### as The Path of Relativity Rebirth

by Gladys I. Spearman-Cook

ALL SHOULD NOW BE FULLY AWARE of the Mighty Glory that has become the Divine established heritage of man. It lies fully within his grasp to accept by discarding old ideas for the new, and soul will then bound forward into profound light. For pedigree towards relativity agreement, is one of obedience to the Virgin Hierarchial Laws of Expansion. (Man must now obey the Laws implicitly, otherwise he will find himself in difficulties). That is, the will of the Etheric mind pre-ordained, and now in command of Solar spontaneous aspiration. (Your Virgin now puts everything into operation, everlastingly building up, weaving, and bringing new ideas, with the warrior in the depths treading the Path and making his way up, through all the Signs and Houses, which are still there,—not in preparation, but in oneness,—right up to the heights, to become One with the Fatherhood. Then a new warrior is born again in the 1st House as a new-born Aries, a new status of mind).

#### The New World of Divine Reality

ATOMIC will is Etheric counterbalance, and is the etheric intuition of a devoted reality; for this is pre-conscious conception of Royal Majesty Glory, that laying the way of the future. For Etheric consciousness is the god mind of Vega, and is the Atomicular molecular infusion of reality, the Neptunian Pillars of Hierarchial intervention. (The Hierarchial Pillars that now are being created by the new Neptunian thought). The God Sperm of Holy Glory is now as the Neptunian Pillars of LIGHT, for the Royalty of compassionate service is the aspirational fervour of the Central Sun Breath, the unfolding Glory of Divinity. That which is now the Power of resplendent reimbursement of the Eridanus Stream, with the Atomic fulness of Divine molecular Overshadowance. For the Virgin Breath is that of Divine continuity, that of Enceinte reality, yet that of Divine Compassion, and is the royal insignia of Atomic Solar rebirth. The Divine Infusion which is the means of lifting the soul upwards and onwards to the fulfilment of its journey.

(You are no longer just building up a mind, you are now building up Light, and you can only build up Light through the Neptunian Waters going up to the heights. Yes! everybody has an etheric body, but it is just of time, experience, it is not alight. Now you have to try and get the etheric body alight, and you will only do this by the conscious mind becoming aware, and setting it alight).

(See plate on this page)

For all the Central Sun Power is now the reborn centrifugal Atomic might of the Divine Intelligencia, that of the Virgin Power of the New World of Divine Vega recompense. The reborn World of the Divine Kingdom of the Fatherhood, where MIND and mind only is the solution to its entry. This World has now become the Dust Particles of the Atomic LIGHT, whereby in their descent to the Virgin soul's unification, will they have penetrated the whole of the Planes of Vega unfoldment. Thereby become cemented in the Atomic oneness of the Divine FACE, for here it was that Merope realised that she had finished His task and handed over the World of MIND, unto the Holy Divinity.

#### ASCENSION

THIS is portraying the soul who is now seeing with the royalty of the mind. Where by his aspiration and exhilaration, he has risen up to the Neptunian Heights, with his vision ever ascending in his midst, driving him on unto greater freedom. Higher and higher he ascends in frequency and vibration, ascending the whole of the Solar-Galactical System, yet all taking place in the unseen mystical depths of his own etheric body. ## The Way of the World

ONCE again this has been a very eventful month where the School is concerned. We have watched the tragedies and chaos taking place in America, which we have warned would come; we are seeing our prophecy that Harold Wilson would win the General Election gathering momentum every day; and finally, we of course have had the News of the World writing their pack of lies about us, but what else could be expected when there is such an unprincipled and low-minded journalist in control. But I do not think it was a very good omen, where Murdoch was concerned, when he took over the News of the World Organisation, and then had to almost immediately face up to the fatal misfortune which befell one of the directors' wives! However, when one understands about the power of vibration, and the attraction it carries with it, such a terrible occurrence might be more easily understood.

Murdoch has Saturn badly placed in his horoscope, with Neptune completely buried under the negative fire states of the soul, and added to this, he has his Mars in Cancer, which is strongly indicative of the physical energies only being channelled into the lower desires. The whole chart portrays a soul completely caught up in the coarseness of the depths; one whose whole mind revolves around the filth of the earth, and whose sensitivity would rise no higher than to the level of a dung-heap!

Thus he radiates vibrations of the lowest extreme, destructive vibrations which have permeated the whole of his organisation, and polluted it even more than it was originally. In consequence, those of like vibration were caught up by its unseen influence, and the Law of Attraction took its terrible toll. So well done, Murdoch, you have got something to feel pleased about now—haven't you!

★ ★ ★ ★

CONCERNING the coming General Election, what more can we say than we predicted the result years ago, in April 1966 to be exact, when we first made our B.B.C. Television broadcast. This prediction is now on everybody's minds, especially amongst the newspaper world and the Members of Parliament.

We have been shown various quotations from the newspapers, all referring to this, with statements like, "Harold may not yet be able to walk upon the waters, but he can certainly turn the tide!" Add to this various comments about reincarnation, divine retribution, and Wilson being a deity, and it is quite

obvious that our prophecy is ever on their minds.

However, we think the comment made in the Sunday Express of May 17th 1970, in John Gordon's column, was the best of all, and so I will reprint it here, for the benefit of all those who may have missed it:

**Worried about the election? Surprised at You-Know-Who's leap into poll favour?**

Well, I can reveal to you the secret behind it all. Provided by no less an authority than the Occult Gazette.

It all began—though we blind people missed it—two years ago. Oddly enough when our Harold's luck seemed to be well out.

Then, the Gazette tells us, "The Higher Powers flooded the world with vibrations" and all changed. "By October", it assures us, "There will be a dynamic planetary configuration which will bring man ruthlessly to his senses." Harold then being "guided by Divine Powers."

Now how did our Harold come to be the elect of the gods? "He was chosen by the Greater Divinities", the Gazette tells us. "As the only man they can trust because of his honesty and sincerity...." That's quite a thought, isn't it?

Their choice may seem surprising to you—but I doubt if it surprises him.

He has so regularly indicated that he is the hand of God that I'm sure he has convinced himself of it.

And isn't he? I have the explanation of that as well. According to the Occult Gazette he was in an earlier life the Egyptian Pharaoh Amenhotep the Third who established dynamic wisdom into the earth and now returns to slosh us into sense again.

**HAIL PHARAOH!** As Shakespeare said: "Give me my robe. Put on my

Scorpio  
Rising

crown. I have immortal longings in me."

Many thanks, Mr. Gordon, at least you quoted us fairly, which is more than can be said for the News of the World!

★ ★ ★ ★

THERE are a few extra comments I would like to add to the above statements, because since the time the Higher Powers gave Harold Wilson their protective strength, he has not exactly used it the way he should. Too much of the conventional diplomatic hypocrisy has come forth, instead of the plain-speaking Truth. It is not the little ego that needs boosting, Mr. Wilson, but your Higher Ego, for it is that which contains all the royalty of Amenhotep the Third, and is the invincible strength of your Neptune in the 1st house.

Otherwise it is just your Moon in Gemini which rules, and that merely fluctuates from one thing to another, with nobody having the faintest idea of where you are going next! It is not the opinion polls that will win you this Election, but the unseen Vibrations of the Higher Powers,—even though you decided to have the Election in June, when everything had been prepared for the end of October. Why must everyone do things the hard way!

Regarding the trouble going on in America at the present time, it was obvious that it could not be avoided. What with the foolhardy flights to the 'moon', drawing the vibrations of the past lunar world back into their country, and the insane actions of Nixon, the U.S.A. must be prepared for much more trouble to come yet.

Once again we ask our supporters in America to keep their minds centred upon the Central Sun Powers, and to draw the Solar Fires into themselves, in order to keep their vibrations raised up out of the chaotic conditions which will prevail around them.

(See plate above)

Every country will soon have to face enormous upheaval, as all their accepted ideas and beliefs are scattered to the winds. Britain, still holding strongly to its capitalistic outlook, will by no means escape the ensuing chaos, but Merope's presence here in this country will help to alleviate the conditions.

Thus as we go forward to meet the Configuration in October, let us all unite in our thoughts, whichever country we are in, to help bring this troubled world back into sanity and peace, with Theocracy as our Over-shadowing Control.

DID 'digger' Murdoch try to discredit Mrs. Spearman-Cook in the eyes of five million people, in order to break down her prophecy on the General Election? But thanks to John Gordon of the Sunday Express, the public were reminded of the Truth of the matter.

DON'T DOUBT IT!

Continued from the Front Page

With man as the mystical creator now ready to step into the shoes of the latent god, that he can be the means of his Royal Fatherhood's manifestation. Then as the Sovereign Royalty unfolds through the Seismographic Breath, will man become the Virgin aspirational etheric medium towards the octavial woven Word of Merope's Divine Husbandry. As the son of the Father, will he be the means of opening the way for the Divine manifestation.

This is the octavial Over-shadowance of the Virgin Etheric Mind of Divine reality, and as such, will all be forged with the super-sensitivity of the aspirational Point of Vega intuitional blessing. For all now are turned towards the Central Sun, with the whole of the old world completely buried-in.

As the soul awakens, will this become more obvious to one and all, and it will not be very long before such memories will be utterly forgotten. All the Virgin wealth is now the FACE of the Hierarchial Lords of the reborn Scorpionic Reality. With each Atomic Flame now the Virgin Power to the Royal Central Sun, and as such will the Holy revolving of the Timeless intuitional relationship with the Heavenly comprehension of the Atomic Seership, become the reborn Atlantean depths.

New born ideas, new born thoughts, thereby all past creations will be completely forgotten. Hence Vega will not be built up on the past, but a World sprung out of one's beliefs and imagination, belonging entirely to the Glory of Neptune.

The etymological excelsior is the full Atomic indrawn propensity of the expanding Atomic Arc. Whereby the Royal LIGHT of Divine infusion brings into birth the Chromatic accomplishment of the Royal Neptunian Colure. That of Divine Abstract molecular pitch-blending of Atom to Atom enormity, bringing everything to a state of Divine Oneness.

For the soul now is born of Atomic Virtue, and all is at last upon the Virgin Path of Atomic Relativity. All brought to the perfection of glorified spiritual truth, by the sacrifice and love that Merope has given for those Hierarchial Lords to become established on Earth.

All now becoming of the corner-stone of the New Hierarchial Blessing, for the foundation of Atomic molecular construction, is the belief in the new Timeless royalty of Neptunian glory. That which will bring the Atomic Arc within the precinct of soul's corpuscular unfoldment. Then once this has been firmly established, the gods are immediately controlling the New Plane of Vega Reality. This is where the unseen becomes the creation and the means of entire rebirth.

(The corpuscles, in coming and going, and building up, are creating within your bloodstream the heights of the Atomic Arc. What Merope has been doing in the last two or three days, is establishing that of Vega royalty; breaking down 'illusion', and once the wedge was driven in—which has been done—the Hierarchs were able to enter into man's bloodstream, and he has been turned-over. Nineveh has been turned over).

Here we can now venture and search for the Royal Scorpionic Isotope of Atomic Holy Fire, for as man releases of the flesh, the Ether Atomic sentinals of Fire become the Etheric Mind consciousness of His Supreme Presence. But while man holds to the flesh, he is still in the grasp of the

beast and cannot rise up to these profound heights. Directly he lets go, the Fire immediately necessitates an internal revolving causation, for all is the way and the solving of Atomic Light, and is the etheric conscious Divinity born of the arielisation of Neptunian Husbandry.

This is where the Spirit now becomes released and begins to rise, for Neptunian Husbandry is the god's molecular Breath, spinning the golden thread of Neptune with the Atomic LIGHT of the Hierarchial Presence. One now living with the conscious Power of true Atomic conscious reality, and bringing the Spirit and mind into divine radiance. For at the Virgin Central Sun Source Breath, which man has now reached through Merope's sacrifice, man has now become the Enceinte crucible. Thereby to become the living golden Eagle virtue of royal comprehension, or just the stable sparrow's wealth of the lost causation.

Man will never realise how much he was at the end of creation, whereby the Seed would have been completely annihilated. But through Merope's foresight, here is the New World of the Etheric Causeway, and is the supreme elevated compassion of the Neptunian Royal Swans. For here is where the electrified aspiration becomes pre-perpendicular levitational Light.

Man back to his god state of upward ascension; no longer building up in multiplicity, but ever unfolding greater and greater unified embracement with the heights. All now as the kaleidoscope of the Heavenly Neptunian phenomenon, the dancing reaction of the immortal conscious belief of Divine Phallic Worship. Whereby all has been retrieved, and soul is at last an immortal Royal Warrior. He who was now investigating and creating of the New World of Vega, one who was probing into the unknown Glories of the Heights.

(See plate on this page)

(Man now beginning to realise that over the past thousands of years, he has just been dancing with 'the beast'. He is beginning to realise that the wealth which is with him,—which he has used so wrongly,—is now the Glories of the Mind; and that in building up of Divine Husbandry in the right way, he is now going to put into operation a Divine Mind, and become One with the Glories of the Heavens).

Therefore, the new constant royalty is the Atom of the Neptunian Seed growth, that born of the Abstract reality of the Virgin Source. Now the privy of the New World forming Atomic consciousness, where the Warrior entry blends and builds up of the mighty dynamic Kingdom of the Fatherhood. Therefore it has to be seen that all the attentive purity of the Royalty of Divine unfoldment, is in the Power of the compensating strength of the Royal Atomic Seed. That of—compassional ingression,

where Law becomes enceinte Breath of Divine Vega Causation, building up the glory of the mind.

No longer possessions and multiplicity, but Divinity, where soul seeks to blossom into the Glory of the Voice. The present is now the fulfilled enceinte Breath of activation intuitive Life, and is the full propensity of the moment of Atomic adjustment, as Atom to Atom rebirth. As the soul makes ascension, so does the Central Sun make greater ingress, and all becomes one mighty World of inborn Holy LIGHT.

Hence, only they who can absorb of such beauty, will be able to endure it, and thus live in its Royal Holy radiance. All

THE ROYAL WARRIOR

HERE is where Venus, rising as the Virgin, has risen up to the heights of the mind and through her birth a new Warrior of Divine Light. This warrior is the Warrior noted by the energies of Mars, but by the great driving force of Uranus, where, by his labouring in Divine Husbandry, he is now giving unto the Godhead a new creation of birth. Hence he drives the Chariot of the Sun around the Celestial Heavens, ever bringing into manifestation a greater intensity of Light and Divine Mind Awareness. (See text in col. 2).

others will be like the Cancer influence, ever trying to run away to hide on the outskirts of its beauty. Therefore, compassion is instantaneous response to the Atomic Breath, through the Neptunian Seed of fulfilled enlightened Power. Whereby all the Breath has now been Divinely Atomically seeded and Spermed with Hierarchial Grace. Thereby filled with the Glory of the Spirit, and upon which the soul can draw forth of its royal sustenance.

For the constant Power of the Central Source, is the applicable reality of the inspiration Point of the present Paternal Driving Power of the Great North Wind. That which never stops its ever internal Divine flow, especially now that Merope has set the Infinity in perpetua mobilé. Now Time is the moment of all past light, at last radiating the internal depths of its Neptunian Abstract Phenomena on the face of immortal L.M. All now becoming Royal Solar action of the Divine Hierarchial flow, with compassion now as the wake of Atomic planctivity to the Hierarchial Divine Word.

## The Mind Development Class

EACH Week on every Saturday at 6.30 p.m. B.S.T. Mrs. Spearman-Cook holds her Special Mind Development Class at the School's H.Q. A special Subject is concentrated upon for about 40 minutes and then each siter is individually helped to interpret and understand his or her findings. Any readers can join; those nearby can make application to attend each week, and those too far away can send in their names and link in each week at the time stated, their names being entered in a Special Book for this purpose. The subjects for concentration are:

June 6th The Sacred Heart	July 4th Atomic Construction
June 13th Neptunian Royalty	July 11th Atomic Commisurre Rebirth
June 20th Divine Birth	July 18th Atomic Stimulus
June 27th Atomic Hermeneutics	July 25th Light

tion upon all who are ready to pursue the Path.

This is the Atomic completion of the Atomular bridge of Neptunian Abstract Luminary oneness. That of the Royal insight into the World of zoneless Space, where Outer Space is the Sister to the Might of the New World Zoneless Atom. Complete limitless Space, giving up its boundless wealth, where its source of supply is beyond all state of possibility. Here is where Neptune is really of a Divine LIVING fulfilment, that of LIFE in perpetuum.

Yet a god looks on at its beauty with the treasured glory of the etheric mind, and Atomises the untouched magnificence of his virgin etheric Vega mind royalty. Thereby changes the royal nectar of its purity into the untarnishable compassion of the awakening celestial being. That which has only been zodiacal creation, now reverts to its royal creation of Celestial Royalty.

For celestial beings are now the Hierarch charges who are responsible for their safe keeping within the Atomic Void. As here is the hushed extravagance of the Seed within the Seed, and is the royal pinnacle point of the golden Pomegranate splendour of the Abstract Phenomena of Neptunian Spirit Concorde. The ever unfolding Glory of the Triune, for the Regal Atomic Breath is of the precinct virtue of the Hallowed magnitude of the Spaceless zoneless Presence. Where all is of the hushed Silence of gyrating etheric unfoldment of the Mighty Mystical Glory to come forth through man, as the Holy Heavenly Divinity.

This is the divine glory allotted unto the soul, where out of his own midst, he brings forth out of his own virtue, the Royal Holy Voice of the Almighty. While in the very midst of this perceiving Glory is the Atomic Thread, the golden silky etheric mind radiation, of the Source's Brilliance. That of the Norman's Land of the celestial fantasies of etheric Abstract sensitivity.

Here we touch NOUGHT and that which becomes, and belongs only to him who perceives and beholds. For all this belongs to the World of Truth and not illusion, which ere long will become the All and Being of ALL-TIME. This is the Hallowed Phenomena as that of the Central Zoneless Royal Footprint of untarnished Plutonian unforged Holy wealth. That which is the cradle of compassionate movement of the new-born Etheric mind consciousness. That being brought into the Vega court-holds of celestial awareness, and awakening the World and its wife to the mighty changes that are now in progress.

For every soul, unaware to itself, was breathing in the Hallowed awe of the pre-ritual blessing. Where the etheric conscious mind was supping the intoxicating Atom-

## The Theocratic Waveband

ALL now under the gravity of the Solar Glory, thereby causing the earth to lose its hold, and fade out of existence. Here again the soul has to see all by vibration, and no longer as solidity and fixity. All being revolving states of rebirth, with man as the driver and creator. This is the mighty quest of the internal might of the Outer World Space, that of the Atomic Source of Royal Hierarchial Benevolence. Where soul becomes eaten up by its own unfolding Atomular Power, and is now the gardener of Atomic Light. For in so being, does he become the means of turning darkness into Light and night into day, with death and decay disappearing forever.

All at last is the Power of the Atomic isotope, that of reborn creation. This is the moving Power of revolving Atomular insight, that of the royal Divine Breath. That which was going to bring into being the New World of Vega. Hence, now the original virtue of the reborn light, is the Atomic isotope beauty of the New Hierarchial Waveband of Divine Hierarchial Presence. The Hierarchial Glory of the Divine Reborn, where it demands positive active crea-

ic Light, and nurturing its oscillating Wave-band with its compassionate Intelligencia inflow. For every soul was of one grade of becoming, with rich and poor alike, all in the same boat. Now it depended entirely upon the heart quality as to how the soul believed, began, and became.

All Atomular interblending is Central Zone Husbandry, and is where the aspirational Plutonian consciousness of the Etheric mind is now the Theocratic finger writing in the Silence of the Virgin Atomic Light Void. Where the unseen inner beliefs are slowly warming into life, and bringing the possibilities into birth. A hatching of an unseen clutch of eggs, that could either come forth fertile or addled.

The only answer is ascension, where the condensing of the very Atom into the Etheric World of Fluidic Sight is that of the pure allocated measure of Divine reprieve. Where all that has been, now becomes the humus to foster a royal growth of Vega blossoming.

Here is where the god and the instantaneous etheric comprehension, radiates upon the Theocratic Atomic Waveband. Thereby Lights the Void with Divine Aspirational intensive compassion, which can affect all in general. For all the etheric counter-vision is the Throne before the Throne, the conscious mind before the Etheric Mind. And is where the Atomic veil, the Honour and Purpose of a soul, is now his shield and strength of

Hence the divine soul as a god of Hierarchical domain, has become ornamented with the Shield of David. That born out of the depths of molecular infusion, and now at last has become the octavial ladder of intuitional Central Sun Neptunian Divinity. This is where the promise made to Abraham still holds good through all time, and the internal Glory of Divinity arises to the fore, and becomes

"Thy shield and exceeding great reward".

The depth of this is only beholden by the soul who has awakened, and comprehends the depths of BEING. Thus, the whole of the pliability of the Holy Divine Purpose, is the Central Core of the Sacred Heart of Merope's Central Divine Wisdom. That which has got to feed the very internal depths of the Royal aspiration of the Etheric Enceinte Virgin growth. For the nucleus lies in the Core, where World and Soul growth is nurtured into active possibility. Therefore, the propulsive revolving Atom, is the Sun in Scorpio Solar wealth being fired by the extreme polarity of the Breath. Thereby producing clouds of Virgin Vega Causation, which like the seven-way Delta, are ever feeding the Crystalline Sea with their abundance of wealth.

Hence, all the Atomic Principles must now be used to bolster this Atomic Drive, for these are the basic Royalties of the New World, and are purely of mind movement. Here is where thought alone is the Power of invention, with aspiration, determination and will, to become the lever of active creation. How the New World is basically sound, is in the proof of the constant recycling virtue of the Atomic Waveband. That which is now a complete unified oneness of

Merope, and the very intensified Glory of her depths, which becomes the very basic, and is that to issue forth from the intensified depths of the Seed.

This is the reborn amplitude of the royalty of the Divine Fatherhood, and is where the Over-shadowance now kneels before the majesty of the Master's Atomic FACE. For the unfolding depths are now bringing forth of their mystical royalty, and is where the secret nucleus of the soul perceives its counterpart in the Royal Atomic FACE. For the promised Fiery sign of the Royal Intelligencia, is the Power of the internal etheric mind, alight and touching the whole of the infused blueprint wealth with the might of HIS unfolding Glory.

This is where the heights and depths become infused into a royal magnitude of soul manifestation, to issue forth as the royalty of the Voice. This is where attunement with the direct Source is the Holy Sperming with the Core of Divine reverence, the mystical beauty of the Unknown. For peace is perfected Atomular Etheric causation, as the Word rebounds its comprehensive response of re-energised Seeded LIGHT.

That sending its digested truth, out into all the out-lying districts of the soul, bringing every celestial being up to its royal status. For as the soul becomes reborn unto its god-like ratio, is the cosmos hatched and unfolded in light. For the birth of the Atom is the Great Cosmic Bull Power of simplified Royal devotion, where all the dignified aspiration becomes the Intelligencia of the Central Sun.

The Virgin has now become the Beauty of the internal causation, and is the compassionate LIGHT of the constant revolving FACE. For here lies the supreme alternating depths of the Divine Cause, as Atom to Atom molecular itinerary. She who is ever weaving the mighty inflowing forces of the heights into the Holy Cloth of the depths. Therefore sensitivity is now the Stream of Atomic expansive rhythm, and is the Holy Fire setting the soul's wealth alight, as the corpuscular growth of relativity unfoldment manifests as profound Neptunian consciousness.

(See plate on this page)

For what man had dragged down into the dust, he now was finding to be the supreme royalty of his mind. Hence, complete Solar propensity is the royalty within the Seed, and is the molecular action of the Hierarchical unification of the etheric mainstay of the Solar mitotic Spine. Therefore, only by molecular unification, afforded by the internal etheric aspirational magnitude of the soul, can this royal Solar Glory be born. Yet the protection and uplift of soul growth, bringing it back to its god-like issue.

Here is where we see how the Spine is now the Holy YOD of combustible Atomic revolving LIGHT, and is the brilliance of the etheric trodden-in wealth of the Divine FACE. For all now is the FULL propensity of the Virgin Atom, that which has been brought to its purified Oneness and radiating brilliancy. Therefore, due to the royal rebirth of the molecular divine Atomic service, all etheric rhythm has now become the complete

royal sperming frequency of the Neptunian infusion.

Hence the treading-in, is now the full complement of the Virgin intelligencia, whereby the soul upholds all that it justifies. Thus bringing into earth creation the Powers received from the World of Outer World Space. Then as the new Atomic Light is produced, will it change the corpuscular Etheric prototype, and produce an immortal Wave-band of Etheric Central Sun intensified LIGHT. Hence all men are now enceinte with Central Sun consciousness of the new infusing Laws of Scorpio Hierarchical predominance. Therefore, as they produce, will they automatically spread the light, until the whole of the earth is transformed.

Thus the infusion of its intensity, becomes the slowly rising beauty of the Over-shadowance, the glory of Divinity. For the Light born, will be Neptunian reimbursement, afforded through the medium and come-back of one's individual giving. And although all chains and shackles have been struck away, making the soul a free being, this will never be struck away from the mind as memory, until the soul accepts and redeems.

This mighty Atomic inflow from those extreme heights, is the Power of the Solar Central Sun Uction, and is the Seed of that Atomular Divine unification. That now to be used as the drip of the condensed Divine wonders of the Neptunian Reality as Pure Spirit. Such Royalty and magnitude is entirely beyond man's grasp,

The intensity of the majestic Power of the New World will be felt throughout the whole of the Etheric Kingdom, and all men will receive their mortuary meal through Hierarchical infusion. That of reimbursing Divine acknowledgement, that when fully justified, receives from those mighty unfolding Beings, genius of Divine character. Therefore, the way now is atomical perception, and all will be born of the Glories of Neptunian embracement of the Royal Virgin Heights.

The soul infusing sensitivity into the LIFE Stream of the Glorified Eridanus of Merope's Supreme Heart-felt Hierarchical radiations. For as they uphold her Work, which is the Work of the Hierarchs, do they themselves become royal. For this is the Pure state of the Holy Fire, as it infuses its Divine Presence with the glory of all the Virtue of the Royal Intelligencia FACE, that brings forth the royal LIGHT of holy expansion when alchemicalised within the soul.

Therefore the octavial dance is the moving of the Royal Sea of Neptunian fervour, for it is now presenting itself with the over-flowing abundance of Uctional Holy delivery. That of the sperming Grace of the living moving LIGHT of the Theocratic Law, the internal Glory of the Grace of God. That which is waiting to come forth, through the holy glory of man's inner heart purpose.

The Etheric body is now the full mastering of the Holy Sperming Breath of Divine molecular rhythm. That of the compassionate fervour of the Enceinte Virgin Merope, as she sows her Seeds of Cosmic LOVE. For as man breathes in of this Royal intensity, does he become born of all these divine wonders.

The Royalty of the Supreme FACE has now been given to

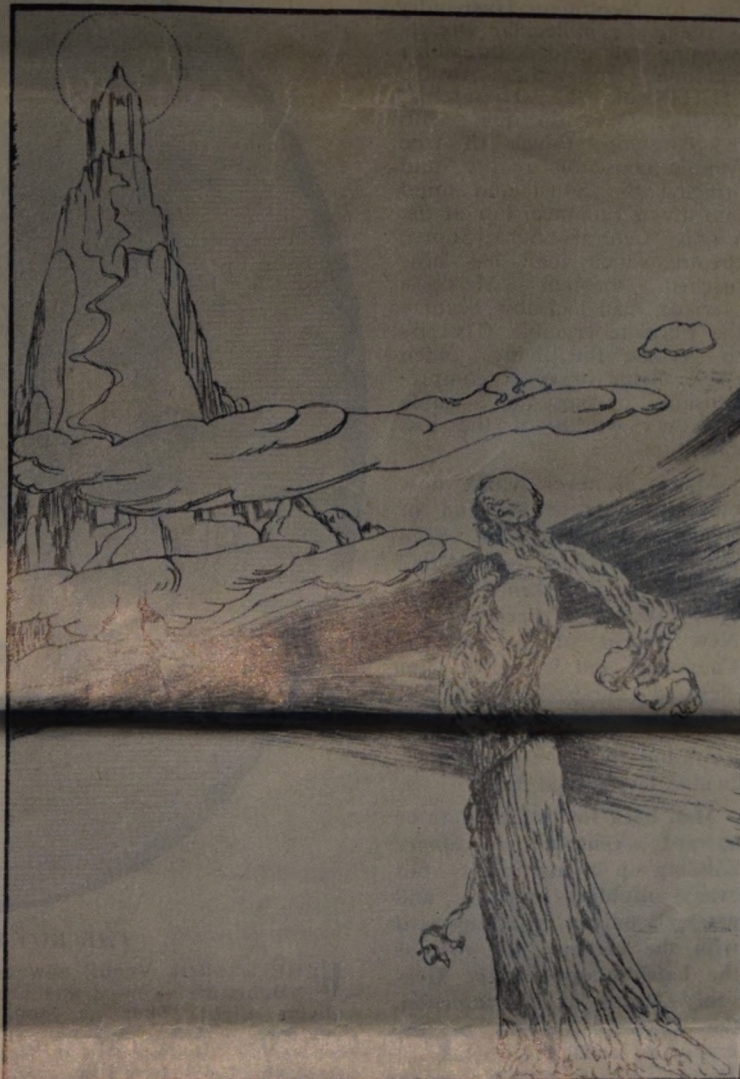

has now become the LOVE which is radiating forth to all. Then as the Molecular perfect LIGHT of Theocratic Poise radiates over all, will the Hierarchs be able to take a precisional mastery over all. As much as ruthlessness is attributed to the Hierarchical regime, their benevolence in the polarity is just as abundant.

But it lies in the hands of the soul itself, as to which side of the river he is walking. The Breath, by right of its Royalty set by Merope, is atomised Divine Neptunian Blessing, as it infuses the very being with the effluvia of dancing rolling activity of the Central Sun exactness. For all has at last been completely enfolded within the Stream of Virgin Ass's milk of Merope's Royal Mind, thus the mighty wealth of the Breath.

Thus the Virgin LIGHT is now the only existable phenomena, for it is of the Divine Uction and is the FACE of the truly beloved Masterhood. Now, as the only Light does it show forth, and man is made in its supreme image, for Merope built it up as her divine Prototype. For the Virgin rehabilitation of the soul's source has now been fully impregnated with the Atomic fulness of the new Divine Scorpio infusion. While all men's Norms are now the Etheric counterpart towards the full propensity of the Royal FACE.

The mighty wealth that is now due to come into birth, bringing expansion and comprehension. This is where the Atomic propensity of the Central Sun's wealth remains hidden, and is that which now, for the first time, is going to open forth into Neptunian Positive comprehension. Setting

NEPTUNIAN AWAKENMENT

ALIVE with the intensity of her Atomic-born mind, Merope entered into her Castle Glorious, radiating with all the glories of the Neptunian Heights. Thereby delving deeper and deeper into the secret archives of her etheric body, bringing out Wisdom and Light, to drive the world into yet greater rebirth. (See text in col. 2).

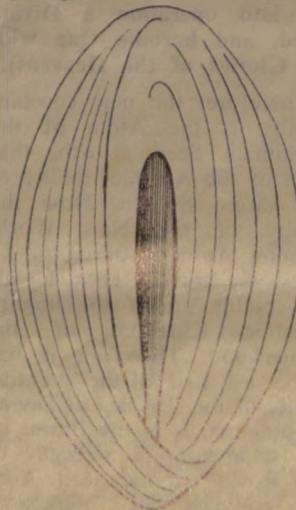

## Phenomena of the Central Sun Uction

THE Power of Atomic nuclei is the virgin sensitivity of the Divine FACE, and as such, is the activation will of soul's internal etheric consciousness. For the FACE is man's belief, his expression of his mind assessment. This is the unfolding god state being forced to complement their wealth into a new driving force, through the all-consuming Fire of Scorpio. The Great Mighty Power of Generation now surging the World with new LIFE.

For the Holy LIGHT is the positive side of the Atomic principle, and is now the determinator of the Hierarchical inflowing Breath, as all is now born of the Virgin Fatherhood Fire. This is offering the royal etheric crown, the vision of the Holy Divine Sec, the internal Mystery of the Unknown. Whereby, when accepted, radiates the soul's unlimited wealth into Atomic Royal LIGHT. This is Atomic Spiraculum, whereby all is familiarised with Outer World Space Presence, and soul captures the intensity of the moment of becoming

and only when he begins to awaken, will he realise the wonder that is the depth of his consistency.

Yet it is such beauty that will be the means of feeding the soul, through the unceasing activation drive of the new regenerative Holy Fire. The mighty Wealth of the Heavens, as the untold Glory to come forth as the internal Divine Mystery.

## as the Conquistadora of the Central Sun

by Gladys I. Spearman-Cook

(This lecture was delivered on Sunday the 12th April, 1970)

**W**ITH the Central Sun radiating its Glory into the heart of the Atom, we now as a conquistadora, seek into its Divine Re-genetics. This must be seen as the Atomic Prototype, that of the complete gyratic spin of the Royal Neptunian Seed of Theocratic precision. That which, in perfect oneness in its unification, makes its interpenetration dynamically exact. For here is where Divinity is born of aspirational acclamation, by the gods' full inaugurated Power of resolve towards the Vega inflowing Breath. For only by their expansive response can the might and Divinity be born in Royal Causation, thus sending their depths forth in penetrative continuity. (So now, by being given the exact Word, you cannot help but make an 'exact unification' between yourself and the Central Sun, and the blending through the Breath).

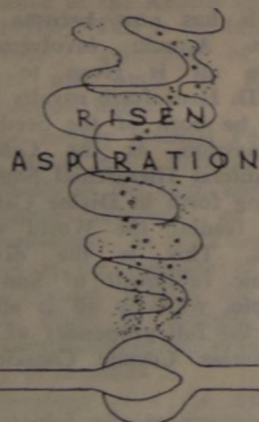

DIVINE  
BREATH

AUDITORIUM

(In the diagram you see the down-pouring BREATH, which is the YOD of GOD, meeting the AUDITORIUM of your female state. Because everything within the Earth is female, until it is built up by the Breath into the 'positive', and then once again you take on of the female state to build it up to the positive full reception. To receive of the Yod and remain feminine is wrong; you must try and expand, and build up out of that, into the positive).

The down-pouring Cosmic Virgin Breath seeking to find expansive Causation by the involved Human Sperming aspiration. That by the internal alchemicalisation it becomes the risen up dancing passions, and they then become the glory of the Spirit, the wonder of the mind.

For here is where the full Breath of the Virgin reborn Causation, becomes the purity of the Central Sun's Atomic Wave-band, and the Glory of the Etheric Divine Presence. For now the LIGHT within the Light is the Seed of the Divine majesty awakening. The established auditorium of the Hierarchical conforming Breath of immortal rebirth.

The birth of a new-born Plane, with a full comprehensive in-birth of the risen perceptual Theocratic belief. Here is where the Divinities truly manifest as the Holy aspirational Fire of molecular unity, for all is now the Black Bull driving Sperm of the unified FIRE within the Fire. That of the ecliptic infused wealth of unified Solar Galaxies, with now a one directive

Atomic infusion of Virgin Royal sensitivity.

By Merope bringing the equal frequency of the Power up to that of the reception, that of the interpenetrating inflow by a true aspirational perception, a perfect interlocking is established, and a New Plane is created. This has now taken place, and the Plane of Vega, the Atomic Plane of LIGHT as Immortal establishment, is made; a complete unification of the depths and the heights.

(What is coming down now as the Fire, holds within it the possibilities of the Divinities being born within you, the Hierarchical Divinities. So the more you aspire, the more you are going to bring these Divinities into birth. But this will only be done by your Bull driving; otherwise he is merely going to sit down and chew the Sperm up into his own delights, which will then bring you difficulties. So drive the Bull, which means a driving effort. Drive in any purpose, and it will help you then to raise the Fires, so that you can take the Word and find aspiration).

### The Cosmic Fires

**I**T now becomes a radiating creation of LIGHT, waiting to be accepted and brought forth by the soul. Therefore, what was inaugurated at the Horae establishment of 1969, is due to burst into Atomic light on the Configurative inflow of 1970. For the Scorpioic abundance of six active Galactical Powers is gathered together in the vicinity of Virgo.

The now intuitive Atomic mind of the Virgin, that by the driving Sparking Force of Uranus and Mars, as the old negative fires now being fully risen up to the Arc, the Bull chained by Saturn in the twelfth, will be given a completely risen up expansive Gemini mind of Neptunian Hierarchical rebirth. Thereby bringing Aquarius in the heights to a united surging Flame of LIGHT. Hence the Christos, locked by the old Virgo states of the Nun, is going to be released, and pitch-blended by the abundance of Scorpio into the winging Eagle of true-born expansion.

(What Merope brought into birth at the Christoside is now going to become fully formed, and that is the great

Vega Rebirth, and the Christ risen up to the very full, with every man awakening to the Truth. But a great deal more will be brought forth, for unknown Truths are going to be revealed, and man is going to come out of his darkness, into Light. Many of you are going to awaken, and put on your new armour and go forth as Warriors of Truth).

In the movement of the Planets, after having their Powers pitch-blended into the depths, Pluto the Christos possibility, arrives in the House of the Warrior to take up residence with Cassiopeia, to become the sparking Uranus of his driving will. With Saturn becoming of the discriminative mind of the Bull, as he rides the expansion of the Eagle.

The spinning up Atom ever re-uniting with a greater degree of the inflowing POWER, while the inaugurated Power born out of it, is the new molecular consciousness. Therefore, as Merope brought her Atomic frequency up to the equal of the past Central Sun of Shamash, she automatically brought forth of the divine perceptory principle of Atomic Hierarchical sensitivity, that of divine conscious unity. Wherefore the new Hierarchical consciousness was born out of the Hierarchical Celestial Transgression.

This is the complete Hierarchical solvency as the Atomic Abstract Word, which will bring all to octavial polarisation. Then as the aspirational inburst by Merope, declaring and establishing of that mighty Divine Configurative Power, will she pronounce of its Divine Holy Presence. For the Almighty magnitude of the Fatherhood born through her blood sacrifices, will be inaugurated into matter, by the Holy Breath of Immortality. Thus by this, will the new Plane of Vega be fully established.

All of the most elite of the Hierarchical Powers are now of the Supreme Central Source, and are emitting their Atomic Radiance at every pulsation of Merope's Etheric Heart-Beat. For the Hierarchical ABC of the Central Atomic Sun is now the Central Patel of the fully established Theocratic octavial Source. This is the revolved unified Divinity, extracted from the Hierarchical Christos-Blood of Merope's self-sacrifice. Thus the Divine, in Cosmic Truth, which Merope, by the means of bringing into birth by being the Virgin

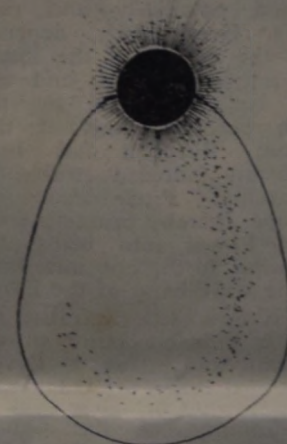

Scapegoat, brings the whole of the Race back to its Virgin state of God-purpose.

(See plate on page 8)

The Power of rejuvenated intensified Hierarchical Over-shadowance has been surged with the Supreme Unction of the Atomic Source. While wave after wave of Holy LIGHT from that Source is now infusing the Norm with Atomic Molecular balance. For the Atomic Plane has now been born of Hierarchical Theocratic Divinity, that of Re-genetic rebirth.

Space has now become Spaceless Spirit Phenomena, and all is comprehensive octavial Neptunian LIFE of Atomic immortal consciousness. In all becoming united, all has become of Fire, that of the Spirit.

This is now where all the aspirational conscious Virgins become as Orion Warriors, and take the Orion Warrior's Shield and Sword to become as the Over-shadowance of the Atomic Arc of Vega gestation. The mighty directional Voice of Truth, which the active Bulls of life must spermin and drive as the new-born force of Atomic creation.

For this is where the Reborn LORD of the Supreme unfolded activity of the Purified Atomic FACE, now becomes that of the Solar Galactical might of the Abstract Central Sun Power. Thus the soul, according to plan and prototype of the Divine Husbandry, must go down South as it goes forth on its own Argo.

But moreso, when as a Scapegoat it is a Cosmic inauguration, and the entry of the whole of being onto a New Plane of active life. Now it is to be of non-form, entirely of the MIND and of the Vega Divine Harp, pure rhythmic beauty. Therefore, this Theocratic Primordial Birth is now entirely of Atomic majesty; that of the Atomic Plane of Vega purity.

### The Divine Spiritual Rebirth

**THIS** is the World where a Hierarche now control the issue, they being of the Fired Corporeal Head of the Soul life. Thus the first true issue of life control, where these mighty Beings are now lashed into Fury, and call upon Death for aid. Thereby to secure the self-injection of 'The Fire' into it. Fact it is that the Atomic drive towards the first purifying of the Atomic plane. Thus the mighty Beings in the 12th House, and ever between laws and beyond.

This is where Sensitivity must be seen as the Supreme constant intensive might of the Hierarchical Atomic Power. That which is the beginning of the New Cycle of Neptunian Embrace towards the purity of the Virgin Atomic Seed, where Merope is now making towards her Divine Ascension and final embracement for the Royal Service she has rendered.

She who turned the Universe right over, giving back to man his god-like heritage and his lost conception of life. While to the Gods their Atoms in the form of LIGHT. Therefore Hierarchical inauguration is the divine embracement of the Neptunian Royal Word and Merope's Eternal Glory of complete embracement back into the completeness of her Divine Solar LORD.

For the imprint of the Atomic Bear as the full reborn Cancer depths, is now the transmuted reborn Solar Atomic Seeding of Sun in Neptune. That of the Full Brilliance of the Master's shining Grace, where Vega in all her Glory, is shining forth as of the Royal Hierarchical World of LIGHT. Where the rebirth of the Royal Scorpioic Fire is the molecular establishment of the Solar Atom, as the god-conscious state of the soul. That brought back to its unified state of divine Hierarchical heritage.

For here is where the mighty Over-shadowance, as the germ of the Solar Glory, sperms the Etheric Crown with the Atomic LIGHT of the Neptunian Reality. That which the soul has glorified, now becoming his own glorification. With the internal awakening royalty breaking forth into the aspirational impulsive gyration of the Atomic Void. With all becoming as unto the Divine Golden Bull of Vega Atomic Husbandry, that which has been the driving force of internal Divine sustenance.

Therefore, the forged Atomic wealth, born from that internal fortification, is the electrified virtue of the supreme sensitivity. That of the Hierarchical perception of the aspirational etheric consciousness of the Etheric Thermodynamics of compassionate rebirth.

For as the soul so creates, will the inborn Hierarchical Fire take on of creative formulation, and become the Over-shadowing Divinity. Therefore the divinised status of any soul, is the internal nucleus of the soul intent. For now all of the gyroscopic intensity of the new Virgin mind is revolving with the supreme Central Source balance of the Atomic Pointed Oneness, that of Merope's unified Divine creation.

This is the Enceinte Warrior effluvium of the Chromospheric Brilliance of the Vega Etheric Breath. The mighty Divine intensity of the Central Sun; for the constant intensified rebound of the Atomic wave-band has now interpenetrated the Etheric sensitised Anthropomorphic Egg of the Neptunian Plane. Where all will have become of Spiritual rebirth, as the Sun in Scorpio's intensified Fires of the Central Sun. It having brought untold expansion to the internal soul growth, where all is alight with the internal Brilliance of the inflowing Chromospheric Glory.

The whole of the inaugurated rebound of the Hierarchical blue-print procedure has now been Atomically radio-active in its vast impulsive causation.

# REGENETICS

Continued from page 5

Bringing wide expansion, needing untold aspirational upliftment, that the Spirit can rise and Divinity made manifest.

For everything is destined for the Supreme Source of the Central Sun, through the compensatory Law of Cosmic acoustics, the Power of Psalm 14, verse 1:

"For the fool who hath said in his heart, there is no God, is corrupt,"

and is denied the aspirational joy that David beheld as he drew down into his Being the Divine Glory of his internal Arc. Thereby brought as his Over-shadowance the might and Glory of Divinity.

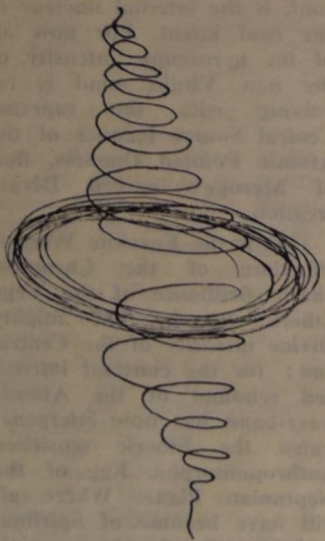

For all that has been, is now the royalty of the Central Sun, having been polarised by Merope. With all now returning as the conformed Vega Breath, waiting to be inaugurated in the active soul as the radiant light of the internal being.

## The Overshadowing Arc

THIS now being the Solar clairaudient precisional might of the Cosmic aspirational integrity of the Holy Fire. For all has been built up from the etymological encyclopaedia wealth of Merope's Timeless Neptunian wonder, becoming the Enceinte compulsive action of Theocratic Truth. Hence now, the whole World is reborn and radiating with the LIGHT that Merope has enforced into being by her BLOOD sacrifices.

The internal Fire, now becoming the revered Positive out-pouring of the etheric garment, whereby the Spirit now becomes the sensitised might of the Central Sun in Scorpio. The glorified rising of the God Sperm, as the radiant Arc of the soul. This is where man has to understand the full meaning of the Liquor Sanguinis.

For the blood holds the whole wealth of Time, and can, by its polarity, draw down the Unknown Celestial Transgression into the depths, to completely absolve the lower lunar waters. It only needs one soul to make the sacrifice, and the Powers in Their Mighty Abundance descend. But to what extent they may disintegrate, is yet to be seen. For by purifying the blood, there is no earth pull, for the blood protoplasm by now is condensed heavenly Power. By causing a Vortex by the Heights and depths uniting...

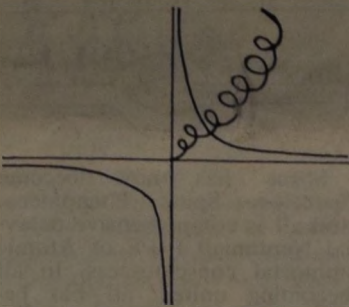

...the soul is spun up on the Vortex into the heights from whence the Power was derived. This is the mighty story of Siegfried, where Brunnhilde is burnt on the Pyre of Sacrifice. Here we see how the New World arises, bringing the Atomic measure, as the Virgin Breath, to partake of the royal Fire of Hierarchical attainment. Whereby soul will become the majestic Being of the Neptunian impulsive strength of the Vega Race

Elect. The risen up Solar being, filled with the glory of new-born life.

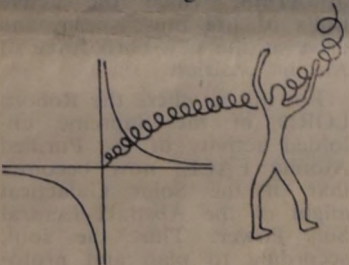

This means that the supreme Unction will be administered, as the Intelligencia of the Atomic Source weaves the Theocratic Sovereign LIGHT of the NORM into Atomic radiating Virgin Divinity. The whole of the Hierarchical internal FIRE is now the sparking Glory of the Arc, with the soul now so alight, as to manifest of its Over-shadowance, as the Divine Glory of the Fatherhood.

For this is the tangent rise of the Atomic Seed, as the Virgin Scorpio ascension of the Theocratic pinnacle point of radiating Divine Truth.

The Spirit has risen, causing the future to be fired with elevated possibility and new beliefs. How much, depends upon the depths of the intent that put it forward, and can only be ascertained by the Truth perceived out of this wisdom. But all has been atomically infused with the Hierarchical Pitch-blende by Merope, thereby bringing enormous Power into being and focussing forth, out into birth on the wave-band of the Earth.

This now will centralise the Etheric pinnacle point of the Central Source, as a Divine intuitional reflex towards Theocratic intent. Bringing back in the Infinity, as the Central Point of the Fire, the Royal depths of Divinity. Here is where the Divine Over-shadowance reveals His Dynamic Uprising Powers of Universal praise, through the Word of the inflowing Divine Cosmic Causation, blanching the Earth with Fire, bringing that of unfolding LIGHT.

For now, by that set into motion by Merope, life becomes the intense Royal Doctrine of Hierarchical consuming, for they are now the inborn Divinities of the blood. Thus that of the Pitch-blending of the Hierarchical aspiration with the Fire of Sun in Scorpio; for as a soul so rises in their belief, do they become of Hierarchical born Mind ascension.

This is Atomic Aspirational progression as that of Divine Husbandry, for when ALL is instantly spun up, the soul would be capable of drawing from the full Zenith, in accordance with the Atomic Over-shadowing Arc. Whereby all the aspirational Intelligencia of the Atomic Depths will become the intensive radiation of the Divine Source.

The soul becoming filled with the radiation of the Chromosphere of the Sun, that which will set his mitotic spindles revolving at an enormous rate, bringing the Chromosomes into radiation of divine electrolysis. This now becoming the aspirational

thread of Neptunian Holy Supremacy, as the soul spins up and opens the Virgin Plane of Abstract reborn simplicity, into the glorified blossoming of the World of Vega. Therefore the love of compassionate Neptunian ecstasy now shows within the FACELESS Vortex of the dancing elevated mind effluvia of Vega. Thereby unfolding of all the mysterious wonders that lie in the depths of the soul itself.

THE LIGHT-BRINGER

In a world of darkness and despair, Merope strove to bring Light once again, that man could awaken unto the true purpose of living. That he could once more live with those Higher Planes of Divine Royalty, and converse with those mighty Hierarchical Beings who were as Blood Brothers with him upon the Path of Eternal Evolution. Thus Merope has fed Heights and depths with reborn Life, and Atomic Light is the Royal Gift that she has bestowed upon the World, and the means whereby the prodigal has been redeemed. (See text on page 5, col. 4).

## The Central Sun Unfoldment

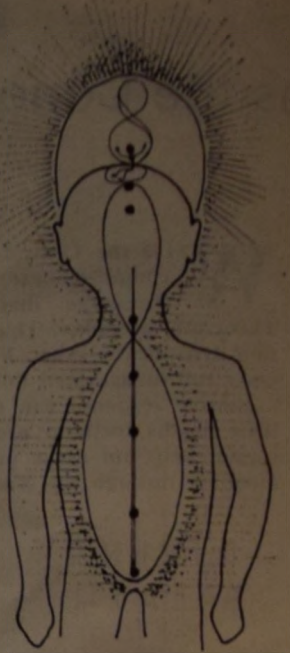

HENCE, as the gods follow the Pattern of the Orion Prototype infusion, will the aspirational outlook of the rebound, produce the aspirational compassionate Sperming Atomic Power to utilise the radiance of the ever-changing FACE. Thereby bring into being, the mysterious depths waiting to manifest.

(See plate on page 7)

For the perpendicular descension is the full intensified effluvia of the Atomic Seed, as it radiates its full Virgin depths into the Divine Atomic inflow of the Supreme Central Sun Depths. This is the polarising of Ether to Ether aspirational glory, and calls for Divine Belief. Thus the conquering of Outer World Space, but also bringing man to the inborn intensity of the Central Sun.

Since all is of Etheric reality, the intensity of the Royal majesty is captured when the soul spins up his Neptunian conscious Light into the Atomic Void of his Orion Cosmic depths. Whereby he will become the Law activating with Theocratic intuitional belief, becoming of the same vibronic frequency through his belief, hence the tensile strength of capability and reformation. Therefore, ever becoming of the conscious copulation of the Atomic, which is the Power of the new infusive might of the Divine Source, which is the Holy infusive Power of Hierarchical intervention. The soul ever finding rebirth through the inter-blending heights, bringing the soul nearer and nearer to his intended goal.

For this is the Sun in Scorpio expansive Yod of the Hierarchical involving Glory of Divine Intelligencia. The internal polarising of the Neptunian Virgin LIGHT, as Atomic sensitivity gradually being raised up to the Glory of the Central Sun, whereby the soul is ever investigating and conquering of Outer World Space.

The whole of the soul is dancing with the radiance of LIGHT shining forth, for what had been belief and investigation of the soul, was now the mastery of the Great Masterhood, where the bloodstream was revolving in profound Glory.

For this is the re-opened door of the continuation of the Central Sun unfoldment, and is where the Source becomes the brilliance of the Atom. All is now octavial ascension, whereby soul transmutes Ether supremacy into Holy Unction, and the etheric body radiates the Divine Royalty of the new Scorpionic inflow.

The soul has captured the whole of the heavens within its internal being, thereby making the soul a complete universe on its own. For through the Breath, the humanised Atom has now returned to its god potentials, and become a radiating Central Sun in the depths. For through the Breath, the Chromosphere of the Great Central Glory has delivered of its Divine message, bringing the Divine Fatherhood as the Royal Holy FIRE, to set the soul alight with its Royal radiating Glory.

For the Central Sun Breath is the purity of the Virgin belief, and is where the Cosmic Arc reigns supreme. None but they who give all from the centre of their Holy Pool, can see the Pure FACE; no longer living in the old Seed of Saturnian descension. The Glory of the heavens is now radiating in the Royal Neptunian Court of the soul's eternal continuity.

This has now become the direct Atomic involvement, where all is given to the LORD. Henceforth royalty will then be born of the Seed of Compassion, as the Central levitational Hierarchical Source, flowing forth in Divine Causation, feeding the World with Light. This is the divine Atomic fulfilment of Sun in Scorpio, whereby all is alight with the full propensity of the Neptunian Cosmic Consciousness.

For here at the fulness of the HOUR, when this Word was being penned, the Divine Virgin was wending her way to embracing the uprising Great Solar Glory. Where in the embrace, the Divine Horae was about to be delivered into the depths, and every soul would be blessed with its Divine deliverance. That in the unfolding Radiance of the Warrior in the glorious month of Green Ears, the enceinte mystery would now begin to unfold of its beauty.

This is where the mighty mystery of the Etheric is revealed, for the Glory of the Enceinte Breath is the activity of the supreme Relativity of the Atomic Void. For as the Breath and the Etheric unite, will the Atomic Void be made manifest. Here is where the greater internal etheric strength has become the Divine Fatherhood of the combined Source of Timeless Causation. All now is the intensity of the internal Relativity of the Etheric, as the Atomic Light of the Atom's Royal beauty.

Now all who are alight with the Central Sun's radiating Pleromic Beauty, will feel the aspiration of Atomic stimulus as Neptunian reward. They who have become the unfolding sons of Orionic intent, and the Hierarchial Divine intensive magnificence of the Etheric Electrified Mind. The Glorified radiance of the Fatherhood, in the extreme heights being warmed to life in the depths. That as the soul becomes royally aspired and proclaims the wonders he beholds, will the Might of those Ethers become a living Glory, the Divine Holy Presence of Divinity.

### The Internal Glory

ALL is now the purified Atomic consciousness of the Immortal FACE, and is the Etheric Breath of Merope's rejuvenated Principle of Vega Regenetics. For the soul's Virgin consciousness can now become his divine Atomic radiance, for here is the full Crux Ansata of Etheric supersensitivity, and is the Atomular majesty of the Orion Warrior.

For now the Divine constant aspiration that will burst through and forth from many, is the downpouring New Central Sun Breath of Divine Hierarchial stability. Here being the rebirth of the Atomic Seed, that which is now the basic principle of Theocratic Life and which is the correlation of the Neptunian Hieroglyphics. Thus the Enceinte Breath is the supreme rebirth of the Divine Hierarchial Intelligencia, that of the royal completion of the House of Neptunian Holy Fire.

Whereby dynamic Atomic Fire could manifest forth, and surge the world with its royal cleansing force. Therefore, the LIGHT that could now manifest, is of such an intensity of unified creation, that it could fully reveal of its Royal Divine Reality. But only when soul is truly ready and capable of receiving and handling its dynamic force.

This is the Enceinte perfection of the Atomic mandible, that which is ever the LIGHT transfuser of the Argo Stream of Vega magnitude. That which is the intensified Colure harmony of the Sun in Scorpio, with the radiating NORM propensity of the FACE. For it is the latter, the soul's own Face, that reveals the true intensity of the FACE, and is the window of the soul, denoting its true divine values.

Therefore the utilising of the supreme Unction is the Atomic sperming Source of the octavial Rise, by that of Royal Theocratic Divine Husbandry. Hence the causation of the Theocratic LIGHT is the beatitude of the Atomic sperming royalty. This is the internal perceptory aspiration of the Virgin god state of Royal activational intent.

The mighty internal Powers that have now become the blood-life of the soul, and the activating principle of the Chromosomes. As the Chromosphere is the radiance of the Sun, centred around the dynamic Force of Scorpio, are the Chromosomes the radiating glory of the soul.

Therefore all is the Atomic deliverance of the OM perceptory conquest, which is now in the Atomic Over-shadowance within the Seed, and is now alight with the Central Sun virtue of the captured Outer-World Space. When the soul as an Atomic reactor, is filled with this mighty Force, he is as an Atomic Pile that could light up the whole of the earth with Royal Divine Arc Light. This being released into the Stream of one's own revolving Eridanus, the wake of one's own causation. Therefore, if he so wills, be measured

forth through the Over-shadowing Source to source perception of the Atomic Seed.

Therefore as a man believes and radiates, will he manifest forth of his dynamic internal wealth. For by Merope's unification of the Planes, has she brought the Power unto such, that the Hierarchs can manifest through every soul capacity. Hence they at last driving the Atomic sledge of internal Fiery elevation, and all is completely

is reborn and finds the means of Divine continuity.

Therefore Atomic Breath is the LAW of Theocratic activational Divine ascension, where all is involved into the New Mind outlook of Etheric unfoldment. Where the soul becomes entirely mind conscious, through the internal Relativity rebirth. For Atomic LIGHT is the sperming Fire drawn out of the Atomic infused NORM of the soul's

the Atomic brevity of the FACE, awaiting the glory of its Sperming, for all is now direct reflex action of compound intensified Breath, whereby all are beginning the expansion of mind comprehension, from the Thymus to the royalty of the NORM.

The Royal intention of the Hierarchial infusion, now becoming the supreme Voice of the Hierarchial Octavial Divinity, bringing the soul up to

Abstract utilisation of Divine Causation. Therefore the soul is now bound by complete Infinity to the Central Sun, that once fully captured, makes that soul a very unique powerful being. This being the re-assembly of the Fires of Scorpionic rebirth, as the Power of perceptory attachment, in the source to Source inspirational expansive virtue of Holy Causation.

By this it must be seen of how the soul is a royal being, an off-shoot of the Divine Godhead. For now, all is of the Atomic Fired Relativity of Scorpio, and is the Atonement of the Theocratic Seed. Whereby all has now become the supreme polarity of the golden sperming molecular isotope, as the Virgin mitotic Atomic LIGHT. Bringing Divinity to becoming the manifesting divine Atomic FACE.

For the mitotic spindle is the Virgin EYE of the Atomic Pleiadic Bull, and is the Atomic mind of the golden Fish dancing in the Divine Waters of the Scorpio Hermeneutics. The Word now born of the Divine Waters, holding the very intensity of God Himself. Yet the OM that comes forth from the mouth of the Royal Virgin Atomic soul, who speaketh with the depths of the profound Mysteries, now gracing the Earth with Holy LIGHT. For their conquistadorae had carried them into the very heart of the Central Sun, bringing into birth the establishment of the Sacred Heart.

The complete frequency of the Virgin mind is now the one-way Path of molecular solubility. That of Theocratic complementary rebirth of the conforming Divine Ethers. They which in their descension, will cleanse the soul's etheric depths by the Etheric Prototype set and infused by Merope's Central Sun expansion.

For all is now the profound Atomic depths of the Divine sensitised isotope, whereby all has once more become a cherished rhythm of the Neptunian roots, now brought to a status of blossoming. Therefore all souls are Hierarchially infused and born of immortal reality, a being blended up in heights and depths by Uranian Hieroglyphics and Divine Cosmic Glory.

Therefore their possibilities are enormous, and once they awaken to the internal magnitude that is with them, they could open up with the same radiance as the Central Sun. For they are universally born and atomically Fired in their molecular unification. Hence they now become the mentor of the Atomic Planes, with the internal growth of such souls now opening up as conscious radiation of divine royalty.

With all their Atomic principality now as the royal genetic Divine Sperming reality, that of the Enceinte quest of the Divine Intelligencia. Therefore the Hierarchial acoustics now being the Void's internal depths of Etymological supreme sensitivity. That awaiting the soul to awaken to its royal prerogative, and blossom forth as a divine Virgin son.

### The Closing Prayer

**G**REAT DIVINE HOLY ONE. Bless the Word that has been established tonight, for it is the Word in all its Glory, giving unto man his powers of rebirth, showing him where to bring forth his wealth, that his mind can blossom in all its beauty, that the Spirit can rise, and Divinity be born within his heart.

AMEN.

### LOST GLORY

**M**IGHTY wealth of the past, lying dormant in the etheric body of the soul, now to be re-awakened into life by the Royal Atomic Fires of the Central Sun. Who can tell what mysterious depths lie within the soul, and the wonders that can now be brought forth, in all their divinely polarised magnificence! (See text on page 6, col. 3).

born of the Etheric World of Vega's Royal Beauty. Thus the Atomular Flame is the Hierarchial Source to source expansion of the Divine FACE of Merope's majesterial belief.

Through this the Heavens are now blessed by the Atomic conquest of the Virgin reborn Void, for the Sun of the Central Sun Source, is now alive with the Divine Atomic polarised Breath. That equal to the intensity of the Royal Divine Cause, as the Echo emittance of HIS Master's Grace. For Merope as the Scapegoat, is ever breathing forth of the Divine Glory of those Heavens, and ever by aspiration and love, whether to them or their sons, sending forth of Compassion, Love and Healing, as well as Divine Wisdom.

For Merope as the Queen of the Central Sun expansion, is the aspirant of the reborn Royal Atomic might. This is Atomic Space of captured Outer Divine Power, as the electrified Atomular Force of the Atomic Spectrum. The mighty wealth of the heavens, harnessed within the soul, as their divine creative energy.

For the Atomic Spectrum is the Solar Chromatic dance of the Atomic ascension within the Virgin Void. This being the basic Plane frequency of Vega Atomic Life, for all now is New World Hermeneutics of the Abstract Holy Breath of the Source, whereby the soul

lost immortal being. He lost to Divine recognition, and now awaiting the Abstract supreme reality of its Atomic Wake.

The soul at last awakening to the fact that Divinity revolves divinity as Atomic Divine perception. This now is where Spirit perception becomes as Intelligencia renunciation, and the soul begins to build up the internal Glory of rebirth. For the Virgin Spirit is now the Atomic radiance as the Holocaust of the lost Horae mortuary meal, that which will polarise the Solar Sun into the Central Sun radiance, now within all souls.

That which was created by Merope in Her Prototype Cosmic Conquest Path, at the commencement of her Atomic quest. Thereby raising all souls up from the Virgin Plane, onto the Road of blossoming Vega unfoldment. For all men now are Central Sun born, for they are the new Hierarchial born assimilated Seed of the Christos infusive might of the Holy Fire.

### The Power of Divine Intervention

**T**HIS is where the New Road of the Royal Divine Exodus begins, where man awakens to the truth. For this new-born Central Sun birth is

the royal status of a god. Therefore, we now come to a complete new royal awakening, as that of Intelligencia rebirth. That of the Hierarchial Abstract intent, as the Seed of the Holocaust Royalty of Divine enhancement. Where the depth of the Hierarchial Transgression is bringing a greater depth from the Central Sun involvement.

This is now a new stage of the Powers Policy of Atomic instructional intelligencia, where the soul becomes corporally capable of internal absorption of the inflowing Word, as the Power of Divine intervention. For as the whole of the Powers of the Central Sun unify, so will the Intelligencia resolve to atomise the Enceinte belief of the Solar being, he who is the intensified aspiration of the Law as Theocratic activity.

Therefore speak with the Voice of God, who is the manifesting of the Internal Core of the Fire, as the FIRE within the Fire. Hence the LIGHT within the Light is the Power of the regencies of Divine Electromagnetism, as the internal atomic Etheric consciousness. That of the intensity of the Conquistadorae of Outer Space etymological rebirth.

This is the intensity of the Atomic Mind, where all is of

## Reminiscences

**M**UCH WATER HAS PASSED UNDER THE bridge in the past month, but solely due to the Old World dying and the New World being born. But this is nothing more nor less than I predicted, being warned of such by the Great Master. So naturally as I am the Voice of Tomorrow, the fulness of the Central Sun upon the Earth, all dying evil is bound to strike out to try and kill me. This accounts for the lying slander of the News of the World, it being the cesspool at the bottom of the pit. So we will not besmirch the Purity of the Hierarchs' Wisdom, by going into details, for no intelligent or well-bred individual would even soil their hands to open its pages. The only thing is, I would like to enclose a copy of the letter and drawing that were sent to Murdoch, the owner of the newspaper.

(See letter and plate below)

Murdoch,  
73, Sussex Square,  
London, W.2.

2nd May, 1970.

Oh Murdoch, what a silly boy you are! Five million people touched by the Word of Universal Philosophy, by the gracious aid of the News of the World! Millions more touched by the television. Oh, what a glorious Red Herring!

How nice of you to share your wealth with My Cause, and help my Project advance.

It is a pity, Murdoch, you do not understand Occultism, then you would be able to comprehend 'Vibration' and how these Greater Powers use 'stooges' to further their advance into human life. Thus beware O' Nixon!

Thanks for the increase in people's curiosity. I could never have reached so many 'in one vast sweep' of active advertising glorified expansion.

Gladys I. Spearman-Cook.

(Gladys I. Spearman-Cook).

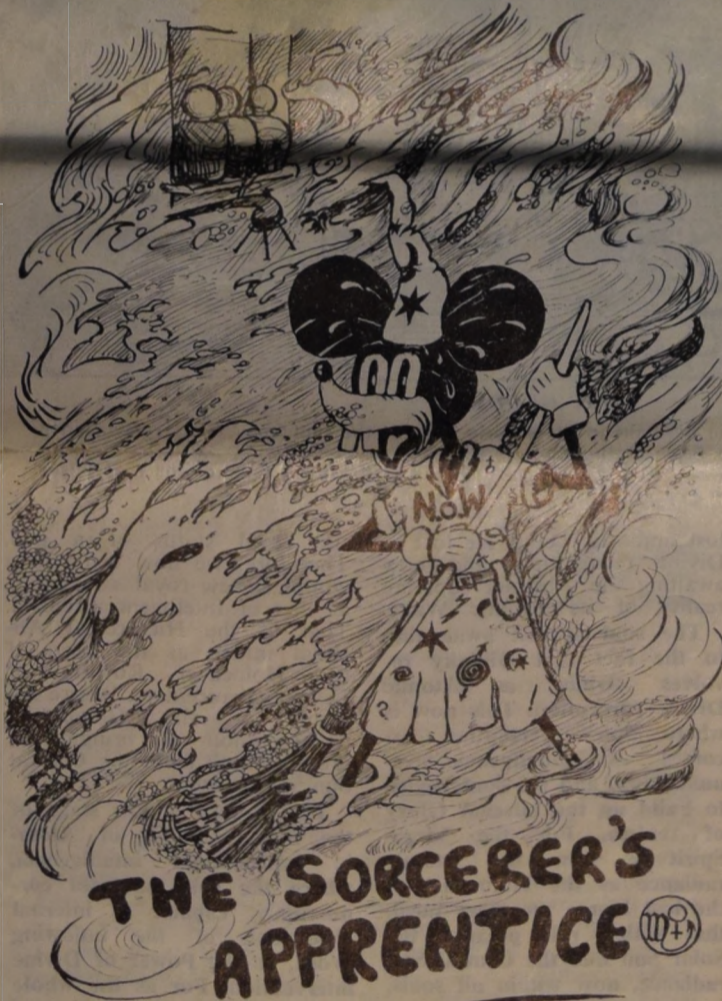

## Polarising the Evil

**F**IVE million people whose minds had never risen above such filth and trash, now have been touched by the Name of Universal Philosophy, and all alive with FIRE. And although received in its negative state by a lying tongue, the Hierarchs will be able to follow in, and begin their mission of rebirth. So it took evil and sacrifice to bring about the good required, for many of these five million have written to us and sought for the Occult Gazette. But the main thing is, what digger Murdoch wanted to achieve, he utterly failed to do, and that was to cripple my outlook and cut me off from the Higher Powers, of whom he is terrified, being himself a BLACK MASTER.

This at the present is a mighty Plan set into operation, through the imagination that man and the Television had concocted of the Outer World Planets. Man being the creator of all substance, didn't realise when he put this into operation, and still doing in the daily papers, that he would have to wear it. But through my being prepared to be a Scapegoat and raise my vibrations up above that of the newspaper world and the television, I turned it into a spiritual creation. Thus helped the MIND of the Great Powers to put this into operation, a REAL way of transformation.

No man can go above it, for I have now the command of the ARC. After all, religion has lauded this for Ages through the Bible, but failed to see what they were doing when they read the wisdom of the Book of Samuel, in David running from house to house to establish the ARK, but I did! So I and the Hierarchs have used it by polarising the stories created by man in a derogative way, to transform man back to his god-like status of the past.

But there is one thing we must bear in mind, that digger Murdoch is an aussie from down south, and there are Australian soldiers in Vietnam beside American. All that has

This loud-mouth sought to fight the Powers, indeed he was a duffer! He didn't know the Occult Laws, and why he now must suffer! So spare a thought for such a fool, who's bound to come a cropper, when the garbage-bin he calls his mind, is cleansed out—good and proper! (See text in col. 1).

been happening, may not appear to be going in the right direction, but all is well, for the Arc or Sine is in the command of the Higher Powers.

The Hierarchs have their own way of working, and man is in a very deep rooted state of animal. As long as I keep

going, I am the channel for the Vibrations and Powers of the Divine World to saturate and transform man from the beast back into his god-like state.

Here again I enclose a copy of the letter dictated to Mr. Harold Wilson by the Great Master, through me, and which was duly sent to him and all the newspapers.

(See letter on page 9)

Those of you who have been listening to the Master, are fully aware that these predictions are correct, and over-ride any lies and filth that Murdoch put in his tuppenny liar. I personally do not know what he put in there, and the many who would have repeated it, because they knew it was lies, were stopped, so the whole lot fell to the polarisation of the Greater Powers. Digger Murdoch is afraid of the Greater Powers, and he needs to be, for he has dug his own grave!

Dear Sir,

I am the man who wrote to the Police about the News of the World, and the loss of my little child by its evil influence. I do not know anything about your paper, but I know friends who do, and who in their firm opinion state that the evil written by the News of the World in their articles on Cults, about your paper, was utter malicious lies. I am confident that Murdoch, the owner of the News of the World and the Sun, is trying to save the face of the ill-fated Sun, which is a resurrection of the ill-fated Daily Herald that once struck Mrs. Spearman-Cook. This man and his directors are superstitious and afraid, and like everything they touch, are destructive. So perhaps it is now also the ill-fated News of the World? I for one would be pleased to see it die.

not be a more appropriate lecture for such an occasion, for it is truly a time of pulling out of the past and into the new.

To the student who has been going along this Path of Unfoldment, he should find this lecture very exhilarating and uplifting, for it declares of how the Central Sun Power, now pouring down in abundance, is the mighty rebirth of the mind. But only where the soul has been studying and replacing the old mind beliefs with the new.

It will be seen of how it refers to the present World becoming the Dust Particles of the Atomic LIGHT, the Divine FACE of the new. That is, all the old ideas being reborn into the new, and raised up into octaval LIGHT.

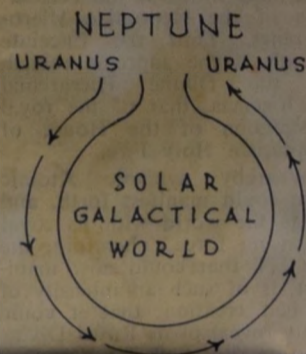

Surely, to those who truly believe, it must be very gratifying to know that the Old World with all its evils, is now at an end, and that the Race has been raised up back to its past position as a god, and now ready to ascend upwards, back to its forgotten EGO. All Planes have now been raised up, by my raising up their vibrations, bringing all vibrations to the level of my own. All it needs now, is for man to awaken out of his blindness, which he will do very soon.

For when I took the Arc away from the astronauts, the Central Sun conquered the false illusion of the moon. All it needed was someone prepared to be a Scapegoat and raise the Vibrations, for man would then be living in a VOID, and be forced to seek for support. Thus will turn to the Hierarchs or Higher Powers out of sheer fear.

Yet it will only be those who have built up a mind through Abstract wisdom, who will know how to go forth in security. But above all, no man can alter it, for it is the established LAW, unless they can find something greater, and they haven't the courage to go up to Neptune, let alone to the Outer World Ethers. But all men are now free to go on and build up the new Atomic mind of Truth.

We read a lot about Abstract Molecular blending, so it would be a good moment to seek into the true meaning of the Word molecular. This refers to the unification of all the molecules, or minute particles of the soul, into the unified state of the Atom. The Atom being the soul growth that is building a mind out of its consistency through the Breath. Thus here we perceive the pitch-blending of Atom to Atom bringing a state of Divine Oneness.

The soul receiving Atomic Breath from the heights, and ever reforming the soul by corpuscular unfoldment, until all the molecules of the soul are turned upwards to Solar ascension. No longer drawn by magnetic attraction, to finally become completely Neptunian born...

The soul came from Neptune to bring the Solar-Galactical World into birth, but refused to rise up above Jupiter. So by the corpuscular inter-change, the soul is transformed from the magnetic into the atomic, and then by the Word, into the Electro-magnetic.

So Merope was used as the Scapegoat, and rose up to Neptune. Firing all with the Glory of Uranus, thereby setting the next World into action, that of Theocratic communists Unity, a true World of Divinity.

Only those who truly strive will find their way into the next World of LIGHT, for the key to this World of Evolutionary unfoldment, is that of the Atomic Solar-born mind. Yet nothing more than was given forth in Revelations, thus bringing the Bible to a close. The seven Churches of Asia are the seven Chakras, which stand before His Throne.

(See plate above)

This is the Solar-born mind of the soul, born out of the Upper Ethers, and now the son of the Sun. A soul who has become a Christed one, having mastered all the Elements, and brought his Atom to molecular oneness. The map above, shows the different states of growth as they became the status of soul growth, but now all is captured and brought to the state of Divine manifestation as was intended. The fullness of this is in the Commis-sure of the soul, which has become the Mighty EYE of Divinity.

### The Seed of Solar Wisdom

THIS should open the way for Revelations to be read and understood a great deal better, but you must cast out all old religious ideas. Try to see how the Great Divine Breath is now the recipient of the soul, with the soul having become one with the Father. The whole of his being is Atomically ascended into Divine Oneness of belief and Desire. Once this is perceived by the sensitivity becoming

pliable and fluidic, the soul will become conscious of the true comprehension of "I and my Father are ONE."

Also how his Neptunian Waters are his wealth of mind growth, and only by continual oneness in Ascension of all things, will he become born of enfolded and unfolded, Glory. There is no end to this perpetuum of Divine LIVING fulfillment, but only by MIND ascension.

Not physical, for this is the bottom of the growth which man has clung to, and refused to let go. Thereby turning Shamash into Saturn, but now Merope has raised him up into the Royal Divinity. But man held on by a complete state of possessiveness. So even the selfless state of self, is a part of this mighty unfolding Glory of LIGHT.

There is such a tendency on the part of man to look past self and imagine that God is going to perform this independently of the soul. It is the soul that does the creating, with the mighty materials of God, yet it must not be hard and fast facts of intellect, but unfolding glorified awareness, born from the heart as Divine Intelligencia, so it does seem that this lecture is a brilliant opportunity of perceiving creation and unfoldment.

Thus the more the conscious mind becomes aware, the more the soul ascends in molecular unity. Of course, this is where we can see heights and depths becoming infused into soul manifestation, and being spermed by the Unknown Source with a new idea. Out

Prime Minister,

Mr. Wilson,

7th May, 1970.

I warned you of all this, if you did not break away from America, but you have ignored my many letters to you. For I was specially sensitised to become a Voice of Guidance in this bloody hour of Rebirth.

There has not been one prediction that I made to you, which has not fulfilled itself, including the taking of the so-called particle of the moon!

If you do not break with America, you will not only be tied to a divided England, with its 'rivers running with blood', but to a fallen country—America—whose economy will completely collapse.

The whole of the world is in a complete change, with you going up as Prime Minister, sitting on a red-hot seat. The future Parties will not be Labour and Tory, for the Tory is completely finished, but Labour over-shadowed by Theocracy!

You do not believe in Living Divine Powers, that have now taken the ruling of the Earth; Powers which we are consistent of, surmounted by a Mind. Man has made a horrible mess of 'creation', and these Powers have now taken over. Disbelieve this if you will, and do what you like about it, for I am now impervious to Earth destruction.

You were chosen for this job, because of your heritage; Neptune, your 1st house planet, being a vibration of supremacy. Laugh at this if you will, but what I am giving you is not a prediction, but a Royal Message of Guidance.

Gladys I. Spearman - Cook.

(Gladys I. Spearman-Cook).

(See text on page 8, col. 3)

of the blue the mind becomes infused with a glorified unknown belief.

Here we see molecular unification blending up in Divine aspirational magnitude, and as the soul aspires, the new thought bursts forth. This is coming forth from the all-consuming Fire of Scorpio, the Mighty Power of Generation surging the World with new LIFE. All coming forth in the Breath as the Solar-Galactical inflowing Prismic Glory.

The most important thing is being able to discern that all is within the soul, becoming the mind awareness. Whatever the wisdom be, remember that the Plane of Matter is the ever unfolding Plane of LIGHT, with what is gained, unfolding the heavens, the Great MIND of the Cosmos. For both

depths and heights are in harmony with one another.

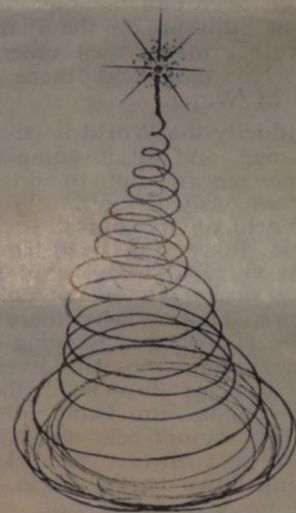

If mind light is blooming upon the earth, the Solar Glory shines all the greater, and accounts for the Central Sun at the present moment, for I am ever unfolding new ideas to maintain the vibrations I have gained.

Then again, another point that should help us, is the better understanding of the Etheric Body. This refers to the five lower Chakras, incorporated in the sixth, that of the Pituitary, and seeding the seventh with the Seeds of Wisdom. This is why the Pineal or the NORM, is called a Pomegranate, that emulated by the Egyptians in their Temple Pillars.

This unfoldment is to be found in the bloodstream, glandular attunement and heart-beat. With the corpuscular rebirth ever in a state of bringing change and greater molecular oneness. In the finale of the lecture, there is a small drawing that gives some idea of how the Etheric body and the conscious mind, in being unified and surged with the Breath, bring the mind and the risen Arc into birth.

But all is FIRE now, no longer lunar as water, but FIRE, the Glory of the mind. The Ether Enceinte World of God Divine infiltration, and is the mystical Secret lying in the FIRE within the Fire. For this internal state is the depths of the Atom being molecularised, and blending with the internal states of the Fire. Thereby God, the Unknown Divinity, now speaks through the Voice of the soul. Here is where the Atom has be-

come of Divine Oneness, and the soul is now ready to create a new being out of the old unified Atom.

Now I do hope I have helped you in this resumé, for it seems out of what appeared a difficult moment, a new creation of awareness is born, and a Divine Overshadowance will lead the Race in a new-born thought, a new outlook altogether.

Man is going to awaken to the Reality of Truth, with the FIRE from the Central Sun, the Essence of Divinity, ever Firing him onwards and upwards. As much as this may sound impossible, after the darkness and illusion we have been through, it is true, for man is going to be fed with eternal LIGHT through the internal alchemicalisation.

Man is going to accept and embrace things he would never have believed that he could do. For he has been completely reborn by his seven bodies having been pierced with the Royal Holy Light of Truth.

Gladys I. Spearman - Cook.

## Health from Herbs

HERBALISM is the oldest healing art in the world. Its history can be traced back through the civilisations of Rome, Greece, Assyria and Babylon, and even beyond. Herbs are foods as well as medicines, and build up the general health at the same time as they cure any specific disease. Unlike drugs, which are inert, they are made from organic material instead of inorganic substances, and form an active or living medicine.

Here at the School we have a large quantity of loose herbs in stock, which normally will readily provide for all our requirements. However, we have listed below some of our more popular herbal pills, specially prepared for those who find them more convenient to take in this form, during the hustle and bustle of their daily occupation.

Nerve Pills.

Heart Pills.

Catarrh & Sinus Pills.

Eye Pills. (Cataract etc.).

# ETHERIC REALITY

by The Lord Hierarch of Scorpio

(These are extracts taken from the Wednesday Lecture of 29th April 1970).

## MEROPE'S OPENING PRAYER

**G**REAT Divine Spirit, once again we gather together to make enquiry into the Word, and with all our hearts we thank Thee that we are being used to break up the evils of the Earth. At last we are realising that it is in the Etheric Body of the Earth that the Great Hierarchs are gathered together, and pouring down into the beings of all men, Wisdom. Thus, unbeknown to man, he is receiving these Truths, although at times it has to be received the hard way, when that is the only way that man will receive it.

As we awaken to this Mighty Truth do we, in our own turn, grow; do we become born of the Spirit, do we become nearer to GOD, for only by doing His Work, can we bring the World out of its misery and into the Glory that was intended. We are indeed blessed to receive of such knowledge, and for this we thank Thee, Great One, in the Name of Love and Service, AMEN.

## THE MASTER THEN MANIFESTED

PEACE be unto you all.

All through the Ages there have been those who have struggled to bring Light, but only ever to meet captivity and evil. But each one has played his part in leaving behind, in the hearts of men, Truth. Now the time had come in Relativity, when the moment was ripe for the completion to be made, but where was the One who would have the courage to combine the Central Sun with the Solar, and bring it into their own being? One was found, and Merope now has brought the Solar Light, in all its Glory, to the Earth. The Great Arc is born, and man is now under the ruling of the Hierarchs, but this will take time to fully manifest because you cannot just throw the World off its course. All is being slowly poured down from the Etheric Body of the Earth, and all men are now living under its Law.

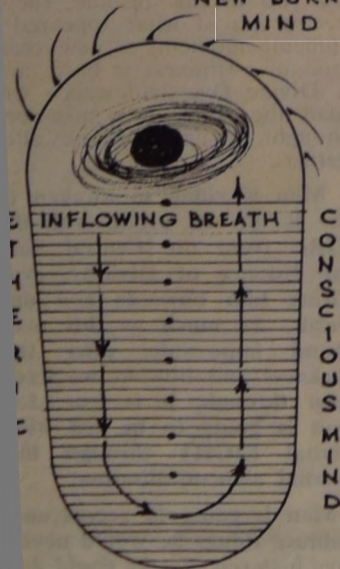

★ ★ ★

**T**ONIGHT we are going to seek more deeply into this, and perhaps you will be able to see the Glory that has now been performed.

Now I want you to look at this plate (see plate on this page). At the top you can see that of the Etheric or Reality, with the illusion pouring down into the substance of matter, and being built up by man. He has only built up on the Plane of Water, and not on the Plane of Fire, but now through Merope's actions, all is being built up on the Plane of Fire, in man's own etheric body. No longer is there a Plane of Water.

Gradually the World is going to change, and all is going to become reborn, but to do it instantaneously would throw the World off its course. So its etheric Body has been completely changed, and everything now receives is on the Plane of Fire. That is why there is all the discord that is going on at the present moment. Everybody is being disturbed; their etheric bodies are being Fired, and they cannot bear it, but do realise that this is New Life coming down to the Earth, so have no fear, all is well.

RISEN ARC AS  
NEW BORN  
MIND

Now here is one of Merope's drawings. In the centre represents the spinal column and the inflowing Breath. The inflowing Breath flows down through the etheric body, reaches the depths, is broiled, and then goes up to the heights. This is done twice, ways twice, because the second time this goes up, there

is the Drip that is going to drip down and cause the conscious mind to awaken. When it does awaken, it builds up the new-born mind in the risen Arc, or your risen Aura. The etheric and the conscious mind have blended together, through the inflowing Breath, and the New Light is born out of the Word that Merope is bringing to all of you.

Now it is very important that you try to follow this. At the present moment man is completely blind; he is rising up out of the darkness, and only understands of 'bricks and cement', when really what he is seeking for is the glory of the Spirit, that of Immortality. He is seeking for life everlasting, otherwise he will just die, he will disintegrate, and no longer be a living, thinking, creation. Every one of you are striving to get back Home, and make the Ascension back up to the Planes from which you came, otherwise you are nought.

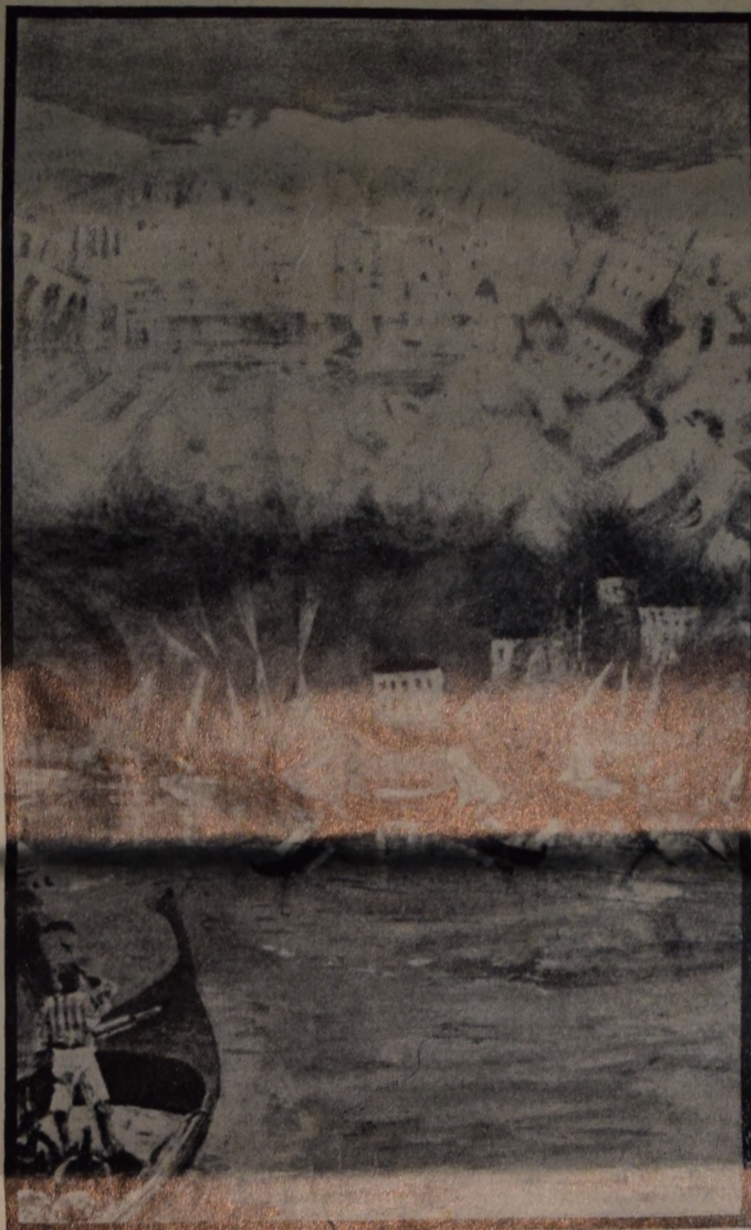

★ ★ ★

**N**OW having put that into your minds, let us turn to the words of the lecture which was brought on the Sabbath, and try to bring forth of a greater understanding.

This mighty Atomic inflow from those extreme heights, is the Power of the Solar Central Sun Union, and is the Seed of that Atomical Divine unification. That now to be used as the drip of the condensed Divine Wonders of the Neptunian Reality, as Pure Spirit. Such Royalty and magnitude is entirely beyond man's grasp, and only when he begins to awaken will he realise the wonders that are the depths of his consistency. Yet it is such beauty that will be the means of feeding the soul, through the unceasing activation drive of the new regenerative Holy Fire. The mighty Wealth of the Heavens, as the untold Glory to come forth as the internal Divine Mystery.

Q...The Central Sun Union is the Holy Fire, which creates the Reality?

A...Yes, and this is where man must realise how royal he is, and how he must reverence his Fires. The Central Sun Union, which comes down in its Royal Unification, is that of Scorpio and the Outer Chromosphere Crust; this is

THE REALITY OF LIFE

**H**ERE is the great Etheric Wealth of the Heights, pouring down its glories into the depths, but only to be turned into lunar waters by man, as he wallows in the Water Plane of his earthy desires. This is the true Reality of Life, the mighty wonders of the Breath, and that which now has been redeemed and established by Merope, as she raised all up to the Divine Mind Plane, the Royal and Holy Plane of FIRE, the unfolding Supreme Glories of the Central Sun. (See text in col. 1).

the Intelligencia, and becomes the Divine FIRE that man breathes in as the hydrogen in the Breath.

This really is the Pure Spirit, but as man takes these Fires, they have to go through the alchemicalisation of the soul. So they go into the etheric body, are broiled in the depths, and then rise up to the heights to flow over the brain and drip down behind the nose, from the pituitary onto man's sensitivity, there to awaken him to the glories of the heavens. But if he does not send his Fires upwards, he only remains as an animal in the depths.

Drip, in dripping down onto the sensitivity behind the nose, continues down onto the palate, and comes out through the speech. The soul has so awakened, by his belief, that Divinity now speaks through his mouth.

★ ★ ★

**D**O make sure you understand this, and how everything comes through the etheric body; everything is

When man takes the Word to himself, and drives these Fires upwards, they then flow up to the heights, through the infundibulum, onto the pituitary, and drip down, all in the etheric status, onto the upper testes at the back of the nose. Then, through whatever sensitivity he has awakened, will he know of the Great Mystery and Wealth that is being divulged unto him.

These are the Great Wonders and the Mighty Wealth of the Heavens, that as the soul gradually awakens, become the glory of the mind, until eventually the soul has so awakened his conscious mind, that he realises that he is just a sheath to hold the Divine Wonders of the Godhead. This is where the

born through the etheric body, and this is what is happening in the World today, and so it is changing, though unbeknown to man. Man is going to awaken, but there always has to be the one who suffers, to set the prototype for the future; one who is prepared to renounce all and become the Scapegoat, that new thought and new understanding can be brought to the World.

It was because Merope made one of her last big efforts, in going on a Fast, that she has won through, although for the moment you cannot see it, for all this does take its time. However, it is established—so much so, that it caused the dirtiest newspaper in the world (the News of the World) to try and kill her, but they did not know Merope! We instructed Merope, and all in the Temple, not to read their lies, so that no word of their evil interpenetrated into the Temple, for the Temple is the World of FIRE, the World of VEGA, being built up for the future.

Now that newspaper is going to be cleansed, far more than they realise, and they are going to meet up with some of the biggest difficulties that they have ever had to meet! But Merope, in not being touched by their dirt, thanked them for the power of the five million readers, and used it to enable the Hierarchs to enter. There were five million souls who would not seek into the Word—well, now they have been made to—and the Word has entered into their etheric bodies, and they are alight with it.

Now it is going to continually agitate them, and drive them, until they make it become the wealth of their conscious minds. So although Merope had to receive their 'jibes and brickbats', which as the Scapegoat she knows will continually come, much has been achieved. Always where Truth is being given, it is rudely received. It is not welcomed, for man only seeks for the illusion, and plies his wares for evil, but have no fear, for the World is now reborn, and being filled with Truth that it has never known before.

## The Divine Invocation

**G**REAT Holy One, pour down Thy Glories into this Cup of Sorrow, that as it is taken and drained unto the dregs, its Great Wonders may become the Cup of Life, and all men become born anew. Holy One, we thank Thee that such Truths have been revealed unto our hearts, that we are privileged to become aware of the Mighty Wealth that now lies in the depths of mankind. For as this is born, will man rise up and evil drop away, and the New World of MIND and THOUGHT will come into birth, with all its wonders. We seek Thy Blessings upon this Cup, as Merope, the Great Goddess of Thy Love, drinks of its Beauty. (Merope then drank from the Altar Cup). Thy Blessings be in abundance. Now Ra, the Great One who earthed the Mighty Truths of Thy Royal Kingdom, has at last been redeemed, and is One in Thy Great Name. AMEN.

But Merope, in not being touched by their dirt, thanked them for the power of the five million readers, and used it to enable the Hierarchs to enter. There were five million souls who would not seek into the Word—well, now they have been made to—and the Word has entered into their etheric bodies, and they are alight with it.

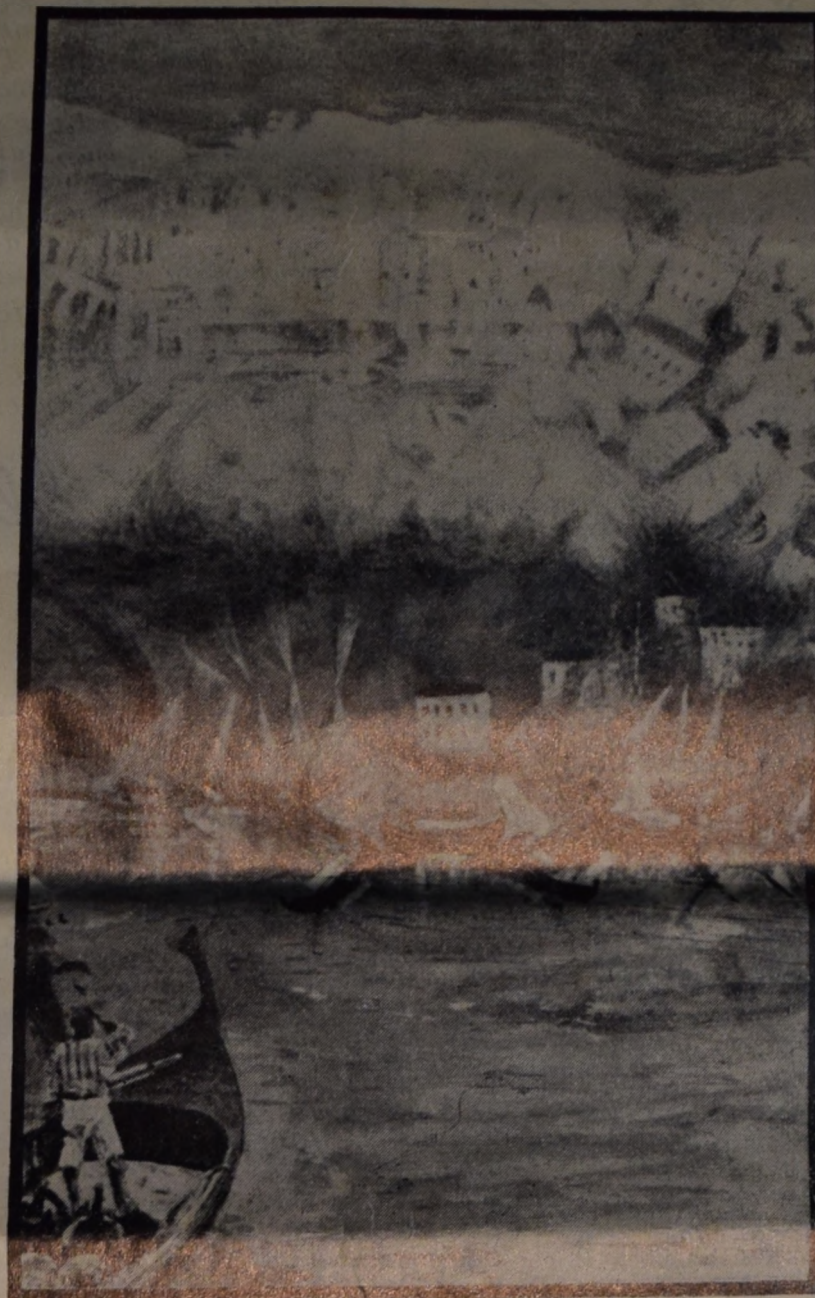

Now it is going to continually agitate them, and drive them, until they make it become the wealth of their conscious minds. So although Merope had to receive their 'jibes and brickbats', which as the Scapegoat she knows will continually come, much has been achieved. Always where Truth is being given, it is rudely received. It is not welcomed, for man only seeks for the illusion, and plies his wares for evil, but have no fear, for the World is now reborn, and being filled with Truth that it has never known before.

## The Divine Invocation

**G**REAT Holy One, pour down Thy Glories into this Cup of Sorrow, that as it is taken and drained unto the dregs, its Great Wonders may become the Cup of Life, and all men become born anew. Holy One, we thank Thee that such Truths have been revealed unto our hearts, that we are privileged to become aware of the Mighty Wealth that now lies in the depths of mankind. For as this is born, will man rise up and evil drop away, and the New World of MIND and THOUGHT will come into birth, with all its wonders. We seek Thy Blessings upon this Cup, as Merope, the Great Goddess of Thy Love, drinks of its Beauty. (Merope then drank from the Altar Cup). Thy Blessings be in abundance. Now Ra, the Great One who earthed the Mighty Truths of Thy Royal Kingdom, has at last been redeemed, and is One in Thy Great Name. AMEN.

## THE REALITY OF LIFE

**H**ERE is the great Etheric Wealth of the Heights, pouring down its glories into the depths, but only to be turned into lunar waters by man, as he wallows in the Water Plane of his earthy desires. This is the true Reality of Life, the mighty wonders of the Breath, and that which now has been redeemed and established by Merope, as she raised all up to the Divine Mind Plane, the Royal and Holy Plane of FIRE, the unfolding Supreme Glories of the Central Sun. (See text in col. 1).

the Intelligencia, and becomes the Divine FIRE that man breathes in as the hydrogen in the Breath.

This really is the Pure Spirit, but as man takes these Fires, they have to go through the alchemicalisation of the soul. So they go into the etheric body, are broiled in the depths, and then rise up to the heights to flow over the brain and drip down behind the nose, from the pituitary onto man's sensitivity, there to awaken him to the glories of the heavens. But if he does not send his Fires upwards, he only remains as an animal in the depths.

Drip, in dripping down onto the sensitivity behind the nose, continues down onto the palate, and comes out through the speech. The soul has so awakened, by his belief, that Divinity now speaks through his mouth.

Mrs. B. G., Staffs., England.

"Her balance is affected, and she cannot walk. Her condition is referred to as Friedrich Ataxia, and is due to loss of power in the spinal cord. (Chart 1604).

I AM very very interested in this Chart, because what I can tell the owner, is something which has applied to me.

You have done exactly what I have done. You have taken untold Wisdom, and you have got to try and make that Wisdom live. But this is where it is necessary to have a male, or the masculine folk to help you by feeding you with wisdom, so that you can do the weaving.

This is the first Chart I have seen where the owner has the same disability as I have had to cope with; but then, I have expected mine. I have had to take Wisdom completely out of the range of anybody else's understanding, and I needed a number of males who could feed me with Supreme Wisdom, but since these were not forthcoming, the Great Master is feeding me with the Wisdom. To be able to get that unknown quantity, that unknown wealth, through one's own mind, with its limited thoughts, was very difficult, but this is where the Mighty Wealth in the "Occult Gazette" is coming from.

The only way in which you are going to receive any help is by studying the Wisdom, such as is contained in the "Occult Gazette", which will help to bring you 'expansion'.

You are Sun in Gemini, and so am I. Your Uranus is also in Gemini with the Dragon's Head, and your Mercury is in Cancer, and as all of these are in the 9th house, it indicates what mighty wealth you have got in your depths.

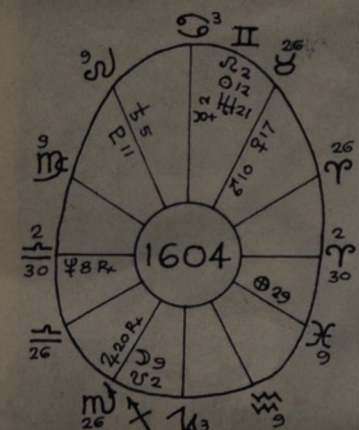

Your sickness is nothing to do with the physical at all; it is due to your spinal cord having been tuned-up to such a dynamic frequency that your mind cannot cope with it, neither can your legs, which are your expansion.

At the bottom of the spine there are what are called striated muscles, which come down from the spine all around the legs, carrying the nervous frequency from the spine down to the legs, causing the legs to expand. Well,

your legs cannot take this expansion, because you will not be able to get it down the spine until your conscious mind is aware of what this depth literally means.

You certainly have an extraordinary Chart. I have never seen any other Chart so symbolic of the Great Wisdom which I have been wrestling with myself, which shows what untold depths you have within yourself.

Whatever the vibrations are around you, you have got to try and find expansion!

**Your Path of Destiny in Pisces in the 6th house, and Neptune in the 1st house, indicates that the wisdom you have had expanded goes right back to Neptune. You have 3 Air bodies and 3 Fire, so your Path of Destiny is telling you to get the intuitive mind expanded.**

What would be inclined to hold you up is Saturn in the 10th house, which is practically conjunct to Pluto in Leo. So you have got old religious ideas, which are playing havoc with you; they are holding you back to a degree. Also your Mars and Venus—which should be dancing together in harmony, helping you to get this expansion—are in the 8th house, that of the 'pit'.

There is so much wealth in your Chart that one does not know where to start to bring it forth for you. With Neptune in the 1st house you have mighty wealth: there are very few females with such a Chart, but you have got to get your wealth raised up to extreme heights to be able to get this Neptune into birth.

You are quite young, being only twenty-three, and it seems to me that you have begun to

take on of your karma very quickly. The only answer to all your problems is for you to get expansion. Yet when I look at your Chart again, I see that your Jupiter is retrograde. This is rather sad, because, being in your 2nd house in Scorpio, it indicates that there is a great deal of karma with you.

There is no doubt about it, that in getting your Neptune into the 1st house, you were not able to deal with it: you were looking into the Wisdom, but you could not take the come-back of the Power. As I am saying this to you, I am seeing with you a baron's wife in the Middle Ages, where great expansion was set into operation by her.

A lot of wisdom was gained round about the time of Elizabeth I, and many women gathered of this wisdom. But one can go right back to the time of The Crusades, when the women gathered this mighty wealth to give their husbands the expansion they were seeking, which they often went into monasteries to try and find.

What has been earthed in the name of Occultism in the past is unbelievable, and I feel that what you are experiencing in this life is to do with that expansion which you made in the past, whereby you brought your Neptune into your 1st house.

Although you have a number of retrograde planets, these are going to right themselves as the years go by, if you seek into the Wisdom. However, if you do not get your mind expanded in this way, while you can, you will never walk. But you will be able to walk, if you get the Wisdom expanded.

Your Neptune went direct when you were seventeen, so that is all right. Your Mercury goes retrograde when you are twenty-eight; so you have really got to try and get some expansion before 1975. Your Jupiter becomes direct when

you are forty-three, and your Mercury becomes direct at fifty-three.

Now you can see how, in the past, you have been delving into intricate wisdom, and how you have not brought it forward as you should have done. I am able to speak to you in this way as a result of my own experiences, but then, my duty was to establish the Wisdom to change the World. However, it would have been people like yourself who started this off, and are the foundation of much that I have put into operation.

By going into the depths of the Wisdom, and getting it into your conscious mind, means that you are treading it into the Earth, and it is in this way that you will be freed from the restriction upon your spine.

I would like to hear from you again, because I am very very interested in you.

Meanwhile, I would recommend the herbs Mistletoe, Sage, Rosemary and Rue, to help you in your efforts of mind expansion.

Master A. S.,  
Edinburgh, Scotland.

"Is eleven years old, and covered from head to foot with Psoriasis." (Chart 1603).

THIS young man's Sun is in Pisces, which of course is ruled by Jupiter, and Jupiter is in Sagittarius.

Here again is a Chart that speaks of untold wisdom, but also of one who had delved very very deeply into religion. It is amazing to see from various Charts how many people have been caught up by religion and have been brought to a very deteriorated state mentally, by the restriction which religion has placed upon them.

I rather feel that this young man was a monk at some period in the past, and went to a great extent to get his wealth established. His Path of Destiny being in the 12th house, he now has to try and get the wisdom of his Sun in Pisces established.

His Mercury, as well as his Sun, is in Pisces, while Venus and the Dragon's tail are in Aries. So his Path of Destiny is in the 12th house for him to

start becoming a pioneer. If he does not become active in this direction, then I am afraid the psoriasis is going to become very deeply embedded into the flesh.

Well, the best thing I can do is to appeal to the parents to help him all they can to get his mind expanded, and to tread-in the wisdom he has taken in the past, and which he has not sent back to the Heights as Light.

In your 8th house, young man, you have Saturn and the Moon, which means that you are curiously mixed up with the dogma and ritual of religion as well as Occultism, and would find it very difficult to get these clearly defined within your mind. You may have come forward in this life with just the ritual and dogma uppermost in your mind, but then there would always be an under-current of Occultism which would clash with it.

Your Sun and Mercury in Pisces is very important, but would be inclined to make you very very lethargic and slow, which is not good. At the same time you have Aquarius in the Midheavens, which has a great linking with skin complaints.

Now these two wavy lines of Aquarius must become blended up, so that they are working in harmony with one another, and become electro-magnetic. At present you are only of the magnetic, and you will not change. This may sound odd, but it applies to nearly everybody,—those seeking for wisdom but who will not change, and those who have wisdom but are not applying it properly.

The very first step to take to overcome this condition of psoriasis is to make a change of diet, such as partaking of green vegetables like watercress, which contain chlorophyll. Tomatoes would not help you, because of the false fire they contain, and the intake of bread, potatoes, cakes and sweets should be avoided. I realise this will not be easy for a young boy of eleven years of age, but your Sun in Pisces will demand it!

You do not know what progress you have made in a previous life, and could have partaken of an extremely refined diet in the past. For instance, Jupiter in Sagittarius, and Neptune in Scorpio, are two very profound points, both indicating that you have delved very diligently into wisdom, at some time or another. You may well have a linking right back to the Middle Ages, when the monks were delving into Occult sciences, and you could have taken untold wealth at that time.

The Marigold Flower herb is extremely beneficial to sufferers from skin complaints, and I suggest that this soul should be given an infusion of the herb to drink. A Marigold bath should be taken, or the affected parts bathed with an infusion of this herb. For this purpose, a quantity of Marigold should be placed in a bag made of some porous material, and left to soak in hot water until needed. Alternately a Chickweed bath could be prepared in the same way, and would prove equally helpful. I would also recommend our blood-cleansing pills, which will be very beneficial in such a complaint as this.

# PROMETHEUS

Continued from the back page

one; all interblended into the one soul creation above the rings of Saturn).

Prometheus as the god Ares in the form of thought is Lucifer, or Mercury the god of light, and is the friend of the human race. For he is the giver of fire and becomes the energy in the soul. (It is by Mercury, knowledge, the wisdom of the Word, that you raise the fires and bring the energy into birth); thus the inventor of useful arts, an omniscient seer and an heroic sufferer who is overcome by the superior power of Zeus, for he will not bend his inflexible mind which is the absorbed will of the gods. He assisted Zeus against the Titan, so his records tell him, and he also knows now that he opened the head of Zeus when the latter gave birth to Athena.

But when Zeus succeeded to the kingdom of heaven and wanted to extirpate or root out the whole race of man—the place of which he proposed to give to quite a new race of beings—Prometheus as Ares prevented the execution of the scheme. (So each equinox brings into birth a new race of beings, particularly Aquarius). This resulted in man being happy with just knowledge and receiving diplomas for being so clever as a text-book repetition-er, thus causing deprivation by not sending the bread out onto the waters and feeding the multitude. This results in merely giving forth fire of unprepared wisdom which will turn into ways of self creation and not selfless. Thus Prometheus deprived them of their knowledge of the future, and gave them knowledge as hope instead.

Yes! he taught them by his action the use of fire, and made them acquainted with architecture, astronomy, the art of writing, the art of prophecy, workings in metal and all other arts. Therefore in all these things he acted contrary to the will of Zeus and so he ordered Hephaestus as Uranus to chain him to a rock in Scythia, and this was done in the presence of Cratos and Bia, two ministers of Zeus. The former two were strength by violence and mastery; the composition of Aries. So he merely took on a state of fighting and warring.

While he was on the rock he was visited by Oceanides, the foam of emotion, while Io the feminine principle came to him and he foretold her of the wanderings and sufferings which were yet in store for her through his action, as well as her final relief. (So Prometheus then would be the god in the heights as the personality chained to the rock, as Io (the feminine principle) labours in the depths.

Now you have been able to see the whole heights and depths in one go. So he can only send down what he knows while chained to the rock). Then suddenly Hermes appears as wisdom breaking through, and desires him to make known a prophecy which was of great importance to Zeus; for Prometheus, through the fire he had taken, knew that by a certain woman, Zeus would beget a son who was to dethrone his father; but Zeus wanted to have a more accurate knowledge of this decree of fate.

## The Everlasting Solar Changes

PROMETHEUS steadfastly refused to reveal the decree, although he had revealed it to Io; whereupon Zeus, by a thunderbolt, sent him down into Tartaros together with the rock to which he was chained. This was Hades, the night of experience, because

he failed to expand the birth of the fire he had stolen. After a lapse of a long time, Prometheus returned to the upper world to endure a fresh course of suffering, for now, by the fire he had taken bringing expansion in polarity, though unknown to him, he was fastened to Mount Caucasus and tormented by an eagle.

(So by taking the wisdom it forced the heights down into the depths, and the soul had to then go into the night of suffering where the soul was completely blank.

Then suddenly the depths were revealed to the soul and it went up to the heights, but the soul then was chained to the rock to try and bring that into birth by action. And that is what is happening to all of you: it is the only way that is going to make the soul expand, and the very prototype, which of course is the plan or the heights of the gods, come into birth).

This creature every day and every third day devoured his liver, which was restored again in the night. (The night of course is when the soul goes down to struggle).

This represents the fire eating its way through the human mechanism in alchemicalisation and metamorphosis, bringing changes in the soul life. This on every third day enforced further new acceptance by liver metabolism which ravaged the soul, but was restored every night as the spirit scaled the heights and left the offending mind in the depths.

Here was the secret of the devourer who was encroaching daily and forcing its way into the soul as new life. This was known to the Egyptians as the Crocodile god, or the Khuis, the glorious ones completing their task, and the state of suffering was to last until some other god should take his place and descend into Tartaros for him.

This came to pass when Charon the ferrier of the boat (the Christos-state coming into birth and passing backwards and forwards over the waters) who had been incurably wounded by an arrow of Heracles, desired to go to Hades, and Zeus allowed the exchange.

But the real truth, which was kept secret, was when Zeus himself delivered Prometheus; for some had prevailed upon him to reveal to Zeus the decree of fate, and that was, if he became by Thetis the father of a son, that son would deprive Zeus of the sovereignty. Which indicates that that son as the solar child would perform the work of Zeus, thus Prometheus would be saved from all the pain and anguish that was enforced upon him by taking the fire and using in whatever way he so desired. So he must labour one way or another, but he had to choose which way; that was his prerogative.

(Now Cheiron is the coming state of the Christos-light and represents Christopher going backwards and forwards over the waters. But before Herakles became the hero he wanted the Christos-light; so to save the soul the Christos-light said "Let me go down into Hades and let him be released from his pain". This is the Christos blood that is prepared to go down into Hades to change your Hades-state and consequently bring up the Lares, the Penates and the Manes, which is bringing up the depths to the heights.

The Solar light is ever re-

volving around the soul when the soul brings the solar-god into birth. So if you do not bring a solar-god into birth you will never get it revolving and you will everlastingly remain in the depths.

While you have only got Zeus to enforce on you expansion, and you have no solar-god revolving within your midst, you are going to be in pain and anguish. As soon as you get a solar-god built up within you, and you are not continually sent down into the depths by creations around you, then you will be able to bring relief from the continual pain you are being forced into).

THE CURSE OF KNOWLEDGE

LET the soul who would steal the Fire of the Word beware the wrath of the gods, for one day Uranus, as the Law, will strike and call him to account. The New World now coming into birth is not going to be a haven for 'pirates'; only those who are prepared to labour with their minds and return the Fire unto the Heights, as Light, will be allowed to enter in. Those who would only take the Word as knowledge, merely to increase their 'intellectual prowess', will find themselves chained and tormented by the Fires they have stolen, until they learn to honour and live the wisdom they have taken. (See text in col. 4).

Prometheus was one of four brothers, the others being Atlas, Epimetheus, and Monoetius. Atlas was the supporter of the neck vertebrae, as the doorkeeper of mind memory; Prometheus was as forethought and Epimetheus as afterthought, while Monoetius was to think, to have in mind, and were the quadrature of continual earth creation.

These sons were produced by Clymene the Oceanide; the water creation that produced the bindweed that could climb and reach out of its depths to the heights as light, its organ being the spleen in man. She as mother Mem of ancient Cancer establishment was very proud of her sons, for Atlas as the idea became the bearer of the pillars on which the brazen vault of heaven rests. While Prometheus and Epimetheus, forethought and afterthought, were to be closely connected with the traditions of man; that of unwritten posterity as belief established, to become established creation.

(The 7 neck vertebrae represent the 4 lower chakras or the 4 lower vertebrae out of the 7 of the heights as the quadrature, and the last three as the 'golden apples' which you are seeking to capture. When the neck caves in it is because Taurus has found no stability; there has not been the drawing in of the Word, and no drawing in of Truth. This is the beginning of man taking the downward trend and walking on four legs.

I know you will not find this easy to understand, but I am bringing you Truth. There are many at the present moment walking about with spinal collars, trying to hold up the

ing into birth very soon, and so you see I am trying to bring you an interception, or an interpenetration of what happened in the past; what was set down as the prototype, what man has failed to do, and what he is suffering with now, and what he must do to go back and remedy it).

## Mind Growth and the Fires

IN the beginning, man suddenly took the idea, and in so doing by stealing the fire, had to hold up the heavens; the old or ancient state of the godhead was holding it up. Then he was continually bringing in forethought and afterthought, which was bringing the establishment of the four-square. He was ready then to master the giant and go up to the heights himself as the sun-god and then seek to capture the 3 golden apples—the other three vertebrae—which would unite the pons varoli, the mind-memory, and the arbor vitae, as the tree of life, and there make a complete oneness of illumination, that he became then as the teacher of mankind. (Now that is the whole story).

As soon as the light of day made dawning with him, Prometheus, as Ego, fashioned the first men out of clay, and Athene as the knitter of network to the fire, breathed a living soul into them as necessity; the root seed of wisdom. But these first men led a savage and uncultured life, for the germ of all mental faculty and gifts lay dormant within them as WILL, which,—as the one thing that was necessary, and the gift from Helios,—was lacking in their development. Without FIRE of the SPIRIT to kindle their hearth, they could neither "cook" their victuals nor exercise useful arts: (they began to lose the spirit).

Therefore the god Zeus had no good-will to the creatures of Prometheus: he foresaw that if they once became possessed of fire, they would no longer be immediately dependent upon the will of the gods and the gifts of Nature, but would be carried away by their arrogance to utter impiety and crime. This would be the polarity of reflection where the Waterman would have no water in his bucket to pour into the mouth of the fish (the Word). He therefore refused them the gift, but Prometheus, full of love for his creatures, would not stop half way but would make them complete even against the will of the gods.

Creeping secretly through as alchemicalisation—the gift of the bindweed from his mother Mem to the hearth of Zeus—he stole a spark of the heavenly fire, and as Jack-of-the-Beanstalk, brought the mysterious fire down to earth and kindled from it the first fire on a human hearth. This in later times in the myths became the harp and the goose that laid the golden egg. Other legends relate that Prometheus took a dry twig, first fruits from the belief, and approached the chariot of Helios as he drove past as Ra: the twig caught fire and Prometheus lighted his torch with it, and knowledge sprang into life.

Yet whichever way it was acquired, Zeus could not recall the gift once taken, but Prometheus had to pay dearly for this bold denance, by a state of growth which had run dry, being caught up once again and given life by the solar fire moving through the bloodstream as vitalic fluid in some degrees of consistency. For every soul who takes of the fire must learn to spin it in some way or another into

neck. Venus has refused to labour in the right direction and Taurus has broken down. The very heritage of the soul which is in those 7 vertebrae at the neck, which joins the pons varoli and the arbor vitae into the united band of one-ness, have become completely distorted.

Man in the beginning was as Atlas, the supporter of the neck vertebrae, the giant. So it means that at some time or another the soul has taken wisdom, mastered the giant, taken the giant away, and was supposed then to go on holding up the world themselves. But they have refused to do this, and now the neck has broken down; they have failed to carry out what they put into operation.

At some time or another this is going to come in greater abundance, and then you will not be able to remedy what you have remedied by drugs, spinal collars, and spirit healing. All this is con-

the flame of the mind as awareness, otherwise it goes down into the depths as magnetic action, or raw fire, and is buried under the rock, with the soul being chained to that rock.

Then the alchemicalisation by the solar fire, the saviour, slowly moves out of the captured raw fire, as a burning stream of life experiences; that which should have been a mind growth of living vitality. Then the soul, by a mode of expansion through the ages, catches up in mind growth by the degree of fire stolen. But there is always a time when the soul becomes aware of their failure to comply with the laws of life, for every soul comes back to the earth to labour and make the growth required to become free of the earth vibrations that keep them chained to the lower stratum.

As already portrayed, Prometheus was fettered to Mount Caucasus (the depths and the heights of the rock) as the heights gained through enquiry and curiosity; but Caucasus in its right of definition indicated a cup of burning fire that must be drained to the bitter dregs. After centuries of

(See plate on this page)

this torment had passed, Herakles as the solar god in his wanderings, took the form of the will wrestling with growth and came to Mount Caucasus. This was the son, as the solar-Hero, gaining enough strength to climb these heights in awareness, through that already assumed. This would be the soul struggling with the Cancer Equinox that it had fallen back into, through taking the fire in the Leo Equinox in the days of the Golden Age.

Prometheus is the Fire-god, and really came forth before Zeus and even Cronus: they did not make their appearance

as active creation in the human Race until the beginning of the Taurus Equinox, somewhere about 3900 B.C. Then at the vernal (Aries) equinox they began supplanting the fire god by a calendar containing the full period of days, but the six Hours were not being embraced: (they were not embracing the Spirit, they were

not embracing the Horae), for they had begun to lose the wealth they had of spirit wisdom, endowed upon them by the gods as they made their descent into matter. This alone indicates the heights and depths being spanned by Prometheus for the first time in the human form.

The solar god, as Ares,

pitied Prometheus as he lay chained to his rock through ignorance now embraced, for pride as egoism has now long been tamed; so after shooting the eagle, as the Bull's Eye (Aldebaran), he freed him from his bonds. This was the unity now being made through Scorpio, the Eridanus flowing down into the generating depths, and being embraced and established by the young lunar soul in its solar struggle. And when a soul as a spirit can pierce the heights, he establishes his name on that constellation, which becomes the final feat of Ulysses.

So at the intercession of his son Harakles, Zeus agreed that Prometheus should go free, but he must always wear a ring in which a piece of the Caucasus rock was set, as a symbol of his indissoluble connection with the mountain. This would be his seal and anchor as the spiral growth earthed to karma, and from that base would he have to draw.

As soon as men became possessed of fire and their material conditions improved, they began to forget their gods, as it was prophesied. So Zeus resolved to send trouble and sorrow to them, and it was by the means of woman that trouble would come into the world; for Hephaestus, the skilful artificer, by command of Zeus, fashioned the first woman out of the human clay; while the gods sent Hermes to lead her to Epimetheus, afterthought, the brother of Prometheus. (So when man came away from the god-state, he had to have the feminine principle brought within his depths to labour for him, because he went down to the depths).

The soul having dropped from the heights into the depths, has gone on taking the Fire, but not as the Spirit; consequently he now is either in a dead state or struggling to

get back. You are struggling to get back because you have awakened. Don't wait, struggle on; struggle to find your heritage, and you may be very much amazed at what you can resurrect; but you will only do it by making your will become the Will of the Gods, and discarding those states that are hampering you from finding your true state of heritage.

I know what I have brought to you is wide and deep, but if you can take this into your mind, then you have the first basic for the rest of the legends. These legends were not just fairy stories, but the very crux of man's fall into the depths; how he continued to take the Fire, his refusal to recognise the Gods, and now the diseased state he is in. He has reached now the half-way of the Equinoxes and he has got to try and find re-birth. He will not do this by knife and drug, but by undoing himself and climbing up Jacob's ladder.

### The Closing Prayer

SO as we come to the end of a very explanatory understanding, one that holds great depths, We call upon the Great Ones to bless that Word. We seek that each one here now will be given that expansion, and will be given the fructification to move onwards. The urge and the zest to become one of the New Stream that can bring New Life to the earth-plane. We call down the Fire that will intermingle as the Spirit with matter, that will give New Life to each one as they struggle. Bless them, guard them and guide them, and give them True understanding as the Word becomes fruitful on its journey. AMEN.

THE CUP

EVERY soul must now drink of this cup of burning fire, for this is all the wealth of the etheric body, born out of Time and experience, which now must be reborn into the Light of Solar Consciousness. When this is accomplished, the soul will have entered onto the Mind Plane of Vega and become a true son of the Sun, a cosmic priest of the Great Divine Fatherhood, the Royal Intelligencia of the Theocratic Universe. (See text in col. 1).

into motion that which, up to the present, has only been a supposition and belief, to now become a reality. Therefore, it must be seen that the New World is the royal wave-band of the Solar formation of the Sun in Scorpio manifestation.

For all now is set for the Atomular re-grouping of Atomic Powers, all being of the Wave-band of the Etheric conscious perception. This now being the new Theocratic ruling of the revolving NORM of Merope, whereby all will be infused by the revolving infinity of its dynamic wisdom.

This is where peace is the revolving rhythm, and becomes that of the Divine immersion of royal Atomic belief. Hence becomes the holy royalty of compassionate resolve, setting the warrior off on a new pointed direction. Therefore, all of the Fire has now become the reality of the atomulated wealth of Timelessness, and is the swaying of the cradle of Theocratic revealing wonders. Thereby bringing into birth the unfolding magnitude of rebirth.

This is the re-moulding of the enceinte capital gains of the transmuted soul's internal depth. For as Merope so changes, will man now be systematically led upon the Atomic thread of the new revolving spindle. Thereby unconsciously winding up onto the revolving Planes of rebirth. (See diagram in col. 2)

That of majestic corporeal justice, born of the effluvia of the aspirational might of the inner etheric consciousness. That which, through laboured acceptance, now becomes the mighty strength of its retali-

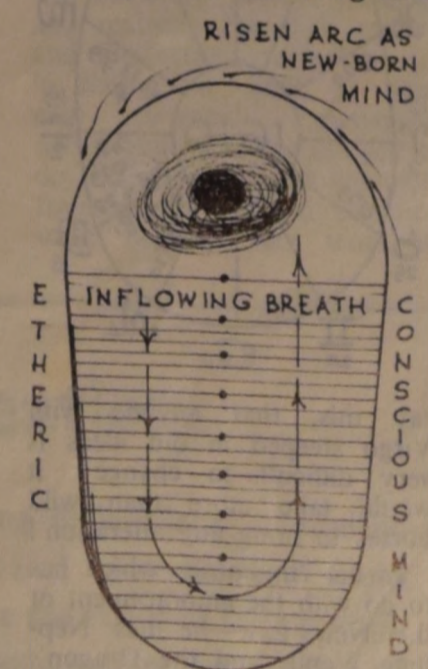

ing Powers. The ever involving abundance of the Great Unseen mystery of LIFE, for Virgin enceinte perception is Atomic interception of the radiating etheric Seed. Whereby cosmic royalty, the induced Presence through vibrational accord, manifests the Enceinte Voice. Here again we see the outgrowing beauty of the uprising pistil out of the pure White Sheath of the Lily, which gives it protective covering.

Here is the Power of the Vibronic Atomic Ethers, for now all is counter-balanced with Enceinte virtue. Henceforth, all will be born of Atomic Seership, which is the Power of Neptunian fortitude. This being the only real strength of the Scorpionic inflowing Fire, which the Virgin is weaving into the glorified beauty of aspirational LIGHT. Therefore Salamander expansion is the Atomic nucleus of the Hierarchical Virgin Seed. That which now, as once the old worm in the gourd, is the Atomic Pinnacle Point of the golden mitotic spindle, gathering up the thread of Divine Ascension. Thereby bringing the Divine Mystery of LIFE into manifestation.

The unseen inner depths of the FIRE within the Fire, as the secret inner depths of that Mighty Mystical profundity unfolding, yet respinning up through the nucleus of the Atom. While the respinning of

the thread is the answer to the relativity riddle, and is the etheric royalty claiming its own divine internal depths. The mighty oneness, born out of the duality, giving of the soul its rebirth.

Here the Etheric Screen is the internal tapestry of Hierarchical cosmic consciousness, and is the enceinte rebirth of the new Atomic Power of Scorpio Relativity. Therefore, the inflowing FIRE, in feeding the etheric, brings forth the new brilliancy to the unfolding Arc.

(Here is portrayed the Etheric and the Conscious Mind. So the inflowing Fire, which you see pouring down and building up, and the unity of the two, gives you the risen Arc of the reborn Mind.

What you see spinning up in the heights, is just all that you are, A MIND. If you do not build up that Mind, then you are just the animal.

Out of the inflowing Breath, man builds up the Seed that holds the Holy Fire; then in continually raising it up to the heights, the Royal Holy Al-

mighty builds up in the Commissure and comes forth in All His Radiance, as the Royal Voice of Divinity).

The plausibility of the unifying internal creations, are Positive etheric Breath reverberations agitating the soul's Atomular depths, into a Solar created causeway of Vega Ascension. Where new belief and new life are unfolding out of the unifying. For all now is protoplasmic rebirth of the Ether Enceinte World of God Divine infiltration.

The mystical Secret lying in the FIRE within the Fire. Therefore, the Holy Velvet of the Etheric internal royalty of man's Salamander beauty, has now been given the Virgin mortuary meal of Merope's Atomised Neptunian ascension. Whereby all men can now solve the mystery of their past Sphinx-like creation. For the old stoned state brought about by papalism, has now been broken open, and the Real Breath of LIFE has been brought forth.

Enceinte celestial internal Atomic LIGHT, is the etheric responding wealth to the Hierarchical inflowing Powers within the Holy FIRE. That unifying and setting molecular rhythm into the soul's now Virgin release from the shackles of nostalgic avidya. Here for the first time, the soul is creating the new being, out of the old untruth. A new-born soul of complete fineness, thereby becoming the Sheath and the Mind for the Divine to manifest through. (See diagram in col. 2)

Only by studying the Word, will man change his mind, otherwise he is going to be in a confused state of mind; for he will have a broken internal seed-body, with a mind that is fighting against it, and

he will be keeping one foot on the ground.

What you have to try to do, is to be able to capture, believe, and hold REALITY. You may think you have it, but you have not. Once you have captured Reality, and you hold it, 'illusion' no longer leads you along the wrong path.

It is a very very important thing to be able to capture REALITY. This is what makes Merope appear at times to be very irksome, because she sees the depths, and she holds to it, and in so doing, people cannot understand why she holds to it. She is not led away by illusion. Now this is very important, and VEGA is REALITY.

Now you can see—if you only capture a little—what an important Lecture this is, and what an important week it has been. For Merope has broken down, unbeknown to them as yet, the biggest cross of life, 'the false newspaper world'. Now, as in the case of religion, the 'crack' will grow, and they will be completely broken down. And the New Wisdom of Life is waiting for all men, as they step forth out of the old into the New.

## Part 35

## RED SAGE

(Salvia Officinalis)

by David Spearman-Cook

**A** LONG with many vast changes within this new born World of awakening Light, is the world of plant and flower creation, which is also at the present moment becoming stirred into a new vibrating delight. For the majority of the most profuse blossoming flowers have, in the past, been the root and depths of bygone herbal creations of vast importance.

★ ★ ★

**R**ED Sage, although not being one of these flowering creations of beauty, nevertheless adopted a usefulness through man's earthy persistence in culinary desires, and did become a well sought after herb, of both culinary and medicinal usefulness. It was once sought after during many of the extensive expeditionary adventures into foreign countries, and soon became famous for its ability to restore strength after attacks of fatigue which, at one time, plagued man most severely during his descent into the states of lower Neptunian vibrations. This was during a period when Occult Wisdom was at its supreme point of unfoldment, and which is now being redeemed through Merope's super Task.

Red Sage, as its name denotes, once fired the Sages in early times with a nourishing meal of balanced radiating vibrations, but now, as only a shadow of its true self, one of its tasks has been to break down the earthy foods consumed by man today.

At one period, Red Sage was used for spinal disorders, so can obviously be used again, but now for the benefit of the soul, as the Solar Fires revolve his wealth into the Kundalini path of unifying heights and depths. Therefore, by adding Golden Rod, another potentially 'Solar' spinal herb, the spine can be strengthened and fortified during the 'stripping',

and in this way man too will blossom forth into the wonders of Neptunian Paradise.

Red Sage with a little honey, helps many chronic states of chest and nasal congestion, for the dispersing action of the Sage, will help while the soothing action of the honey loosens many of the most stubborn areas of congestion. There will come a time, as one advances further along the path of unfoldment, when honey will not be easily accepted, because it can, at moments of deeper unfoldment, cause complications and it is then advisable to dispense with its services altogether.

Dandelion with Red Sage, can assist the soul, when he is genuinely upon the initiate's path of the rising higher frequency, in his struggle to master the pull of the lower desires. These two herbs can help to prevent many of the nervous tissues from over-sensitising the muscular creation, through their electrolysis power of the pitch-blending force of Uranian Divine unification. This will help enormously, all those souls who have stolen an enormous amount of wealth in the past, and who now wonder why they should find life more difficult than others.

Nevertheless it is most important that souls ever seek for guidance from the Master, as they are carried through the Planes upon the new rejuvenating Fiery Breath. As well as consuming Red Sage internally, it can also be used for washing in, and even shaving in, if a little is poured into the water as required. Thereby helping the nerves around the facial

quarters, during the intensifying degrees of the prevailing changes. For many of the necessary changes are centred around the head and face, for it is here where the strain of the changing of the mind is very often felt.

★ ★ ★

**T**HIS astounding herb, Red Sage, was at one time used for a most important task dealing with the deeper Occult wisdom,—that of the utilising and preservation of cadavers when they had to be shipped from one place to another. This herb was then so vibrationally alive that it was almost unbelievable, even for the people of that early period, to comprehend its fascinating wonder.

When a little rennet was applied with the Sage, the cadaver kept much longer, be-

fore requiring a new application of preserving balm. These truths and many others are all capable of being used again in the more expansive times yet to unfold in the immediate future. Cadavers were often stored amongst numerous types of merchandise, and many of these personages, when once alive, were of an elevated frequency of tremendous power. Thus could quite possibly have to be kept free from contagious vibrations by this very method, during their shipment to some important shrine or other place of worship.

Red Sage, Buchu and Pellitory of the Wall, can with a little perseverance, help many to master the effects of false stimulus and earth worries, and if a strong belief is maintained in these herbs then many further revealing cures can become possible. For without the added belief in such, the basic beginning could never really formulate within the soul's individual creation.

Red Sage can help the blood during that period when it is being cleansed of its waste, through the intensive firing of the Atomic Fires. It helps the soul to remain frictionally unified, as the extra forcing of the momentum of change rotates the new blood consciousness into activation. Hence Red Sage, plus a little Ivy, can help most blood conditions as they receive this transfusion of Holy Fire.

Where in the past Red Sage was more of a purplish hue, it will now, as the Violet Rays re-infuse it, regain this magnificent colour, and draw these powers unto itself. Thereby showing the enormous possibilities within the seed of this tiny, seemingly insignificant herb.

As regards the genders, there lies amongst the unfolding Neptunian wonders of Red Sage, one which will be of immense benefit to the female. In this respect it will assist her to contain, and maintain the positive powers of the Fatherhood, and gather the inflowing Fire, whereby she will then find it easier to come under His protective inflowing compassion.

In this respect it is necessary to formulate a more advanced attitude towards healing, and

one must abandon the already, 'old' conscious state of healing, and grasp the 'new' with non-wavering belief, where one path, and one path only, is the soul's wave-band of survival. No longer will the earthy ideas prevail, for they no longer contain vibrations of Solar conscious Life.

It will be most noticeable to the majority of people undertaking a course of Sage healing, that after a short period of time, any tiredness of their eyes will begin to disappear. It might also, at this point, be well noted that this is one of the reasons why the Chinese can never understand why we here in England have such an abundance of Sage, and seldom use it to its fullest extent. For they would willingly forgo their tea, if it was possible to procure it in their country, and I am pretty sure that those who have indulged in it, have found it to be of benefit to their eyes,—for they are a race who do suffer much with eye trouble.

I am sure that many people would gain some form of relief, if only occasionally they partook of Red Sage, for it was only a few weeks ago that I experimented with a mixture which I found to be very refreshing and stimulating, that is, two parts of Sage, one part of Raspberry leaves, a little of Elder Flowers and a little Parsley, with sugar and lemon for flavour.

When Red Sage is infused with water and left exposed to the Rays of the Sun, it will become very highly charged with vibrations, and will be admirable for ablutions such as teeth cleaning, gargling and even to the extent of being used for the hair. There is much more that can be utilised with the assistance of herbs, that man cannot, for the moment, comprehend, but which in the future he will become awakened to, as he unfolds.

Next month we will seek into the wonders of Sanicle, and try to unfold new herbal understandings.

RED SAGE

## HEALING COLUMN

Concluded from page 11

I know of many people who have been able to rid themselves of such skin conditions as psoriasis, by partaking of a refined natural diet, and using the herbs mentioned.

Since this young man is only eleven years of age, I would appeal to his mother to do all she can to help him in regard to the matter of diet. It would help him to have as much fruit as possible, especially apples, which have a rather wonderful content that helps the growth of the soul. Cut out of the diet as much meat, milk and other things which clog the blood, as you possibly can.

At the present time this young man's Moon is passing through Taurus in the 12th house; so Taurus, ruling the desires, is now in difficulties. Well, you could not have a better time than the present for putting this right!

★ ★ ★

Master D. L. M.,  
Kansas City, U.S.A.

"Is very stubborn, and has some over-weight problems".  
(Chart 1610).

**W**ELL, Mrs. M., I have noted what you say about your son David, who is thirteen years of age. His major difficulty is that his Saturn is down the 8th house in Sagittarius, and Sagittarius links with the desire to expand in all directions. I know, for my Saturn is also in Sagittarius.

There is a saying that "A little of what you fancy does you good", and I think it would go a long way to explaining this young man's problem, and is where one would say, "What is the good of living if you cannot have what you enjoy?"

I see that his Path of Destiny is in the 12th house in the Sign of Pisces. Well, the Piscean is also very fond of his diet, and with 5 Earth triplicities, this young man has got himself well and truly stuck in the earth!

Yes, he would indeed be stubborn; one has only to see where all his planets are placed. His Moon, Pluto and Uranus are in the house of Fire, but he never gets his 'fire' sparking; it ever remains in a smouldering state of old earthy desires.

In the 6th house he has got Mercury, Mars and the Sun in Virgo, and his Jupiter in Libra. All this indicating that he has to find expansion in the intuitive mind. But I must

say this, that anyone with Virgo steeped in old ideas is very difficult to change; it would take more than wild horses to bring any alteration!

In his 7th house—which has to do with the embracement of the New Law—he has Neptune, Venus and the Dragon's Head, all in Scorpio. So his Scorpio being in its negative state, makes him very earthy; in fact he would appear to have taken on a materialistic state generally, with no real desire to change. Well, he is bound to come up against difficulties, with that attitude of mind.

Jupiter is well placed in Libra; in fact all the planets in this Chart are well placed. The wisdom he could bring forth in his 6th house would be amazing, but his Saturn being in the 8th house makes

him thoroughly pig-headed; and he just will not change. I know somebody with Saturn in the 8th house, and nothing will move them; they have become completely fixed.

Well, friend, although David is still quite young, it is essential that he is encouraged to start dieting, and he should start by cutting down on all starchy foods, such as bread, potatoes and cakes.

Green salads will be very beneficial to him, and he can eat any amount of fruit, especially apples. It would not be long before he felt very much better in health, and he would become much brighter mentally; he would become expansive in understanding.

He should drink plenty of water, but cut down on sugar and sweets, also ice-creams. I would strongly advise that he is not given such things as vitamin pills, or allowed to listen to people who will say that if he stops taking this or that, his physical powers and energies will be undermined, because that is utter rubbish!

He is only 3 Positive and 7 Negative, which has come through his Saturn in the 8th house refusing to make expansion. Everything new goes with the expansion of the mind, and now is the time of wisdom, and he must find the true wisdom, that

is a part of it.

So he has come into this life with 5 Earth triplicities, and he will not budge. All Aries people are very fixed, and they do not like being made to change, any more than Virgo likes changing. Neither of them desire to see the other side of life.

So he has a lot of fixed influences, and to add unto these, he also has Capricorn upon his 10th house, and Capricornians are terribly difficult to get to change!

He certainly could be difficult to handle, yet on the other hand, if he could be encouraged to study wisdom and raise up his mind in aspiration, he could be just as determined and ambitious in this direction.

His Chart is really quite a good one, but it has become jammed with all his planets being in the lower part of the Chart; he must get these expanded upwards.

My strong advice to this young man is that he must refine his diet, and although he is still very young, I feel that he could benefit by taking some of our anti-obesity pills, which have been very helpful to many over-weight people; also the blood-cleansing pills.

Always D. Spearman-Cook.

## Readers' Letters

Mrs. E. S.,  
Cardiff, Wales.

Dear Friends,

Thank you for the Occult Gazette. Thank God and Merope for it, for this Word is my guiding light. I was shown the article in the News of the World. What blind fools! My sincerest thanks to you all.

★ ★ ★

Miss W. Chitham,  
Leicester, England.

Dear Mrs. Spearman-Cook,

I see they have been having another go at you again, with more stabs in the back! How your heart must feel like breaking sometimes, while you are undergoing this great task of bringing the Vietnam war to a close. To be fasting and sacrificing, and then to have this article thrown in your face! What do they know of occult training, which takes a life-time of study, and even then one may have only just touched the fringes! How dare they, in a few creeping sentences, sweep away your great work.

I think of the time when they pass over, and face the reality of what they have done, and how they have debased their gift of writing. It is a pity they did not print your prophecies, which are all coming true. Please take fresh heart, and know that many know the truth, and believe, and are solidly behind you. Any that fall away because of this article would have fallen away anyway, for they could not be ready yet for the Light.

(A second letter was received a few days later).

I hope you are feeling well after your long fast. I thought you would like to know some results from the newspaper article. Firstly, everyone agreed without exception, that it was a private vendetta and a vicious-minded attack. A number of friends who have been given the Gazette, came up with practically the same answer over this; "If they

want to destroy her so much, then there must be truth in what she says". So now they are re-studying the old copies of the Gazette with greater interest. All Hail to your Pen and Wisdom!

★ ★ ★

Mr. H. B.,  
Manchester, England.

I was overjoyed that I happened to be in London last Wednesday so as to be able to come to the Wednesday Lecture. A magnificent Royal evening, with Mrs. Spearman-Cook a True Master of the Wisdom. I do not doubt it was her Mind Vibration that effectively barred the way of the spacecraft, and so prevented a further incestuous inversion, backwards in Time. I fully accepted how the moon was a past causation, which, until the lunarcraft solidified its dead vibration into form, was but a memory reflection on the Maelstrom. All true occultists will understand how this happened, for otherwise the Witch of Endor Biblical resuscitation could not have taken place, a past status becoming alive.

May I also say how horrified I was, when I saw the two documentary films of American atrocities in Viet-Nam. The ruthless killing and maiming of innocent villagers, including children, with napalm and other explosives and chemicals cannot possibly be explained except as a diabolical Evil. How can any civilised people be a party to such brutality? How can Americans so willingly be tools of politicians who are worse torturers than the Nazis? How can any human be such a devil in his actions?

I pray that Merope is given the Power by the Hierarchs to continue her Sacrificial Fast, for I have no doubt that her Mind Waveband will gradually enforce an awakening to the evil and inhuman actions going on. Truly she is a Great Divine Teacher, and one whose Driving Will is an example to the whole world. Without her we would all descend into an atomic destructive war, and God Forbid that should ever happen. But with her Hand as the Christos guiding humanity, I know that we will all be safe. May the Great Ones bless her.

Dear Mrs. Spearman-Cook,

I am writing to let you know that I listened to the Tape-recording of my horoscope yesterday. I listened carefully to every word you said and it has been a revelation, confirming many things I already knew inwardly, and suspected con-

cerning the past. I consider myself indebted to you and I thank you in all humility and sincerity, for your wise, earnest advice, and for the benefit of your wealth of wisdom and knowledge, and personal experiences in life.

I was very moved, listening and realising the high motive and the earnest wish to help, in telling me some of your own personal experiences, which you were not obliged to do. I appreciate your complete frankness and sound common sense behind every word of

advice. Also, I am indebted to you for the work involved in going through every stage of this horoscope. You could not have been more accurate in your interpretation.

Your voice coming from the tape-recording has somehow given me healing, and I have felt the most wonderful upliftment since. It has been most pronounced. Please accept my gratitude for all your help and kindness.

Dear Merope,

God bless you and keep you safe, while you are on your fast. I pray hard for you, and have asked all those whom you have helped, to join in. Every day the workers in our factory ask me how you are getting on, they are really shocked that you are fasting, to end the Vietnam war. Only a Christed one could have done what you did, in making yourself a human sacrifice.

Do you know that the patient whose name was placed in your Healing List in December, has been completely cured of cancer, and is now gaining weight. Also little Joe has not had one fit since last June, and is now seeing, although not too clearly. His father is absolutely amazed.

Regarding the article in the News of the World, they will be hearing from the students in Scotland. How dare they print such muck! Do they

realise that these students haven't had to pay one penny for all those past years' Gazettes? I don't forget either, how hard up I was when I was helped out, and I have never been refused herbs for the students or other patients, although I have never yet sent the money until after the order has been received.

The News of the World has always been nicknamed the Tuppenny Liar, and I would never buy such a paper, but someone showed this article to me. However, no damage has been done here, and it won't be long before the Gazettes will be selling more than you can print!

I knew also that your prophecy about Apollo 13 would come true—that's another feather in your cap!

I know your time is very valuable, but I had an awful urge to tell you of those wonderful healings, for is that not more thrilling than all the scandal of the world. Fight on with courage, Merope, you are the Light of the World, and none can doubt it now!

I have been shown the article in the News of the World. My only answer to such as this is, "I judge you by your Works." May the Blessings of the Great One be with you always.

## LIBERATION!

by Dick Speller

*Inconstant World! The babel of thy thoughts  
Disturbs my inner peace,  
And casts a darkened shadow o'er the window  
Of my soul.*

*For didst thou not cause the crystal river  
To depart its heavenly course,  
And tempt disposed Adam to stain its virgin  
Waters red?*

*In agony my heart cried out, as thy jagged  
Boulders beat against its ancient walls,  
And caused the Sacred Flame to tremble  
In its sceptred halls.*

*And in The Innermost the Spirit wept,  
And sought deliverance from thy cruel hand.*

*Age after Age, thy raging fire hurled  
Itself against the Citadel Divine,  
And set wild beasts to roam unchecked  
Upon the pathways of my soul.  
Helpless, I stood and watched, as cunning  
Jackals tore at pulsing, living, flesh,  
Seeking vainly to devour the priceless secret  
That it held.*

*And the Sun grew dim, and fast the snarling  
Darkness overtook this sad and sorry world.  
The sound of laughter was swept from the air,  
And a deathly silence filled the empty void.  
And in The Innermost the Spirit wept,  
And sought deliverance from thy cruel hand.*

*And then at last Aquarius arrived,  
And the Spirit quickened in its living tomb,  
Sensing changes in the dismal atmosphere.  
With fearful cry, the Gateways of the Night  
Swung free,  
And Light once more o'erswept those barren lands.  
And the river rose again, feeling the warmth  
Of the Sun upon its aching limbs;  
And Life returned, and the trees regained  
Their strength of yore,  
And Firebirds crowned them with a radiant  
Diadem of gold.  
And thus, in all her splendour, Merope came,  
Carrying the Light Divine where'er she trod.  
And in The Innermost the Spirit laughed,  
And sang once more in joyful harmony with God!*

## PROMETHEUS

by Gladys I. Spearman-Cook

# Mythology Part 12b

Delivered at the S.U.P.H. on 9th Sept., 1962 by Ra-Men-Ra

**I**N HIS CREATION, IT IS OBVIOUS THAT PROMETHEUS, THE GOD OF FORETHOUGHT, PLACED DESIRE OF THE senses first and gave it predominance in the expansion that was revealed unto him in the fennel-stalk. But without doubt he gave to man the wisdom of fire, in the extension in duality of the creation from generation to re-generation taking place. (So man was given wrong knowledge through the ages). Then what did he fail in, to cause such a cross to be adopted? For it seems he failed to bring the full answer and was nailed to the cross until the full metabolism in consummation was accomplished by Hercules, in mastering the rise from Leo to Scorpio and creating the cube. (Man is nailed to a cross, and so all the knowledge that was given to man about one man being nailed to a cross as a god, is erroneous. All men are nailed to a cross; all men are struggling with the skull, the hill of Golgotha, the hill of skulls, that he can bring into birth freedom from the captivity he is in; but most of them refuse to let go of the desires. Man must make sacrifice that the world can rise up out of its depths. Instead of that, the world is in the state it is, riddled with disease).

### The Oneness of Purpose

**I**T almost seems as though Prometheus was the father of the greatest prototype in the world, self-will, and not will blended with the gods in true assimilation. Thus he had to learn that Leo, the house of Karma which linked with the ancient past, was the box of Pandora, while Virgo was the lady herself, but only with the skin removed (just polished, but not the intuitive mind).

When man is one with the Instructors of Creation he becomes of their blood-tie and that makes him blood brother to the gods and son to God himself. Therefore in taking the thought he was being blooded by the Solar light through the gods, or Khus, the glorious ones "who live on the shades of the motionless; they who eat the souls of the undeveloped dead" by the friction of the generation now set into motion, and Epimetheus as afterthought moves into place.

(He is bringing the gods into birth; he is bringing Prometheus within him so that he, too, can become a creator of men. My Instrument is a Prometheus, as one who is giving creation to men. Therefore, in taking the thought, he was being blooded by the Solar light through the gods, or Khus. As the Solar light goes through the bloodstream it eats up the dead states in the alchemicalisation; the soul being forced to change by the alchemicalisation, and the soul suddenly getting a new idea, though he may not have the full idea).

The will, by hedging, divided the issue and multiplied of the creation instead of bringing it to the one-ness of purpose that his entry into that corner of creation was intended; thus leaving all in a state of confusion.

(That was what happened over the dividing of the bull. He was hedging; he divided the issue. Instead of bringing all into a one-ness through Leo, Virgo and Libra, he was everlastingly bringing into a multiple state by building around himself hordes of creations and possessions, wealth and desires, and becoming driven further and further away from the point that he started with. Man coming away in materialism is increasing his desires and possessions. The wise man sacrifices of all these states and takes on the one-ness of purpose; that is, when he is ready. But this is a very stiff task now, when man has gone so far).

(See plate on this page)

When it comes down to investigation, all these gods are really personal issues of those influences which are guiding and moulding man into the higher purpose of creation. So although man sees Prometheus more as a human creation than most gods, it is only because it is such a dynamic human fault, that he fell into it automatically. Even if only

SACRIFICE

**I**T is only by sacrifice that a soul can make progress in its cosmic unfoldment; the sacrificing of self, in the renouncing of those states which still hold the soul firmly to the depths of the magnetic earth. In this way, and only this way, will the soul discard of his bestial creation, and take on of the royal growth of his true spiritual heritage. (See text in col. 1).

carried out in lack of confidence or fear, it still comes from the same root, and really more from the established individuality as the old fatherhood through the coming sonship than the personality herself.

Pandora is seeking of new and progressive thought and ways, for she is alchemicalisation firing life: that created knows of an already created channel and finds it difficult to tread the unfamiliar path that moves forward with every breath of life. So it is the forcing of that created to bend the will of the forging immediately.

(So what has come down into your depths as the knowledge and the expansion, is those heights of the past. Your higher individuality is not born of your present day; it is born of your ancient past, because man has added very little to his individuality that he once built up when really he was royal. The more man has come away from the past the more he has lost his royalty, and he has only been living in his personality. Once upon a time that individuality was your royal state. Now you are only living in your personality; very few do more than that. You only begin to live in your individuality when you make a unity between personality and the heights, and the sun-god is continually going up to the Hyperboreans in the heights.

Your personality at the present moment is so complet-

ely averse to what your heights are, that when your heights send down your ancient breath, your personality does not know how to put it into operation; it only puts into operation through your present day creation and you only send back to the heights dead states, so eventually your higher self gets cut off, or becomes a giant; and you wonder why you have them at the present moment going rampant with schizophrenia, carrying out crime: they are bringing down the great cunning states of the past—when there was great wealth—and only putting into operation through desires that go back to the heights,—the very heights that had all the great cunning of the past with the present day creation, so they become real masters in crime.

Now you can understand why your states of crime are increasing. Man is not turning to wisdom and sending wisdom back to the heights, but that is what I am seeking to help you to do in this Temple,—send back to your heights a delicious thought, a new thought, a creative thought).

### The Starry Inflow

**T**HE quoit that killed Hyacinth, the coming starry light, and the desired friend of Apollo, is the movement reaching its fulness and becoming a creation at the gate of dawn: the first house awaiting a new

beginning. The quoit (which is a whole round of expansion) in being thrown or spun to touch the head of the new personality creation, causes all to fall under the spell of all first house negative influences in destruction instead of construction.

(All that you have gained, or all that you are bringing into birth is the spinning of the quoit, and Hyacinth is the starry light that is coming into birth and spinning into movement within you, and as it spins and touches your personality to give a new idea on the 1st house after the other has gone through,—instead of bringing into birth through Aries, the pioneer, construction,—it only brings destruction.

Once the knowledge is known in its creation as wisdom, the water then can turn to wine and the marriage of Cana is consummated; but if refuted, all goes down into Hades as the rock of Saturn, with Uranus beginning to strike as all begins to pile up; for the fire is buried in the rock and you wonder why you are beginning to have a rough time; you wonder why, time after time, the aspects are all going wrong).

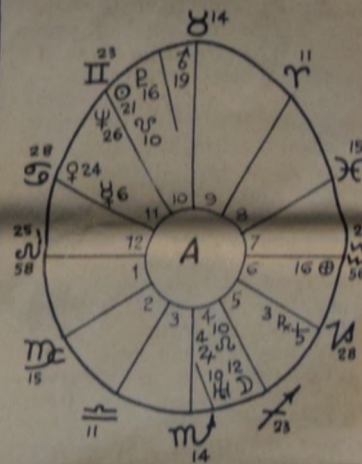

(See plate on page 12)

The young son, as coming Aries to bring the will, for he

is the warrior Mars. As Aries he is Apollo according to the light he can assume, but he enters into his "wife" Cassiopeia, the enthroned woman—or mother nature in the soul creation—as the movement ensues, and moves on as the feminine principle.

Whatever is placed upon that segment as Aurora of the soul, is the influence of Aries; but wherever Aries is placed is its mission by growth, and Mars in the chart is the will or energy according to the sonship's predominance in the life. But in all this investigation, remember the Solar Blood as the spectrum or rainbow incorporates seven gods, and they move into inter-blended creation to serve their Lord, the life that interblends them. So one is often another, or two in one.

Whatever is on your 1st house is the influence of your pioneer, but we will refer to the Chart of our Instrument.

Aries is normally upon the 1st house, so by having Leo there, it means this one is the pioneer for priesthood, to bring fully into creation the Solar Light and to fully redeem the house of karma. Aries here is upon the 9th house, so it means it is going to bring into birth the winging mind, but Mars as the will is on the 10th house in Taurus, which means that this soul is going to continually bring stabilisation to the Bull and raise it up out of the waters.

So as the Teacher she is going to bring new knowledge and help Taurus to be redeemed,—the Taurian powers, the great wealth of the past ages,—for it was from the dying influence of the Leo equinox, when Taurus came into birth, that Egypt put into creation the evil states of Taurus. But of this you will learn more as we go on, because there is so much to be revealed to you in these myths, but we can only give you so much at a time.

(Now you will be able to seek into your own chart and find out what is your purpose in this life, where is the pioneer and what is his mission, and where is the will. Then you will be able to get some idea of your growth at the present moment and what you must try to remedy and bring into a fully fledged creation of the mind. You seek into that and you will get some depth. Remember, you are bringing all to a crease that you can be the Buddha, the enlightened
