Selected Poetry.

From Truth's Freedom Hour. ANNIVERSARY POEM. March 31st, 1870.

"What has been, is forever, sages say-The frailest ornament of crumbling clay, The play-thing, only, of an infant's hour, The flashing thought ; the morning drooping flower, The rainbow's flitting hue, the poet's dream, The canvass glowing with the glory gleam Reflected from some gifted artist soul-All! All, exist, while countless ages roll Above their perished forms. The infant's toy ; The word-clothed thought ; the fragrant breath of joy Which rose like incense from the blushing flower The rainbow's hue ; the poet's verse of power, The pictured glories which the canvass bore, Though all forgot ; th'Eternal has in store. They flash and sparkle from its boundless walls, And way adown its mighty pillared halls, Age back of age their pictured history spread-By hand invisible my soul is led To-day those gleaming corridors along, Each pulse of hope within my veins made strong, For truth triumphant everywhere appears And error clouds roll back before the years. Each age the triumphs of the past repeats, And light which is, the light that's coming greets So vividly appears the pictured past, So bright the flashing gleams around me cast, I seem amid those vanished scenes to dwell : Great surging seas of life around me swell. And I submit me to the visioned spell.

How swiftly round the circling centuries sweep, And brighter, freer, flash the flames that leap From the great beacon towers of the past, And one by one, old error-robes are cast From off the souls, which they encumbered long, And old wrongs vanish while the right grows strong. And so through history's repititions borne By hands invisible, again I turn Through the great portal where the present dwells ; And free from vision'd-dreams and tranced spells, I mingle with the throbbing, pulsing life, And see to-day, the oft-repeated strife, Old error, with the living truth at war. Through memory's door which stands to-day ajar, I turn me back a score and two of years ; No blazing scroll, no fiery hand appears, No thundering Sinai with its voice of power, But in the quiet of the evening hour, In humble dwelling is a signal heard ; A mystic sound which more than Sinai's word Has thrilled the living pulses of the world ; The mighty throne of skepticism hurled From the firm base, where it assault defied : That, more than polished theories, supplied The great demand of Reason's growing age. The word which added to the history page, Where Paul affirmed, and prophet's vaguely dream The living evidence, till that which gleamed Dim, through tradition's light-obscuring haze, Changed to a bright, a brilliant, flashing blaze, Illuminating earth's great, earnest soul. In gathering waves the joyfulftidings roll, And from that humble manger-cradle spread, -bowed form, and sor With living hope again grown firm and strong; And hearts that fainted in the night, so long, Revive, as quick'ning pulses through them throb, And tear-dimmed eye, and anguish-wailing sob, Are changed to smiling hopes and joyful songs. But what is this ? Amid the cheerful throngs Are dark-browed men ; and scoff, and bitter snee And words of scorn, and hearfless, cruel jeer, These heaven-commissioned messengers assail ; And slander-serpents leave their loathsome trail Across the path which they in pain must tread ; And tender youth, and age's silver'd head, Alike must feel the venom of their hate. But what avails ? While solemn doctors prate Of loosened joints, and theologians tell Of fallen angels from a seething hell, Let loose awhile to desolate the earth, While sage philosophers bring into birth, A vague, mysterious law, as yet unknown, An Odic force, intelligent alone, Which, strangely ignorant, knows not its name ; While bigots rave, and priestly power claim, To bind more tightly on the chains that gall ; While excommunication's thunders fall On those who turn not from the light away, Truth journeys onward to her FREEDOM DAY ; The DAY which we, to celebrate, appear. From infancy to mandood's opening year What sturdy growth ! No swaddling clothes to bind, Within no olden temple court confined, Hedged by no cramping, limitating creeds, Nature's true child, its just and simple needs. From nature's plain, yet bounteous store supplied ; Feeling no want ; with luxury ne'er cloyed, With free and supple limbs to-day it stands, With tongue unfaltring, and with ready hands, To speak and strike against the ancient wrong ; With earnest will and manhood's vigor strong. To grapple error on its throned seat, And trample it forever 'neath its feet. But yesterday a weak and feeble child, By king, and priest, and people all reviled, In upper chambers hid away with shame, The lips fear-blanched that dared to speak its name; To-day, a manhood giant brave and bold Confronting error in its strongest hold,-With head erect, where science holds its court, Welcomes its judgment, while the vile report Of slander, trampled 'neath its manly heel, Like morn's mists cloudlets, which make haste to steal Away before the dew-absorbing light, Is lost within the shadows of the night, Where it was born. But yesterday consigned To bulrush couch, and fickle wave and wind, To-day at palace board a welcome guest, With wondrous power, and oft repeated test, Confounding Magi, Pharaoh and Priest, Boldly commanding that the world, released From bigot shackled limb, and fettered hand, Shall journey free towards its promised land. Well may we celebrate this freedom hour,--A score and two of years, and such a power As earth before has never felt or known, Is grandly sweeping on from zone to zone. Th' electric flash, which, in that humble room, Broke like a sunbeam through the fearful gloom, Which gathered thickly round death's dreaded stream. Is quickening millions with its fervid gleam. Doctors, confounded, in the temples stand, With wisdom shaking head, and trembling hand, Protesting 'gainst the truth they cannot check : Poor puzzled science, 'mid the fearful wreck of her pet theories, in grim despair, With firm closed lips, and furrowed brow of care, Waits for the coming law which shall explain This rash intrusion on her old domain, But waits, and looks, and longs for it in vain. A score and two of years have passed, the band, Which the authority-uplifted hand Of a centurian guard would have dismayed, To millions grown, in solid square arrayed, Presents a bristling front so firm and strong, The charging squadrons of enthroned wrong, Cease their assault, and haste, in mortal fear, To trench gainst the advance they know is near

Well may they trench; the world's great heart awakes. Throws off its chains ; each galling fetter breaks, And pulsing with a new and grand desire, Prepares, like a resistless wave of fire. To level all that would obstruct its way; This is, indeed, its grand, ITS FREEDOM DAY ; And well may we rejoice ; the historied old Repeats itself; the glowing pictures scrolled The walls of th' eternal past, along, The right triumphant o'er the ancient wrong, The infant truth become a giant strong, 'Tis ours to-day to see, and hear, and feel ; Through every vein let glowing pulses steal. This is no time for weak and trembling tongue, The bell of progress error's knell has rung--Bold be the hands that dig its final grave, Cheer to the hearts which strong, and true and brave Dare battle on until the victory's won : That rest not ; pause not till their work is done. Shame to the cowards who the truth deny, The cravens, who for ease would live a lie, Pause not to parley with the subtle foe, With truth steeled sinews strike the earnest blow, Advance your standards from THIS FREEDOM HOUR, Fling out defiantly their folds of power ; Against the serried squadrons that oppose Bear bravely down ; in final conflict close ; Hand matched to hand, eye looking into eye ; So shall we see those routed columns fly ; Those mocking lips with mortal terror paled, Those flaunting banners in dishonor trailed ; Charge ! hear ye not to-day the trumpet sound--The thundering echoes of the trampled ground ? Advance the line ! th' opposing columns cower ;

CHAPTER XVIII. Where was Gavin Kirtland, and what had

he been doing since writing that first characteristic letter to Jane? One summer had passed and another had come; had she seen him yet? Before answering this question, let us go

back a few months to narrate a rather curious circumstance. Jane, who was in her school, had dismissed her scholars at noon, and then taken from her pocket a letter she had that day received from Gavin Kirtland. She spread it out on her desk before her, read it again, then replaced it in her pocket and let

Yes, 'tis Gavin ! Hannah, Oscar and William were each occupied with a book. "Here is Gavin Kirtland," exclaim-After a long silence he remarked, "I wish Jane, "the very same I saw psychometrically ?"

"So it is !" so it is ! said Hannah, as she looked from the window; "here, Oscar and William, let us go into another room; thee go to the door, Jane, and see if he knows thee." This arrangement was at once carried into effect, a comical smile playing on William's face as he made his exit after Hannah.

Jane opened the front door ; Gavin in an instant exclaimed as he grasped her hand, "Jane !" "Gavin !" was simultaneously said by Jane: then he kissed her and walked into the parlor, where he held her from him at arm's length and looked at her.

"You said you were not good looking ! you are perfectly beautiful !"

INVOCATION.

Our Father ! Thou who hath recalled the winter king, And sent to earth the genial spring, Transformed the cloud of rain and mist, To a veil of gold by the Day God kissed. Thou who doth give the springtime power, To call from the earth each sleeping flower, Now from the wild wood's deep retreat, We hear the music of their feet ; And now their lovely forms behold Arrayed in purple and in gold. Thou who doth tint each tiny cup, From which thy praise is offered up; Place flowers in groups or hanging bells On rolling hills or wooded dells. Thou who doth hear the wild bird's song Hymning thy praise the summer long, Accept the praises that we bring, For this most glorious morn of spring. To-day the hills and valley's all rejoice. The dancing streamlets hear thy voice, And hearts once weary faint and sad, Look up and whisper we are glad For the winter of the soul hath fled, And the light of truth is round us shed ; The clouds that veiled Thee from our eyes Have faded from the spirit's-skies, Souls that by doubts and fears were driven, At last have reached their destined heaven, And hearts by scorn and pride oppressed, Within thy arms have found a rest; And from the radiant spheres above, Have received the baptism of thy love. Oh thou who knoweth human needs, Teach us to:live in noble deeds, And worship thee as best we can, By doing good to our brother man ; That the spring of truth thou doth impart, May beautify each human heart.

One here and there along the way Back to the old, heroid days, When Homer sweetly sang his lay; A few brave men, well worthy praise.

We bcar a mountain load of sin, Our hopes are crushed by mountain weight, While we all vainly strive to win Some little good, which comes too late.

And so we tread the old-time way, And pray at morn and pray at night, Make lamentations all the day, And vainly curse our lack of light.

Shake off the sluggish ways at once, Shake off the old-time round of thought, Shake off old customs, long, worn out, And you will find what you have sought.

This freer life; and fresher thought. We stand in need of ev'ry hour, 'Till all our living be inwrought With one high impulse, full of power.

We need no longer puny men, Who fear to stand up for the right, Or fight the old-time fights again, And watch and pray far in the night.

victions cannot send their children to a school which inculcates doctrines that in their opinion are erroneous and in the highest degree detrimental to the present and future welfare of their children. The party that insists on religious instruction in schools, claims for itself a right which it denies to others, and thus, not only denies a fundamental principle in Christianity, but subverts a fundamental principle in our government, which legislates in favor of no religion or form of religion, but protects all in its free exercise. The advocates of the Bible in schools endeavor to n.eet this objection by the assertion that they do not propose to teach the peculiar doctrines of any sect, but simply to read the Bible, on the authority of which all are agreed. But they propose to use the protestant translation, to which the Catholic objects as being erroneous. Clearly the Catholie has as good a right to insist on the use of his translation in schools as the protestant has for insisting on King James' translation. The claim of unsectarianism is therefore invalid, for the question simply resolves itself into a sectarianism on a larger scale-the

sect of Catholicism versus the sect of Protestantism. But should Catholics and Protestants agree

on a translation of the Bible and introduce it into the common school; that would not obviate the charge of sectarianism, for it would still be sectarianism, but on a much larger scale.

All Christian priests proceed upon the assumption that the Bible teaches a universal religion, to which nobody has any right to object. They cannot conceive that Christianity is as much a sect as Judaism, Mohammedanism or Buddhism, Deists, Atheists and Spiritualists do not regard the Bible as an infallible standard in morals or religion ; on the contrary, they think that it contains much that is subversive of good morals and a rational religion. Consequently their rights are as much violated when the Bible is read in the public schools, as the rights of the Protestants or Catholics are when the version of the opposing sect is read in the public school.

It follows then that no religion has a right to be taught in the common school, except a universal religion which is regarded as such by all the people. Neither Protestantism, Catholism, nor indeed Christainity itself is a universal religion. The religion of Nature -of Science and Philosophy-is the only Universal Religion; and this religion will be taught in the public schools just as fast as the priests and priestesses of Nature reveal her divine truths to the people.

From an examination of the first position it follows that if we would maintain a system of public instruction at all, it must be maintained on the principle of the second position ; namely, without the Bible or any religious instruction. To such a system there can be no reasonable objection for all sects meet on a perfect equality.

But religious bigotry is never satisfied with a reasonable demand. Its motto is, 'Rule or Ruin,' Like Milton's devil, it would

" sooner reign in hell than serve in heaven."

The Catholics say : "Let the public school

system go where it came from-the devil.

### CHAPTER II.

"Bright and early next morning Rob and Bessie awoke. Their mother had said to them the night before, when she kissed them, 'In the morning, Rob and Bessie, when you awake, you will see a little baby, and it is going to be our own darling baby.'

"So, just as soon as they opened their eyes in the morning, one said to the other, 'Let us rise and see if there really is a baby !' So up they jumped, and soon they were scampering to their mother's room.

" ' Now the baby, mamma !' said Bessie. "'Yes, mamma, where is the baby?' said Roh

"" Here it is,' replied their mother, as she gently removed the blanket, and showed them their little sister Viney.

"" How pretty ! how nice ! oh, you little tiny, tiny baby !' was exclaimed a great many times. Then Bessie hurried on her clothes, and down stairs she went to see if any of her playmates were out; but the streets were quiet, shutters were closed, and everybody seemed to be asleep. We shall also know that we must so live and act, that in seeking our own happiness, the undertaking. we shall in no way diminish the power of every other man to secure to himself a like amount of happiness.

Our civilization has run into a certain style of living which requires so much labor to support it, that all who adopt that style cannot live on what they earn, but require that, and the products of other people's labor. Hence the present popular modes of life are immoral. They therefore fail to secure to humanity the amount of happiness possible to it. They are immoral. They therefore must be changed. When they are changed, let the change be so radical and far reaching as to conform to the immutable principles of justice.

If our revolutionary fathers had done that in the organization and administration of our government, there would have been no slavery, no sectional strife, no civil war, no laborious, protracted and painful reconstruction.

Complaint is every where made, that the American's God is the Almighty Dollar; that this people are becoming, day by day, more and more devoted to the worship of this God. Emma Hardinge's Lecture.

The great fame as an orator of unusual brilliancy and power sustained by Mrs. Emma Hardinge attracted an immence audience to Masonic hall last evening. Her subject-"America, the land of the free; and, America under the anathemas of the Ecumenical Council was handled with masterly historical abilty. She rapidly sketched the character of American soil, climate, and scenery, the character of Americans as a cosmopolitan race, and as one prophetic of a better civilization. She then spoke of the condition of Europe, remarking among other things, that in the city of london there are nightly 60,000 houseless wanderers and that, out of its 3,000,000 population, one actually starves to death every day. In view of the destitution in Europe, she thanked God for the world's America. With singular felicity she passed in review the history of America from 1776 to the present time, and in alluding to our late war, and to the great martyrdom of Lincoln, drew tears even from eyes unused to weep. Approaching the religious portion of her lecture, she told in graphic language how Columbus entered upon the discovery of America amid the jeers, ridicule, and

denunciations of priestly power, but, with God for his captain and inspiration for his chart, America was discovered, and from the first it was dedicated to the spirit of religious freedom
