MOSCOW, IDAHO

A SPECIAL MESSAGE FROM DR. ROBINSON TO NEW STUDENTS

My dear friend and fellow-student:-

There are certain things I wish to say to you at the beginning of your studies with me. It will pay you many times to remember these things, so lay this letter aside for constant reference. When Almighty God revealed the staggering Truths of His existence in men and women, to me, some few years ago, with that revelation came the responsibility of disseminating these priceless Truths. The reason the revelation came to me instead of another, is that the Almighty knew that I could be trusted to do just that, at whatever the cost.

I don't want there to be any personal sentiment between us in our studies together. I love everyone. But I have a monumental work to do. I can do that work better and faster if sentiment does not enter in. You have come to me to be shown what the TRUTH of the existence of Almighty God is. You want to know where God is, and how the actual Power of the Great Spirit--God, can be used by you. All right. I can, and I will show you, if you want to be shown, and I presume you do. But you will have to do as I ask you to do. You are, in fact, entering school all over again. The most pricelessly beautiful school you have ever attended. Its rewards will register in eternity, and in your life, from now on.

You must give me at least half an hour daily. You must follow me exactly as I ask you to. You must faithfully do the simple exercises I have provided for you. If you are smart, you will. You won't find the Power of God by listening to either priest or preacher. You won't find the Power of God by reading a bible. You will find God by doing what I ask you to do. There is definite, simple, happy work for you to do. You are expecting the God-Law to manifest in your life in a material way. All right, you'll go to work, and actually work for this priceless Treasure. You'll find It. There's no question about that. But if the Power of God is worth having, it's worth working for. And you'll work for it, or you won't find it.

Now one more thing. I don't want you to take my time answering personal letters. This Teaching is written so plainly a child can understand it. If there are problems you'd like solved, remember this--the more you find of the actual Power of God, the more sure will you be that the answer to those problems lies not in me, but in the invisible Realm of the Power of God. So, instead of writing me your problems, take them up with God, as I show you how to in these Lessons. Discard whatever references there are in the Lessons to personal correspondence and advice. Also, I want to ask you not to call me long-distance, as thousands do. I must have a certain amount of sleep. I cannot do that with the telephone ringing all night. One more thing--please do not come to Moscow to see me. Every waking moment must be given to this stupendous task of telling the world about the present existence of the Spirit of God.

Address all business correspondence to The Administrative Dept., Psychiana, Inc., Moscow, Idaho. Not to me--please. And may the Spirit of the Infinite God give you intestinal fortitude enough, and earnestness enough to plough thru to the unsearchable riches of Almighty God--in you. For that's where you'll find God.

*Frank B. Robinson*

THE HISTORY OF THE UNITED STATES

The first part of the history of the United States is the history of the colonies. The colonies were founded by Englishmen who had come to America in search of a better life. They were at first dependent on England for everything they needed, but as they grew in number and power, they began to assert their independence.

The second part of the history of the United States is the history of the Revolution. The colonies had grown so strong that they no longer wanted to be ruled by England. They fought a war of independence, and in 1776 they declared their independence from England. The war ended in 1781, and the United States was born.

The third part of the history of the United States is the history of the Constitution. The new nation needed a set of laws to govern it, and in 1787 the Constitution was written. It set out the powers of the government and the rights of the people. The Constitution has been the foundation of the United States ever since.

The fourth part of the history of the United States is the history of the Civil War. The country was divided into two parts, the North and the South, over the issue of slavery. The North wanted to abolish slavery, but the South wanted to keep it. In 1861 the South seceded from the Union, and a war broke out. The war ended in 1865, and the Union was reunited.

The fifth part of the history of the United States is the history of the Reconstruction. After the Civil War, the South was in ruins, and the country needed to be rebuilt. The Reconstruction period was a time of great change and progress, but it was also a time of great struggle and hardship.

# DAILY PROCEDURE FOR EVERY "PSYCHIANA" STUDENT

If this procedure is followed faithfully and consistently a marvelous change may occur in your life and surroundings.

\* \* \*

**FIRST:** On awakening, or before the day's work is begun, close your eyes, keep quiet for a few moments, and there, "in your closet" quietly recognize the invisible Power of the Spirit of God, realizing that this Power actually is God. Say to God what is uppermost in your mind. The absolute assurance of the fulfillment of that desire will come to you. You might say something like this: "Spirit of the Living God, I begin this day recognizing your presence IN ME. I'm going to let you guide my every movement through this day. Thank you, for being so close to me." If some special problem confronts you, talk to this ever-present living Spirit, in you, about it. The contact with God which you make, CANNOT FAIL.

**SECOND:** At breakfast, or on your way to work, and at work, start the day with a smile. If a family man or woman, smile at the wife or husband, and the kiddies, too. The Spirit of God in you will make you smile whenever you want to. On arriving at work, greet everyone with a smile and a "Good morning, Bill," or whatever the name may be. On the street-cars or bus, smile at everyone who looks at you, whenever you get a chance, whether you know such person or not. They won't think you're crazy. What they'll say is: "There's a peach of a fellow." Start a friendly conversation whenever you have the opportunity. Don't talk religion. Let those who meet you know that you have something they haven't got. Let the indwelling Spirit of God radiate through you all day long.

**THIRD:** At noon, wherever you may be, find another opportunity to be alone with God, and there, once more, repeat the statement to God you made early in the morning, expressing gratitude to God for the absolute assurance you have of the closeness of God to you. Any other problems which have arisen through the forenoon may also be told to this great invisible Living Spirit which, moment by moment, is not only giving you life, but which also is there, begging you to let it guide you to a perfect supply of everything you can ever need to make your life gloriously happy, prosperous, and useful.

**FOURTH:** In the evening, read your Lesson again. If you go to a show, have a good time at that show. Whatever you may do when the day's work is done, do it right. But before you go to the show or whatever it is you are going to, take another moment with God. Recognize once more that Great Presence. It will protect you. You won't go out and get drunk immediately after talking with God, I assure you. You won't be found in any questionable places, knowing God. You won't be engaged in any business which is hurting anyone. And keep that old smile smiling. To know God means to be happy. Not a shallow, emotional happiness which comes from some fanatical theological emotion, but a deep-seated PEACE, which brings happiness to you every time you recognize the presence of the Spirit of God in you.

**FIFTH:** Before you retire, don't get down on your knees and ask God to forgive you all the sins you have committed that day, but thank God that you have committed no sins which you need to ask pardon for. You can sin if you want to. You can get drunk if you want to. You're absolutely a free-will agent. But if you do these things, then don't come sneaking round to God at night asking forgiveness. If you really are sorry for what you've done, YOU WON'T DO IT ANY MORE. That will be the real test of your "sorrow for sin." The proper way to end the day is to talk to God and thank God that you haven't committed any sin against anyone, therefore you need no forgiveness. Then, before you retire, think of a few names of those you have spoken to about "PSYCHIANA" or those you know would be interested in having our Lessons started to them. If you will comply with these simple rules of everyday life, I promise you a blessed experience absolutely without limitations. It's up to you. The invisible Spirit of God never yet failed anyone in any way.

Always your friend and teacher,

*Frank B. Robinson*
