This apparatus introduces a new principle in bathing, whereby the promotion and maintenance of a normal action of the skin is secured, and in the requisite cutaneous secretion, the evidence of robust health is furnished by a clear fresh complexion.

This system constitutes a perfect self purifying bath, all spent heat and noxious gases from the pores being promptly removed, and replaced by fresh heat; carrying its full quota of oxygen. The body subjected to a dry steam or vapor is made to perspire copiously, thus causing the opening and cleansing of the multitude of pores on the surface of the skin. The head being outside and separated from the super-heated air (Hydrogen) all danger of inhaling deleterious gases is obviated, inasmuch as while the body in the bath in being supplied with Hydrogen. The lungs receive their full supply of Oxygen, thus avoiding taking cold.

A FEW ADDITIONAL POINTS.

For *Training (Physical Culture)* it has no equal.

For *Bicycle Riders*, after a long ride in the heat and dust what can be more beneficial?

For *stout* people it will cure *obesity* without weakening.

A good *skin* is a thing of beauty and joy forever, you can have it, incidentally with good health.

The Dr. C. O. Sahler Sanitarium,
(Incorporated)
KINGSTON, - NEW YORK.

This is the first sanitarium established in the United States for the treatment of disease by suggestion. The doctor is one of the pioneers of psychological treatment in this country and has met with such success that recently he has enlarged his sanitarium to double the original capacity to accommodate the increased demand for those who wish to come under his personal treatment from all parts of the United States and Canada. The following ailments are now and have been successfully treated: Nervous diseases and mental delusions, all kinds of headaches, pains and rheumatic affections, hay fever, asthma, hatred, paresis, epilepsy, hysteria, melancholia, monomania, irritableness, insomnia, somnambulism, St. Vitus dance, loss of voice, deafness, Writers' cramp, self-consciousness, bashfulness, urinary and female diseases, constipation and rectal diseases. Besides these special attention is given to functional sexual disorders, alcoholic, morphine and cocaine habits. The doctor, now, for the first time, can assure the public that he has a special method which will positively cure

any case of alcoholism, morphia and cocaine habits. In connection with the sanitarium there is a school devoted to the instruction of psychology.

DERMAPURINE.

DERMAPURINE is a most valuable combination of disinfectants and gland stimulants for external application.

DERMAPURINE has been employed with great satisfaction in all forms of pruritus. In pruritus, ani and vulvæ, it has proven to be a most efficient remedy. In eczema (especially when there is itching,) it has given most satisfactory results. Dermapurine being a strong germicide, it is indicated in all parasitic infections of the skin, as in scabies of the animal and tinea tonsurans, pityriasis versicolor and tinea favosa, etc., of the vegetable parasites.

DERMAPURINE has been prescribed very extensively to remove pigmentary deposits, such as lentigo or freckles, chloasma, moth or liver spots, and has brought about most happy results.

In disorders of the excretions or excretory functions of the skin, such as seborrhea or dandruff, comedo or blackheads, hydrosis or excessive sweating (excessive sweating of the hands and feet, for instance) and seborrhea oleosa or greasy coating of the skin and scalp, it has proven to be a most active agent.

A number of cases have been reported in which Dermapurine has completely wiped out large crops of small warty growths in a very short time. We have reference to small growths that germinate out of the skin in large numbers, and are usually met with on the forehead and hands of children.

Physicians who have employed it to prevent syphilitic eruptions speak very highly of it, stating that it not only prevents further eruption to take place, but it also stimulates the glands and keeps up nutrition of the skin and keeps out syphilitic poison, so that ulceration will not occur.

ABLEST CURE OF THE **TIMES.**

Formula and Instructions How to Make and use it for \$2.00. Money refunded if not Satisfied With Use.

Vril Cordial a pleasant, safe, elegant cell irritant that quickly fills the blood with giant cells. A remedy that by its peculiar roughness passing through the alimentary canal, toughens and thickens its lining like rough work as chopping wood toughens the palm of the hand. The cells of this lining membrane are made giant cells by the peculiar friction and this cell vigor extends throughout the body. If the stomach or alimentary canal is weak, cold or flabby, its cells are weak, the vitality is low, the entire system cold, prostrated, a condition present in all low diseases. This peculiar roughness excites, arouses, exhilarates, quickly strengthens, warms up every organ, and mind and body, producing prodigious vital force, strength, working power, physiological action, circulation, nutrition and enormous digestion. In a few hours often removes the black dry coating from the tongue of half unconscious cases and puts them on their feet in a few days. For 12 years I conducted a sanitarium with it, treating thousands with astonishing cures unequalled by science. In a few days it puts great vital force strength into very low, weak, wasted, given up patients. Invalids usually gain 3 to 5 pounds a week and often get out of bed in 3 to 7 days. It has cured hundreds of bed fast consumptives in 2 to 3 months. Cures many cancers, abscesses, frightful ulcers, with incredible speed. It loosens and cures worst coughs quick while it doubles digestion and strength. Imparts courage, confidence, exhilarates body and mind, gives strong voice, clear skin, working power, prodigious strength to the heart, slows the pulse, cures wonderfully quick, heart, liver, stomach, nerves and women cases, prostration; gives such vigor to weak female-organs heart, nerves in feeble women that in a few days severe cases are almost well. Most women and children are made fat, strong and well in 2 to 6 weeks. It works wonders daily; patients delighted. It vastly increases the animal powers, sexual desire and vigor; its use unknown to physicians. Made at home, cost 10 cents a pound. Above sworn to by proprietor.

SPECIAL MAIL COURSE IN Hypnotism and Suggestive Therapeutics

By HERBERT A. PARKYN, M. D.

The most complete practical and comprehensible Mail Course of any sort to-day. It is the result of observation from the personal treatment of over 5,000 cases. These cases have been treated since most of the text books were published.

No text books are required with this course. It is complete in itself. This is not a typewritten course of twenty or thirty pages. It covers nearly 400 pages of printed matter and the thirty-eight parts are neatly bound in cloth and gold.

HERBERT A. PARKYN, M. D.

FRIENDS AND FOUNDER OF

THE CHICAGO SCHOOL OF PSYCHOLOGY,

The first School of Suggestive Therapeutics established in America.

This Special Mail Course has been published in order to satisfy the demands of many who are unable to attend the time or money required to complete a regular school course in Suggestive Therapeutics and Hypnotism. Over One Year was spent in preparing it for the publisher; and the flattering testimonials which are pouring in from all sides from those who have received it show that the time was well spent.

This work is different in theory and practice from anything taught elsewhere or published in books.

Everything is made so clear that a child could apply its teachings.

It tells what to do and how to do it; what to say and how to say it.

The course is printed on fine, hand-made paper, and consists of thirty-eight parts neatly bound in cloth and gilt, all of which are shipped at one time upon receipt of \$10.00.

WHAT THEY ARE SAYING!

Norman, Okla., Jan. 13, 1899.

Dear Doctor: I received your mail course some time back, and to say I am perfectly delighted with it would be putting it too mildly.

I am surprised to know what a great help it will be to me. I have already used suggestion to much advantage.

THOS. W. EWING.

Crestville, Ill., Jan. 19, 1900.

Dear Sir: Your mail course in suggestion received and read with interest. While I have been a close student of suggestion for the past twelve or fifteen years, having followed carefully the theories of Bernheim, Mill, Hulson and others, still any that I have ever found so much practical information in any book or professional course as I have received by reading your thirty lessons.

J. R. TOWNSEY.

Detroit, Mich., Jan. 16, 1900.

Dear Sir: I pride myself on having read about anything extant on hypnosis, mesmerism and kindred subjects. I have also made a point of studying the courses of lessons sent out by "Professors" of hypnosis at prices ranging from \$5 to \$250, but for practical utility I have found nothing which in any way compares with your special mail course in suggestion. All of the "Professors" give little or nothing in their courses which is of any value to the practice of Suggestive Therapeutics.

In your course, I notice you have carefully avoided connecting occultism or mysticism with suggestion. Your object seems to have been to teach a practical lesson on every page and there can be no question

but that your purpose has been eminently accomplished. No person who takes an interest in Suggestive Therapeutics can possibly be up to date who has not digested your special mail course in suggestion. Yours sincerely,

J. LAWSON HALL.

Goldthwaite, Texas, Jan. 12, 1899.

Dear Doctor: I have patiently studied your mail course together with other mail courses in magnetism and hypnosis published by the several "Professors," and have read carefully the following books: Hudson's Law of Psychic Phenomena, Tuckey's Suggestive Therapeutics, Bernheim's Works on Christian Science, etc., but will say right here that I consider your mail course is the most complete of any that I know of.

I consider after careful perusal of most of the leading courses that the principles laid down in your special mail course are superior to any others.

E. M. WILSON, D. D. S.

Tombon, Jan. 15, 1900.

Dear Doctor: I most heartily and voluntarily commend your mail course on suggestion as the only rational and practical method of suggestion and the only one which should be practiced by reputable physicians—or in fact anyone—who wishes to retain his self-respect and increase his usefulness. I speak from observation and experience, having been a student and practitioner of hypnosis for some time and having several mail courses in my possession, as well as the works of the leading operators along that line.

I congratulate you heartily, Doctor, on your excellent production. FRED W. SUTHERLAND, M. D., Room 17, 4020 Drexel Boul., Chicago, Ill.

Chicago School of Psychology

INCORPORATED

The First School of Suggestive Therapeutics Founded in America.

Established June, 1896

HERBERT A. PARKYN M. D., Medical Supt.

Students in attendance at the Chicago School of Psychology.

THE CHICAGO SCHOOL OF PSYCHOLOGY was established June 15, 1896, for the purpose of teaching Hypnotism, Suggestive Therapeutics and the treatment of disease by natural methods. Our course is very complete and by a new system of diagnosis and the practice of medicine is greatly simplified, so that our graduates are at once prepared to treat successfully **FUNCTIONAL DISORDERS**, such as Chronic Constipation, Dyspepsia, Diarrhea, Irregularities of Menstruation, Loss of Memory, Inability to Concentrate the Attention, etc.; **NERVOUS DISEASES**, including Locomotor Ataxia, Neuralgia, Nervous Prostration, St. Vitus' Dance, Epilepsy, Stammering and Asthma. **MENTAL TROUBLES**, such as Melancholia, Mania, Idiosyncrasies, Illusions, Delusions, Hallucinations, Stage Fright, Self-Consciousness, etc. **HABITS**, Liquor, Morphine, Cocaine, Tobacco, Muscular and Vicious; also Headaches, Rheumatism and Insomnia.

THE CLINIC. Nowhere in America has the student of Suggestive Therapeutics such clinical advantages as we offer here. We have no "horses" which are brought out for each class to practice on, but a clinic averaging twenty patients each day and conducted like that of a well regulated medical college. Our students are instructed in our special methods for taking the history of cases and arriving at a diagnosis, and are permitted to treat patients at the clinics.

Since this school was opened we have graduated nearly 250 students and over 4,000 patients have been treated by Suggestion alone. We are here to demonstrate the powers of the mind in overcoming diseases, and our students are able to determine what Suggestion can accomplish. Our treatment is not mixed with Medicine, Electricity, etc. These things are all right in their places, but our students come here to study Suggestion and we teach it to them. The results we are obtaining daily by the use of Suggestion alone are but little short of miraculous. Course lasts two weeks and commences the first of every month.

DIPLOMA.

Every graduate is presented with our handsome steel engraved sheep skin Diploma, 31x18 inches in size. **READING ROOM.** We have a fine Reading Room for students, with tables filled with the latest magazines and books. Our students receive their mail and write their letters at the school; in fact make it their headquarters while in the city. **PRIVATE TREATMENT.** Patients desiring private treatment are placed under the personal care of the Medical Superintendent, Dr. Herbert A. Parkyn, and accommodations secured for them within a block of the school, which is situated on the finest Park Boulevard in America. **MAIL COURSE.** In order to meet the demands of many physicians who wish to read up on Hypnotism and Suggestive Therapeutics, a correspondence course has been published. It contains the latest, simplest and best methods of inducing the Suggestive or Hypnotic condition; the proper application of Suggestion and the treatment of disease by natural methods. All the treatments prescribed in the course are those which have been found most successful in the work at THE CHICAGO SCHOOL OF PSYCHOLOGY. The experiments of this institution have upset all the old theories; have turned the searchlight of science upon old mysteries and made them open books; have paved the way for intelligent uses of the science; dispelled prejudices and are miles in advance of the work done by any similar institution in the world. Our work is up to date and we are still progressing. One advantage of our system is that patients under treatment never associate the methods with Hypnotism. The methods employed are radically different to those in conventional use and so simple that a schoolboy can understand their philosophy. The mail course is printed on fine hand-made paper and consists of thirty parts for which over two hundred pages are required. The course is so complete in itself that no other books are required. A diploma is also awarded to those taking an examination by mail.

A Physician in Your Own Home

This cup is a thoroughly scientific discovery, and a careful perusal of the reading matter which we send on application, will, we feel certain, convince you that we are in a position to give you the greatest medical discovery of the age. The results we are obtaining in diseases of all kinds are truly remarkable. Although the discovery is a comparatively recent one, still it is working marvels in all kinds of acute and chronic disorders. All the chronic cases using it at present are improving rapidly and every day brings us reports of cases completely cured. It matters not from what disease you may be suffering, the cup will benefit you, for it directly increases the healing force in your body. If it is possible for you to get well you will get well by using this cup, and it will not interfere with any other treatment, but on the contrary will assist it. There is nothing dangerous about the cup and a child can use it.

DESCRIPTION OF THE CUP

Each cup contains sufficient magnetism to lift a weight of 40,000 lbs. a distance of one foot, and its influence can be perceptibly noticed at a distance of over 30 inches. This claim may seem preposterous to the average reader, nevertheless it is a demonstrable fact. This immense force is passed through a tasteless solution of Magnetic Metal Salts which are prepared by a secret process, and every draught of this fluid, when drunk from the cup, conveys magnetic life force directly into the body and circulation. Patients who use these cups begin to pick up at once in vital force, every bodily function is soon restored to its normal state and health returns, no matter from what disease the patient suffers.

Every family, every invalid and everyone wishing to retain his health should possess one of these cups.

GEO. FRISCH, 414 North Eighth Street, ST. LOUIS, MO.

This apparatus introduces a new principle in bathing, whereby the promotion and maintenance of a normal action of the skin is secured, and in the requisite cutaneous secretion, the evidence of robust health is furnished by a clear fresh complexion.

This system constitutes a perfect self purifying bath, all spent heat and noxious gases from the pores being promptly removed, and replaced by fresh heat; carrying its full quota of oxygen. The body subjected to a dry steam or vapor is made to perspire copiously, thus causing the opening and cleansing of the multitude of pores on the surface of the skin. The head being outside and separated from the super-heated air (Hydrogen) all danger of inhaling deleterious gases is obviated, inasmuch as while the body in the bath is being supplied with Hydrogen. The lungs receive their full supply of Oxygen, thus avoiding taking cold.

A FEW ADDITIONAL POINTS.

For *Training (Physical Culture)* it has no equal.

For *Bicycle Riders*, after a long ride in the heat and dust what can be more beneficial?

For *stout* people it will cure *obesity* without weakening.

A good *skin* is a thing of beauty and joy forever, you can have it, incidentally with good health.

The Dr. C. O. Sahler Sanitarium,
(Incorporated)
KINGSTON, - NEW YORK.

This is the first sanitarium established in the United States for the treatment of disease by suggestion. The doctor is one of the pioneers of psychological treatment in this country and has met with such success that recently he has enlarged his sanitarium to double the original capacity to accommodate the increased demand for those who wish to come under his personal treatment from all parts of the United States and Canada. The following ailments are now and have been successfully treated: Nervous diseases and mental delusions, all kinds of headaches, pains and rheumatic affections, hay fever, asthma, hatred, paresis, epilepsy, hysteria, melancholia, monomania, irritableness, insomnia, somnambulism, St. Vitus' dance, loss of voice, deafness, Writers' cramp, self-consciousness, bashfulness, urinary and female diseases, constipation and rectal diseases. Besides these special attention is given to functional sexual disorders, alcoholic, morphine and cocaine habits. The doctor, now, for the first time, can assure the public that he has a special method which will positively cure

any case of alcoholism, morphia and cocaine habits. In connection with the sanitarium there is a school devoted to the instruction of psychology.

DERMAPURINE.

DERMAPURINE is a most valuable combination of disinfectants and gland stimulants for external application.

DERMAPURINE has been employed with great satisfaction in all forms of pruritus. In pruritus ani and vulvæ, it has proven to be a most efficient remedy. In eczema (especially when there is itching,) it has given most satisfactory results. Dermapurine being a strong germicide, it is indicated in all parasitic infections of the skin, as in scabies of the animal and tinea tonsurans, pityriasis versicolor and tinea favosa, etc., of the vegetable parasites.

DERMAPURINE has been prescribed very extensively to remove pigmentary deposits, such as lentigo or freckles, chloasma, moth or liver spots, and has brought about most happy results.

In disorders of the excretions or excretory functions of the skin, such as seborrhea or dandruff, comedo or blackheads, hydrosis or excessive sweating (excessive sweating of the hands and feet, for instance) and seborrhea oleosa or greasy coating of the skin and scalp, it has proven to be a most active agent.

A number of cases have been reported in which Dermapurine has completely wiped out large crops of small warty growths in a very short time. We have reference to small growths that germinate out of the skin in large numbers, and are usually met with on the forehead and hands of children.

Physicians who have employed it to prevent syphilitic eruptions speak very highly of it, stating that it not only prevents further eruption to take place, but it also stimulates the glands and keeps up nutrition of the skin and keeps out syphilitic poison, so that ulceration will not occur.

Vril Cordial a pleasant, safe, elegant cell irritant that quickly fills the blood with giant cells. A remedy that by its peculiar roughness passing through the alimentary canal, toughens and thickens its lining like rough work as chopping wood toughens the palm of the hand. The cells of this lining membrane are made giant cells by the peculiar friction and this cell vigor extends throughout the body. If the stomach or alimentary canal is weak, cold or flabby, its cells are weak, the vitality is low, the entire system cold, prostrated, a condition present in all low diseases. This peculiar roughness excites, arouses, exhilarates, quickly strengthens, warms up every organ, and mind and body, producing prodigious vital force, strength, working power, physiological action, circulation, nutrition and enormous digestion. In a few hours often removes the black dry coating from the tongue of half unconscious cases and puts them on their feet in a few days. For 12 years I conducted a sanitarium with it, treating thousands with astonishing cures unequalled by science. In a few days it puts great vital force strength into very low, weak, wasted, given up patients. Invalids usually gain 3 to 5 pounds a week and often get out of bed in 3 to 7 days. It has cured hundreds of bed fast consumptives in 2 to 3 months. Cures many cancers, abscesses, frightful ulcers, with incredible speed. It loosens and cures worst coughs quick while it doubles digestion and strength. Imparts courage, confidence, exhilarates body and mind, gives strong voice, clear skin, working power, prodigious strength to the heart, slows the pulse, cures wonderfully quick, heart, liver, stomach, nerves and women cases, prostration; gives such vigor to weak female-organs heart, nerves in feeble women that in a few days severe cases are almost well. Most women and children are made fat, strong and well in 2 to 6 weeks. It works wonders daily; patients delighted. It vastly increases the animal powers, sexual desire and vigor; its use unknown to physicians. Made at home, cost 10 cents a pound. Above sworn to by proprietor.

The first School of Suggestive Therapeutics established in America.

No text books are required with this course. It is complete in itself.

This is not a type-written course of twenty or thirty pages. It covers nearly 400 pages of printed matter; and the thirty-eight parts are neatly bound in cloth and gold.

This Special Mail Course has been published in order to satisfy the demands of many who are unable to spend the time or money required to complete a regular school course in Suggestive Therapeutics and Hypnotism. Over One Year was spent in preparing it for the publisher; and the flattering testimonials which are pouring in from all sides from those who have received it show that the time was well spent.

This work is different in theory and practice from anything taught elsewhere or published in books. Everything is made so clear that a child could apply its teachings.

It tells what to do and how to do it: what to say and how to say it.

The course is printed on fine, hand-made paper, and consists of THIRTY EIGHT parts neatly bound in cloth and gilt, all of which are shipped at one time upon receipt of \$10.00.

WHAT THEY ARE SAYING!

Norman, Okla., Jan. 13, 1900.
Dear Doctor: I received your mail course some time back, and to say I am perfectly delighted with it would be putting it too mildly.

I am surprised to know what a great help it will be to me. I have already used suggestion to much advantage.
THOS. W. EWING.

Centerville, Ill., Jan. 19, 1900.
Dear Sir: Your mail course in suggestion received and read with interest. While I have been a close student of suggestion for the past twelve or fifteen years, having followed carefully the theories of Bernheim, Moll Hudson and others, will say that I have never found so much practical information in any book or professional course as I have received by reading your thirty lessons.
J. S. TOWNSLEY.

Detroit, Mich., Jan. 10, 1900.
Dear Sir: I pride myself on having read about everything extant on hypnotism, mesmerism and kindred subjects. I have also made a point of studying the courses of lessons sent out by "Professors" of hypnotism at prices ranging from \$5 to \$100, but for practical utility I have found nothing which in any way compares with your special mail course in suggestion. All of the "Professors" give little or nothing in their courses which is of any value to the practice of Suggestive Therapeutics.

In your course I notice you have carefully avoided connecting occultism or mysticism with suggestion. Your object seems to have been to teach a practical lesson on every page and there can be no question

but that your purpose has been eminently accomplished. No person who takes an interest in Suggestive Therapeutics can possibly be up to date who has not digested your special mail course in suggestion.
Yours sincerely,
J. LAWSON HALL.

Goldthwaite, Texas, Jan. 17, 1900.
Dear Doctor: I have patiently studied your mail course together with other mail courses in magnetism and hypnotism published by the several "Professors," and have read carefully the following books: Hudson's Law of Psychic Phenomena, Tuckey's Suggestive Therapeutics, Bernheim, Works on Christian Science, etc., but will say right here that I consider your mail course is the most complete of any that I know of.

I consider after careful perusal of most of the leading courses that the principles laid down in your special mail course are superior to any others.
E. M. WILSON, D. D. S.

Tacoma, Jan. 15, 1900.
Dear Doctor: I most heartily and voluntarily commend your mail course on suggestion as the only rational and practical method of suggestion and the only one which should be practiced by reputable physicians—or in fact anyone—who wishes to retain his self-respect and increase his usefulness. I speak from observation and experience, having been a student and practitioner of Hypnotism for some time and having several mail courses in my possession, as well as the works of the leading operators along that line.

I congratulate you heartily, Doctor, on your excellent production.
FRANK W. SOUTHWORTH, M. D.

Chicago School of Psychology

INCORPORATED

The First School of Suggestive Therapeutics Founded in America.

Established June, 1896

HERBERT A. PARKYN M. D., Medical Supt.

Students in attendance at the Chicago School of Psychology.

THE CHICAGO SCHOOL OF PSYCHOLOGY was established June 15, 1896, for the purpose of teaching Hypnotism, Suggestive Therapeutics and the treatment of disease by natural methods. Our course is very complete and by a new system of diagnosis the practice of medicine is greatly simplified, so that our graduates are at once prepared to treat successfully **FUNCTIONAL DISORDERS**, such as Chronic Constipation, Dyspepsia, Diarrhea, Irregularities of Menstruation, Loss of Memory, Inability to Concentrate the Attention, etc.; **NERVOUS DISEASES**, including Locomotor Ataxia, Neuralgia, Nervous Prostration, St. Vitus' Dance, Epilepsy, Stammering and Asthma. **MENTAL TROUBLES**, such as Melancholia, Manias, Idiosyncrasies, Illusions, Delusions, Hallucinations, Stage Fright, Self-Consciousness, etc. **HABITS**, Liquor, Morphine, Cocaine, Tobacco, Muscular and Vicious; also Headaches, Rheumatism and Insomnia.

THE CLINIC. Nowhere in America has the student of Suggestive Therapeutics such clinical advantages as we offer here. We have no "horses" which are brought out for each class to practice on, but a clinic averaging twenty patients each day and conducted like that of a well regulated medical college. Our students are instructed in our special methods for taking the history of cases and arriving at a diagnosis, and are permitted to treat patients at the clinics.

Since this school was opened we have graduated nearly 250 students and over 4,000 patients have been treated by Suggestion alone. We are here to demonstrate the powers of the mind in overcoming diseases, and our students are able to determine what Suggestion can accomplish. Our treatment is not mixed with Medicine, Electricity, etc. These things are all right in their places, but our students come here to study Suggestion and we teach it to them. The results we are obtaining daily by the use of Suggestion alone are but little short of miraculous. Course lasts two weeks and commences the first of every month.

DIPLOMA.

Every graduate is presented with our handsome steel engraved sheep skin Diploma, 14x18 inches in size. **READING ROOM.** We have a fine Reading Room for students, with tables filled with the latest magazines and books. Our students receive their mail and write their letters at the school; in fact make it their headquarters while in the city. **PRIVATE TREATMENT.** Patients desiring private treatment are placed under the personal care of the Medical Superintendent, Dr. Herbert A. Parkyn, and accommodations secured for them within a block of the school, which is situated on the finest Park Boulevard in America. **MAIL COURSE.** In order to meet the demands of many physicians who wish to read up on Hypnotism and Suggestive Therapeutics, a correspondence course has been published. It contains the latest, simplest and best methods of inducing the Suggestive or Hypnotic condition; the proper application of Suggestion and the treatment of disease by natural methods. All the treatments prescribed in the course are those which have been found most successful in the work at THE CHICAGO SCHOOL OF PSYCHOLOGY. The experiments of this institution have upset all the old theories; have turned the searchlight of science upon old mysteries and made them open books; have paved the way for intelligent uses of the science; dispelled prejudices and are miles in advance of the work done by any similar institution in the world. Our work is up to date and we are still progressing. One advantage of our system is that patients under treatment never associate the methods with Hypnotism. The methods employed are radically different to those in conventional use and so simple that a schoolboy can understand their philosophy. The mail course is printed on fine hand-made paper and consists of thirty parts for which over two hundred pages are required. The course is so complete in itself that no other books are required. A diploma is also awarded to those taking an examination by mail.

All symptoms of la grippe, pneumonia, fevers, throat and lung troubles are positively broken up and eradicated from the system in one night.

At a Cost of about 3 cents per Bath.

Delivered prepaid to any address upon receipt of \$5.00.

GEO. FRISCH, 414 North Eighth Street, ST. LOUIS, MO.

This apparatus introduces a new principle in bathing, whereby the promotion and maintenance of a normal action of the skin is secured, and in the requisite cutaneous secretion, the evidence of robust health is furnished by a clear fresh complexion.

This system constitutes a perfect self purifying bath, all spent heat and noxious gases from the pores being promptly removed, and replaced by fresh heat; carrying its full quota of oxygen. The body subjected to a dry steam or vapor is made to perspire copiously, thus causing the opening and cleansing of the multitude of pores on the surface of the skin. The head being outside and separated from the super-heated air (Hydrogen) all danger of inhaling deleterious gases is obviated, inasmuch as while the body in the bath is being supplied with Hydrogen. The lungs receive their full supply of Oxygen, thus avoiding taking cold.

A FEW ADDITIONAL POINTS.

The Deer Lick Mineral Spring
917 Adams Express B'dg., City

Dear Sir: I thank you for calling my attention to the Deer Lick Mineral Water. It has already done several of my patients good, some object to the sulphurous taste, but soon learn to like it. It acts favorably on the digestive organs, and in liver troubles cases and those suffering from defective elimination. I send you a few more names, among them two are calculus cases of kidney and bladder, who said "Order me a case, if you think it will do me good." The next has a bad heart, and the fourth a dyspeptic, nervous, feverish, broken business man. The lady is old, corpulent and feeble, and the water may help to improve her vitality. The last has bilious attacks from defective liver. I hope the water will help revolutionize it. It is similar to popular European waters that have worked wonders in similar cases. I am pleased to know that we have such a valuable mineral water (as the analysis shows) so near Chicago. I shall continue to investigate it; I am satisfied that it will prove a valuable adjuvant, and can commend it to the profession.

The body subjected to a dry steam or vapor is made to perspire copiously, thus causing the opening and cleansing of the multitude of pores on the surface of the skin. The head being outside and separated from the super-heated air (Hydrogen) all danger of inhaling deleterious gases is obviated, inasmuch as while the body in the bath is being supplied with Hydrogen. The lungs receive their full supply of Oxygen, thus avoiding taking cold.

AND

Medical Electricity

(INCORPORATED).

Degrees Conferred and Diplomas Awarded to Graduates.

This School was established for the purpose of instructing Physicians, Medical Students, Dentists, Trained Nurses and other well educated people, in the science and art of Suggestive Therapeutics; and those who want it are also taught the practical application of Electricity in the treatment of all diseases where it can be used to advantage.

A complete exposition of Psychological Medicine is given, as expounded by Liebeault, Bernheim, Tuke, Moll, Tuckey, Hudson, etc. The psychological treatment of diseases and the production of anesthesia for surgical operations under hypnotic influence, are thoroughly elucidated by didactic lectures and practical demonstrations upon subjects and clinics before our classes. Furthermore, our students are fully instructed in all the modern methods of Hypnotism, and are favored by the privilege of actual personal practice in handling and controlling subjects in our psychological clinics, under our immediate observation and in-

struction. This enables them to go out and apply this practice at once. Say what we may about what can be learned from books, journal communications and correspondence courses of instruction, there is nothing like OBJECT LESSONS to teach Suggestive Therapeutics. We can teach students more in two weeks by showing them how it is done, by treating patients in their presence, than they can learn in many months from reading and depending wholly upon their own unaided efforts.

We make a specialty of teaching our students the proper treatment, by suggestion, of all chronic, functional and nervous diseases and habits of every kind, and all stubborn diseases that have resisted ordinary methods of treatment. We teach them the kind of suggestion that each patient requires. All intelligent men and women can learn Suggestive Therapeutics, and they can learn to do effective work with it.

One full session of two weeks every month in the year.

Sessions always open in the evenings of the first Monday of each month.

We give special attention to the personal treatment of all chronic, functional and nervous diseases, and habits of every kind here in our private office and in our school.

Send for our 16-page pamphlet, giving a full list of the diseases we successfully treat, and explaining our methods of curing diseases by suggestion in our office and at a distance, and giving terms of treatment. SENT FREE TO EVERYBODY. All sick people should have this pamphlet.

Having been engaged in the active practice of medicine with drugs for so many years, we can offer physicians superior advantages for learning exactly how to make the most out of suggestion in all departments of their practice.

A NEW BOOK.

Send one dollar for our book "Suggestion in the Cure of Diseases and the Correction of Vices." Fourth Edition. Chicago School of Psychology

INCORPORATED

The First School of Suggestive Therapeutics Founded in America.

Established June, 1896

HERBERT A. PARKYN M. D., Medical Supt.

Students in attendance at the Chicago School of Psychology.

THE CHICAGO SCHOOL OF PSYCHOLOGY was established June 15, 1896, for the purpose of teaching Hypnotism, Suggestive Therapeutics and the treatment of disease by natural methods. Our course is very complete and by a new system of diagnosis the practice of medicine is greatly simplified, so that our graduates are at once prepared to treat successfully **FUNCTIONAL DISORDERS**, such as Chronic Constipation, Dyspepsia, Diarrhoea, Irregularities of Menstruation, Loss of Memory, Inability to Concentrate the Attention, etc.; **NERVOUS DISEASES**, including Locomotor Ataxia, Neuralgia, Nervous Prostration, St. Vitus' Dance, Epilepsy, Stammering and Asthma; **MENTAL TROUBLES**, such as Melancholia, Manias, Idiosyncrasies, Illusions, Delusions, Hallucinations, Stage Fright, Self-Consciousness, etc. **HABITS**, Liquor, Morphin, Cocaine, Tobacco, Muscular and Vicious; also Headaches, Rheumatism and Insomnia.

THE CLINIC. Nowhere in America has the student of Suggestive Therapeutics such clinical advantages as we offer here. We have no "horses" which are brought out for each class to practice on, but a clinic averaging twenty patients each day and conducted like that of a well regulated medical college. Our students are instructed in our special methods for taking the history of cases and arriving at a diagnosis, and are permitted to treat patients at the clinics.

Since this school was opened we have graduated nearly 250 students and over 4,000 patients have been treated by suggestion alone. We are here to demonstrate the powers of the mind in overcoming diseases, and our students are able to determine what Suggestion can accomplish. Our treatment is not mixed with Medicine, Electricity, etc. These things are all right in their places, but our students come here to study Suggestion and we teach it to them. The results we are obtaining daily by the use of Suggestion alone are but little short of miraculous. Course lasts two weeks and commences the first of every month.

DIPLOMA.

Every graduate is presented with our handsome steel engraved sheep skin Diploma, 14x18 inches in size. **READING ROOM.** We have a fine Reading Room for students, with tables filled with the latest magazines and books. Our students receive their mail and write their letters at the school; in fact make their headquarters while in the city. **PRIVATE TREATMENT.** Patients desiring private treatment are placed under the personal care of the Medical Superintendent, Dr. Herbert A. Parkyn, and accommodations secured for them within a block of the school, which is situated on the finest Park Boulevard in America. **MAIL COURSE.** In order to meet the demands of many physicians who wish to read up on Hypnotism and Suggestive Therapeutics, a correspondence course has been published. It contains the latest, simplest and best methods of inducing the Suggestive or Hypnotic condition; the proper application of Suggestion and the treatment of disease by natural methods. All the treatments prescribed in the course are those which have been found most successful in the work at **THE CHICAGO SCHOOL OF PSYCHOLOGY.** The experiments of this institution have upset all the old theories; have turned the searchlight of science upon old mysteries and made them open books; have paved the way for intelligent uses of the science; dispelled prejudices and are miles in advance of the work done by any similar institution in the world. Our work is up to date and we are still progressing. One advantage of our system is that patients under treatment never associate the methods with Hypnotism. The methods employed are radically different to those in conventional use and so simple that a schoolboy can understand their philosophy. The mail course is printed on fine hand-made paper and consists of thirty parts for which over two hundred pages are required. The course is so complete in itself that no other books are required. A diploma is also awarded to those taking an examination by mail.

This apparatus introduces a new principle in bathing, whereby the promotion and maintenance of a normal action of the skin is secured, and in the requisite cutaneous secretion, the evidence of robust health is furnished by a clear fresh complexion.

This system constitutes a perfect self purifying bath, all spent heat and noxious gases from the pores being promptly removed, and replaced by fresh heat; carrying its full quota of oxygen. The body subjected to a dry steam or vapor is made to perspire copiously, thus causing the opening and cleansing of the multitude of pores on the surface of the skin. The head being outside and separated from the super-heated air (Hydrogen) all danger of inhaling deleterious gases is obviated, inasmuch as while the body in the bath is being supplied with Hydrogen. KINGSTON, - NEW YORK.

This is the first sanitarium established in the United States for the treatment of disease by suggestion. The doctor is one of the pioneers of psychological treatment in this country and has met with such success that recently he has enlarged his sanitarium to double the original capacity to accommodate the increased demand for those who wish to come under his personal treatment from all parts of the United States and Canada. The following ailments are now and have been successfully treated: Nervous diseases and mental delusions, all kinds of headaches, pains and rheumatic affections, hay fever, asthma, hatred, paresis, epilepsy, hysteria, melancholia, monomania, irritableness, insomnia, somnambulism, St. Vitus dance, loss of voice, deafness, Writers' cramp, self-consciousness, bashfulness, urinary and female diseases, constipation and rectal diseases. Besides these special attention is given to functional sexual disorders, alcoholic, morphine and cocaine habits. The doctor, now, for the first time, can assure the public that he has a special method which will positively cure

any case of alcoholism, morphia and cocaine habits. In connection with the sanitarium there is a school devoted to the instruction of psychology.

DERMAPURINE.

DERMAPURINE is a most valuable combination of disinfectants and gland stimulants for external application.

DERMAPURINE has been employed with great satisfaction in all forms of pruritus. In pruritus, ani and vulvæ, it has proven to be a most efficient remedy. In eczema (especially when there is itching,) it has given most satisfactory results. Dermapurine being a strong germicide, it is indicated in all parasitic infections of the skin, as in scabies of the animal and tinea tonsurans, pityriasis versicolor and tinea favosa, etc., of the vegetable parasites.

DERMAPURINE has been prescribed very extensively to remove pigmentary deposits, such as lentigo or freckles, chloasma, moth or liver spots, and has brought about most happy results.

In disorders of the excretions or excretory functions of the skin, such as seborrhea or dandruff, comedo or blackheads, hydrosis or excessive sweating (excessive sweating of the hands and feet, for instance) and seborrhea oleosa or greasy coating of the skin and scalp, it has proven to be a most active agent.

A number of cases have been reported in which Dermapurine has completely wiped out large crops of small warty growths in a very short time. We have reference to small growths that germinate out of the skin in large numbers, and are usually met with on the forehead and hands of children.

Physicians who have employed it to prevent syphilitic eruptions speak very highly of it, stating that it not only prevents further eruption to take place, but it also stimulates the glands and keeps up nutrition of the skin and keeps out syphilitic poison, so that ulceration will not occur.

The Deer Lick Mineral Spring Co.,
917 Adams Express Bldg., City.

Dear Sir: I thank you for calling my attention to the DEER LICK MINERAL WATER. It has already done several of my patients good; some object to the sulphurous taste, but soon learn to like it. It acts favorably on the nutritive organs, and in tuberculous cases and those suffering from defective elimination. I send you a few more names, among them two are calculus cases (kidney and bladder), who said: "Order me a case, if you think it will do me good." The next has a bad heart, and the fourth is a dyspeptic, nervous, overworked business man. The lady is old, corpulent and feeble, and the water may help to improve her vitality. The last has bilious attacks from defective liver that I hope the water will help revolutionize. It is similar to popular European waters that have worked wonders in similar cases. I am pleased to know that we have such a valuable mineral water (as the analysis shows) so near Chicago. I shall continue to investigate it; I am satisfied that it will prove a valuable adjunct, and can commend it to the profession.

Yours very truly,

T. C. DUNCAN, M. D.

Squair's Sulphur Laxative

CURES Constipation,
Dyspepsia,
Rheumatism,
Skin Diseases

If there is one remedy under the sun which has stood the test of ages it is Sulphur. For thousands of years this medicine has been taken by sufferers and prescribed by physicians for intestinal troubles. It has always been recognized as a cure for constipation, but, heretofore the difficulty has been to present it in a form which would make it pleasant for administration. It has remained for Francis Squair, who has spent 40 years of his life as a practical chemist, to present the medical profession with a compound sulphur tablet which is as agreeable to take inwardly as the finest confection ever made. These tablets are so agreeable that children will take them as readily as adults, and the sulphur used in them is absolutely chemically pure.

SQUAIR'S COMPOUND SULPHUR TABLETS are not a patent medicine nor are they a purgative, but when taken internally regularly for several weeks will positively cure Constipation and Dyspepsia. Through the effect they exert on the circulation and organs of elimination, such troubles as Rheumatism, Headaches and many forms of skin trouble rapidly disappear.

Physicians Prescribe and Endorse Them.

T. Gillespie, M. D., Kenosha, Wis., says:
I write to know how you sell your tablets by the 1,000. * * * I have not used a medicine personally, which has anywhere approached the reputation given it as this has.

J. M. Moore, M. D., Chicago, Ill., says:
I have no hesitation in saying I have been delighted with the results obtained. They are palatable and agreeable and available for children's troubles.

C. D. Weston, M. D., Chicago, Ill.

You have overcome the difficulty of administering sulphur. I have prescribed your tablets for several years where indicated, and the results have always been satisfactory to myself and patients. Every physician should understand their merits.

One Hundred Sulphur Tablets are put up in each bottle and one bottle is usually sufficient to cure the worst cases of constipation or dyspepsia.

Ask your druggist for them, or send \$1.00 for a trial bottle to

The doctor is one of the pioneers of psychological treatment in this country and has met with such success that recently he has enlarged his sanitarium to double the original capacity to accommodate the increased demand for those who wish to come under his personal treatment from all parts of the United States and Canada. The following ailments are now and have been successfully treated: Nervous diseases and mental delusions, all kinds of headaches, pains and rheumatic affections, hay fever, asthma, hatred, paresis, epilepsy, hysteria, melancholia, monomania, irritableness, insomnia, somnambulism, St. Vitus dance, loss of voice, deafness, Writers' cramp, self-consciousness, bashfulness, urinary and female diseases, constipation and rectal diseases. Besides these special attention is given to functional sexual disorders, alcoholic, morphine and cocaine habits. The doctor, now, for the first time, can assure the public that he has a special method which will positively cure

any case of alcoholism, morphia and cocaine habits. In connection with the sanitarium there is a school devoted to the instruction of psychology.

DERMAPURINE.

DERMAPURINE is a most valuable combination of disinfectants and gland stimulants for external application.

DERMAPURINE has been employed with great satisfaction in all forms of pruritus. In pruritus, ani and vulvæ, it has proven to be a most efficient remedy. In eczema (especially when there is itching,) it has given most satisfactory results. Dermapurine being a strong germicide, it is indicated in all parasitic infections of the skin, as in scabies of the animal and tinea tonsurans, pityriasis versicolor and tinea favosa, etc., of the vegetable parasites.

DERMAPURINE has been prescribed very extensively to remove pigmentary deposits, such as lentigo or freckles, chloasma, moth or liver spots, and has brought about most happy results.

In disorders of the excretions or excretory functions of the skin, such as seborrhea or dandruff, comedo or blackheads, hydrosis or excessive sweating (excessive sweating of the hands and feet, for instance) and seborrhea oleosa or greasy coating of the skin and scalp, it has proven to be a most active agent.

A number of cases have been reported in which Dermapurine has completely wiped out large crops of small warty growths in a very short time. We have reference to small growths that germinate out of the skin in large numbers, and are usually met with on the forehead and hands of children.

Physicians who have employed it to prevent syphilitic eruptions speak very highly of it, stating that it not only prevents further eruption to take place, but it also stimulates the glands and keeps up nutrition of the skin and keeps out syphilitic poison, so that ulceration will not occur.
