In discussing the sublime truths of modern Spiritualism, the Orthodox press assumes either and decency, there is no inconsistency in this It professes to believe that when the last word of the New Testament was written, the curtain fell, and that all truth was forever hidden from gleaned from certain writings monopolized by the Jews and early Christians. This, as I have the believer in the mission of Spirits was not prepared for such an article as appeared in the "Ghost Literature." It is freely conceded that some of this kind of literature is not of a very high order; it needs a little pruning, and is all, the rhapsodies of the Bible writers not ex-2. Another mode is by acting from within the cepted, though those writings have had the advantage of alterations, additions, and substractions through many ages, by human as well as by alleged spiritual means; and yet it would be easy to show that there is not a book in the Old or New Testaments that a person not blindly pledged to Orthodoxy could not criticise in the manner employed in the article headed " Ghost. Literature." Many passages in the prophets are absolutely devoid of any sense or meaning that the reason or understanding of man can take cognizance of. (See Isa., 7th chap., 10th verse, to the end, and Hos. 1st chap., 2d and 3d verses.) What would the Hon. H. Greeley say to such inspiration? and yet he can not doubt, neither do I, that Isaiah and Hosea were favored mediums of divine communications with

Perhaps, however, I may not be capable of giving a reliable opinion on inspiration, ancient or modern. Paul says, (1 Cor. 2d chap., 14th verse,) the natural man can not receive these things, they are foolishness to him; "neither can he know them, because they are spiritually discerned." May not it be this want of ability to appreciate spiritual truth that induced friend Greeley to sanction the article above alluded to. Some men can not distinguish colors apart; but am I therefore justified in making sport of my neighbor, who is at fault between green and

A distinguished English Geologist, recently stated, in conversation with a friend of ours, that, among the results to which Layard and Rawlinson have been led by their researches at Nineveh, is the following: That the prophecies of Daniel were undoubtedly written after the events to which they refer had taken place, and that the whole of this book is probably nothing but a reliable price! This is probably nothing but a political satire! This, though suppressed by Layard in his work, has been communicated to the London Asiatic Society, by Major Rawlinson, and will probably soon appear in its blished transactions.

Mutual Relations of Medium and Circle. To H. H. HALL, Esq., N. Y. City:

It great question of Spiritual Intercourse, which is so ex- you ?" tensively agitating the public mind and heart. As an appropriate introduction to the subject in general, allow me to quote from your letter an interesting and with evil?" beautiful fact. You say:

"A lady friend, Mrs. H., lost a most interesting ply. child, three years old, and the day after the burial she was accidentally in the presence of a good rapping medium, a little girl nine or ten years of age. This little medium and been a visitor at the house of Mrs. P., a sister of Mrs. H., and on this occasion happened over there to play with another younger child. These four constituted the circle. Mrs. P. took the medium in her lap, while the hereaved sister was on a lounge in the room, and like Ruth, 'she would not be comforted.' The other child was playing in the room. The sounds commenced, and the child who was playing asked if the spirit of little Mary was there. The usual affirmative was given by three light raps.

"This called the attention of the mother, who had up, and taking a seat near the table, says:

" Is it possible that my child's spirit is here?" " Affirmative raps.

"'Then, if this is my child, she will tell me something to convince me-tell me something that has happened here."

"So the conversation was kept up for two hours, between the mother and her spirit-child, with occasionally a question put by the living child, which would always be answered before he could complete light in the communion with her former playmate, who continued whittling, and asking questions.

"I will only add that the child-spirit told her fully convinced, but almost perfectly reconciled to her loss."

The above incident is beautiful, and corresponds with several of a like character with which I had beidentity depend more upon the circle than the medium." You say :

"There was no philosophizing in this circle-no endeavors to account for these things on any hypothesis-no caviling-no suspicions. It was an atmoshere that the spirits delight in."

You also remark that, ' under other circumstances, you have seen nothing satisfactory, in a circle with the same medium, and all apparently in harmony."

I do not know that I can agree with you that correct communications depend "more" upon the circle than the medium; but I think we can safely affirm that there is a mutual relation between the circle and medium, which makes a good circle and a good medium of equal importance to the other; or, which would make a bad medium as unfavorable to reliable manifestations in a good circle, as a poor circle would be in the presence of a good medium. I have seen an excellent rapping medium, in a good circle, fail almost entirely of obtaining communications, merely because a slight occurrence had previously clouded her mind, and aroused her resentful feelings. The sounds would come, but irregularly, feebly, and without connection. I have seen what I believe to be an admirable clairvoyant and writing medium fail, almost entirely, in attaining her clairvoyant condition, in consequence of trepidation created by the presence of a stranger.

Young G., a well known medium for almost all varicties of manifestations, has frequently interfered with the gratification and enjoyment of his best circles, by his whimsical irritability. On one occasion, when some of my friends were present at a sitting at H-, the spirits did nothing during a great portion of the time but rebuke him. Now, brother H., under the most favorable conditions, so far as the circle is concerned, what can be done with a medium so frivolous, or, in any respect sensual, prejudiced, or selfish in the prevalent traits of his character? You suggest that a good circle ' might in time perfect " an imperfect medium. So it might, always provided the medium were inclined to correct his own disagreeable dispositions and traits of character; for even here the rule of mutual relations holds good. You cite it to show "that enough that the medium and circle be merely passive, truthful communications and proofs of the spirit's nor simply that they believe in spiritual intercourse. You speak of "harmony;" but harmony means sometimes more and sometimes less, according to the breadth and capacity of a person's idea. Not to be in the least indefinite on this point, I say-Let active love for God and the Human Race predominate in the circle and the medium-let that pure, confiding, affectionate nature, which harbors not one dark thought of Deity, nor one feeling of prejudice or ill will against any of his creatures, be the cherished and paramount feeling of every individual concerned in a spiritual sitting, and then will Heaven descend in sweetness and angel tides of truth; and light will pour in upon the hearts and consciences of all present. It is by virtue of having a medium in whom this spirit prebrethren and friends who fully yield themselves to the same spirit, that we succeed so well in our " Beacon Light" Circle, entering into communion with exalted spirits from whom I have never heard through any other circle; and getting everything correct. And any imperfect medium, by attending such a circle as a learner, rather than as a medium, will improve.
