

THE NEW "PSYCHIANA"

(RE-WRITTEN BY DR. ROBINSON IN 1946)

Being a spiritually-revealed manifestation of The Power of God to the human race. First, to the Christian Church, after that, to men and women of all creeds and faiths, and the millions without either. A revelation of The Spirit of God to all men, containing the assurance of Eternal Life for all.

THE NEW PSYCHIANA

STUDY-LESSON NUMBER ELEVEN

Before I relate the startling happenings at Iowa City, I believe that I should go back to Lesson Ten for a few moments, as several thoughts come to me at the beginning of this Lesson. You will recall that I ended Lesson Ten by telling you to get the Power of The Spirit of God which is within you—OUT. Prior to that I had told you in detail about the instantaneous healing of the diabetic lady.

Now I don't want any of my Members to believe for a moment that one has to be sick or afflicted before the Power of The Spirit of God can operate. The normal operations of The Spirit of God are in a body which is full of normal radiant health. This movement was never started with the idea of its being a healing Movement, and what healings we have seen, and have been able to perform for those who are sick, have been only the natural results of the recognition of The Spirit of God in the life of the one healed.

Wherever there is sickness, then the knowledge of The Spirit of God WITHIN YOU drives out that sickness in order that this Great Spirit may have a healthy useful body through which It can operate. So let us then presume that you have no physical ailments at all. I don't believe you have, for you should have progressed sufficiently by this time to know how to cast out illness and divers diseases out of others, as well as out of your own body.

Now the principle by which these healings are demonstrated is the same as when there is no illness. In other words, no matter what the lack of a life may be, one can use, indeed one MUST use, the very same technique for supplying the lack through the Power of God. No one with half an ounce of sense will deny that the super-abundant Power of God has the ability and the willingness to do anything and everything needed. Nor will anyone with half an ounce of sense believe for one moment that the Almighty provided the Power, and left us in darkness as to the technique to be used in the use of that Power.

I have found it to be the case that whenever one recognizes the existence of the Spirit of God in his or her life that Power Itself supplies the technique for the use of that Power. But there seems to be a lot of people who are fully conscious of the existence of the

Power of God in them, but who do not seem to be able to discover how to bring that Power from the inside out, and put It to work actually accomplishing and achieving the much-needed things of life.

So I believe, before we pass on to more Iowa City happenings, I'll tarry here at "Jerusalem" with you for a while: I may be able to help you just where you need help. I may be able to point out a few things which you may be stumbling over now. I trust you are not stumbling. But if you are, I think I know where it is. Whenever one's attention is called to something so miraculous as The Spirit of God in the life, there must be some confusion due to the fact that the disclosure of this Power is something absolutely new in religion. There is no major system of religion on the earth which has ever brought to you either the information or the Power of God—present and available HERE and NOW.

To date, all your hopes have been centered in "Heaven," wherever that mythical place may be. You certainly have never been told in any church that the Power of The Spirit of God can so manifest in your life that you may have an abundance of every good thing, INCLUDING ETERNAL LIFE, here and now. So the flashing brilliance of this revelation of the Spirit of God leaves many so taken off their feet that, unless they carefully reason the whole thing out, they are apt to think that they themselves may only experience the Power of God by some mystical "descent" from "Heaven." That is not true. The approach to the Power of The Spirit of God is just as sure and just as scientific as is the approach to chemistry, physics, or other sciences. In arithmetic, for instance, we know scientifically that two and two make four. We can take two peanuts, add two more, and know and can prove that we have, just four peanuts. Not five, nor three—we have four. Whenever we put two peanuts with two other peanuts, we always have four. So then, whenever we use the correct technique for discovering and using the Power of The Spirit of God, we can always be scientifically sure of the results. It is no more possible for The Spirit of God to fail when the Law governing the operations of The Spirit of God is complied with, than it is to throw a penknife up into the air ten feet, and not see it drop to the earth again. The Law which is The Spirit of God is that sure.

This is a very important point. It is the fundamental point. It is the one thing which all must learn if they are to intelligently progress into the Realm of The Spirit of God, and know how to actually use

the Power of God, to the end that each one may be "redeemed"; and that each one may at once apply his or her experience that others, too, in ever-increasing numbers, may be brought into the Great Light which is Almighty God. Only in this manner can this civilization be moved towards God. It will be an individual effort on the part of millions of people. There will always be men whom God has chosen as leaders. These men will know how to direct the human race to God. But, by and large, it must be by individual effort. I am not saying that this will take a long time, for a Movement of The Spirit of God can swing into action awfully fast after it has started. I am of the opinion that the Movement which I hope will start among the Christian Churches as a result of the humble ministry of your teacher will move very, very fast. No one knows just what sort of a revelation The Almighty may have in store for us all.

The technique which brings the most sure and definite results first is absolutely common to all men. Their religious affiliations or lack of them have no bearing whatsoever on the matter. It is not what anyone "believes."

No one can ever prove a "belief." When a "belief" can be proven, it ceases to be a "belief" and instead becomes fact and knowledge. This it is which has kept the human race separated from vital living contact with The Almighty. This it is which has kept the human race in total blindness to the Power of the Spirit of God. In the realm of religion, all that has been offered to man has been "beliefs." Those "beliefs" are for the most part man-made, and have nothing to do with the actuality of God. They are "beliefs about" God, to be sure. But they are only "beliefs." They may be right and they may be wrong. We may safely assume them to be wrong, however, for those "beliefs" have never been able to reveal the Presence and The Spirit of God to this world.

This applies to all systems of theology, Catholic, Protestant, Jewish, and a few hundred other "beliefs." That is all they are. Regardless of the claims of the originators of these religious groups, each and every one of them is founded on certain precepts which the members of each church must subscribe to before they may obtain membership. But, after they have subscribed to the "beliefs" and the "articles of faith" and other required tenets, of what use are they if they do not reveal to the world the Power of The Spirit of God? Would we not be as well off, and perhaps better off without them?

However that may be, there is one sure way in which every created human being can restore him, or herself to God. We can all deal with God direct, and any theological organization which denies that right to its members is a false religious system or organization. Any priest, minister, or rabbi who declares to his congregation that ONLY by "believing" this, or that, can the Light come, is selling false information to his flock. The best way I know to find the Power of God is to deal directly with God. Do you know of a better way? Perhaps you are one of those who believe that nothing tangible can be discovered about God here on earth. Perhaps you are one of those who believes that you should place the redemption or loss of your soul in your church. Well, if you are, you are taking a terrible chance with your future. More than that, you are missing completely the joy, the peace, the soul-satisfaction which can come from personal individualized contact with God, and which can come from that personal individualized contact alone. Unless your church can thrill you with the Power of The Spirit of God—unless your church teaches you that all the Power God has is available to you, to the full, here and now—it is not teaching you the truths of God.

When the Christian religion was in its infancy, perhaps that method may have been necessary. It is not necessary now, for religion has evolved far beyond the premises on which it was originally started. I am speaking here not only of the Christian religion, but of every other major religion under the sun. They can all lead to God, but most of them instead of leading to God lead either to some prophet who came to declare the Power of God, or they lead to worship and adoration of the organization itself. I know of no major system of religion which has as its motivating ideal the revealing of the Spirit of God to man here on the earth.

What a pity that religious leaders of the past have seen fit to so limit God that they have consistently taught that on this earth we cannot know the fullness of the Power of The Spirit of God. They have not enough faith to even take a chance that perhaps God might possibly be big enough to reveal Himself in His entirety to all who diligently seek Him, right here and now. What sort of a theology is it which teaches that God cannot reveal Himself to man, and bring eternal life to man here and now? What sort of a theology is it which teaches that man must die before he can know the Power of God? For what purpose do you think God placed man on this earth?—to dam him into hell and leave him there for

not "believing"? What evidence has any church offered to its membership that it is a divine organization, CAPABLE OF REVEALING THE ACTUAL POWER OF GOD TO ITS MEMBERSHIP? I know of none.

At times I think that the Indian with his Great Spirit comes closer to the truth than any of us. He certainly has the basic philosophy. The only thing the Indian lacks, in fact the only thing any of us lack, is the . . . I was about to say "guts" to put God to the test and find out whether or not the Power of Almighty God actually exists, capable of being used to the full by every created human being—HERE AND NOW.

If you accept that premise and build your life upon it, I don't care what church you belong to. Church-membership is advisable, but it certainly is not necessary to a discovery of God. I think it borders on the blasphemous for anyone to profess allegiance to any system of religion, if that one cannot demonstrate in his life and the lives of others, THE ACTUAL POWER OF THE SPIRIT OF GOD. Most of the theological leaders of the present day cannot even handle their own personal problems. Yet they attempt to handle the problems of the world. They try to tell millions of people just what they should "believe" in order to straighten out their problems—yet their own problems go completely unanswered.

Religion, as we know it, is nothing more nor less than a set of theological "beliefs." Of themselves they mean nothing. They can do nothing. They are meaningless to hundreds of millions of Christians, and they will remain meaningless until the day comes when, out of those beliefs, THEY FIND THE ACTUAL POWER OF GOD COMING INTO THEIR LIVES. I care not what the "belief" may be if it reveals The Spirit of God. If a "belief" does not do that, it is valueless and should be discarded, for it is only cluttering up the ground and hiding the Truth, and making it hard for anyone to find that Truth. I have no "beliefs" whatsoever—but one—"I BELIEVE IN THE POWER OF THE LIVING GOD"—and that's all I believe in. That's all I want to believe in. That one "belief" covers everything. But even this simple "belief" is useless unless, through that belief, the Spirit of God is revealed.

What is the technique by which this simple belief can reveal the actual Power of God? Simple indeed. With that "belief" or affirmation of fact you will couple actual work. Work at finding the Spirit you say you believe in. Work at discovering the actual and literal Power of The Spirit of God in your life and in the lives of others.

The affirmations given you in these Lessons, faithfully followed, cannot fail to reveal The Spirit of God and the Power of The Spirit of God to you. But you will go to work my friend. You will really be in earnest. You won't be able to find God by repeating these affirmations unless your heart's desire for God is coupled to these affirmations. There is no mechanical way to God. God is found when the soul of man cries out for The Spirit of the Great God, and then discovers to its surprise that The Great Spirit of God actually lives in us—making us ONE WITH THE SPIRIT OF GOD, AND PLACING AT OUR DISPOSAL ALL THE POWER GOD HAS.

This is true religion. It unites man and God. It points out the unity which has ever existed between God and man, because in essence they are one and the same thing. We exist now as physical bodies, with THE Spirit of God actually living in us and giving us the thing we call 'Life.' The totality of God exists as "INVISIBLE LIFE" or "INVISIBLE SPIRIT," and it is that Spirit, in us, we must contact in order to be able to manifest the fullness of the Great Invisible Spirit which is the sum of, and the totality of, all Life which is now on the earth or which has ever appeared on the earth. ALL OF IT. Wherever there is Life, there is God. Where there is no God, there is no Life. Please understand this, and do not go looking for God "above the skies." Look for God within you, for if you look elsewhere you can only hope to be disappointed, which you will be—believe me.

When The Spirit of Life—the Spirit of God in human beings—understands and recognizes the staggering fact that that Life is actually part of The Spirit of God, the Realm of God comes very close. It is only as this conscious recognition and unification is made that we may even begin to understand something of the amazing Spirit of God within us. To begin to understand is to begin to throw the Power of God into play, first of all for the further unification of God with you. Then comes the Power. Then comes the soul-shattering revelation that the only limits placed upon your ability to discover and use The Spirit of God are the limitations you yourself impose, through closing your eyes to the indwelling Spirit and Power of God.

I think at this point that you and I had better talk a bit about just what The Spirit of God is. So I shall leave my intended recital of the things that happened at Iowa City for a while, and take them

up later. You of course know, from the manner in which I write, that all I am interested in is to manifest The Power of The Spirit of God in your life. Perhaps I should put it this way: all I am interested in is in showing you, to the very best of my ability, something of the dazzling splendour which will come into your life just as soon as you realize just what The Spirit of God is, and just how you may make the consciousness of this Spirit an everyday, normal affair in your life. When you do come to that place, believe me you will know something of the greatness of God. You will know how very far off the track our systems of religion have taken us in their honest but fruitless attempts to interpret God.

What I am dealing with is what the old religions have alluded to as "The Holy Ghost." But I prefer to call It "The Spirit of God." I like to look upon God as something a little more tangible than a "ghost," holy or otherwise. But even in the olden days, in the very beginning of the Christian era had they but known it, these good church fathers had within their grasp a Power of such magnitude that, had they only known it, they might still be alive and on the earth today, and the whole earth might be filled to the very overflow with the actual Power of The Spirit of God, for that Spirit is Power.

You will understand later in these Lessons why, throughout them, you find the word "POWER" repeated hundreds of times. In my advertising—in fact in everything I write, God—The Spirit of God—is always alluded to as "POWER." How great that Power is you will learn as you progress. I'll stagger you before I am finished with these Lessons, but when I have finished with them I promise you your concept of God will have completely changed; and I'll promise you something else, I'll promise you that drawing upon the actual Power of God will become so simple and easy, and the results so amazing, that you'll wonder why someone did not grasp this amazing concept of God before.

Well, I don't know why they didn't. Probably the world was not ripe for it. The discovery of atomic energy was the first scientific discovery which actually revealed something of the magnitude of the actual Power of God. Even that is not faintly understood, but the principle behind it is being understood by the man on the street. The discovery that all matter is composed of energy of such staggering volume is making men and women think for the first time in their lives. They are afraid of that thing. They are fearful of the future if atomic energy is not controlled, and is used for purposes

of destruction. There is no need of our being afraid of it, however, if, through that discovery, we actually discover the Power of God—not in the “heavens”—but here on earth, permeating our very bodies and lives. I told men and women by the hundreds of thousands twenty years ago that that is a fact. Some believed me, and more did not. Now it is becoming clear that I knew whereof I spake, and my task of bringing knowledge of the Power of God to humanity has become so very much easier now that science has actually demonstrated what a fearful power there is in all nature, and especially in our own bodies, for we too are composed of atoms.

One eastern scientist states in a book on atomic energy that there is enough energy in one human body that, transplanted and used for commercial purposes, a man is worth in energy over 100,000 tons of pure gold. That means that the atomic energy in you and me is, roughly speaking and in commercial form, the staggering sum of about ONE HUNDRED BILLION DOLLARS, with gold selling at \$30 an ounce. That's a lot of money, and we must have lots of energy in each one of us to be worth that much. As a matter of fact, that physical body of yours has much more value and much more energy than that, because, don't you see, it is very definitely linked up with the vast ocean of energy, or Power, which, from It's very nature, MUST BE GOD. Now do you see what I mean when I make the statement to you that, “All the Power there is in the Realm of The Spirit of God is available to you now”? Does it begin to faintly glimmer into your mind, something of the matchless Power God has given you to take care of, and use?

There has never been any question in my mind that man was a reflection of the Power of God. I have always known that The Spirit of God actually lives in man, to the very full. But you can now know that, and you have this advantage over me—you have science to back you up. When I first advanced this amazing theory of The Spirit of God to the world, I had no science to back me up. The atom-bomb had not been heard of. Atomic energy had not been scientifically proven to the extent that it could be used. Now it is proven, and why anyone should doubt the absolute and staggering Power of the Spirit of God in them NOW is more than I can imagine.

I am quite sure you do not doubt the existence of this Power, now that the atom-bomb has actually been made and exploded. But what you and I want to know is the technique necessary to the successful release of the Power of The Spirit of God in our lives.

My friend, I'm writing this to you in my study at 122 South Howard Street in Moscow on a quiet Sunday evening. I'm telling you that never in the 61 years of my life have I realized the tremendous worth of a human being who even faintly understands the fact that all the Power of The Spirit of God exists in him and for his use. My little mind cannot begin to comprehend it. But I can do just a tiny little bit of comprehending, I think. And what little I do know of the actual Spirit of God—the Spirit and Power in Whom lives atomic energy—I want to pass on to you. I have been preparing you for what will follow in the oncoming Lessons. You may have thought the affirmations I have given you to be quite unnecessary. May I assure you they were not. Instead, they were so very necessary if you are to grasp what I shall reveal to you in future Lessons.

One does not need very much understanding to come to the place where the actual results of his search for God begin to manifest. People wire me from all over the world asking me to perform some miracle of healing or something equally miraculous. Why do they do this? Is it because they believe me to be Almighty God? No, that is not it, for anyone who has met me knows that I'm not Almighty God. It is because they know that The Almighty has seen fit to give me just a tiny little bit of spiritual understanding and knowledge of the vast magnitude of the Realm of The Spirit of God. They know, through what I write, that I have been with God, and have taken myself just the very tiniest little bit of the nature which is God. If they only knew it, there is nothing I can do for these good folks. I have never performed a miracle in my life, yet I have seen thousands of them performed. But it is not my power which performs them. What, then, is it? That's quite simple—"THE FATHER WHO DWELLETH WITHIN ME, HE DOETH THE WORKS."

Now I do not say that atomic energy is the totality of God, but I am saying that atomic energy is CONTAINED in the Realm of the Spirit of God. I am saying more than that—I am saying that if our scientists, approaching this matter from a purely scientific angle, can discover how to release from atoms, a power so staggering and so fearful that man can destroy himself and the earth with it, HOW MUCH MORE POWER MUST EXIST FOR US ALL IN THE PURE REALM OF THE SPIRIT OF GOD?

This is a fearful thought. But to me it is a beautiful thought. It is beautiful because, for the first time in the history of the human

race, the mind of man can grasp what science has proven to be a fact—IT CAN GRASP THE FACT THAT WHAT APPEARS AS MATTER IS, IN REALITY, NOT MATTER AT ALL BUT WHIRLING VORTICES OF ENERGY AND POWER, WHICH APPEAR TO US IN CONCENTRATED; MATERIAL FORM. Remember the quotation I gave you some few Lessons back about, "Things which do appear being made of things which do not appear"? The speaker of those words knew plenty about the Spirit of God, and the Power there is in that Spirit.

Our scientists are talking freely about the days when a little package of atomic energy will run a steamship across the ocean until the steamship wears out, and then have the same power the little package had when it first was used. Well, let me say to you that science has not yet made a prediction which can even faintly picture what life will be when the fullness of the Power of The Spirit of God becomes fully known on the earth. You talk about raising a dead man to life. You talk about living forever. Why, bless your soul, that wouldn't take hardly any of the Power of God to do that. So never again, if you are ill, or if you are facing a problem, say, "Well, I'd like to believe that God can heal me—but somehow or other I just can't." What a pitiable condition you will be in if you ever say that in view of what I am trying to teach you about the actual Power of God.

We of the Christian religion have prided ourselves, as have other religions, on being so far ahead of other and older religions that we go so far as to send missionaries into their foreign lands to "convert" them to our way of religious thinking. And as we do that, we forget two things; we forget that they had their religions, upon which ours was probably based, long before we had ours. Then again, we have not demonstrated our religion to be capable of saving ourselves. So why waste time or money sending missionaries into foreign lands to change their religion for ours when we haven't yet learned the first fundamental of our own religion?

We say, "Christianity is an inspired religion." That is true. ALL TRUE RELIGION COMES, NOT AS A RESULT OF SCIENTIFIC DISCOVERY, BUT AS A RESULT OF THE INSPIRATION OF SOME HUMAN BEING WHO ACTUALLY BELIEVES GOD. Our vaunted Christianity does not mention the word "atom," but the religion of the Hindoo, in their Bible—The Vedas—mentions this identical word, and mentioned it almost FIVE HUNDRED YEARS BEFORE THE SUPPOSED BIRTH

OF JESUS. So let's not waste any more money sending missionaries into foreign lands until we have saved our own land through the Power of The Spirit of God. If we ever do this, we won't need to send our message of "salvation" over to them; they'll come over here and get it from us.

A Macedonian called Democritus five hundred years before Christ stated in his writings that, "all matter is composed of invisible particles," and Ali Hassam, son of Mohammed, wrote this: "Split whatever atom you will and in its heart you will find a sun."

Jesus said, "The Kingdom of God is within you." Do you know what He meant when He said that? Well, Jesus meant that in us, in our atomic structure, and far beyond that but still in us, LIVES THE KINGDOM OF GOD. Now what is the "Kingdom of God"? The place where God lives, is it not? How can it be anything else? Then if the Kingdom of God is the place where God lives, and if the Kingdom of God is within us, do you not see that God lives within us—actually and literally? Of course. Anyone who has half a mind can mentally understand that. That is true wisdom though, and that understanding, mental though it may be at first, followed through to its logical conclusion, will bring you to all of God you are able to assimilate.

THE SPIRIT OF GOD WITHIN YOU. I trust that you are beginning to have your eyes opened to the great and staggering truths which I am trying so very hard to reveal to you. So very many times I wish that the revelation I received from God might have been given to someone else who would be much more capable of revealing it to men and women than I am. But it was not, so I'll have to make the best of it, and bring to you, through my weakness, the great strength that is God. I know what I'm talking about. My only trouble is in finding figures of speech, and words simple enough to put across to you, the vital, fundamental truths which I know personally to be of God, and from God. I know that you will bear with me, though. Perhaps, through my inability to write more ably—perhaps through my weakness—I can keep myself on a level where all men and women will understand me, and if I can do that my joy will be very great.

You can look for the greatest religious reformation—nay, revolution—this world has ever known, and you can look for it in the next few years. Man's whole concept of Almighty God is changing. It had to change. There are times when I am carried away in the Spirit, and many a time have I seen the Glory which is God. But I

cannot tell you of these things here. It takes pain, heartache, sorrow, misunderstanding, persecution, misery, to bleed through to God. But the world will understand me. The Christian Churches will see the day when they won't try to put me in jail for teaching "PSYCHIANA" "because it is the doctrine of the Devil." But enough of that. As I sit here in my little bedroom-study this Sunday night, the whole house is full of the presence and glory of God. It is in this room. It is in me. It is in this very same room my eyes were opened some years ago, and God gave me one of the greatest revelations of His Power any man has ever had from the beginning of time. Oh yes, beloved, God is a Living Reality. There is Power enough available to you to flood your life with God to the very full. There is Glory enough in God to transform you into the shekinah Glory which is God.

You won't be able to see the Kingdom of God in your life. You won't know just when or how your particular revelation will come to you. You will work for it. You will follow me, and use the methods I prescribe. There is one thing you will know though—when God makes His presence known in your life, or perhaps I should say when you BELIEVE YOURSELF THROUGH TO GOD—you will know through the countless ages that God, the Father, and you, the Son, are one.

Don't think that Jesus was the only divine Son God has ever given birth to. Listen: "Beloved—NOW are we the Sons of God, and it doth not yet appear what we shall be—but we know this—we know that when He doth appear, we shall be like Him, for we shall see Him as He is." Now don't you see what it means to be like HIM—(GOD)—because you see him as he is? Of course you do. I see God as He is tonight. I have seen God, as He is, in me, many a time. You, too, can see and know God and as the days go by, no matter how blessed your experiences may have been in the past, they will be much more blessed from this Lesson on.

Now I'm going to tell you a technique I have used through the years, and I shall ask you to do the same thing. I take it for granted that you are hungry and thirsty for the Power of The Spirit of God in your life. I know you mean business or you would not be studying with me. All right, here is what you will do from this Lesson on. You will find a place where you can be alone with God, and where you can SHOUT ALOUD THE FOLLOWING STATEMENT AT THE TOP OF YOUR VOICE. It is should be absolutely impossible for you to shout it aloud without disturbing

someone, then shout it aloud, but softer than you would if you were in the middle of a field. As you drive along the highway in your car, shout aloud these words. Rather should I say this one word, three times in succession. Here is the word—POWER—POWER—POWER.

When the searcher after God has come as far along the trail as you have and when he has grasped the fundamentals as you have grasped them, with the same personal experience, he is ready for this next step. I'd do it many times over as the urge comes to you. Then, when working or at home, even if you don't shout the words out loud, say them mentally. Do not make this exercise cheap. Do not do it every day, it is too full of Power for you to do that.

You will find Power, my friend, so very much Power will flow into your life from God, as you do this exercise, that I suggest that you do not do it too often. What you are actually doing by this exercise is SHOUTING TO THE INVISIBLE ATOMIC, RADIO-ACTIVE SPIRIT OF GOD IN YOU, WHAT YOU WANT TO MANIFEST. Now there is no other Power in this world than the Power of God, so you may be sure that whatever Power follows this exercise will be the actual Power of the Spirit of God. Be alone when you do this. Do not have either wife or husband with you, and DO NOT TELL OTHERS THAT YOU ARE DOING IT. You will be actually contacting the invisible Power-Realm of the Spirit of God, and you will be performing a spiritual exercise which never has been known to fail to reveal The Power of God.

If you can do this exercise, fully understanding what I am saying to you, you are ready not only for the exercise, but for the Power which invariably follows the exercise. I believe in the next Lesson I'll continue with this technique, and perhaps explain to you just how the Spirit of God operates through it. CAUTION—UNDER NO CIRCUMSTANCES MUST YOU DO THIS EXERCISE UNLESS YOU HAVE VIGILANTLY AND EARNESTLY FOUND THE EXPERIENCES WHICH ALWAYS FOLLOW THE PREVIOUS AFFIRMATIONS OF TRUTH. You are playing with Spiritual Dynamite in this exercise—and I give you fair warning—DO NOT DO IT UNLES THE SPIRIT OF GOD TELLS YOU YOU ARE READY FOR IT. If The Spirit of God gives you the go-ahead signal, thrice blessed are you; anything can happen in your life.
