## The Works of William Blake: POETIC, SYMBOLIC, and CRITICAL. Edited, with Lithographs of the Illustrated "Prophetic Books" and a Memoir, by EDWIN JOHN ELLIS, Author of "Fate in Arcadia," etc., and WILLIAM BUTLER YEATS, Author of the "Wanderings of Oisín," "The Countess Kathleen," etc. Complete in 3 vols. large 8vo. with Portraits and 290 Facsimiles of Blake's privately printed and coloured Works, £3. 3s

— The same, Large Paper, 3 vols. 4to. half bound morocco, gilt top, £4. 14s 6d

\*\* The Edition consists of 500 Copies 8vo. and 150 Copies in 4to. on Large Paper.

"As we shall have to indicate dissent in some respects from the opinions, and to criticize the methods, of Mr. Ellis and Mr. Yeats, let us begin by saying that their book on Blake is the greatest benefit yet bestowed on those students of a genius as wonderful as it was eccentric, who have neither the money to spend on costly originals, and not much less costly facsimiles, nor the time to spend in public libraries and museums. . . . We repeat that the editors have done remarkably good work. And as the edition is limited, we very strongly advise any one who has three

or four pounds to spare, and feels some interest in Blake, to secure a copy of it. He will obtain for his money divers quite new things, and a fuller and more orderly presentation of things not new. The chief of the first class are, first, the singular satirical rhapsody of 'The Island of the Moon,' one of the earliest, and, secondly, the hitherto unpublished prophetic book of 'Vala,' in part one of the last, of Blake's works. . . . We have here the prophetic books, uncoloured and sometimes reduced in scale, but produced by lithography in a manner which we must pronounce very satisfactory." —Saturday Review, February 4th, 1893.

- Of these extraordinary productions that which contains the most curious and singular matter is the first; the present copy of it is the best and most rare edition, subsequent ones being so much mutilated as in a great measure to deprive the work of its peculiar character. The second work is of a description little varying from the first, but to describe the precise nature of either, could not with due regard to propriety be done. The third was written in a fit of repentance, and therefore of a very different from the others. For some bibliographical particulars, vide De Bure, No. 856—and for an admirable Life of the eccentric but learned author, with an account of the singular nature of his works, see "Dictionnaire Historique, par Chauffepié," vol. 1, p. 282.

- 275 HULME'S NATURAL HISTORY LORE and LEGEND. Legendary Beliefs in Natural History gathered from divers authorities, ancient and mediæval, of varying degrees of reliability, by F. EDWARD HULME. 12mo., 350 pp., with 29 woodcuts illustrating Monsters, and a complete Index; cloth gilt 1895 0 7 6  
The superstitions relating to the Animal World have been so marvellous, and Travellers' tales have so greatly assisted, that it was a happy idea of the author to group them here systematically, and to give invariably his authorities. There is only one fabulous animal in this Encyclopædia, and that is the Sea Serpent.  
Most of the stories about these fabulous Animals are very amusing.  
The folklorist will have a treasure in adding this volume to his Library.

- "Theophrastus von Hohenheim was adjudged by most eminent physicians to be a man of genius, indeed of superlative genius. . . . By others, who refused to follow him, he was thought to be less deserving than the cooks, the bellow-blowers, and the charcoal-burners." Thus spoke Lukas Gernler, Rector of the University of Basel, in 1660. Häser, in his "History of Medicine," says: "Probably no physician has grasped his life's task with a purer enthusiasm, or devoted himself more faithfully to it, or more fully maintained the moral worthiness of his calling, than did the reformer of Einsiedeln."
- And of this same reformer, Zimmermann, who was physician to Frederick the Great, wrote: "He lived like a pig, looked like a drover, found his greatest enjoyment in the company of the most dissolute and lowest rabble, and throughout his glorious life he was generally drunk."—*Nature*, October 8th, 1894.
