TELLING FORTUNES

BY THE

LINES IN THE HAND.

Observe always to choose the left hand, because the heart and brain have more influence over it than the right hand; and observe further it is better to examine these lines when the body is in good order, for then they appear full.

By this the reader will see that one of the lines, and which indeed is reckoned the principal, is called the line of life; this line encloses the thumb, separating it from the hollow of the hand. The next to it, which is called the natural line, takes its beginning

THE ART OF FORTUNE TELLER.

from the rising of the middle finger. The table line, commonly called the line of fortune, begins under the little finger and near the forefinger. The girdle of Venus is another line so called, begins near the joint of the forefinger, and ends in the middle finger. The line of death is a counter line to the line of life, and is by some called the sister line, there are also lines in the fleshy parts, as in the ball of the thumb, which is called the mount of Venus, which are each governed by the several planets, and the hollow of the hand is called the place of Mars.

If the lines which are in the middle of the hand, and are called the table lines, are broad and fair, without being broken, is a sure sign the party will lead a comfortable and happy life.

If the line from the wrist goes straight up to the little finger, it is a better sign than if broken, for then it denotes the party will live a good old age, but on the contrary, should the line want continuation, they are in danger of sudden death.

If the line of life, which is that which runs from the wrist by the ball of the thumb, and ends under the forefinger, is clear, and ends without breaks, it denotes possession, prosperity and happy old age. Round lines like semicircles, on the inside of the tips of the fingers, promises house, lands, and inheritance.

As many lines or crosses as a woman has in her wrist, so many children she may expect to have.

If the middle, or table lines in the hand are very narrow and contracted, it is a sign of poverty and crosses in the world. If a crooked line goes through the table line, it is a sign of death by accident or violence, but if it runs straight and even through, it is a good sign.

To know how soon a Person may be Married.

Get a green pea-pod, in which are exactly nine peas; hang it over the door, and then take notice of the next person who comes in, who is not of the family, and if it proves a bachelor, you will certainly be married within that year.

On any Friday throughout the year.—Take rosemary flowers, bay leaves, thyme and sweet marjoram, of each a handful, 1, these, and make them into a fine powder; then take a tea-spoonful of each sort, mix the powders together; then take twice the quantity of barley flour, and make the whole into a cake with the milk of a red cow. This cake is not to be baked, but wrapped in clean writing paper, and laid under your head any Friday night. If the person dreams of music she will wed thoes she desires, and that shortly; if of fire, she will be crossed in love: if of a church she will die single. If any thing is written, or the least spot of ink is on the paper it will not do.
