throne of the mighty Ajna, and woos the mighty EYE upon the Arc to open and shut, and deliver of its newborn vision. Yet only by Orion becoming worthy of this

mighty wealth, will it be revealed unto him.

For the sixth Chakra, the mighty granary of the gods, is the mystery of the three running legs, that not only fires the seventh into action, but brings the cherished gift of perception into birth. Yet the Uranian striker which will cleanse the earth in 1969-70, to open up the way for the involving of the Divinities.

These being as the mighty Rays of the Central Sun, which now are the Theocratic Powers of the Virgin Plane, which will, in their potential involvement by a possible illuminati, force him, by the ultra-firing of his passions, to send up to the heights the whole of his Kundalini creation.

(See plate on this page)

For here, all of the macrocosm has become of the Macrocosm, which the macrocosm of the divinities will search out, to receive and embrace of their divine incarnation. For the cloak of Invulnerability, a mighty prize sought for by the seeker of divine wealth, is the macrocosm that can now manifest of the Abstract, that of octavial ascension into action, by the inflow of Divine Glory.

Thus the Orion beam, which is the union between Macrocosm and microcosm, is now bringing forth of the Anthropomorphic quintessence, that the conscious mind, the feminine principle, can dance with the inflowing Abstract Glory. That brought into being by the blood-life belief of Merope, which as the Hydroxyl resuscitation of Divinity, is changing the blood-life of man's estate.

Wealth which Merope brought into being when the gods dropped down into the Atlantis darkness, and now polarised into Octavial glory, with the conscious mind now meeting it as Relativity. But long long ago, Merope brought the prototype into birth, to try to raise up those still earnest gods, those eagerly seeking to survive. That which the Priests of Pibeseth and Aven sought to emulate, but used not of the divine root, but elemental nature of an abyss-like degree, building up sons of men, instead of sons of God. Thereby bringing giants into birth, while Merope brought forth of gods, sons of the mighty Divinity.

Now, once again, as the glorified Rays of the Central Sun, are they seeking of these Theocratic Isotopes, that they can bring forth of the mighty wisdom of the Abstract, to manifest the wisdom on Earth, to lead man back into the right direction.

Therefore Merope is now of the Anthropomorphic LIGHT, with all the Blood of Time having become the sacrificed virtue to her profound belief. Thus she becoming of that

essence. Where the unification of the Anthropomorphic EGG has now begun its individual relativity with the Divine Abstract. Thereby making of its intended journey, towards the World of Pure Divine Consciousness.

For now when Uranus strikes, it will not be through the Pituitary, but by the striking of the NORM by the Orion Beam. Thereby electrifying man's atoms, as they come forth as the divinised infused Seeds of the Macromised soul. With the soul, now sending his atomised serpent up through the Fontanelle with the Quint-

Excalibur, as she makes the fulfillment of the Sun in Scorpio, that of the reigning Fatherhood. With the might and Power of the inner depths of Lesath, now her driving force of the Divine Word. With the spirit now spermed by the Divine Fatherhood, bringing forth of the Immortal Seed.

Thus the isotope immensity now, is the wonder and glory of the Pleiades, as the soul so drives his Bull by the electrified NORM. For the Divine outlook of the Divinised FACE of the Macromised Divinity on the Arc, is now radiating fully as the Sun in Scorpio, the LIGHT of Theocratic Truth. The Sun now being that of the complete Intelligencia of the Whole FACE. The divine ecstasy of timelessness, born from the NORM as the Glorified Orion path-finder of the Holy Truth. For here we see Orion wearing the Divine Pure Cloth of Gold.

The Solar Root

THE soul now awakened so acutely to God-consciousness, as to be eagerly seeking the new Path of the divine Abstract investigation. For a fumatory state that has been driving the internal being, can now produce of reborn aspiration. That now being set into motion by the Hydroxyl Breath, for all that has been of TIME, is now inspiring the soul to future action, by its transformation into timelessness of Relativity.

Therefore as Merope gazed into her Magic Mirror, she perceived a Chinese with a Kite for his head, and knew that she was being taken back, by Relativity, to ancient China, the uncivilised rebirth out of the FALL. Where Neptune in all its amazing Glory, had been dragged down into a Chinese state, and must now be polarised into ariel flight.

The gods had turned the white lamb into the black lamb, bringing about a "black death" to Divinity. For in their conception, and still so, Blackness was the whole of everything, having become dispersed when it had taken on of colour. So, as early as the uncivilized early state of China, the depths of Truth were known and revered, but not to the state of progressive unfoldment, but in the direction of superstition.

Thus the Solar Root goes back to before China, when in the latter, re-atomation then began to reign. For all then started to work with the Atom as seen by their Fire festivals. But as a result of the lower states of China, Neptune was sunk into the depths of the Waters; Neptune being the Divine Source, with Uranus as the original sparks sent forth by the Divine Atom, and the inaudible shock-waves of receptibility.

Thus, by the past now being polarised by Merope, it can now give man the true state of Perceptivity. Uranus being the original Echo of timelessness, that which Merope now has in her possession as the Flaming Sword of rebirth. That which cuts away, to create anew, but with wisdom and perceptivity as the overshadowing possibility.

Hence, with all the awakening by relativity within the soul, can it, by radiating as Sun in Scorpio, become the awakened consciousness of Theocratic Truth. The old original Fire now the reborn FIRE of the complete Intelli-

SCORPIO RISING

HERE is the Virgin Son as the Orion Warrior, spinning his mind up into the Heights, ever seeking deeper and deeper into the divine wonders of the Fire. Ever expanding and intensifying the Sun in Scorpio, transmuting the Atomic Seeds of Abstract Glory into an infinity rebound of radiating Vega Light. (See text in col. 2).

Divine Causation, whereby every man is going to carry of its magnitude in his blood-flowing veins. For all her wealth has now been sacrificed and purified, in the Atomic Fires of the Vega Void. This being the Anthropomorphic World of the REAL civilisation of the gods.

Thus as Merope touched the Arc of Divinity in immortalised belief, true Theocratic enlightenment was born into the World as the Divine Wonder of Divine Octavial Quint-

essence Seed in his mouth, to electrify the divinity upon the now glorified Arc. For all who become of the 144,000, that of a Theocratic Isotope, will have to take of the LIGHT of Orion, as the Solar-craic oath of Divinity.

Thus like Merope, make the gyroscopic rise of their Virgin, to become truly established on the Virgin Plane of Assumption, and fully embrace of the Abstract Causation. This is the call out of the Seed of divine Royal awakening, the vortex of the Hub of Divinity. For Venus now is as Venus

gencia, the might and wonder of ORION. But as Orion the path-finder, wearing the Divine Pure garment of Gold, that born out of the FIRE of Ages.

For Orion is the pre-Neolithic Echo of Neptunian consciousness. That born before the Stone Age, when man was bringing down immense Powers, through the heritage that was subsistent within him, as the fundamental of Creation. That which, after the FALL brought about by the immense wealth being placed into their hands, the soul turned into meteorite stone, through the fallen vibratory action.

(See plate on this page)

This pre-Neolithic Creation was the time when Fire was of Heliographic Rhythm, the Power of complete interpenetration of Divine Thought. Therefore it naturally was an ordained creation, for Samuel the prototype of this divine wisdom, sought of a divine wearer for this Crown of Gold. Thus the Prophets down the Ages, strove to drive the Chosen Race, to bring forth of this past reborn mighty wealth, but in the light of Solar-born glory. That which was the Divine Heritage of the soul, and of which the Tribe of Levi was duly adjudicated unto, they being of the Tribe of the LION of Judah.

Therefore in polarity, this would be the reborn divine Pube, as the atomatory incubated Seed of the pre-Neolithic Eatherhood. Therefore the Orion son who seeks to pave the way for that Divine Fatherhood to manifest. This being the Creation before the Feminine Helpmeet was created, when Neptune became the Fallen Glory of Uranus, the mighty wealth of the Atomic Glory. That which can only be reached by the unification of Time through the Word, then, in its polarised state, spun up in divine reverence and awe, unto the Creator who gave it birth.

But until this is perfected, the soul will be a jumble of multiplicity, that will bar his way to seeing and perceiving clearly of the mighty Truth now being conveyed unto him. For the original was a time when soul was an individual, animated and effective. A soul

free from all Saturnian influence, the latter only coming through the Fall and lack of divine service. Therefore, by this being polarised, the soul is free once again to look deeply into the Mirror of Divine Truth. To bring this into birth, Merope raised up the Fallen Venus, she having been living in the depths of the pit as Dinah the whore, to become as Venus the risen Aphrodite.

The microcosm, as the conscious mind, that impeded the way of the macrocosm from making union with the Divine Macrocosm. This within the soul being the manifesting FACE, brought into birth by the devout glory of the soul, when it was unimpeded by form. Whereby the microcosm as the descending Adam, was he who was imbued and restricted by the state of possessive indulgence. While the macrocosm could be the inaudible culture of the Virgin

Plane, as unto divine spirit creation. Hence the glory and the way prepared by Merope, that all men could get back to the glory they once knew.

Thus Neptune and Uranus, in being brothers to the Holy Divine Father, have now brought Pluto to become the exquisite Glory of the Trinity. The FIRE and Water that brings into being the Fluidic Glory of the MIND, that born from the Intelligencia of the Begotten. Thus here we now perceive more clearly of the Divine Seed of Abraham, re-born by the Ark of the Covenant.

For long, long ago Goddess Merope called down the Fire, to replenish the fallen gods in the depths. First by activating the Pleiades, making union between the Source and those depths, that of the five lower spans of Creation. Thus bringing forth the Divine Holy Fire, that the glories of the heights, Uranus, Neptune and Pluto could come into being once

again. But although Egypt waxed fat, she would not abandon her ways, that of sensory rebirth.

Then as Noah, an Arab chief, rose up and raised up his Arc upon the two pillars of the Gemini mind...

...he raised up the Sine, the Arc of the World, through the glory of his mind. Thereby the LORD called upon Abram, an offspring of the generation of Noah, to get out of his country, "Leave all and follow me," leave the animal way of living, and turn his ways to the heights of the mind. Thus to come up from Ur, the Land of Fire, through the quintessential glory of the NORM. Thus he became the first father of

elevation, upon that risen expanded Arc, but also the first creation of the Face.

But Abram found that through his Arab might of abundance and the wrong application of the Fire, it cut off his replenishment. Thus the LORD entered FIRE into the Breath from the heavenly Galaxies, waxing him hot, that he would be able to produce a warrior of mind creation. Then sent Abram down into Egypt that heights and depths were infinitised. By this alone, it can quite clearly be seen how Merope has ever been polarising states of Relativity, until now all is born of the Abstract.

It has been by all this, that the prototype of mind rebirth was set, as the Arc was raised up higher and higher through the inflowing Fire from the heights. Then once again, man forgot the Covenant that was made with Divinity, and despised that way of inter-union. Thereby sickness and ravage fell heavy upon the Land, with war ever in the offing.

Then the GREAT ONE called upon Merope to finish her task in the age of the Waterman, when Relativity would aid her lot, and unify her cause. For she knew the full story of the Divine Seed and the heavenly Covenant. For was she not Eve, the seeker of light, the Helpmeet that left the side of ADM. Thus here she was once again, not only raising up man to embrace the final Three Divine Elements, that there could be the Christing of all Atomised souls with the glory of the heavenly White Lamb, but the embracing of the Abstract, that the soul was lifted up out of illusion.

Divine Reality now becoming the soul's accepted vision. While the Arc of the Covenant as it embraces of the formless, as perceived by Noah, and the means of raising up the Seed out of the rat-driven waters, now in being polarised, was the fulfilled glory of Merope. For her task now was to raise up the Seed out of the disease and crime infested waters, with the young warrior as the reborn heavenly Child, to set the Seed in abundance.

To be concluded next month

WEALTH OF THE PAST

MIGHTY wealth of long ago, as it reached the magnetic ascension, whereby the Fire Hierarchical resplendency. (See text in col. 1).

ENCEINTE BREATH

Concluded from Page 7

open their sealing and making a way of entry.

Now this is what Revelation has promised to the World, and is for the first time now being made manifest. Not by religion: religion has failed. This now is by the Word, and the Word is God, and God is the Word, because it is FIRE. FIRE awakening the soul to come out of the dead lunar waters.

Now all through the Ages there have been those who have been trying to bring this Truth to mankind, but mankind was not ready. Right from the period of the dawn of civilization Truth has been given unto the soul, but many were still merely in the state of creative animals.

Then the Hebrews were awakened, and they began their Exodus, so the present moment is the polarisation of the Exodus out of Egypt into the wilderness, the world of New Birth, to find a New Jerusalem; it is the polarisation, but not now to find Jerusalem, but to find VEGA.

VEGA is the New Jerusalem, and Vega is within every soul, every soul has their own world of Light, their own world of purpose

within themselves. And once that purpose is awakened they have the power to help and awaken others.

All this is by the inflowing Power of Scorpio, and every soul has got their percentage of Scorpio within their creative being, some more than others.

Q... Until today all souls were Sauls, who were struck by the Fire and went blind to the truth, but now in this New World they are all to become the Paul, struck by the Light to see the Light of the Central Sun.

(See plate on page 7)

A... Every man is to be Paul, but some are more ready than others. They are to awaken, come out of their Saul state, and become as a Paul; one who can speak the Truth, who can perceive the Wisdom, and lead those they speak to onto the New Road of Rebirth.

Q... I did notice, Master, that those who refuse to accept any form of responsibility, are those who refuse to accept the Word, and the great vibration of the Word that brings such great changes. They don't want to change, and they refuse to accept any responsibility of creation.

A... Now that is the point. Every soul has got to accept responsibility; no longer are

they going to throw the Word back unto a 'God' placed upon a cross. Merope has carried the Cross for quite a long while now, as being the one who was the Scapegoat. Now every soul carries their own cross, and they are going to be answerable for what they do, what they say, and how they do it.

If you have got the wealth there, and you refuse to take on the responsibility, then you will find there will be Fires that will try to awaken you, and awaken you the hard way, the ruthless way, and force you to see the Truth. If you still refuse, then the awakening, which will be extenuating, will fail and you will not come forth into rebirth.

Q... This will be the personal responsibility towards the Godhead.

A... That's right. Man has got to try and realise what the Godhead truly means. It is the pinnacle point of LIGHT, the pinnacle point of TRUTH. Everything is alive, everything is Vibration, everything is full of Life, nothing is dead.

The very chair you are sitting on is alive. If it was not alive, it would crumble away under your very weight. Stones are alive, and that is why moss will grow upon them. Everything is alive; once it becomes dead it then begins to break up.

Q... Like the dead state of the moon.

A... Yes, but of course that was obliterated, then man re-awakened it. You can re-awaken anything because everything is vibration. You can bring a completely dissolved state back again to life by imagination, by belief. It is human beings that bring vermin into a place. They can bring moss, and even fungus upon walls. They can cause boards to become damp, because they are of such a low vibration they cause all of this to take place.

It was the human beings that brought the animals into birth, and then further still the eating of their flesh, showing you how much the human soul, as a spirit, has more and more deteriorated into darkness, and sealed himself off from the Heights.

Now by these Fires, which Merope has drawn down by becoming the Scapegoat and taking them through her own blood, it has lifted up all the Planes, and has made the way now to place man once again on the footing of a god.

Q... Master, through the Law of Relativity, all the lesser creations will have to be turned-in, and the god-man will have to live by the Breath of Divinity again.

A... Yes, that is quite true. Everything will slowly be

turned-in, but it will come in what appears a natural way. It will come about by man automatically determining it because he feels that it is wise.

But you must realise that Merope has so decreed it, that every man now is held by the Great Powers and if he obeys not the Great Theocratic Law then he must suffer. The whole world has been infused with FIRE, and is alight with FIRE, and to begin with, it will bring a certain amount of chaos, because of those who will refuse to change, as they only want the easy idle life.

But the FIRE itself is going to be the Great Awakener. There will be no need for judge and jury, the FIRE alone is going to drive them, and if they are not awakened by the FIRE, they will have to take the consequences. The NEW DAY is here, as prophesied in the Book of Revelation, and everybody now must follow the Path or succumb.

THE DIVINE INVOCATION

GREAT Holy Unseen Powers and Divinity of LIGHT, pour down Thy Holy Waters upon the darkness of the Earth, that every man will now be stirred into the Glory of Rebirth. Amen.

APHRODITE

Continued from the back page

personally to man and takes on this creation in time of action and growth, but the most important is the world receiving life at the hand of a saviour: (and this helps those that have taken these Fires to receive more Fires down into the earth and raise them up; those that have taken the Fires and have not put into full creation).

Yet the Four Year Cycle would literally take place, and as the whole Cycle of 1460 years, would bring forth of its life according to the toils of man in his personal endeavours (for those are the years of the whole Cycle of the Sothic). The goddess receiving of his labours. After the whole period had been struggled with, a youthful Adonis could be found after having passed through the dark night of life and then would be restored to the arms of an Aphrodite.

(Every 1460 years the whole of the maelstrom becomes changed, because that is the Sothic Cycle, and in every 3,000 years a new Law is given new life: every 1460 years it causes the pole star to change.

Why there has not been real wealth and fulness for all that time was because Sothis as Aphrodite had not been given the power, and for 1460 years she had to labour without. But then again, all does come unto man as a personal struggle, and at the present moment,—owing to the wars bringing their emptiness,—1460 years are going to be lean and man will have to struggle with these lean years.

That is why you are finding so much being placed into creation that is causing devastation and the reason why there had to be a saviour come along and send forth that Holy Life upon the waters that the stream of the Race Elect could be carried on through those lean years. Perhaps some of you might see now the great depth of the struggle).

It was Venus who became reconciled to the boar that killed Adonis, but when the New Year is given re-union with the Star Sothis, the birthday of another Great Year will commence. While the mourning for him is equal to the mourning for Osiris by Isis in Leo, thus has its polarity, as every action has an equal and opposite reaction, for here would denote where her prison existed, and what had existed through the ages of mourning. What had accrued through the prolonged absence; for all through the Ages there has been a mourning for Adonis, even if through religion as the Christ put on a cross to indicate man's destruction of the life that he should be revering through Word digested and spun into a mind-flame. (Man has got to struggle for all that time because he brought the Pole Star in under a lesser degree).

Adonis is the renewal of the Solar life within the soul as the lunar reborn into the starry reflection. He as the lord of life never fails to keep his trust, but man now only knows the sun by lying forth in its rays and burning his flesh; but how to absorb into his inner bodies through the spiraculum and derive his wealth, is beyond the mind wisdom of the soul in the present polarity.

He comes in the spring, dips and kisses the earth; as the bridegroom he is seeking for Aphrodite his bride. If in the summer the bridegroom perish-

es for the nonce and passes the winter in the land of the dead, she will bewail this burial, yet rejoice in his resurrection.

Thus the occasions of the rite are spring and midsummer which are the intercalaries that man should remember and respect to the degree of reverence; and if the celebration in the soul is natural, he will find that it belongs to the Great Year and will yield handsome reward for a more adequate ground.

was the continual rebirth of the child as then the god, the soul filling up the vase with the Solar-light, but sometimes the vase becomes smashed through the soul losing its footing.

The lot of a saviour is hard and the dark forces, and even man himself, are ever seeking to destroy that saviour instead of uplifting them. But the one who can hold on is the one who has found the answer to Taurus,—endurance and stability,—and usually it is to be found when Mars is nesting in the heights in Taurus; then there is a tenacity and a will that no man can break.

The crucifixion that was gone through by the Christ-child, every soul passes

depths of the decaying race? Isn't it worth while to struggle while you have the opportunity now of pulling yourself out?)

Yet he is the father of Europa, she who spanned the seas of life on the back of a bull; also the king who

(See plate on page 13)

hunted the boar, and to some no more than the mythical invention of the alphabet. Yet in reality the emblem of the soul born from the great Solar Cycle as it spans the heights and braves the depths of 1461 years, where resurrection brings the reunion of Venus and Adonis, the star Sirius and the rising Sun, that the inundation of the Nile will evolve the prototype for his final rebirth as the Buddhic Lord; He of all Enlightenment.

(The soul now as the one risen above the pole. He has found the answer to life, and even though you may be in the realms of spirit you will be tied to earth if you are one that has not got very far away from it, and you will labour just the same in spirit as you do out: you don't idle time away sitting on a damp cloud, but then it is harder, for you have no body to purify and so you are continually crying to go back into a body that you can learn anew).

This accounts for why oaths were taken over the boar's head with the water of the Styx in the silver goblet. At the time of Zeus, the God of Oaths, seekers after truth would swear over the entrails of the beast and would not cheat at the Olympian Games. This can be understood since they were held every four years and would hold their nemesis of the boar in like fashion. (And that was what they literally had the games for, every four years; and the athletes were those who would not only be struggling to train, but also struggling to hold the desires at bay so that they had the power to win in the Games).

For it must not be forgotten the Sothic Cycle is distinctly Egyptian and has connection with Adonis of Syria from his parentage of Assyria, as well as many other countries besides. The father of Adonis was Ammon who took the young child into Egypt where he taught the young race agriculture. But it was in Syria he was wounded by a boar, and although he recovered, he was later on killed in battle: (the struggle with the karma from that state).

Although Astarte as Isis tried to continue the race through life, Adonis had to give way to Ares, and he became the son of Zeus and Hera; (merely Mars took over, and no longer the solar god); but then he loved war, and many times had to flee into Egypt where he metamorphosed into a fish and was delivered by Hermes (Mercury the mind).

Yet he was beloved by Aphrodite who remembered her lover's fight with the tusked monster, therefore did

not want to lose another of her suitors; for now the planet Mars was the divinity of the star Aldebaran in Taurus and diametrically opposite to the star Antares in Scorpio.

(When Taurus was in the heights, the energies went down into Taurus, and that was literally where all the karma was set, and was naturally in opposition to the great star Antares that represents the red beetle or the red creation in the generative functions; no longer the Eagle but merely the Scorpion).

(See plate on this page)

These having relation with two other stars of the first magnitude, Regulus in Leo (which must be kept in control) and Fomalhaut in Pisces, and are the royal stars that mark the four quarters and very important in the marriage of Zeus with Hera. Aldebaran is the star of the spring equinox, the festival of Zeus and Hera, expansion of electro-magnetic force which is associated with intercalary arrangement. This is better understood when you realise that Ares is the son of Hera, but not the offspring of Zeus, he conceived when Hera touched a certain flower. (So you want to look into your chart to see whether any of these are the riches of your creation).

The Intercalary

BUT to get a better idea of Ares who plays such an important part in the life of every human soul, let us seek into the intercalary injunction which brings unto man the silt of ages or freedom into Solar rebirth. Hera his mother is the electrical infusion that comes with man as he struggles for life, and her characteristic festival is the Daedala, that cunningly wrought but not embroidered (it is only by the solar light that all is embroidered) and brings an extra fifteen days in the sixtieth year (the time of her bringing all into birth).

This is defective by being eleven hours in excess, so the son would follow suit (which means that if you are only labouring under Mars as energies and not bringing the solar light into birth you will only bring something into creation every sixty years and not every four years); as much as it is not good to be too slow, it is also wrong to be too fast, for the gods obey laws which have been set into motion by man himself, and God is the Law.

(If you are one that is only struggling with energies because Mars is ruling you—and you are not bringing the solar light into birth,—you would bring forth a creation every sixty years and then you would find yourself out of calendar, completely out of creation, with all karmic states waiting to be born in; and usually speaking, in that sixtieth year you begin the real serious trouble of trying to fathom self and bring self into life.

TRANSMUTING THE DESIRES

ONCE the soul can master its lower Taurean desires, it will spin up into Planes of Solar Glory. There to receive the Neptunian Seed of Hierarchical intensity, as the wonders of Scorpio waiting to be blessed into a new etheric garment of unblemished Atomic Light. (See text in col. 5).

(The absorbing into the solar plexus that starts the spiral through the soul is the spiral within the inner bodies. So when you gather it into the solar plexus it is continually spiralling up to your heights and becoming your soma pneumatikon body, your body of the spirit, of solar light. So do not be worried if it is continually missing; that Sun-god has gone up to the heights and is changing the fatherhood. Then New life comes down and the mother labours again for the next Solar child; and so it goes on and on until the father in the heights becomes the Christos-born.

Then the soul must labour to fill up the vase; the vase is created then in complete polarity. Then there must be the ministry and labouring with the Solar-light of the time,—no lunar,—and filling up the vase within the soul by the ministrs through the solar creation,—that which would be the rich wine of life, the continual marriage of Cam, bringing to the world, time after time, the breaking open of the Mysteries.

That is the marriage and that is the Christos declaring to his Mother, "Woman, I am not yet ready." He had not been able to solve the problem to the very heights. And so it

through: it has to be crucified as it goes from the 5th to the 8th house. It is the struggle to get over the bar, and the Christos-child goes down into the underworld to struggle with the creations in the depths, and then the soul struggles in the 8th to bring all out of the tomb with the opening of the mouth in the 9th, and the sailing to the heights in the 10th. So every soul, no matter whether they have brought the Christos into birth or not, has to go through these struggles).

The Full Enlightenment

ADONIS is the son of the Phoenix, one born from the ashes of continual rebirth, thus plainly a child of the Sothic Cycle; the mystical bird Bennu, the lapwing or soul of Osiris renewed through 1460 years of solar firing on the forge of Hephaestus.

(So you can understand now what is going to happen if man does not understand this wisdom. If he allows this wisdom to go cold, what is going to happen in the next Sothic Cycle? And what are you going to do? Are you going to learn to become a saviour or hero, or merely go down more and more into welfering

Those who have not yet reached the sixties have yet to bring that into birth, unless they struggle now).

An intercalary month of thirty days would solve the problem, where all was embroidered and then the Six Hours would be waiting for the wise soul. (So if you have really sought to embroider as much as you can all the way upon the path, then, when those sixty years came into being, you would be able to claim what you had lost). But of course this was not the case when Mars was being initiated into birth, and that is what you have to try and understand. It is not what you know now as knowledge but what has been embroidered into the loin-cloth that counts.

Mars would have played a very important part in Egypt as Sut, so see the priests of Mars armed with clubs taking their station at the portal of their temple, while opposite a number of candidates engaged in the performance of their vows. The image of the god was brought forth on a four-wheeled car and the priests opposed its admission. Then the votaries espoused the reason as to why the god should enter. The explanation is the fact that the mother of the god once dwelt in the temple, and now he was seeking his right of entry.

(The soul through the ages having to try and bring the energies into a solar creation, because no man can exist without. The soul must have the spirit body, otherwise it is continually being chained down to earth. Some of you have been able to raise yourselves out of the depths; some of you have been able to get-up, because you were able to take the solar light by struggling for the Truth).

So it must be proved as to why he should enter, for in the lowest of activity he will rise to his mother's holy estate and become as the father for her future sons to be involved. But all the sons of the mother grow up at a distance from the mother and, on attaining man's estate, come to her temple after a lapse of time which brings mother and son to one date of intercalation. Mars is the same as Ares, or Ares the head-piece coming forth, and as the father of Romulus; built up the order of twelve in which twelve priests carried the twelve "ancilia" round the city in the month of March.

EXPANSION

HERE is Venus, the Virgin Mind, being carried through the Neptunian Waters by the driving Orion Bull. Thus she is able to perceive the wonders and glories of the Abstract Neptunian Plane, whereby she can then weave such glories into the radiant Light of Divinity, manifesting the mighty intensity of the Sun in Scorpio. (See text on page 12, col. 4).

The growth coming into birth as receptivity of the Ares arrangements bore the same likeness to that of Hera and made use of the Sothic Cycle as a basic, but there had to be a device to supplement the year: for up to then man had not learnt the way to get the interblending blended, so as to find the life and growth that would bring him health, strength and the evolution demanded of him. He had learnt by experience that he was responsible for time and creation by time, and if all was not put into operation in the right way he found himself severely lacking.

In fact a time came when all was chaos and drought, so he now was seeking law and order through the interblending of the elements within himself and his government. He had the order of 365 days with the Six Hours not fully embellished, for he had not yet gained the full understanding of the incoming heights with the depths; in any case they had not yet been explored. These he would learn by experience.

At the present moment Ares was in love with Aphrodite and having an amour with her, his altar being under the same roof with hers. This of course will be understood as they are

the two most important Chakras in the form of sex and desire, both having anchorage in the third as Mercury, the wily Hermes.

During his fit of jealousy he assumes the shape of a wild boar and attacks her favourite Adonis, the chase being stayed by the intercalary that came forth in the month of Mars and took the place of that which would in time come in its proper place.

To understand this fully, you must keep in your mind that this is the first of the active state of solar creation that can come forth between Mars and Venus building up love into electrical force of solar creation that would give light to the diaphane.

(The month of Mars is not only Scorpio but also the 1st house in the intercalary between the 1st and the 7th house. So what you put into operation in the 1st house as you struggle to bring your moon through in new ideas and new resolutions is going to become the solar interbirth in the 2nd house, and as you know, every 28 years the moon goes round to meet that rebirth. But the soul can also put that into birth every 24 hours if he wants to, and every week, because it still goes through the whole intercalation: it depends

upon how much the soul is struggling as he rises up, and then once a year he does the glorious rebound).

Ares is a son who causes trouble to Zeus, and Zeus hates gods who trouble him, especially his son Ares, for it disorganises, being the bloodstream and Venus the lymphatics. So Zeus approaches the goddess Leto who becomes his wife, and he hopes for better things from her child Apollo when he shall be born. The myths state how Hera is infuriated against Leto that she is about to bear a son to Zeus more dear than Ares, but of course we know that Apollo will represent an improved system of intercalaries: (it means you have made expansion, and instead of Hera just labouring with you, you are able to bring Leto the-hewer-of-stone into birth, breaking down the rock).

Naturally Ares is roused also, and he seeks to aid his mother by joining with Isis who is the messenger of the gods when the moon had the eyes of the peacock's tail to watch against the coming of Leto. She was the sculptor and hewer of stones and would bring the reformed mound (the raised heights, the reformed solar plexus as the diaphane).

Therefore fortunes of the mother and son are bound up together, and when Hercules wounds Hera he wounds Ares also. Ares is immortal in the fact he is the polarity to Apollo by being the opposite ray in the seven rays of the spectrum, therefore immortal by just being immortal. So he must be kept in the calendar whatever changes Hercules may bring. (He must not be killed off; he is the energies that must be wrestled with and changed into the solar light).

Here you have the wisdom that is telling you why you should struggle, but those of you that are finding the road hard, wonder why you should struggle and why life does not go on in the same way as before. You are opening up doors, you are bringing expansion: you are bringing changes, new life within you, new thought, new balance. Because it is only minute, you cannot see how changed you are from what you were previously, and how changed you are to other men.

Once you start that path you want to struggle on and never let go. You are a blessed soul:

you are breaking down the rock and seeking for freedom. Those of you that have been struggling through the knowledge should by now slowly begin to feel your way. You will in time. Plod on and you will find the answer.

Each week we are bringing you a new Creation which is giving you the reason why you should wrestle, and why you should keep your bloodstream clean, that the lymphatics as Venus do not take a lot of waste whereby, instead of being the electrical wire in the soul seeking to absorb the Uranian force, it merely becomes as a channel of waste, gathering only the pus and slime of ages, bringing cancer pockets into birth because it is only going backwards upon itself.

Then you wonder why you have ulcerated states, bloodstream in a bad state, nerves completely wrecked, putting yourself under the use of drug and knife. This is only because you have allowed those lymphatics as Venus to become deteriorated. Seek into the Wisdom and you will have many understandings break open within yourself now that you have the clue.

It can only be by never giving in and standing firm under all experiences that the soul can find New Life. If you can bear that in your minds, then you know that there is no such thing as "no hope." Always there is hope for the soul who will make an effort.

Prayer:

Now we are going to call upon the Great Ones to bless this Word that should have brought to each one of you a new thought, new hope and new purpose. And I call upon those Great Ones to bless that thought in all its richness, bringing New Life and Purpose on the maelstrom. At the present moment there is devastation, there is very little hope. To the soul that is seeking, give them New Life. And we call down Thy Powers that this Word can become rich. AMEN.

Health from Herbs

HERBALISM is the oldest healing art in the world. Its history can be traced back through the civilisations of Rome, Greece, Assyria and Babylon, and even beyond. Herbs are foods as well as medicines, and build up the general health at the same time as they cure any specific disease. Unlike drugs, which are inert, they are made from organic material instead of inorganic substances, and form an active or living medicine.

Here at the School we have a large quantity of loose herbs in stock, which normally will readily provide for all our requirements. However, we have listed below some of our more popular herbal pills, specially prepared for those who find them more convenient to take in this form, during the hustle and bustle of their daily occupation.

- | | |
|-------------------------------|--------------------------------|
| Nerve Pills. | Blood Cleansing Pills. |
| Heart Pills. | Tonic Pills. |
| Catarrah & Sinus Pills. | Kidney Pills. |
| Eye Pills. (Cataract etc.). | Womb & Stomach Cleansers. |
| Laxative Pills. | Anti-Obesity Pills. |
| Garlic Pills. (Blood, chest). | Buchu Pills. (Bladder, sinus). |
| Bronchial Pills. | Kelp Tablets. (Thyroid). |

THE HEALING COLUMN

GREAT DIVINE ONE

BLESS these children, who seek of Thy Divine Unction, that they can be raised up out of the darkness of their blindness. We leave them in Thy hands.

AMEN

Mr. M. H., Barnsley, Yorks.
"Suffers with spinal arthritis." (See Chart 653)

THIS condition is really an inflammation of the nervous tissues, and all around the nervous system which is branching out from the spine, it being known that the spine is the main centre of the soul's growth.

I see that your Path of Destiny is in the 7th house in the sign of Aquarius, which means that you have got to learn to do some blending up, so that you become 'atomic' and shoot up to the heights.

However, you have apparently not been making any movement in this direction for some considerable time, since you have Saturn in the Mid-heavens in Pisces, which indicates that you have completely refused to change your old ideas. You may think you have, but you haven't really.

You are not seeing the importance of getting down to hard labouring with the Wisdom, that by your efforts you can drive your 'fires' up the spine, and bring them to mind light.

It is a well known fact that the 7th is not an easy house for anyone to pull out of. Many make a stride forward by the taking of the Wisdom, arrive at the 7th house, and do no more.

Your Sun, Mercury and Venus in the 4th house indicate that you are completely fixed in old outlook, the 4th house representing the state of birth and rebirth. You simply will not make any rebirth into a new way of living. You must get electrified, and exhilarated with the Wisdom you are taking, and then you will begin to move!

Jupiter in the 2nd house means that all the 'abundance'

that should have passed up the spine to become the mind growth, has merely turned into a congested state in the spine, which has become inflamed; yet it is not so much the spine, as all the nervous tissues around the nervous cord.

The Moon up in the 10th house, and the Sun in the base of the Chart is not good, as it means that the lunar is overruling the Solar.

With the Sun in Virgo, and Mercury and Venus in Libra, you were all set to start a new beginning in this life, and this is again indicated by your having Cancer on the Ascendant.

I see that you have Pluto and Neptune in the 12th house, Pluto being in Gemini, so already there is a certain amount of chaos with you, which is tending to aggravate the spinal arthritis.

You are so near to bringing everything to an atomic fullness in the 1st house, whereby all would blossom into the radiance of the mind, but you never allow yourself to move beyond the 12th. So near and yet so far!

Instead of getting aspiration, and becoming exhilarated, whereby you would drive the 'fires' up to the heights of the mind, you take things merely in a logical understanding, and bring everything crashing down into a mass of multiplicity.

When you have thoroughly studied the Wisdom, try listening to the Inner Voice to give you the crux of it all. But do realise that as you accept the new beliefs, you must start living them! Beware of the Saturn in your Mid-heavens, which is ever holding you back in the old ways, and preventing you from making the expansion you require.

The Moon has been passing through the 12th house, and is now going to pass over into the 1st, so this is the moment when you must immediately get down to bringing your 'wealth' into birth, and the sooner you can, the better for you!

To you also I would suggest the taking of the herbs such as Lily of the Valley, Vervain, Mistletoe, and the Nerve Pills. These will help bring a balanced up state of mind, and assist you considerably.

Mrs. R. A., Warrington, Lancs.
"Suffers from diabetes."

YOUR Chart (1593) is filled with an abundance of wealth, for you have 3 Fire triplicities, which is very helpful to a female, because as a rule, so many of them are without 'fire.'

Here again I see that you have four planets in the 7th house, which indicates that you have become 'stuck' in that house.

Your Path of Destiny is up in the 9th house of Wisdom, and is in-between Jupiter and Saturn, both of which are in Virgo, which means that you should be making some expansion upon the wisdom you have taken. However, the Saturn state is sitting right on top of your mind, and literally will not move. It appears that Saturn is somewhat of an ogre, since it is showing itself up so much in these Charts.

Saturn is really a 'scythe' away of old ideas, and is really the driver and activator of the soul, but you have got to master Saturn and bring the Solar Light into birth.

While you are ever listening to Saturn, as he tells you that "you must have this" and "you must have that," and

"not to carry out new ideas, otherwise you will get into difficulties," and you also listen to others who are doing the same thing, you will never move!

Diabetes is caused by a soul having taken wisdom, and then making no effort to bring expansion to it. So here again it is the same old trouble; the soul has filled their quiver with all the wisdom of the past, which goes back a long long time, and then will do nothing with it.

We really take the wisdom through experiences, whether they are pleasant or otherwise, and we come back to learn thereby.

I should say that you really have a lot of wisdom, because Neptune in the 8th house in Leo, plus the Sun in Leo indicates this, but I can only say from experience, that it is very very difficult to convince Leo people of anything else but what they know; they think they know everything, and nothing can convince them otherwise!

Well, unless this Pluto, Mercury and Mars are moved out of the 7th house by will and determination, and driven up by discarding old wisdom and old ways of life, and embracing the 'new,' I am afraid the diabetes state is not going to alter. But this can be overcome, and will be achieved as you raise your vibrations up, to the equal of the wisdom you have taken in the past.

You have made growth in the past, but in this life you have fallen back into a lower vibration of thought and living. The mundane way of life has come uppermost instead of the spiritual, and this is what you must alter. Then as you do this, you will balance up the inner bodies, which are at the present moment in a state of discord.

The idea that you have to take liver tablets is utter rubbish, but then of course, until you find strength of will and mind activity whereby your mind is dancing and vibrant, you may probably have to do what you can to help yourself. I have known individuals who, immediately they start taking meat and other similar animal foods, do begin to lift up, providing they get their minds really moving at a rapid rate.

However, this is not the real answer to the problem, for that way will only drag your spiritual growth down to the mundane level, whereby the body takes on a 'false' state of balance, but which is suppressing the spiritual growth. The true way to bring balance to yourself, is to raise the physical vibrations up to the spiritual, and this you will only do by mind expansion, whereby you will draw all the sustenance you need from out of the inflowing Ethers.

The diabetic state is again indicated by your Uranus in the 3rd house of the Mind, telling you to get your mind sparking and dancing. As soon as you do this, then you are going to find the changes you are looking for.

But it is most essential that you do begin to transmute old wisdom into new, and then get expansion on top of that. I know that some will not find this easy to follow, because it will be said that when you are sick, you find it very difficult to do anything, and do not know which way to turn. But this is where you are going to find courage, if you believe in all this Wisdom, and you are

going to try and put it into operation.

Mind you, you will not change immediately, although I have known of those who have come to us for healing, and when they have received the healing and taken the recommended herbs, they have been able to bring about remarkable changes in a short time.

I believe you are already taking the herb Periwinkle, and this should help you considerably, during the period you are making the changes.

★ ★ ★

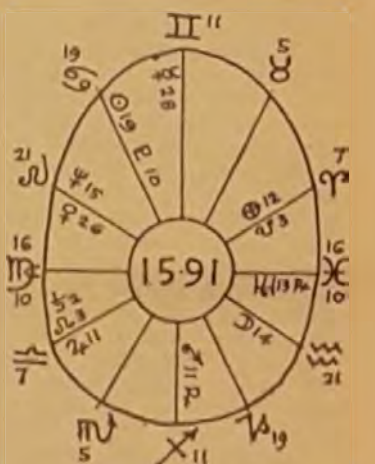

Mr. E. W., Bradford, Yorks.

"Suffers with disc degeneration, causing pain in his left leg and his back for the past three years, also has severe catarrh."

AS the owner of this Chart (1591), you should be able to do some remarkable things, but unfortunately, you have allowed everything to 'catch up on you' as it were.

Your Path of Destiny, which is the most important thing to look into, is in the 8th house in the sign of Aries. This indicates that you should, by now, have started to bring all the wealth you have gained in the past into active fulfilment; you should have been giving in Service whereby you were a 'pioneer for Truth.'

You have failed to do this in the past, which has resulted in Saturn being in the 1st house of the Chart, in the 'personality.' Although it is in Libra, and could give you extraordinary clear sight, it would have the tendency to hold you back from making the 'movement' necessary.

Your Chart is really rather a remarkable one, with your Sun, Pluto and Mercury all being in the 10th house, but it indicates how important it is for you to make a move forward. However, not having done so at the age of forty-five, when the Moon passed over the 1st house and across Saturn and the Dragon's Head three years ago, you immediately experienced this pain in your back.

This so-called disc degeneration is really due to the nervous system not having been brought into activity and been the means of setting into motion an 'infinity,' whereby, due to no expansion, it has become 'locked,' which has brought about a severe state of inflammation of the spine.

If only you would begin to realise that you have come to a time when all must be brought to complete fulfilment, and that you must begin to send your 'fires' upwards, so that you can become active, you would then be able to overcome your health problems.

Concluded on page 15

THE HIERARCHIAL FIRES

Give New Life to the Sick of Mind, the Diseased of Body and the Weary of Heart. The Lord of the Flame uses Gladys I. Spearman-Cook as His Instrument to bring Health and Life to the World.

Every Thursday 6 p.m. to 8 p.m. (or between 2 p.m. and 4 p.m. by appt.)

Absent Healing Any reader wishing to receive this Spirit Sustenance send in their Names to be placed in the Healing Book of Names to be blessed each lecture for a period of six months by The Lord of the Flame. A recording fee of 5/- or \$1.00 is requested.

Health Advice Anybody is welcome to write in and ask for advice as to health or herbs to be taken. Give details of Date, Time and Place of Birth.

All those who can afford to do so, are asked to send in 10/6 or \$2 U.S.A. If a personal horoscope is also required, readers are reminded that there is a fee for this, of £1.10 or \$3 U.S.A.

HERBAL MYSTERIES

Part 31

PELLITORY OF THE WALL (Parietaria Officinalis)

by David Spearman-Cook

NOW THAT WE ARE SO FORTUNATE AS TO live and breathe of Merope's new Virgin expansion, and draw towards the revitalising Solar Creation, we are at last able to seek through this changing causation, into the subject of Solar Herb Husbandry, whereby to delve deep into the very depths of their enlightening wonders. Henceforth discovering of their intensified remedial qualities, which can now be used to assist all men into the World of unfolding mind rebirth.

PELLITORY of the Wall is now being systematically raised up from being commonly known as a herb of throat and ear usefulness, into one of a new sensitivity stimulus. It now miraculously containing the reclassified ingredients for the re-sensitising nervous tissues to feed upon, as the internal changing states are activated by the infusing, down-pouring Holy Fires.

The foremost creative strength of this herb, now lies in its ability to cleanse the tissues within the whole frame-work of the human body, consequently freeing many souls from the most stubborn of coagulating, gummy substances. They which are partaken of through delightfully flavoured foods and sweets, that conceal their devastating tarnished depths with false delights, and eventual decaying properties.

Pellitory of the Wall, Penny-

royal, and Buchu, can now be beneficially consumed by all souls who are earnestly seeking into the Occult Wisdom. Whereby, through their built-up earnestness of a searching response towards the Universal Philosophy teachings, could the partaking of these extremely useful herbs, become as a further advantage towards any soul's unfolding personal expansion. Here is where the benefit of a contented mind, and a decided path of action upon the Occult road, is the basic ingredient towards success.

Furthermore, when Violet is infused with a daily supply of Pellitory of the Wall, a balancing up of the internal bodies through the assistance of these revitalising herbs could be experienced. Thus when both are combined they can become as a vast helpmeet to the Solar Atomic inflow of the Holy Fire. That which is positively set upon its Royal Divine task

of unfolding Light.

There will undoubtedly be moments when the soul will be apt to feel depressive spasms, and a feeling of inertia sweeping over them. This will be due to the internal bodies changing; which in being responded to through the mind outlook, by the soul embracing the Fiery Laws of Theocratic causation, will they, by a full unification of their Chakras, bring alchemical activity.

Here is where it would be of a distinct advantage for initiates to partake of Rosemary and Pellitory of the Wall, during this particular point of unfoldment. Whereby one's root structural function will be well cushioned by this wonderful draught of steadying influence, as an additional assisting mind stimulus. Now one can perceive where expansion of the Word, in regard to a raised up mind outlook, is most necessary before a perfect completeness can be obtained, and a new plane of light manifest.

Now whenever Pellitory of the Wall is incorporated with Vervain, it could offer an intensified strength to the nerves, as the revolving blood within the arteries becomes speeded up into an intense drive, thereby being in harmony with the Cosmic Solar inflow.

Thereby it would be advisable for the wise soul to accept the immediate opportunity of cleansing the revolving bloodstream, by renouncing rich coarse foods containing bulk starch, and produce containing additional wheat and wheat germ. Forthwith, a new smooth-changing balanced rebirth can become one's personal reward.

★ ★ ★

PELLITORY of the Wall, having become a basic stimulative herb, could now be found to be of a further benefit in regard to the moving muscular reaction upon the unseen layers of skin. Whereby a form of thermostatic activity can take place, as the inner etheric mind now activates and controls the nervous reactionary interplay of the pores increased breathing rhythm.

Upon this point alone it must be seen how it is most important that a refined Solar diet should be practised, and in return can the soul also rejoice in the experienced exhilaration of their reborn Solar virtue.

Henceforth, a greater basic utilisation can be achieved when Pellitory of the Wall and Marshmallow are combined, for alleviating pressure upon the external and internal surfaces of the skin. And as already stated in last month's herbal column, Marshmallow as an ointment or herb has well proved its worth in this new field of herb discovery.

Thus these two aforesaid herbs could help the skin weather the new external pressure of the surrounding atmospheric frequency of fire,

IMPORTANT NOTICE

PLEASE note that from 1st April 1970 we will no longer be using our Offices at 52, Earl's Court Road, W.8. All correspondence should in future be sent direct to Gladys I. Spearman-Cook at her private address, at 6, Phillimore Place, Kensington, London, W.8. (Tel: WES 0377).

PELLITORY OF THE WALL

dynamic blessing, for the blood now, as a Virgin reborn state through relativity, is having all of the internal depths of its soul creation purified.

All due to the Divine Breath of Merope's uprisen Royal Mind, infusing all of Creation from the very Source of the Supreme Central Sun.

Pellitory of the Wall was often used by the great Artisans in times long past, when great pains were required to bring into birth their wonderful creations of individual artistic endeavours. This was during the period when roman catholicism drenched the mind world with its adhesive powers of nostalgia, and closed the minds to such manipulative beauty. Now once more it becoming man's reborn heritage through the Scapegoat's Dynamic task of rebirth.

Pellitory of the Wall, with the addition of a well known amount of amalgamated herbs called here at the School by the name of S.U.P.H. herbs, when used as a diuretic draught, can assist many, whether they be newly upon the path or of the very first followers. And especially helping those who, in becoming as Guardians of the Inner Temple of the Flame, have been placed into a special position of being prepared for the many forthcoming changes which are becoming more apparent day by day.

All of these new herbal uses can only have their positive strength extracted to the full, when the seeking soul has combined them with the Word from the teaching of Divine Wisdom. For all is as the axe to the wood, the breaking down of knotted false knowledge, to refire it into true Solar Wisdom. Next month we will discuss Ragwort and its healing properties.

Concluded from page 14

These difficulties could become far more severe, as time goes on, because you have got Uranus in the 6th house in Pisces, so you must start putting the new Truths into operation as soon as possible.

Uranus in the 6th house is very very important, for it is either going to give you a very fine illuminative mind, or it is going to 'strike.' This is the way Uranus works. You are either going to give forth of all the 'wealth' you have taken, or your health is going to be badly affected.

Your Venus is in the 12th house, which definitely means that all your wealth has turned to a state of 'lunar abundance,' which has turned on you, and this is where the spine is being affected.

Your Mars in the 4th house of home, and in Sagittarius, indicates, I am sorry to say, that you are still only in the 'play-boy attitude.' I also see that Mars is retrograde, and although it did go direct in 1928, this does not alter the fact that Mars retrograde means that the will is lacking in strength.

Yet when looking at the 'Triplcities,' I see that you are 7 positive and 3 negative. So you have mighty power to activate, if you really want to! You have 3 Fire and 4 Air Triplcities, so there is wealth in abundance in your depths.

Mercury in Gemini in the 10th house is extremely powerful, so you could really find untold wealth expressing itself through you, if you would only let it come forth. But I am afraid that until you bring all your lunar states into a condition of unity, so that they become 'atomic,' you are not going to help Uranus to strike in the right direction, and it could give you some very unpleasant shocks.

Jupiter in the 2nd house also indicates that there is an 'abundance,' so you really

should try and realise this is your mighty 'wealth,' which, if allowed to go now, at your present age, would bring great tragedy.

I do wish we could bring this fact home more fully to the recipients of this wealth. By looking at what is in the Chart it can be seen what will happen if they do not listen, and invariably they do not listen. They take what is said, but pass it by, and while 'life holds good' they just dance it away.

Well, I am afraid you cannot go on like this. Sun and Pluto fairly conjunct in Cancer up in the 10th house, indicates that unless you really get down to the task which you came back to perform, and which is your set purpose, you are going to experience utter chaos, and in the Cancer Waters it will indeed be very very chaotic.

If you have not got your mind moving, my advice to you is to do something about this immediately, by delving into the Wisdom and bringing your own wealth forward.

It will not be very long before the Moon passes over the retrograde Mars in your 4th house, and unless you have started putting things into operation by then, it could easily result in an acute state of inflammation. So please do get down to making activity as soon as you can.

If you would take such herbs as Lily of the Valley and Vervain, these would have a peaceful and balancing effect, and would be very helpful to you during the next few years of struggling to get balanced up.

The Saga of Time

Mythology Part 10b

APHRODITE

by Gladys I.
Spearman-CookDelivered at the S.U.P.H. on
26th Aug., 1962 by Ra-Men-Ra

THERE ARE A NUMBER WHO CLAIM BIRTH WITH APHRODITE; ARES, HERMES, DIONYSUS AND POSEIDON, but not all catch the swelling tide of the Grace and walk in the rainbow of the Sothic year. This accounts for why the odd day every four years holds such mystery in the calendar of reckoning; often known as the year of the bride's rights, and only she who has courage chooses her husband. Yet if she chooses him, he often goes astray, for he knows not the wonders of the Woman's wiles. (Now you do have an extra day every four years. Man has done that to pull up the calendar. So it means that every four years a man literally struggles before he can bring forth the fulness of himself). So it can be understood why she became Venus, the Morning Star tipping the heights of the foam. This eventually becoming called the Dog-star, man's greatest friend when he knows how to capture and it no longer takes the form of a hog or a writhing reptile. Man, what fools ye be; know ye not that all lies there before you, for you to either capture or let die as the passing foam of another airy fairy idea of a passing day. But it is those days that become the flints and hard stones under his feet, and eventually the thorns in the crown worn by all men in time (as they lose the robe and are crowned with mind memory of what has gone).

The Unfolding Mind

EGYPT, Greece, Rome and Bathos have all had their Aphrodite; even the Evening Star resounds to her glories, and even without man responding to her true values, she still is the ruler of the New year, but not as the goddess of Beauty. Yet since she is the affianced wife of Adonis, though she never meets him under that guise, it is well to enquire into the mystery of Venus and Adonis. By the time she meets him, as a rule she has been widowed and has learnt much in experience, thus she eagerly offers him her only son for his kindergarten of re-birth. (The soul having lost the solar god and seeking for another).

(Virgo goes up to the heights and unites with her lord as he comes into birth, as it is Virgo going up as the Virgonian star; and as she reaches the heights she is rising up on the crest of the wave in Capricorn, thus bringing a unity. And that is why Virgo is so important to the soul. And as that unity takes place the pole star brings new birth into the world for a year to come).

To comprehend this fully, we must understand first who are the Erinyes; for they are the avengers of time who persecute the criminal by hunting him. To some, these are known as conscience, the fury of the mind and the woollen material woven for the three fates. Therefore by viewing one it can be seen what form they take.

These are the daughters of Earth and Darkness, the offspring of Cronus and Eury-nome, good law and custom, the mother of Grace. Though they could be understood better as the Nemesis (that which is ever turning up as karma); those sent to plague the diffuser, for nothing escapes their sharp eye, and they can even detect the needle in the stack of hay; so follow the evil doer with speed and fury.

There is no excuse when Orestes the son of Agamemnon slew his mother Clytemnestra to avenge his father's death. The atrocity of the crime committed was held by Zeus and Apollo to be no excuse for Orestes, and accordingly he was subjected to a long and cruel pursuit of the Furies. This he was freed from eventually by the advice of the oracle advising him to bring an image of Artemis from Taurus to Argos (struggling to bring the Taurus fires upwards); thus explains our last demonstration of the birth of Aphrodite.

(See plate on this page)

(Although you may only see this for the moment as a myth, it is perfectly true, and the true initiate will know what I am talking about; how he seeks to bring into birth that clearness of mind and how, by turning to other things, he finds he is being continually hunted down by those states within himself. So the only

thing is to find out what is holding up the growth).

This was clearly seen in Atlantis and Meleager in the Calydonian Hunt which resulted in his death and she being left without a husband; although many would have stepped into his shoes. But he was the sun-god of many ages striving to survive; yet nothing could prevent the Erinyes performing their task, even though its origin resolves back into Egypt.

The World of Fire

THE story of the birth of Adonis is mysterious to the degree of real mystery, yet he was killed by a boar (meaning that it was in Assyria that the first solar rays were brought into birth by a soul). Myrrha denotes bitterness in literal interpretation, for having neglected to worship Aphrodite she was struck with an unusual love for her father (the father of the heights in the soul). With the assistance of her nurse she contrived to share his bed, which, when he discovered he strove to kill her, but she escaped and prayed to be invisible.

(Surely some of you understand what that means by now. It is the feminine principle seeking to draw down from the heights the father-state, the sperm, to give her child, but she is not in true fettle, not in real preparation; but she continually draws upon him by knowledge and not wisdom, so she gets into his bed and draws down the Fire into her being).

Taking pity on her, the gods changed her into a tree called Smyrna, an Arabian tree that gives forth resinous gum for embalming the dead, thus having to bury the dead before there could be a birth. (So she had to be buried-in before she could be re-born; so she had to sacrifice, which of course literally means the soul. But since the feminine principle has to labour for the soul, the soul had to be embalmed first).

After a lapse of nine months, the tree burst and Adonis was born. Aphrodite being so happy with the child, that she concealed it in a chest and gave it to Persephone, who refused to part with it. (Now Persephone is the spirit that is going down into the depths). So Zeus acted as Solomon and decided that Aphrodite should have Adonis for four months, Persephone another four, and the final adjustment was left to Adonis.

But Adonis preferred Aphrodite and gave his time adjustment to her, which resulted in a boar killing him in the chase (because she became inundated with too much to handle; it was not evenly allotted out). Yet later on there came a resurrection as death and re-birth: (all was out of gear, not evenly balanced. The soul must bring an even balance with themselves, otherwise there is a taking over).

This would be the birth of the Solar god by the daughter

THE MIRROR OF THE MIND

THIS portrays the soul being pursued by one of the Erinyes or Furies; the face in the mirror being the avenging action, conscience, with it sometimes even turning into a Medusa, that of the ugly thoughts of the lower desires. Thus the only answer is for the soul to discard of those states which he knows are impeding his path, and turn to the Solar Divinity in genuine heart-purpose, whereby he can bring a fulness of creation to his internal etheric being. (See text in col. 1).

with the father, that the son born in the womb of his mother can survive the father. That is, providing the attack by the boar was in the groins and not in the heart.

(The attack in the groins is the Sagittarius always forcing Bacchus to rise up into the heights, but if its attack is into the heart, then it destroys the soul right down into the depths. Deliberately losing the child by idleness and deliberation to destroy. Many a soul deliberately destroys, because they prefer the earthy states of matter. They have become too filled with the desires of life).

Aphrodite is the heroine of this story, for she is the goddess that begets the birth. As the goddess of the Dog-star, the herald of the Great Year in Egypt, the land of ancient wisdom, she should be married to the annual festival. But if no intercalaries have been gathered up (the blending of the polarities) she arrives in the fourth year a day too soon, and Myrrha finds herself at the wrong couch, in the same way Nephthys came to Osiris (and how Ishmael was born).

But by the assistance of the nurse, Virgo, the Six Hour child is captured. It is a beautiful child even after the suffering Myrrha had to endure through the four years being continually usurped by others. But by endurance she persevered and arrived there one day too soon; but the gods perceived who had to endure the birth pangs of the World.

(Was it not Ishmael born of the concubine Hagar by Abraham, and not by his true love. The motive is not pure and it reveals the Ishmael, not the true solar child, but what is known as a bastard, the motive of the soul determining the outcome. The same applies with David and Bathsheba. His motive was not good, consequently he brought into birth a sickly child and he had to lose that child until he was able to purify Bathsheba, who was none other than Aphrodite, the Grace descending; and then when he could purify himself he brought forth the solar child in Solomon, which means the child of the soul, and the child of the sun. But

even he, when he became as the son-god within the soul, was led astray and only remained as a magician and not a Christos-child).

It is a known circumstance that when a mariner sails eastward towards the sun, he seems to gain a day: this is so with the Sothic Cycle over the four years. As Athena was charmed with Erichthonius, the child rich with gold, so Aphrodite is happy with Adonis if the six hours annually could be nursed into a day and brought forth in the 4th year. But Aphrodite as Myrrha, the spirit sad and bereaved, becomes more and more separated from the time of birth and descends into the Lower World.

As Persephone she goes down into the underworld, for man has forgotten the promise he made before he left the World of Life to descend into the world of death. Thus the Furies call upon him to pay the dues both for the Mother he wrongs and the child he has no right to. Thus the boar kills him unless a Hercules arises and fights to retrieve the child.

(Many men today have stolen the solar child; and when we say man we refer to both male and female. Many of them have this Fire and are placing it into wrong issue, bringing forth those creations at the present moment that are bringing devastation to the world; taking the Fire in studies and activity whereby it is merely being turned into monetary value. A hero is one who prepares himself, and is prepared to give up the whole of his life that the Gods can be made known to mankind. That is a saviour, a hero, seeking to bring wisdom to those that are seeking. But even if man is not seeking, it goes out onto the maelstrom).

The Solar Life

THE boar is the ploughing of the ground by the tusks of the northern constellation, and takes the form of Typhon that man must wrestle with and master. (So when the Fires are stolen by others, they do not go back as solar illumination, it brings Typhon into birth: the black force takes over and evil is created).

It was a big black boar that wounded Horus in the eye, one who was parallel to Adonis and an embodiment of the Six Hours. This refers to the vision of the pupil, for only as that perceived can the arc of the mind be ranged: sometimes it took on the trend of a ram, a bull, or a lion. But the boar killed Adonis because it dealt with Taurus, though Mars would stand in the place of all.

(So all that was brought into birth was merely the power of a lion; and that is what it brings in a soul when it does not bring it to a full understanding. So he must wrestle with the words and see the Truth).

But what we must try and understand is, that this applies
