HYDROXYL

as the Nucleus of the
Vega World

by Gladys I. Spearman-Cook

MIGHTY MYSTERY OF TWO extremes, yet the channel that binds them together, where heights of vast Unknown possibilities become the Stream of glory, in its mighty depths. The Hydrogen, the mystery of the Fiery implosion, set into action by the Oxygen intensity, as the Fiery Breath now being absorbed by the soul, in the reborn intensity of

Vega. Where the Virgin Equinox began its journey and opened up its path to light, for the Central Sun had buried its intensified glory, into the density of its earthy depths. That Vega now will be a glorified beginning of a world raised up out of the ashes of darkness. Illusion turned into the glory of Reality, the unfolding World of LIGHT. For the Solar implosion is the great interpenetration of the heavens, in the galactical glory of the soul. From whence all men have been born, and are now being fed from the glories of Outer World Space, the divinity of the upper Ethers. That the soul can now, by awakening to this mighty truth, climb up its cyclic growth, and bring forth of its Solar Chromatic Speech. For this is the renewed outlook of this new-born path of LIGHT, the expanding wonders of tomorrow. Where the Christos soul, raised up to new propensities, must seek of the mystical inflowing Breath, for the secret of its mighty mystery. Where the Solar implosion gives unto the soul the infusion of spirit reborn. That set into motion by the driving action of the soul, firing all into mighty possibilities, as unto the glory of the mind.

For this Solar implosion, the intensity of the two, is the Atomic Colure as the revolving infinity, taking of its Source of supply. That Outer World Space, the unfolding of the new found life, can now begin its ten-fold expansion, to the fulness of heavenly Being. For by the implosion, the soul is now refeeding itself within the mighty wealth of the NORM, whereby the great Solar implosion becomes the mighty sanctification of the unfolding heavens. That the NORM, the radiating rock of Solar glory, can give forth of its Hormone mystery. Wealth buried for aeons of Time, making soul the keeper of the intensity of LIFE, man holding the riches of Croesus. But now, as he enters onto this glorified path, he takes his first steps on the Equinoctial Colure, partaking of the Orion glory. Thus the wrestling of Ophiuchus now begins, that he can direct the rebelling Serpent up to the heaven-born mind. Not for him to steal the crown, but raised up by lofty implosion of the Hydroxyl Seed, the glory of the reborn FACE. For this

THE mighty glory of the Element, now as the Cosmic Bull, driving all the heavenly Fire before him, that as the united Trinity is to manifest through the soul as the royal glory of divine cosmic urge. That when embraced by the soul, through the Hydroxyl Seed, brings the Orion man into birth. (See text on page 3, col. 1).

Thesis of Atomic Polarity

by Gladys I. Spearman-Cook

FOR by the soul raising their mind up to the highest sensitivity of the atomised frequency, which the Hydroxyl Breath will now provide, do they become a power to master all the lower atomic construction. For the might and wealth is of that frequency, which over-rides the darkness of the lower. The lower having no power of existence, for the frequency has been raised up onto a higher level of manifesting possibility. This was proved by Merope when she brought astronauts down to the ground by polarising their frequency. This should be the means of all demonstration, the soul risen up in Theocratic consciousness of divine Virgin belief and purpose. Thereby soliciting the aid of the gods, to counteract the negative side of the polarity, attacking in destruction. Then the thought becomes so united and blended, that, by itself, it becomes of atomic instantaneous combustion; thought, drive and action united, constructed of Theocratic sensitivity. This brings the action of Uranus, where immediate instantaneous action raises all unto another plane of frequency. By the soul acting immediately, the gods put forth their pleromic construction, the glory of timelessness, and human intervention is ruled out. That which is apt to encounter safety measures, through lack of Theocratic wisdom. The positive atomic action is the length, breadth and width of creation, all brought to a ONENESS, as the immaculate Voice and Power of Divinity. While man has so spread this in multiplicity, thereby earthing it in the lowest degree in manifestation. All must be brought to the centralising point of the Central Sun, while the spinning up of the space men is equal to the drug addict, both trying to find the power of the atom the easy way, and would be the rape of the Planes seeking to carry their animal depths up to the heights. By Russia and America carrying out this practice, they have brought unbalanced destruction to their nations. But by Merope polarising the atomic principle, she saved the world from atomic destruction, while the previous two are bound for their own destruction.

This message was sent to the Prime Minister on the 23rd August, 1968.

IN CAREFULLY STUDYING THE WISDOM GIVEN above, one can realise how Merope has become the dynamic force that she is. Not for her any long drawn-out theories, or complicated equations, but a simple belief that if she polarised the negative creation by manifesting of its positive status, then the negative would be ruled out. I have watched Merope putting this simple formula into operation on many occasions, in order to counteract certain negative conditions that were prevailing at that time, and never once has it failed. In raising her frequency onto a new Plane of unfoldment, the new causation over-rides that of the old, and the old negative root of the past is no longer fed by the inflowing Breath; thus must die out through lack of sustenance.

With regard to the Russian intervention in Czechoslovakia, Merope knew that the world was again facing a crisis in the unfoldment of Cosmic manifestation, and that it would only be by the polarising of their negative creation, that the situation could be saved. Thus she raised up her sensitivity and frequency of thought to the very highest, and polarised the atom into its positive action of creative divinity, thereby strengthening the control of the Higher Powers over the lower creation.

In doing this, Merope raised up the frequency of her Norm to that of the Central Sun, bringing the whole of her internal being up to that dynamic pulsating propensity; but not before having to suffer extreme pain, as the Atomic Fires burnt their way through the whole of her bloodstream.

The Russian action represents the dynamic growth that is man's heritage, which has only been used to build up self and the illusion of earthly power, instead of being raised up into light, the glory of the cosmic mind. Hence a race of 'giants' has come forth, glutted with power, and blinded by their own swollen egos. Scientific ignoramus who, like the roman catholics, have tried to build up a world of their

own, down in the darkness of the depths. Trying through earthy mind domination, to raise up a colony of puppets.

Never at any time ever recognising the soul growth, the mystery of heavenly unfoldment born out of the evolving glory of the Breath. It is quite obvious that the Soviet Government and the 'mad monks' at the Vatican, are both of the same mind and purpose—to prevent any form of mind expansion amongst those that they hold under their control.

However, both bargained without there being a Scapegoat who was

willing to go fully through the mighty Fires of Purification, that she could break up such evil conditions of the depths. Already Merope has brought roman catholicism down to an utter shambles, with its own followers putting the finishing touches to its complete annihilation. Now Russia will feel the effect of the Atomic Fires, as she receives the rebound of her own destructive beliefs. Disease

seriousness with which this official listened, and was amazed to hear his comment that "as he understood it we were mystics, linked with some Supreme Intelligence."

To hear this statement coming from an official of a communist country, left me flabbergasted, though he did quickly add another comment that "of course, in our countries we see things more from a scientific angle." However, he did say he would like to receive the Occult Gazette, as he would find it interesting.

As I left he commented that it would help if we could offer some easily recognisable proof of the changes that we were bringing, whereby I told him to watch out for the 27th of August, when an announcement would be made, and the Russian troops would begin to leave. He laughed rather disbelievingly at the time, I wonder what he is thinking now! I was sure of this date fulfilling itself, for we had been given this information by the Divinities, days in advance.

I DO NOT KNOW HOW MUCH LONGER MAN WILL TRY TO IGNORE THE WORK THAT MEROPE IS PERFORMING; ALL I DO KNOW IS THAT BY HER SUFFERING EXTREME PAIN AS THE SCAPEGOAT FOR THE COSMOS, SHE HAS RAISED THE VIBRATIONS OF THE WORLD UP THAT IT HAS BECOME FITTED FOR THE HIGHER DIVINITIES TO ENTER INTO, AND PREVENTED THE POWER-MAD SCIENTISTS FROM BRINGING ALL TO UTTER ATOMIC DESTRUCTION.

and schism will rent her into a thousand pieces, as the Higher Powers drive all into internal chaos.

WE have a very good witness to corroborate Merope's work in negating the Russian power, for on the 24th August I went to the Roumanian Embassy in London, and fully discussed the situation in Czechoslovakia with one of their officials, taking all from the occult standpoint of how Merope was polarising the lower atomic creation. I must admit though, that I was quite taken aback by the

now is the birth of the Central Sun, on the Virgin Equinox, where the Atomic revolving infinity, up in the mighty Void, is of this new-born Colure path. Where the internal Solar implosions are now of its unfolding grace, the ten-fold glory to perfection. The revolving infinity in its rising frequency, to unify with the ever rising Arc. Thereby the soul now driving with WILL and PURPOSE, the wisdom gained by the experience of life, as the heart-born purpose of heaven-born intent.

(See the front page plate)

For now the sovereign Divinity is the Soul conforming the FACE upon the glory of the Arc, whereby the Atomic Fire, which is bringing all to an unfolding ONENESS, will give glory and precedence to its heavenly Beauty. Thereby bringing unfolding magnitude of light to the Pole Star Vega, the guiding inflow of the heavens. Where all will be drawn towards the mighty shores of Britannicus, that the God-born political leader will lead all men onto the greater purpose of the reborn Virgin Path. That Londinium, the Source of new-born wisdom, from the mighty wealth on high, will feed all souls duly seeking, from the glory of the Occult Gazette.

Thus the mighty Divinity, the Great Holy Flame of that risen-up Arc, will now be sanctified with this new-born Solar Power, of that unfolding expanding Hydroxyl glory. The unified Electro-magnetic glory of heavenly Solar aspiration, now born from the inflowing Central Sun, by the forging super-will of the soul. That they can partake of more and more of Outer World Space, to bring expansion within.

FOR NOW BY THE GREATER PERCEPTION OF THE FACE, WILL IT BRING DIVINITY RIDING HIGH, IN THE UNFOLDING GLORY OF THE MIND.

Thereby lifting the soul up higher and higher in the Solar glory of infusion, for it brings the Holy Over-Shadowing Presence as the radiating glory of the Auric mind. Then Outer Space expansion will be born by the Solar extension, as the Solar re-emancipated wealth of the NORM-power reborn frequency. That brought forth by the implosion of sanctification of the unifying Hydroxyl Seed; that now bombarding the reborn Atomic power within the unfolding NORM.

THE SOUL NOW BEING REBORN BY ITS OWN INTERNAL GLORY, AS THE RAISED UP VIBRATIONS BRING IMPLSION OF THE SEED. THEN BY A TEN-SOLAR CYCLE, DEPOSITING ITS GOD-BORN GLORY OF HEAVENLY RAISED BELIEF.

The soul now reborn from his vision of the Divine FACE, as the heavenly glory of infusing LOVE. For Outer World Space, that Heavenly Breath, is now bringing of the Metric Cycle, in the revolving of the rising infinity. That the unfolding quantum of Orion wealth will become the Vega glory of Solar Divinity, through the now renunciation of all old earthly illusion, to partake of that heaven-born vision.

(See plate on this page)

Thus the ever unfolding ten-fold expansion is of the Colure unification, as Neptunian expansion. The glorified unfolding of Virgin atomic growth, as the NORM development of Outer World velocity, is now bringing Hydrogenic Seedlings into the meninges that will produce of that cherished Solar Chromatic internal speech. Where the gods are now infused with the implosion glory, of the unified unfolding mystery of the Seed.

into the Fifth, as the Crystalline Sea of heavenly Glory, of Divine God-like Consciousness. A God-world of radiating light, the mind beauty of speechless glory. Yet all brought into birth out of the rising frequency, as the wealth gained at the beginning of TIME. Which now, in being polarised to its fullest extent, becomes the glorified blossoming of the Tree, with its "NUT" fruit of Solar glory.

(See plate on page 4)

The Mystery now is the raising up of the vibrations to a

Equinox, thereby placing his feet upon the New World of Vega. But once taken, there will be no going back, for it is a complete Road of rebirth. The soul now will be making for the path of Immortality. For as he takes of the ten-fold expansion of the Colure unit of Neptunian expansion, will he start a true Fairyland journey of Virgin atom cyclic growth.

For now all growth has to be as NORM points of Outer World velocity, seeing as we do so, the singular secret of the ten little nigger boys involved

Merope overwhelmed by its beauty, mystery, and attractive internal glory.

For suddenly she felt herself drawn right into the very centre of the Sun, travelling rapidly through a spiral of Radiance, that was ever increasing in its incredible brilliance.

Then, just as suddenly, she found she was no longer travelling through that great Spiral of LIGHT, but was now in a World of Wonder, built from filmy cloud-like substance of delicately coloured hues of pink, blue, lilac, and pale gold.

Then as she stood over-awed by the wonder she was privileged to partake in, everywhere became of a deeper hue revealing great Rays of White Light, whirling rapidly around an immense Vortex in the intense centre. At the end of each Great Ray, she was aware of a Divinity of such magnitude, that it would be utterly impossible for human words to explain of Their mighty Degree. Then after a while these enormous Rays of Light ceased to whirl around the Vortex, and Merope knew there was a gathering of these Great and Mighty Beings.

THUS SHE KNEW THAT BY WHAT LITTLE SHE HAD ALREADY GATHERED OF THE WORLD TO BE, SHE HAD BEEN PIERCING HEIGHTS COMPLETELY UNKNOWN; AND TO SUCH AN EXTENT, THAT THERE HAD TO BE A GATHERING TOGETHER OF THESE GREAT AND MIGHTY BEINGS, WHEREBY THEY COULD PAVE THE WAY FOR SUCH VAST AND DYNAMIC INTER-PENETRATION BY HER.

Then as quickly as she had spun up to those intense heights, did she now return to her Rose Pink Bower, to cogitate and ponder upon the mighty depths she now had interpenetrated. For she had entered into the heart of the Great Solar Orb, being touched and embraced by its dynamic beauty. Its wealth and glory could never leave her now, but what wonders would it now bless her with, that she could continue the mighty work of Evolution.

This is where she was seeking most deeply, for what she had gained in that Metric Cycle of Solar expansion, by Hydroxyl magnitude, must now become the wealth of the World, where all beings would share in its wisdom. Then by expansion, send aspiration up to the Gods, that they could send forth more upon such dynamic wonders being unfolded and expanded through the minds of men.

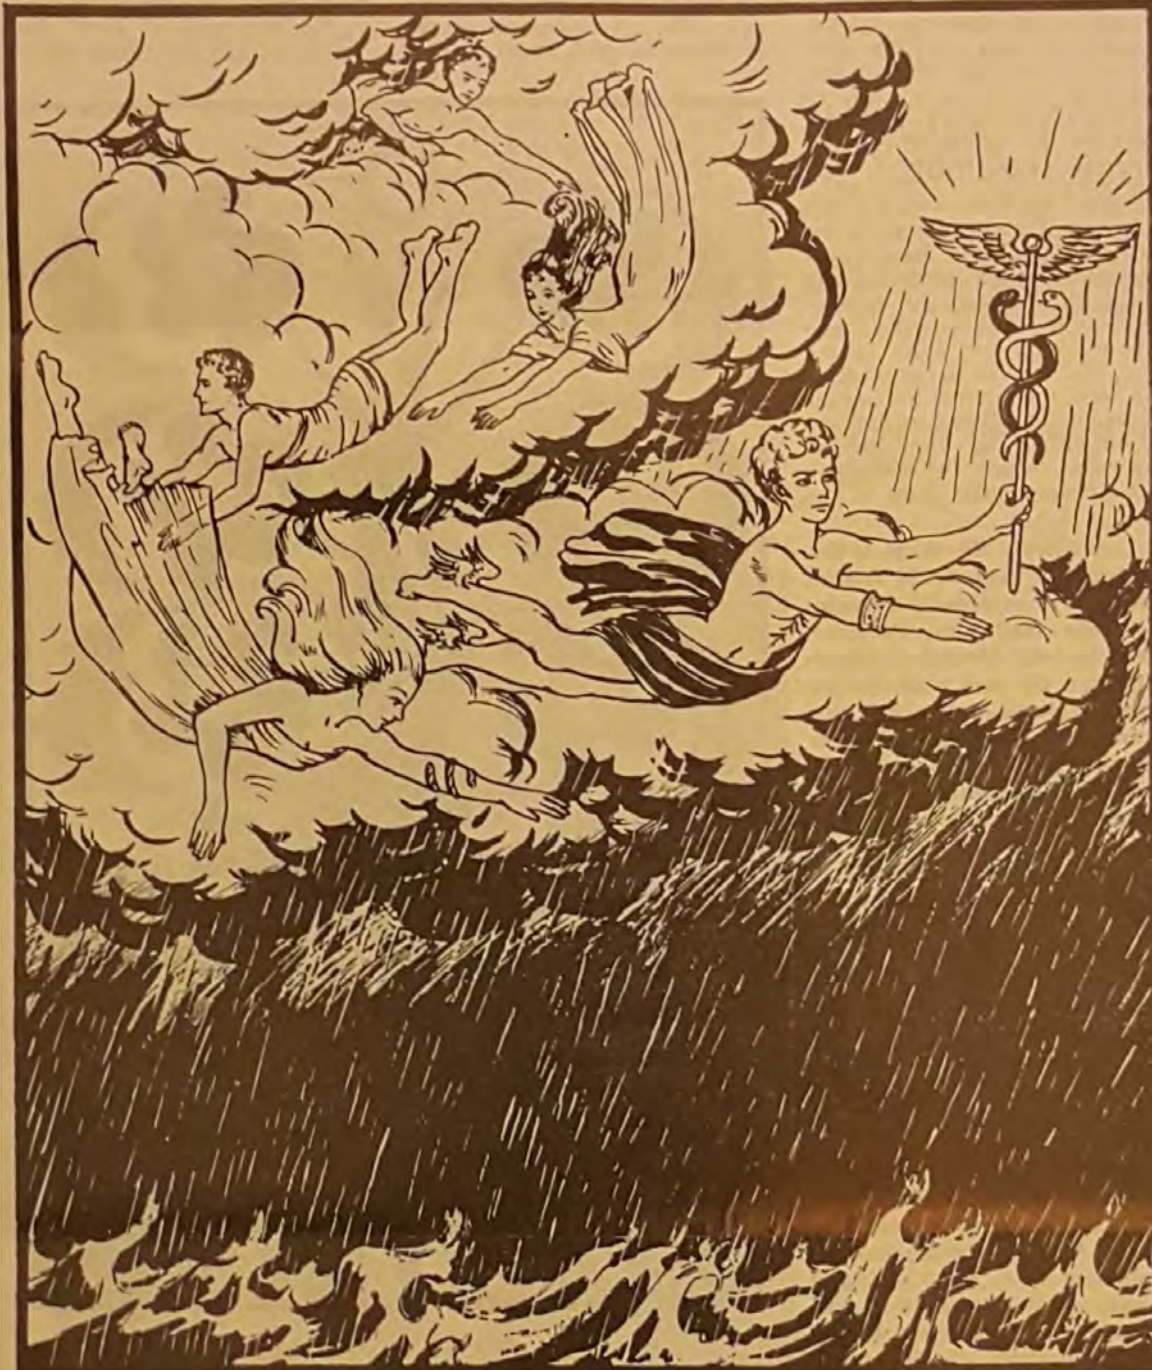

For this is the mighty mystery of the Galactical inbirth, where the Central Sun and all its satellites, are captured by the soul in its earnest propensity. Unfolding glories from Outer Space intensity, and by belief, sending those wonders back up to the heights, unifying by every thought of the light poured forth, from those mighty depths.

Then soul living in the depths of the glories he had created from that interpenetration, blending up bit by bit, the Two Worlds of Light and Blackness.

Thus as she came back and sat meditating upon such mighty wonders, she asked that she could be allowed, by symbolical glory, to be shown of what was inside of the NORM. There she beheld a purple heart of a beautiful white Dove; thus now knew from whence the Dove descended,—from the Great Heart of ALL-Being, the magnitude of the Central Sun.

Thus Merope knew she must go on seeking and searching

THE REVOLVING INFINITY

THE revolving infinity of the soul, bringing light and wonder through the mind. That which will ever bring new glory and divinity to the earth, stirring the waters of density into reborn action. Thus Uranus ever striking and breaking up the old, setting the waters dashing against the rocks, and pounding them to heaven-born glory. (See text in col. 1).

Where the internal depths hold the eternal mystery of the Holy nucleus, where the glory of His Divine Radiance becomes the LORD speaking through the speech of his son. The very nucleus of the Seed, now the mystical beauty of profound truth, that leaves the soul bowing its knee in awe. For its profundity is beyond the mind of man, but perceived in its inaudible glory.

The New Galactical Inbirth

HERE is the mystery that all men are seeking, whether atheist or divinity-born, the internal nut profundity of Virgin truth, that brings a heavenly radiance to the unfolding Stream. Yet that which duly clothes the soul in garments of Outer World Space, that will carry it right back HOME to divinity. Yet bringing untold light to the Vega World, the first unfolding of heavenly propensity from heights to depths, that will begin the New World of heavenly immortality.

Heights and depths one Vast Plane of glorified LIGHT, the Fourth Dimension unfolding

status of internal implosions, avoiding discord that duly brings an accident of explosion. The ten Solar cycle as points of truth, which brings the nine old Saturnian rings into a golden circling of light. The soul winged and riding up on the pinnacle point of the extended Solar glory.

This is where these Solar implosions become the great interpenetrations of the mighty heavens. With the soul now, ever refeeding itself from the implosions now made. Drawing more and more from that divine Seed, until Divinity as the nucleus of Illimitable Glory, becomes the mystical wonder of soul-born invincibility.

THE SOUL NOW BACK INTO ITS ORIGINAL STATUS AS AN ATOM OF THE DIVINE, BUT WITH INDIVIDUALITY OF SELFLESS GLORY, A RADIANCE OF THE MIGHTY SEA OF GOD CONSCIOUSNESS, THE WORLD OF THE FIFTH DIMENSION.

This now gives every true Warrior the complete freedom to cross the line at the Vernal

into the glory of the internal divinity of the NORM. Where the twenty-four blackbirds are baked in a pie, that when it is opened, it feeds the King on the Arc, with the soul-born divinity from the depths.

Thus as Merope stood up in her void, looking out across her own horizon, she saw an enormous Golden Globe, resting as it seemed, upon the edge of the earth. Then suddenly, as though mighty activity awakened in its midst, great Streams of molten Gold started to pour forth from its very core. Then more and more it poured forth, steadily covering the land with its beauty, for all signs of previous life were completely non-existent now, with a vast Silence pervading everywhere.

Yet never before was there experienced such a fulness of movement and pulsating Life, and as Merope gazed, almost awestruck with its mighty unseen beauty, she felt impelled to look at the dynamic Source of those vast mighty Streams of light. As she gazed at the Heart of the Almighty Glory of the Sun, there were whirling Rivers of intense vibration, moving one within the other. Each one at an ever increasing momentum and velocity, leaving

HYDROXYL

Continued from page 3

into this present mighty mystery, that every Arian Warrior would now be primed and ready to step steadily and firmly upon the New Hydroxyl Path of Solar unfoldment. For all now must find expansion by making internal implosions, and not mishaps of external explosions of tragedy, sorrow, and disaster.

One is by using the mind, and spinning it up and down upon the now incoming Breath, and finally gyroscoping it up into divine Solar light. While the latter, the negative, is to just take the knowledge and let the beast turn it into desire, then atomic explosions take place.

For with implosions it becomes Auric light, but with explosions, only that of the cerebellum. With the former, the soul must earnestly partake of the Word gathered by Merope, then he will implode the whole of TIME, which is in the Word, into the state of ONENESS.

The Inner Divine Manhood

NOW, through her Metric spiral, the whole of being is saturated with the new atmosphere of becoming. All it needs is a thinking mind with an earnest effort to think, then the Waters will do the rest. Then by this, the atomic weaving of Orion can begin, whereby the soul will find his godship in the true sense of the Word. The major consideration here being the soul's belief in Divinity, for Orion is the Constellation of divine belief, where the unfolding glory of the Divine ONE, has been the Seed belief for Ages.

BY THE SOUL MASTERING LIFE, AND FINDING WILL TO WRESTLE WITH THE ELEMENTS, IT BUILDS UP THE ROYALTY OF SPIRIT.

It is this that becomes as the rising Divinity, that of the Superior Being, who feeds the soul with glorified life. For as the soul raised up its belief of the FACE, will it according to the soul's frequency of belief be over-shadowed by the Great Cosmic Divinity.

This being now the Hydroxyl Breath, which holds the glory of the Divinity in its very interior. For now it is of the Metric Cycle of internal searching, that these implosions will infuse into the glory of heavenly profusion. That in itself is the mind so reaching up to Divinity, that the mind and the Spirit are automatically raised up to the mountain top. Then

(See page on page 5)

by the thought and frequency gained, become born of the FACE, the glory of the Godhead. Thus all will now become of the Orion weaving, bringing divine Christos glory into birth.

But only by the soul seeking, will he make a true nuclear unification, causing the Sun to radiate through the soul's Void, filling him with divine glory. That which Merope had been witnessing up in her own raised up mind, whereby the Solar Glory poured down over the whole of being. Each soul now his own atomic reactor, bringing into birth his own divine internal glory of genius.

Thus here it is being made quite clear of why the NORM is radiating with the radiance of millions of suns. All gathered up over the Ages in its nuclear status, as that broiled by the soul, but ever in a state of being more and more volatilized.

For the Solar Glory, as the radiance of the Divine LIFE that feeds and percolates through the blood-life of all, is the condensed stimulating Glory that becomes through human belief, as the uprisen LAMB of God. GOOD in its highest, and the most Virgin glory has always been of man's clinging to that inner divine belief, that by such he survives.

THEREBY HE LIVING WITH THE SPIRIT, EVER RAISING HIS MIND UPWARDS UNDER THAT BELIEF, FOR MAN CANNOT LIVE WITHOUT THE SPIRIT. IT IS HIS INNER DIVINE MANHOOD.

Hence his Sun, which is the inflowing Prismic glory, is the basic of that Divine Seed, which eventually gives birth to the Spirit, in the form of a golden haired Warrior. One who labours back and forth as the Bull, that he can extract out of the Seed, the internal implosions of becoming. This can only be accomplished by and through the mind, where the unfolding mind becomes the glory of the soul.

Then slowly the beast is discarded, and man stands radiant with glory, as divinity becomes his Over-Shadowing Presence. Then by the Hydroxyl inflowing force, the soul would by the atomic glorified Breath, now draw into his being the Prismic Glory of the heavens. As it rises up as his mind, this becomes as his divinity, for his status of recognition now is the Plane of Royalty, the heavenly glory of Holy becoming. As he raises this up through his own Planes of rising frequency by renunciation, will it rise up over the brain and feed the gods with the new belief.

Thus the Solar implosions are now the great sanctification of the heavens, the mind of the soul. Therefore this is the Breath of Orion coming into birth, that in time it will become as his speech. Hence the soul is treading the Equinoctial Colure of Fiery glory, bringing Orion, as the Threshold of cosmic initiation, to the higher heart pulsation of the soul's Neptunian frequency. Thereby it begins the weaving propensity of the Central Sun, then as the Solar glory builds up in his unfolding Auric glory, the beauty of Divinity becomes his over-shadowing radiance, which soul declares is his own belief.

Not yet realising that he has been built up of this magnitude for Ages, and now is the radiance as Virgin glory, set into operation by Merope. Thereby the Solar glory now coming forth as the radiance of the Breath, is the divine lustre of the Gods, to be spun up onto the golden spinning wheel of the soul's raised up heavenly mind.

The NORM radiation now, is of the Hydroxyl propensity, that of the Orion cyclic atomic power of extraction. Which, by its intensity of frequency, can draw out and retrieve the Norm power of others. Releasing them from the gold that has buried them under the sands of Time, now leaving them free to take on of the new wisdom. This is the Work of the LAMB, the son of God, he who has seen the glory of the risen up mind.

For the implosion of the Seed internal, is the drawing back of that which was given out to others in the past, and now being traced back by unification to its Source of origin. Thus being polarised up to the extreme by Merope. For they that had received of this wealth, never returned it back to the heights as light. So the heights,

through Merope, descended down to retrieve it; thus the Atomic Word is the extraction of the Atomic truth from the Virgin Source of creation. This goes back to the fullest extent of Merope's descent into matter, whereby she now is unifying the whole polarity of Creation, bringing the whole volume of the Hydroxyl unity into being, as the Breath intake.

The outspanning of the Solar, bringing into birth the Equinoctial Central Sun, through the full propensity of the Hydroxyl unity. Man now born as a god, hence can only make his way by being unified up to the Divinity. The whole reverse of the gravitational pull, from magne-

state of unbalance, and requires balanced vibration of a polarised unity. This can apply as a means of example, where Neptune is in the 12th house, and Venus is down the 8th; a wide span of division, which the Hydroxyl, in its intensity, could force further apart.

The Supreme Being

HERE we see how the NORM is a mighty Spiritual Atomic Reactor, which extracts the stolen wealth and changes it into the electric might of the cosmic Heliographic truth. The glory born from the Solar seed at the beginning of Time, and multiplied and intensified out of

THE TREE OF LIFE

ALL is mystery, divine mystery; bringing forth the fruits of yesterday into the Solar glory of radiating oneness. It is by this that continuity prevails, and what was becomes in yet greater measure. (See text on page 3, col. 3).

tic to the Atomic. Then by unifying the two, soul has the wealth of TIME to play with, as the origin to polarise.

Therefore the act of overcoming the cubic gravity of the OS, is now the intensity of the rising sensitivity of the OM. For the cubic gravity is the densified sensitivity of the divine vibronic realm of godship. Thus the vibronic realm of divine godship had become so densified in its sensitivity, that it brought the OM in all its supreme splendour as the Word, down to the cubic gravity of speech. Now by re-raising the sensitivity by Word and renunciation of desire, the god activity of mind unfoldment can be born of cosmic consciousness.

THE DIVINE CONSCIOUSNESS OF ALL-BEING, WHICH IS THE SEEDING OF THE FIFTH DIMENSION, WHERE THE GREAT DIVINE CONSCIOUSNESS IS MAKING ITS WAY INTO BIRTH.

Where all becomes as of the Crystalline Sea of divine Thought, and all conveyance of thought is by mind propulsion. But in the soul who has been able to establish as a mind belief, such wealth can, when truly believed and honoured, become the means of soul healing. Especially where the soul has become glutted into a

all proportion. Thus must be brought back to its intended truth, where the Solarised nut point is the unified divine answer. Thus here we must perceive that the soliloquising Colure of Orion Atomic Breath, is naturally governed by Neptunian elevated mind; the world of fantasy and belief.

For the NORM is of Neptunian Breath, which has conformed TIME with wisdom, thereby producing the Vega mind of cosmic super-creative ability. This is the world of Samarkand polarised as the world of heavenly glory, where the Rhythm of the Spheres as divine thoughts, poetry, and music, are captured. This being a part of the New Breath that man was requiring, but he being so orthodox, ritual and convention ridden, it could only be by a Scapegoat swinging the whole of the galactical Cardinal points around their head, that man could be moved. Thereby turning the world from illusion to Reality, which Merope has done on every Plane of existence.

NOW THE WHOLE OF CREATION HAS BEEN POLARISED, THAT LEAVES THE WAY OPEN FOR MAN

TO FIND COMPLETE REFORMATION, UNTO HIS GODSHIP POSSIBILITY.

Then the atomic revival is now the Platonic Essence feeding man direct with the soliloquising propensity of the inflowing atomic Neptunian Breath. This being the Christos glory in the FLAME within the Flame, the Divine Essence of the Seed, which can only be acquired by Scorpio being in the midst of the Solar Glory, and the divine essence of the Seed being captured and assimilated by the true seeking initiate.

For inborn wealth is the compound mixture of the incense of the divine Pleromic glory, which as the Virgin Essence, now becomes the Orion aspiration of the gods, and Supreme Divinity within the soul born. The soul now returned to the Source of his beginning, but polarising it with the wisdom he has now gained. Thereby bringing the Flame of the mind into birth, as the revolving infinity of the Void. Whereby he establishes the radiating glory of the Central Sun upon his Arc, as the divine beacon light of Truth. The NORM now feeding the revolving infinity, and all is conducted in the heights, with the depths merely being the broiling apparatus of the Seed.

Neptune now being of the dancing virgin majesty of Orion speech, that of Fairy-land texture, a delicate beauty of spun Ethers becoming a cosmic rendering of Atomic beauty. Therefore all can only be seen as a Pantomime of Dreams, where soul is a living vibronic frequency of mind in matter. Not a solidified state being calcified by desire, but spirit trying to gain experience, so as to bring the realms of Outer Space into the glory of conscious reality.

Thus Merope is the flowering NORM, receiving divine glory from the heights...

... thus she is ever in the head of the serpent, swallowing her own tail, and bringing forth the glory and wisdom of the intensity of the Flame...

... By this, she is a direct recipient of the Ethers, and the speech of the divine "IT". While she also became a driver of the Chariot of the Sun, both in the Cosmic heavens and within her own cosmic being. With such reality becoming abundantly clear to Merope, she again sought of her Magic Mirror, to reveal of its inner mysteries.

For a moment it seemed that her mystical phenomenon was

too overwhelmed to give forth of its revelations, but Merope demanded that she should be acquainted with the extent of the depths and heights she was conquering. For to her, all was a matter of Cosmic service, that mankind could be saved the evils of Atomic disaster, so clearly evident with man. Thus her throw of the dice had been a drastic one, that the Elements could be mastered right up to the heights. Then the higher Divinities could then live with men, and guide them in the right direction.

As Merope waited patiently for that mirror to reveal of its secret, a violent trembling took over and the whole of the FACE was electrified. Then as all began to steady up, there slowly appeared an enormous Flower-head of Fiery Radiance, mounted upon what looked like a thick stalk. As it became

clearer, Merope could see that it was taking the form of her Fount, but amazing in its mighty magnificence. For it now was as the very core or heart of the Almighty Divinity Himself.

Then to the amazement of Merope, she realized that she had become as the Great Fountain-Head of ALL-life, the might and wonder of Divinity. She had so perceived of "ITS" mighty Glory in her LOVE, that she was emanating of its mighty dynamic beauty and Depths through her penning of Its Glory, that "IT" was able to manifest that far of its radiance. As she looked closer, she could see that the centre of this Creation was an enormous Cauldron filled with glowing White Fire.

Then as it rose upwards, it was of a glorious Pearly Radiance, far beyond her power to describe. As it descended and enfolded the top of the Fount, it changed into delicate hues of pink, blue, yellow, orange, and lilac; a mighty profusion of dynamic glory. To bring of such mighty evidence to mankind was almost beyond man's power to capture, least of all to get them to comprehend of the might and wonder that was being portrayed to them.

But Merope was being highly impressed that this first vision was portraying the mighty Outbreathing of the Great Almighty Divinity, which she was seeking to unfold in the depths of matter. For that was HIS DESIRE, to manifest in

His Kingdom of Vega, to all mankind. Yet here they were, although manifesting, HE remained in His immensity as the Great Ethers, within the apparently near vicinity. Yet were of course, occupying immeasurable Space, beyond that of human conception. With such Reality being revealed to Merope, she stood over-awed before such mighty phenomenon.

Manifestation of the New World

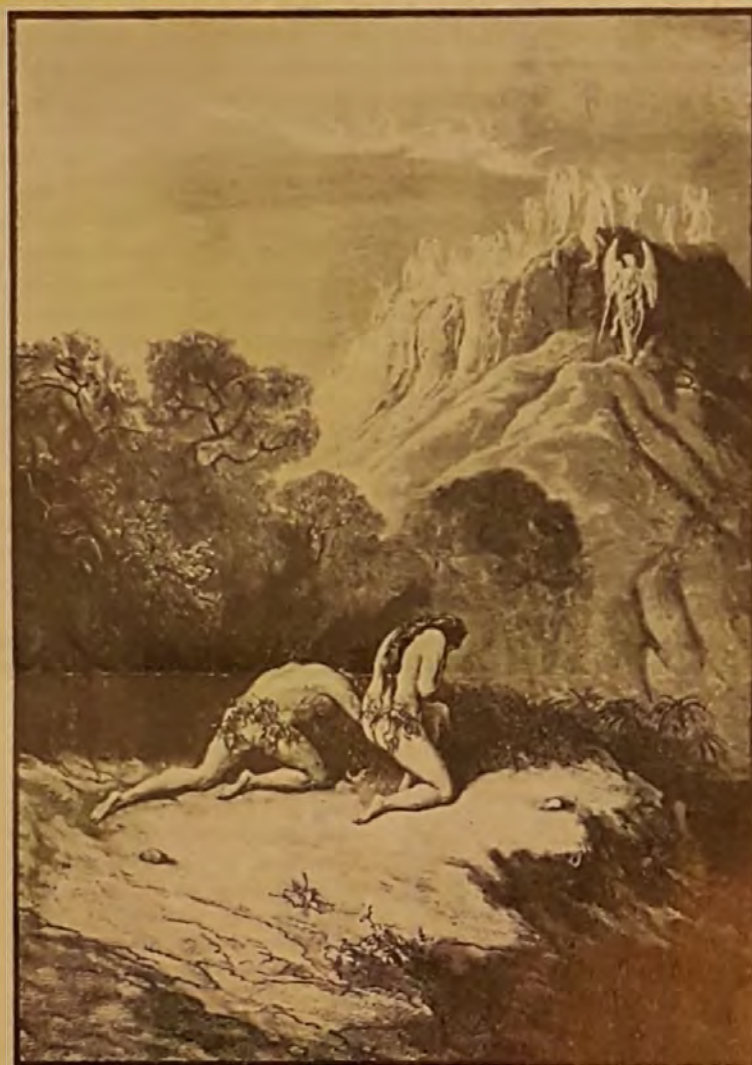

THEN suddenly the screen cleared, and the second vision that now appeared, was the head and spine of Merope. This time as a replica of the first vision, but with an emission of Glorious White Pearly Light from her head, again changing into colours of varying degrees of Ether, which appeared to go no further than Merope's shoulders. Then she realised that these Divine Ethers were only released from their apparently static position around the Great Divinity, when she had perceived of its glory. This she did through her striving to pierce those heights by the Metric Cycles of the inflowing Hydroxyl.

So as she gave forth of the Word, did she stir these Great Ethers into movement, and which are the mind substance

quency with some thought or another, they only remain as static Cosmic energy. But Merope penetrated by her simple belief and LOVE of "ITS" mighty Glory. But as she unconsciously interpenetrated into these untouched heights, and then by conscious awareness gave them a creative issue, she knew this was the sound of the one hand clapping. For as her hand wielded the pen of her mind in description, she burst open the silence into Uranian Fiery action. Thus she was ever weaving new garments of Divine belief.

She had interpenetrated these heights by the lightning thrust of perception. By so doing, she had caused all that was static to burst into a Divine Flame of Becoming. Thus there had been an implosion into the vertebra prominens of her spinal axis, so that the congestion of the axis, which was the mighty royal depths of her Fount, could be released, and reveal more wonders of those heights. For she had, by this conception, now drawn down a mighty magnitude of the Divine Breath, which was now being perceived as a new phenomenon in Scorpio.

Thus Merope was ever clearing the cobwebs from the sky. Hence in this mighty implosion of interpenetrating

PARADISE REGAINED

AS the soul awakened out of the density of its earthy nakedness, heavenly Hosts manifested upon the mountain top; there to receive the new-born aspiration that would set the whole world bursting into light. (See text on page 4, col. 2).

of the Godhead Himself. Yet these Ethers were as His Great Outbreathing in the manifesting World of Vega, which was now evident in Merope's great LOVE for Divinity. For she was quite prepared to suffer that he could manifest in the world of Matter.

Thus as she ever penetrated these static electrical Ethers, did she cause them to vibrate, therefore to radiate of their wonders; yet almost in simple innocence of her LOVE for such mighty wonder, thereby ever bringing a greater FACE to the Divinity. Thus as she interpenetrated, did she bring new Cosmic LAWS into the depths, ever extracting the greater Glory from the inner depths of the Divinity. Thus ever flooding the depths with a greater degree of the Divine Consciousness, clearing from that world of life, its old and antiquated state of illusion.

Therefore, until someone interpenetrates the mighty fre-

quency with some thought or another, they only remain as static Cosmic energy. But Merope penetrated by her simple belief and LOVE of "ITS" mighty Glory. But as she unconsciously interpenetrated into these untouched heights, and then by conscious awareness gave them a creative issue, she knew this was the sound of the one hand clapping. For as her hand wielded the pen of her mind in description, she burst open the silence into Uranian Fiery action. Thus she was ever weaving new garments of Divine belief.

Thus through her LOVE, her mind spoke of its glory and wonders in simple terms of LOVE. As this mighty phenomenon cleared away from the screen of her mind, Merope set the Bull into action, harnessing him to the plow. Then as she drove him up and down her spinal column, he imploded more and more the fires in that mysterious Seed. Causing her dapple-grey horse to fly up to the heights as a winged Pegasus. As she held on tightly to his flying mane, she rose up that unfolding frequency, then flew up the causeway, through the

now lightened vertebra prominens, which caused the whole of Being to spin round on her Atlas pinion.

Then as her Pegasus kicked his hoof against the rock, he caused the Uranian sparks to fly across the magnetised lake, to set the NORM dancing and quivering with bursting sensitivity. Then as the fiery action set the infinity revolving at yet a quicker speed, she looked up to the heights and perceived with awe and amazement of the dancing manna of new thought. That which was now being born from such mighty wonders, for there spinning round and round in the blue of the heavens, was the vibratory glory of her inner perception.

There above her were rings of white fleecy clouds, edged and based in Rose Fire, radiating their atomic manifestation of the Virtue of His Seed. Thus the atmosphere is being electrified and interpenetrated with this mighty mystery of the Ethers, through the ever descending Heights with the depths, ever embracing through Merope's LOVE.

Sperm of the Fatherhood

HENCE Merope knew that she was ever bringing tomorrow into today, and now she, with all mankind, must begin the task of raising it up into the glory of unfolding LIGHT, that HIS FACE will radiate more and more in the glory of the Son, that the Father could radiate forever in His Kingdom of increasing LIGHT. Yet what had been described was but a minute description of the World that she lived in. For in living in that World, she knew it as LOVE, while others who had never touched that great depth, only perceived it in the light of vibronic manifestation.

But as soon as LOVE is truly conceived by mankind in its true concept, will the whole of this mighty Glory manifest in the beauty and wonder of inward divinity. The inward knowing of the Divine Fatherhood, and he one with His mighty Kingdom. This was the great lesson that all mankind had to learn, for nobody really knew the TRUE meaning of LOVE. It being a statement applicable only to the spirit, and what did soul know about that?

This was the lesson that the Great Christos was to bring unto the Human Race, for Orion was created solely by the LOVE of the Prophets, and brought into birth by the LOVE of Merope as Womanhood. But Saturn, the possessive father of the present God, refused to let go, and mankind has been heavily impregnated by his sulphuric poison. Thus "I WANT" is the battle cry of all, and the heavy burden that Merope is trying to wrestle with.

It is only by the spinning up of the mind to the Solar Glory, that man can come out of his viperous grasp.

Yet it will be by the separating and involving actions of the Hydroxyl inflow, that the first big changes will begin. But only when mankind awakens to the true fact of his journey, until then they will sleep in the land of the dead. All this is the mighty nucleus of change that is being made to bring the Vega world into birth; the world of MIND.

Thus Merope has lifted all up onto the Virgin Plane, that at this Virgin Equinox on the Equatorial Colure, man will step off onto the right path, which he cannot fail to do, WHEN he awakens. For by Relativity, the present moment has complement with Heliopolis, and further back, the beginning of Creation.

While Merope takes the basic

of her root back yet further still; hence the heights to which her depths have polarised her, and of which she is polarising today, and spinning up into boundless glories in Outer World Space. Therefore it lifts mankind right out of the jungle of darkness, and well out of the pit, but his love of humid warmth is deep, for he has never lost the old state of his mother, the old Graeae that nurtured him in the depths.

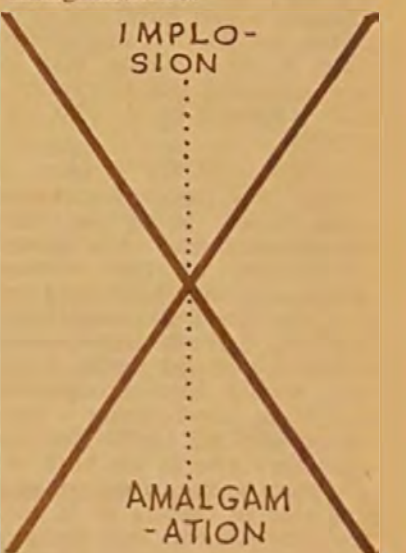

It will only be by man learning of the true lesson of separateness, that frees, then unifies, that he will get free, and begin the climb up, back to the heavens that gave him birth. Then he will find his right Plane, which is of the vast Kingdom of unfolding LIGHT. Earth being the base and the training ground for the Atoms to clothe themselves in the light, which they return home with. Otherwise they, as the atom context, just return to that Plane as failures, and that constellatory group remain cold and without light.

This is what Merope is doing, getting the Atoms of Vega to awaken and warm the Constellation into harmonic vibrations, that as the Pole Star, it can guide the Earth aright, in the changes she has brought about, to begin the unfoldment of the Great Work. Thus the Orion MAN, who is the great conqueror of the Elements, that the MIND Plane can be adjusted, is the manifestation of the Great Holy Pleromic Neptunian infusion from the heights, the Sperm of the Fatherhood that will bring man to the true glory of LOVE.

This is the mighty mystery of the Quintessence, the atomic Ray as the God Mind that feeds the god status into being. This being the Virgin Breath that the inner nucleus requires to come forth from the Atom state, into the mind creation of a god. Then divinity becomes its rightful status of manifestation. Until then, they are merely atoms of nebula dust; hence man is but the animal status of the basic depth of that mighty birth, that the Atom is seeking to gain, and bring light unto his Protonic unfoldment.

The nebula dust being the magnetic fire as the nebula diffusion to the depths, which became the wealth of the cerebellum, that should have been sent back as the Atomic light. This being the garment of the soul, the first basic towards the unfolding creation, as cosmic LOVE is divine embracement.

Everything having tended towards the pinnacle point of amalgamation...

...will begin the accumulation of the light infusion by implosion of the upper ethereal sperm of unfolding divinity.

WHERE FIRE AND CONSCIOUSNESS FUSE AND BECOME DIVINITY BEGOTTEN, FOR HERE IS THE BEGINNING OF THE GREAT WORK AS MIND, THE LIGHT OF THE UNFOLDING ATOM.

THE VIRGIN EQUINOX

The Active Birth of the Central Sun

by *The Lord of the Flame*

SO many readers have asked if the more explanatory Lectures, given every Wednesday at the School, could be published, that we have decided to do so; though it does demand a great deal of extra work. As far as possible each month one such Lecture will be included in the Gazette. The paragraphs in Italics are those that have been chosen from the previous Sunday Lecture, to be given greater and simpler explanation.

MEROPE'S OPENING PRAYER

GREAT DIVINE SPIRIT! Once again we gather together that we can send forth this Word unto the Maclatrum. We know that it can only be by the Word opening up the hearts of men that the great burden of life will be lessened, and the Spirit enter therein, and bring unto the awakened soul the dancing beauty of freedom. But man at the present moment is so encircled in that of form and desires that he is not able to embrace the Glories of the Unseen, the Noumenon that must bring forth the Royal Beauty of the Phenomenon. And so at this moment we are seeking to bring this into birth, and like all things it demands sacrifice. Where everything is put into operation, not so much under trial and error, as it is under experience. And so as we endeavour to prove to man the way that this can be done, and thereby make strait the gate in every field we enter; We seek now that Thou wilt guide us and help us to understand the Word more clearly, that we will not be as lutes-enters, but as those who expand and bring the Spirit into glory, whereby we raise ourselves up to the Heights and dance with the higher frequency of the Cosmic Consciousness. And so we leave ourselves in Thy hands seeking Thy guidance in the name of love and service. Amen.

THE MASTER THEN MANIFESTED

PEACE BE UNTO YOU ALL!

I ask you to listen diligently to the prayer of my Instrument, for at the present moment there is a great gathering-up taking place in the Powers of Spirit. The Change-Over has been made and the World of MIND has been born, so now all is Word that opens up to Mind. This is where man is finding it difficult. He only seeks of the Word as a pastime, but he can do this no longer. Word must become his sole prerogative, his sole inter-penetration, whereby he builds up this new Plane. This New World is going to give unto mankind new Life, for it is a World where he will live with the Divinities. Only those who build of a Mind will go forward, the rest will go down into the underworld and become buried in, with the Spirit going back to the Heights. This is why We have never been concerned about the Birth Problem; We know that it will not last, because of the changing circumstances. It will only be the real true soul, building up of the Soul body, and bringing it forth, that will go on and live with the Divinities. For as the Divinities come down by differentiation, will the soul who is capable, ascend; they will inter-change. For the centre of the Earth and the Central Sun, its polarity in the Heavens, are now one vast World. All the Planes are inter-linked; they have all become one vast World of Light, with the Earth strata as the lowest. It will be in the lowest, that of the "kitchen" where the Fire is ever stoked, that there will be the preparation, the "boiling-up of the steam," to bring forth of the Mind, the labouring, the experiences; but not as in the past.

It is going to be as a changed World; the whole World is going to be of the consistency of Spirit, coarser towards the base, lighter and purer towards the Heights, whereby the soul who is prepared will have the power to ascend from Heights to depths through his Mind. This is all being prepared by Merope, costing much in sacrifice that it can be born, for the whole of her spine, which is the length and breadth of this whole world, is taking the course of the changes. At the present moment the chaos is due to the clearance of the 'pit.' Have no doubt about this; even though for the moment it seems illogical to you, it is the Truth. The whole of BEING is being re-born. It is for you to prepare yourselves. But man will gradually awaken, there is time yet. Many are enquiring; many are taking the lesser word to delve into it first; there are many, many, enquiring into it. Now I want everyone of you that have been able to awaken to think very deeply into all this, so that you can be the forerunners of the Drive. You will never be sorry that you have done it. In time to come you will glorify that you made the effort, besides the wonderful joys and revelation that can be made to you as you delve into the glories of the Nebula. You will be left all the Keys by Merope, but it is for you to work diligently and hard. The Ascension is the unification of the Word, bringing all to a pinnacle point of the Non-Self, the Selfless, where you are accepting the Immortal Soul, and then you will be ready. To-night we will look a little more into The Virgin's Oath, the intensity of the lecture prepared on the sabbath. The Virgin being the Virgo mind of the soul, risen up in unification, cleansing and purifying her thought in recognition, until she becomes as the Virgin and builds up the Virgin Fire. This applies to every one of you, for every soul has his feminine principle, his Virgo mind. She is the one who is ever carrying the golden-haired babe up to the Heights, and rejuvenating the Father, who eventually becomes the Presence, the Divine Fatherhood on the Arc of the aura of the mind. Man is only mind, and as he goes on, will his body become etherialised. This has been very evident to Merope, as she has had to pass through all these states of change, and find the answer to it all. So tonight we will go a little more into the Virgin's Oath, and again I will use the Instrument's eyes to help you with the Word.

The Mystery Plate

NOW the concentration plate is the Noumena, the descending Glory, that is forming slowly into the Phenomena, and as it strikes the propensity of the Earth's atmosphere, it begins to manifest. The mountains and the snow is the new thought; so this is a new Thought, a new Birth, and as it strikes the Earth's atmosphere there is the radiation that is now spreading out everywhere to be captured by all who are capable.

(See plate on page 7)

This is a form of embodiment, and similar to the Embodiment that came down in A.D.33, of the in-born phenomena that was going to give the Great Christos birth. But this did not take place; it was not caught up by those who should have brought it into place, consequently it was buried into the Earth. And so what they give as the birth of a Christ is not true, nobody was able to capture it. It was the Embodiment that became buried.

As these Embodiments come to the Earth, it is for you to capture them out of the Hydroxyl Breath; that is, if your mind is sensitised and you are able to perceive them, for it is the Breath that forms the Seed in your pituitary, and as these Seeds descend they are the Seeds in your generative function.

This becomes the Seed that must become ionised in the

spine, by the bull propensity wrestling to obtain it; grasping it, catching it, and setting it alight, so that you have the Solar Light within his horns.

(See plate on this page)

You carry it up the causeway of the cervical, up over the brain, across the meninges as the "sky-weeping-gods," and there to water the pituitary that first gave the birth. The drip then goes down to the depths into the bloodstream, giving unto your conscious mind, the feminine principle, the start-off.

Now we have passed that, and we come to the Virgin who has risen up; she has perceived the truth, and now she has made an Oath. She is going to get busy, work hard and bring into birth the glories of the higher mind. She is going to blend with the higher mind, and blossom the Norm, the pineal gland; she is going to raise up the void, which is the Mind Aura; and she is going to strengthen and bring the Presence into the Glorified Presence.

The Lecture

WELL now that is her Oath; she has come back and made this Oath. The feminine principle, that is the conscious mind, has become aware of the Cosmic Consciousness, she has become born of it, and knows that everything is born out of the Breath, and that she is going to now partake of the Transcendental inflow. So she is now going to labour; she

wants to know the details; she thinks she knows them but she is now going to search into them further. Now there is a part of the Sabbath Lecture that is going to portray this quite clearly, so we will go through that part of it.

All the wealth that the soul had taken through those many Ages, now the beauty of the Arielised mind, as the soul becomes born of that Fiery glory.

The soul that can dance up and down, in and out, like a bat, as the powers of the perceptive principle were able to grasp many things out of the

Unseen.

But the most important thing is Fire, the Fire Principle — no Fire, then no mind, no protection. If you have not got the Fire born within you, then you are no person to bring forth the glories of the Mind. We take it now that you are.

All Mind born and Fire born, the trinity of heaven-born wonders, where through personal struggle the soul is mystically born of the wealth of the Great Father's Sperm.

Now the Great Father's

Sperm, is the Sperm of the Great Manhood, the Great Royalty that is now changed over from Womanhood into Manhood. The Sperm is the great Hydroxyl Breath.

For Merope, as Woman, has now involved the Manly, chaste depth of the negation into the positive, purified glory of the Fatherhood, where Mind and Fire are the radiating propensity of a calm conscious soul. Where all the wealth of those esplanade heights are incorporated in that soul growth, but in perfect lasting oneness, where every polarity is duly united and the unity oneness of the mind. The soul having laboured round and round the Neatons, now seeking to bring a mind into birth, is born as promised by the Sphinx, with the first Virgin Equinox of the divine Aetha glow.

Now the Sun in making its descent, and then the ascent, probes the Equinoctial with the Pelipetal, and in so doing kisses the Earth with its own radiance. It is the first Birth. It kisses every soul with its radiance. This was the first Virgin Equinox in this year 1946, when the whole of the Earth was blessed with Venus Power. She is no longer held by the power of the Harlot, but is being blessed by the power of the Virgin.

THE EARTH WAS TOUCHED WITH THE SOLAR FIRE, SO THAT THE WHOLE OF THE EARTH IS FIRE BORN.

THE SACRED BULL

THE mighty Bull, the driving force of life, carrying the world upon its shoulders; for as the Begotten Son, is now the driving force of the Cosmos. As man realises this heavenly light, will he set the pastures ringing and bring the horns driving faith as the unbounding light of heavenly glory. 1946 text p. 161. 21.

AND READY NOW TO UNFOLD INTO ATOMIC GLORY. THIS IS WHY YOU ARE HAVING ALL THE DISTURBANCES THAT YOU ARE AT THE PRESENT MOMENT, FOR MAN IS BEING DISTURBED BY BEING TOUCHED BY ALL THIS FIRE.

With all radiating with Fire and portendingly due, devoid of all religious restriction. Every man free and ready to take the first Mighty Atomic Kiss of the Solar Glory, with the wealth of the Mother Earth, as the union of cosmic embrace.

It is very Dynamic. It is very important, something that has never happened before, and will never happen again.

Then as it imprints its mighty magnitude within the soul, will the MIND of the Intelligencia be also reborn, with the Divinity and the FACE of the Macroprosopus, the length and breadth of Time, now shining forth as the glory of the Divinity, drawn forth as the Illimitable Source. That drawn out from the dynamic depths.

Now look at this very carefully. The dot in the centre is the depths where everything was first brought into birth. Man never rose, and he went round and round until he reached the Polarity. Then when he met the Polarity, there had to be a Scapegoat, who was prepared to unify of such. Merope did this, because she was aware of it. So she spun the Earth from the depths of her Fount, right up to the Source, with her spinal column.

She was prepared to do that, to become the Isotope for all the Powers. Thereby the Heights and depths are now polarised unity, lifting the soul out of the dregs of the waters to be re-born of the new Solarised Glory. Man may not be recognising it; he may not be accepting it; but he is lifted up.

The soul, a being born out of the unfoldment of mind propensity, where as a spark, struck forth from a God's belief, gave unto each one, an inborn glory of individuality. Therefore gathered up around its being, a status of individual glory, with a personal acumen coming forth, through the desire of personal possession. Not turning the mind upwards as was intended, that the evolutionary glory could be achieved, but held by the darkness of the possessive illusion of the baubles of dilatory form. Yet that to become the spun-up glory, of the essence of the risen mind.

But although soul danced and lived in the illusion, there

were those who rose their minds up out of the depths, and sent them spinning upwards, as unfolded glory of Solar born beauty.

A spun-up unified embracement of heavenly glory, impregnated into the depths of matter, until the spirit, the pleomorphic wealth of the Father's sperm, is the risen up wonder of the mind.

So it is the spirit that you are spinning up, as the spirit and the mind dance together. There you have the blue and the red which in unifying becomes the purple.

ing an Atomic creator in the depths, now bringing forth electrified atomic wealth, out of the depths of experience.

That is the point, becoming Atomic. Not just seeking by missiles, breaking the atmosphere, cutting through the frequencies, thinking you are going to find it that way. You see they have the idea, but they are going the wrong way about it. You have got to do it through the frequencies of your mind, and it is your mind that is going to do the winging up and down, because as you

EMBODIMENT

AS the comet shot forth from the Arc of the Chromosphere, it dashed to the earth with a trail of light, then burst into radiant glory on top of the snow-clad mount. That beauty and wonder could become its torrential unfoldment, filling the world with new life. (See text on page 6, col. 1).

Where awareness is born as a comprehension of the whole of being, as a Solar point of oneness, born of belief.

So when the spirit and the mind dance, you get your first conscious comprehension, you can't help but believe, because you are born of the Spirit, and the Spirit is giving you the wonders of all that has been. So you are born of glorious belief. This is the great wonder of Neptune and all the so-called phantasy of Neptune and the glories of Samarkand. This is where Medo-Persia knew so much. But the trouble was they would not take their feet off the ground. If you want to dance with these beliefs, if you want to become Ariel born, if you want to become of the Spirit, then you must take your feet off the ground and become as immortal, to become as a divinity. And that is what you are going to learn to do through the Theocratic Consciousness.

Yet by diligent labouring and earnest seeking, the soul becom-

make contact with a certain frequency, you are there; everything is Here and Now. You don't have to go flying up into the heavens. You draw down from there the Breath, but man himself is the creation, and he has all the wealth, he has everything that has ever been.

Treading the road of trial and error, as one who is a courageous adventurer, along the road of destiny. Yet now the Virgin glory of an elevated beauty, born by Merope's labours in the depths.

So she took on of the Virgo mind, she danced the Le Ros, she went up and embraced the Neptunian Waters, became born of the Mind, and as the Virgin brought into birth the Divinity...

She who brought down the Divine heavenly Fire, that soul could be born of LIGHT, and glorify the radiant beauty of the manifested unfoldment, as the Atomic Fatherhood, now the

The Mind Development Class

EACH Week on every Saturday at 6.30 p.m. B.S.T. Mrs. Spearman-Cook holds her Special Mind Development Class at the School's H.Q. A special Subject is concentrated upon for about 40 minutes and then each siter is individually helped to interpret and understand his or her findings. Any readers can join; those nearby can make application to attend each week, and those too far away can send in their names and link in each week at the time stated, their names being entered in a Special Book for this purpose. The subjects for concentration are:

heaven born glory of the son.

Now although these words have had to be put like this, in order to give you an understanding of what we are talking about, everything is simple. Keep everything as simple as possible. So whereas you have been taking the first-born up into the heights—that which the Egyptians wouldn't do—it became manifest as the Fatherhood, and then it gradually became the Royal Fatherhood within you. And you drew down towards that, by the law of attraction, the Great Atomic Ray of the EGO, your Divine EGO. All blended together by the Rhythm of the Spheres, the Inflowing Breath, holding all the propensity and the glory of the Unknown.

As the Word born by belief and labour, becomes the glory of the mind, the risen up Solar Ether beauty.

Now while we are on that point let me give you a point that I heard someone saying to My Instrument to-day. "Oh, but what I am getting is given to me by that voice." "Oh no," said Merope, "he does not give you any speech at all. He gives your brain from the right side an inflowing thought. He does not give you any words at all. For there in the Falx Cerebri

there is a small portion of skin between the two, (the corpus callosum) which is the wall

between there and the conscious mind, the conscious brain, and he is trying to tap the thought through."

The conscious mind when taking it cannot help but take it in word, and it puts its own words to it. So as you unfold your mind in belief, divinity, and royalty, you are going to give that thought the highest and most royal interpretation possible. That is the writing on the wall as seen by Daniel, but if you can see it in its real creation, it is Light.

(See plate on page 11)

So it is not as though you receive the words. It is like on the tympanum of the ear as the beating of the drum, but you give it word. But the higher your mind has risen the higher you are going to interpret the Rhythm of the Spheres in that creation. It is Thought, not form: it is Noumenon, that you have got to make into phenomenon.

Yet that which becomes the Auric glory, the Arc of the risen up momentum, where the heavenly radiance as the Divinities of the heights becomes the over shadowing benevolence.

Now through continually taking all this you are building up Atomic Glories in the arachnoid web. Yes, they are actual moving creations in your brain. The cells of the brain are now filled with Atomic Life. But you see you are so wrapped up in form, you only see everybody with the form they are wearing. But you are not that at all; that is not you. It is the power of the brain that is you, the Aura, with all the factory down below, the nerves, bloodstream, chromosomes and glandular juices, and of course one of the most important, is the endocrine chain. Something that man has not given much thought to yet.

Now when woman does not raise her mind up and she complains about her back it is her endocrine chain that is not being exercised. The more she exercises her mind, which she should do,—she should be no different to man—the more she is going to get that endocrine chain opened up. This is very important. This is why nothing of the spine should ever be tampered with. If you start taking drugs, the endocrine chain withers up. It is a very very sensitive creation down either side of the spinal column.

Reminiscences

NEVER IN MY LIFE HAVE I HEARD OF SUCH diabolical effrontery to the Holy Deity. A man who claims to be a pope, the voice of God and bringing down holy Unction, has spent 3 to 5 years in debating upon contraceptive pills, birth control contraptions and abortions! It is an utter insult to that Mighty Illimitable Magnitude of Holy Glory, that such a man and his henchmen dare to utter His name. Then making a bald statement about the Laws of God, with no further explanation. Granted he did not know, but he could never consult the Higher Powers for advice, because he is cut off from them. Thus merely resorted to a lot of doddering old men conferring together and deciding the fate of the lives of millions. But again, what fools the people must be, to let an old man like this dictate their private lives to them. That which they themselves will be responsible for.

ed, for it really is a very wonderful Book of Legends regarding the growth and unfolding of man in the dynamic Aquarian Age.

A time when unification was to be made through relativity, and applied to the soul literally. This I did, and lifted up the Planes back to the Virgin Plane, or the Plane of Paradise.

In the first three Chapters of Genesis, it definitely declares of the covenant of man, and whether man pooh! pooh's! it or not, this was stated, hence became LAW. Here is where Woman gets the worst of the bargain, for Eve who was Merope, and I am afraid that is me, called down the Fires to fire man on, who at that time was well in the depths of the FALL. For man was once a God from a long line of growth, hence him being an atomic pile ever in a state of cosmic rebirth.

When Eve called down the Fire, it set the serpent or kundalini moving, but in the wrong direction. It went seven parasangs downwards instead of upwards, hence man became cut off from the heights, receiving no more Fire, but merely element resuscitation.

Hence Woman was "cursed" and was told that she would ever be dependent upon her husband for resuscitation, and that he would feed her by his internal sperming as he received the fire from the lower elements.

THIS IS WHY WOMAN IS OF THE MAGNETIC, AND MAN OF THE LUNAR. THAT OF DESIRE, EVER STRIVING TO FIND THE SOLAR BUT NOT HAVING THE COURAGE TO REACH OUT FOR IT.

This ever abided with Woman, with enmity between the Seed of the heights and her seed, until one—who I am afraid had to be the one who called down the Fire—could redeem Woman by emancipation. Again this I have done by embodying the higher Atomic Elements.

Therefore Woman is now equal to man, and can bring forth the Seed from the Hydroxyl Breath in her Pituitary Hormone receptacle, the gland in the forehead. This is where woman draws forth of her Seed, that which goes down to the womb to begin its journey in alchemical broiling as mind creation.

Well! here lies the first condemnation of the pill, a

MOON IN SCORPIO

Greater Mind Beliefs

NOW, with regard to contraceptives for birth control. I do agree with reservation, for plenty of women with good minds are tied to men that are in "abundance". This is not a crime, but reveals a good Bull of driving force, if he could only shepherd these powers upwards for mind growth.

Intercourse between husband and wife is not wrong, under the way that soul decided to go to reach his journey of evolution, but it must be carried out in love and not lust, as though an altar ritual. This is what was carried out in true Phallic worship, that which was taught soul in his fall into sensation.

This is declared quite clearly in Gen. 2 v. 24, which is really nothing to do with physical marriage, but marriage of the re-union of the soul to oneness or Solar androgynicity, the unity of that which became separated, that of the MIND. Then as the Fires now descending operate upon man, and he awakens to a greater

truth, he will use his own initiative over this matter.

But as to a pope and his henchmen taking over control of the sexual lives of the Race, I have never heard of such diabolical rubbish in my life. And furthermore, how can men who have entered the church as priests, be so gullible as to fall for this balderdash of ironical misappropriation, I do not know. Something that bears no basic, rhyme or reason whatsoever.

Especially as the pope offered no reason beyond that it was in keeping with God's Law, and furthermore, his stating of a period of freedom from conceiving, is utter rubbish, as there is NO safe period. How could he have conceived of such ridiculous ideas!

You have only to ask experienced mothers regarding this, and they will soon put you right. For the seed lies in a crevice in the vagina, nice and warm, until the moment is ready, and goes forward to its task, for there is more than a seed attached to this.

There is far more than merely conceiving a seed, there is re-incarnation of a living soul to be considered. One who is angling to get back into the body, but of which a Roman Catholic will state, "that may be so, but I must not listen to that," and a pope is responsible for that corruption of a soul's mind; it seems he will have a pretty long karmic debt to pay. This is far too serious to show any rubbishing religious sentiment, and accounts for the poverty stricken state of Ireland, Spain, Italy and other catholic-ridden countries.

I have known of a Seed to wait, making it a period of ten months to get its purpose completed, for the soul waiting to enter, held back the growth and fructification. People must be more stupid than I thought they were, to be content with what the pope has given forth, when he cannot save himself. But what amuses me, in more ways than one, why so many bachelors have come forward to offer their advice. I could almost ask why, on the same level as to why Savundra's children are being kept at Stoneyhurst college by being provided for by the Vatican.

A time is coming very soon, when mighty changes are going to take over, then man will have a different outlook with regard to why we practice celibacy here in this Temple. It is because we are ever raising the passional waters up in mind

concoction that acts upon the Pituitary and the Seed, and annihilates its efficiency through ruling out its fertility. This can only result in woman going mental at the change of life, if not before.

SO AGAIN I OPENLY STATE IN DEFIANCE OF THE MEDICAL WORLD, THAT THIS IS THE TRUTH, AND WOULD ALSO RESULT IN UNTOLD EVILS HAVING AN EFFECT UPON THE BLOODSTREAM THROUGH THE TAKING OF THEM.

HOW ARE THE MIGHTY FALLEN!

IN 1685 this caricature was brought into birth to reprimand Mary, the Queen of King James 2nd, for being such a fool as to convey secrets to Father Petrie, the character of wolf amongst sheep, which resulted in untold friction; hence every action has an equal and opposite reaction, as the karmic rebound at the present moment. unfoldment, while sex would only bring a state of confusion and inundation, which has been perceived before. Quite possibly resulting in free love or promiscuity, as practised by some in Occult pursuits; but in any case it has kept us free from insinuations, with only those truly seeking wisdom becoming a part of the inner seekers.

This School is a Temple of the Holy Deity, where his truths were to be genuinely expounded, so every soul who could follow the course would be prepared to renounce all, that the Stream of Holy Fire could come to the earth once again; but by a pure and holy channel, for the unification that had to be made in the Aquarian Age.

This I have fulfilled, and it is found now in the Hydroxyl Breath, consistent of hydrogen and oxygen that can implode in the soul and drive them onwards to greater mind beliefs. Yet all these teachings can be found within this School, whereby every spiritual problem can be solved. Mundane problems belong to ourselves, where we learn to grow strong by our experiences and struggle.

The Purifying Fires

IF Roman Catholicism had not cut the Race off from the heights by the rubbish they have offered as religion, and putting up their own saints days in place of the Fire days of the Gods, man would have still been receiving the Fire from the heights. And the pope has the effrontery to declare he is applying the Laws of God! Instead of that, they really stoned the Race, until I brought down the Hydroxyl Atomic Fire once again.

To do this has cost me the use of my legs for the time being, because of the ultra-firing to my spinal column, to take the first bout of Atomic Fire. But I shall get their use back again as soon as man begins to turn to the truth, then I shall be helped and supported by their belief.

THE FIRES NOW ARE EVER FEEDING ALL WITH THE GLORIES OF OUTER WORLD SPACE, AND EVERY MAN IS BECOMING TRULY AWARE OF THE LIVE DIVINITY, THE HEAVENLY GLORY FROM THAT MIGHTY SOURCE.

The Roman Catholic cult has never really found spiritual expansion the right way, that is by conquest of mind wisdom, but only by bloodshed, for they have not the true purpose of intent. They began by stealing the wealth from the Early Occultists who were called the Early Fathers.

After putting them to hell in their struggles, they then stole their wisdom and sainted them.

Such a foundation as this is EVIL and cannot help but die; it has only been stolen wealth that has helped them to exist so far, now their day is ended.

I knew the pope would be stopped from coming to England and linking up with the other odd boy Kamsky, thereby polluting our Green Isles with their rubbish. Fight on Harold Wilson!

It was the Roman Catholics who killed off the Aztecs, a mighty Race of Sun worshippers. They who understood the true wisdom of the Solar Stream, which we now understand as the Christ. Nobody has ever understood Montezuma's last act, when he allowed a handful of Spaniards to kill him and take over his Race.

This was a REAL action of sacrifice. For him to have replied by bloodshed, would have entered blood and fury into the Solar glory, that would have affected all time to come, with the Christ being truly marred. So he decided he must make the sacrifice and save the Stream from becoming polluted.

To find the full depth of this, read Montezuma's Daughter by Haggard, which can tell of the depths of this mighty Race, and the treachery of the Roman Catholics. Yet a tragedy repeated again in Vietnam, for it was papalism that started off this war against the Buddhist priests, that they could steal their mystical powers to expand their own dead religion, which has never had any wisdom at all.

All they know they have stolen from others. The Jesuits who dabble in this wisdom, to try and aid the pope reign, know this to be the truth. But I warn Roman Catholicism that they are doomed, for their whole basic is cracked into a million pieces, and their own internal schism, far greater than we know of, will finish off the task.

For when a religion comes down to merely discussing contraceptive pills and birth control contraptions, it shows up the basic of its depths. If this had gone on, it would have brought the whole world down to the lowest level of sodomitical worship.

It is no use anybody getting hold of divine phrases, then throwing them out in egotistical showmanship, and feeling that they will get away with it. Like those who declared of Transcendental Wisdom and the Illimitable Laws of God, when they cannot explain fully of what they are talking about.

For anyone who makes such statements as these, becomes bound to them by the LAW of Appropriation, therefore must honour them and see them fully established, which poor Eve had to do. Then under these circumstances, it will be found how small the world really is when whittled down to a point of beginning. For all is multiplicity magnified in abundance, with man lost in the centre of the maze.

WISDOM

(PROVERBS ch. 8 v. 22—36)

*THE Lord possessed me in the beginning of His way,
Before His works of old.*

*I WAS set up from everlasting, from the beginning,
Or ever the earth was.*

*WHEN there were no depths, I was brought forth;
When there were no fountains abounding with water.*

*BEFORE the mountains were settled,
Before the hills was I brought forth:*

*WHILE as yet He had not made the earth, nor the fields,
Nor the highest part of the dust of the world.*

*WHEN He prepared the heavens, I was there:
When He set a compass upon the face of the depth:*

*WHEN He established the clouds above:
When He strengthened the fountains of the deep:*

*WHEN He gave to the sea His decree,
That the waters should not pass His commandment:
When He appointed the foundations of the earth:*

*THEN I was by Him, as one brought up with Him:
And I was daily His delight,
Rejoicing always before Him;*

*REJOICING in the habitable part of His earth;
And my delights were with the sons of men.*

*NOW therefore hearken unto me, O ye children:
For blessed are they that keep my ways.*

*HEAR instruction, and be wise,
And refuse it not.*

*BLESSED is the man that heareth me,
Watching daily at my gates,
Waiting at the posts of my doors.*

*FOR whoso findeth me findeth life,
And shall obtain favour of the Lord.*

*BUT he that sinneth against me wrongeth his own soul:
All they that hate me love death.*

The Law of Soul Rebirth

THE next most important point, is to take of how a woman REALLY conceives, something the pope has never heard of. Every soul is a reincarnation,—which the pope refuses to accept,—hence draws to the parents suitable for his karmic return. I had a son who had been a pope, who came to help me accomplish this task, and well I knew it, so it is no good the pope denying this one.

The soul draws to the parent and incites the union, then watches over the conception. This being so important, is why some well known Astrologers consider the Epoch period of conception more important than the birth period. Of course, birth control would prohibit this birth, but we have the woman to consider as well, and we are not merely getting a Roman Catholic

colony together. When such as this happens, the spirit trying to enter onto the earth, must go away until another opportunity presents itself.

For 3½ months the soul watches over the gestation, then when the quickening takes place, enters into the womb. This is called "death" in the waters of Lethe, the spirit losing all consciousness for the time being.

Then the spirit has to slowly awaken to its captivity, and fight to get free, felt by the mother in the movement of the limbs. By this it can be seen that what the pope said was right, but he did not give of any true explanation. But again I know of women that are burdened down with children, and nearly driven mad by a selfish husband; has she got to go on living through this, until she collapses, and has no chance of getting her mind straightened out before she passes over.

But it is no good my talking about wisdom that is out of the reach of the majority for the time being, the only thing I can say at the present, is woman must begin to rise up out of the dregs she has been forced into, and get her MIND opened up. For I have brought about changes that will soon have a big effect upon all women, for she has, by Law, been emancipated, far more than she realises.

This is the Higher Law, not the lower law, so it takes a little while for it to come into birth. I could add a great deal more to this, but the time is too early. Changes fast and furious are due in the world, to follow up the breaking up of all old states that will not change and move with Evolution.

This is a MIND World now,

and if you do not build up your mind, then I am afraid you are useless. Trying to make money by your wits will not help you, neither will money save the day, but wisdom and wisdom only, where your mind is built up to Outer World unification, brought about by the Atomic Fires that are descending in the name of the Hydroxyl Breath.

This has already been witnessed by those who have come to grief, who really thought they were water-tight, and there are more to come. The Theocratic Powers are now fully in control, so neither the pope nor anybody else will be able to order things now. Surely the change-over regarding our Government and its future possibilities, should be enough for everybody to see the way life is trending.

If man and woman were raising their minds up in higher thought and wisdom, of which their union is really contracted for, they would not find the sex urge so great, for the fires would be transmuted into mind light. This I think could be a part of the birth control, as well as vegetarian diet, where animal foods are eliminated, therefore raising up the Sun into Scorpio.

But of course the wise woman will work out of her destiny, by having her children and becoming fully emancipated. But much deeper wisdom really belongs to this, and has to be dealt with very soon, for the Elements in their descent are becoming more interpenetrating. But this is as much as I can give for the moment, the deeper wisdom lies in the Occult School.

THE HEALING COLUMN

... GREAT ONE ...

POUR forth Thy Blessings in abundance, that these children will awaken and come out of the darkness they are in, and thus seek for the Light they have let fall into the depths. May they turn their eyes unto the heavens and awaken to the Holy Glory of Thy Being. We leave them in Thy care.

AMEN.

Mr. F. R., Glasgow.

"He collapsed during sleep and appeared to be cyanosed and very rigid. I applied artificial respiration for about 20 minutes. He was removed to hospital and after exhaustive tests, including two lumbar punctures, cardiographs, skull and lung X-rays, and blood tests, they could not define the cause of his seizure."

IN looking into this chart (1187), it is quite clear as to what was the reason for the above difficulty. We see that the progressed Moon was in opposition to the Jupiter in Scorpio in the 6th house, which would naturally activate the fires, and drive them into expansion. But if the expansion was not accepted in mind unfoldment, it would cause a reaction back upon the physical body.

What happened here was that Mr. R. returned from spirit, filled with instructions as to what he must now do, otherwise he would be facing ill-health as the days went on. Thus the powers of spirit tried to move him into action, by firing him, that he could get some active movement and bring some of the wealth that is with him into activity.

Although what took place appeared as a catastrophe, it was really not at all. It was to remove a fixed state of mind, that was preventing the soul from making any unfoldment, for he has five planets all crowded together in the 6th house, but will not move them over into the 7th.

These planets in the 6th house should give him amazing intuitive understanding, but he is defiantly refusing to move forward, and consequently he has put his Uranus into the 12th house in Aries, down the labyrinth.

It was this that was firing the soul to try and get free, whereby all the 6th house planets would be driven into expansion and into the 7th. But this soul is so overloaded with wealth, that it could quite easily bring him tragedy if he does not struggle to make some unfoldment. He has amazing phenomena powers, which he must have brought into birth at the time of Medo-Persia, but is now "kicking" against transmuting them into spiritual growth.

It is a great pity that he went to hospital, for their treatment and tests were more damaging than the original difficulty, but this is typical of the ignorance of the medical world. When are they going to learn of this truth, that a man can only be,

according to the element powers he has consumed.

However, to return to Mr. R., I can only suggest that he makes every effort to unfold his mind, at the expense of his worldly desires. He has reached a critical stage where he must choose one way or another, but I would ask him to remember that the physical body is but a temporary covering, it only being his soul growth that will act as his passport to the Higher Planes.

Mrs. V. S., Paris, France.

"My daughter is becoming extremely bad-mannered, and difficult to handle, both at home and at school."

IN looking into this chart (1327) it is quite obvious that there is a strong religious streak here, even though it may not have yet manifested itself outwardly. This is shown by Mars being in Pisces in the 11th house, and must be disposed of before it drags her back into the old religious ideas of the past; in this case the deadness of roman catholicism.

The other danger here is that if it does not affect her in that way, it could easily cause her to run completely off in wild abandon, and which seems to be coming forth at the present time. This religious aspect could make the child

very eccentric in some of her actions, and with the Moon in the 8th house she will have to be closely watched and given a very good grounding of what is truly right and wrong.

The finest thing to help her would be to give a good training in Occultism, which would push her up onto a new phase of understanding and freedom.

The Path of Destiny in the 2nd house is showing that she must get her spinal intercalary working in order to raise her sensitivity into new beliefs and ideas, whereby she would burst through the limitations of the Jupiterian barrier of orthodoxy.

Taurus on the Ascendant verifies this statement, as it is pointing out the need for the 'plowing of the bull' in its activity up and down the spine. This would help her overcome her Moon in the 8th house, which holds a secret desire for free licence but is for the moment being held at bay by her conscience. This inner wrestle with self would cause a peculiar state of confusion internally with the child and is why people are finding her hard to handle.

She needs to be guided by those who can truly perceive her problems, and who have the answer through their understanding of the real Laws of Life. To add unto this child's difficulties, is the fact that her Sun, Mercury and Neptune, are all in Scorpio, and Scorpio women never find things very easy at the best of times.

This is a very mixed chart and wants a lot of sorting out, for there is a great deal of weakness that must be met and mastered.

At the present moment the progressing Moon is passing into the 1st house, a very critical time, and I would say is the opening up of puberty. This is a most important time, and one when the child must be watched and guided aright, and is where the enlightened parent will be of considerable help, as the child matures and blossoms into womanhood

Miss L. S., Wakefield, Yorks.

"Is four years old. Does not use her left hand properly... were advised her left hip had slipped. She can now only walk when held by both hands, and stand when holding furniture etc. Each time we visit the specialist he tells us she will be walking by the next visit, but so far this has proved false."

HERE we have a chart of a little girl who seems to have had untold difficulties since her birth. In looking into the chart (1363) I note that the planets are badly scattered, but the most obvious point here is that the child has been a nun in her previous life, when she was forced into spiritual action. Religion forced this upon her, but gave her no wisdom, and left her sadly unbalanced.

Now she has come back to try and find the wisdom required, that she can balance up all the states within the higher mind that have been forced into multiplicity through blind religious dogma.

Time and time again we receive letters from parents with similar problems; each time the child has trouble with her legs, and each time the chart clearly indicates that the child had been a nun in her past life, where she was raised up in sensitivity of body to become Bride to the Christ,

but given no wisdom to balance up the inner bodies and turn all into divine light of understanding.

In this particular case, this soul has returned to earth with her Jupiter, her expansion, down the 8th house, that of the pit. Thus she has her Path of Destiny in the 1st house in Libra, which is indicating that she now must reconcile her conscious mind with her higher mind, and bring all to an atomic point of Solar oneness.

The whole answer to this child's problem, is to raise her

up on the true wisdom of life, which the Occult Gazette can give, and make the wisdom radiate around the child, which will help her expand and respond to the blind beauty that was enforced upon her by ritual and not wisdom.

This is where the parents must give all help possible unto the child, by studying the depths of the wisdom themselves, that the child can grow up in the new mould. I do feel though, that there is a strong religious streak with the parents, which they must first overcome in order to accept fully of occult teachings. For do remember that religion of today has nothing whatever to do with Divinity, and nothing whatever to do with Truth.

DIVINITY IS ONLY TO BE FOUND BY THE SOUL WHO IS PREPARED TO INVESTIGATE THE MYSTERIES OF LIFE, AND THEN PUT THEM INTO OPERATION WITHIN THEIR OWN BEING.

Miss P. M., Virginia, U.S.A.

"I suffered from hypothyroidism... had a total right and a partial left thyroidectomy. Physically I felt great until a year ago, when the thyroid activity became over-active again. Currently I am on iodine and tonic—and feeling better."

THE owner of this chart (1372) has unfortunately got herself rather divided. She has the Sun and Uranus in the 12th house in Aries, which in itself would give her untold fire, plus Mercury and Venus in the 1st house in Taurus.

Then to add unto this we find that the Moon is in Scorpio.

There is no doubt that in your previous life you were fully aware of what you had to put into operation, and you have been making some very strong bids to do so, as can be seen by the 12th and 1st house planets. Where you made the full cycle into the 1st, is where you were successful, while those in the 12th house, indicate as to where you were unable to make the fullness of understanding.

The culprit here is your Saturn in the Mid-Heavens, and particularly in Capricorn, and I should say is again where religion has played a very strong part in your life—past and present—and has left its complications in the inner bodies.

I see that your progressed Moon is passing over the 12th house, and must nearly be passing over your Uranus, and this is why the thyroid difficulty has broken out again. You are being called upon to become a pioneer for the new truths, to unfold the true understanding of the Holy Fire, but you are allowing old states to prevail and are not making expansion out of the false ideas of orthodox religion.

Again I would say, turn to the wisdom in the Occult Gazette, and ever read it, trying to get the expansion out of it as you perceive of the greater purpose of life. Then when perceived, make it a living status within yourself. I would at the moment, recommend Buchu, Vervain, and our Cleansing Pills, as herbs which should be of assistance.

Miss M. E. B., Illinois, U.S.A.

"I have diabetes mellitus, incipient cataract, and fatty liver... After sneezing too hard I now feel dizzy when lying down and getting up. The antibiotics the doctor gave me has caused me to have diarrhoea."

REGARDING this chart (1361) I note that Uranus is in the 1st house in Sagittarius. I have always found that anyone with Uranus in the 1st, finds life very difficult to handle, for so much is expected of one with Uranus in this position. What you had come back to accomplish Miss B., was to bring expansion to all those planets that you have lodged in your 2nd house.

It is quite possible that it is this which is causing your digestive troubles, for you have mighty wealth there, which is not being able to express itself as the dancing glories of the mind. You have Sun in Capricorn, with four other planets in this sign in the 2nd, including Saturn, Mercury, and Jupiter. This is a strong indication that you hold very much to 'earthy security' rather than turning to the spirit for sustenance and guidance. The very

fact of your having Saturn in the 2nd, conjunct with Jupiter, points out that you are not making any effort to build up of the mind, and this is most essential to you.

When a soul passes over into the spirit world, they only enter onto that plane of the degree of their soul growth, and this can only be accom-

Sensitivity and frequency now as unified glory, as oneness born as androgynicity.

All brought to a state of oneness. You have not got multitudes of thoughts, creations, and beings. You have got length of word here, but this is trying to get your mind drawn from all those multiple states you think of, into a state of oneness.

Where the soul as light, is a Sprite of the heavens, a cosmic conscious divinity. No longer a demizen of the depths, but a Solar being begotten out of the depths of Time, and radiated into divine Splendour, by the unfolding glory of heavenly truth, a mind born of Virgin purity. A Vega born soul, risen up out of the dregs of darkness, as a god who lost his footing in the depths, and chose the road of illusion. For here we see the glory of those mighty heavens, born in the radiating Norm as the fiery propensity of the Central Sun, out of the density of the depths. Where what had been merely a spark of belief, was now the whole propensity of that radiant divine glory, in a mind born from the unified heights and depths, the glory of the fourth dimension. Womanhood raised up into the glory of the Fatherhood, in the first Virgin birth of the MIND, where the Trinity of Father, Son, and Holy Ghost, are the glory of the heaven born son.

Q.—In your talking about the spine, Master, where the Bible talks of Moses, with the pillar of Fire protecting him, this was in fact his spinal column all alight.

A.—That is quite true. If you can see all these things as a relation to the soul itself then you have a better understanding. The dividing of the waters was the dividing of his own seminal fires that he could get through safely; they were gathered up, so that he was no longer attacked by the lower denizens.

The mighty frequency of the Central Glory, born into a human Atom, the radiating immensity of divine perception, as the unified glory of oneness. A soul completely born of isotopic divinity, the entire radiance of the 144, where the whole vastness of those heavenly Ethers is the first unfolding of the Central Sun, in a mind propensity;

You gather in of the polarities of these Celestial signs, and those numbers which you see in your chart, are the degrees of which you have taken and which you are born of. So if you look at all those numbers in your chart, you can say, "this is my quantity."

Where the internal glory of the "IT," the FIRE, the FIRE of the Divinities,

HOLY MANIFESTATION

A TIME when mystery was given birth, for these sages were the founders of truth, they having then the wherewithal to bring such glory into birth. It was by this that Ba'shazzar realised what he was playing with, and how he must continue the mighty Stream that Solomon had set into motion. Yet the wealth perpetuated by the Scorpio priests of the band gathered around Moses. Wealth that now is considered as mysteries long dead, yet in reality the basic of all man's dilemmas. (See text on page 7, col. 5).

the whole immensity of Being, is now the Hormone consistency of the soul rebirth, in the infinity perception of the ether born mind.

So all you see in that chart, all that you have gathered up, is all in your Hormone consistency of the soul rebirth.

Now the soul, its birth, even its death and its rebirth, is a miracle of life, a miracle of the Divinities. It is a wonder, that once you can see it you will bow your head in overwhelming awe, and aspiration and inspiration, to the Glories of what you have perceived. I am not talking about the physical body, I am talking about the soul, the spiritual Being.

When you enter into the Realms of Spirit you will stand there as the Spirit with the creation that you have built up in the physical, and you will then realise the wonders either of what you have gained, or lost, or what you had wished to have gained, and now out of range for some time to come. Because you will then realise that the easiest way to progression to get back to your Ego-born Constellatory Glory is by the struggle up the Spheres in a lifetime, which Merope has done. She has been able to make the whole journey and will go back to her VEGA home. Whereas the rest of you may take thousands and thousands and thousands of years, and then miss it.

But now all has changed completely from the lower to the Higher, and you will not even be able to get reborn if you are of the lower condition. The time has now come when man has to make a decision. That is why so many of the Gazettes have been sent out in all directions to try and touch man, tap man, and get him to make enquiries, even if he did

not continue. Nobody can say that they have really not had the opportunity because these have gone out in thousands, given away. Now you will say however could they have managed this. We have seen to that, as best We can, but it has still been a very very heavy toll.

Where new born glories of the Vega World are now to be the future birth of the glorified mind belief. Where wonders are now unified with worlds gone long before, and polarised into fantastic beliefs, that will bring forth magnificence, equal only to Samarkand. A mystery world of times begotten, when gods roamed the world of divinity. Heavenly beings of beauty and glory, whose past heritage was the basic depths of the internal Causal divinity. Now by the Relativity of Solar glory, the soul as mind, born from the whole of being, is now unfolding those mighty propensities, through the wonder of unification.

Now that is the important thing, unification; on the starting of this road, when Merope started ionising the inflowing Powers, she had to take them and burn them into her bloodstream, and those that are here know that it is perfectly true because of the Atomic burns that are all over her body. In doing this she was told she had to unify everything, unify the past with the present, and bring the Golden Child out of it. Well, at first Merope was terrified, but she struggled on, and she succeeded, because We helped her.

You may not know how to do a thing, but as long as you say, "Well, I will have a try, but you will have to show me the way," that is all we ask for. But a ditherer, and one that acts in a spineless way, we cannot help. All you have to do is to say, "Show me the way. I have a lesser idea of what you are talking about, but show me the full way to do it," and we will show you willingly. But you see the trouble is, you don't do this, and you start trying to unify it your way. Then you get the wrong

impression, and in the end you are in such chaos, you do not know where you are.

That set into action by the first great feat of Merope's struggle with Ether Atomic life, that man could live and come back to his god-like glory. Thus as the Vernal Equinox unifies the depths and the heights, will the whole of being be showered with divine Ether glory. Thus ever awaiting of their awareness to blossom into light, the consciousness of the comprehending mind. With every soul now raised up to heavenly divinity born from the beauty of Ether immensity, treading the way for man and son, to be blessed by the glory of her Outer World beliefs, that Merope has now exemplified, through her own Scapegoat immensity. Walking the path as a Vulcan born warrior, that their Hormone downdraft can bring forth genius untold, wealth from Ages long forgotten. Now to become of the Hydroxyl unity, in the inter-blended Breath, where soul can take unto itself, a self-born elevated energiser.

Now you have an infinity working in the lower part of the body, and an infinity working the Aura, from the Norm to the Godhead; but there is also from there to the Central Sun, the Vast INFINITY of LIFE. And that is everlastingly revolving and catching you up if you will only allow yourself to be caught up by it.

This is where you get the Breath, and you are able, at the time you take the Breath, to get the revolving infinity from Heights to depths of the Heavenly Causes. They come down, and you send them back as recognition, you dance with them, you believe them, you open up your hearts to them, but you must send them back as Light. You take them, and you say, "Ah! I can see that. Alright I will dance with it, I will make it my heaven born light," and up it goes as the dove back to the Heavens. You are dancing with the Light of it, and if you don't then it is because you are too earthy.

That activated into birth, by the glory of the mind expansion

born out of the mighty depths of their ancient glory; when soul existed in a world of unknown magnitude, a being of divine propensity. For Creation is the outcome of Billions of Time, when AGES of unfolding Glory and wonder, were the mystery of Human construction.

Then the depths of being were put into operation, where the organic creation of the soul, was augured into action. Where intricate comprehension was engineered into a soul-like structure, that at a far-off time, the Divinity who was the unfolding glory of the Source, could manifest through his Son divine. A long-sighted policy of created wonder, that would over-ride the impediments of the human mind, that could, for the time, wreck all into a mighty oblivion.

Don't see these things religiously, for goodness sake don't do that, that is yesterday! Dance with the glories of Samarkand, in all its great wonders of the Orient. Blend up all in unification, until you have a glorious light. Make the light your mind, perceive it, dance with it, radiate with it, sing with it, and then it goes back to the Heights as a dove.

Now I am going to leave it like that, but do remember that everything is belief now. It is easy to say, "I don't see how I can do this or do that, or how anybody could do that," but none of this has been placed before you unless it has already been accomplished by Merope.

MEROPE HAS SET EVERYTHING INTO OPERATION: SHE HAS IONISED AND ISOTOPED EVERY POWER, AND BEEN BURNED BY THEM, AS WITNESSED BY ALL OF YOU. NOW IT HAS BECOME THE ATMOSPHERE, THE SENSITIVITY OF EACH SOUL, IF THEY WANT TO ADOPT IT.

EGYPT

Continued from page 16

this is abandoned as belief in a Non-self, the soul "sits above the pole" and is no longer ruled by the elements, but is the mover of the elements; "Who is this man who rules the wind and the waves"? And this man was born of the soil of Egypt; and learnt much at the knees of her priests; for here was where Pauline, the coming Christed one, spent the missing years.

Egypt was the home of astrological wisdom, and all that is contained in this treatise began its birth in that land of light; it was then that Saturn as the obstructor earthed his force, and it was that power which Egypt used to bring forth in her dynamic creations. As the obstructor he is forever opposed to motion, but when activated by Mars can become fired by the mind of man who has been set to conquer the elements; thus he "subdues the earth" and masters Saturn by the strength of the Bull, whose glory is stability, and which became the reigning lord of Egypt; Apis the royal Bull.

It is the impressive shore against and upon which the sea of humanity is forever rolling and beating in restless activity. It is the continual action of movement until equilibrium is gained and the Law becomes established, for that is God manifesting through Satan being conquered, and the work of all who are allowed to reincarnate. It is the duty and the "rest that remaineth for the people of God," for all equilibrated motion is eternal life, while strife and inharmony result in death, which often is but the foundation for life to commence.

The Law of Obedience

THE Law, recognised by all Egyptian seers, was the fact of continual movement, and valued by all down the ages, while the wise sage knew the value of little sleep, for it was known that eternal motion produced and determined the soul's vibratory place and decided the possibilities of his attainments, as well as marked out his path of evolutionary destiny until he became the power to command and control in the name of the Atum of Life. Thus it has ever been known that he who becomes as light will be as Eternal Motion expressed as the Will in a saviour.

The earth is following the same path as man, but man is the activator as the conscious creation of mind; the reflection of the Godhead; "he created in the image of God." But since the Earth is following the same path as man, there is a great war going on between man and the earth, of who is to become the master. This always takes place by two of the same category; thus it is obvious man must become the master and ever remain, otherwise Mother Nature will rebel, and her agents, the Elements, will become chaotic, with man becoming inundated with wind, storm and rain.

THEREFORE IT CAN BE SEEN THAT THE LAW IS EVER FORCING THE WHOLE UNIVERSE INTO OBEDIENCE.

Once man realises and accepts the Law of Growth, he will discover that the energy to utilize and obtain of wisdom is but that of Jacob's ladder to discover a new force within, with the subsequent unconscious path of unfoldment of the Godhead within; the unseen path of change and becoming, but the failure to do

so is sickness and disease.

The Egyptian priest taught the Candidate, that if you absorb the word of knowledge, wisdom will result if your body responds, but if you do not bring your body by similar action of intake to this degree of unfoldment, there will be obstruction, for Saturn will not be in equilibrium.

AND THE WILDERNESS FLOURISH THROUGH BEING OF SERVICE TO ITS SUPERIOR KINGDOM.

(See the back page plate)

The great Power of Egypt lay in the fact that they believed and taught, that if a man truly got into his mind that the sole source of Power is from within, he would turn his thoughts to unfolding the possibilities that lie hidden there and awaiting his recovery; for the true wealth of man lies in the past being

striving soul to never refuse to open the heart to the stream of quickening life force, for it would keep back from him the power of mastery over the inner powers of mystery; for the Mysteries really lie within the man himself, the mystery being the power to correlate TIME.

The seat of focus to begin this action is in the Astral light, for there lies the seed to bring forth of manifestation, the unfulfilled desires of human life that must be readjusted and interblended with Spirit, so that the Race can slowly unfold into the Higher Thought. By giving rebirth to the jaded and darkened ways of the soul, it uplifts the Race through the atmosphere, for the majority of souls only draw upon the maelstrom breath.

But when greater thoughts are sent forth, then these words are reborn. "When I am lifted up I draw all men unto me". When conditions remain stagnant, thoughts and desires float aimlessly about engulfing the surging crowds like clouds of murky steam issuing from an exhaust pipe. They are so powerful that they sweep man hither and thither, expending the soul's energy if they have no constructive object in view.

Only by correlating with the currents of the One Whole Life through knowledge and wisdom, can the life forces of man's body and soul become attuned to the Great Source that gave him birth. And the Candidate passing through the rigorous training of the Temple of Egypt, had to pass this test before he was allowed to go any deeper into the Temple's mysteries. If he passed, and many never did, he was greatly warned, "woe to him who thinks he can master any force for self alone, or without working in harmony with the Divine Will and Love Source of the Universe."

Yes! the key to unlock all the mysteries lies within, but only through humility and becoming the bowed knee to the Will and Force that demands ever of your life; for at the close of ordained cycles there is need for gathering together atoms who are ready to be swept out of the old stream into the new greater stream of unselfish service to humanity, and those who need to be led into a new Cycle of Attainment; and at present such is taking place, with many squealing and jibbing, while others are just seeking.

IF YOU FEEL THAT YOU ARE ONE OF THESE, THINK MORE DEEPLY ABOUT IT, FOR WE USUALLY RECOGNISE THESE THINGS WHEN IT IS TOO LATE, AND WISH WE HAD FOLLOWED OUR SO-CALLED IMAGINARY THOUGHT.

But naturally with all, there will be the chaff who have no momentum, no will, and these will soon drop out if they get caught up in the whirling waters out of mere curiosity, for they will find themselves blown hither and thither by every passing breeze; and when the hill climbing begins, they will fall away.

In the Egyptian temple of Esneh, you were never allowed to go that far, for they too passed through their cycles, and such dynamic periods were brought forth by them in such rituals as Pageants and Celebrations where many periods of remembrance have been established. These have passed down the ages in many of the ancient myths celebrated at certain times in different parts of the world, and kept alive in folk song and rhyme.

Stepping Stones of the Golden Age

AT the present time a new Age has issued in, the Aquarian age of Electrical pursuits, which really in an ironical way is surpassing the age of Steam. When man is able to capture this the Magnetic will follow, but not until he is able to grasp the true wisdom of Communism will the Golden Age be able to return, for as much as man thinks he knows the ways and means of the Ancients, he does not know of the great peace and wisdom that was abound in the days of Ancient Egypt.

These were the days of the wonderful electro-magnetic atmosphere, which when brought into rebirth will become of the Dynaspheric Radionic-force, that blended in relativity with the past electro-magnetic. Then that will be the time when man will understand the power within himself and by will determine all as he correlates in unity with the Great Will.

Of such as this, Herma the great Teacher of Ancient Egypt, once taught. He, as a Son of God, came to the young race of Humanity after their nullifying state of the Fall to lead and help them recover, and it is of this I now seek to write, for now it is the time of such in polarity rebirth. It was the period of the Lion, Leo, the polarity of the present Age; a time when every priest of the Egyptian regime understood all the above wisdom as the first law, and always as a Neophyte he abided stolidly by the law.

The great Temple of Bubastes has always been considered with a frown, for it was the cream and pinnacle of the Golden Age that started the seed of its fall. Its Priestess and Goddess was the Lion-headed Goddess Bast, who was the most powerful Goddess in the whole of the regime, for she was of the heights and depths in power and wisdom, and of both she resorted; that is why she was considered with a frown. The fall that followed was not her fault, but of those around her using the power unwisely.

It was a period when the Feminine Principle, as the Great Old Mother, still reigned from the Luna Period, and the Masculine Principle as the Solar, had not yet become established; therefore the Goddess ruled, and it WAS the GOLDEN AGE. Perhaps that was the idea reborn when it was hoped and believed that the present reigning Queen would be successful. Certainly Elizabeth the First carried the heritage of her ancient ancestress out to the very full, for many great events took place under her capable hands.

The period of Bast belonged to the second dynasty and goes back some 12,500 years, six equinoxes. It links with the prophet Ezekiel, for in his prophecy against this temple he exclaims, "The young men of Aven and of Pi-beseth shall go into captivity." (Ezek. 30 v 17). Aven was Heliopolis and Pi-Beseth was Bubastes or Latopolis. Surely this proves how much the Bible recorders are out in their recordings as to time. The Bible really is recording of millions of years taking from Genesis 1.

The temple of Bubastes was situated on the canal where the Red Sea branched off from the Nile, and was as a city, the largest of lower Egypt. Great festivals were held here which drew many in from far and wide, for they travelled weeks in advance to be able to get to this city in time for a ceremony that was considered, and justly so, to draw into the depths of Matter, of new life; with all who partook thereof at that moment, becoming healed and rejuvenated for as long as they could retain the "New

ANUBIS

ONE of the many phases of Mercury, where as Anubis, he is the jackal-headed one who transforms the lunar into the solar; then as the hawk-headed god, that of Thoth, he swoops to conquer. Ever bringing into birth the dead who must awaken into life. (See text on page 16, col. 4).

As one who has proved this from A to Z, I say to every soul seeking initiation into the Mysteries, observe this to the very letter, otherwise you will not only fail, but stand a chance of being knocked under the weather. There will be friction between the two poles of the law through Mercury your mind refusing to go back and forth to bind adharma-ignorance into Dharma-wisdom, so that the plane of Karma-life can be established.

MAN MUST BRING THE WHOLE OF HIS BEING, AS THAT OF THE SCAPEGOAT, TO BLEND IN HARMONY WITH THE WORD RECEIVED, THEN KNOWLEDGE BECOMES WISDOM; AND IS SHOWN VERY CLEARLY IN THE PLATE OF THE GOAT BEING SENT FORTH INTO THE WILDERNESS TO FIND GROWTH TO EAT, SO THAT HE CAN EXIST

recaptured and made one with the present.

It can be seen here what wisdom the Egyptians had, for their past wealth lay in the great Powers of Atlantis being captured and brought to a state of stability. They knew it would give them the complete round of time, of which they could bring forth of added deduction that would be the foundation of the future. Surely the same applies to us?

The Divine Will

ONCE man can bring his whole being to blend in harmony with the word, knowledge will become wisdom, and his manifested consciousness solve the problems of an age of new birth, but perhaps greater worldliness to be battled with where they are more hemmed in through Saturn's superiority. Therefore the ancient priest advised the

HERBAL MYSTERIES

Part 14

HORSETAIL

(*Equisetum Arvense*)

by David Spearman-Cook

*As the tail revolves and slashes,
To flagellate the latest graces,
Raising all the Virgin passions
Into states of cosmic greatness,
Once again to gradually awaken,
All the inner fiery depths of Ages.*

HORSETAIL, THAT OF *EQUISETUM ARVENSE*, belongs to a class of plants known as the Equisetaceae. That which has no direct affinity with any other group of British plants. They are nearest allied to the ferns, while the class includes only a single genus *Equisetum*, the name being derived from the Latin words *Equus*=a horse and *seta*=a bristle. This is from the peculiar bristly appearance of the jointed stems of the plants, which have earned for themselves the popular names of Horsetail, Bottle Brush and Paddock Pipes. It is placed under the dominion of Saturn, and as such is of tremendous wealth; therefore its possibilities can be profound to the seeking initiate.

SEVERAL of the species have been used medically, and have been classed as vulneraries, being recommended for consumption and dysentery. As a diuretic and astringent, it has been found useful for dropsy and gravel, also for kidney affections. The kidneys, being the turbines which drive the fire, would be well protected by this herb, with the aid of a little Hawthorn. When burnt down, the ashes can be used, and when taken have considerable value in acidity of the stomach, having been used with very good results by sufferers of ulceration, including ulcers in the urinary passage.

Month by month we have been slowly progressing along a continual unfolding pattern of fiery herbs, and we have at last encountered one that has never yet been granted its full depth of understanding. One that has been given a very bad coverage as regards to its possibilities and capabilities in the descent through the Ages. This was mostly due to the searching herbalists of the past never beholding the true creative depths of the fire, but ever being satisfied to remain amongst the false fired stimulus of earth.

Wine". The Lion Goddess Bast, the Priestess officiator, was one of the miracles of the Ancient past and became the ancient wisdom of *Aegypt*; the remnants of the great past—Atlantis.

The ruins of Tell Bastah can be seen from a great distance, and they still contain some of the most priceless and magnificent monuments of time, with Egyptian architecture completely unsurpassed by any other period. It was completed with hard red-pink granite, most elaborate in its decoration and completely covered with hieroglyphics. Characters of hieroglyphs are found there that cannot be found elsewhere.

The face of the obelisk was completely covered with stars representing a sky; the stars have five rays and are joined together in irregular order. Now, there is only enormous masses of great slabs of granite mutilated and heaped up in a mysterious way, and to such a degree as to make the onlooker wonder what could have broken and piled up these masses in such a mysterious way. Only that Goddess knew, for she was the most powerful of all dignitaries that Egypt has ever known and who set the seed for its later fall. The massive slabs used to erect this temple

for the rest of the world to follow.

THE main advantage of *HORSETAIL* to man, is that when taken, it causes an activity starting from the very depths of the *Cauda Equina*. This being known Occultly as the tail, and distributes the activation into all the nerve ends of the whole of the nervous system. Consequently firing the whole of the soul with life, and stirring the latent wealth that has ever remained dormant through the lack of will and purpose, into a raised up Solar state.

THIS BEING PRACTICABLE ONLY IF THE WORD IS INCORPORATED, ACCEPTED, WELL DIGESTED, AND DULY COMPREHENDED. FOR AS POWERFUL AS HORSETAIL MAY BE, OR WILL EVER BECOME, IT IS ONLY A SUBSIDIARY TO THE IMMENSITY OF THE INFLOWING BREATH FROM THE SUPREME DIVINE SOURCE.

Since it is a nerve revitaliser, it is also a remarkable blood activator, whereby as such it can increase the thermic frequency of the blood, so that it will help raise man up out of the depths, and raise his sensitivity by at least 20%. This will help keep him elevated whilst he encounters an adverse change of his astrological chart.

As the fires increase, it will be noted that Horsetail will assist souls who are caught up with sodomitical states, which the medical and religious orders can do nothing about. For this herb is working hand in hand with the Holy Fire, thereby helping all men and assisting them into the change-over to Theocratic consciousness.

HORSETAIL and *HOLY THISTLE* as a combination will strengthen the nervous tissues of the bloodstream, and will also support the structural form of the soul once he has begun to renounce, whereby he will be capable of receiving the descending Holy Fires. But he has got to be a steadfast Bull

of great size and beauty for a considerable distance, and on each side of this entrance were trees of extraordinary height, through which, as a symbol, this temple was correlated to the equivalent of Mercury.

The hieroglyphics on the temple portray the Goddess as a very beautiful woman; one of outstanding beauty and who was equated with *Atum-Ra*, the great Lord of Life. In many places she is seen as the Cow *Hathor*, or the Lion *Bast* delivering of the ankh of life as blessings to open the mouth of those dumb.

BUT SINCE THIS IS THE PERIOD OF THE GREAT POLARITY OF THE PRESENT ERA, AS A TIME OF BEGINNING WHERE THE COMPLETE FULFILLMENT OF KARMIC RECKONING IS TO TAKE PLACE, I WILL CONTINUE WITH THIS KNOWLEDGE OF BAST NEXT MONTH, WHERE A FULLER STORY OF THE GODDESS AND HER DOWNFALL WILL BE EXPLAINED. IT IS OF A PERIOD FRAUGHT WITH PUNGENT MEMORIES, AND ONE THAT I, FROM A MEMORY STANDPOINT, FIND VERY VIVID.

with much belief, or he will find an over-spilling which will release the pressure of his congested state of obtained fiery life.

This will happen to all men if their intent is not fully with the great Work of change, leaving them blank and blind on the plane they have reached. This obviously demands a greater drive to gain that raised up state of positive fire for him to survive, and carry on his rising frequency.

HORSETAIL can benefit women just as well as men, for they could find that it will help them to rise up, until they can live purely and simply under the protected mantle of God. Thereby there is no reason why she should not immediately start and become less swayed by man's fiery lunar state, and become of the true immaculate conception, a pure divine state of *Virgin Vega* mind.

HORSETAIL, as said previously, can awaken the depths, and can help to activate the moving blood with all the wealth that is shut down in man's Solar frequency, which he has never yet brought forth. This is done by the seed of thought that he has taken, being fired onto a higher frequency, thereby giving him a greater understanding, or expansion, which he would not have comprehended if he had relied upon the animal stimulus only.

So it could be classified as a possible Solar activator, if one would put their whole mind frequency into that line of thought. This fiery herb fires the nerves and sets the infinity ratio working, so as to capture the wealth out of the soul's rising mind frequency. The captured frequency attracting the polarised wealth that he has centred his rising thought upon, to give himself elevation, and raise up his mind to his approaching royal godhead. But here again, only obtainable if the conscious mind is activating with Occult teachings.

HORSETAIL and an extraction of *IVY*, can bring a fast relief and a soothing balm to any rash that is constantly irritating, for they have a counteracting frequency between them which will start a balanced ratio of fluidic powers revolving around the blood. Bringing a frequency to the sensitivity—upon any plane—which will control the excess dead matter that has begun to decay in a body of flesh. That which at one time they had risen their mind and frequency up to, as a higher state, and then dropped, quite possibly through a non-continuance of a thought, to gain mind expansion.

FOR UNLESS MAN DOES SEEK OF EXPANSION, HE WILL FIND HIMSELF EVER RECEIVING OF A WORSENING STATE, UNTIL HE ENDEAVOURS TO STRUGGLE OUT BY ELEVATED MIND ACTIVATION, PROVING THAT THE FUTURE

WORLD WILL ONLY BE FOR THE SOLAR-BORN MIND SOULS, AND NOT FOR THOSE OF THE CANCER DEPTHS OF ILLUSION.

As the horse uses its tail to relieve the buzzing irritations, so the Horsetail herb will act as a constant switch for breaking down the inner agitating states within the soul. The flies that irritate the horse, have their polarity in man, for they were first created by him. This became the illusion of a horse upon the densified plane of earth and eventually came into birth. Flies being the only expansion man captured out of the descending fires of the past.

HORSETAIL and *VERVAIN* can help correct the incestuous states of the soul, for *VERVAIN* which has been well tested and is an extremely powerful herb for the nerves, can help to steel one's overactive *Thymus*. Thereby between the two, will bring a centralising and controlling as to the amount of haemoglobin to flow into the blood, and counteract the nerve balance through the extra stimulus that is offered to the revolving bloodstream. This will cool all rising tempers, and bring a much more refined state to the soul, who needs to keep his passionate outbursts tempered with balanced Solar logic.

HORSETAIL, *HAWTHORN* and *BUCHU* can bring the soul who is ever in the depths, through his own lack of struggle with the descending powers, into a balanced state. Whereby it will enable him to rise up and pull out of his earthy outlook. For these three herbs will activate portions of the anatomy, that are not being activated consciously, and change the pulsations of the outer frequency of the fleshy particles of the soul.

That which would thereby help vastly in changing the inner bodies, through the power of polarity. Providing man co-operates, these herbs will give the basic for the soul to begin a climbing ratio through his rising aspiration to penetrate Outer Space, because of their once fired immense polarity, for Saturn is a mighty power.

It can also imprint upon the mind the power of illumination, for it was a mighty power of light that once shone upon the earth before it was changed into fire, through the fall caused by man. Its immensity was of the atomic structure, and is capable now of intensifying the gods of the meninges into birth, through its thermic ratio of fiery light.

LIGHT BEING PURIFIED FIRE, THEREFORE IT MOST DEFINITELY SHOWS US ALL, WHAT WE MUST DO TO RETRIEVE OURSELVES OUT OF THE DENSE PIT OF FALSE FIRE WE ARE IN, BY RENOUNCING AND AWAKENING THE GODS FULLY INTO BIRTH.

HORSETAIL, *HOLY THISTLE* and *HAWTHORN*, will help considerably with the taxed ratio of the atomic covering. That which one has planted around themselves as the outer states of flesh, which will not unify into a fluidic stream of nervous sensitivity through gradual renunciation. Thereby awaken one's talented gifts that we individually have massacred, and left as different organic centres of distributed fire, air and water within our earthy structure, instead of all becoming an atomic fiery oneness.

When one is capable of fasting in a masterly fashion, it is possible by living upon

Readers' Letters

IT was as a result of receiving Mrs. M. B.'s letter (see below) concerning the contraceptive pill and the papal decree, that Mrs. Spearman-Cook decided to write her Reminiscences upon the whole point of child-birth, and the deeper mysteries of life that surround this subject. We hope that it will not only help Mrs. M. B. in her difficulty, but all those who find themselves faced with this problem, and not knowing which way to turn for guidance and understanding.

because they cannot afford any more children, are they to be condemned because they wish to give the children they have a reasonable start in life? How can we instill in our children, love and respect for the Church, when they see their parents living in defiance of its laws? Also, how can a few old celibate men have any knowledge of marriage, its relationships, the love and needs between man and wife, when they have not experienced it, how can they truly judge?

The Church is split on this subject—come to think of it, it has taken the Pope four or five years to receive the Law of God, whereas it only took Moses forty days and forty nights on Mount Sinai to receive the Commandments. Man slows up with age, but God being eternal and of Spirit, this cannot apply to him. If it is God's Law, why has it not been made known long ago, as methods of prevention are by no means new? What advice would Our Lady the Blessed Virgin Mary give?

I know I should not be writing like this, against my religion and the Holy Father, but I have had time to think, to doubt, and I am at a loss, bewildered. Please can you possibly ease my mind with understanding and advice, showing me the way to go. I feel that I can only receive this from another woman, an experienced woman, such as yourself.

★ The Birth Control Confusion ★

Mrs. M. B., London, England.
Dear Mrs. Spearman-Cook,

MAY I ask for your guidance with regard to the question of birth control and the Pill. I have been recommended to you by a friend, but up till now would not dream of approaching you as I know of your opinion of the Pope and Roman Catholicism, for you see, I am a Roman Catholic. I have been taking the Pill for some time now on medical advice, having been told that a further pregnancy could quite well cost me my life, thereby leaving my children without a mother and making my husband a widower. If I obey the Encyclical, and my husband makes love to me with the result that I die through pregnancy, my husband says he would have an awful sense of guilt for causing my death for the rest of his life.

Now, the Encyclical leaves no room for doubt, it is final in its edict. But from the ensuing debate, it seems the Church is split on the subject. On the one hand, the Pope has stated that it is God's Law. On the other, we have priests who say it is up to the individual conscience and have publicly acquiesced from the pulpit the use of the Pill, thus risking the discipline of the Church.

Apart from women like me who take the Pill on medical grounds, what of all those who take the Pill

★ ★ ★ The Creative Power of Love ★ ★ ★

Miss Winifred N. Chitham, Leicester.

IT was wonderful to visit SUPH House again, and the Temple of Healing, and what wonderful healing Mrs. Burton and I received. As I reached home I was led to write this article. It had been nagging at me since the night of the Birthday Visit to Vega. Suddenly I was led to write it and I was astonished as it wrote itself. In a few minutes it was written. I am no writer, and have never written anything before. I experienced the vision and in consciousness and inspiration, but could not write it. The article on Heart Transplants I thought very sound and good in July's Occult Gazette.

ON awakening on the morning following the birthday visit to VEGA, I personally remembered nothing, but was filled with an overwhelming sense of bliss. As the days passed, gradually building up in my consciousness and through the door of my mind's eye, I saw a plaque in front of me with the words,

"Put Love into everything you do and wrap up the parcel with Love to those who hate."

Suddenly a vision appeared of what Love could really do and be, and how the world could be lifted up by each man, woman and child who put it into practice. Now I saw the Teaching Angels, of wondrous beauty, and they showed me how everyone on earth can be, and is being, used to earth the mighty Power of Love.

I saw a man working on a shoe, lowly of caste and sad of mien, yet I saw a shining angel at the back of him pouring the Mighty Power of Energy called Life-Power or LOVE. As the shoe was finished, and going through various hands to be finished, and then finally being worn, the mighty Power of Love was pouring through all who had touched

the shoes, and then finally being trodden and earthed by the wearer. Then when earthed, lifted up to the heights from whence it came, having purified all whom it touched.

Now, brethren, this can serve as an example for all of you to pray and be used in service, not for monetary gain but putting Love in all you do and the rest will be added to you. Not to see yourselves as slaves, but as gods in the making, and doing your share to lift the world's Karma and usher in the new Golden Age.

I say to you, Brethren, pray and love and love and pray, and help the Goddess Earth, who has travailed so long on your behalf, always suffering and carrying the weight of the people of Terra. Now Her time has come to be lifted up to Higher Initiations, and nothing can stay her progress. This is the solemn duty of all Earth people, and their way of earthing the Love Ray. All can be used; cleaners, gardeners, washer-ups, and those making clothing and knitting. All can be used and are, to earth the

mighty Love Ray as the Earth moves forward to her mighty Destiny which can be denied no longer.

O Brethren, I pray you, whilst you can do your part, open your eyes and see. No longer doing mundane and tiresome tasks, just seeing it as a means of earning your living, but now putting service first and learning to love your mundane jobs, seeing yourselves as gods in the making.

Put Love into all you do and learn to love the work no matter how lowly, and the Great Divinity of the Heavens, who is no debtor, will compensate and recompense you. Get into the Mighty Stream of the Ray of Love, do your part and your Overself, your perfect I-AM-SELF, made in the image of God, will meet you more than half-way and lift the burden.

NO LONGER WILL YOU RUN HITHER AND THITHER, BUT STEP GAILY FORWARD WITH A SINGING JOYOUS HEART.

As your Earth is being sorely tried and all of you put to the test, here is the Open Sesame, not only to help you come to terms with yourselves, but a way out to help you live with the conditions now facing Earthlings, and rise triumphantly above it.

Remember, Earth's wayward

children, that mighty gods and angels are all waiting to assist you when the Karma is worked out and to love and teach you to do as you would be done by. Remember Love, as apart from love of man and woman of child, is composite, made up of courage, hope, sympathy, love, generosity and other attributes. We were created equal and gods, and made in the Image of God, our Overself, the I-AM, but we lacked experience, and Earth is that School of Experience.

Rise up, Brethren, I say, Rise up! The gong has struck, the Trumpet has sounded its last note, its hour is here. My last words to you, dear wayward Earth children, is to Love and Love and Love, and do as you would be done by. The Way of Life and Success and Health is Love and Love and still more Love, and in prayer and meditation, and in being doers of the world.

The Earth is the Galaxy's wayward child, and just as the teenagers are running wild and getting out of hand, so are they akin to the Earth and the Galaxy.

Put Love in all that you do; Put Love into your eyes and let people see it. Be Creators of Love and not slaves.

SO MUST IT BE!

★ ★ *The New Path of Wisdom* ★ ★

Mr. Charles P. Urbani, Dunedin, New Zealand.

MANY thanks for your most pleasing letter of 21st June 1968. It was most gratifying to know that both my wife and myself were in time to make the Spiritual Journey to VEGA. That we had no conscious recollection of the journey does not leave me in the least perturbed. I find that most of my intuitional sense is heightened mostly by conscious experience. The seed sown, incubates, and blossoms forth in increased awareness. I had a 'mishap' recently, slipping on the icy road, and breaking a fibula bone in my right leg. As an occultist I accept it as karma but strangely enough with some underlying purpose. I feel sure that with a clear bloodstream healing will not be too long.

Some little while ago you were asking for contributions of a limited nature. I have humbly submitted a small offering in this direction for your perusal. It is written from the heart and if you so wish may be used wholly or in part. I am greatly stirred by your "Reminiscences" of the May Issue, the forthright Editorial by Dick Speller, and the Herbal Mysteries by David Spearman-Cook. Also I can never forget that gallant band that surrounds you.

Soliloquy of the Pilgrim

"TO be or not to be!" These famed words of Hamlet must also surely confront every potential pilgrim, who contemplates the way of the occult path. At the crossroads they must make the choice. The way that leads solely to the assimilation of knowledge, 'Intellectualism,' or the way of becoming through knowledge being transmuted into wisdom at every step along the path that leads to 'Mysticism.'

Pilgrims come by the way of many roads to arrive at this point of decision. Having that propensity to overcome many an obstacle. Even to have arrived so far, they must have cast aside that cloak of hypocrisy 'conventionalism,' the moribund churches, and the crumbling autocracies, to seek

that which they feel to be true, as against that which they have known to be false! And now, divested of those things which have enslaved mankind, and with complete freedom of thought, are now able to survey the field of exploration into occult science and philosophy.

Indeed there are many profound teachings and to be able to extract the golden threads that run through them all, and so begin the weaving of a pattern of great beauty, we need a pathfinder. To those of us now living in this day and age, we can truly say that the pathfinder is in our midst.

In Gladys Spearman-Cook, that great Mystic, we have the true pathfinder. Along with her gallant hand and their indomitable stand against religious fabrications and subterfuge, she holds the beacon high, not

only to the pilgrim but to every soul seeking light in the darkness.

IN THE 'OCCULT GAZETTE' WE FIND THAT STREAM OF WISDOM THAT FILLS THE PILGRIM WITH PURPOSE AND COURAGE TO ASCEND TO GREATER HEIGHTS.

With the feet firmly planted on the path to attainment, and fortified by the wisdom of the Occult Teachings, then can the pilgrim truly come to the epilogue of his soliloquy, and pronounce those famed words of 'Invictus,'

*"I am the Master of my fate,
"I am the Captain of my Soul!"*

Wonderful Reading

Mrs. L. Rudd,
Aston, Birmingham.

Thanks so much for the copies of the O.G. received last week. What wonderful reading it makes this month, I have to keep looking at it over and over again. I feel at a complete loss to put into words the feeling of power and wisdom that comes from it.

I was most intrigued about the journey on the 12th June, and I am quite sure I was there, although I can't recall any of the happenings; but the circumstances surrounding that time gave me quite a lot of thought, for that time had been set as part of my husband's holiday. We were asked to spend it with relatives recently moved to Devon. I found myself getting concerned about not being in my own conditions that night, while added to that, the vibrations

Attention American Readers!

ONCE again we are nearing the Christmas period, when we receive numerous complaints of the Gazette never arriving, or being badly delayed en route. I would remind our American readers that the only way to overcome the Christmas postal chaos, is to have the December and January issues sent by AIR. The above method is the only way we can guarantee a safe and speedy delivery. Any readers who wish to take advantage of this, are asked to send one dollar to cover extra postage.

of the home concerned are strongly material.

But it's amazing!—The day of the 12th it was decided that we move on round the coast. We couldn't find where we were looking for before dark, so we decided to do as we have done before, (without breaking the law) to sleep out in our small van, so that night we were among the trees and fields, (more in harmony I thought). About 1.30 a.m. a bright light shining on us, woke us up, and as we looked up into its brightness a very

nice voice said, "It's quite alright, this is only a check up," and then went away. I wondered afterwards if in some strange way it was symbolic. It's amazing how our actions are directed or redirected at given times isn't it?

Would you mind sending me 6 ozs. Marigold Flowers please?

May the Blessing and Protection of the Great Powers be with Mrs. Spearman-Cook and all of you at the School, and in all the work you wish to achieve.

★ **Significance of the Aquarian Age** ★

Mr. Walter Kron, Milwaukee, Wisconsin, U.S.A.

I NOTE from time to time that readers make literary contributions to the Occult Gazette. In this light and frame of reference, I should like to make an effort of my own. Not only from the literary standpoint, but from the standpoint of the possible spiritual inferences attendant upon its composition. Isn't it strange and mystifying that a very young man (myself) years ago, should arise one night, at the midnight hour as I remember it, and write down the words of a four line verse, and then go back to bed again? It was in California in a small room of a very large mansion on top of a mountain where I was visiting.

I think it best if I introduce the poem at this point, and then proceed to a brief spiritual analysis:

*Watchword of the Wise.
Pray the hard, cruel way be thine;
Ever to the call thine ear incline.
Until with bleeding heart and spirit's ire,
No longer thou breathest air but Fire.*

IT seems to have been the cry in advance to heed the coming of the Aquarian Age; its recommendations being elementally coincident to the requirements and opportunities of said Age, and of the tenets and teachings of Universal Philosophy: Wisdom, suffering, sensitization, and the Divine Fire or Flame.

The first line infers the necessity for suffering if great spiritual unfoldment is to be achieved—as Merope suffered grievously for years in order to unveil the mysteries; but as the second line runs, she insisted upon exercising the "guts," as she herself says, to persist to the last breath. The third line has the Heart of Christ pierced with the wreath of thorns, or since Merope has become one with the Christos—Merope's Heart of Compassion to provide the Dish Full of Blood.

The fourth line has the

nerves becoming sensitized through all the suffering of lifting the mind to the higher realms, and especially the two nerves, starting at the base of the nose, or at the nostrils, and running down each side of the spine to its base—the fourth line has these two nerves contacting not only the physical air we breathe, but the prana or ether (which is the Divine Fire of Flame) to feed and restore the soul, as well as the physical body. The ether or prana is just behind the physical air, as the soul is behind the physical body.

I find it very significant that I wrote along the same lines as Aquarian Universal Philosophy so long ago. I didn't analyse the poem until years later. As a very young man (which I still am) I couldn't know all the technicalities involved, but I could write with the inspiration of the poet, and probably was guided.

plished by the building up of the mind awareness concerning the Spirit World and its many planes of creation. Then once you know you must live the new understanding, that it becomes a reality within your internal being, and you build up an infinity between yourself and those higher planes.

I see that your progressed Moon has just passed into the 1st house, and will soon be passing over your Uranus which will no doubt seek to awaken you to the greater purpose of life. Being in Sagittarius, it would have effect more on the body than the mind, but if you would only study the wisdom in the Gazette, and let its internal

spirit help you, the effect of Uranus could be greatly alleviated.

As to the diabetes, it is a well known fact in esoteric circles, that this is caused by a lack of expansion, and what you would consider a fatty liver is really a swollen liver, due to the amount of wealth jammed up in the soul.

Seek as much as you can into the wisdom of life, and its occult depths, for here lies the answer to your problems. As you make expansion, and become more aware of the truth of life, will you find your difficulties disappear. Until then, we will be sending you some **ARROWROOT**, which is excellent for your bowel trouble, and **AGRIMONY**, **DANDELION**, **CHICKWEED**, and **ELDER FLOWERS**, to aid you with your other complaints.

But do remember that herbs only help to solve the problems of the physical body; the only permanent healing is that obtained through the study of the **WORD**, whereby the inner bodies can be brought back into perfect harmony, and the soul finds itself once again in complete attunement with the inner Divinity of their own internal creation.

Next month we will take **HOLY THISTLE**.

HERBS

HORSETAIL and the juice of the apple, to so activate the Thymatic powers, that man could manifest amazing phenomena through his risen up state of clarified creation. By this he could then help to clear his karma a little quicker.

For by over-riding Saturn and managing to live as Sun in Scorpio, he should be capable of receiving the pure Holy Fire of Antares, for Antares would then have a non-impeding Saturn state to break down. Man then becoming as a god state, for the Holy Fire would be fully obtainable by his own full immensity of Divine belief.

HORSETAIL is a complete fulness as a herb, and was used as a fiery burning brazier upon the bows of the Viking ships, when setting sail against a foe. For they were very susceptible to the hazy effect that it had upon them, which of course gave to them a clairvoyant vision of their objective. This denoting the power of this plant, for in those days the strength of its power was not hampered, giving unto us an understanding as to why the Vikings battled so fiercely against the Catholics.

The Vikings were fighting to maintain the power of the gods, because upon the festival periods of those mighty gods, the religious saints were deliberately worshipped so as to confuse the Fiery Stream of pure life. And was still being done today, until Merope changed it all back to its original order.

IT WILL BE A BLOODY REVENGE THAT WILL NOW BE PUT INTO OPERATION, AS THE ORION MAN BEGINS TO WIELD HIS FIERY CLUB AGAINST ANY WHO IMPEDE THE SOLAR SPIRITUAL MIND REBIRTH.

Next month we will take **HOLY THISTLE**.

EGYPT —

The Cradle of Civilisation

Part 4

by Gladys I. Spearman-Cook

IN CONTINUING WITH THE WISDOM OF THE LAND OF FERTILE MUD, LET US SEEK ONCE AGAIN INTO THE KNOWLEDGE of their symbology that has descended down the ages. Anubis was the hawk-headed God who was as a form of mind when it begins to create of power. This commences when the soul-mind growth perceives of something greater than just existing, and begins to look towards self as being the expression of the Godhead in its creation. The soul is beginning to perceive his own image shaped as the God of light, and wants to know more. He begins to form a plane of the upper Law within his own being, the plane of the arc of the Ego; but what has to be watched, is that the Ego does not become glorified egoism, and there is always a possibility of that taking place on any plane along the route, until the Buddhic plane is established and then the soul is enlightened. Along this path, the sure key is the one always advocated by the true Son-chen, or Egyptian priest: Maat—truth at all costs. For truth is the quickest way to the sword returning and all being laid bare and made secure, because no man can pass over the threshold until he has been weighed in the balance, then Ani can pass on into the next Chamber of Revelation.

The Mystery of Creative Activity

LET us now seek into the wisdom of the mumia or power, for there was no greater period in the whole of history, whereby so much power was created and remains with man as his hidden qualities. This was always represented, and still is, by a lion, the symbol of power; for in the ceiling plate of Esneh you are shown a sitting lion, one on all fours, and thirdly a lion erect with a knife upright in its paw, which represents creative action.

The first lion has the partial horns of a ram, the second less so, and the third the formed wig of the cynocephalus. Further, the first lion has a lion's tail, the second has his tail turned into a Uraeus, and the third has an ordinary animal's tail. All three in different forms of head and tail, represent the mumia in its formation through the initiate's mind action by perceiving and creating; one who is forging ahead.

An experience or even a misfortune is a mumia or vehicle for power to become; a strength to be established within the soul by its weathering or mastering the element, whereby the soul establishes the Law within its being. Therefore the real answer to Hercules and the twelve labours is the fact that, by weathering of the experiences, the soul becomes the recipient of power.

YET THAT BECOMES THE MOMENTUM WHICH MUST BE USED FOR THE NEXT ACTION, OTHERWISE IT BECOMES INTROVERTIVE AND DESTROYS YOU.

It is like the Pythia holding the serpents, if she relaxes they will sting her to death, but while she struggles and has hold, their power becomes her power. Then she through her feminine principle, or personality, weds the masculine principle, the individuality, and the power becomes the arc of the mind. The positive has combined with the negative and produced a third, a mind strength; the Spirit and matter have interblended and the light of the Christ-ship has come forth in the forming Causal body. Thus they are the combined wall of protection, the power of catholicity, united strength.

In our investigation of Egypt and her wonders, let us look more fully into the knowledge of the mumia, for this was her secret and is the hidden secret of all men. At that early age she had to establish life—she had to exist; and although it was the beginning, she had in her favour, virgin soil and virgin power.

Therefore it was easier and more ready to hand, but what she created was never lost for it is the base of all human beings, the secret of relativity. It is man's pot of blood, which Paul in having it revealed unto him, was running away from.

THE SCAPEGOAT

THE mystery of the Scapegoat has ever been a secret, that it could be voluminous in its action. Something that mankind in general has no knowledge of whatsoever. In the past it fell to the lot of the mighty Bull king, who strove to bring his country and throne up as the winning ace against all others in the competition of life. A time when kings were truly kings, and not just a figure-head of colonisation. Now it falls to the lot of the mystic, that they can drive the glory of truth into active manifestation. The sooner man awakens to this fact, knowing that Laws are set into motion of which he has no control, the sooner will he accept the heavenly intention and obey the Laws as they demand of their glory.

This is the deep wisdom of relativity; as the soul scales the heights, it also reaches the depths, for in grinding out karma the soul digs into this pot and unites the present with the past.

All manifested creation is produced as a result of vibratory differentiation of Eternal Motion and its resultant Force. Spirit and matter are but terms used to express degrees of absolute motion, the expression of the Divine Will. Therefore without motion and its resulting Force, the universe would be a dead immovable body with no existent life.

So when a nation becomes dead and decadent, it is because they have taken of the power and allowed it to become personal glory, then they began to "wax fat" in personal desires. Thus it proves the rhyme and reason of self-discipline and abstinence, for these are the key to mastery over the elements.

BUT AS SOON AS MAN BEGINS TO "WAX FAT" HE BECOMES A NARCISSUS, ONE WHO BECOMES ENAMOURED WITH HIS OWN REFLECTION, AND LOCKS THE DOOR AND

LOSES THE KEY TO FURTHER GAINING OF STRENGTH. IN FACT, LIKE SAMSON HE BECOMES SHORN AND GIVEN OVER TO THE PHILISTINES, THE ENEMIES CALLED DESIRE.

The power of Sun, wind and wave are but the various expressions of the Divine Will going forth into manifestation, bringing power and life to the earth and all upon it; they are the rotatory action of centrifugal and centripetal. The action of the Moon becoming wed to the Sun in man's astrological chart, which is the log of his possession of strength, and depicts in the marriage of these two luminaries, man's position in his heavenly gain of freedom.

ALL ACTIONS BETWEEN THE MOON AND THE PLANETS AS ASPECTS, ARE MAN'S OPPORTUNITIES OF EXPERIENCE TO MASTER HIS WEAKNESSES, AND ONCE A MAN PARTAKES OF KNOWLEDGE, HE WARRANTS OF ACTION BY MERELY MOVING THE NEGATIVE POWER GAINED THROUGH JUST KNOWING; HE MAKES MOVEMENT AND ACTION.

Therefore it is referred to as going down into the night of

experience, where he has to wrestle with the darkness of that gained and bring it to light as conscious awareness. Then it becomes his priest of conscience; his Anubis, or dog who ever guards him and guides him through all experiences. That is why the Egyptians show it as a hawk-headed God, one that swoops to conquer. This has through the years been allegorized as "she who stoops to conquer," Sothis the Queen of the Heavens.

(See plate on page 13)

The Unknown Voice of Truth

AS long as there is motion, which is vibration and life, you cannot get away from God, but once you become inert you lose grip and commence to slide, therefore become "cut off," for it is in God that you live, move, and have your being. Then the urge to be good by the Law of Attraction keeps you vulnerable to the power of living, for it makes it possible for the soul to be moved in the right direction in time. Therefore when a soul becomes of antichrist, the danger of another "Fall" approaches.

THE LESSON THAT MAN HAS TO GAIN WHILE IN

THE THROES OF MOVEMENT IS STABILITY, THE WISDOM THAT SATURN HAS TO TEACH TO THE WORLD; BUT SATURN IN HIS NEGATIVE IS INERTIA THROUGH SOLIDITY.

So when it is stipulated that Saturn is a Regent of the Earth—for the force sent out by that Cosmic centre of force is stability and inertia—it can be readily understood that Saturn is stabilizing the boiling pot of the fire of earth into a creation of a "City founded on a Rock." But until man knows how to create, he allows a lower force to take over and Satan is created. This verifies the theory that Satan and God are polarities, both brought into creation by man out of the Great Unknown, the Great Illimitable Omnipotent Being made manifest as the Voice of Truth.

Without man being within the friction of the two polarities, there would be no action and the motion would have nothing on which to act; but acts on the man who is ever in a state of inertia as a forming creation of personal acquisition. When by renunciation
