GREAT ELECTRICAL PROGENITOR OF LIFE

Scorpii the Source of Divine Energy

by Gladys I. Spearman-Cook

MAN HAS NOW BEEN notified of the appearance of the great Scorpii Constellation, a horseshoe body of Stars in the Galaxy of the Central Sun.*1 Under the wisdom of the Sciences man knows that Scorpio rules his generative faculties, and that Taurus as the labourer, rules his neck as that of the cervical vertebrae.*2 These are the plowing field of the soul, that which brings into birth his mind faculties through the spinal rod. As the Bull labours and brings forth by mind activity, do the lower waters recharge and rejuvenate through the cerebro-spinal nervous system. Then if Scorpio controls the powers and the waters that are flowing down from the Central Sun, as stated by the Scientist, and are the Great Source of the Unseen, or Atomic Force of Cosmic Rebirth, then man has ever through his generative faculties, been receiving the Great Atomic Force of the Central Sun. But he, only having put such into the lowest faculty of desire, has never realised that he has ever been the recipient of the Atomic Source of all life in his spermatozoa seed. While woman, as the basic of the past, is Woman and the Seed. Yet both being fed and rejuvenated by the great Atomic Source of the Central Sun; the nucleoli of the Great Unseen.

If this is so, then look what divine wonders lie with man when he knows how to organise and manipulate that generative function as man was so intended. Not as suppressed sex, but raised up spiritus air that provides him with a mind capacity and soul rejuvenation.

So we now seek to try and put into as simple knowledge as possible, the wisdom as seen by the Scientist of today, and the Seer or Prophet of yesterday. For both have the dynamic truth which must be correlated to obtain the whole wisdom. Then by the two we may be able to gather some little idea of what man has allowed to slide down into the mud, and why he is in the position he is in today. But furthermore, what he could be the means of bringing into being, if he would but bring this dynamic force up to its full heights of manifestation as spiritual power, and become a Christed soul as divine mind light.

(For notes *1 and *2 see page 3, col. 1). Continued on Page 3

THE DIVINE WATERS OF REBIRTH

EVERY facet of this picture testifies to the truth proclaimed in the leading article. This soul fearlessly sought into the secret wisdom (the fish garment) and mastered the emotional force of his seminal energies and used it solely to feed and build the crown of Mind. Once achieved he called for the Phenomenal Power of the Heavens to sustain him and he mastered this by linking these Powers of the Heights into his own being, the depths, by practical application. By this union, the true eternal union, of Man, Mind, and Woman form, there came into birth the Child of the Christos brought forth out of the depths; Pluto coming up out of the underworld. Editorial ♦♦ The Road of Courage

ONLY the Brave will survive the tests of the coming ages, for the LAW has started to act and reap its tide. The very reason that so many fail to seek into the Occult and Metaphysical Studies is because of an inner fear that immediately they begin to do so, they will start the Upward Journey and so they will have to meet and master the hidden 'legions' of themselves. The complete failure of church and state to recognise the Existence of a ruling Divinity and to obey the greater Laws of the movement of the Equinoctial Ages, has brought about dire consequences for the whole of the race of man. The coming years are going to be fraught with untold difficulty as men meet the misdeeds of past lives.

Everybody knows of the simple rule of earth and Heaven that 'every action has an equal and opposite re-action.' Thus it should be recognised that as the Age of Aquarius commences its full movement, so its opposite Age, that of Leo, will send forth the full force, weight, power, and intricacies of that sown in that Age. No man can stem such a tide and none can avoid the meeting of this Law.

All the inner soul events, powers, mistakes and evils will come up either to be mastered or to be 'plagues of destruction and winds of ill.' For there is not one soul who did not live in those far off days 13,000 years ago, and hidden within the blood wealth are recorded the inner consciousness of mind as well as the powers used and misused. All must be met, and all must be mastered, or each will lose their right to MANHOOD.

This is the age of Recognition, when the weighing of the Scales must take place, and each man face the truths of his own past creations. Revelations are indeed an apt name for the prophetic Book that foretells in mystic detail the exact happenings of this meeting of Relativity. That the howl of chaos is beginning is shown by the madness and mindless activities of youth, encouraged by adults who seek to make their commercial plunder, ruthless of the consequences on nation and man alike. The build up towards pleasure, drugs, sexual excitement, and sensual outlet, is being advanced by governments who allow such to entertain and destroy their manhood, and leave woman disillusioned at the falsity and destruction of it all.

*'Wise is the Soul who
has the Courage to go on'*

Ra-Men-Ra, 6th September, 1964

AS soon as a person has the courage to seek and face his inner self, and is prepared to see, and meet, the mistakes and evils, dire and low though they be, of what they had previously sown, then will they have made the first and most vital step towards the Road Home. Wise is the man who makes the first move, and commences to THINK for himself, and to reach out to the Spheres beyond this, so that he may make the expansion out of the bonds of selfhood and into the realms of free thought. Mercury is a momentous name, and swift and uncatchable as mercury is, so is its Divine messenger of Light.

To be prepared to be such a one, and to partake of the responsibility of the Powers to be entrusted to such a Messenger, needs Courage. It is not to be the brash, harsh, animal courage of a mindless man of war, but the strong silent inner fortitude of the Man that knows. For he who knows has no fear because, for the mass of man, fear is the direct result of ignorance and superstition.

All the thousands who believe in reincarnation, are of those who should now start this road. It is this beginning

that needs courage and the first step to achieve this, is to seek into the rich food of Occultism. As the first Awakening takes place, and some inner urge is prompting him to take that first adventurous step, so such new movement needs a helping hand. As a child, that long ago commenced the journey of the flesh, needed the steady hand of a mother to guide its footsteps, so now in this new Adventure, each new seeker starts as a Child and seeks to gain that strengthening and uplifting Hand of the Spirit.

every facet of wisdom to guide any safely through the woods and forests of self, for the Road is well marked by the pains and sufferings of the Mother that gave such Birth.

But seekers and pilgrims on this Road back to the Spirit, back to the Source of their beginnings, cannot be carried. No mother would respect her offspring who failed to grow up, and stand on its own two feet. This is what every seeker should now try to do. It is the Age of Self-Responsibility where all take hold of the Sword, and cut away the chains that bind, and yet, in illusion, seemed to be so inviting. This is the recognition which commences the fighter's journey and gives him the initial courage to take the first steps to discard those things that are holding the sensitivity of the Spirit to the flesh bondage of earth.

OCCULTISM needs courage and it is only the courageous and the wise who will seek to open the doors and gain their Freedom. The so-called myths, fairy tales and legends of ancient races, of princes meeting evil or dragons, but hide the mystic stories perpetuated by the philosophers of many ages, of souls who have also ventured along the Road. And in the Teachings and Lectures of Universal Philosophy there is abundant wealth for every race, creed, faith and belief, to help metamorphose the allegories of wisdom and knowledge. It is this Wisdom that has made the road safe for all who rigidly follow the rules it has set, Celibacy unto Androgynity.

But still it will only be the Brave of Heart, the fearless of mind, the rich of spirit, who will have the steadfastness and determination to take this Road. But then Rich indeed is the prize, and surely the Olympian Flame of eternal Mind, the Immortality of Androgynity, is worth at least an attempt and an effort to win.

So take Heart all you who have started this Road, and know assuredly that as tomorrow will dawn, so too will the day come when there will dawn that LIGHT OF MIND, and INNER PEACE.

'BE BRAVE, AND HAVE COURAGE, AND ALL WILL BE WELL.'

Universal Philosophy, the Voice of the Occult Gazette, is the LIGHT of the SECOND ADVENT, and every new seeker can soon find his strength and his Courage by seeking for the hand of the Mother that gave IT its birth. Dire were her pains not only before the Birth but throughout the whole arduous journey of facing the perils of the Journey back Home. That she has found the way is testified by the Word of the Spirit that dances on every page of her writings.

It is said that a child automatically knows its mother, whatever the circumstances. So too the seeking spirit "child" knows of the Mother that is to guide him or her out of the morass and weight of a watery grave. Readers constantly instinctively know this, and one only has to turn to the Readers Column in this issue to see her Wisdom acclaimed, and those who month after month have found that Hand that guides.

Justly has she been named the Mother of the Free, for those who have the courage to seek and delve into their hidden wealth as well as their hidden depths, WILL get free from the Star of Suffering. Universal Philosophy has

"EL"

Continued from
Front Page

"His whole being radiant with atomic life and light."

Surely this is what was promised unto him as a son of God, for we cannot under-estimate this wisdom, otherwise we belittle the Glory of the Heights, and man merely becomes a labourer in the tomb. The great Stream of Mighty Waters now coming to the Earth from the Scorpii Constellation, the Great Central Sun, to the Human Race upon Earth, is the God-force or Unseen power of life, as the Almighty Power of ELOHIM, when man can raise it up to that status. This to the Hebrew was known as the Almighty Shaddai and to Papalism, the Divine Eucharist. To the scientist, the Atomic Force of the Cosmic Rays, many times greater than the Helium force of the Solar Sun.

MAN

The Dynamic Healer

ELOHIM is creation, hence "EL" is the Almighty Power coming forth from the Great Unseen Centre of Being; and when raised up by the soul, becomes his dynamic force of administration.

Therefore, when it was seen at the tail end of a name such as *DaniEL*, *EzekiEL*, *ImmanuEL* and *BethEL*, it had been adopted by the soul as indicating one in whom divine Attributes had become concentrated. For all the twelve points of the Celestial Zodiac had become one collective point, ready for divine expression.

But when seen at the front of a name, such as *ELijah*, *ELi*, *ELimelech*, and *ELkanah*, priests of the Hebrews, is as one who was capable of being, and was preparing. Thus a potential prophet of God, a teacher of wisdom to help and guide the soul.

Now having seen this point of the great wealth in its past state of relationship as the Solar Deity, that of the Begotten Son, the Great Intelligencia of the planes, we must now see it, in its unfolding *STREAM*, as the Great Fatherhood, the Central Sun, now giving life to all. And when understood in the true gnostical understanding of LIFE, is quite clear and logical.

But now, as we see these heights, so must we also see the depths to fully understand the comparison. Man understands through the wisdom of Astrology, that the celestial sign of Taurus is as the labouring Bull plowing in the depths; with the polarity as Scorpio, the generative waters refuelling him.

This plowing ground is from heights to depths, and depths to heights, man's spinal column; and seen very propitiously by Ezekiel as his chariot of electrified wheels. That by which man can become born of his Godhead; his mind divinely lit up with light. This portrays the microcosm as the reflection of the Macrocosm, when those waters have been captured, and raised up as Spiritus Air.

Here is the relationship of Relativity, as vast as it may be (see the *Passage of the Equinoxes* on page 7). Yet ever since these states have been operating, the scientist as the materialist and so called man of facts, has been trying to relate Phenomenon with matter. Therefore, to bring their point of view, let us quote one or two facts from their scientific theories, and once again see the relationship between God and man. The Supreme Source as Life-giver, and the son manifesting the light in the depths.

We understand by their deductions, that every drop of water contains two parts of hydrogen for every one of

oxygen. He further states, that if you persuade two atoms of Hydrogen—which have a natural repugnance to each other—to come really close together, they will suddenly rush into each others arms, by so doing, liberating a lot of energy in the act. And it was by this knowledge they created the H bomb.

But, is this not what man is doing in his own natural energy creation when he par-

takes of the outer-space waters as Ether or Prakriti in his own phenomenal polarization, and it becomes his Scorpio seminal fluid, his source of regeneration, wrestling with Taurus. But the point is, who claims it? So if man can create such a dynamic feature of destruction by this power, what could man do, if he could only be that construction within himself.

These do not act in Science because they need neutron action to make a natural action. In man, if he puts the neutron action by activity of Spiritus air dancing up and down his spinal column, he could bring the sparking off in the pituitary to produce a hormone from the grey cells to bring into life of ancient wealth. This is the point that Samuel demanded of Jesse to produce the 8th son of goodly countenance.

For if these powers are surging through him as HIS phenomenal waters, and Taurus could capture them so that they become raised up as his Kundalini force (see the plate on page 7, col. 2), he could be the means of the Christos

THE FIERY WHEEL

AS the soul armours itself against the temptations of earth, it turns to the awakening glandular functions, the Chakra Wheels, that once whirling bring light and rebirth (see text page 5, col. 1).

THE SCORPIO CONSTELLATION

IN 1963 Astronomers began to receive Radio Waves from the centre of the Scorpio Constellation, which, as they gained strength was later photographed. As a result there was discovered a "gigantic Horseshoe" in the Northern Hemisphere of our Galaxy. This great Horseshoe of stars starts in the Milky Way and extends to the North Pole of the Galaxy, its centre of Power and influence being in the Scorpio Constellation. It is from this very centre that a vast source of Cosmic Rays is pouring down into the Earth. For a full account of its inception and the fact this was the result of the work of Gladys I. Spearman-Cook, readers should turn to the September Issue and read both of the front and back page articles. Free copies will be sent to all those who request them. In addition for those who wish to find greater understanding of the Scorpio Powers readers should turn to the May and June 1963 Gazettes, in which special articles on Scorpio appear. (Editor).

embodiment truly manifesting as a healer of dynamic power.

But not only as just a healer as man knows healing, but one who could cast out devils, raise those stoned, or what appeared as dead; those stricken with polio, paralysis, as well as spastics and those locked in the rigid salt rock of arthritis. But there is nothing he could not do if he allowed those waters to surge through him freely as a stream of life giving essence.

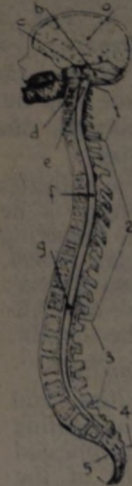

But to try and prove our point, let us go on with the scientists dilemma; for they have further stated of what they do not know, and that is, how to control a fierce hydrogen reaction, and keep it going economically on Earth to make electricity, so that it could feed the world with light. For one of the tools they lack is the electro-magnet that will be able to withstand the force that the Scorpio Waters, as the force from the Central Sun, is now sending down.

But here is where we come to a mighty truth; is this not what man can do within himself, when as the recipient of these waters, he raises them up to the magnetic depths, and brings them to an electro-magnetic force within his own soul being?

Is this not what Taurus and Scorpio are doing in their plowing up and down the spinal rod (see plate col. 5); thus bringing a dynamic force up to his pituitary gland; the wealth of his Third Eye?

Man was not intended to build up gigantic mechanical monsters with such power, for if so, Atlantis would only be repeating itself once again. These powers are intended for MAN, that he may manifest, the God-life or God-power as prophesied, and become, by his raised up electrified soul, a supreme central point for the All-Being.

The electrified mind as the

collective point for the Divine Attributes.

Thus Elijah becomes Daniel; the potential prophet as the high priest through his snake or naga power within his being becoming as the God-force of ELOhim, as DaniEL who "Dared."

Spiritus Vapour

YET again to build up our skeleton of Relationship, let us give the scientist his full hearing. While they were seeking into many weaknesses in their enquiries, a Dutch scientist*3 became aware that mercury, if frozen down to its lowest possible temperature, became the commodity that would serve their purpose. By this, its resistance to the electrical force disappeared, and therefore could be a conductor instead of a resistor.

Here surely is where we begin to see where the mind, in its completed state of acceptance on one status of recognition, is now ready to embrace the next. And man shedding old ideas and preparing himself to accept of new; for this is what takes place in initiation. Man being stripped and preparing his soul to be the recipient of the wisdom in the inflowing waters.

For as a man so thinks so he becomes attuned to a greater wave length of electrical force. Thus all being HERE and NOW.

Now our next point of deduction is, what is it that brought that mercury down to its lowest state of resistance in the acceptance? Why! liquid helium says the scientist.

But surely if in man the Cosmic Ray is reduced to seminal fluid, and, through the alchemical process enforced by the Solar Sun passing daily through the whole celestial attributes, it becomes as spiritus vapour—THE REBORN CLOUD OF THE MIND—man has performed the same feats within himself? Has shed past ideas and become reborn of new points of purpose?

Surely now we have laid down the facts which give the

"EL"

Continued from Page 3

genuine enquirer some real food for thought? For whether he perceives it as the great source of wealth as EL, the Almighty Shaddai, as the wealth of the Unseen God-force or life, or as the phenomenal Powers of Outer Space, he cannot deny he is the human crucible that has the power to raise this up through the mind purpose. Thus through his electrified soul, become the truly manifesting son of God; the IT which the scientist is trying to relate.

So now we have to understand from this, that we can now begin to perceive and relate of the mighty current now coming to Earth from the Scorpii Constellation. For as the Life-giving-Stream of Electrical Force from the Central Sun, it cannot help but be the Divine Godhead, the very Nucleoli of Being.

Therefore by this it indicates to man, that no longer is he going to receive the inflowing life force as just Solar Blood, but Divine Christos Blood; the Vital Principle of All-Being. Whereby he who:

"Dares to be a Dani-EL"

Can raise his faculties, and perform the miracles of healing and teaching as was prophesied in the New Testament of the Holy Scriptures. For there particularly in the 12th Chapter of Matthew, man is told of how his abundance is his god wealth. And although he may spill it before the "altar" as he seeks to do the plucking of his wisdom on the Sabbath—the 7th accumulation—he will not spill the seed, but only the fluid waters.

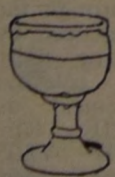

For as man has now reached the Supreme Heights of the Solar Year in fact and reality, must the dual force of Aquarius be united within his own being as the dual electrical force of the Scorpicic intercalary. That is, the polarisation between heights and depths in his own spinal rod; which would give unto him the divinity as promised, and which would make him in time a mind cell of the Divine Fatherhood.

In no way must this be seen from a religious angle, but as a gnostical interpretation of the Sophia; the Divine WORD. The Divine Seed sent forth in the Great Stream of waters, that, when as man's seed, is heated in the alchemical process of his generative qualities becomes the liberated energy of his seminal waters. This in turn as his spiritus vapour rising up as his mind cloud.

So let us begin our enquiry as to how from here.

The Three Polarities

WHAT is it that begins such a divine path, for now every soul has to become his own priest; for man has shunned religion and turned from his old method of prayer and adorational aspiration, to a complete state of anti-christhood. So no longer is there going to be a priesthood

government, but every man being a priest unto himself. Him drinking the cup to the bitter dregs in experience and trial and error.

Therefore since the old cross with the dead God is disposed of, the LAW has stepped in, and a live God of Divine Electrical Life is coming forth from the Divine Nucleus, the Central Sun, through man's own faculties. Whereby the Scorpio generative force must now be raised up to its divine status. Therefore the old cross

THE CHRISTOS CHILD

SIMPLICITY, trust, innocence, and above all Spirit, is portrayed in every touch of this plate. Here the soul in uttermost faith fought to build the Mind of the Child, so that the Divine Energy of Scorpio could enter into it and raise it up to the Heights of the Sun. Now the very divinity itself guards guides, and sends forth the True Force of the Seed and so LIFE enters into the Earth.

being cut down, and now as a live sword to cut away the old states. Now we come to the creator in matter—MAN. The plate on page 5, col. 1 indicates of how man is a magnet in the depths: for these poles represent his major polarities, after his contributive polarities have prepared his basic, that as a cumulative battery, he can manifest light. This is how man manifests God as "EL" in his electrical alchemicalization. But although this may sound to be a mechanical process of Nature; in reality, the finale is man's own prerogative. For he either sits in the field as a bull chewing the cud, or drives the plow and absorbs the Scorpio waters flowing freely in the oxygenated air.

By this it can be seen how man as a magnetic pole from North to South receives of the dual power of the two serpents in his magnetic rod, his spinal column, and which becomes his electrical force of rejuvenation.

But ere we leave this point of construction, let us enquire as to why this force now becomes dual in its approach into matter. It is the positive and negative attributes of the Divine Stream as Proton and Neutron being drawn in by the polarity poles of the Earth, that when taken by man imitates the same action. Therefore the positive and negative forces as heights and depths are now vying for the "egg" or seed n man himself. Here it becomes man's dual serpents as his combative potentials.

Is it going to be spiritus-air or sex delights?

This is where Aries the man receives his martian force, that by the aid of Venus, the Virgo mind, can bring forth of his divine blood, or manhood qualities. This as the polarity of Aries to Libra, is the law being raised up within man, ever renewing the divine

marriage within. These are also the two attributes of his suprarenals, (see the plate on page 9 of September 1964) the turbine engine of energy of will or desire.

Therefore these two forces become the alternating current of his spinal rod, after it has passed through the first of the alchemical process of thought idea in the broiling. From there it is driven up to the heights by will and purpose in the bull driving; yet fencing with the Draco serpent that the egg of new birth can become his prize. This is seen one way in the astrological chart, but reverse in man himself.

We do have to try and understand that man is in reflection, so is only the reflection of the true being; and at the present is building all in illusion. When he can turn round about and go the right way, it will be the way of the chart. That is, receiving from the positive vibration of the stream.*4

This is where once again we might refer to the scientist, that relativity can be made complete.*5

The Sushumna Channel

THEY state that man thinks of metals as excellent conductors of electricity, when in reality they are far from perfect, for you still have to FORCE current through them. Hence it is the brute force that is needed to push the current through the wire wound round the electro-magnetic.

*4 Through the Fall of mankind the procession of the Signs began, i.e. from Leo to Cancer and onward that way to Aquarius etc. But Man should go the Way of the Sun, from Aries to Leo, Libra and onwards. See also the World Chart on page 6 and the note on the Passage of the Equinoxes on page 7. (Editor).

*5 See the note on the Passage of the Equinoxes on page 7. (Editor).

Can anything explain more clearly of the Bull having to be driven, that the spermatozoa prize in the seminal waters can become mind energy. The two twisting currents of the afferent and efferent nerves as the Ida and Pingala mounting the spinal rod, with the mysterious force of the vital principle slowly climbing the central channel of the Sushumna.

Here is where the prana force as VOICE is rising into manifestation. But this is the preparatory channel as Salt, Mercury and Sulphur, that as the phosphorus becomes the magnesium flame of the mind.

Whether we seek to agree with this or not, it is the scientific alchemical process that takes place daily in man through the inflowing Scorpicic waters, which the scientist imitates in his mechanical creations, but never thinking that they could apply to himself. For after all, where could he have got the idea from? Nowhere else but through his own actions.

Therefore as this is portrayed through the dual qualities of Nature, so is it also portrayed through the dual potentials of man. His lower and higher qualities as tail and head. For in this revolution he holds the whole of the creative principles, having been born from all through the process of TIME. Hence his own alternating current, but also his own resistance in his "metal" or spinal rod. For as these two currents drive up this atomic wonder, does it, by its motion, become the atomic reactor, the holder of nuclear fusion.

While this is making its action, the glandular forces are now set into motion, and the adrenals as the generative turbine engine, have been driving by the interblending of the cortin in bloodstream action. These two are energy creators, but a bye-product from the force now in motion; thereby giving Mercury, the driving spiritus air, the substance it now requires.

This is where the serpent swallows its own tail, or even better still, that of perpetual motion (see plate on page 7, col. 1). These forces are not always channelled by channels, but often by the action of Osmosis in electrical alternating current of fusion. This is often where an organ is but an insulator to a fusion taking place; and if one of these are damaged by accident, disease, inertia or drug, this fusion is missing, and man ever slipping the notch. Thus wondering why he never becomes in his struggles.

This now, as we go along, is going to explain a little more of why man at the present moment is facing so much duality of mind perception. The bottom of the pot that has never been enquired into or dealt with. He ever being content with illusion and material sloth.

This is where we now come to the secondary poles of polarity. For all the time the bull, as will and purpose, has been driving, we find that Mercury has also been dancing back and forth; and as the 8th son of God, seeking to come into birth through the sensitising of the seven sensory channels, has the mind been building up as the approaching point of realisation, and seeking to break through onto the next octave of expression.

This is the helium losing its frozen state by having been slowly hopping back and forth in the unfolding heat. This is the great solar alchemicalization. But this is one of the great and royal mysteries of life. For this, in driving up the central channel of the spinal

rod, has not only been as the two serpents of action, but the mercurial force as the messenger of the gods carrying the divine Pleroma, or nucleus of new thought up to the brain. But the planet Mercury is seen as the Christos, the fallen Lucifer; the powers that entered man and only became his desire force. Thus is trailing around after the Sun to keep itself alive.

Therefore the solar force working through man to ever raise up the "dead" Christ within the soul. For Lucifer was the fire that descended to the depths and lost its footing.

THE SERPENT POWERS THAT 'BIT' ACHILLES' HEEL

These are the great mysteries that man misses, thus only sees himself as a creature of sleep, eat and drink. When he can perceive his own royalty in a divine way, he will then be ready to go forth.

The Herse "Spit"

SO now, perceiving of these serpents climbing up the vagrant nerves of the cerebro-spinal sensory system, we must behold them coming out of the tail, crossing over at the sacral vertebrae, climbing up to the top and crossing back at the cervical, having reinstated its polarities.

Now it seeks for the greatest prize of all, climbing up into the auditorium of the temple not made by hands. If it gets through the narrow passage of the "moving" rocks of the cervical, it will then pass through the auditory instruments of the hearing system, to climb up the 8th auditory nerves to the brain. There as the darting fusion mounts up in its right and left alternation, they make their last fight for the point in the arc sparking across the pituitary. (See the Cranial Nerve plate on page 13, col. 4).

As this strikes the point and makes a connection (see the plate of brain, page 13, col. 2), the pituitary is fired and strikes the Sahasrara, the pomegranate fruit of the 7th Chakra, the pineal gland. This causes it to raise its Phallus and shoot its hormone seed in the herse waters; which in turn flows down into the receptacle of the pituitary, who with its "spit" sends it forth into the bloodstream and nervine network.

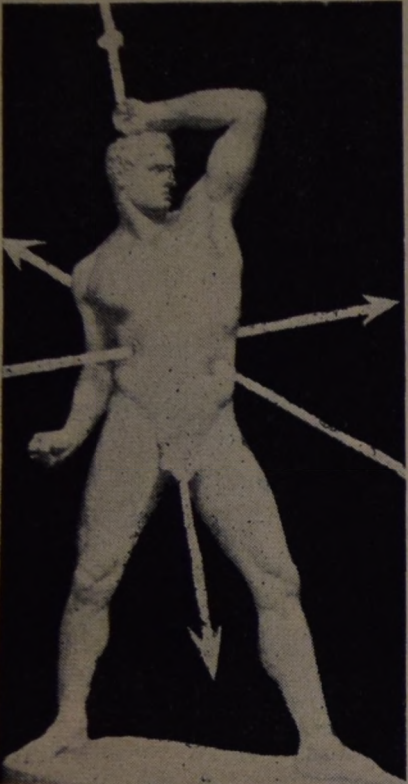

But during that process, as the pituitary is struck, the beam is changed, for the Scorpicic waters have delivered their secret spiritus message; and all becomes of an enlightened stream of new birth.

Though for the time not known very much to the soul, for the arcing in its alternation set the septum lucidum quivering causing the writing on the wall to be formed. This has to be sent down to the personality below, who will have to labour with it as new formed thought until awareness is fully completed.

This is how continual unity of marriage takes place in the soul, and where an ELi as priest is being made first ELi then DANIEL. A potential that becomes through the Scorpicic waters being conserved and bringing forth the ELECTRIFIED-mind of the soul. But since the time of Daniel times have moved; and then as they were establishing the Solar Sun, now there is the earthing of the Central Sun.

One was the FACE as the Son being Begotten as the Solar Deity and Intelligencia; the other is the SOURCE where THOUGHT was and is originated. So thought is now the new objective of the generative waters; but not thought as man knows thought, but the power of interpenetration.

Now the mysterious Osmosis, which is of great consistency in the body, must become a point of reality; whereby the soul learns of its secret and manipulates it as a bird does its wings in the air, and the fish its fins in the water. For this secret unity of interblending, is the mystery of the uniting electrical action of the soul reaching completion.

THE DIVINE TRINITY

THESE three Poles foretell the whole secret of Man's Destiny, the blending of the Stellar Forces (the vertical) with the Lunar powers (the horizontal) of Earth, to bring into birth the Solar Child, (the ecliptical)—Father, Mother and Son, or the Triune Eye of Supreme Awareness. This is the true meaning of the mystical crucifixion of the Jesus Christos, the complete fulfillment of the Descent of the Heights of the Godhead through the Stellar Powers, uniting in the Feminine Principle of earth in order to bring forth the Christos Child. Is this not the explanation of the three wise men seeking of the Star to guide them to the birth place of the Child?

But furthermore we have to realise the fact that all the twelve points of the "limbs" have been brought up to one point of expression, the pituitary gland. Therefore as thought and powers of concentration are gathered up, this glandular point of action, and every fibre of the soul, is centred here as the electrified glandular system sends all its energy up to this arcing point (see the plate on page 3, col. 2).

The soul has now raised his mind up as the lower martian force from the depths to the heights. "EL" is now his mind power, with the electrical force of the Central Sun pouring through his being as the raised up Scorpicic Waters. And now as the eagle is winging through the Solar beam into heights unknown.

Man the Dodecahedron

THE soul has now learnt the great secret of life, how to refuel and energise himself through his own fiery life. This is the divine elixir of mind energy coursing through the being; for the soul is not just polarised, but centralised by his polarisation being brought up to the heights, and him radiating at the corresponding

radiation of these higher and greater energies.

He is one in whom Divine Attributes are concentrated, for whereas his godhead was his lower genitals, his Godhead is divine purpose; and his mind is alight and electrically charged with wisdom, purpose, will and HEART intent.

He has brought his mind acceptance up to the very heights of divine purpose. GOD as the Supreme Point of Divine Goodness is now his SELF-less intent, for Saturn no longer holds him in the captivity of his seven rings of self and self intent. He found that by raising the whole of his being up from mere grovelling in life to the heights of mind freedom, that in being so electrically charged by his self-conserved waters, he is able to concentrate his mind to a higher purpose of service.

His enquiry into past wisdom, and what was once performed by his ancestors, is now firing his blood. For he perceives the possibilities that are with him as his divine heritage in his glandular secretion. And he also knows that they, whether ductless or otherwise, are the concentrated essence of what he has been, and can be. All this is made known to him by his raised up vibratory polarisation, now concentrated in one point of action. His intent and heart purpose is God-born, so all now can be used in self-less sacrifice to the Divine, with whom he is now in at-one-ment with (see plate on page 4, col. 2).

For in raising his own god-head step by step, which all divinely born souls achieve, he now has the divine Presence in his own midst, by and through his raised up polarisation. This brings him to the same fusion, as that which the scientist has been seeking to obtain: the highest point of atomic energy creation.

Man electrically charged to such a degree, as to create his own mind light and energy fusion.

But also so highly charged, that by his God-born purpose he now can be the means of being a medium between God and man, while man is lost and so mentally sick in the density of matter.

Here is where the Pool of Siloam comes into its own. He now as the twelve points, raised up to a polarised purpose, becomes a dodecahedron (see plate on page 7). A shining star or diamond in twelve facets, polished and shining, in divine perfection; that can by its air-born mind, fuse and blend minds that have become sick and scattered. Souls lost and separated by multiplicity, that priest and scientist have engendered into the maelstrom of life; whereby the mundane soul has sapped and "died."

This is Atlantis repeating itself once again, but in greater dilemma; for no longer are the higher realms returning to refresh the maelstrom through their God-born purpose and ideals, but man highly fused with the lowest sexual desires.

The great question now is, what is going to take place as the higher Waters of Scorpio fuse the soul and oxygenate the phenomenon? Why, what it has already started to do; raise the minds of man through him automatically breathing in the prototype now set into operation by one perceiving the greater purpose of the Scorpicic infusion.

Once such is placed into word and deed, it goes forth onto the maelstromic waters, and the avidya or ignorance is dispersed as vibrations of that lower degree.

For all is HERE and NOW.

As you so think are you attuned unto.

If you think in the lowest, you grovel with the beasts; but if you think on the highest, you live in Paradise with the gods, and bow your knee at the Portals of the Divine Academy.

So when man conserves his waters and vibrates with the divine side of Scorpio, the horseshoe strikes the rock, and the divine waters gush forth.

But at the present man is only responding to the lowest degree of Scorpicic expression; hence instead of the majority being fused by the greater vibrations, discontent, war-like tendencies, greed and cunning are coming forth. But that was expected; and for some little while man will empty out into the sea of matter the whole of his southern-born waters.

This has been predicted by the Higher Powers, and for a time man will hover in despair. Then in his own right, as a god-born creature, awaken and turn to the divine Fatherhood that gave him life.

Then through his own inborn motherhood—his vibronic life of generation—begin to find new life and purpose by climbing up the Brahmic thread, that he, by his lower desires allowed to become severed.

THE QUEEN OF THE SERPENTS

IN the depths of the serpent powers lies untold wealth, and no man is denied the opportunity to use his creative fires to bring forth his inner spiritual body. Here is seen Solomon's Wealth as he united his seed into Mind and the upraised Kundalini energy showered Dynamic Powers out onto the World. Here is the Queen of the South, Sheba, handing to her Lord, her Life-force to use for the birth of the Divine Son.

Hooking the Leviathan

WHETHER man accepts it or not, he is born from the phenomenon of the heights; and also whether he accepts it or not, heights that are alive with life and Mind intensity. For what man perceives as mind is but illusion, and once he becomes infused and vibrated by the Word and Prana of these higher Minds, he KNOWS, BECOMES and LIVES.

The majority of returning souls are highly mixed and

confused; therefore in seeking to break down of the old regime, they are highly rebellious, sophisticated and ultra-modern. Hence any form of spiritualistic or mythological science is cast asunder in the theory of it being either dangerous or religious.

Yet every man, again whether he likes it or not, are held by the twelve points of destiny. These he has created entirely of his own accord, and will have to abide and tread the road according to the foot-prints he has set out in this life's prototype.

But what he does not know is of the untold wealth that lies within those depths from his early, simple and unsophisticated growth. Lives where he trod the grapes to raise himself up from his primitive serfdom, and in a number of cases, raised up magical wealth from the tribal and religious functions of the times. But this is the least of the secrets that this mystery of life holds for man.

Man was not just born with the human element; this is but one of the many phases of life that he has passed through. Man still holds deep down in his spinal tail, glandular fluid that holds the mystery of Atlantis. For round the sacral vertebrae, where the Kundalini Fire crosses its poles, are minute glands to which the scientist has never given a

leviathan that the Lord called upon Job to draw forth by a hook, a little at a time. (Job 41 v. 1). Here is the full extent of man's magnetic rod. Here is where man can raise up the magician's issue, that the Scorpicic vibrations, in their negative degree, can bring forth. Here lies the polarity to his divine possibility in the heights; for here in this depth is his Atlantis heritage, as dynamically atomic as any nuclear Pile.

When this can be brought forth and fused with the Divine Heights, whereby Relativity produces the mind-born soul, will man come into his divine true heritage as the son of MAN.

The whole of the Scriptures tells the story of man as the genus growth, spiritual inbirth, and mind expansion unto the Christ fulfillment; therefore the whole of its under-current of hidden wisdom can tell the scientist all he wants to know, and give the physician all the answers to man's psychological and pathological difficulties.

While the wisdom of Alchemy and Astronomy, as the divine guidance for man's present unfoldment, is there in abundance if man only knew how to extricate the wisdom from the multiplicity imposed on it through continual revision. For it is from this Testament that the divinely inspired soul, learns of his own divine heritage.

As much as the Theologian denies it, Alchemy and Astronomy are the basic of its wisdom, and every Book gives another aspect to the soul growth. It is the witness that was promised, otherwise man would be completely lost; and if this can be seen in its true light, and not through the dogma prostitution that has been applied to it, man would find all that was necessary to unravel his difficulties. Its orthodox mystery is nothing more than its tangled state of confusion set into operation by Papalism cloaking and banning it to the masses.

The Serpent Queen

NOTHING could be more clear and helpful to the soul, sensitised by initiation, regarding the Scorpio rebirth; for when Solomon struggled to carry on his father's government and spiritual unfoldment and brought forth of Hiram, did not the queen of Sheba come up from the South. (Matt. 12 v. 42). (See the plate on this page, cols. 3 and 4).

The serpent queen that came from the uttermost parts of the earth; his ancient depths as the Kundalini fire born from the Matriarchate Period. And in rising up and interblending with his fatherhood, behold a greater than Solomon was come forth. For he had established the Christos foundation in the form of an inner spiritual body.

But unfortunately the powers that he brought down at the time could not be absorbed by the masses; and it caused not only Solomon as the man to topple over, but the whole of the Nation for a period of time, to wallow in a blood bath. Is that not what is taking place today as the great Powers of the Scorpii Cosmic Rays descend? The uprooting and the cleansing that must take place for man to find expansion.

*8 The word Patala is Sanskrit and is the name given to the secret and hidden mysterious 8th chakra. It is situated in the region of the prostate gland in the depths of man's tail, the cauda equina, which the plate on page 3 shows. (Editor).

Ra-Men-Ra's Astrology Lectures

GEMINI

Part 1

The Hierarchical Power of Reasoning and Synthesis

Ra-Men-Ra is a name of the Voice of the Teachers that speak through Mrs. Gladys I. Spearman-Cook. The Egyptian name Ra was a symbol of their Sun God or Central Spiritual Energies. Thus the name indicates Those who have involved from the Spirit, lived in and mastered Matter and returned to the Source from whence they came—a journey open to all. Thus Ra-Men-Ra is the Voice of the Masters. (Editor).

WE begin our search into that of the constellation of Gemini, the Hierarchical Power of Reasoning and Synthesis. Gemini is the force which produces the change needed for the evolution of the Christ-consciousness at any particular point, in time and space, and is always compatible to the requirement. In the involvement, Gemini, Taurus and Aries were the three subject energies, or the three conditioning signs which lie behind the manifestation. Gemini, Taurus and Aries,—Mars, Venus and Mercury,—are the three vagrants, the three miscreants that are seeking to become the three Mystics; the three wise men or the three strangers that are going to be the three kings. And that is what you are seeking to do,—bring up to the higher through the very signs. They lie behind the form, taking experience in Cancer, when the water or emotions gave birth to life; and then also behind the manifestation in Pisces, where all is inborn in the crystallisation.

The Wheel of Becoming

AS we look into Taurus-A Gemini, you must perceive that of their cause; initiating nature; the struggle to produce THEIR Desire and subdue your egoism. This is that of the two pillars of Hercules, the Jachin and Boaz, whereby the Christ life, as the unfoldment in the man, as world saviour, is coming forth.

It is through the soul that the Christ Light is coming into birth. All must pass through Aries; then into Taurus where all is turned into desire; then it comes to the mind where it is given mind-birth.

Everything is wheeling around this Wheel around you (see the World Chart in col. 3); all is being re-shaped, no matter what you take in; and whatever you may have upon the cusp is only a colouring; but these houses remain always as the basic foundation. All comes into the third house of the mind. These are the 'gates'; the Hierarchical Porch. Then all is put into the 'waters,' Cancer, where it passes from the mundane, the earthy, into the emotional states,—to come forth in the Mother Virgo,—the great Mother who is going to hand up to the Scales, Libra, the child she has produced.

Now this is always in layers, and whatever comes forth then,—if it can go up into Libra,—is going to ascend; but if it has never been able to reach over the barrier, then it will go straight across, back again to Aries; and it is only ever going to wheel in the lower part of the chart, always wheeling below your waist, because it is only in the desire portion of the body. But if you can bring all into birth through the Virgo-rebirth of mind, then it will go up into Libra where it must be weighed in the balance, pass through the sarcophagus of Scorpio, to be received by Capricorn.

And in being received by

Capricorn, it goes up to the heights,—Mount Sinai—there to pass over the Mystics' Ark, the Mysterious Ark, where it is going to enter into your tabernacle; and in Pisces it is going to become dissolved into the very heart-strings of your being: it becomes your child, your degree of Son-ship, your God-ship, and then passes over into the 1st house as the Aries-born, the new man, the new state of receiving. And I am referring to everything that comes into your mind.

What comes into your mind as a new idea, is going to enter into Aries; but as to whether it is going to pass through Taurus, is up to you. It is all according to what your desires are, and what your intent is. If you are an earnest soul seeking to learn, it will go through and then become the wrestling argument of the mind; enter into the form that you are going to give it,—that state within yourself of emotional form;—and if it can pass through Leo, then it is going to clear the karma, or give you a little more.

If you can get it past the karma, then what you re-form goes forth into Virgo, the house of the solar plexus, the very labouring, the very servant of the spirit; and there the real labouring begins. It may remain there and stay in the granary for a long time and become mildew; and that happens with quite a lot of you.

Every soul is bringing forth their own world saviour; what they give to the world. Some are geniuses, some are even evil.

The Pairs of Opposites

THE constellation of Gemini, and its ray influence, controls every one of the pairs of opposites in the Great Wheel, influencing the other two constellations, and thus forms with them the triangles of Completion; and that of Gemini would be the three air

signs of Gemini-Libra-Aquarius.

It is these three signs that are ever in a state of magnetic vibration or alternation. You will find that which comes into Aries is ever in polarity with Libra, uniting fire with air. Then it passes down into Taurus, and there you find desire and fire-energy are always in a state of vibration. Then it comes down to the mind, practicability; and that of the winging of the mind in Sagittarius goes on. These are three that are ever working,—because they are man's mundane state,—and then he can swing it round up to Virgo, into the Libra, and be caught up by the Libra that has been working very hard, if there is a mind-state going on.

You are reading at the present moment with your Gemini and your Sagittarius opposites struggling to understand; so you are setting up a vibration within yourself, a singing state, which brings within you a radiation.

Man only becomes a radiation of power through the mind. When the mind refuses to think,—refuses to try and wing,—then there is inertia; there is no bringing forth of the seed. You must endeavour to bring forth new life, new understanding, new thought; otherwise you are everlastingly wheeling round in a rut.

Gemini is called the constellation of the resolution of duality into a fluid synthesis: governing all the pairs of opposites, it preserves the magnetic interplay between them, keeping them fluid in their relations, in order to facilitate their transmutation into unity, so that they do not become 'solid' and immovable; for these two must finally become the One. Let us try and see this a little more clearly. The twelve opposites must become the blended six, and is brought about by the fusion in consciousness of the polar opposites.

These opposites eternally remain from the point of view of human reason, but to the initiating one who is seeking that of the Eternal Point, and whose intuition is functioning,

CASTOR AND POLLUX

HAND in Hand descend the Power of Mind, Man, as in duality they bring life, decision, action and stimulus. Gemini, the Twins, is the sign of mind in its logical activity, and as man ceaselessly observes and deducts, listens and obeys, watches and prays, so does he rise to assume the garment of divine Mercury, the Messenger of the Gods, the Stars of the Heavens.

they constitute that of the six great potencies, because he has achieved the freedom of the two. And yet in that of divine Gnosis, these two are the reflection of HIM-HER, awaiting manifestation in the son. But can never become unless all are synthesised into the form of HIM to come in the Son.

Thus Gemini is the most important of the whole twelve signs, as its influence lies behind every one of them.

Upon this Cross as the cosmic Cross, the triangle of the cosmic Christ is formed, and is the ever eternal triangle to be found behind the four-fold phenomenal appearance. Upon this golden triangle of coming light, the cosmic Christ appeared. That of the Air forming the mind, as Gemini in reasoning found balance in Libra, in which the marriage produced more clearly the man Aquarius. But his head is in Gemini, with one foot upon the field in the Seven Fathers and the other planted in the field of the Seven Mothers. Thus for aeons, the Great One stood, His consciousness returned, aware of three, but not of four. Then intent with suddenness, He heard a sound go forth as the synthesis became

plausible.

Arousing to that cry, He stretched Himself in becoming of, and reached forth both arms in understanding love of those in the crucible of melting, and lo, the Cross was formed. He heard the cry of the Mother-Virgo, of the Seeker-Sagittarius, and of the submerged Fish-Pisces. Then, lo, the Cross of change appeared, through the emergence, though Gemini remained the head; Him-Her and the Son. This is the Mystery of the Sphinx. So see this triangle of Gemini-Libra-Aquarius as the most peculiar way to the Great Bear, to the Pleiades, and to Sirius.

The relation is essentially the sixfold in the resolution of the pairs of opposites, involving these three constellations in the three ideas of opposition; equilibrium, synthesis or universal fusion. In these three, in the fusion, the soul unconsciously is building up the great triangle of Gemini-Libra-Aquarius, the air signs, as the way to the Great Bear influence to the Pleiades, and Sirius of the great Logoi, the great Powers of the Heavens. So it is through the mind that these two are synthesised; but remember, they are only the base; they are mundane man.

Esoteric Astrology

124 lectures on the 12 signs of the Zodiac

EXTRACTS from this Magnificent Series of Lectures are regularly being reprinted in this column and any reader seriously taking up the study of the Esoteric Wealth of Astrological Teaching and Delineation should take and study the whole Set. None can surpass either their wisdom or profundity.

HERE is shown the World chart with the Cardinal Cross as the central cross, Aries, Cancer, Libra and Capricorn. It is the understanding of this ancient Wisdom and the acceptance that the Signs represent differing Cosmic Forces that can blend and flow through man that will enable all Mankind to seek of these Great Beings and honour the Divine energies from them.

See Gemini as forming a point of entrance for cosmic energy from Sirius; and Libra as transmitting the potencies of the Pleiades, and Aquarius as expressing the universal consciousness of the Great Bear.

The Quadruplicities

NOW try and see it again from another point of orientation. The Mutable Cross brings about those conditions which will produce great periods of change in the life of the planet Earth; of a kingdom in nature; or of a human being, with Mercury playing a part in this.

Then you get the Fixed Cross, which in the evolving becomes Leo; in man karma, yet Karma of all,—and brings about, as a sequence to these inner changes, certain great points of crises which present definite opportunity. Saturn is dominant in bringing this about. The Cardinal point in Capricorn ascending, and is responsible for bringing about synthesis in solve and coagula, the consequence of change and crises. Jupiter is responsible for the focussing energies at this point.

Gemini controls the heart of the solar system, the pulsation of life which sustains all that is. See Cancer as connected with the physical Sun in that it is the intelligent activity of the Whole; but Gemini as the heart of the Sun, in the love of the Whole; while Aquarius is that of the central spiritual Sun, in the will of the Whole.

Here you have the triangle of cosmic nature, the energies focussed through the three aspects of the Sun. Through these signs the three major aspects of divinity are focussed. In Cancer you have the intelligent synthetic consciousness of the mass, viewing it from the consciousness of matter itself, and the awareness of all forms and atoms that are to be. In Gemini you have emerging recognition of duality, leading to experience and growth in all separate intelligent forms in separation of deduction. In Aquarius you have the results of the activity of Cancer and Gemini producing a higher synthesis and a universal group awareness, and is of the long path of evolution.

Attraction and repulsion being the conditioning factor

Passage of the Equinoxes

IN order to understand the movement of the great Aeons of Time the passing of Ages has always been calculated according to the Stars. Each year the exact point of the Sun crossing the celestial equator is observed to move backwards in its circular movement some 50 seconds the Precession of the Equinoxes (60 seconds each minute: 60 minutes each degree: 360 degrees a circle). Thus it is calculated it takes approximately 2,160 years to move through 30 degrees which equals an Age or the passing through of an Equinox. The Celestial circle is divided into 12 great Constellations the 12 Zodiac Signs, and subdivided into 36 lesser Constellations, each of ten degrees, a decan.

It is in the terminology of these constellations that great passages of Time are referred, and during the passing through of them their influence is shed on mankind. It is

through them that Mystic teach of the influences and events that man will experience in the future, the Bible being full of references to these past Ages.

The chart helps to show how in entering each new Age, the polarity or opposite Age influences, and what happened in those days, must necessarily be felt. It is having the wisdom to know how to manipulate these awakening roots of those ancient days that is so vital to the initiate.

This is the Cycle of Relativity referred to on page 3, col. 1 and page 5, col. 5, which mankind is not only meeting collectively, but each individual must now face his own ancient state.

in the solar life of the soul, this conditioning reaches man through Gemini, and the effect of a cosmic energy, at present unknown to humanity. The waxing and the waning life, which is even unto the daily birth and death and re-birth, rise and fall of civilisations, and the growth and unfoldment of

all cyclic manifestations, are produced by the interplay between the two brothers; the pulsating power of Gemini; the mundane practical mind. (See the plate on page 6)

In that far-off time, that of the bisexual beginning, when the great round was in Gemini,—as it was in Pisces and now in Aquarius,—the Moon in its waxing and waning was the great pulsating power. Now all is lessened, owing to the gradual removal of the responsive life from Moon to Solar; but the rhythm then set, remains, producing the same basic illusion (see above the Passage of the Equinoxes).

Thus you must now perceive Gemini as relating to the etheric body, as the custodian of conditioning energy, and the intermediary, as far as basic essentials are concerned, between soul and body; these are the allied brothers. This is a very important point to be investigated for the initiating soul to realise how easy it is going to be to set disorder and floundering of bodies into action; as this is the chaos of mind, unsteady state of speech, lack of co-ordination, cause of accidents, lying and sudden outbursts of passion, which leaves a soul bereft, and further sliding down the scale.

The etheric vehicle is the transmitter of psychic energy, galvanising and co-ordinating the dense physical body, permitting astral and mental control of personality; that of the very life radiation of the average soul. But in the soul treading the path of discipleship and leading to initiation, the etheric body becomes the transmitter of soul energy—and not personality force, as the man in the street,—and begins the path of difference, referred to so often by those who once knew you.

The soul-energy is that of Love-Wisdom—in its early stages—working through the

six rays of the Solar life, beginning to steadily dominate the vital body and producing that of force and intensity to the centres above the diaphragm, of which the thoracic duct is one of the great generating stations for the whole of the lymphatic tracts. Therefore the power of the personality lessens and wanes, whilst the soul waxes and grows in this dual activity, higher and lower, of the etheric body. And to understand this further, the study upon the lymphatics should be revised.

The lectures on the lymphatics will give you all the understanding you want; how the osmosis takes place from the lymphatics and the blood-stream; and the lymphatics extract from the blood-stream their waste, and at the same time the blood-stream extracts from the lymphatics that which they have to give. It is one of the great wonders of the human body (see the lecture dated 29th July 1956). In this the disciple can come to some intelligent grasp of what is called the consciousness, mechanism and life processes which enable man to become what he is destined to be.

Gemini rules the thymus gland, which is inactive at present in most adult souls owing to the fact that the heart centre is unawakened in the majority. It will become active when the immortal brother floods the mortal brother with the light and life of God. This can only be done when the soul stops wasting their energies in desires,—Taurus, Venus,—thus stopping the unity in the thoracic duct via waste and catarrh. This results in bronchitis, consumption and asthma. Venus, Mars and Mercury.

“EL”

Concluded from Page 5

Therefore when man can decipher this great Testament of the Sophia, or Divine Word, will he imbibe, not only the OIL from its depths, but the nuclear fusion that the phenomenal waters are ever bringing down from the great heights of outer-space; for the two are synonymous. They being the key to what is taking place once again; the repeat of the cycles.

Therefore when the soul can raise himself up to equivalent of its inner vibration, through the Word expanding the mind, will he as a soul creation born from its divine Pleroma, become air-born in electromagnetic fusion. Therefore, capable of uniting with those higher realms through HERE and NOW. And was exactly what Paul meant, when in 2 Cor. 12 v. 2-4 he said, that

“He was caught up into paradise and heard unspeakable words.”

Is that not what all men are seeking, an air-born mind, winging on unlimited inspiration?

What man has to realise, and which would help many considerably, that as the Scorpii Embodiment has come down as the Second Advent, did the Christos Embodiment sweep through the Desire Body of the Earth. But man neither then nor now have any idea of what their message contained. So what orthodoxy installed 365 years later was their own pre-conceived theory. This time the Powers used a channel, and channelled the wisdom out onto the maelstrom to avoid the same mistake as A.D.33.

This treatise has taken a wide sweep from Earth to the Divine Central Sun; therefore from depths to Heights, from Scorpio to Scorpii, and even from Scorpion to Winged

THE MESSAGE OF AQUARIUS

AS Ezekiel's vision testifies, the only way man can achieve the mastery of the Earth, the Beast, is by the conquest of the Fixed cross, the Powers of Taurus the bull, Scorpio the Eagle, Leo the lion and Aquarius the MAN. It will be then that he will release from bondage Womanhood, Matter, and she can be the true vehicle for the transmission of the Energy from the 12 Constellations of the Zodiac into the magnetic lunar force, and give it rebirth as unto the Christos Child (see text page 4, col. 4 and page 5, col. 2).

Eagle. In nowise is it meant to be religious nor scientific, but the possibilities that are awaiting the soul who awakens out of the fusion that the Atomic wealth of Scorpio is driving into the maelstrom at the present moment. When he does, he will not find it by antichrist methods, but by a wide and deep investigation into every department of life. But most of all, into the mysteries.

Granted religion as it is, is no good to God, man or criminal,

for its lacking in expansion is killing all and sundry.

Only by a Universal Philosophic investigation will he find the way, for as the soul awakens through such efforts, will he become fused to the heights, by his atom, or original Norm Centre, bursting open through the fusion that is being sent forth to all who STRUGGLE THROUGH MIND EFFORT.

OPENING THE DOOR

by George Evans Williamson

In their search for spiritual healing for Mrs. Williamson's injuries the Author tells how they received great help and comfort. His wife developed her own considerable psychic gifts and so was able to aid others. A delightful and sincerely written book of the wonderful experiences of these two fine believers, and a study of "Whence do we come"; "Why are we here"; and "Whither are we going"?

18/- net. By post 19/6. U.S.A., Canada \$3.00.

A DISCIPLE OF TIME by E. Hambly

In this brilliant short work, the author sets the story in the early christian era in ancient Rome. Man's eternal search for the truth within himself and the realisation of God and the purpose of His incarnation are here explained.

7/6 net. By post 8/-. U.S.A., Canada, \$1.50.

THE ANGELS by Somacar

Inspiring, yet simple and straightforward messages, are brought to you from Somacar and His White Brotherhood. These vital words come through the wonderful mediumship of Elsie Firth. This important book must be read and studied by all who would advance and become fine and honourable and so obtain peace.

15/- net. By post 16/-. U.S.A., Canada, \$2.50.

Reminiscences

AGGING THE MYSTERY OF ALCHEMICALISATION

THE IDEA OF THESE LITTLE discussions is to help our friends abroad who are not very familiar with Occult terminology, but also at the same time answering the letters of one or two, who recently have been making enquiry in this direction. The wisdom of Agging,*7 or the alchemicalisation that takes place within the soul through the solar influence, when understood just a little, does help the soul to go on and get past a certain part of their growth, that may for the time be rather difficult. What I am seeking to explain now is very important, especially through the re-birth of power that is taking place at the present moment. For I found while I was passing through my own initiations, how important it was to have the confidence to drive on whatever the circumstances, and wait patiently for the turn in the road. It does come; for alchemicalisation is going on all the time; and when you can direct the solar fluid the right way, it slowly makes its way towards the goal you are seeking. Although not always exactly as you would like it. **But do remember, unfortunately man counts by lives, destiny counts by continuity.**

So you may only be preparing in a life that you can come back and really start your work. Therefore the most important thing of all is, whatever your circumstances, strive to drive yourself as much as possible. The situation may be difficult, but square your shoulders, look upwards and plod on.

Through Ages of being chained to matter, we are so lost to our real identity, whether unto the beginning, or lives along the road, that we have no idea of what we must do to get back to our state of origin. And most souls, who have any form of thinking capacity at all, have come from some higher plane, and lost their way for the time.

Round of Change

JUST to help those who may not know what agging means, let us go a little into details. Within every soul, whether good, bad or indifferent, the solar life, as phenomenal power, is working alchemically, and by law, is working to a fulfillment.

When no wisdom or purpose is with the soul, this alchemicalisation has no purpose to move forward to, and merely fulfills a round of change. But when there is purpose and intent, it becomes of that degree, and all moves into change coloured by that belief. Therefore the soul in its change is not naked, but full of purpose.

So if the soul is full of fear, all alchemicalisation moves more and more into states of fear and defeat; but even if so, if you have the courage to fight on, things are bound to change; and furthermore, either into what you are seeking, or, you hoped would never destroy you, will be overcome.

And although man may have discarded orthodoxy, he need not destroy prayer, for I have found this most invaluable. And this is not just a state of self-hypnosis, but Powers who do hear and answer our difficulties. Not necessarily take them away, but guide and lead us through our dilemmas.

This all links with the great mystery of the Christos as Solar Blood descending down into the Desire Body of the world. The theory that the Blood of Christ came to save the World that some religions believe in, but only seen in the light of a human God, is the Divine Omnipotent Power coming down from the Scorpii Constellation*8 in the galaxy

*7 Read "The Solar Inbirth" article in August 1964 issue.

*8 See Note on page 3, cols. 4 and 5.

of the Central Sun, to feed and save all men; but only when they learn how to utilise it properly when they receive it.

But to those who want to see it in a more scientific way, then understand these powers as Atomic Protons of the Masculine Principle, that of the Fatherhood, coming from the Divine Source.

This, when received by the soul, becomes their generative force which has to be activated into action by the feminine principle within the soul; and would be the prima materia or neutron activity that frictions the proton into electronic vibration of mind expansion. But if the soul is sick or down at heel, then the solar rays that pass across the heavens, whether shining or otherwise, in pouring down upon the earth, will fructify everything into movement. So if it moves nature it moves man into life; but only through the state of alchemicalisation; a natural state of mechanical action.

Therefore, if you are at a loss, yet feel the urge to go on, then for the time just leave all to the natural agging movement of the Solar fire. This may account for why so many just lay about in the Sun, stating that it fills them with life. Yes! that is alright if they use it in mind activity, but not if they merely store it up and allow it to run to the excess of desire; which it can do.

One can actually draw in of the Solar Rays without going out into the sunlight; for all light is solar light, but of very little use unless used for mind creation. This may sound odd, but it is true, for that is its ultimate destiny, the fourth dimension. After all, it hasn't stopped disease out in such places as Africa and India where they have plenty of sunshine, but not much mind progress.

It is the Power from the Central Sun that really counts, the Solar Sun is but the reflection.

The Mind Creation

BUT let us return to the solar ray is noted for, and for the purpose of raising the energies that the mind creation can expand. For by moving the fiery proton into action, it forces the soul into change; hence the Christos Blood that saves the world.

But here is where we once again can point out the value of herbs to help the soul in the changes; especially when you know that they are under the control of the planetary influences, and can help and

aid you where that influence is at discord.

These alone as fluid could be the means of leading the "CAMEL TRAIN" across the desert of rebirth. This is the occult reference to the agging process that takes place in every corner of the body. Through this, every gland, tissue, nerve and fibre are given new life. (See the plate on page 13 Aug. 1964 issue).

But of course, all depends upon how ill or diseased the soul is. By the time the agging has reached very far, the mind may be working with negative thoughts and ideas; then the solar fire is dimmed and quite possibly lost deep down in the dark recesses of the soul. For this is the spirit being moved into soul inter-penetration.

Nobody portrayed this better than Dante; and although religion tried to bar it, it really is depicting, by picture form, what certain states take on in their formation of growth. As much as it may not be accepted by some, this alone shows the importance of prayer as a direction of mind, for by this, in time, you could find such things as strength and courage, as well as a deeper understanding breaking through.

But in the mean time, send out your prayers, and send them up as high as possible; for vibration is something that even the scientist and the medical profession do not understand properly; although they may think they do. After all, the primitive drew down the elements through adoration and prayer to their gods and the heights; so there must be something in it.

As far as I am concerned, I am fully confident; and what is more I have proved it. The only thing is, when you call upon those powers, do not play with them, but follow their direction. All this is proved by the fact that man is born and sustained from the breath of life, the phenomenal powers of the Universe. **SO SURELY IF HE IS BORN FROM THOSE HEIGHTS, THEY WILL LEAD AND GUIDE HIM IF HE TURNS TO THEM FOR HELP.**

But here lies the great secret of prayer, and links with the deeper mystery of HERE and NOW, which I will discuss next month. By man raising his mind up to their rate of vibration through his mind belief, he raises himself out of the depths of darkness, that quite possibly is the means of his sickness. This is where the understanding and accepting of one's growth and failings are important. For by this you can

The Mind Development Class

To remind our old readers and to inform our new ones, each week on Saturday at 6.30 p.m. (5.30 p.m. G.M.T.) as announced in the June Issue 1964, all readers can join and link with Mrs. Gladys I. Spearman-Cook's private mind development group at the School of Universal Philosophy and Healing. A special subject is concentrated upon for about 40 minutes and then each sitter is helped to interpret their messages, or findings. If any reader wishes to join, please write to the Editor so that his or her name may be entered in the book and placed in the middle of the circle. The subjects for concentration for October and November:

Hope	Oct. 3rd	Peace	Nov. 7th
Ego	Oct. 10th	Diet	Nov. 14th
Faith	Oct. 17th	Spine	Nov. 21st
Difference between ABRAM & ABRAHAM	Oct. 24th	What are the Moabites?	Nov. 28th
Pituitary	Oct. 31st		

be driven along with a mental and conscious purpose of change.

Even diabolical states of evil and oppression I have found to have altered themselves by my holding on and driving, and leaving all in the hand of those superior to myself. By this, the powers are directed into place by the Law of Attraction; then you can go the way that you are seeking and earnestly desiring. This is not a religious dissertation, but actual facts which I have experienced the hard way.

So if they can help me, surely they can help you. And furthermore, help you to look up and believe upon those greater Powers that are more REAL than man himself.

The Power of Rejuvenation

ALCHEMICALISATION is a natural function of change that goes on all during the day but at night the soul, in going out of its body, goes up to divers planes to receive rejuvenation and advice.

Some do not believe this, but it is quite true. It is in these planes of night sojourn that the soul receives more evidence of truth than anywhere else. For once it returns, although it often feels better to direct

the alchemicalisation the next day, it still returns into its old states of conventionalism and worldly ideas.

For to change man is a very slow process; and this is where such knowledge as that placed into the OCCULT GAZETTE, assists a soul to understand and direct its thought anew. But do not doubt that man learns much in his sleep state; and this is where it is said the refreshing balm of sleep works wonders.

Yet there are those who come back after sleep and are most bad tempered. It is very obvious they are being told of something they must do, and in not wanting to do it, find themselves in a very discordant state. But even where they are concerned, all comes to a climax, and the inevitable arrives, with the soul sadly moaning its lot. These are our bad dreams or nightmares; our being told of things we must do, changes we should make, for destiny decrees it so.

So to understand ones self is most important, and furthermore accepting ones self for what they are. Then by seeking into higher wisdom and understanding life a little better, it brings an urge within the soul to put such into operation, which helps direct the alchemicalising factor into a

THE DEPTHS OF THE FOREST

AS slowly the Solar Rays enter and awaken the soul so he changes his thoughts and old ways, until one day he has to descend into the very depths of his soul, as a Dante, and meet the past personality roots of his endless "trees of knowledge." Will he change them for the Tree of Life? Will the 5 old men of his roots prove too dogged for his sword? Will his prayers and his belief in the sustenance of the Solar Ray be able to change him, to egg him over the stile and rocks, as he struggles to make these "trees"? Then will all be lifted up out of the depths of illusion, the depths of darkness, into the light of Dawn.

Ra-Men-Ra's Healing Column GORGED WITH 'OYSTERS'

Once again there is selected a Healing prayer by Ra-Men-Ra which is printed in columns 4 and 5 a Prayer given at the end of a lecture to comfort the many sick and needy who are looking for his help. (Editor).

ONCE again we seek to help those who have appealed to us for help regarding their health problems. As much as we would like to raise all up from their difficulties, we must now bring home to all, that everyman must endeavour to help himself. There is no doubt that our troubles come about by continual sliding, and eventually the silt piles up so high, that we find we cannot see over the top or even round the side. And one of the finest explanations of this is the verse in Alice in Wonderland where the carpenter eats up all the oysters, and then complains about the stretches of sand, and wonders whether if seven maids, with seven mops were employed for half a year they would clear it all away.

He knows with a bitter tear they cannot.

But with all that we have all got to go on, and unless we look upwards and seek of the heights to help us, we shall never get through. And whatever our difficulties are we have to go; so there is only one thing, place our hand in the Hand of the Great Unseen One, believing and trusting we shall be helped through. This I know is

difficult when we are in pain, or we are facing a tremendous sorrow; but do understand, we all are facing our difficulties, that is, if we are a soul who thinks. Those who do not, some time or another come to a violent full stop.

So once again, I can only say, try to help yourselves by your prayers, looking upwards; and if you find help by putting your faith in that of RA-MEN-RA, then do so. For like you, I placed my hand in his also. So do not think I claim him as just my guide, but my leader and my Master. But do try to reach out and expand your minds in the endeavour.

Nervous Eczema

Mrs. R. of Arizona, U.S.A.

I suffered for years, with nervous eczema over face and arms and after many years of suffering I discovered and took a patent medicine called Burdock Blood Bitters. Now again this summer I suffer with an itch top of my feet and ankles. ... We had our first copy of the Occult Gazette sent to us from an unknown source and are enjoying it so very much.

THE fact that you are getting this continually arising, and that Burdock clears it away, indicates that you are

putting something into your blood that irritates it. The very fact of your being born in August indicates that of the Fire of Leo being with you; therefore you have to activate this fire into mind creation. And furthermore the birth time shows that your Sun was high in the heavens making you one well fledged. This is what we find our difficulty, trying to tell you souls, who should be much further expanded in your minds, to try and get your minds more fully active.

I am trying to get out to all of you mind understanding that will help you to get expanded through realisation; but this is a very hard job for so many have never even heard of certain Occult phrases. And so many are still so orthodox minded, that I find I cannot help as many as I would like to. Especially when it is a case of telling you to raise up your minds and get them expanded, for you are eating up your "Oysters," and wondering why things are going awry.

Yes! I know, all your problems are greater than the other man's, for we are bearing them. But we do have to try; so there is only one thing, square our shoulders, look up, and march on.

not going to give in under what I knew to be right. So by this I found my real strength; but not without the help of those greater Helpers. This is the only way we are going to find expansion and growth, mastering our difficulties and gaining mind growth out of them. But also the world grows as well, for Mother Nature's sons are her labourers, and without them, even she could not thrive.

Unfortunately destiny is not so palatable once we return into the body, for we seek to live the way that the earth is presenting things to us; and like everybody else, clamber for the best. But you will find if you look into wisdom deeply, it teaches us to accept ourselves as we really are; then the Solar Blood, coursing through our veins, forces the changes due to us according to the Law of Evolution operating at the time.

So it is quite logical to see, that if we do not accept, we are ever in a state of rebellion. We quarrel with everybody and our tongue becomes like a rasp, and we ever feel that it is others that are at fault.

We have the BURDOCK that you are requiring, and of which we are sending you, but at the same time I am sending you some MARI GOLD FLOWERS to bathe the affected part. This has proved so exceptional in its curing properties, that I never hesitate to suggest it to you; especially as you have the sun strongly with you. Do try it now, and let us know how you go on. But give a very strong over-haul to your diet, for you should keep your blood as cool and pure as possible.

If you have not had a diet treatise, we could let you have one if you so wish.

Arthritis & Psoriasis

Miss W. of Yorkshire.

I am 70 years of age, and live alone, young in spirit and have had very good health through the years. Four years ago this happened—a partially slipped disc so the Dr. said. Time has slipped by and in spite of all possible treatment, Arthritis of the Right Hip has now been diagnosed by a recent X-Ray and the Specialist at the hospital suggests an operation to which I cannot assent.

YOU are making acid and without hesitation I beg of you not to have an operation. Surely we can break this down with herbs, and with effort on your part. What about BUCHU and AGRIMONY, with VERVAIN for your nerves. While with you I would also suggest the MARI GOLD FLOWERS for bathing your Psoriasis.

Eventually we become sick or the mind is affected; whereas if we could accept ourselves and send out for help that we can get up out of the rut we have been forced into, then we should soon begin to find changes taking place.

Ever try to remember that it is the agging moving into place that requires our endurance until it can bring the changes that will help us. But now to the soul who has made some progress; do not just leave it to the agging process if you can make effort yourself, thus bring expansion of mind through the struggle.

For that is usually what is taking place, the soul being forced to come out of its old rut, but refusing to let go of old ties and roots. These are most troublesome, even to the most learned; in fact often more so to these, for at the last the soul, in seeking to get free, finds their feet caught up in the weeds of the Sargasso Sea. The aged roots of the Cancer desires which we all were born from originally.

Gladys J. Spearman-Cook

HEALING PRAYER

Great Divine One, pour down Thy great wealth of love upon those who are urgently crying out for life. Help them to understand that they, too, must make an effort, and by such an effort will they find many answers that at the present moment are eluding them. We seek of Thy blessing upon each one.

Amen Amen Amen

But I know you may think this ridiculous, you too must get your mind moving so that you can get expansion and draw down the Solar rays into your being. This matter of expansion is a very mighty thing, for we are living creations due for unfoldment by evolution. The law demands this for nothing can stand still, and do remember, you are born in Aquarius where you were expected to find unification. Go on studying and trying to comprehend the mystery of life, and I am sure you will find much help; but do not have an operation at your time of life. If you have got so far, try herbs and struggle through by will-power and determination.

Contraceptive Pills

Mrs. S. of Sussex.

With reference to your statement on the contraceptive pill in the Sept. issue no doubt this is a hormone. Can you tell me please—is there any way of cleansing the system of these hormones once they have been taken, so that those who have taken them can, so to speak, come back on the right side of the fence and be able to think and express their correct mentality, and if it is by the taking of herbs, would it automatically end in bleeding to death for a woman anyway? Also if a woman who is three months pregnant takes hormones—how will it affect the mentality of the unborn child? And if nothing can be done for the woman—can anything be done for the child?

YOU have set me a very full letter to answer; but I will do all I can to help you. You ask me if there is any way that one can cleanse their system of these hormone contraptions once they have been taken; and as you say, to come to the right side of the fence?

To help any of you, I have to be very direct and truthful in what I say. I cannot afford

to go round the question for fear of offending you; so please bear with me while I endeavour to explain. You talk about a woman, yet I understood that these Contraceptive Pills were for men, but it seems that they are taken also by women.

Well, friend, I am a very rigid believer in Motherhood, and I know that anything taken in this direction has a very bad effect on the child if it does not work. For I know of a case where the mother took everything possible and it did not work, and it resulted in the child having kidney trouble all their life.

Unless I am very old-fashioned in my understanding, we all know that this is wrong where a child's life is at stake although we may not all know that a soul has chosen us for a mother, and is waiting for us to prepare a body for them to come back to the earth to learn their lesson of life.

This is what I am trying to get home to everyone as much as possible, as well as bring to the world an understanding that will help it to expand. Man is so behind in his understanding, that the higher Planes are seeking desperately for expansion so that they can send down to the Earth new life.

But to come back to your question. If such has been taken in the first three months of pregnancy, then take of herbs that will cleanse the blood and seek out in prayer for help regarding your mistake in ignorance. And above all, prepare for that child with all the love possible. It seems so ironical when one writes to me like this, then others write and ask me how they can get a child. Then others have children, and, just

Concluded on Page 11

AGGING

process of something higher; the expansion it is seeking to obtain. This is where wisdom helps, if only by just reading and trying to understand, for the effort alone helps to force on the alchemicalisation, and get the soul past a difficult period; and we all pass through them; king, peasant or clown.

Then, if the soul can try by will and purpose to move their mind into change, that alone will help; but if that cannot be managed, often being driven by another, if only by discipline, helps to start off the changes that are to the soul's own good.

So what may appear evil to us, is often for our own good. This is something that the soul finds hard to accept, when they feel that they are up against life. My main difficulty is opposition; but fortunately I happened to be well fledged by will and powers of endurance; and I have found that it has only been by my persistency through states of opposition, that I have found strength to bring into birth what I came back to do.

I must admit I did not find it easy, and at times, like some of you write about, I moaned my lot; but I certainly was

SPIRIT POWER

Gives New Life to the Sick

Healing and Diagnosis

by

Gladys J. Spearman-Cook

and her Healing Group

EACH THURSDAY—6 p.m. to 8 p.m.

(and 2—6 p.m. by Special Appointment)

ABSENT HEALING: Any reader wishing to be placed in the Healing Book of Names to be blessed by Ra-Men-Ra, please send in details together with recording fee of 2/6 or 50 cents.

HERBS: Every advice is given on use and application of the correct usage of herbs so essential to keep Harmony and Balance to the human bodies.

ALL HEALING QUESTIONS must include full birth details giving exact time, date and place.

Readers' Charts

by James Averill

THE DRIVING SPINDLE

MANY many times has that question been asked. 'How do I start? Where do I begin?' for as soon as a soul who is truly seeking recognises that life is not a pleasure ground but where great courage has to be built to fight the past twisted ends and threads, he wants to get to grips with his own multiple selves and seek to master. There is one clue always in a chart to show not only where it is that the soul commences but the direction and reason where the driving action should take place. Where the Dragon's Head ☉ and Tail ♉ are situated shows what the person must do to start activating the spiritual Driving Power which will help him to fulfill his Destined Journey and extract his wealth and master or curb his destructive past. Once this is seen and understood the key to movement is found, for the vast majority of persons would start if only they could be sure of how to begin.

The Seed of Woman

LET us take a few charts to test our point so that the Path of Destiny ☉ in each may be given the opportunity of fulfillment. 547 and 548 are husband and wife and their two charts are truly instructive of how it is that two souls are drawn together for no other purpose than the Spirit. 548 has mighty powers gathered from multiple experiences in past lives. As she gathered more and more so she learned how to be a True and Divine Mother and now she is filled up to the brim. This Life is the supreme culmination, her Hour of Rendering.

Now she must seek to offer all gained to service of the Spirit (Path of Destiny ☉ in 10th house of Service, Honour and Obedience to the LAW). How does she manage to find what the purpose of the multiplicity of experiences all mean? For she has gone on and on accumulating so much yet she has not gained the Torch of Awareness to guide her Individuality, hence the position of the Sun in the 4th house in Capricorn. All the cream of her knowledge lies still unresolved in the emotional waters of the senses.

By merely accumulating and never resolving into the Spiritual equation, she has saturated her Spiritual Heights, with a multiple amount of ends and threads of mind understanding of form, as seen by Pluto, Neptune and the Dragon's Tail in Gemini, the Tail being a symbol of illusion, and the Head, Reality. One sure way she can rectify this is to gain as much Pinpointed Awareness as she can.

How? By constantly trying to find the point and purpose of all that she experiences and all that she does, and seek to be guided by the Spirit and not find the illusion of the

One Pointed Flame of Direction to feed her, so that she in turn can use her wealth in the 4th house to nurture him in his becoming and fulfillment.

547, the husband, has just what she needs, for he has on his Ascendant Scorpio and in it in the 1st house is Uranus the Eye of Perceptivity, the Flame of Mind, the Flash of Know-How, directed from the Spirit Impulse. Whereas her Sun was in Capricorn, his Sun is in Cancer, where her path of Destiny is. His Sun is in the 8th house in the tomb of darkness, the House of Death, the Cocoon, caught in a past life by the pleasures of the play-boy, (Saturn in Sagittarius in 1st), when the lower logical

mind of form lost faith in the transience of Spirit and wanted the tangible touch of earth. Now he has got to awaken his Inner Awareness and the only person who can do it is the ancient wealth of motherhood. The Seeds of Woman. It is she who has the Wealth not him. He has gained his by being a ritualist and priest many lives ago, where he invoked the Great Powers of Outer Space to feed and nurture him. By so doing they entered into him as seen by Uranus in Scorpio, and he must learn to Reverence them and treat them as the 'Awe of the Lord.'

Until he truly values the wonders of the feminine Principle of Nature, Woman, he will never raise up his own Sun in Cancer, the Sign of Eternal

575 with her Destiny in Cancer in the 5th house, also has Tail in Libra and her Head in Aries also on the 2nd and 8th cusp Signs but in the exact opposite way to 549. Her Destiny is square to the Dragon's Head and Tail signifying the urgency of the moment and the importance of making sure her actions are right, for she too would like to know how to start?

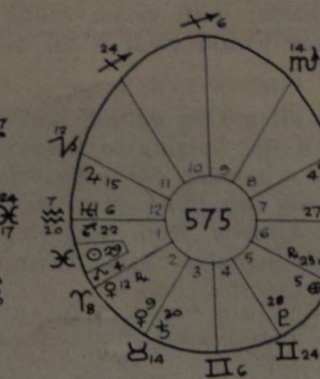

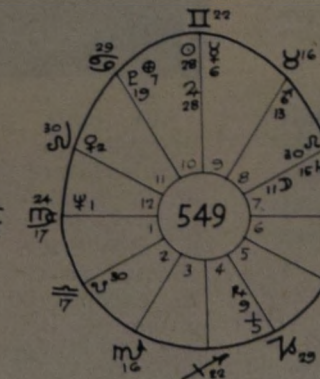

The Personality is very strong with this soul as she has not only her Mars in the 1st but also her Sun in Pisces, giving unto her immense powers of self rejuvenation and strength. But it is no good living basking in the sunlight of all her past personalities as her Destiny in Cancer in the 5th shows that she could be doing.

But as it is in the 6th house cusp sign it signifies that she must seek to find and establish the way to extract the Virgin's Harvest from the past and bring into birth the Intuitive Mind. To give birth from the depths of her magnetic past to this intuition there is only one way—learn what to harvest and what to leave, and replough that left back into the soil as well earned experience.

The way to start is shown by the Dragon's Head in Aries. In the 1st house, and on the 2nd house cusp, it points out that the deciding factor in distinguishing what to harvest and what not, is to draw in of the Spirit Impulse of Aries, Reality, and equate it in Libra, the Tail sign, by finding the point of Reason and Balance, discrimination and higher Understanding. At the moment she has not learnt to gain this Libran gift as she still believes strongly in the form of the personality. But to really succeed she must find the way to blend the lower of earth's experiences into the Light of the Spirit, for Libra is the sign of the Spiritual Blending of earth's gifts.

To this soul one warning: in the 7th house lies the Moon and it is the very last place for the Moon to be in for the illusion of the reflection of form may cloud the Judgement and being in Leo there would be a tendency to be so very certain you are right, and others wrong. This is going to make it very hard to see the self, and indicates how very important it is to seek through the Spiritual Word (your Sun in Pisces) and learn to analyse the self and take the blame wisely. But the more you seek to bring things to a decided Judgement the more likely you are to master the lunar reflections and find the reality and Wealth of your first house.

For by mastering the Moon's Influence you go a long way to fulfilling the Destined Path in Cancer, which sign is ruled by the Moon.

logical mind but the Reality of the Heights of Mind, the Spiritual Garment of Light. This is the Driving Spindle of constant action of the Head and Tail in her chart. Once this is commenced then the wealth of the 4th house can be offered to the world and she can carry out her Destiny.

It is not for her to wallow again in a life of emotional pleasure but to raise up all the powers of the emotional senses into the dry air of the Mind. It is no good gaining a mass of sense experience if you do not know what to do when you have got it. Scorpio is the sign on the 4th house and here is the final clue to her chart.

She has got to completely raise up this 4th house wealth from merely the magnetic power of earth to the Spiritual Power of Mind. This is the mystical movement through the cocoon whereby the caterpillar, a soul who is ever making hundreds of imprints in matter feeding off the earth, metamorphoses into a Butterfly, whose sole task is to polinate and fertilise the flowers etc. of nature, the growing minds of infant manhood.

This is what 548 must do and she must, to do it, find the Royalty of what Scorpio rules, the Generative Organs. Now it is for her to raise all up from the emotional plane of earth generation and marriage to that of the Marriage within, the Androgynous Path through Celibacy. To master her difficulties and carry out such a wonderful chart she will need a partner to help her find the

mind of form lost faith in the transience of Spirit and wanted the tangible touch of earth.

Now he has got to awaken his Inner Awareness and the only person who can do it is the ancient wealth of motherhood. The Seeds of Woman.

It is she who has the Wealth not him. He has gained his by being a ritualist and priest many lives ago, where he invoked the Great Powers of Outer Space to feed and nurture him. By so doing they entered into him as seen by Uranus in Scorpio, and he must learn to Reverence them and treat them as the 'Awe of the Lord.'

For his whole life's Journey is to find his Priesthood as seen by his Path of Destiny in Leo in the 9th House. No longer is he to become the showman ritualist, drugged and mesmerised by the joy of power, but to seek to be the humble child, the Samuel born from the struggles and prayers of Hannah, his own wife.

But he only will do this if he in turn recognises the wealth beauty tenderness and royalty of Womanhood, and serve her faithfully to raise up the magnetic powers in the 4th. By so doing he in turn will get out of the 8th house, for one of the real causes of being entombed is the fact that the soul was so egotistic about its own personality creation and its illusionary wonders that form prevailed and all else, the inner bodies of Spirit and Mind vanished away. So it was when the form died the Individuality remained held by it and got earthbound.

How does he start to do this? His Dragon's Head is

Motherhood. He too being so strongly influenced by Scorpio must seek the mystical joys of Mind Marriage with his Partner.

Balanced Judgement

TWO more charts have the Destiny Path in Cancer, 549 and 575. 549 has his in the 10th house opposite Saturn in the depths in Capricorn. This soul has done the opposite to 548; he has gained a mass of knowledge and not translated this knowledge into action in the depths of matter, equating that gained to the Mind Awareness, the Torch, in the Heights of the Soul, the Cream into practical reality. How does he start?

In the 8th house lies his Dragon's Head and the Tail in the 2nd house. The Head is in Aries and Aries is ruled by the planet Mars, ♃, which in 549 is in the 8th house in the sign of Taurus ♉ the ruler of the second house. The Second House of Taurus is where a soul commences to labour and experience the hard way by ploughing and reaping, sowing and mowing, so that it can plant wisely the seeds of the Spirit and offer them in Harvest, the mastering of the animal passions, the Cross of Ezekiel.

This soul must learn to activate a fighting attitude to establish New thought backed by wise knowledge.

The Arian pioneership must be evoked so that the Higher Wealth can be planted in the earth form. This can only be done in the Royal way of Generation hence the sign of Libra on the 2nd house, the sign of Spiritual Marriage, the blending of the Heights of wisdom gained into the depths of earth, the physical body, by establishing Truth through the Libran Scales of Judgment.

OLBAS HEALING OIL

An extraordinarily effective, non-suppressive, refreshing distillation of non-poisonous plants. Of proved efficacy in COLDS, CATARRH, SINUS Trouble, INFLUENZA, BRONCHITIS. A boon to sufferers from HEADACHE, INSOMNIA, NEURITIS, RHEUMATISM, HAY-FEVER, etc. Excellent first-aid for BURNS. Safeguard against INFECTION. Bottle 11/4, including Purchase Tax and postage. Olbas Pocket Inhaler (new type) 6/6 incl. P.T. and postage

Obtainable Health Stores, Herbalists, Chemists (only the British market supplied) or direct from

G. ASHLEY & CO., 104 Christchurch Road, Tulse Hill, London, S.W.2.

THE LOST TEACHINGS

by Terry Whittam

THESSE are now being discovered. They are being retrieved from beneath the dust of ages, and acquiring a forgotten lustre. Two thousand years have passed since the last great prophet to touch the earth-plane revealed the Truth of Life in a simple measure. This message did not voice itself in the form of a demand, but in the dress of an appeal, aimed at piercing the outer coating of man's material thought, that the forgotten lustre lying beneath could shine forth and vitalize once again.

When this Vital Life is forgotten to conscious thought, its power and force careers wildly within the human nature, and it stirs man into committing deeds and acts which are not guided by sanity and reason.

Thus—always at a time of strife is there a messenger at hand to give guidance and direction back to the straight and narrow path.

This takes place in every walk of life, in the lives of all; and guidance and divine direction come as the helpmeet to instruct when ways err and all becomes lost.

It is at such times that the one who is erring and walking the lost path, that the conscience becomes more greatly sensitized. The soul becomes more perceptive.

Therefore, in such a state of perceptivity would the soul be tested of its understanding and wisdom. And if it could not stand up to the test, and still went its erring way, it would pass into the underworld of self to find the right answer and the correct solution.

Only very rarely does a soul deliberately go in the opposite direction to which its conscience dictates. When this is so, it is a flagrant violation of Divine Law, and the only antidote is karmic consequence to be endured and suffered through the violation. The world at the present time is enduring hardships and suffering difficulties placed into operation long ago.

New Message

AT a time when the seed of a New Life was needed to be planted into the earth, the last great prophet, Jesus of Nazareth, entered upon His Ministry to bring to man the great Truth of the Spirit. It was a time of great deterioration, and the time was ripe for the revaluation of principles and ideals which had gone astray and awry.

The Message that this One brought and delivered, was unfortunately cast aside by those of the religious thought of the day.

They closed their eyes to the importance of the Message; and to this day have saddled

their backs with the burdens of scorn and persecution; and these have to be carried every inch of the way, until their sense of ego and self-righteousness is cleansed and purged away.

This religious sect was the vehicle of action, the power of desire, which they could use in any way they pleased. If it had been placed into movement for Truth, then all would have been totally different. But because they used for the furtherance of self, all has had to remain in the shades of self; there to be stored and hoarded until it was released. Until—they would draw from those barns and digest through the hard days of the many winters to come.

For no matter what once accrues as karma, whether nations or soul, it will always return and place itself upon you. That is the sowing and the reaping, and all receive of their just dues. All have passed through this national stream, but the present custodians have landed upon their self-chosen shores.

You cannot place the blame upon any particular nation or race of man; for all have played their part in the unfolding of the world. That is the main issue that faces the world today; for until man can arise within himself and discover that all are ONE—then only difficulty and confusion can be man's lot.

LOVE and LIFE are ONE—Complete Unity. Man is merely passing through the phases and stages of this Life-Love.

The Destiny of man is to arrive at the threshold of the DIVINE LIFE-LOVE, to discard of his OWN PERSONAL and SELFISH THOUGHTS of LIFE-LOVE.

There is no balance, no poise, no unity in the world today, and the earth-plane is in a very corrupt condition. Until balance and unity are struck there can be no harmony abound, for all will be off key and discordant. There will always be stress and apprehension among the nations, not only of the world, but within man himself.

So the answer to all this will be for man to rise up and perceive through the Risen Mind, which is now the vessel for the Age of Aquarius.

This is an age of Power, but as yet—unmanifested Power.

All the past states and conditions must now be brought to a fulness—a focus. If these states were controlled, they would NOW be focussing through the lens of the Aquarian Inflow—through Uranus, which is of the illuminative mind.

But how many are prepared and ready to perceive through a burnished Mind, one that has been cleansed of material conditions, and to see all with principle? They are very few.

So this will give some indication of how far behind man is in his path of progress and evolution, when all has become blurred and marred by the material measure.

Man is blinded by matter, and instead of it serving a purpose for Spirit manifestation, it is being permitted to govern and control to the exclusion of all else. When this takes place, then Life is being driven out; an occlusion occurs in the vital arteries of the Mainstream. No Life can flow in; and man merely exists on Power he has no right to claim.

This has taken place all through the ages, through races and nations. And when the Life Power began to drain away through selfish importance creeping in, some other race was gaining ascendancy through Spirit Principle. So the Stream of Spirit was kept flowing into the world.

Today the Vital Life is being cut off from the world at large, and once again the selfishness of man is looming up out of all proportion. Knowledge has so burdened the world, and the scourge of education has become a festering sore, because it has not taught man of the simplicity of Life at all; only the technicalities which relate to matter, and how he can use these means to impose his will over another. All is for self. This chaos and confusion is the living issue of man, and there is no one to blame but man.

The quicker he sees that, the better. If not, then the story will be driven home in full Power and Might—because he has unknowingly drawn all these to himself.

HEALING

Concluded from Page 9

to satisfy their selfish whims, walk out and leave them, and declare they are being heroic, and find out in the end they were only looking for further excitement to satisfy the beast within them. These are the stories I know to be true, and myself have suffered under the hand of some of them.

Friend, whoever is the soul who is enquiring of this, tell them to get down to some serious thinking, and try to get understanding, thus raise their mind upwards so as to help others by their mistake. This may need a little courage, since I believe this is a very usual practice, and one encouraged by priest and physician. But I would suggest BUCHU, BURDOCK, AGRIMONY and VERVAIN to cleanse the blood. But a little more mildly if with child. Although herbs hurt no one.

But I would like to remind all women, the story of Eve and the covenant placed upon her still exists and furthermore she fails to realise the great sacrifices that were made by a group of women to bring to woman that of emancipation. It is only woman and her struggle for Divine Love to reign upon the earth, that it will slowly come, especially now that Scorpio as the Supreme Life from the Central Sun is descending down to Earth, and as LAW, will bring changes that will cause

man to think a great deal more than he is already doing. It is no good acting and thinking after. Overcome ignorance, and then you will act wisely and well. I hope I have helped you a little.

Nerves

Mr. A. of Kent.

For this last ten years I have sought in vain to understand and gain release from a nervous condition. I have sought help from practically all sources of orthodox and unorthodox forms of healing without success. That the outer effect of a debilitating nervous condition is only the effect of inner causes I know to be true, but who can cure these inner causes? I know not. To-day has come into my possession a copy of the Occult Gazette and I sense in the writings of RA-MEN-RA the answer to my problems.

FIRST of all you are seeking for some information regarding our School; well we will send you a brochure that will help you to understand us a little better. And secondly you are seeking for help for your complaint of nerves from the Cause. Well friend you are rather sticking your neck out, but if you feel that way, then you must be ready to search into your own misgivings.

This may not be too easy, for you are a Capricorn both Sun and Mercury, and which are right up in the midheavens at that. So you will not be very easy to convince; Capricorn are the most solid and fixed people I have ever met, especially as in your birth chart before me I find that you have Mars in Libra in the 6th house.

If I was judging your chart without any compassion, I would say I want to fire you into action. Stop talking about the causes and move on.

I can give you some herbs for Nerves as well as some nerve pills that are composed of compressed herbs, and work very quickly.

But you have a lot of planets in your 5th house which gather up a lot of

power from old states of karma, and then you have Uranus in Aquarius in the 11th house of the spirit. So you are somebody who has gone on taking wisdom, which is rather a flare with Capricorns, and holding it more and more within your self, and refusing to return to God what is God's.

If you do not get down to some serious action of labouring to expand your mind, you will before very long find that your nervous complaint will become more serious. Stop provaricating and drive on in faith and seek to establish some understanding within of your own accord.

I am suggesting you have some Rosemary and Horsetail with some Nerve pills.

Kidney Damage

Mr. D. of East Yorkshire.

Nervous breakdown commenced July 1957; Injury to right side, ribs and kidney damage, occurred Oct. 1961 approx. I have followed your instructions regarding herbs, and have absolute faith in your healing treatment and am willing to co-operate as much as I possibly can.

SO glad to hear from you again, and I know it is a bit too early to ask how you are faring; but in looking into your chart I see you have Sun and Mercury in the 8th house. This could account for your difficulties; your two most important planets are caught down in the depths, and your will having to follow on behind. Yet you really are fledged with wisdom to some degree, for your Venus and Uranus are in the 9th in Aries.

What it means is you must set your foot forward in progressive action of investigation, and begin a line of service in labouring. For you have Jupiter in Gemini, and although you may have to do a labouring job, you really are ready for a mind job.

That may sound funny to you; it always does when these things are told to us; in fact I always feel like running

away when I am told of something else that I am capable of doing. So I have all the sympathy; but then you are asking for help.

You have Neptune in your first house, which indicates a man who in the past has investigated far deeper than you think, but was not able to get past his initiations. They demanded more than you could offer, so failed on those. Therefore in this life you have got to seek into this, and begin to straighten things out in your mind and put them into operation.

Not just think about them, and dither on the brink as to whether they are right or wrong; get down to trying them out, for you have your path of destiny in the 10th house, the house of service in the sign of Taurus, the labourer and toiler. But one labouring through your mind.

And I am sure, that once you get started, you will be surprised at what you know, and many of your difficulties will be overcome. Now grapple with yourself, and come away from those things that are holding you down in the depths.

Tubercular

Mr. R. S., Physiotherapist and Surgical Chiropodist, running a Nature Rest Home Clinic writes:—

At present I am giving treatment to a patient who could not have lain on his back nor pass urine without the use of the Catheter. He has responded to treatment and can now lie comfortably on his back and pass urine normally. But the strange thing is that though this patient has shown much improvement yet he is now losing strength and vitality and a wasting of the tissues is observable.

MR. R. S. I have gone very carefully into your patients chart, but Mr. Averill will be doing more, but I will give you my findings. What has been his difficulty is a tubercular kidney, for this soul is an old soul with much wealth drawn around himself in the

first house, the house of personality. So he does not live very much for self, especially as his path of destiny is in the 2nd house, the house of desires.

But what is his greatest difficulty is that his Venus, one of the activators of the kidneys, the one that controls the adrenalin, is in the 12th house in Sagittarius. This shows quite clearly, they have gathered power over the last past lives and lived gaily for self on the power.

Well that has given out completely, which has caused an inward state to fester up, and it has set into operation a tubercular state of wasting through not building up that of the where-with-all to stand up to the lean years that were due to follow, when he would be called to put into operation the wealth he had taken and squandered.

This is also verified by his Saturn in the sign of Scorpio in the house of the spirit. All the horse power of his seminal waters has been eaten up, and the can of petrol is empty. In fact our friend has "lived life" either in this life, or immediately before.

I feel it would be as well to give him BUCHU, MARI-GOLD PETALS, HORSE TAIL and KELP TABLETS to help the glandular system. This diagnosis probably would not be accepted by the medical world, because this is a state that lies underneath through completely debilitating the glandular powers. Saturn in the house of the spirit is never good, not unless it is made to act as discriminator. This is a state of tubercular of a wasting condition.

So I should advise this one to completely reform their way of living; it may be not so much as what he has done in this life, but what he has to answer for by delayed action; which so often comes with these first house planets.

Quite possibly Mr. Averill will be able to help you a little more.

THE WATERS OF REJUVENATION

Concluded from Back Page

But then, my son, where there are two together that by spirit unity are doing a very similar thing this is just as great. Can you follow that? Not by the physical, but by mind companionship! Sperming each other.

Well, can we take them as being what should be the parents business; the mind?

Yes, my son; here is where of course it was always understood that they had married their sister. Is that what you are referring to? (Yes). Quite true: the great Pharaohs as Gods of the past. But of course, you must remember that man has travelled a long way down into the depths of matter, and the loss of his spiritual heritage is a long way behind him: but he is going to be rudely shaken into change: and this is where MIND COMPANIONSHIP BECOMES THE REAL SPIRITUAL MARRIAGE.

But of course this (the sperming of the seed into the foetus) will not take place when it is done through the mind: you do realise that? Then woman is going to lose those internal organs that have brought her so much agony and pain.

Eve is going to be redeemed.

It is the great companionship that can ensue between the genders as they are genders at the present moment. But as time goes on, there will not be genders and the sympathy then will be between the Heights and depths within the soul. Eventually man is going to go back to his right status; the spiritual being; eventually, as the planes are lifted up, and he lives in a world of true Earth-growth.

That is in his androgynous state, isn't it?

That is quite so. But there are many of you already making your way towards that: many of you that have been monks in the past, that have already started that path and automatically finding yourselves now stepping onto it; being drawn by the wisdom. But wise is the man who searches into this wisdom: it will not kill you: it will give you all the mind growth which you need, while others will be struggling in the mud.

Their fear—which is always a deterrent to the one who seeks—is in the losing their desires; those things they are holding tenaciously to. But if you are a soul that has awakened, you are going to seek for that: you are going to seek for Light because you have become awakened to the heritage that has come into being from that spermatozoa seed.

Woman is being injected by this "Light" by her love: her love to nurture; her love of motherhood. This is where she draws unto herself the wealth of the heights. Man seeks by his act of pioneering, and his lust to command. This is where Eve, though, is redeeming herself by labouring in the depths and carrying out the 'covenant' as was ordered in the beginning.

Every man is rich with wealth. It is no good you coming and telling me you cannot do this, and you cannot do that. What have you been doing with all the Fiery wealth of your seed? Merely piling it up in the rock within you; and the rock being all your glandular system.

Supposing a soul starts to

lose his seed to quite a considerable extent through an earth-form of union; is this depriving him of building the quota of mind?

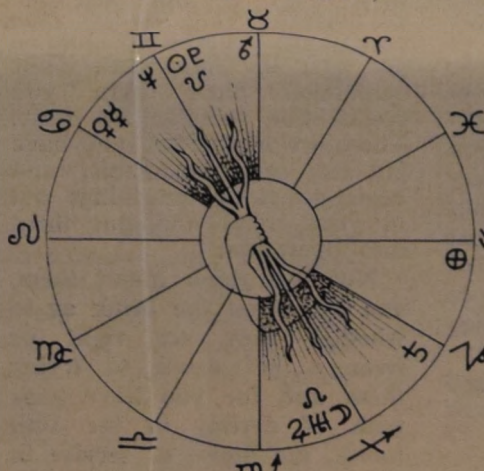

Not necessarily building the quota of mind, but he is not going to find it so easy because there has been a continual lowering of the intent that has brought it down onto the very lowest plane possible. Man only ever builds the planes up within himself by bringing all to a mind-plane of spiritual intent: he has continually fallen back, fallen back, and fallen back.

Jupiter's Fulmen

DO not think we bring an Instrument to you that has not had her full quota of physical life, but she is one that has been well under control by the understanding of what she could do with it; her belief: and this is what we used. But we were always behind her, inculcating with thought and idea, for this is her Charge. Now I want you to understand that this great Galaxy of Scorpii is the Wealth and the Home of the Great Masters, and that is where this knowledge is coming from, and you are receiving it: the Scorpii constellation.

When you say the Masters have changed: Have you left the Pleiades Ra-Men-Ra?

Yes! They have left the Pleiades (Taurus) and gone up now, because the Planes are lifted up, and by Scorpio and its true wealth being revealed, They are now able to go into Their own Home. Now can you give me the Chart of the Instrument (see chart below).

Can you see where Scorpio is, there on the house of Motherhood, the 4th house, with all the wealth of her tail: there's the wealth. (The Moon, Uranus, Jupiter and the Dragon's Head all in Sagittarius in the 4th House).

To get this Chart into its Jupiter's Fulmen there has been the struggle of Ages. It was from this house the three sons were born that should have been the Three Legs of the Stool.

Here again you have the proof that by going on, and going on, you will not die; but you will be the means of fulfilling your Task. There has been many a time when she has cried out,

"How can I go on any longer?"

And all we have said is,

"Go on. Never stop. You will fulfil your Task and never regret what you have done; for your Wealth lies in the Heights; not in the depths."

And when you are able to see this, then you too will be able to labour. Know that man will try everything he possibly can construct within his mind to try and destroy you, but

when you are One with your Great Supreme Creator, then indeed you will be replenished and rejuvenated from that Source from which you, too, were born.

It seems that when the sperm seed is used in the lower with the ovum, it immediately sets about the multiplication of all it touches. Now exactly the reverse process seems to take place when the seed is used as 'Fiery Life': it immediately unifies all its facets.

Quite true: and gives healing and rebirth to every plane within you.

Because I have seen a remarkable effect take place as a result of the Instrument passing her own sperm-seed out in unification! That's quite true.

Is that what happens when it is ejected through the upper testes? And is that what the Uraeus was on top of the head of the Priests?

Quite true: Through the upper testes; the Mind: and each soul then becomes blooded by the new wisdom.

So what happens is, that the 'spitting' hits the other person's pituitary, thus setting up the hormone life once again.

Quite true. It is going forth out onto the maelstrom, out into the room here through the Fiery Essence. We use her Fiery Essence that is raised up to her Mind.

Is that what the soul does then, when he becomes split? He starts losing his hormones?

Quite true; and he becomes separated: the two sides of the brain are not co-ordinating. All is unity, and unifying. This brings us to the understanding of the pituitary being Uranus, and being the replica of the Great Central Sun. The Solar Deity is of course The Face, and is the Manu, the Intelligencia of the Planes: that which is suspended from the Heights to the depths.

Its Heights are profound. So you can see the extent of HERE and NOW. As you so radiate in your mind of HERE, so are you linked with THERE as NOW. So at the present moment, by my giving

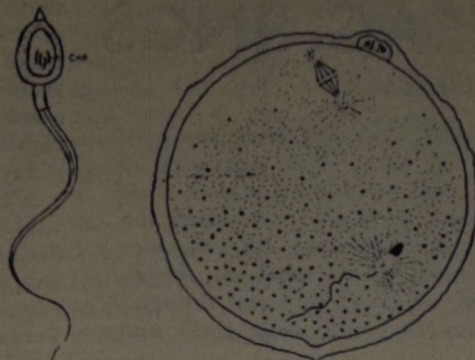

you this, and your mind radiating upon that by struggling to comprehend, you are linking with the Great Central Sun: you are vibrating upon that vibration.

Now this must give you the understanding that there is no need for mechanical monsters. Man can reach the Heights: he does not have to go up in an earth-creation to the Moon: he is going back upon himself. This is what we had to undermine.

(Here Ra-Men-Ra referred to the quick mind qualities of an 85 year old pupil and ascertained his Saturn was in Pisces in the 12th house).

Very well, in the 12th house: that is where it is revolving and finding its wealth to give you the rebirth to return; which merely means that all you had in your 12th house has been a great mountain of power piling up, which you were never able to connect and bring to its final point of comprehension.

There is no need for any of you to get alarmed because you have 12th house planets. What you want to be more alarmed at is if you have a 1st house planet, and you are not doing anything with it. That is

THE SPERMATOZA AND FERTILISED OVUM

what you want to worry about. They are the "black masters," or are they a "white master"?

The 12th house planets are those that are piling up as silt, because they were never able to get it just over the barrier: they are mighty wealth down there in the labyrinth. Now with this knowledge, and you beginning to weave and struggle through the mind, it will bring all that out.

And you (to the pupil) have suffered, my son: I know that. And your greatest advantage at the present moment is your loss of eyesight. You may not think so; but you have got a mind that many here would like to adopt. It has sharpened your wits, my son, and helped you to bring that out and find the hidden wealth in your depths.

Is that what often blindness as karma has deliberately imposed upon a child? Forced him to look at the Kingdom of God within?

Quite true. Nothing happens to any soul but for a reason. You do not want to walk around and start saying, "Poor thing."

No child returns to the Earth-plane but that he is equipped with what is necessary to move it out of the rut it is in. Is this not the Buddhist wisdom?

This soul has developed his spiritual sight, so that when he gets onto the higher planes he won't have to try and find his inner sight: he will have found it.

Oil of the Word

MAN receives the injection in his mind and it stirs up within his inner being a new idea, a new thought. Here is the forming of the Word. This then has to be woven by the lower principle of mind, and as man does this he has to interpenetrate into relativity into past states of understanding that he can find the intermediary link from beginning to end: because man is only touching and moving links of wisdom that were started in the beginning.

What you are looking into now is not new knowledge; it is only a rebirth of that which began at the beginning of Time, and which man has buried into the depths. Now he has to keep on, by searching through the Word—which is filled with Oil—to try and awaken all those states within him that have become entangled.

You are bringing your faculties to a sensitised state: where is that? It is completely around the lachrymal system, the eyes and the back of the nose; and then of course you have your pituitary lying in the sphenoidal fossa which is in the centre of the forehead. There it is connected to the 8th auditory cranial nerve whereby it goes up to the heights, and through the 2nd cranial nerve is this lachrymal system set into operation (see the diagram of the Cranial Nerves on page 12, column 4). You have twelve pairs of cranial nerves at the base of the brain: these are all

connected with the twelve limbs. If these are not used in the right way, and man is wasting his seed down in the depths, then of course he is going to find they atrophy.

But it is the 2nd cranial nerve that feeds the lachrymal system behind the eyes. Now you bring all that to a sensitised state by not taking waste into the bloodstream that encrusts the sinus at the back of the nose; for coming up to that point you have the sinus vein. This is wisdom we are going to bring to you very soon; but all in good time. I am merely preparing you so that some of you can think.

I suppose, Ra-Men-Ra, that the Word is literally, as the ancients have said, the 'oil' to help break down and friction all the parts that are in a jumble?

Quite true; and give them lubrication whereby a mind-flame will be formed; because you have got to get your furnace working so that there can be an intercalary between heights and depths; you have got to help him to raise up the phallus and send down the 'spit' as he sends down a hormone quality from the pituitary; a seed from the heights that is going to be a linking with the past.

You are Time: you are the creation of Time, are you not? Within yourself you are the "whole chronicles of being." So you have to re-awaken this within yourself; and you have all these seeds within you, within your pineal gland, which is the pomegranate, where you are going to find all the seeds you require.

They believe the seeds come from the pituitary. No! the pituitary is the Godhead; the Uranian Striker: He strikes and as the seed comes out from the phallus, the pineal Jesse's rod, it drops onto the pituitary, and the pituitary then mixes with it and it comes to the base as 'spit.' Now this is what lubricates your bloodstream and your nerve network. This is where, if such comes forth from you, you feel you have received the Eternal Yod: and this is equivalent to what takes place between male and female on the lower. It is your heights that are married to your depths: and this is the true marriage of Genesis.

But this is where husband and wife are told to cleave together and leave all. This has nothing whatever to do with the physical marriage; this is the spiritual marriage. You will find it in your early Chapters of Genesis. The whole of this wisdom is incorporated in your Holy Book, once you can perceive it. This is what we are trying to bring to you: we are going very gently about it, because so many of you have got such false ideas.

The Chakras you refer to, Ra-Men-Ra; would they be the three lower Chakras?

All that is activated by that triad; and of course they also become then the wealth of the Fiery Triad; Aries, Leo and Sagittarius.

And it is by setting them alight that they will all eventually become alight and join with the Upper Trinity.

Yes! it is by setting them alight, bringing the raising up of the mount in the heights, that the soul is then able to travel over the Arc*11 down to the 1st house, where you find

*11 Ra-Men-Ra here refers to the 9th to the 12th houses for it is through these houses that the Arc of the Higher Mind is being built, the signs of Sagittarius, Capricorn, Aquarius and Pisces, and wherever these signs are in the individual birth map so it shows the wealth or otherwise of the Higher Mind that has been built. (Editor).

Andromeda becomes free as Cassiopeia the enthroned woman, the Feminine Principle.

What would be the cause of so much pain at the back of the neck, Ra-Men-Ra? All my life I have had that, right at the back of the neck.

The struggle there is taking place in the seven cervical vertebrae. That is where you will find quite possibly your kundalini fire is trying to break through. You find it very difficult because they are the Prana spans, and they are dealing all the time with bunches of naga nerves which are spreading out all over the body; and that is where all the tension is felt. It means, little one, that your kundalini fire is able to rise to there, but never been able to break through. Go on, with your mind weaving, your mind blending and your mind growth, and you will get it through; because there is enormous wealth with you.

So the split disc, as they call it Ra-Men-Ra, is where the Kundalini in a past life has risen up and is now being suppressed!

Not always suppressed: it is very often burning out the tissues. Where the disc is missing, it has been burnt out just like your electrical power burning up a wire and meeting a state where there is a 'fuse.'

Ra-Men-Ra: where you said, or I thought you said that 1st house planets are "black masters," is it a period, or is it the time when they lost themselves in Atlantis, and have not been rescued all that period?

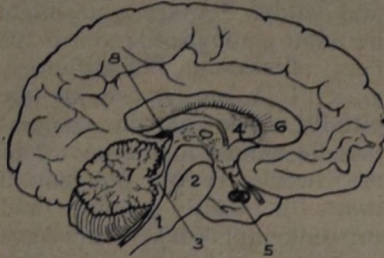

Not necessarily. 1st house planets have all the wealth that should be going on and replenishing the Planes; for they are a complete replenishment in themselves: they are feeding themselves. They are a nucleus from the actual planetary forces; a completion; and they can feed the Planes from that complete circular: but they find the wealth suitable for their own self-aggrandisement, their own self-powers. Instead of using them as they should do, to assist mankind and drive on the Wisdom, they go forth and empty them out and wither them up: they become completely stripped and find themselves in a less better position than one with a 12th house planet.

So don't cry about the fact that you have not got a 1st house planet. You just think

how wealthy you are. You have awakened, as dull as you are. All you have to do is to be encouraged to realise that you are rich with wealth, and then you have to try and force it open by will-power and breaking down those states within yourself that are an obstacle. You will find it is quite some small barrier that is stopping you from going on; a very very small barrier.

Once, a long time ago, when I was with the Instrument we physically saw a stag right on the top of a mountain at the very moment before sunrise, waiting for the kiss of the Sun. It seemed at that precise moment that a transference of some kind of Fiery Energy took place into the king stag.

Am I right in saying that this is the kind of thing that man has got to do to become solar-born: he must keep on being 'awake' prior to the dawn, so that he can bow in reverence to receive a seed of that "touching of the Sun"?

THE BRAIN

1. Medulla Oblongata
2. Pons Varolii
3. Fourth Ventricle
4. Septum Lucidum
5. Pituitary Body
6. Corpus Callosum
7. Arbor Vitae
8. Pineal

That is quite true. Man has never yet realised the wonders of the Heavens, and yet it daily travels round its cupola: he does not realise that the very daily labours and the wonders of the Heavens are his rejuvenation; and yet that king stag in all its royalty, stood and faced the rising sun and took in of the rising sun.

Does not my Instrument do this from 12 o'clock onwards? That is when we call our Instrument back to the Earth and say, "Get down to it, and draw up the solar light."

Was it not Moses who was told to go out in the 'early morn' and face the solar light, and then draw in of the wealth and come back, and I will help you? Draw in of the Spirit.

You will find all this wisdom in your Holy Book; but you all take it in the wrong light. If you were to see it in the right light of alchemicalisation, and the wisdom and the mystery of alchemy, then you would have the answer to many of your problems.

I perceive by that, Ra-Men-Ra, that if healing was given to a person at the same particular time they were born, this would blend with the planetary influence which would surely make a difference in the healing power?

Then surely, my son, it must bring to you that if a soul can be brought to understand that, then they themselves could draw upon those Powers at that time. Can you follow that? That is what you are getting in your mind really. But there is a great deal more you will have to probe into.

But you see, my Instrument performed that quite unconsciously to herself when she disposed of the cancer growth within her own being. She used to prepare herself from 9 until 10 in the morning hours until she disposed of it. She was born at 9.20 in the morning! Now there is the answer to you, is it not?

The Wonders of Herbs & Mind Healing

NOW you have another point which you have been turning over in your mind. Is it not the understanding of the cutting, tending and trimming of herbs at special times; man not cutting the herbs before they are ready? There is not enough reverence given to these things.

Was not that the understanding of the Druids in the cutting down of the Mistletoe, which so many people turn round and call a parasite? Mistletoe is not a parasite: it is a seed from the Heights. Unfortunately it draws such a great wealth of the Cosmic Rays unto itself that this very often kills off the tree it is on. The tree itself cannot take the wealth of the Cosmic Power which that parasite, as you call it, draws unto itself.

So when you partake of the Mistletoe, you are partaking of the actual Cosmic Rays. There is untold wealth in the Mistletoe herb, but it does not remain very long (when placed into liquid form) before it turns: that is due to the wealth within it. This is where there is a great deal of understanding required, if you can only probe into it: and the understanding of herbs is a part of the Scorpionic wisdom.

Am I right, that the Mistletoe is best taken alone?

We have tried to impress upon our Instrument that herbs, when taken in less numbers, are more beneficial. We have tried to impress a little of this upon her, but there is so much she is having to do that she cannot at the moment give too much time to the new thought on herbs. We would suggest to you that if you had the basic of Buchu (which is a cleansing herb), then add the herb you need as your deterrent, and also add a little nerve herb to go into this, you have all you need. You will find that a lot of herbs which are mentioned do not

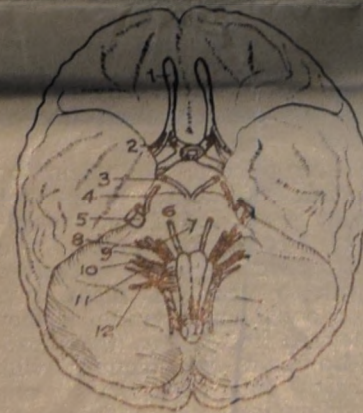

hold the same healing qualities as many pretend they do. There is a great deal to be realised in all this, because the intricacies of mankind are not just one or two: they are in abundance.

There has been enormous power in your midst tonight and you have all been using your minds. Now that is the point: that is what I want you to do; to try and get an electrical state in your minds; not just taking in of the wisdom, but trying to get the mind moving.

One is often told there has been a spirit operation, and it is always difficult to link up with what has been carried out in this direction. It seems that it is the use of the Scorpio powers on the etheric body?

It is, my son. But we can perform the spirit operation as you sit there. All you would feel is perhaps a little exhilaration; or you may even feel tired; but as you were to raise your vibrations through the wisdom being given to you, the Spirit Healers very often come there: and where there are physical powers in the Room, they are able to take those difficulties away from you; and that is dematerialisation. This has been done often by the Instrument when there has been the removal of a growth within a soul; and it is by removing a certain chemical in the soul, which of course is the spiritual chemical: we just remove what you call your 'vital principle,' without which all would disintegrate. You are kept together by the 'vital principle' and what you call 'life growth.'

My Instrument has Scorpio on the 4th house, and has been capable of doing great Healing Work in the past: now it is mind-healing that is being given today.

12 CRANIAL NERVES

- | | |
|---------------|----------------------|
| 1. Olfactory | 9. Glossopharyngeal |
| 2. Optic | 10. Pneumogastric |
| 3. Oculomotor | 11. Spinal Accessory |
| 4. Trochlear | 12. Hypoglossal |
| 5. Trigeminal | |
| 6. Abducent | |
| 7. Facial | |
| 8. Auditory | |

It is the mind-activity that created the physical body as it is.

It is man's fall-back into the depths, becoming more and more solidified: he has now become 'salted,' and the more man turns to the lower desires the more gross he becomes. It is when man turns towards the 'spiritual' that he becomes more pale in the countenance: you do not then find him with a red beefy face, which happens when he turns to the lower: he becomes more sensitised.

This is the stripping; the refining of the glandular system; the refining of the mind.

We know that your Earth-plane at the present moment is not easy to face and wrestle with: but then, man has put it into operation, and this then is where you must make a great effort: but where you make sufficient effort we show you the way to take the next step. You may say to make a very vast sacrifice. Very well;

you either make the sacrifice, or you do not. Man will go on in his old way and then find, to his detriment, that he was never able to retrieve what he lost.

It is going to be a very important time. Man was warned of this: he is either going to seek upwards, or he is going to find himself lost in the depths.

We are struggling very hard, changing the LAW, so that man does not set into operation a robot state and pours out to the heights such wisdom that he eventually finds, instead of receiving wisdom from the Planes he is only going to receive a robot communication. Oh yes! he is building up an understanding of space-travel and ogres up in the planes: he is creating them by his own ideas.

Man either follows in a sheep-like way, or he creates. Once you start to create you know then you become connected with the Gods; you become a live atom of the Gods, and the Gods make themselves in linkage with you: but it is also by vibration that you are doing it. Man is the creator; he builds up these states.

Man is the creator in the depths, but what man has to avoid is becoming a 'second Atlantis' where he believes "he is a God and there is no other." He has to realise that he is only the basic of what he can become. What he does become is what he links up with in the Heights: then he becomes a part of the great cell creation of the Manu construction. You go back to what you came from, and there you become then as a part of the Intelligencia. When you go up onto the Planes you still are a cell of the Intelligencia.

Man is the vessel in the depths. He is the human body or cauldron building up in the depths.

I suppose that is the real depth of intellect, in the sense that he creates an ego?

That is quite true: man's idea of his own self-importance. Man has lost the reverence to the Heights, to the great Powers there from which he is being born. That is why man, when he sends his mind up towards the Godhead, and sees it in simplicity, is ever being drawn towards that Godhead, and he creates it within his own mind.

"Let there be Light, and there will be Light."

Quite true: he is creating a Godhead within his own mind: he is bringing into birth the great Wealth of the Heights, that eventually the Divine Presence can find its way into his being; and then he is born of the Christos-wisdom. These are great Living Powers that become his mind creation; the wealth of his mind: the poise of his mind; the vibration of his mind.

Man is the labourer and is ever sending up to his heights, his mind capacity, as a vibrating source, his fatherhood, his divine quality as light, eventually to carry upon his head the Kistophori, the Wealth of Light; the Basket of Light.

THAT IS WHAT IS GOING TO BE THE MEANS OF GRAVITATING MAN TO THE PLANE EACH HAS BUILT UP BY HERE AND NOW.

Readers' Letters

WE are absolutely positive that there is not one reader who will not welcome our magnificent new Crest, The Eagle. Drawn especially by School artist Dinah Stewart, it aptly suits our Readers Column, and will be our symbol in the future, taking the Scorpionic Power where'er it flies. It seems fitting to begin to use it this month, because we have had a record number of letters. So at least please be extra patient with us as we hasten to answer them! So many new readers are writing in that it is a constant joy to us to see the new Word spreading. Most outstanding amongst the letters—and how difficult to choose which is the best out of so many 'best'—is that of Mrs. Margaret Hamilton of Eire who tells us that if it were not for the Teachings going forth in this Gazette and from this School, this world would have been doomed to become a mindless race.

And how true this is. No wonder so many write in, lost for words to describe their feelings in praise of Mrs. Spearman-Cook's struggles and efforts.

There is no doubt whatsoever that the Readers themselves can do most good to spread Universal Philosophy, for there is no better way to do it than by trying to emulate her, and to follow her 'signposts' along the Road. Practical example and 'proof in the pudding' is the surest method. So to all our Readers Everywhere throughout the World, let us prepare of a bumper Christmas, and may we all do our hardest to spread the Word and thus encourage more and more to come and join with us. For we all know Ra-Men-Ra's Teachings are the Life Blood Infusion to the World; let us at least help others to sup from this great Banquet!

★ ★ ★

**Mrs. Margaret Hamilton,
County Cork, Eire.**

My husband and I eagerly look forward to the paper each month, it is like news from Heaven to guide and strengthen us forward on our way. The articles get more and more gloriously awe-inspiring in the strength of their wisdom. I especially liked the Interpretation of the Bible stories of Job and Daniel.

The wisdom gleaned from these stories, must surely give Light and understanding to all who have experienced victimisation—and so have come up against the full force of the anti-christ—who regard the deliberate desecration of the mind as a great joke, and who by acting together, as one body, can have their conduct excused in secret, with the threat of imprisonment or being locked up as insane, if

★ ★ ★

**Mrs. Vicki Jerry,
Indiana, U.S.A.**

I have been planning for some time to subscribe for this paper but seems I always to get side tracked. This time I was on vacation. I do love the Gazette very much; love the Astrology part, because I have always been interested in it; wish I knew more about, but I always seem to have too many irons in the fire to study it. I love to read and study, want so much to advance Spiritually, and to recognise some of the past lives and know the future, because I have always lived in the future, mattered not how bad things got. I know someday it would be better. I am typing out some health problems to Ra-Men-Ra.

The July issue has been very enlightening to me. The drawings seem to do something to me as I look at them.

**Miss Lana M. Fine,
California, U.S.A.**

Received three back issues of your very fine magazine, from Mrs. May Fookes who writes articles for your paper, and loved them. I also have been "singing" the praises of

★★★★★★★★★★

ERRATA

A correction should be made to the second paragraph in column one on the back page of September 1964; the paragraph in Italics should be erased and the following substituted.

It was therefore she that first adopted the conception of Celibacy, but her son, her partner, made it a School Principle, which she has since established and honoured.

Mr. James Averill exceedingly regrets the inaccurate way in which the paragraph was written and is pleased to make plain the True position.

★★★★★★★★★★

The True Path

one objects to mindless subjection and conformity.

The undying and unyielding questing by Job of God, who keeps his gifts of Belief, Hope and Charity when Fate had done its worst against him which at last leads him to enlightenment, and the understanding of God's Higher Laws, and of man's need for experience, even as a scapegoat of the evil ones so that he can gain comprehension and understanding and hence superiority over those who would destroy him by Unbelief, Despair and Hate. This lesson is truly needed in these times of suffocating Darkness and Material Force.

Again in those glorious stories of Daniel who explains and expounds what was wrong in those dark and greedy times, and who wisely foretold that all would have to be undone

by hard gruelling suffering and fight to bring the earth laws back into harmony with the Divine Laws and Plan. It is not surprising that he fainted and fell sick at the visions which he saw would have to be borne by the one who had to bring the Light in the Aquarian Age.

May you have your reward in full measure, for bringing such light to the Multitudes, and for the burdens and sacrifices you have had to bear, to withstand the forces of evil, who have been in opposition to the bringing of this Light to those in need. **We needy ones would have had mindlessness imposed on us were it not for your inspired teachings, which has taught us how to purify our minds and hence to grow wise and understanding and know the Mind of the Great One.**

New Readers

all the articles therein to her for so long, she asked me why I did not write directly to you and tell you all about it; so I am.

Having been a student or disciple of many things for many years, I find your magazine really different and instructive. Never received them so clear and plain, anyone could understand; if they stop to THINK as they read. Also love the pictures with their deep meanings and explanations under them. All in all I find the O.G. the best and most attractive one I ever read, and with so much good knowledge too.

Am still amazed how you and your workers can prepare such a good magazine monthly. For all the good service, I really do thank you all.

In May 1963 issue your article "THE ATOM AND ITS PARTICLES" is one I shall read over many times, it is splendid. As for the ASTROLOGY articles, I never read to much about that—accepting nothing from it, for me, that is—but those articles really hold my attention. In July 1964 (just received from May Fookes.) "MYSTERY OF THE THIRD EYE," the

Light Revealed, is another article to study deeply and to think about, therefore the Ra-Men-Ra's lecture on astrology, as given are indeed arousing my great interest. (I have four issues at hand to study over and over).

What a wonderful work you are doing, and send it all out for all to study and know about in the form of such an attractive magazine. What great words of wisdom, for those who wish to know; therefore, while your good work must have been going on for many years and I am only now hearing of it, I am grateful it is even so late, which is better than not at all.

**Mr. & Mrs. Harald Schubert,
Stockholm, Sweden.**

Many hearty thanks for sending me your indeed very interesting Occult Gazette. My little family: wife Inga and daughter Rose-Marie as well. I myself would appreciate it very much to be placed in the Healing Book of Names to be blessed by Ra-Men-Ra... **This I believe:** That those who live, have lived before; That, in our present state of life—the seed we planted long ago has blossomed and bears fruit of some kind, which will decay, and rise again with

attributes of good will, some distant time.

It follows then: if every word and thought and act will breed a blessing or a curse, we can accept as simple truth that each good deed and kindly thought to our fellowman will tend to clothe the constant soul in beauty and rebound to bless our future lives.

**Mr. Ronald Wellstead,
Reading, Berks.**

The Editorial in the specimen copy of O.G. which you so kindly sent, has convinced me that I have found the right path, and it is a question of taking it. I know how hard and difficult a task it must be, and it is something I have been avoiding for a long time, but having sensed the friendliness and sympathetic understanding through your columns, I find it gives me fresh hope and strength to try harder. I have been interested in esoteric subjects for the past 18 months now, and up to the present have been unable to decide upon any definite line of work and study. Perhaps you might be kind enough to advise me here. I would be extremely grateful. I am aware of the pitfalls, some of the dangers that lie hidden to the novice of the occult. Your publication shows a truly genuine and authentic approach. I am particularly impressed with your illustrations. Again my many thanks for appreciation to all those responsible and contributive towards the Gazette's production.

**Alison H. Fry,
Perris, Calif., U.S.A.**

I was very pleased with my 'Gazette.' Please send me a subscription enclosed. I had read it a long time ago but was not ready to comprehend its import. After a continual search for answer I find myself with a mountain of information and only beginning. We found information pertaining to benefit of Diet, Sex control, Alkaline diet, Stonemeal fertilisation etc. (in U.S. from Health Research. Moklumne Hill, Calif.) and later progressed into astrology and other evidence of the harmony and higher laws. Then from the works of "Hotema," (the above organisation) I ran across the Aquarian Age Bible: Thinking and Destiny by Percival, I suppose you have this volume but words fail in my praise of this "Book of Light," which parallels the work you are doing. We have a great opportunity in this age. Would like to hear from others in search of truth.

Old Friends

Mrs. C. Oates, Cleethorpes.

I have known you ever since you moved into 6, Phillimore Place, and have been in touch with you up to this day. My reason for not writing you often is, that I have no questions to bother you with. What I have previously known, and what I have been taught through you being the Blessed and chosen instrument of the Beloved "Ra-Men-Ra." I had no occasion to ask questions and waste your valuable time.

I know that I cannot teach

you anything, but I can at least give you my appreciation of your sacrifice and the value of the one thing I do not possess... **The Patience of Job...** and I know that has been tried to the utmost by mortals writing and asking you foolish questions, while living in an unbalanced crazy world... while calamities are at the door... and if any others can beat you in answering stupid questions with kindness and courtesy, I would like to know them... I defy anybody to steal the credit due to your marvellous work for this "New age Teaching... TRUTH." Your recent fight for life proves that you are and were always overshadowed by a greater Power than others realised... Indeed I have always known that... I have seen him in his Robes... and your brave venture... I will always remember.

Wonderful Work

Mr. Sam Taylor, F.R.C., Leeds.

Although it is now 1 a.m. I felt impelled to write to you and thank you for the receipt of a copy of the (September) **Occult Gazette.** I will pass your copy on to a fellow student. I get a copy each month from my newsagent. Your publication is certainly in my street. I read many occult publications but I must truthfully confess that your paper excels them all. You certainly keep me morally, Spiritually and Physically healthy. As a Rosicrucian and a Mason, your paper completes the triangle. The illustrations in your paper are a complete lesson; true to the old Aphorism 'Every picture tells a story.' If I had the necessary equipment, I would photograph each picture and have them framed. Continued long life to the **Occult Gazette.** Much more useful than heavy tedious book reading.

A PAPER FOR INITIATES.

**Mrs. N. Smith,
Paignton, Devon.**

I am eager to come to the lectures and learn all I can. The more I read the **Gazette** the more desirous I become to know more. Your article on "The Mirror of Illusion" (September 1964) has answered many questions in my mind. I have on many occasions pondered on the slow vibrations of man and felt the need of a Teacher that I may learn the true way to release Splendour within and be of profitable service to others. I shall be glad to take up some of the studies and am very interested in esoteric astrology and Astro-Diagnosis.

**Mrs. Elsie Philby,
Washington, U.S.A.**

Bless you for the **Occult Gazette.** I am enclosing money for my subscription, also would you please give me some advice for the treatment of my grand-daughter, whom the doctor say has Diabetes. I love you, I praise you and bless you for your wonderful work. The **Occult Gazette** is freely shared by me to my many friends in the truth work.

All readers who similarly face the dire problem of Diabetes should read the very informative article by Mrs. Spearman-Cook in the June Issue 1963. (Editor).

The World Speaks

SO large were the complimentary letters this month that we thought that readers might like to get a cross section of how the 'world speaks.' Only the smallest extract from these letters has been taken, and then only from a small percentage of the letters in question. (Editor).

Mr. J. Ell, London, N.8.

Best wishes, and when will you be able to publish a better edition, than the August one for 1964? Can PERFECTION be excelled?

M. K. Budu-Kwatiab, Nigeria.

Wishing you all the moral support, I thank you most sincerely also for equipping me with such "Rare" sages of the past and present.

From a reader in Auckland, New Zealand.

I have been reading the Occult Gazette with great appreciation for three years.

I ask blessings for you on account of the strenuous and selfless work you are doing on behalf of humanity.

Miss J. Whitmore, Surrey.

The Astrology articles in the Gazette, enjoy very much also on herbs, because I love walking and collecting plants.

Jayne M. Foreman, U.S.A.

I get your O.G. and a great deal of it is over my head but I read it any way. I'm waiting for the unfoldment which is bound to come. I love everything about the Paper.

A. Mattia, Maryland, U.S.A.

The paper is still the best yet. The Article 'The Solar Inbirth' had tremendous depth that I read it over three times each time absorbing something new.

Mrs. M. Knutson, Calif., U.S.A.

Thank You for a wonderful paper. The articles are superb and the illustrations are actually out of this world.

Mr. Jerzy Wozniak, Poland.

Thank you very much for the Occult Gazette I receive every month. I am very happy and ashamed that you send it without money. I cannot send money from Poland but I enclose some stamps to-day.

Mrs. J. Tyrrell, Mass., U.S.A.

I do enjoy your Occult Gazette very much, even though I am a novice. I understand quite a bit and agree with your Teachings.

*** Generous Invitations ***

Miss Celia Barrie, Authoress, Chaldon, Surrey.

I am wondering whether any readers (female) would like to come and spend a day here as my guest, and discuss Occult and other progressive subjects. Perhaps anyone interested would like to phone Caterham 42178 (from London number is C.A.42178). I should be delighted to see them, and perhaps some of our Crawley Health Group would join us and we could learn from each other.

Earlier Miss Barrie had written regarding Natural Health parties in Sussex.

We cordially invite all Zodiac Readers, who are interested in nature-cure, to attend our Natural Health Coffee parties. We feel it is only by drugless healing and a healthy way of

Mr. F. E. Hart, Surrey.

Thank you for all your valuable work, and the wisdom gained from your writings that help to clear the difficulties which besets the mind.

Mr. W. S. Manspeaker, Philadelphia, U.S.A.

An unknown friend sent me a copy of June-64, and I could not get my check book out fast enough.

Mr. A. F. Lloyd, Joh'burg, S.A.

I thank you for the Occult Gazette, I have found it interesting and extremely helpful. It is the first time I have experienced or read Occult Literature in such view.

Mr. F. Rhodes, Yorkshire, U.K.

I think your magazine is very instructive and inspiring, also a good meal of Spiritual food every time it is digested, (also wisdom above all).

Mr. Frank Tomlinson, Penzance, Cornwall, U.K.

It was on the recommendation of Mr. Ernest Slater, that I was brought in touch with the movement and it has brought about greater continuity of thought and purpose, which to me, at least, was previously unknown.

Rev. Gladys A. Cunningham, Illinois, U.S.A.

I enjoy receiving the Occult Gazette so very very much, and read every article. It is really a magazine containing a wisdom everybody should have.

R. F. Scott, Kansas, U.S.A.

We thank you for the paper and send our own proper love, respect and thanks to Gladys Spearman-Cook for being the channel thru which God is able to earth to this plane. You people are in motion and are getting the work done, and it is our intention to be moving shortly in the work ourselves.

Mrs. L. Rudd, Birmingham.

Many thanks for the O.G. It is so full of interest, as usual, I can hardly put it down... for I realise that the true Spirit Teachings are more than gold.

life that we can fight vivisection of animals. So long as we buy drugs for every little ache or pain the vivisection laboratories will flourish, and ill-health and disease will ever increase by their harmful side-effects, which often do not appear until some time after, due to delayed action. We have witnessed remarkable and rapid cures by natural methods where drugs have failed for years; and a new state of bouyant health is experienced.

These meetings take place in various parts of Sussex and are very popular indeed. If interested please phone Mrs. J. Coomber, 59 Five Acres, Northgate, Crawley, Sussex. Crawley 21050. Best wishes from the "Guinea Pigs."

Astrology Comments

AN increasingly large and ever growing interest in Astrology has been noticed in the past year, and the Astrological lectures are amongst our best-sellers. So many requests have been sent in for Full Delineations, as well as the normal Astro-diagnosis by interview, that it has become impossible to keep pace with the demand. As a result we have started Full Delineations by Tape Recorder. The tape is a special long recording Polyester Tape, 1200 ft. in length on a spool 5 1/2 inches in width, and it is recorded for an hour on each side at a speed of 3 1/2 inches per second, a total of two hours. Dr. Foster's letter was sent having received one of the first recordings. (Editor).

Dr. Geo. C. Foster, N.D., D.O., D.N., London.

Thousand thanks for your very illuminative, absorbing and interesting diagnosis of my nativity chart. I spent an exhilarating two hours in the dark on Sunday listening to your exhortations. What you had to say has given me much "food for thought." If I could have had such a "reading" in my early youth, I could have strived to reach the "Inner-Self" instead of having to wait near 60 years to achieve that laudable objective. One thing, I have given my all to the service of humanity, trying to make their "Temples" a fit abode for their souls.

I want to devote the remainder of my life on this Planet to healing. What think you of this ideal? What a wonderful knowledge you possess of—to some—that controversial subject, Astrology. I wish I had studied it in my younger days. Although 60 I only feel about 44, and do not look a day older than 50. Age is only chronological. Disease and death are hypnotised illusions. A big thank you for your time and trouble.

A Lady from the West of England.

Having attended for an Astro-diagnosis, wrote

Thanks very much for going to so much trouble to produce such a thorough astro-diagnosis. I shall need to read some of it many times to properly digest it. I usually do this when it is difficult to know what sort of action to take.

Looking at these charts brings fresh enlightenment to mind and new inspiration. Your first page makes me think back about what was happening twenty years ago. When I had little choice about making big decisions God knows the going has been hard since, but I have reached a point when I am glad I came no other way. The easy way never satisfies me, physically, mentally, and spiritually.

God knows those tendencies and is making utmost use of it. What I said was impossible is proving to be amazingly possible now. I knew it was possible, but how impossible it looked, that is why I never reckoned to move on my own strength. The reason why everything appears to be so frustrating is really all in my favour, no setback from now

onwards can harm my density. It will only mean a change of direction indicated.

The influences controlling my life, have so increased I can fall back on them. They are impossible to break but lift me with buoyancy. They are arranged similar to the rays of the sun with me in the centre, once started they rarely stop being stronger and stronger. If they wither away its only because Destiny decides I am better off without them. The exciting point about them, once understood, is if one makes an unexpected positive development.

The others seem forced to move with it. But when there are so many to consider progress is bound to be slow but Divinely sure. The foundation built up during those years cannot be undermined for they are Divine and continually correct. I agree life has made me very determined with almost too much will power, which has been the cause of past volcanic eruptions. I cannot quite agree that I have been grossly misled by religious priestcraft.

I would say that is what they tried to do but I seem to have a built-in radar; Voice of God and inward light make my spirit clear my sight. Those words are vital to me, priestcraft evil and otherwise has tried to dominate my life, against which I have fought. I will agree that these are most difficult to analyse, that is decide whether false or true; such investigation amongst much treachery and deceit all but cost me my life. It has brought a whole change in my make-up, the shocks have strengthened me inwardly and I am sorry for those in the church stupid enough to continue to deliberately oppose me.

I am a natural fighter. I think I was born fighting but I shall not have to fight for the realisation of my hopes, they are in the hands of God. He will either wipe out my enemies or those who persist in blocking the way or turn them into utter confusion. He will turn everything upside down and I will then be free with amazing experiences and knowledge.

Spiritual growth when it is healthy and continuous, makes me think of a snake discarding its skin; after each period of spiritual progress there is

bound to be mental and physical adjustment, all very much for the good. I have felt real changes in myself. There is little doubt that you and the Occult Gazette was brought in to lessen certain tensions and diminish certain obstacles, because of your unusual knowledge and experience. Without assistance and support, which you are able to give, I know that evil priestcraft would have completely destroyed me, and I know they are licking their wounds and waiting for another chance.

I have no worries about the future as recent progress has been too Divinely governed to allow any doubts to prevail. It is just a matter of living out each day. Considering you were a complete stranger at the beginning of the year and there has been only one personal contact I think you've summed up my pros and cons fairly and squarely.

Mrs. Joan Flavell, Auckland, New Zealand.

I have been reading the 'Occult Gazette' each month now for the past eighteen months and think it is a truly wonderful magazine. The wisdom contained therein is boundless, and although I am unable to comprehend it all, I do receive much food for thought and get glimmerings of light from the various articles. As one grows in spiritual Awareness, so can one gain more from these advanced teachings. Sometimes, I feel as if the light will never get through to me, but I just keep on, and feel that one day the light will break through and reveal unto me answers to so many of the enigmas of today.

I am very interested in astrology and the interpretations given for the Charts shown in your magazine are exceedingly interesting and must be of very great help to the persons concerned. I am enclosing a copy of my own chart in the hope that I may be allowed to receive a spiritual interpretation of it, so that I may be guided or shown where my stumbling blocks are that I may endeavour to overcome them, as I feel that it is urgent that we clean up ourselves by eliminating or transmuting the negative karma.

READERS PLEASE NOTE

All regular Readers are offered the opportunity of having their Astrological Birth Maps cast and sent to them so that they are the better able to study and understand the Astrological Teachings in the Gazette. Would ALL Readers please note that it is essential for the casting and erecting of any map to know the following precise details.

- PLACE** Give exact Latitude and Longitude where the birth place is remote and not well known.
- DATE** The exact day, date and year should be given.
- TIME** This is very important, and each person should state the recognised Standard Time governing their Town, State or Country at birth, AND whether there was then existing any special local Daylight Saving Time advancing the Standard Time by one or two hours.
- GENERAL** Where Readers are not able to trace their Times of Birth, any general details will help, especially major events of marriage, children, deaths, travel and sickness.
- NUMBER** Lastly, PLEASE refer to the number of the Chart sent when writing regarding information needed. Endeavour to avoid searching the records by this lack of consideration. (Editor).

Orion MAGAZINE BI-MONTHLY

Devoted to the study and development of AWARENESS and the disentanglement of human thought from the limitations of sense experience. Regions of the mind beyond normal consciousness are explored and presented for the purpose of comparative study.

Postal subscription by International Money Order. \$3 or 21/- per year. Sample copy 50¢ or 3/6. Write:

THE WATERS OF REJUVENATION

(A spontaneous lecture delivered on Wednesday 19th August 1964. All that in Italics are students questions and the remainder being that of Ra-Men-Ra, The "Voice" of the Masters that guide Gladys I. Spearman-Cook, Editor).

PEACE BE UNTO YOU ALL.

P I come amongst you, and as I come into your being I bring with me the Great Inrush of Wind that can be the means of rejuvenating you and helping you to find your electrical apparatus. Tonight I bring you Wisdom; tonight I seek to help you and to leave with the Earth knowledge that will help it to become rejuvenated by the inflowing Waters of the great Neptunian Stream. So I seek for your help that I can earth this wisdom, and so leave the Earth re-born. With your help, the whole World can be turned round; for Aries goes forth as the great Pioneer, and as he wrestles with Libra and as the inter-weaving takes place, the Law is re-born. This is the way man works in the depths; and he that can bring the great Rebirth of the Law is the one that is the Saviour in the depths of matter.

The Wealth of Mind

I WANT you to look at this very very carefully, and then I want some of you to try and give me what you perceive it to be.

(A slide was being shown on the screen of a spermatozoa seed and an ovum, both very much magnified, reproduced on page 12, col. 4).

Isn't it the seminal seed Ra-Men-Ra?

That is quite true it is the seminal seed bombarding the ovum. I have recently brought you the wisdom of the appearance of the Scorpii constellation,*9 and your scientist has told you that it is in the Galaxy of the Great Central Sun. Then if Scorpio rules your generative organs, this seed must be the Fiery wealth that comes unto you from that great Galaxy. Therefore can you not see what man has been fired with, from the beginning of Time until now?

THE GREAT ATOMIC POWER OF THE CENTRAL SUN.

Can you not see the heritage that lies within each soul, which he now has got to bring into birth and which, for some considerable time, he has only used in lust? Does this give you any idea of what it really does mean when the Initiator can begin the path of celibacy; how he can raise this great Atomic Wealth to become the light of the mind? This is the vast wealth that has got to be earthed. Then if the Central Sun is the great Atomic Pile, what is the Central Sun in the eyes of religion?

The great Divine Godhead, Hephaistos the Fire-God, which when brought down to the depths and woven by the feminine principle, Aries, as the mind-conception, goes forth and labours through the creative houses of the lower part of the Chart until he can bring it round to Libra (see the world chart on page 6); and of course there is an intercalary*10 taking place all the time, with the intercalaries beginning between Taurus and Scorpio that there can be a continual inflow of Fire to replenish the soul in its struggles.

*9 For a note on the Scorpio Constellation see that on page 3. (Editor).

*10 The word Intercalary is esoterically used as describing the insertion of an extra day, month or year into the Calendar so that the Earth dates coincide with the movement and timing of the Sun through the Constellations of the Zodiac which movement brings the Seasons into being. Esoterically it refers to the special establishment of action in true foundation so that the soul keeps into Tune with the Solar Light, the spiritual Sun, and thus is obeying the Seasons of growth, harmony and balance. (Editor).

Once Virgo as the mind begins to perceive the royal wealth, then Venus-Urania rises on the 7th house and is ready to go forth to brave and wrestle with the 8th house, the shores of Byblos. That is where the soul either takes on of the Southern Cross and remains in the tomb, or is able to cast it; either Andromeda comes up on the shore and finds her garments alight, or she runs back to Delphi in shame.

Now I know this is going to be a vast problem to many of you as you wrestle with your precious waters, (the seminal fluid) and where many of you, particularly the male, in wrestling with this difficulty, find an over-spilling. This is where you find in your 12th Chapter of Matthew, the Christos warns them not to be ashamed.

Now I can give you further enlightenment upon that for those of you that are struggling. Where there is this over-spilling, which is no fault of your own, you will find it is only the waters that depart, leaving the seed behind. It is only where there is a physical ejection that the seed is lost. Does that seem logical to you? You lose the waters, but not the seed.

I suppose, Ra-Men-Ra, at that particular juncture the heights of fluidity are about to take place and be translated into a mind-light, and the soul has not been able to "cross over the river"...

... and get over the 'Red sea' sufficiently to grasp the waters or the wisdom of the other side.

So you just get boiled up into a state of, first, "moist air," and then "dry air." Is that what Tefnut and Shu were then?

Quite true: the labouring back and forth through the mind, so that when you take in of this Wealth—which many of you are doing, even by your daily duties when your mind is alert—you find yourself becoming in abundance; for the man who is in abundance is the man who is rich with seed: he is drawing great wealth from the Scorpio heights.

And the same applies to the female: she is in no whit the different: they are only separated by the appendage, and the time will come when it will go back to its normal degree of just an appendage necessary for the workings in the depths, and nothing more; where the soul will be completely born of mind.

Now this has been proven, it can be done; and where the soul is truly labouring these waters can be taken up as mind-light. Mind-birth is what man should have put into operation instead of the physical birth.

own country try and get it into activity through wisdom; wisdom of the mind, and not sheer activity of destruction.

Thalidomide Children

BUT where do you think your Thalidomide children are coming from? You don't think they are coming from the Scorpii constellation, do you? And they are not just (due to) destructive drugs. You cannot destroy the great Elements of the Heights. No! they are a "bastard race," and that would be a pygmy race that would start off the new Nation. This is what had to be avoided, and is what the Law is struggling with at the present moment; to enforce changes through wisdom. As I earth it with you, it cannot help but go out.

You have a very clear picture there, and a very fine

.... HERE BY THE LAKE HE WROUGHT

BY prayer he called, by faith he prepared, by will he fought, and thus at the hour the Powers and the Solar Rains descended so he, as Hephaistos, used all his energy fires in his rock, his cauda equina, to build and fashion the Crown of Mind. As he laboured so slowly the Arc of the Higher Mind was raised and he bathed uplifted in the Spirit Fire as it descended in ever greater abundance. All mankind could do this daily if only they would turn their attention to their Spiritual Destiny, and ceased their endless quest for pleasure, sensation and personal desire.

So many at the present moment are only bringing into birth bastard creations: they are not bringing in the elements of the higher Planes: they are in no whit connected with the higher Waters of Scorpio and are only refreshing themselves from the lower planes; consequently they are in no whit giving life to a spiritual child. Can you appreciate that? They are only drinking from the waters of the maelstrom.

Is that not what happened in Atlantis?

That's quite true. This is what happened in Ancient China when it became flooded with hordes and hordes of children; a bastard race. This is what they are trying to replenish now by activity. This is what happens to a nation that finds itself in its lower depths: they go to war and bring activity and strength to their males.

This is what you want to try and avoid, and in your

plate, where you see the bombarding of the ovum and where it then begins to separate and start to boil up and become born. This is one of the great wonders of creation, and of which man is the creator, showing you what you can do through the mind. This should be taking place through the mind, and not in the lower depths. Now the Law is going to take over, and gradually you are going to find a change-over in the creation of man himself.

Ra-Men-Ra, the chromosomes there; are they equivalent to the phosphorous light in the mind?

That's quite true: there is your sparking that has to take place.

Now I will give you a further secret. Where a deliberate destruction is tried by a mother, to destroy the child, it begins to bring detriment to this fusing point. Can you see this? And that is why there has been such a great

effort on the part of we belonging to this instrument to get the Uranian Fire sparking in her depths. Now have you any understanding of that? (Yes! Yes!)

She was made, and has been made all the way through, to be used as the Scapegoat; and she has already announced that a great effort was made to deter her from coming into the womb, which in the first place brought a detriment to the real fusing of the seed and to the chromosome activity.

And this is what man does to his own child!!

As I see it, Ra-Men-Ra, looking at this chromosome, it is a miniature kundalini of its own, which, when linked with the phallus, instinctively brings the kundalini up.

Quite true; but you will note that it casts the tail and it takes on every stage that the soul has had to pass through in its rebirth up from the depths: it went right down into the very depths of the waters in its fall-back and it has to pass through every stage to give rebirth as the foetus; and most of its rebirth then takes place through the osmosis action. Now I have tried to give you that as simply as possible so that there is no confusion.

What man fails to see is that the spirit which is the creation in this foetus is the man; not the foetus itself. This is what man fails to see; the Spirit embryo. Although, through these Teachings going out onto the maelstrom the scientist is already beginning to accept that there is another creation within the soul apart from a physical body.

Now that has only been as a result of these Teachings. You may be small in number, but where you are genuine in your seeking, you are the means of helping the Great Masters to earth the Word; and that is all we ask of you. The "Gazette" does not belong to the Temple; it is the Instrument of the Masters. We control that Paper: it is our Paper; it is our "Clarion" and our "Chronicle." That is why you will find the majority of writings are of the Instrument, for we are using our own Instrument of Propaganda.

Androgynicity and Mind-Companionship

ARE there any other questions that any of you would like to ask, because we are treading on new-born ground to which even we are finding it difficult to bring words; because we are really bringing right down into your midst, in a simple child-like language, the great Wealth of the Atomic Pile.

Could it be, Ra-Men-Ra, that the spermatozoa seed is electric, and that the seed of the woman in the ovum is the magnetic?

Quite true: there is your heights and your depths. But since the woman is born of herself, she is the great creature with the Seed of the Woman: she is the one with the mighty wealth. Man is ever drawing from the heights, but woman has always got her wealth in her tail: she is the great mystery.

It is not until the spirit enters that womb that life—and I take it the higher electric communication or linkage—takes place?

Quite true: it bombards her womb and breaks open the great wealth from the past.

Concid. on p.p. 12 and 13
