FRISCH'S Improved Folding Vapor Bath Cabinet.

Description of Bath Cabinet.—The apparatus combines in its construction scientific simplicity with the highest efficiencity and absolute safety. It is a most valuable aid to the physician, being made of special antiseptic, disinfecting and germ-proof leather cloth. It is entirely portable. With ordinary care it will last for years, as it cannot get out of order. There are no wires to rust or sockets to break. When not in use it can be collapsed and hung upon a nail. The size of the cabinet, when open, is about 7 feet around the top, 9 feet at the bottom and 45 inches high.

Cabinet complete when delivered, including heater, instructions and formulas for different baths; overything ready for use, so anyone can operate it, all packed in a neat case 12 inches squaro and 3 inches high. It is sold with a guarantee to be as represented or money refunded.

Cures a hard cold with one bath, clears the Skin, reduces Obesity, cures Rheumatism, La Grippe, Woman's Troubles, Sleeplessness, Neuralgia, Dropsy, Weakness and all Diseases of the Nerves and Skin Troubles, All symptoms of la grippe, pneumonia, fevers, throat and lung troubles are positively broken up and eradicated from the system in one night.

At a Cost of about 3 cents per Bath.

Delivered prepaid to any address upon receipt of \$5.00.

GEO. FRISCH, 414 North Eighth Street, ST. LOUIS, MO.

This apparatus introduces a new principle in bathing, whereby the promotion and main-tenance of a normal action of the skin is secured, and in the requisite cutaneous secretion, the

evidence of normal action of the skin is secured, and in the requisite cutaneous secretion, the evidence of robust health is furnished by a clear fresh complexion.

This system constitutes a perfect self purifying bath, all spent heat and noxious gases from the pores being promptly removed, and replaced by fresh heat; carrying its full quota of oxygen. The body subjected to a dry steam or vapor is made to perspire copiously, thus causing the opening and cleansing of the multitude of pores on the surface of the skin. The head being outside and separated from the super-heated air (Hydrogen) all danger of inhaling deleterious gases is obviated, inasmuch as while the body in the bath in being supplied with Hydrogen. The lungs receive their full supply of Oxygen, thus avoiding taking cold.

A FEW ADDITIONAL POINTS.

For Training (Physical Culture) it has no equal.

For Bicycle Riders, after a long ride in the heat and dust what can be more beneficial?

For stout people it will cure obesity without weakening.

A good skin is a thing of beauty and joy forever, you can have it, incidentally with good health.

017 Adams Express Bldg., City. Dear Sir: I thank you for calling my attention to the DEER LICK MINERAL WATER. It has already done several of my patients good; some object to the sulphurous taste, but soon learn to like it. It acts favorably on the nutritive organs, and in tuberculous cases and those suffering from defective elimination. I send you a few more names, among them two are calculus cases (kidney and bladder), who said: "Order me a case, if you think it will do me good." The next has a bad heart, and the fourth is a dyspeptic, nervous, overworked business man. The lady is old, corpulent and feeble, and the water may help to improve her vitality. The last has bilious attacks from defective liver that I hope the water will help revolutionize. It is similar to popular European waters that have worked wonders in similar cases.

Squair's Sulphur Laxative

CURES Dyspepsia,

Constination. Rheumatism. Skin Diseases

If there is one remedy under the sun which has stood the test of ages it is Sulphur. Fort housands of years this medicine has been taken by sufferers and prescribed by physicians for intestinal troubles. It has always been recognized as a cure for constination, but, heretofore the difficulty has been to present it in a form which would make it pleasant for administration. It has remained for Francis Squair, who has spent 40 years of his life as a practical chemist, to present the medical profession with a compound sulphur tablet which is as agreeable to take inwardly as the finest confection ever made. These tablets are so agreeable that children will take them as readily as adults, and the sulphur used in them is absolutely chemically pure.

SOUAIR'S COMPOUND SULPHUR TABLETS are not a patent medicine nor are they a purgative, but when taken internally regularly for several weeks will positively cure Constipation and Dyspepsia. Through the effect they exert on the circulation and organs of elimination, such troubles as Rheumatism. Headaches and many forms of skin trouble rapidly disappear.

Physicians Prescribe and Endorse Them.

T. Gillespie, M. D., Kenosha, Wis., says:
I write to know how you sell your tablets
by the 1,000. * * I have not used a medicine
personally, which has anywhere approached the
reputation given it as this has.

J. M. Moore, M. D., Chicago, III., says: I have no hesitation in saying I have been de-lighted with the results obtained. They are pal-atable and agreeable and available for children's troubles.

C. D. Weston, M. D., Chicago, III.

You have overcome the difficulty of administering sulphur. I have prescribed your tablets for several years where indicated, and the results have always been satisfactory to myself and patients. Every physician should understand their merits.

One Hundred Sulphur Tablets are put up in each bottle and one bottle is usually sufficient to cure the worst cases of constinution or dyspensia.

Ask your druggist for them, or send \$1.0) for a trial bottle to

DERMAPURINE.

DERMAPURINE is a most valuable combination of disinfectants and gland

stimulants for external application.

DERMAPURINE has been employed with great satisfaction in all forms of pruritus. In pruritus, ani and vulvæ, it has proven to be a most efficient remedy. In eczema (especially when there is itching,) it has given most satisfactory results. Dermapurine being a strong germicide, it is indicated in all parasitic infections of the skin, as in scabies of the animal and tinea tonsurans, pityriasis versicolor and tinea favosa, etc., of the vegetable parasites.

DERMAPURINE has been prescribed very extensively to remove pigmentary deposits, such as lentigo or freckles, chloasma, moth or liver spots, and has brought

about most happy results.

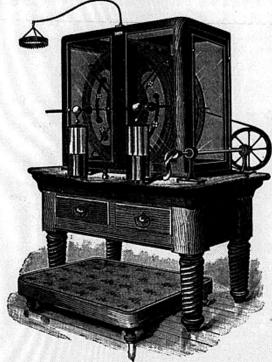

In disorders of the excretions or excretory functions of the skin, such as seborrhea or dandruff, comedo or blackheads, hydrosis or excessive sweating (excessive sweating of the hands and feet, for instance) and seborrhea olesa or greasy coating of the skin and scalp, it has proven to be a most active agent.

A number of cases have been reported in which **Dermapurine** has completely wiped out large crops of small warty growths in a very short time. We have reference to small growths that germinate out of the skin in large numbers, and are usually met with on the forehead

and hands of children.

Physicians who have employed it to prevent syphilitic eruptions speak very highly of it, stating that it not only prevents further eruption to take place, but it also stimulates the glands and keeps up nutrition of the skin and keeps out syphilitic poison, so that ulceration will not occur.

Squair's Sulphur Laxative

Constipation, CURES Dyspepsia, Rheumatism, Skin Diseases

If there is one remedy under the sun which has stood the test of ages it is Sulphur. Fort housands of years this medicine has been taken by sufferers and prescribed by physicians for intestinal troubles. It has always been recognized as a cure for constipation, but, heretofore the difficulty has been to present it in a form which would make it pleasant for administration. It has remained for Francis Squair, who has spent 40 years of his life as a practical chemist, to present the medical profession with a compound sulphur tablet which is as agreeable to take inwardly as the finest confection ever made. These tablets are so agreeable that children will take them as readily as adults, and the sulphur used in them is absolutely chemically pure.

SOUAIR'S COMPOUND SULPHUR TABLETS are not a patent medicine nor are they a purgative, but when taken internally regularly for several weeks will positively cure Constipation and Dyspepsia. Through the effect they exert on the circulation and organs of elimination, such troubles as Rheumatism, Headaches and many forms of skin trouble rapidly disappear.

Physicians Prescribe and Endorse Them.

THIRD EDITION of Dr. Herbert A. Parkyn's

Hypnotism and Suggestive Cherapeutics

NOW READY

'HE Third Edition of Dr. Parkyn's Mail Course has just been received from the printers. This new edition contains three additional lessons and a comparative table of food values, and food and health information. With these additional lessons, the course now consists of forty-two lessons, which, with the illustrations, makes a work of considerably over 400 pages. The course is divided into two parts. The first part is devoted to Medical Hypnotism and Suggestive Therapeutics. The second part is devoted entirely to Stage Hypnotism. Dr. H. P. Hanson says of the third edition:

JACKSONVILLE, IOWA, January 12, 1901.

The Chicago School of Psychology:
In acknowledging the safe arrival of your mail course in Suggestive Therapeutics and Hypnotism, permit me to say a word of commendation. I had expected a good course, but its excellence outstripped all my expectations. It is worth a hundred times more than any other course on the matel. Its beautile binding, with title stamped in gold on side and back, makes it an ornament to the library. It is the duty of every physician who knows of its existence to master its contents. Although the work is written primarily for those practicing the healing art, it is the best guide to stage hypnotism that has ever been written, and to those who intend to give entertainments of a hypnotic character, I especially recommend the work.

Very truly yours.

hicago School of Psychology

INCORPORATED

The First School of Suggestive Therapeutics Founded in America.

Established June, 1896

HERBERT A. PARKYN, M. D., Medical Supt.

Students in attendance at the Chicago School of Psychology.

THE CHICAGO SCHOOL OF PSYCHOLOGY was established June 15, 1896, for the purpose of teaching Hypnotism, Suggestive Therapeutics and the treatment of disease by natural methods. Our course is very complete and by a new system of diagnosis the practice of medicine is greatly simplified, so that our graduates are at once prepared to treat successfully FUNCTIONAL DISORDERS, such as Chronic Constitution, Dyspepsia, Diarrhora Irregularities of Menstruation, Loss of Memory, Inability to Concentrate the Attention, etc.: NERYOUS DISEASES, including Locomotor Ataxia, Neuragia, Nervous Prostation, St. Vitus' Dance, Epilepsy, Stammering and Asthma. TENTAL TROUBLES, such as Melancholia, Manias, Idiosyncrasies, Illusions, Delusions, Halluctuations, Stage Fright, Self-Consciousness, etc. HABITS, Liquor, Morphine, Cocaine, Tobacco, Muscular and Vicious also Headaches, Rheumatism and Insomnia.

THE CLINIC. No where in America has the student of Suggestive Therapeutics such clinical advantages as we offer here. We have no "horses" which are brought out for each class trip ractice on, but a clinic averaging twenty partients each day and conducted like that of a well regulated medical college. Our students are instructed in our special methods for taking the history of cases and arriving at a diagnosis, and are permitted to treat patients at the clinics.

Since this school was opened we have graduated nearly 1,000 students and over 8,000 patients have been treated by Suggestion alone. We are here to demonstrate the powers of the mind in overcoming diseases, and our students are able to determine what Suggestion can accomplish. Our treatment is not mixed with Medicine, Electricity, etc. These things are all right in the r places, but our students come here to study Suggestion, and we teach it to them. The results we are obtaining daily by the use of Suggestion alone are but little short of miraculous. Course lasts two weeks and commences the list of every month,

Y Y Y Y DIPLOMA 8 8 8 B

Every graduate is presented with our handsome steel engraved sheepskin Diploma, 14x18 inches in size, READING ROOM. We have a fine Reading Room for students, with tables filled with the latest magazines and books. Our students receive their mail and write their letters at the school; in fact, make it their head-quarters while in the city. PRIVATE TREATMENT. Patients desiring private treatment are placed under the personal care of the Medical Superintendent, Dr. Herbert A. Parkyn, and accommodations secured for them within a block of the school, which is situated ou the finest Park Boulevar I in America. MAIL COUNSE. In order to meet the demands of many physicians who wish to read up on Hypnotism and Suggestive Therapeutics, a correspondence course has been published. It contains the latest, simplest and best methods of inducing the Suggestive or Hypnotic condition; the proper application of Suggestion and the treatment of disease by natural methods. All the treatments prescribed in the course are those which have been found most successful in the work at THE CHICAGO SCHOOL OF PSYCHOLOGY. The experiments of this institution have upnet all the old theories; have turned the scarchlight of science upon old mysteries and made them upon books; have paved the way for intelligent uses of the science dispelled prejudices, and are miles in advance of the work done by any similar institution in the world. Our work is up to date and we are still norgessing. One advantage of our system is that naticuts under treatment never associate the methods with Hynotism. The methods employed are radically different to those in conventional use and so simple that a schoolbov can understand their philosophy. The mail course is printed on fine hand-made paper and consists of 12 parts, for which over four hundred pages are required. The course is so complete in itself that no other books are required. A diploma is also awarded to those taking an examination by mail.

For terms of school course, private treatment, is instruction by mail, e

A Correspondence School

Suggestive Therapeutics

In addition to the monthly personal lecture course, the St. Louis School of Suggestive Therapeutics has opened a "CORRESPONDENCE DEPARTMENT OF INSTRUCTION," and people who cannot leave home for a personal course can now learn the principles and practical application of Suggestion, as taught in this school, through this correspondence department. This is not simply a MAIL COURSE, it is a complete course of correspondence instruction, and is carried on in a manner similar to that of correspondence law schools.

We teach our absent pupils the same practical application of suggestion in the treatment of all kinds of diseases that our personal course embraces, and all intelligent people can learn to do successful work in Suggestive Therapeutics in this way. We also teach them all the modern methods of Hypnotism. Absent pupils get diplomas the same as those who take our personal course.

Chicago School of Psychology

The First School of Suggestive Therapeutics Founded in America.

Established June, 1896

HERBERT A. PARKYN, M. D., Medical Supt.

Students in attendance at the Chicago School of Psychology.

THE CHICAGO SCHOOL OF PSYCHOLOGY was established June 15, 1896, for the purpose of teaching Hypnotism, Suggestive Therapeutics and the treatment of disease by natural methods. Our course is very complete and by a new system of diagnosis the practice of medicine is greatly simplified, so that our graduates are at once prepared to treat successfully FUNCTIONAL DISORDERS, such as Chronic Constitution, Dyspensia, Diarrhoea, Irregularities of Menstruation, Loss of Memory, Inability to Concentrate the Attention, etc.: NERVOUS DISEASES, including Locomotor Ataxia, Neuralgia, Nervous Prostration, St. Vitus' Dance, Epilepsy, Stammering and Asthma. TIENTAL TROUBLES, such as Melaucholia, Manias, Idosyncrates, Illusions, Delusions, Haffuctuations, Stage Fright, Self-Consciousness, etc. HABITS, Liquor, Morphine, Cocaine, Tobacco, Muscular and Vicious; also Headaches, Rheumatism and Insomnia,

"HE CLINIC. No where in America has the student of Suggestive Therapeutics such clinical advantages as we offer here. We have no "herses" which are brought out for each class to practice on, but a clinic averaging twenty patients each day and confluenced live that of a well regulated medical college. Our students are instructed in our special methods for taking the history of cases and arriving at a diagnosis, and are permitted to treat patients at the clinics.

Since this school was opened we have graduated nearly 1,000 students and over 8,000 patients have been treated by Suggestion alone. We are here to demonstrate the powers of the mind in overcoming diseases, and our students are able to determine what Suggestion can accomplish. Our treatment is not mixed with Medicine, Electricity, etc. These things are all right in the replaces but our students come here to study Suggestion, and we teach it to them. The results we are obtaining daily by the use of Suggestion alone are but little short of miraculous. Course lasts two weeks and commences the brist of every month.

Every graduate is presented with our handsome steel engraved sheepskin Diploma, 14x18 inches in size.
READING ROOM. We have a fine Reading Room for students, with tables filled with the latest magazines and books. Our students receive their mail and write their letters at the school; in fact, make it their head-quarters while in the city. PRIVATE TREATMENT. Patients desiring private treatment are placed under the personal care of the Medical Superintendent, Dr. Herbert A Farkyn, and accommodations secured for them within a block of the school, which is situated on the meest Park Boulevar in humerica. MAIL COURSE. In order to meet the demands of many physicians who wish to read up on Hypnotism and Suggestive Therapeutics, a correspondence course has been published. It contains the latest, simplest and best methods of inducing the Surgestive or Hypnotic condition; the proper application of Suggestion and the treatment of disease by natural methods. All the treatments prescribed in the course are those which have been found most successful in the work at THE CHICAGO SCHOOL OF PSYCHOLOGY. It is the ONLY SANITARIUM in America established and conducted for the treatment of all forms of mental and nervous diseases, and drug addictions, by PSYCHOLOGY. Its success is witnessed by the constant enlargements of its accommodations for patients from all parts of the Union.

The School of Psychology conducted by Dr. Sahler, with monthly classes, is successfully Science of the Twentieth Century, the civine secret of health and success.

Key. Sam W. Small, D. D., the famous Southern Evangelist, says: "After three months' observation and test I am convinced of the wonderful results obtained through Dr. Sahler's treatments. In cases pronounced hopeless he has wrought, to my knowledge, rapid and radical cures. His methods are sensible, scientific and suited in every case to the psychological conditions of the patient. I came to him sick and skeptical; I go away sound from head to heel and fully believing all things that I have here experienced."

The Sanitarium is in a historic Colonial City, at the foot of the famous Catskills, on the banks of the picturesque Hudson. The water supply, the atmosphere and the social environment are all pure and made for health and happiness. Dr. Sahler is a recognized authority in occult studies. The Constitution of Man

Elizabeth Cowne.

Gives a clear and practical presentation of mental science and embodies many new and original conceptions, and the fullnew and originate conceptions, and the fun-est teaching extant as to the nature, con-trol and direction of Desire. It explains and illustrates in luminous terms: The unity of all life. The I Am and its attributes. What man is, and where, and how he

got there.
How he grows.
What "the silence" is, how to get there, and what to do with it.

Mental Breathing.

How to concentrate and why.

The nature and uses of desire, and how to grow and direct it.

What to do with Ideals.

There are fifteen chapters in the book, with a half tone of the author. It is beautifully printed on antique paper and nicely bound, and sells for 50 cents. Order of

Chicago School of Psychology

INCORPORATED

The First School of Suggestive Therapeutics Founded in America.

Established June, 1896

HERBERT A. PARKYN, M. D., Medical Supt.

Students in attendance at the Chicago School of Psychology.

THE CHICAGO SCHOOL OF PSYCHOLOGY was established June 15, 1898, for the purpose of teaching Hypnotism, Suggestive Therapeutics and the treatment of disease by natural methods. Our course is very complete and by a new system of diagnosis the practice of medicine is greatly simplified, so that our graduates are at once prepared to treat successfully FUNCTIONAL DISORDERS, such as Chronic Constipation, Dyspepsia, Diarrhea, Irregularities of Menstruation, Loss of Memory, Inability to Concentrate the Attention, etc.: NERVOUS DISEASES, including Locomotor Ataxia Neuralgia, Nervous Prostration, St. Vitus' Dance, Epilepsy, Stammering and Asthma. DENTAL TROUBLES, such as Melancholia, Manias, Idiosyncrasies, Illusions, Delusions, Itallucinations, Stage Fright, Self-Consciousness, etc. HABITS, Liquor, Merphine, Cocaine, Tobacco, Muscular and Vicious; also Headaches, Rheumatism and Ir somnia.

THE CLINIC, Nowhere in America has the student of Suggestive Therapeutics such clinical advantages as we lifer here. We have no "horses" which are brought out for each class to practice on, but a clinic averaging twenty patients each day and conducted like that of a well regulated medical college. Our students are instructed in our special methods for taking the history of cases and arriving at diagnosis, and are permitted to treat patients at the clinics.

Since this school was opened we have graduated nearly 1,000 students and over 8,000 patients have been

Since this school was opened we have graduated nearly 1,000 students and over 8,000 patients have been treated by Suggestion alone. We are here to demonstrate the powers of the mind in overcoming diseases, and outr students are able to determine what Suggestion can accomplish. Our treatment is not mixed with Medicine, Electricity, etc. These things are all right in their places, but our students come here to study Suggestion, and we teach it to them. The results we are obtaining daily by the use of Suggestion alone are but little short of miraculous. Course lasts two weeks and commences the first of every month.

WWW DIPLOMA y y y y

Every graduate is presented with our handsome steel engraved sheepshin Diploma 14x18 inches in size, READING ROOM. We have a fine Reading Room for students, with tables filled with the latest magazines and hooks. Our students receive their mail and write their letters at the school; in fact, make it their head-quarters while in the city, PRIVATE TREATMENT. Patients destring private treatment are placed under the personal care of the Medical Superintendent, Dr. Herbert A. Parkyn, and accommodations secured for them within a block of the school, which is situated on the finest Park Boulevard in America. MAIL COUNSE. In order to meet the demands of many physicians who wish to read up on Hypnotism and Suggestive Therapeutics, a correspondence course has been published. It contains the latest, simplest and best methods of inducing the Suggestive or Hypnotic condition; the proper application of Suggestion and the treatment of disease by natural methods. All the treatments prescribed in the course are those which have been found most successful in the work at THE CHICAGO SCHOOL, OF PSYCHOLOGY. The experiments of this institution have upset all the old theories; have turned the searchilish of science upon old mysteries and made them open books; have paved the way for intelligent uses of the science; dispelled prejudices, and are miles in advance of the work done by any similar institution in the world. Orr work is up to date and we are still progessing. Ore advantage of our system is that natients under treatment never associate the methods with Hypnotism. The methods employed are radically different to those in conventional use and so simple that a schoolboy can understand their philosophy. The mail course is sprinted on fine hand-made paper and consists of 42 parts, for which over four hundred pages are required. The course is so complete in itself that no other books are required. A diploma is also awarded to those taking an examir ation by mall.
