PREFACE.

KIND READER:

I hope this manuscript will be received in the spirit in which it was written, the intention being to familiarize the mind with the ancient Egyptian astrology, which swayed the world thousands of years ago.

It was translated with difficulty from a timeworn sheepskin scroll in the German tongue, which has been in my family for over than three generations, and which was originally translated into German from a copy in an unknown tongue for my great grandfather, by a traveling scholar, both copies being still in my family.

In my family references have often been made to the prophecies therein, and many remarkable instances of their fulfillment, in the lives of known individuals could be cited.

Respectfully yours,

GEORGE S. WOLF.

January,==Boy.

A boy born the last fourteen days of January or the first fourteen days of February is from nature cold, dry and melancholy; born under the mark Aquarius. His planet is Saturn, the 3rd in the ascendency. He has a long and strong body and a full round face, sometimes dotted with freckles, longish nose, short teeth and heavy eyebrows. He is very talkative and a fast walker; dresses well and tries to live within his income. He keeps his body clean, has dealings with many people, and gives good advice which may be relied upon. He will sometimes have as high as three wives; has great luck in things that are worked in the fire—also agriculture. To be in luck is nothing for him, as it seems wonderful, so he does not fool it away by telling others his plans, but his greatest is by marriage, especially by marrying widows. If born before midnight he should be careful of an iron instrument lest he maim himself for life; if born between midnight and sunrise, he

should be careful of water and a fall. He will also be proud, will have great honors heaped upon him but they may not be lasting. He will get the most of his property between his 25th and 40th year, and his riches he will receive through strangers or inventive genius. If he lives through his 32d year he will bring his age nigh unto 80 years. He is a good arithmetician, loves music and studies. His favorite pastime is hunting and fishing. He is mistrustful and mischievous, his planet shows him anger and quarrels. His business is done with judgment; in wedlock he should select those born in the months of February, June, July, September or October. They will have a happy issue, and their children will be more girls than boys. He will have quarrels over the estate of his parents; his death may occur while at work. On Sunday he should not wash his body or put on a new suit of clothes for such is unlucky for him. His luck carries him in any direction excepting east. He should put his cattle with their heads, and his bed should be with the feet in his lucky land. His lucky days are Monday, Wednesday and Thursday, his lucky colors are brown, blue and grey; his lucky years are 2, 4, 4, 7, 8, 10 to 12, 14, 16, 19, 21, 23, 24, 26, 27, 29 to 31, 33, 35, 37, 39, 41 to 69, 71 to 78. In these years he should begin things of importance. Aquarius is called the 11th star, also called a living house. Shows to the people long life and losses by

fire and water, also makes gentlemen of them.

January-Girl.

A girl born the last fourteen days of January or the first fourteen days of February is from nature cold and dry, born under the mark Aquarius, planet of Saturn. Most of the girls born under this planet have a full, well formed body and a handsome face, dark eyes, red cheeks and black hair, and can pass for a pretty brunette. Her good looks will be somewhat spoilt by pimples. Even in old age will be traces of her good looks. Born in the afternoon from 3 o'clock to midnight her planet shows her riches of big extent. Those persons marry twice, sometimes as early as sixteen. They very seldom stay where born. If they live through their 25th year they will bring their age nigh unto 77 years. She should marry those whose occupation carries them on water or connected with machinery. She will have many children, also a heavy sickness in young womanhood and midage. Her death will be through a heavy fever. In childhood she will live through a great deal; will have some false lovers; loves music, singing and dancing; has a good voice for singing and is very highly thought of. She will outlive her brethren, loves the opposite

sex and is true to her friends. She is stylish and likes very clean wash, speaks sensibly and keeps her promises. Her path is one of luck after womanhood. He is well spoken of by the people with whom he deals, also by people in high rank. His luck does not seem steadfast. He will lose the most of his property, but will soon redeem

it again. He likes drink but attends well to his work. He should be careful that he does not maim himself on his legs for life. He should get married in his 26th year. He deals very close and is a very bitter enemy to sharpers. He tries to lead a christian life and his death will occur by over heating himself or fright, and will be in the belief of the Lord. He should engage in wedlock those born in the months of February, March, April, May, July, November and December. On Wednesday he should not wash his body or put on a new suit of clothes as such is unlucky for him. He should not move any way but west, and put his cattle with their heads and his bed with the feet in that direction. His planet Jupiter shows want and poverty; his lucky

days are Thursday and Friday; lucky colors, brown, blue and grey, and he should begin things of importance in the new moon, except traveling by water.
