[For the "Voice of Angels."]

THE HARPS.

THROUGH TRYPHENA C. PARDEE.

The angels send greeting from Lifo's tearloss shore, Where its love-pulsings beating harmonial power, Forever vibrating from wires finely strung On tender-toned harps by infantiles flung.

On the hanks of deliverance from death's ky sting, Little children's hosannas cterually ring, And their sweet melting ochoes dance over the sea, And sorrow's said wailings at once cease to be.

I wish that all could realize How near they come to us; They would not teel such loneliness When their friends return to dust.

For it is only the senseless clay That returns to mother earth; But the Spirit can hover near us, To tell of the glad new birth-

To tell of the birth of the Spirit Into the realms of light, Where there is neither sighing nor weeping, And where there is no night.

Strengthen us, ob, my Saviour, With thy kind and loving arm; Guard us from all temptation, Shelter us from all harm!

Travelling on life's journey, May we over do our best; Walking in thy footsteps, And helping the oppressed!

NORTH WEYMOUTH, MASS.

[For the Voice of Angels.] GLENDOWER; A LEGEND OF THE OLD AND NEW.

BY ALICE CARY.

THROUGH MRS. SUSAN GOODHUE WAGNER.

[CONTINUED.]

to divine melody, breathing forth its inspiration, and transforming demons of darkness into angels of light; shadowing your earthly habitation, but glorifying your Spiritual life.

I see the day is breaking ;-dear father, I am blest; I saw the evening twilight grow fainter in the west; I heard the sweet birds singing - a mournful dirge it seemed : I woke as from my dreaming _I knew not that I dreamod.

The golden sunshine shimmered o'er bilishie and the vale, And the star-flowers gleamed and glimmered, as my little boat set sail;

But I was bright and joyous, as joyous as could be, As my little boat sped onward across the shining sea.

- Till the hills grew dim and misty, and the leaflets dropping tears;
- But my little boat sped onward, till it reached the brighter spheres;
- And the beauty of the morning awoke me to delight;
- And I wondered if the dawning was the sweet surprise of night.

Oh, my bonny boat thus glided so sweetly o'er the sea, Soft murmurs all about me, dear eyes that gazed on me; Sweet faces, smiling faces, that met me everywhere-Angels of wondrons beauty, with bright and flowing bair.

And the heavenly vales were ringing with the harmony of song.

And the anthem of sweet singing, as my little boat sped on.

Though the hills bohind were misty, and the leaves were dropping tears,

Sweetly my thought unfolded within the brighter spheres;

Close down by the waves on the heavenly strands See the golden harps glitter in their lily-white hands, And they laugh at the flutters of the thin vell of death, When they breathe on it softly love's musical breath.

Drop the harp of cold from that has chilled you so long, With its dirge of wild moaning and burial song; Take the sweet harpsichord tuned from angel-life lyres, And join in communion Hoaven's soul-cheering wires.

And venturo to walk over death's ruffled wave; Speaking distance 'the only ;- In truth's name bo brave! 'Tis a path strewn with lilles and withorless flowers, By our dear little lovelings, to charm to their bowers. ELLINGTON, N. Y., Fob 4 1879.

(For the Volco of Angels.) OUR LOVED ONES GONE.

OUR loved ones have gono just over the way, To that boautiful home on high: And oft, as the twilight gathers, We feel that they are nigh.

For God does not take them wholly away. But only the bodies transforms; He lets them come to comfort us With their presence so loving and warm.

And often, whon we think of them, In their home so free from care, The room seems tilled with a blessod light. And we know that they are here.

LET us pass on to disintegration-where the fætal or organic system of things are revoked or separated into primeval parts, each having its own special or additional degree, or purpose, or local adaptation. Thus the parts of life go on-one forming the sustenance of the otherone the positive or basic principle, the other the magnetic or attractive-the formation of distinctive parts of thought propelled through proper mortal or immortal agencies.

Life is not the transitory, fleeting dream, but the ever present eternal and actual reality. The shells of the ocean, of febrile and delicate texture, impart to us the grand thought of retained the blood pure by eating such food as the stomidentity. Even this inanimate formation of beauty and delicacy, through vibratory and delightful sounds, coming in contact with the vocal sense, seems to manifest or to suggest the air, occasionally filling the lungs to the full exlife-principle as the inherent causation, not of tent, so that the oxygen taken into the lungs its actual knowledge or mechanical construction, but the retained, harmonious action. All blood.

nature seems to be in accord to establish or vindicate the final adjustment of things unto indestructible purposes. Its harps are all attuned burned, adding one-seventh to the warmth of

And thought was ever blended into harmonious sound, And I knew that I was treading on green, immortal ground.

And I see the shining valley, and the flowers gleam and gleam:

And all my ways are pleasant and all my thoughts serene; And I knew my mortal vision obscured those valleys bright, As the glory of the morning broke o'er the vales of light.

MEDICAL DEPARTMENT.

[For the Voice of Angels.] HOW TO PREVENT TAKING COLD.

KEEP the general health good; that is, keep ach will digest well, and no other; labor or exercise enough to keep up a good and free circulation of the blood, and breathe freely of pure may be sufficient to consume the carbon in the

As the carbon in the blood comes in' contact with the oxygen, when in the lungs, it is

APRIL I, 187D

the blood; still not increasing it in temperature, as arterial blood can contain one-seventh more heat than venous blood, without increasing the temperature.

This extra heat is imparted to the system by the blood, as it circulates through the arteries, and returns through the veins to the heart and lungs. When this one-seventh of extra heat is not enough to keep up the warmth of the system, the extremities begin to grow cold, and the circulation is diminished; and if this is continued till the whole system is suffering from cold, and, in this condition, if the chilled one goes into a warm room, inhaling the warm air, the blood will rush to the lungs and head, being loth to go to the almost or quite frozen extremities, and soon a watery substance flows from the nose, or coughing is induced.

drink a little cold water immediately on going into a warm room. That will be taken up by the lacteals, and carried into the blood just before it enters the heart and lungs, thus preventing any extra rush of blood to the lungs or head; as it, in part, equalizes the temperature of the system.

When the blood is pure, and the system is free from disease or worn-out matter, and the circulation is full and free, it is impossible to take cold.

It is a noticoable fact that the veins of those whose business confines them in the house, or warm shops, or offices, (women, mechanics, and professional mon,) appear to contain blood that is much darker than those whose business is out in the open air.

Those that compress the chest the most, and inhale the least pure air, have the most unconsumed carbon in their blood, and the coldest hands and feet. The consumptive patient's blood becomes very dark, after the lungs are incapable of containing nir enough to consume the carbon.

Sweating cools the system, and removes the water and effete matter through the pores; and when the sweating ceases, the pores being open, the system is liable to become too cool and chilly. To prevent taking cold, then, an extra garment should be put on. A little rubbing of the skin will cause the pores to contract, retain a just amount of warmth for the system, and prevent taking cold. A company of surveyors, who had been surveying in November and December, when there was considerable snow on the ground, the weather being cold, and they camping out where night overtook them, was perfectly free from colds, till they retired from that business and went into warm rooms. Then all of them had colds, and coughed a large part of the time.

THE USE OF SKUNK OIL.

SPRINGFIELD, Mo., Jan. 28, 1879.

To the Editor of the Ledger :

In your last Lodger, you wish to know what skunk oil is used for. Now I will tell you what we use it for out here in Missouri. We find it a fino thing for Rheumatism. A lady friend of mine was confined to her bed with Rhenmatism. She had tried every thing she knew, but could get no relief. At last there came an old Indian woman to the house, and she told her to get a skunk and try out the oil, and put a good lot of red pepper with it and apply it. She did so and is now cured. The only unpleasant thing about the business is catching the skunk. you should think this worth while inserting in your paper, it might benefit some poor sufferer. MRS. MARGARET HAMILTON.

The above I have clipped from a recent num ber of the New York Ledger. My Spirit Phy-To provent that, let the one that is chilled sician endorses the use of skunk oil, prepared as above, for Rheumatism, and all pains or stiffness in the joints, severe swelling of cords, etc. In large cities, the oil may be purchased at the principal Botanic Depots. He also tells me that the oil of fresh cols, tried out in the same manner and plentifully sprinkled with rod pepper, will answer nearly the same purposes as skunk oil, when the latter is not to be had. Rhoumatics should dwoll upon dry, sandy soil, and occupy warm, sunlighted rooms.

M. T. SHELHAMER.

[For the Volce of Angels.] CURE OF LOCKJAW.

DURING my last-visit to California, it was at Santa Clara where I mot Dr. Arthur Saxe, and speaking of lockjaw, this colobrated physician and leading surgeon said, "Jowett, you nor any other living being can cure lockjaw."

A few months after this, in the fall of 1870, I learned that a man was lying dangerously ill at Bakersfield, with an attack of lockjaw, and was credibly informed that he had been suffering in this manner five days, and that his doctor in attendance said he must die. Setting out with a determination to see the person, myself and son drove seventeen miles, from our sheep-ranch, on Kern River, to the hammock, where the sufferer was found, sheltered from the heat of the sun, lying on some words, substituted for a bed; and found that the primary cause of the contraction of his muscles and tendons was a bullet-shot down directly through his foot. We found the man with his jaws closed tight, his upper front teeth shut over and down in front of the lower ones, and unable to take any food. After liberty was granted to work over him, I said, "My friend, in forty minutes after I commence, you shall be able to open your mouth, sir." With a pleasing smile, he nodded assent, and the promise was truly met. Old Captain Stovens, (the first pioncer over the Rocky Mountains, one year ahead of Fromont,) lived within one mile, of whom we procured a kettle and some tobacco leaves, to commence the treatment, which was so very different from what is practiced by others in such cases, I will here state the mode of operation.

graduating it to a heat of perhaps 120 degrees, a small part was used to bathe his feet and ankles thoroughly, standing them in the water five minutes, wiping dry and then manipulating with the hand a short time, making downward passes, then, binding all over his feet moistened leaves of tobacco, immediately following with a both of water, as hot as could be borne. It was poured out of a coffee pot by Philo D. Jewett, (who now lives at Bakersfield,) admitting a small stream to strike the palm of my right hand, while the left was gently pressing against his forehead; the water running down and off at my finger-ends upon the spinal column and base of his back-head or cerebellum, and over the patient's cheeks upon the ground, to the amount of ton gallons, while he was bowed standing on his knees. Then immediately wiping his nock with a towel, manipulating, making passes, down from the back head, down his spine, for a while; as he stood up, commanding him to open his mouth. The tension of his jaws soon gave way, sufficient to pass his fingers in, and his tongue out; from all of which he soon recovered. A few weeks after, I saw him in the village, near, at work at his trade as a painter.

SOLOMON W. JEWETT, D. M.

[For the Voice of Angels.] REMOVING CINDERS FROM THE EYE.

So. CANTERBURY, Coun. March 11, 1870.

BROTHER DENSMORE,-I send you a simple and offectual way of removing einders or particlos of dust from the oye, which I have practisod for years : Take a knitting-needle that has been worn perfectly smooth by use, lightly smear the ond with tallow, and introduce it at the outer angle of the eye, between the upper lid and eyoball; carry it forward, and romovo it at the inner angle. By this movement, the entire surface of the upper lid and eyeball will be swept, and the speek will adhere to the needle and be removed. Respectfully,

J. OWRN SMITH.

It is the warm air taken into the lunge, when the circulation of the blood is not free and full, that causes what is called a cold.

[How to cure a cold in our next.]

J. A. SI'EAR.

THE martyrs to vice far exceed the martyrs to virtue, both in endurance and in numbers.

No man should be allowed to carry a conscionce for his fellows .- H. W. Hercher.

First, wo heated a plenty of water. After

CHILDREN as soon after birth as convenient, should be sprinkled all over with water, (not too cold,) twice a day, and well rubbed afterwards; continuing the practice every day in the year, except in cases of illness, and even then if there is accelerated pulse, hot skin, and other signs of fever. Food should be given them st stated intervals-say once in three hours through the day, but never during the night; the liabit is injurious both to mother and child. The night should be devoted solely to sleep and rest. From the hour of weaning, until after the first teeth are grown, the best food is graham broad and milk, pea and bean soups, oatmeal gruel, &c. No meat should be allowed till after the most critical period of the second dentition. A large proportion of the infantile diseases, as also the deaths of infants and childron, are produced by an indulgence in animal food.

All children are inclined to drink too much,

APR11, 1, 1879

VOICE OF ANGELS.

and this should be tirmly discouraged. The only let your bare feet touch a cold floor. If your Homes, such as contemplated by the Spirit drink should be water or milk, or both combined, and of this only a tumblerful after each meal.-Exchange.

[From Dr. Hebbard's Herald.] RULES OF LIVING-AIR AND EXER-CISE.

CONFINEMENT to close, warm, unventilated rooms is always unhealthy, and is one of the principal enuses of general debility and consumption, so common to females. If you cannot or will not have air and exercise, it is your misfortune, as much as your disease is; you must have them, or give up all hope of health and its consequent blessings.

Take an hour's active, cheerful, willing walk, three times a day, overy day in the year, no matter what the weather is-all weather is healthy to those who acoustom themselves to it; the only danger is in getting chilled—even though you get soaking wet from head to foot. Never exercise to exhaustion or decided fatigue. Avoid a draught of air as you would a poisoned arrow Avoid, also, an over-heated room; seventy degrees Fahronheit is the extremo limit of the law of health.

FOOD AND DRINK.

Whatever the person has found, from long experience, to agree with him, is safe for him to ent and drink; and whatever he has found to disagree with him, should be strictly avoided. Whatever is eaten should be indulged in good confidence. There should be no doubt that it is exactly the thing you need, and not the shadow of anxiety after it is oaten. Eat as simple food as possible, but est enough, and that which is best suited to your taste. Never be in a hurry and never be too slow in eating. Be sure and masticate what you do eat. Be regular at your meals-this is absolutely indispensable. Eat no strong butter, no fat or smoked meats, no gravies, no fried food, nothing that has a rank, strong taste. Avoid, as much as possible, high-sessoned food.

SLEEP.

Never sleep in the day time, if you can avoid it. Retire regularly at the same hour each night, at least by ten o'clock; and rise in the morning as soon as you wake. Make a business of sleeping when you do retire. Dismiss from your mind every care and every thought, and dispense with all conversation. Never sleep over eight hours in one night. Do not skep on your back or with your mouth open. The best position is on the right side. Let your sleeping-room he as large as possible, with one side at least to the sun, (an upper story is preferable;) and in all weathers have your window mised or lowered at least two or three inches. In very damp or cold weather, invalids should have a fire to get up by.

feet insist on being cold at night, have a hot movers of the plan, and now instrumentally block of wood put to each foot at bedtime. Never wear damp or wet stockings, nor attempt J. M. Allen, and his lady, and others, are into dry them on your feet. Change them as soon as possible, but before fresh dry ones are put on, rub the feet thoroughly dry and warm.

MORNINO BATH.

Begin with warm water, if you cannot bear the cold; but gradually increase the cold, and wash your body, especially the upper part of it as you do your face and hands, every morning It may be done in three or four minutes, by wetting a towel, laying it flat on the hand, and with breast projecting and mouth closed, rub fast and hard as far as you can reach in every direction; then, with a dry, coarse towel, rul yourself quickly dry and warm.

CORRECTION.

GLENDALE, Mont. Ter., March 8, 1879. slight mistake in the salve or poultice used in connection with the "Cure for Cancer," published in the Voick, Feb 15th. The quantity of verdigris to be used is only about two or three times as large as a pea. Its use in the salve is to prevent the growth of fungue.

A VISIT TO ROBERT BURNS.

BY SPIRIT JOHN CRITCHLEY PRINCE, THROUGH THE ORDANIAN OF M. T. BILKLRAMKR.

I had long been pressed and improssed to pay a visit to the spiritual locality where Robert Burns-Scotland's favored child of poesy-has taken up his abiding place, and where he extends the thorough hospitality of a genial heart, and where all kindred souls are welcomed with royal cordiality.

I had met Burns upon many occasions, since my entrance to the joys of Spiritexistence ; I had seen him in public convocations of the poets; had been with him at friendly gatherings, where souls like his met to enjoy the rich and varied productions of each others' minds; 1 had seen him in hall and bower, amid lofty and lowly scenes alike; and finally, I had received a visit from him in my own privato domain ; but as yet I had novor responded to his kindly, soul-given invitations, nor to my own urgent interior impressions to repay the visit. But an opportunity at length presented itself for me to do so, and accordingly, in company with a friend-who wished mo to travel. not by the propelling force of will, but leisurely, as mortals do, and who accompanied me to point out the natural beautics and points of interest that spread all along our route-1 set out with a joyful spirit, and anticipations of a rich treat in store, to visit the Spirit-home of Scotia's immortal bard.

VOICE OF ANGELS.

"Well, lad," replied my companion, "it's not that so much; I look after them every day, of course. See, they have water, and just the right degree of light: I trim and train 'em, when there's muckle need; but I think its adaptability to surroundings that makes them fine; and then I love 'em every one, and it's real pleasure to care for them." And it was indeed with unfeigned fondness that he bent over a rare stock of geraniums and lifted a magnificent bloom to my view.

We wandered along, chatting on this shrub and that plant, the proper treatment of this stock and the right degree of culture for that variety. Nature and time had made him a thorough floriculturist; it was the spiritual refining of that love of Nature, manifested in the farmer-boy, using the plough and share, and weaving songs of richest beauty over his work.

The sun shone brightly; the waters gleamed in gladness; birds sang in the waving tree-tops, and love and beauty made an enchanting scene for the eye of an artist or bard.

TEBOUGH CHARLES THOMPSON.

Now weary with long hours of toil, Still burning out the midnight oil, While conning many mystic pages, The occult lore of by-gone ages, In seeking for the "Pearl of price," Wheree'r a germ of wisdom lies— In ancient writ, in modern lore, In Nature's wondrous, varied store,

In chronicle of noble deeds, In truths which outlast musty creeds— Truths which grow brighter day by day, As knowledge chaos clears away:— My soul is moved with strong desire To measure heights sublimely higher Than e'er by mortal man was scanned; Between two worlds I seem to stand,

And enter a superior state, Man's highest good to contemplate. (Hush!) Spirit-breezes, wafted o'er The mystic stream, from shore to shore, Bring incense, melody and song: (lie still, oh, heating heart!)—a throng Of shining angels gather round With kindly mien, yet thoughts profound.

A hold ashin stable o'as not sand

But not at once—not at one bound Ascend the ladder's topmost round; But work with a believing mind In ways to benefit mankind: E'en we are winning pearls today By coming when we heard you pray.

"Woull you go forth and win another? Then lift thou up some failen brother; Go lead him to the way of right, And point him to God's cheering light. True deeds, though small, build up the man; No one great act life's bridge can span; He who is faithful all along, For great emergencies is strong.

"But he who waiteth day by day For great evonts to clear the way, Will faiter when sharp trials come— In utter helplessness be dumb. If for the pearl of price you crave, Adorn the jewel that you have; Add to its brightness, week by week, By paying out the good you seek.

"The Father hears you when you prny, And angels cleave the abining way, And light and wisdom, strength impart, And thus sustain your fointing heart. There is a Heaven beyond the sky, Where you shall live and never die, Where noblest powers the mind engage, And progress sure from age to age.

"Know immortality is thine, And gially bow to duty's shrine; The good for which you've long aspired Cannot be bought, must be acquired, And by exertion, not by prayer. Weigh well the truths which we declare, And honor, wisdom, glory, power, Will fruit and blossom in their hour."

Thus spake the Angels, and resigned Am I to obey the Infinite Mind, Believing that if I prove true In all things, I no more can do; And having done the best I can, Must wait till law perfects God's plan, And opens up the blessed way For which I struggle, work and pray.

When hope's fruition shall be found, And usefulness and love abound, Beatifying glory will The measure of my senses fill, And knowledge without limit be, Except my own capacity. Oh, God, sustain me until then In virtue, honor, truth—Amen1 ST. ALBANS, Vt.

> [For the Voice of Angels.] LINES,

TOITTEN ON THE ANNIVERSARY OF TH

A voice from over the river of death, With a glorious truth to tell!

'Tis told! and the Joyons, sweet refrain Has been heard on every hand, All over the earth, again and again, And up in the Spirit-land.

Ab, yes! that grand immortal choir Has many a concert given, That charmed the soul like a seraph lyre From the upper courts of heaven,

And still around our lives today That holy anthem lingers, For still the chords of that heavenly harp Are touched by Angel-fingers.

So well may we meet, and fool to rejoice; And well may our hearts be stirred. That ever the sound of these little raps By the children of mon wore heard.

[For the Voice of Angels.] PASSED TO HIGHER LIFE, FROM CANDIA, N. 11., FEBRUARY 15, 1879, ELLA F. PATTEN.

TREODOR MRS. A. B. P. ROBERTS.

ELLA has gone-our loved one dear-Her gentle voice no more we hear; Her graceful form no more we meet; Her gentle hand no more we greet.

Peacofully she resigned her breath, And sweetly closed her eyes in death; A holy calm stears ofer my sense, And joy to fully recompense For all the pains my flesh can know, Or sorrowing spirit undergo. Hark!-Oh, my soul, what words of cheer In hymns of melody I hear! Celostial fingers sweep the string, While thus angelic voices sing-

"Hail! Brother, hail! Oh. child of earth, Romember everything of worth Is of small particles composed, In its own atmosphere enclosed, And was not formed in one short day; But evolution marks its way. The past is past —for future good Improve the present, as you should.

"The giant oak, the cedar tall, Came up from gerns both tender, small, Each little speck, from delt to hill, Declareth the Almighty's will, Progressing through refining fire, Proclaims the mandate, 'Come up higher!' Proves no ordeal is in vain, Although conceived and born in pain.

"The years between the pains of birth And joys of manhood, wisdom, worth, Are years of sorrow, pain and strife; Yet there's reward in Spirit-life. The Angel Host who greet you now Once toiled on earth and held the plow, Or labored for the rights of men As best they could with voice and pen.

"All that you seek or wish to know Will the All-Father's hand bestow, WRITTEN ON THE ANNIVERSARY OF THE SPIRIT-BIRTH OF A DEAR SISTER, FEB. 20, 1879.

DY M. THERESA SHELHAMER.

SEVEN years, sweet sister, since you passed away To dweil in heavenly mansions up above, Where angels chant their songs from day to day, And all are guarded by the Father's love.

Seven years, aweet sister, since the angels called Your Spirit home, and left us here to mourn; But not as those bereft of faith and hope, For we had seen the day of promise dawn.

And all the years have brought you closer still: Our hearts receive you in their wealth of love, As through the changing scenes of good or ill You calmly point us to the world above.

The roots sank deepest in the soil of earth Send forth their greenest verdure towards the sky, While gaining strength and vigor from below The bloom in fragment beauty by-and-bye.

So tendrils of the heart, that cluster round The lovely forms we lay beneath the soil, OR push beyond the lowly, earthy mound, And blossom in their sweetness up to God.

And thus our dear ones in their heavenward flight Will draw our souls in aspirations on To sook the upward path their foot have trod, The bright eternal home where they have gone.

EDITORIAL.

MATERIALIZATION VERSUS TRANSFIGU RATION.

At this time, when so much is said and written concerning the phenomena of Materialization, and at a time when so many questions are ruised as to its genuineness, we deem a word upon the subject given to the readers of the VOICE OF ANGELS will not be out of place.

From our own observation and experience, we believe that we are safe in affirming that the matter under discussion is very little understood by mortals, and that frequently grave mistakes are made in regard to the manifestations of Spirit-power that are presented to their notice.

That Materialization or form-manifestation is possible for the Spirit, is a fact that has been amply demonstrated to the world, not only by careful and judicious investigations in our own country, but also by the scientific research and investigation of the profoundest thinkers and ablest scientists of the mother-land.

Such men as William Crookes and Alfred R. Wallace stand at the head of the ladder of scientific investigation ; and when after careful study, honest investigation. and after making the most judicious experiments, they give in their testimony of the truth and genuineness of form-manifestation, as produced by Spirit-power, the facts they present to our notice can neither

tions of a material or physical nature, it and contributed of their means to place is just as necessary for the Medium to keep these Mediums in conditions where they his or her physical system, and their men- would be raised above want and the necestal nature, also, in the best possible condi-|sity of demanding a price for their sertion, as it is for a trance or inspirational vices. Medium to do so. It is necessary that his daily home and surroundings be harmoni- by the niggardly parsimony of wealthy ous and cheerful; for from harmonious Spiritualists humanity is cheated out of and cheerful natures living together there those manifestations of Spirit-power, that emanates that bright Spiritualized aura. exhibition of Spirit-power, it is necessary that they continue to remain in one localhouse or a room has become thoroughly permeated with Spirit-force, become magnetized with the constant presence of Spirit-workers, better manifestations are produced than though a change of scene and locality was made at every sitting.

Spirits do not object to the reasonable testing of their Mediums. We speak advisedly on this head, as one who knows. and tender as possible with their human instruments, and the invisible operators will allow you to apply any crucial test that may be deemed expedient by a committee of sensible and impartial persons.

There are other little conditions necessary to success, besides the harmonious condition of the members of the circle; such, for instance, as the state of the atmosphere, etc., at the time of holding the seance, which cannot be depended upon to exist favorably at any time; therefore it is well-nigh impossible to secure manifestations at every trial; neither should the Medium nor sitters expect it.

The temptation to supplement with tures and form of the particular Spirit who be gainsayed nor denied. wishes to represent himself or herself to But while the power of Materialization fraud the futile efforts of the Spirits is the friends. At such a time the Medium by Spirits is a fact, and Mediums exist all sometimes too great for the Medium to in his transfigured state may be brought over the country, who possess the peculiar resist, more especially if there is occasion out of his confinement, and may be recogaura through and by which the invisibles to fear the loss of the price of a seance. nized by some one (by his strong resemare enabled to produce these manifesta-We regret most sincerely that the habit of blance) as a departed friend; should be sitting for manifestations for money tends tions, it is no less a fact that the conditions be grasped at this time, the shock would necessary to cause these manifestations to to create in the breasts of some Mediums break the influence, the Spirit would vanappear with full beauty and force are exthat mercenary motive that seeks its own ish, and the Medium be left in the clasp tremely delicate and very uncertain to be gratification rather than the desire to proof the party holding him. depended upon. Hence it may be that the mulgate the truth at all hazards; and spirits may produce certain manifestations while we recognize the fact that Mediums We know this to be a fact; we know it at one time, that are perfectly satisfactory for Spirit manifestations cannot give their has been done; we have seen it from the and convincing to the beholders, and at time and strength without price, we regret, Spirit-side of life; our own experiments another seance their efforts to manifest may, we deplore that Spiritualists who are with the VOICE OF ANGELS' Medium may be but partially successful, or alto- able have not formed organizations-that proves the law of transfiguration; we is, as in this country no wealthy believer know that by this law all we have to do is gether futile.

In order to have satisfactory manifesta- in the truth would undertake it alone-

It is a burning shame that it is so; for knowledge of Spirit-life, that would bless

But, before we close, we must speak of and convincing as materalization, and one, With most Mediums for this peculiar too, that is used far oftener than is understood by mortals.

We refer to the phenomena of Transity and not change about; for after a figuration-when the Medium's countenance is lighted up with a glory beautiful to behold, when the features shine as a lighted candle gleaming through transpar-This is a phenomena common ency. enough to Trance Mediums, and often beheld, no doubt, by some of you; and with Personating Mediums it goes still further, frequently changing the Medium's face to a semblance of the Spirit controlling; and Avoid cruelty or unkindness; be as gentle this is the basis of Transfiguration-a phase of manifestation frequently made use of by Spirits, when conditions are so unfavorable that independent materialization cannot be given. This is the easier mode of manifesting to mortals; for while with materialization Spirits are obliged to gather certain particles and elements from the atmosphere, from the Medium and sitters, with which to construct a form, independent of any other structure-with Transfiguration it is only necessary to throw an influence over the Medium, and with a certain knowledge of chemical laws so change and transfigure the form and countenance, to resemble the earthly fea-

APRIL 1, 1879

APRIL 1, 1879

to use the Medium's body as a framework with which to build upon, and by changing certain elements we can so transfigure her countenance as to have it appear that of another person.

Now, it is time Spirits and Mediums made this fact known; it is time that when Materialization cannot occur, and Transfiguration can, that it should be so understood. A little more light must be admitted to investigators by Mediums-a little more light, materially and Spiritually. Most Spirits are ready to demonstrate the truth to mortals; Mediums must not stand in the way. When Transfiguration comes, let it be understood as such, and not as Materialization. When inspiration comes, let it be understood as such, and not as Trance Mediumship. So shall the truth go on, and fraud and error become eliminated from our ranks.

WE would call the particular attention of our readers to the advertisement headed "To all Spiritualists."

"The Dawning Light" is a beautiful picture, and has for some time hung upon our walls, the admiration of both mortals and the Angels that visit us. It is a magnet of good influences, and should occupy a favored place in every Spiritual Home. Its price has been reduced to a very low figure, considering its high artistic merits.

The following touchingly beautiful and inspiring lines are engraved upon the margin of the picture :

> "Still the Angels bridge Death's river, With glad tidings as of yore; Hark | their song of triumph swelling, Echoes back from shore to shore; We shall live for evermore."

NOTICE.

I HAVE been requested by the Supernals engineering this work to open a department for children, to be called "Children's Department," and to request all who feel any special interest in rearing the young to forward contributions to this new department. Hoping our friends everywhere will take sufficient interest in the move to send in contributions that will not only tend to interest the young, but at the same time instruct them in the laws and principles underlying the philosophy of life, I remain your friend and co-worker.

particular Spirit can manifest or not, parties will see how impossible it is for her to make contract with any one to furnish messages from their friends; and it necessitates the trouble of returning the money in every case. Also, Miss Shelhamer's private sittings are devoted to medical business entirely, such being the arrangement made by her Spirit-band.

CORROBORATION OF SPIRIT MESSAGE

THROUGH M. T. SHELHAMER.

SHELDINA, MO., March 7, 1879. D. C. DENSMORE :- Dear Sir and Bro. -Last week I forwarded you some change to procure another copy of the VOICE OF ANGELS of Feb. 15th, in which was a characteristic message, through M. T. Shelhamer, from my uncle, Jesse Burnham, who lived in Gloucester, Mass., before he passed away.

I also sent a confirmation of the message at the same time. Having sent away my copy containing said message, to some friends interested in his welfare, and not being willing to miss one number, as want to bind them at the end of the year, was my object in sending for it.

Since I sent the above note, I have received March 1st issue, containing another important and undeniable proof of the continued immortal existence and personal identity of a niece of mine, whose name was Annie Talbot, which undoubtedly will be the means of leading those tied hand and foot in churchal creeds and dogmas to investigate our heaven-born philosophy.

Having sent away the paper containing this last message, as I did the other, I am compelled to ask you to send me another copy of March 1st, and oblige

Sincerely yours,

C. G. BROWN.

VERIFICATION OF SPIRIT-MESSAGE

THROUGH WEST INGLE.

OAKLAND, Cal., Jau. 25, 1879. MR. DENSMORE: — Dear Sir, — In the VOICE OF ANGELS of Dec. 15th, 1878, I recognize the communication from Julia Boughton Curtis, through "West Ingle," as coming from my wife, with all her characteristic love and tenderness. Fraternally yours, MARSHALL CURTIS.

SPIRIT MESSAGES,

GIVEN AT THE "VOICE OF ANGELS" CIRCLE, Максн 2, 1879,

THROUGH THE ORGANISM OF M. T. SHEL . HAMER.

INVUCATION, BY ROBERT ANDERSON, CHAIRMAN.

TO THEE, oh, Infinite Spirit, would we offer up the incense of our Spirits ! Rich, indeed, are our possessions, although we are not clothed in princely robes; although no gems bedeck our brows, no shining gold is ours; yet we are possessed of wealth, for we are thine; we are thy children, and must enjoy thy munificence forever.

We bless thee that it is our privilege to meet, from time to time, in order to convey consolation and strength to the needy. We bless thee that thy promises, thy provisions are sufficient for all wants. We thank thee for the work carried on between the mortal and the immortal worlds, unseen though it be by the giddy multitude, unrecognized by those steeped in the frivolities of external life, and who look not for better things.

May thy messengers of love convey the harmony of the sweet songs sung unto the souls dwelling in ill harmony and discord ; and oh, may the prayer, "Nearer, my God, to thee, nearer to thee," be answered. May it give the struggling souls strength, courage and fortitude; may their lives blossom like the beautiful flowers in works of good will to all people, that when they enter my presence they may sing a nobler. sweeter song of pruise.

Blest ones, who delight to do his will. we ask that the darkened Spirits located afar off be brought near, that they may receive of the light of truth.

Bless all instrumentalities on earth for the dissemination of truth; aid and assist each one in the work for humanity; and finally, hasten the day, when man shall become a law unto himself through love, when his will shall be done on earth, even

Pub. Voice of Angels.

NOTICE.

WILL Mr. Geo. McWenver please send an addressed envelope to Miss M. T. Shelhamer, that she may return his money; as she cannot noake out the address in his letter.

Miss Shelliamer particularly requests the little Florence. The little dear says, "I am readers of the VOICE OF ANGELS not to send younger in Spirit life, hut would like very much her money in order to receive a Spirit-commu- to join the 'Tunie Band.' and come to earth nication. All Spirits presenting themselves at with her, and bring a love-message to my mamour Circle are made welcome; but, as it is im- ma and grandma, such as they will feel satisfied possible for the Medium to tell whether any comes from their 'little Florence.'"

FLORENCE TO "TUNIE"

BOSTON, March 16, 1879. To the Publisher of the Voice of Angels : ENCLOSED is a little gift to "Tunie," from

as it is in heaven.

SABAH ALLEN.

I AM Sarah Allen. I have been gone away a long time; I don't know whether I can do any good by coming here, but I would like to reach the hearts of my friends in this way, that they may know I live and love them still. I have never been here before, and I hardly know how to act: but they said you would print what I said. and probably it would reach my friends. I am twenty-three or four. It's a few years since I went away. I come from Vineland.

MRS. FRANK WHITCHER.

THE Spirit labored very hard for

breath ; also seemed to have a severe pain in her side.]

used to this; I have only been away a few months, and-shaking her head-1 don't understand it; but I thought if it was true, and I could come back, I would like so well to come to my husband, and ask him to go to some private Medium alone, where I could come and talk with him. There is so much I would like to say to him, so much to tell him that he knows is true, that I think it would do him good. want him to have his eyes opened, while he is here.

you want him to.]

Oh, yes, sir; I think I have done so much against this ns I was. once or twice, I don't know how; only I came near him, and thought intently how I would like him to act in certain things, and he did; although I think he would have done differently himself.

I want to say this is a beautiful world, and the Spirit finds ample opportunity to develope all its natural abilities ; that Maud Hilton has not become an idler, but can study and perfect horself in all that is ennobling to life.

My husband is Mr. Frank Whitcher, Hyde Park, Mass. You will please excuse me for coming. [We are here to listen to Spirits who wish to communicate, and you are welcome.] Thank you.

Address as above.

DELANO P. NICHOLS.

THAT was a good old tune you sang, sir -"I'm going home to die no more." I enjoyed it very much. I am also from Hyde Park, Massachusetts, sir, and want to send

But my Danie is the one I want to bring when I was here. She's married, and her near; I want her to feel her father's pres- name's Jane Parkman.

I don't understand it. I am not much once and his love. How often I have been with her and her mother, so anxious to let found his friends, those he cared about. them know, to advise them in their counsels, and feeling that had I felt more len- it is because of the state you have been in; ient towards this belief I might then have

> who passed out like the may-flowers, has charms, but I do know about California's been a great comforter and help to me. She would bless them with her love, if charms of California that drew you there, permitted to do so.

L. Whitcher tells me his letter never went things; turn your back on them, and set [You see how you have controlled this to his friends. I urged him to come here to work to lift yourself up to the plane of Medium, how you make her talk and act tonight, but he says he will wait and see as you do; perhaps you can come near how I succeed. I've seen Perkins, but sire earnestly to find them; you must seek your husband and influence him to do as he's uneasy and restless, and not at all in my sphere. I remember when he was as

> I used to wonder how such a smart man as Lawyer Giles could believe this; but I wonder at nothing now; we change our opinions over here; but like the old tunes yet.

I am Delano P. Nichols, painter, of Hyde Park. My daughter is Mrs. Sarah Clark.

[Mr. Densmore, you had better send to Mrs. Sarah Clark, Hyde Park, Mass. 7

GEORDIE DIOKERTY.

You don't know me. I'm all wet. Do you like to go fishing? [Yes.] Let's go. [Not tonight.] Won't you? I guess I've been in the water; I like the water; I guess it's born in me like the ducks. ain't turned a girl, have I? [Oh, no; you] are only getting a young lady to talk for you.] Well, ain't this '78? [No, this is] March, 1879.] Oh, then I've been away most a year. I'm bigger, too, than I was; guess I'll grow just the same ; but I want to say I'm alive and having a nice time. I go to school; I like it better'n I used to, and I bring back my love, and come every day to bring it, too. I'm Georgie Dickerty. I lived in East Boston. My pa's a mariner, and his name's Samuel Dickerty. must have floated here.

I always thought when a man died, he [Haven't you found yours?] No. [Ah, you have been drawn away from your impressed them with my presence and love. friends. California charms were too much The dear little angel they eared for, and for you, 1 I don't know about California's Well, it was the disappointments. and its disappointments that troubled you. I have met a good many here. Martin Now, my friend, cease to think of these your friends. To do this, you must deto make yourself better by helping others; there are plenty worse off than you are.

"Cousing to give, we cease to have; Such is the law of love."

Now, you try and help those you come across, who need help; try and desire to live better and purer yourself, and you will find your friends. Your mother will be drawn close to you, and no doubt she can take you to your sister.] I shouldn't wonder; she was with her a spell when here. Well, I'll try and do it. [That's right. Come again.] I thank you.

MESBAGES GIVEN MARCH 9, 1879. MRS. OHESTER HARTZELL.

I HAVE come a great ways, sir, with the hope of sending a word of remembrance, of love, and most of all, of grateful thanks for past attentions and kindness, to many

and all dear friends. I was ill many years ; I never knew, for the last twenty years, what it was to be entirely free from pain a week at a time; and, oh, the blessed relief, the sweet release from physical fetters, is very precious to me. I was ill so long, that the body lost something of its arbitrary power, and my Spirit assumed control. I believe I went to heaven a few days before my decoase, and communed with the angels, as much as I believe I have been there since. And this was very sweet. I had no fear, of death, and I was contented to go. I left a dear husband, who was ever devoted, loving and kind, and who has my blessing and love always. I have met my dear ones, and I am happy.

a long letter to my family. I was very much opposed to this belief when I was here, but I find a great deal that is good in it, and I want to make amends for all I said against it. It's six years very soon since I was hustled out of this world. I wont blame the horse, altogether, for 1 was seized with a kind of vertigo; and when 1 fell, the poor animal, feeling frightened, kept trampling and pawing, until I was made me unconscious.

and had no idea I was going so soon; if I

I left a wife, daughter and son-in-law; go; but I don't suppose they'd care to MRN. ADELIA HOTNER. and in this public manner I ask my son's hear from me. I've a sister, somewhere I AM an old lady, but I would like to pardon for all I thought about his belief in California, I'd like to reach, but I don't come. [You are welcome.] I have not and hope ; he always will call me father. know as I can ; for I lost trach of her been away a year yet. I don't understand

JAMES MATHERSON.

THIS is the third time I've tried to talk all used up. I didn't feel it so much as tonight, but every time I've been foresis and mother thought, as the faintness stalled. I come from the Golden State-James Matherson. I don't know as there I am an old man, but I did not feel old, is any object in my coming; perhaps I'll get help for myself; don't know. [Have had, I would have had accounts balanced. you any friends on earth?] Yes, as friends

I passed away early in July. I came from Alliance, Ohio.

MRS. CHESTER HARTZELL.

APRIL 1, 1879

very well how to manage the Medium, but where she is. [Where did you live?] I will do the best I can. My mme is Mrs. Adelia Rotner. I want to send my love mamma lives, 'cause she's moved from tenderness of souls waiting to receive them. to all who are dear to me, and to say, I am where I was; she didn't like to stay. often with them, and it seems so good. can get around all right, and without pain; I can wait on myself, and go where I like, and it's all beautital.

Please to tell Jane, I have found all the darlings, and all my friends are so kind years old; and I want mamma to know I and loving, that it is real joy to live here. Tell her I bless her for everything, especially for her kind thoughts and loving anybody; and she will know me when she memories of me. She is, and always will be a well-beloved daughter to me, and all so much, there. with hor are dear.

I have a beautiful home, cozy, neat and pretty-everything to bring contentment and pence; and loving faces and gentle hearts to make it a happy home. My heart is entirely satisfied now, for I have all with me whom I yearned to see, and the dear ones here will soon come.

[Please send it to Jane A. Rotner, Decorah, Iowa. I went away on a good day, and a joyful one.]

MRB G. F. KNOKES.

I HAVE been trying years to come. never realized before how difficult it was our hands and hearts wonderfully, for we for a Spirit to send a letter. I have been have so many poor ones to feed with Spirto the Banner of Light ever so often, but itual food, who could get it in no other I suppose if every nover could come. Spirit who promises before death to go there and manifest, did so, the Banner would have to engage a good many Mediums.

visit her in her far-way home. I come to let mother know of my presence, but I cannot. Still, I love to think the time is not far distant when she will be with me.

New York. I don't know the house They put me in a box—you know, the other mo; and then mamma went away. I went too; but I can't come near enough to hear any one say where it is.

My name's Lottie Williams. I'm eight ain't gone away off, where I never can come back; and I ain't forgot her, nor She says the words of farewell may be left comes to heaven; and I do love her ever

Mamma's name is Nellie Williams.

TUNIE DENSMORE.

GOOD EVENING, sir. [Good evening, Tunic.] I come in behalf of some Spirits I have found, but who are unable to control the Medium. You know every Spirit cannot control the same Medium. [That's true.] If I could, I would bring every Spirit, and they should send a message to their friends; but I will do all I can, and just here I want to thank all the dear friends who have so kindly responded to I iny appeal for help. It has strengthened way. I feel sure that every kind wisher of and every pecuniary donor to the Tunic Fund must receive a blessing from the Angels.

Before I speak of those Spirits I have I want to tell my mother that I often hunted up, I want to tell of a beautiful young-lady-Spirit present,: Her face is see all the family, and I am glad to find radiant with goodness and love; her garthem doing so well. I often wish I could ments are pure white, and shining like frost-work; her nut-brown hair is confined back from her face by a wreath of snowdrops, but it falls thick about her shoul-I feel young and strong, and I am happy ; ders ; she carries a snow-white, living bird in her hand, which I am told is emblematlical; she gives the initials A. C. W., and this is what she says : "Tomorrow, the 10th of March, is the anniversary of my mortal birth. Three-and-thirty years have slipped away, but the day is remembered as faithfully and lovingly by tender parents as when I romped in childish glee around the dear old hearth-stone. Years have fled, since first their one nestling came amid the winds of March to cuddle into the deepest recosses of their love. Years have fled, since she winged her flight to sunnier climes, but not to tenderer love; and tonight she comes to this strange place, to assure those loving hearts that she remembers this mortal anniversary, and to waft them her blessings of love and peace; I WANT my mamma. I don't know to whisper of that garland of immortal fantum; the egg coating the bowels.

In flowers she has woven for their crown of glory, woven from the undying love and And now I want to say, an oldish lady, named Nancy L. Keeler, sends her love to her children and friends. She has been away some time. She says she saw the

angels just before she died, and tried to tell her daughter, but didn't have strength ; she was too far gone. She also tried to leave loving messages for others, but failed. unspoken, for now she would change them to words of greeting and of joy; that she can come near to them in sorrow as well ns joy.

Mary Baker, of Brigham, Maine, who has been in Spirit-life a number of years, sends her love to her husband and family ; also to friends. She says she is happy. and is glad that his home is comfortabl and cheerful.

I want to tell Mr. Lockwood I have found his friend, "the squire," and he says he will try and communicate with him. He is getting along first-rate, but says he wishes he understood things better when he was here ; some of his affairs would have been disposed of differently.

A beautiful lady-Spirit, who has been in Spirit-life a good while, and gives the name of Ellen, wishes me to convey a tender blessing of love and sympathy to Mrs. Session, of Michigan. She desires her to go on in her efforts for Spiritual culture and developement, and it will bring the loving angels close to her side ; and even if they cannot make their presence tangibly known, they can assist her in many ways, can lighten the cares of life, and bring pence and rest to her Spirit. She says, sit along and request the angels' presence, and they will surely coma.

That is all tonight. With love to every-TUNIE DENSMORE. body, I am

for it is all true.

I am often with my husband, also. The years are beginning to tell on him now; but I am so glad he is strong in the faith ; I am glad he has done as he has, and for the changes that he made, for it was best for him. I bless them all; I bring love to each one, and will guide them over the pathway of life. A Spirit ever rejoices in all that makes their dear ones happy : always unclouded by mortal misunderstandings, they thank God for whatever good may come to those they left on earth My husband is G. F. Knokes, of Chiengo. My mother is Mrs. C. A. Haskell of Marshall, Minnesota. I thank you. MRN. KNOKEN.

LOTTIR WILLIAMS.

VERIFICATION OF SPIRIT MESSAGE. THROUGH M. T. SHELHAMER. SHELBINA, Mo., March 1, 1879.

DEAR BRO. DESSMORE, -In your issue for Feb. 15th is a message from Capt. Jesse Burnham, of Gloucester, Mass., through M. T. Shelhamer, which is exactly characteristic of him; and I take great pleasure in acknowledging it.

> Yours, fraternally, C. G. BROWN.

FOR CHOLERA INFANTUM. - The whites of two eggs, well beaten; then mix with pure water, add one tablespoonful of orange-flower water and a little sugar; a tablespoonful every hour. It will cure the worst case of cholera in-

METRORS.-It appears that, in some meteors that have lately fallen, a notable quantity or gases and of graphite have been found. Of the gases, hydrogen is quite abundant, and some curious compounds of hydrogen, carbon, and sulphur. These gases are occluded, showing that the meteorites have traversed regions in space where such gases are abundant and oxygen was not present, for all three of these gases unite very readily with oxygen The spectra of comets show also the presence of hydrocarbon gases : which is additional testimony that a comet is but a pack of meteors, and that its tail is due to refraction of the sun's rays in the gasoous nucleus. But the presence of graphite in a meteor is as suggestive as anything can be. Graphite is very abundant in some of the oldest rocks upon the earth; and some geologists have thought that its presence there or elsewhere was evidence of some form of animal or vegetable life. Now that it has been found embedded in metallic matter that comes from regions of space, it is evident that such a view of the origin of terrestrial graphite must be abandoned.

HOW TO BREAK OFF BAD HABITS .- Understand the reasons, and all the reasons, why the habit is injurious. Study the subject until there is no lingering doubt in your mind. Avoid the places, the persons and thoughts that lead to the temptation. Frequent the places, associate with the persons, indulge in the thoughts that lead away from the temptation. Keep busy; idleness is the strength of bad habits. Do not give up the struggle when you have broken your resolutions once, twice-a thousand times. That only shows how much need there is for you to strive. When you have broken your resolution, just think the matter over, and endeavor to understand why it is you failed, so that you may be on your guard against a recurrence of the same circumstances. Do not think that it is an easy thing that you have undertaken. It is folly to expect to break off a bad habit in a day, which may have been gathering for long years.

"TUNIE" FUND.

Wk have been requested by the Hand controlling the desthey of this paper to only upon those of our patrons who are able, to contribute to a fund for soluting the VOIOR OF AN-OKLS free to those unable to pay for it. To any and all our potrons who can send any amount, if over so small, for the abuve purpose, we will credit the amount they may send, in the next issue of the paper. Since our last, we have received the following donations to the "Tunie" Pand Seth Stowell, Elgin, Ill., **\$1.00** Mrs. Geo. N. Wilcox, Madison, Conn., 0.38 . W. L. RELIGIO-PHILOSOPHICAL JOURNAL, A Large Eight-Page Weckly Paper, Devoted to Spiritualism.

84

HEAT AND MOTION.-According to J. Ballynski, if the motion of a leaden bullet were all converted into heat, it would amount to three times as much as would be sufficient to melt the quantity of lead found to be melted by actual experiment. This he explains as having been expended in denting the iron plates of the target. By using a hard stone target, he was able to completely melt the bullets fired.

ALWAYS say a kind word if you can, if only that it may come in, perhaps, with singular opportuneness, entering some mournful man's darkened room like a beautiful fire-fly, whose happy circumvolutions he cannot but watch, forgetting his many troubles.-Helps.

To your bonic, if it is not already there. Its artistic merits render it for the palace as well as the humble cottage. Read the above advertisement. np 1
