## DIVINE BIRTH

as the Power of Atomic Evolution

by Gladys I. Spearman-Cook

HAVING ESTABLISHED THE GLORY OF Holy Compassion, we now seek of the Divine Birth as that of Theocratic Intervention. Where the Hierarchs and man become one, for the Hour Glass in its continual flowing, has made the way for Atomic Evolution to begin. Thereby bringing forth of the Royal Overshadowance, as the Great Holy Presence of the compensating Fiery Breath. The wherewithal to relieve the internal states of the false teachings of past religious fanaticism.

For now, as the Hierarchical Waters flow to the Earth, will they bring Divine Holy infusion to nurture the new-born Glories to the depths. They

who in their Royal Compassion, are seeking to aid the soul, lost in the ravages of the deep. Beings born of His Dynamic Effigy of Holy Divine Virtue, yet only the trailing sparks of His Supreme Compassional Holy Royalty, waiting to unfold the glories of the mind. Yet that now possible to one and all, for Merope the Virgin, in raising up the Planes by molecular assumption of the Word, has gathered all up to ONE Source, to become the all revolving wealth with the depths. For in the Glory of this Infinity, the Holiest of reborn Breath has become the full Atomic oneness of the Colure wealth of Merope.

"For she is the reflective mirror of MY Divine Rights, the infusive Glory of MY ascension. For I am the Breath within the Breath, the mystery of the Intelligencia, the ever unborn Seed of Fiery evolutionary LIGHT, waiting to find Royal Holy Birth."

The Great Central Holy Fiery Reality, the Core of the Central Sun, the complete majesty of the mighty Fiery wealth of the Great Divine Lord of Scorpio. He of the mighty Generating Divinity, the Pure Spiritual Glory of constant rotating Divine LIGHT.

"For as I am, so shall ye be, and I will dwell within the Arc of thy intelligencia."

Thus all the Fiery light of Atomic conquest, will become the blood of he who seeks to find the Immortal Holy Fire, as he wrestles with the difficulties of life. Thereby infusing man with the Royal Divine Excelsior, of the ever living Central Sun Radiance. For the Orion Warrior is now the seeker of the new Vega Kingdom. A World of LIGHT, a World of Truth, where man and Divinity embrace.

### The Royal Scorplonic Fire

It was in his seeking, he came upon the Celestial Overshadowance of the Virgin Arc, that of the Great Lord of the Scorpio Fiery Heavens. For in this Kingdom of Royal Heavenly belief, He was the immensity of Merope's Divine Quest, feeding her with His Great internal wealth from the Core of the Central Sun. That polarised by Merope into the Glory of the New Cosmic FACE, whereby she became the Virgin consciousness of that Royal Etheric ARC, the immensity of the Scorpio Domain. Where all the Great Heavens are His immediate surrounds, bathing Him with their shimmering Divine Glory. For in this Holy Sea of Fiery Divine LIGHT, was there the Creation of her virgin belief, That risen up by her royal weaving, in the world of men, as she beheld the Divine Wonders in the inflowing Fiery Breath.

It was in this Divine Husbandry, that she and the Unseen, pronounced

THE ARIELISED MIND

NOW free from the magnetic pull of the depths, the soul wings its mind into Realms of Divine Enlightenment. Thus becoming part of the Great Chromospheric Consciousness, aware at last of the true Beauty and Reality of Living, and the royal and mighty Plan of Divine Evolution. (See text on page 3, col. 1).

# Editorial .. .. The Tory Legacy

**W**HAT with the dock strike, tear-gas bombs in the House of Commons, the trouble in Northern Ireland, and the rebounding fury from all over the world, concerning the sale of Armaments to South Africa, it hasn't taken long for the reaction to the General Election to set in! We warned that the British were going to learn the hard way, by their refusing to follow the Laws as decreed by Theocracy, and it is already abundantly clear that Britain really is going to find the future tough going. To the money-minded simpletons who voted the Tories in, and those who aided their cause by refusing to vote, we have only one comment—"You asked for it, now you must put up with it! Either that, or throw them out now, before they cause more trouble." The Tories always were war-mongers, and always will be, and to make matters even worse, in having the destructive vibration of Moon in Scorpio ruling the Government and country, nothing but destruction and chaos will ever be born from their actions.

★ ★ ★ ★  
**I**F you have already read this month's Reminiscences, you will no doubt have been just as amazed as we were, to read of Mr. Wilson's ardent avowals of his beliefs and declarations of intent, and his complete rejection of such policies when he became Prime Minister and had every opportunity to put them into practice. There can be no excuse for this whatsoever, and one can hardly believe that it is the same person speaking now who was speaking then. One can only come to the sad conclusion that the voice that once spoke for 'honest, straight-forward socialism,' became lost under the vestiges of power, and the image of the 'social diplomat' took its place.

is sure proof that one cannot walk a precarious tightrope between two worlds; you are either for socialism or capitalism. To try and combine the two is a betrayal of principles, and can only lead to ultimate disaster! Let us hope that when the Labour Party is returned to power, they will not make the same mistake twice, and much here will depend upon the influence that Michael Foot can bring to bear upon the Labour leadership. With the world being turned in the direction of Theocracy, he will find himself being called upon to take on greater responsibility than ever before, for many of his beliefs are in harmony with the Higher Laws now interpenetrating the Earth. We trust that his fiery temperament will not be lacking when the moment arrives!

The outcome of the General Election

With Spiritual Communism now the Theocratic Decree of Evolutionary Unfoldment, the following extract from the Daily Telegraph might be of interest to our American readers:

Americans have just celebrated the 194th birthday of their nation, but it would appear that not all of them are as familiar with the historic Declaration of Independence as they ought to be.

Only one person out of fifty who was approached recently on a Miami street, agreed to sign a typed copy of the Declaration. Quite a number thought it was anti-American propaganda.

Two called it "Communist junk," and one threatened to call the police. Another said the FBI should be informed, and someone said, "I don't go for religious stuff."

The test was carried out after an earlier questionnaire circulated among 300 young adults attending a Miami gathering, had shown that 28 per cent thought an excerpt from the Declaration was written by Lenin! They had been asked what sort of person they thought would make such a statement.

Well, well, Mr. Nixon, you had better take care. Theocracy, as Spiritual Communism, is closer than you think!

Edward Heath,  
 10, Downing Street,  
 London, S.W.1.

21st July, 1970.

Edward Heath,

No arms will go out to South Africa, and it will not be long before all arms being dispersed to other countries will be stopped. For the Configuratory Powers now flowing to the Earth are 'salting' it with the Higher Theocratic Communist Intent. No man will be able to avoid this Inflow, and is that which Mr. Wilson should have waited for, and brought the Election in October. The answer to this is...

**"OUT WITH THE FALSE PUPPET GOVERNMENT"**

...who are no better than they have ever been. Still the same old false promises, and the empty gag-washing brag of the loud-mouthed cunning capitalist."

**"OUT WITH THE TORY GOVERNMENT"**

This is a world for the multitude, and their mind expansion; not for the few, in their money-grabbing vested interests!

The report of the debate in the House of Commons of July 20th on 'Arms for South Africa' is indeed very promising for the fulfilment of the Configuration. For Home, on two occasions, still referred to Mr. Wilson as the Prime Minister. Possibly he is more clairvoyant than he thinks!

I am sure Mr. Faulds appeared an outstanding figure, and brought some fiery elevated atmosphere to what could have been merely Tory 'slag and flannel' dialectic diatribe. But does this have to spread to the Labour Party, who should be learning to be plain-spoken straight-forward revealers of Truth. For we perceive to-day, the 21st July, that Mr. Iain Macleod has passed over. When operating in the House the said gentleman, with Wilson and Jenkins, fenced with open razors, and statements far from being intelligent. Now, at the passing of the former, there are 'salaams and bouquets': if there is duality in one direction, it must be natural in all!

The 'spattering of the red paint' seems to have spread far and wide, and the little lady who chanced her arm, out of intuitive consciousness, was possibly far more guided than perhaps any of us know. For surely the 'putting of the country straight' is far more important and serious than a lot of puppet politicians playing hookey, and cunning after-dinner speeches!

Gladys I. Spearman-Cook

Princess Anne,  
 Buckingham Palace,  
 London, S.W.1.

22nd July, 1970.

Princess Anne,

In the "Evening Standard", on July 22nd, an article called "A Fatherly Arm" was written around the visit of our young Royal Family to America. A jaded woman reporter is said to have made the statement, "I think Audrey Hepburn made a better princess".

Please do not let this deter you, or break down the independent characterisation which you are building up, for to me, a citizen of England, I think it is an absolutely disgusting action, which only the Tory Party could have thought up, that two young souls should have had to 'dance a fourth-rate fandango' to a man whose hands are dripping with blood and murder.

Your stand-offish attitude I think was superb, for why should you be forced to carry out such an objectionable task? At any rate, I think it is disgusting that a whole family should be forced, and paid, to be merely figureheads, and more or less forbidden to open their mouths.

I hope it will not be long before the whole trend of social imperialism is changed, and Theocracy takes over the ruling. The whole article here stinks. What is Nixon trying to do—palm his daughter off as the Queen of England? God forbid!

I feel sure there are going to be other women, besides me, who will admire you for your independence, and perhaps would comment, "A true daughter of her father!" Keep it going, for it is this independence, and honest characterisation, which will bring back to England a royalty of true mind independence.

the Seeded wealth of the Heavens. Bringing all to the expanded Reality of the now Atomic FACE, born out of her Holy Neptunian Virgin mind. For the Fire as the Royal Scorpionic Waters, became the spinal flowering octavial beauty of the new Plane of Relativity Virtue. Bringing the Holy Fire to now becoming the enceinte infusing regurgitative Truth, of the Atom to Atom Polarity. Feeding all souls through the divine Fiery Breath, the Royal Atomic Glory of Rebirth.

Where the dancing wealth of the infusing Fire became the Glory of the Seeded reborn Atomic Neptunian Mind. Stirring the whole wealth of gathered Time, as the protoplasmic blood of the soul. Thereby arousing the Etheric mind into an expanded thought of an Atomic creative nature, whereby new-born beliefs are brought into birth, to re-infinite as the Glorious LIGHT of the Scorpio Heavens. Where wonders profound can be caused into rebirth, unfolding the evolution of the depths.

Thereby bringing that mighty LORD, as the FIRE within the Fire, to becoming the re-Fired FACE of the Virgin-virtued cosmic Breath. That which has become the Pure Spiritual indestructible Atomic Prana, the Infinity rebirth of Time.

Thus as she drove her creative LOOM, Merope knew that HE was the Silent All-Consuming Magnificence of the LIGHT Plane of the Flame, the flowing inbirth of the Atomic sensitivity. This becoming of the vibronic stipulative hormone of gyrating Scorpionic Neptunian Divine copulation. That of Royal Atomic infiltration of His Divine established Holy Presence.

For here is the Mighty Mystical Power of God, and as such, all is now the vibratory apprehending ratio of Speech, that of Divine fulfilment. Where the Seeding becomes a causatory unfoldment, instructing and Sperming many in the way of Truth, awaiting the awakened consciousness.

For this is the personified Voice of God, as His Power sweeps across the Fiery Plane, touching the hearts of one and all. Seeking to awaken them to the Royal Neptunian sensitised Virgin reality of Scorpionic rebirth. Where the Holy Fiery Prismic Waters hold the secret message of continuity, the unbounding way of LIFE.

With each individual god status of the Seed being Fired by the Scorpionic Solar infusion. Therefore, as the blood reforms unto the Ether transformation of the indrawn Breath, is the glory of the Word conformed. Bringing a Stream of causatory unfoldment, awaiting octavial expansion into the glory of LIGHT.

The Truth ever appearing on divers Planes, manifesting the way of plausibility, until the finale of complete oneness is reached in the full profundity of Truth. Thereby to be established in the Network of Creation, as the solution to that perception of belief. Awaiting the day when the soul makes expansion by alchemical transformation, lifting the consciousness up onto the Fiery Mind Plane of the Atomic creation.

Then once again that Word comes forth, but this time in greater perception, with the soul abounding in greater belief, expanding its internal comprehension. Thereby increasing the Fire within its depths, as it rises up in polarisation, onto the mind plane of man.

(See the Front Page plate)

upper Testes into declaring the wonders of their spontaneous relativity, the perception of the soul's cognitive powers.

This is the beginning of the polarising unity of the Divine Fire within the Breath, through the stimulating aeriform effluvia of the Chromospheric induction. Yet the mighty inflow of the Divine Sperming Presence, as the mystical FIRE within the Fire. The Royal Psyche Pneuma that holds the mystery of LIFE, the stimulating Glory of the penetrating Transcendental Sperming YOD.

through the nasal orifice, the royal YOD of perception. This, if allowed to become quiescent, causes the Breath to enter by the mouth, by-passing the royal glandular structure at the back of the nose, forfeiting the Fiery Royalty of its depths.

But when breathed into the nasopharynx by the turbined process, the fresh air is breathed in, extracting its royal frequency unto awakened perception. Thereby passing into (See diagram on page 4, cols. 1 and 2)

of Le Ros, between the upper and lower Ego, as the Orion Warrior and the Virgin copulate in Divine Holy marriage. Thus the Breathing in of the inspiration, will bring forth of the aspiration, when the mind is awakened by the Word bringing new-born belief. Hence only by diet suitable to bringing forth of the sensitivity of the Sphenoid, and its connecting links with the tympanic reception, will the mystical Word in the inflowing Breath, be duly extracted.

For here lies the Virgin FIRE within the Fire, as the new-born babe of the Central Sun expansion, where the soul can give birth to a freed mind, in the glory of holy Divine stimulus. For expansion is the power of royal etymological deduction, born from pure Holocaust Atomic unification. Where the mind in true holy belief, finds the mystical Reality of the unified Source, that of the blended-up depths and heights. Where the air, the Breath, is now as an Atomic Cloud-burst of Uranian Seeded Fire, bringing Holy LIGHT into birth.

A Virgin ignited Prism, of radiating Divine inspirational glory into the Seed birth of all men. For the Virgin is the depths of the involving status of the Holy Fire, as it is breathed into the fiery agitating sensitivity of the nose. Where through the inter-united action of the Scorpio-Taurus relativity revolving of the released mind, can reborn conscious belief be activated unto bringing into birth the Royal Holy Fire's abundant virtues.

This is where we see how the nose becomes the Divine Post-Haste messenger of the gods, and is the Atomic reactor to the Holy Virgin wealth, born from the Central Sun. The Glory of the Heavens alchemicalised in the depths, to reimburse the soul with reborn life.

Yet wealth, when unified by Atomic immensity, to bring forth in the human soul the glorified radiance of the genes. For here it is we see the Wonders of God, the Divine Internal Glory of Being. He that has given of HIS Royal Depths, that through Merope's Virgin Atomic ascension, HE can come forth as Divine Genius, in the god-like creation of man.

Therefore all is now the Fire-conscious reality of the Sun in Scorpio sensitivity, that of the reborn enceinte Virgin compassion, given birth by the awakened soul. Thereby bringing the Fontanelle gateway to the Auric Void, that of the Holiest of Holies, where the octavial Breath will cause man to radiate and live the godship in his own elevated being. Therefore through the intervening Husbandry of the Divine Ethers, set into motion by Merope's Atomic quest in the depths, man has been stripped down to the base, with his best being transformed into a reborn status of divine godship.

(See plate on this page)

For all now is the Beauty of the enceinte Hierarchical magnificence, with the Neptunian Divine Glory now pouring forth of its Royal Atomic Breath of Compassional embracement. Awaiting every soul's assimilation of its Divine Eternal depths, when the marriage Bells of the Vega Sanctuary will start pealing the applause of the Solar embracement of Divine Molecular Sovereignty.

Thereby bringing into birth of the purified reborn sensitivity of Neptunian Seership. Where the horse will swallow its own tail, in the infinity revolution ever being refuelled by the

SOLAR REBIRTH

NOW with the Royal Hydrogen Fire pouring down in abundance in the Breath, the etheric consciousness of man is being transformed into its true Solar intensity. All the lower element creations being driven out of his blood-life, leaving his protoplasmic causeway of Neptunian glories to be fed with the pure Atomic Consciousness of the Central Sun Intelligencia. Thus dissolving his concrete mind, bringing all to the dancing sensitivity of Abstract mind unfoldment. (See text in col. 5).

Thereby feeding the soul with its holy Waters and infusing the depths with its glory. Interblending in the depths of life, through the vibronic Ethers, the Seed of the Word containing the Sperming wonders of God. For their mighty depths hold the secret of His Creation, that once they become the personification of the soul, it unfolds in the likeness of its belief.

Therefore the Solar Atomic inflow is now the accredited activity of the Sperming Royal FACE, of the Fiery Scorpionic Plane of Divine Enceinte continuity. That born into being by causatory inflow of the Breath, and established by the sequela of the Hypotenuse. Therefore all the Atomic royalty, as the Divine inception, is now dependent upon the perceptory sensitivity. That born via the nasal orifice, as the indrawn Breath sperming the

## The Awakened Solar Aspiration

HERE we meet the secret mystery of the ravaged Pituitary fossa, the Sphenoidal sinus, that passes the air into the depths. The breathing in of the Sacred Pneuma filled with the Hierarchical Glory. That which becomes the pulmonary circulation of the blood, burning up the impure waste, that the Royal Fire, the Glory of Divinity, can become the Chromospheric radiance of the Etheric soul.

Thus the Divine Atomic Breath is breathed in, and according to the consciousness of the soul, will its frequency be extracted. To either inflame the Testes in their old desires, or awaken the perception into unfolding new life, inspiring the soul into rebirth. This being the Power of Atomic evolution, awakening the soul to Reality

the blood leaving the new-born Royal Fire, in exchange for the dispelled darkness of belief. Hence a new inflow of Divinity enters into the blood, and the antiquated bestial desires are dispelled.

This is where the Word begins its work, that the Pneuma, through the YOD of God, can extend the sensitivity of the soul, through the fully extracted Holy Fire of His Divine Breath. This is where the three expansive breaths draw the Kundalini up from the depths, to bring the Eagle out of his lair, making flight up to the Solar Glory. Setting the blood coursing through the veins, filling it with enriched Holy Fire, with the Neptunian Waters rolling over the Arachnoid Web.

Thereby bringing the Dance

Fiery Atomic inflowing Breath. And whereas man has ever been the destroyer in the depths, he now will become the herald of supreme reborn creative genius. That born out of the electronic Holy Fired conscious mind of Divine Theocratic belief. Ever drawing into his Etheric being, the immensity of the Solar-Galactical Glory, through his mind frequency devouring the Atomic vibrations of the Breath.

For the Great Central Sun is the Divine Magnificence of the whole of the Atomic purity of the vast aspirational wealth, of all the Mystery of Creation. That born of the full Compassion of the Virgin's Divine LOVE, whereby HIS Royal HOLY LOVE is made the Supreme Unction of the depths. For now He has become the Opaline dew of the Midnight Sun awakening, the Mighty Glory of the radiating Cosmic Sun, bringing into full radiating Beauty the blossoming Sunflower of the depths. The harborage for the busy Bees, they of the awakened royal beings of the New Virgin FACE.

## Cosmic Reality

FOR the Solar Honey is the Neptunian Nectar of the Majestical Central Sun downpouring of Divine Unction. The Royal Holy Anointment for all men, who are seeking to recapture and recentralise themselves to the Opaline Atomic Stream of immortal sensitivity.

The royal birth of Communistos Spiritual Divine Heritage, which is that of Martian reorientated wealth being brought up out of the depths. The mighty rebirth of Saul's red fires, by the Compassion of the Royal Hierarchical Master's Celestial Transgression.

The Atoms of this Glorified Holy Birth, being sent down to the depths, to awaken the souls now buried under the weight of the countless Atomic downpouring of the past. The massive wealth of Cosmic Creation, which the reborn souls of the Earth were ordained to bring into birth. For as Time came and went, and Evolution rolled on, the Covenant, the order of life, was ever becoming intensified.

Thus as the Atom became of Atomic destruction, it fell to Merope's lot to redeem the lost issue. She being the rebirth of the Moabite Fallen depths, where the souls of the gods began their intensified Cancer rebirth. With Merope as Ruth risen up from the depths, to bring her Work of Atomic rebirth unto Relativity fulfilment.

Here we now perceive the quivering vibration of the newborn Hart, as she feels the threat of the surrounding spiritually bankrupt density. For as the Solar Atomic Spirit, the polarisation of nuclear destruction, was she now to come forth under the Mighty Overshadowance of the Atomic Central Sun Glory. The Royal majesty of the Atomic Black Bull Stag, the Mighty Cosmic Divinity covering her with HIS Outspread Wings.

With every soul being strengthened and uplifted through their compassionate reaction to the Holy FACE of Merope. Thereby receiving the Holy Unction of the Master's Presence, radiating through her abounding Sacred Heart. For by Her LOVE, HE the Divine ONE, through Her untold labouring sacrifices, has been given Royal Divine Succour, in the Glory of Merope's Neptunian Belief.

Hence the Great Atomic Neptunian Master, ever remains as the expanding Divine Virgin SON, of the Royal Fatherhood of Divinity, sponsored and carried by the Virgin Queen Merope. Yet that ever within the Opaline Breath of Holy Celestial Royal Divine Unction. Thus Merope, the lost Pleiadic Virgin of the depths, now the Neptunian Virgin Genius of the Great Supreme Cosmic World, of Solar Galactical Atomic Glory.

Henceforth, the Heavens are now radiating forth the Full Magnitude of the Central Sun Divine Presence. With the whole of LIFE being born of the immortal rebirth, as the glory of every seeking soul. For through the Opaline Source to source frequency, of the Master's and Merope's bonded marital unification of Cosmic Relativity, the whole of Being is now born of the SPIRIT.

Here is the purple Stork of Neptunian Divine rebirth, nesting in the chimney heights of the thatch-roofed cottage of Holy creative belief. Where aspirational love has given light to a FIRED hearth, in its humble perceptory reborn depths. For as the Spirit is born into the soul, by the Sun in Scorpio polarity, is Divinity the recipient of that simple heart, now abounding in the Giving of the holy-born soul. Thus such a son becoming a radiant Orion Warrior, formulated through his renunciation of the internal Saturnian state of self.

Therefore, all now is that of electroic vibration, the Atomic Uranian awakening within the unfolding soul. He who has perceived of the Glory of the Spirit, and seeking as a god, for his lost Divine LIGHT of Divinity. That Mighty Magnificence of the Central Glory, now sparking the Sphenoidal Cavity of the reborn soul, setting their Pituitary into revolving action. Blessing them with the Divine Virgin inflow of the Royal Unction of the Holy Breath. That which when partaken in its full capacity, gives unto the soul the Glory of the Neptunian Seed.

Now the full transplanting of the divine EGO has taken place, into the etheric mind of the depths, where the soul is born of the Atomic Preface, that of the Divine Creation of Merope. With the Divine Presence, that of the Mighty Majesty of the Central Sun Chromospheric Glory, now be-

ing given the full vibronic frequency of the Virgin Seed. With all men now the prototype of Atomic Reality, to become the aspirational Glory of the depths.

Where the complete Atomic sovereignty has now been seeded with the Central Sun Virtue of the Master's divine sperm, all in the throes of Atomic rebirth. While the LAW born out of this mighty unfolding, now the supreme consciousness of Divine Ordinance, with man at last in full atonement with the reality of Neptunian sensitivity. For Merope's love has swept the Wave-band, drawing all men back to their original purpose of life.

as the Royal Occult Truth of Solar Galactical inbirth, through the Breath. Therefore the Divine Ethers and Atomic Chromospheric Breath, are now blended together in one accord, becoming the inborn Glory of the Central Sun, the encinte gestation of the Immortal Holy Seed. With man as the recipient of its Royal Beauty, to become the divine glory of his reborn Neptunian mind.

Hence only by faith and divine belief, will the Atomic wealth revolve and be brought forth from out of the Kundalini fulfilment. Whereby the

tivity Harvest of Immortal sensitivity rebirth. Therefore Chromospheric unification is divine Wisdom and Atomic Drive, bringing into birth the Royal Divine Glory of the MIND.

With Hierarchical Communistos Spiritual awakening, as the new creative Theocratic Government in the depths. Thereby becoming the reborn Truth within all souls, as the new Virgin mind Atomic garment now becomes born to their unfolding ATOM. With each soul as it awakens, seeking to penetrate deeper and deeper into its own Atomic Pile. Carrying the Hierarchical Glory into its very depths, unifying and bringing forth as reborn genius of the mind.

## Neptunian Reality

THIS is where the soul must perceive that etheric propulsive rhythm is the power of Atomic Divine service. Whereby the soul is born of the Divine EGO, as the Celestial Chromospheric sensitised Ethers draw forth of the Glory of his Atomic depths. For rebirth now becomes the stepping stone of Atomic Genesis, that of the old Virgin wealth born as the re-awakened Fiery perpetuum of his calcified Pituitary. That with which he will now resurrect out of the Atomic Chromospheric Breath, the Truth of all the Universal wealth of the Vega Temple of Merope.

This being the most redeeming feature in this new World of Neptunian Reality unfolding. For this now being such a vast change, from the old magnetic world into the Atomic, that man will have to put all will and determination into his effort of change. Yet once accomplished, will he appreciate the mighty rebirth, which will bring new life and untold wonders of the mind coming into birth.

This is where the Pituitary is the Seed within the Seed, for it contains the means of bringing the hormones into birth, the mighty activator of the mind stimulus. For it is where the drip as the golden swan now traverses the Swan Lake, that of Taurus to Scorpio, with royal conscious octavial reality.

Where man will, in awe and reverence, perceive of the Works of the LORD, and fall upon his face as the Holy Fiery Breath infuses his Atomic being with Divine rhythmic Neptunian rebirth. The mighty Atomic Central Sun Word, born out of the depths of TIME. This is where the rippling oscillation of the Atomic drip, will interpenetrate the whole being as it drips its way, with Holy Divine radiation, into the etheric being. That which will eventually imprint through his foot, the unified Presence of his awakened god-conscious divine reality.

The soul now is atomically conscious, through the scientific creations of man. Therefore, whether he be of the earth perception or the positive creation of the Spirit, the polarity exists for the Gods to bring forth of the Atomic Plane. Hence will manifest the Divine Theocratic wealth of the new-born Atomic Age, through the creative mind of Merope, who will send it forth on her waveband of rebirth.

For as she goes forth on the Sea of Neptunian awakening Relativity, will she bring forth mighty wonders, as that of the polarised past. Then as she investigates this World of reborn LIFE, will she automatically become a citizen of its unfolding beauty, thus manifest of its immortal Glory.

Concluded on page 14

THE FIRE-CARRIER

AGE after Age, Merope has drawn the Fire to the depths, seeking to stir man out of the inertia that he had fallen into. Now, at last, in the Age of Aquarius, she has broken through the density of man's magnetic desire creation, and made the way for the Hierarchical intervention into the very depths of earth life. Thereby all will now begin to feel the surge of new ideas pouring through their being, lifting them up out of the morass of their own blindness, into the Greater Planes of Theocratic Reality. (See text in col. 3).

Hence the Chromospheric Brilliance, now fully infused into the Bloodstream of Merope, brings her to becoming the Celestial Atomic Purity of the heights and depths, that of the royal divine Virgin Mind Plane. That by which she saved mankind, in Seeding their Seed with the Holy Glory of the Heights. Drawing down the wonders of Outer World Space, through her own elevated frequency, thereby bringing all onto the Holy Path of Royal Divine unfolding. That which now will bring the Solar Ideology of the reborn Atomic comprehensive Chromospheric Glory fully into birth.

(See plate above)

The comprehensive Chromosphere being the full Atomic Unity of the Timeless FACE, of Uranian Relativity fulfilment. For now the whole of being has begun to live off the Atom, whereby the Central Sun Virgin Light can now manifest as the reborn LIGHT of the full Hierarchical interblending. Where the Glory of the Heavens can now manifest through the soul, as the genius of the reborn MIND.

Where what has been mere Astrological buffoonery, now is called into its right perspective,

Serpent risen up by the Scorpionic Fire, wrestles with the driving Bull, as he seeks to devour the Seed. For the Dance of Le Ros is the mystical union of reborn interbirth between the Virgin and the Orion Warrior.

Therefore as the Serpent as Spiritus Air rises up to the heights, refuelled by the newborn Seed, it brings into birth the Neptunian Mistletoe, the golden Fire of the new birth of holy Truth. These mysterious Waters being the Divine wealth of the Atomic Plane, and are at last blended up into the new recaptured Breath of Divine Immortal Reality. With man now being Spermed with Hierarchical supersensitivity of Neptunian Genius.

Therefore the royal compassionate garment of Uranian Fire, is now sparking through the Etheric rebirth. Then as the mane of the Neptunian Golden Stallion has been firmly grasped by the penning hand of Merope, will she ride like the Wind in her mind belief, stirring many into thinking action. For as she races across the Chromospheric Field of immortal sacrifice, sowing Her Seed of Hierarchical Corn, she makes the way for the coming Rela-

# ATOMIC HERMENEUTICS

## as the Power of Divine Ascension

by Gladys I. Spearman-Cook

This lecture was delivered on Sunday the 28th July, 1970

**H**AVING ESTABLISHED THE NEW DIVINE ATOMIC BIRTH, WE NOW SEEK to Fire it into Causatory active Creation, as the way of Atomic Evolution. The Life forming glory of Divine Reality, expounding to the soul the mystical depths of God-born Human Hermeneutics. The blending of heights and depths in genetical and Solar-galactical molecular unity, bringing the soul growth to unfoldment of a Royal FIRED MIND. Thereby the inflowing Generative Seed, as the Sun in Scorpio, creating an Infinity of Perpetua Mobilé, by the Serpent, the Kundalini, ever swallowing its own tail.

Here is where the Great Central Sun brings unified complete oneness to the Scorpiconic Fires of the Virgin Source. Then as the soul seeks into the Word of its Causatory creation, will it bring forth the glory of a royal Fired mind. Thereby being able to tread into being, the inflowing Laws of Universal Philosophy, unfolding his own Etheric being.

For through Merope's Cosmic Molecular sacrifice bringing the Hierarchical frequency into birth through her own infinitisation, all souls are born of its Solar-galactical Glory. Where all now radiate the Royal Solar Intelligencia of the reborn All-consuming Compassion of the Atomised Etheric body. That of the holy Fire within the basic god-structure of the soul, bringing into being the expansive genius of a royal Fired mind.

For now all are able to draw from the aspirational enceinte Source, the lost creation of the Etheric reactive inflowing Atomic Fired Ethers. The true Hierarchical heights brought into birth by Merope's molecularisation, as she polarised the false hierarchial belief of religious dogmatism. What the latter sought by mere pomp and power, she sought by sacrificial gaining of Divine Fired Frequency.

Where the vibronic reaction of Source to source...

...creates the rational qualities of the etheric forming mind consciousness of God-born reality. For Divinity is Source to source unification of Divine molecular involvement of Belief, Fired by Outer World Space intervention. This being the depths of Divine Causation, where the Power of Royal Hermeneutics becomes the Supreme Infinitive of the Heavenly Solar Glory in Scorpio.

### The Hierarchical Reality

**T**HE soul becoming a revolving World on its own, to have and to hold, as long as he keeps the Royal Infinity revolving. Never to fall back into the moon creation of Atlantean desire belief, but ever spiralling

higher and higher into the molecular wonders of Outer World involvement.

For here is the Solar-galactical intervention of Hierarchical audible incentive, where the impetus lies in the Ecliptic involvement. That of the infusing Relativity, as the reality of the Royal Enceinte Breath, the Power of Divine Ascension. This being the Power of Divine infusion, as the Atomic regurgitation of the Holy Fires through the kidneys, that of the revolving collective turbines. Which, when concentrated upon by the soul's intent and purpose, will manifest as the Atomic Brilliance of the Central Sun intensity of the mind.

For by such incorporated belief, will the Royal intervention of the Hierarchical inbirth, fire the Etheric into Divine Genius, tapping the Source of causatory inflow, uniting unknown wealth to the soul. Depths that have lost their original magnitude, owing to the increased density of matter. Where the gods that were, have now lost their royalty unto the desire of the beast. But Merope by the Hierarchical Power of molecular elevation, has now raised the Beast up before the Throne, awaiting man's dawning consciousness.

(See plate on this page)

**This is where the Power of Hermeneutic rehabilitation is the bringing into birth of Hierarchical hydrophant reality. Where the true depth of the ecliptic change-over of the Fire, changes the Eye of Aldebaran. The complacent Bull that has to be roused into ecstatic action, whereby the Prostate glandular secretion is Fired, causing the motility of the spermatozoa fluid to be increased in its active possibility.**

Hence Sun in Scorpio is the semen rising up as Spiritus Air, becoming the dancing Waters of Neptune. Bathing the meninges with its Sunlit Waters, the sky weeping glory of the gods. All coming into birth by the chromospheric infusion of the Word, with the full immediate driving propensity of the enceinte Virgin Breath. Where the soul becomes a channel for the Atomic Polarising wealth of the reality of Divine Perception.

This is the mystery of the Witch going forth on the propensity of the broomstick, which Merope has now raised up to the Le Ros infusive Glory, as the Bull brings the Solar magnitude resting between his horns. That which now as the Atomic Arc, is the divine beauty of the Hierarchical Altar, as the mystery of the Divine Shekinah.

The Holy of Holies, where the Veil of the Temple is rent, revealing the ever involving Glory of the Heights. This being the descent of the Royal Firebird, as the FIRE within the Fire, the manifestation of the Divine Overshadownance drawn down by the molecular lifting up of the Arc.

Yet the cloud on the summit of the mount, and the Divine Fiery Phenomena brought

festation, the glory of perceptive reality. Yet that which must be brought into being by the initiatory investigation applied by the soul, as he interpenetrates into the depths of Outer World Space, seeking into the mighty Atomic Laws of Rebirth.

Then with Atomic reaction, as the Power of Divine Husbandry taking over, will it result in the revolving of the Holy Fire, within the Seeded established thought of the Fire. That bringing into birth the Divine manifestation of the Master's Atomic FACE, as the elevated grace of the soul.

All now is Atomic Fire, as the electrolysis of Timeless unification, born out of the Divine

a complete orientation from negative to positive, but Communism in its pre-natal primary state, risen up into its Atomic rebirth.

By this it will be seen of how the Atomic Waveband is the Hierarchical consciousness, as the reality of Virgin Timeless sensitivity of the Central Sun. Whereby the Sun in Scorpio becomes the means of Transubstantiation of the Etheric Divine Prototype. The unfolding of the down-pouring Glory, into the internal assimilation of the soul. Where all is turned into a causatory flow, enveloping all and sundry.

For Pre-ordained Relativity is the Power of Atomic Hierarchical aspirational Divine Presence, the power of complete Atomic mastery. Yet with all now becoming of the Fire of the Virgin propensive amplitude of Divine causation, the established Scorpiconic FACE becomes the new Relativity infusion of Celestial Transgression. The mighty wealth brought down by the Divine Hierarchs from their infusion into Super-Outer World Space.

Therefore, only by Compassion now becoming of the solvent Hierophant, that of the resensitised etheric Source to source electrified sensitivity, will that mighty Power be conquered. Thus becoming the Neptunian infusive embracement, towards the formless unfolding divine consciousness, now coming into being.

### The Positive Atomic Dynamics

**H**ERE quite clearly can be perceived the royalty of Solar Atomic unity, in that of the Power of Atomic Hermeneutics coming into birth, through the medium of electrolysis, as mind compassionate comprehension. The climbing of the soul, through the mind, up the Planes of Outer World Space, through the molecular Fiery unity of the Word.

For this is the Spiritual rebirth of the octavial rise, bringing the Dynamic activation of the supreme sensitivity of Neptunian Royalty into birth. Where the Atomic rebirth of the Central Sun relativity Chromospheric Brilliance, is the Power of the Supreme Atomic Waveband. That which is changing the whole of the Earth, by that of its Divine Relativity Unction.

That of the New Virgin Chromospheric FACE of Divine Heavenly Embodiment into Matter. Whereby the mystical Ethers, enceinte with Divine Possibility, become, through the Alchemy of the human crucible pot, the audibility of the Unknown Almighty Creator of those Heights.

(See plate on page 6)

The mighty revolving Infinity from heights to depths in the human construction, through the inflowing Breath. Where all becomes re-sensitised predestined LIGHT, of the ever expanding Chromospheric Compassion. That which becomes, through the holy Atomic consciousness reality, of the out-pouring Pituitrin, that of the full Neptunian immensity of the Virgin alchemicalised sensitivity. Bringing into birth the octavial rise of the internal mysteries of Outer World Space.

Where all now, as unto the Central Sun Quadrivium, the Power of the sophisticated Atom, has been brought to the new Neptunian Royal Divine Spectrum. The mighty Glory of

LOST GLORY

**O**NCE, long long ago, the soul walked and talked with Divinity, living in harmony with the Laws of Life, but then he fell into the animal desires, and all such glories became lost and forgotten. Now, through Merope redeeming his past errors, such divine magnitude can once again become the Living Radiance of his mind, and give him back the royalty he renounced in exchange for a mess of pottage. (See text in column 2).

down by Solomon, as his mystical creation of the Temple built without hands. All now as the Fiery Agent and activity of God, the Mighty Hierarchical Glory of Merope. Yet where the pure Neptunian nurturine of the Divine Seed, gives birth to the ecliptic Royalty of the Sun in Scorpio sensitivity.

This is a royal concordance of Atomic psycho-therapeutics, the curing of the mental distortion of the mind, in embracing the Glory of God, the infusion of pure and holy spirit. A truth given birth by the royal belief of Moses, as he taught the Israelites of the holy Truth of the science of the Tau Cross. (See diagram on page 6, col. 5)

The mystery of the Square and the Circle, where the Hypotenuse is transformed into the revolving infinity. The blending of heights and depths, bringing into birth the glory of the mind. The composition of a creative evolutionary thought, which is now, through the polarisation of Merope, the dynamic Power of the Atomic Drive, as that of a vast chain of Divine Atomic involving Reality. That which will result in that of causationary belief and effect, in the down-pouring Holy Atomic Fires.

Yet to the majority only that of divine intuition, as pre-Atomic postulation, of the divine consciousness of the soul. That minus the Atomic impetus to give the thought full mani-

Hierarchical Blessing. That of the Divine Wake of the Holy Breath, which will feed the Atomic FACE with ITS Holy magnificent Presence. For this is the amplitude of the Virgin Fires, where the Intelligencia becomes the Atomic aspiration of the formless god prototype, that of the Atomic Central Sun Mind, now coming into birth. The whole World changing over under the very feet of the soul, where he suddenly finds himself born of expansive beliefs, with a dire urge to put into practice.

Therefore the whole of authority must bow to these changes, that possible genius can rise. This is where Atomic Husbandry must become the daily tuition taking over, whereby the Breath becomes the food of the intelligencia. Thus becoming the Atomic sensitivity of one and all, as the all-changing etheric mind stimulus. All taking place through the changing Virgin mind states, as the unfolding rebirth through the Breath, into that of a Chromospheric Hierarchical aspirant.

A Dynamic Plan, set into motion by the Transcendental Hierarchs, working through the mind reformation of Merope the Scapegoat. Once she as the Virgin was set astride the Fontanelle, they as the Great Theocratic Government, had complete control of the Earth. Whereby there will not only be

Continued from page 5

the Divine Intelligencia, that of the ever involving rebirth of the Chromospheric enceinte reactivation of the etheric seismographic reality of the NORM. Where the beauty of the stratospheric Divine Fiery Brilliance, is the solvent benefit of the Central Sun's Royal Holy magnificence.

For here is where the consummation of the Atomic FACE, the Atomic propensity of the Pleiadic etymological depths of Universal Philosophy, becomes of the Glory of the Great LORD of the Sun in Scorpio Reality. Where the mystical beauty of rebirth infuses the down-pouring Breath, with all the Solar-Galactical magnitude of the reimbursed Glorified Word. For there in the Depths of its Fiery Beauty, is there the sanctification of regeneration. The Holy Magnitude of HIS Holy Presence, awaiting the soul's abiding reaction.

For this Mighty Royal Fluidic Glory of the Central Sun, is the revolving Solar mind wealth of the unfolding rebirth of the Communistos Fount. That unfolding of its Mighty Beauty, as the Spiritual Glory of His Supreme Truth, that of Chromospheric Celestial Royal appraisalment of the bonding unity of the unfolding Atoms. That born of the momentum of the Timeless receptive compulsion, out of the decadent destruction of avidya and death. Where soul has awakened and is seeking the Glory once again, of His Holy Divine FACE.

This now as the Atomic Drive of the Virgin Isotopic Chromosphorus intervention of the in-flowing reimbursed Holy Breath. That of the Etheric megatone Brilliance of the Pleiadic unfolding aspirational Glory of Orion's Eisteddfodal concourse of Divine Royal Wonder. All the internal etheric bodies of the mind have now become of the Ego royalty of the Neptunian Seed.

Whereby the Midnight Sun, the Etheric fulness of the Virgin Ethers, has now become the aspirational intelligencia of the deluvian comprehensive positive Atomic Dynamics. All now brought to its full sovereignty of the Solar-eratic forthright intellectual Presence, as that of the Sun in Taurus activation.

This is the treading in of the Atomic octavial rise, where belief is the main acquiescence. That of the pre-Sovereign prostate liason between the Abstract phenomenal sensitivity, and the Atomic Ether plausibility of the Divine Pleiadic compassionate ascension. Where the unfolding comprehensive amelioration reveals the Delphic Depths now being polarised, unto the Theocratic Glory of Divinity.

For the Ascension is the Etheric compassionate sensitivity of the Atomic Age, born out of Spiritual regression, that of the fight for mind freedom, out of religious suppression. And is the unfolding preparatory period of the attaining of the majesty of the brevity of the compassionate Enceinte Solstice. That of the Virgin vivacity of the Sun in Taurus propulsion, as she dances to the Winds of unfolding Perceptory sensitivity.

For Atomic Hermeneutics are the full strength of Atomic atonement of attuned vibronics, where the soul has now been granted the Holy Fires, of Divine Neptunian Sovereignty. And as such, will the soul be-

come the isotope of molecular aspirational ONENESS. For Divine Hermeneutics are the glory of the mind, as they dance to the unfolding royalty of the Bull, as he captures the Seed of Chromospheric possibility, where surprises of untold supremacy are waiting to be born.

Consequently, the Solar Atom has now become the octavial attributional impingement of the Sun in Taurus. Whereby the blood becomes infused with the Brilliance of the Atomic wave-band, and takes on of the mystical glory of the Liquor Sanguinis. The effusive wonder of the royal Wine of LIFE, where the consanguinity is of nobility of the Spirit, the royal escutcheon of Hierarchical Beauty.

THE ALCHEMICAL POT

HERE is being portrayed the great mystery of the soul: he who is a world unto himself, yet ever under the direction of the Hierarchs, transmuting the Breath into the glories of Light. Thus as a Mind-Sun of Divinity, he sperms the world with Divine Causation, awakening all to the Reality of Life, and the unfathomed wonders of their own internal being. (See text on page 5, col. 5).

Hence the evolutionary momentum of Pre-Time, is now operational as the moving Atomic activity of Sun in Scorpio. Whereby all souls are of the expansive Plane of Neptune exultation, the royal frequency of the Divine Breath.

Thus the Power of Divine Ascension is now driving the soul onwards and upwards, while the Cup as the internal Solar Vase of the Moon in Taurus wealth, has got to be up-turned and the dregs consumed by the ego awakened consciousness. That now set into being by the expandable polarising might of the Holy Fires, that of the Sun in Scorpio Royalty. Only by such, and the wealth extracted, is the soul able now to begin to spin upwards.

For Moon in Taurus is the wealth of Atlantis and the basic of all unfolding life coming to a blossomed status. Although produced in the Moon creation, was the mighty wealth of Creation, now in the FALL; thus wealth of an undeniable magnitude.

Thus the husbandry of the New Virgin mind that will help the soul to escape, is that of the Divine Blessing now feeding the royalty of the Seed, with the Sperm of the Central Sun Source. Whereby the unction of the Master's LIGHT, marries up to the supreme consciousness of the awakening

Commissure Reality. That now coming forth out of the Uranian infusion like a sparking quivering doe, seeking to bound forth in active bounding flight.

For here in all its supreme glory, is the complete Atomic fulfilment of Divine Husbandry. At last collectivising the harmonious enceinte causable Virgin plausibility, of the Central Sun's Royal Thought Dynamics. Bringing all into a super-Chromospheric Husbandry ratio, of the mighty colossal expanding Theocratic Seed; dynamic wealth to bring forth the new Atomic Solar Plane, where man will be radiant with light.

The Central Sun's creatable Virgin plausibility, awaiting the sperm efforts of man. The soul bringing into birth the internal wonders of his now glowing etheric body, where

creation of the Sun's Galactical Magnitude. Giving unto man a way of progress, as he tries to shape his destiny ahead.

Where the solubility of the Atomic Word lies in its infallibility to fluidically involve the full depths of the Atomic Fires. That of the Divine Uranian quoit of the Sun in Scorpio projection. This became the first Glory of the Intelligencia, bringing Mercury into birth as Hermes, the founder of Divine Hermeneutics. But the Greeks, out of inflated egoism, merely turned it into dialectic logic, losing all possibility of expansion into the glory of Solar ONENESS.

Even though Ulysses set the way to the unfolding into Neptunian Glory, they passed it on to the Roman upstarts as expanding decorum up to Jupiter. Thus Hermes was merely left to follow the Sun day by day, until Merope perceived him on the Mountain Side of the dere-

Whereas Jacob and Esau, mind and fire, became blended up as Jacob wrestled with an Angel or Word at Peniel, Merope in carrying all up to the heights of the Atomic Mind Plane, wrestled with the Atomic, and brought all those Celestial Glories back to their rightful status. This explains why Atomic lithographic statements are abbreviates of the solidified language of common knowledge.

For they are the Atomic Fire filled with Universal Philosophy, burning the new Laws into the rock creation of the soul. Thereby transmuting Saturn in Capricorn into the Flame on the mount, and forcing Saturn in Scorpio to become of Fiery Fluidic action.

Also explaining of the Tau Cross...

... which Moses had struggled to raise up to the heights, to save the Seed from dire destruction. Thereby capturing the Ten Commandments as the new lithographic Laws. For these are the watch dogs of the Abstract Plane of Neptunian lithographic procreation. Thus Merope brought into being for the first time, the true understanding of Compassion, by her polarising the Stone Age, that of the magnetic world, into that of the Atomic.

Here is where vibronic sequences, sent out on Merope's Atomic Wave-band, are now the octavial light measures of the frequencies of the Abstract Word concordance, that of the Chromospheric radiance of the Central Sun. Therefore the true death of the Atom is now being infiltrated into the etheric creation of the soul's unawakened Neptunian beliefs. Which now as Uranian reawakening mortuary meal vibronics, will stir the sleeping golden Salamander into Neptunian royalties of Divine Genius.

Therefore, at long last, the beauty and wondrous propulsive majesty of a stupendous Divine Thought, is now the driving Etheric beat of the Central Sun Harmonics. That which is now pouring forth of the Dynamics of the conforming Atomic FACE now coming forth within man, through the

mysteries untold are waiting to come forth, as the Chromospheric Thought Dynamics.

(See plate on page 7)

Here is the etheric majesty of the revolving Chromospheric Atomic Arc dimension, that of the Atomic Plane of Neptunian aspirational creative belief, of the reborn lost plausibility of genius. Ancient wonders given birth, but never driven into active causation. Mighty wealth suppressed by false religious beliefs, set up by pomp and bigotry.

For the Real Truth of life and its unfolding wonders, was set into action by Merope thousands of years ago, when she drew down the Holy Fire, filled with the glories of Divinity. That which would have given all men a mind, with expansion into the Realms of Neptunian Glory.

## The Central Sun Harmonics

NOW, the Atomic re-invention of Galactical abbreviates, has become the fullest and most penetrative octavial source of conscious impingement, of the Central Sun's immense intensified Holy Atomic Fiery creation. Where the Celestial Hierarchical Glories, as the Royal Hosts, descended down onto the Solar Ecliptic Path of the Zodiacal

lict Wast Water. From there onwards she rose him up as the Glorified Sperm MIND, making HIM the Holy Begotten, the reborn Son of God.

Thus she became the MOTHER of both, until she incorporated them within her blood life, as the Divine Virgin of the Atomic Age. Sacrificing all, that they could become the in-flowing Voice to the depths, building up the Chariot of Universal Philosophy, to infiltrate the blood-life of all men. Thus here we behold the Divine Hermeneutics, which she brought up to the Atomic Plane, as the reborn creation of the MIND.

So now, the very Intelligencia of the various Atomic Cycles of the Virgin FACE, are alive with the activity pulse reactions of the Cosmic Virgin unfoldment, of the Atomic light Sentinels. That which has become as the Nymphs of the blood-life, from the revolving chromosomes. The Celestial Glories of the heights, which first appeared unto Jacob at Mahanaim, as the Angels of God, that of God's Divine Host. But when Merope rose all up from lunar to Solar, onto the Atomic Plane of the Divine Colure, she polarised completely the Moab states into the Divine Glory of God.

**Universal Mastery of the Divine Scapegoat.**

Here is the main aspirational attachment of the Hierarchical birth, for the Hierarchs are the heart Compassion of a humble nurturing royal heart radiation, of simple, but pure belief. That so forthright, as to become of a martyred warmth of compassionate reality, to unfolding responsive attainment.

For this was the task she had set herself to conquer, and bring into birth the New World of Vega. That of the Atomic insurgence of the full wealth of the re-aspirant of the Virgin Plane, as that of the Choreographical resolution of the Neptunian bloodstream. For the whole context of life has changed, bringing a completely new outlook, as polarised beliefs of the past.

Therefore, all the Supreme Galactical purity of the unified Fires, is now pouring forth of its radiational intensity, through the Chromospheric Arc, as the magnificence of a Virgin Enceinte Mind. That of the complete Divine octave of the heart and pulse of the Virgin frequency of Hierarchical Belief.

As the soul awakens to these truths, will he find untold mystical wonders revealing their royal glories. But truths that he will have to wrestle with, to get them established into matter. For the astrological blue-print, the mighty Glories of the heavens, is now based upon the Atomic contours of the Virgin Atomic Breath. That of the purified relativity of compassionate sensitivity, as that of Divine Theocracy. This is where the true definitions of Communist theories are defined, for only by the united belief and action of all souls concerned, will they pull the new beliefs into living creational Divine LIGHT.

A World of Immortal Glory, born out of the rigours of the past, for all now is the Prime Atomic Breath of the Atomic Plane of re-adjusted sound. Where radiation as Atomic frequency to frequency, is of the Etheric Primordial Beginning. That of the time before the Fall, when soul was in its god-like creation, but minus experience. Now, in being born of all such experience, in unifying with those heights, became greater than the Angels.

Therefore all now commences with intuitional consciousness, the Breath infused with Atomic accord, and Universal Wisdom. While conscious beliefs of Neptunian creation, will now manifest as the polarised mortuary meal of divine etheric salvation. The whole of the internal being seething with activated wealth, and waiting to break forth into new-born life, with the prototype rights of Relativity's unity, as the Power of complete Virgin rebirth.

For where the soul had witnessed only negative and positive in all things, now it would be a positive status in all those things, as well as a god-like rebirth of the soul. Although this is the house of new Beginnings, the house of "HOME", it is also of the

compulsive Hierarchical intervention, that of New-born life. They now being, in their installment through the Breath, as the Power of the Pure Virgin mind, that of the unified Oneness of the Voice, bringing Pure un-born LIFE into the soul.

Therefore they now being the Hierarchical Government completely ruling the World through the Breath, that the Higher Powers can descend and find rebirth, to take of earth experience and give in return, of the vast unborn wealth of the Greater Planes of Creation. They that are complementary to the Chakra planes within the soul. For as the soul FELL and created the planes within their own internal being, did they also create of the Polarity in the Cosmos.

**Divine Oneness**

NOW with all coming back to its reborn original Creation, Mighty Cosmogonical Powers of the unfolding Central Sun, are now radiating the Etheric depths of man, with the intense Reality of the Neptunian Bull. Therefore all will be completely under the shield of the Orion Solar Infinity, for here lies the greatest Secret of ALL TIME, that of Regeneration, as the Compassional Etymological Vibrations of the New World Plane of Atomic sensitivity. Where every soul now was his own internal regeneration, by the Kundalini Fire ever revolving from Source to source.

With the inflowing Outer World Breath ever intensifying and stimulating the action of the revolution. This being the entry of the Hierarchs, as vast Incentive Powers of the Planes of Creation, that on entry, take on of the humanised state of mind, and become the living components of the soul composition. This is the FACE that is being built up within the soul, as its cosmogonical belief of Creation. But most of all the soul's means of existence, rebirth and continuity. Thus it either believes and creates, or withers away into disintegration, with its Atomic wealth being thrown into the Stream.

This is the clear and concise explanation of the Compassion, where the Hierarchs, the Mighty Pure Powers of the Heavens, are descending down into form, to retrieve their Atoms, and save the Seed from disintegration. This is Prismic Brilliance, as the virtuous radiances of the Purity of the Holy Virgin Fires. Where the Atomic golden Salamander, who as the chameleon of the Neptunian Plane, radiates the full magnificence of the Divine Supreme FACE.

Therefore, as the soul builds up his own Face, he seeks to build it up in the likeness of Divinity. For through Time having become that of LIGHT, through Merope sending up its glories to the Cosmic Heights, it has taken on that of the LIGHT of the Silent Intelligencia, with that becoming as the intensified Belief of the infusing Divine infinity. Thus helping the soul to find the answer to life, and the way to blossomed Neptunian expansion, through his own divine husbandry.

For all the Beauty and Celestial Glory of the Virgin Royal

Neptunian depths, lies in the frolicsome levitational Breath of that Divine Silent Infusing Intelligencia. Then as those inner depths become as the upsurging fountain of the awakened Bakshiserai Fount, will it become as the new reborn wealth of Merope's Atomic Chromatic Divine Heart-beat. For it is by the continual Infinity of revolving Holy Divine Chromospheric Truth, that the Royal Divine Purpose of Evolution will be achieved.

Therefore man becomes the creator of the Universe, by transmuting the Breath into the

but made to bring all to expansion, by treading it into the way of life, causing LIGHT to issue forth.

Therefore the cosmic reality of the soul's ever changing husbandry, is controlled by the etheric internal guidance of the soul's own Atomic consciousness. But must ever be where the internal Fire responds only to the Sun in Scorpio's Royal Divine ONE-NESS. Hence, as man so awakens, will he become responsive to the Law, and have

**REBIRTH**

AT last the soul has awakened to the true purpose of Life, and the Solar Glory is entering into his mind consciousness. Now, once more, he begins to see with the eyes of a god, and is ready to go forth to serve, and make ascension by the treading-in of his staunch beliefs. (See text on page 5, col. 5).

supreme Atomic oneness of the abbreviated Word of Divine Conception. Thereby bringing into birth the Royal Presence of the Holy Fire, through the Atomic radiation of the Central Sun. Hence he becomes a god in his own right, when he perceives the royal majesty of the task he has been set to do.

Yet this is where the oscillating virtue of the pure Atomic Wave-band consists of the lithographic sincerity of the Sun in Scorpio penetrative Holy Fire. Here is where the Virgin enceinte mind becomes of the all prevailing Presence of the Great and Mighty Lord of Scorpio. The new inflowing Sperming Life that could lift up the whole of the mind to the Royal Neptunian heavens. For the New Plane is now the ceiling of the Royal Divine Mind, that now within the Hands of the Hierarchical Lords, through Relativity. That bringing the Theocratic birth of the unified Atomic Word of Neptunian reality into full Chromospheric Glory.

Therefore LIGHT is now Neptunian unfoldment of the Solar Wealth of the soul's lost internal polarisable depths, of the Sun in Scorpio. Whereby all becomes of source to Source Atomic Wave-band royalty of spiritual Divine release. No longer is man going to shut down the Atoms in an internal rock of ignorance and lack of responsibility,

to comply and set such into motion, before he can claim a greater unfoldment of consciousness. Thus is both judge and jury upon his own actions, and what his soul demands to become.

Therefore, True Spiritual Causation of Divine Husbandry, is where the chromosomes are all of one molecular driving propensity, that of Atomic Husbandry. So as the Atomic Breath so infuses the soul, will it confute with the reality of its Solar pinnacle point exactness. Thereby carrying the responsive soul straight to the goal of his objective. While the unresponsive soul will merely climb the step-ladder of alchemicalisation, where the husbandry slowly unfolds the way for the soul to perceive.

By the former, the Voice of Divinity becomes the complete Atomic Wave-band of Theocratic colorific magnificence. Then that of the Golden Neptunian Virgin Sea-horse Powers of the North and South Hemispheres, become polarised into the New World equatorial crossing for the last time. Thereby enter into the true World of Neptunian Vega Reality, bringing LIGHT and Beauty to the whole of Creation. By this the gods would begin to fulfill the instruction of the Covenant, but now in a more glorified way.

For the locker of Davey

Jones has now become that of the Neptunian Spiritual Ritual, of the pure Priestal rites of Holy Communion with Divinity. It has now become the crowning Glory of the New Virgin Atomic FACE of Divine Royal Sovereignty. And all are now blessed with the Neptunian Overshadowness of Merope's Atomic Fontanelle wealth.

For She, as the Virgin, risked the very fathomless depths of the lithographic depth of the Etheric oceans, to find the lost glories of the past. Thereby rose up the Sodomitical negative states of illusion, by polarising through her mind Belief, sending up to the Mighty Intelligencia the LIGHT of her Royal Declaration.

Therefore now, all is spermed with Atomic Brilliance and Central Sun Intelligencia, through Merope's Divine lithographic belief. For she had brought the World to becoming born of the Royal Atomic LIGHT of the True Hierarchical Heights. Where the Divine Ethers were now the Royalities of the depths, guiding man along the Neptunian Path of Rebirth.

TONIGHT we have brought to you the wisdom of Atomic Hermeneutics, the inflowing Glory of the Heights, the great inflowing Power of Wisdom that is now making its way down to the Earth.

As this interpenetrates into your depths, and you interpenetrate into its depths, will there become the unity between your etheric body and the Divine Wisdom.

So by diligently seeking and being inspired by the glories of what you hear, your mind is going to become alight and spin up into the heights. But you will only have your mind spinning up, if you become aspired. If you do not allow yourself to be moved, then nothing will take place, and all will remain dead within you.

You have to be stirred by the thought being placed before you, and then you will begin to find changes, helping you to become. This may not appear very important to you at the present moment, but it will as time goes on, and you begin to find you are lagging behind others; that you are not really being born of the mind, but are still of the flesh.

The Earth will not be as it is now, for it is going to be of Spirit, and unless you are able to draw the Great Powers of the Heavens down, and fire them into your bloodstream so that it becomes as a revolving serpent, you will become completely lost.

**Closing Prayer**

GREAT DIVINE ONE  
We ask Thy Blessing upon the Great Word that has gone forth tonight, declaring of Thy Internal Beauty, Thy manifested Truth, and as man grasps the Word and brings it forth as the royalty of his own mind he will thereby bless the depths with the Beauty of Thy manifesting Glory, bringing Thy Divine Wonders as the Radiation of Light, Great One, it can only be through their own struggle, but we ask Thy Blessing upon each one, that they are able to break through the sea of their density, and find the glories of the dancing spirit. And we seek of thee, O Great One, in the name of Thy Great Love.

AMEN.

# THEOCRATIC GOVERNMENT

Edward Heath,  
11, Downing Street,  
London, E.W.1.

11th July, 1970

Edward Heath,

You are about to face your biggest problem, in taking up of Office of Prime Minister, but you will never solve it by bringing in destructive arbitrary law. You are only laying down the first foundation for a revolution.

Before you start denouncing ways of law and order, you yourself as a body, must be fitted to do so, for your problem is an inflationary spiral, brought about by the limited classes necessary causing for finance.

This is a Solar Atomic World, now manifesting on a Mind Plane, while you are still trying to rule with old lunar imperialistic ideas.

How can you stop the masses screaming out for more money and inflated wages, when this is nothing more than the result of the over-spilling set into motion by the incessant vested interests perpetuated by the Tory classes? After all, you are the creator of the commercial education, hanging before the public, luxuries they can ill-afford to buy, and can well do without—and so can you, as far as that goes! Whereas it behoves both you and them educating yourselves to carry out the Covenant which every man comes to the Earth-plane to fulfil.

If England and America do not turn to a totalisation without, their finance is going to collapse, for it is not the selling of arms and wars, that is going to solve the present problem. It is now a MIND World, and 'leading the masses in uplifted and expanded education' is the only way to bring the country out of its chaos.

It is no good breaking down what your previous Government put into operation, by dissolving its nationalisation, for by so doing you are only going back into old imperialistic ideas which have caused all the trouble. The country belongs to the people, not the Government—and you have got to set it so that they can live.

One cannot deny that quite a lot of good, as well as mistakes, was put into operation by the Labour Government. Their trouble was, that they were too weak and have had the support of the Higher Law.

One of the biggest troubles is the cleaning up of 'politics' first. I perceive there is a waiting with regard to cleaning up the 'permissive society': this is excellent, but do you do this, don't forget the culpability of the newspapers against the 'fifth' comes in.

Why start trying to reorganise your finance through the Common Market? This is a way-back, which were not to glamour long ago? Why not come down to common percentage of the World's commodities?

While you and America are talking up your daily financial gains, they are busy educating their people, drawing forth their wealth and seeking to establish a true Peaceful World of Democratic without. This is what the last Government and you are not making an attempt to do, for the wealth of the mind lies with the people, 'atomic mind wealth'.

Education must be for one and all, so that their creative mind wealth is drawn forth to serve their country, and not education set only for the moneyed-classes, that they can get the pick of the gains.

Religion and old religious ideas are finished, and it is now a world of mind expansion, which the students have been trying in their unintelligent way, to expect 14th July. I warn you, disaster lies ahead!

Unless the old antiquated imperialistic ideas are reformed, England will not only find herself without any Commonwealth, but a fourth-rate country serving the team how backward she is, when so much was really expected from her.

You may not believe it, as your beliefs are narrowed down to old religious illusion. Vibration, and is now riding the Earth as a Theocratic Cosmosphere. Unless this Higher Law is obeyed, your difficulties will not be terrestrial, but Cosmic!

Gladys J. Spearman - Book.

Gladys J. Spearman-Book.

This account for why there has been a sudden demand for the Cosmic, for day after day, new demands are made for fresh subscriptions. But now let us look into how Harold Wilson became called upon to serve the Great One.

(See chart in col. 1 & 2)

Neptune is the first house in the royal sign of Leo, indicates his heritage, that the Higher Powers could use to Work through. For this is now a Neptunian age, and especially with his son in the Mid-Atlantic in France, he could have been the means of relieving the Piscean age that was fast to religion and poverty.

The Mercury and Uranus in the sixth house in Aquarius, suggest wisdom, if they could have been polarized onto the Cosmic Path. With his Path of Destiny in the fourth, directing him to begin his re-direction

of the past, through the higher Law, as seen by it being in Libra.

This being the sign of the scales, his soul being weighed in the balance, and either embracing the New LAW, or Den falling backwards off his horse. It being the second decade of Lopez or Victoria, was the cross he was carrying in future compared to Paris in the world.

This if transformed by establishing the mighty wealth of the past into the elevated Atomic Mind Plane of the present, would have justified the riches of his Neptunian into that of Royal Physical wealth, that of the Atomic Law of present day I.R.C.E.L.

When retrograde in Leo, was that made him hesitant, with his moon in Cancer indifferent to honoring the army was he too made in the House of Commons, when seeing his

principles. It was such as the statement made in 1960 at the Labour Party Conference, that the Higher Powers were looking to me.

This being...

"Advanced capitalist countries are maintaining full employment today only by virtue of vast arms orders, and this would be the order of the day in Wall Street and other stock markets, the day never breaks out. We have announced that the Labour Government will include a Minister for Management, and among his duties will be to prepare for the economic problems that will follow hard on the heels of massive disarmament. Economic Conservative economic policies, harmonious monetary controls, cannot deal with the problems of the waning of real resources that we shall have to face."

I THINK MANY OF you for your kindly letters, those of you who, in being well versed in occult laws, saw well into the depths of rebounding action. While those who were situated to help me continue the Work of the Hierarchs, I feel were being impressed by these Great Ones. Then the MANY new subscribers that have been drawn to our Royal Sovereignty of L.A.F.L. quite a number stating that they had their own opinions regarding the situation of the change.

## The Ruling Powers of Life

THIS month is explanation of what appeared a "PLAN", and the enclosed letter to E. Heath, I am going to give an exposure of many points, and how the occult laws are explained. This, as well as the Work of the Scepter, will I hope, help some of you to perceive how much we live in illusion.

(See letter in col. 1 & 2)

The letter was dictated by the Higher Powers, through me, to the ministered the means nothing, but that a their law, for once these Mighty Forces have been contacted by a soul, they are not to be forgotten.

These Powers now rule the LIFE upon the Earth, and as the Configuration allow, that began in May the 4th, necessary to re-orientation up to the beginning of November, they will be felt by all and sundry. Therefore, the letter herewith, is only barely touching the fringe of what is going to come forth, for the whole world has been completely changed from the traditional to the Rational, reflection into Reality.

Now, Theocratic Communion Indication has been established, whether we like it or not, and a Totalitarian Government will be set up by their ruling influence. For Rights and Rights are now blended into one vast Atomic Classification of L.A.F.L. A World of MIND, where Divinity is ruling in all His Ones.

These Mighty Powers have been warning us that, as they make their own by Atomic indication, man would find himself changing and taking on of greater and more elevated levels.

This Plan has been Dynamic, all it would was the Scepter, and I took on of the task. I could not have been and without the depth was within an constitution, but we will

not go into this again, as it is already known.

The Great Work now of these Mighty Powers, is to select out of life, those who have, out of their Esoteric Efforts, descended a flow of Genius. Then they will direct them into the office they will find themselves established in. Naturally, to start off it will be a little devastating, for most will be newly torn out of the old animal state.

The major point now coming into being, is the fact that names and vested interests are NOT the point factor, but names is an end, with the Harter System gradually becoming the means of life unfolding. For as the Atomic Solar Hierarches Glory, interpenetrate the depths, and it turns into Divine Constitutional physical reality will not be necessary.

At the present, man is still in a very undeveloped state in his immediate circumstances, in view as he transforms from the lunar into the Solar, he will realize to the true state of existing life. All now is an Atomic Mind World, that being abundantly fed with Solar Divine LIGHT, where disease, war and chaos will slowly disappear, but naturally all taken place through man himself, but his time, he will not be able to avoid the changes, hence the disturbances taking place at the present moment.

## Neptunian Heritage

WHEN the Great Ones called upon Harold Wilson to take upon himself the yoke of Government Change, it was because he had within his constitution, royal possibilities. Those that he could use once again, but in a polarized way, to help bring about the Great Theocratic Plan of Change.

Although this has not fitted into place, it does not mean that they are not ruling, they are, but through the Scepter, thereby sending the Wealth of Universal Philosophy down through the branch, and each man taking it unto himself, thus sending for the Royal Word through the Great Cosmic.

Where did massive disarmament take place, where did we set an example to other countries, and above all reprimand Johnson and Nixon? After all, Wilson saw the many films of the atrocities in Vietnam, so where were his vows then.

This was followed on the 11th Sept. 1964 in the Tribune by...

*"There has never been a time when the World has looked more anxiously to Britain for a lead, a lead on disarmament—instead of tamely following every American statement—a lead in the attack on World poverty, a positive stand on racial discrimination and racial oppression."*

Again I ask, where was this put into operation; then on Jan. 19th 1964, he states...

*"This is the time for a break-through to an exciting and wonderful period in our History, in which all can and must take part. Our young men and women, especially, have in their hands, the power to change the World. We want the youth of Britain to storm the new frontiers of knowledge, to bring back to Britain the surging adventurous self-confidence and sturdy self-respect, which the Tories have almost submerged by their apathy and cynicism."*

This could not be done by giving the youth free access to all forms of promiscuous indulgencies, while the Sodomy and Abortion Bills should never have been! Our work was to be an example to the World in all the Glory of the Arts. All these passages now being quoted were unknown to me in the past, yet I continually wrote to Mr. Wilson regarding these matters, and which I see now, were true to the letter.

For he neither disarmed nor reprimanded Nixon regarding Vietnam or Cambodia, but revelled in his actions, resulting in a slip-up on the polished floor of the British Embassy in Washington. Giving the M.B.E. to Pop singers was not the answer, for I spent some time trying hard to convince George Harrison that Mr. Wilson was not what he believed.

When one makes such statements as that made by him on Feb. 7th 1961 in the House of Commons, as...

*"Our exports of arms and munitions are, of course, booming, but I think that we all agree that the future of this country lies in exporting the munitions of LIFE to under-developed Nations, not in earning foreign exchange by shipping the instruments of death to Germany, the Middle East or Central America."*

...then a time comes very soon when we have to answer for such statements, for that is the Law. Thus why, Mr. Wilson, did you not stop sending arms to the above countries, and decry Nixon for the evil he was perpetrating in Vietnam and Cambodia. If you had done so, you would have had the multitudes in Britain at your feet, and you would have out-lived all the postal votes etc. that the Tories put into operation at the election.

Then in the Daily Worker on May 5th 1964, we find him saying...

*"It was right to issue a warning to the Government, not to go any farther in the subordination of British policies to the United States. I believe at the moment the danger to a negotiated settlement in Asia is provided by a lunatic fringe in the American Senate. Asia, like*

*other parts of the World, is in revolution, and what we have to learn today in this country, is to march on the side of the peoples in that revolution, and not on the side of their oppressors."*

Where did you fulfill this Harold Wilson, and then you wonder why the Higher Powers withdrew their intended Plan at the end! They went on trying to make you awaken to the responsibility that you

most out-rageous declarations, which they have no intention of keeping.

For this Common Market is an eye-sore in the eyes of many, and with many other points against, gave Powell untold jurisdiction over your possibility of votes. I tried to get many to vote, but they defiantly refused to vote one way or another, for they doubted your honesty and disliked the Tories, especially Heath.

now ruling through the Chromospheric Atomic Hydrogen Breath.

### Moral Values

I wrote to Mr. Wilson on many an occasion, and although there will be those who will say, why should he have taken notice of me, I can only say, his inner divine self should have felt the sincerity and truth I was reiterating. For

COMMUNISTOS BROTHERHOOD

ALTHOUGH to many this may appear as just a dream, or even an impossibility, it MUST, and WILL, become a Reality, for it is born of Hierarchical Deceit. Thus let the Voice of Britannia go forth, driving her Laws of Universal Philosophy far and wide, guiding all to the New World that lies ahead, the Royal and Sacred Theocratic City of the Central Sun. (See text on page 10, col. 4).

had claimed and declared when you were out of Government and were seeking for the Prime Ministership.

Now we come to a very important statement made in the House of Commons on the 3rd Aug. 1961...

*"If joining the Common Market means a reduced ability to trade with the Soviet Union or the Eastern European countries or China, I submit this will be detrimental to our economic welfare, and to the prospects of full employment, and it will make a real peace more remote."*

Why did you not openly declare this when you were in Office, but I wonder what you are going to do now that Edward Heath is advocating the Common Market and his friend Powell is disputing. It seems to us onlookers and rate-payers, that politicians make the Floor of the House a sporting ground for matching

Therefore, how could you make such statements when not in office, and when in, completely avoid them. How could this be condoned by the Hierarchs, especially when such a statement as you uttered in April 1964 completely condemns you.

*"When the gods seek to destroy governments, they first tempt them into illiberality."*

Does this not savour some of Mr. Wilson's inner remote encephalic wisdom coming forth, for illiberality means narrowness of view, conservatism—lack of expansion into new ideas. Therefore, he is also saying that those governments which do expand into new ideas, will be protected by the gods.

This is perfectly true, and neither the Labour nor Conservative Parties, as they are, are going to comply with the Theocratic Government that is

every letter I wrote,—unknown to my knowing of these statements, which have been sent to me by an unknown believer in what I am given,—co-ordinated, and I advised him of these Higher Directions.

These letters were being written by the Higher Powers; yes, the Gods, and not me, and to we who understand the Reality of the Witness, and who have proved so much, this was a desecration that was a tragedy. Yet these people talk glibly about Jesus Christ being Crucified, when in reality they are ever crucifying the Solar Blood in all their artifices and breaches of faith!

I am only the channel for those Higher Powers to try and hold the soul They too wanted to use, to guide the World out of its dilemma. When we think of how Lenin led the whole of the World out of its misery of war and poverty, and we can understand how, when a soul is ready to sacrifice, they can bring down a Stream of Power from the Heights, that will

serve this purpose, then we realise what he did unconsciously of these facts, but prompted by his six inner awakened Fiery Planets.

It was because of what he and Mahatma Gandhi did, that I saw what possibility could be put into operation through my Seership, especially after so many declared of what was my task. Therefore I gave up the "ghost", and gave myself up to these Great Powers that I had to nurture into audibility.

This alone has taken seven years, in order that the Configuration could manifest in all its Royalty. This has been accomplished after much internal and eternal changes, and the World is now reborn, which every soul, politician or otherwise, is going to perceive ere long.

So when we perceive Harold Wilson stating in 1961 at a Labour Party Conference...

*"We are living in a society whose moral values are an affront to every decent man and woman,"*

...how could he as the Prime Minister of the Labour Government have passed the Sodomy Bill and Abortion Bill, as well as allow such promiscuity to take place as is running wild all over the country. From the Schools the children are led into sex pursuits that should have come naturally later on, or been explained through the parents.

Naturally they are going to put them into operation once they are enlightened by those who are also being affected by such things. For we are already now having Nurses refusing to carry out abortions on girls of fourteen and fifteen, as well as abortions to incoming foreigners, who come over especially to obtain the operation! Then we get the newspapers continuously displaying naked women; is this necessary, besides the television filling the minds of the weak and susceptible with all sorts of erroneous knowledge, when it could be used for educating them in upright glorious manhood and womanhood.

Or as Mr. Wilson stated on the 19th of Jan. 1964...

*"for youth to storm the new frontiers of knowledge, and bring back to Britain the surging adventurous self-confidence and sturdy self-respect, which the Tories have lost."*

(See plate on page 10)

All this evil is now going to be deleted out of the minds of human beings by the downcoming Fires, that fulfill their course at the end of October. Then the REAL changes are going to take place through man himself, but I am seriously doubting whether it will be with Britain as the lead! It was because of this that I was prepared to make the sacrifices that I have, for I know the value of SERVICE, that demanded by the Covenant.

It did not matter by whom or how this was stipulated, for once it was stated, and of such a High Degree of announcement, it became the LAW for all TIME. These are the Higher Laws that Wilson and Heath, and their ministers, do not understand, but which will demand THEIR toll, whether taken seriously or in vain.

The entry of any man into Public Service calls for intense honesty, and truthful response, apart from sacrifice, then we automatically send forth a vibration of goodwill. Lenin spent a number of years in Siberia for his beliefs and then led the masses out of dire poverty.

While Mahatma Gandhi spent time in prison under British jurisdiction, because he sought to free his people. But at the same time went onto

FASTS that he could bring down the Powers he needed to help them. It was not until after his death that this was fulfilled, but since we do not die, but pass onto a Higher Plane of Greater Service, he is working through the Woman who is now trying to do her best with such masses.

A job the British should have done, instead of fleecing them of their wealth and leaving them high and dry. This is now the heritage of Edward Heath and his ministers, as the work of the Tory Party!

Immediately the election took the reverse swing, I had letters in abundance with regard to my being right, saying the failure was Mr. Wilson's, in refusing to play his part. Sincerity alone would have made him open to the influence of the Higher Powers to lead him in the right direction, so it speaks for itself.

If he had waited until October, the Powers would have been able to open up his inner wealth, as well as "salting" the populace into a more rational outlook. But Wilson's Saturn and Pluto in the twelfth house led him to listening to the Tory Party catch, and not the advice of the "ARC Angels".

What was so ironical was how Heath at the inauguration of the Tory party into office, thanked Harold Wilson for bringing the election in June and not in October. When we see such a Chart and a soul ready to give forth of such internal wealth, being lost, it makes one very sad, for so much is in detriment at the present moment.

However, we cannot let this finish without bringing the chart of Edward Heath, for every man is born of the Breath of Outer World Space. The signs in the twelve segments are the Elements that the soul has mastered, and is consistent of.

For he ionises the positive and negative signs, and brings into birth, as his mind, the elements mastered. This is Daniel in the Lions' den: the lions, tigers and elephant status referred to, are the ferocity of the Powers being mastered.

(See chart in cols. 4 & 5)

Here we see a chart of one not at all fitted for the responsibility of government service, let alone a Prime Minister or a politician. Yet is he not just the 'front' for others working

behind him? With so many planets in Cancer, and Pisces on the ascendant, he is only really suited for the navy, and with Uranus in the 12th house, it augurs sudden endings, particularly by water! But really this chart is best left undelineated, for all the planets are so low in the base, they only belong to the lower elements.

Perhaps it would be as well some day soon, if we look into the chart of Michael Foot.

But Harold Wilson, what a foolish man you were! Sun completely round to Pisces, Neptune in the 1st house, and everything set for the Greater Powers to control. What I can never understand is why you allowed the Sodomy Bill to go through, and furthermore, why

Thereby bearing out the statements in the Hierarchy's letter to the Government, while at the same time as this has taken place, the dock strike is completely established, where the working classes are crying out for more and more money.

Surely the AXE should strike at the root of the evil, and this should be those who are playing with the responsibilities they have taken on, and dishonouring vows that were declared by them.

Perhaps with all the chaos that is ensuing, which is diabolical in itself for the country, both right and left wing of these puppet governments, should be learning that playing at politics, and playing with the finances of the country, is not what the Theocratic Government are determining.

This World and man's experiences, IS NOT for just making money, but the fulfilling of the Dynamic Plan of

NEW FRONTIERS OF KNOWLEDGE

A WORLD rich with promise lies before all souls who are eager to embrace the New Laws of Theocracy, and bring this world of darkness and degradation into its true glories of Divine Mind Unfoldment. The world must make expansion into new realms of thought, and storm the mystical frontiers of consciousness, for only in this way can the soul make growth, and bring the Cosmos to its greater intensity of Divine Evolutionary Enlightenment. (See text on page 9, col. 5).

the Tory Government are now talking about clamping down upon the promiscuity now running riot in the country, when I understand that Mr. Heath did nothing to refute the Sodomy Bill at the time, or am I being misinformed?

As this is going to press, we find that a "leak" has probably taken place concerning Britain's Trade figures, whereby somebody stands to make thousands of pounds profit on the Stock Market.

The only persons who knew of this would be the Treasury and the Tory Government.

Cosmic Evolution. So perhaps at the present moment it is one evil breaking up another evil????

Also the Tory Party and others will learn now, how every action has an equal and opposite reaction, for is not the dock strike, which is crippling to the entry of the Tory Party into office, but a rebound of the doctors, who are chiefly Tories, threatening strike to the Labour Party's Nationalisation of the medical welfare, and then crying the strike off when the Tories came into office.

By this alone we can see where the roots of corruption lie, and could verify the many letters I have received, regarding the newspaper opinion polls, and the sudden reversal at the end.

Yet, as this now leaves for press, and is HOT with moving possibilities, I see that Michael Foot has been elected sixth in the Labour Party Parliamentary Committee. Here strongly indicates that the letter to Heath has borne good fruit and that Michael Foot stands on the fringe of the New Theocratic unfoldment.

Although he does not embrace this for the moment, I salute Michael Foot for the good tidings of tomorrow. For I stand not for vested interests or political conquest, but Cosmical Legislature. So here's to the glory of rebirth and the dissolution of capitalistic bugbear. With a Totalitarian Government springing up out of the desert of poverty and strife.

(See plate on page 9)

Now it seems as though we are in for a rough time, while the Hierarchy adjust man to the new Laws he has to tread. Well that is life, but harder still for the Scapegoat on the wheel. But whatever the cir-

cumstances, nothing can alter the LAWS, for these are set right up to the Central Sun, which now dominates the whole of the Earth.

So to sum this up, what this amounts to, these governments are of the past world, the old Saturn state of disillusion. This is a regime which has outworn itself and those now ruling in it, are of old fossilised states that are finished.

The evils that are accruing out of their old regimented status, are not really from people crying out for more money, and the abundance of goods being dangled before their eyes, but souls that are crying out for expansion from these old worn-out states.

All that this primeval imperialistic regime can do, is to enforce on the masses imprisonment and military retention, instead of guidance and expansion, that will draw down into the depths peace and goodwill.

This is now why the Hierarchy are seeking those that are awakened, whom they can work through to bring new Atomic wealth into birth. For those who are throwing pots of paint, bricks through windows, and x-gas bombs, are doing it out of frustration.

For their inner encephalic etheric consciousness, has awakened, and "young men and women are seeking the power to change the World" and give to Britain the new sturdy self-respect, which these old governments have submerged by their ignorance and dominating capitalistic ruling.

I believe this is what Harold Wilson stipulated when he was vying for governmental authority, and which was afterwards grossly forgotten, resulting in all being handed back into those states which we all had hoped were whittled away into a broader and more expansive outlook to an intelligent future.

A Government is to lead the people into expansion, not use its faculties for the few to build up big business, but the masses being taught and led into cosmopolitan service unto the good of their country, thereby building up a united Citizenship of the whole World. Thus the first steps in the unfoldment of Theocracy!

## MEROPE'S OPENING PRAYER

**G**REAT Divine Spirit, once again we seek to make enquiry into the Word. But as pioneers in a New Truth we also ask for that which will help us along this New Road, one that the majority have not yet touched, yet a Road that will help many onto a wider and a greater Path of life. We know this had to come, as the Mind Plane, or the Seed would have perished. Now man can blossom, now he can build up a mind, now he can become One with the Great Heavens, and above all, give forth of love and Truth, because he is aware in every way of the greater purpose of life. And so tonight, as we seek once again, help us to perceive and send out onto the wave-band, thoughts of strength, thoughts of belief, and ways and means that will help the less fortunate; and this we seek in the name of Love and Service. Amen.

## THE MASTER THEN MANIFESTED PEACE BE UNTO YOU ALL.

Many are gathered with you from the Great Planes, for a Great Victory has been won. The ARC has been gained by the Hierarchs, and now they are in control of the World. No longer disaster, no longer war, no longer will man be able to assert what he wishes, for They have taken over, and now Theocracy in all its Glory is going to reign supreme. Yes, there will be a lot of squealing, and there will be those who will not be happy at what will take place. But this now is a World for Gods to live in, those who are going to build up a mind and become One with the Great DIVINITY of All-Life. So tonight we are going to give to you the depth of a New Thought that Merope brought back with her on the sabbath.

★ ★ ★

**N**OW when Merope returned from her trance on the sabbath, she gave over a message to you,—that she realised that in the space-craft going up to the heights, it could not go past the ARC, and only went into the Etheric body of the Earth. At the time, she was not able to bring back all that was necessary for this to fulfil itself, so we will now delve into it further, and here, first of all, we have found a plate that will help you.

(See plate on this page)

Now try and imagine the magnetic Pole going through the 'ball' in the centre of the diagram. Then try and perceive the space-craft starting off from the Earth, and going out. In this Astral belt everything of the past is born, right back beyond Atlantis, Aeon and Aeon of TIME ago; all is in this Astral Belt.

Everything can be seen there, it being the Hall of Mirrors. As the creation goes out from the Earth, it then seeks for the moon. Well, it does not know whether it is going up, down, round, or backwards,—it is just looking for the moon, and has the direction of the moon. Every soul has an etheric body, thus the Earth also has an Etheric Body, and the space-craft is travelling in the Etheric.

Now this means that as they travel in the Etheric they take on exactly the same status as you would take on if you went out in your etheric in sleep state, and were travelling in that etheric body.

To try and explain all of this to you in detail would be impossible, because we cannot bring it down to such a low level. Now that is not being rude to you at all, but they are travelling on a higher plane of conception.

As they travel out into the Etheric, everything to them would appear solid. If you go out into your dreams, everything is solid; you can perceive it, you even go so far as to have a meal outside in your dream!

Now if they take a part of that, you are going to say, "How are they going to bring

it back so that it becomes a living substance?"

Well this is where Merope could give you evidence on this.

Merope is one of the old school of mediums, being active at a time when phenomena was in its heyday, and

there she saw this very same thing done in the phenomena seance.

Material from Spirit can be brought through "no man's land" to the Earth and become solid, and it is done like this. We take the Spirit Fire out of it, in the Spirit, and it travels, in the form of a disintegration, through that of "no man's land", and when it enters into Earth substance it is refilled by magnetic fire; not Spirit Fire, but magnetic fire, and this is how such things are brought back.

No man can go outside of the ARC, for he would just disintegrate; he could not take the change of vibration.

Now I want you once again to visualise the Poles going

## The Mind Development Class

**E**ACH Week on every Saturday at 6.30 p.m. B.S.T. Mrs. Spearman-Cook holds her Special Mind Development Class at the School's H.Q. A special Subject is concentrated upon for about 40 minutes and then each sitter is individually helped to interpret and understand his or her findings. Any readers can join; those nearby can make application to attend each week, and those too far away can send in their names and link in each week at the time stated, their names being entered in a Special Book for this purpose. The subjects for concentration are:

Aug. 1st Uranian Glory	Sept. 5th Atomic Compassion
Aug. 8th Neptunian Magnificence	Sept. 12th Levitation
Aug. 15th Orion Valour	Sept. 19th Royal Divine Light
Aug. 22nd The Royal Commisssure	Sept. 26th Elevation
Aug. 29th Divine Causation	

through the Earth. They named this creation Apollo, which means the Sun, and they took the 'Sun' down to the lunar. Now the two ends of the Pole are the Solar and the lunar, and they hold the Earth in space, where the Earth is spinning in space, and it is held there by these magnetic Poles.

By taking Apollo in name-sake, which is just as fully creative as any other, down to the lunar, they took the two ends of the Pole down to one Pole, leaving one Pole without any support. This automatically left the Earth in a void, completely in a void, which if it had not been for Merope being able by her frequency to hold the other Magnetic Pole, the Earth would have spun off into space, and been completely destroyed. This has caused very great distress to Merope, and has added furthermore unto her disability, from which she now has got to recuperate.

Now in their returning to the Earth, the three astronauts were doomed for destruction, but it was by one of the newspaper combines putting onto their placards that the Apollo was 'in the lap of the Gods', they declared that the Gods were greater than Apollo, and so mercy was shown unto them, and they were retrieved.

What you have got to try and remember is this,—and take very seriously,—that everything that is said and done becomes a living creation. This is why Merope is very careful in what she says, and if there is anything she says which she is not sure of, she will tell you so.

Everything you say is a living substance, and if it is not of Truth, then sooner or later it is going to have some disastrous effect upon you, especially now it is a Mind World, a World of Spirit.

By Merope going to the higher side of the Magnetic Pole, in mind frequency, and holding it, she automatically won the Tournament, and holds the supremacy of the ARC. She won the Glory of the ARC, which automatically the Hierarchs have taken over, and those on that outer rim (referring to Fludd's diagram), which looks very odd to you perhaps, really are the Hierarchs and they now have entry into the World through that channel.

The Hierarchs are in command; they will control the World, they will prevent the World from coming to disaster, they will prevent another World War, they will prevent all those states of suffering which the lesser man has had to go through that the capitalist could hold onto his finance. It is going to be a completely New-born World, and will slowly make its way through, yet quicker than many of you would believe possible.

**N**OW having given you that, I want questions from any of you, upon any point that, to you, is not yet completely clear.

Student: Master, in bringing back of the so-called moon substances, it is exactly like the apport seances.

A. Yes, that is right. Have you ever seen an apport?

Student: Yes, I have.

A. In your case, you have seen real jewellery that had been brought back!

Student: Yes, that is quite true.

Merope has seen magnificent flowers brought back. These are things you never see now. All this will be understood as time goes on, but if you study, and study the Wisdom and find the inner depth of it, and how it has an effect upon you, then you will begin to realise

PLANES OF UNFOLDMENT

**I** WANT you to see the centre there as being the Earth; the rings around the centre are the seven illusory rings that man has built up as the Outer Space of the Earth, and would be as the lower and higher Creation of Spirit. Some would call it the Astral planes, the lower and the higher Astral. While on the outer rim you can see where the Celestial are residing, the Great Celestial Hierarchs.

Now if any of you can read these planes, the first three refer to the World. Then you get Mercury right up to Solar, but now the Solar has been joined through Merope unifying the Word, to that which you see right on top of the Circle, that of the CENTRAL SUN, DIVINITY, and they are blended together. So no longer is there just the Solar, but all is risen up to the Divine Central Sun. (See text in col. 1).

## HERBAL MYSTERIES

## Part 37

SARSAPARILLA  
(Smilax Sarsaparilla)

by David Spearman-Cook

WE HAVE IN A NUMBER OF THE PAST herbal articles, ventured to bring many new healing methods to the fore, which will eventually become of a familiar daily household benefit, now that all is moving into a changing mind phenomena of untold revealing wonders. Therefore that which at the moment, may seem difficult for some to fully assimilate, is largely due to their present lack of Spiritual unfoldment. This month we encounter a herb of great and simple benefit for one and all, as its new unfolding creation now attempts to manifest its reborn infused strength through this changed era of Neptunian fulfillment. Thus Sarsaparilla, the herb in question, offers its changing status for the benefit of man, being the means of assisting the healing of many strange sicknesses which could be encountered in the near future, partly due to the soul's stubborn resistance to change.

★ ★ ★

SARSAPARILLA is known to most people as a herb of blood cleansing and blood cooling properties, and as such was it commonly known under the powers of yesterday. But as all must now begin to perceive, time and vibration move upon a much stricter tempo, and Nature is the instigator through Law revelation. Therefore let us commence with Sarsaparilla's possibilities in this expansive period.

Firstly it is quite possible to increase these cleansing and cooling principles, with an added infused strength. Therefore as the Fire activates dormant cellular structures of infinitesimal magnitude, within the network of man's mind and body construction, so will the constant application of herbs in the future, assist with their changing vibrational wealth. Hence, Sarsaparilla will become a herb of nerve constructive consistency, to alleviate the shock and come-back of the nervous changes and reactions of the conforming Vega Patterns.

Here is where Sarsaparilla and Parsley, if used sparingly, can be of extreme benefit to the kidneys, for once the wisdom of the kidneys is fully understood, much thought and careful conscious respect towards them is essential, in regard to their activating principle. Then these two herbs can give assisted benefit to the unfolding god creation within the soul.

Here we can quite comfortably perceive, through the

SARSAPARILLA

changing Laws of Vega, that man is going to be forged with Fire of a pre-ordained status of prototypal Thought, because the kidneys, as the bellows, are for the Fire, which now upon passing through them, will be used by the soul for expansive creation of a driving Solar status.

Therefore from this form of healing possibility, let us venture into another, to enlighten us upon this personal pool of potential assistance, to the new unfolding generation of Manhood. From now on it is going to be a period of stress, as many are beginning to discover already for themselves. Whereby they are finding irritable and irksome periods of once

butted disorderly states, building up within them, and coming forth as uncontrollable moments of fury.

This is where mastery of self is required, and also where Sarsaparilla, Sanicle, and one or two grated bitter Almonds, can assist the soul as the unseen changes fulfil their destined task. These changing herbs and ingredients will hold no drastic rebound, upon being utilised for the benefit of man during this vast change, and many others which will be forthcoming. But such would be the exact opposite, if man turns to medicinal and drug therapeutic manipulation, whilst the aforesaid changes commence to manifest.

As the Fires pour through man, Sarsaparilla in its changing frequency, is going to become a fiery possibility towards the internal active intensive mind strength of any awakening soul. But all depends upon the importance of one's change of creation into the expansive Solar direction.

This is where souls becoming Solar born through their conscious belief, will find Sarsaparilla, Cuckoo Flower and Sage, of a vast importance to their bowel and kidney organs, as they are systematically changed by the infusing Fire. These three herbs will assist assimilating redress by the nerves, as the soul tries to be made aware through the infusing conscious Breath, of its intended Theocratic intent, and as to how, and why, these things are changing, or re-adjusting within them, through their unfolding sensitivity.

Sarsaparilla has now fortunately become a herb which can assist the stimulative wealth of the Theocratic inflow, and where a soul may have had difficulty in the past to express themselves, will they find untold and unknown creative abilities arising within them. Here then is where Sarsaparilla, and Holy Thistle can help the soul to maintain a steady influence, for through the nervous healing ability of Sarsaparilla and the tremendous nasal sensitivity of Holy Thistle's cleansing action, both become increasingly activated by the infusing power of the Holy Fires.

Sarsaparilla, Celery Seed and Cowslip Flowers, could, once they have been internally infused and clarified, become a very potent stimulative draught. Whereby the full context of these three types of herbs will capture the Fire, and retain its radiation sufficiently long enough, to ensure that many organs of the slow-

this year, to start the Fulness of her Creation, but she won't have many years left, for her Work has been too heavy.

Student: It is the magnetic field around the Earth which the mundane astrologers work upon; they only perceive the magnetic illusion, and never go into the Atomic Planes of Reality at all.

A. No, never. Merope deals only with the Outer Realms, because she then is able to give you the Wisdom of the Celestial. Merope can travel out in her Etheric Body, she can travel right up to the Central Sun, and right down to the very depths, because she takes on the Cloak of Hecate. She is capable of doing this because of the Frequency she has built up in her spinal column.

Well now, we have come to the end of our time on this. I hope I have given you something to think about, for I have given you the Key, providing you can take the Occult understanding into your minds.

## Spirit Manifest

by Julie Raelins

I have walked o'er star-grazed mountains,  
Breathing thin and liquid air,  
That gushed unchecked from crystal fountains  
Whose flow seeped through the granite, where  
Spring like blood-drops fresh from dying  
Adonats, flowered the blooms  
Of hectic poppies rank with incense,  
That purified neglected tombs  
Of long-dead seers, princes, prophets,  
Who acon before 'neath alien moons  
Of Tertiary epochs, grew to cubits'  
Height and sang their deathless tunes!

And I have mapped the desert wasteland—  
Scene of battles long ago,  
Where monsters reared their necks like sickles,  
And scythed down every living foe.  
Yea, tireless, deathless, sleepless, dreamless,  
Underneath a raging sun,  
I watched stars burgeon, blossom, weaken,  
Till they exploded, one by one!

O give me pain and woe unceasing—  
Let my rare ichor drain away—  
Fill all my veins with blood—that poison,  
Till I behold the Human Day!

er moving propensity will receive the healing powers of the Holy Fires. This will enable a more intensive healing strength by the prolonged stay of the herbs and Fire uniting.

Now it can be well understood why Sarsaparilla was so desperately sought after by the Crusaders, during their periods of destructive plundering. For many diehards who refused to change their mind outlook perished, because they simply stole the fire of the so-called infidel, and were then unable to master its expansive nature, which they took within themselves, whilst ravaging their altar vessels. Thereby they were driven into sadistic furies and were destroyed by their own stupidity, or insanely slaughtered by enraged crazy leaders, who threw caution to the winds in religious fanaticism, and their unbalanced control of the stolen powers.

It may be of interest here to note that Sarsaparilla was used in the water ration of many troops stationed in tropical, or sub-tropical regions in bygone times. Thus fortunately saving many of them from infection through insect bites, and freedom from sun-stroke. Hence being aware of this, one can comprehend why Sarsaparilla could now be used to be of help to the inflowing powers of the Solar Fires, as they internally change man into the right fired frequency of true spiritual power and strength.

Sarsaparilla, Sanicle, and Sage could be of vast assist-

ance, in respect to helping the lower organs of the Chakra creation, thereby assisting them through their cleansing and tissue reinforcing strength, to withstand the accelerated motion of the increased expanding creation within the Holy Fires.

Hence herbs will now become a necessity for one and all as changes manifest, for this is one of the lost arts, which will be diligently sought by many, due to the lack of chemical and medicinal capability in dealing with the increasing sick states of man. The Fires will now unfold and release the imprisoned sick conditions still buried deep within the soul, due to the lack of pure healing Phenomena in the past.

Sarsaparilla when it is blended with English Ivy of the wall variety, is going to prove its unique healing property where children are concerned, for many babies, as young returning spirits, will unfortunately suffer with the impact of their own intense fiery urine. This will be mostly due to the wrong food, or the disturbed milk of their mothers, which they would find most unbalancing.

It would be very difficult to expect a baby to take herbs, but by bathing them with these two herbs, much relief could be found for them, for they too will be infused with the Holy Fires. Young babies of the future must be well nurtured upon non-earthly foods, for they may well be advanced souls, who had at one time renounced that which they may now be forced to partake of, whilst in their new unfolding body of Life.

Sarsaparilla and Mint can afford a cool stimulating drink, and when infused with Elder Flowers and Dandelion, plus the addition of a little juice of a Lemon, can be a very useful agent to sufferers of a most advanced state of sweating. The obvious reaction to this being that of a somewhat increased urine action, and is that which the soul must choose for themselves, for one can be just as uncomfortable as the other.

Next month we will search into the depths of the herb Southernwood.

## EARTH

how important all this is. Frequency and sensitivity are very very important; for only by your increased frequency, and belief, are you able to extract out of the Breath, the qualities that you require.

Student: No individual can now change the workings of the Cosmic Law.

A. That is the point, and of course Merope has set the Laws, being the Scapegoat for this.

What I would like you all to realise is that this plate was part of the great work of Fludd, who was a great occultist. All through the Ages, man, prophets and priests have given their lives in trying to establish these Truths, but they were only establishing them upon one particular point. Merope gathered up the whole of their wisdom, which of course she had to go through first, before she started the

Path of true Occultism, and brought it to a pinnacle point, calling it Universal Philosophy. It encompasses the whole of what has been.

Student: (Referring to the plate).

I was looking at the chains there from the woman's wrists: I was wondering why it should be. What is the significance of those chains?

A. The woman of course, represents Merope, and the chains signify that she is connected to the Earth and connected to the Gods.

Merope is not her own Mistress; she is an Instrument for the Gods to bring New Life to the World. Now you are going to see marvellous changes. Yes, it is going to be hard, and it is going to be hard on Merope, but the way will be cleared, and she is quite prepared to take the rough with the smooth. She has had eighteen years of nothing else but scandal, opposition and treachery.

Merope is quite prepared now, although she is seventy

# PRAMANTHA

Continued from the back page

birth and nurtured by her). So here was Zeus as expansion having to face a dynamic truth. Every spring, whether man believes it no further than a lent remission or not, he draws unto himself by decree of fate, the wealth of the goddess. Man and the gods are closely interlinked, and nobody knows better than Prometheus regarding this secret. This marriage is not as others, and all the gods approve of this union, for it is a divine marriage where the senses become a model for men seeking to sit with "Christ in heavenly places."

Thus Zeus came very near to being dethroned as the vernal king and was succeeded by a ruler of another dynasty at the autumnal point. This would have been a dire tragedy and very difficult for man, so blind to his spiritual heritage, to now understand.

Divine illumination and spiritual perception are the gifts of the Horae, or does man prefer the heritage of a Boetian prince and his twenty harpine daughters? Therefore man now stands at the crossroads and will come to understand of this far more clearly as the years evolve.

The real tragedy lies in the fact that he cannot remember that he is of a million years in creation, and being so blind, he is content to just live and die. Thus he lives in perpetual blindness, never really seeing the sun that can give him life and help him find his true heritage as the sun-god; the Son of the Divine Unknown, therefore endowed with immortality.

Prometheus's acquaintance with the decree of Fate, and his present inability to prophesy truly, indicates the sure need for fixed astronomical positions. Mythology shows quite clearly that these powers belong to fixed points of the universe; that is Equinoxes, Solstices and the Pole where culminations take place, and man born from them saps from their wealth according to his labours and intelligence. (He does not just take it from a God upon a cross, he takes it from these as he labours, and in no other way).

He is married to Hera as earth and magnetic pulse, and also related to Zeus as spirit expansion; and by them must he be nourished, but also must labour to be worthy of the nourishment and ensure of its return.

(So what you want to realise is, that if in this life you have allowed all this to run past you,—and you have taken the knowledge,—you are going to build the effects for ages to come, because you have refused to take it up into the heights. You are going to be chained to a rock and you will wonder why).

Thus the fixed stars changed their course owing to this duality, and only by accurate knowledge of these can man find prediction safe enough to venture; otherwise, without this knowledge as clarified sen-

sitivity he is blind, and more and more adds unto the confusion that is involving man at the present day.

The very fact that Prometheus knows the future better than Hermes, even better than Zeus, indicates that he is connected with a more accurate method of time telling, than was at that date. For is

of all, and unless you do that, you have never established it).

For the mind is Jupiterian in expansion, Uranian in its vision, and of earth in its perception; earth-born to spirit, the fourth dimension embracing the third. Even the Rig Veda, the word of the ancients, declares Agni (Fire) is a god whom the two sticks have engendered like a new-born babe.

The Sanscrit word for the spindle of a fire drill is pramantha, from which Prometheus was derived. Therefore Prometheus is nothing more than a

therefore is ever renewed punctually from its own embers by its repeated resuscitations measured out of the years.

(Now this refers to the centrifugal and centripetal in involution and evolution; one comes down to the depths as the Breath and rises up as the renewed mind, and the other comes forth from the soul's own sun as it receives of expansion and comes down to the depths as the holy spit,—and when you can give it expansion by immediate reaction and not waiting until tomorrow, or even letting tomorrow go past,—you

point to another by a chain of runners, the first handing it to the second, the second to the third, and so on to the end. The art consisted in carrying the unextinguished torch on to the end.

The second indicates a number of runners equal to the lives of the soul, but if we look to the legend of the torch race of Hephaestus we will find the real solution. The method being for the first rider to go a day's journey and deliver his dispatch to the second who was waiting for the third, (and carried on from step to step).

Handing on the torch to symbolise the renewal of the year is still done at the Jewish Feast of Trumpets, which occurs at the time of the autumn equinox. These alone hold man's holy tradition, especially the Greek symbol which shows that the Sun, the year, the equinox, and passion from point to point, make a chain of equinoctial points in the lives of the soul. Otherwise, we too might ask the question, Why more than one runner for one torch?

Further deductions prove that all events show that Prometheus was a Fire-god, even if it is not seen now. In the ancient days before the solar year of Zeus, there had been a practice of counting the years, or a ceremony to signify that the sun was renewing his youth. The season was accepted by the return of the equinox or the return of the solstice, and the first Zeus calendar had not been long in existence before it came into conflict with the Promethean year and festival. Then there was a struggle for the mastery; even that some have preserved as a fight through the Ages to return the Mysteries.

Now I am sure some of you will have learnt something tonight, but what I want you to do is to try and learn it in the right way, so that it sets you into motion; not just for one day, but to realise the Royalty you must set into operation.

Look deeply into self and question self, and ask "Where am I lacking? What have I not put into operation? Where have I failed?"

When you can ask yourself these questions, when you can put that into operation, then you will make the expansion you are seeking for: the mind freed from earthy states.

There must be growth and expansion in all souls. If not, then man has to pay dearly for the Power he has taken and refused to place into movement; because the Powers belong to the Gods and not to man.

## Closing Prayer

SO We call upon the Great Ones to Bless the Word that has been imbued so deeply into man tonight, and placed into his heart to realise of a Greater Truth. We call upon each one to be endowed with that Lamp of Wisdom, that as he goes down into the darkness of investigation he can take unto himself of the strength necessary. Give unto him the Wisdom, the realisation, the strength and the Light as his own effort of mind. And as he so prepares, so we seek of You to place upon his feet the sandals of Hermes. Therefore We call upon the Great Ones to pour down amongst mankind the Fire of Truth. May the Great Ones descend in abundance, that mankind can see more clearly of what lies hidden in the words of the Mysteries.

AMEN.

THE RAVAGED FIRE

ONCE upon a time great festivals were held to draw down of this Fire, in the establishment of Vesta, the family hearth; but where is it in man? It is to be found in the solar plexus, and that is where he brings the fires into birth, and where he finds so much difficulty. In the bowels you have the Cancer equinox, the Cancer creation, while lying on top of the bowels you have Leo, the solar plexus, the fire, and these are the two important equinoxes of the past; one was the Golden Age and the other the Deluge, the fall into the depths. That is the Spirit upon the Waters, but when man allows the bowels or viscera to rule his mind in the form of delights, he then draws these fires down into the bowels and it drives him wild, with the lower desires ruling the mind, instead of the mind ruling the bowels. (See text on page 16, col. 3).

he not the worker of the oracle that has failed to bridge the gap so that a marriage could be made and a third principle re-born into the fourth dimension?

It also confirms the truth that Prometheus as soul belongs to earlier times when Zeus had not married Hera and her intercalaries, thus he endures to become unto the God, while the gods pass away. Therefore indicates that man came into birth as the result of man, although all came from the same root.

Prometheus saw two monarchs dethroned before Zeus, and indicates, when understood, he came before the Pole itself. For as the soul rises above the pole by the rope of AK, it can become freed from the gravitational pull of Hera; thus must have gravitated towards her, indicating his independence. But not so with the lower kingdoms.

Mary-Hera having given birth to the Uranian child, to become the Christos Babe in its true conception. Thus Prometheus is not only the son of Ouranus like the Titans, but he taught men the use of fire. (It was through the Titans that Helios began to descend and showed man the way to establish the four-square, the quadrature).

Therefore if he is not the god of the fire drill he comes very near to bearing that character; for where did all the ideas come from, but from Prometheus. (So man is the god of the fire drill which he has completely forgotten; the fire drill of the spine).

Certainly he stole the fire from heaven in a narthex stem by degrees; therefore to invent fire as Prometheus has done is to use the fire drill and create the new fire of the sun, and register the year by the renewal of the solstice and equinox by perpetual motion of the mind revolving in enquiry and action: (putting it into operation is the most important part

personification of the fire drill, the revolving heights from illusion to reality. (So all men are Prometheus's, and all men will be chained onto the rock until they find their godhead).

Yet we would say, Nothing more? Why! he creates men, teaches astronomy, reveals fate, and is even chained to Mount Caucasus. And if we look yet further into the wonders of Prometheus, we will find that the fire-drill symbolises the axis of the universe ever-turning with the pole star for the pivot.

And further still, the fire stick of Prometheus passes from the pole through to the equinoctial point where the year is renewed. Thus he is a revolving Nimbus with his spinal rod holding the dragon-force firmly when fully under control.

Therefore this alone proves that the fire of Prometheus was not kindled for the common hearth and domestic purposes, but is as sacred as that which Zoroaster brought from heaven and deposited on the altar of his first temple. This was the city of Xis in Media, and from there it was propagated into all the other temples or lives which observed the rites of the magicians. This refers to the incarnations of the soul in the wisdom of the mysteries, which has been annihilated by Papalism through the latter Ages.

## The Divine Fire

A great secret, not known to many, is the fact that Prometheus, assisted by Athena (Wisdom), ascended to heaven (the heights of himself) and secretly lighted his torch at the chariot of Helios in order to bring down the fire to man. This is the fire of the sun in man's own heights that never goes out, for it is the spark of the soul which must either become the solar god or returns to the Cause that gave it birth;

will then get the two-way-switch working in harmony, and you will be revolving in the Nimbus.

The Breath comes down to the depths, is boiled in the cauldron, and rises up by your struggle and your sacrifice, first into the omphalos as the Light interblended with the Word; then, as you can set your kundalini fire rising by continued effort—not slowing down but continually fighting on, never stopping, never letting one moment go cold,—then the kundalini fire becomes perpetual motion up and down the spine, over the brain, resuscitating the pineal gland and bringing unity with the pituitary, which sets the third-eye moving; so the seed of the pomegranate descends once again to the depths, drops down to the waters, and Mother Mem has been impregnated by her Lord: the two-way-switch).

Something imitating it was created by the Lampadephora, or torch race at Athens, where Prometheus had a sanctuary in the Ceramicus, or Academy, from whence the torch race annually took place. Prometheus instituted the race himself whence he was called the Torch bearer. The lampas or torch was a candlestick with a shield set at the bottom of the socket so as to shelter the flame of the candle. The race was usually run on foot, and the winner presented his lamp as a votive offering, or that given by vow.

So what happens to the man who makes a vow, gives a votive offering and never fulfils it? It is the worst evil that any man can commit; and that is the trespass offering that he will have to make).

In another account of these ancient ceremonials, it is represented as a course in which a lampas was carried from one

Mrs. B., London, E.17.

"Had a severe nervous breakdown two years ago. Suffers badly with her nerves, due to severe states of depression. Is trying hard to understand the Gazette." (Chart 1641).

**S**INCE you say you have tried very hard to understand the "Occult Gazette", I gather this means that you have not been able to do so just yet. So now let us see if we can understand why this is.

Your Sun in Leo and your Mercury in Virgo are in the 6th house, so you really have got to work very hard indeed to gain mind expansion, but you only find it hard because there is an extremely fixed state with you. This is very prominent amongst those with Sun in Leo.

These people find it very difficult to come away from old ideas and transmute them into new, which means turning the 'old fire' into the 'new fire', and appertains very much to that of the Leo Equinox which is now being polarised into the Aquarian.

Mercury in Virgo has got to be transmuted, otherwise

you will continue to have severe states of depression, and it would certainly account for the nervous breakdown you had.

The Sun in Leo and Mercury in Virgo are just fighting one another. It is amazing how the different states within a soul are apt to do this. I have personally experienced a condition within me which has been in opposition to what my mind was really wanting to do.

I could feel the fight going on, and I have literally fought that part of myself, which seemed to be a 'stranger inside the box of myself'. However, I have proved that if one goes on fighting long enough, it is possible to master these states, until we become completely one-pointed in our actions.

We are made up of twelve parts, and these twelve parts are living states on their own, and until they are blended up into a one-pointed Solar state, they will always be inclined to fight one another.

This is where we come back to the Teachings, showing that Communism begins within ourselves, where all our internal parts are blended up into one communal state of living for

the status of the soul, the spirit. So having seen this, we now have to find out how to deal with your states of depression.

Your Path of Destiny, down in the 8th house of Sagittarius, would indicate very strongly that deep down in the very base or root of the soul, there is a karmic state which has never been transmuted; it has never been reached. So right down in the very bowels of the soul there is a karmic state.

I have noticed this before where Leo's are concerned, because Leo shows that the soul is of the Leo Equinox, meaning that they have really excelled as far as that Equinox or Age. But there is also the

state that is right down in the very depths, where the soul 'fell' in the first place.

This is where the Teachings in the "Occult Gazette", in stripping the soul, are able to reach those 'roots'. It is not very pleasant while this is happening, but the process is worth it in the long run. I have witnessed much of this happening in the School here, where the initiate has had to be stripped, and their very roots—which is what we refer to as the Cancer roots—have been pulled out and the soul has become freed.

Although Sagittarius is the Sign of Expansion, it is also the Sign of the Centaur, where the soul was at one time half horse and half man, which means that he was literally of the 'animal'; more of the beast than he is today. So it is obvious there was a time when we must have walked on four legs, when the soul, in rising up again to restate itself after the 'fall', came forth in the animal state in the process of its growth.

Your Moon in passing around the Chart has now come to Aries, which is the 1st house. So you are passing over the 1st house, in which you have Jupiter and the Moon both in Taurus.

I have never thought it a good thing to have the Moon in the 1st house, for it is not

in its right place. If anything should be in the 1st house at all, it should be the Sun or Mercury; with either of these planets in there, the soul is well-placed.

To have the Moon in the 1st house is not at all helpful, and could be very very difficult to manipulate, for it makes the soul extremely personal, and above all, being in Taurus, it would hold strongly to that of 'desire'.

I also see that your Uranus is in the 12th house in Aquarius, indicating that any 'sparkling capacity' is being hampered.

So there will have to be a very determined struggle by you to gain mind expansion to such an extent that the 'stripp-

Therefore the dynamic magnificent radiation of Merope's Atomic LIGHT, will now shed its constructive radiance through her fast-moving Atomic wave-band. Yet that which also ascends up to the Chromospheric Glory, to re-transcend as Divine Atomic Transcendental Magnitude Royal Opaline Atomic reality, for all souls to perceive and believe, thereby collectivise their divine husbandry, and begin the way of Atomic mind rebirth.

This is where the Dancer of Le Ron has now graduated into an Atomic activity that reveals of its Chromospheric reality. Thereby has become the awe and rhythm of the falling Snow, commencing the glory of a new rebirth. The Divine orchestral sensitivity of the Neptunian Seed, bringing the heavenly Snow Maiden into birth as the individual creation of their belief. That which must be warmed and nurtured into life, bringing forth the great message of the heavens, from out of that mysterious vast void of Space.

The new belief that had set out up to the atomic heights, sending forth its Chromospheric acceptance. Thus filled with the blessing of the Divine Creation, as it reached the depths in its snow clad purity. For Merope had completely bridged the gap between depths and heights, firmly establishing the Divine Atomic Mind Plane, as the Solar-born Glory of the depths.

Thus now speaks the Orion Warrior, the Virgin son of the depths, to awake for the beauty and spirit the price, that the Arc can now speak with the Glory of the Atomic light. Therefore Marriage now Organises the Arc as the Grandfather of the Depths. The Virgin Snow Maiden who has bridged the Atomic Plane, blending the Central Sun Magnitude in the depths.

Remembering that explanation is the highest sensitivity of the Chromospheric world, so it now infuses the soul with the following Atomic Dawn, as the

Central Sun radiating infusion. Whereby man can sup through the Atomic Breath, the Solar Dynamic Might of the Divine Central Sun's Royal expansive reality. That of the Mighty Hierarchical Holy Fire, the intensified Wonder of the heights. That now Sperming and blessing the Priest in the depths, as he seeks to advocate the royal truth of the Snow Maiden's glory far and wide.

With the Neptunian constant revolving of the Divine Seed, awakening the Overshadowing Presence of man's divine response towards the FACE of the Divine Scorpionic Master. For the Holy Breath is the Atomic Bond of His Supreme Divine esteem. Infusing the White Knight with the wherewithal of Perception, to bring his Venus rebounding with the Snow Maiden's heavenly inspiration, setting up to that Chromospheric Glory in aspirational delight.

Now the sensitised FISH, as the Atomic-born Word, swims towards its sperming ground, dancing the Neptunian rhythm of the Chromospheric rebirth. Swirling and unfolding new Solar Atomic, in the purified Waters of their Virgin Source. Each soul now consciously awake to the full measure of their soaring strength, whereby they now will consciously give birth to the newly spermed Atomic Stream, that of immaculate Divine Consciousness. The cautionary rebirth of continuity, which drives the mystery of Evolution.

But now as the Atomic unified Wonder of blended heights and depths, bringing the way of magnetic fusion, to becoming the Reality of unfolded Divine Light. Therefore, as the Neptunian Plane builds up through the molecular infinity dens, will the Venus receive of the Central Sun Power of the Pre-Atomic FACE. The god-like belief and holy aspiration that once was his, when destiny was the eternal hope of becoming.

For this Power is the Holy Atomic Source of the spiritual immensity of Divine unfolding man. The divine aspiration that gives the soul the surge of the Atomic drive. The Well-being that brings the spiritual state

spinning all up into an infinity revolution.

For this is where the Abstract phenomena has now begun to unfold into the light of the Orion Overshadowance within the Breath, and where Merope, risen up to these heights, acclimatises herself to the full Divine Atomic polarity of the Central Sun. Where she seeks now to drive the issue, that through the enforcement of the swinging wave-band, it is made knowable unto the soul, on the pinnacle of breaking through, into the first conception of reality.

This is the Atomic Halloween, where all of Relativity has been gathered up, and the Orion scales of Justice require that finishing touch which gives it the driving action of Divine elevation. That ascension which will carry the soul up into the heights of freedom, where the Glory of Being is the internal magnitude of the Spirit.

For the new Babe is now the Atomic mind, the Eternal Glory of the Central Sun. That which now had to provide the necessary Atomic husbandry, for the Vega Chromospheric consciousness to spin the Infinity into perpetual mobility. The Royal Glory of

Atomic Hermeneutics, the Power of Divine Ascension. Hence this is where the Virgin thought tends to Peace, but is filled with the action of agitation.

For Atomic Peace is Atomic Inspiration, where peace is the quest for Atomic aspiration. Therefore the polarity of just the reborn mind, is the Atomic Ascension of the Atomic Mind, born through Universal Philosophy. That which will bring into birth, that of Central Sun sensitivity, the true Reality of Te Deum, Non Nobis Domine.

This is where Divine Husbandry must truly begin, for Atomic stripping brings the Power of Theocratic omniscience, the permeance through the depths of Divine causation, that of the Power of Royal Hermeneutics. The Wisdom of Universal Philosophy that defines the LAWS, that Cosmic Glory can become the unfolding elevation of the deep.

That brought by Hermes, the Royal Messenger of God, in the unfolding of the LAW. Hence here lies the complete Supreme Intuity of the Sun in Scorpio, and the Royalty of the Sun in Taurus. Where the spinal Rod is driven by the

unfolding causation, of the efferent and afferent infinitisation.

Try and see this Lecture as portraying unto you of the Divine Birth of the Hierarchs into the depths. Theocracy is fully established in the depths; the Hierarchs are fully embedded in every soul, but it is now a matter of making up their minds and turning over their blind states into a state of consciousness.

## The Closing Prayer

GREAT DIVINE ONE

**W**E seek for Thy Blessing upon this Dynamic Word, which leaves with man the wherewithal of his unfolding life, showing him the journey he must now make, that he can become One with Divinity. We thank Thee, and we bow before Thee, that such Mighty Truth could reach our depths, and give unto us the Glory of Expansion to return back Home with the Glories of the Heights. We seek that we shall be led and shown the way to unite and help others unto this Mighty Truth, that they too can awaken out of their depths. AMEN

ing of the soul' will completely bury-in what we call the Campi-root. Then you will be surprised how, suddenly, everything will appear quite clear, as though a window has been opened wide.

The Moon in passing over the 1st house, through Aries, indicates that you must now adopt a true pioneering state of investigation, where you must struggle with the wisdom, in order to bring all your wealth up out of the depths, to become the radiance of your mind.

There is no doubt at all that you have a 'root right down in the very base of yourself' which is causing all your trouble. The only way for this to be 'up-rooted' is by you struggling with the wisdom in the "Occult Gazette"; you will need to get down to doing this with both your ears well pinned back, and endeavour to mentally master what the words mean.

The language used in the Occult Gazette is of the 'Abstract', but once mastered it becomes very simple to understand. I had to go through this process of mastery, and I did not find it as easy as some people might think. Oh no! I had to go through all the difficulties of mastering this in the same way that others have to, and it took a long time for me to change the words, which are so inter-blended as to give forth of the depth of their wisdom.

Actually speaking, it is not so much what the words mean, but the words conveying unto the mind the 'divine overshadowance'; it is the 'divine presence' radiating in the wisdom, because all words bring unto mankind of their Truth.

The Word is Truth, the Word is the Presence of God, Royalty, Beauty, Goodness. It is the very Essence of Divinity, and this is where, by continually struggling and letting the wisdom cleanse you, and strip you, you will find that it gives forth of its Truth, of its Royalty. I am sure that if you will struggle a little harder, you will find that you will be greatly helped by your efforts.

"Suffers badly with colic."  
(Chart 1620).

NOW the young boy whose Chart we are now dealing with, is only eight months old, so he is indeed very young to

be suffering with this condition, but unfortunately all his difficulties are karmic, and he has come back in this life to overcome that which was strongly with him in the past. What he could have put into operation then as mind activity, would have been outstanding, but he only turned this strongly into the desire body.

His Path of Destiny in the 4th House, in between the Moon and the Dragon's head, indicates that he has to try and put into operation a complete change-over of desires, transmuting the desire body into the mind body, which of course everyone must now do, to raise themselves back to their original god-status.

He must start putting everything into creative mind action as soon as he is able, ever striving to keep his mind elevated and revolving around higher ideals; only in this way will he overcome the pull of the desires, which are very strong with him. This is clearly shown by his three planets in the 12th House; his Sun and Venus in Sagittarius, and his Neptune in Scorpio.

Sagittarius links very strongly with the desires, when only manifesting in its negative state, it being the House of the 'playboy,' while Neptune in Scorpio placed here, is not at all good, and this young soul will have to struggle hard as he grows older, to transmute his generative fires into their higher creation of royal mind expansion.

There is no doubt that this spirit was upon the earth at a time when he was very much under the influence of religion, and underwent periods of penance, including rigid dieting; it seems he practised much of this in the Medieval Ages, consequently, when he came back to the Earth again he should have continued to put stringently into operation what

he had been strongly advocating. In fact there seems to have been much in the previous lives of this child, which he now has to tread into the Earth.

What this soul did bring forth in that past religious Age was very potent, for he sincerely believed in what he was doing, which is, after all, most important; he really did mean what he was doing, although it was not entirely an accurate creation. However, it has such a strong influence with him, he now has to tread it into the Earth in the correct way, through a heart purpose.

This would account for why he has the Sun, Venus and Neptune in the 12th house, and is further evidenced by Jupiter and Uranus in the 11th house, the house of the spirit, in the Sign of Libra, balance. In fact this is such an unusual Chart, that I have not seen anything like it before; it so radiates what the soul has been in the past, that I can see quite clearly before me a well-built monk in a brown habit, at a time when he partook of only the most frugal diet, and underwent various states of restriction and penance.

Having done this only under religious instruction—which is not of Truth—he now has to live what he has practised in the past, and place it into its right perspective. He could not get out of doing this, because it has been expressed so zealously by the soul in the past.

In the Midheavens is the Dragon's tail, the very end of the Dragon-fire, which, being conjunct to Pluto, again shows that the soul's impress into life was to do with religion, and being in Virgo, he fulfilled this to a great degree. Virgo, the Virgin, links very much with religion, and Pluto points to it being the Christ impregnation; and of course, the 10th house is the house of honour, and represents the soul's prestige in life.

Saturn in the 5th house in Taurus clearly indicates that the desires were of a negative degree, consequently stoning the soul's natural 'fire'.

Mars in the 3rd house, the house of the mind, is in Aquarius, indicating that the heights and depths of the soul have got to be united; no longer being of the magnetic, but of the Atomic, as Electro-Magnetic, whereby the soul then becomes of cosmic consciousness.

The Mercury in the 1st house, in Capricorn, confirms that this soul is still bound by old religious ideas of ritual, which have all got to be reborn.

## Sanctuary

by Hannah

*From the hustle and bustle  
Of this busy, noisy world,  
I creep away to find  
Quiet, and peace of mind.  
My garden is my retreat,  
Where Mother Nature reigns.  
She takes me to her bosom  
As I enter her domain.  
Oh the peace and happiness,  
As all around I see  
So many beautiful expressions,  
Oh my Lord, of Thee.  
Everything is striving  
To bring forth of its best,  
Following its purpose  
Without question or relent.  
And as I sit and ponder  
At all around I see,  
I think what lessons we could learn  
From Nature's Family.  
As in Spirit I mingle  
With Nature's familiar sounds,  
My heart in joy ascends  
In Love, at what I've found.  
Was it Thee, my Lord, who kissed me,  
In the soft summer breeze,  
And was it Thy Face in this flower  
I perceived;  
Did I hear Thy Voice in the song  
of the bird?  
Some say 'tis an hour wasted,  
But if they only knew  
What has been sown in Love,  
And reaped in gratitude.  
I feel refreshed and strengthened  
For the quiet communion spent.  
I return now to the world outside,  
Resolved to do my best.  
I thank you for my garden,  
My joy and sanctuary;  
I will keep it holy, Lord,  
That I may walk again with Thee.*

This child, being so young, would of course set a problem that many a parent would find difficult to handle, in leading it into the right direction, but only by being kept on a very very restricted diet will this state of colic be overcome. He should be trained to partake of a pure vegetarian diet, which can be done, even with a child from birth.

We were very successful in rearing a young child in the School, first of all giving him slippery elm food with milk, and eventually only mixing water with the food. Tomatoes were put through a sieve and apples were grated, and the child flourished extremely well.

By the age of eleven he was still upon a vegetarian diet, but this time entirely of his own free will, and living mainly on apples, grapefruit and oranges, which he ate in abundance! He was averse to eating animal foods, such as meat and fish, and thought it was dreadful that anybody

should eat such things; not because he understood why, but because he had been brought up to be a vegetarian.

From the time of his birth this young boy was subject to chest trouble, but as soon as he was given natural food, such as fruit and vegetables, the condition cleared and he suffered no repetition of the difficulty. It was when we studied this child's Chart that we realised he could be a victim to asthma, and we were gratified that we were able to prevent this, by giving him the correct diet.

However, to return to the Chart in question, although it would not be advisable at this stage to give the child herbs in any strong degree, I feel he would greatly benefit if he were given small quantities of Marigold Flowers and Rosemary.

## Health from Herbs

**HERBALISM** is the oldest healing art in the world. Its history can be traced back through the civilisations of Rome, Greece, Assyria and Babylon, and even beyond. Herbs are foods as well as medicines, and build up the general health at the same time as they cure any specific disease. Unlike drugs, which are inert, they are made from organic material instead of inorganic substances, and form an active or living medicine.

Here at the School we have a large quantity of loose herbs in stock, which normally will readily provide for all our requirements. However, we have listed below some of our more popular herbal pills, specially prepared for those who find them more convenient to take in this form, during the hustle and bustle of their daily occupation.

## PRAMANATHA

by Gladys I.  
Spearman-Cook

Delivered at the S.U.P.H. on  
16th Sept., 1962 by Ra-Men-Ra

**T**HE Sothic Cycle was the work of the gods, but all was in the throes of birth and it was quite a royal way, but what it required was a soul who was still as the gods, and they were not; they were fast becoming as Pan, the goat-footed one. Through the Sothic revolution bringing such changes, the autumn equinox became the Waterman's present place, with Poseidon as Scorpio obtaining the credit of the reform. And man now is blind enough to believe that he is rich when the flesh runs fat at the feasts, because he judges all by the power of the flesh and not the spirit which is the only concern of the gods. They had a plan which they had to fulfil, and not the way man had put into operation; now they had to think out a new plan, for you cannot turn the course in mid-stream.

(Now I want you to listen very carefully to this, because I am making a declaration. The Sothic Cycle has been reborn in this Temple, because it is only by the Sothic Cycle that the Wisdom of the Gods can be earthed. This is the Work that many have impeded, and will have to answer for. Thus, if I say to you that only a God in matter could bring this into birth, then I leave you to judge the one that is having to bring this into birth).

### Manifestation of the Inflowing Waters

**A**LL was due to the reverse of the calendar, although at the time there was no actual calendar compiled and all relied on the movement of the stars, since they knew that all Powers and Influences came from those heights. They were still striving to act under the wisdom that had been installed in the Leo Equinox when all was pure and noble. A time when life was royal and in abundance, but Zeus as Cronus, the god ruling in the depths, had refused to expand owing to the trend of events.

Consequently man received in abundance, which turned to deluge and caused him to fall backwards in his actions; that which resulted in a loss that has been a continual corical slide. Once man lets a day slide it cannot be retrieved, for time is passing creation that is either woven or lost, and if not spun up into the web of light, can never be captured. The foolish virgin who never trimmed and lit her lamp, but let the oil run dry as she dallied by a swift running stream.

Man once drew the great Heavenly Powers down, according to his belief, and would wait for certain stars to appear before he prepared his festivals, although this was precarious owing to elementary conditions. Now, once again, he must seek deeply into this wisdom and continue to draw these Powers into his being if he wishes to survive. This he will understand more clearly as time evolves and cycles return; then, when disaster overtakes him through the lack of wisdom, which can take the form of a deluged return of power interfered with, then he may understand through sheer necessity, the true meaning of atom destruction as the stolen power of Zeus.

Although Themis (Virgo) now belongs to the winter solstice, she gives birth in Capricorn on December 21st when Sothis meets her Lord, which is, in reality of mind expansion, the mother seeking her child in the heights. The stable being the poverty-stricken states of earth reflecting the heights, while the animals in the stables are the beasts before the throne, and her daughters who are fostered are now one quarter further round.

This is the complicated state of unity in the act of birth. The virgin in the sixth carries her child up to the heights, receives the "kiss" of her lover, and the father impregnates Martha, the sister who acts as the nurse. And so the continual growth of the sun-child continues once the seeds begin through mind growth; but no mind effort, no child creation, but a Pan ever sitting in the depths striving to find harmony and life.

This did not really find any real fruit until the Taurus Equinox when the priests began to become aware of the truth; then when Aries entered in, the first Sun-god made appearance as Perseus. So if you follow this as the assumption of Fire that light could

### DESIRE-BOUND

**E**NTANGLED in the web of his own desires, the soul must make complete renunciation of all those states that hold him to the earth. Only when the soul can cut away the grip of Saturn, will he be able to take on of his Orion Warriorship and become imbued with the strength of the Hierarchical Presence, and brought to royal divine mind union with the Godhead. (See text in col. 5).

come forth on the hearth-stone as the fire "cooking the vitals" of the soul, then you will see the sensitivity in its first degrees, that provides the perceptory powers of its polarity the third Eye.

The Eye of Aldebaran that the archer must pierce to obtain the vision, in the kundalini fire piercing the cerebellum that the pure mind memory is released and not the false or impure desire. But this is the end of the journey, and we are only in the first stages that began all the difficulties and left man with the prototype to carry.

This may not appear as of any importance to man today, but only because he does not understand or draw the heavenly powers down into his being

as once he did and become filled with the true Spirit and comprehend their depth. Consequently he becomes more gross and dense as the periods continue; more barren through the natural Electrical Powers which he let loose before their time, destroying the tissues of his mind. Eunuchs with too much raw power which they cannot spin into light through having wasted the early opportunities of quest and labour.

(See plate on page 13)

### The Horae

**N**OW we also have to face the fact that the Moerae, the Graeae also are the offspring of Themis, and now, if never before, Zeus should know that there are Fates whose decrees not even the Gods can elude; for Prometheus who is so much in this secret, is now called the

son of Themis (mother Shin). Truth and Justice; and the Fates gain as much acknowledgment as the Horae.

The legend says Prometheus sacrificed two bulls and put the flesh of both into one skin, all the bones in the other, and gave the god his choice, trying all the time to mislead him. The Bull constellation is at the vernal equinox, the inflowing of life, and the other Bull at the autumnal equinox, the giving forth, and Zeus will have to choose. Is he going to have his throne and festival at the Autumn or Spring of life, or arrive at the autumn as a dried pod and cracked earth. This of course refers to the gifts and powers of Taurus being raised to the heights, or he reigning in the palace of the Scorpion with the vultures attacking him.

The true place of Prometheus

is the vernal equinox and not the Autumn, and he in his heart dislikes being brought there by the infatuated Zeus as indulgence. Therefore it was Prometheus himself who instituted sacrifices and the division he made was between the parts of the beast to be consumed by the god and the parts to be eaten by the worshippers.

In other words it was a choice between two equinoxes, the two festivals. Which of them was to have the real meat of sacrifice and which the mere bones? Youth in its true labourings brings the rich harvest and festivals at the autumnal, and it is the pure androgyny of Virgo which must come to all in the close of life; or mere senile decay.

Prometheus is chained to the rock that Cronos spat out to the earth, and indicates the first words uttered by Saturn establishment that laid the prototype for all time, and that was, he wanted to reign for ever and a day. Therefore he ate up all his sons and refused to give birth to any that could take his place.

Well, since that became his desire, man has been held to the wheel to fulfil his wish, (and he is ever being besieged by the wolf as he eats up the children). For when it is spoken of the gods, it can only be reiterated of what the gods are transformed to in the living tissues of the soul. Man's chief evil is selfishness and possessiveness, especially where Saturn is very prominent. This either strangles the soul or brings out supreme discrimination.

Man became in possession of the fire which gave him the power to re-create; from then onwards he has lived in an entire field of self-importance, claiming all that is only loaned to him to learn by.

Thus spends most of his life striving to become disentangled from their meshes; immediately a man becomes free from these he is out of captivity, for that was the first sin, the stone of Saturn that destroyed the sensitivity of the spiritus being. Now he is loaded and has to pray before the altar-stone of the omphalos, making sacrifices daily. Poor Tauri!

(See plate on this page)

Zeus did awaken at last and put his house into order, but he had already taken to himself Eurynome, one of the Oceanides; one of Penelope's female attendants, the damp atmosphere of lamentation. He had also begotten the river-god Asopus, the son of Neptune and Pero, who, as the fore-runner of Sodom, had come to the west country as unbridled as ever.

Now he must reform, for he is married to Hera (magnetic current of the earth), and accepts the legitimate alliance with a spring goddess Hestia; she endowed with an approved intercalary, the six Horae as certain senses. The feminine principle fired with the senses of the Seven Logoi, but as to how she portrayed them is entirely up to her. (She now was to take over that expansion; she was to be the bringer into
