### WHAT WE SHOULD DO.

Considering the fact that at present about 400 students graduate each year from Oriental University, it is obvious that all too few of them are joining our Alumni and Alumnae Association. There are also some of the members who have not yet paid their annual fee. Some have paid for the first year, but have not sent any money after that. We have received in all only \$20 in fees, which, of course, is not sufficient to pay even for printing this Bulletin, and no part can be paid to the University Treasury.

We have also not heard of any organization of any local centers.

When we read how much the alumni of other Universities are doing for their Alma Mater, we are ashamed that not more is done by the graduates of our world-renowned University. Some of our graduates are not only of great influence but possess also wealth.

As is well known, the Board of Trustees of our University has issued a call for helpers to collect an endowment fund of \$1,000,000.00. The Board is especially relying upon the co-operation of the graduates, and is now urging our Association to take up this matter most actively.

What shall we do?

The Officers of this Association have duly considered the matter, and are making the following suggestions:

(1) Let every graduate of the University pay one week's income to the Fund.

(2) Let every graduate hand at least 10 endowment fund circulars, to be obtained from the University office, to well-to-do honest and progressive people with a request to assist Oriental University.

(3) Let every graduate, as far as possible, put a little slip in with his or her letter, drawing attention to the good work of Oriental University and the endowment fund to be raised, asking for help. Slips furnished by the University.

(4) Let every graduate who has access to periodicals, publish articles or notices about the University and the endowment fund.

(5) Let every graduate become a member of the Alumni and Alumnae Association, pay five year's membership in advance, ask for names and addresses of graduates in his vicinity, and start or help a Local Center of our Association, and let such Center do all that it possibly can do, to help raise the endowment fund.

Large funds are also needed for new buildings for the University.

Nothing will save the Earth but Higher Education of the truly individualistic and universalistic kind based upon modern psychism faithful to divine inspiration, such as is furnished by the residence and correspondence courses offered by ORIENTAL UNIVERSITY, founded 1903, the only pioneer international, non-sectarian, and co-educational university having graduates in all countries.

I know of the excellency of the work of this University, and take this opportunity to invite you most cordially and most urgently to help this University, which is most deserving, to raise the first million dollars of its endowment fund. The first million is the hardest to raise; but the early assistance is therefore also the most valuable.
