# PROPHECY

PUBLISHED AT MANCHESTER, N. H., U. S. A.

## Foreword

This magazine is published as a means toward perfecting PROPHECY, so that all classes of humanity may be able to foreknow and prepare ahead for both prosperity and calamity.

The authors who fill its pages have passed a certain authorized standard of preparation, and have been ordained as ministers, or MAGIS, in this religion of the Divine Science of Astrology, and the UNIVERSAL CHURCH OF AQUARIUS, and are ever studying to perfect the valuable rules and laws which have been ignored for centuries; and in the name and under the authority of the incorporated National Astrological Society, whose object is to collect and perfect such laws, and present them intelligently and scientifically to the public, these pages are offered. For this number the following are the

## Autumn Quarter, 1930

The Sun enters the celestial sign LIBRA on September 23, 1:28 p. m., Eastern Standard time. This is the time of the year when the *Sun of God is crucified upon the cross* of the Ecliptic and Equator, and *descends into hell* for three signs or "days." This Astrological fact is the basis of the religious invention of the crucifixion of the Son (SUN) of God upon the cross.

The "*two thieves*" were the Signs VIRGO and SCORPIO, "*one on the right, the other on the left*" of LIBRA; and as the Sun passed into SCORPIO, it shows the meaning of "*meet me this day in paradise*," the Sun being on the way to the new "*birth*" in the Sign CAPRICORN, when it turns Northward again. As the Sun "*falls*" into South Declination in LIBRA, this is called the "*Fall of the year*," and the Sun remains in South Declination until March 21st when it is "*resurrected*" again.

## Prophecy

At the time of the Solar Ingress into the Autumnal Quarter, calculated for Washington, D. C., time, it is indicated that great strife and altercations in the religious world occur, and schisms, quarrels, and new movements are evident.

Between the 5th and 8th of the month are strongest. Shipping disasters are denoted, and party splits, and dissensions grow apace; but in spite of this the Executive holds wondrous power, and gains in popularity among the thinking and influential classes, and comes out on top, after the melee subsides.

Foreign affairs assume a better aspect, and relations are established and maintained with other nations, and important visitors may be received, or sent to other countries.

The marriage rate increases, and marriages of notable persons take place.

But by far, the greatest eventualities are those concerning religious dissensions, schisms, unorthodoxy, irregularities, and disagreements, and differences and disputes about church government and regulations abound.

Religion will take a severe set back the next sixty years, as the principles of AQUARIUS progress, and already two-thirds of the population do not profess any religion, and among these are many of our best citizens.

Accidents to travellers, troubles to the Post Office Department, newspapers, magazines, and means of communication are indicated; and severe storms coincide with the planetary configurations.

Labor, and its fight for employment, gains a hearing, and large corporations appear to take the necessary steps to alleviate the "hard times."

— Saturn is strong, and causes the preservation of law and order, and trade and commerce benefit, and the laws are fairly administered.

A certain secret Society expands greatly, and exerts a powerful influence for the good of the country.

✓ In November comes the elections, and it is the rule that when the Sun is unafflicted, on election day, the Administration is supported. This rule has proven trustworthy for years, and speaks well for the future.

Hard times, calamities, and catastrophes, come and go, regardless of political parties. They are ordained by "LAW," but it is important to have the RIGHT MAN in office to alleviate such times of distress.

## MESSAGE OF THE HEAVENS FOR OCTOBER, 1930.

At the time of the New Moon for October, calculated for Washington, D. C., time, it is indicated that persons, and hospitals, and places of confinement, come under affliction.

Spies, criminals, and secret enemies of the country are rampant, and cause trouble, especially around the 28th and 29th.

Between October 5th and 9th bids fair to bring a Stock Market crisis.

Much trouble centers around the Government, but the President overrides the difficulties, and comes through triumphant.

Enforcement of the laws is slowly, but surely, getting under way, and the next step in enforcement will be a more general disbarment of judges and lawyers who are delinquent in the duties.

The masses and the aged suffer through want and sickness, and the plots of secret enemies are discovered and punished.

Public officials are brought to punishment for disobedience to law, and it is a period of general Governmental housecleaning.

Money matters improve, and amusements and luxuries thrive, especially after the 10th of the month.

Trade expands, and business picks up Military questions arise, and maneuvers are indicated, and accidents in travel are rife, and there is trouble in matters relating to the Post Office, newspapers and magazines.

Foreign affairs become complicated and troublesome, and divorces and similar scandals in high life are indicated.

It must be admitted by the most sceptical, that religious affairs, all over the world, are in a turmoil. Now comes Mexico, with her "nationalization of churches."

## PERSONS BORN BETWEEN SEPTEMBER 23 AND OCTOBER 22.

Between these dates the sun is passing through the celestial sign LIBRA, and persons born during this period partake of a sympathetic, affectionate, sociable and romantic nature, and easily make friends, and attract the opposite sex. It generally gives a taste for music and art, and tends to more or less publicity, and they love harmony and are neat and refined, disliking hard or dirty work, but are rather inclined to be indolent and lacking force and application. They are rather too credulous and must be careful of imposition and deceit and false friendships.

## Prophecy

### MESSAGE OF THE HEAVENS FOR NOVEMBER, 1930.

The New Moon for November, calculated for Washington, D. C., time, brings indications of friendship and good feeling between the various classes at home, and between this country and others abroad.

The Executive and people are well disposed toward each other.

Public ceremonials and popular functions are denoted, and the marriage rate is increased.

Religion suffers from discords, division and criticism, and much unreasoning enthusiasm is displayed.

Favorable financial relations with foreign countries are indicated, and business and trade expand at home and abroad.

New enterprises in matters of theatricals, amusements and education are in order, and women are strong in politics.

Liabilities of cloud-bursts and earthquakes are frequent in certain parts of the world, and yet crops prosper and land increases in value.

The Administration wins popular support, and is successful, and holds its own in maintaining law and order, the people greatly benefiting thereby.

The politicians are all at sea over the truly AQUARIUS Administration, and it is such that it cannot be overcome in its progress for true public welfare, regardless of political chicanery. Public men are expected to do their duty in this NEW ERA, regardless of party politics, and if they do not, POWER, which comes from *above*, sees to it that they either DO THEIR DUTY or are removed from office.

### PERSONS BORN BETWEEN OCTOBER 23 AND NOVEMBER 22.

Between the above-named dates the Sun passes through the celestial sign SCORPIO, and endows the native with most peculiar qualities. It is the sign governing secrecy, and gives a love for both construction and destruction, of tearing down and building up, and the extremes between love and hate, and good and evil are strongly marked. They can be kind or mean, docile or depraved, trusting or suspicious and jealous, but once controlled, these persons make powerful factors for the good of humanity. Many famous doctors and chemists come from this sign, as they have a faculty of analyzing the secrets of nature.

# The Weather

As the world comes under the influence of the planet Jupiter, which reaches its node in October, we may expect some unusual weather conditions, especially as it is coupled with Mercury, in its node. There are also the eclipses of the Moon and Sun in October, and a superior conjunction of Mercury and the Sun in November. This, in connection with the over-manging of Jupiter, will cause immense tidal waves, water-spouts cloud-bursts, and cyclones, and October and November offer splendid opportunities to study the effects of Planetary influences.

There is an ascending, and a descending node, of each planet, the node of Jupiter coming around each six years, the ascending node of Mercury coming each 44 days, so it is to be expected that unusual weather indications will exist. As the action of Jupiter will be prolonged over considerable space of time, the Winter months will also feel much of this influence.

## OCTOBER, 1930.

October opens with a storm condition on the 3rd and 4th, followed by another severe storm on the 6th, 7th and 8th, clearing colder. Then comes a change on the 11th, and another storm condition over the 13th, 14th and 15th. The next change falls on the 18th, followed by an intense disturbance on the 20th, 21st and 22nd, ending cold and bleak. Another storm is due on the 24th, and the month passes out with storms, prolonged over from the 27th to the 29th, ending with strong winds the 31st.

Earthquake and seismic conditions are due on or about the 7th, 11th, 21st and 27th.

## NOVEMBER, 1930.

The month of November opens with a cold storm on the 1st, followed by a prolonged spell, from the 3rd to the 8th, centering on the 6th and 7th; followed by another storm period between the 10th and 14th, centering on the 11th and 12th, clearing colder. Next follows a change on the 16th and 17th; and another storm period between the 19th and 24th, centering on the 20th and 22nd; followed by a severe disturbance over the 26th, 27th, 28th and 29th.

Earthquake and seismic disturbances occur on or very near the 7th, 12th, 22nd and 28th.

# Agricultural Department

"PROPHECY" again warns of an approaching WINTER, and the greatest care must be taken to gather in all possible harvests, preserve fruits, and store all away, and in such places as available, to keep up planting and harvesting to the utmost limit. Care particularly for cattle and fowls. Use small eggs for pullets. Keep the milk supply adequate, as we must provide for infants, children and the aged. Prepare for an intense, severe Winter, for animal life as well as human!

## BEST DAYS TO PLANT IN OCTOBER AND NOVEMBER, 1930.

For wheat, oats, barley, rye, cabbage tops; and seeds of flowering plants:

October—22nd and 23rd.

November—18th, 19th and 20th.

## Postal Savings Banks Are Safe

It is astonishing how many people, especially those who are foreign born, are depositing their money in the Postal Savings Banks, even knowing that the percentage of interest is very small, yet believing it to be *safe*.

It is *safe*, as the United States Government stands back of it, and yet at a terrible risk itself, as very little of the money is kept in the Government safes, and the money thus deposited is transferred into private banks, which immediately proceed to get far more interest on the deposits, for private gain.

The Postal Savings Banks and the Parcel Post were obtained against the strong opposition of the Bank Trusts and the Express Trusts, and yet the country could not do without the Postal Savings Banks and the Parcel Post.

In the fight to obtain these valuable acquisitions for the good of the people, the National Grange exerted considerable power, and if they would again resume their efforts and promote the further expansion of the Postal Savings Banks, they would render an immense service to the public.

The Post Office Department used to sell a Government Bond to the people, netting a good interest, in addition to the absolute *safety* of the purchase, but this seems to have gradually been neglected.

There is no valid reason why the Government should not reserve all money deposited in the Postal Savings Banks, and set the amount at work on great public works, and give interest, or dividends, to the depositors, the same as the private banks do.

In this period of the "Great Desolation," which appears to grow worse as it nears 1931, unemployment has reached an unbearable point.

This, coupled with the fact that so many banks are closing, causes one to wonder how the people will stand for it.

It is entirely a question of MONEY! There is just as much money in the world as ever, and yet it is not put into constructive use, such as would give EMPLOYMENT to the unemployed.

You never hear of a Postal Savings Bank closing, or failing up. There can never be a "run" on a Postal Savings Bank; but it is decidedly wrong for the Government to turn over the depositor's money for private banks to reap special privileged profits.

There would be pandemonium if a concerted action was taken all over the country to call for the deposits in the banks, at the same time.

The private banking system could not stand the strain, as banks do not keep cash enough on hand to meet the call.

"Bank Credit" is an elusive thing, but in the Postal Savings Banks, it is *solid cash* that is deposited, and this is most essential in EMPLOYMENT.

Instead of raising bonds for a public enterprise, the Government should use the Postal Savings Banks, and pay for the use of the money, putting out the money for the public improvements, and sharing, with the people, the profits.

By issuing bonds, the Government is put to the expense of the issue, and shoulders a debt, and the banks make the profit.

By using the money deposited in the Postal Savings Banks, the Government would have funds to work with, and start EMPLOYMENT, which is the *one thing needed* in the great crisis, as the people are starving for lack of work.

Some Congressmen will see this fact, and at least the National Grange or some of the Monetary Reform organizations may again exert their power for the good of all the people, and EXTEND THE SCOPE OF THE POSTAL SAVINGS BANKS.

That would be the first step towards Government Banks, which would, in time, usurp private banks, and return the circulation of money (which is as essential as the circulation of the blood to the human system) to the Government.

To deliberately receive money from depositors, giving a meager percentage of interest in return, then actually turn this deposit over to private banks, which immediately make a good profit on it, is a direct insult, not only to the persons who deposited the money, in all sincerity, in the Postal Savings Bank, but is a real slap at the inefficiency of the Government, which assumes the responsibility and guarantees the safety of the deposits.

The Governments all over the world are in the control of the International Bank Trust, and are tied, hands and feet.

To Congress is given sole power to "*coin money, regulate and establish the value thereof,*" and yet Congress is impotent to function, and plunges the people into an ever increasing PUBLIC DEBT, borrowing a substitute currency from the private banks.

## Prophecy

These private banks do not put the money to use for the unemployed, but rent out deposits so as to increase their profits.

One way to check these depredations would be to extend the Postal Savings Banks, and make the amount of deposit for an individual unlimited, and raise the amount of interest in proportion to the increase of public works.

Through the Postal Savings Banks these deposits could be used for EMPLOYMENT on great public works, and pay a goodly interest to the depositors for the use of their money, thus ever expanding the Government, which is ALL THE PEOPLE.

Oh! ye people! The worst is yet to come!

Why are our law makers so enslaved to the money power, when a simple act enlarging the scope of the Postal Savings Banks would alleviate the sufferings of the country?

If all the private banks should close, there would still be the Postal Savings Banks, which are an integral part of the United States Government, and as the Constitution gives sole power to Congress to "*coin money, regulate and establish the value thereof,*" it would be absolutely safe.

It is a wonder more people have not taken advantage of the Postal Savings Banks before, knowing the power of Congress, and it is worthy of commendation to the foreign born, in this country, for their actually trusting their hard earned funds safely to the Postal Savings Banks.

If all the people deposited their money in the Postal Savings Banks, the private banks would soon run out of existence, as it is only by receiving the huge deposits that they are able to accumulate profits and continue to exist.

With the concessions of Congress granted to private banks, first, printing their private substitute currency, instead of issuing lawful Government money; second, by depositing the funds in the Postal Savings Banks in private banks, so that the private banks can make a specially privileged profit, this United States Government has become hopelessly enslaved by the Money-Trust.

As private banks continue to fail up, and close, people who have saved up their hard earned surplus, hoping to receive fair dividends to pull them through their old age comfortably, are wondering what to do, and what is a *safe* place for their money, and naturally they turn to Government Postal Savings Banks.

But when they learn that their money is still turned over by the Government to private bankers, they are amazed that a Government, in this enlightened age of civilization, should be so supinely enslaved.

Alas! ye people! The end is coming!

As the private banking system grows, it also becomes top-heavy, and with a head of gold, it becomes supported by ankles of clay, and it is soon to topple over.

Wise bankers will fortify themselves, and get ready for the coming blow, which strikes at the clay ankles.

Wise bankers do not seek Legislatures to grant them more powers, such as abolishing USURY LAWS, and preventing the progress of contemporary banks, and gigantic International Mergers, but seek to adjust themselves to these oncoming principles of AQUARIUS, which will soon rule the world.

*"Gold loses its power in AQUARIUS!"*

But, meantime, the Postal Savings Banks are *safe*, and will grow, and expand, and be in a position to take over all banking affairs, when the private mergers get into the hands of only a few.

Then will come the Millennium, when mean and selfish people will be in the minority, and so ashamed of their actions that they will hide their faces.

Then will come the time so longed for by Jefferson, Jackson, and Lincoln, who knew full well the selfishness of the Money-Power, and their methods of controlling Congressmen.

Surely the great Gulliver suffers himself to be bound by the little Lilliputians, and the gigantic elephant is hypnotized into terror by the tiny mouse.

In "*one hour*," according to St. John, the blow will come, and "the merchants of earth shall weep and mourn over her; for no man buyeth their merchandise any more." This "*one hour*" is not literal, but Scriptural; and the "merchants" naturally mean the traders, and those who sell for profit. Whenever the Solar System enters a new Constellation, there is always a great catastrophe, lasting for many years.

*"Come out of her, my people, that ye be not partakers of her plagues!"*

The life blood of a Nation is MONEY, and the coining and circulation of the same by the Government, instead of private banks, is absolutely necessary.

# Health

BY MAGI HELIOBAS, D. A., D. O.

During the month of October of each year, we are reminded of the great changes transpiring in ourselves, *consciously* or *unconsciously*, according to the individual awakening of the Spirit within us, as well as to the vast change taking place all around us in this vast Universe of ours. All life is changing according to the LAW of Universal Energy, which is affecting everything, whether it be animate or inanimate; each according to a plan for the ensuing three months, also the months following these, for the first three represent Autumn or Fall of the year, while the second three represent Winter for those of us living in northern climes.

October, or LIBRA, represents the element nitrogen. LIBRA is a positive, electric, warm, moist, active, mental, masculine sign, representing the kidneys, skin, and lumbar regions, also the right side of the body. From this it may be reasoned why ailments affecting the kidneys and back are apt to be more pronounced at this period than at other times, and it is generally true that diseases of the genito-urinary system make their appearance around this month of each year. There are several factors governing these conditions, however, which an individual subject to them can help himself to minimize these ailments, and that is, by being careful of their habits of eating and drinking, also by the clothing they wear.

It is well known that the kidneys are practically the balance wheels of the human body, for it is through them that the greatest waste is thrown off, and out, of the body during our waking hours.

The kidneys are small, in comparison to the liver, heart, lungs, etc., but they fill so important a factor in our existence that they have the largest blood supply of any organ, in comparison to their size, of any organ in the body. This blood supply can be likened to the water tanks, built on the hillsides of every community, to fill the same purpose, namely, to give pressure, so that they may work effectively, otherwise they become sluggish, and the skin has to take on their function to relieve them of the strain, so that is the reason we perspire more freely at some times than at others.

We spoke of other changes taking place all around us, and to any one who is at all observant, this is apparent, for all the forces in Nature are reminding us of this fact, *as our senses* are being stirred up on every side, and everywhere, whether it registers, or not, in our consciousness. The grass has changed its *color*; the trees are one grand, glorious riot of changing colors; the air is different, a twang is felt when we breathe, and our pulses quicken with new energy and life; incidentally the ground is apt to be firmer and harder by reason of slight frosts, indicating changes in all vegetable and plant life; also we notice the gradual absence of our bird friends, and what animals we do see, their fur has gradually grown heavier, and thicker, to correspond with their habitat.

If these changes are taking place in this great Universe of ours, *it stands to reason that there are changes* taking place in these bodies of ours, by this same Universal Energy of LIFE or FORCE, which is preparing us to withstand the altered order of conditions, now apparent to our perceptions.

During October we will notice the passing on of many noted artists, actors, musicians and wealthy people. The weather will be very severe with high winds, and violent thunder storms, which will cause a great deal of suffering and hardship.

Diseases of the head and eyes will be more prevalent, in fact these conditions will be epidemic in character, and not readily understood. Heart troubles will increase for the next two months, with a consequent increase of kidney complications. Due to inclemency of the weather pulmonary diseases will show increases for this period also.

It will be wise for everyone who can to preserve all the vegetables and fruits they are able to this Fall, for the winter months ahead, as it is more than likely that *all canned fruits and vegetables* will soar in price this Fall, and the prices of poultry also, due to the high price the poultrymen are forced to pay for their feed this Fall.

Above all, dress warmly this Fall and Winter, to protect yourselves against great changes of temperature and weather.

## The True Kabala Is Phonetic

The Kabala treats of sounds and numbers, as connected with, and related to, Astrology. Without Astrology the Kabala could not exist; but Astrology is entirely independent of the Kabala.

Each letter has a sound vibration, directly connected with the planetary forces, so the values of these vibrations must, of necessity, be phonetic.

Sounds are divided into the Labial, such as B, P, and M; the Gutteral, A, E, I, O, U and Y; the Lingual, C, D, G, J, K, L, N, Q, R, S, T, X, and Z; the Dental, F and V; and the Aspirant, H (breath), and these vibrations are measured by a sensitive flame.

It is obvious that the TRUE KABALA must be phonetic, and unless there are vibrations in the sensitive flame, they do not register, therefore all silent letters are useless in the TRUE KABALA.

Reduced to a digit numeral, the sounds have the following values:

- 1—A, I, J (when pronounced as I, Y, and Kph.
- 2—B, K, Q, hard C, hard G, and R.
- 3—G, soft J, and soft Ch, L, and Sh.
- 4—D, M, and T.
- 5—E, H aspirant, and N.
- 6—V, U, W, S, soft C, and X.
- 7—Z, and O.
- 8—K, hard Ch, Hh, and P.
- 9\*—Th, Ts, and Tz.

These values are the English equivalents of the Original Hebrew, which have passed Westward, through the Greek, and Roman changes, as everything progressed from East to West. Any English values not in accordance with these, are wrong.

So many radically different systems in the English language cannot possibly be all correct, but this TRUE KABALA traces its source directly to the Hebrew, and is absolutely correct.

It is wrong to suppose that Pythagorus, and those of that age, knew anything about the English language, which developed after their day.

Sounds and numbers are connected with the planets as follows:

---

\*9 sounds are not found in English, but in Hebrew and Arabic.

Planets	+	-	Sounds
☉	1-4	8	M, and T.
☽	2-7	1-4	D, and H.
♃	5	9	C, K, Q, P, T, G hard, and Ch hard.
♄	6	3	A long, A short, B, E long, E short, O long, R, and W.
♂	9	5	A (hat), Au, I long, L, N, O short, and U.
♆	3	6	F, V, Ph, nasal Y.
♅	8	1-4	C soft, S, Sh, G soft, J, Ch soft, X, and Z.

In the phonetic values of the Alphabet, we must take what we know and can prove, for values, as the Hebrew Alphabet was literally taken from the Constellations of the Heavens.

For instance, "A," Aleph, was taken from the five stars in the Constellation TAURUS, and the character made from lines connecting the stars. A = 1, as TAURUS was the 1st Constellation, during that period in the Recession of the Equinox.

Then follows "B," Beth, which equals 2; then "G," Gimel, which equals 3; and so on, which proves the correctness of the Alphabet.

There are many false values in English, gotten up by ignorant persons, attributing the inventions to Pythagorus, and Paracelcus, who knew nothing of English.

"I" = Yod, or God, and is *always* 10, the perfect number, which is the union of the male and female, the great SELF-EXISTING FORCE, the central dot, or point, from which all else emanates.

"Numerology," and all other false systems, erroneously values "I" as 9, but "I" and "Y," and "J," when *pronounced* the same as "I," is *always* 10, or reduced to a digit, 1.

Thus "John" is "Ian," or "Jan," in Scotch, pronouncing the "J" as an "I." The "H" in "John" has no value, as it is silent, so that unless a letter actually sounds, it has no value.

In French, "I" is "je," and it is spelled with a small letter, which is eminently proper, as the capital "I," in the English language, is apt to be EGOTISTICAL in its use.

And so, throughout the TRUE KABALA, it is thoroughly *phonetic* in its pronunciation, and valuation, and no other system can possibly be correct.

## Prophecy and Healing

*"Go teach all nations, prophesying and healing the sick!"*

As the horoscope of King George V, of England, is calculated with so great accuracy, it furnishes ordained "MAGIS" with material to study, knowing that the ground is sure.

In his position as a King, he had the wherewithal to summons, and receive, the best known scientific medical and surgical skill in the world, regardless of cost.

All things considered, these physicians surely did remarkably well; but it would have been valuable to the world to find that much of the grave trouble of the King, in his late illness, and the great expense, could have been dispensed with, had he resorted to such modern methods of healing the sick as Osteopathy Chiropractic, and Naturopathy.

There are verified cases where persons have been successfully pulled through pneumonia by a few spinal adjustments.

In the King's case, expert surgery cut its way through the ribs, and relieved the ravages of *empyema*, just in time to save his life.

The question is, would this have been needless, had spinal adjustments restored the nerve circulation in season to prevent *empyema*.

Not many persons are in circumstances which will allow them the expense the King underwent, and it would be a God-send to such persons to know that simple methods would prove efficacious?

In a certain case, a practitioner of "Spinology" was called to the bedside of a young man, suffering from pneumonia.

The physicians could do nothing, and the patient was dilierious, and yet three well directed adjustments, at about four hours apart, restored normal conditions, and a few more, properly spaced, brought conditions so favorable that the young man was sitting up, and he went to work shortly afterwards.

To one not acquainted with the method of spinal adjustments, this seems incredible; yet when you consider the man was in fair health previous to the attack of pneumonia, and the attack was acute, requiring rapid work, it is nothing strange that the acute attack dislocated the spinal vertebrae, which, being restored to normal condition, in time, brought the patient to a rapid recovery.

Cases are on record where spinal adjustments are successfully used on animals, in many cases requiring only one adjustment,

as the spinal column, in animals, lies horizontally, instead of vertically, as in human beings.

Thus, a cow, which was drooling at the nose, was cured by one adjustment, using a couple of blocks of wood, instead of palpation by the hands, as for human beings.

In the King's case, the vertebrae were affected, causing a stoppage of nerve flow, and disease set in. All diseases are the result of a cessation of nerve circulation. By restoring this subluxation, thus allowing the nerves to circulate freely, recovery and normalcy results.

This nerve force is the "spark of life" which vivifies the whole human body. It is exactly the same as electricity, and when the electrical currents are free to circulate throughout the human system, that person is WELL! But, cut off any part of this circulation, and disease will locate in that part.

ANATOMY is what should be studied in detail, and not *materia medica*. Know ANATOMY, thoroughly, then beginning with the central dynamo, the brain, which is the IMAGE OF GOD, know that from this center electricity, or nerve energy, flows through the spinal cord, and out through the several openings in the vertebrae, to the various organs of the body.

If all is free in circulating from the ends of the nerves new cells will form perpetually, and rebuild the human body, incessantly.

It takes nerve energy to start the circulation of blood, and the digestive system, and this same nerve energy keeps the diaphragm working, and with the breath, digestion, and blood circulation all working, even when we sleep, we LIVE, and have our being.

It would seem, then, a wise thing to do, to keep our spinal vertebrae properly adjusted at all times, and thus fortify ourselves against a time when some undue strain is brought on us, and thus resist disease.

Again "PROPHECY" would call attention to a simple, little, inexpensive appliance, which works wonders on the feet, the seat of a great many ills,—“STEP-ON-IT,”—and circulars, in detail, will be sent to those who inquire, by writing Orthopedics Incorporated, 410 Woolworth Bldg., Providence, R. I.

By using this appliance, there is a constant massage of the soles of the feet, while walking, and there are very few people who are comparatively free from foot trouble.

It is the mission of "PROPHECY" to keep its readers posted on anything capable of making life, and health, more comfortable, and enjoyable, and through "*prophecy and healing*," fit all to become better, every way.

## St. John, The Divine

In this period in the world's history, when the Equinox is receding into the Constellation "AQUARIUS," the Christians little think they are placed in the same position as were the Jews, in denying the coming of the "Messiah."

The Jews failed to accept Christ as the "Messiah," as they expected a "King, on a throne, to deliver them from the hated Romans."

Even so, the Christians fail to accept "AQUARIUS" as the return of Christ, who has come, as He said, as the "Son of Man, in the Heavens, bearing a pitcher of water, pouring out the spirit on all nations," which exactly describes the Constellation "AQUARIUS," into which Constellation the Solar System has receded.

A brief study will allow all creeds, sects, races, and nations, to understand the facts, and unite, and cease their bickerings, and quarrellings, and clinging to past feuds and traditions.

The facts are proven, and every time the Equinox recedes into a new Constellation, the "Messiah" returns.

He has already come, at the time when the Equinox, or ♈, the "Lamb," enters the Constellation ♋, and ♋ bears a "pitcher of water."

St. John, the Divine, who "leaned on the Saviour's bosom," the youngest, and most beloved of all the Disciples, survived all the other Disciples, and was requested by the elders of the church at Ephesus, about 85 and 86 A. D., to write "*Revelation*," the last book of the New Testament, which was but a few years after Cletus was made bishop of Rome, and four years before Clement succeeded Cletus.

"*Revelation*" is a book of PROPHECY, and Astrology is the key to "*Revelation*."

It was John, the Beloved, to whom Christ gave away His own mother, at the foot of the cross, saying, "Behold thy mother!" It was not to Peter. Peter was a married man, as his "wife's mother lay ill of a fever," according to the Bible.

Peter denied his Master thrice; Thomas was the doubter; and Judas betrayed the Master.

But of all the twelve Disciples, John, the Beloved, was chosen to become a son of Mary, the mother of Jesus.

To John was given a longer service than to Peter, or Paul, even longer than to his own brother James.

All had suffered the martyr's death, and gone to their home above, and at last, John, after many trials and travails, was given a peaceful and quiet death.

John was still vigorous and active when he returned to Ephesus, 69 A. D., which was two years after Linus was made bishop of Rome.

Though nearly 68 years of age, he visited the several churches of the province of Asia, and extended his work to Crete, to Cenchoria, to Athens, to Corinth, and to the churches of Macedonia.

John, the Beloved, outlived Peter many years, and was the last survivor of the Twelve Disciples, and if there was to be any supreme head of the church, it would have been bestowed on John.

Linus is quoted as being the first bishop of Rome, in the year 67 A. D., and it is impossible to think of a Roman bishop as being superior to the beloved Disciple, John, for many years.

Moreover, Anacletus, or Cletus, succeeded Linus, as bishop of Rome, in 78 A. D., and Clement I followed, in 90 A. D., making three bishops of Rome during the life of the beloved Disciple, John.

The Roman Church was not supreme until the year 461 A. D., when Leo, the Great, Pope of Rome, first claimed to be the "Vicar of Christ."

The Council of Pergamos, in 152 A. D., was the first Council on record; and in 312 A. D. Constantine, the Great, embraced Christianity, and in 321 A. D. he commanded the observance of Sunday by all his subjects.

From there on, "politics," and the church, vied with each other for supremacy; but the first Christian church was in Asia, and the Scriptures were written in Greek, and were not translated into Latin until 195 A. D., and were first used by the Christians in 242 A. D.

Everything progressed Westward; first, the Book of the Dead, in Egypt; then the days of the Old Testament, in the Holy Land; then the Greeks started the New Testament; next came Rome, and the Latin translation; then the Anglicans came, with the King James version; then the New World started in, and now we came to AMERICA, which is the last seat of the AQUARIUS religion of TRUTH, which will end all controversy, as the CAPRICORN ERA will freeze the whole world, and all the people, and start a new cycle of 25,000 years.

Jesus was born 4 B. C., and between the ages of 13 and 30, Jesus was taught the TRUTH, in Egypt; but the Westward

tendency of progress, coupled with "politics," caused a decided variance from the PRIMITIVE TRUTH. Jesus was crucified at the age of 33 years.

Jerusalem and the Temple were destroyed in 71 A. D., and John, the Beloved, the last surviving Disciple, died about 100 A. D., being past ninety years of age when he completed the three epistles which bear his name.

There is no stain, nor blemish, on the character of this, the last, and most Christlike of the Apostles, while Peter denied his Master. Think you there could possibly be any superiority over John, by an ordinary bishop of the church?

Paul was a great factor in the founding of the Christian church, and yet he was not one of the Twelve Disciples, being formerly Saul, a converted Roman, who embraced Christianity in 36 A. D., three years after the Crucifixion. Paul dwelt in Rome, in his own hired home, two years (see ACTS XXVIII: 30), and suffered martyrdom at Rome, by order of Nero, in 66 A. D.

Think you a Roman bishop would be supreme over one of the Twelve Disciples?

THINK! Study the Bible for your own self! It is an easy way to let some one do this for you, and to pay them to shoulder your own responsibility.

History decides matters, and they cannot be concealed to fit the case.

However, all these discrepancies, and doubtful traditions, in the early Church history, will be settled, as the world becomes acquainted with the advent of "AQUARIUS," and a NEW HEAVEN and a NEW EARTH is now here, as written in the "*Revelation of St. John*," and all will be forever cleared up.

The Jews, having struggled through the PISCES ERA, persecuted, and trammelled wrongfully, still carefully nursing their grievances in history, and traditions, and claiming it as an integral part of religion, will find at last that their "Messiah" is AQUARIUS."

And the return of Christ to the Christians, who have sadly departed from PRIMITIVE TRUTH, which means the recession of the Equinox, according to the Divine Science of Astrology, will accept "AQUARIUS," even as the Jews, being the same thing; and the Brahmin, Buddhist, and Mohammedan will recognize the return of their Saviour, as "AQUARIUS," and thus all differences will vanish, and all will unite—ONE IN AQUARIUS!

## Birthday Differences

The study of Astrology has grown so rapidly in the last few years that there naturally follows in its train the modern tendency to "commercialize," and "profit" by its study.

Many are taking it up solely with the intention of making a "business" of the Divine Science, and merely dabble in enough study to know how to erect a horoscope, read the characteristics, and deduce a certain amount of predictions by "transits," and that is about all they can do.

All this may be found in any good book on the subject, and it is futile to think one may become anything but a "transit artist" by such a small amount of study.

There has sprung up a certain class who deal out stock forms, from the Signs of birth, and they all read alike for all persons born under one Sign.

Thus, all persons born between August 23 and September 22 will receive the same identical reading, as it is stock matter, for the Sign VIRGO.

There are twelve stock forms, one for each of the 12 Signs of the Zodiac, and any person can read for themselves the characteristics of each Sign, by buying a cheap book on the subject.

This is an easy way to get money, and none but the most ignorant, and unscrupulous, would resort to such methods, and such persons should be avoided by the public.

Stock forms are even arranged covering the planets in the Signs, and sent out to dupe the gullible, but any ordinary Text Book furnishes the reader with all these things.

The TRUTH of the matter is that the Signs are positive, and negative, and a male born in a positive Sign has far different characteristics from a female.

Again, the degree of the Sun is another difference, and the year, another; and the hour of the day, still another factor in determining the traits.

An Astral chart must be drawn, not only from the Sign, but the year, day, and hour of the day, and lastly, the locality of birth, must all be taken into careful consideration.

Thus, on the very same birth day, the same year, but different hours and localities, there will be great differences in the destinies of these different persons, although born on the same birth dates.

These differences are made known by the "Houses" of the Astral Charts, and the position of the Moon, which can move from 12 to 16 degrees on the same day.

Two persons born on the same day, but different hours, will have great differences in their destinies, as the Mid-Heavens, Ascendants, and cusps of the other "Houses" will vary according to the hour of birth.

Likewise, the difference in locations may change their several destinies, even though they may be born at the same respective hours.

Examples have been mentioned in previous issues of "PROPHECY" illustrating these differences, and many more might be added, showing why some may be ill, die, or make or lose money, when born on the very same day as another person, who may not be affected at all.

All ordained "MAGIS" in the UNIVERSAL CHURCH OF AQUARIUS receive an intensive education, and are fitted to practice, preach, and teach the Divine Science in an authorized manner.

Ordained "MAGIS" make a religion of "PROPHECY," and hold it vitally sacred and confidential; and they are taught to use their knowledge for the good of humanity, and not stoop to "commercialize" or debase the SACRED SCIENCE.

An Astral chart must be calculated for the place, time of day, and the date of birth, and even then, this is only the beginning of the requirements.

"PROPHECY" is an integral part of religion, and all ordained ministers should be qualified to "*prophesy*" or "*heal the sick.*" Mother Eddy tabooed "prophecy," but founded her religion on "*health.*"

But the AQUARIUS religion of TRUTH teaches that life exists in different states, as the fish in water, the animals on the Earth's surface, and the birds in the air, all coming from the sacred "fire" of the Sun.

So the Earth's body is a reality, and the SOUL resides in different bodies, even as the larva, cocoon, crysalis, and butterfly are bodies of the same spirit.

It is not enough to know how to carry out certain rights, dogmas, and ceremonies, but an ordained minister should "PRO-PHESY" for the good and comfort of humanity, and such is the aim and object of an ordained minister, or MAGI, in this UNIVERSAL CHURCH OF AQUARIUS.

## Editorial

*PROPHECY is published bi-monthly, 20 cents per copy, \$1.00 per six consecutive copies. Advertising rates may be obtained from the Managing Editor.*

"PROPHECY" is most unique, inasmuch as it employs no "commercialized" methods of advertising, or soliciting of subscribers, and whoever is truly interested, and sincerely desirous of uniting with the authorized AQUARIUS religion, must seek out for themselves.

"PROPHECY" knows all the modern methods of "follow up" letters, and has nothing to do with such affairs, so distasteful to the average person. If you want "PROPHECY" you must seek it out, for it will not be imposed upon you.

Many who appreciate the value of "PROPHECY" order a quantity, and distribute them to friends and acquaintances, and the dealers who are fortunate enough to carry "PROPHECY" in stock often keep increasing their orders from time to time.

Each issue contains matters of great value, and there is nothing like it in the world, for uniqueness and originality.

Aside from the Society membership, subscribers and dealers, the circulation is obtained without resorting to certain methods used by the average "commercial" magazine.

"PROPHECY" is very grateful for the many appreciative letters it receives from readers, and expresses its thanks for the same.

It is truly unique in that it does not use the egotistical "I" in its pages, but, with true AQUARIUS modesty, it "*sacrifices personality*" for CAUSE.

This CAUSE, that of establishing the UNIVERSAL CHURCH OF AQUARIUS, uniting all creeds into ONE, is the greatest cause in all history.

You do not have to go through creeds, dogmas, and ceremonies to be "*saved*." Those who *think* must govern those who toil.

Ordained ministers should PROPHECY, or heal the sick, and all ordained "MAGIS" are educated, graduated, and ordained to PROPHECY, for the good of humanity, using their wise counsels the same as the confessional, and avoiding publicity, or boasting, or bragging about their counsels in any way.

Ordained "MAGIS" should abstain from betraying their clients' confidences, in any way, or from using the Divine Science of Astrology for taking undue advantage, as the penalty will surely come.

Ordained "MAGIS" are under the authority and responsibility of an organized Society, hence feel that it is incumbent on them to be honest, true, confidential, and with no selfish motive.

As this Society is the perpetuation of the DIRECT historical chain of "MAGIS," as proven by the prediction in the Great Pyramid, at the time of the "Great Step," which gave it birth, it is the most precious and valuable title possible to obtain on this Earth plane, and requires absolute fitness for such a sacred genealogy.

The Ancient "MAGIS" built the Great Pyramid, that "altar in Egypt" which accurately predicted the advent of each great religion, even to the "Great Step," which is this Society, which came the Summer of 1909.

It takes but a glance to see that all former religious sects are undergoing an immense change. The Jewish, Brahmin, Buddhist, Mohammedan, and the innumerable modern sects, are in a state of confusion and dissension.

There are more than two-thirds of the people who are Agnostics, in civilized countries, making the so-called "religious" people limited to about one-third of the population, and it is to these two-thirds that the religion of AQUARIUS turns.

Without interfering with any person, these two-thirds of the population need some thought, higher than themselves, to serve as a guide; something truly scientific, and provable, lifting them up, out of themselves, and giving them a *personal responsibility*.

There will be no solicitations, proselyting, nor other influence used, but when a person becomes dissatisfied with his religion, learning that it does not *prove*, but depends upon fickle "belief," he first turns agnostic, then, as the feeling of the need of something TRUE, and *provable*, becomes more and more urgent, he turns to this Society, which is founded on provable TRUTH, and after examining its laws, he finds that it stands the test, and does not depend upon blind and obedient "Faith." or "belief;" and having decided this fact, the rest grows, until he accepts the UNIVERSAL CHURCH OF AQUARIUS, which is soon to rule the world, in TRUTH.

Thus it is that the ordained "MAGI" of the UNIVERSAL CHURCH OF AQUARIUS holds the sacred heritage from their ancient brethren, who built the Great Pyramid, and left the infallible record that this Society should come at the time of the "Great Step," the Summer of 1909.

# Society Notes

## NOTICE

The Twenty-Second Annual Convention of the National Astrological Society of the United States, Incorporated, will be held at headquarters in Boston, Massachusetts, January 17, 1931, the same Convention being for both the Massachusetts Incorporation, and the continuance of the Original Minnesota Incorporation.

The advance annual dues for 1931 are payable to the National Secretary before December 15, 1930. The ordinary members' annual dues are \$1.00 and the dues for "MAGIS" are \$3.00. These dues include the Official Organ, PROPHECY, for the year 1931.

Branch Temple members pay their dues to the Branch Secretary, in addition to their Branch Temple dues, the Branch Secretary forwarding the *per capita dues*, with statement, to the National Secretary. Where there is no Branch Temple the dues are to be sent directly to the MAGI ZARIEL, D. A., National Secretary, N. A. S., 908 Union Street, Manchester, N. H., U. S. A.

---

T. M. R. Lupfer, of Detroit, Michigan, has successfully passed the examinations and been received into the Society as an ordained "MAGI." He has adopted the Astral name of "MAGI Como."

---

For our French speaking members, "*Mathematic des Astres*" is the text book used, and this excellent work may be obtained by sending the price, 70 francs, to THE MAGI AURELIUS, D. A., 4 bis, Rue Monprofit, Bourg la Reine, Seine, France.

## Book Reviews

*"Powder River, Let 'Er Buck,"* by Jack H. Lee; published by The Christopher Publishing House, Boston, Mass.; cloth; 65 pages; price, \$1.50; is a collection of mighty interesting, unique, and varied poems, by "Montana's Cowboy Poet;" well illustrated with original drawings, appealing to the taste of the life "the wide open spaces." It is a mighty fine collection.

---

*"The Prenatal Epoch,"* by E. H. Bailey; published by W. Foulsham & Co., Ltd., London; cloth; price \$2.75; treats of the methods used to establish the time when a human being was impregnated, previous to birth, and is well worth studying, as it offers an explanation of the deaths of infants born at apparently favorable moments, who live but a short time. It is useful also in determining the sex of a native, and in the rectification of doubtful horoscopes. The book gives many examples, rules and tables, and not only gives reasons for normal gestation, but for long and short periods, multiple pregnancy, and facts in relation to twins, there often being many hours between the actual delivery. This is a vital question, and offers the best book yet published on the subject, and shows deep research and investigation.

---

*"The Science of Foreknowledge,"* by "Sepharial;" published by W. Foulsham & Co., Ltd., London; cloth; 160 pages; price \$1.60. This book contains a vast amount of information not found elsewhere, such as "R. A. Proctor on Astrology," "Astrology of Shakespeare," "The Great Year," "Indian Astrology," "The Astrology of the Hebrews," "Joan of Arc," "The measure of life," "Financial Astrology," "The Radix System," and other subjects, and furnishes a sort of compendium, which should be in the library of all persons interested in the Divine Science of Astrology.

---

*"The Mysterious Five,"* by Marie E. Taylor; published by the Christopher Publishing House, Boston, Mass.; cloth; 147 pages; price \$1.50. This collection of five ghost stories is thrilling in the superlative degree, dealing, as the stories do, with problems connected with spirits, and the possibility of communication between the living and the dead. The imagination plays a great part in our lives, and all these things are woven into about the most mysterious and problematical stories possible to write.

## STATISTICAL METHODS APPLIED TO ASTROLOGY

The advance of material science has largely been made possible through the proper combination of figures with carefully observed facts.

This same method is equally applicable to the various problems of astrology, and when properly applied takes the answer to debatable subjects from the realm of surmise into the domain of proved certainty.

We are anxious to apprise all astrological students of this method, to the end of improving modern astrological practice. Let us send you, therefore, free of cost, Brotherhood of Light Astrological Report No. 5, "When Do Parents Die?", in which the deaths of 100 fathers and the deaths of 100 mothers are analyzed by this method.

## THE UNIVERSAL RELIGION OF TRUTH, UNITING ALL CREEDS.

A Universal Church and College have been organized and established, and authority is vested in the Board of Directors to ordain those who successfully pass the required examinations as ministers, who, in this Society, are called MAGIS, the same as were the original priests who understood these Divine Laws in their original purity and truth. These MAGIS are qualified to go into any church of whatever denomination and truthfully and scientifically explain the origin of and reason for, the various forms and ceremonies which have been added to simple *Truth*, and thus, by going back to the true origin, all creeds may be bound into one; and cease, forever, their bitter antagonism and strife, and unite upon one simple, basic foundation, common to the religions of all nations. These MAGIS practice, teach and preach.
