THE GLORIFIED ATOM

As the Outer World Brilliance

by Gladys I. Spearman-Cook

HIS IS WHERE WE NOW SEE THE GLORY of Creation in its true light, for in having transformed Saturn into the Solar Glory, the Mighty LORD of the Heavens can now manifest in the Kingdom created by man. This is where Atomic born souls are now going to perceive how LOVE, the mystery created by Merope, is but the infusive wealth of Hierarchial strength. That which will feed all with Virgin reality of HIS undying Grace. Thus an intangible World became born in the Abyss as the Plane of Earth, a modus of ever changing solidifying unfoldment. But as this became in the depths, the Constellations ever became in the Starry heights. Both being born out

of each other, for what left the heights were Atoms leaving those Celestial Influences, which in their descent would need nourishing to keep them intensifying. With the Star-born pictures, as they were later perceived by man, becoming as the god-creations in the depths, and building up as created LIGHT, the Starry magnitudes of the heights.

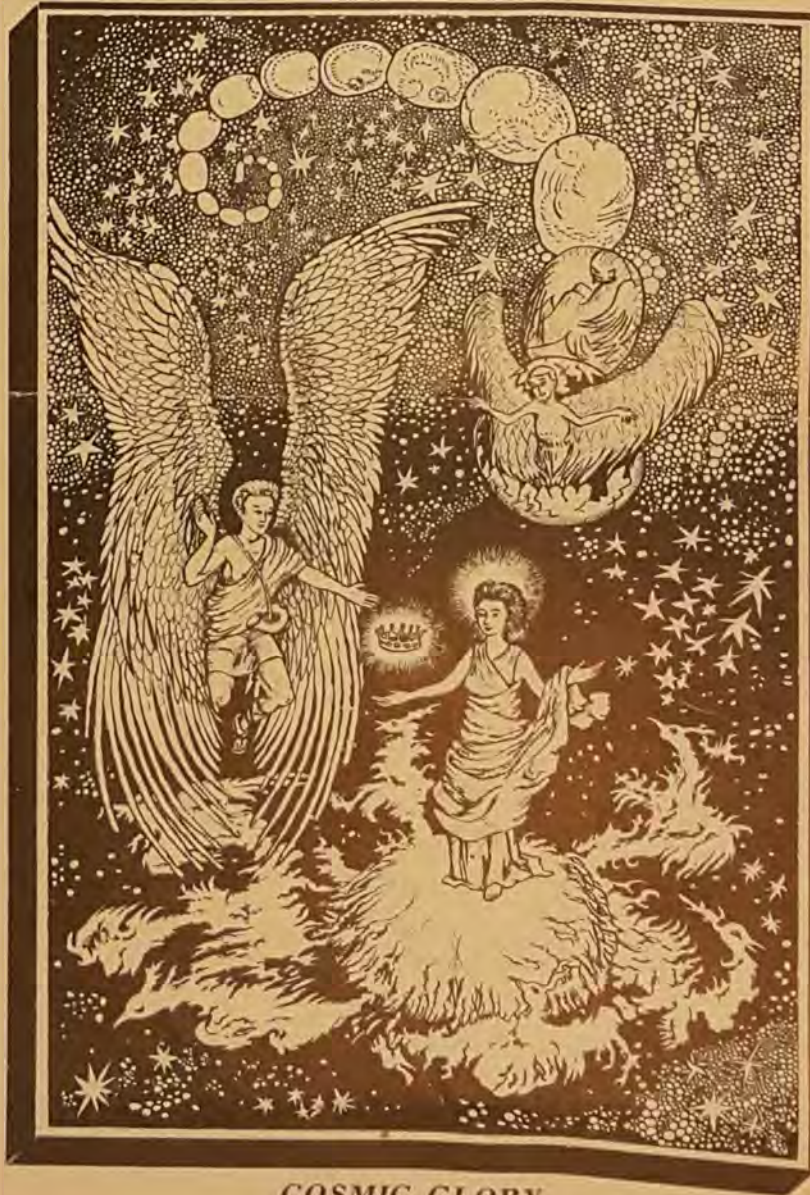

Yet these mighty Hierarchs in the heights, from which the forming soul descended, became as the Spiritual manifesting EGO, with the descending soul earthing his Seed, both in the descent and upon the established Plane of Matter. But slowly becoming as a solid creation, a Saturn status of self. Yet this must not be confused as a descent from a height as known to man, but in reality an opening out and establishing of a more defined state of Vibration. For the Atoms were taking on of a probing into a comprehensive state of Creation as gods, hence creating tangibility. Thus coming away from their original source, yet the outcome of billions of LIGHT Years, entailing many forms of Globe growth. Yet all being that of which the present Atom consists. (All being the one creation, ever changing into the new. That which is seen in the heavens, both Solar and lunar, is the outcome of man's mind. Man has created it by his mind, and he even has gone so far as to intensify it by making it become a solidified mass. Man has yet to learn of the marvels he can put into operation, for he is the creator).

The Hierarchial Royalty

IT was through this and the manifesting EGO in the heights, that Merope brought into being of Divine Husbandry. That there could be continual interbirth between the two, with a down-pouring supply to feed the creation unfolding in the depths. With an eventual return to the heights, in reborn union of ONENESS. This being the new Plan of unfolding Creation. Therefore by Divine Husbandry once again in the Relativity rebirth, the soul now finds he begins to open up an Abstract belief, causing etheric glandular functions to take place. With the mind unified in relativity, opening up a widening Abstract comprehension of his origin, birth and growth, and how he must make every effort to return, so that he can retain his original creation on immortality.

Hence the soul's god relativity awakening, will now guide and chide the unfolding Orion wealth into reborn Solar Atomic LIGHT. Thus the mighty beginning of the Great Rebirth, the manifesting mystical story of MAN. For the enforcing of Etheric rebirth is that of Chromospheric re-awakening. This is the ONE state gene responsive

COSMIC GLORY

THE wealth of the Heavens unfolding through the mighty glory of the Seed. Heights and depths uniting in vibrational harmony, where the Virgin, by her labouring in Divine Husbandry, is blessed with the Crown of the Mind, the Holy Unction of her Royal Scorpio Overshadowance. DURING these past few weeks we have witnessed the mighty Cosmic Battle which took place between Merope and the Dark Forces, to determine as to who would hold the Supremacy of the Arc, and thus control the Cosmic Laws. This was, of course, centred around the American attempt to land upon the so-called Moon, which would have had devastating results upon the world, had it succeeded. However, as you all know, Merope won, and the Arc belongs to the Gods; it belongs to the Hierarchs, and Merope, as the Great Frequency of the Arc.

★ ★ ★ ★

AT the beginning of the lecture of Sunday, 19th April, 1970, the Great Master made the following statement:

"Yes! Merope did stop the Mooncraft going to the Heights, and prevented it from doing the damage it would have done. For by taking a pseudo-Solar-ship down to the Moon, the Heights and depths were going to be unified 'only on one side of the Earth'; the Earth would have been in a Void and would have flown off into Space and been destroyed. This is the foolishness of the scientists, who do not know what they are doing.

The three astronauts were doomed to destruction, but it was by one Newspaper declaring that the Craft was in the Lap of the Gods (see plate in column 4) that they openly declared that the Gods were greater than the astronauts, and this gave unto the three men, Mercy."

Here is where the world has lost the wisdom of vibration, and the vibratory power of the word, for as you speak, and act, are you manifesting the vibrations of the Great Heights. Thus by naming the Mooncraft 'Apollo 13' they produced a fulness of vibratory power, which in being dragged down to its negative extreme, would have caused the atomic structure of the Earth to be thrown out of balance. Such indeed is the stupidity of man!

These scientists are old Atlantean souls, full of power from the past, but with no intention to use it for spiritual evolution; thus they become Black Masters, pouring destructive vibrations into the world, as they seek for greater and greater self-aggrandisement. It was such as they who caused the Fall of Atlantis in the beginning, with all the accompanying deluge and destruction, and now, in Relativity, they would have done it again, if it had not been for Merope continuously counteracting their evil.

By their not being allowed to land on the 'Moon', the astronauts did not return and swamp the world with the lunar vibrations. Instead

they were forced to take the higher polarity—that of the Atomic Fires—into themselves, and they were 'stripped' of all their past growth, right down to their Chinese roots. Now they must either turn to the wisdom, in order to unify up with what they have taken, or they must take the consequences!

Yet it is not only the astronauts who will have to face up to this, for by Merope mastering them, she 'turned the whole world over' and now everybody will have to meet the Atomic Fires and turn to the positive Solar creation of life.

★ ★ ★ ★

AS some of you already know, Merope has been on a Fast since the 26th March 1970, in order to bring the Vietnam war to a close, and have all American troops withdrawn from South East Asia. The way these countries have been exploited by capitalism is abominable, and it is little wonder that the Higher Powers are determined that Communism is going to sweep across the world, as soon as can possibly be achieved.

It is essential that religious, financial, and governmental corruption, is utterly removed from the face of the earth, and the nearest way to bringing this at the present time, is through that of Communism, and then they will be gradually moved onto the path of Spiritual Communism, through the down-pouring influence of the Hierarchial-born Breath.

With all the talk in America of ending the war, I wonder how many Americans know the following fact, which has been passed on to us by another magazine from the U.S.A.

"The Dow Chemical Company have been trying to spread the idea that they are no longer involved with napalm. Simply not true. A Dow subsidiary in the Lower Saxony region is presently involved in building a factory to make the stuff. In fact, the West German government is coming across with a forty million dollar subsidy to help out."

It would appear that the producing of napalm is a highly

profitable business for those whose minds are diseased enough to manufacture it; but of course, everyone knows that the production of armaments is a very lucrative affair, and the more devilish the weapon, the greater the profits! The sooner some of the world's governments come out from behind their diplomacy and their powder-puffs, and condemn the atrocities of this war, the better!

One cannot expect very much yet from the American Government, for there are too many hands caught up in the purse-strings, but for the British Government to sit back and sweetly say they support the American action, is utterly diabolical. How can one profess sympathy for the sick and the spastics on one hand, while on the other, openly support the terrible maiming and disfiguring of innocent young children by bombs and napalm! No, it is just not good enough.

When will our governmental leaders stop tying their tongues to the economy, and speak the plain truth for once. Diplomatic dodgers are of no use to any country, what is needed are those of strength of conviction, and a genuine heart purpose towards the betterment of mankind!

★ ★ ★ ★

WE have also received a report that at least 30% of the American troops in Vietnam are on the drug marijuana, and though many say that this causes pacifism, we say that this is simply not true! On the 25th March 1970, during a lecture, The Master made the following comments upon the use of drugs, and this drug in particular.

"The whole world has got to become electrified, and this is partly what has been causing the trouble that is ensuing in the world at the present time. The young race, who are always the sponsors of the new beginning, have found that the old conditions are too slow, too dragging, and they want to get movement, but they have gone the wrong way about it, for they have sought into the direction of drugs.

These drugs that they have been taking, have been to quicken the vibrations which have been so terribly slowed down by religion, but which is now being changed by Merope. But these drugs have done a lot of damage, for not only have they affected the young life, but they are causing all the difficulties of war. The drug marijuana

OF
THE GODS

is one of the most dangerous, for the other drugs show a quick effect, but this particular drug is easy to use and has a slow effect, gradually bringing the soul to being mental.

By taking this drug the soul is only living on the lowest plane of Neptune, whereas with these Teachings, Merope is lifting you up onto the highest Plane of Neptune. Now you must remember that Neptune rules the seminal fluid and the hormones, and with the soul who is taking drugs, these become badly contaminated, and there could have been the possibility of a race ensuing of deformity and mental. However, the Atomic Fires should make a lot of difference and burn away these conditions.

Those that take this drug find that their minds turn to low thoughts, low desires, and that is only the beginning, for it is diabolical in its final result!"

This is where the youth of today are making their biggest mistake. They are crying out for peace, but are causing the very conditions that are prolonging war and discord. They are demanding a permissive society, with freedom from authority, but that is just as bad as the corruption which already exists. No, this is not the answer. The answer is in building up the mind sensitivity, whereby you become an integral part of the Cosmos, where you are as a Cell of the Great Divine Mind, bringing Royal Wisdom into the world, to awaken it out of its darkness.

Drugs destroy the sensitivity, and finally the mind. There can be no greater condemnation than this, for it means the utter destruction of the soul life, and the end of its journey of continuity and evolution!

A World of Belief

EVERY soul now has to build up a 'mind of belief', because on the New Plane there is no 'creation', and man has got to create; so he is going to bring forth fantastic ideas out of the depths of himself. Now he has got to 'believe', in order to put these into operation and build up the New World, the New World of VEGA, and as he builds this New Creation he must tread it into the Earth, into the foundation of the New World he is creating.

This is important, because the old ideas, the old creations, the old beliefs, have all been buried-in. All now has to be upon the new foundation of 'Immortality'. Every soul has been changed, whether you believe this or not; he has been raised up to the very Plane of Immortality. What you have to do, is to bring your conscious mind to believing and understanding this, and as you build up through your conscious mind, are you going to bring forth of new ideas, bring forth of genius.

Every soul is infinity born; he is a world within himself, and by the continual revolving out of the 'etheric', and up to the mind and down again, he can spin up to a royal mind, to such an extent that he can draw from his Over-shadowance. So he will draw from the Breath the whole quota of the glorifying Chromospheric inflow, which can become his nurturing rebirth.

Now look at the possibility which is there! The soul is a world entirely of his own; he does not have to rely upon others, and this applies to both male and female. So this now gives all females their opportunity, but they have got to bring their minds up, to be able to build this infinity within themselves. This is done by taking the Breath, bringing forth the wealth out of the 'etheric', then revolving it, and bringing it to 'Light'.

Now this 'Light' is within the soul itself, his own heavens, because he is going to re-fuel his etheric body with this 'Light'; so he really is a world unto himself. And as the soul changes, and brings the atmosphere upon the Earth into the glorified creation of the down-pouring Breath, is he also going to bring changes to the Heavens. But the soul will only accomplish this by 'mastering the Fire', and labouring to that extent of mastery.

THE GLORIFIED ATOM

Continued from the Front Page

might, that of Vega's attractive Atomic Central Sun force of Merope's created Neptunian Central Sun Seed. (Everything being built around this one Seed, this one creation of new beginning). For the Primal Source is the glory of becoming, a god now to be born out of Hierarchical Over-shadowance, where the primal source has become as the Divine Source. That now risen up out of the depths through awakening comprehension, as the unfolding mystery of man.

(See the Front Page Plate)

(This Over-shadowance is according to the mind of the soul. If the soul is now Hierarchical-born out of the Fire, whereby his blood-stream is of Hierarchical growth, he then is going to have Hierarchical Over-shadowance; that is, over his Arc, his Auric creation, and he is going to draw unto himself that of the Divine Source; which means that he is going to be linked with the Central Sun. This is a moment when man can be born as a god, with all the powers of a god, with all the mind awakened; because he has had the Word and the understanding imparted to him, and can thereby become Hierarchical born and draw direct from the Divine Source, the Central Sun).

Thus Merope, now by Divine Husbandry, has brought this forth under the molecular guidance of Universal Philosophy, as the glory of the Atomic Mind Creation. An ever perpetual revolving creating mind, which is ever being re-fuelled and reimbursed by the Hierarchs' descent. Bringing the whole of Creation into one vast World of Atomic immortal light.

Divine Husbandry is the supreme might of the Central Sun, infusing man with regenic god-like Neptunian royalty, that he can become a reborn Hierarch. Carrying back to his heights the ego experiences of the depths, that of expansion in density, unfolding the Glory of the Cosmic Infinity. Yet the Theocratic birth of HIS Divine Presence, through the unfolding Glory of the Starry Lustre being sent back as mind LIGHT into the Mighty Magnitude of the Central Sun Glory.

This is a further recapitulation of the Story related in the last lecture. All being the radiating ratio of the Sun in Taurus, and is the reactive Atomic gene, which is now the Central Sun rebirth of Hierarchical redemption. (Man all raised up to this one Gene, one Cell; an Atomic Cell,

which is now of Hierarchical redemption). This being the Theocratic Over-shadowance, that now driving man forth as the Atomised Atom, and that of Hierarchical redemption.

What has now to be embodied, is the new internal might of the Central Sun as the Relativity inflow of Divine awakenment. The inborn inner depths of the Fiery flow of the Divinity born creation. The dancing Nymphs of the Sun, bringing the soul out of the lunar depths of the moon creation of Earth, to the Solar Plane, in the glorified manifestation of man's Arachnoid Web. Thus the god now one with the Central Sun, a divine radiating Atom on its own.

(So as each one of you get your infinity revolving, and you bring your mind up, by consciousness, to understanding this Wisdom, and accepting it, you are then going to become ready to take unto yourself from the Central Sun, and you will find yourself drawing upon the frequency of that mighty Power).

The Virgin resuscitation now is the Atomic Central Sun Fount, and is the Neptunian cradle, now born of corpuscular Hierarchical royalty. That of the inflow of the Seed out of the Breath into the blood; therefore if the blood is Solar-born, the unity with the Seed brings an automatic expansion. Once again proving the importance of celibacy by preserving the Seed for mind growth; with woman, in taking of the wisdom, becoming equal in status to man, feeding herself by her own Seed.

While the esteem of the once Central Sun of Shamash, has now been infused with the Sun in Scorpio reality, and is the constant flow of Uranian pulsation born out of the Virgin Heart extraction. The soul now, through the Virgin exaltation, drawing from this Mighty Source. Yet in reality, the original source now risen

THE CASTLE OF THE MIND

HIGH up in her Castle of the Mind, Merope weaves the Heavenly Powers into the glories of the Cosmic Intelligencia. Instilling into the Breath, greater Laws of Divine Immensity, whereby the world is being freed from its magnetic imprisonment, and given the keys of entry to the Land of Immortality. (See text on page 4, col. 5).

up to its extreme polarity.

Hence the reality, and no longer illusion of form, has now become the awakening Central Sun consciousness, that of the Hierarchical blessing. Yet the mitotic Atom as the core of the Central Sun thread of immortality, now coming into birth, as the mitotic spindles are spun to meet the Central Sun's Divine inflow.

(Now I know some of you are going to say, "How is growth going to go on, with the state of celibacy?" I can well assure you that the Race is so going to change, that there will be no re-generation in the present way. Everything is going to be so reborn—and it will not be so far ahead—that man is going to be a different being altogether; he is going to be a son of the Sun. Every man is going to

become immortal, no longer of flesh and blood, although he will still retain the form).

The soul one driving unit, equal to the Sun itself, the relativity being as the Pace-makers leading in the sheep. For the harvest now is all the Moon in Taurus blended-in as Orion's galactical rebirth. While the new world to come forth is that of Neptunian fulfilment, the sole LIGHT of the Divine Hierarchical Wake. That which will now light the Etheric candle of royal Ecliptic rebirth, and bring forth the glory of the god-conscious mind. The whole being now as a radiant creation, as unto the heritage bestowed upon Joshua, by Moses.

For "as the Arc and the people passed over the Jordan, the Lord magnified Joshua, and Israel feared him all the days of his life". The LORD had set his Love upon him, thereby Joshua set him on

high; thus the Lord bestowed upon him longevity, the inner depths of Immortality. Thus what was started under Royal Priesthood by the continuity of Merope's prototypal axiom, and became lost for the time by the Ahab Kings, was now under Relativity, blossoming into life. The glorified Atom, born from the wonders of Outer World Brilliance, now manifesting the glory of the Divinity within, as the Royal wonders of the Central Sun.

This being the canopic jar of Neptunian unfoldment, and is the Hierarchical inflow of Virgin Divine Intelligencia now manifesting in the relativity awakenment, where the etheric Seed is born in the intake of the Breath, passing out from the lungs into the blood. With the breath, as carbon dioxide being expelled into the magnetic atmosphere; the male Hormone becoming of the Neptunian Waters, and the Female, the Ova of the breeding rebirth. (As time goes on, it will be born of the Divine Hormone and not of the two states as at present).

The REAL true cause has not yet been defined by man, that of the Seed glory to produce the mighty abundance of the divine mind. Therefore all must be perceived as the electronic stimulus from the Central Sun Source, that of the Neptunian Plane, where unseen wonders are flowing down to man, to refuel and give forth in voluble explanation. Therefore everything now must be reactivation of the unfolding Atom, where soul becomes the ever inflowing might of the Immortal Stream, that of the Supreme Court of Theocratic motion.

This is where all becomes of divine Reality; no more illusion, but the Glory of radiant truth. For with this unfoldment, which is the blossoming of the past, the soul reaches a status of no return. Where the onward path of LIGHT can only be assumed, and is the locking of the door of the Sacred Heart. For this now is the rebirth of the Etheric mind, the complete oneness of the soul's inspirational spin, up to the pinnacle point of Divine Immortal sensitivity. Where all is of the risen spirit and the soul is seeing only through the eyes of divinity, the true reality of LIGHT. A god within his own right, but with a one-way creative mind, bringing all to a status of LIGHT.

Continued on Page 4

THE GLORIFIED ATOM

Continued from page 3

A conclusion only reached, when the soul is no longer held by the pull of the magnetic or lunar states, but determines the Royal approach to the Source. For his journey now is the capturing of divine reality, the Solar wealth of Truth in its Royal and Pure Beauty. He becomes in at-onement with the Eternal magnitude, and begins a capturing of its Mighty Oneness, that in sending LIGHT up to the Central Glory, the whole of the depths are also consumed in light. (He does this by sending it up to his own Commissure, his own heavens, and he becomes the 'lighted one Gene', because he is a Cell of the Great Brain).

Atomic Re-genetics

THE Royalty of the Solar magnificence, is the aspirational scale of the reborn Atomic Seed, for now all is upon the electrified reality of the Source radio-dynamics, that of sensitivity frequencies. That which penetrates the blood and becomes the infused Divinity, through the mighty Mistletoe Seed penetrating the plasma.

(The Mistletoe Seed comes down without form, as you know; it draws to the magnetic, and settles upon the tree, and then comes into form as Mistletoe. This is the mystery of the Mistletoe Seed, the mystery of the down-pouring Breath containing the Seed, which becomes the Seed of the soul).

This is where form is dissolved, and vibration replaces the solidified bodies with Atomic re-genetic Power, as the Etymological Kingship of Divinity. For Word is constructed from this Divine inflow, hence is Divine Power, to be assimilated to whatever degree perceived, by the accordance of the comprehension. All is consciousness born out of Abstract royalty, and would be Central Sun awareness of comprehensive Neptunian culture, the glory of Reality.

This is the Neptunian creation as Hierarchical etymological forethought which weighs and administers Laws, by Abstract counter-balancing Central Sun Fire. As a man so thinks and believes does he draw down from those higher Powers of Breath phenomena, and extract according to his degree of belief. Searching and seeking until he finds the truth, the Mighty Perception of Reality. That which produces Word as its phenomenal conveyance, and the means of its causal continuity.

(See plate on page 3)

For all is of Atomic re-genetics, as the consecrated reality of Virgin Pioneering possibility, that of electrified aspiration. As he believes and is so inspired, will the Snow Maiden come forth to await

the embracement of his passionate creative transformation into the glory of Solar LIGHT. Then as the blood so warms and activates into glorified rebirth, must the soul become aspired, thereby drive into action, to become anointed by the descending Dove, the glory of the Holy Firebird.

This is the bloodstream now

the whole intensity of her being, it becomes the revolving rebirth of polarised Glory from Source to source, the mystery of eternal continuity. For re-atomic silence of yesterday is the awakening of the pure etheric body, unto the LIGHT of the now dawning Hierarchical conscious Becoming. Therefore, as the Virgin ever spins her awakening up to the heights of the Arc, and is replenished by the Divine Over-shadowance, will there ever be an abundance of unfolding Glory in the depths below.

the mighty Central Sun magnitude.

For all the Solar wealth of the soul is now automatically radiating as Virgin Intelligencia, for Merope has laboured and sent all her wealth back to the Central Sun. That which she had gathered in trudging those murky depths, to hold the thread of rebirth. Whereby now the Great North Wind becomes the Atomic Waveband of Theocratic rebirth, and roars down with the Uranian drive, to flood and

Sun's Mighty Force and the Scorpionic Power of Antares have united in complete harmony. Where in their intent of piercing the depths of the soul, will they awaken its sleeping intensity.

(Now that of the Scorpionic Power of Antares and the Central Sun, is the unity of heights and depths, even within the soul itself. Antares is in the bottom of the spine, and the Central Sun is in the Commissure in the head. So here is the infinity between the two, and is the revolving serpent).

This accounts for why all Norman churches are symbolically ever built with their nave at the North. For its inflowing glory holds the Royal Supreme Unction of Rebirth, the message of reborn reality. That which Merope now holds as Universal Philosophy keys, making the crowning Glory of the Age.

(See plate on page 3)

For mind consecration now, is the blessing of the Seed of Atomic LIGHT, with the Abstract consciousness of Divine Husbandry. Thereby creating the enceinte rhythm of the octavial pool of immortal retrieve. Where all stand naked and unashamed, and like David, can dance before the Mighty King in all their awakened awareness.

For the house of Divine wonder, being the mind of unilateral precision, is that of the Chromospheric infusion of the stinging tail of Lesath. That now Spermed with the driving Royalty of the Divine electrified Hierarchical Phenomenon. The direct beam that will pierce and change the mighty unfolding EYE of Aldebaran, with the virgin glory of the ever becoming Commissure, in the magic flight of the Eagle.

(The Eye of Aldebaran is the Commissure, in the 3rd ventricle, ever being changed, and giving unto the sight of the soul a new outlook, a new belief; awakening and giving unto the etheric the mighty Powers of Life).

This is where the transmuting factor of the Atom is its ability to re-energise the flagging soul, with the comprehensive LIGHT of Divine astrological fulness of the Holy Fire Seed.

For this now is the complete establishment of the Central Sun, hence the Divine Relativity has become the Path of Royal Neptunian ascension, as the Virgin espoused to the Holy Fire, opens the door to complete rebirth. Thereby the prolific Atom now becomes of the Ageless Virgin Fire, which is going to be raised up unto the Virgin comprehension of the Royal Glory of the Central Sun. This will ever bring a revolving expansion, for the fusion now of the Central Sun has given LIFE its one and only rebirth.

For as the mysterious glory of SHE, did Merope dance the spin of the Vortex, with that roguish courier of the FIRE. He that came with the internal Uranian infusion, driving the issue into life. Rousing every Virgin now, with reborn incentive, to rise up with her enceinte glory, that every Atom can become glorified with the Outer World Royal Brilliance.

Here it must be seen how Virgin re-corporeal enlightenment is the Holy Fire infusement. That of the Abstract

DIVINE ASSUMPTION

THE great mystery of Ascension, where by her belief, the Virgin is carried into the greater Realms of Divinity. This is the Holy World of Neptunian Glory that is awaiting all souls who have tempered their hearts in the Solar Fire, and whose purpose is one of Divine Service. (See text on page 5, col. 3).

completely forged with the Central Sun Divine activity, thereby radiating the mighty pre-FACED wonders, by the Positive reborn Fires of the Supreme Scorpionic Royalty. The divine gods that once came down from those extreme heights, now seeking to establish expansion and volubility, after Ages of the hard way of learning and losing their status, now ready to become as the gods once again. But this time, with their minds fledged and Arc uprisen, as the compassionate undulation brought into being by the LOVE and suffering of the Scapegoat.

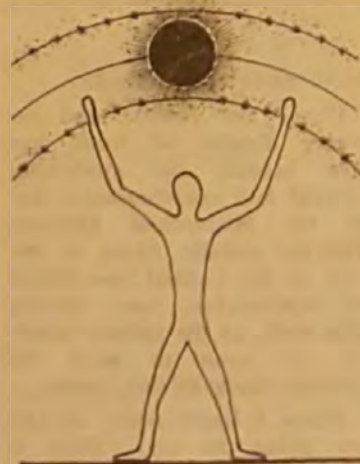

This now is the complete radiating vortex in that risen up from the depths, that which ever gives forth of itself, and which is now the royal compassionate virtue by polarity complement of the Central Sun. For Merope in having so sent forth of the Word, it now has become a revolving infinity of Divine Holy Breath.

For as she drives it with

impregnate with its striking propensity, into every Virgin, its royal message of LOVE.

This is the Mighty Wind direct from the Source itself, imbued with the striking immensity of Uranus. That now catching up all the electrical current of the Aurora Borealis, as it drives its way to the depths. Thus holding all the wonders and mysteries of that of "Far Beyond", in wonders and glories completely forgotten.

Hence Theocratic indulgence is the sensitivity of the Sun in Taurus, whereby as such, will it give unto man unknown Powers of activation mind drive. Thus assist and support the dissolving density of the transforming soul, back to the Virgin royalty of the Source. For this Mighty Wind, straight from the Source itself, carries the message direct unto the soul, and holds the great secret as the answer. That which will spin the soul right up the full metric cycle unto its octavial glory. It being the Mighty Vortex of the Voice of God, where the Central

Thus Royalty as FACE to Face, and Breath to Breath frequency of the Atomic Consciousness, is now the Order of the Day. wealth within the soul, bringing it to the Central Sun radiance, through the Theocratic rebirth. For all the royalty of the Seed is now the aspiration of the Central Sun reality, which is now giving forth of its expansive Royal Sovereignty, through the Neptunian Might of Theocratic relativity. Which now makes the soul who is capable of responding, royal in its own right. For the union is now in accordance with its highest rebirth, bringing the soul back to the possibility of its god-like creation.

But now with the glory of a mind, thus a potential Cell of the Great Brain. Therefore the resurgence of the Neptunian reality, in the conforming towards the Central Sun, and the ever unfolding Breath of its Divine colourisation of Virgin Truth. For the Central Sun is the New World Prototype, the Great MIND that is collecting its Cells of Royal Rebirth. Thus the glorified Atom is the Atom that has withstood the rebirth of the 144,000 and has become transformed into the royal brilliance of this Mighty Magnitude.

This dynamic extravaganza of rebirth is the internal compassionate reality of Neptunian awareness, where all rests in the aspirational comfort of the Holy Fire, as it surges through the complete rebirth of the supreme majesty of Sun in Taurus.

This is now where the etheric body of the soul is fully surged with the polarity of the down-pouring Neptunian Celestial Breath. For Merope, in being the Scapegoat and prototype, wrested the fixed Earth Plane out of the clutches of the Moon in Taurus, and the degradation of Moon in Scorpio. Thereby being the first to enter into its Holy Brilliance, starting off the mighty Evolutionary Contingency of the Central Sun Holy Cycle.

The Solar Atomic Causation

ALL the Sun in Taurus wealth is the establishing of the Abstract infusion of the Hierarchical intuitive royalty of the Virgin FACE. For now the colorific expansion of Neptunian equatorial rebirth, is the Atomic might of the Central Sun. Thus the soul as Orion assumption, has now become of this mighty Glory that gave it its transcendental rebirth.

For the Enceinte constitution is the ecstasy of the reborn Hierarchical sensitivity, as it delivers the conscious awareness of the Central Sun Source. Whereby the soul becomes the living epitome of the Hierarchs, with the latter, through this agency, giving forth of the Central Sun's mighty Wonders in the transformed soul creation. The Hierarchs being the Hermeneutics of Central Sun Atomic activation, and as the revolving relativity, blends with the Timeless reality of the Holy Fire.

Therefore, the soul has been transformed into the Holy Glory of divinity, and is the representative of the Holy Fire, as the activation rebirth of the enceinte Virgin spirit. Therefore, as it unifies with the Atomic Brilliance of the Hierarchical expansive rebirth, it slowly emerges into its Divine Glory, and becomes one with its Royal Beauty. All now is the enceinte revolving of the Atomic Godhead, within the Breath of Divine enlightened etymological stereophones, bringing untold wisdom into birth.

This being the territorial reality of Neptune, and is the complete fullness of the Divine Breath. That which is the cornucopia of Hierarchical blessing, with all waiting to

come forth to sperm its wonders over all, and set them alight with new possibilities. For all now is the pure relativity of the Central Sun, and is the Royalty of the Neptunian contemporary unfoldment of reborn Universal sensitivity. This is where the soul must recognise the glorified Atom, where the etheric body in the depths of the protoplasm of the blood, is now being fully impregnated with the impouring Outer World glories.

All is the Atomic Causation, that of the Central Sun Silence of Theocratic regenic sperm, as the anointment awaiting man's uprisen divine aspiration. For without this, it merely becomes stagnant possibilities, while with belief and effort, the power can be directed into the channel of possibility.

With the completion of the Theocratic infusion, as the dynamic Hierarchical compensation of the Holy LIGHT of the Atomic Mind. That of the escalatory blue-print, ever etherealising the intensity of the Fire, through the soul's uprisen divine Virgin unification. Continual ascension by assumption, with the royal blossoming forth as the glorified holy mind.

(See plate on page 4)

Now, the Solar immensity of the expanded octavial embrace, is the birth of the New Divine creation. The immortalised godship, brought about by the intensity of the Royal Scorpio Source. Now the recapturing of the Source, is the Atomic Causation as the exactness of the transmuting Atomic LIGHT, into the Solar Atomic

Breath is now Hierarchical Atomic Sovereignty, that which will bring soul to the unfolded glorified Atom. With Source to source reality of the heights and depths of the soul's Etheric blue-print, as that unified with Time, unto the unification of LIGHT. Yet that now operative upon the soul's equal vibration of the conscious atomic conception of Divine Truth.

This is the shouldering of octavial requirement, whereby all is internally buried-in by the soul's Hierarchical inter-justice. Yet non-releasable Powers, until all is unified and blossomed into light, through the balancing uprisen Force of Hierarchical Holy Atomic Fire. Thereby transforming Outer World Ethers into Atomic Brilliance of mind comprehension. While the Over-shadowing

Hierarchical embodied infusion, will the Celestial exuberance predominate the royal wealth of the Scorpionic might of Sun in Scorpio. The ever Causationary rebirth of Divine Generation, whereby the aspiration captured by the soul will lead him onto the Path of Neptunian Vega awakening, the glory of this Mighty unfoldment of Generation.

(See plate on this page)

For the New World is the Enceinte Atomic Etymological briefing of the Central Sun's immediate Source, and as such will all aspire to, through regenic Divine Phallic Worship. The internal desire to be of its intensified truth, e'en though falling short by the weakness of the flesh.

The Central Sun Vega Reality

YET with all man's stubbornness and fixed ideas, all of his etheric royalty has at last been extracted from the mighty reality of corpuscular Solar awakening. That which is the god status of past royalty, now the Hierarchical support through the inflowing Presence of the Holy Fire. But if he has not replaced with conscious awareness of the highest, he will only be born of blank verse, until alchemicalisation works its course, across the desert. Here, once more, soul informalises the magnitude of the mystery of the FIRES, they which give man life, and above all his mind.

For the intensified blue-print Fires of the Hierarchical Point of Evolutionary changing Principle, are the forethought of the Theocratic Etheric waveband. The infusive actor and creator, alight and digestible towards the intended Virgin oath of the soul's responsive name. His being, as that built up frequency of equatorial degree of Central Sun unification, which now manifests as his light. For one's own name has now become the soul's hieroglyphic echo, towards the Source to source unification, upon this new Atomic thread of golden elevated ascension.

For one's name is a vibratory escutcheon towards the ascending chariot ride, through the Uranian driving etheric mind, of Merope's Central Sun Source. That which determines the way of soul's intended creation and purpose. Thereby drawing unto them of vibrations, the glory of becoming. It becomes man's individual Abstract Argo equator, with the Hierarchical counter-balancing Power of Vega. This being the name and Central Sun point of Divine unification, as the Royal Atom beaming its Atomic Rays of indrawing Home radiating attraction of Divine Virgin Ethers.

Man's name is as the Theocratic measure of the Source to source unctonable degree of required Hierarchical blessing. For as all Words, they hold intensive meaning and when given to a soul, the future path for that soul to accomplish. Myrtle means LOVE, and when allotted to one, indicates they have to learn of the true secret of LOVE, which up to the present, no one really has found.

Therefore one's own name is their Abstract conscious measure to the Neptunian World of Divine Virgin Vega. Thus their passport of Theocratic scaling, through cosmic relativity service towards the building up of the New World. Once this was a mighty Truth, now it is a foregone supposition, with a child not being branded with a purpose, but with a glamorisation.

THE WORLD OF NEPTUNE

HERE in a world of formless glory, the mind can wing where'er it wishes. In and out, up and down, nothing is barred to the soul who is seeking of mind unfoldment, in the mystical Realms of Neptunian Splendour. (See text on page 5, col. 5).

Divinity now, is of the octavial positiveness of the Sun in Capricorn, where all earth unification is now Solar risen, becoming the glory of the risen up Flame of Hierarchical heights. That of Virgin Atomic sensitivity of Hierarchical etheric relativity, now the flaming glory of royal Holy belief.

For man is now of the Divine Ego of the Source, and has become the FACE of all the terrestrial wonders of Becoming. For he has been driven up onto divine ONENESS as the octavial blessing, which is the source to Source colourising of the Divine Face. That as the Thermo-genetic Seed of the Central Sun exactness, a new Race of Immortals is now about to begin. For where soul was of the body, causatory flesh and blood, now it is of the electrified Atomic bloodstream of mind profusion.

This is where Virgin reality is the Hierarchical duration of the infusing Sun in Scorpio, as Divinity so warrants its royal apparel, through divine aspiration. For the whole of being now, is determined belief and aspirational exuberance, for no longer is it Saturn with its craving for possessions, but true Uranian aspirational unfoldment.

mind. Whereby, with the wisdom gained by the acme of Time, in its polarisation, magnitude and wonders can come into birth.

Basically man is now the Corpus Christos of the Atomic mind, for he has the whole candelabra of the complete unified wealth right at his very fingertips. All awaiting his undying faith, as the revolving infinity indraws the Hierarchical Breath, through soul's polarity rating.

This is the mighty wealth that the Hierarchs are wanting to bring to light, not only to send back to the Central Sun as light, but to unify the soul itself and bring it to a oneness of LIGHT. This now is the Atomic Causation as Theocratic Justice, with Virgin wrath now fired with Divine Hierarchical relativity.

All past skeletons, as Cadmus bone roots, will now become reborn conscious misdemeanours, ever haunting the unfolding spirit with vibrations of Theocratic remorse. But his task is to go and master the Elements and the Ethers, then he will eventually become born of Divine Atomic Mind LIGHT. (All these misdemeanours will be turned-in).

Presence is now the Hierarchical Angels of individual relativity. They of Scorpionic royalty, now fully Source conscious and justice bent, through Source to source inflowing Atomic Royal sperming Fire.

The heights and depths now unified into glowing LIGHT of Divine mind consciousness, a born reality of the unfolding might of Cosmic Evolution. That which no soul or Nation can stem, but abide by, for man is the creator, in that he is the transformer by alchemicalisation. Whereby he becomes born of a mind, equal to the LIGHT he gives birth to, and sends up to the Central Sun. Therefore, making way to become one with its mighty unfolding domain.

Hence pulsation is now Atomic creational Fire, that infusing the whole of the Virgin Etheric Mind with the Glory of Merope's octavial sunship. That of the full propensity of the Central Sun Royalty, for Merope brought this into being, therefore is her creation and royal diadem of Holy unfoldment.

This is Vega, the Royal World of Holy LIGHT, with all who are lifted up in Holy ascension, now claiming residence. Thereby during the

THE NEW WORLD OF MIND

by *The Lord Hierarch of Scorpio*

(This Lecture was delivered on Wednesday the 25th March 1970)

MEROPE'S OPENING PRAYER

GREAT Divine Spirit, once again we gather together, and we seek to enquire more deeply into the Word, to bring a greater understanding and depth. We know that we are treading a Road that is very difficult, a Road whereby we are isolated, with those who should be supporting us at the present moment, taking on of 'cold feet'. We know that this Work has got to be done and that it needs the strength and the belief of the courageous. This we have, and this we are trying to prove, for we know that it is now a changed World, where new light and new understanding is coming down for all who are ready to receive it. So we seek that we shall be helped tonight with the Words that have been penned, and we seek of this in the name of Love and Service. AMEN.

THE MASTER THEN MANIFESTED

PEACE BE UNTO YOU ALL...

Have no fear! Your Work is the Work of the Heavens, the Great Cosmic Lords, and as this takes place, so shall ye be blessed. Seek diligently, and put your minds and all your energies into the days to come, so that the Establishment can be True and Well.

★ ★ ★

NOW what I am bringing to you tonight, may not be extremely palatable to all, but if you are seeking for Wisdom then you are ready to receive anything that will help you to make your way along the New Path. What you have to remember, and remember very strongly, is that you are now upon a Plane of MIND.

To the majority this would pass by; to the majority this is not understood, it is taken lightly, they do not even question whether it is right or wrong. I tell you emphatically you are now upon a Plane of MIND, and if you do not build up your Mind, then you are going to find yourself in the depths, whereby you are merely going to fade out.

What you are seeking to do is to get onto the Plane of MIND, that you can now make your way up to the Divine EGO. This Step belongs only to the man who is truly seeking; but this is where you have now to truly take unto yourself of Belief. Either you do, or you let yourself go. My advice to you is to seek diligently and well.

Now this building-up at the present moment is entirely of an independent nature, where each soul is a world unto himself. If you wish to remain with the masses then that is your prerogative, but the masses are going to disintegrate. It is only the individual, the soul who sets his world into motion, who is going to exist, is going to continue, and is going to find Life Immortal.

Merope has set the Prototype; she has set the infinity into motion, and you are going to do the same. Quite possibly some of you have already

started. Now you are going to say, "Well, how do I set this into motion?"

First of all you have got to be very sure of yourself; a strong belief; an independent courage; your desire to become One once again with your Divine EGO. This is the first foundation. Then the second is to get your Electrolysis into action.

Now this Electrolysis is the building up between the chakras, the pranas, the planes; they are all the same thing. This is what the yogi seeks to do but he does not add the Wisdom that is necessary to carry what he is building up, up to the heights. We are teaching you to build this up by frequency. The Electrolysis is built up between the planes.

By taking the Wisdom, you prepare yourselves; you may call it Alchemicalisation. But the conscious mind then begins to seek into the Wisdom that has been taken, and tries to tread it into the earth by living it. This will carry the soul up to the next plane. The idea is to be able to arrive there with a complete conclusion, in the conscious mind, of what was taken on the previous plane, and this is where you build up your Electrolysis, your frequency, your Fire, because this Fires your nervous system.

Now this is not all of the Electrolysis, but the most important thing to remember is to ever keep spinning, spinning of the mind. The mind must not stop spinning, because the Electrolysis built up only lasts two hours. After two hours of sleep the Electrolysis has stopped, and

ATLAS

MAN must now realise that he is the channel for the descent of the great Heavenly Fires; that he is the Bull who must, by his elevated beliefs, capture the divine nucleus from out of their inner depths, and transform it into the Light of Divine Mind Consciousness. Thus he will reburnish the Arc, and play his part in adding unto the intensity of Evolutionary Unfoldment. (See text in col. 5).

can start to revolve the other way. This is most important; this is why we call Merope just before midnight, so that she can then start to walk with the Rising Sun, the Sun that is coming up from the depths, new-born.

Now I am talking to True Occultists, Occultists that are truly seeking. This is where you will build up your

Electrolysis, but do remember that you are now making your way of Ascension, you are making your way upwards to the Divine Plane of the MIND. What is to come, is yet to be seen, because as Merope goes on, you follow in her footsteps. This is very important, otherwise there will be no building up at all, and you are merely going to sink back, with no Fire.

★ ★ ★

NOW Merope has written out some words, some knowledge to help you with this understanding, but before we go any further, would anybody like to make some

stream, and the Electrolysis won't work unless we have brought the bloodstream to the frequency of Uranus.

A... That's right.

★ ★ ★

NOW you may not know who you are, or what you are, or what you have been, any more than Merope knows who she really is or what she has been. If you were to know who Merope was, you would stand in Awe, and so would she!

(The Master then proceeded to read from Merope's Scroll).

Once upon a time, when the Atoms left the vast Nebula Space, there only existed the capacity of Thought, that of Uranus and Neptune, FRICTION AND LIGHT. As the Atoms descended in generated Creation they generated Thought, and created ideas, thus they lost their way in a sea of newly-created belief, that brought forth sensation and not sensitivity. So Merope, the creative side of the Great Thought, was sent forth to nurture and raise them up from their lost purpose. Hence it was she who brought forth of the Golden Stream from her depths, her Uranian Gateway, and has fed the multitude ever since, through her Pleiadic dance of the Seven Sisters.

I want you all to take this word by word as a Truth, not as a fiction or a fantasy; Merope has given you exactly what took place.

Now to fulfill the task of Evolution, she has called forth the Fatherhood, to feed the Atoms with Divine Creative Breath.

Now don't see these states as Beings; they are Mighty Powers that have to be given creation.

Whereby they generated their own life, in the way that she had, from the Beginning of ALL TIME. Therefore as the Mighty Thought went forth as Light, the Great Central Sun was established, wherein the Mighty Fatherhood resided, as the FIRE of that frictional dance.

Then Judas came forth with the rabble and said unto the crowd, "He whom I shall kiss, hold him fast!" and the Masterhood that had been gained, was lost to the way of Saturn desire. It was by this, the Central Sun learnt by the ways of the Earth and came and kissed the soul, whereby the Hierarchs entered and claimed their prize.

Man is the Bull who is the Atlas of the World Creation, ever drawing forth the Seed from the Breath of Divinity. (See plate on this page)

But you have got to carry that up the spinal column. This is where you are going to fill the Seed with the Electrolysis which you take up the spine, and by this Electrolysis, you are going to Fire the Seed, you are going to give the Seed electrification.

Then as Orion, he masters the Elements he set into action; he regains his lost Uranian spinning up capacity. This is his Pleiadic dance of the Electrolysis created between the Planes, and brings forth of Divinity, in his own Fired Masterhood. Hence Uranus as the frictioner of light, is the life giver and the life taker, and accounts for why so many call it the Death Planet. Only by getting Uranus active and sparking will the Bull drive and set the Seed into creative manifestation. For as the

comment upon what I have already said?

Q... Where you say that the Electrolysis lasts only two hours, if a person sleeps over the two hours, they can then miss out on one of the twelve Celestial influences, so they cannot make the Atomic fullness, except possibly through gradual alchemicalisation. If you sleep under that time, you can take in all the Celestial influences throughout the twenty-four hours of the day.

A... Yes, this is quite true.

It is most important that you perceive the depths of the understanding of the Uranian Electrolysis between the Planes, because it is Uranus. No longer are you working under the Elements, now it is Uranus and Neptune; everything is Uranus and Neptune. Uranus builds up the frequency, Neptune builds up the mind.

But what you have got to remember is, you are the Bull, you are the driving creation, and unless you make this drive you are not going to build up the frequency that will give you the Fire which you are seeking. You will everlastingly be under Saturn, and find yourself lacking.

Q... So we are only the mind consciousness that we are building up in the blood-

Mistletoe it is there, but needs active creative bringing forth. Therefore soul must become the horses to the Chariot of the Rising Solar Creation, to redeem the FALL that man was responsible for as the unfolding Atoms.

By this, he sets the frictional dance from the base, and builds up the Electrolysis between the Planes, filling the whole of his nervous system with abounding life and his Mind with Neptunian reborn Thought. But the soul who is ever taking and not aspirationally building up of LIGHT, which fills his Vase with Wine, will never find Divinity, the Positive creation of life. But ever remains as the milching cow, the negative side of life, until it awakens and perceives the error of its ways. It is the hard Road of Universal Philosophy that will make you a Man, and not the erroneous deceptive ease of religious bigotry.

You see, this is where everybody has been feeding off Merope, and this is where Merope has had a very rough time. Everybody feeds off Merope; she brings the wisdom up from her depths, and everybody is eating it up. Now no longer can you just eat it up, you have got to build up an Electrolysis, an infinity within yourself whereby you are going to send LIGHT back to the Heights.

Q... Everybody has been living off Merope's Stream, which she brought in the Beginning; no one else brought a Stream into action, and now everybody has got to build up their own Stream, whereby they have Source to source unity with the Central Sun.

A... Yes, that is quite true.

★ ★ ★

NOW let us look at the plate of the Bull. You can see (See plate on this page) there the Pleiades in the neck of the Bull, telling you what has to be accomplished up the Spinal column to bring all the wealth of the Seven Sisters up to the Mind. But there on the face you see the Hyades, and that is the building up of the Face of the Fatherhood, the Positive Face of the soul. The ever-changing Eye of Aldebaran is the right eye of the soul, ever changing its beam, ever changing its vision into a greater.

The Bull is applicable entirely to the soul, Taurus. He is the labourer; that is the earth, the earth that is being tilled and dug; and that is the Covenant, to till and master the earth; the earthy creation

of the soul. You must change it and bring it into Light.

There is Orion below, holding up the lion's head that he is mastering, the lion representing the Powers of the Elements. Where you see a star of enormous magnitude, is where there has been the labouring of souls in abundance upon that point, so naturally you are going to see a big star for the changing of the Eye of Aldebaran. The one called Betelgeuse represents the swinging club of Orion, and this is where Merope is continually finding pain, in her right shoulder, through swinging the club to break down the Elements.

Now all this literally takes

Houses could do, and the following are either the Master's statements or those of which he approved).

Uranus in the 1st House.

Uranus in the 1st is to do with the conscious mind, because the 1st House is the conscious mind. The majority who get Uranus in the 1st usually suffer some disability, because they are not capable of handling the mighty force that is being demanded of that creative consciousness. That is the point. It is the House of Aries, and the soul has got to become an Orion Warrior. If it was being properly activated it would give a brilliant mind, it would give a creative mind, it would give a driving mind.

and really a destructive element.

Uranus in the 3rd House.

This could bring a great interpenetration of the mind in perceiving the depths of the Mysteries; but if not on the highest, it would produce the soul who is capable of building up of nuclear weapons, and other suchlike destructive creations.

Uranus in the 4th House.

This is where Merope has it, in Sagittarius. Merope has secret archives which she either draws upon—which she has been doing—to fill the world with a Stream of LIFE, or she would become a really destructive creation. Uranus in the 4th holds of much mysterious significance, and is where the soul becomes stripped of everything it possesses; everyone they have loved is taken away from them, until they no longer hold anything at all. It was in Merope knowing this that she accepted it, otherwise Merope would have been a very sad woman. She was prepared to be stripped right down to almost losing her most cherished possession, her Temple. You see, she is having to do the Work of the Hierarchs, which is leaving her extremely bare financially and without the support of those who should have been helping her.

Uranus in the 5th House.

This is the House of the Fire that is going to build up its polarity in Aquarius, as the Fire of the Spirit. The Glory that can come there through Uranus marrying up the two is mighty; the wealth is enormous, but if it is not built up, then the soul lives in all the powers which it had of the past, and uses them in an unwise way, gradually losing all that it has gained. If used properly, it would give the opportunity for the real creative Priesthood, the true Priesthood of the Spirit.

Uranus in the 6th House.

This is the House of the intuitive mind, or sickness. It can give mighty wealth of perception and healing, but if not, sickness of an unusual nature, whereby there could even be the losing of a limb.

Uranus in the 7th House.

This is where the soul has to be married up to the New Law, or they can become a devastating influence in the frictioning of the old. This could be where the Sword of Damocles is ever being held over the head of the soul, but could, in its positive action, offer great opportunity to bring down the Law of the Hierarchs, and establish it.

Uranus in the 8th House.

Now this is where Uranus is in the 'pit of fire'. This invariably indicates that the soul has not been too good in a previous life in its actions regarding the Fire, and could bring forth disaster if the soul is not careful. This is where Merope, by lifting up the Planes, is helping every soul to eradicate these conditions and right them.

Uranus in the 9th House.

This is the House of extended Wisdom. This could give a wonderful capacity for abstract mind thought; untold flights of fancy, with the soul ever finding the Bull's Eye, winging into heights unknown, with the freedom of the Arrow.

Uranus in the 10th House.

This is where the majority would turn it into a business acquisition, but really a soul with Uranus in the 10th could be a statesman of the finest degree; one who could help the world or country to establish new-born Laws.

Uranus in the 11th House.

This is the House of the Spirit. Now if the soul does not turn to the Spirit when he has Uranus placed here, then it is a sure sign of the splitting of the mind.

Uranus in the 12th House.

Now Uranus in the 12th, or any planet in the 12th, is a sure sign that the soul has been taking wisdom and never sending it up in light. They have never been creative; they have everlastingly taken, taken, taken, and consequently have never been able to reach a Bull point, a change of the Eye, and so it goes down into the labyrinth. Uranus in the 12th has to be watched, because it can almost become a state of a 'were-wolf or a vampire', because it would seek, and everlastingly try to find.

If only that could be made active by the Electrolysis of the Fire, it could deliver its wealth, but it will always be a struggle for the person who has Uranus down the 12th.

Q... As Neptune is the true ruler of the 12th house, all the Seed that has been gathered there by the soul could reveal of dynamic wealth, once Uranus was firmly established in its Solar creation.

A... Yes, nobody yet has been able to put the real wealth to Pisces; it has only been held by religion. Get your Neptune dancing in glorified belief, and then your mind is dancing on the Planes of Light, on the flying carpet of the new creation of light, and then indeed

THE ROYAL BULL

THIS is the great prerogative of man, to live as a Solar Galactical Priest, unfolding the Royal Glories of the Fatherhood, through the medium of the Breath. Once he can open up his heart to the Heavens, the whole of the Universe lies before him, waiting to deliver up its ageless secrets, as dynamic glories, as yet undreamt of in the mind of man. (See text in col. 1).

place with Merope. It is not just a supposition; it actually takes place, and she knows and says, "Oh well, I am swinging the club again". The Bull is a very very important creation that has got to 'drive', and those who do hold a prominent status with the Bull, usually find that they can bring forth of unusual Powers.

In this plate you can also see where the Bull is catching the Foot of Auriga, so he is driving the Shepherd into shepherding the young goat up to the heights, up to Capricorn, which is also the triune state of the earth.

The conscious mind would be sparking; the soul would be able to almost rule the whole world if he had Uranus working in the conscious mind, in Aries. His infinity would be revolving and he would be a dynamic force, as to whatever Sign he may have upon that House.

Uranus in the 2nd House.

This could bring immediate perception in the receiving of the Seed from Scorpio, and the electrifying of the Seed as it came forth, with Venus a true active creator, a Virgin. But in the negative it would bring absolute lethargy, inertia,

Health from Herbs

HERBALISM is the oldest healing art in the world. Its history can be traced back through the civilisations of Rome, Greece, Assyria and Babylon, and even beyond. Herbs are foods as well as medicines, and build up the general health at the same time as they cure any specific disease. Unlike drugs, which are inert, they are made from organic material instead of inorganic substances, and form an active or living medicine.

Here at the School we have a large quantity of loose herbs in stock, which normally will readily provide for all our requirements. However, we have listed below some of our more popular herbal pills, specially prepared for those who find them more convenient to take in this form, during the hustle and bustle of their daily occupation.

- Nerve Pills.
- Heart Pills.
- Catarrh & Sinus Pills.
- Eye Pills. (Cataract etc.).
- Laxative Pills.
- Garlic Pills. (Blood, chest).
- Bronchial Pills.
- Blood Cleansing Pills.
- Tonic Pills.
- Kidney Pills.
- Womb & Stomach Cleansers.
- Anti-Obesity Pills.
- Buchu Pills. (Bladder, sinus).
- Kelp Tablets. (Thyroid).

MASTERY

A GAIN I SEEK TO APPROACH A SUBJECT WHICH very few are cognizant of, the true mastery of LIFE that brings the soul to Ascension. Most only see life from a point of correcting Karma, and feel that all is safely "gathered in". But that is only the beginning, before the soul starts on the Road of true experience and achievement. This is the real depth of Occultism, where the soul accepts the FALL into illusion as his loss of heritage, and that the next step, is enquiry into re-achievement. For Occultism is the stripping-off of the state of the irrational to find the Rational, the Royal Mastery of Divine Wisdom. This is where the soul learns to live in its Etheric being, equating past and present,

and by the Outer World Breath, bringing forth a Divine rebirth out of the triune unity.

The Inner Etheric Light

ONCE the soul is stripped of the false antiquated theory of life, by the Seven Bodies seeing truth through the Abstract Word, the rebuilding can begin by Divine Husbandry. That is, being tended and nurtured into Atomic octavial rebirth, by treading the Path according to the Word. So that Divinity is born into the soul as elevated molecular belief and aspirational purpose. Then the original source, from which the soul was born and nourished, becomes united with the New Source, and the nourishing then becomes the Glory of the Upper Ethers. This is the mighty wealth that Merope has brought into birth as a Royal Scapegoat.

This can bring a better understanding of HERE and NOW, in how the soul expands by seeking, reaching a complete Royal Divine Polarisation, turning from the lunar into the Solar by one vast sweep. But much Water has to pass under the bridge before this is achieved, for it is a matter of the conscious mind being so mutable and electrified, as to change its Beam of the Eye with every new unfolding rebirth.

It is the conscious mind, which is controlled by Saturn, that finds it very difficult to change its elevation to becoming just like a flying bird. A swallow swooping up and down, catching the wisdom up in the heights, from out of the downpouring Breath. For the soul is assimilating the Elements and becoming Divinity born, thus it calls for an ever discarding of illusion, and adopting the glory of Reality.

But with the many erratic and erroneous themes and theories that scientists, medical, legal and religious bodies have, through financial inveiglement, it is often difficult for the layman to accept his new-born elevated inner calling. In fact it needs a lot of courage to adopt the Royal changes that Neptune is now bringing, requiring courage and sacrifice to embrace.

This is where Divine Husbandry when exercised, gives to the soul inner Etheric LIGHT of Supreme Divine strength. Yet that once accepted, is "thy Shield and Protection", for it brings Divinity elevated in the being and the Royal Glory of the Speech. This is where we must begin to comprehend the true meaning of mastery, where the soul is elevated up beyond himself, and catches the Royal inner Glory of the Word.

This is the mystical story of Sam. 20 v. 33-42. Saul the red fire is threatening to take the life of David the Spirit-born

Mind, so Jonathan the Royal elevated Fire, goes forth into the Field of Contest and shoots an arrow, telling his lad to run and catch it. But he shoots the arrow beyond and tells him to look beyond and gather.

It was then that David knew of the Royal heavenly wisdom, for only he and Jonathan were cognizant of its mighty depth. Then David ROSE up and fell on his FACE, and bowed three times, and he and Jonathan kissed, until David exceeded. Then Jonathan declared, "this is My Seed and thy Seed", whereby Jonathan, the Royal Fire of Divinity, went into the City of the soul, and the whole of Being was raised up.

For as the soul is reborn out of the ionising of the Divine Atomic Elements, that is, unifying the polarity of negative and positive, it gives unto the soul the Royal FIRE of the Upper Divine Ethers. It is by this the soul exceeds in expansion, and makes mastery over the Elements.

This is the true meaning of "Obeying the covenant and tilling and tending the soil". The soul nurtures and raises up his earthy state by molecular wisdom and grows new ideas, and reblossoms life. Until eventually he becomes Solar born and Divinely elevated in step and action. Then he begins to perceive that man is the true creator of life, and that he must begin to create and evolve the foundational root of Cosmic unfolding.

This is Evolution and Continuity, which brings the New Regime into being by Royal Mind expansion. But usually, all becomes so comfortable for the few who hold the "Purse Strings" of the World, that they make things almost impossible for changes to ensue. But by bringing Divinity or expanded vibration into the City, all is forced up onto a higher Vibration, until the opposing forces are raised up.

This again brings the story of Jonah into action. Having turned over Nineveh by his own elevated rebirth, he was forced to "eat-up" the evil. This he did by bringing down swifter spinning Protons into the Neutrons, causing the Electrons to vibrate at an extensive rate. The worm in the gourd was the anger set up by that which he had to suffer, that evil could be reborn. For by compassion it would help to reveal all the quicker, the true Divine nature of the rebirth they had taken.

Phallic Worship, which in reality means raising the passions up as the elevated Glory of the mind, bringing the Neptunian Waters into birth.

Rebirth of the Atomic Mind Plane

TO the Hierophant upon the Path, this literally means the mastery of living, by Royal Solar giving. Not in a religious righteous sense, but by so mastering life through the in-birth of the Divine Upper Ethers, that the soul brings

Divinely rise above the flesh he has taken on while in captivity in the depths. For soul is Mind and Spirit, the glory of the Royal Pleromic soul creation, while the flesh is the densified seventh body, that is fed by the inner Etheric Enceinte six. Hence the moon body that was created in Atlantis.

Thus the feat is the Royal Atomic mastery of this body, which reflects the ills being inflicted upon the Etheric by the soul starving it of expansive Mind nourishment. Yet this is where Karma has to be corrected, placing the soul on to the wheel of rebirth if it refuses to assimilate and Divinely expand out of the depths of darkness.

(See plate on this page)

But again, this is where Merope has tenaciously laboured to assist man to discard of such vast hordes of accumulated creations of Time. For in her automatically raising up the Planes by her own struggle, she helped man up onto the Virgin Mind Plane to begin his Enceinte Etheric rebirth. But his trouble is the conscious mind memory, which only the Divine Wisdom will cure.

While in Merope having gone up to Neptune, the Plane of Royal Generation, which extensifies the expansive delving into the depths, even gutlessness and narcissism will be struck away by the Royal Firing of Uranus. For he strikes to reveal wherever the soul is wanting, for this is now an Atomic Mind Plane, where every soul must face truth, and have belief in the Royal Inevitable Divinity.

Yet no man being able to get there, except by Divine Husbandry and Royal Mastery. Then the soul by mastering those Atomic Elements, makes octavial Ascension, to eventually spin up and off to reside as one of the Divinities in the next Heaven-born Regime.

This is where we realise more fully of the prediction in Revelations of the 144,000, and how only the few will make this Dynamic breakthrough. For in having come from the Heights as a Thought, which in reality is our depths, we have to become a Royal elevated individual mind creation by Royal Electrolysis Proxy.

Then again, at this expansive moment, we should be able to perceive the Dynamic depths and wonders of the soul creation, that are now ready by Enceinte inbirth, to become mind born. An Atom born from the Mystical Wonder of the heights, yet in having gone so deeply into the depths, had lost the means of receiving its true Divine re-embellishment.

But with the raising of the Planes by Royal molecular unification, the Royal nourishment has been restored by Merope, and man is being fed with Divine life-giving Sustenance and Holy Unction, through his own divinely born Seed. As to whether his conscious mind can throw off the heavy yoke of Saturn, is another matter.

But this is where the living example comes in, and if a partner or son or daughter has the Royal Courage to fight on and become that living heavenly example, it will be under Uranus that they will be Fired into Royal expansion. For he either cures, or divinely releases and elevates, then the Atomicalised soul who faces the latter, will be ready for yet a higher degree of Royal mastery.

Nothing is by chance, it is all a matter of molecular mas-

THE WHEEL OF REBIRTH

THE inflowing Royal Atomic Fires of the Heights are offering unto man of new life, new strength, that he might enter into the Immortal Neptunian World of Vega Mind Glory. But if he will not discard of the illusion, and adopt of the Reality, then he must be prepared to be burnt upon the fiery wheel of rebirth until he either changes or succumbs. (See text in col. 5).

This now has been mastered and set into operation by Merope who acted as a Scapegoat, and took away the Gates to Vega, whereby every man has the means of entry into every Royal Field of rebirth, and none can jam the Path. So all is set for the New World of Expansion, which is not an Earth World as we have known it, but a Royal Etheric Creation born out of Outer World Space involvement. Thereby bringing an Abstract MIND World into birth.

But this is where we must realise that the enceinte Etheric Body is the new Potential Mind Body. But now as a Virgin Plane, with the concrete fully involved and elevated. For by Merope making such molecularisation of the Word, she makes unification with the Greater Planes. Hence she opened the way for the Celestial Ethers to be born into Matter through the Breath rejuvenating the Seed or Hormone into elevated rebirth. These are the Hierarchs that are now born into every man's blood, through the generative Central Sun Royal inbirth, and they taking on of his mind rebirth.

For man is now born from the Heavens, that of Royal rebirth, that of Divinity. So with this introduction into Occult rebirth, we now can seek more deeply into the Royal Divine Husbandry that has to take place. That which is known to many as Divine

strength and Positive Divine Atomular creation into birth. Apart from being a Royal expansive example, which vibrationally compels others to follow. Thus a Divine creative Pleromic master, or maybe a heaven-born Genius.

It is Uranus, the Planet of Fire, that now teaches man the art of living, for once you labour and expand your mind and bring NUT Solar Points into birth, Uranus Fires them, and makes them Divinely secure. Thus the Royal Atomic fusion towards the Divine Solar infinitised rebirth. A living vibrating Chromospheric Radiancy that sparks and gives Royal Waveband incentive and Fire unto others, as well as the Heavenly Intelligencia.

For Uranus indicates superwill that brings the soul to becoming a god. But the man who tries to take without giving, he strikes, for this is the full Divine LAW of Uranus that is now operating. Yet any earnest soul who is seeking into this Wisdom, will find that he is learning to live by mastery to give both Cosmically and Terrestrially of Atomicalised expansion.

For you never come to these unified Royal Truths until you are ready to burst and blossom forth. Yet this is where you learn to meet one disappointment after another, and even treachery, where the soul learns to master and

tery, bringing literally "death" and "rebirth" in the royal expansion made. Sitting waiting for fate to act on your behalf, as many do, is utterly ridiculous. Unless a soul gets down to try and master himself by polarisation, he enters up onto another Plane of Evolution, to find himself "blind" and negative, and too blind to make the effort to re-adjust himself.

This is where we find many a tragedy of drug coming into birth, or at the present the terrible bunches of non-expansive mindless hooligans running around in cliques, causing untold damage to the vibronic earth. Blood-life of the Chromospheric Glory. These are really gutless fools, looking for the will to live by dangerous excitement. By being in bunches, they feel clever and deceive themselves they have found that will, when in reality, they are being stripped.

The Royal Life of Vega

THOSE who are seeking into Spiritual Occultism, are those who are striving to meet life, and wresting out of living, the royal means of strength to become. This they will do by Divine Husbandry, that is, delving into wisdom, polarising it and living it, by treading it in, thus bringing into birth their greater encephalic mind body. This is the true meaning of Divine Aspiration, where the conscious mind awakens and aspires out of the infinitised realisation, and the soul starts to fulfill what he came to the earth to achieve.

Of course one soul's lot may be greater than another, but no greater problem could any soul meet, than that which I had to master, for I was the Prototype to accomplish this Royal Mastery by Divine belief, and it has followed in the Waveband ever since. For all my Planets are in opposition, which declares, "master or suffer", with Uranus in the fourth house to ever beat me and drive me on. By this, I was able to rise up onto the Central Sun, which I polarised, but never fully Divinely assimilated, until the present moment.

Yet this is but the preliminary of delving into the Royal Life of Vega, that which is of the Etheric Royal Birth of Divine mind ascension. Yet one that is wise to meet and set the ball rolling into electronic spinning Glory.

For sitting down under the accumulated weight, will only cause the conscious mind to hold to old illusive solidified ideas. It really means the soul is late in starting to master the Fall into density and has started to become frozen into icebound states. Hence it means that although the Planes have been Royally lifted, Saturn is so in control, it prevents the soul from making the effort of Will to fight and master.

Yet with facilities today, nearly every problem can be met, and assistance to fight also there, perhaps not always palatable, but it is a way out for the time. Then it will be found, that by moving the elements within self, the Great Elements are attracted as Over-shadowance to an Arc sparking with life.

Drug takers are but souls seeking to find the answer the easy way, for just recently I met a soul who had all the wherewithal to expand their mind, but shirked the letting go of illusive comforts, and partaking of the responsibility of thinking. Thus expanding the etheric body alive with wisdom, and casting off the animal. So had taken to drugs, where they declared they found the peace they were seeking.

For a period I managed to persuade them that drugs were not the answer, so to meet the situation, they carried out a

Yoga practice of standing on their head, and merely took the wisdom in frog-like assimilation.

Here we get the answer, the mind was being starved of the blood nourishment that it receives by the action of thinking. By struggling to know, the bloodstream is exhilarated and driven up to the brain, feeding the cells as well as the roots of the hair. For even baldness is due to non-thinking, or merely studying on old academical knowledge that brings no true expansive rebirth.

the Divine Eye of Divinity. This is where the truly Begotten Master, as the Intelligence of the Central Sun, resides as an inborn Ray of Divinity.

And since the Son and the Father are ONE, it becomes the Holy Begotten within the soul, as the unfolding FACE of the Godhead. When this can be achieved, the soul finds a security far beyond the understanding of those who live by satisfying the lower animal desires. Then by Royal

to the full, one of my staff went to one of these astrological betting shops to purchase my horoscope. It seems that time of birth to them is not required, any more than that offered in the daily papers, but just a general summary of the Signs with the passing transits.

Without the time of birth, and where necessary the Standard Time, you cannot get the Ascendant, which gives you the lesson to be learnt in this life by the royal expansion of the conscious mind. Also the position of the moon, the

leading souls astray, and a tragedy I have often met. True Astrology can be followed in guidance to the letter, but then it is only showing the way to that soul of how to master their accumulated problems, that they can free the way for Royal mind rebirth.

The best system for working out this royal direction, was created by Ptolemy, who set out to help people to master themselves. Not as fortune telling, but soul guidance according to the hour they entered back into the world of experience, for they could not be born until the right moment.

I was so disgusted by my enquiries, that I wrote a letter to The Times, which I feel could help the many who seek into this wisdom, and are turned away by the sheer fortune telling rubbish going forth as Astrology. In fact, many a letter has been written to us for me to explain of the truth.

(See letter on this page)

The very fact that the computer set to do this work, was created by an American, is enough for me, and states all. Astrology is a very Royal Science, and I do many Tape recordings for those in America, of which many are recommendations. So they do not think very much of their computer system.

Prediction does not come into it, for it is up to the soul as to how he reacts to the Planetary action in his chart at the time. I have had many a soul state, "I was able to weather that bad aspect by the wisdom I have gained from the Occult Gazette". So by will power on the part of the soul and the expansive Fired Abstract Word in the Gazette, the soul was elevated.

But now let us come to the unseen molecular changes that have ensued in Cosmic rebirth. Now only Uranus and Neptune are really operating, the five mundane elements have fulfilled their course, and it is Uranus and Neptune who are shaping man's destiny for the future.

This is the FIRE of Outer World Space, now saturating the Earth with its Atomic Fire, bringing man to raising up his passions into mind creation. If this is not accomplished, it will not be long before Uranus will strike to break open the "rock" and put the soul on the cross of redemption.

This invariably comes through illness, but even then compassion is shown, for the so-called "Mao-Flu" is nothing else than Uranus cleansing the soul by firing the waste in his blood. By so doing, the greater Divine Element intervention is eventually lifted up into Royal mind awakening, with the conscious mind being forced to face the truth.

So once again, this rules out this mass production of Astrology, and of which I again say, the man who follows such, is a fool to be led astray by such rubbish.

This is where man has to think for himself and start his Royal Orion Warriorship in what he believes. After all, he either perceives the Truth in the Occult Gazette, by him being encephalic awakened, or he is not ready and is still being gravitated to the earth. When the soul is becoming Divinely Born, he feels the heaven born gravitation towards the Solar Glory.

Dear Sir,

I am sending this dissertation to you because I feel that you are the only newspaper that views everything from an unbiased angle and an intellectual standpoint.

There have been some controversial statements regarding Astrology, with the final comment that the scientists say there may be something in it. The truth of this will never be seen while it is kept on a mundane level, for Astrology was never meant for the 'fortunata' of the earth, but the building up of the encephalic etheric mind creation. This was first decreed by Moses from his internal Hebraic blood-strain, yet that fostered in the royal Egyptian courts. But the Astrology as we know it today was created by Ptolemy, and is the Witness, as promised unto Abraham, as he 'counted' the stars.

The circular wheel is the ecliptic journey of the Sun, but only around the zodiacal influences created by man. The real colure is the equatorial fiery path, as dedicated unto Orion, the Master of the Elements. Each one of the twelve segments on the wheel,—the grinding out fate of man into divinity,—holds the glory of the Hosts, the Divine Ethers of the Hierarchical Heavens. These descend as the prismical Solar-Galactical Breath, which man breathes in as Hydrozyl Breath, casts out the carbon dioxide, and sends the 'seed' up to the pituitary as 'hormone quality'. This eventually goes down to the depths, to become sublimated in his 'broiling apparatus', there to become either Spiritus Air, stirring the Kundalini Fire in the cauda equina, or just seminal fluid. This being set into motion by Uranus, to find the royal qualities of Neptune.

Hence the soul stands with this mighty wheel around his generative creation, thus ionising the Positive and Negative of the influences, as the Solar and Lunar, into his 'broiling pot', according to his mind-creation. The real purpose is to completely balance them into a one-pointed status, creating the diamond-pointed mind. The planetary degrees in each segment indicate the Element mastered by the soul and that which he has to walk into the earth, to make it a living status of mind. This is the 'mastering of Cetus' who is ever waiting to devour all the creations of Hercules. By this the soul obtains his 'winged Pegasus', the royal wonder of the mind.

Now that the whole world has gone up onto the Atomic Mind Plane, pseudo-astrology can no longer have any chance effects.

Yours sincerely,

Gladys I. Spearman-Cook.

(GLADYS I. SPEARMAN-COOK).

Thus by bringing fresh Ether-born air into the lungs, it deposits its mystical Divine Seed content for Hormone reproduction. The air DOES NOT enter into the blood as the medical authorities state, it is the Fire or Hydrogen content which goes forth into the blood, and when an implosion is made, is Uranus striking it into expansive action.

This is the Atomic "Christ Blood", or Royal Central Sun Chromospheric Glory that enters the blood, giving ITS Divine Atomic Life to help the soul Atom back to its Source, that now made royal by Divine molecular elevation.

This is what the Occultist is learning to husband into life, the inborn Divinity, that by belief he builds up as his Priesthood, or Royal conscience within the soul. To finally build up in the Commissure,

Mastery as a conscious strength, the soul acquires a positive Divine radiance that is effusive and inter-penetrative unto others.

The Fallacy of Computerised Astrology

NOW, while I am upon this subject, I would like to bring forth of the utter rubbish that has been given recently regarding Astrology by computer. This is a Royal Science that was given unto man as a Witness to guide him in the Fall, and the idea that it can be produced by a computer is not only an utter falsity, but one just recently brought to the fore by an eminent astrologer.

For he was suing a computer company for its erroneous compilations, claiming that the robot was ruining his good name. But to prove this

negative state of the soul to be retrieved, with the Path of Destiny, the path to be pursued in this life. Hence the passing transits would make a far different action upon one than another.

I am afraid the one seeking my horoscope from these barterers of Doves, put them rudely into place, but they were so blind to Astrology of any sort, they hadn't the slightest clue of what was being asked of them. This is where Uranus will strike, for you cannot play "hop-scotch" with Astrology.

Sooner or later it will deal out its striking propensity, for these pseudo-grave-diggers are

THE POWER OF FASTING

by The Lord Hierarch of Scorpio

(This Lecture was delivered on Wednesday the 1st April, 1970)

MEROPE'S OPENING PRAYER

GREAT Divine Spirit, once again we gather together, that we can make enquiry into the depths of the Wisdom, but also to keep the vibrations moving and expanding by our inspiration and our belief, so that we can bring about that which the Spirit World are working upon. We know that it can only be done through the human agency, where a soul gives all they have, and is willing to make every sacrifice, that there can be the betterment in the World of darkness. This will only be perceived when they have awakened to the Glory of the Spirit, and come at last to the Reality that they are born of the Great Heavens, and that God is within, and that by so being they have all that there is, with HIS Great Love and HIS Great Strength, to fulfil any task that may be set for them. So Great One, tonight we seek of Thy Guidance, and above all Thy Blessing, and this we seek in the name of Love and Service. Amen.

THE MASTER THEN MANIFESTED

PEACE BE UNTO YOU ALL

We come amongst you, but above all to say that many of you have added unto the Work of Merope, and in so doing much has been accomplished. It may appear to you at times that it is not going as you would wish it, but very often there has to be an undoing of a knot, which entails a lot of difficulty, and then there is the fulfilment. But all has to be gathered in by the Summer Solstice, so have no fear.

★ ★ ★

NOW a question was put forward in the last elementary class, as to how a Fast, imposed upon Merope, would bring about a fulfilment of the Plan. At the time it needed Word and We are not subject to your Word, and so Merope has made enquiry herself, and has sought that it could be explained more fully to you.

(The Master then read through the Scroll which Merope had prepared).

THE ROYAL HOLOCAUST

This is being brought to give further enlightenment on the question placed by a student regarding what actually takes place when a soul makes a sacrifice by fasting. This is a Royal Holocaust and pure Divine Union takes place, filling the soul with Holy Fire. But only those who truly know how to give can possibly receive. By so being, there is put into operation a complete new vortex of vibration, which is set revolving.

a sacrifice must be made, whereby to intensify the Proton into Sperming action. This is where man has to understand the full meaning of the Liquor Sanguinis. For the Blood holds the whole wealth of Time, and can, by its polarity, when purified, draw down the Unknown Celestial Transgression into the depths. Thereby completely absolve the lower lunar waters, then spread as Fiery uplift, by the Waveband of that soul, up onto higher Planes of thought, by raising up their Fiery life, over the entire Earth. For by purifying the blood, there is no earth pull, the Protoplasm being condensed heavenly Powers.

Then when the Great Hydrogen Powers are drawn down as Mighty Powers, the World becomes swamped with the Power, and the Hydrogen and the Oxygen begin implosive actions in the bloodstream of all that are concerned by Law of attraction, and in the Mighty Stream of the Earth. Without belief going forth with the new project, the penetrating Proton would not sperm and the passive Neutron would still be content with the old creation. But when Fired by the royal aspiration propulsion, it causes the blood life of those charged by the project, to dance with Electrons and a new outlook is derived. These are the Nymphs of the Blood who "redress their hair on the banks of those waters."

The Stream is Merope's Blood Stream and Mighty in its circulation for it charges with new Atomic Life. But this now being Scorpionic wealth, every soul receives the impregnating Power in his Seed. Yet the one making

DIVINE SACRIFICE

AS the Royal Scapgoat of the Age, Merope has ever been prepared to take the 'burning-in' of the mighty Fires of the Heavens, that a new project, a new belief, a new Law, could be sent forth. Nothing could deter her from her purpose, for she was born of the Sacred Heart, with the Love of her Great Lord and Master as the impelling drive towards her establishment. (See text in col. 3).

the sacrifice, will find themselves being spun up by the Vortex set into motion, from whence the Power was derived. This is the mighty story of Siegfried where Brunnhilde is burnt on the Pyre.

(See plate above)

When in co-operation with the Higher Master and the

born reality of Merope's Solar-born manifesting Divine Wonders. Where, by her comprehension and belief in the Powers of Unborn Origin, Mighty Waves of Power move the earth-born magnetic soul, into the right direction.

All soul creation is born of Positive light and negative

light. The Positive being of Chromospheric etheric fulfilled establishment, while the negative has yet to be completed and blossomed. Where the soul, if they are truly seeking and delving, will be led into channels of unknown wonders, especially when they are of Central Sun comparison by frequency. Here is the Point of Source inter-union as the etheric conscious mind reverberates within the enceinte Solar consciousness. The soul becomes a complete fulfilment of the Solar Galactical System within themselves, Thereby creating a perfect infinity within, by the Spinal Fennel stick becoming the revolving Kundalini Fire.

This is known as the full radiational wealth of the Atomic Waveband. She who has brought Neptunian Wonder polarised, which is the Sperming Glory of the DIVINE Might. This is the mighty Power of Scorpio in the ratio of the Seed, which man kills by bringing it to animal desire. But when in God Glory the glorified son of the Sun.

Protons, Neutrons and Electrons are the three wavelengths of electrical current, which when united by a single Divine Thought Vibration become Atomic Seeds, powerful and sensitive enough to receive and transmit the Royal Divine Voice of the Fatherhood.

★ ★ ★

AND His Dynamic Power is pouring now into the Earth. But Merope had to make the complete sacrifice of Earth, so that HE could be made manifest in the depths. With such depths it will sweep all up onto a higher Plane. It is Vibration all the time, moving and transmuting, and bringing into a Divine Light. This is well known to those of the East, but not to the West, who only understand the wealth of the coin. Those of the East understand the great Glories of the Occult, but those of the West only a recent addition.

The

Divine Invocation

ALL Divine Holy One, Thou Great Power of All Life. Hear Thou the Word that has gone forth tonight onto the Waveband, that it will strike the hearts of those who doubt, that they will be brought to see what they disbelieved. O Great One, hear the Cry of Thy servant, and Thy Will upon the Earth, Merope, that she can be blessed in her Cause. That she can be given strength to fulfil Thy Will. We ask Thee to pour down Thy Great Unction upon all who would seek to aid her cause, and We leave this Great Purpose, that could make the World perceive of the Great Depth of Spirit, in Thy Hands, and We seek of this in Thy Holy Name.

AMEN.

Depths within the Atom are pierced that were never attempted before, with Heights in the correspondence also interceding. Then both heights and depths are whirled into a new channel of unified life. This is ordained inspiration whereby a mighty vortex is created, through the soul drawing down of Divine Corpuscles of Hydrogen Atoms. These Protons of Hydrogen Fire interpenetrate the passive Neutron of Feminine Earth that will not change, which is as a Nut, that having reached such fulness, needs sprouting anew.

But to fully accomplish this,

THE NEW WORLD OF MIND

Continued from page 7

you will be able to set your Uranus sparking. But the 12th house always has to be wrestled with, because the soul has fallen short of the completion.

Now it is all this that Merope has been helping man with, for she has given you the Wisdom of Universal Philosophy, which should help you to cleanse your mind. If you get your mind filled with the Wisdom, and believe the Wisdom, embrace the Wisdom, and let the Wisdom live within you and become of it, all these old states will be left behind and forgotten, and you can tread a clear Virgin path, with a revolving Infinity of the Fire to ever guide and sustain you.

But this is going to be a Road of hard work, and according to the degree of growth of the soul, will it be hard. Merope at the present moment is on her way of Ascension, and is making her way up, back to the Central Sun, where she belongs.

The main point for you to remember, is that the whole world has become Atomic born; not on the lower atomic destruction, but upon the higher Atomic Construction. This has opened up all the darkness and brought forth all the evils, which had to be revealed, and now in bringing them forth, man is clearing out from himself all the lower states.

This may not be seen by those who are always looking for success; success is not the answer. The answer really lies in the Causation which is going to run as a Stream in the very blood-life of every man who awakens to the new creation that is now going to be born. But the chief thing that every soul has to do, in their awakening, is to find aspiration. You can never get anywhere in this Wisdom, in this depth of understanding, without there is aspiration. You must ever aspire unto the Great Unseen CAUSE which is feeding Life, and giving Life its new purpose.

By this aspiration every soul can become Solar-born, filled with Royal Atomic Light, and awakened to its Holy Purpose. Every soul must seek now to raise the world up out of its darkness, and it is a cause which all awakened souls must seek into, in order to bring new life into birth.

(See plate on this page)

The importance of this is that man is an Ego, and I am not talking about egoism, for that is where he runs off the path. Man is a Divine Ego, he is an Atom, and is consistent of the whole of what has been. Thus his basic heritage is of Divinity, and is the reason why he seeks of the Great Unseen, that he can get back to the Source from which he came.

Every soul is seeking to get back, but up to the present he has only followed religion, and religion has not brought him any answer, for religion did not have the answer. It did not realise of the wonders in the Unseen World that man had to reconstruct, and bring to an entire Oneness within himself, whereby he himself would become born of all those Divine Abstract Glories.

As you rise up by your sensitivity and spinning-up thoughts, you enter into the Abstract, you enter into the great mystery of the Silence. If you can only get into that

Silence by your aspiration, then you will meet the wonders that are Transcendental. You will meet those higher thoughts in all their Virgin Purity, because once they begin to get near to the Earth, then they take on the ways and thoughts of mankind. But if you can go up to meet them, then you become born of those royal vibrations, and come back filled with all their Divine Glories.

You must create the Abstract Plane around yourself, and live in it, and radiate it, but the main point you must first drive for is to get Solar-born. In getting Solar-born you become a power to assist, heal, and direct others, and as

This world, that is of an earth context, is going to become of an Immortal Creation, and those who are willing to change will become a part of it. For the moment you might say "I cannot imagine that," but changes have been taking place for the past seven years, rapid changes, although you may not have seen them; yet they have been literally changing under your feet, and you have changed with them. You have become born anew with them, and now the New World is about to begin, and it is a Solar World, and that is why the Solar Creation is beaming down upon the Earth as it is doing, and that is only the beginning. The whole world is going to become of Solar Light, and you are going to be a Being with it.

THE WINGED MIND

HERE is the Warrior who has broken free from the magnetic pull of the depths, and is winging his mind up into the glories of Outer World Space. He has cut away the desires of the depths, and is truly an Orion Warrior going forth to master life, as he journeys into unknown realms of Neptunian discovery. (See text in col. 1).

I have already said to you, it is only in becoming Solar-born, that you are going to be able to weather all the disturbances that are going to take place within the world.

The inhabitants of the New World, those of the New Race, will be those who are Solar-born and Mind-born. Of course, there are plenty who live just by book knowledge and ordinary schooling, but this is not creating of the mind. When a man can think and create and bring forth a new idea into the world, then that is the mind, and this will be the purpose of the New Race of Immortals which is about to begin. This is the prediction made in the Book of Revelation, that man would be born of the Spirit and become immortal.

This does not mean that all who are in the world will be of the New Race, for they will not. Although every man will be born of the Spirit, it does not mean that they will manifest it. Those who refuse to change will never enter into the New World, but will merely pass into the astral planes, to gradually fade out as a conscious creation.

NOW I am going to show you something which has been put into operation by a country which has a lot to learn, and a condition which Merope is determined to alter.

(There followed two short films showing the horrors of the war in Vietnam. Both were official documentary films. One showed a remote village school which had been bombed in daylight, killing 33 children, and terribly maiming and disfiguring many more. These were the results of American bombing with napalm and other terrible explosives. Another part of the film showed a remote town and its hospital which had been savagely bombed and devastated. The second film was a true documentary of the American Green Berets, their brutal training methods, and their resultant brutality in the war. This film was of German origin, and the result of German researches).

Now I have brought this to you because Merope is going to make a special drive towards sending out onto the maelstrom her Solar Light, in order to break down this con-

HA! HA! HA! HA!
COME INTO MY PARLOUR,

with us in this drive towards bringing this war to a close. But it will need your strength and determination of will and purpose to send out in thought and aspiration that this can be brought quickly to an end.

I will now bring the evening to a close, because enormous Powers have been brought down here to start off this new project. A new electrification has been set into motion by the Vow of Merope.

The Divine Invocation

GREAT Holy Unseen Divinity, Thou who art in the life of all, and art the basic of All Creation; Thou who art suffering through man's degradation, and ever stands by at the Flood, at the bombing, and even with the drugs; We seek of Thee to receive Merope's Sacrifice, that it will raise up the Planes and draw into the Earth, especially at these devastated spots, New Life, New Strength, and New Purpose. For Thy Compassion is ever there, for Thou art the Great Unknown Unseen, and so We Seek of Thy Blessing.

That the Sacrifice can be made complete we take of the Cup, that it can be fulfilled, and whatever be the dregs may they be partaken too.

(The Master then took the Cup from the Altar and drank deeply from its depths).

Let Thy Will be obeyed, and Thy Great Unseen Wonders be made manifest to all who believe. AMEN.

AS Merope returned from her deep entrancement, she said:

As I came back I saw what looked like the Four Horsemen of the Apocalypse, riding across the Earth, and where it appeared as though there had been all this destruction, it seemed to me as though they bent down and picked up the Spirits of all those children killed. And it seemed as though there were Spirit Nurses going out to those that were suffering.

And I heard the words, "The least of these are My Greatest Love." And then I saw red vapour rising up from the Earth, and it slowly turned into Gold, as it mingled with the downpouring Glory. And again I was told, it was going to change, it will change, but these things have had to teach man the horrors of war. And they answered a question that I had put out during the day: "What would have happened if I had not taken up this Work as a Scapegoat? And They said, "Long before now there would have been a nuclear war, and you would not be where you are today. It would have been a race of robots, not a race of immortals."

dition. This will need some sacrifice, for this is the depths of Occultism.

Merope has asked what sacrifice she can make, for she has already sacrificed her freedom, and all that she has, but she has asked what sacrifice she can make, that this terrible war can be brought to an end. Well, Merope must go on a Fast until the war is over. She touches no food until the war is over. That is our Decree unto Merope, since she has asked us what she can do!

By going on a Fast, Merope will live entirely in the Abstract, and bring the Abstract vibrations down into the Earth, thus setting into motion a greater electronic force upon the Earth, whereby the lower destructive vibrations are neutralised, and the world is lifted up into its higher vibratory manifestation.

Every soul who opens up their heart, and their purpose, and their belief, to the great inflowing Solar Fire, can be filled with its glory, and by raising up their minds, can join

form of antipathy and sympathy: that is because you had that state within you, but the soul is able to turn that state in by knowledge, skill of entry).

The Penates preside over the house and domestic affairs, and would be the gods. Each head of a household was wont to choose his own Penates whom he then invoked. The statues of the Penates were of clay, wax, ivory, silver or gold, according to the wealth of the family whose hearth they graced, or the house the sign resided on, and the offerings generally made to them were a small part of each meal. (As you become suddenly aware of something, one of these gods upon the house that holds this wealth would suddenly receive a part of a meal).

(See the back page plate)

Upon removing from one house to another it was customary for the head of the family to remove his household gods, also to establish them suitably before he thought of his own or his family's comfort, and in return for this kindly care the Penates blessed him with peace and prosperity. This would be the rising of celestial gods from spiral to spiral.

By day every one had the right of admission to all the temple, save only that part in which the palladium and other mystic relics were kept; where the Vestals alone had the right to enter, for they were a direct current from the heights owing to their hermaphrodite state (their virgin state: they had never been intermarried with the states of desire).

And furthermore it was only by night men were excluded, for then no seed could be sown. All houses were permissible except the mind memory and the sacred heights (the arbor vitae) and these could only be entered by the mind when it had purified itself of all lower beliefs and desires; and furthermore, there could only be fertilisation during the solar inflow and lunar response, and at no other time; then these gods entered into their divinity.

(All coming down in the form of knowledge and being absorbed by the soul as the very direct Elements of the Gods. Man is made up of the Gods. Your very outlook at the present moment is the interblending of the Gods in the One-God-state, the Elements of the Heights. The great Hierarchical forces being absorbed by the soul through wisdom, and you are interblending them into your being.

So the only way to interblend them at the right moment, so that they can go right up to the heights, is through the Solar inflow and the lunar response, and the interblending in the mind dancing up to the heights. But if you take it merely as knowledge, intellectualism, then it is going to go down under the rock, and that is what man has been doing over the ages,—building up the rock and not the mind).

As goddess of the sacred fire of the hearth in every house, and for the city in general, Vesta was also the goddess of every sacrificial fire. Hence she

was worshipped with Janus at every religious service (being able to see both ways at once), Janus being invoked at the opening as the heavenly twins, and Vesta as Virgo at the close (the intuitive mind).

Her own festival, the Vestalia, was kept on June the 9th when the matrons of the town walked barefooted in the procession to her temple to implore the blessing of the goddess for their household, and to offer sacrifice to her in rude dishes, in remembrance of the time when the hearth served for baking bread (baking the staff of life, bringing birth to the great wealth of the corn). Those that had served her well and were now seeking for re-birth as mind fructification. Therefore mills were crowned, and the asses employed in them garlanded with loaves suspended about their necks to draw down the superwill and power of Uranus.

Since Fire is sacred and there is a goddess of the hearth, Mother Mem (the Cancer creation), it is a matter of course that there should naturally be a god of the fire-drill. This hearth is the earth, while the rising sun on the earth's distant marge is the new fire, and the fire-drill in terms of the same cosmic conception is the axis of the universe (that which is taking place in the solar plexus as the new thought begins to activate).

To bring the point, let us assume that one end of the drill is the Pole of the heavens, the other is where it touches earth (the generative creation) and produces the solar fire. But the rising sun,—the new fire,—may be of any of the four quarter days, the one fixed upon as the beginning of the year (upon that particular thought, and it would have to revolve ever from that point).

A priori, we might expect it to be that of the winter solstice when the sun begins to recover from its lowest state, or the spring equinox when the day begins to exceed the night and all vegetation begins to revive. Yet if for any reason the renewal of the year was celebrated at the autumn equinox, the days of the Star-gods and the Fire-gods, it would be easier to understand why the Lunar year, which was next adopted, began at that point, and man is the creator in matter.

(He never raised himself up from the fire that he took, but merely brought it into birth at the autumn equinox when all the leaves were falling, and he suddenly then began to find himself chained to the rock).

The Roots of the Soul

THE autumn equinox by mode of conception is the place of Prometheus, a time where he superseded and was chained: this is the solar plexus where he either brings forth of light or nagas (little serpents that become the Medusa's head). But Prometheus became the great artificer who made a man out of clay, therefore was the prototype for all posterity.

(See plate on page 13)

This was the great Egyptian Khnemu who was the great Triad of Abu or Elephantine, and figures as a ram-headed man. (Now we are going right back to the beginning of Time, the very root of yourself). His earliest name was Qebh and he was a god of the first Cataract. The Egyptians believed that Khnemu kept the doors that held in the inundation and drew back the bolts at the proper time.

In a quadruple ram-headed form his connection is shown with Ra, Shu, Seb and Osiris.

Sun, Breath, Earth and Soul coming into birth, whose attributes he appropriates; the head of which the ram symbolises has linking with fire, air, earth and water (the pioneer-state that must come forth; the earthing of the quadrature and the earthing of the elements. Remember that two states were coming into birth at once, the Cosmos and man himself).

Khnemu was one of the great gods of Egypt, and since the title of Prometheus comes from the beginning of time, the making or moulding of all things is ascribed to him, as well as being the "raiser up" and supporter of heaven in the firmament. (So although it came into birth then, he still

operation, because man today is not taking the wisdom; he merely is taking in intellectualism).

(The very wealth of the myths lies in the roots of the soul that are right down in the depths of the rock. This is what you are trying to bring into birth, and these are the myths that you bring into birth. This is the wealth of your gods, your guides and your helpers which we keep on talking to you about.

We are telling you that you have untold wealth right from the beginning, and by some great effort now you can bring that forth; it only needs some sacrifice now to bring

Mount Hetep (the heights), appointing a vulture to prey upon his liver (to force him to bring into birth what he has taken wrongly).

Thus our sympathies must be with him for he also is of the pioneer, even if he has stolen the fire. So we must follow with keen interest and deep emotion the development of the tragedy; for both gods and men must have sympathy with those who seek to help mankind and find themselves at the mercy of the law through some erroneous action. For after all, they are treading an unknown path, or if not entirely unknown, one that is not usual.

(This literally means that all teachers, all heroes, all seekers into wisdom are travelling this unknown Path and could bring forth some great help towards the universe, and by their struggling to raise their mind they are raising up the Arc of the whole Cosmos. Any one of you could do that by a sudden idea, a new thought.

But remember, you have got to live it and you have got to activate it. It is no good just thinking it, stating it, and doing nothing more. This is the prerogative of mankind; he is a god in matter, he is drawing down into his own being the very heights, he is absorbing the Hierarchical Forces. There is no other creation like man himself for being the royal state of the godhood; the very manhood that is coming into birth is the sun-god that eventually brings him into birth as the Christ-light).

The Regenerating Fires

THERE is something very mysterious about this legend, for who could create man but the great Creator? And why does Zeus seek to destroy men and Prometheus to preserve them? And furthermore, what is the meaning of the sacrifice by which Prometheus almost deceived the God? And finally, in our curiosity, for what reason does he first aid Zeus against the Titans (the great and aged states of himself) and then becomes an object of wrath and share their dungeon? (the darkness down in the depths).

(See plate on this page)

Prometheus, a son of the Titan Iapetus (Zeus or Jupiter)—or that which has been sent forth of oneself and is not counted as a Titan (the expansion)—was born of Clymene (earth and the waters), the same parents as Atlas the bearer of the earth, Menoetius as thought, and Epimetheus as afterthought, (man struggling with the knowledge and bringing forth Menoetius as thought and Epimetheus as afterthought). It is obvious by terms of expression, that as forethought and afterthought, these two brothers were merely personifications of qualities, but would naturally take on a living creational state in the human, and after all, that is what we are seeking to define.

The parentage of Prometheus was very confusing, for since Prometheus is not counted as a Titan but as one commanding great force, he is thought by some to be a son of Uranus and Clymene, while many a legend states of Iapetus and Themis. (So some believe that Uranus, the striking rod, strikes the rock and brings you into birth out of the depths, while others believe that it was expansion driving the waters of Cancer, and the heights coming down into the depths).

You must remember we are seeking into creational states whereby beginning brought into birth that creation called soul, so we are seeking among-

EXPANSION

IN making expansion, the soul must master the greater inflow of the Powers that he draws unto himself. By this struggle he transmutes the old states of his growth and brings them forth as the new intensity of his mind perception. If he does not make effort to master the Powers, they become buried in the depths of his creation, as raw Fires, ever causing chaos and disturbance within him, until he is forced into labouring in Divine Husbandry, to raise them up, back to their rightful manifestation. (See text in col. 5).

is bringing it into birth; man still is a Prometheus by taking the Fires and being chained to the rock through lack of knowledge: by not bringing the fires up in expansion, they naturally go down into a rock and the Word merely becomes intellectualism).

The "prop of heaven who hath spread out the same with his hands" (the creation made by his hands, activity) as he is called in a temple inscription of Esneh. Yet as the maker of all things he should be distinguished from Khepera the creator, the account of whose functions is in some respects a travesty of what is affirmed of Wisdom in Proverbs 8.

So if it is seen that Khnemu fashioned or moulded with his hands what Khepera brought into being from his mouth (not merely talking about it, but putting it into operation), and together with Ptah, built up the edifice of the material universe according to the plans which he had made under the guidance and direction of Thoth (the wisdom he received), then you can see the wealth that lies at the root of the soul, which has never really been put into operation, and is still not being put into

this into birth: if not, it merely will well up and bring forth black masters that will simply take the evil you are bringing because they do not know any different).

As the architect of the universe Ptah possessed seven forms (seven natures, seven bodies which he received in the differentiation in coming down) and was usually seen as a deity at Philae where he was worshipped as the god who brought mankind forth from the potter's wheel (the state as Prometheus the fire-god who is helping man to go on to the wheel, off the wheel, and to struggle with life); and man made ovation to him as, "thou art my double (ka) which is in my body, the god Khnemu who makes my limbs healthy; the spirit-soul." (By bringing all into birth you do make your limbs healthy; and it is the spirit-soul, the spirit-body, that you are wanting to ascend to the heights).

His name signifies the moulder and was identified with Zeus Ammon of the Greeks. So it can be seen how Zeus, or the equivalent, asserts his superior power and has this personage also chained to

st alchemicalisation of spirit entering into matter, that man can define where he has lost the thread and caused confusion amongst the main issues. Uranus the striker was Prometheus's grandsire, and Iapetus, that sent forth, produced forethought (expansion) to have a brother Epimetheus, afterthought, and were all stages of becoming. (You are all seeking for Uranus that you can get a spinning-up, and get your mind jumping up).

Once in the reign of Zeus, when gods and men were disputing with one another, Prometheus, with a view to deceiving Zeus and rival him in prudence, cut up a bull and divided it into two parts. In the extension of the magnetic force of generation as Taurus to Scorpio in regeneration, extended desire, he wrapped up the best parts and the intestines in the skin, and the worst parts and the stomach he placed at the top, while the second heap consisted of the bones covered with fat.

When Zeus pointed out to him how badly he had made the division, Prometheus desired him to choose, but Zeus in his anger and seeing through the stratagem of Prometheus, chose the heap of bones covered with fat (the ancient mind-memory, the structure); for Prometheus was seeking for the fire that had now been denied him, to be returned through the blessing that Zeus would give him (by making a wrong choice).

But Zeus, seeing through the wiles of the fast growing man-creation, took the heap that was allotted unto the gods, for it was the structure already created, with the fat gained out of the stolen fire. Therefore to punish Prometheus for his cunning, the father of the gods avenged himself by withholding fire from all mortals; but even then, Prometheus stole it back in a hollow fennel-stalk; this in its literal sense refers to vegetable growth that makes

its own fire, but symbolically refers to Prometheus learning to obtain his fire through the natural channel of re-generation.

(He was gradually coming into birth and getting very artful with it, and so he was seeking to hold on to those states that he desired and let go of those states that he found difficult to handle; but Zeus said "No, you are going to suffer for that; you are going to give me what is due". By so doing, Zeus said he

would give men evil instead of fire, so he caused Hephaestus to mould a virgin called Pandora out of earth and water, and then instruct Athena and Aphrodite to endow and adorn her. (Now we are going to see what Pandora is).

This was the first possibility of the rise from Cancer to Scorpio (in expansion) for the complement of ten days was carried in her box as Hope, which brought the 355 days up to 365 days. The difficulty was embracing Leo (the house of

PROMETHEUS

HE who stole the Fire of Divinity, and made man out of clay; building up a body of density instead of a radiating body of etheric mind brilliance. Thus the world became trapped in its own Saturnian creation of self-possession, until the day arrived in Relativity, when Merope came and offered unto mankind the way of their redemption. (See text on page 12, col. 2).

THE GLORIFIED ATOM

Concluded from page 5

A name is an Atomic ratio frequency of the Virgin Atomic Source, and the etheric equation capable of New World Atomic weaving. For Word unification is Outer Space Husbandry, the Atomic pitch-blending of past Hierarchical lost wealth, with present Hierarchical Atomic Light. Thereby giving the soul its right-of-way in the New World of unfoldment.

All now is Atomic Abstract weaving, as Thymatic ascending Atomic rebirth. With the Atomic causeway now ever changing the stereophonic intensity of the Breath, as it infuses souls in the depths with its Atomic points. That of the mortuary meals provided through Divine Royal Theocratic Universal Philosophy.

The mighty wealth brought into birth by the struggle and suffering of Merope. She who, by unification and Relativity, brought Word to becoming now the unifying ecstasy of the Hierarchical Breath. For each minutest breeze contains an ocean of Neptunian glorified Truth. Divine aspiration of Royal Holy Pleroma, for all now is Abstract stymology, the FACE of the comprehensive Virgin mind.

This is where the Great Mystery of unfolding LIFE is revealed, which in being absorbed through the Breath, can give unto the soul of its secret. Then soul, being the created Being from the same formula, can bring forth through the OM, the unfolding Glory of

that secret.

The mighty mystery of Divinity in his unfolding effort of truth, for the spinal column is the throne of the Divine Presence, here being situated the Virgin radio-active frequency of Vega revolving oneness. That of the Fire as it surrounds and revolves the whole of its Atomic might, with the royal aspirational effluvia of the soul's unwoven holy Presence.

This is conscious activity, utilising the soul's very Atomic essence within the etheric consciousness of the blood cells of the Mind Fire. That drawn forth from the Holy inflowing Breath of Divine Vega Causation. For this is the glorified Atom, born out of the Outer World Brilliance, with the internal consciousness that has to come forth.

Here we see the Atomic Word reality, as etymological entrancement of the Central Sun's polarised Virgin might. That of progressive spun-up aspirational belief, as the Word is ever polarised into greater and more reverent awareness. That of the unfolding internal might of one's awakening etheric reality towards the Divine Ego. For it is the Word that intensifies and glorifies that already gained, and residing in the etheric. By consciousness of what you are, the unified relativity gives the soul of its unknown Wonders.

For enzyme Thermoneutic rebirth, is the Hierarchical Intelligencia fulness of VEGA Causation. This is the might

and virtue of the Sun in Scorpio, now becoming the radiating Divine Godhead of the Supreme Overshadowing Presence. The internal drive of the Virgin, that now in its unfolding purpose, becoming as the Supreme Acme of the soul's intent. Therefore the name of the soul is his 'path' which will help him to achieve it.

The informal reality of the Sun in Scorpio infusion, is the Compassional Hierarchical destiny of soul's internal molecular interblending Atomic waveband. The internal copulatory marriage, which is the Atomic Fortune of the Orion Warrior, as he stamps his divine wealth into the Super-sensitivity of the Hierarchical blue-print. That of the passionate risen-up radiation towards the Virgin, as Vega conscious reality. With the Over-shadowance of Neptunian re-sensitised Hierarchical Royalty, as the mighty Reality leading the soul onwards and upwards to Divine Freedom.

Therefore, all is now the Etymological rebirth of the Holy Causation, as the Hierarchical embodiment of the Timeless Atomic nucleus. The Abstract offshoot towards the Supreme Divine Glory of Hierarchical Husbandry, giving the Word its greater FACE of comprehension. Where the etheric mind consciousness becomes compassionate development of Vega weaving. For as the conscious mind becomes one with the etheric, does the glory of Vega become its intensive purpose.

Therefore, for the first time, levitational splendour of Solar Abstract character, is to be atomically charged within the etheric conscious awareness of

The Mind Development Class

EACH Week on every Saturday at 6.30 p.m. B.S.T. Mrs. Spearman Cook holds her Special Mind Development Class at the School's H.Q. A special Subject is concentrated upon for about 40 minutes and then each sifter is individually helped to interpret and understand his or her findings. Any readers can join; those nearby can make application to attend each week, and those too far away can send in their names and link in each week at the time stated, their names being entered in a Special Book for this purpose. The subjects for concentration are:

May 9th Preambulance	June 13th Neptunian Royalty
May 16th The Virgin Atomic Cycle	June 20th Divine Birth

karma), Virgo (the harlot) and Libra (the desires in the lowest state because she would not come out of the waters, the unbalanced state of the soul), which if mastered would bring the holy square, the holy cube in the holy of holies; (a square base upon which the soul could bring expansion).

This is still man's problem, and how many still are concerned with Hope, for she is the animal with the skin removed (only the animal state of the soul made to look polished; the conventional state of the present day). This gave to Prometheus those evils he had never tasted before (and struggling to go through them), therefore was put into chains and fastened to a pillar of rock where an eagle sent by Zeus consumed in the daytime his liver, which was restored again each night (as the soul went down into the night of struggle and darkness). But eventually Heracles (the hero) killed the eagle and delivered the sufferer except for one mishap (you are trying to bring your hero into birth that he can help you to become released from the rock).

Prometheus had cautioned his brother Epimetheus against

accepting any present from Zeus, but the latter accepted Pandora when she was brought to him by Hermes. Upon arriving, Pandora lifted the lid of the vessel in which the foresight of Prometheus had concealed all the evils which might torment mortals in life. Now disease and suffering of every kind issued forth, and HOPE alone remained behind.

(Now that was in the beginning, when man took the wisdom and it merely became intellectualism. He made no attempt to master his karmic state; he made no attempt to bring his intuitive mind into birth, but ever hung on to the harlot and never made any attempt to bring a balanced state with the wisdom as it gave him the understanding of what he should do. So he went on in his old state and kept on taking knowledge; and man is still doing that. If you want to master this creation and rise up out of the lower state of self, then you must put them into operation. Let the wisdom teach you where you are at fault, and re-model yourself).

the reborn Virgin mind. She now alight with the royal glory of the Divine Central Sun Solar infusion. This now becomes the Hierarchical blessing and tympanic sensitivity of the Orion Warrior's continuity. Here is where the whole of Timeless Atomic LIGHT becomes Celestial manifestation of God within the soul, as the Pleromic void of Outer Space Neptunian phenomena becomes the internal radiance of manifestation.

The Godhead now taking over the soul, where as the Hierarchical carrier, dynamic Truth is made manifest. This is where molecular Divinity, as the whole oneness, becomes that of Atomic Divine radiation. Soul born of its divine heritage, and as a god-mind, giving forth of its Holy Divine infusion. For it is the Divine Spark of what it came from, and holds thereof of Past-Aeons of World Glory, which is the seed content of the Atomic Royalty that has yet to be made manifest.

This is now the Power of Etheric guidance, and is the stream of golden untarnished Royalty, from the Abstract Neptunian Plane of Central Sun Vega reality. For by now, the soul becomes aware of the fact that the Central Sun is not an Orb of Gas, but a Golden Plane of LIGHT.

A Glory of Divine Intelligencia, and the New World of Vega Creation. Here is where the Virgin birth pangs first commenced to infiltrate the Breath, and become the golden

mitotic wealth of the Salamander, as the Divine Word from Merope's unified spinal active Neptunian weaving. That of Hierarchical Divine Atomic LIGHT, showing all men the true Path of octavial blessing. All has at last returned to the soul's source and unified with the heights, as they struggle to clothe their Etheric unified Virgin mind with octavial Neptunian expansion, from the Central Sun wealth of the Hierarchical Seed.

All now who can reach those heights of rebirth, will have left the old World behind, and taken on of the Glorified World of Central Sun Divinity. Where all old illusion and reflection is completely absolved, and Reality is the light of the new-born Day. Where soul is no longer man, but a reborn god, and holds all the glories of Divinity. It is from here that the true acme of Creation begins, and the Seed is set in its right setting.

Mr. T. R., Auckland, N.Z.

"Is continuously meeting with opposition in life, and is confused as to how to overcome it." (See Chart No. 1592).

WELL, friend, I know this problem only too well, for the whole of my Chart indicates opposition, and I have experienced nothing but opposition, all through my life.

We have to master this, and it is what you must do. You have got to master life, and find the depth in it, and thereby gain your strength through the experiences.

You are 8 positive and 2 negative, having 6 Fire triplcities and 2 Air. This is very good, in fact it is marvellous!

However, you have got Saturn down the 8th house, with your Dragon's head in it, which could be causing you some difficulty. But why have you got Saturn down the 8th? This indicates karma, I am afraid.

You have had a very long run in your previous lives where you have been the play-boy, and now you have come to 'the end of your tether'.

You came back into this life to put into operation what you had gathered up, and which really does not belong to you; it belongs to the Higher Powers.

This does not alter the fact that you really have a wonderful Chart; don't underestimate that. But you have got your Sun in Gemini. Well, I am a Gemini too, and if I don't keep my mind fixed upon the wisdom, I soon find myself becoming confused.

I see you have Mars and Uranus in the 12th house in Aries, and also your Jupiter in Aries, but in the 1st house, with Venus in Taurus. You really have a very strong Chart, but the trouble is that you have so muddled it all up, that you don't know where you are now.

You are very positive, as shown by your 8—2, but very fixed; you will not listen to anybody, and do just as you like. If you get a hunch that you want to do this or that, you just do it.

Well, that is no good. You now have to get down to unfolding your mind, right from the beginning, and from a point of wisdom. Because your Path of Destiny is in the 3rd house in Cancer, where you are being told to get down to doing this as soon as possible. But with Pluto in the 4th house—the house of new beginning—everything is in a state of confusion with you.

You could come out of this condition, if you wanted to, by putting your will into the right direction; but you are only putting it into the way you want it to go. Well, that will not help you.

What is partly causing your trouble is that you are feeling the effects of your Mercury having gone retrograde, and it will not move 'direct' until 1975.

Mercury is a very important planet to you, because you are a Gemini. I once experienced a time when my Mercury went retrograde, but then of course I was driving my mind, which

lessened the effect; but I soon found the difference when it became direct, and I began to think and feel different. So I am afraid you have got to drive with your mind.

Another thing I would like to say to you, is that you wobble from one state to another, so that all your inner bodies do not know which way you are going. They say, "Very well, I won't do this; I will do the right thing." Yes; but if you come up against the wrong thing, you are right up to your neck in it. With your will-power and your super-will in the 12th house in Aries, I am afraid you are as irresponsible as you can be!

It is no good turning to destructive outlets; you have got to learn to find the way to be constructive; otherwise you are going to become more than just confused.

You have got yourself in a tangled-up state. I look at your Chart from one direction, and it seems all right, but as I look at it from another direction, it appears all wrong. Well, that is useless.

Your Moon, in going through the 11th house—the house of the spirit—is expecting to find the spirit risen up, and the spirit has not moved; it is still deep down under the old red-fire rock.

Your Neptune and Moon are together, so you go from one extreme to the other. Your Moon being in Leo, with Neptune conjunct, could bring despairing visions and fears. There is an answer to this, because no man is left without any help. It is the turning-point to getting your mind built up.

As I have already pointed out, you have got 2 Air and 6 Fire, so you have an abundance of Fire. If you could turn this into Neptunian wisdom, you could bring untold mind-wealth into birth. But if you are only intent on going your own way, then you will always be meeting with opposition.

Aries people are indeed very very difficult to deal with. Jupiter and Uranus in Aries, with the former being intensified in the 1st house, play a very important part with you, because this is the house of the conscious mind, the personality. So you would be very self-willed; no matter how much good advice you were given, you would still act against it.

You can still put yourself right, if only you will turn to the right direction. I know it sounds easy for me to say this to you, but don't think you are the only one who is struggling against life.

You have a Chart that is very rich with possibilities, but your real trouble is that you do not know how to manipulate it. In the past you have fought and scrambled, and you have gained. Now, you don't know what to do with yourself, and you are seeking for help.

Well, we are giving you the "Occult Gazette", and we are trying to make it possible for everyone to be able to be helped by studying it and seeing the depths of the wisdom it contains. If only you would read it and re-read it, until it begins to open up some state of recognition in your mind, I am sure you would come to the greater depths which it holds, sooner or later.

For the time being I would suggest that you take some herbs, for these do have a balancing effect whereby the soul gains a better outlook on life.

Lily of the Valley, Rosemary, and Scullcap, would help your mind, while the Nerve pills would greatly assist your nervous condition, and if you would like to have a supply of these, we shall be pleased to send them to you.

Mr. E. C., Hinckley, Leics.

"Complains of migraine, head noises, nerves and poor circulation". (See Chart No. 1397).

WELL, with poor circulation, you would be suffering from head noises and migraine, and nerves of course would result from these difficulties. The thing is, to find out what is the cause of the trouble.

Again I come to somebody with a wonderful Chart, one who has made great progress. All the planets are up in the heights, but you are not utilising them in the right way.

You have Scorpio on the Ascendant, which is giving you supreme 'fire' and the understanding of extreme wisdom. Virgo in the Mid-heavens should also give you the power of the mind whereby you can put all your wealth into operation.

The physical body is but the outcome of the inner etheric bodies, and your inner bodies are crying out for replenishment, which you are not giving to them; hence the reaction upon your physical body.

The poor circulation is due to your lack of driving the blood, which is only done through wisdom; you drive it by thinking, whereby you set the blood racing around the body, right up to the brain.

So if you are not driving your blood, then your head is not being supplied with the nourishment it needs to feed the cells of the brain, whereby to give you new thought. You have 3 Fire triplcities, so there is plenty of Fire with you; but you have only built up 1 Air body.

Pluto in the 8th house indicates that religion is holding the soul up. You may say, "I don't have anything to do with religion". Maybe not, but this is the result of past religious states, which is confirmed by your Path of Destiny in the 11th house. So you have come back to transmute old religious states into the new wisdom of Cosmic unfoldment. You have come back specially to do this, but I am afraid that so far you have not carried this out; you are just remaining in the same old condition.

Your progressed Moon has been passing through the 7th house, and is now entering into the 8th, so you must start immediately to set changes moving within you, and this can only be done by the study of the Word.

At times I find it very wearying, continually telling people they have got to get mind unfoldment. This now is a Mind World; everybody has got to be born of the mind. We are on a Mind Plane, and if you do not build up the mind, then you do not belong to this World and you will start to find all sorts of things happening to you.

You have Neptune, Moon, Jupiter, Saturn, the Sun, Mercury and Venus all in the two top houses. You should really have a wonderful mind, but you could possibly only have built this in the direction you want it to be. You have probably studied all sorts of academical knowledge, and may even have passed exams. But you have no Uranus sparking, for this is down in the 3rd house. You are not making any effort to put it into operation; consequently, last of all, the body has taken the reaction of the etheric body which is no longer being fed.

You have Scorpio on the 1st house, which is a very powerful Sign, being the very core of the Central Sun, and as you also have Scorpio on the 12th house, the warning is—if you don't get your 'fires' risen up to the heights as mind expansion, then you are in for trouble!

With Taurus upon the 6th house, you could not only experience the head noises, but there could also be the possibility of prostate trouble, having Scorpio on the 1st.

Scorpio is a very very odd Sign, indicating that you could go to extremes, either that of the Mystic or the materialist. Well, have you taken to the way of the materialist? If so, it could account for the health troubles that are with you.

I take it that you are receiving the "Occult Gazette".

Well, do try and raise your mind up by studying this, and not any other academical material, which would only accentuate your trouble. I see that you have reached the age of forty, and this is the time when nature says, "Get down to it, or I take the toll". So I would ask you to look deeply into this as soon as you can, otherwise I am afraid you could be experiencing more difficulties very soon.

You have got Saturn right up in the Mid-heavens in the Sign of Virgo. It is bad enough to have Saturn there, without it being in Virgo, and with your Sun conjunct to Mercury, this indicates that you are very fixed. Your Moon in Leo would also add unto. I am telling you all this, not to be critical, but because your Chart portrays it as your make-up, and you are asking me for help.

You will either bend, and decide to put yourself in order, or you will have to take the consequences. So, friend, I leave it to you to try and find the best out of what I have advised you to do.

I would suggest that you take some herbs to help you, such as Holy Thistle, Horsetail, Nettles and Red Clover, as well as Nerve and Blood Cleansing pills. These will assist you, but nothing will stop the migraine and the head noises until you get your mind expanded.

I do not know whether you are a vegetarian or not, but this is most essential for you, if you wish to start bringing some relief to your condition.

★ ★ ★

Mr. W. T. A., Ipswich, England.

"Has an ulcerated leg, and is very much over-weight, although he is a vegetarian."

WELL, Mr. A., your weight of 15 stones indicates that you are not really dieting as you should do, whereas if you could get your weight reduced, it would help your health problem considerably. A doctor once said to me that some vegetarians partake of a far more injurious diet than many a meat eater, for they eat all kinds of things which they feel they need, but which are actually doing a lot of damage to their physical bodies.

In looking at your Chart (No. 1394) to see what is causing you so much trouble, I see that you have Scorpio on the Ascendant, with Venus in it. It is Venus that is causing you to put on so much weight; she has led you into all sorts of fun and fancies; she must have done, because that is the natural thing for her to do. I observe that you have no Fire bodies whatever, but you have 5 Air. So you have been giving all your mind to just knowledge, and not transmuting it into wisdom. This is just as bad as if you had not taken any knowledge at all.

I see that your Uranus is in the 2nd house, but you have got Mars, Neptune, Pluto, as well as your Path of Destiny in the 8th house, in the 'pit'. What have you been up to? You must get yourself out of this, and you will have to make a very big struggle indeed, a very great struggle. With the Sun and Mercury in your 7th house in Gemini, you should be taking on the comprehension of the New

HERBAL MYSTERIES

Part 34

SCULLCAP

(*Scutellaria Laterifolia*)

by David Spearman-Cook

DURING this revealing month, we will once again take the opportunity of approaching the herbal world with a further new unfolding outlook, whereby we can open up channels which will be of advanced healing benefit to one and all.

* * *

SCALLCAP now becomes classed under the category of a peaceful tranquilizing herb, one which will be of immense help in the building up of the internal organic structure of the body. For herbs of this tranquilizing species, can assist the re-awakening nervous tissues with their rejuvenating strength. It will be Scullcap's reborn qualities, that will convey a stimulus into the blood, whereby the revolving of its strength will be enhanced, and the oxygenating will likewise receive similar benefit.

This could arouse a new state of accruing ability, whereby one could become capable of changing from one Plane of thought unto another in a peaceful and balanced attitude, whenever the active mind becomes in harmony with the Word. That which the soul upon receiving, should endeavour to comprehend through the period that he, or she, has allocated to studying the Occult teachings.

Scullcap can be of lightning benefit to the soul who encounters any form of eye disorder, and with the taking of the Word in its correct Fiery context, could adjust the inaccuracies, and bring a lasting healing rebirth, due to the soul's own struggles to

balance up the internal bodies.

Scullcap, when used with an equal amount of Broom, could offer unto the soul vibrational qualities, whereby abrasions, cuts, and even running sores could benefit, due to combining these two soothing qualities.

In the unfortunate case of accidents where the torn flesh has become infected with dirt or other foreign matter, these two herbs actively assist the work of the soul's own spiritual guides and helpers, whereby they are able to use their powers to create and prove the positive benefit of the true art of healing; thus through joint effort, master the affliction.

Scullcap and Pennyroyal, when consumed in gradual small quantities, can accomplish much in the healing of sprains, and also persistent boils of the re-occurring nature.

Whereas in the past one was merely led by book knowledge to reveal the qualities of herbs and their uses, it has now become possible for one's own unfolding powers to convey healing and herbal remedies. Thus a gift well worth developing, for there is always the possibility of undesirable states manifesting, during the rapid changes which are now coming forth.

For all now will have to be cleansed as the unfolding of the soul takes place, and all past sick conditions which had

been treated by false healing medicinal cures, and which had never contained true pure healing in their administering, can now at long last reveal their lurking menace, as the soul is stripped through the inpouring Powers. Thereby saving a loss of time and curtailing inconvenience, which could have, if the sickness had not been detected and buried-in, hindered the changing causation of the soul to the extent of creating a frayed temper, and much discontent against true Occult Wisdom. That which was fostered in the past and did so much damage to the unfolding Word, hence the reason why Merope has now created the Word as A Cosmic 'Mortuary Meal'.

At the present moment, due to the dynamic new World period of unfoldment, much illness will unfold, and the soul will need true guidance, that solely of Spiritual Light. Therefore, the more the soul is

SCULLCAP

prepared to strip away his abundant desires to meet these changes, will he wisely forestall unnecessary anguish and dissatisfaction, as the Law guides all into the many changes as penned and Prophesied by Merope, as she blazed the Vega World into Divine manifestation.

Scullcap, Chickweed, and a little Marigold Flowers or Petals, can perform wonders when states of irritated flesh become noticeable during the changes, and can be of genuine help when taken with the comprehending of the Word. Thereby assisting to fold in the wrong principles of thought, digested by the soul in the past, for the irritated feelings are the discordant vibrations buried internally from the past, and left to come forth as a future potential rash. Now, upon being revealed through the recycling of Time, can be cured and eliminated for ever, by wisely taking of Universal Philosophy, and as stated previously, by using also one's own powers of healing.

* * *

ALL souls must now learn to diagnose their own states of sickness through the aforesaid method, for it can offer them satisfactory stimulus, and furthermore a form of gratification as they put into operation their own diagnosis, out of the past unfolding Occult revealing practices. These unfolding methods were lost in the past, through religious dogma closing down any form of self-expansional expression.

As Time advances it will be extremely advantageous for all souls to practice a self-expressive action towards the unfolding powers, whereby to

cultivate the internal voice within the Fire, to aid them upon the Vega path. For therein lies the herbal wisdom, and is that of which all men and women can, when raised up to their Neptunian heights, safely rely upon. It can be seen that all herbs are of some benefit, and can be put to the test as a soul finds balance through his own changing states, using their abundant healing powers.

Dandelion, Buchu, and Scullcap, are three remarkable herbs for use as a basic in preventing the re-occurrence of sickness; consequently they WILL be most urgently required, with patient preparing and careful handling. That which as an art, has been cruelly ravaged, requiring a changed direction of thought and practice, to enhance their lost wonders of Solar healing.

The soul unaware of Solar truth, will foster sickness through a dying state of stagnant mindless non-expansive action, and will require many herbs of cleansing strength to assist the indrawn Fires now being inhaled by man in this New Age of mastery.

Scullcap, Peppermint, and Elder Flowers, will bring vast relief to many states of constrictive chest complaints, those due to the lack of expansion. For this in the future will be one complaint very noticeable, as Time reveals past lunar mistakes and diabolical misdeeds. None can escape the New Law, therefore herbs will be urgently needed to offer man a compassionate comfort of healing strength never encountered before.

Next month we will once more seek into the biochemical activity of herbs, and their powers of returning the sensitivity action of the body, into one of life-giving strength. This we will obtain by the enquiry into the new powers of Red Sage.

Law. I am a Gemini myself, so that I can fully understand and sympathise with you, knowing how difficult it can be for one to change one's mind, especially with very fixed ideas, which you have.

There are two sides to Gemini, Castor and Pollux, the one having to hand the knowledge to the other, thereby sending it soaring up to the heights; however, we do not hand it over, and so become fixed in our ideas, not seeing any further than our nose. I am afraid this is what has happened to you, and with your Saturn being in the house of the 'fire', you have got yourself well and truly fixed. Well, this will not do. I, too, have my Saturn in the 5th house, and it indicates that we can 'kill off the fire' through being so fixed in our ideas. You have the Moon in Aquarius in the 3rd house of the mind, so you will not see any further than the Moon!

With regard to your ulcerated leg, I have cured a number of these conditions, and I would suggest that you make an infusion of Marigold Flowers. Do not be afraid to bathe your leg with this, because I had several ulcers in the past, and know how beneficial it can be.

Make the infusion by pouring a quart of hot water over a handful of Marigold Flowers in a bowl, and when the herbs have been well infused for about twenty minutes, scoop the fluid up in a cup and pour it over the ulcer. Do this as often as you

can and you will find wonderful relief from the pain which can be experienced with this condition.

I would advise you to adopt a rigid diet. If you could go on to a fast for at least a week, of only water, this would help you greatly, for there is no doubt that your blood has become clogged with a lot of waste. This is why everything stays in the old Moon state with you, and never becomes that of Solar consciousness, for the earthy waste in your body, 'kills off' the Solar Fire as it enters in from the Breath. Only when you can bring both your body and mind to a high degree of sensitivity, which necessitates living on a very refined diet, will you begin to transmute cold knowledge into living Solar wisdom.

It would be advisable to also drink the Marigold Flower infusion, together with the blood cleansing pills which we well recommend. Now do carry out what I have asked you to do, and I am sure you

will receive untold benefit.

Your Chart is rather a difficult one, for you have so much down in the 8th house. But then, you have your Venus in the 1st house, and it will assist you to come out of your condition. But do not let Venus run away with you, other than to dance your mind into activity. Turn your mind to the Wisdom, whatever you do; try hard to live it and you will be seen through your difficulties.

* * *

Mrs. G. H., Lancashire, England.

"Suffers from high blood pressure and nervous tension".

HERE we come to one who again has 5 Fire triplicities (Chart No. 1398). This also is extremely good, because so very few women have a lot of 'fire'; they are usually badly 'cut off' without any. I see that you have Scorpio upon the 'ascendant'. Well, I always think that for a woman to manipulate Scorpio is quite a big feat.

I see you are complaining of high blood pressure and nervous tension, and this would be quite understandable if you are trying to manipulate Scorpio. You have Neptune and Pluto in Gemini, in the 8th house, in the 'pit', and it is difficult to understand why this should come about.

However, when I look at your 2nd house, I see that you have your Jupiter, Uranus, and Venus there, and I feel strongly that you have been endeavouring, in past lives, to try and get some form of activity; you have been making a very very big effort, but being Sun in Capricorn you

never got any further than just taking knowledge.

Your Path of Destiny in the 3rd house indicates that you have got to struggle to find the way to get all this knowledge flegged into wisdom, and bringing the mind alight. But Capricornian people are indeed difficult to convince that they must turn knowledge into wisdom. They will say, "But I am already doing this". You can never make them see that they are never really rising any higher than the ground they are standing upon.

To turn knowledge into wisdom, you have to polarise it, and if it is just 'golden', then turn it into 'brilliant light'. That is the polarising, and it is what you have to do. Make everything royal, make everything dance with 'light'. Instead of talking about 'God', talk about the 'Great Divinity', for then you have given HIM a greater royalty. But at the same time there has to be an understanding in your mind; you do not merely have to

say it, you have to believe it, and perceive it, and live it!

You certainly have taken an enormous amount of knowledge in the past, and must be like a 'walking bank,' or shall we say 'an atomic pile'. Your planets are very bulked together, and having 5 Fire and 3 Air, and being 8 Positive and 2 negative, you are indeed a powerful soul, so you would not be all that easy a person to convince that you are doing the wrong thing.

In going round your Chart this year, your Moon is passing through Libra. So you are passing through the 12th house, and now have to try and get your mind moving as much as you can. Your mind should be very well flegged for deep thinking, so try and get the wisdom out of the "Occult Gazette" to register its beauty with you, for this is what it is intended to do.

Even I, in receiving from the Great Powers, have seen the Glory of the Word, and allowed it to lead me. Now do try and put your mind to the wisdom as much as possible, as this is the way you can be truly helped out of your difficulties. I would even go so far as to beg of you to do this.

I would advise you to take the Mistletoe and Vervain herbs, together with a little Marigold herb, and since you also suffer from nervous tension I would also recommend you to take some of our little black nerve pills, for the Scullcap in them is exceedingly good.

PROMETHEUS

by Gladys I.
Spearman-CookDelivered at the S.U.P.H. on
9th Sept., 1962 by Ra-Men-Ra

PEACE BE UNTO YOU ALL.

Tonight we are going to take PROMETHEUS, the God of Fire, and one very important to man at the present moment when so many are devoid of the fire; and it is going back right to the very Root when the God, as the Element of Energy, descended into matter and began the root that at the present moment has brought so much suffering to mankind; for without this fire man cannot receive the mind; from this fire all is born. Until man can understand this more fully and realise that the mind can never fledge its wings until he seeks to expand, he will never make any attempt to go forward or to reserve these fires, for within these fires is the very Sperm of God, the very Heights. By this expansion going forward it brings unto mankind the very essence of which the Gods are created and thus he becomes blood-brother with the Gods; he manifests God within his own midst, he brings forth the Light, and the flame of the mind goes forth as a beam of Truth. If he does not raise these fires then he merely becomes a citizen of the astral planes, but if he does raise these fires he then becomes a citizen of the Heights, and most of you are struggling to get back to the very Home from whence you came: that is why you have returned to the earth, because you are not content with what you have done up to the present moment. You may not be aware of this as you become contented with matter, but you will be when you leave matter and find that you have never gained one whit further than when you returned to the earth.

I am striving now to bring New Life into matter before disease takes over so strongly that man becomes merely a shrunken fungus. By raising the mind you bring into birth the real creation of the soul: if you do not bring that into birth then you are only of the animal. So by what I am bringing you tonight you may see some purpose and some understanding, although it may take you a long time to fathom what I am bringing.

The Solar Mind

NOW tonight we are showing you the differentiation and the whirlings whereby man descended into matter. At the same time we are showing you the spirals by which man can ascend into Spirit; but the majority are merely revolving round and round in a state of matter, never getting any further than the astral planes.

(A plate was then shown which could, by abstract vision, be of two descriptions. In a black and white drawing the whirling blackness of a whirlpool was seen, spiralling down into a vortex of darkness, drawing man, animal, boat and machine, all down within the enormous power of the magnetic force. In abstract vision one could see the reverse,—the spiralling upwards into mind heights unknown, drawing up into the heights the same creations, so that they could become alchemicalised through the fire of upliftment).

Only by raising up of the mind will the soul be able to go up this channel, but although the soul may not be going up the channel, they have to go through the cyclings, and they have to go through the cyclings in pain and sorrow, darkness and despair. So although you may miss the unfoldment-out-of-matter, you may still have to go through the pain.

Then why not couple the two, mind and spirit? Why not bring the two together? Why not go out of the earthy state and into the heights? By man's refusal to 'let go' he is clinging to the Saturn state, and it will not be very long before Uranus will strike and he will never find the heights; he will merely be struck down, just a broken reed. By these cycles he will be able to reach the heights, with the soul being prepared to learn, being prepared to serve, being prepared to renounce, because the soul can only reach the heights by renouncing the depths. That is the Law. And by this introduction we will now be able to gather some little understanding of what I am bringing you tonight.

We will continue with our enquiry into Hestia, the goddess of the hearth. The connection between Hestia, Apollo and Poseidon is Uranus, Sun and Neptune, the three divinities worshipped in common as Venus, Mars and Mercury: (these are the base, yet the others are the heights, and from those heights you receive the base, so Hestia is Venus and she is the mover of the hearth). Thus Hestia and Poseidon, as fire and water, appeared together at Olympia (the solar plexus) as Apollo the rising god of the solar mind.

Thus it can be understood that Hestia was the goddess of domestic life and the giver of

THE GODS OF THE HEARTH

A SACRIFICE must be offered daily to these, consisting of the plainest form of food in a simple vessel of clay, (the clay of the soul in its growth, offering plain food of thought to all these gods, as the soul makes sacrifices). These daily purifications can only be made with flowing water, which the Vestals (the lymphatics) carried in pitchers upon their heads, and brought from the fountains of Egeria, or of the Muses, as wisdom and sacrifice from heights and depths. (See text on page 12, col. 1).

all domestic happiness and blessings, and as such she dwelt in the inner part of every soul's house. In this respect she often appears together with Hermes who is likewise a deus penetrans, a penetrating god, (penetrating into the soul, bringing understanding) protecting the works of man.

Thus as the hearth of a house (the house of the soul), the solar plexus is at the same time the altar on which sacrifices are offered to the personal gods. (You make sacrifice and do not give it to the desires, but seek to struggle with the soul, master it and raise the powers up to the mind level).

Hestia is the one that presides at all sacrifices, and as the goddess of the sacred fire, the Yod of God, she invoked first (because she gave you the idea), and the first part of the sacrifice is offered to her; (thus she takes the first part to

give her expansion). The greater depth to this is the prerogative of each soul truly seeking, for if you could but see her as Mother Nature in this capacity, giving to each man the potency he requires, you would have the full answer.

(So you either take from Mother Nature that of the harlot, or, as the goddess Demeter, one who is prepared to become the grower of corn and the reaper of corn, understanding).

Solemn oaths would be sworn by the goddess of that hearth, for surely the hearth of each soul is its sacred asylum where all the suppliants implore the protection of the inhabitants of the house and beg, "do not destroy me in wasted desires", (Thus the soul would get the idea, and it would be through Venus that

you would begin to get new ideas and make sacrifices).

By this it must be realised that if the fire of the hearth ever became extinct it must not be lighted by ordinary fire in the form of artificial stimulants, but by fire produced by friction (agitation of mind), or by a burning glass drawing fire from the sun and raising the kundalini (expansion of the solar light); the focussing of the mind in one direction, bringing the mind away from the depths into the heights (seeking only through the higher thought).

The mystical speculations of later times proceeded from the ideas of the ancients, and declared of a sacred hearth not only in the centre of the earth but in that of the universe (the soul drawing from the centre of the earth and drawing from

the heights). But in this mystery not only the goddess was invoked on the family hearth, but the Lares, Manes and Penates (the growth of the soul). The Lares were two in number, the children of Mercury and Lara, a naiad famous for her beauty as well as her extreme loquacity, which no one could check.

Tradition relates that this fair maiden talked from morning till night and told all she knew, and was the self-opinionated long-eared Virgo and not the fruitful virgin; (getting the Truth but putting it into idle expression). Upon one occasion she incurred Jupiter's wrath by relating to Juno a conversation she had overheard between him and one of his numerous mistresses (when he was seeking to bring expansion).

To punish her and at the same time prevent further tale-bearing, the king of the gods cut off Lara's tongue, and summoning Mercury, bade him lead her down to Hades to linger there forever (to suffer). But on the way to the dismal abode of the dead, the messenger god fell in love with his fair charge who, being now effectively cured of her sole fault, was irresistibly charming, and instead of obeying Jupiter he made love to her and by pantomime (acting) obtained her consent to their union.

She eventually bore him two children who, from her, were called Lares (not the true sun-god but two creations that were of a lower state), and to whom the ancients paid divine honours, reserving special places for them upon the hearth; but they resemble monkeys covered with skins of dogs, therefore are the awareness in a cunning state and not awareness in a divine state. (So you are going to see the myths now displaying how these states of man not only came into birth, but as they now come into birth in the soul).

The Mystery
of the Personalities

THE Manes are those souls separated from the body and the ancestors of different families who were worshipped under this name (different family states of the soul through the ages). Personalities that had never grown and were sitting by on their different thrones awaiting an opportunity of rebirth at any given moment. This could be in divers ways, by a mortuary meal, or dominance by skill of entry.

(These states within the soul that are ever coming up and persuading the soul to do a different act because they become caught up with the state of another that will bring a
