From PHILIP WELLBY'S LIST.

ON A GOLD BASIS. A Treatise on Mysticism. By ISABELLE DE STEIGER, Translator of "The Cloud upon the Sanctuary" by ECKHARTSHAUSEN. Crown 8vo, yellow cloth, gilt, 3s. 6d. net.

"One of the most fruitful and suggestive inquiries into modern problems of thought and life which has been made. . . . As a treatise on mysticism it touches the subject at all points, a new light appearing as each facet is brought into view, a kaleidoscopic enchantment. At whatever page you may choose to open up the book, there is something new and suggestive."—*"Scrutator"* in *The Occult Review*.

"Unlike other Western writers, Isabelle de Steiger has been at great pains to understand aright what the principles as applied in Eastern philosophy are, and the result is that we have a book which is reliable from every point of view—reliable as regards the information it contains, reliable as regards the deductions made therefrom, and reliable as an authoritative exposition of all that is best and true in the science of mysticism. Eastern scholars as well as Western scholars will benefit immensely by a perusal of this excellent book."—*The Indian Review*.

THE HIDDEN WAY ACROSS THE THRESHOLD ;

The writer of this remarkable book, it is admitted, has enjoyed access to sources of information not commonly open to mankind in its present state of development.

This work has been accepted by all Spiritualists as an unequalled summary of the most notable phenomena of modern times, chiefly with reference to the "perisprit" or fluidic body, by which man is brought into direct contact with the unseen universe.

"We can commend this as a readable and suggestive exposition of a subject which is attracting the increasing attention of psychologists."—*Glasgow Herald*.

"A notable book."—*The Literary World*.

"It covers the whole field of spiritualism in a perfectly serious, rational and scientific manner."—*Daily Express*.

"WE STAND ON THE THRESHOLD of a new era, by the advent of a Church of God nobler than any the world has ever seen, in which the large, wide ranges of knowledge shall be brought into use; the Church of God so reconstructed will be the Church of a larger and nobler future. The harmony lies in the fact that we are spiritual men. We shall know that He who made the great and stately fabric of the universe, and who formed the cell so that it might link itself to its brother-cell, and organ unite itself to organ, is the God also who linked thought to thought, instinct to instinct, moral conception to moral conception, until He built up the spiritual man" (*Extract from report of a Sermon preached by the Lord Bishop of Ripon, at Bradford Parish Church, before the British Association*).
