

"THE AGITATION OF THOUGHT IS THE BEGINNING OF WISDOM."

PARTRIDGE AND BRITTAN, PUBLISHERS, 342 BROADWAY .-- TERMS, TWO DOLLARS PER ANNUM IN ADVANCE; SINGLE COPIES, FIVE CENTS.

VOL. V.-NO. 39.

NEW YORK, SATURDAY, JANUARY 24, 1857.

WHOLE NO. 247.

QUESTIONS FOR ELUCIDATION BY SPIRITS AND MORTALS.

THE investigating class in the city of New York is composed, as far as possible, of intelligent men and women who are supposed to entertain the various popular theories involved in the questions to be solved. This class, until further notice, will assemble each succeeding Wednesday evening at the house of Charles Partridge, and in conducting the meetings the following order will be observed: At seven o'clock the question for the evening will be read, after which will be presented papers from our friends abroad, containing pertinent facts, modes of application to the question under consideration, and conclusions. Then the persons present will read their briefs of facts, arguments and conclusion, and enforce the same with such brief remarks as may render the elucidation of the subject more complete.

To give equal and the widest facilities to all persons-whether present or absent-to participate in the discussion, we purpose to consider the several questions in their order, giving so, in what does it consist? to each at least one week's time, and probably more to some or all of them. The purpose being simply to elicite and present truth in as brief and yet as comprehensive a form as possible, the following has been adopted as the order to be observed which is believed to be best calculated to promote the objects had in his character, capabilities, uses and destiny? view.

First. Each contributor is requested to present in writing the facts on which his or her conclusions are based.

Second. The mode of applying facts to the question.

Third. Conclusions.

Fourth. Remarks.

A digest of each contributor's facts, conclusions and arguments, will be prepared and published weekly in the SPIRITUAL TELE-GRAPH, for the benefit of all who feel an interest in the subjects, and especially for those friends abroad who oblige us by participating in the debate, that they may be weekly informed of the manner in which the questions are treated. In this way we hope to establish a nucleus for a universal debating society, for the friendly and mutual interchange of facts and views on all the great questions which involve the social, political and religious interests of mankind. If this call is earnestly responded to with a promise of good results to mankind, other questions will hereafter be proposed and considered, having relation to the practical, social and spiritual needs of humanity.

QUESTIONS.

- 3. Is there a God; and if so, what are the attributes of the divine | Bond-street, morning and evening, at the usual hours. nature, and what the mode of the divine existence?
- 4. Is there a soul or Spirit-world; and if so, what was its origin, its use and destiny? Where is it, and what connection and relation does it hold to the physical or natural world?
- 5. What is Life, and what was its origin?
- 6. What is Death, and what was its origin?
- 7. Are there such things or conditions as mortal and immortal; and if so, what is it that is mortal and what immortal?
- 8. What was the origin of the first man?
- 9. What are man's connections with, and relations to, material nature, spiritual nature and God?

10. What are the uses and purposes of man's creation?

- 11. What are the essential attributes and properties of an immortal being or thing?
- 12. Is man mortal or immortal in whole or in part, and what part?
- 13. What influence and effect have the relations, habits and conditions, of a man's earth-life on the relations, conditions and happiness, of his life beyond?
- 14. Is there a sphere or world of life for man, other and beyond this natural world and the Spirit-world?
- 15. Wherein consists the essential difference between material substances and things and spiritual substances and things?
- 16. Is man physically, mentally or morally free?
- 17. Is there any such thing as evil or sin; and if so, in what does it consist, and what was its origin, its use and destiny?
- 18. Is the moral universe a means or an end in the creation; and is the moral government of God his final government?
- 19. Is the moral universe now just such as God originally foresaw, planned and designed?
- 20. Is there any special Divine Providence in the sense which implies the direct interposition of Deity?
- 21. Has God made any special revelation of his will to man; and if
- generation or salvation?
- 23. Was Jesus Christ divine in any sense in which, and of which, man
- 24. Is there a personal Devil; and if so, what was his origin, what only to the parlor, but also to the use of
- 25. What are the conditions and relations of the Spirit's existence? What are its surroundings, scenery, etc.? What are its powers and susceptibilities, and what are its sources of enjoyment?
- 26. Wherein consists the difference between man's life in the spiritual world and his life in the material world?
- 27. What effect has a premature physical death on man's spiritual life and destiny?
- 28. Have animals an organized spiritual entity—a self-conscious in telligence; and do they at death pass to another sphere or condition of
- 29. What are the relations of mental to vital motion, and to what extent are the faculties of the mind capable of controlling the functions of the body?
- 30. Can the human mind, while in its earthly form and relations, produce psychological and physiological effects on other human minds and bodies with and without physical contact; and can it otherwise manifest its powers, through inanimate forms and substances?

PERSONAL AND SPECIAL NCTICES.

Sunday Meetings of Spiritualists.

Mr. TIFFANY will speak in Dodworth's Academy, morning and evening, at the usual hours. Conference in the afternoon at 3 o'clock. To all of these meetings the public are cordially invited.

REV. T. L. HARRIS will preach in Academy Hall, Broadway, opposite

Mrs. Dr. Hatch.

Owing to the severity of the storm last Monday evening, Mrs. Hatch's lecture in Stuyvesant Institute was postponed until Monday evening, January 27, to commence at half-past seven o'clock.

Healing the Sick.

MISS M. E. WILDMAN, 575 Broadway, treats the various forms of disease by Spiritual-magnetic action, by the use of water, to which a spiritual influence has been imparted, and by such remedial agents as the invisible physicians may prescribe.

MRS. E. C. MORRIS, Spirit Medium, 34 Tillary-street, Brooklyn. Hours from 10 to 4 o'clock. Saturday and Sunday excepted.

The undersigned having accepted an agency for the sale of Lighte, Newton and Bradbury's Piano-Fortes, desires to inform his friends, in all parts of the country, that he will be pleased to supply them with anything comprehended in the above list, and that the utmost care, with the assistance of competent judges, shall be employed in selecting the best instruments for all who may be pleased to entrust him with the business of filling their orders. Call in person, or address through the Post-office, S. B. BRITTAN, 342 BROADWAY, N. Y.

GREAT IMPROVEMENTS IN PIANO-FORTES.

PATRONS OF THE TELEGRAPH, LOOK AT THIS! The Plano-Fortes manufactured by Messrs. Lighte, Newton & Bradbury, constructed with the

are undoubtedly the most substantial and reliable instruments in the world; and that they present one of the greatest improvements in this papular instrument will not be disputed by any one competent to judge of their mechanical superiority, and their unequaled power and purity of tone. In 1858 these instruments received the

First Premium from the World's Fair and the American Institute. Since which time the demand for them has constantly increased, and many of the most distinguished musicians and composers in this country have testified to their

superiority, among whom are the following:-LOWELL MASON and THOMAS HASTINGS, of world-wide celebrity. H. C. TIMM, President Philharmonic Society, New York. THEODORE EISFELD, Con-22. Has God provided any special means of man's development, re- ductor of Philharmonic Society, N. Y., and member of the Crystal Palace and Fair of the American Institute Jury on Musical Instruments, for 1858 and 1854. GEO. F.

ROOT, Juror in the American Institute 1858, and many others. The capacity of Lighte, Newton & Bradbury's Pianos to produce the greatest fulness and strength as well as unusual softness and smothness of tone, adapts them not

PUBLIC SCHOOLS, SEMINARIES AND MUSICAL SOCIETIES. The attention of George F. Buston, the popular American composer, organist and planist, was called to these instruments, through some of the officers of the "New York Harmonic Society," who were appointed with Mr. B., their leader, to select the best Piano that could be made for their use. The committee gave the preference to one of Lighte, Newton & Bradbury's "large scale" instruments over all others, not excepting the Grand Pianos.

The elegant instruments manufactured by the above-named firm, are comprehended in all their variety, in the following

Partridge & Brittan's Unblications.

Our list embraces all the principal works devoted to Spinstualism, whether pubtaked by ourselves or others, and will comprehend all works of value that may be pseued hereafter. The reader's attention is particularly invited to those named below, all of which may be found at the office of THE SPIRITUAL TELEGRAPH.

Postage on Books, if prepaid, is one cent per ounce; two cents per ounce if paid at the office of delivery. Persons ordering books should therefore send sufficient money to cover the price of postage.

Lyric of the Golden Age.

A poem. By Rev. Thomas L. Harris, anthor of "Epic of the Starry Heaven." and "Lyric of the Morning Eand." 417 pp., 12mo. This last production of the revered author possesses the most exalted merit, and the work extends to ten thousand lines. In this great poem, the religious element and the more stirring practical interests of mankind engage the giant minds employed in its production. This Lyric is transcendently rich in thought, splendid in imagery, instructive in the principles of Nature and religion, and at once commends itself as the most desirable Gift-Book of the season. Just published. Price, plain boards, \$1 50; gilt, \$2; postage, 20 cents. Partridge & Brittan, 342 Broadway.

Spirit-Manifestations by Dr. Hare.

Experimental Investigation of the Spirit-Manifestations, demonstrating the existence of Spirits and their communion with mortals; Doctrine of the Spirit-world respecting Heaven, Hell, Morality and God. Also, the Influence of Scripture en the morals of Christians. By Robert Hare, M. D. Emeritus-Professor of Chemistry in the Pennsylvania University, Graduate of Yale College and Harvard University, Associate of the Smithsonian Institute, and Member of various learned Societies. Partridge & Brittan, Publishers. Price \$1 75; postage, 30 cents.

The Shekinah, Vol. I.

By S. B. Brittan, Editor, and other writers, is devoted chiefly to an Inquiry into the Spiritual Nature and Relations of Man. It treats especially of the Philosophy of Vital, Mental and Spiritual Phenomena, and contains Interesting Facts and profound Expositions of the Psychical Conditions and Manifestations now attracting attention in Europe and America. This volume contains, in part, the Editor's Philosophy of the Soul; the Interesting Visions of Hon. J. W. Edmonds; Lives and Portraits of Seers and Eminent Spiritualists; Fac-similes of Mystical Writings in Foreign and Dead Languages, through E. P. Fowler, etc. Published by Partridge & Berttan. Bound in muslin, price, \$2 50; elegantly bound in morocco, lettered and gilt in a style suitable for a Gift-book, price, \$3 00; postage, 34 cents.

Volumes II. and III.

Plain bound in muslin, \$1 75 each; extra bound in moroeco, handsomely gilt, \$2 25 each; postage, 24 cents each.

The Telegraph Papers.

Eight Volumes, 12mo., about 4,000 pages, with complete Index to each Volume, printed on good paper and handsomely bound. These books contain all the more important articles from the weekly SPIRITUAL TREBGRAPH, and embrace nearly all the important Spiritual Facts which have been made public during the two years ending May, 1855. The price of these books is 75 cents per volume. The subscribers to the Telegraph will be furnished with a set for \$4. Postage, 20 cents per volume.

The Spiritual Telegraph.

Volume I., a few copies complete, bound in a substantial manner. Price, \$3.

The Tables Turned.

A brief Review of Rev. C. M. Butler, D.D., by Rev. S. B. Brittan. "He that is first in his own cause seemeth just; but his neighbor cometh and searcheth him." This is a brief refutation of the principal objections urged by the clergy against Spiritualism, and is, therefore, a good thing for general circulation. Price, single copies, 25 cents. Postage, 3 cents. If purchased for gratuitous distribution, the price will be at the rate of \$12 per 100, if 25 or more copies be ordered.

Physico-Physiological Researches.

In the Dynamics of Magnetism, Electricity, Heat, Light, Crystallization and Chemism, in their relations to Vital Force. By Baron Charles Von Reichenbach, Complete from the German second edition; with the addition of a Preface and Critical Notes, by John Ashburner, M.D.; third American edition. Published by Partridge & Brittan, at the reduced price of \$1; postage, 20 cents.

Epic of the Starry Heaven.

Spoken by Thomas L. Harris in 26 hours and 16 minutes, while in the trance state; 210 pages, 12mo, 4,000 lines. Price, plain bound, 75 cents; gilt muslin, \$1 morocco, \$1 25. Postage, 12 cents.

Discourses from the Spirit-World,

Dictated by Stephen Olin, through Rev. R. P. Wilson, Writing Medium. To do good is the golden rule of the Universe. New York; PARTRIDGE & BRITTAN. This is an interesting volume of some 200 pages just published. Price, 63 cents: postage, ten cents.

Brittan and Richmond's Discussion.

400 pages octavo. This work contains twenty-four Letters from each of the parties above named, embodying a great number of Facts and Arguments, pro and con., designed to illustrate the Spiritual Phenomena of all ages, but especially the Modern Manifestations. To insure a wide circulation, the work is offered at the low price of \$1. Postage, 28 cents. Published by Partridge & Brittan.

The Celestial Telegraph.

Or, Secrets of the Life to Come; wherein the Existence, the Form, and the Occupation of the Soul after its separation from the Body are proved by many years' Experiments, by the means of eight ecstatic Somnambulists, who had Eighty Perceptions of Thirty-six persons in the Spiritual World. By L. A. Cahanet. Published by Partridge & Brittan. Price, \$1; postage, 19 cents.

Stilling's Pneumatology,

Being a Reply to the Questions, What Ought and Ought Not to be Believed or Disbelieved concerning Presentiments, Visions, and Apparitions according to Nature, Reason and Scripture, translated from the German; edited by Prof. George Bush. Published by PARTRIDGE & BRITTAN. Price 75 cents; postage, 16 cents.

Tiffany's Monthly.

Devoted to the Investigation of the Philosophy of Mind in its being and Manifestation, including the Philosophy of Spiritual Manifestations, the true relation of the Finite to the Infinite. Each number contains 96 pages large octavo. Price \$3 per annum.

Brittan's Review of Beecher's Report.

Wherein the conclusions of the latter are carefully examined and tested by a comparison with his premises, with reason and with the facts. Price, 25 cents, paper bound, and 58 cents in muslin; postage, 3 and 6 cents.

Spiritualism. By Judge Edmonds and Dr. G. T. Dexter, with an Appendix by Hon. N. P. Tallmadge and others. Price, \$1 25; postage, 30 cents.

Spiritualism, Volume II.

By Judge Edmonds and Dr. Dexter. "The truth against the world." This elegant octave of 542 pages is just issued, and is selling rapidly. Price, \$1 25; postage, 30 cents.

Lyric of the Morning Land.

A beautiful poem of 5,000 lines (253 pages), 12mo, dictated in thirty hours, printed on the finest paper and elegantly bound. Price, plain muslin, 75 cents; muslin gilt, \$1; morocco gilt, \$1 25.

The Approaching Crisis.

Being a Review of Dr. Bushnell's recent Lectures on Supernaturalism. By A. J. Davis. Published by Partrings & Brittan. Price, 50 cents; postage, 18 cents. Secress of Preverst.

A Book of Facts and Revelations concerning the Inner Life of Man and a World HAVE now been long enough before the public to win a good name for them-that of Spirits. By Justinus Kerner. New edition; published by PARTRIDGE & BRITTAN, Price, 38 cents; postage, 6 cents.

The Pilgrimage of Thomas Paine.

Written by the Spirit of Thomas Paine, through C. Hammond, Medium. Published by Partrings & Bertran. Paper, price, 50 cents; muslin, 75 cents postage, 12 cents.

A Chart.

REMOVALS AND DISCONTINUANCES.—It is our custom to notify patrons of the time when their subscriptions terminate, and if they are not renewed, the paper is stopped. We beg our friends not to deem it abrupt or unkind in us if the paper is discontinued since our mailing clerk keeps the books in accordance with the general system we have adopted, and can exercise no discretion. The proprietors never know, excepby chance, when a subscription expires or a paper is discontinued.

To our City Subscribers.—We purpose in future to deliver this paper to city sub scribers through the regular mail, which can be done for one cent per copy, if the subscriber prepays the postage at this Office. The price of the paper and delivery will be \$2.50, and the subscriber must take the risk of the faithful performance of

duty, so far as relates to the Post Office Department. To Advertisers.—The wide circulation of the Telegraph now renders it a desirable advertising medium, and the proprietors will continue to occupy a limited portion of their space at the following rates. Twelve and a half cents per line will be the price for a single insertion; each succeeding insertion, Eight cents per line. To those who advertise for three months, no extra charge will be made for the first insertion Every advertisement must be prepaid to secure its appearance for the time it is expected to remain, and it will be discontinued when that time expires.

Subscribers' Residence Changed.

Subscribers to this paper who have occasion to change their residence, and destre to have a corresponding change in the direction of their papers, must not fail to accompany their requests with their previous Post-Office address, as it is often impossible to refer to them among the thousands whose names are on our books.

THE NERVE-SOOTHING VITAL FLUIDS. A New Medicine Purely Vegetable.

PREPARED ENTIRELY BY SPIRIT-DIRECTION, THROUGH MRS. E. J. FRENCH, MEDIUM.

THESE Fluids are divided into classes adapted to the diseases specified under each number, and are separately or in combination a safe and certain cure for all the diseases named under the respective heads, many of which have for ages baffled the skill of the learned, among which are St. Vitus's Dance, Tic Doloreux, Neuralgia, Rheumatia in all its varied forms, Locked Jaw, Epilepsy, or Falling Sickness, Palsy, Nervousans. Sick Headache, Dyspepsia, Diseases of the Kidneys and Liver, Diarrhoa, Irregularties of the Female System, Tetter, and all Cutaneous Diseases, Chills and Feret, Cramp, Colic, Cholera-morbus, Cholera, Quinsy, Influenza, and all Acute Pains and Nervous Diseases. These Fluids have not failed to give relief in any of the above cases where they have been fairly tested, and we have now a number of living witnesses to whom we can refer,

Also the Lung and Cough Syrup, a safe and invaluable remedy for Croup, Coughs, Colds, Sore Throats, and Bronchial affections-a sure cure for Bleeding of the Lungs and Consumption in its first stages.

For further particulars address T. Culbertson, Agent, No. 8 Fourth Avenue, N.Y.

H. SHLARBAUM

Offers his most faithful services as OPTICIAN AND MANUFACTURER OF SCIENTIFIC INSTRUMENTS. Office, 300 Broadway, up stairs.

SPIRITUALISM.

Mrs. Ann LEAR Brown (of the Fox family) is still at home, No 1 Ludlow Place, corner of Houston and Sullivan-streets, where persons may, on her usual terms, avail themselves of her peculiar powers as a Spirit-medium. Hours from 3 to 5, and from 7 to 10 P. M.

Friday, Saturday and Sunday excepted, unless by engagment.

UPHOLSTERY. MR. AND MES. D. G. TAYLOR, formerly of 474 Broadway, are ready to wait on customers, as formerly, at their own dwellings, to cut, make and repair carpets and curtains. Present residence, 145 West Sixteenth-street, between Seventh and Eighth

N.B.-Loose covers cut and made in the best possible manner.

ILLUSTRATION SPIRITUAL

"THE AGITATION OF THOUGHT IS THE BEGINNING OF WISDOM."

The horn was taken up, and after a blowing sound, we were distinctly bid "Good evening, friends," when little Henry was influenced (going into a trance condition) to speak to us. The first few remarks would be made by the Spirits only using the horn, and then little Henry would be influenced and talk for hours. And such talk, such fun and frolic, we never conceived of, much less heard before. We could not discover that he would be a par-Shortly after lighting up Davis' Hall, we had, in addition to ling, some sewing, some talking. The Spirits were rapping and ticle tired, and he would not believe that he had been speaking,

The "Spirit-hand" was also shown to us, it taking up a piece house. A number of times, sometimes by day, sometimes in der attracted my attention. It was caused by what appeared to of phosphorus out of a saucer of water, and passing around to the faces of the company. Nothing was seen but the hand, with the toothache. When we would ask, "'King,' are you here?" ing to a perfect cone or point from the middle each way. This something like a white ruffle around the wrist. I remonstrated three raps would follow; and in answer to the question whether beautiful thing appeared perfectly transparent, shining with a with the Spirits about influencing little Henry. They said it he could and would cure the pain, he would answer in the af- mild internal light, the light spreading over a space upon my would not hurt him in the least; and I must own that I believe firmative, and in a few moments the pain would cease—in two shirt (I had no coat on) about the size of my hand. It moved this to be so. They said that by influencing him, his medium cases when it was so severe that the patients were almost beside slowly from my shoulder to my hand and disappeared. My po- power was vastly increased; but that if his mother and I desired themselves. The Spirit has cured the different members of the sition was such that none could see it except my John and a them not to influence him, they would leave him in his normal family eleven times and never failed. We have no conception man who had come to shear my sheep. I said nothing about it condition, but that it would be a long while before one develophow this is done, as no influence of any kind is felt. The pain at the time. The light was directly brought back and all started ment would be such as to enable them to give us good manifesceases, and this is all we know. We discovered that an Irish off to bed, except the women and myself. The Spirits then told tations. We told them that we would rather wait, than have

After this, we sat in our parlor, say two months, with very contact with one another. This would be in the light, and while morning the man asked me, as I went out with him to work, slight manifestations—only transient lights—sometimes in the form of brilliant stars, sometimes large faint globular lights, somedancing would be heard on the table, and intelligent answers he described it as well as I could. When we came back to the times fleecy light clouds, and sometimes the light would be such that we could recognize one another. During this period, howsitting in the light ten minutes, we would blow out the light, me "if I had thought I could fool him him by putting a chunk ever, the French harp was played in the daytime, when nobody was in the room, and two young ladies (visitors) were waked from their sleep, and serenaded (being awfully frightened) by music upon a number of instruments, which were in their bedroom, adjoining our parlor.

I would also generally be put to sleep, and very often my wife, by the sound of music, reminding me of a kind mother's gentle lullaby. This music would sound like a full band at a Spirits would desire Jane to play on the piano. They would sat some time and got no manifestations, when all of a sudden great distance, but when I would go out of doors I could not hear it. This continued more than a month.

In the fall I finished a room in a separate building, and aron the dulcimer, and wind up with the drum, triangle, bells, etc., the room would be played upon; persons sitting in the circle ranged it on purpose for spiritual communion. We sat there with occasional manifestations, being a good deal perplexed at times, owing to my boy being influenced, and the children sometimes thinking that we would be deserted by our friends, for such we had all learned to consider them. The night of this day week, however, we took our usual seats with the conclusion that if we never got any more music, yet that the assurance we had, that the beautiful lights which we witnessed were produced by our departed friends, and the serious and moral effect produced They said if I would get a horn they would speak through it | thereby; would amply compensate us for our trouble in warming our room, and that we would prove faithful and give the allotted Once while I was away, after divers canticoes, they made a organ; all of which I procured, and they used them, more time to spiritual communion. She is a good-sized woher feet touch the floor.

The little boys and myself came home on New Year's day, bringing an harmonicon in with us which I had just bought. gift father had brought into the hall, when immediately the harmonicon was struck, and after playing the scale up and down a few times, the tune of "Pop Goes the Weasel" was played on t, every note being correct. The same tune was then played upon the dulcimer, and in the same correct style. They made him was that she was very pretty, and looked so happy! a good deal of music for us that night, altogether without accompaniment, as Jimmy who plays the violin was absent.

Poston's circle. They told Poston that if he would get a common horn, they could make vocal sounds through it. He procured the only horn in a tin-shop, which, of course, precludes the idea of any peculiarity in its construction. I was called into Poston's circle against their will, when I was a skeptic, by "Old Hymn. King," and always sit with them when I am in the same house. table. After it is rapped on the table a few times, I suppose to let us know that they have hold of it, they will take it up a few feet from the table, and we generally first hear a current of air rushing through it. Then comes "Good evening, friends," and then a good evening to each one individually, calling us by name. The discourse is about what a sensible man would anticipate from a human spirit. Occasionally they will be guilty of a witticism, and when the circle would laugh, they would blow the horn as loud as we could.

The speaking with the first horn was like loud whispering. They then told us to get them a common speaking trumpet which they now use, and speak much louder. They speak loud these things were not done by human means. enough to be distinctly heard throughout the room. Many give you a few examples of their conversation with us:

After the usual "Good evening," etc., the Spirit said, "Cath- purpose of illustration. cart, what have you done with Balaam's old ass?" I replied, I said, "I have noticed that." I asked, have you really noticed the article I published in the SPIRITUAL TELEGRAPH, and did I do the faithful old fellow justice? "Certainly," says the Spirit, "I have noticed your article, and am well satisfied with it." then said, Honor bright! King, was it you that was running my table about for me? "Now," says he, "Charley, I won't tell apology for a preacher, in our neighborhood, who has been in manifestations. the habit of blackguarding us through the press over an anonymous signature. His course was so intolerably base that weboth Poston's family and my own-despised him as much as we could a thing so near a moral abortion. The children had a nickname for him, and once, when nobody except our two families was in the room, my little Henry, when it came his turn o speak to the Spirit (he always desires a word with each in roation), said, "King, what about ---," calling the nickname. by hot blankets and applications.

terregnum, were only to be considered trivial by comparison with "Little Henry," said King, "don't use that name-call him what we had had, both before the Irish girl left us, and with the brother -.. " My wife then spoke and said, "Had not the performance which took place when Mr. Poston's circle would children better say Mr. ---." King replied, "Upon the whole, join us. Since last Saturday they have played for my circle every Mrs. Cathcart, Mr. - would be more appropriate" then turning to me, he said, "Cathcart, do not treasure such malicious We were at sister's in town, on New Year's evenight-that feelings toward that man. Can't you learn to return good for is, Josephine, little Charley, and Henry and myself. Benoni evil?" I then said, "Ought I not to retort upon him through in fitting them to develop men and higher forms of organized existence. went out and borrowed a tenor drum and a tambourine, which, the press?" He said, "No, no. Consider the source from with a tea-bell and the old guitar that you well remember, were whence this abuse has come; and beside, he already is getting placed upon the table in the sitting-room, and one drumstick ashamed of himself. Take my advice," says he, "and I will also. A few good neighbors were called in. We four sat warrant you;" and then turning to Poston, he said, "Poston, around the table, as at home. When the light was put out, the you have heard what I have said to Cathcart; take it all to yourmusic went on with power and precision, and much to the gratifi- self, and I will warrant you too." And for the first time in my

King frequently uses such expressions as this: "O, my in a trance condition, and it would have made your heart glad friends, purify your life by the goodness of your conduct, that to have seen her beatific expression of countenance, and the you may come to the Spirit-land with glory! Oh the glorious

Upon one occasion, the tambourine and a bell being both played man, in fine health. She danced so lightly that I never heard at once, little Henry, who sat next to me, said, "Father, King has the tambourine, and Cook the bell." I asked the Spirits if imals, but not all in any one plant or animal. These primaries the child saw them. They rapped an affirmative. The child then said, "There, Father, a woman is pointing the horn at you;" took it into our Spirit room that evening, and we all agreed no and a voice from it said, "Cathcart, this is your mother; O my one should strike upon it until the Spirits had, when the light dear son," which was repeated several times, when I felt a hand are isomeric compounds, and that they are alike in composition. was put out, after a noisy time with the little one's shouting laid on my right arm, which was on the back of my boy's chair. Thus the analysis of a piece of Parian marble, or of the chalk-"Happy New Year," etc., and the Spirits rapping in response. I laid my left hand upon this hand, and grasped it gently. It cliffs of England, will give alike, as results, carbonic acid and One of them asked the Spirits if they had seen the New Year's was as perfect a hand as I ever felt-had a natural degree of warmth, and soft and smooth as a lady's hand could be. After holding it a short time, it passing in the meanwhile down my arm, it seemed to melt out of my grasp. I asked my child to describe the Spirit; but the only description I could get from

I asked, "Mother, does my child see you? and was that your hand I had in mine?" she said, "Certainly he sees me, and the known to the chemist. In many of our lime-stone districts, such I will now give you some account of the Spirit's speaking in hand you had hold of was mine." For a test, I asked, "What as Dutchess and Westchester counties, New York, the farmers were your favorite tunes while on earth?" The Spirit answered, find it necessary to burn the lime-stone and then expose it to the "The Portuguese and Marsellaise hymns." I remembered that atmosphere before its use in the soil, until it becomes carbonate this was true as to the Portuguese hymn, and my sister afterward told me that mother was equally fond of the Marsellaise fact that their soil is a debris of lime-stone, (at least in part) still

You may well suppose we are good friends now.) When the do not seek them; I am willing to wait until the good time a thousand bushels per acre of lime so prepared, the soil would Spirits indicate that they will speak to us, the horn is laid on the arrives, when in my family circle our departed friends will con- cease to be fertile. Notwithstanding this truth, we know that the verse with us.

have given him a good name and let him go. The Spirit then you will be pleased to publish it, and so send it for that purpose. Truly yours, CHS. W. CATHCART.

P.S.—I should add that in my own circle it is entirely impossible for me to say how much is done by Spirit-hands, and how much by little Henry's, as he is picked up and carried upon our soil were mere lichens and mosses. They took carbonic about without noise, even being taken from his chair and put on the drum which is suspended from the ceiling. He is only seven tales out of school." There is an ignorant bigot, who is a lame years old, and is unconscious of participating in making the C. W. C.

> TREATMENT OF DROWNED PERSONS .- Dr. Hall, an eminent physician of London, directs that the patient should be placed on his face and breast, instead of his back, as is usually done, the body to be turned slowly on its side, and returned as slowly to its first position. This motion, which causes a considerable amount of air in the lungs to be expelled and reinspired, is to be kept up until breathing is restored, or all hopes of resusciation are abandoned. He objects to the practice of seeking to restore animation by elevating the temperature of the body

DIFFERENCES IN ISOMERIC COMPOUNDS. DISCOVERABLE BY VEGETABLE GROWTH THOUGH NOT RECOGNIZABLE BY CHEMICAL ANALYSIS.

BY PROP. J. J. MAPES.

It is a common idea among Spiritualists and other independent thinkers, that the changes which matter undergoes in the laboratories of Nature, result in a gradual sublimation of the primary elements, and Those who oppose this idea insist that the chemist's analysis of the most perfect organic forms discloses only the same simple elements which are known to exist in the earths and rocks; hence it is inferred. that the idea of the progressive refinement and vitalization of matter by the chemical processes and organic combinations of the natural world, is more fanciful than real.

The following paper from Prof. Mapes, who has devoted much time and commanding talents to careful inquiries and scientific observations, is calculated to reflect much light on this profound and deeply interesting subject.-ED.

It is well known that there are sixty-four substances known as primaries, and that of these all things in nature are composed. These primaries are all found in the original rocks, which, by their debridation, formed the soils. Hence they are all to be found in the soils. They are also probably all to be found in plants and anare sometimes found in progressed conditions and combined with each other. Thus the substances known as carbonic acid and lime are found in the marble and chalk. Chemists say that these lime, and in the same relative proportions. Notwithstanding the apparent similarity, as shown by analysis, their weight is different, nor will any amount of grinding render the powdered marble as light as that of the chalk. There is no treatment which can be given in common to both of these substances, which will render them equally valuable as food for plants.

Nature's laboratory seems to be able to detect differences unof lime, by absorbing carbonic acid; and, notwithstanding the they can not obtain full and remunerative crops until a new por-Tests much more conclusive have been given to others, but I tion thus treated has been added. If, however, they should add soil of the plains of Athens contains forty-two per cent. of car-We all believe that, by the exercise of strict morality, and the bonate of lime, and that many of the chalk-soils of England contain a much larger quantity. Still they are fertile. The chemist will tell us that marble dust, the lime used by the Westches-I must mention a peculiar feature about the effect of these ter farmer, and the chalk-cliffs of England, are all of the same composition, and are isomeric compounds; and many have supposed lime being made from our limestone rock, are still fertile and exists, which chemistry alone can not point out. Still, when the The one was well educated; the other I could never reason true cause is understood, there is no difficulty in comprehending its action. The plain truth is, that every time one of the primary substances, originally from the rock, and then from the soil, enters a growing plant and becomes part of it, it has progressed, and in a manner which analysis alone can not recognize; I intended this letter for my brother; but I flatter myself that and when, from the decay of the plant, the primary has again returned to the soil, it is rendered capable of being absorbed by a higher class of plants, which, in its turn, by its decay, renders up its primaries fitted for a higher assimilation. It is fair to suppose, and indeed, is generally admitted, that the first plants grown acid from the atmosphere, retained the carbon to increase their bulk, and received from the soil the inorganic primaries, which, upon their decay, were returned to the soil, thus fitting it for the growth of higher organisms, which, in their turn, performed similar offices. This is, as we shall show, equally true of animal

> The fresh debris of the rock at the mountain-side is incapable of producing the higher class of vegetable growth. The double rose can not be sustained in such a soil, while the single rose taken from a primitive soil and carried to the older soil of the garden, may be gradually improved to the double rose; and simply because the inorganic constituents of the garden soil have

pabulum for the new-comer.

acid to render them phosphate of lime super-phosphate of lime, as plaster of Paris; and that while the one is suited for the use of a higher class of garden crops, the other is comparatively inefficient.

Now it is evident that the lime in the bones of the animal was those to the higher, and so on to Nature's ultimatum, Man. received from its food, which, being a higher class of vegetable growth, could assimilate only such lime as had been before many times in organic form, and therefore is rendered capable of entering the higher class of plants, and of being appropriated instead be added to it. of being parted with as excretia; for plants do throw off any material held in solution by water, which is not sufficiently proapply to the phosphate of lime separated from the bone, as compared with that resulting from the chlor apatite rock which has not before found a place in organic life. Thus the phosphate rocks of Estramadura, that of Dover in New Jersey, and elsewhere, notwithstanding the fact that they are composed of phosthe phosphate from the bone, will not fertilize plants of a higher class; nor are they equal for such use after treatment with sulphuric acid. Thus, notwithstanding the fact that all the phosprogression which all the primaries have passed through before tains. We find these truths clearly set forth in materia medica. reaching the higher forms of organic life.

Suppose an aere of soil to be fertilized by a thousand pounds another acre to be fertilized with a synthetical representation of this blood taken from more original sources. Thus, let the potin the precise quantities in which analysis proves they exist in blood. Divide them through an equal amount of water and the acre thus treated will not grow as progressed a class of plants as would be furnished by the blood; and simply because the primaries themselves are not progressed.

Every farmer knows, or may know, that if his soil is deficient of phosphate of lime in some available form, so that the crops can not furnish it to the cow, she will have the propensity griping you at all. to gnaw bones wherever she can find them; and that if the have sufficient strength to sustain it; that by feeding the cow with small quantities of bone-dust, the difficulty may be remedied. But does he believe that the powdered phosphoric rocks fed to with the feeces without being assimilated? Does any practical agriculturist believe that ground granite or feldspar (the latter of the luxuries we now enjoy, simply because the primaries of composition as that made by the Messrs. James. the soil in their time had not been so progressed as to produce them. Soils that formerly would produce but a kale and lower if not overfed in quantity, appropriate such primaries from their an animal should yield excretia at all, other than from excess of that after the Estramadura rock was calcined, and the bone was the earth.

Every practical farmer, who has a sufficient knowledge of that night-soil will produce effects such as are not warrranted by chemistry to observe truths as they occur, knows that the sul- its analysis, and such as can not be imitated by any synthetical phate of lime made from bones by treating them with sulphuric arrangement of similar constituents? Is it not because the food of man contains the primaries in a more progressed condition is worth many times its weight of native sulphate of lime known than that of other animals? Animals are part of the machinery used by Nature for the progression of the primaries, and bear a higher class of plants to feed a superior class of animals, as did the rocks to the soil, the soil to the lower class of plants,

Now, let us see if we cannot comprehend why the chalk soils not from the lower sources. of England and of the plains of Athens are not barren, as would

them all to be either coralline or fossiliferous; and hence to have lime) and with soils fully charged with the debris of this rock, gressed to form part of their structure. The same truth will occupied organic life perhaps millions of times before they found are still improved by minute doses of calcined bones treated with their place in those soils. Perhaps we may trace them thus :- sulphuric acid, and for the same reasons that the soils of West-The decay of organic life caused the primaries to be yielded up in chester and Duchess counties, made of the debris of lime-stone, a state more readily soluble than before. Large proportions of are improved by new quantities of artificially prepared carbonate these primaries are carried by the streams into the ocean. There of lime. It is true of every primary, and it is traceable throughthe lime might have been appropriated to forming the bones of out nature. While plants have been thus progressing by having phoric acid and lime, and in the same relative proportions as in fishes, shells, etc., and perhaps this process repeated millions of their pabulum progressed, animals, at least those useful to man, times before the coral insect used the lime to construct its habitation. Finally an upheaval exposed it to atmospheric and other influences, and thus formed the chalk-soils of England, which, for the progression of primaries, by the mastication and digesphate of lime found in the bones of animals and elsewhere, came although isomeric with the soil containing a disintegrated marble, tion of the food, its assimilation and their decay, have gradually originally from the rock, still, before it has its greatest value for is far different, for all practical purposes; and this differagricultural purposes, it must have passed through that chain of ence arising mainly from the progression of the primaries it con-

The magnesian rock at Hoboken contains veins of carbonate of magnesia. Treat this with sulphuric acid, and crystallize it, of bullock's blood dissolved in ten thousand gallons of water, and and the result will be sulphate of magnesia (Epsom salts). Take this to the chemist-let him analyze; he will pronounce it sulphate of magnesia, and if carefully made, will find it pure. Use ash be taken from the feldspar rock, the phosphate of lime from this as a medicine, and if it does not take fife, it will cause gripthe apatite rock, and each primary from an original source, and ing, so as to give great pain, in addition to its action as a cathartic. Dissolve these crystals in water and re-crystalize them. Do this one hundred times, and take them again to the chemist for analysis, and he will again inform you that it is sulphate of magnesia, (Epsom salts) and does not at all differ from the first crystals he analyzed; but use it as a medicine, and nature will inform you that the continued re-crystalization has progressed the primaries it contains; that it will now act as a cathartic without

For more than a century a medicine has been manufactured milk is deficient in phosphates, the bones of the calf will not in London, known as Pulvis Jacobi (James' Powders). For a long time the composition was a secret. The medicine, however, was in general use, and large quantities were annually sent to the East Indies by the East India Company, for the use of its medithe cow would produce any such result? Or would it pass off cal department. It was very effective in the treatment of fever, and its action always found to be uniform. The Messrs. James, the original discoverers of this medicine, died, and their succescontaining fifteen per cent. of potash) will affect the current crop sors of the same name, from philanthropic motives, made known like wood ashes? So great is the difference, that even the ashes the composition, and the recipe for its manufacture found its way from a higher class of plants will furnish potash superior to that into the pharmacopia. It was said to be composed of phosphate from a lower class. Thus a burnt haystack renders the soil be- of lime and oxyde of antimony in certain relative proportions, neath it capable of bearing larger crops of potash plants, than which were stated. James' Powders were soon manufactured by would the same area of soil treated with a greater quantity of every druggist, as well as by the immediate successors of the potash from forest production. Green manures of a high class original discoverers. The East India Company advertised for decomposing in the soil, furnish progressed inorganic materials, proposals to furnish them with medicines, among which was a and although very minute in their quantity, still, from their pro- large quantity of James' Powders, and a large and respectable gressed condition, they will produce larger crops than greater chemical manufacturer of London named a lower price for this quantities of similar primaries from lower sources. The manure article than that named by the Messrs. James themselves. It was of the stable owes its value to this truth. Much of the inorganic furnished and sent out. The medical department reported that matter contained in the manure is in so progressed a condition, it failed entirely to produce the usual results. The Company rethat the results are greater than would arise from the same pri- fused to pay the bill, and a suit ensued. Many of the first maries obtained elsewhere. The whole system of nature has chemists of England, including one of the Messrs. James, made been progressing, and our forefathers could not have had many analysis of this article, and gave evidence that it was the same

It appeared in evidence that the new manufacturers had calcined the phosphate of lime-rock from Estramadura, and then class of cabbage, now will grow the cauliflower. All animals, combined it with the antimony as directed; that the Messrs. is the art of forming noble specimens of humanity. The costliest pro-James made their medicine by calcining bones of oxen, and ductions of our manufacturers are cheap, compared with a wise and food as are sufficiently progressed by frequent use in organic life, mixing the phosphate so obtained with oxyde of antimony. and discard as forces, such portions as have not reached the point Every chemist, Mr. James included, believed and stated that pulse that would place it at the head of cities. A city in which men for assimilation; and we have yet to see any other cause why there could be no difference in the effects of these two medicines; should be trained worthy of the name would become the metropolis of

been in organic life many times, and have thus been rendered fit quantity, want of progression, presence of unappropriate or unrequired primaries or irrelevant relative quantities. Why is it favor of the manufacturers. The Company, however, sent out a new quantity manufactured by the Messrs. James, and unlike that made from the Estramadura rock, it was found to be efficient. Notwithstanding these facts, even at the present time, it continues to be manufactured by both of these methods.

Thus it is clear that men, like plants, can only assimilate, during the process of digestion, such primaries as are sufficiently progressed for their use. And this gives us a clear insight for the formation of proper rules in the selection of manures. They should always be chosen, when practicable, from the higher, and

A soil may be full of feldspar, (the original source of all be our soil, if one-tenth the quantity of lime they contain should potash) and still need potash produced from higher organisms for the use of the current crops. Farms in the immediate vicin-Where did the chalks of England come from? We suppose ity of the Dover locality of chlor apatite rock, (phosphate of and necessary to remain in existence, have progressed, while those which Nature's laws seem to have formed as mere machines become extinct.

We find the tooth of the largest living shark but one inch high, while the shark's teeth found in the green sand marls of New Jersey are many times that size. The mastodon (whose bones are found at Great Bone Lick in Kentucky, and in Siberia), are many times the size of the modern elephant. The skeletons found in the hyena caves of England, are three times as large as those of the hyena of the present day. Our largest saurian represents in inches, what fossil geologists have found represented in feet. Indeed, this is true of many extinct species of animals. which, even at this time, from their fossil remains, are furnishing the phosphates and other primaries which were received from the rock, and progressed by them for the use of man. But it is far otherwise with the useful animals. Look at the returns of the Smithfield market of two hundred years ago, and the returns at the present time, and we shall find that the modern ox slaughters one-third heavier than his predecessors. Even the horses represented in the Elgin marbles, although beautiful as works of art, will not fill the eye of a horse-breeder of this day. They are inferior in form and size. So is this true not only of the inferior animals alone, but also of man.

At the Eglington tournament which occurred a few years ago in England, many of the young nobility appeared in the armor used by their great-grandsires, and in almost every case these suits of armor required to be enlarged before they could be worn It is true we hear of giants in the olden time, but we have them also in our day. They were then and are now exceptions. Mankind as a race are larger, and enabled to preform a greater amount of labor physically and mentally than at any prior date. The exceptions do not disturb the rule, nor will the overfed and pampered inhabitants of large cities compare (beyond a mere percentage in number) with the agricultural portions of mankind.

This hypothesis of the progression of the primaries (if it must be so called) has at least much to support it. It shows truths in nature which both the laboratory and the microscope have failed to perceive, and it enables the practical agriculturist who really understands so much of the sciences as entitles him to the appellation of a farmer, to select and prepare his fertilizers with greater economy and greater certainty of success, and not to mistake, as those do who rail out against the use of analysis of soils, the analysis of pebbles for that of progressed primates mixed among them .- Working Farmer.

THE glory and happiness of a city consist not in the number, but the character, of its population. Of all the fine arts in a city, the grandest good human being. A city which should practically adopt the principle that man is worth more than wealth or show, would gain an im-

Let every man be fully persuaded in his own mind."

NEW YORK, SATURDAY, JANUARY 24, 1857.

THE MAIN POINT.

BEFORE the facts and phenomena of Modern Spiritualism came upon us, an universal doubt of man's life beyond the tomb overspread the minds of men. The philosophic Mind was thoroughly imbued with it; insomuch so, indeed, that long and satisfactory results, had engendered a dread prejudice against any affirmative developments and evidence tending to prove a transmundane life for Man. Ere mesmerism and clairvoyance came, to again invigorate thought on the subject, and shed new light on the nature of mind, the Philosophic World had settled down into a stolid negation of man's future and continued existence. It had not as yet reached a plane much, if any, above the material, and dealt almost exclusively with the external-rarely turning its eye inward toward the spiritual realms. It looked for the Life and Soul of man in the crucible and the blow-pipe, and not detecting them there, concluded that Life was a combustion, and the Soul a many-stringed Æolean Harp that played so long as the wind blew upon it; but when broken, or the zephyrs ceased to blow, its melodies died away forever! The theological and religious mind rested their hopes upon authority; and in the absence of Knowledge magnified faith and Tradition.

But neither Faith, Authority nor Tradition afford the inquiring mind any abiding assurance of a living, thinking, feeling and acting identity beyond these swiftly passing scenes around us. fairy scrolls, and leave us more in the dark and more bewildered than they found us. In this state of philosophic doubt and distrust, the facts and phenomena of Modern Spiritualism found us. judices. They come and solve the problem of the ages, and reduce that which was before but fond conjecture to a science. If Spirit- Spiritualism accords us, if we are not watchful, will operate in a nalism has done no other good than this, it has done an incal- like manner. It will instigate relentless war upon the Creeds has effected, we are apt to lose sight of this main point. If it us, and an abhorrence of our philosophy, that will even outlive such thing. We can have no conception of no-thing. All our has demonstrated, beyond the cavil of a doubt, that a single their superstitious reverence for their creeds. It has already Spirit, which once inhabited an earthly tenement such as ours, is filled the breasts of some few of us with a hostile and irrepressible still instinct with life, memory, thought and affections beyond the animus toward them, which, if fully ultimated, physically would stance, without its being plenary with substance. Neither can grave, it has done for Man what no Authority, Faith or Tradi- impel Spiritualists to march, in cohorts, to the tune of "Hail there be more substance in one portion of space than in another tion has ever done. It has sealed our hopes, and opened up a Columbia," to every Orthodox church-door and present bayonets! of equal dimensions. There is as much substance in an imaginnew world exhaustless in researches, fraught with the intensest Let us not repeat the follies of the past. Let us learn wisdom of ary area of space, equal in size to this globe, as there is in this thought and true manly courage, who have heretefore sincerely the fullness of time all things come round. sought the evidences of your continued existence beyond this life, in books of theology, in traditions, in the philosophies of thusiasm has caused many of us to think that the old Church ingly, the states or conditions of substance make all the different the past, and found them all unsatisfactory and fallacious-ye who have summoned to the bar of your mature reason, the prejudices of your early youth, and found them all visionary and unreliable, ye can appreciate this boon of Modern Spiritualism. No matter if Spirits do give contradictory accounts of the mode and manner of their existence beyond-no matter if they do disagree about what and where Heaven is, about who and what God is, about where and what Hell is, about what good and that the day is near at hand when they will go out of time in sympathy with the one or the other of these general states or evil are, about how many spheres there are, etc. We all know some great catastrophal eruption and dissolution-that their conditions, that we can see, feel, and realize its forms and exist what use to make of this. We see what it proves, howsoever temples and creeds will in a day tumble into rains, and be no ences. At death we change our state from external sympathy the skeptical objector may view it. We see that while the Spirit's identity is intact by the change of death, it must necessarily be so, to a greater or less extent. Yet the prime fact of the Spirit's existence and identity beyond this theater of life, no fact established; and in view of the past, it would seem almost the Eastern mythologies retained their hold upon the minds change of state from one general condition to another; and whence enough for one age or generation. These minor details, howlife, had peopled that terra incognita with thousand fancies- rolls on, all their manifold errors and superstitions will go down and the profoundest interest. We may have something more to fancies as infinitely varied as our imaginations; and had our eyes to the kingdom of all-enduring night.

been suddenly opened upon that world, and seen it exactly as it is, we would all have been more or less disappointed. These fancies have all to be remorselessly corrected by the facts, as they are from time to time given to us. Let us all agree that we have much yet to learn about the Spiritual Worlds.

The science is scarcely a day old. It has but just got its eyes open, and sees "men as trees walking." Let every man speculate and theorize as much as he likes upon these lesser details. Find no fault with him. If he goes wrong, he will in due time be corrected. Theory will always outrun the facts. But facts come lagging along behind, and by and by set it right. Fear not! A well digested science of the Future Life will slowly grow up out of this heterogeneous mass of communications, and apparently contradictory facts. Keep your eye upon the main

DEATH OF THE OLD, AND BIRTH OF THE NEW.

WHEN the progressive Mind has advanced out of, and beyond, laborious thinking in that direction, ever unattended with any the cloudy confines of the old Church and State Hierarchies, it is apt to become unconsciously imbued with a reckless and destructive enthusiasm. To its clear and disenthraled vision the old looks mean and dastardly. We marvel that we were so long deluded and enslaved; and we wonder why others can not also see the stupendous defaults and incongruities of the old dynasties, and fore, be it substance, matter or spirit. The universe, spiritual and at once address themselves to freedom and reform. The enfranchised soul is prone to run riot in its new freedom, and verge on to an opposite extreme. The oppressed, when they revolt, couplet, are ever ready and quick to turn upon their Tyrants, and, without quarters, demolish them into the dust. When the oppression of former restraints, long suffered and endured, is suddenly removed, the individual and the mass are inclined to a tremendous reaction. In proportion to the stringency of the foregone restraints, is the tendency to a wayward and headlong momentum toward the other extreme. It grows out of the law of equilibrium. Look at the French Revolution. Look at the civil wars of Cromwell in 1668. Look all down along history, and you will not fail to see its developments in every age and country. How profoundly did the tyrannies and exactions of George III. and When thoroughly analyzed, they melt away from our grasp like the Revolution that followed, imbue our minds with almost ineradicable prejudices against the brave Briton! It has taken two generations to disabuse the public mind of these pre-

It is abundantly adeualism can not be overstated or overestimated. Ye men of quate to the emergency. It does its work slowly but surely. In there was more substance in one portion of space than in an-

dynasties and creeds will speedily go into decay. We think spheres or planes. The material plane is one general condition that their death is imminently impending. The inroads that of substance. The spiritual plane another, and so on. Esch science has made upon their domain, the vital thrusts that a general condition of substance, of course, includes within it an terrible logic is making at their life, the sickening depletion that indefinite number of less conditions or states, which determine an evangelizing and expanding Humanitary sentiment is causing the various forms and individualities it contains. One general them, and above all, the cloud of witnesses that are coming condition or state is just as real, tangible, solid and substantial against them, in the form of spiritual facts, induce us to believe as another. It is only when we are in a like condition, or in more! But such has not been the history of the past. Their and correspondence with the Natural state, into sympathy death or extinction is a slow one, and not marked by any striking convulsion or disastrous winding up. All that is vital and us all that sympathizes with the Material condition, and carry true in them will gradually pass out and become incorporated in with us all that sympathizes with the Spiritual condition. Thus intelligent Spiritualist doubts for a moment. This is the main the New. The evolution requires time. Remember how long death, or this marked epoch in the progression of Man, is but his of men, after the advent of primitive Christianity; and remem- that plane, he continues his progress and development by still ever, will be attended to in their order. Before the advent of ber how gradually they wasted away before the slow spread Modern Spiritualism, those of us who at all believed in another of its light. But surely as figures and facts-surely as time Thus, change of state is fraught with the deepest significance

PROGRESSION BY CHANGES OF STATE.

It seems to us that the idea of progression entertained by some philosophic Spiritualists, is untenable. It is very generally assumed by them, that progression involves an increase of substance, spiritual or natural. That there is, in the process, an increment of pabulum and that that pabulum is somehow created, so that the body, the spirit and the universe, should grow and expand forever. They begin their thought, for instance, with a cosmical germ, in which, say they, inhered all the substances, elements and potencies, of its subsequent growth and development up to Man, and forward to all the spiritual spheres. They assume in the phenomena of birth and development, the origination and superaddition of more substance, material and spiritual. Hence, that something is perpetually originating out of nothing, to continually feed and carry forward the developments. They combat the idea of something out of nothing as unphilosophical; but when we come to analyze their idea of progressive development we find them, perhaps unconsciously, affirming the same thing. It requires, however, but little reflection to see that this is a mistaken notion of the process. It is a fact, admitted by all consistent logicians, that there is nothing created, in the philosophic sense of that term. Something out of nothing is absurd. We can have no such idea. All that is now, substantially existed benatural, was just as full ten millions of years ago as it is now or ever will be. Not a particle more nor a particle less. The old

To thee there is nothing old appears, To thee, Great God! there is nothing new,

is philosophically true. The processes of birth, growth, progress, development, etc., are not, therefore, carried on by an increment of pabulum or the origination of still more substance, but by the successive changes of states or conditions. For instance, when the child is born, it is but a change of state of the elements and substances, material, living, sentient and spiritual, of which it is composed. These elements and substances existed before and from all time; but now their state is changed, bringing them into new relations and developing new functions. So the changes of its state, internal and external, continue through its childhood, boyhood, manhood, old age, and into the spiritual realms. These states or conditions enlarge or expand, so to speak, by amalgamating, incorporating and assimilating with them other minor and inferior states. Nevertheless, each great epoch in its history is marked by a general change of state, such, for instance, as its birth into this world, its death and birth into the next, etc.

Furthermore, we can have no idea of a vacuum. There is no ideas and conceptions must be positive, or of some-thing. Hence, we can not conceive a portion of space, a cubic foot, for inglobe itself. It must be so to preserve the equilibrium. If other of equal size, the universe would be destroyed. When Now that the Spiritual Dispensation is upon us, our vernal en- one particle moves another takes its place, and so on. Accordand correspondence with the Spiritual state. We leave behind incessant changes of the state of his interiors and exteriors. say on this subject.

SACRED SYMBOLISM.

with our remarks appended to the same, has been in type for some time, but unavoidably crowded out: MESSES. EDITORS:

In our researches after the hidden meaning of ancient symbolical writing, we too frequently attempt to discover a deep, subtle meaning, and a correspondence to the thing signified, that did not enter into the mind of the inventors of the symbols; and in so doing, we often overlook the plain significance of the whole matter. An attempt to make a parabolical illustration conform, in every particular, to the thing signified, inevitably leads to misapprehension and perversion, and the moral taught thereby, is thus entirely misunderstood or forgotten. I think the followers of Swedenborg, in their doctrine of correspondences, generally make this mistake by supposing an actual, positive, correspondential meaning to every symbol used in the Bible-unless I have failed to understand them.

Allow me to illustrate my meaning by the serpent symbol. The Egyptians symbolized Deity by the serpent; the Hebrews made it the symbol of the devil. Which was right? Had he not the qualities in himself of the Deity and of the Devil? His secretiveness and venom typify the Evil One; but aside from these qualities, he symbolized Deity more perfectly than any known animal. First, his wisdom. Second, his vitality, an emblem of health-lifted in the wilderness for that reason-transferred to heaven under the name seraph and scraphim. Third, his power to move rapidly without limbs or any apparent means of locomotion; and fourth, his numerous scales glistening in the sun, emblematical of the starry hosts. Jesus said, "Be wise as serpents and harmless as doves." Serpents were too venomous, and doves too silly.

I think F. in his expositions of the meaning of the symbols or letters IAO, labors under the mistake adverted to above. Whatever hidden meaning there may be in these letters, I do not think the inventors of this method of spelling the name of Deity had any such meaning in their compelled to write by symbols alone; and, he chose those forms and qualities in nature that he thought would best represent his ideas. Not that there was necessarily any hidden peculiarity in the object selected, but its adaptedness depended generally upon the shape, motion or external appearance. Sometimes the passional qualities were adopted as symbols, as in the case of the serpent; but it was only when they were quite prominent. In later ages, however, when men became more metaphysical, their riddles, problems or parables, became more abstruse and difficult to understand.

We must not forget that man first began to write in the most rude manner with his mother earth, by molding it into various forms, just as children now write "baker," by making dirt-pies. The ancients wrote the word strength by heaping up the earth in mountain form. On the apex of these eminences, they built their bonfires. The ascending flame represented Deity in its light and heat, and gave rise to the idea of a spire, an obelisk, or a pillar, from which they derived the symbol I standing erect, without any external support. Here, then, we have the first letter in the name of Deity. Afterward, as man cultivated the arts, he represented a mountain, the natural emblem of strength, by a pyramid, the strongest form of art.

The letter A represents a pyramid, and is the second letter of the name. The circular form or letter O represented the canopy of heaven, or the universe of the ancients, also the egg theory; and as it included all things within its circumference, was omniscient, and was the perfection of form, it completed the trinity of letters by which the name of Deity was spelled. The cross of the letter A was put there to denote salvation, as all ancient nations were saved by the cross, or passover, that is, the crossing over or the passing over of the sun into the fruitful season at the vernal equinox.

We have, then, in these three letters, the ancient trinity of, first, I, self-existence, or the Father, sometimes called wisdom; second, A, strength, including the cross of salvation that comes from Him that is strong to save, denoting the Son; and third, O, the perfection of beauty, or the Spirit that perfects the works of Deity. The O, or circle, also represented the serpent devouring his tail. IAO is the root of Iopater or Jupiter, and also of Jehovah; and as it is sometimes in the form of IAC, it is the root of Iachus or Bacchus. The name of Deity was sometimes spelled IO, because the sacred heifer imprinted those forms in the sand with its sacred hoof. The word ON, the Egyptian name of God, includes the circle, the pyramid, and the pillar or obelisk, and they named the onion, ON-I-ON, viz., Almighty, Being, because it was made up of concentric circles, like the planetary system or universe, and was therefore a fit symbol.

dom and light were synonymous, denoting the Father. He also represented himself by the symbol I, thus, "I am that I am." I conclude. under certain conditions, be absorbed by a duly susceptible methen, that the various names of Deity in use among all nations had their origin in this ancient symbol writing, based upon those forms or appearances of nature or art that, in their judgment, best represented the real object.

NEWARK, N. J.

by an article published in the TELEGRAPH of November 15, enelements of that theology which, in different forms of external firmation: representation, has constituted the animus of all churches and

nations from the remotest antiquity, are intimated in the ele- B, not being permitted to mention their proper names. Both THE following, from our friend G. C. S. of Newark, N. J., mental constituents of primitive languages. G. C. S., appears to parties were spiritually impressible, and to some extent mediums. admit that the primitive languages were in some sense and to A, who is a man of strong mind, possessing powers of close obsome extent representative, and that among their representative servation, and not likely to be deluded as to his own experiences, figures and sounds were especially conspicuous those which had had, from external circumstances, been drawn, for a few days reference to the being and attributes of the Deity. He however much into the sphere of B, and the magnetic rapport was renimpliedly excepts to the legitimacy of our conclusions, and inti- dered more intimate by exciting circumstances involving the inmates that our mode of interpreting the geometrical forms of terests of B, and by which the sympathies of A were called out primitive letters, and other correspondences, is too uncertain, and in a lively manner. Retiring to bed shortly afterward, A still apparently fanciful, to be relied upon. That he is not correct strongly felt the sphere or soul-presence of B, and on becoming here, we do no not pretend to assert at present, but must be permitted to say that the rule or rules of interpretation which he actually to see B as an aerial personage, directly over him; and seems to follow, and in the application of which he has given inas open to the charge of fancifulness as our own. Without entering into any extended remarks at present, we will instance only one particular. G. C. S. says:

It seems not a little strange to us that so intelligent a man as G. C. S. should have overlooked the fact that the phrase, "I am that I am" (which occurs in king George's translation of Exodus 3:14,) is only in a language which did not exist until after the lapse of thousands of years after the phrase in the original language was uttered and written. The Hebrew words of which this English phrase is said to be an imperfect translation are (as represented in Roman type) " Eheyeh asher Eheyeh," I will be what I will be. The Greek Septuagint renders it, "Ego eimi ho On," I am he who exists; and the Latin vulgate translates it, mind at the time. Age after age transpired, during which man was "Ego sum qui sum," I am who am. (See Clarke's Commentary on the place.) It would be difficult to discover either in the forms or the sounds of the letters of this passage as occurring in these or in any other ancient languages in which the passage in question is found, any resemblance to the constituents of the modern English phrase "I am that I am," and which is only conventionally made to mean the same with the Hebrew passage.

> We may add that the present forms of the Hebrew letters are not the same as those which were employed before the Babylonish captivity; and it is universally conceded that these forms are now lost, unless they are preserved in the characters in which the Samaritan Pentateuch is written. It is plausibly conjectured, however, that the first forms of the Hebrew letters were the forms of the things which they severally signify, the first (aleph) meaning an ox; the second (beth) meaning a house; the third (gimel) meaning a camel, and so on to the end. It would be interesting to study the spiritual correspondences of the various objects in nature and art which the Hebrew letters respectively signify, with reference to the meaning of the words in which these letters with those respective significations, are found combined.

PERSONAL SPHERES.

THOSE who have carefully studied the varied phenomena of animal magnetism, so called, are already familiar with the fact, that the emanations, spiritual spheres, or what is more commonly known as the magnetism, of any person, embraces all the potential mental and moral elements of the person himself. Thus it is known that in the presence of a promiscuous assemblage of persons possessing different and discordant mental and moral constitutions, experiments in magnetic sympathy or clairvoyance are not so apt to be successful as under circumstances of more privcy, and where the mental action upon the subject or medium is of a more harmonious and unmixed nature; and the reason always assigned for this is, that the mind of the subject is confused and beclouded by the conflicting psychical natures of the parties present, which natures are represented in their emanating spheres When God appeared to Moses, it was as a flame of fire or light. Wis- as pervading and acting upon the subject. It is not so generally understood, however, that the sphere of a person, may, dium, so intimately as to enable that medium to commune with the soul of him to whom the sphere belongs, much as one would commune with a Spirit known to be disembodied-and that, too, without the consciousness, or even bodily presence, of the The foregoing communication appears to have been called forth one to whom the sphere belongs. This fact has received numerous illustrations, more or less definite, from the phenomena of titled "DIVINITY, GEOMETRY AND LANGUAGE," in which we ex- psychometry, as well as from other and kindred sources; and we hibited some philological facts, and the principles apparently un- have now the following curious incident to relate as coming derlying them, which seemed to indicate that the fundamental under our personal knowledge, and affording an additional con-

We will designate the parties involved in the affair, as A and preparing the report.

quiet and passive, before entirely losing himself in sleep, seemed presently, commencing at the head and proceeding regularly terpretations to certain figures, strike us as being at least quite downward to the feet, the ethereal body of the latter seemed to be gradually absorbed into the body of the former. Of this operation B was totally unconscious; yet for two days so completely was A apparently possessed of by the spirit of B, as to "He (God) also represented himself by the symbol I., thus, I am that seem scarcely himself, and it cost him much disagreeable effort to get rid of the influence and bring himself to his normal con-

By duly reflecting upon phenomena of this kind, the intelligent mind will be able to draw some practical deduction of great importance concerning the subtile influence of man upon man, and the dangers to which we are sometimes subjected, of having our judgment or our affections unduly and unconsciously warped by the pervading spheres or supersensuous soul-powers of those with whom we are in communication.

MRS. CORA HATCH IN BALTIMORE.

A CORRESPONDENT gives the following account of the public lectures, etc., recently delivered by this lady in Baltimore. Mrs H.'s rooms in this city, are at 309 Fourth Avenue, where she will be happy to meet circles for philosophical investigation every Tuesday evening. See advertisement elsewhere: FRIENDS PARTRIDGE AND BRITTAN:

The lectures of this youthful and gifted lady in our city have elicited the admiration and wonder of large and intellectual audiences. The Baltimoreans have at last been aroused from their lethargy, and now all classes of society are alive to the importance of the fact that Spirits who have left the earth-form can, and do, communicate with those who

The press, which has heretofore avoided the subject, except when a scurrilous paragraph was selected for insertion, sees the rapidity with which a belief in its truth is spreading, and assumes a more decent tone. The clergy, who a short time since deemed it unworthy their notice, are now fulminating anathemas against it from the pulpits of all the various sects. The laughers and sneerers begin to think there may be something in it; and many of another class gather around the domestic hearth, and hold sweet converse with the loved ones who dwell in brighter climes.

Mrs. Hatch delivered ten public lectures during her visit here in December, and held private circles for the elucidation of philosophical questions, some two or three times a week. The manifestations given through her are well calculated to convince the most skeptical. Oftentimes, at the lectures, the controlling Spirit will desire the audience assembled to select a subject, which, of course, dispels all idea of preparation on the part of the speaker. On one such occasion, an eminent member of our bar proposed the following: "The antiquity of the world, as proved by the discoveries of Geology; its consistency with Biblical history." The elucidation was clear and logical. For more than an hour the large congregation were enchained by one of the most brilliant and powerful discourses that ever fell even from inspired lips. The coldest skeptic present was warmed up to the avowal that either a super-human intelligence was exhibited, or that Mrs. Hatch was the intellectual wonder of the age.

In private circles the impression made was equally favorable. One evening there was assembled a party of twelve of the most distinguished men of our State, for the express purpose of propounding such questions as would be beyond the capacity of the medium to respond to, and thereby dissipate the idea of any human agency in the matter. The first questions were presented by a most talented and estimable gentleman, lately our representative in Congress, and was replied to in a manner at once instructive and convincing; but there was a more severe test in reserve. An ex-Governor of our State, a man of superior natural abilities, who had been educated for the priesthood, whose training as a lawyer, and whose powers as a debater, gave him every advantage that could be desired by the opponents of our faith, undertook to refute some proposition advanced through the medium, and brought all his powers of argument and eloquence into play in a contest that continued for an hour and twenty minutes, when it was unanimously agreed, by his own friends, all skeptics, that he was fairly and completely overthrown-that it was not a matter of question, but was an entire and overwhelming defeat.

In the report of the proceedings of the Investigating Class, in the present number, the brief on page 303, headed "Is there a God ?" was submitted by Dr. Orton. The name was accidentally omitted in

THE INVESTIGATING CLASS.

This class met as usual, at the house of Mr. Partridge, on Wednesday evening 14th inst., the question for consideration (continued from the previous Wednesday evening) being

"Is there a God? and if so, what are the attributes of the Divine Nature, and what the mode of the Divine Existence ?"

The following communication was made by a gentleman present:

"Is there a God, and if so, what are the attributes of the Divine Nature, and what the mode of the Divine Existence !"

rest requires no answer. Is there a God? If so, it is one of a form, definable, limitable, tangible, and a location-or otherwise a principle of illimitable spaciousness pervading the whole universe, omniscient, omnipresent, omnipotent-the fountain and the stream, the boundless ocean of wisdom, of love, of benevolence, and of their opposites. Shall we put it or him on trial, that he may prove to us his claim to all or any of the premises?

"The fool hath said in his heart, There is no God." The philosopher has tried and has failed to prove that there is one. Common sense is lost in the mazes of their contention, and asks for a sign, a proof, a fact from each. Has it been, or can it be, given?

needs no refutation. The second is that which is recognized by dividuality. all Christianity, and we are aware that he who disputes it is subreligion," or "revelation from God." They tell us of a God, se- tion-what is man ?- before him. verely just, merciful, all-wise, all-powerful, omnipresent, all-seeing, of a God, as a supreme being. It is one of the attributes or humanity-of mind cultivated or uncultivated-but in all this we see or recognize no fact, no proof-nothing but testimonyof such a questionable quality as can not bring conviction to our lying or undeveloped individualty, esse, egoism or being. common sense.

ble that in our judgment it borders on the absurd. If it be bespace and the duration of Eternity, how much more the identity or existence of a God filling all space, and being from Eternitythe ever now? The most subtle logic fails to impress me with the its absurdities if they can, with the assumed purity of the God virtue and delight. they adore. He is this in one place, that in another; Justice we deny its inspiration.

place of common sense, sound argument or fact. Logical rea- ble reciprocity. soning or deductions go for nothing in the absence of that sound great interests of all creatures assumed to be under his special crystals, and thereby to give birth to new functions ad infinitum. supervision, power and providence. God in the abstract is a nity. The laws of Nature, ever unchanging, without beginning, germ-life represents itself. without end, so harmonious, so exact in all their ramifications through all the sciences, seem to exclude the idea of a superintending Providence, or mind, or power; for all things being perfore I conclude that God in any and all the theologies of man's and has no time in it. creation, is a myth, a creature of man's imagination, born of superstition and nurtured by ignorance, fear and imposition.

gress of mind is so self-evident and rapid that if it is a possibility, it will be solved to the satisfaction of all; but in the present state of knowledge, and the vagueness of all spiritual manifestations, it is a problem of difficult, if not of impossible, solution.

The existence of Spirits in a Spirit-world does not necessarily imply the assistance of a God. On the contrary, we infer from the variety of manifestations, good and bad, serious, sober and its rudest ultimates, and even this very imperfectly, but I can see ludicrous, that Spirits are free to act according to the bent of that there is a divine degree in every physiology which I cannot The first part of the question being answered negatively, the their inclinations. They are not under a Theocracy, and such a being as God is not alluded to by them, in so far as my expetwo things: it is a unity, a self hood, an objective oneness, having rience in spiritual intercourse has progressed; and we should jective to any of my senses, but nevertheless is the primal mode naturally look for the most positive proof from them if such was the case.

Dr. Gray presented the following paper:

1. Manifestation is the sole proof of Being or Individuality. An Individuality without manifestation is not admissible, not only because it can not be proved, but also because it is essentially action; and it is a contradiction to say that motion can be at rest.

Existence is the endeavor of Being to utter itself; to present, or represent its Individuality.

The consideration of the subject of Individual representation in its modes, i. e. the observation of growths, is the science of The absurdity of the first proposition is so palpable that it manifestation, and is all that can be known of Being, esse or In-

2. That existence is an endeavor to express individuality, is ject to severe anathemas. Theologians have labored to prove known to us in all that part or plane of our activity which is it; they would deprive us of the use of our common sense, and governed by our will, and registered in our memory, may be perin its place substitute a blind faith in what they call "revealed ceived by any one who looks at himself sharply with the ques-

The endeavor to represent the individuality begins by the conetc., and of a heaven where God resides. All the nations of the struction of a personality; that is to say, by forming organs of earth, all the races of mankind, have a more or less vague idea accretion and excretion-of assimilation and exclusion; and in the construction of these organs and their necessary adjuncts, there is interwoven in every fiber and crystal of their texture, an expression of the order and mode or temperament of the under-

Beside, how far the Scriptures are reliable testimony in any respect. ries; from each and all of which each and every human Indivi- the thirty thousand gods mentioned by Varro, they worshiped That is a bone of contention for theologians; let them reconcile duality finds, and forever shall find, means and ends of use-of an unknown god whom aftertimes and more light are to reveal.

In the merely animal life-plane, and in the vegetable, as there make up the Hindoo's Trinity. without mercy; merciful without justice, he is Protean in his are no aspirations above the earth, and as the esse finds its perphases, ever changing. There is incongruity throughout, and fect ultimation or expression here, the sexual series stops at the point of multiplying the personality or personation—the body. Sages, philosophers, poets, admit, insist upon, and eulogize a There is nothing to be uttered higher, and therefore the organ-God, but we can not admit the vagaries of Ideality to supply the ism represents or typifies nothing higher than brute or vegeta-

It is note-worthy that likewise in mineral life, we perceive a discretion which demands a positive proof, in the display of his conatus in each crystal after completing its own personality—its unerring wisdom and undeviating justice in the regulation of the organs of attraction and repulsion-to conjoin itself to other

5. The science of manifestation is the knowledge of the whole non-entity and ideality of man's brain, supported by an old axiom subject of Individual Representation—the science of growths; that no effort is without a cause. Effects were and are in Eter- the observation of the modes in which an esse, individuality or

6. In this statement there is nothing of time, no history; the Romans did theirs. conatus is eternal; the utterance is from within outward; and the utterance or growth is ever inferior to the endeavor, ever imfect, what necessity for a further supervision? The work being perfect, and therefore forever advancing toward completion withfinished and completed, there appears to be nothing for a God out ever attaining it. Change of personality, according to to busy himself about, but to look on and be passive; and there- means, is the law of the case, but the endeavor is an eternal Now,

7. In asmuch as the totality of growths in all life-planes coincides in the utterance of a unitary good; and inasmuch as this There is a mystery about this subject as yet incomprehensible. unipresent good is perceived to be resident in each personality We do not dispute the possibility of its solution, for the pro- when its entire relations are contemplated; and, inasmuch as I them has also its particular set of men or priests, who are the

am not able to conceive of manifestation otherwise than as representative of an esse, Being, or Individuality, I gladly recognize a Divine Individuality. This recognition is the word of God or God manifesting in me.

8. Of the personality of God, I can only say, that I can not see even the lowest personality as to its primates, but only as to penetrate; and therefore I must be content to say on this topic, that there is a Divine Personality or organism which is not obin Divine manifestation.

The following paper was read by Dr. Weisse:

This question so unimportant, as to all practical purposes, both here and hereafter, has forever perplexed the human mind. If it had never been asked or answered, and if men had lived and did live according to that Zoroastrean innate and self-evident maxim, "Do unto others as you would wish them to do unto you," without regard to any rewarder, punisher, God or Devil, Heaven or Hell, they would find the Here and the Hereafter more harmonious and happy.

But as the question has been asked and answered, again and again, let us see how Theology and Philosophy answer it:

The Egyptian points me for his gods to man, animals and

The Persian is a fire or sun-worshiper; he recognizes two principles Oromazius, the Supreme Being, source of all Good, and Ariman, author of all evil. The Phoenicians, the Assyrians, the Tyrians and the Carthagenians set up their Baal, Bel or Belus, to whom human sacrifices are offered. The Jehovah of the Israelites speaks to their Prophet out of a bush and gives his commandments amid thunder and lightning. By his orders cities are reduced to ashes and razed to the ground-men butchered and their wives and daughters reserved for the conquerors.

The teachings of this Theology are "a tooth for a tooth, an eye for an eye." Its god says, "Vengeance is mine." "The sins of the fathers are visited upon the third and fourth generation," etc. The very ministers, messengers or angels, have a war among themselves; the vanquished are damned forever, and the victors rewarded forever. The first creature or child of this God is exposed to temptation-succumbs to it, and he and his children are cursed till they are redeemed by some hocus pocus about which there has been a great deal of dispute, but which no one has ever fathomed, and out of all this the grand dogma of the Atonement is wrung.

Among the Greeks and Romans, as Bossuet says, " Tout était Dieu excepté dieu luimeme," all was god except God himself,

Brahma, Siva and Vishnu, (Creator, Destroyer and Preserver,)

The ancient Gauls had their Trinity; Teutates, the active principle or soul of the world, whom they worshiped in the cak; Hesus, the god of combats; and Tanares, the god of heaven.

The Scandinavians, occupying Denmark, Sweden and Norway, show us Odin, the father of the gods. He resembles the Jupiter of the Greeks and Romans.

Most of the German tribes worshiped the Mercury, Mars and Hercules of the Greeks and Romans. One of them, the Suevi, adored the Isis of the Egyptians, and Eartha the Earth.

The Mohammedan is a Unitarian; he asserts one God, and Mahomet as his prophet.

Christianity has its Unitarians and its Trinitarians. It has even its polytheism; for the Romanists deify and demigodify their men and women saints, pretty much as the Greeks and

The American Indian points us to the Great Spirit, who has h unting grounds for him in a future state, perhaps in the Elysian Fields of the Romans.

The African bows before his fetisch whom he pacifies by sac-

Most of these theologies present us with some book containing the commandments and teachings as revealed by their particular god or gods; but these commandments and teachings are as different as the Gods to whom they are ascribed. Every one of commentators of their revelations,

mechanics are making short work of these pretended theocracies. As to Philosophy, she has forever presented us with four ideas on this all-absorbing question: Polytheism, Trinitarianism, Unitarianism and Pantheism, and these ideas have separately and jointly occupied our globe. Among modern philosphers, Spinosa is the great champion of Pantheism.

and Jesus Christ, were all identically one and the same, sums up his God into the grand Man. This is at least the idea I can get progress are the universal destiny of all things. from his works, and from those of his expounders and commentators.

as divine Man or Men.

I interrogate History, Poetry and Art, and they point me to Man as their god.

Jupiter, son of Saturn, was raised in the Isle of Crete, de- ing devils in our immortal career. throned his father, reigned in his stead, and was worshiped for represented as seated with the lightning in his hand and an eagle at his feet.

Odin is shown me as a warrior with two ravens on his shoulders, and Hesus with a battle-axe in hand.

Osiris, the supreme god of the ancient Egyptians, is represented sometimes enveloped in drapery, having over his head a celestial sphere, and sometimes as a Phrygian shepherd with a crook in

The Hindoos paint Brahma as a man with four arms and four heads. The Jehovah of the Jews is described sometimes as speaking and uttering words, sometimes with hands and arms. The Romanists represent the first person of their Trinity, the Heavenly Father, as an old man, and Providence as an eye with rays of light streaming from it. Christians represent Christ as the perfect model of a man, physically, intellectually and phrenologically, and in his full bloom and vigor. He was Deified by the Council of Nice 325 years after his sojourn on earth; and Ninth.

us take this universal belief as a basis, and let us consider it as fancy, obtain a knowledge of Him, which is too often afterward, an instinct of our race. But let us also take another instinct of an universal experience, namely, that mind, spirit, or soul and out. matter, of some kind, always coexisted-are inseparable, have changing and progressing torever.

True, we may as yet not understand how this change and progress has been, and is going on. We may even think it imposincomprehensible and impossible, that are now understood and proved possible. In our immortal career we shall comprehend tive want I find an additional evidence of the being of a God. and find possible things of which we never dreamed. What we senses.

have been made objective instead of subjective, and the divine | sleep, we might fail of a resurrection again to life.

acities of our race have been crushed by objective creeds; ut the day is dawning when Man begins to look within himself. There he discovers his godlike faculties, and he says to himself, "I can be a god; he she and it can or may be gods." Let this idea spread and expand, and as it spreads and expands, men will espect themselves and their fellows. They will see themselves in others, and by so doing they will truly love each other, and Wmen.

perfect and immutable Being somewhere in the universe. Now velation informs us that he made man in His own likeness, and pecuniary interest. Address,

special ministers of the god or gods, and the expounders and our reason can not assent to any such thing. Analogy does that we are his children; a fact generally admitted by all who not bear us out in it; science and daily experience tell us that believe in a God at all. In what form, then, should the Father The greater part of those Gods, theologies and priesthoods are changes have been, are, and will be going on forever. Geo- be? If we can see his child, we may know; for the law of like now obsolete, and figure in mythology, and the others are fast logy shows us change after change on our own globe. Astron- from like, we suppose to be universal. becoming so. Reason, and bold inquiry in science, art and omy and the telescope assure us of similar and even greater changes through the whole universe. Chemistry and the microscope point to analagous changes on a smaller scale. As to objective changes in the ideal world, I think I have given enough proof in referring to Theology, Philosophy, History, Poetry and Art, sustained by the account in Genesis. There would seem a philto authorize me to declare that there is no such thing as immutability either within or without us, and, consequently, no absolute Swedenborg, after having tried to prove that the Being that perfection. Science even hints to us that all those orbs, visible a form fitted to each plane of his creations. If I am right in spoke to Abraham, Jacob and to Moses, as well as Melchisedech and invisible, are or will be inhabited by organized beings lower this, and if, as I believe, Christ was that form through which or higher than ourselves, and positively asserts that change and God manifested Himself to a world fallen below its proper level,

I conclude from all this, that Man is, and will be, is not God now or here, he may become so at some time and Spiritualism, as yet in its infancy, foreshadows its god or gods somewhere; not only we here on this orb, but beings similar may suppose, lives, specially, in the ultimate, perfect plane of and dissimilar to us on other orbs have and may become being. The best illustration we can have of his omniscience and Gods. Let us not forget, however, that, while we have the omnipresence, is in the finite omniscience and omnipresence of capacity of becoming Gods, we have also the capacity of becom- the natural sun, by means of its illuminating and vitalizing

Love, justice, generosity and forbearance are the positive atcenturies as the father of the gods and the god of men. He is tributes of man here and hereafter; hatred, injustice, envy and exaction are his negative attributes. The former make him man, demigod or god; the latter fiend or devil.

> The following paper was then read by one present: Is THERE A GOD? I affirm that there is:

1. Intellectually. As I find in myself no memory or power progress. And in all this I detect uniformity and harmony. I thereof self-creation, or ability to make a world, I come to the conclusion at once that there must be a Man-Maker and World-Builder. This is simply going from effect to cause, and is the same thing as when, on seeing a ship, I say there is a shipbuilder. I conclude this from a logical necessity, because to conclude the opposite would stultefy my reason. And whether or not I can give any reply to the question as to "Who made God?" or form any conception whatever of an Uncreated Cause, it does not at all affect this affirmation. It is possible to go one step with the greatest certainty, when the next would land us in total darkness.

2. Consciously. I find this affirmed consciously within me, fifteen centuries after him, his mother also was Deified by Pius and can remember no time when it was not. I have known several instances where little children, on first beginning to talk, Now, if there is anything in Theology, Philosophy, History manifested both a deep knowledge and love of God. This, Poetry and in Art, however discordant they are as to the origin added to the fact that all nations and tribes, as though by inand attributes of their gods, they all agree as to this one idea, stinct, acknowledge a God, gives great additional weight to the that the majority of their gods were originally men. They lived deduction which would seem to follow as a necessity from the on this earth, moved and toiled in one way or another among fact of there being a God at all, viz. : that He is the Life of all men; died and were translated into Heaven. Nay, farther, the things, flowing constantly into them, and especially into man, more refined the nations were, the more that idea was felt. Let his finite image; and that in this way, all, even in merest inas man comes into his self-hood, obscured for a time, if not blotted

3. Affectionally. I find I came from darkness, out of the been, and must be so, and that they have been, are and will be, great unknown, am struggling and staggering in weakness through life, and if with glorious hopes, still with darkness and weakness in the future as in the past, over which I have no power. In this condition of affairs, my affections-every feeling sible; but let us remember that many things have been deemed of my nature—imperatively demand an omnipotent Father, to take me by the hand and lead me on my way. In this instinc-

What are His attributes? All the natural, unperverted asdeem now to be intangible will become tangible to the Spirit pirations of man, are indices pointing to the attributes of the Supreme. He is all of love and wisdom, of knowledge and Alas! man has been too much taught to look out of himself powers. Nothing less will satisfy the human mind to reach and beyond himself, for perfection. God, virtue and goodness after. If he were not infinite, he might stumble, and when we

What is the mode of His existence? If the consciousness of the world is evidence—and I think it is—He exists in the form of a man. It is no rebutter to say, that this is man's highest possible conception of the Divine-to liken Him to himself-and hence its universality. The things of consciousness are not susceptible of external proof, and it is easy to deny them all. Nor is it argument to stamp this general affirmation of consciousness as ecome more and more perfect as they advance and progress, until idolatry. There is a profound meaning in this common idea. they enter that glorious company of grand Men and grand But if any feel disposed to deny this form to the Deity, let them give us a better! Let them tell us what He is like! Man, We have been cradled too long in the idea of an immaterial, Spirits, angels as high as we can go, have this form. Past re-

As man, the child, then, is male and female, and as the same duality, or principle is discoverable throughout the animal, vegetable and mineral kingdoms, and in the intangible forces of the universe, I conclude that God is male and female. This is also osophical necessity, (and there are intimations of the fact in the old records) that the Deity should become incarnate—take on then we can see how it was that Christ had a pre-existence with Ccc: e the Father from the beginning, as the paradisical man, through whom the worlds and universes were out-wrought. God, we sphere, throughout our solar system.

ON THE QUESTION OF THE FACT AND THE MODE OF THE DIVINE EXISTENCE. FACTS .- A seed is planted; it attracts moisture, swells, bursts and discloses the germ. The sun shines, the rains fall, and the tiny shoot becomes a mighty tree. On every hand I see motion, reproduction and fore conclude that motion, reproduction and progress, being uniform and harmonious, must be the sensuous manifestations of unchangeable laws. As effects (themselves, snb-causes) presuppose causes, to the existence of a law-maker, as the sensuous manifestation of those laws is invariable, (planetary motion, for example,) I am assured that these laws, or their effects, are the evidences of creative power to man. I eall that power "God;" and in tracing from the visible and tangible, upward, through the chain of sub-causes, I arrive at a cause, in trying to comprehend which, I embark upon an infinite sea only to be drifted upon the shore from which I ventured.

ATTRIBUTES .-- I behold the seal of Love and Wisdom upon Creation's forehead.

Mode of Existence. Here I rest.

SPIRITUALISM IN DUMMERSTON, VT. DUMMERSTON, VT., December 25, 1856.

M. H. C.

MESSRS. PARTRIDGE AND BRITTAN:

Sirs-Spiritualism commenced in this town some ten months ago, in the family of Joseph Temple, and has been steadily progressing ever since, notwithstanding the jeers and sarcasm of skeptics. A grandson of his becoming a clairvoyant medium about this time, communications were received through him, soon after which others in the family were developed as mediums. One of these, in particular, was a regular test medium, likewise a clairvoyant and seeing medium, through whom many interesting communications have been received. She sees and converses with Spirits, and can tell what Spirits are present, etc. Another of the family is also a clairvoyant, seeing and healing medium, being controlled principally by physicians. A granddaughter has been developed as a speaking medium, and has given lectures in the circle once a week during most of the season, and has given public lectures with great acceptance, to large audiences, in Dover, her native place. She is frequently influenced to give eloquent lectures in the Indian language, and then occasionally influenced to give a synopsis in plain or broken English, and sometimes leads off in the Indian dance. She is frequently influenced by General Washington, General Wayne, John Murray, Dr. Brown and many others. Her father was bitterly opposed to Spiritualism, although he had three children developed as mediums To use his own words, "I fought it as long as I could;" yet he finally became convinced by its reasonable teachings, and is now much en gaged in the cause. Yours for Truth,

MY INTEREST IN THE TELEGRAPH AND PUBLISHING BUSINESS.

In consequence of the illness and final withdrawal of my partner in another business, in which I have for many years been engaged, my whole attention to the same is required, which involves the necessity of my parting with the Publishing Business. Mr. Brittan will retain his interest, unless his own and that of the Cause can be better subserved under other arrangements. There are several intellectually able Spiritualists who would like to associate themselves with earnest truth-loving capitalists in the spiritual publishing business. The cause to which our publications are devoted is permanently established, and is likely to pervade and absorb all denominations of Christians, exert a moral and reformatory power among the nations, and inaugurate the millennial era; hence it requires the undivided attention of bold, discreet, truth-loving men, of whom there are many in the spiritual fold, desirous, I believe, of contributing their pecuniary means, skill and judgment to the elevation of mankind, into whose hands I wish-for the reason before mentioned, and the good of the cause-to resign my CHARLES PARTRIDGE.

Interesting Miscellany. TO MY FAR OFF FRIEND.

THE following beautiful poem expresses so much tenderness of feeling and parity of sentiment that we are constrained to give it a place in the TELEGRAPH. It came from some gentle Spirit, in whose silent depths Love is wedded to a lonely sorrow, and Heaven .- ED.

My soul thy sacred image keeps, My midnight dreams are all of thee : For nature then in quiet sleeps, And silence broods o'er land and sea ; O, in that still, mysterious hour, How oft from waking dreams I start, To find thee but a fancy flower, Thou cherished idol of my heart, Thou hast each thought and dream of mine-Have I in turn one thought of thine? Forever thine my dreams will be, Whate'er may be my fortunes here, I ask not love-I claim from thee One only boon, a gentle tear ; May blessed vision from above Play brightly round thy happy heart," And may the beams of peace and love Ne'er from the glowing soul depart ;] Farewell! my dreams are still of thee-Hast thou one tender thought of me? My joys like summer birds may fly, My hopes like summer blooms depart, But there's one flower that cannot die; Thy holy memory in my heart ;" No dews that flower's cups may fill, No sunlight to its leaves be given, But it will live and flourish still, As deathless as a thing of heaven, My soul meets thine, unmasked, unsought-Hast thou for me one gentle thought? Farewell! Farewell! my far-off friend! Between us broad, blue rivers flow, And forests wave and plains extend, And mountains in the sunlight glow ! The wind that breathes upon thy brow Is not the one that breathes on mine, The starbeams shining on thee now Are not the beams that on me shine, But memory's spell is with me yet-Canst thou the holy past forget? The bitter tears that thou and I May shed where'er by anguish bowed, Exhaled into the noontide sky, May meet and mingle in the cloud; And thus, my much-loved friend, though we Far, far apart must live and move, Our souls, when God shall set them free, Can mingle in a world of love. This were an eestacy to me-Say-would it be a joy to thee?

CURIOUS DYING SCENES .- According to Fielding, Jonathan Wild picked the pocket of the ordinary while he was exhorting him in the cart, and went out of the world with the parson's cork-screw and thumb-bottle in his hand. Petronious, who was master of the ceremonies and inventor of the pleasures at the court of Nero, when he saw that elegant indulgence was giving place to coarse debauchery, perceived at once that his term of favor had arrived, and it was time to die. He resolved, therefore, to anticipate the tyrant, and disrobe death of his paraphernalia of terror. Accordingly, he entered a warm bath, and opened his veins, composed verses, jested with his familiar assophilosopher, disliking the inconveniences and infirmities of a protracted old age, made up his mind to die on a certain day : to oblige his sister, he postponed his departure until three feasts of Ceres were over. He supported Nature on a pot of honey to the appointed hour, and then expired by arrangement.

James Garden, a celebrated Italian physician, starved himself gradnally, and calculated with such mathematical nicety, as to hit the very day and hour foretold. When Rabelais was dying, the Cardinal sent a page to inquire how he was. Rabelais joked with the envoy until he found his strength declining, and his last moments approaching. He then said, "Tell his eminence the state in which you left me. I am going to inquire into a great possibility. He is in a snug nest; let him stay there as long as he can. Draw the curtain ; the farce is over." When the famous Count de Grammont was reported to be dying, the King, Louis XIV., being told of his total want of religious feeling, which shocked him not a little, sent the Marquis de Dangeau to beg of him, for the credit of the Court, to die like a good Christian. He was scarcely able to speak, but turning round to his Countess, who had always been remarkable for her piety, he said, with a smile, "Countess, take care, or Dangeau will filch from you the credit of my conDR. LIVINGSTONE'S DISCOVERIES.

the globe, last in civilization-for in the geography of humanadvance- fell to his share, on the death of his associate, Mr. Tate. According to ment, as well as in physical geography, Egypt has always been a part | the usage of such matters, it was expected that he would turn the emolof Asia-fortified against foreigners by its compact form, its fatal fevers the fabulous savagery of its inhabitants, and more than all, the uncertain terror which is everywhere projected like a shadow from the unknown, has within a few years past, lost a great part of its Knowboth are sanctified by religious aspirations and the hopes of Nothing character. The sources of the Nile have been almost reached. The countries to the south of Sakara have been crossed and recrossed by white men. Steam has vexed a thousand miles of the waters of the Niger, and Temunes have been sent, to within three or four hundred miles of the geographical center of the country. North of the Cape of Good Hope Lake Ngami has recently added something to our knowledge, and its discoverer, Dr. Livingstone, is now astonishing the lovers of heroic perseverance and perfect maps, by his details of a walk of 2,000 miles from St. Paul de Loando on the Atlantic, to Quillimane on the Indian Ocean.

> Dr. Livingstone is nearly forty years old. His face is furrowed by hardships and thirty fevers, and black with exposure to a burning sun. His left arm is crushed and nearly helpless from the too cordial embrace of an African lion, and sixteen years among savages have given him an African accent and great hesitancy in speaking English. - Passing through all privations with the heart of a true hero, not as sacrifices, but as victories, he reached St. Paul de Loando, in May, 1854, after a foot-journey of a thousand miles from his mission among the Bechuanas. He remained at St. Loando until the close of the year, when he set out for the unknown East. In March he arrived at Quillimane, where he was taken up by a British man of war. On the way he traced the Leeambye down to the Zambeze, thus demonstrating the existence in the center of this unknown land of a river some two thousand miles long.

> This immense stream, whose discovery is the great fruit of the journey, is in itself an enigma without parallel. But a small portion of its waters reach the sea coast. Like the Abyssinian Nile, it falls through a basaltic cleft, near the middle of its course, which reduces its breadth from 1,000 to 20 yards. Above these falls it spreads out periodically into a great sea, filling hundreds of lateral channels; below it is a tranquil stream of a totally different character. Its mouths seem to be closing. The southernmost was navigable when the Portuguese first arrived in the country, three hundred years ago, but it has long since ceased to be practicable. The Quillimane mouth has of late years been impassable, even for a canoe, from July to February, and for 200 or 300 miles up the river navigation is never attempted in the dry season. And in this very month of July, when the lower portion of the river, after its April freshets, has shrunk to a mere driblet, above the falls the river spreads out like a sea over hundreds of square miles. This, with frequent cataracts, and the hostility of the natives, would seem to be an effectual bar to the high hopes of fat trade and fillibustering in which English merchants and journals are now indulging.

During this unprecedented march, alone and among savages, to whom a white face was a miracle, Dr. Livingstone was compelled to strugle through indescribable hardships. The hostility of the natives he conquered by his intimate knowledge of their character and the Bechuana tongue to which theirs is related. He waded rivers and slept in the propagate the opinion that the practice is in accordance with the Word sponge and ooze of marshes, being often so drenched as to be compelled to turn his armpit into a watch pocket. His cattle were destroyed by the terrible tse-tse-fly, and he was too poor to purchase a canoe. Lions were numerous, being worshiped by many of the tribes as the receptacles of the departed souls of their chiefs; dangerous, too, as his crushed arm testifies. However, he thinks the fear of African wild beasts greater in England than in Africa. Many of his decouments were lost while crossing a river in which he came near losing his life also, but he has memoranda of the latitudes and longitudes of a multitude of cities, towns, rivers and mountains, which will go far to fill up the "unknown region" in our atlases.

Toward the interior he found the country more fertile and more populous. The natives worshiped idols, believed in transmigrated existence after death, and performed religious ceremonies in groves and woods. They were less ferocious and suspicious than the sea-board tribes, had a tradition of the deluge and more settled Governments. Some of them practiced inoculation, and used quinine, and all were eager for trade, clates, and died off by insensible degrees. Democritus, the laughing being entirely dependent on English calico for clothing, a small piece of which would purchase a slave. Their language was sweet and expressive. Although their women, on the whole, were not well treated, a man having as many wives as he choose, they were complete mistresses of their own houses and gardens which the husband dared not enter in his wife's absence. They were fond of show and glitter, and as much as \$150 had been given for an English rifle. On the arid platena of the interior water-melons supplied the place of water for some months of the year, as they do on the Plains of Hungary in summer. A Quaker tribe on the river Zanga, never fight, never have consumption, scrofula, hydrophobia, cholera, small-pox or measles. These advantages, however, are counterbalanced by the necessity of assiduous devotion to trade and raising children to make good their loss from the frequent inroads of their fighting neighbors.

Dr. Livingstone's discoveries, in their character and their commercial value, have been declared by Sir Roderic Murchison to be superior to any since the discovery of the Cape of Good Hope by Vasco de Gama. But greater than any commercial value is the lesson which they teach—that all obstacles yield to a resolute man.

A BASHFUL printer refused a situation in a printing-office where females were employed, sayinghe never "set up" with a girl in his life.

SYDNEY SMITH'S GENEROSITY .- A perquisite of the Chapter of St. THE secret of Africa has ceased to be. That mysterious quarter of Paul's, the living of Edmonton, worth seven hundred pounds a year ument to his own advantge. He generally conferred the whole on the son of the late incumbent. The incident is so characteristically narrated by him, in a letter addressed to his wife, that it would be injustice to the reader not to present the scene in his own words: "I went over yesterday, to the Tates, at Edmonton. The family consists of three delicate daughters, an aunt, the old lady, and her son, then curate of Edmonton. The old lady was in bed. I found there a physician, an old friend of Tate's, attending them from friendship, who had come from London for that purpose. They were in daily expectation of being turned out of house and curacy. I began by inquiring the character of their servant; then turned the conversation upon their own affairs, and expressed a hope the Chapter might ultimately do something for them. I then said, 'It is my duty to state to you (they were all assembled) that I have given away the living of Edmonton, and have written to our Chapter clerk this morning, to mention the person to whom I have given it; and I must also tell you, that I am sure he will appoint his curate. (A general silence and dejection.) It is a very sad coincidence,' I added, 'that the gentleman I have selected is a namesake of this family; his name is Tate. Have you any relations of that name?' 'No, we have not.' 'And by a more singular coincidence, his name is Thomas Tate; in short,' I added, 'there is no use in mineing the matter-you are vicar of Edmonton.' They all burst into tears. It flung me also into a great agitation of tears, and I wept and groaned for a long time. Then I rose, and said I thought it was very likely to end in their keeping a buggy, at which we all laughed as violently."

THE ECHO.—Hear the story of the child which went forth into the mountain ravine. Whilst the child wandered there, he called aloud to break the loneliness, and heard a voice which called to him in the same tone. He called again, and, as he thought, the voice again mocked him. Flushed with anger, he rushed to find the boy who insulted him, but could find none. He then called out to him in anger, and with all abusive epithets-all of which was faithfully returned to him. Choking with rage, the child ran to his mother and complained that a boy in the woods had abused and insulted him with many vile words. But the mother took her child by the hand and said : "My child, these names were but the echoes of thine own voice. Whatever thou didst call was returned to thee from the hillside. Hadst thou called out pleasant words, pleasant words had returned to thee. Let this be thy lesson through life. The world will be the echo of thine own spirit. Treat thy fellows with unkindness, and they will answer with unkindnesswith love, and thou shalt have love. Send forth sunshine from thy spirit, and thou shalt never have a clouded day; carry about a vindictive spirit, and even in the flowers shall lurk curses. Thou shalt receive ever what thou givest, and that alone." Always, said the speaker, is that child in the mountain passes-and every man and every woman is that child.

WIFE BEATING ACCORDING TO SCRIPTURES .- A very large number of wife beating cases have recently been brought before the magistrates at Whitehaven, where there exists a sect of professing Christians, who of God. The Rev. George Bird, formerly rector of Cumberworth, near Huddersfield, has established himself there, and drawn together a congregation; and within the last few weeks it has transpired that he holds the doctrine that it is perfectly Scriptural for a man to beat his wife. About five weeks ago, James Scott, a member of Mr. Bird's congregation, was summoned by his wife for brutally beating her, because she refused to attend the same place of worship that he did. When before the magistrates, Mrs. Scott said she had no wish her husband should be punished, if he would promise not to ill use her again. When asked by the magistrates whether he would make the requisite promise, he refused, saying, "Am I to obey the laws of God or the laws of man?" As he would not give the promise, the magistrate committed him to prison for a month, with hard labor. The Rev. Mr. Bird has since delivered a course of lectures on the subject of Scott's con: viction. THe contends that it is a man's duty to rule his own household; and if his wife refuses to obey his orders, he is justified according to the laws of God, in beating her in order to enforce obedience.

DESOLATION OF PALESTINE. - In Palestine you are nearly as much in the wilderness as when in Arabia; for as to inhabitants, they are precisely the things which do not exist, for all you can tell, except in the towns and villages you pass through. You ride day after day, and you 'rise over each hill, and you sink into each valley, and except an occasional solitary traveler with his servant, and his muleteer, or a Turkish official with his party, rarely does a moving object appear upon the landscape. No cattle are on the land, and no passengers are on the highways. How lonely it is! and this loneliness strikes you more like that of the desert, for it seems unnatural, because here there should be life, and there is none. Sometimes you may make out at a distance on the hillside, a single figure, a man upon a donkey. It is the only moving thing your eye can detect all around. And so you go on through this desolate land. From Jerusalem to Beyrout you can scarcely light upon one single scene of rural industry-not one single scene of life that can be compared with those on the Arab pastures from the top of Jabel el Sufar to the wells of el Milleh. There, in places, the country was full of people and children, and flocks and herds-a rejoicing picture of pastoral existence in all its abounding wealth; while here in the country of tillage, and towns, and villages, the whole land seemed to lie under a spell.

TIFFANY'S MONTHLY.

THE Subscriber's Monthly is devoted to the investigation of the Philosophy of Mind in its being, action and manifestation in every plane of development, including the Philosophy of Spiritual Manifestations.

He will demonstrate the principles by which all the phenomena connected with Spiritualism can be understood, and by which all the apparent antagonisms may be

He will trace the DIVINE METHOD in all things natural and spiritual, showing the true relation of the FINITE to the INFINITE; and will investigate the laws of Divine manifestation in the light of axiomatic truths.

He will demonstrate the existence of a religious nature in man, point out its needs and the Divine method of supplying them.

He will give the Philosophy of Christianity in its adaptedness to the redemption and salvation of man.

He will teach the method of truly translating the ACTUAL and REAL into the PER-CEPTIVE and IDEAL, by means of which the mind is truly unfolded in LOVE and WIS-DOM, thereby begetting in man true action in respect to himself, his NEIGHBOR and his GoD.

To be published at the office of the Spiritual Telegraph, New York. Each Number contain ninety-six octavo pages, Small Pica type. This work commenced on the 1st of March, 1856. MRS. METTLER also gives Psychometrical delineations of character, by having a letter from the person whose character she is required to disclose. Terms \$2,

The wonderful success which has uniformly attended the treatment of disease prescribed by the best medical Clairvoyants, is a sufficient guaranty that the claims of this hitherto unknown agent are indeed founded in truth. In more than half of the towns and villages of New England are to be found the monuments of its mysterious skill; while thousands of men and women in the Middle and Western States, can testify to-day that their lives have been saved, or their health has been restored, through the agency of medical Clairvoyance.

DR. J. R. METTLER, Hartford, Conn. 202-tf

"HOPE ON! HOPE EVER!"

Goo gave us hope to soothe our dying hours, and to palliate our heaviest miseries. Were it not for Hope, the existence of nine-tenths of mankind would be a burthen almost unbearable. To those who inspire hope in the suffering and desponding, even if it be based upon fallacy, we owe many thanks, for there is but one visitor more cheerful than hope that can make its appearance at the bedside of the dying. That visitor is Dr. James's Extract of Cannabis Indica. The old doctor has been retired from practice for many years, but the infallibility of his marvelous remedy for Consumption, Bronchitis, Nervous Debility, Cough, severe Cold, Asthma, ect., has compelled a demand for it which he can only supply by sending instructions everywhere how to make and successfully use it, and also by selling the medicine ready made to all who do not desire to prepare it themselves. The old Doctor's address is No. 19 Grand-street, Jersey City, N. J. Send him a shilling to cover his expenses, and he will return you the receipt by post. If you are afflicted with any of the terrible ailments above mentioned, get the "Extract of Cannabis Indica." To our best knowledge and belief, based upon what we have heard, and thousands of testimonials, which we have seen, from all parts of the world, it is the only medicine extant that ever did speedily, safely, and permanently cure consumption and kindred diseases. It is an East India preparation, the efficency and method of making which the doctor discovered while searching for the means of preserving the life of his only child, a daughter, from death in consequence of tubercled lungs. Take this medicine, (it is genuine thing) and live!

MRS. F. T. HAYES.

CLAIRVOYANT AND HEALING PHYSICIAN. No. 176 Grand-street, New York. Every person's disease is correctly told, and prescribed for, with unparalleled success.

Mrs. HAYES has lately experienced superior healing and clairvoyant powers. She is daily curing diseases that have baffled the skill of the learned. Thousands have been saved from the grave by this great Clairvoyant and Healing Physician. Astonishing cures made daily. Call and see for yourselves.

TERMS,-For examination, including prescription, one dollar, when the patient is

Sick persons in the country, by sending a lock of their hair and the fee of five dollars, can have their examination and prescription carefully written out, and sent to them by mail. The terms are strictly in advance. In order to insure prompt attention, some of the leading symptoms of the case must be stated when sending the hair. Address MRS. HAYES, Clairvoyant, 176 Grand-street, New York. 246-tf

Spiritualists' Directory.

PUBLIC LECTURERS.

Mess Exxa Frances Jav is a Trance Speaking Medium and vocalist of extraordinary powers, whose public efforts are everywhere received with mingled emotions of surprise and delight. The Editor of the Baltimore Republican, who has no faith in Spiritgallism, in a recent notice of Miss Jay's lectures in that city, says :- Miss Jay seems to have either been in the hands of a Spirit who was perfect master of elecution, or else she has had excellent lastructions in the art. Her gesticulation was graceful, frequent, and perfectly expressive of the idea conveyed. The language used was the most chaste and pure style, and seldern, if ever, excelled in the deak.

S. E. Barrray will devote a portion of his time to giving Lectures on the facts and Philosophy of Spiritualism; the Laws of Vital Motion and Organic Development; the relations of Sensation and Thought to the Bodily Functions; the Philosophy of Health and Disease; also, lectures on various Moral, Progressive, and Philosophico-Theological and Practical Subjects. Address Mr. Brittan, at this office.

Ray, T. L. Hanges, wilely known in this country and Europe as an inspired thinker, post and orator, is one of the most brilliant and powerful lecturers on the Spiritual Philosophy and cognate subjects. Mr. H. is now in this city, and may be addressed care of this office.

William Finemotics, one of the first writers and speakers who took a public stand ta favor of Spiritualism, who has been a close observer of its facts and phenomena, and a different student of its philosophy, is prepared to lecture on such branches of that and kindred themes as may be deemed useful and edifying to his andiences. Address, gare of Partridge and Brittan, at this Office.

Mess C. M. Bassa, Medium, whose lectures lately delivered in New York, Troy, The Lily Wreath Philadelphia, Baltimore and elsewhere, have been so highly appreciated for the chasteness and elegance of their diction, and the refining and elevating character of their subject matter, may be addressed by those who desire her services as a lecturer, care of Partsings & Brittan, this office,

MR & MRS. U. CLARK, the Spiritual Lecturers, will respond to calls together, or Mr. Clark alone, to officiate at marriages and funerals, or as lecturer and healing medium. Residence, Auburn, N. Y.

CHARLES PARTERINGS, an early advocate and supporter of Spiritualism, and a diligent collector of the facts of the new unfolding, is prepared to give the results of his investigations to audiences which may requre his services. Address, this Office.

Dr. J. W. Ourox, who has several well-prepared lectures in illustration and defense of Spiritualism, will deliver them to such audiences as may apply for his services. Address, care of Parterpor & Brittan, this office.

Miss A. W. Spradyr lectures under spiritual influence. Her abilities are spoken of in terms of high estimation by those who have been accustomed to hear her. Address Plymouth, Vt.

HENRY H. TATOR, a gentleman who has for some years devoted his time and mental energies almost exclusively to literary pursuits, has commenced lecturing in Wastration and defense of the facts and principles of the Spiritnal Philosophy and Life. Mr. T. is a man of culture, refined in his feelings, gifted with a poetic imagination, a remarkably fine voice, and whatever other natural endowments are most cases isl to personal success and public usefulness. Mr. Tator has our right hand of fellowship, and may be addressed at this office.

Mas. B. F. Haron (formerly Cora L. V. Scott), is a Trance-Speaking Medium whose poetic and philosophical discourses have attracted large audiences and given high satisfaction. Address Dr. B. F. Hatch, 49 Bleecker-streest, New York.

A. E. Nawrox, Editor of the New England Spiritualist, will respond to the calls of those who may desire his services as a lecturer on the Facts and Philosophy of Spiritualism. Address No. 15 Franklin-street, Boston, Mass.

Dr. R. T. Hashook, known and appreciated as a clear and fluent speaker, will lecture on various subjects connected with Spiritualism. Address, corner of Christie and Broome-streets, New York.

Mrs. Back, through whom Spirits speak with facility, will answer the calls of those who may desire her to lecture to them, within any convenient distance from this city. Address 383 Eighth Avenue, N. Y.

R. P. AMBLEZ, one of the most eloquent and popular speakers, lectures, under Spir-Stual Influence, on the Principles of Modern Spiritualism in all its Relations. He will saswer calls for lectures on Sunday, and also for lectures during the week, in the vicinity of Philadelphia, New York, and Boston. Address, Baltimore, Maryland.

Mgs. M. S. Ngwrox delivers lectures on themes connected with Spiritualism while

in the trance state. (What is her P. O. address!) Mas. C. M. Turras, of Albion, Mich., a popular trance-speaking medium of three years' successful experience, will accept invitations to speak in places West-in Michigan, Indiana, Illinois and Ohio, and short distances East. Address, Albion, Mich.

AUSTIN E. SERMONS lectures in the trance state as he is impressed by the controlling spiritual influences. Address Woodstock, Vt. 8. C. Hzwirr, formerly Editor of the New Era, lectures on Spiritualism, as a science, as clearly proved as chemistry or any of the natural sciences; also, on its

philosophy and its uses. He may be addressed at 15 Franklin-street, Boston, Mass. R. P. Wilson, long known as a successful lecturer on Spiritualism in the northern part of Ohio, will receive invitations to lecture in accessible places. He may be ad-Gressed, River Styx, Ohio.

Exv. Ginson Sairm will lecture on Human Magnetism, Clairvoyance, the Facts and Laws of Spiritualism, and all similar subjects wherever he may be called. Postoffice address South Shaftsbury, VI
