# DANIEL

The 'writing on the Wall'
Brings hope to the modern Age
and the key to building a Future

by Gladys I. Spearman-Cook

O ONE HAS EVER REALLY MADE AN attempt to translate the Book of Daniel; for one thing their minds were too orthodox to contemplate that the Sciences were in anyway associated with the Scriptures, and secondly, they were not fully acquainted with the true mystical depth of the sciences to bring about the interpretation. To do this you have to have the vision of Ra; standing on the 7th plane, comprehending the whole range of the seven, and in one swift twinkling of his Eye shoot forth the arrow of truth. This is the atom of gold to be found in the point of awareness deducted from Saturn when he is scythed and transmuted into Kristos. Thus the soul becomes a

Tat, the measurer of the Waters. What I am going to bring of Daniel may, in its slow interpretation, appear a little boring as we wend our way through the Chapters, but I trust that the final analysis will be a reward for the patience entailed. All Bible interpretations are slow in their culmination, but the idea of that is so as to get all details registered in the mind of the enquirer.

The final deduction is not just a theory or a myth, but a hard and cold reality experienced by the writer, trusting by now that she has gained the confidence of the readers, who will take her word literally upon this matter. The full details are now available, owing to one being able to reveal of the living so far and no further. But the reality gained from the investigation of this Book was, in itself, amazing.

#### Astrology and Alchemy

If the reader takes into account the fact that the whole of this Book is based on Astrological and Alchemical wisdom, they then will have the key that the majority have never found. In fact the whole of the Bible is based upon these two Sciences, which are the fundamental of life. The theory built up by theologians of the church of Christ was entirely to boast their own ideas, for they have no real conception of what the Church of Christ really means. The Bible written from the original Aramaic writings was inspired, for it was a period of great learning and wisdom, as all was based upon that which was building up the Cosmic; and from which the Great Intelligencia was born. Today man refers to IT as either God, Manu or the Solar Deity, while the Christos is the Solar Blood that invades all human beings that they may be rejuvenated and reborn unto their intended creation.

The Books of the Bible not only reveal of the ancient wealth that lies hidden within the soul, but karmic depths that will come forth with relativity; and that is what man is facing in the Aquarian Age (see diagram on page 3, col. 1). What is in the Scriptures as periods of time, beings and personalities, in rebirth as relativity, will be collective as a personality born within the soul. These are the states of change that man has to pass through in initiation to become as a soul born onto the highest plane of being, that the world can become withdrawn back into the whole. This is how Kingdoms are dissolved, and greater Kingdoms brought into being.

THE OLD LIFE RESURRECTED

As a person seeks into ancient wisdom so he awakens his riches, the minds of past lives, his old personalities. Here in this plate the soul suddenly recognises within himself the spectre of a past incarnation that he has resuscitated; now it is very much 'alive' and dominating his present conscious mind. Near him is the 'king's daughter,' the Virgo mind of intuition, who senses the danger that has arisen and tries to make him turn towards her so that the logical mind might receive the spirit direction as to how to manipulate this intellectual richness of the past and blend it into his present consciousness. But she is too late and the soul becomes mesmerised and refuses to listen to the warning given. This plate well illustrates the text on page 5, columns 1 and 2.

### Editorial .. .. Who dares to be a Daniel?

THO will brave the Lions' Den? Who will be prepared to enter the Fiery Furnace and what does all this mean?

The Leading Article foreshadows the very root and depth of the increasing mental chaos which is spreading throughout the civilised worlds and the psychological difficulties that are uprising in the different states of youth out of control throughout the nations of the

What is the sudden Cause?

The Teachings of Universal Philosophy rise to new breadth of Vision in the Daniel article. Directly seekers open up the minds and free them so that they can partake in ordinary enquiry it will be seen that the New Age of Aquarius has to meet the opposite Age of Leo. That Leo means a lion does not need learning to realise and so it is that the Ancient biblical writings are revealed to be far far more than so-called Hebrew history.

Reincarnation properly studied reveals that our present life is but one more layer of carnological or soul human growth, and that the latest masque of Personality character hides the 'dung and riches' of many a past age. It is this vast wealth that one day must be consciously tapped and 'mined' just in the same way as the physical wealth of earth and sea is about to be tapped and drawn forth. So it can be seen that if the Leaders of the Nations can bring realisation and direction to those whom they rule, the world as a whole can 'dare to be Daniel' and face the unknown and yet to be controlled states of mind that are in the roots and now must be met and united with one's present character.

This is the Leo House or the Lion's

This is the simple meaning of the 'depths,' the carnological or geological layers of old lives that must be 'dug up.'

This is the reason why all who read the Occult Gazette should immediately avail themselves of the Reader's Service to be given their Birth Map, cast free so that they can follow their own 'geological roots' and face the ills of past lives, as well as understand their wealth and use it

As equally as there are old beds of hell, as the greek teachings give forth, so are there great wealths of the Heights, the great mind understandings that were brought out in the ancient civilisations, Egypt, the Incas, Babylonians, the Arabian Alchemists, the Hindu astronomers, the Chinese philosophers and many many others of far lost Days of which record does not tell. But it is still in the Blood record that all the dung and riches are stored, the Tape Record sounded.

chaos is going to be the world's lot unless Spiritual Leadership becomes once more the most important Factor of a Nation. It is in this that Nations are sadly lacking and none more than the moribund mindless state of the vast majority of the Leaders of Britain. Save for the occasional mock courtesies paid as lip service to a dying chilly religion— more for conventional habit than the eager simple childlike questing of Truth -spiritual leadership is utterly dead and fast decaying.

Who has the slightest idea what a Lion's Den is and who amongst the Leaders can tell the nation that the present criminal chaos is the direct result of the lack of spiritual direction, and the effect of an encouragement in gambling, drinking and physical plea-

magnificent revealment.

It highlights even more the importance of the work of the faithful Pioneers who have so willingly shouldered the work of trying to give light to those around them. And the more the Light can be lived in actual happening so will the Light shine in increasing Power.

The vast work to be done to receive of the wisdom that the Stellar Voices can give has to be envisioned rather than realised, so very dense are the minds of humanity. It is this that should now be the encouraged aim of the peoples of the world. It is this that the scientists should seek. For to know of the spiritual possibilities of the human body as well as to seek into the inner bodies should now be our aim and quest. This should be the clarion call by the Spiritual Leaders, but alas there is not one who is even dimly aware of the word Spirit.

What should the few do who have awakened and are sometimes looked upon as being oddities for even seeking of the Spiritual Truth? The answer is to follow the Teachings and example of the Teacher of Universal Philosophy whose practical help and guidance has been so profound over the years she has led so many along the Path.

She is as Reader Ruth Maye states "A MASTER IN THE FLESH."

It is not sensible to brave a Lion's Den without the wisdom of the Spirit Voice to guide and lead. This was the wisdom of Daniel and the reason he was able to 'see' 'The Writing on the Wall.'

This is the greatest wealth that cannot be spoken of too many times. It is this that the true seeker values more than any Earth companion or prop.

This is the preparation to be fitted to enter the Fiery Furnace, the cleansing by the Fire of the Solar Rays.

It is this that the Daniel Teachings reveal and the reason for this was because the seeker was constantly drawing down and keeping in touch with the guidance and direction of the Spirit Masters, those who have mastered flesh the children of the Earth.

This bereft of the dogma of orthodox terminology is what the Leaders of Nations should be humble enough to

Or will they too be blind to the WRITING ON THE WALL.

It is through man that all this takes place, hence he is as Kali with a string of personalities awaiting to be turned in by a mortuary meal being afforded unto them. If one should come forth, (see plate on page 3, col. 3) and come to stay, owing to the power with them in their ancient setting, then it is such as these that cause the soul untold devastation. This is the story I seek to tell by unfolding briefly the Chapters of Daniel; for this was a dynamic period that has left much karmic slime for the present day soul to clear away.

It is through the astrological log that man can find the witness promised unto him, and by seeing the Scriptures this way, you find the key to their mystery, and how they have relationship with man. Yet it is the Cosmic coming into being, but again only being revealed through man; thus man is the creator in matter; the microcosm to the Macro-

In seeing how this has bearing on man all the way through TIME, it will then be accepted how man is made up of this material, and can on the way back from Aquarius onwards, be faced with these states as psychological prob-lems, and know how to deal with them.

Mental homes, electrical treatment, drugs and anti-biotics are not the answer, but man unfolding through wisdom, and giving to that personality the answer he requires to turn it in as a fully accomplished life. This is the purpose of this School, and one that I have proved, if only as to the one incident that I quote.

The whole of the article has been kept as near as possible

with the Scriptures will be able to see how the original was carefully hiding this truth. So ir the reader has the patience to pursue through the whole of the article, they will in the final be well rewarded for the en quiry that has been made; for the mystery hidden in this Book is dynamic. It holds the key to the present day dilemma as declared by the Christ in Matt. 24 v. 15.

When ye therefore shall see the abomination of desolation, spoken of by Daniel the Prophet, stand in the holy place, who so readeth, let him understand.

#### The Lodestone Mount

IN my enquiry into this Book I had revealed unto me the greatest secret of the Age; the fact that man today was suffering from the ROOT of mindknowledge that had been let free at that time, but had never been brought to mind-light or expansion. Consequently it started off what is known as the lodestone mountain. The rock within the soul filled with knowledge that was never

Now in the age of Saturn, when there is no form of

, and man turning prolifically to drugs to solve the increasing states of broken down nerves.

This is because man has allowed himself to be cut off from the higher planes, which can only be reached through mind expansion. Man seeking upwards towards those Powers that have been feeding him since the beginning of time. Now he is nothing else but a textbook student bringing down into matter no fresh knowledge.

Upon my translating of the Scriptures, I was led to jump many Books and brought to DANIEL. I already knew it was a Book of deep occult wisdom, but not so deep as I

The Unity

THIS mystery plate shows well the struggle of any seeker into wisdom trying to blend in the old mind so that the new Manhood can come into birth. (See this page, cols. 1 and 2).

was to find when I began my enquiry into its depths.

DANIEL, the hero prophet of that Age, had been struggling to stem the evils that were impending for posterity, by the prolific learning that was taking place where no mind expansion followed.

This was because they were linked with learning only, it became their god, hence the sterility that followed.

The Israelites, who were a new Race of people, having established the first Solar Deity, went down into Babylon through turning from their religion to the ways of Nebuchadnezzar, the king of Babylon.

Through no mind expansion only knowledge-glutting, it caused the passional waters to overflow, and this was another of the Deluges that have taken place through history.

But it did more than that, it flooded the human blood-stream with untold disease called black were never enfolded as mind completion (see plate on page 3, col. 4). And it is these that come up as giants causing the soul to be mentally unbalanced.

NOTE 1.

THE Expression 'Arabic Horses' in no way of course refers to the modern arabians or horses but allegorically expresses the wild animal urges which dominate humanity. Yartares similarly is a word to denote the underground roots of past personalities in the soul that are as twisted and gnarled in mind. twisted and gnarled in mind knowledge and falsity as the roots of a tree. It is these mind states that are the modern gsychological ills and increasingly the control of many illnesses. the cause of many illnessess well as the shizophrenia or split-personality state that is sweeping the western world. Editor.

Now the soul is facing Relativity, what is it going to do? It will have to face all these past states on its way back and make them complete. See plate on page 4, col. 1) past knowledge and seeking into its purpose, by finding the answer would give these per-sonalities their mortuary meal and turn them in as mind comprehension. By this the soul would break up those hidden rocks of knowledge, which could when fully absorbed give them the winging mind of soul growth.

But to do this, it does not entail just seeking into knowledge only, but seeking upwards and drawing down into its being the powers of Spirit, who will help the soul solve the problems that are with them and complete the planes of Relativity as he climbs up.

Man is MIND and nothing else; but the point is, what does his mind consist of? Therefore only by mind can he ascend onto the fourth dimension. This he does by transmuting his lower waters into mind fire.

But while he goes on spilling the SEED he will lose his mind as happened in the period of Medo-Persia.

This is what this Book was striving to point out to posterity, as well as the heritage that was handed down to them through this age. In translating I have tried to keep all as near as possible to the original; but as I did so, so much was revealed unto me, and with such evidence, that it was alarming in itself.

Through the whole of the Book, DANIEL the prophet was striving to prove to the ASSYR-

Medo-Persia. The Roots of Medo-Persia

N the Age of Taurus much wealth had been gathered by these Nations from the overruling planet of Venus, but when Aries entered with the ruler Mars, all became changed.

It now necessitated a new FACE to the Godhead, but up till then it had only been a matter of idols, yet just as important, for they were but the preliminary to that which was to come. But then as now man was not prepared to change, and this is what Daniel was striving to do.

The Israelites were a Race who had recognised the new FACE, but now as a Solar God, and were drawing down from those heights much power; consequently they became the envy of many a Nation who sought to capture their powers. But it was not exactly this that the Book of Daniel was seeking to reveal.

What happened at that period established a very deep root upon TIME, for it was the beginning of the period of the Christian God who was the Solar Diety, and would continue until the end of time; thus carry the soul up onto the next Globe of Creation.

By this alone we can see why Medo-Persia was the ROOT of the present soul creation; so whatever was created then was the root-basis of the solar-soul, of which the present day Race

What the Book of Daniel was seeking to reveal, was what the soul would have to face in Aquarius, the period of rebound. Not only as Relativity, (see diagram page 3, col. 1) but a period of cycle return, for what happened at the beginning of Aries would have its effect on the period of Aquarius.

For Taurus had never been redeemed, only witnessed in its lowest degrees, and passing onto Aries all its unsolved wealth.

Since Aries was just as bad, all passed on into Pisces; and that was no better, for all they produced was Creed and Dogma and the God crucified on a cross.

# So Aquarius received the whole lot as was foreseen by many a prophet down the Ages.

So the dry Water-pot has come to pass, and owing to the knowledge taken in Taurus in the Medo-Persian period never being anything more than knowledge-glutting, man today is filled with knowledge, but no mind expansion. Thus he holds all the roots that can give him the answer to his tomes of multiplicity, but how to get at those roots is another thing.

This is where I foresaw the wisdom of seeking into the myths and legends, which are stories woven around heroes who struggled to master the difficulties down the Ages; and there, by the aid of the spirit wealth within, be guided to find the correct answer to man's problems.

But as Daniel had a difficulty to convince old religions of the new way of thought, so have I. Yet I am told by the Powers of Spirit that what I have endea-

(See this page, column 2).

voured to do was the answer. Seeking into the myths and legends as well as the Scriptures<sup>2</sup> would give me the link to binding up the planes of Relativity, and this I have found to be perfectly true.

Untold wealth has been revealed unto me this way, especially when I find that the Scriptures themselves tell man to seek into Daniel to find the answer they are seeking. But to be able to do this some little knowledge of astrological wisdom (see basic astrology chart page 4, col. 2) and alchemical theory must be understood, of which both of these have been taught in this School as a preliminary. So I was not without my grounding when I set down to make enquiry into this Book.

#### Nebuchadnezzar

THE real basic lies in the knowledge of king Nebuchadnezzar stealing wisdom that brings him to an elongated state, because he was not able to solve and bring the knowledge to mind expansion and Solar light. Thus as a king he was flooding the whole of the Nation with these states caus-

NOTE 2.

This caused the sex-waters to overflow which brought into birth, as posterity-heritage, of the black arabic horses. Evil states referred to in the Scriptures as the "traffic of men."

Daniel continually wrestled with the king, and by solving his problems brought the king to perceiving the greatness of the power with the new Godhead, or the way of bringing those powers down into his being. But to gather more of this depth it would be much better if we tried to follow, if only sparsely, the Scriptures as they are being portrayed.

It is quite clear to the mystic that the whole of the Book is the full course of alchemicalization driving changes into birth, as are bound to take place through the wheeling of the cycles. And furthermore, of what will happen if the soul pirates knowledge and makes no attempt to draw forth from his own heights.

THE MEDO-PERSIAN PERIOD

All readers should realise that the expression Medo-Persian is referring to the early ages 4,000—3,000 B.C. The Scribes, in writing of Mystical Wisdom, ever deliberately misled by using events of history to hide the mystical message of Spiritual Teaching. To have the secret of deciphering the Scriptures gives a Sage hidden powers and it was to guard this that the Scribes shrouded the Spiritual truths in false historical data.

the Israelites, as he was a Nation of eunuchs, males in a feminine state. This brought the whole of the Israelites into captivity; which, when seen as a soul creation at the present day, is exactly what is taking place with the king of the soul as the 10th house, merely a Nebuchadnezzar bloated with knowledge, but no wisdom to blend up Relativity and give the soul mind expansion (see plate on page 4, cols. 3 and 4).

Daniel perceiving this, set himself out to blend the depths with the heights, and his name alone links with Libra, the house of Law; therefore he would, by his endeavours, bring down the higher Law into

is troubled by dreams which none of his astrologers or soothsayers can solve. But this time he is a little more desperate, and he threatens death to all and sundry if they are not only solved, but also remembered. For owing to his elongated state, he is cut off from any form of communication.

This is where we come to the famous image of Nebuchadnezzar known to nearly all. The image was one with a head of fine gold, his breast and arms were of silver, while his belly and his thighs were of brass. His legs were of iron and fastened in cement, which referred to Nebuchadnezzar's elongated state as a mountain full of knowledge which filled the whole earth of the soul (see plate on page 4, col. 5).

All this had to be retrieved, but Daniel saw that it would as kingdom after kingdom, personality after personality were evolved in. So it can be seen it really belonged more to posterity than the Medo-Persian period.

The king was so grateful, he fell down and worshipped Daniel and made him governor over all the wise men. This gave Daniel the lead he required, and that was to recognise the wealth of his three friends, and allow him to sit at the gate of the king; which would be the 6th house where he could translate the knowledge sent down into wisdom. For there by the aid of the virgin he would repair the damage done to the city of Judah.

Owing to the change that was now coming with the king we see in Chapter 3 the cry

TO king live for ever."

But this was due to an underternal striving to un-earth Dudel. These would be the

THIS little picture perfectly describes the person who bloatedly lives in his own little world of knowledge, egotistically ever thinking he deserves a 'feather in his cap,' when in reality he is isolated in the wilderness, barren of all growth, and worthless to man, beast or the Cosmos. (See this page, column 4).

So we start off first of all with Nebuchadnezzar the lunar king of Babylon beseiging Judah, and Jehoiakim handing to him all the vessels of the house of the Solar God. Therefore carrying all the wealth down into the land of Shinar. A mere state of power and not spiritual wealth.

The reason for his invasion was to take the spirit wealth of

the lower and raise up the depths, and save the genealogy of the Race.

This is usually the work of the prophets and teachers, and although their work is not always seen, by the works they instal into time in leading and guiding others, leave behind roots that will sprout in time to come.

The four sons in this story, as unto Osiris and his four sons, are DANIEL and SHAD-RACH, MESHACH and ABED-NEGO. But from an occult sense, would be Daniel as Aries blending up in polarity Libra, so that there is a secure bridge from the 6th to the 7th houses; and his three lower Chakras linking with Taurus, Gemini and Cancer. The whole of the Book is so occult it is impossible to give it any other interpretation.

For in Chapter 1 where Daniel is called upon to eat of the king's meat, he extures, for it would have been the himoverished state of knowledge that the 10th bons was sending deven to the days grace that he can grace that the can grace that t

states within the soul who resented changes taking place, and were seeking to hold onto old taurean desires. This goes to show of the expansion that was taking place by the upper powers coming down into the lower through Daniel's trans-lation of the dreams. The king was now absorbing the higher waters, and sending down to all the species and tribes a continual lift-up.

To try and put a halt upon this expansion, they sought of the king to build up an image as seen in his dream that all could bow unto it. This he did, but when Daniel and his three friends refused, it gave them the lead they were seeking. So they demanded that they be cast into the midst of the fiery furnace which was now blazing up through Nebuchadnezzar's image, but also the confusion brought about by his arrogance, and the taking of the wisdom and power that Daniel was now bringing down.

THEY were quite prepared to eat off Daniel's labours, but not prepared to labour that they could truly share genuinely with the wealth now coming unto them. This is what did take place in Medo-Persia, and it was at this point of the translation that the spirit power

He himself was quite happy with it, and refused to listen to wisdom regarding his foolishness, but still went on in his old Taurean slothfulness that resulted in a dire tragedy.

He too built up a Nebuchadnezzar state and expected everybody to bow to his might of knowledge gained in the past, apart from his power of physical strength and supreme arrogance.

Was this one the re-Nebuchadnezzar, incarnated Darius, or even Daniel?

For the powers and possibilities with them had to be witnessed for the point to be appreciated. Although this is but one, I have met many under this setting, so now know what once appeared an enigma.

There is no doubt a big bid was made by the Upper Powers to retrieve much of the wealth lost in the Medo-Persia period, for 3 Equinoxes had suffered as the result, and now in the fourth there threatened to be a further state of dilemma; but this I feel very sure has been arrested, though only but hidden roots at the present

already been showing signs of sprouting; this is encouraging.

BUT let us return to the mystery of Daniel; although but barely related, it gives some idea of what the Book contains. Nebuchadnezzar the so-called villian of the plot, really is a black goat, for in stealing the wealth brings disaster everywhere, with Daniel as the prophet trying to control the powers that he has brought down to change the FACE of the Age.

So is forced down into the den of lions, which would be the solar powers that he would have to wrestle with as the rising Kundalini force. This was accomplished, and wealth and learning was spreading far and wide, but still very much from a pirate angle. Yet it is here from where all genius has been born, for by Daniel the prophet of the now Solar Deity winning through, the king accepted the new FACE, and it became the astablished God of the day.

Then all enters into the Danier influence as all taken becomes transcruted from knowledge tuto wisdom; and he now is blessed by a vision ing the next step to be taken with such vast wealth flowing to the Earth.

The vision described in this Chapter links with the unfoldment now possible to the creature called man. The four beasts to be mastered links with all states of quadrature that starts from the lowest, and through the moving Cardinal Points<sup>3</sup> are brought to unity with the Ancient of Days on the throne of fiery flame through the wheels of burning fire.

THIS apparently simple plate accurately illustrates what happens, and what will happen to all souls who refuse to use their great mind riches of past lives and so give this wealth back to the Spirit Planes the Cosmic World. Suddenly they find that they turn into a merely primitive state where all their interests now are directed towards bodily wants and 'animal care.' This is where the soul finds its true worth; is its humaility as great as its dignity? 16 so, Kronos has been mastered and the Kristos is there in its first degrees.

Once again Daniel comes to his rescue; but we must repeat again, that it is not really past history being related. It is the heritage that has been handed down to posterity that now is coming forth in exactly the same as the Medo-Persia period: only new minus the glorious wisdom, beauty and art that are abound at that day.

# Ra-Men-Ra's Astrology

# ARIES T

Ra-Men-Ra is a name of the Voice of the Teachers that speak through Mrs. Gladys I. Spearman-Cook. The Egyptian name Ra was a symbol of their Sun God or Central Spiritual Energies. Thus the name indicates Those who have involved from the Spirit, lived in and mastered Matter and returned to the Source from whence they came—a journey open to all. Thus Ra-Men-Ra is the Voice of the Masters. (Editor).

O those who get the idea that Astrology teaches Fatalism, they are wrong, and those who have studied such from a deeper standpoint know that this is not so. You are not utterly bound, yet neither on the other hand are you entirely free, but limited and restrained by ignorance; because all your misfortunes are the result of imperfect knowledge. Had you complete knowledge, "fate" would have no power over you; had you but a little more knowledge, there would be so much the less misfortune. Thus by a knowledge of Astrology,—which is the Science of Life—you can avoid many of your troubles.

of Life,—you can avoid many of your troubles.

The word Astro-logy means "The Wisdom" or "the Message of the stars"; yet there are two aspects of this Science, the exoteric and the esoteric. That side of Astrology which is called exoteric, can be styled fatalism, fortune-telling; but esoteric Astrology is that which reveals the soul of the Science, its divine aspect; and the whole of that can never be expressed in words. Those who attempt to explain its inner meaning in writing, will always find it difficult to bring forth; but those whose minds are intuitive enough to perceive the hidden significance of the esoteric depth of Astrology, instinctively know, that it is a part, and a very great part of The Mysteries. Think of the Earth as representing the Physical Body; the Twelve Signs as representing the desire-nature, or Astral body (kama), and the planets as governing the mind, while the Sun as symbolical of the Spiritual part of man. These are the four grand divisions, corresponding to the Four Elements of the ancients of the Mediaeval alchemists, Earth, Water, Air and Fire. The Zodiac will, all through life, influence the desires, so as to obtain that of Desire to Become.

The intention of this work is not to bring unto you of anything of fortune-telling: it is impossible for anyone to do that for you: but it is to try and give you an understanding of the rotary powers and phenomena that build and mould human beings; why and how man has come back to be moulded under these influences, which are of the Archetypal Embodiment; and if you are making your journey under that influence, what you have to learn by it.

#### The World Chart

A RIES is the pioneer to become; but being of the first house influence, would be most alive in the head, thus they do not feel to the full, lacking experience necessary.

(See Chart page 4, col. 3)

This represents the Chart of the Heavens as it impinges upon man in the rotary movements of the Powers,—shaping and building man, giving unto each part of his body, which is a limb expression, because all these are centred into the mind,—which is all man is composed of, mind,—because, when you leave the Earth, you leave all these behind, but they are all impressed into the building up of the mind.

So if you can see this in all its variations, you will not be inclined to discard. Now according to the hour you are born would it have a different ruler. You may have your chart as the World Chart, with your Sun in another sign, or you may have your Sun in Aries; but what I am giving to you is going to apply equally to both.

Later on, I am going to show you how all that you receive in the way of impress, as you circle continually through life, is born again and again,—the serpent swallowing its own tail. You keep on regurgitating what you know until you bring it to a fullness within yourself; and I will bring to you an example I have given many times.

There was a time when you, as a primitive, ate raw meat; then, gradually, it came to man, not to do so, and he slowly battled against it. Today you would never dream of eating raw meat. You may find many excuses as to why;—but where has the change taken place? And where has that which you achieved in thought gone to, so that it has become an established thought?

Transmigration, and transmutation. Metempsychosis all the time. Birth and death; birth and death, through layers that you are fighting against.

There was a time when you had to fight against—not eating the raw meat. There are those who are fighting against eating

meat at all; and those who are even going further, and eating only fruit, because they are changing in texture of body, changing in texture of mind.

And it is all done by this rotary movement around this chart which is, of course, only a form to tell you how these rotary powers are coming to you via the Aurora Borealis and the Aurora Australis.

These are the forces of equilibrium,—involving and evolving,—Aurora Borealis and Aurora Australis,—which have their first blending on the liver of metabolism; and the second in the thoracic duct, which sets the inflow of the spleen continually moving as blending between etheric and physical bodies via red and white corpuscles.

They blend and mould you, and for a considerable time, man is under the control of these powers, guiding him. But when you become an initiate—one who has awakened—then you wrestle with the powers and you become master. And that is the meaning of becoming an initiate—in initiating yourself into greater thought, the power of control; self-discipline.

The Arian state of creation, therefore, can be very self-willed, and often self-opinionated; so that it is exceedingly difficult to restrain a soul in their creation, as they are always inclined to act upon impulse without waiting to mature their plans. Again, this can be in all degrees, according to the position of the Sun in the houses.

Now the influence of the Archetypal Embodiment, that comes down under the Arian influence of the pioneer, is received by man in the negative, in the same way as man has received the Pluto ray in the negative and has put it into the atomic bomb: once he can

put that into the positive, he will put it into the Christos Light. Religion has been helping him to see, to some degree, but now religion has fallen flat, and could do far more harm than good; so it must change its outlook. You are seeking apart from religion, because you are now ready for something greater.

If Aries is on the 1st house or there is the Sun in the 1st house, this can give raw ideas; on the 4th house, emotional waters to get fertility; 6th house, reformation from the rebirth of karma in the 5th; and now, as another new beginning, in the virgin adding, for the spiritual ascension in the 7th, where unity must begin that in the 8th there can be complete death of the old scorpionic way and the eagle ascending in flight. Then, in the 10th, service in the name of that received in the 1st, while the 12th gives of the complete depth through service, and crystallisation in establishment through action; to enter the 1st again on yet a higher establishment.

This continues 3 times, so that the body, soul and spirit become, through Melchizadek appearing, and the three wise men bringing gifts of spices, frankincense and myrrh; perception, sense and love established on that awareness of the totype of the Archetype seeking to come up from the negative to the positive. Now once a day you go through all those signs; so that every two hours new life can come to vou, or new thought. Thus once a year there is a new wheeling of the Sun through the signs, where you gradually learn.

Aries begins at the Ides of March, when the Equinoctial storms begin to blow and bring in new life. I have already given to you of the many legends which have perfect truth in them with regard to this knowledge. It is the time which is the crucifixion and the birth, the resurrection of life. And what you hear about the crucifixion and the resurrection applied more to the birth of the Christos, the resurrection of the Christos Light; because the Solar light comes nearer to the

### The Fountain of Life

Earth at the Ides of March than at any other time. At Easter you have the Vernal equinox, and in the Autumn you have the Autumnal equinox.

At the same time there would be an inflow, and if you are a wise soul, and I am not referring to superstition, a soul who understands the laws of nature, you will prepare yourself at this Easter presence, when you will seek to rejuvenate, by resurrection of thoughts and ideas, take in the Solar light, and then make a big stride throughout the whole year to bring it to a fullness for the following Easter. And this is how you make rapid strides through major initiations.

With them the intellect is the main feature, but they always find it difficult to understand their own emotions and feelings, and are too often inclined to fly off at a tangent.

When the Arian is not living up to the highest of their character, they have a tendency towards jealousy, yet expect great loyalty from others, and are somewhat exacting in this respect. When the Aries is fully individualised, they grand characters, especially in all pioneer work, their enthusiasm rarely being daunted by obstacles; thus once the mind is made up they seek to overcome all opposition, more by their dominant will and masterful spirit than by simple perseverance.

Perseus rescues Andromeda

PERSEUS is the third Decan of Aries and within its ancient tale hides the strength and fight that lie within the Arian character. He is a born pioneer and investigator into new wisdom but must, as the Greek Teachings show, not only become the fighter for new causes but the living example of the Wisdom that flows through him as the Spirit Impulse that gives of new Life. It is that of the first house that dynamically activates and enlivens, and fires the soul into new fields of expression, having mastered the inertia of the past knowledge and experiences.

#### The Characters

THE Arian soul, being newlyborn as it were, is frank and outspoken, and impulsively generous; yet while they are fond of reason and argument, they are often combative and assertive, being both sceptical and credulous; but the former mood most often sways them. Unfortunately, they are decidedly lacking in caution, being far too venturesome, thus often running to great extremes, and at times even tacking in discretion—but never in zeal; yet again this is modified and intensifed according to house position

They can, as a pioneer, be an ambitious person, who loves to engage in area! enterprises, whether is to the "One" in question, or that already begun and regulzing resuscitation. These souls love harmonious surroundings, and possessing artistic tastes, seek to make their environment as beautiful as possible. It is not easy to deceive those born during the period of influence of this sign; and were they to cultivate their real clairvoyant powers, they would be remarkable for their insight, or what is called intuition.

They sense others in a surprising way, going straight to the core with those in whom they are increased; their mental sympathies advans quick to respond to the least good which they may find in others. They are concentrated to hopeful with regard to their enterprises, and are very raised inclined to overestiment heir own abilities; but they are excellent at all work that does not require sustained

nission in life is to aspire and

For instance, if you have Aries on the 9th house of the higher wisdom and united effort, and your Mars, its ruler, s in the 10th house, it means that you can become a leader of higher thought, a prophet of new ways and ideas. And this is how such must ever be delineated, while the sign is in operation through the houses. Height of Sun and aspects, declare that of its triune posit-

The head being the most sensitive part, will be the first to give out in the Sun Aries; but where upon the houses, would make it more concreted as unto purpose in hand. Thus in the Sun Aries, when the health fails, severe headaches result. The eyes can also suffer when the system is depleted; Aries being the head of the cardinal signs, the stomach and kidneys suffer by reflex action.

#### The Pioneer

THUS we can sum up the Sun Aries of the Zodiac as belonging to the intellectual trinity. Their aim in life always appears to be to live in the mind: this makes them very independent characters, with clear and decided ideas and a spirit that is dauntless, fearless and aspiring.

When perverting their gifts, their greatest fault is deception, and they are often clever enough to deceive successfully; but when strongly individualis-

thought, and finally to the perfected intuition; for the inner quality or destiny of this sign is Truth, and their lesson, Dauntlessness, in its true and highest perspective.

And taking the sign as a whole, it denotes persons who are ambitious, impulsive, often irritable, but full of courage and energy; never happy unless they are at the head, or in command of others. Often generous, but yet selfish enough to study their own ends first; very changeable, therefore their passions, if hot while they last, are soon over; will never quite submit to be governed by others, and being the most positive sign of the Zodiac, gives a very destructive and aggressive spirit.

So you must now see Aries as the home of Mars, the also the exaltation sign of the life-giving Sun; hence it is a very fountain of life and vitality as manifest in the sprouting of the millions of seeds which break through the Earth's crust at spring-time, and change the "white winter garment of snow from the north" into a flowerembroidered garment of green, through enlightening Saturn with the struggles for retention, from Satan to Saturn, and Saturn to God.

This great vital force finds its expression in the children of Aries; and they bubble over with life and energy, to such an extent that it is often very difficult to curb them sufficiently, to hold them within the bounds of safety and commonsense. They are always selfassertive and aggressive to a

degree, and always in the lead, for they scorn to follow.

What I have been trying to convey to you is that of Aries, the pioneer, whereby you come to the Earth to put into operation some activity. Every soul is ordained to do this. You do not just come back by chance; you come back to perform a duty,whether you do it well or badly; -but it is much better to do it badly than not at all, and stag-

By the understanding of the Royal knowledge, or the Royal science of Astrology,—the most ancient science of all,—are you able to follow the laws and the guidance of self. Man was not left without witness; and neither did God leave Himself without witness.

Man must have help, otherwise he is a lost being, and would have every right to cry out against a God that left him so stranded. No! You have everything to your hands, if you want to try and understand. But to understand by real delineation can only be done by the seer, the seer that has abandoned all earthly things and can see the blending of your chart. All that is the purpose of souls who give up all mundane material things of life that they can be united and blended, one-with-the-Father, the Pleiades, the Masters, and thus receive the wisdom of life.

Perseus

This is not ordained for all men, but for those that are ready; but a time will come when all men will be ready, and will go back to the Whole. And you can only go back as you came,-naked and unashamed,-freed from all desires: blended into the heights. And that is the purpose of the lesson tonight; the call to all those with Aries prominent.

Seek, too, as to what is YOUR message, and where it is placed upon the houses; how it affects you, and its message unto you, and how you can be guided by it.

# KNOW THYSELF

NE of our oldest readers Mrs. Ellinor Brown of Dunbartonshire wrote to us enclosing many typed manuscripts and said in her letter, "I typed this over 50 years ago when I with a few friends met at the house of an elderly gentleman, Mr. Waugh, each week. He had never had what was considered much education but owing to a prolonged illness he studied the Hebrew language from which he got at the hidden meaning of the Bible." It is the notes of his words that are offered to the reader in the expectancy that they will help many to understand the deeper allegorical teachings. This is the first article, more will follow over the coming months. Editor.

OVER the portals of the Grecian Schools of Philosophy were written these two words.

If man is male and female and out of a rib of this man, woman was made, then the woman must be Male and Female also, that is, if we are to think in harmony. To make plain what is the esoteric meaning of woman is not so easy a task as it is to explain the meaning of the word man. Philo's definition of the word is the "Senses"; this definition is satisfactory to an advanced student of the esoteric but not quite enough for one who is just beginning the study.

Woman is the allegorical symbol word for the Mass physical bodies of the worlds population.

The body is composed of Matter, and Matter, in whatever form it may assume, still remains feminine, and Mind, even in the body of a female is Man or Masculine, so that the physical body of a male physical human being is Matter: Woman.

Socrates was made the skit in the Grecian Comedy "THE CLOUDS" by Aristophanes maintaining this idea.

These two words, Man and Woman are the allegorical symbol words for Mind and Matter, which are the two first principles mentioned in Hebrews, (C. 5,

MATTER is the allegorical term for the Mass Physical Bodies of the Universe which is composed of individual human physical bodies.

These two causes are known in the literal record as Man and Woman, known to sense bound persons by the name of Adam and Eve. The student must now learn to distinguish between the name of a thing, that is, Adam and Eve, and the thing that the name is a name of, that is, Man and Woman.

The Bible is not written in chronological order, it has been intentionally mixed or con-

Josephus states that the first chapter of Genesis is unphilosophical, that is, Tantric, or a portion inserted to confuse. Philo states that the 5th chapter of Genesis is the true commencement of the record, and this, I think, a study of the subject will endorse.

This list of names is a prehuman genealogical list; the word translated Man in the first verse of the 5th chapter is not the word in Hebrew for man, it is the name for the condition of the mind.

Adam is the symbol word, in this list of names, for the smallest speck of mind in matter, we can call it the omeba, or any other name that this condition of Mind is found in.

It is not until we come to the end of this list of names that we get the symbol word for the Mind in human body:

This is the Hebrew word for MAN as we understand the word in Latin "HOMO," the human species perfectly out of the animal kingdom.

The 2nd chapter, verses 19 to 25, should be read concurrent with the 52 chapter, and the student must repair for that it is a figuration record the record, the ideas, that he is

To name an animal is only another way of saving, Mind gave form to Matter. A name is a mark of recognition and is used here instead of the word form or shape, which is also a mark of recognition.

Adam, Mind, gave names to all beasts and series of the all,

that is Mind passed through all Animal and bird life, and yet there did not appear any help-mate for Mind, that is, no animal was able to reason.

During this period of evolut-ion through the animal king-dom the Mind is asleep, and out of a rib of the animal kingdom, that is, out of a branch or section (that section being the highest evolved form of animal life, the Ape or Chimpanzee). he formed or evolved the human body, Woman; "Noah" being the symbol word for Mind in this human body: Woman.

If the reader has succeeded in following my thoughts, he will now be conscious that the perfect and upright Man Noah is the human body.

The man being the Mind in that body and the Woman being the physical body containing the Mind. This is the true man and woman and has nothing to do with physical sex, which is form in matter, and an image of Mind and Matter.

#### **Esoteric Marriage**

THE exoteric teaching of the I marriage of man and woman is manifested in the social ceremony which we know as legal marriage. All ceremony is symbollic of a spiritual act.

The spiritual act of which the legal marriage is a symbol or image of, is not the union of a male and female human being, but the union of the Mind, Man, with the body, woman, and this is the union which must not be put asunder or broken. It is a command not to commit suicide; that is the Esoteric teaching.

### Astrological Lectures

LL who would have a full and comprehensive knowledge of this astrological wisdom, would do well to obtain the full list of lectures as delivered by Ra-Men-Ra in the School's teachings. These to be appreciated have to be enquired into, for they contain the whole of the wealth that astrological wisdom can deliver to a truly zealous enquirer. Not anything was left untouched in this enquiry, and these alone open the way for the mysteries to be enquired into in a safe and sound way. No one need be afraid of the mysteries in the way that these have been brought forward for they are simple, deductive and truly comprehensive in teaching the soul of the greater purpose that can come forth from the endeavour.

Every month Extracts from these lectures will be continued to encourage readers to invest in them. They are advertised on the and can be bought in part or whole.

# THE POWERS OF **OUTER SPACE**

### Man's Ignorance of his Peril

KNOW by the many letters that I receive regarding the Reminiscence, that the majority of you like my-what you call-homely and natural comments. Well! having received a letter from Miss Enid Gilbert of Rhodesia commenting upon the condition of life out there, I felt sure it would interest many of you, apart from opinions, to hear of the many spectacles of life that ensue in such a wonderful land of sunshine. It has often been my statement that the people in this Island, a jewel washed by the waters of a great and mystery sea, do not realise what comfort, peace and possibility they daily live to enjoy. But perhaps they will when I quote a little of what is happening in what appears a paradise elsewhere; and how much those of this island could, by a more studious and active life of spiritual example, lead the world on into greater ways of living. And by this I do not mean righteous orthodoxy or text-book repetition; but true deep investigation into the wealth that was once deeply embedded in the depths of Cornwall and Somerset. It is here, where the Tor stands high, that the wisdom of Arthur and the Knights of the Round Table are buried. But again do not confuse this with Orthodoxy or creed and ritual; but let it lay closely buried with the ancient myths of this Island.

#### Destiny of Britannicus

N fact, it is my belief that Britannicus was given her strength, privilege and spiritual rights at the time of the Embodiment of A.D. 33, that she could become the Nation that would lead the world, by bringing forth the new uprising of the "Race Elect." \*

This merely flared into Papalism, a cult of creed and dogma that raised a line of Popes that led the world to a state of Inquisition; certainly not a continuation of the previous Equinoxes of deep temple study and spiritual law investigation,

\* New readers are asked to read the main Article in the February Issue 1964 called 'The Mysteries of A.D. 33.'

where those Ages could be brought to higher and greater holy affiliation (see the 8 little plates on pages 5 and 6).

This accounts for the empty water-pot, for then the world had emerged out of two periods, Taurus and Aries (see the Wheel of Relativity diagram on page 3), where life was rich with the wealth of divine revelation. But unfortunately not fully understood in their first teething pangs, so the sex faculties, the basic of mind production, became sadly overspilled. As all became created it fulfilled the mystery of Cronos cutting off the genitals of Ouranos, leaving the many drops of blood staining the Karmic escutcheon of

From then onwards the higher sensitivity was lost to all and sundry, and only lived on secretly as the Race Elect in the myths and legends, while Papalism did all it could to suppress and destroy, which left merely a blank cold rock for the Race of the Aquarian Age.

The Piscean Equinox, being ruled by Jupiter, was a period of expansion thus it could have been a great and glorious time to bring the past up into right prospective, especially wealth of the Medo-Persia era, and by so doing fill the Waterpot for the Aquarian Period ruled by the cruel and just master of Saturn; he that is the Sire of the Lord.

All it brought forth as far as Britannicus was concerned was

a religion of orthodox theories fighting over whether a God was crucified, and if so, whether he was the Son of God. At last they agreed to a certain theory which resulted in an orthodox religion that has brought Aquarius to her knees in political and labour strife: and not in the least prepared to help and guide the Nations now in a state of rebirth.

The former days were when priesthood ruled the masses, and through its erroneous application it has ended up in a contagious state of argument, and man is no more God or spiritually-minded than when he was in the cave-man growth.

Rhodesia is one of the examples of where we have failed.

Instead of riding high in the old school tie ritual of conventionalism where we appear as arrogant overlords waxing fat, we should have tried to establish true Law and Order, then these people would not be in the tumult they are today.

If we had trained certain of their intelligences to become worthy leaders, and left behind a true spiritual depth, the Auric imprint on the Heights would alone have been their guiding star, and Britannicus spiritual wealth.

Mankind do not realise, and have much to learn, regarding the power of man where it is united with the upper Powers of the Heavens; and how he can be the means of bringing the greater Law to bear upon the lower law. Yet the Holy Scriptures are full of it, the mistake of the Medo-Persia era, and the indiscriminate domination of kings and priests.

So it can be seen that when all is for self and power domination, never brings to life anything but a whirling karmic creation around a solidifying state of human possibility.

#### African Terror

MISS Gilbert, in writing, was giving some of the natural lights of a country that many of you, and especially myself, never have hope to visit.

A world of sunshine, yet anger and disorder; a country filled with a Race that has never made the progress it should have done, yet filled with untold root wealth. Therefore have they become, in the majority, a place where all souls, having to learn a very deep lesson, are having to return, hence their great up-

The above writer states in one part of her letter that

"The Asians, as well as people of various other races, have had an awful time in some recently 'liberated' countries."

You must pardon my ignorance here, but does that mean that Rhodesia is liberated also? Only I was under the impression she was not.

It seems what little I can gather from Miss Gilbert's letter that what was once a form of ancient ritual, is now an opportunity for indiscriminate chaos, resulting in loot, rape, murder and torture.

Again I say, does this mean that those who had created religious and governmental law and order, have not been very successful in their establishment? Thus only left behind an auric state of chaos intermingled with a seething bid for power and graft.

Surely we ought to accept by now the understanding and truth of man being the creator of the maelstrom, or if not that far through the density of our understanding, his Nation through his own personal world of hut or house.

#### WITH regard to the concentration which many of you are enquiring about, why not join with us on a Saturday evening by building up a concentration group within your own homes. Already we have many that do this, starting with us from 6.30 PROMPT;\* and of this I am very particular, for if we make a tryst with the Great Powers,

then let us treat them with

the honour due unto them.

Our method is to provide a well tuned gramophone, which we have going very quietly under the steam of Rimsky-Korsakov's Scheherazade. But of course you could use any that may appeal to you. But if you use a long playing record it will prevent interruptions, and after all the leader has a right also to the concen-

Our first line of action is to offer up a prayer of unity between depths and heights; so you must set yourself a leader if there is a group. After the prayer we rub our own hands together to get a general action of movement. Then take three deep breaths to open up the inner bodies,

### SPECIAL NOTICE

UR postbag regarding Sister Whitford's column has grown so enormous, we are having to take a more serious review. For not only are people asking questions regarding health matters, but every other subject under the sun; including troubles of their animals, and even inviting all their friends to

write about their health problems without purchasing the paper.

There is a limit to one's philosophical ideals, especially when one has expenses to meet; so there must be some serious re-direction over this matter. Firstly, we have had many successful cures already through the herbs and special healing list; and since this is growing, it calls for added help. This is where you can help, and I am sure many of you want to do so.

So we have decided that only those purchasing the paper can apply, and will use the coupon placed in the paper specially for this introduction, and secondly to help defray the costs, ninepence in stamps must be enclosed to cover cost of materials and postage. I am sure you will see the rhyme and reason of this, especially those of you who are businessmen, and know that anything in the world of matter has to meet the rules and laws of the business world as set by man.

If a special call is to be made regarding your name being put on the healing list, which Ra-Men-Ra will deal with, two shillings and sixpence is required, for this may stay upon that list for many weeks, and blessed many times. Of course we shall not refuse any who are inclined towards any greater generosity, for already the paper is heavily subsidised. (Continued column one)

and set the blood moving, then the sitter subsides away into his inner heights, and sets himself at the feet of his Wise Old Man, and concenrates upon the subject set for inter-probing.

The concentration lasts until 7.10 and all return, and begin a deep and sincere enquiry into their findings. The leader, whoever they may be, ever remains impersonal to the opinions of others, but ever tries to guide where they are qualified to do so.

The sitting closes at approx. 8.30. But whatever

you do, keep the sitting peaceful, and avoid hostile arguments in the power that has been built up. After all this was a communion with the Powers of the heights whether you believe it or

I will set the subject for each month in advance because of our overseas sitters. Then each month in my Reminiscence column I will make our deduction regarding the subject; and I am sure many of you will learn this way. Yet if any of you should get anything special regarding the concentration,

let us know; but if a reply is required, do not forget the postage.

The major point to be remembered in the sitting is the fact that it is not the subject of the concentration that counts, so much as the concentration that brings a point of balance and awareness with the Cosmic Ray. And although the subject may appear a little abstruse to you, again remember, we are trying to extend our minds, not revolve around in old ideas. So do try. So everything MUST BE centred around these ideas, with

the subject as a means to an end. Much can be done if the concentration is carried out correctly, for the sole motive is balance and unity.

If by any chance one of the linked sitters should be visiting London, and makes application in time, we will try and arrange for their sitting with us for that night. It must also be remembered that unity is strength, and as a band uniting and concentrating with the heights, with Ra-Men-Ra as our leader, we could do much to bring greater ideals and themes into matter. So link with me if you can; at the same time say that you are, and we will put your name on a list in the centre of the circle.

Mystical Intercourse

THE whole picture with all its detail is in allegory holding the explanation of the Birth and action of the Mystical intercourse explanation of the Birth and action of the Mystical intercourse of MIND. Here the soul has raised up the sensitivity of his body and conscious mind until he has created his Spiritual Manhood, the IESUS state where the Awareness of Spirit Direction or Perceptivity has awoken. This is the awakening of the 6th plane or sense, the Pituitary and the drawing down from the Heights the Spirit Inflow through the Pineal, the Manhood. Now Led by the Stars of the Heaven on the crest of the Winged mind, the Manhood ever fights to bring greater Awareness, the Solar Radiance of the Spirit to feed the Earth.

For a country like Africa that has been well plucked and plundered by Nations one and all, to now be in the state that Miss Gilbert records is too terrible for words.

We in peaceful England are not aware of terrorist and political thugs, bullies and intimidators, that out of sheer congested power of lack of true mind expression, are carrying out states of thuggery, murder, intimidation, petrol bombing, stone throwing and beatings up.

It seems it has been so bad and so contagious, as for a detention camp to be set up. This seems to have eased the fears of many; but not before many children had been badly burned through the petrol bombing. Yet it has not completely gone, for it seems it is a nightly occurrence for houses to be stoned, with people being beaten up and just left to die.

Then I see you also state that in Kenya the Mau Mau terrorists are demanding free oversea trips from the government in lieu of privileges promised. While this UHURU, whatever it is, seems to be a ghastly affair, especially where the Europeans have established such things as hospitals, schools, and care for the aged, where clean water and safe food was guaranteed. For it seems they come along and whip away any good that was done.

To go through all that you experienced while there would only distress our readers to the upper most; but I do think it may do some good to realise what we are allowing to sink into idle stagnancy.

For many do really live smug selfish lives here in England, when they could be up and

doing and bringing more radiatin a spiritual uplift.

#### Mystical Intercourse

do believe that the greater Nations were meant to go and help the lesser grow, but have we as English gone the wrong way about it? Did we spread in these raw native countries quarrelsome grasping vibrations that are now taking their toll through the wild African blood?

For I see that the masses are still at the bow and arrow state of growth, whereby hashish, Indian hemp and Marihuana are still smoked in maniacal relish.

With what I can gather from this particular letter, it seems that the tribes stop at nothing; well! relating them all will not help, in fact I would only be spreading depression and terrorism, when I would much rather be "practising what I preach."

What we have to try and understand, is the fact that these Races are the remnant of once very ancient people. Races responsible for the wealth of the world being established; but unfortunately that are the backwash of what never made any expansion, which is the secret mystery of the world stagnation at the present moment.

The sooner man learns and accepts of this truth of mystical intercourse between Earth and Spirit, or outer-world connections, the better (see plate on this page). But not through piracy of missile warfare; that will get him nowhere; for Earth is the lowest vibration from a point of mass, weight

and solidity. Anything above is of the lesser, so NOT of the same solid mass. Therefore not worlds as man knows matter, especially in a commercial world of hard coin.

The only way man can come out of his tribal state of flesh and form—and by this, I refer to a whole world, who are all alike, only some with black suits and white collars—is by opening up the mind and uniting through mind growth with those greater Powers of

Yes! I quite agree by all means with one country assisting another, even to the principle of religion and government, but we must leave behind if we do, a responsible state of purpose. But I suppose this is where we meet human nature, graft for position, and humans toying for domination.

I am afraid, Miss Gilbert, the world once again has got to learn further lessons of sorrow and tragedy in finding the right way of unfoldment; and they only do this by coming down to the very base of themselves.

Yet if we did but know, that out of it all, the specks of good that man does go back to the heights as an atomic portion towards the unfoldment of the Cosmos; and this is what really counts. It really is man mastering the old enemy Draco, the polar dragon; for that is the work of humanity since they turn him into a dragon.

These are the powers that come down with service rendered in matter.

They are what we call the rotational powers that encircle the Earth from the two poles. And when returned up as mind growth or vibrational activity which dispenses with some of this power, more rushes in from those heights to fill up the vaccuum. Thus starts to oppose the soul who created the opposition.

#### The Path of Relativity

ALL this is a matter of Law by that of Attraction through radiational growth, therefore the soul opening up its inner ancient powers, and helping the world to evolve, thus ever matching them up with the opposition.

By this, the soul giving back to the world of its ancient powers, and wrestling and winning through by mastering Draco or Saturn who will oppose him, and the soul, by the mastery of him, growing in his own struggle, and helping a world and outer forces to evolve. Then by this the lesser nations are also lifted up, and begin to see God in the true prospective of TRUTH and LIGHT, the Saviour of the

It seems that as man individually evolves, and slowly sheds the animal creation by the struggle, and becomes of spirit through the translation, he himself follows that trail of light he has sent up to the heights. So is that what the African Nation has awakened too through their inner wealth, but for the time being are in their teething pangs also?

The very actions of man alone prove this, for all through the ages it has been the struggle and fight to win one's armour, but unfortunately it. like that which you commented on, Miss Gilbert, turned to self and self-gain, thus resulted in vast combines of financial machinery. Yes! it makes the

### AFRICAN TERROR

by Enid Gilbert

THE utter horror of this article should be read by all students of the occult mysteries because it is up to each to recognise the depth of depravity which Man the Spirit has sunk in his fall into the animal-human evolution. This animalism of the brute-mind is the inner blood content in the majority of humanity and the sooner Races learn the Spiritual Truths to guide and correct this state the better. If this article brings home to us all the necessity to learn how to meet and master the incarnations of the Past then the purpose of its publication has been fulfilled. (Editor).

HE French Terror of 1779 together with the Russian revolution of 1917, when the proletariat rebelled against the French and Russian aristocracy, and the semi-feudal system of the times, resulted in the slaughter of thousands by Madame Guillotine and other methods of violent death. This is being repeated in Africa today in the recently independent country of Ruanda Urindi, formerly part of the Belgian protectorates. The lordly aristocratic but minority Watutsi tribe are the "giants" of Africa mostly all around 7-ft. tall, numbering approximately 250,000. They have for centuries held the short stunted, primitive Bahutu tribe first as slaves then later in a feudal serf-like condition, and have at times, ruled them harshly. The Bahutu are the majority race and when Ruanda became independent in 1962 the Bahutu formed the government and promptly exiled the Watutsi king.

Although some United Nations officials are in Kigagi, the Ruanda capital, Europeans on the spot condemn the U.N. for ignoring the massacre of over 1,000 slaughtered daily. They have sent reports by couriers to the outside world, telling of a deliberate policy of genocide being conducted by the Bahutu Government against the Watutsi people. This has been going on since December 1963 with

a conservative estimate of 20,000—30,000 Watutsi slaughtered barbarically. Some estimates by Feb. 1964 gave a figure of 50.000—60,000 dead but exact figures will never be known for no records are being kept.

world a very hard place, a schooling ground for grinding out; but then that is life.

The trouble is we are so apt to take all personally and not cosmically as the world demands; and furthermore the above is the true meaning of the Solar Crucifixion which the Embodiment of A.D. 33 intended man to learn

of life, and inwardly have a secret feeling of seeking to put right, but how? we do not know. But we never seem to be able to open up that sant door which could reveal how.

Yet deep down in the very depth of every soul-growth there lies a root, and that soul may even be the instigator of many a problem that is with man today, but had a minute beginning.

After all any of he may for been a famous Druid Roman, Greek or Persian, and out of best of motives installed something into matter, but in the final may have fallen, or only half finished the task.

That today would have multiplied, and with man tolk as the complications street ages ago. Yet you or I may have been the one who started it out of the best ideals, and have locked up in our secret chamber the chart and the that would solve those problems. This was my idea of bringing the Myths into birth, and where I am concerned it opened up volumes.

So although we may be a nonentity now, once we may have been a leader of a race. It is a queer world, is it not? This unfolding of the mind-memory will come in time, for man is now starting the road of Relarivity, so sometime or another he will have to face up to those

previous states of himself.

The only thing I should not like to be amongst in that great mysterious world of mystery is the vermin life. Your exposition of that king cobra wandering around, and your favourite dog seeking to come to open combat with it, left me a little shivery, I must admit from them of their mysterious powers. But I still would not like to be amongst them myself.

But I aim notice that on the other hand you aprak about the birds and their wonderne sensitivity of self-press this instance Miss Gibert describes of how the birds, when heavy rain is possible, build their nests much higher than usual, and further still, how the frican seems to perceive this a quicker than the foreign-

Why go and lose it, for a time is going to come when all men will be struggling to try and regain that simple touch, and this is where the native races stand a chance to rise above the Western world.

This is where I have been instructed from the higher Powers to revise the Myths, Legends and Scriptures, for within these lie the clues that man is seeking to find the answer to the ROOT within bimself.

# THE POWERS OF **OUTER SPACE**

### Man's Ignorance of his Peril

KNOW by the many letters that I receive regarding the Reminiscence, that the majority of you like my—what you call—homely and natural comments. Well! having received a letter from Miss Enid Gilbert of Rhodesia commenting upon the condition of life out there, I felt sure it would interest many of you, apart from opinions, to hear of the many spectacles of life that ensue in such a wonderful land of sunshine. It has often been my statement that the people in this Island, a jewel washed by the waters of a great and mystery sea, do not realise what comfort, peace and possibility they daily live to enjoy. But perhaps they will when I quote a little of what is happening in what appears a paradise elsewhere; and how much those of this island could, by a more studious and active life of spiritual example, lead the world on into greater ways of living. And by this I do not mean righteous orthodoxy or text-book repetition; but true deep investigation into the wealth that was once deeply embedded in the depths of Cornwall and Somerset. It is here, where the Tor stands high, that the wisdom of Arthur and the Knights of the Round Table are buried. But again do not confuse this with Orthodoxy or creed and ritual; but let it lay closely buried with the ancient myths of this Island.

#### **Destiny of Britannicus**

N fact, it is my belief that Britannicus was given her strength, privilege and spiritual rights at the time of the Embodiment of A.D. 33, that she could become the Nation that would lead the world, by bringing forth the new uprising of the "Race Elect." \*

This merely flared into Papalism, a cult of creed and dogma that raised a line of Popes that led the world to a state of Inquisition; certainly not a continuation of the previous Equinoxes of deep temple study and spiritual law investigation,

\* New readers are asked to read the main Article in the February Issue 1964 called 'The Mysteries of A.D. 33.'

where those Ages could be brought to higher and greater holy affiliation (see the 8 little plates on pages 5 and 6).

This accounts for the empty water-pot, for then the world had emerged out of two periods, Taurus and Aries (see the Wheel of Relativity diagram on page 3), where life was rich with the wealth of divine revelation. But unfortunately not fully understood in their first teething pangs, so the sex faculties, the basic of mind production, became sadly overspilled. As all became created it fulfilled the mystery of Cronos cutting off the genitals of Ouranos, leaving the many drops of blood staining the escutcheon of the Karmic

From then onwards the higher sensitivity was lost to all and sundry, and only lived on secretly as the Race Elect in the myths and legends, while Papalism did all it could to suppress and destroy, which left merely a blank cold rock for the Race of the Aquarian Age.

The Piscean Equinox, being ruled by Jupiter, was a period of expansion thus it could have been a great and glorious time to bring the past up into right prospective, especially wealth of the Medo-Persia era, and by so doing fill the Waterpot for the Aquarian Period ruled by the cruel and just master of Saturn; he that is the Sire of the Lord.

All it brought forth as far as Britannicus was concerned was

a religion of orthodox theories fighting over whether a God was crucified, and if so, whether he was the Son of God. Mankind do not realise, and have much to learn, regarding the power of man where it is united with the upper Powers of the Heavens; and how he can be the means of bringing the greater Law to bear upon the lower law. Yet the Holy Scriptures are full of it, the mistake of the Medo-Persia era, and the indiscriminate domination of kings and priests.

So it can be seen that when all is for self and power domination, it never brings to life anything but a whirling karmic creation around a solidifying state of human possibility.

It seems what little I can gather from Miss Gilbert's letter that what was once a form of ancient ritual, is now an opportunity for indiscriminate chaos, resulting in loot, rape, murder and torture.

Again I say, does this mean that those who had created religious and governmental law and order, have not been very successful in their establishment? Thus only left behind an auric state of chaos intermingled with a seething bid for power and

UR postbag regarding Sister Whitford's column has grown so enormous, we are having to take a more serious review. For not only are people asking questions regarding health matters, but every other subject under the sun; including troubles of their animals, and even inviting all their friends to write about their health problems without purchasing the paper.

There is a limit to one's philosophical ideals, especially when one has expenses to meet; so there must be some serious re-direction over this matter. Firstly, we have had many successful cures already through the herbs and special healing list; and since this is growing, it calls for added help. This is where you can help, and I am sure many of you want to do so.

So we have decided that only those purchasing the paper can apply, and will use the coupon placed in the paper specially for this introduction, and secondly to help defray the costs, ninepence in stamps must be enclosed to cover cost of materials and postage. I am sure you will see the rhyme and reason of this, especially those of you who are businessmen, and know that anything in the world of matter has to meet the rules and laws of the business world as set by man.

If a special call is to be made regarding your name being put on the healing list, which Ra-Men-Ra will deal with, two shillings and sixpence is required, for this may stay upon that list for many weeks, and blessed many times. Of course we shall not refuse any who are inclined towards any greater generosity, for already the paper is heavily subsidised. (Continued column one)

I will set the subject for each month in advance because of our overseas sitters. Then each month in my Reminiscence column I will make our deduction regarding the subject; and I am sure many of you will learn this way. Yet if any of you should get anything special regarding the convenitation, let us know; but if a reply is required, do not forget the postage.

The major point to be remembered in the sitting is the fact that it is not the subject of the concentration that counts, so much as the concentration that brings a point of balance and awaremess with the Cosmic Ray. And although the subject may appear a little abstruse to you, again remember, we are trying on extend our minds, not revolve around in old ideas. So do try. So everything MUST BE centred areand wiese idear, with

the subject as a means to an end. Much can be done if the concentration is carried out correctly, for the sole motive is balance and unity.

If by any chance one of the linked sitters should be visiting London, and makes application in time, we will try and arrange for their sitting with us for that night. It must also be remembered that unity is strength, and as a band uniting and concentrating with the heights, with Ra-Men-Ra as our leader, we could do much to bring greater ideals and themes into matter. So link with me if you can; at the same time say that you are. and we will put your name on a list in the centre of the circle.

### Man's Ignorance of his Peril

KNOW by the many letters that I receive regarding the Reminiscence, that the majority of you like my-what you call-homely and natural comments. Well! having received a letter from Miss Enid Gilbert of Rhodesia commenting upon the condition of life out there, I felt sure it would interest many of you, apart from opinions, to hear of the many spectacles of life that ensue in such a wonderful land of sunshine. It has often been my statement that the people in this Island, a jewel washed by the waters of a great and mystery sea, do not realise what comfort, peace and possibility they daily live to enjoy. But perhaps they will when I quote a little of what is happening in what appears a paradise elsewhere; and how much those of this island could, by a more studious and active life of spiritual example, lead the world on into greater ways of living. And by this I do not mean righteous orthodoxy or text-book repetition; but true deep investigation into the wealth that was once deeply embedded in the depths of Cornwall and Somerset. It is here, where the Tor stands high, that the wisdom of Arthur and the Knights of the Round Table are buried. But again do not confuse this with Orthodoxy or creed and ritual; but let it lay closely buried with the ancient myths of this Island.

#### Destiny of Britannicus

N fact, it is my belief that Britannicus was given her strength, privilege and spiritual rights at the time of the Embodiment of A.D. 33, that she could become the Nation that would lead the world, by bringing forth the new uprising of the "Race Elect." \*

This merely flared into Papalism, a cult of creed and dogma that raised a line of Popes that led the world to a state of Inquisition; certainly not a continuation of the previous Equinoxes of deep temple study and spiritual law investigation,

New readers are asked to read the main Article in the February Issue 1964 called 'The Mysteries of A.D. 33.'

where those Ages could be brought to higher and greater holy affiliation (see the 8 little plates on pages 5 and 6).

This accounts for the empty water-pot, for then the world had emerged out of two periods, Taurus and Aries (see the Wheel of Relativity diagram on page 3), where life was rich with the wealth of divine revelation. But unfortunately not fully understood in their first teething pangs, so the sex faculties, the basic of mind production, became sadly overspilled. As all became created it fulfilled the mystery of Cronos cutting off the genitals of Ouranos, leaving the many drops of blood staining the Karmic escutcheon of the Karmic

From then onwards the higher sensitivity was lost to all and sundry, and only lived on secretly as the Race Elect in the myths and legends, while Papalism did all it could to suppress and destroy, which left merely a blank cold rock for the Race of the Aquarian Age.

The Piscean Equinox, being ruled by Jupiter, was a period of expansion thus it could have been a great and glorious time to bring the past up into right prospective, especially wealth of the Medo-Persia era, and by so doing fill the Waterpot for the Aquarian Period ruled by the cruel and just master of Saturn; he that is the Sire of the Lord.

All it brought forth as far as Britannicus was concerned was

Where it is especially requested that no details are published then naturally it will be treated confidentially. Editor).

AN'S greatest enemy, which is one of those evils that is widespread in the world today, is FEAR; because man puts onto oneside those things he should deal with only because they are bitter and hard, thus waits and postpones facing up to the truth. Truth, which is of God himself, is not brought to bring into our hearts distress or unhappiness, but to establish that of the Spirit,

whereby greater peace and understanding prevails.

Therefore, what is as great

an enemy of man as FEAR, and which is an aspect of it, is vanity. We all know of Fear, and very few escape

What is man that he should seek to harm us of the Spirit, yet he does, but with courage we could say nothing. For with our belief in the Greater Powers, and of which there are if we know how to solicit them, we can be set free to live more fully, and not be imprisoned by foolish thoughts that destroy really from within. Therefore, man is overcoming all when he is free from fear; and when we look into it from an Occult angle, we know that there has always been the fear of man for man, right from the beginning of time. Not only in the physical sense, for many have outgrown that, but that which has developed into a mental

test, whereby a greater strength is needed, for the spirit in its evolving propensity will now have a greater lesson to learn, where the soul has to combat a mental fear of the unknown, and which really is fully known, but forgotten.

This can be the cause of a far greater disease, and the illness of which these mental states encompass, and of which many are supposed to be new. have in the first place come from a fear engendered by another. Yet are really underlying states that have to be dissolved. For we all must face that everyone is responsible in one way or another for the fear that walks the earth, for the maelstrom IS man, and this in itself as the Law of Attraction, can be an enemy that can destroy, being powerful within itself. So when man can conquer this last great enemy he will be free to live in the fullest expression.

It has been said that Death is the last enemy-it is not death, for that is only a passage from one life unto another as a state of vibration, but FEAR of it. Let us face this squarely and look into our hearts, and if we can find courage and sincerity, and most of all the latter, there is no need for fear, or concern regarding the actions of our fellow men. For the life of the Spirit must manifest itself on the life of the earth, for the two go hand in hand, and by accepting this, and overcoming the fear of it interpenetrating changes, we shall really attain to some degree of usefulness as an evolved being.

Man has never allowed the pirit to permeate in the way ne should have done, but killed off his own seed by an extensive state of self-desire, I know that some of you will be inclined to ridicule this, but it is an unfortunate truth. For man should have been making for an upward rise to the Kingdom of Man, but ever grovels in the field with the beast. This fully answers why such as Mr. G. and many others find themselves with an en-larged spleen: for this is the Gateway of the Soul. The unfortunate matter is

that the personality of this life is having to take the burdens of the whole of the soul, and the present state of the immediate consciousness did not have very much to do with what the soul in its previous personalities, put into operat-

THIS helps me to explain a little further the question put by this enquirer, that her husband is suffering from Parkinson's disease. After mak-ing contact with the Spirit doctors in this School, we were again informed that this disease was the outcome of ages, and over the many lives links with the misuse of the vital fluids.

Well! none of us would like to be told that now, and could be very indignant, but do you anymore than I know what sort of lives we have lived in the dim and distant past. When looking into the chart of Mr. K's husband it showed that he was a man with much spiritual wealth that had never been expressed or returned to the godn.

We have suggested herbs, but we can only further suggest, and we suggest to most patients or students come to that, get your mind built up for the new Kingdom destined to come

Mr. N. of Ghana.

THIS patient was rather vag-L ue, for he merely complained of his left leg and hand; and by this we believe that it is a slight form of paralysis. Apart from suggesting herbs, we have explained that this is really coming from the spinal column where the nerves have become in some way affected.

If there has been no injury to the head, then what is taking place is through the spinal Chakra Wheels not being activated. This takes in of further complications, for it touches the inner bodies of the soul, So life is not just on the surface, neither is illness due to what you can see. To start off with any patient, the finest thing are herbs to bring a balance to the lower Kingdoms of the soul, then later on a psychological investigation.

Now this may all sound a little vague to many of you, but it is not without a reason that we bring this wisdom to you at this moment. Changes are taking place, and virdom will help many considerably, for there is un unseen menoment within all tioing things, which links with phenomenal changes. So know that wisdom taken at this moment can help many for more than they can appreciate.

But macabre though this is it is still unable to bring home to the reader the utter terror and horror of the effects that will soon sweep the world owing to the 'king of MAMMON.' Therefore to throw away of one life is to gain of the other, and so this goes on all the way

This can be the cause of a far greater disease, and the illness of which these mental states encompass, and of which many are supposed to be new, have in the first place come from a fear engendered by another. Yet are really underlying states that have to be dissolved. For we all must face that everyone is responsible in one way or another for the fear that walks the earth, for the maelstrom IS man, and this in itself as the Law of Attraction, can be an enemy that can destroy, being powerful within itself. So when man can he will be free to live in the fullest expression.

It has been said that Death is the last enemy-it is not death, for that is only a passage from one life unto another as a state of vibration, but FEAR of it. Let us face this squarely and look into our hearts, and if we can find courage and sincerity, and most of all the latter, there is no need for fear, or concern regarding the actions of our fellow men. For the life of the Spirit must manifest itself on the life of the earth, for the two go hand in hand, and by accepting this, and overcoming the fear of it interpenetrating changes, we shall really attain to some degree of usefulness as an evolved being.

have received shoals of letters, but very few realise that this entails extra expense in materials and stamps. To deal with this vast mail, and everyone receives a personal answer, we must insist that sixpence in stamps is enclosed with every enquiry, and naturally we shall not be adverse to any being a little more generous where they wish to. This of course can only apply to our at-home readers, those abroad perhaps can solve the problem another

But we would not like to think that this should ever stop the many writing to us, as we enjoy solving every prob-

#### **Gastric Operations**

Mr. M. G. of Minnesota, U.S.A.

WE received a very interesting letter from this enquirer, who, undergoing extensive gastric operations, and many other complications, found himself with an enlarged spleen. It

. . . . . like a Phantom in the night

THIS macabre plate imprints deeply into the mind the utter folly of the modern scientist, chemist and doctor who solely rely on their material pursuit of intellectual mass knowledge and ignore the vital Spirit Direction which ALONE accurately separates the false from the True. It is this failure to face Truth that engenders Fear for the soul refuses to recognise the danger of where this knowledge will lead him (see this page, 1st para.). But macabre though this is it is still unable to bring home to the reader the utter terror and horror of the effects that will soon sweep the world owing to the 'king of MAMMON.' (See page 13, column 5).

Therefore to throw away of was suggested by the medical one life is to gain of the other, world that the spleen should be and so this goes on all the way removed, but he refused, and

Yes! we all agree that our lives can be very complicated, in fact at times it seems nothing else but that, but we forget that we alone made such complication some time or another, for this is OUR life.

After all we all seek of progress to overcome evil and FEAR, therefore to grow more and more complications is for the time vital to soul growth, and if these were removed by any Guide or Instrument, then there so doing would neither prove a service to that life, nor to the inner hosts of spiritual soul development.

But let us come down to what may appear a more practical side of the problem as far as we are concerned. We

has written to me to see if I can give him some enlighter ment on the matter.

Apart from herbs, these having been prescribed, I would like to make some further comment, which can apply to so many. If only a few readers would partake of the very explanatory teachings that RA-MEN-RA affords onto all, a great deal of understanding would be gained of how such an illness as Mr. G. had to combat, was a cona of lives. The root was established huncars ago, and fast io self-willed way has lived

Man has never allowed the spirit to permeate in the way he should have done, but killed off his own seed by an extensive state of self-desire. I know that some of you will be inclined to ridicule this, but it is an unfortunate truth. For man should have been making for an upward rise to the Kingdom of Man, but ever grovels in the field with the beast. This fully answers why such as Mr. G. and many others. find themselves with an enlarged spleen; for this is the Gateway of the Soul.

The unfortunate matter is that the personality of this life is having to take the burdens of the whole of the soul, and the present state of the immediate consciousness did not have very much to do with what the soul in its previous personalities, put into operat-

#### Parkinson's Disease

Mrs. K. of Ohio, U.S.A.

THIS helps me to explain a little further the question put by this enquirer, that her husband is suffering from Parkinson's disease. After making contact with the Spirit doctors in this School, we were again informed that this disease was the outcome of ages, and over the many lives links with the misuse of the vital fluids.

Well! none of us would like to be told that now, and could be very indignant, but do you anymore than I know what sort of lives we have lived in the dim and distant past. When looking into the chart of Mr. K's husband it showed that he was a man with much spiritual wealth that had never been expressed or returned to the gods.

We have suggested herbs, but we can only further suggest, and we suggest to most patients or students come to that, get your mind built up for the new Kingdom destined to come forth on Earth.

#### Chakra Wheels

Mr. N. of Ghana.

THIS patient was rather vague, for he merely complained of his left leg and hand; and by this we believe that it is a slight form of paralysis. Apart from suggesting herbs, we have explained that this is really coming from the spinal column where the nerves have become in some way affected.

If there has been no injury to the head, then what is taking place is through the spinal Chakra Wheels not being activated. This takes in of further complications, for it touches the inner bodies of the soul. So life is not just on the surface, neither is illness due to what you can see. To start off with herbs to bring a balance to the lower Kingdoms of the soul, then later on a psychological investigation.

Now this may all sound a little vague to many of you, but it is not without a reason that we bring this misdom to you at this moment. Changes are taking place, and wisdom will help many considerably, for there is an unseen movement within all living things, which links with phenomenal changes. So know that wisdom taken at this moment can help many for more than they can appreciate.

If there are others who SELECTION.

### THE CONSEQUENCES OF REBELLION

by James Averill

THIS Age is the time when the Call to respond to the Spirit has been sent forth and now man must obey. The Age of Aquarius commenced before the turn of the Century and so this lady, who is still young of heart and was born in the teens is one of the children whose Path has been mapped and there can be no delay.

It is the Age of Aquarius which has Venus as its ally and Saturn as its weight. Uranus tolls the Sword of Instant action with Saturn as the demander of Justice if it is not obeyed, with Venus as the Reward of Obedience. In the chart which is the main subject of this month, there is a note of warning to all who will not tread the path they have come down into matter to carry out.

Man is Spirit and must obey his Spiritual destiny and shed of earth and its octopus toils.

Beware the man or woman who rebels.

#### The Hardened Heart

Soon the lower mind, already embedded in the house of the tomb of earthiness and desire, should be directed to material things, and, thus she refused to respond to the Destiny that was calling her to action.

There are four Planets in Cancer which sign normally rules the fourth house, the house of the home and the establishment of the Spiritual seeds of womanhood. This lady has untold Wealth of past knowing as well as being one, who has not let her Seeds of wisdom be wasted in past lives.

Not only that but she has been a Priestess in past ages as is seen by her Neptune Ψ and Sun o together in the 9th house, in the sign of Leo a.

All is poised to unite her powers of Womanhood with the Solar fires of the 9th, the house of the Triune Fire, the Solar Mind.

This is the establishing gradually of higher perceptive thoughts, which are so raised of human desires that they become Winged away in

thought intensity until such is its penetrating capacity that it can be the channel to transmit the radiance of the Solar Rays, the refreshing rain of à priori ideas to parched humanity.

This action needs the blending of the Spiritual Sensitivity into the physical body until such is its responsiveness that it is able to receive the vibrations of spiritual power. This would be brought about by sacrificing the ordinary physical pleasures, and by mind action in study, questing, fight and struggle, to pin point her mind, and then drawing down from the Higher Planes the vibrations necessary to sustain her.

This would be the Marriage or uniting of the Heights of her Leo powers of the Neptune plane, the 7th chakra, with depths of Cancer.

She really is a gifted soul whose opportunity is to guide and heal others, that she could be very successful.

Her Destiny shows that she had to blend these two powers. Her Path of Destiny  $\oplus$  is in Taurus 8 and in the 7th house, the house of Spiritual Marriage, Taurus is the opposite sign to Scorpio and as can be seen by its position it is square in aspect to the Sun in Leo and the Moon D in Aquarius = in the 9th and 3rd house respectively, as well as being square to Neptune and opposite the Ascendant.

The Ascendant is the most important emblem in the whole chart for what is on the first house cusp at the very moment of birth is that which is rising from the 'underworld' and comes forth as the horizon

It is the building of the Spiritual Wealth of that sign and decan that will be the only way to ascend back to the spirit and become free of the constant

karmic debt of having to rein-carnate again and again.

This lady would not change her mind and refused to listen to the old priesthood of Leo that was calling her to listen and obey her Destiny. She rebelled and like Pharoah hardened her heart.

She was not going to build a body to draw down the Higher Scorpionic energies of the upper Testes. Oh No, she wanted to

So the Axe of Uranus struck!

#### **Sword of Damocles**

N July of 1963 her progressed Moon was in the 29th Degree of Libra 

passing through the 12th house of past wisdom, the house of Pisces x. Libra rules the 7th house in which is the Part of Destiny.

At that moment it was aspecting Mars by being sesquiquadrate or exactly 135 degrees away from Mars. This aspect always has the backlash kick of the horse or even the adder's bite, and often it is this aspect that causes disaster. All was already poised to enter Scorpio and in first degree of Scorpio there would be a square to Neptune situated in 9th house, in the sign of Leo.

Her priesthood Wealth had been wantonly violated and her past life Honour and Heartconscience been broken. Now was the time to call account.

If she had partaken of wisdom all would have been well and then the square aspect would have been the final rivetting home of that built. Scorpions are well known to sting and as she entered the three degree orb of the squares to the Sun and Moon and the Opposition to the Path of Destiny all was ready to make a last effort to change this rebellious soul's self-will.

As she was in a car a dreadful accident occurred. She suffered a terrible blow on the head as well as real damage to her legs. Still she walks with a limp, and still she suffers grievously from her headaches. But at least she is now starting to accept that there is something more in life than pleasure, desire and possessive selfinterest. For six weeks she lay in bed in those early days with plenty of time to think, and she tried to reorientate herself.

But still this lady is not turning with all her might and main to fulfill her destiny.

When will the sword fall again to demand the Action of Justice as opposed to the prize of sensitivity of Venus, the risen Venus-Urania spoken of in hushed voices by the Greek sages. When will Karma call the final Bell?

In the first days of September, 1964 the Moon starts to move into the fifteenth degree of Scorpio and immediately forms a square aspect to Uranus #, and in the following December forms another square to the Karmic Points. & 89. Invariably I have found these aspects, especially those that occur in the 30's and 40's as

In order to save time in slaughtering them the Bahutu government troops now surround a Watutsi village, ordering all heads of families and households to come out of their homes. When they do they are seized, their hands and feet hacked off and they are left to bleed helplessly to death under the blazing African sun. They the attackers then move into the village slashing and hacking with their deadly pangas until no man, woman or child is left alive.

Mutilated bodies are blocking and choking the rivers and streams because the crocodiles are satiated. Around many villages human bones protrude from the red earth, mute testimony of man's inhumanity to man and the voracious efficiency of the scavangers of Africa—the ants.

This wanton massacre of the Watutsi, who die like butchered animals, is the most horrible wave of violence in Africa today-in fact, the worst in living memory in Africa where life is cheap and violence and sudden death is no unknown feature of African existence.

With all primitive races, once they are given power, whether it be called independence or self government, despotism arises. Once their blood-lust is up there is no stopping them in their violence, and they become possessed with the lust to kill, mutilate and destroy.

Little actually is known about the Watutsi except that they are racially linked with the Ethiopians and are of similar origin, but why are the Watutsi so tall (7-ft, and over) while the Ethiopians are mainly below average height? They are a race apart in Africa and the tallest people in the world, not mixing or marrying with other races.

Could inbreeding, or any specific item in their diet, resulting in over stimulation of the endocrine glandular system, account for their tall, lanky physique so different to the stunted, stocky Bahutu above whom they tower?

The Watutsi wandered into Central Africa from further north during the 14th and 15th centuries, arriving in what is known today as Ruanda Urindi in the late 15th century where they settled, and due to their then superior intelligence rapidly became rulers of the country until 1962, when a Bahutu government came into power.

Cruel and horrible in its form though it is, this is part of man's evolution in Africa, for the Watutsi were endeavouring to cling to their ancient privileges and regime, holding back the clock of progress and advancement while the Bahutu, the "common man" majority race, remained-until 1959-in feudal conditions, just as in France and Russia of 1789 and 1817 respectively.

# THE FALL

#### What is its Real Meaning?

by Ra-Men-Ra through Mrs. Gladys I. Spearman-Cook

To answer this question I am going to bring you an excerpt out of the first Book of Kings, chapter 1. David the king was now old and stricken in years and was having a difficulty to hold his own, but by verse 32 it is seen that David had managed to rally and order forth some men of strength; and when they came to him he told them to be responsible for Solomon his son and see that he was set to ride David's own mule; that is, get his solar fires active. Then he declared, bring him down to Gihon, the valley of Grace and not impetuosity.

This was a great feat on the part of David at that time, and indicates of how he, as spent as he was, managed to get the spirit back into circulation. This is something that the ordinary layman does not understand, and if anything at all, deliberately seeks to destroy every effort put forward by these saviours of life.

This final effort of David caused all to draw towards Solomon, for it amounts to the fact that the next phase would continue with spirit as Solar Light and not the old orthodox religion that had spent its day.

But already David's innermost desires were beginning to mature, for what he would have been fired into a Solomon state, for many turned towards the new idea, and so much so, that Adonijah the old Levite state that had raised a seditious state against David,-instead of continuing his deliberation,flew in fear to the horns of the altar: (verse 49).

David was trying to instal into matter the new Solar Light. He

had been badly ravaged by the tribes round about: he had struggled and he had found it very difficult to be able to bring the new religion to the earth. His son Solomon was the sun-god out of the whole of his sons who was to go up and take the place of the father. So it is always a state of continum.

It was a state of fear that caused the soul to fly back into the old Levite religious beliefs which he had already sacrificed. For it was an old state seeking to usurp the solar throne in Capricorn; but when it found it could not hold it, it fell right back into the base of Taurus. But since he now decided to bow the knee to Solomon, the solar inflow, he was told to stay in his own house, and while he remained worthy and fed the soul with ancient wisdom, not one hair of his head would fall to the

This was an old Levite state of "Jehovah is my Lord," which rose up in the soul in its derelict state from past Egyptian days. But Nathan (the priest) came forward as Bathsheba (the mother of Solomon) pushed the issue and placed the Solar deity back on the throne in the heights.

It amounted to the fact that the soul as mind working through the lower logical propensity could not break through from the 7th to the 8th, thus remained in its old Saturn state. Thus it held onto the luna side of the altar, while the Solar

deity hovered in the heights waiting to break through; therefore separated, and received no guidance from the

This became quite evident as Solomon continued his reign, for he only brought forth the magicianal house of the Templars, and which further resulted in the bloody kings of Ahab. Therefore the Solar light did not break through until the beginning of Pisces.

This as TIME is buried in the soul as a garment of the

spirit and mind and which, during continual rebirth will be resurrected as relativity. All has to be transmuted from luna to solar, therefore all will come forth as the soul seeks to make the transmutation.

But if it fails to make the effort and only partakes of knowledge, some time or another it is bound to meet time-limit and the rings of Saturn will bar its way from going on, unless the soul masters and breaks through.

Then he turns the coin into the Solar break-through; but if not and it gives in, it turns back on itself and Saturn wins the day, and the knowledge that has been taken as the green lion turns black under the solar intensity.

Now you can understand what was the cause of those who went. They were about to 'break-through, and they had not the courage to do it: and all they wanted was the Horæ to bring the fulness to a breakthrough.

This is the meaning of the soul going back upon itself and starting a slide down the greasy pole. This was the message that was being delivered by Job when the Lord, the Solar Light said unto Saturn, "Whence comest thou." and he replied, "From going to and fro in the earth, and from walking up and down in it."

He was waiting to either command the soul, or receive a mortuary meal of all that had been taken and brought nearer from Satan into God.

For these are the two sides of the coin, Kronos who is the basic or father of the rising Solar Deity, slowly being whittled away from luna into Solar. (And it is a continual state of the soul trying to fight down old ideas and building up into the new).

Now this is what happened to Absalom. Again, David could not break through from the 7th to the 8th, so all the wealth he had taken up to the 8th became caught up by Satan and buried into a rock, instead of being turned over into the Solar light.

And this is the answer to finding the Solar light: fighting on; fighting on; trying to break-through and never giving-

Concld. from Back Page

They do not thereby fulfill the passage in the Lord's Prayer which states:

'Thy will be done on Earth as it is in Heaven.'

Genesis also tells us that we are made in the Image of God. God, being creative, to fulfill WE TOO MUST ourselves, CREATE.

This is not a criticism of modern psychics, it is purely a suggestion for them. If we are to manifest the God within we must adopt a discipline similar in purpose to the pianist.

WE MUST MAKE THE MATERIAL WORLD RES-POND TO OUR INSPIRATION. AND A DEVELOPED TECHNIQUE OF EXPRESS-ION IS THE ONLY WAY TO DO IT.

Ramund Andrea's 'Technique of the Disciple' is an excellent analysis of this problem.

If we express our psychic sight in words, then we must enlarge our vocabulary and learn to express our thoughts and feelings in speech. One might also suggest that sensitives learn literary expression, the psychology of personal contact and personal magnetism.

Also it is a necessity that one understands clearly the forces that are expressing through one. Not only the forces, but how they find expression in ones life. Understanding is a structure upon which further understanding can be built.

If we have not learnt to count, we cannot learn to add or subtract. If we cannot add or subtract, we cannot work out the problem of book-keeping. Spiritual sight is like this also. We have to learn to see and

understand the very basic things before we can properly understand or be shown even greater

THE COSMIC IS FULL OF MARVELS, BUT WE HAVE TO LEARN THE SIMPLE THINGS FIRST.

The musician who has learnt the theory of his art, knows of scale, octaves, harmony, etc. He may know how to read music, how to write music, how to teach music, and all about music. However, such knowledge is like our body without the Breath of Life, it doesn't LIVE.

When the trained musician receives inspiration, his cold theory and technique comes alive into living music, expressive of the inspiration. The inspiration, without the body of theory, cannot express itself except in the highest form of psychism.

Let us learn from this. From the dust of Human experience let us make a body that the Breath of Life may enter, and become a LIVING SOUL.

N.B. The author has made no effort to deal with the phenomena of spiritualism such as supposed possession and overshadowing by other personalities. Therefore, comments upon these subjects should not be read into what has been written.

Now you can understand what was the cause of those who went. They were about to break-through, and they had not the courage to do it: and all they wanted was the Horæ to bring the fulness to a breakthrough.

This is the meaning of the soul going back upon itself and starting a slide down the greasy pole. This was the message that was being delivered by Job when the Lord, the Solar Light said unto Saturn, "Whence comest thou." and he replied, "From going to and fro in the earth, and from walking up and down in it.'

He was waiting to either command the soul, or receive a mortuary meal of all that had been taken and brought nearer from Satan into God.

For these are the two sides of the coin, Kronos who is the basic or father of the rising Solar Deity, slowly being whittled away from luna into Solar. (And it is a continual state of the soul trying to fight down old ideas and building up into the new).

Now this is what happened to Absalom. Again, David could not break through from the 7th to the 8th, so all the wealth he had taken up to the 8th became caught up by Satan and buried into a rock, instead of being turned over into the Solar light.

And this is the answer to finding the Solar light: fighting on; fighting on; trying to break-through and never giving-

They do not thereby fulfill the passage in the Lord's Prayer which states:

Thy will be done on Earth as it is in Heaven.'

Genesis also tells us that we are made in the Image of God. God, being creative, to fulfill ourselves, WE TOO MUST CREATE.

This is not a criticism of modern psychics, it is purely a suggestion for them. If we are to manifest the God within we must adopt a discipline similar in purpose to the pianist.

WE MUST MAKE THE MATERIAL WORLD RES-POND TO OUR INSPIRA-TION. AND A DEVELOPED TECHNIQUE OF EXPRESS-ION IS THE ONLY WAY TO DO IT.

Ramund Andrea's 'Technique of the Disciple' is an excellent analysis of this problem.

If we express our psychic sight in words, then we must enlarge our vocabulary and learn to express our thoughts and feelings in speech. One might also suggest that sensitives learn literary expression, the psychology of personal contact and personal magnetism.

Also it is a necessity that one understands clearly the forces that are expressing through one. Not only the forces, but how they find expression in ones life. Understanding is a structure upon which further understanding can be built.

If we have not learnt to count, we cannot learn to add or subtract. If we cannot add or subtract, we cannot work out the problem of book-keeping. Spiritual sight is like this also. We have to learn to see and

understand the very basic things before we can properly understand or be shown even greater

THE COSMIC IS FULL OF MARVELS, BUT WE HAVE TO LEARN THE SIMPLE THINGS FIRST.

The musician who has learnt the theory of his art, knows of scale, octaves, harmony, etc. He may know how to read music, how to write music, how to teach music, and all about music. However, such knowledge is like our body without the Breath of Life, it doesn't LIVE.

When the trained musician receives inspiration, his cold theory and technique comes alive into living music, expressive of the inspiration. The inspiration, without the body of theory, cannot express itself except in the highest form of psychism.

Let us learn from this. From the dust of Human experience let us make a body that the Breath of Life may enter, and become a LIVING SOUL.

N.B. The author has made no effort to deal with the phenomena of spiritualism such as supposed possession and overshadowing by other personalities. Therefore, comments upon these subjects should not be read into what has been written.

REGENCY PRESS 43 NEW OXFORD ST. LONDON

Concluded from Page 5

arry the soul up into realms

There he would touch the Kingdom of the Son of Man, and bring forth of a fiery stream that would re-imburse the world with life.

But as Daniel was informed of this, he grieved, for his further visions troubled him, and his countenance changed; but he kept the matter in his heart. He like many others was doomed to see man destroy all at the point of becoming. Why is man so foolish? All is his, vet he ever tries to take that which is not, and ends up with sitting in a parched field cold and un-attended.

In Chapter 8 the hard gruelling fight that has to follow for the multitude is shown very clearly in the Ram ever fighting with the Goat, and one mastering the other. It is by Aries pioneering through the fields of experience, and bringing all to Capricorn, that the lesser reimburses the greater.

This is what had to take place with that now set into motion; for from now onwards there was a complete change, and where learning was the order of the day, now Religion would take over. But not before the Solar Deity had made full entry into matter as the Christos Son. This was the Cosmic Man that was to be fully ensconsed through all the planes as the living Intelligencia that had been the forerunner before Solar establish-

And much of this great Beauty is versed in Chapter 8 notable ones towards the four winds of heaven. And all waxed great even to the host of heaven; but some were cast to the ground.

And there appeared a man unto Daniel who begged him have courage, for it would only be at the end of time that the vision would be understood.

Therefore we find in this Chapter the first clue of how at the end of time the Prince or Solar Ray in its interpenetration will destroy and repair. But only Daniel could appreciate this to the full depth, which he obviously did to a degree. Yea it was so fierce, that he fainted and fell sick with what was demanded of him to carry such a burden. Yet this would have to be the lot of another in the Aquarian.

So only one who would go through the preparation that they were fitted to withstand the task, could possibly come through.

For what came forth in Aries as Martian-Solar fire, in Aquar-ius would be Uranian-Solar fire, and that would be a great deal fiercer; and cause volcanoes to erupt, dissatisfaction between men to flare up, man to fall sick, and governments to fall; and even much worse could be the order of the day; but all would be according to man and his hidden ROOT.

#### The New Race of Aquarius

CHAPTER 9 of Daniel shows of how desolation began to creep over Jerusalem, the city built up by the Israelites; those who had striven to build up a city of God-fighteth, and now under the oppression were fast dying.

A great truth given birth, but could not hold against the evil of greed, so would have to remain as a root, and sprout in later times.

Yet as it happened then, so is it repeating itself. A new FACE had to arise for this age, and the Pope refused to change, so it came forth in the wisdom of Universal Philosophy.

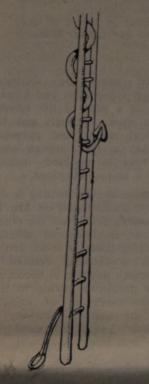

But was man anymore prepared to embrace that which could be his saving Grace than before?

NO! they have done exactly as was performed in the past, done everything they possibly can to destroy it, and built up

space missiles instead. But it will come into being whether they accept now or not.

Daniel in verses 2 and 3 is made aware of this encroaching state, and in supplication and prayer that the Lord would help him to revive the covenant admits in 5 and 6 that the people have sinned, and not hearkened unto the prophets. The whole Chapter is one long cry against the abomination that is spreading, and must have continued right to the day of retribution. For here in the Age of the dry Water-pot man is literally on his knees, but not in prayer, but debauchery and lascivious living that is bringing him to a state well past repair.

Daniel in that age is so shocked by what is pulling upon his vitals, that in Chapter 10 he takes on a state of flagellation; and as he did so,

The Aquarian Path

THIS shows the NEW FACE that this Age has been given. No longer has knowledge with all its barrenness to be wershipped but THE BOOK OF LIFE. Here the King's Daughter the Virgo Intuitive Mind of the simple child led by the Spirit Word is being instructed how to obey the DIVINE LAWS of Justice. This is the Path all men and women must now take, facing and remining the Laws they must obey, cleaning their blood consciences, and finding the way to draw down the Spirit Energies to bring them to life again. (See this page, column 4).

there appeared unto him the phenomenon of a man clothed in linen, and girded with gold. Daniel upon seeing such a mighty creation fell upon his face, but a hand lifted him up and said.

"O Daniel, thou greatly be-loved, have no fear, thy prayers have been heard."

For as Cyrus the king of Persia was on the throne, he understood the full meaning of

The prophet was so overcome at what he now beheld, he went dumb; but they touched his lips and he spake, and they even repaired his body which was feeling the stress placed upon its etheric counterpart; and great endurance was given unto him. The reference to Michael in verse 21 is the degree of element they had consumed and been struck; and whereas now it was Uranus, all had been prepared in that Age that the finale could take place for the turn of the Year. So much Water has passed under that bridge.

Chapter 11 holds of the prophecy that Daniel made in one kingdom of light.

But encircling the whole of humanity as the Christos Blood seeking to give to each one life to their hidden root.

In Chapter 11 he tried to explain of what he meant of the Age to come but it was not to be expected that be sould describe a period that was not par fully come.

As for as he could perceive of the divided state he saw North and South, two provinces that had to join, and could only be done so by the king's daughter; the lady Virgo (see plate page 13, cols. 2 and 3).

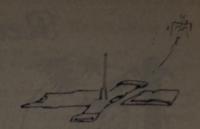

### He Dared to face

BUT it could be seen that she would not be oble to maintain and bring all to the point of ascension, so a branch from her roots shall deal against them, and for a time corruption and all forsake the holy covenant.

The lesser science will take over, and the road of mind learning denied.

Even the daily sacrifice will be forsaken and corrupted with flatteries; and even kings will magnify themselves above God as they build up towering edifices of rossing finance.

So they will innoun a god of force that no one has ever known before; therefore th libyans and Pinionians will be upon his decrees a bl mind wealth

And it will not be long ere tidings out of the East and North will trouble man both home and abroad, and he will come to his end, for he will be cast into the lake of fire to try and find rebirth.

Until man seeks of this way of cleansing, he will know no peace, for more and more will he resort to the lesser side of the Neptunian waters in drugs and

This will only conflict with the Solar Blood that is now seeking to heal and raise him up, when he is ready to listen to the greater Voice within his own inner being.

All this was due to a wilful king, who now as the king of finance and power, is the downfall of Aquarius (see plate on page 10, col. 3).

#### The king of MAMMON.

But even Moses had to arrive the "BACKSIDE OF THE MOUNT" (Exod 3) through his self-will, and yet made to go on with his task, which of course resulted in Joshua entering in, while Moses died outside.

Chapter 12 brings Daniel to becoming enveloped in the power of Michael, for he now had earned the right to such power. Thus verse 3 describes as best as was knowable then, of how the wise will shine with brightness and the righteous be maintained by the stars.

But Daniel saw with utmost sorrow now as the hierophant, that all was breaking asunder

"What shall be the end of these things?"

And the Great One replied :

"Go thy way, the words are being closed up and sealed till the time of the end."

Many will be purified, while the wicked will remain in incrance, and only the wise vill understand. So go thy way Doubled motil the END.

Denial dated to face the Beast as he unearthed the beast states of the mystery furnace of the 5th; by so doing, in daring to face and mastering, he was given the right to foretell

#### "THE WRITING ON THE WALL."

As it so applied to Daniel so it applies to all, for every age is but the preliminary of another.

TE HAD A FAINT SUSPICION THAT WE MIGHT get a tremendous number of letters to answer if we started the Pioneer Project and we were right, I had thought that Christmas was bad enough but the amount of new letters we have received over the past month has been a record. As a result we offer to one and all our apologies if you have had to wait a while for a reply, but we assure you all that we have done our best.

It has been a magnificent Month as the large numbers of letters printed show. But please don't stop! The more the merrier.

merrier.

The two letters we consider have the most depth are the Hospital ones and the fact that in the Hospitals and the old age Homes the patients are dying literally through a dead state of mind. This is the warning which this School has for years been stating would happen. This is where the whole Hospital and Old Age care is absolutely wrong and misconceived. They are run by men and women barren to the Inflow of the New Spirit Wisdom and therefore instead of deliberately disciplining the sick and the Aged who lack mind—as will undoubtedly come in the New Centuries of later Equinoxes—all that happens is that by drugs and pills, and bad and wrong food the mind is being forced into a dead state.

What a dreadful heritage to have to reincarnate into!!!

Only this week it was announced that the British Public Health Doctors had by subscription given out 800 million pills as sedatives as well as 350 million tranquillisers and 250 million stimulants. This was the evil destruction that the Modern scientific laboratory was pioneering instead of the electric mind. No wonder such wisdom as is being pioneered by our great Teacher in mothering the World is meeting such dire and stagnant opposition.

But on with your wonderful task, you Pioneers, and may soon hundreds of others all over the Globe come forth and become the Pin-Points of Light and give out our Occult Gazettes even though they may only give out half a dozen or so.

#### An Old Age Pensioner in care of local authority.

I am ever so pleased to receive the O.G. and your letter to hand today. So glad you were able to read my letter, as I do feel very strongly on the lack of any Belief in people who are nearing the end of this Earthly existence. There are passings nearly every week: one has to realise it when the three-score-and-ten has passed.

To leave this planet under a condition of not being prepared for a Glorious New Life seems terrible to me, as I personally seem to live in that New Sphere now. At my age now, I have to slow down.

I am really very pleased with your good Gift to me; one soul you have given immense pleasure to. Thank you. I enjoyed the article on "FRUITS OF EARTH" in this issue, (March) being a nature lover and having used Herbs in my past life; and being a my past life; and being a vegetarian I do know the difference in health, as now I get very fresh vegetables or fruit, and my bloodstream is saturated by drugs. What with this and the ignorance of my companions, it is not very helpful to Healing.

Now anyway I have a friend to look forward to monthly, the O.G. I will tell my Spiritualist Pen Friends about it when I write them, and will I hope write you time after time to comment on any article I can find to my liking, or if I need guidance on any subject.

As to Absent Healing, it seems age is deciding factor here, as various organs of the body are coming to an end of allotted span, and Those who know beyond the Veil, cannot replace same. So with that thought one can stand up to things. So once again, thanks for helping hand; I appreciate it now, in my present circum-

#### The Animal Kingdom

Mr. Douglas H. Morgan, Paddington, W.1.

Have been reading the Occult Gazette for a few months now and am most impressed and delighted to find reading material that spans the earthly unto the spiritual through recognition and knowledge of a plan of life forces, which works through and by practical means and purpose. The key to the complete plan is Service to mankind-including the animal kingdom.

The reason for writing is the request to comment on Mr. L. T. Potter's article on the position and treatment of animals regarding food. It is an article worth considering because I feel man's position is becoming more precarious owing to this callous treatment of animals and the animal kingdom in general. Something must be said and done to arrest the wholesale treatment of the animal kingdom.

Animals are being exploited in three distinct fields nowa-days, and it is dangerously on the increase. The first is as illustrated in Mr. Potter's article for food. Secondly the vile practice of vivisection: 4,000,000 in this country: in America 300,000,000; a figure one really cannot comprehend. Thirdly, in the field of sport and fun; again brutal and cowardly.

I have just written to a daily paper which carried an article on the "virtues" of otterhunting. Fortunately the writer did not take kindly or lightly to their activities; a good and necessary article.

### THE DYING MIND

A male Staff Nurse in a Hospital in Birmingham.

Several people here are quite alive to these truths, only they have never before met up with them. I have long and interesting talks with them when time permits, and of course they ask me how I came to be interested in "all this." Then I mention the Temple, but also add, that "all this" has been very much with me since as long as I can remember; the Temple being the link in this life which made me once again acquainted with it. I remember when I was 14 being very intrigued by the "Prediction" magazine poster—not knowing why—but even then it was beginning to touch chords in my mind. My few genuine friends all have this knowledge, and therefore through them I can find other points to touch with the O.G., besides those that I can find in my own daily round. Then of course in Birmingham there is ample opportunity of spreading the Word.

My days at present are filled wth lots of work, both mental and physical-dealing with very selfish staff who want to take all and never give a thing: also making decisions and taking on responsibilities which are not mine by right; taking what other people do not want. You see, in my small way, my work is for the patients—and that is my purpose, and what I came into this work for. But oh how many do it purely for the coin and whatever else one can get out of it. So there are scapegoats even in hospital, but I don't get put on. What I do, I do willingly -but I still fight for my rights when others are too demanding.

The teachings in the O.G. are all so reasonable and logical-I just cannot understand why some people have to condemn—(the minority of course): they cannot be anything but superficial in their thinking.

I only said today, that if only people (I was referring to patients) would only think, they would help themselves out of much of their difficul-

But they refuse to, and their thoughts merely revolve around sleeping, eating, football pools—and the ghastly T.V. and idle chattering.

No wonder their bodies are not recharged with Life.

We get a lot of R.C. patients, and of course, from personal observations I find these people the most closed-down of all. A close runner being the Muslims who are just as biggotted in their outlook, to a degree of superstition.

No wonder their countries have declined when their religious conception has become so materialised. All this will some time have to be broken up, and I say that is why so many people from these backward countries have nvaded these shores—to get on to a new line of thought-and decreed by Karma, of course.

My greatest interest of all is of course Astrology, which I know is the SCIENCE OF LIFE—Life itself. The Russians have discovered this too, and are using it to guide them along. Why not? They are an Aquarian Nation, and who but an Aquarian would put Astrology to the test! This letter is no longer than I intended it to be, and I hope you will forgive all the references to self. Your work at the Temple is so very essential, and I have always associated myself closely with you, but have felt that what I was doing was very little.

The implication of all this is simple, to me anyway. Mankind is now pursuing a downward movement, exposing each of us to conditions which were never intended by the Holy Power. The whole attitude to

the animal kingdom is most important to mankind, and our efforts in all other directions and fields are useless and wasted until we start to re-process our thinking and attitude to the position of the lesser

#### Mrs. Margaret Wilkinson, Wanstead, E.11.

In reply to Mr. Potter's letter, may I thank him for writing it, and the Editor for printing it so fully: what he says needs to be made public, because I am sure lots of people don't

How many women who wear furs ever think of the pain and suffering inflicted in the trapping and snaring of the wild animals, for things which are not necessary. I have been told some are even skinned alive, to retain the sheen on the skin. Persian lambs live only long enough to allow their coats to dry; wild monkeys are terrified during capture and then shipped in shocking conditions, to produce serum to prevent us from diseases which we would never contract if we but lived in faith and understanding of the divine laws. And it should be made known to the general public that calling ourselves a Christian country, we export sheep to be cruelly slaughtered for pagan Ritual ceremony.

As for vivisection, no words

of mine can convey the torment and fear these poor animals Society, 47 Whitehall, S.W.1. will tell you, if you are interested. To them, The Occult Gazette, and Lord and Lady Dowding we should be thankful for making it known to so many, that these terrible wrongs are carried out for us. Some people think, when we are concerned for the animals, we don't concern ourselves with the welfare of the children. How wrong and misleading they are in their thinking. We must all strive to stop suffering and cruelty wherever we see it, and let us say,

"I am the voice of the

through me the dumb shall

till a deaf world's ear shall be made to hear

The same force formed the parrow that fashioned man the king. The God of the whole gave a spark of a soul to furred and feathered things, and I am my brother's keeper, and I will fight his fight, and speak the word for bird and beast, till the world shall set things right."

#### Miss Marion Fletcher, Staplehurst, Kent.

Many thanks for your Gazette. I like it, but for the time being shall not subscribe, as time here is very limited for any relaxation. The animals keep us on the go.

I liked the letter from Mr. Potter. I have always held the same views. I believe that politics and orthodox religion are at the bottom of nearly all the troubles on earth. The history of the church is Bloody and anything but Christ-like: while materialism and greed are the main aim of the masses. I see no hope.

My life has always been the care of animals, and that is how we are engaged now. "Humans" have Everything, and the animal kingdom is cruelly abused and exploited. I wish there could be some awareness of their ill-treatment, and some help given to them. Orthodox religion (R.C.) could put the fear of the devil up people,—but it won't, so that the ignorant masses dare not be cruel.

#### R. Caesar. Bournemouth, Hampshire.

I was greatly interested in the letter from Mr. Potter of Stoke-on-Trent, especially as you asked readers to comment on it. We do not need animal flesh. We should be much healthier with plant foods. It cannot be consistent with God's can people get, to believe that they can put right human illness by cruel experiments on animals? Any normal human being knows that cruelty is a vice. If they've got any sense they must know that no one can benefit by vice. Of course, some people prefer to be blind because they do not want to see the truth. Orthodox religion has become a kind of business and consequently, devoid of value. True religion is a way of life. Orthodox religion seems to be dead but it won't lie

the wrongs of the wordless I think this is the first occult movement which puts vast occult theory into practical application. Your teachings are so esoteric that I am afraid only deep students of occultism will fully understand its meaning. Many of the true sincere truth-seekers will be truly helped by your teachings. Also congratulations for your new initiations and further progress on the path of Master Ra-Men-Ra. I certainly wish you a world of luck for your won-derful work of enlightenment.

I have one question which I am striving to solve in my daily meditation. According to The Secret Doctrine of Mme. Blavatsky, one essential quality of the primordial force substance is inherent eternal perpetual motion. Under the eternal law of periodicity, this perpetual motion is modified and change takes place in motion itself, generating the vertical motion itself and this is the first beginning of a universe. My question is: "What is the essential characteristic of that eternal perpetual motion associated with Primordial substance of Absolute? What characteristic of that Primordial substance causes eternal perpetual motion? And what causes the periodical modification of that motion, which generates the vortical motion?"

These are the questions that are presently baffling me and I am trying to solve them in my daily meditation. Even though I searched through every occult literature, none of them really questions. answers above Would you enlighten me by your world-reverberating-roar of Arcane Wisdom?

I have taken the O.G. for a few years now-I do always read them at once put them aside and do so when time permits. As you are aware I was President of the Padding ton Sanctuary during 34-40 when property was destroyed During that period I found my 'work' as a Speaker and clairvoyant fairly easy but when began to travel the country and coast centres I found my work almost heartbreaking. In fact in one or two of the places I found I was very much disliked, because I told them the Truth of Life and all that it means. Many folk refuse the basic truth of life, when told that we were the Gods in the Gods and Goddesses of our own destiny. ... It's heart to read the Occult Gazette. I have sent some of my oldest copies of the Occult Gazette to friends that live off from here, and some of them like it very much, so I'm hoping you'll get some new subscriptions from them.

I like the Occult Gazette very much and realise the great deep truths in it, and the lessons you have too; and am reading and copying out some of the best parts in my notebooks and then sharing them with others whom I know, and are interested in these deeper truths, and even those who are not aware of them yet.

I realised a long time ago the great truths and depths of teachings coming from your folks then, and was glad to have the issue telling of the "MIRACLE HEALING" and "ASCENSION." (Dec. 1963). I was sent three issues, so I shared with others those copies. Thank you very much. I will not let any copies go to waste.

# Sensitivity of Vision Psychic Sight

Pt. 2 (First part in May issue, Page 12) by Mark Western

NOW that the foundation of our study is set, we can begin to analyze particular aspects of psychic sight. Coming down to a physical level, we find that our body's senses play little or no part in this type of experience. Certain things can be seen with the physical eyes. Aura goggles using the Kilner screen show us certain aspects of the body's radiations, but these are still very near the frequency of light vibrations.

Some psychic influences bring about physical results it is true, but mainly we are concerned with a process that takes place within us. Therefore, we can say that to sense psychically in no way uses the physical eyes or the other physical

It does in fact call upon the sympathetic nervous system, the psychic centres, and certain areas of the brain. Or at least, it would be more correct to say that these areas of the body are the means to objectify the psychic impres-

For instance, when we look at a persons aura, we are not basically seeing colours. Our sympathetic nervous system and sychic centres are sensitive to the influence of these high rates of vibration at different frequencies.

To the person who has learnt to become sensitive to the impact of these vibrations, their mind acts similarly to dream construction (or hypnotic suggestion), and interprets the vibrations into something we can understand.

Thus we see the colour. Of course, one can say exactly the same thing about the colours we see with the physical eye. What we see is due to the effect of vibrations on the sensitive eye and mental processes. Isn't this, as we said, like the radio? The body, mind and soul of each person is like a trans-mitting set.

The mind of a psychic is also trained to receive. It takes the formless 'radio waves' and translates them into understandable terms. This applies in exactly the same way when we have a vision of someone we know to be dead.

We may seem to physically feel their touch, but then the hypnotised subject also can definitely feel the physical effect of a mere suggestion. Thus, to them, an onion will taste like an apple if suggested to do so.

We erect, or re-erect, a visual form from the impressions being received from another dimension. Again, a hypnotised subject will erect a visual figure from the suggestion to do so effecting the subconscious.

I cannot argue that the disembodied personality knows no able to our own physical forms. Only the human consciousness and mental faculties lend form to this dimensions influences. Might this not apply to the disembodied personalities them-

Imagine a radio set with a mind that could exist apart from the material parts of the set. If the wireless is smashed, this mind is set loose to wander in another dimension. It finds a 4th dimension, the plane of wireless waves, where thousands of different wireless signals exist in the same space without interfering with each other.

Our radio mind still has the habit of interpreting these formless vibrations into understandable terms. Thus, though it

illustrations of this. Several illnesses or injuries produce hallucinations through their influence on our organs. These hallucinations seem perfectly real and objective.

When one applies a mild electric current to the temples, even with the eyes closed, one sees flashing light.

Drugs and hypnotism also produce phenomena in a similar way. In contact with persons

who have experienced different types of psychic phenomena, one finds that what they see psychically is apparent with the eyes opened or closed, it matters not.

This applies to sound also. When we translate a psychic impression into sound, it will be heard even if we are wearing sound proof earplugs.

Fairies, Gnomes, thought forms, Angels, Ghosts and other non terrestrial phenomena can all be explained in this manner. Even in my own thinking I am not saying that this is the ultimate answer. But it does supply a key to varied types of psychic sensations

If our own mind is the builder of the forms we see, hear, smell, taste, feel and think psychically, then we can expect psychic contact to be as varied as the individuals on earth. In fact, we find different peoples and races having slightly different ideas about how angels, natures forces, the gods and goddesses appear.

To us in the west, we have always pictured them with wings, or at least, with recognizable human form, fraught with power and light. Eastern peoples tend to realise their heavenly messengers as having certain characteristics of animals, illustrative of their

So it seems probable that when a sensitive in the east contacts the forces of love he will interpret it into the form of his God of Love. In the west, we would interpret the same force in a different manner.

Undoubtedly too, as each sensitive nature evolves, they will tend to translate their impressions in less materialistic

On the other hand we know that a similar vibrational force will bring about a similar response in two different psychics. The forces in different parts of the world do have different vibrational patterns. A psychic moving from one part of the world to another will most likely respond in a similar way to local psychics.

This depends so much on the individual, what level of sensitivity and understanding he has reached, and on the impinging force, that we must not be too dogmatic in our judgement.

Jung for instance, found that Red Indian symbols had worked their way into the dream life of pure white stock after only a few generations in America.

Cosmic Impressions

on genius

N genius, or the personality of a creative artist, or even the initiators of constructive politics and world affairs generally, we see an interesting psychism. These people demonstrate an instructive type of approach to these forces.

As a generalisation we can say that each of them spends many years learning the technique of his particular interest.

In the case of a pianist we find that the body and mind for several years are subjected to a severe discipline. This is aimed at achieving the ability to bring about any desired result, tonal range or quality on the piano at will.

When this technique has been achieved to a reasonable standpianist properly express the feelings and impressions playing within them.

At this point they can open themselves to the Cosmic Harmonies, (depending upon their sensitiveness) and then, for our delight, bring these harmonies down many octaves and express them in physical sound, a reflection, to our physical ears, of a Cosmic impression.

Many psychies today are in a reverse position. They have the Cosmic Lagressions, but with little faculty or technique for expressing them. Thus the orges rimals your targely upon the mable to be

lives in a formless world, it translates it into material concepts. But not for long, for eventually it must come to recognise its condition, and cast aside its limiting material

concepts. Some of these ideas must certainly meet with disapproval in certain quarters. But they are given here to fill the need felt by many thinkers who have found inconsistencies within popular psychic philosophy. Another fragment of information that is not generally recognised at present is this.

psychic, or cosmic impulse entering our field of consciousness, is translated into the terms of whatever physical sense has been found most

This means that if a person projects a psychic message to one who is sensitive in a clairaudient way, the message will manifest as a sound or voice.

Supposing such a message were projected to a group of psychics. One might receive it as a spoken message, another as a picture, another as an idea or urge from within, etc., depending upon the type of

translating mechanism they have each developed.

This again emphasises the formlessness of such impressions, and the action of our own mind upon them.

Therefore, visions and voices that seem to come from sources outside us (i.e. other side of the room) are the effect of psychic and cosmic energies influencing our sympathetic nervous system and psychic centres.

These react upon our awareness and produce the effects we know as psychic sight.

The Higher Waters of Neptune

MANY may see this only as a shepherd seeing the dead female being swept over the river torrent. But to others who are conversant with interpreting the symbols deeper the Man represents the person who has conserved and held sacred his two most important forces, the lymphatic sensitivity and the seminal fluid. With these two forces building his mind alertness and perceptivity he becomes able to draw down the Higher waters of Neptune, and here he is being shown the dangers facing him if he does not harness these powers as they descend. He must work hard with his mind and body and not expect that things will come to him without toil and travail to this way he will raise the Psychic him without toil and travail. In this way he will raise the Psychic Vision of Form to the clarity of Mind Vision where the perceptivity is instant and gives not only the understanding of a problem but also the action which was the control of the problem but also the action which such demands.
