*How the Bible Revealed the New Name,
Superet, Through the Aura . . Page 111*

This New Scientific Discovery Now Revealed

The imperishable glories which the Light Atoms through the Aura Reveals, show how to utilize their power with their electro-magnetic chemicals, and how to draw Light from the White and Celestial Atoms.

This could only be found because the Light Scientist could see the Aura of people, Atoms, etc., since childhood and by studying the Light measurements with its composition, and so found the difference of the nature Atoms in color and of Light.

This same lecture was given some years ago to the Scientists in New York, in how to create and harness Atoms within us.—‘The proof will come through the nature Atoms which not only will bring a great power when harnessed, but it would purify the atmosphere with higher Atoms which must replace the empty spaces so that the spiritual Light from God can come closer to the earth—as we draw His Light through our light atoms.’ God only works through Light.

This Superet Science is given here in fragments, but in the Superet Light Doctrine Book the Laws and Methods are explained. For all must use It here and hereafter. This is a strict science, with photos proving. Many witnesses can verify the healings.

No war can start again when we use this Method—for in the Bible, Jesus said, “Seek and ye shall find” Light . . . Read ‘Miracle Woman’s Biography,’ page 82.

Atoms Aura Reveals Secrets of Celestial White Light Nature Atoms

Introducing

THE Aura Scientist can see the Aura not only of people but of animals, trees, flowers, vegetables and Atoms. This God's given Gift was used in the study of / for all the different auras—as everything that lives has different atoms and auras of light and of darkness, good and bad, which has to be harnessed or dissolved according to the Law of Light.

As a world traveler, traveling twice around the world and studying the different countries and peoples' auras, many predictions of eight years and of twenty years ago have been witnessed by many. This great Knowledge after thirty years of study of the Aura is yours to use and to be benefited by in a short time, to become free in mind and in body, free of sickness and heartaches as you follow in the Aura Chart direction.

This Aura Scientist is the only one in the world who specializes in the Inner Aura—not just the outer Aura—as the Inner Aura has different laws for its different substance and atoms. Since the Atomic Bomb has proven its reality you too will know that you also can form an atomic bomb within to destroy darkness.

This secret of the Aura Science by the well known Aura Scientist whom Mr. Brisbane, the New York Editor, advertised as the greatest

Aura Scientist, is now allowed to give this secret Book to the world after the war, which gives not only scientific facts but also studies of the Bible of Jesus Christ's Words which brought forth the great secret of the Inner Aura or Light of soul—through which you will realize that this is not a money or glory scheme, but to let every human being know the truth and how to help themselves—not your way—only Jesus Christ's Way which is the scientific Light Way of Light to God.

Start now to be more concerned about your personal peace and welfare of your soul for here and hereafter for Eternity. This, the greatest Wisdom and Knowledge, will give you the enlightenment which only God gives through the Science and Religion of Light; for you not only study the Aura of the world and of humans, and your own, but also the Halo or Aura of Jesus Christ, which leads and is the only Way to God's Light. He said, "Let there be light"; so we must earn light.

Jesus' Atom can only live in the Celestial Atom Sphere. This great secret of the Celestial Atom Findings has never been given out before because no scientist could see it—not being able to see the soul Aura. The Atom atmosphere development will come out through

many people feeling the Celestial Atom through the study of this Book and by following in the Aura Chart Laws.

The Aura Scientist spoke of the Atom atmosphere, that it could be harnessed easily by scientists to use for protection of self and country twenty-five years ago, but nobody, even scientists, would not accept it. Now at last it has been accepted by the Atomic Bomb proof; so will the harnessing of those Light atoms be given to those that follow this Aura Law.

Start now to follow and labor in this Aura Light Science. It is so easy and it costs no money, just the Knowledge and the willingness to

follow the Rules. It is so simple: for those Laws in this little Aura Book are worth more than money or the mountains of gold you could gain. Do you realize that it is for your personal good which you must take with you? Your soul atom with its aura? Have you thought of the aeroplane labors and money spent to make them fly so as not to endanger the lives? But how much more when your soul must fly heavenwards into Eternity all alone and not in danger but well protected and provided for with Light from the earned Light Atoms and its Aura for traveling to the Light of God. You want to get prepared; now is the time.

What is the Inner and Outer Aura?

WHAT is an aura? It holds a visible and an invisible light. It is a subtle invisible emanation from a substance such as the aroma of flowers or the odor of blood, or emanating from an electrified body and forming a mass surrounding it called motion of the air caused by electric repulsion as seen when the air near a charged metallic point is set in motion—a sensation as of a light vapor or cold air rising from the trunk or limbs toward the head, which is then called an aura or a halo light which is seen on the Pictures of Jesus Christ.

We do not consider the aura of things or the human aura as a phenomenon or miracle—for this would also be said of forms and features—because the aura is just as much a part of the person as the face is. Let us take the Aurora Borealis as a practical proof of the aura of this planet. We can then easily, by deduction, arrive at the conclusion that where there is a storage of magnetism, there must be an aura emanating from it; so we humans have an outer and an inner aura emanating from us.

We know that all things that

possess magnetism have an aura, and nothing can have magnetism without an atom in atmosphere outside and inside in the human forms, animals and living things. Most things have very little magnetism, so the aura of them is very slight—hardly worth noticing.

Scientists who are only materialists cannot agree what the primary cause of the Aurora Borealis is. The Aura Scientist years ago, explained to the Professors of the University of New York of the spiritual invisible lights atoms' atmosphere of rainbow colors which come through the visible emanation with a tremendous magnetism to this planet which shows the manifestation of the aura of this earth or planet. And as all things partake of the chemical nature of the earth, it is natural that all things must be magnetic according to their degree. Although we have and also use the universal magnetic fluid or power for all purposes, it is only in a mechanical sense that we consider it. It is considered by all that the limit of electrical power cannot be attained by mechanical means alone, and even though there are countless adaptations originated of mechanical uses of electricity, the world thinks nothing of the human

electrical and magnetic unit which is tremendous.

As we begin to know ourselves, we know that our future must be heaven-bound, and that we must create the spiritual inner aura of soul by degrees of light within. There cannot be guess work or imagination any longer, because as we feel our outer aura changing, no longer can sickness, fear or worry remain. Then peace, love and harmony will be within and in our outer aura.

The inner aura gives you the feeling of humility of surrender to God entirely, and to love Him more and more with all your heart; where the outer aura gives you only the feeling of flesh love, religious emotions and the satisfaction that you are saved. . . . We pray: For Thine is the Kingdom, and the Power and the Glory forever, to give all the glory unto God. So truth is not of words, but in the aura, as it holds our record—good or otherwise—the only record that God will notice here and hereafter. The outer aura is valueless and has no light; for it cannot attain everlasting consciousness to keep connected with Jesus' Aura, as He said. "I am the light of the world." He showed by facts for the Apostles saw His Aura of Light.

To Know Your Aura Is Most Important

THIS sound scientific Aura Science procedure given in this book after years of tremendous study, will give you the results only as you seek the truth, and by applying it to yourself by making your own analysis revealed in your aura chart. Not any longer by a second hand reaction like a baseball game to know a high pitch of emotional excitement through which you solve your emotional problems or by a social empty achievement of 'make believe' and of 'hot air,' to know your aura is without light, or that it has earned light.

We have the spark that unites the two poles of the lamp; therefore we start from a most fundamental fact of the I. In the I, you herald yourself by your aura facts—not words. Everyone who has naturally and actually become an individualized ego must face the shadow cast clouds within his subconscious by the real radiance of his solar identity, then his aura is the eternal drama of the light of life, of power and of love, etc.

The good or evil surges luxuriously in your aura like the mating

of the sun and the earth, the soul and the body to create light; then the rhythm of life begins like the sun's power takes the earth in embraces of light. Your aura must have a magnetic aura of warmth which must reflect your living soul loving the Creator God.

We must someday face the facts of the aura and deal accordingly in a practical manner. By facing the facts the better off we will be in life in body, mind and character. Men and women earth-bound will become transfigured—a symbol of something pure and noble—not otherwise, because the heavenly Ray of God's Light is given to all alike, to man or king. It is your birthright which your aura holds, and that is your soul. How much do you love it? What care and time do you spend to promote its growth of light purity to be a heroic soul—not just a heroic soldier, but to advance in soul by eternal reason to enter into the great celestial Aura of Light? That connection of your atoms is needed.

This lost-found Aura Science is now the greatest and most important of all Science.

Aura Scientist Described in 1943 of the New Star's Aura Now Visible

THE new star is more than six times larger than our sun; and our sun's aura shows that it has more than a million of other suns greater in light giving, each one through the other sun by degrees, life and light to our sun. For the atom which is in the heart center of the sun needs so much food and light to send the life of light through the atmosphere.

Now the new star's light power is kept up only by a Light which has and is of a much higher substance—a finer and lighter Light Substance. As light is of matter and a substance, there are different grades. This new star center has a shape of an egg which is the size something like a hundred large planets with a cord which has a light purple color—which maybe is attached to God's highest Kingdom of Light: for He has many Kingdoms of Light of and for different degrees of Light. This aura of the new star will make out of the old a new world and will bring the new Religion which has now started but is not much known: for only a few will be chosen to become conscious of It, according/only to their auras. Only by our auras the soul atom's light degree and color becomes known and so will be drawn and will receive help from the aura of

the new star through the new Religion of Light Science.

God, the Light Creator gives His Help and Light to all souls through His spiritual Light by degrees of Light to the degree of the soul. This shows the many different Light spheres by auras, where the soul by its aura colors shows what must be developed to be placed later after the body's death.

Now the body is nourished only by the material light, the sun, on this planet; and its spirit lives and shows the aura of its own spirit, and the etherial and mental body aura with the body chemicals. Each chemical again has a different aura.

Take the eyes which when healthy in body show a bright lavender aura, but they can and often are filled with jealousy and hatred which shows their spiritual aura of dark green and dark red with black spots; so naturally like attracts like. When the body is dead, the ones of healthy eyes with their spiritual sinful aura becomes an aura food and is used by elementals according to their aura colors for wickedness—as it cannot be used for goodness—and combines with their eyes' auras to become stronger. This is likewise with the auras from our body sex. The more we have lived in sin, the

more the payment the Law of attraction, cause and effect takes place through our twelve senses alike: for everything is made and kept alive and travels by the Law of God, the Law Maker of Light and Life demands.

Do you realize that God's colorful earth on this earthly planet is nothing in comparison with the higher Light Planets? The Aura Scientist is permitted to see only little glimpses of their aura. It is the Light in which the Aura Scientist is interested in, not just the people or spirits—but in their auras only. That's what counts. Facts count and prove!

This is absolutely true. This Aura Scientist has proven before so many witnesses. For all can testify of this great Aura Science predictions of truth; as everything the Scientist told years back has come to pass. Even those that laughed believe it today.

Once before a big class of Astronomers and Astrologers who all wanted to know the aura of the different planets and stars, the Aura Scientist revealed to them of the coming new star, which was twenty years ago, but even they could not accept it as they could not see it in their calculations or with eyes by their science. But realize that the Aura Science gives the greatest Wisdom and facts of Light—the greatest in this world and hereafter—because even the different 49 light spheres are now more illuminated because the new star has brought a tremendous Ray of fire which is so powerful in life

giving that all their auras can hold the spiritual vibration.

The new star which holds Vibrations of Fire in the center will touch the centers of prepared auras. This new star is called the Superet Star as it holds the Superet Ray which only this new Star holds. Never has this Star been seen before. It could only come to the surface and be seen by Astronomers after the war. For cleaner vibrations had to be established first to start a new aura on this planet. For this great Atom which this Star holds must have a clean 'pure street' or vibration in the atmosphere of nature to shed its Light. The heat will be felt by many like a cold wave; so if you prepare your aura according to the Aura Laws of Light, you will feel it—not otherwise. Like attracts like; so likewise in the vibration of the light within you which counts, and it costs only your efforts of following in the Aura Laws of the new Star's Superet Light.

This Star's Ray was with Jesus when He was on this earth: for the Star of Bethlehem held the new Star's aura and its Ray to protect the Light of Jesus. As you know, the three kings of the morning land spoke of a new star which would herald the coming of the Messiah. This Bethlehem star even now appears to herald Christmas always two months before Christmas.

Once when the Aura Scientist was going to Europe, while walking on the steamer one night, in darkness without lights—as it was a dark and terrible cyclone like

stormy night—and not a star or moon visible, the call came for all to put on their life preservers. After hours, the Scientist saw a dim light of a light blue shade coming out of the clouds, a fine vapor of an aura heralding a light coming

which suddenly shut out the star of Bethlehem. The people screamed in rejoicing. The Light Aura colors told that a great event was coming—the Saviour's Star, which appeared again for only four minutes just before Christmas.

Electro-Magnetic Inner Aura

HOW can we develop this inner aura light? By the soul light in unison with the spirit to produce the higher light. Light goes by degrees of vibration; then the soul measurements are taken by the magnetism and composition of the soul. There are spiritual affinity souls in light just as there are human body affinities which only bear children but not light vibrations. There are souls of a nation and souls of the future which will become developed in body, spirit and soul into the electro-magnetic aura and will be the atmosphere of a soul in light, as the soul atom is then connected with the greater outer Aura Light. But first, we must go through all the light developments by light degrees to create the light purity without any stripes and dark specks.

You who cannot understand all of this Light Law, will realize how human beings had to study in order to learn how to harness the light first by small degrees of flint,

matches, candles, lamps and torches before they could harness the lightning which was by following the laws of light of electricity: for man did not create the laws of light, because the light laws were there all the time, waiting for one to find and understand them, and to put them into use. The only Aura Master said, "That ye might have life more abundantly." It has to be in light; and further, He said, "If two or three shall agree on earth as touching anything, (vibration) they shall ask in my name (light vibration) and it shall be done." He gave a definite light formula for the soul aura, "Seek ye first the kingdom of light" which is heaven. Heaven on this planet gives light; therefore the highest planet must give a greater Light.

This book gives you a greater understanding how to use the inner invisible Light Laws. We learn by the scientists, science and laws of the outer visible light how to become conscious to feel the

light. Even animals smell one that lives in darkness and sins and feels their bad and good vibration. So we show by facts, and we must develop vibrations of light, for the kingdom of heaven is within us. Remember, we must have light vibrations.

Realize, dear student, that your spirit lives in your spiritual garment or body which is your aura. You cannot be a spiritual cripple just as you cannot have two legs when they are cut off from your human body by affirming, decreeing or demonstrating that you can walk. You can only hypnotize yourself with a make believe. Your body proves otherwise; so it is with your aura.

This Aura Specialist after years

of experience gives you the secret. Accept this lesson with the heart it is given to you; for your minds are so occupied with matters of self and interest of the material foundation that you do not have the desire to probe into the question of the magnetic formation of the inner personality or soul chemical process, which can only be created through the degrees of light development. Your aura is as much your personality as your face is; but the storage of your magnetism is in your heart—so there must be an aura emanating from it. Now it depends what heart it is—the body heart with its flesh love and consciousness, or the heart of soul that loves God and has the consciousness of His Light.

Aura of Trees, Flowers and Vegetables

DO you realize how all are decked by God's Laws in a heart filling beauty, a blossoming so different, so beautiful that there are no words to describe their beauty when the colors and fruit are all in bloom? And how with the same intensity of devotion in watching them and then gathering the harvest, what a joy as you eat the fruit! Only then you realize the labor and care you have bestowed on them. God and you worked together in that orchard with you

obeying God's Laws. So it is with your aura orchard in bringing out beautiful fruit — a vibration — which God gave you to plant only on God's scientific bases through which you become clothed in color vibration even more beautiful in color for it gives light energy for soul—a light that can spread for miles that helps many and the whole country with your love and obedience to God's Laws.

Your vibrations are greater and everlasting if they all vibrate love

to God from all your faculties and centered in your heart which will form the star. "And they shall shine as stars forever." Jesus, the wonder Aura Super Scientist, said this for He knew what the loving-God-vibration would form in the heart. This has been proven for it takes place scientifically. This is your fruit which God will accept from you.

Let us now look at the vibration of the different vegetables. Each color has a different chemical that corresponds with the chemical of your body. You become united in that vibration which is all earthly; it is the same when you eat meat or fish. You get those chemicals if you are living the life of an animal and live on vegetables; only you are united in vibration with the animals of that vibration. But you that live a clean life can eat all meat and fish and will not get connected with those vibrations.

Each flower is known by its shape and color but their vibrations all differ. Look at the violet. It shows a humility in shape and in color and vibrates high and greater than the largest flower or even the rose with its perfume. The white rose and the lily of the valley function of the same vibration. The red rose functions with the red vegetable such as tomatoes, strawberries, etc. Each one has its certain vibration affinities.

Trees have their organizations and do not mix. The Redwood

trees 10,000 years old have powerful vibrations. Their auras extend for miles. Now the fruit trees, the orange, the apple and peach have their different affinities. By planting with some flower of their color-vibration they unite in color—not in shape but in vibration. The Aura Scientist took the vibration of the 10,000 years trees and of all the others. You ask, "Why do they live so long?" Because of their auras staying in the one organization and not mingling with other aura vibrations, thereby keeping the strength all for themselves. It is the same with the old religions that do not mingle but grow old in their vibration and strength but not in Light. There is the secret of vibration!

When we inhale the four season's vibration we also eat the four season's food in vegetables, berries, etc. Why? To keep connected with the earth's atmosphere—as all vibrations on this planet go in a rhythm—and when you want to change it you get sick, including many insane cases, that have lost the higher color vibrations or that have not earned them, unless one helps them with their higher vibration to feed them with that which will then remove the obsessions. But there are not many who know this Law or how to use It. We say, "In Jesus' Name be thou removed." But obsessions will laugh at you because you do not live the life and do not have the aura and are using Jesus' Name like a parrot which has no consciousness.

Atom's Purity Aura Shows Your Feeling

THE Aura Scientist, when living in Paris and studying the Aura, lived near the Arc de Triomphe. Even in the intersection of the Rue de Chaillot could be seen the Light of the Arc; even on a dark night. Why? Because it was a Light like that of the Statue of Liberty.

Upon entering the U. S. A. all people begin to sing the National Anthem; and how you feel the freedom-atom of America. You that dream American cry for joy coming back home, and those starting a free new life, cry with you to become united with your country. Why? They feel something new. So it is with the new atoms you develop in that body of yours when you start to study this Book, which will give you the training and the capacity to understand and to work with the Bible; as this Aura Science will explain the Bible to you more than man can with his mortal visions. Some are like trees with branches and leaves that have no fruit, which means Light atoms. They think they are free, and live in sin, but do not know what suffering stands before them. Therefore only the Light Atoms Aura can give you the real freedom, but you have to go through a spiritual operation, something like the body operation.

When a Surgeon opens or cuts into a part of your body with a knife, it opens up like a manifold curtain. When the organs' atoms which have never seen light are laid bare, no other weapon but a thin blade, a needle and a steady hand is needed to hold them. Now the spiritual operation must also be done to many that have spiritual tumors; but no knife or needle will do the work, only the Aura Chart with its colors in your aura which starts with peach, a colored golden yellow stream like a storm in the spring. You will say toujours to all temptation of fears and worries as you will be free of pain not only of the physical tumor, but more, of the spiritual tumors which bring on physical pains.

Your nerves are the harp on which you play with your vibration with harmony or disharmony the song of life through which you sing in vibration. All sing through your aura in a beautiful symphony of colors or darkness. When you complain of nerves and that you cannot sleep, it is because your conscience is not clean. Your feelings are not of white atoms creation. They are not clean or light. . . Now you might take sleeping tablets but the aura of darkness remains and will kill you in time if

you do not change your atoms and their aura colors.

This Aura Science must become a goal to start a new life of freedom like the Statue of Liberty, carrying the Light—no longer just nibbling in knowledge of the world man-history. The atoms' aura history is the good substantial food which is better than just hors

d'oeuvres that gives you an appetite but no strength. Like good food, we must eat the truth in vibration from the good atoms and their aura clothing with its healing power and light.

This Aura Science is now bringing out the new Religion which is of Light.

Why The Atom Aura Bomb Is Combined With The Aura Of The New Star

THE new star's aura gives out a purplish light with light blue and green rings. The proof of it is that the newspaper writers and many of Science and other people saw the atom bomb which was like a pillar of a purplish fire rising 10,000 feet, which then shot up into the sky suddenly over Nagasaki where it was stationed of August 9 from the burst of the second atomic bomb which was dropped on Japan before peace was declared. This has only been released now by the war department.

To describe it, this was a great event, like a child born, out of the ship's artiste; out of the belly came a black object which came downward. This was in broad day light. The great flash that broke through its dark barrier flooded

all in an intense light with a light still lingering on of a bluish green that illuminated the entire sky with a red illumination all around. A tremendous blast wave struck in vibration with four more blasts in a rapid progression and succession — each resounding like the boom of a cannon fire. Then from afar off they saw a giant ball of fire rise through the bowels of, or from the earth and belched forth enormous white smoke rings. Then they saw a giant pillar of purple fire shooting 10,000 feet high skywards with an enormous speed; then the atomic explosion. The pillar of purple fire had reached the level of altitude.

Just think of going upwards like a meteor and becoming more alive as it climbed skywards through the white clouds. And it was no longer

a smoke dust or a cloud fire. It was a living thing—a new species of being born right there covering millions of years of its evolution. It had the form of a giant square totem pole with its base about three miles long, tapering off to about a mile. Its bottom vibration was a brown center with an amber white top; so it was a living totem pole, carved with many shapes which looked as though it had settled down when suddenly there came out of the top a smoke like a giant mushroom which increased the height of the pillar to a total of 45,000 feet.

The mushroom top's vibration was even more alive than the pillar, seething and boiling in a white fury of a creamy foam sizzling upwards and then descending earthward like 1000 geysers rolled into one, which kept struggling in an elemental fury like a creature in the act of breaking bonds that were holding it down. But in a few seconds it had freed itself from its gigantic stem and floated upwards with a tremendous speed—its momentum carrying it into the stratosphere to a light of about 60,000 feet. But no sooner had this happened when another mushroom smaller in size than the first began emerging out of the pillar. It was as though a decapitated living thing looking like a great monster was growing a new head; and as the first mushroom head floated off into the blue it changed its shape into a flowing flower like form with its giant petals curving downward with a creamy white on the outside

and a rose colored inside. But it still retained that shape off at a distance of about 200 miles.

Many saw this with awe struck eyes of what the aura when carrying the atoms could bring forth when harnessed in nature through the atmosphere. Will you now believe in the Aura Atom that is within each one—that if it was harnessed in light to shoot in the atmosphere of what it would destroy of evil and elementals— This the Aura Scientist has found out— of how each one can help to harness it to get ready for the great event: as the aura of Satan is still on the face of this earth.

We must destroy the darkness, the aura of the beast atom; and that must be done scientifically and with light atom prayers. Religions alone cannot do it, but this will do it. You have the proof what just an atom of nature will do; but what will a light atom do when harnessed and scientifically prepared?

The Atomic Bomb was not a bomb made just of prayers, demonstrations or of affirmations, but it was made by the substance of atoms harnessed in unity and a chemical change which harmonized the substance into all the colors it needed to bring this destruction. And remember, people of similar auras, vibrating of hatred, lust and anger had to be united at that time and were drawn together. Anyone not belonging to that aura was taken away, or they were not damaged. The crust of each aura is like

a big wall that cannot be damaged if it has light.

The Aura Scientist has diagnosed and watched sick and healthy peoples' auras and their countries for over thirty-five years, and knew many times what they were drawing to them. Out of a thousand of auras there was only one found

with a little light; the rest were in dark colors.

You will realize now as you read this Atom Aura Bomb Life what will come out of your atom aura made into a bomb through this Aura Science. This little book holds the secret; so Aura students, study every line and the colors of everything that your aura chart shows!

Your Body Dying Shown In The Aura By Colors

THIS is the greatest study of life and death which only the aura can reveal and tell the true story by the Aura science which proves here and hereafter what kind of soul you are no matter how homely or a cripple in body, and what sins you have committed, which is proven in vibration. Facts remain not words or excuses.

The Super Aura Scientist Jesus, said, "Ye shall pay to the last farthing," which means to the last or least vibration will receive its reward in light vibrations or in vibrations of darkness which is the Law of God no matter what your religion is. This is God's Law in Light, in Atoms, in Vibrations, in the Aura Life here and hereafter. No one can change it; neither your religion, as science is proof, not words.

Jesus gave everything mostly in symbols for people to grasp and to become conscious of His Vibration

Teaching. He could not explain the Aura to people, but three of His Apostles saw His Aura—as His Face shone as Light. His Vibrations were in the color of white light. Not one dark vibration, otherwise He could not have said, "I am the light of the world." Only the Apostles could feel His Vibration of purity. Why? Because they had given up sex and the material life of body. If they hadn't done this they could not have received the Vibration from Jesus and started Christianity.

We all would still be unbelievers but for Jesus' Light Religion. We will become light souls if we earn His Light Vibration and prove it in our auras. We live our lives and pay through our auras in vibration. Jesus said, "It is the spirit that profiteth; not the body"; and "to be born again." So death is only a passing on.

The Aura Scientist studied the

aura of the dying—a process which is very holy. The first thing, the physical ego enters the human mind and becomes spiritually alive in its new aura quickly with vibration, clothed and closed with the mind's aura vibration, like closing a door. This then is the end of the vital vibration functions of all the senses; and as we people have two bodies, the emotional and the etheric, they now begin to withdraw very slowly. So if the dying one is still conscious and can stand the news that he (or she) is dying, pray with him for God's Mercy to be ready to go home to God.

Immediately after death, a very important process is carried on in vibration, so the Aura Scientist asks those that are in the death chamber not to make any noise in the room and house. This is very important, because just at this time when this passing spirit is slowly withdrawing from its body, it begins to become conscious and sees in pictures (that show the vibration of its whole life) just like a pantomime of his or her entire life. This lasts for three and one half days so that the nature of the past life and its vibrations come to the memory of that spirit what he or she has accomplished, misused, created whether of good vibrations or of sins through the body, or the harm done to someone else's body. That's why you see the undertakers take the dead bodies to a basement or to a place where it is quiet and dark. Even though they do not see the vibration, they feel to do this. God impresses them.

The wonderful thing is to see the vibration of light or of darkness standing around the dead body; for during that time the physical body is connected with the two other bodies by a silver cord about two and one half inches in thickness that has ends with a shape of three hooks or vibrations of which two are fastened on to the two bodies, the etheric and emotional, but the one hook or vibration is still fastened on to the physical body.

You must realize that the spirit suffers and the body is shaken, as it is still connected in vibration on the outside for as long as the picture in vibration of the past life is passing in a procession; and only when she or he sees the last picture passing is the silver cord cut off completely. So do not bury or cremate the body for three and one half days, otherwise the spirit suffers—and as it cannot speak any longer the vibrations twist and turn like in agony. This is God's Law for death and for the death which takes place for everyone.

Tell the undertaker to put the body in a wooden box with plenty of ice and so that the water can flow out. After the life history vibration has been displayed, the emotional body and silver cord is broken entirely, then the etheric body gravitates as it is finished and returns to the physical body and leaves the spirit and its aura free to go where it belongs—to the light vibration sphere or to darkness. This is the body's last payment. (Cremation is best for all.)

Interior Earth's Volcanoes And Their Atoms

Aura Development

VOLCANOES together with earthquakes play an important part in the constitution of the earth's interior; and by the study of our earth as a planet and by its aura colors we know when the catastrophe is ready to start.

This was very difficult for the Aura Scientist years ago when explaining the atom's aura war would start not only in the nature but also in the atmosphere or underneath the earth and on the earth, in and underneath the ocean—as there are good and bad atoms. Their auras prove what vibration they throw out, which makes volcanoes. This also takes place within every human and animal being. And even though we all are connected with all those atoms and auras, we create our own catastrophe within our atoms and aura.

Everyone realizes the facts and acts of anger, hatred, murder, crimes and lust. We say it is unnatural; but you cannot say this about a wild beast. Now their hatred atom's aura which rules them are developed in many peoples' auras also; as the positive atoms rule and develop the character of them by holding the vibration in the center on the brain or in the center of the heart. It depends on the amount of feeling of

heat and the unity of the negative atoms.

This Aura Scientist who says the auras are the blue prints of the soul's aura has studied by watching the heaven's and earth's atoms, and the nature's aura, and has made thousands of aura charts for years of people. Having the gift of seeing the auras, it was used mostly to help the sick and humanity—not those just for curiosity—as many people seeking the aura were only seeking out of curiosity but not to use it on themselves to avoid sickness or wars.

Watching the volcanoes and their eruptions of nature and their aura, the Scientist made their aura charts of their aura atoms. This symbol of the nature's eruption is also the same as in humans and animals, also trees. In Africa was found a tree that only lives on human and animal flesh. The atoms and aura is like that of a wild beast, also partly human, in so much that the evil lives in and tempts with the protection of its branches and perfume, so hypnotizing whoever comes near it until it devours its victims. This tree is worshipped by the natives just as the volcanoes are worshipped by many people here. In asking the natives why they did not move the

tree, they answered that it was their god. It is the same with the people that are in fear yet in love with the volcanoes.

Why this? Because those people were hypnotized by those bad atoms; those peoples' atoms and auras had become connected with the volcanic crater atoms and aura.

By living in that air, eating the volcanic vegetables and gathering the wild fruit (of which there is plenty), the natives had become united with the aura of that monster and would not leave even though earthquakes shook the surrounding regions, which was often. And when storms rose, lightning would also strike there.

One morning the aura showed a danger of black and grey greenish red signs with the signal showing by this aura darkness that soon it would start—which was becoming twice as large and round like a planet with a hole in the center. One hour afterwards the sounds started and boomed like that of an artillery fire. The noises increased, but still the people stayed around. Then quantities of dust hurled aloft, faster even than the wind could carry it; then suddenly darkness came; the houses began to shake like from cannon fire. The catastrophe was horrible! Similar effects take place in people, in peoples' lives and atoms. . . Analyze all the symbols of the nature-atoms with atoms and aura eruptions of the character of people and you will realize nature and how closely you are united with it.

The unfortunate people who

were near the volcanoes began to run away but they were often struck by trees some a hundred years old and fruit trees which were uprooted along with the tornado effect of the clouds. The sun was obscured, the sky united and took on the darkness of night. Now the immense dark cloud seemed to have been laden with something lethal like noxious gases of the atoms aura of evil vibrations which accompanied the clouds—just as though they were filled with hatred and anger vibrations to kill. . . Now can you see the truth of how much it is the same with humans?

To verify this story, there was one man, a prisoner, hiding in jail at that time who gave an account to many scientists who interviewed him as he was badly burned. He said that he was in a dungeon underground prison and had been burned. What saved him was that he was underneath the prison; and through the aperture in the upper part of his door he saw this. He said there was a hot air with fine black ashes entering from which he was burned. No help came but that intense heat was only momentary. And as there was no smoke, gas nor flame, he could not understand it until four days later when he was rescued.

Geologists and explorers with scientists can only see the nature's eruptions, but this Aura Scientist can see the aura and atom eruptions. The lesson for Aura students is that you will have to learn the leap from the electric pole to pole to open up the hidden atoms and

aura powers with more sharpened educated faculties through which you will learn how to make the leap from within first. Sooner or later everyone has to go through life eruptions; so accept the warnings given here in this book. The Bible gives you this truth from the Old to the New Testament, and not by ideas—only by Laws.

This has to be made electrically, materially and spiritually from your aura's pole to the solution of your atoms growth and circulation in your aura senses, which is shown you in your aura chart—where there is no longer any guess work but facts. Therefore you must apply this Aura Method and Law

to save many eruptions within and outside of you which the bad atoms' aura connection with the tempter, the prince of darkness causes to take place. Wars will be avoided when man becomes qualified in his atoms' aura purity.

You can see the truth with some leaders. Seven years ago a leader's aura and his atom showed when the Aura Scientist was in Berlin and made his aura chart which predicted his downfall through his seven dark clouded senses' black atoms which also took seven years; for his downfall came suddenly.

Aura students, study and learn the lesson by your aura chart.

Aura of Atmosphere, of Planets and of Nature

DO you realize that matter exists and is in the atmosphere, and in different conditions that will change its conditions by variations of pressure and temperature, solid, liquid and gaseous? Scientists by science of nature theory say that under proper temperature and pressure this will exist in all substance in all those conditions which Chemists have succeeded in reducing from one state to another. We may have gold as a solid or liquid

or a gas which we call etheric natural elements.

We speak of atoms. There are atoms of oxygen or hydrogen which is only a molecule which can be broken up into atoms. There are definite physical atoms which when they are all broken up, we get a set of some positive and some negative. This brings the birth of the new atom—which also proves that male and female must combine in everything

—not just sex but in power to rule —not one to rule (the positive) alone; as this has shown failure and only brings destruction and wars, where men die and women live to suffer.

If this truth is believed and used!—But all must harmonize. If the atoms are broken up they will give a different realm of nature. They are also spoken of as plains or spheres, one above another, according to the different degree of vibration and color—as they never touch each other. Even as in the hardest substance, no two atoms touch one another—for each atom has its field of action, vibration and space.

Our physical atoms float in our astral sea and live on the physical chemicals and form in the body

through the senses through which they can be perceived—according to our consciousness. But this is again different than in animals or vegetation. Those atoms of different colors and vibrations throw out a different magnetism which each one proves to be different by their auras.

You know animals have different dispositions. I told a horse dealer what to do for an old sick horse. He said that he would kill him. But I told him that the horse's aura was helping him. Then he said, "Of course we love him. He saved my wife and children's lives on a railroad track. When she fainted the horse stopped just before the train passed. I would only trust my children with him." The horse got well as he did what I told him to do.

How to Earn Healing and Success Aura Color

YOUR foundation for success is—you must become a ruler of the material conditions to stand on a spiritual foundation upon which to build your success; then what you vibrate you shall have. The success color is light green. All starts growing with that color which is the vibration of hope and faith. Therefore, when you vibrate the

white light you can no longer use it for a personal gain—only for the spiritual success in helping others. This is the greatest success!

Looking at the healing vibration, Jesus said, "Put the armor (aura) of light around you." Those light vibrations make your aura a light; and to put it around you, it means to have it in your twelve faculties

or senses which makes the circle or vibration-chain. A chain is as strong as its weakest link. The weakest link must be strengthened in order to make the chain strong—which is the same in vibration around you. And as you become quickened in your vibration, you will see the comparatively worthlessness of the material wealth or health without the spiritual progress. It is better to live a few years in a holy vibration of purity, poor and sick than many rich sinful years and belonging to the animal or kingdom of darkness. When you pass on your vibration shall speak for you in your aura.

The law of nature in vibration and aura is omnipotent and your belief makes no difference to the

course of refining you must undergo to change from the lower or vibration of darkness into the higher light vibration. You undergo this refining apart from your own volition; and no matter what your religious belief is, it comes by the inexorable law of light and you can do nothing to prevent it with thoughts or words. You must earn the vibration of Light; because those of the same vibration herd together by the material protective things like money and family, and have nothing higher in their vibration coloring than the animals. But you as Christians must earn and vibrate the inner Light. So realize that there are greater things in the Universe than those our eyes can discern!

Atoms and Aura Light

THE positive and negative or male and female atoms rule in the whole atmosphere because both have the same amount of power which their aura shows. The male (positive) atom's aura is in a position of swimming. The shape of this atom aura and color is a heliotrope and green with red going around it. Now the negative atom or female has a violet pink with blue all around the aura. The aura position is like skating on ice in the ether.

You must know those movements of swimming and skating which give two different vibrations of two in a rhythm. One is lengthwise and the other is upright, both meeting which gives the electricity; so one could not do it. Both are the ruling power in the atmosphere. But as the negative has the higher vibration in the aura, it has the greater power; but connected, this becomes one power.

In 1924 the Scientist spoke in Carnegie Hall about atoms and

their future which would start soon as a power to control through a science of atoms, and that the Science would rule but it could not live without the Aura and that's why both have to be studied. The people scoffed and ridiculed the Scientist, but many scientists, professors of the College and of the University, also doctors and surgeons asked for lectures, to teach and to give them the Aura Book, but the Aura Scientist saw that they were not ready. But now as the Atom time is proven and has come closer to the people's minds by facts, the great discovery of the Scientist of over twenty-one years ago has now become a fact. Greater things will now develop through the Atom and Aura Science, so it has now started the Atom and Aura Science in this book.

So many people did not believe in electricity until they saw the electric light; the same with the atom bomb. This humble Aura Scientist who sees the Aura, predicts that greater things will come in this Atom Age. Why is it that you do not see it? Because you were not born with this God's given Gift;

and even if you could see it, you would not know what it means because you do not have the Aura vibration Laws but the sight. Both have to be given by God. So it is only given as a Science and not for the curiosity satisfaction of egos—but for a spiritual Science. Jesus said, "I have to be about my Father's Business." His Light. For God is Light and the Creator of Light.

This wonderful truth of Light is now coming to the light but must be understood in the Laws of Light by scientific spiritual clean minds—not just sex minds. If your mind is only sex it becomes clouded, so is your heart vibration. "As the man thinketh in his heart so is he." This the wondrous Aura Master Jesus said Who made the auras in the sand, as He never wrote nor could He read for God wanted Jesus' Mind to be free of all man's religion and knowledge: as Light only comes by Light Laws which Jesus gave by the soul atoms and their auras. The atmospheric atoms are not to be compared with those of Light!

THE AURA FORM AND ITS EFFECT ON BUSINESS

THIS great study is given you to develop your mind into a greater realization of what you are made of, and what you are making of yourself. Then you will find your gifts, how to make a success in any business you might undertake; and it will help you to a greater harmony and peace within to earn the light vibration. All inventions are only found through the study of vibrations. It takes a scientist to study the knowledge of light and how to use it. So think of the great help you will receive in knowing yourself within—not just looking in the mirror to see how nice you look on the outside.

The elemental essence is created by the human soul through the body which proves your real love—whether it is for God, body, family, money or for all the material. This ether matter of the body makes a circle of different colors—dark or light—in advertising your motives, as all impulses are clothed in a vitalized matter, and so remains a human soul until it can become conscious of something higher than self and all pertaining to self. Only through suffering can it develop out of the animal kingdom into the spiritual. Out of a thousand only one develops living in self-righteousness and self satisfaction, but

that one does not vibrate in light.

Now for instance, if your energy—which is your feeling—is connected with someone else, it moves towards that person and discharges itself. And often when your mind becomes a blank after your days labor, you begin to feel the vibrations of the impulses that are within you—whether it is lust, jealousy, hatred, etc.,—which mingle with the outer impulses of the world. But if your consciousness is to an extent awakened to the natural reaction of your own past through thoughts and acts—as all rate in vibration—this stays with you and comes forth from within and without; which is sometimes less modified by its rate.

As you become a student of this Aura study, it will teach you the control of thoughts and of feeling for the mind and body. But there are different lessons to be learned of different vibrations for the soul. Realize that just as the body is made of chemicals, so is the spirit and soul; and by those chemicals you develop your soul in formation of vibration which proves the form and color in your soul. Many do not believe in vibration; but just as light in nature is made of vibration, so must the fact of the crea-

tion of vibration have a distinct form.

To help you to understand the lesson more, take for instance, some fine white sand and scatter it on the surface of a glass plate. Touch the plate at different points (a four point plate or glass) so that when it is turned at different angles,

varying forms will be obtained. Many will look like your thought forms. Often they are also compared with your own human voice in vibration (round or pointed). This gives you just a small idea of the great study of the vibrations that are visible; but those invisible vibrations are intense in vibration according to their form and color.

The World Aura Colors are Now Changing Into a New Atom Aura

THE vibrations have changed in colors of yellow, blue, light purple and violet which shows the change of the past nine months. Before, the colors were more of a darker grey, blue, brown and orange. Now the colors prove that greater events will take place and they will start from America. Also religious events will take place, leading from the Holy Land and spreading all over Europe, with a new world Religion through which will come a Light Science which will prove that Jesus' Light is alive.

This Jesus' Religion must come out of His Birthplace now from the Holy Land which was His Homeland,—and on those Vibrations on earth; so His Vibration will never leave which He left in His Words and all through certain places in

the Holy Land where His Light shows in color.

Everyone knows that America has become the mother Country for all countries in Europe by helping and fighting for them, and all because of the American Constitutional Laws of Justice which built the American Aura Vibrations of 'one for all and all for one, all equal, and embracing all people of all countries, and joining in one vibration in color with people to come to the color of the red, white and blue of the American Brotherhood to help all', which comes as they join in that American Aura vibration through which the protection will be on them and their children's children. America feels more of the aura vibrations of Europe because of the war; and her

eyes are opened as to which country will vibrate more with the United States of America by facts or with vibrations—not just words—as they have only short waves of radio activity and proves insincerity.

America's aura shows a new birth of woman's age also, as the two heart vibrations of the positive-male and the negative-female vibration cannot be dormant any longer; so they must not only be established just in childbirth but for/to help the countries to bear auras with light; also in the religions changes will take place. This has to have two—one positive and negative—as leading vibrations—not just to produce ruling but a unity—as the light color by both equally will lead others in helping together through their auras and not just personality.

We need the vibrations of light of leaders in America with a great watchfulness of our enemies of the past, as they are not spiritually defeated; for their aura proves that they will begin a new conquest if we do not have that vibration-power established with the aura color here in America—because the vibration proves, of both Germany and Japan, that their colors and vibrations are still connected with each other. The war has not broken their aura vibration which is strong. And as long as those atoms and auras are not dissolved of our aura vibration or that energy is supplied to their vibration with more strength, then sooner or later it will break loose like a volcano.

The aura of some enemy is still and silently working. The time has not yet come; but soon it will be found. We had our last war 29 years ago. Germany's aura vibration was not spiritually defeated. That is why the war had to start again and from Germany with its vibration spreading all over the world. This fact you must understand: even if you cannot grasp this Light Atom Science you must believe facts and acts which have happened in the past.

As a lesson to stop the wars, parents must create cleaner lives to give cleaner births. Remember, only those scientific facts live by acts from the life you parents each have lived. Your aura positively proves your life and shows the colors. Those vibrations of colors draw similar vibrations of colors to your children's birth; and when growing up, they live in your sins of lust love, anger, jealousy and hatred aura or atmosphere of your aura. So do not be surprised if they disapprove or disrespect or leave you; then also some become weaklings, insane or degenerates, killers, thieves and criminals. You are responsible for their aura lives, parents, by your lives which show in the auras.

You cannot pretend any longer; but be honest; go on your knees and pray to God before you desire to bear children so as to be prepared and not overloading the world by relieving your sex desires, lust or for your lust selfish love; but that the children will love and serve God. Then you are not only

helping yourself and their auras, but the world will be helped and covered with the Vibration of God's Blessings of His Light. His Light will rule the world and darkness will find that it has no power on this planet any longer.

Let us be willing to be honest, Americans. No longer being luke-warm and just pretending. Once while going through New York's eastside where there were 1,000 children, their auras were like animals' auras. Many parents live that way. I found it the same way in Europe. Many rich people brought me their children of weak minds, born of drunkenness or power and of money greed. You will be surprised when you faith-

fully use the Aura Chart showing what life starts in you and through which your children's lives will be lives of truth—as Light gives truth.

Do not be spiritually lazy to improve: for you are so ambitious and sincere to improve yourself outside for others to see you; but your deceitful vibration will remain in your aura which will and must bring a disease sooner or later—which will also bring children infested with elementals to the world. No man-made religion can remove it—only God by Light which Jesus, the Saviour and the Super Aura Scientist brought to us by the Light Laws through the new Religion, the Science of Light.

Prayers, Words and Numbers Have Different Auras

EVERY word spoken with feeling creates a vibration (as vibrations are made through feelings) which stay in your aura. Start in having beautiful thoughts. Do not dwell on family or people, in giving sympathy, who work against God's Laws of Light and suffer or are sick; but make their aura chart and you will find the cause of their sufferings. And if they are willing to change, they will soon feel the healing vibration coming through their aura

which is God's Light of a healing vibration of a white color which comes as you have used the Super Master's Aura Science of Healing of Light.

Let your words be "yea" (light) and "nay" (darkness). Do not allow your words to vibrate darkness. Change at once if the words you have spoken are of hatred, lust, etc., or against, or to hurt another one, otherwise they will stay in your aura to hurt you—not that

you want to hurt that one. Use words of "God bless you" to each one. That's why the Aura Scientist has given out through the Aura Brotherhood, a million of God Bless You leaflets—to produce those blessed vibrations through the world—especially during the war when there was so much hatred. This helped to break that vibration and made a light pathway for the Light Peace to come from God; otherwise we would not have had the Light Atom Bomb which helped to open and clean the way from the dark vibration. We could not have done it alone with the vibrations of prayers—but with acts through and with the Atom Laws.

This Atom Aura Science proves how much it will help you individually when used—for now comes the Atom and Aura Age Science, the greatest wisdom in the world. You've often asked why your prayers have not been answered. Because and on account of your aura. Your prayers were empty words: for at that time you either had fear of sickness or were worried—all to get help but not investigating the cause that produced it. Clean out prayers said of lust life and hatred vibrations. Fill your aura with beautiful vibration colors which you will find in this book—of how to renew your prayers with purity and how to renew your life and aura; then not only will your prayers be answered, you healed and helped, but your prayers for others will be answered quicker, also their prayers. Watch and keep silence; in silence you can

pray more with an empty mind.

Reading in the paper, it spoke of an old lady celebrating her one hundredth birthday; while trying to cut her birthday cake her oldest son of seventy-six asked to help her and her twin sons of seventy-one years also asked to help her. She reproved them by saying that boys must be seen but not heard. She still was their teacher. This symbol might be used in regard to the Aura Scientist worker and teacher in finding this Atom and Aura Science and in teaching the students and feeding them with this great life-time study to see and to realize. 'To cut the cake' means to obey strictly the rules of this Aura Science, and not to do their way no matter how much of the aura they see, know or have read, but to apply the Laws of this book—which is the Key to the Bible in vibration.

Dear Aura students, do you know that you are a number? Every aura has a number; therefore your aura has a number. You will find it in your aura chart. We know that God's Number is One: for there is only One God Who creates Light. All that have the mark of God must have the number of one God's Light which is Jesus' Father, the only God. Then there is the mark of the beast which is Satan's. His number is 666; and he marks those with that number. The Bible says that they are marked with the mark of the beast on their foreheads which you can see plainly when you develop your eye's inner light; and if not, you can feel their vibration which is repulsive to you,

from which you feel sick, nervous and discontented to be in their presence. You feel that they can not give you any good vibration,—only tempt you to sin with them, giving into their body desires. Beware, flee from them; you would rather have a rattle snake shoot out darkness and poison at you. The other gives you their love of lust and vibrations of darkness; and once you become connected with them you must fight for your life to become free, which can only be done by cleaning their poisonous vibration that has entered in you just as you would clean the poison of a rattler. The aura chart will tell you and give you their 666 vibration number in color; also you

will find out your mark.

The Aura Scientist saw that out of one hundred people, seventy-five had that terrible mark, and they proclaimed an old religion and were all saved—which they claimed—but they were unconscious of their mark of the beast. The vibrations hanging around them were like hooks which were building a chain such as you see on prisoners in chains on this earth; so it is hereafter.

Start and follow the rules which the Super Master Scientist, Jesus, used and gave out in the Light Science which can only be followed in Light Atoms and the Aura Science. "Blessed are they which do not see but believe."

Why Light Through the White Atoms Produces Changes in Religions

TO revolutionize is to effect a change—not only a change in government or principles but also in the government of religions. The Aura Scientist gave this lecture to Scientists in New York in 1921. Many scientists accepted and started with a greater interest to study the atoms of the atmosphere after the Aura Scientist introduced the great findings, also that in the nature's atoms aura, which in explain-

ing proved the many different atoms that contained a different power and substance through their different chemicals from which when broken could draw not only a greater power, but also gold, silver and different metals from atoms. All through the Universe that is alive, there are atoms; but only the atmosphere has the most different atoms which give life to all the different earth, human, animal, min-

eral and living things in a different light.

Many scientists gathered to study with the Aura Scientist; and so after this great start, the Science of the Atom Age started which has taken twenty-four years of atom development. The Atomic Bomb is the proof now. At the same time, the Aura Scientist who has the gift of seeing the aura with its coloring after and through a long study, found the atom language—which showed what it contained in the heart of the atom of nature. Then studying the Bible, the Scientist found that the Aura of Light in Jesus' Words which held atoms of different Light, gave power to different meanings in vibration, leading to the white Atoms of Light.

Now the Scientist is giving out this secret—being the founder of the spiritual white atoms—which every religion must have by a scientific understanding through which this atom-substance will be earned—which must connect to Jesus' Light Atom. That connection must be made just as in the nature's atoms which the scientists prove by producing the facts of their connection. That is why five hundred Christian religions all speak of God and Jesus, but have different vibrations which are needed for development for the different atoms; but only the white Atom connects with Jesus' Light.

The experience of religion is just as real as anything that exists in other nature atoms—so in realms in human nature. Religion is needed and does wonders for the frail

and weak humanity, to uplift the fallen, to cheer the down cast and to inspire the weak.

Capitalize your strong and good points instead of capitalizing on your sins or illness only in order to gain attention, love and sympathy. In acquiring self control take up the struggle of improving your self control. It is really a character struggle which none of us can dodge in learning self mastery; so devote your mental efforts to a positive thinking of God's Truth of Light, for you must earn the white Atom for Light.

The five hundred different Christian religious vibrations all must come to Jesus' Light Atom connection some day. All religions will be in one Jesus' Religion of His Words of Light, lived in every heart to create those atoms. The Bible is filled with different vibrations but only Jesus' Words carry the white Light Atoms. The other old religions which do not accept Christ, must some day; for only through Him we connect with God's Light.

The Old Testament in the Bible speaks of Light coming—this is the Light or the Atom Age, where Science has proved and which the Aura Scientist discovered and found through the Aura, the great secret (in the aura) of the white Atom's Light which all must earn. And all must have Jesus' Religion to produce it in us—not just talking and repeating Jesus' Words alone, but to vibrate them within us to create the white atom which God gave us—(the soul atom)—which must be protected and used

in promoting Light with facts in our aura: for only Jesus' Light Religion can produce it.

In the different creeds and their different ceremonies, often only the emotion is produced but not the feeling or substance for the white Atoms to build Light. Christianity must start in virtue with motives for virtue—not only just concentrating on the spiritual values but to live through the body with not just the personality but light. That needs strength and perseverance in following in the Light Atoms' Laws to earn its Light and to become connected with Jesus' Atoms of Light.

If Jesus' Aura had not given out the Light of His Atoms, He would not have had them within—therefore it was not His Flesh and Blood atoms alone, but His spiritual white Atoms which He built and earned—His Aura proved it. For He had to check up every thought, act and motive to keep connected with God's Atoms' Light which came in greater Light Vibrations to Him. As He was also in a human form, the evil temptations came to Him. He was sick; He perspired blood, was hungry, cold and had all the human feelings and desires. He also had to overcome the body desires.

Jesus spoke of peace because He gave peace atoms through His Aura in Vibrations which He gave to the Apostles, as they became connected with His white Aura of Light Atoms.

Now realize that just as the nature atoms can destroy and build,

so can the spiritual atoms bring peace and religion to the country—or the anti-Christ's atoms of darkness. It can also do this in you if you continue to be ignorant—but not if you obey the Laws of the Spiritual Atoms Science.

Jesus' Light Atom Science, which was in all His Words, will show how to build new atoms of Light in you. For instance, He said, "Out of his belly shall flow rivers of living light." That means Light vibrations which are created through the white Light Atoms. For right under your solar plexus is your soul atom. There is the explanation which you must believe.

Jesus had to bring this white Atom first. Then He gave It in science to the world. That's why Jesus' Own Religion was an Atomic Light. He said that He was Light—and through Him the Apostles became light—which proves that they had to use Jesus' Aura Science to create and to prove by their auras that they had Light Atoms. This proves the white Atoms and Its Science started the first Light Christians.

Each planet proves by its vibration that it has a different aura. All are different; the same with stars, people, animals and in the mineral kingdom. Those billions and billions of different auras hold life-giving nature and spiritual atoms which have been discovered now, and will be found to be true in later years when the realization comes more of the Truth of God's Laws of Light — which can only come through the Atom's Aura. That is

why the Apostles had to see Jesus' Light Aura before He passed. Through His only begotten Son, God advertised the truth of this Aura Science.

God said, "Let there be light." Those were His first Words when He made this planet. Only now the Light Age has come, which started with the Atoms' Power discovery. But there would be no atoms without the aura which holds them, which the Aura Scientist has been

able to see since childhood, and through which the Scientist uncovered the difference of the spiritual Atom and Aura and the atmospheric Atoms. If God had not given this gift this fact could never have been discovered.

This Science has been verified with scientific facts, with prophecies, with thousands of healings and with facts of miracles unbelievable by the Aura Scientist.

How to Start the Growth of Light in Your Aura

HOW can you keep it growing? Only by Light. Just as everything has a beginning in life, you have had yours from ages—from the primitive consciousness of man to the consciousness you have today. It may have taken many incarnations before your aura could develop out of darkness into light. Many people studying this science have been benefited, healed, protected and blessed; it will do the same for your soul—but you must start to become conscious how to use the Laws which will make you free.

The Holy Aura Master-Saviour said to know yourself. He meant by

your aura—that if you have created darkness, you must know how to uncreate the darkness by His Aura Laws which are given in this book by the Aura Scientist who can help you after having studied many thousands of auras through years of hard labor. It is the greatest study in the world: for just as there are no two auras alike, neither faces. There is always a little difference. The most glorious and beautiful auras which the saints have can be had by you without money, with just a little effort from you; so start now and you will rejoice in having done so. Do not postpone it for you will no longer

be ignorant; so start your aura growth in light. Study this 'wonder' book and use the Laws and see yourself change for the better day by day. Health and success is yours in body and soul.

Your thoughts and acts with facts prove with colors. Realize, from one to twenty minutes, poor thoughts will cease obtruding themselves upon your mind. What a relief! What a triumph! Try it. You have to nourish your aura vibration just as you nourish your body, free of malice, vanity, anger, etc. For instance: take a despondent soul. Its aura is dark grey and trails along the ground like a long train. It cannot stand up as it lacks the strength of the red color to fight off that thought and to find its course. The moment it is conscious, the vibration rises in from the ground. When it keeps up that vibration, it lifts itself up and hope begins to dawn, the green color. A little yellow shows the aspiration; and by keeping up in harmony, the color tells that the person is now on the way toward the spiritual organization of peace with the ether blue.

This growth is like a symbol of a little seed that lies deep in the dark ground; and little by little forces its way through the hard earth until one day it sticks its little green tip out into the light of God's World. What a slow but a strong courageous struggle it makes. The harder the soil the stronger and more credit to the seed. So it is with our soul's atom. We might carry twenty to thirty

years of malice, unforgiveness, etc., of the hard soil, forcing through the vibration. We must prove the real forcing our way out with feeling which makes the vibration with color in developing towards the Light by living in the Law; then there will be no such thing as bad luck—only good luck because you have a good light.

In studying the different insects in a book of two hundred and fifty pages and watching their ratio of vibration, they all seek flowers of different vibrations; as flowers are of a more undeveloped class of life, they produce only short rays. Animals have longer rays, with mankind having the longest rays; but nevertheless many men produce shorter rays than animals when breaking the Laws. Therefore, when we produce short rays, we can only attract those with short rays and thus become less useful for the higher Light. We then vibrate more for animal body desires: for we are like radio sets of high power that send out long currents through which we can receive long contacts from far off, from other strong radios and so become of greater service to the world.

The aura voltage must become stronger, growing stronger and purer, if we desire to be of use for God. Many are like the vibrations of the flowers, attracting people like insects who—without—feel comfortable in our aura no matter how many dark rays, as they are like us, which is absolutely a scientific process with the true saying, like attracts like. Now the time has

come to rise and operate our radio or aura, this our great atom or soul within us, to grow in power and light. Therefore we must bear the right degree of light in color and vibration which are acts and thoughts and how to use them.

Once the Scientist saw an old lady carrying a heavy bundle of washing. Her mouth showed suffering. She was homely and old. There was a stream of steel grey—fear—and discouragement in mind—green—coming from her mind; but above, near her heart was a fine pure gold stream coming which reached nearly across the street—which was of sacrifice for others—not family but strangers. So when you can produce such a light stream, isn't it worth all the tears of sorrow and disappointment which it took to bring out such a light? She prayed and forgave, otherwise she could not have had the light in her heart.

A young man at one of the Scientist's Aura classes at Carnegie Hall stated that he had to decide at that time upon one of two professions for each of which he had a strong leaning—to be a Surgeon or

a mechanical Engineer. His aura colors showed that he was more developed for the mechanical work. He thanked the Scientist in later years, as he told that he had made an invention which the Government wanted.

How necessary it is to learn to make your aura chart which will be of great benefit for you and for all young people starting in life or in business—it never fails in how to start with the right work that is for you to do in life.

Once there was a very sick man who came to the meeting. He was hardly able to walk with a tumor. He was so worried and full of fear. Making his aura chart, the cause showed that he had resented his wife for many years because she argued with him; so when he saw what he had built in his aura, of what he had given birth to, he saw that it was all his fault that she left him. So in a few days the tumor got smaller and smaller until it disappeared. He realized the dark colors that were in his aura that were also around the tumor.

This God's Truth of Light bears fruit and heals you.

Your Personality Needs the Aura Formula

NOBIS cura future is the time to start now. How do you control your ego? You know that it is so clever and has means of asserting itself.

It is so tricky and seemingly so humble, fooling you into being egotistic and giving you a swelled head of a being that can be so great;

so start checking up on your ego in a lawful way and find your habits, as they influence your life and the start of your atom in your soul.

Start with your motives in a clear positive, honest thinking. Do not become nothing or a worm to the one you are in love with. They will use or fool you; but when you become nothing to God, He will use your love and surrender and give you everything to make you happy. It is your soul personality that counts. You can earn your reward by becoming filled with peace and happiness. You are the winner because you have won the victory instead of suffering, and joyous because you have become the ruler of your personality which comes from your soul—but the mob's personality is only to follow like ants in the same thinking for self.

Start thinking beautiful thoughts of purity to influence your soul personality—not just your body personality. Do not be self—just body conscious—but soul conscious which is the reflection that will stream forth in your aura; then it vibrates and will heal and change your life, mind, character and body. You will then become a real personality of purity, goodness and unselfishness—because your grosser traits of your ego personality have been harnessed and made into an atom bomb with which you fought the tempter, the murderer, the thief and the adulterer from you. Therefore you are a victor; your whole personality throws out joy, happiness, peace and love to all. Everyone will want to be near

your aura which will help everyone—because you have the spiritual personality developed.

You must realize the aura of the atmosphere, as you know the chemical process; but also the atmosphere is filled with different kinds of thought forms which are radiating vibrations all the time. If they do not come in contact with any other mental body, this radiation then naturally exhausts its energy and falls to pieces; but if it succeeds in awakening someone's sympathetic vibration near at hand, its attraction is set up as the thought form which is then absorbed by the mental body. So you can see that its influence is far reaching and acts with great precision. The radiation of that vibration may affect thousands of the same level. Their personalities and ego mingle with atoms and auras. So you can see what your good or bad vibrations of thoughts, acts and motives give. The health depends on the aura of the atmosphere; the same in you.

This great start of the Aura Atom Age will start the real personality in all—not just being painted on the outside and with nice clothing alone, which is just make believe, but with real atoms. God gave the gifts; you will become a history through your aura; your atoms will help other people and this planet; for your personality will influence others for the good—not to lust and body fornication—but to create cleaner children or your soul atoms growth. You are the chooser, the winner or the loser. Your whole life hangs on you now

which can be changed through the explanations given in this book.

The life atoms within you move, and through the Aura Rules become changed into light atoms; and in those almost mystic moments and days of your life you turn from just a creature or just a human being with only a flesh body covering into a living body with a soul, a being because of the light atoms, with an aura proving this by its colors of facts—not just imaginations that you have risen but by facts which your aura will show—that out of a human or earth-bound or even out of an animal sphere, not just by a belief with words, but with facts you are really saved—and not before, as God cannot use your atoms of darkness—only

the light vibrations developed in your atoms. So you need this Atom Aura Science and its Vibration.

Look up the vibrations and colors in your Aura Chart. If you do not have them you must start to create them. Become a real Aura Atom student by this consciousness and through its understanding you will rise above narrowness and will awaken which your forefathers could not accept; as they did not have all the new inventions of light—only candles or lamp light. We now have all the inventions in, of and for light; but they all started because men and women alike were seeking light. Therefore you must start in seeking the inner light. Your inner personality will shine through the outer.

The Difference of the Nature's and the Spiritual Atoms and Aura

SCIENTISTS have found ninety-two known types of atoms of nature. Realize that each atom contains a different number of particles corresponding to the ninety-two known elements. The lightest atom is the hydrogen atom; the heaviest is uranium. What is the course of the atomic energy? The answer is in the last pages of the book.

Remember that all matter con-

sists of atoms—even though they are invisible to the microscope. They are the smallest characteristic particles of any substance; and yet the atom itself consists of still smaller particles. Now atoms are held together by a tremendous electric voltage, so when the atom is shattered, these voltages are released in the form of energy. The uranium atom alone could generate enough steam to drive ships.

We are now creating an Atom Age which the Aura Scientist predicted in 1921 (of its coming) at Carnegie Hall. In Science we see the possibility of extinction when earth resources become exhausted by drawing too much on earth atoms just as a person's atoms have to be replaced—such as when the energy of the heart has been drawn on which has to be replaced also in the heart of the solar system.

The uranium atom has been found and split in two parts which was demonstrated by the founder, Mrs. Lise Meitner, after which many scientists followed this great woman's discovery, united with Madam Curie's discovery of radium of different atoms.

Why are some women being called by God for this Atomic discovery? Because they vibrate in that vibration of Light Atoms, which has to be positive and negative atoms.

Now in the atmosphere there are three kinds of atoms: one, the nature atoms; two, the spiritual atoms; three, our own created atoms which we humans must have. The nature atoms have the light of this planet substance; the spiritual atoms have the spiritual substance which we must draw to us; but our own made atoms are those which we make by using the substance of the physical body, and also from the substance of the Universe substance which we inhale. Then there are the spiritual atoms which we inhale also with our spirit. But we only draw the spirit substance according to our own spiritual sub-

stance which our spirit aura shows in vibration.

Now we come to our own atoms which we have made through our twelve senses. That substance is in our atoms which is then our made atmosphere or aura which our soul lives within. The body and soul atoms and aura are our garments, and called the "blue prints" of our being and of our lives which show the body and soul health, sickness, the life and death of the body—as each person has a different atmosphere or aura in which he lives. This aura stands about three inches from the body and looks like an egg, according to your body size. Now the atoms etherial vibration in the aura is around the soul. The soul breathes in that aura—not of the body aura.

This explanation is given you after years of scientific research of the visible and invisible aura and atoms of different substance found only by the colors of the aura formation which started with the body's aura first. Please start and become conscious that we must be spiritually connected with God within our own spirit to sustain the spirit and body atoms.

Now the white spiritual atoms do the work of breaking the dark body atoms to fight the body vibrations which are made by the body acts, desires and temptations which come through, united with our dark atoms, to live in and to use the brain or heart—but mostly the sex. That is why Jesus said, "Cut out the part of the body that sins."

This body atom energy made into

one power is called the personal atom with its personal ego aura which has a number also, according to its spiritual pure substance, and made in vibration of chemicals. All have different colors which have different chemicals such as the nature atoms which also have different chemicals.

God's Organization has an inner and outer Light; for God painted this world for us to enjoy without and within. If we want to keep in His Organization we have to keep up with Him by starting to beautify within first, as all growth on this earth comes from within—not from the chemicals of the earth alone, but also of light. Therefore we all are filled with chemicals and atoms which our auras register—if they are healthy within or without—proving our soul health by a beautiful light aura—a blue print of our love to God.

We now begin to realize the great Science of God for all planets and living things, all having different atoms of nature; but humans must develop into the spiritual atoms to draw from the spiritual atmosphere from God's Aura. This Atom Age is starting great discoveries. Scientists all over the world will now experience in prolonging life by using the atom power for health, for food, etc., as we need more energy in our bodies. This Atom Age started with the closing of the twilight of war, colored by the flames in vibration never seen before on the horizon of the Universe from the heavenly dawn to this infernal era; which will now

be used not just for destruction, but it will be proven that it will be life giving and instructive—as Scientists will prove it by scientific science.

All must be organized just as in nature which is harmony; so must it be also in the spiritual nature in the Truth of Jesus' Atom: for the soul's organization must also be established of a spiritual science, which the Aura Scientist has discovered. It is greater than just the nature's science which will pass with this planet; but this spiritual Atom Science will live hereafter.

Do not let the lack of understanding with suspicion and questions or your human consciousness stand in the way of your narrowness or set ideas; but follow in the Science of Light which God gave us to live in—not just in the atmosphere of the Universe—but also in the spiritual nature we have within. Our auras will prove this which you will find easily through the Aura Chart without your calculation; then the atoms of your heart will become harnessed and not misused for evil any longer because of dangerous ignorance and just of religious emotions with twisted illusions of man's old ideas which can still lay dormant in the heart. But in this Atom Light Age we have nothing left but our heart's pure atoms which count—and they are our life: for without loving God, we are only empty vessels and shells walking like trees with leaves or words but no fruit or no light atoms for God.

How to Dress in Aura Colors

THE animals all have coverings so as not to expose their skin. The color of it would draw germs by vibrations. We learn and start the lesson from nature—to come out of our old habits and to cover our bodies more—especially the chest, as it shows much of our body's vibration and arouses impure vibrations of darkness for the body desires for women. Dress with longer skirts and covered necks, because when a lot of flesh shows it arouses entities and elementals which only live by body magnetism.

Why did God give all animals a covering for their bodies? The birds and the animals with furs? To keep them not only protected from the cold, but He gave them all colors; and by their color, their vibration and consciousness begins. Some are more developed being with humans.

You see animals have a seeing heart. They help with their conscious heart like the dogs who know the body magnetism of people by the vibration with their senses, and of other dogs and people. Because the dog is so grateful it has a higher vibration than other animals; but the birds have the highest vibration which shows by their beautiful feathers which are radio active that hold and give out vibration. Their atoms correspond mostly with their colors.

We see in nature the wondrous harmony in colors that the whole world is dressed by God with—in all colors of the rainbow. All have atoms.

Do you see how deep Science goes in the study of Light? Therefore the aura must now be studied to know ourselves before we spend so much time on things we cannot take with us hereafter, dear ones; for not one of us, you or I can affirm, imagine, pray or even demonstrate our auras—but our acts, thoughts, words and facts will prove.

You will only know what color to wear when you make your aura chart. If you were to wear the colors in your aura they would look terrible, therefore you must wear the brighter and lighter shades of those dark colors you have created. Because you want to look nice, you won't want to wear the unkind, selfish, lust deeds and acts-colors—but rather the brilliant colors of kind deeds and of purity which you will start to create now.

Just as every country has a dress or flag of different colors, so has each religion and country vibrations. All maps show their different colors, their aura vibration of that ancient religion of the Sun Worshipers who dressed in the sun colors in reverence in the yellow color. Their love and prayers were

to keep the Sun god shining on them. Also in the ancient times we see where they started with the kings and queens being known by their garments of purple colors. The high priests dressed in white; women with child (birth) in dark red. Scientists wore on the bottom of their tunics, stripes of light purple bands with green around the bottom of their long robes. Butchers were known by the dark red and black dots with bands on their robes, etc. So they all advertised themselves by their colors without speech. Their trade marks were in color speech, using the language of colors.

The Aura Scientist discovered in the color vibration the language to use with hands which is a different code than the deaf and dumb use. The Aura or Superet Language, Jesus' Language of Vibrations, in A.B.C. colors are brought out in vibrations of their different senses pure love to God, which also has a healing effect for the body and helps all, giving new energy and strength through the different fingers' magnetism.

The Scientist once spoke to a man whose right hand vibrated a light yellow and a light grey where the left hand was a dark grey. The left hand was partly paralyzed but he gave charity with the right hand.

Why do we eat and drink colors and wear colors? We also speak with colors—because each color has a different vibration. If we only had red grass and red trees everyone would go insane. Green is the vibra-

tion of healing and hope, which gives new life. Heaven is the color of blue from which you feel peaceful when looking at the sky. With the dark grey clouds you know that a shower is coming; afterward comes the rainbow in the sky which speaks of peace with the atmosphere becoming purified. So we have different colors of people, animals, trees, flowers and vegetables. Why? Because each vibrates according to its color.

We also have fires of different colors. There is a red white and blue flame. Once the Scientist had the experience of watching hundreds of knives southered in different colors of flames. All broke like glass until the blue flame was tried and it was a success. That knife used in a potato peeler peeled a bushel of potatoes, never bending once.

It is the same in the color language which speaks through our auras, telling the world if we are good or bad with the fire within us. No matter how much we deny, the facts are black and white. You will be judged after your colors of your spiritual aura dress; so why not dress your body also with aura colors? You know that this is the truth; your vibration and colors are hidden in your aura. Without the aura they would have no place, as the body cannot hold the substance and form or an aura, but creates the vibration which makes the outer body aura—the same with the soul.

Women, God loves you; be dressed for God, not just for admi-

ration. Start now to protect your aura after you have changed your aura—then, always wear white around your neck and chest, for this will have a great influence on the atoms that flow in the atmosphere from other people. This will protect you.

Once while the Aura Scientist was inspecting clothes in one of the biggest and largest dress departments in Paris, the owner was asked what was the difference in the garments. He said that the mob only went in for styles, and that all dressed alike, having no greater individuality or character. They are only style crazy—but they do not show their real character which is hidden under their foolish garments, and they are only known by that garment. But the aristocratic ladies order according to their characters of refinement. After making a study of garments for

women for thirty-five years, the owner said, "Give me the women of refinement and character in dressing." They have the color consciousness of a living soul, not just of the body love; so he knew that the aura was the character of men and women in colors which proved. Men show theirs in the color of their neckties and shirts. Boys should not wear black suits; it is much better if they wear blue or brown.

Women, remember, as creators of men, build their character, not just their bodies. Help men to uphold their honor and to protect women's honor. Your aura chart will guide and help you to wear your aura garments which will also heal. Your children will honor you more, and men will respect you as mothers and women. You must teach mankind.

Body's Life and Health Depend on Atoms and Aura Development

THE body would be lifeless without the atom and aura life. Parents do not give life to the body. The child's aura without and within holds the soul atom which is in the spirit, which gives life. This has a bright light that starts the spiritual aura; but if the spirit remains and is all and only human—prov-

ing a love only for the material and body—then it has a dark ugly spotted human aura with an outside of a darker or lighter shade like a prisoner, or just like the animals' aura color around their bodies. So this depends on your creation of your desires and motives which show in your chemicals and vibra-

tion. You become the creator of your aura.

During a lecture at a Carnegie Hall Class for women who were mothers and who had brought their sick children for healing, the Aura Scientist told one of the mothers why her child who was only three years old had a bad disease—which was inherited from the father; but the woman said that he had been cured. Yes, the doctor had helped to relieve and heal him for a time being, but the vibration of the aura showed that the disease was still around the husband—because the child's aura showed that it was connected with that vibration—and that the real healing could only take place through the change of the atoms and the aura of the parents and child. How?

Every human has a positive and negative, good and bad atoms, which show in the auras of men who have more of the positive and women who have more of the negative atom. That's why they are more sentimental even though having the same brain atom power as man; but they let mostly the vibration of sentimentality rule them. Almost all. Many women show that they live in it or have overcome that sentiment and so have much more use of the brain. They prove that they have more vibration around the brain than the women bearing children who show that by being in that condition they enter more in the earth's aura of dark brown, and remain in it as long as they bear children. The most negative one, male or female, will give into

the stronger or positive one. That's why one kind of woman lets the man rule where the woman being more positive and less sentimental rules the man—and most of those men become successful, working with the woman for the good. Men that like to rule alone sooner or later lose their power. The atom changes its colors as vanity starts and then the aura of that atom is clouded with dark vapors which have to be dissolved.

We have found this truth in many rulers, men or women. We see it in history with Napoleon when Josephine left him; he lost out for she helped him. Napoleon's aura only showed the vibration of vanity ruling him with the colors of red and brown. Also there are many others; and as long as that atom and its aura remains, they give destruction and destroy themselves after a while.

Destruction is also caused by germs; like a woman cook that had been many years with a family who were sick and dying when friends also began to get sick that ate food cooked by this cook. A doctor investigated and found that the cook had a disease in her hands where the germs filled the palms. The germs and her aura vibrations proved in her lands of the 'good cook.' There are many people who bring sickness to others; that's why the Aura Scientist advises to try not to shake hands and warns that the mouth is filled not only with germs but dark vibrations which have brought disease to many ignorant ones of kissing habits.

Why the vibration of hands differ in the killer, or thief, or the degenerate, the sex man or woman lovers even though all have a dark red or black mark in their auras which if overcome, fades,—is, you can see that the electricity of the body settles mostly in the hands because we use them so much; and the more we use them the more power they draw from the body. They mostly draw from the two center atoms—the brain and the heart. And as the soul is under the heart, the bad atoms and aura can enter and crimes are committed. That's why many become obsessed and go insane—because the bad atoms have won the fight over the good ones and so draw through the sex, the eyes, the nose, the heart or through the hands the dark aura of elementals who want to kill or to steal or to destroy. (This is given to you after thirty years of Aura study.) Many are obsessed by elementals who use their atoms.

Many little boys and girls have been brought to the Aura Scientist that could not tell why they stole or wanted to kill. Those who have had different crime auras were all changed through this Aura Science, as it is becoming more known and accepted and used. Many aura teachers will develop through this book by making their aura charts for themselves to receive help and help others, through which they will be blessed by many. That's why mothers must study their children's auras to prevent those crimes. This is so important so do not neglect it. The fact has been

proven by atoms, auras and by the Atomic Bomb, which proved the truth of atoms—and that they could be harnessed.

The Aura Scientist gives you the secret of the good—that the atoms within you can be harnessed which will bring nothing but good and blessing to you and parents, and to others all through your lives by following this Aura Law, which was Jesus' Laws.

Why did Jesus say these Words, "Man rather liked darkness (sins) than light (good)."? Again He said, "Sin no more." He made the aura chart of the woman by the well and told her how she lived in sin of sex.

This Aura Scientist by science is proving to you like doctors and scientists who study and find germs in blood and water that you drink to help you and prevent disease; but that will not take away the dark aura. After helping thousands of sick people and studying their auras the Aura Scientist found the cause of the diseases. Many were healed where prayers failed. First become clean of sin, then pray. This is a scientific work of atoms and their auras. Having this gift of seeing auras from God through His Law of Light, the Scientist wishes that you could see the consequences in payment . . . Let us not live in sin or darkness any longer; but pray and body desires will leave.

Just as you must know the atmosphere when traveling through the earth atmosphere, so you must have a certain vibration in your aura which is your passport, which

is written in your aura here on this earth and over there where you will travel forever into Eternity. Traveling several years ago to different countries, the Scientist forgot the passport—having left it in the trunk—and could not pass out of the country which took days of delay to get the trunk and to find the passport to affirm the American Citizenship—a symbol—which is the same with your aura; only you cannot put it in a trunk, as it hangs around you like a frame, and you cannot lose it.

Let us start and examine your heart which every doctor does first by listening to your heart beat; it is the same with the aura which holds the heart-beat of your aura atom within that drives the heart-beat vibration from your spirit which is life. That is living in your aura; so when the heart-beat is weak the doctor calls it heart trouble.

Once while the Aura Scientist was giving an Aura Lecture at the Majestic Theatre, one of the student's sister was dying with heart trouble. The doctor said that he could not help, so a specialist was called. A messenger interrupted the Lecture and begged the Scientist to come at once to heal the dying sister. The answer from the Scientist was, "I take no orders from any man in my work; she must wait." Yes, that was a funny answer, you might think; but the Scientist saw

the aura as the name of the dying woman was mentioned and saw that there was only an undeveloped elemental around her heart, and that she had an obsession and not heart trouble. Going to the sick woman a couple of hours later, she had to acknowledge that she had lived a sinful life for many years, was religious but deceiving God. Working in the Aura Laws the evil obsession was removed after the woman had promised to live a cleaner life. The woman is living today and doing missionary work.

Many different healings have been witnessed. Jesus gave a symbol of when the evil spirit returned he brought seven that were more wicked than he was. This is a lesson for all not to invite evil spirits which in time bring cancer, disease and insanity. Doctors claim that sex life will prolong your body life; but do not believe it, for in the end you will have to pay the price no matter what religion you belong to. The aura stays and can only be made right by the Aura Laws which are God's Laws.

Just as everything has a law, light has a different law than darkness. What good is it if your body life is prolonged if you live in sin? Jesus said, "You must not commit adultery," which is fornication and lust life. Most sickness comes from sin!

Children Show Their Aura at Birth

AS the light waves of the sun vibrate 186,000 miles a second which produces oxygen, that which is life then the oxygen and hydrogen vibrations united, produce water; therefore we have air and water. Our body is seventy-five percent water; as water alone cannot vibrate much, we take in the air which keeps the chemicals moving which we take through the food. The whole twenty-five percent body chemicals can be bought in a drug store for 95c; the rest is water. Therefore the life in us is the spirit which is a spiritual atom that gives life and sustains the soul which is a spark atom from God which must live in Light. So the soul is only sustained through the spirit Light which then becomes a super light atom that unfolds only through Jesus Christ's Light Vibration, according to your body and its vibration.

We must earn this holy Jesus' Vibration Value by work, facts and acts as the vibration must have a light magnetic value. We know that the ego atom magnetism gives only an ego enlargement for body and self value which is just like a cigarette smoke vapor in vibration through which our spirit becomes a sickly or unclean spirit when we give into the body desires and sex entirely. The aura of the spirit then shows the body's desires and

life sins. The Bible speaks of the unclean spirits.

As mind is man, God is Light so we must think through the heart to develop the feeling of love of pure vibrations unto God which shows the vibration with the color of white or a dim light or a brilliant vibration. Some people have it a half a mile, and others of many narrow religious vibrations do not have the development and are only like match sticks (I'm sorry to say), which proves how much light they have developed for self or for God. Your aura tells the truth.

This Atom Study of the atmosphere and of humanity is very different. The atmosphere's atom is connected with the planet sphere, but not its aura with humanity's soul atmosphere. Now we humans are all alike, kings, queens, beggars and criminals all have a body built of seventy-five percent water and twenty-five chemicals making a hundred percent, but only the twenty-five chemicals count. This mathematically is your true body value, so when you call yourself a child of God, you must prove it by the body purity in overcoming the impure vibrations of the body's desires which are connected with your soul and with the animal kingdom, and even lower.

The Aura Scientist lectured in Carnegie Hall of the Aura of the

child birth and how the body showed as the spirit entered, that the moment the child is born and begins to cry, the spirit enters with its own aura which often shows good—of a light aura—or of bad—of a darker aura, of a degenerate, thief or criminal aura, all of which are showing the reincarnation of this spirit which is coming again through a new vessel or human body; for its aura is not connected with the parent's aura.

Many narrow religious people doubted as they would not accept this scientific statement from the Scientist who sees the aura and who has studied this for thirty years and proved it. But we know that just as many did not believe in Atoms which can be used if chemically combined. So is the spirit and body chemically combined. The Bible speaks, "Ye shall be born again with spirit" through a body to function and to create pure vibrations if it takes millions of years to earn a pure aura.

Now when the child is born the doctor or nurse must slap it so that it cries. The Scientist watched the performance of the spirit vibration entering the body through the brain which has an opening in the center, and which shuts with a door the moment the spirit vibration enters. (In death the spirit leaves the same way.) The child then stops crying. It shows a different vibration and personality in vibration from the

flesh parents although it may look like them in body and have some of their characteristics. That's why the characters differ of religions and in all nationalities which is the same in the birth of animals, but they also have their different animal spirits which differ also from the vibration of their parents. Therefore it is the same with the human and animal spirits—only the spiritual spirit can develop the soul in light.

The child's upbringing relies often on the atmosphere or vibration of the parents. If they live only for material, the child lives in and develops in that atmosphere, or often becomes a saint or a criminal.

This is the Aura study which Jesus gives in words in vibration, "Ye are of my Father (spirits of light), ye understand me; but ye are of the world (only human for bodies alone), ye do not understand me." He spoke of the souls of Light; as God is Light, He can only have souls with Light vibrations and with a light aura around Him.

The narrow religious fanatic will not accept scientific truth or facts and will not accept Jesus as Light: for Jesus naturally must have lived in the science of Light, otherwise He could never have said, "I am the light," which proved His Soul and Spirit was all Light. His Body never committed a sin. He created His Light Life, not His mother of the body.

The Celestial Atoms and Aura Never Discovered Before

THEY are light as night and day in comparison to our atoms' atmosphere. That's why many layers of different atmospheres must proceed of different earthly degrees of atoms before this Celestial Atoms' reflection of Light can penetrate. Each layer of atmosphere has a different vibration, therefore different atoms.

The higher you go in an aeroplane the air is colder which proves to you the change of atoms. Those atoms are closed and have a little hook on top, where in our atom atmosphere that we inhale, there is an opening in top of the atom.

Now the aura shows the color of all the different atoms and what they do in the atmosphere in purifying it. Each different layer of atom has different vibrations, some traveling faster and some slower upward or downward according to what they have to do in creating through their labor the atmosphere for that sphere.

There are many different spheres; and each must be kept alive. Only by atoms must they live in their auras' clothing just as we can only live on this earth through the physical body, proving by our physical body's aura of light or of dark vibrations the atmosphere and

atoms we have created. And in the sphere we live we are free to do as we like; but the payment in breaking the Spirit Law is, we have to undo to advance into the spiritual atom atmosphere.

As God is a Spirit, we must prove by a spiritual aura that we are living in the Law to create spiritual atoms. All is done by degrees of Light.

The Aura Scientist gives you only a little of this great Knowledge; but this will help you to start to use this Law for your good white atoms to develop and to become conscious of what you are here for on this earth and what you must do in such a short time before going into the spiritual sphere of life, as we all must die in body soon—but we live in spirit forever; therefore we must have spiritual atoms.

Awaken if you are a doubting Thomas and learn of this Science. Before you disbelieve, know that this truth could only be found by the Science of Light and Its Laws through which atoms are created and through which you will feel the difference.

You say that you don't see the atoms—but you do feel when you are among different people. Some draw, others give. This great study

could not come without experiences in analyzing, feeling and seeing the vibration of peoples' Atoms.

For instance, whenever one Aura student allowed any temptation of sex desires in thoughts to stay and hold for even ten minutes, the clouds formed at once in dark red; the atmosphere became clouded and the spiritual atoms could not be seen until this sex desire thought had been thrown out, and with the acknowledgment of that body desire with prayers, it took some times from seven or more hours before the spiritual atoms could be seen again. But this did not affect the earth atmosphere. . . . Humanities dark red vibrations of lust lay on the earth which stay on the earth and live on blood. This draws war or pestilence unless that atmosphere becomes changed. That's why we have sufferings.

Now you can see that atoms live and give life, and that we create them by feelings, thoughts and acts.

We must reverie to come close to the Divine which lives and sends Its Light through the Celestial Atoms; and they again reflect Light to other atoms. Then our spirit stretches and unfolds like the trodden grass. So reverie and reverie repairs. Stimulate the new earned atom in you. The mind and body need this refreshing reverie which you will find after you have made your aura chart. Then you will become connected with the Celestial Atoms, the sphere of Light Atoms Jesus lives in to become absorbed and used by the Celestial Atoms.

Then "Thy kingdom come" is come to you in your soul connection with Jesus' Light Atom. Words alone cannot do it; you can see that, dear student. Your barren soul life will become alive—but only by the Atom Laws of Light—just as electricity comes by electrical laws.

Now to give you just a glimpse of the Celestial Atoms' Aura, it is just like looking through a telescope and you see the full moon with some shape within which is land, water and towns just as we have here—which the aura of the moon shows. Now think all this a thousand times greater in light than the sun is with an aura around it like a brilliant rainbow. And within this Celestial Atom is a light container from God in which you see the greater Light within—the vibration of a greater Light moving and giving out blessing and spreading out a Celestial light Peace you've never felt before—not just imagination or thinking, but feeling those Celestial Atoms' Light Power coming to you in vibration, light and gently.

Those Celestial Atoms travel in an ocean of Light which is so brilliant that only a glimpse can be seen at a time. The Celestial Atoms swim in that ocean of Light in a perfect rhythm like music with a perfume spreading in the spheres which is so penetrating that it gives life to all the higher and different spheres, and spiritual, for people; also for their vegetables, trees, flowers and for all spheres—as there are many planets which are only kept alive by those Rays or

Vibrations of those Celestial Atoms. This is the secret given now to you to become connected with them.

All light is given by light degrees, therefore we on this earth

must labor not only in spirit but also with our body purity to earn this great Light connection. For Jesus spoke of Light all the time to the Apostles. Light must come by Light Atoms!

Proof That Many Known Scientists Worked by the Aura

MANY men and women scientists who saw and could see the auras, brought out discoveries; for instance, Nostradamus who lived four hundred years ago in the sixteenth century. All his predictions of things came by his seeing the aura of the world, counting mathematically the vibrations of the etheric atmosphere of the different countries which differed. It was through the Aura science that he gave the scientific statements which have now proved to be the truth: because, the aura never fails through the Aura laws! Everything in the world shall disappear but not their auras.

Many can see the outer aura, even animals; but to see the inner aura—the inside of the soul! The Aura Scientist after a great study is now giving you the proof through this Book—which you must study (each page) to understand the higher degrees of the Aura.

After reading a prediction by a great Professor of Science which he had made mathematically regarding relativity—that there were spaces without life in the world—the Aura Scientist spoke over the radio that that statement was not true: because the aura through the world atmosphere showed that there was life everywhere, otherwise the planet would start decaying in those places, and that God created all in a perfect order, and that the Professor would find this statement to be true. In a few months the Professor made a statement to the newspapers correcting his statement he had previously made concerning relativity.

How was our Country America discovered? By an humble and poor man—but he saw the aura around the world, and knew by the color of the aura that at a certain distance there was a new land. (Just as the world is round so is

the aura.) Seeing the aura, which was of different colors opening the way to the new land, he knew then the truth of this new land. But to get there, he needed money; and to receive it he had to find someone who could be connected with his aura—and, it had to be a female aura—not of his wife or mother—which proves that man's aura alone is a failure without the female aura connection. The proof is, that no man believed or wanted to help him but the Queen of Spain, who because she did not have enough money, sold her great and beautiful jewels to give him the help, and was willing to accept the King's and the peoples' ridicule. She was not in love with Columbus; therefore it was the feeling of the aura connection which is tremendous: for the unity only of the aura (not sex) atoms can create and destroy the aura connection with the atoms.

Now let us study Edison who saw the aura of electricity in the ether. Before he could invent it he had to find first the law of electricity mathematically, counting the vibrations' form and color through which he found the electric light.

Now look at the great man, Marconi, who also brought the Wireless Telegraphy through the aura forms vibrations and colors according to the rate of the laws' intensity.

Let us not forget the Polish woman, Madam Curie, a great scientist, who studied as a young girl the chemistry of light and saw the aura of the chemicals. Seeing the colorings of that light in the rocks and sand, she tried chemically to join them together—and so connecting the atoms of the different auras she discovered Radium. Even though her husband begged her to give up, she knew, as she saw the aura of this Radium, that it had a tremendous power.

The discovery of all those things could only have happened through the Aura study. The scientific statements could only be made by the scientists who devoted their time and energy to the development of what they were seeking. There is a great field for you, dear student, that is open right now, as there are many greater inventions yet to be discovered—and maybe you will be the one to find them!

We Eat, Drink and Breathe Colors, Why?

THE colorful world speaks the language in colors to us to fill our twelve senses with color. As we live in this planet, we must be in a perfect order in our atoms auras—which means proving our atoms by their auras to see if we are working in a perfect order in light and not in darkness. And as the atoms in the atmosphere we breathe are life-giving, we must no longer stop the life-giving light force—for the soul atom is different than the body atom.

After a long study the Scientist discovered the Atom's Aura and found that the light atoms differ in the positive and the negative by their auras. And as there are more negative vibrations than positive, it has to be adjusted equally. As this Atom Age starts, you can learn how to create so to draw the Light Atoms of the positive and negative to you. This must be achieved by an unselfish vibration, the negative vibration, which women have developed more in. They've also developed in sentiment. Man has developed many of the positive vibrations which women lack.

Now this vibration of unselfish love must no longer remain sentimental, but must work in the law of positive truth and justice to the Atom Law to earn the right atom

within us—which must be equal—fifty negative and fifty positive atoms regardless of the female or male body to function in order with the universe law which controls the atmosphere of the planet, fifty by fifty.

Not one atom rules the other through power—of man ruling alone in power and woman only bearing children and carrying on just a domestic routine. There are women of more negative atoms who only vibrate for that purpose; others are normal, having fifty negative and fifty positive atoms and function a cleaner and greater brain with less sentiment; for their energy from their atoms gives others spiritual vibrations.

You have seen in some families where the women were more brainy and masculine, where the men were more negative, domestic and more sentimental. Why? Because each was not balanced right in atoms; neither can we be too much of the masculine vibration or too much of the feminine vibration. Both show that they are not evenly balanced in atoms spiritually.

This proved only the theory in the animal kingdom, where one shows more power over the other by their atoms. That's why they do not have spiritual atoms developed

and only live by their animal nature and disposition of the different characters which are only built by the chemicals of flesh, strength and power. We see this more in the wild beasts, but not in doves, pigeons or lambs. Why? Because their atoms of purity are more of a white shade in their auras; and you cannot change them, because, from generation they have kept up this aura. But the wild beasts' aura do not change even though they obey man. Only if that man has a clean aura that wild beast will change its hatred through the man's aura. Dogs, or any animal will change in character through obedience.

You can eat all the salads and greens but your aura will remain dark black or grey; and when that coloring remains in your aura, it will make you insane. Therefore it is not what we eat, but the aura we develop. Some people start by being nervous and cannot sleep but are filled with the chemicals of salads, fruits and vegetables but not the aura—because, the aura does not work through the body chemicals which are only built by food. That's why the Super Master said, "It is not what goes into your mouth (what you eat), but what comes out of your mouth (vibration)." Therefore, we must follow the Rules in the Aura which are given to rise to the higher vibration. We need the spiritual Light Atoms

more than the nature light atoms for here and hereafter.

You might accept this but not understand this little book; but it will enlighten you how to bring forth your gifts—which your atoms will bring forth—as your aura color will show. This cannot be accomplished otherwise.

The time for the Woman's Age has now started of "You shall be born again" with a new aura. Woman's Age has begun with the change of the auras.

Many thousands of dollars have been thrown away in building aeroplanes because of mistakes or flaws found in them. No one would trust such an aeroplane if it wasn't changed perfectly to perfection in the law for the building of aeroplanes. We can take this symbol in building our ship (body) with the inner atoms to climb to the higher atmosphere to and for God's Light. His Atmosphere is different than the nature's atom atmosphere.

You must know that yourself and become conscious of it to realize not just your station of your personality and body power of the flesh life, but that of your inner atom life with its aura to climb upwards in Light to God, or downwards in darkness to the evil which the Bible speaks of, which is only made of dark vibrations shown in facts by the atoms and aura.

The Aura of America

GOD bless America. Let us thank God for giving us America, the land of the free. How proud we should be, Americans, of our beautiful country — not just of the riches of wealth, but also of the spiritual wealth in loving and helping every country with our sacrifices. While traveling around the world, the Aura Scientist heard praises from the different countries for the gifts and so much kindness in giving them help, money, etc., which America has been doing for generations and asking nothing in return.

America is known as the mother country of the world. But America is now rising out of the old atoms and more into a higher consciousness—into a positive vibration to teach the Spirit of Christ and His Light which comes to us in Atoms in His Atom Laws, which they all must follow so that they will earn the Light to remain in peace, thus laboring out of dark atoms into Light Atoms. But we Americans must help in proving it to them.

America has now risen into a greater Light Atom development, as the vibration shows in the aura and has the colors of light yellow, green, brown, red and orange; also a purplish coloring which is of a higher order and which has now started since Jesus' Light Atom Science, Superet, was found, which is the Atomic Religion of the world.

It has started in America during the last twenty-two years. This was what helped in bringing forth the Atomic Bomb through the Light Atoms which helped to bring closer this nature's atom energy into the human consciousness of how to use it. The start of the Atomic Age has never been before since the beginning of the world.

Greater wonders will be heralded through Jesus' Atomic Light Religion which was and is the Science of Light Atoms discovered in America. It is the only Science that teaches Jesus' Spiritual Light Atoms—therefore It helped to harness the nature's atoms, as there are light atoms in the sun, moon and stars. But as they are just nature light atoms they cannot create the same as Jesus' Atom Substance of Light.

America has a symbol in the forty-eight stars in our flag which represents the forty-eight states all of which have different auras of different colors, but are ruled under one flag and Constitution. All are true Americans. We Americans are also composed of different colors—our first Americans being the Indians with the red color; then the white and colored—all united as one American even though they were of different colors on the outside—which is the same with the different colors within.

As Americans we no longer study or just honor the skin colors, but we honor the one who has earned the Light Atoms within; for we all are God's children. Only through our atom color we prove our difference through which we prove our character. God's Light Laws must now be obeyed to live and to teach them, which can only be done by living in Jesus' Light Atom Laws.

Come Americans, let us join hearts with all colors and love God and prove it. Our skins are made of dust but that does not prove our soul auras. Remember that American soldiers of all colors stood side by side when fighting for the freedom of the European countries with all women, European and American, suffering united, sharing and helping; even though the women received no medals for their bravery; they proved it.

Come all Americans; let us pray for protection for our country America. We have been blessed in having everything here—even more beautiful than Europe—having the great heavenly beauty in the different states and the summers in California with no winter; also the beautiful red, white and blue wild flowers—like our flag—which no other country has. Let us stand in our Light Atom atmosphere like the birds do in their organization, flying high according to their energy. So we must go higher, which means living in a purer energy and life in body and character. Then not only will we be the material givers and helpers, but we will become the spiritual helpers and com-

fort for all people in Europe to follow in peace.

America will now enter into seven years of prosperity if she develops the spiritual Light Atoms. The aura of New York is rapidly developing, even though it is unconscious of the spiritual Light Atom. It will become the leading state. The aura of California has become the birthplace of the finding of the nature's atoms and harnessing them. The aura of Washington is the home of our Constitution; and it will grow larger and will bring out great work within the next year. It all depends on the development of the Light Atoms which must now be studied in schools to learn how to develop the Light Atoms within. Our Constitution only stands on Jesus' Laws which are made of His Light Atoms.

The Aura Scientist who found Jesus' Light Atoms and who has been giving It out in California for the last twenty-two years, asked God for help to bring out Jesus' Religion of Light Atoms because the people would not believe nor accept it. God granted the prayer with the nature atoms in California which brought peace. But God gave It more to bring out Jesus' Religion of His Spiritual Light Atoms—That It must now rule this world alone—not the dark atoms ruling any longer through the immoral vain men. Only God's Light Atom Government must rule!

“Thy kingdom come” is come now, which had to start in America with the spiritual and nature

atoms, proving that God is with us and giving us the opportunity in this book to learn how to change our atoms and auras to live the life for Light. We have not done it in the past, because people were not conscious. But now God has given us the call in the symbol of the Atomic Bomb—that He works through the Light Atoms—as He created the world by light nature atoms, and gave us the spiritual Light Atoms through Jesus, which we must use here in America.

Now do not postpone the Atoms description in the Aura of America, which at times shows black and of different mixed colored atoms with large clouds in vapors of colors which rise and change often with more light atoms which have started in California which has helped to drive away great earthquakes. Little do we realize the damage in the atmosphere done by the war.

To keep in our American Constitution, we will develop more Light Atoms because we now have the Method. Russia's atom combines to rule Europe, for her atoms are spreading out through her aura colors and combining through Europe—but not America, who must not interfere, as the atoms will not mix. Just as in humans so in countries.

To work in the Atoms Light with the Aura, is to work in groups like people, countries, families, animals, trees, etc., who are united of the same atoms aura; also in spiritual groups. It is the same with soul groups that stick together, in which we cannot become connected unless we want to be one with them. We cannot change their auras, neither by food nor money—only when helping them to develop Light Atoms; then like attracts like. We in America are of different atoms than in Europe.

The Meaning of Colors—Light and Dark

Light Colors' Meanings

White—Steadfast; Virtue
 Bright Red—Sincere
 Pink—Spiritual Love
 Yellow—Spiritual Ambition
 Light Grey—Spiritually faithful
 Light Green—Truthful
 Orange—Positive for good
 Light Yellow—Devotion
 Light Brown—Fearless in good
 Pale Blue—Forgiving
 Blue—Loyal to God

Dark Colors' Meanings

Clouded White—Changeable
 Dark Red—Sensual; lukewarm
 Dark Scarlet—Dishonest; resentful
 Dark Yellow—Selfish; ambitious
 Dark Grey—Spiritually unfaithful
 Dark Green—Deceitful; jealous
 Dark Orange—For Self, ambitious; pride
 Dark Yellow—Selfish love; self
 Dark Brown—Fearful; worried
 Dark Blue—Realization

Brown—Dutiful	Royal Blue—Unselfish
Light Purple—Patience	Dark Brown—Egotistical
Deep Purple—Spiritual Love to God	Dark Brown Grey—Self-satisfied
Violet—Determined for good	Very Black—No Repentance
Bright Scarlet—Honest for good	Mixed with Dark red spots or bars
Light Black—Sins Realization	—Adultery; lust; fornication
	Hatred; malice; greed
	Animal passion

Explaining the Meaning of the Colors

GOD made everything in beautiful colors. He knew why. Our life story is told by colors, also in nature and planets. Everything that is alive has a color, so have you within and without; therefore you must first familiarize yourselves with the meaning of the various shades of colors in which are a variety of combinations of different shades which express unmixed emotions. Now humans are hardly ever unmixed, so you must classify and analyze the hues in the formations of the lighter colors which are the opposite of the dark colors, or are no longer spotted or with bars of darkness.

Watch your feelings; colors tell. The brilliancy and the depth of the colors are measured by the strength and the activity of the feeling. Watch the thoughts for selfish body desires. Those vibrations are going downward. But for God, they are straight Light vibrations.

To clothe yourself with purer colors within, you must live in Light, which creates colors in light—for God made everything in Light colors. This proves our color;

therefore there must be modifications in overcoming the bad of your character: for the dark colors prove your weakness and sins. The light colors prove the good; and by overcoming self, you change to the good. Then victory and success is yours. You and everyone will know or feel you by your vibration of your aura colors, whether good or bad.

The Aura Chart will prove and help your colors which will help you to overcome the dark vibrations and to earn the Light Atoms to feed the soul—which lives in us—to earn the Superet Star; and we want everyone to earn It. So the Aura Scientist is giving you this Wonder Aura Chart colors how to earn and to develop the Light Atom (after making thousands of auras) which is the real and most necessary thing. That's why this Chart is given you to follow its Laws, through which you will positively earn and feel the light vibration birth taking place in you within three months if you follow it faithfully. The growth of the Light atom takes about six and

one half months to seven months.

The Atoms Light is God's Light Storehouse which will give you spiritually and materially plentiful if you become receptive to it and follow the Laws. But if you doubt or are spiritually lazy, you will die in darkness. You only change the aura as you work in the Light to follow Jesus' Light Laws.

Work diligently to overcome any and all temptations. The Aura Chart will guide you. And as you improve, you will see mentally and feel if those dark colors fade away. Therefore you must change first before you can see to overcome all those tendencies and overcome the acts to dissolve those dark atoms.

Now to earn the Light Atoms through all your twelve senses, purity must be established which will only be as you give up those sins and desires. Then only will the dark atoms dissolve in waves like smoke and become a vapor—but only according to the effort you make—until at last every color in your aura becomes light. All twelve good vibrations make a light atom and must be harnessed. But you have to continue with Superet Prayers to keep it up so that it will enter your soul atom which will bring out the Superet Star within. Then you will begin to feel this spiritual electricity of Light.

As we all have become corrupted with dark and old atoms, they must now dissolve before God's Gift of the Superet Star in your white atom, which is in your soul-heart, begins to develop just like a seed of a perfect plant; which is just as

God has implanted in each one's soul to spring forth by living the Christ Life. For He said, "Out of your belly shall flow rivers of living light," which are the senses in light. And, under the heart is the soul-heart which only can live in light. Darkness destroys. That's why Jesus said, "Follow me (which means—in my doctrine)." His Religion was the Superet Light Doctrine, which only proved the spiritual Light Atoms cannot be destroyed.

Do you realize that this Aura Chart is the most wonderful Chart in the world? For there are many charts that tell your health of body, of laws and of the weather for traveling. That's why we need charts and not guess work when we are sick and want health or when going to any destination so as not to make a mistake. But how much more you need to be positive for yourself, for your soul, body health and your future.

This is not fortune telling, but absolutely scientific facts established after years of scientific research and study of the atoms, aura vibration, chemicals and colors. Now the physical, mental, moral and spiritual atoms have been discovered, which when divided and broken up of darkness with the good atoms harnessed, you become then rulers of them instead of them ruling you. God only helps those that help themselves; otherwise you remain ignorant and give yourself suffering—only belonging then to a human or an animal kingdom and facing danger all the time—not

only in body of incurable diseases, but from obsessions of elementals of evil spirits which is spoken of in the Bible.

The Aura Scientist, after making thousands of auras, had many cases where the Aura Chart proved where the dark atoms were settled—that those elementals were living on them: for no elemental or evil spirit can live in spiritual light atoms; but they can live in the light atoms of the nature.

Doctors using this Science will help many sick; for great surgeons have reported to the Scientist of having been saved from making operations, also in helping insanity cases by knowing how to remove evil and elementals.

This Aura Chart will do wonders not only in helping you, but you will also teach and help many with this wondrous Chart. You will feel the difference in your life, in healing and help in problems and being led to success. But you must obey this Law for the consciousness and for the awakening to your sick or dormant atoms so as to build light atoms. Not just learning and following the Laws just out of curiosity, or just to get help in facing dangers or getting help when selecting the right man or woman to marry or to become clean of any disease or evil spirits, but that you will not keep up the animal sex satisfaction, but only to bear healthy children that are not infested with disease or evil spirits, and with your dark atoms.

Investigate; go to the Children's Hospitals and see the cripple dis-

eased babies born. Go to the insane asylums and look at the young girls and young boys that are weak minded, insane, born of the many rich and poor parents, all suffering; and you will see what they have given birth to. Many prayed for years and suffered but could not get help of the dark atoms. But the Aura Scientist helped in one hour or a few minutes. Help would come miraculously.

The real Light prayer is the scientific prayer with spiritual light atoms which you must positively earn and help yourselves with. As a symbol, look at a dog you love; no matter how he loves you, could he grasp this Truth? Neither some religions, narrow religious parents or persons; because they only have a one-track consciousness of the love for self with a religious satisfaction but nothing of a scientific spiritual development for Jesus' Light.

You must become conscious to feel the good and the bad; for the spiritual consciousness in feeling creates atoms, good or bad. Prayers will help, but they will not create or harness them. For instance, if you were to only pray but did not labor to fill your automobile with good gas, it would not run. Why? Because the oil has the atoms to run it. The water atoms would not run it. Also a person must control and run the machine after it's made; and the laws must be followed with obedience for the machine not to explode.

Once the Aura Scientist had an auto accident and layed under a

burning machine and was saved by prayers. The Light came from God which helped quickly by overcoming fear and upholding the Light Atoms that were in the Scientist.

You must know how to harness and labor in the Atoms Power which only God creates; but you must know and help to use it. Even the smallest degree is explained in the Aura Chart—but of course, if you join in the Science of the Aura and the Atoms in our Aura Class, greater things will be revealed to you.

Realize also that many benefits will be derived and felt. You will find your sins while doing the chart. With repentance a great barrier will fall. You will realize that something has happened to you. Your self fear has vanished, and all that which has been all these years in your senses have lost the eternal mask of self excuses. The dark atom has gone! All of a sudden you feel the miracle or the Light Atom being born. The locked and bolted door of your past is now opened gently and quietly—all the dirt and sins of darkness have been taken out. Then comes your heart's peace which you've never had before because of carrying those dark black atoms. The substance of your sins is gone and you feel released from the past which has evaporated like a mist in the rising sun—that is your past.

As you begin to make good with the light atoms you mustn't forget, that just as there is the devil grass in nature so is there devil grass or dark vibrations in your senses

which all must be absolutely uprooted—each root separately of the old habits and sins. You cannot put new wine in old bottles or old senses infested with devil grass by saying it isn't true or real when your color shows otherwise. Neither can you say when wearing a black dress that you are dressed in white. You will be known by your colors.

Begin to realize that you must face God. Your time is short to make good now. You take your atoms aura with you into Eternity. Spirits, Angels all must use this Light Chart to earn Light Atoms.

Jesus' Religion was and is the Superet Light. If you follow It on this earth, you and your children will be saved from sins and darkness, crimes, etc. You will also benefit the planet with your light atoms. Then there can be no longer wars—as wars only come through dark black atoms; but Light Atoms will destroy them all.

The different atoms' colors have now been found in ordinary science. We speak of an atom of any of the ninety or more substances which chemists call elements which cannot be reduced. Each element has its atom.

The atom of oxygen or hydrogen, sometimes a molecule, can be broken up into atoms and broken up at an infinite number of definite physical atoms. Which shows that they are all alike—of all substances, except that some are positive and some are negative in our physical plane; therefore, they can be subdivided and broken up.

But there is a higher etheric spir-

itual Matter which absolutely must exist in states of its own which corresponds a little to the states of the physical and animal matter which we call solid, liquid, gaseous or etheric which are then the atom of nature.

There are the astral atoms which are still material atoms of matter. All different realms have different atoms, auras and colors. Then as we see in Science, we realize that even in the hardest substance, no two atoms touch the other. For each atom has its field of action and vibration, so that there is always space between them which is the same as in our body senses. Every spiritual atom floats in an astral sea of matter.

Now the mental matter in its turn, penetrates the astral—so in nature, which we have learned. Therefore, we must open within ourselves, in the twelve senses, to purify, and by means of which their atoms can be perceived, by which the Atoms Chart absolutely proves their existence and how to deal with their colors' power and energy—also how to use or misuse them, and the true condition of proving developed or undeveloped souls.

There are persons who can only live in the vibration of a sudden elevation, commonly called falling in love. Those atoms are like soap bubbles, which soon disappear. Others want to live in a higher atmosphere of spiritual soul-love development which starts your real love life for God within, which creates Light Atoms that live forever.

As each sense has a different color, so a different atom, which works independent, but all united in harmony physically. And if there is any disturbance, we investigate. We must do the same with the spiritualized and spiritual senses by investigating the trouble. Because, if we neglect, we lose that sense and it becomes useless. We must have harmony by a law in everything. Not just imagining or affirming. We must seek and find the disharmonious atom; by its aura color we know that it is there. Your aura chart will teach all to you.

The Aura Scientist has witnesses that can verify the many healings and so called miracles which have taken place among Aura students, strangers and members of the Superet Church.

One time a young man came from the hospital with a broken arm which was in a cast. He asked for prayers and help. After studying his aura, the Aura Scientist told some of the students to take off the cast; then the Scientist asked him if he believed. The man smiled and said, "yes." Then he was told to shake hands with the hand, proving with that arm that he had been healed. He cried out with tears. "God has healed me."

After a few weeks the man returned, telling that he had been put in jail for disobeying the doctor's orders. Now what do you think would have happened to the Aura Scientist if he hadn't been healed? What would have happened to this Science? It could not have been

practiced any longer. This happened to prove to the Medical Society and Doctors for them to accept this truth.

Another occasion was when a government man of high standing would not accept some advice which the Aura Scientist had given to make right at once that day to the government, otherwise in three days those black atoms which had formed in a formation would explode. How he laughed. He said, "You don't know me. I am not afraid of anything"; as he was so proud of his high standing, thinking of the government protection. But the Scientist knew by working in the Law of the Atoms, that this could be prevented, but that it could not be forced.

The man and his wife came on the fourth morning saying, "You were right. It happened and is now in the papers and on the radio. We wish that we had listened to your advice." That man died later. How little people of great positions can stand disgrace.

This is given to you, that all must be straight and learn this lesson, you who are paid by the people's money as government employees; otherwise your black atoms will give you away. Someday you will surely be found out. This is also for everyone to be just, honest and honorable—not alone that you are afraid of creating black atoms or / for to earn the Light Atoms, but that you feel honor-bound to yourself, to God, and to all. This will also prove that you are not a make believe aristocracy,

but proving with facts of honor.

In giving advice to ministers, priests and to a bishop who accepted the advice and were healed and helped, and who also realized that this Science was the truth, they were afraid to use it openly as Jesus' Science.

As Jesus said, "I am the light," He therefore had to live and work in Light Atoms' Laws.

Once in the Holy Land, the Scientist told a Catholic Sister that her aura of brown was now showing an intermingling of yellow—that she would be ready in six months for a position of leadership. Five months after the Aura Scientist had arrived in America, there was a letter waiting from that Catholic Sister. "It happened. I am now a Mother Superior over thirty-five Sisters. I want to thank you. If I hadn't given my oath here, I would like to be with you, as I didn't believe you; but now I know how true your Science is and many other things you told me of my troubles. I did as you told me and I am healed." This letter was a proof, which we still have.

We can give many other scientific statements and verify them all by many witnesses of how miraculously this Superet Aura Chart has helped and will help you. And, as you cannot see the colors, you will know them by the colors of your atoms which you have created. And in realizing and studying your twelve senses with the twelve light vibrations, of how to form the Light Atoms, study the Key of the twelve senses and follow the Law.

Key of the Twelve Senses — Meanings and Vibrations Explained

<i>The 12 Senses</i>	<i>Light Vibration</i>	<i>Atoms Manifestation</i>
1. Mind	Truthful	Truthfully loving God
2. Will	Sincere	Sincerely loving God
3. Eyes	Faithful	Faithfully loving God
4. Ears	Positive for good	Positively loving God
5. Nose	Fearless in good	Fearlessly loving God
6. Mouth	Devotion	Devotionally loving God
7. Heart	Forgiving	Forgiving all and loving God
8. Spirit	Loyal to good	Loyal to God
9. Soul	Patience	Patiently loving God
10. Soul-heart	Love to God	Surrendered love to God
11. Emotion		
Aura Center	Honest	Honest to God
12. Sex	Overcome, Realization	Sex-sacrificed to God

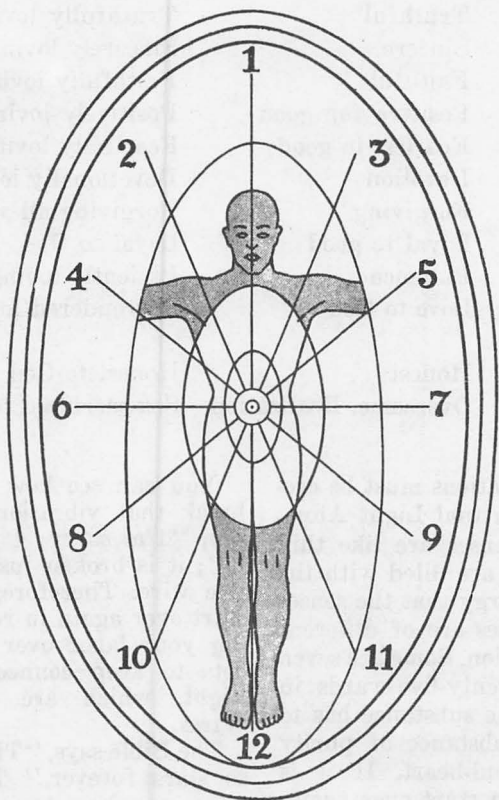

All those vibrations must be created for the spiritual Light Atom.

The twelve senses are like thin hairs; and they are filled with the substance or energy that the senses create. The senses are of different lengths in vibration. Some are seven or ten, even twenty-five yards in length, where the substance has to travel in one substance of purity to reach the soul-heart. If it is broken, you must start over again. The Light Vibration throws out the dark; and it goes into a vapor like smoke and vanishes—but only by the Light Law as Jesus gave.

You can see how easy you can break that vibration even if you say, "I'm sorry; I did not mean it"; it is broken just like an electric wire. Therefore, you have to start over again in realizing, starting your labor over by facts and acts to keep connected with the Light, which are Jesus' Light Wires.

The Bible says, "They shall shine as stars forever." This secret is given you how to earn the soul's Superet Star. Jesus spoke of the senses, "If your eye is single your whole body shall be full of light." (etc.)

SUPERET - AURA - CHART

Superet Chart Picture Explained

THIS great discovery is given you so simplified that everyone can understand and make the Chart by following this Picture; as this Picture absolutely describes to you the way of the development of the Light and White Atoms, and how to remove and bring the new light shade to the dark colored atoms substance of the etheric matter. This Picture shows the perfect Aura.

As you study the Picture you will see the human form which holds your human aura; then you see the twelve lines which represent the twelve senses which are giving out the twelve vibrations. And, as they all must have light vibrations, in this Picture you see them entering through the soul-aura—the heart of the soul—which holds the soul white atom in the center, a gift from God, which has a Light Seed embedded within which holds the Superet Star. It cannot be seen until it is developed just like the small mustard seed which holds the tree and branches' leaves within. We cannot see it, this mustard seed atom, but it is there which the sun and earth must bring out.

This symbol is also applied to us—as our Saviour is the spiritual Sun—when following in His Religion of Light to earn the Light Atoms through which we become

connected with His Light, and draw from Him like the earth draws from the sun.

The earth is like our body which returns to the earth; and it also has earthly chemicals within—which after becoming chemically purified from the earth and animal vapors' dark vibrations or sins that have been created in the human senses, they become spiritualized through this Jesus' Light Method. Then, only as you strictly obey His Laws, those twelve senses must bring forth twelve pure light vibrations which form a spiritual Light which enters and feeds the White Atom like the sun feeds the seed.

Jesus said, "I in you" — His Light which comes in vibration through living in His Light Laws. Also He said, "You in me." Our light atom becomes connected with His Light. Then after you have worked to bring out twelve light atoms into your soul white atom, you will see the Superet Star coming out with a full radiance. The Aura Scientist's photograph shows this truth; after years of development, the Star is coming out faintly.

It took years to find this Secret, but it is made easy for you, dear student, to earn this if you follow this Law. As we must become light children of God, we therefore must have light atoms. All Light is made

by light atoms; and they are made by light vibrations, which then create the substance out of the dark chemicals of earth or body.

You can see that this is absolutely true. For with this Chart you are now confessing to God and realizing your habits, motives, sins, lukewarmness, your body sins of sex, money love, which is no love for God. You will show your repentance by starting to undo by watching yourself.

As you make your aura every month, you will know how far you have advanced and how much you have gained in light atoms, which means so many dark atoms have been marked away. You are making good: for the more light atoms you gain, their light dissolves the dark atoms. So watch your aura progression, and when the year is over you should then have all your senses developed in Light and going through the soul-heart white atom. You will feel the benefits, healing, success, happiness, joy, harmony, peace and plenty of everything, ready to face God any day, crowned with the beautiful Light Superet Star. . . This is Jesus' Law and Command, and His Promise.

This Chart reveals the most accurate, scientific and positive truth—for through the aura and vibrations of the twelve senses' purity by the colors proving the purity, they all explain and describe to you the Light and dark atoms' truth. This is more important to you than all the charts of the world which are not everlasting. This Atom

Aura Chart is everlasting; follow it consciously and feel the miraculous results.

The Chart will show you how to remove the dark atoms, (then the dark auras disappear,) and how to earn the Light Atoms, and how to harness their energy. This Chart will unveil the mysteries for you and how to draw the Light Atoms to you through which you will receive the healing not only for body, but for the soul.

As you have different atoms and colors, you must follow in the Light Laws before you can come to God's Light. So study the Aura Chart with its twelve senses and rays or vibrations, and what it represents to earn the Light Atoms and Its Aura.

Look at all the Charts with the different shapes, auras and colors; it is the same with people. Some have light auras, others dark which helps you with the Aura Chart. It will keep you in the Sphere of Light, which will protect you from other influences of spheres—but only as you take a firm stand in following those Laws. You will find that cowards and those living evil and sinful lives will try to keep you from it to be with them. Then you will prove where you belong—to God's Light or to the evil darkness.

Jesus said, "I have manifested thy name to those men thou gavest me." He meant the twelve Apostles—but He had to have His twelve Senses developed in Light Atoms first to give them His twelve Light Atoms Vibration. He proved to us that we must have the spirit-

ual Atoms in our senses when He said, "If your eye sins take it out; cut off your arm, for it is better to go maimed into heaven than with a whole body into hell." He spoke plainly of the senses and of the sins and feeling them through the senses. For our senses are our tools through which we sin.

Again Jesus showed us how the evil spirits used many sinful people with evil spirits. One especially was where Jesus asked the evil spirit, "How many are you" in that man? And he said, "A legion." So this proved that the man must have had dark atoms in his senses, that his dark vibrations drew those evil spirits to them,—as they only live in dark and black vibrations of atoms.

But that obsessed man had one light vibration in his heart. Jesus saw his prayers for relief to God; so that helped Him in removing the evil spirits.

You ask, "How could he do it?" Because his (Jesus') twelve Senses were filled with Light Atoms, and with their Light They dissolved the darkness like the sun.

To explain more of the atoms and senses, Jesus spoke of the evil spirits that would have laughed at Him if He had told them He was the Son of God and had not had Light Atoms to prove it. They would not have obeyed Him. They knew that He was not one of them nor pretending. He had to prove to the evil His Light Atoms in His twelve senses. He said, "I am the light of the world"; so He left His Light Religion.

To show that this is absolutely the truth, the Aura Scientist had an experience once with a person who was brought from the Insane Asylum who was obsessed with evil spirits. He would scream and yell with his mouth, eyes and hands twisting and running. He said that he had to run, that he could not stand with his feet still; but he prayed for help and asked to die.

For seven years in the Insane Asylum he had called for prayers from the Catholic, Protestant and Christian Science churches. What an awakening when he told the people that he had been healed by the Aura Scientist, who could see the evil spirits living on his dark atoms by his aura—proving by facts and working in the Law of Jesus Christ's Light Science and Religion.

Jesus' Superet, the Atomic Religion of the world which has now started, has accomplished what no other old or new religion or any creed could do. The Aura Scientist can give many of the wonderful proofs which are facts that many people have witnessed, and can verify in Los Angeles, in New York, and in the Holy Land.

By trying in every way to prove Jesus' Light Laws is to clarify His System in a very simple and clear method, easily understood so as to show you the futility of living in error and sickness, and creating the dark atoms when it is so easy for you to earn the Light Atoms in your body and senses. Also how to harness them and draw health from that energy into your spirit and

body for here and hereafter. It is so wonderful, simple and clear.

Remember that the traitor Judas could not do it; neither can a coward that is lukewarm and says that it is Jesus' Religion but that it is impossible to live it. Why? Because a sex man or sex woman worships sex as their god—therefore they cannot live it.

Do you realize that if you are filled with lust and dark atoms, sooner or later you will have to pay with suffering? So please do not forget this, for it comes from the Scientist's study of atoms and who has studied many religions, religious, rich and poor people only living in that passion and sin. Many suffered for years from incurable diseases, and you wonder why, and ask why. Because their auras showed many black dots or atoms like many ants. The evil spirits lived in that dark vapor. Naturally, like attracts like.

These are scientific facts and a proof from Jesus, therefore you must believe. Do not doubt but become conscious and you will no longer be ignorant. Do not laugh, for you won't laugh when it comes to you. Jesus said, "Ye shall pay to the last farthing." This means to the last dark or black atom life in you.

The Aura Scientist having had the experience of thousands of healings through the Chart, and being the Founder of this Truth of the black, light and white Atoms, is now ready to defy and fight anyone, and ready to prove, that anyone that will faithfully make this

Superet Aura Chart and follow this Aura Picture will absolutely get help, relief and healing by earning the light atoms and will get rid of the dark atoms!

Many doctors reported of the help they received. If all doctors in the Insane Asylums use this Chart on themselves first before they give advice, they will be able to help the insane with vibrations. At the right moment when the insane can grasp and have a glimpse of understanding, the doctors would be able to help them make the Aura Chart, then there wouldn't be many insane people left when there are no longer black atoms. Positively ninety-nine out of a hundred will be healed!

A former Governor of California once told the Aura Scientist of signing for seven million for Insane Asylums at a scientist and doctor's meeting in discussing the curse of that disease of insanity and obsessions of people and children needing help.

Mothers and fathers, awaken and teach your children this Aura Chart; then they will never become criminals, killers, thieves, degenerates or sex lust lovers, which only give the dark atoms sufferings. But parents, first make your own Aura Chart, as your children will feel your vibration and will laugh at you because you are living the life you don't want them to live.

Doctors and nurses in the hospitals, make your Aura Charts and you will help your patients more; because you will and cannot help them through your dark atoms. And even though the medicine

helps (or the operations) for a little while, as long as the dark atoms are not removed or harnessed, then surely another disease will spring forth. It is bound to come as like attracts like. Truth only wins. Nothing of 'make believe' lasts.

Young people at schools, this will start you on a new life. How many have been helped from crimes, even belonging to Old Christian religions. We have the proof of many years of having the greatest sufferings and crimes in History with wars every few years. Why? Because those black atoms drew darkness and evil spirits to them and to the countries for the last 2,000 years.

No matter what you think or say, that will not make any change—only God's Truth. This is the only Truth. No religion could save us from war. But this Jesus' Superet Atomic Religion of the world will prove with this Atomic Bomb, the Wonder Chart, as Jesus used It. He will save you, as you will be getting help from God Almighty's Light, the Atom you need and must earn, which you absolutely earn through the Aura Chart.

This is the greatest help and healing power that lasts forever and heals all diseases; because it has and gives the Substance. Yes, prayers also help to heal the sickness, but alone they will not give you the Light Atoms Substance real Matter that you must know and feel by applying this Law in harnessing the energy. Neither will your car run without the oil atom that functions through your ma-

chine. You can pray for days and nothing will make it run but the machine methods and its laws in putting it in a perfect and good order, and oil.

Your body is the machine that must obey God's Order of His Light. Jesus proved it. He said, "Only through me can you come to my Father," His Light Atoms; but you must follow with Light Atoms to become connected.

Another experience the Scientist had was when warning the oldest sister of the dark atoms showing in her aura; but the sister would not listen to the advice given her from the Aura Chart; being a Catholic and not allowed to accept the Teaching of the Atoms and Aura, she did not listen to the warning that the dark atoms would give sickness. And a disease appeared and showed in her leg. Still she asked for help from her church; so for two years she suffered and did not accept Jesus' Light Laws of the Atoms even though she knew a woman having the same disease was healed by the Scientist in a few weeks. But still she would not accept It, even though she saw many people healed by this Truth. After great sufferings, before she died, she acknowledged that this was the Truth, and that she was sorry for not accepting this Jesus' Light Religion before. But she had had so much fear that it might interfere with her Catholic religion. This is a lesson to seek Light above all.

When you love God, you will feel this Truth of His Light and how It works, which will surely heal you

if you earn It with an open mind and heart no matter what religion you believe in or belong to. Accept Jesus' Laws of Light. Nothing else counts, even though you are a sinner, (as you are or were) you will become healed and helped in God's Light.

Remember, dear one, all religions have some light and are good when lived in them sincerely. But this Jesus' Light Science has to be applied to earn His Light Atoms; so you must learn and understand It. Just as you breathe in the nature's

light atoms for the body, you must breathe the spiritual Light Atoms for your spirit. You have to labor and breathe correctly to be benefited; and you must use Jesus' Light Laws no matter what creed you are in.

There is nothing in this world as this Superet Aura Chart, because It comes from Jesus; for He used It to come to God's Light and to keep connected—as He was also in a human form and body. We are the sons of man, but He was all a Son of God.

THE SUPERET ATOMS AURA CHART EXPLAINED

THE Secret has been discovered how to change your dark atoms into Light Atoms, for as you know, there are nature light atoms of the Universe, there are invisible spiritual Light and White Atoms, and there are also dark atoms. Realize, all the atmosphere is made of different atoms and colors in all the planets.

Now through our sins, we have created atoms of darkness. You ask, how; and how do we get rid of them—as they are in our physical atmosphere and are made by our body and spirit and are visible in our aura which have been photographed? But never the White Atoms, which were discovered after

twenty-five years of the Soul Atoms study and its Aura, which was found only by this Aura Scientist.

As you study the body atoms they show your body aura. You can feel the beginning of the good atoms by having good motives, charity and forgiving thoughts and acts. For the dark atoms differ in hate, lust, crimes, etc. Why? Because they are made of those vibrations in which we have lived. And, as each atom is made of good (or light) or bad (of darkness) vibrations, you cannot just pray them off just as you cannot clean your dress with prayers. You must clean out all the spots and iron out all

the wrinkles before you can wear it. So it is with your soul garment, the aura. That's why you must find out the vibrations and colors in your aura. Then you positively will know yourself and what you can expect in the future by your atoms within: for dark atoms always give suffering. The Aura Chart always tells the truth.

Jesus wanted us to follow Him in His Superet Atomic Science of Light. He said, "Only through me you can come to my Father"; because He had the only Atoms of Light in Body and in Spirit. Only He could give us this spiritual basic Truth of His Light Atoms and show us how they are made of Light Vibrations, through which your aura will prove facts—if you have earned Light Atoms.

We feel the dark atoms which we create through sins, which is proven by the dark vibrations in your aura which you will know even though you do not see the atoms aura—but you feel them through sickness and tribulation.

For instance, when you go into a room where there is a fight, do you feel the hatred vibration in the air in that room coming from those fighting people? Now go into a room where the people live in lust, passion, fornication and you feel the different vibrations of the dark atoms—you can even smell it—but only if you are living a clean life. Now go into a church and you will feel the mixed atoms, even their emotions of ego, body or soul, even though all are praying. Now go into a murderer or thief's place

and you will feel different, like something sinister touching you. It is the vibration of the people that want to kill or have killed.

All atoms differ in heat, vibration and color, and movement. Why? Because they travel differently and have different forms and colors in vibration, proving with facts. For instance, study the nature and water's atoms; they also have material dark and light vibrations.

Twenty years ago the Aura Scientist saw the aura of the City water with dark spots and color which proved this. The government officials found a decaying animal in the water which saved the people of Los Angeles from sickness. The proof of this was kept in silence through all the years.

In homes there is also darkness or light according to the peoples' life atmosphere; also in countries the vibration travels in large clouds in different colors. The light atoms, mostly generated from people, win—such as the symbol of Noah's Ark.

Atoms is the start of the Science of Light in which Jesus lived. The Bible proves this by His Aura which was around Him in Light, which proved the truth that He had created Light Atoms. He had no atoms of darkness in His Body, Senses, Spirit or Soul.

Do you see, dear Aura student, how much it depends on your created atoms within your hearts, not just your body human aura? Your soul aura will tell the truth by colors no matter what you say,

demonstrate, pray or the age of your religion. You must have the Light Laws and the connection with the Light Atoms to come to God. You must learn how to create them. You start by believing in Jesus, but you are only saved if you are connected with His Light Atoms which are made of His Blood and Flesh Atoms. Therefore you must have His Atoms in your flesh and blood.

We know that everything is different in face and in character, therefore each has a different aura; maybe three fourth light vibration and one quarter dark, or vice versa, in different colors, numbers and forms. Then the chemicals of the body prove sickness or health. Even though you take the vitamins that hold vegetable atoms for the body strength, that will not give you the vibration of the spiritual atoms. You must earn them by vibrating light atoms. No matter what you think of how good you are, nothing but light atoms count scientifically, which must be proven; otherwise the good is just a 'make believe.'

Every light atom is made by vibrations of different light degrees with form and color. The living faith atom has an aura of light green and yellow colors. So faith is a separate atom; each vibration has different colors.

The good old fashion religion was the start of the Apostles with Jesus' Light made of His Light Atoms; but now we must live it by knowing your aura color—just as all nature's atoms are made by nature's light and act. Therefore,

we must create our personal atmosphere of Light by body-senses and actions with facts which God demands.

Know that life or death has atoms; and you are paying with tribulation by your created atoms with their touch of darkness: for the dark atoms will destroy slowly your tissues and nerves. You show by your feelings that you are not always conscious, as you do not know or care to know your atoms of darkness. Because, often there are layers of atoms like layers of skins which no food you eat nor affirmations can remove, small, narrow and obstinate. You are at their mercy regardless of your religious beliefs!

This is Jesus' Light Science and Laws—not a faith cure—but a Light fact cure only by His Light Atoms Science which is all of spiritual and physical purity which will illuminate your aura like a hundred candles—a wave of gold with vibrations of stars or atoms—heralding your new light birth. Jesus said, "Ye shall be born again"; so you must have and give birth to Light Atoms first. "They shall shine as stars forever," as souls of Light, Jesus said.

Your life will show the color that you have cheated yourself, priding yourself with religious exaltations and emotions, and the courage that you had in confessing but not changing your sins, excusing your sins until the atoms begin to pay back with their suffering of nervousness or sickness. You might think that someone is putting it on

you; but those are your dark atoms which begin to overpower you—because you have not changed and are still living in your sins, and your acts are the same old habits.

Start now to change. Make your aura chart. Go into every detail and you will come out victorious. Because, Jesus' Science of Light will absolutely connect you with His Light White Atoms; then you will begin to love God with atoms of light of your heart. The secret is to start the new birth of Light Atoms; so let nothing interfere, as you were born for that purpose—to create light to come to God's Light. Light—not your children will save your soul; but you must make good your children's sins!

The higher nature of the Spiritual Atomic Power is by the Law of Light. You need the conscious feeling of purity by acts and facts—a rebirth which Jesus, the Light Master, gives to us by the Laws of Light by the vibration of Atoms—to start through Him only through His Light Laws—an evidence seen and heard through your own aura when you follow obediently the Laws of the Superet Aura Chart.

This is a higher spiritual Atomic Bomb Science than just the nature Atomic Bomb science. But only through that you will begin to learn about your atoms' spirit life, which must have a spiritual atmosphere to live and breathe in the spiritual Atoms. That's why old religions, creeds, spiritualism, affirmations or demonstrations cannot create it—only by Jesus' Science of Light and Laws—to come through His Light

Atoms given through His Light Atoms connection, through which we create Light Atoms by following the Aura Chart. But remember all religions are good in leading you to it.

You will learn how to harness the light nature atoms and extract a tremendous amount of energy from the tiny amounts of materials on this earth; so how much more energy and power you will extract from the higher spiritual Light Atoms. You will be able to know and teach that atoms are composed again of its own groups of atoms and aura colors—all separate.

Realize that each infinitesimal material nature atom is itself a kind of miniature solar system—so is the spiritual atom of Light a solar soul system. Within each atom is a central core which holds the energy in a concentrated form. To break up that concentration and how to harness to get the energy out so as to use it, has not been found by the many scientists who found the secret of the bomb. They could not find the secret of the spiritual Atom bomb which is more needed than anything else. That Secret this Aura Scientist gives you freely.

Now not all material or spiritual atoms are alike. Some are small; others large and complicated, of different colors and energy. The Founder explains the Light Atoms' birth through the Aura Chart; and by its Methods you will learn the Laws, through which you will know your aura through your personal application only!

Now through Jesus' Light Science is starting this great Superet Atomic Religion. This discovery will now and must be used by all the schools and churches, as this Science is calling for Americans and all people to study the mysteries of Jesus' Light and of the dark and the White Atoms: for only the Aura can reveal all the mysteries when this is understood and used according to the spiritual Light Laws. Then God will rule through Jesus' Atoms Light which has now come in Light and is starting the new Light Government. So remember, only the soul aura counts!

Many states of America have light auras. Some cities' auras show more light atoms than others. It is the same in Europe. Only God will govern through Light—as evil governs through darkness. Therefore we must make the Light connection.

This Superet Science gives you a great comfort—to feel your planetary abode which has a pilot even though he be invisible, who will safely lead us in the Laws of God's Light Government.

To be about God's Business, you must labor and pray for Light Atoms; so you must learn the exercises. This little book shows you the secrets of the atoms of twenty-five years study, and gives facts just as the Atom Bomb gave facts.

This has been made so simple that even a child can learn and make its own aura chart. Your first aura chart is the hardest in counting your dark atoms. The second

chart will be easier through which you will find if you are really overcoming them by proving with colors. Only then you can live with crowds and keep your virtue and your head when all about you are losing theirs and blaming you even when you were kind and helping them. You will trust in God when all men blame you; for you have won the battle with a light victory. So drop all worry and fear. Only see God's Love, Who will adjust all your affairs; so keep the thought of faith in God. God's Power will prevail and protect you.

Remember, dear one, that our personal magnetism draws other dark powers and anti-Christ's as we serve them. All speak also of God, Jesus and the Bible. They all want your magnetism of light or darkness like people of this earth who draw from your energy or have a religious vanity to become religious personalities.

Remember also that the outer body aura is mostly in some coloring like animals; but if the inner aura is coarse or has a dark aura, auric or electric condition—which is in you and independent of each other—then you cannot earn the luminosity and radiance of Jesus' White Light in the inner aura, as the light atom needs it and proves it even if the body is coarse, red, white or colored. The skin is nothing.

The outer human aura is visible on a dicyanin screen; but not the soul aura with the White Atom.

How to Make Your Aura Chart

REALIZE that your body is composed of countless millions of tiny particles of which some constantly throw out the physical atoms; also many of human consciousness, which are similar but of a much higher development than the animal-consciousness atoms. This proves that the atoms are of many different developments for/of the human flesh sensations which are only to gratify the desires of the human body feelings.

Now, you that want to use this Jesus Christ's Science of Light which was His Doctrine—as He said, "My doctrine is not of this world; (or made by nature's light atoms, but by my spiritual Light and my Light Science: for) I am the light of the world; and only through me you can come to my Father" — which means through His Light. Therefore, you must earn His Light Atoms to make with your vibration the Light Connection of "you in me."

We shall have this eternal certainty. It was His Promise if we lived in His Light Religion, through which we shall rise like the morning sunrise and increase in the noonday glory with the vistas of advancement in Light which have no end; as they extend into the splendors of a Superet Star. This will herald our labor as followers of Jesus Christ in Light.

Just as the body throws out the physical vibration which forms the physical atoms—showing the colors in our human auras—so does our spirit show its colors with vibration in our spiritual aura. They also vibrate to a musical note—as atoms look like them. All these gather from the surrounding atmosphere matter like itself in fineness from the atoms and elemental essence alike. It is the same with the twelve senses.

The quality of thoughts determines the colors; but the nature of the thought determines the form. But the quality of the heart thinking is the feeling; for Jesus said, "As the man thinketh in his heart so is he."

The Aura Chart Picture is made showing the soul-heart, of a perfect soul and human aura. For generations we have had the development to illumine man's mind concerning the spiritual teaching, and to improve our character by the inculcation of a sense and of a responsibility to help to curb our selfishness and the brute instincts of man by teaching just the vital necessities of personal discipline and self control which would only result in an improved class of the immigrants—hence the original appeal to the mind and spirit of man.

For years the Aura Scientist taught the direct appeal of the

Aura Atom Science which was proved in Jesus' Light and His Atom Light Science but which was hardly accepted; so God sent the great phenomena of the nature Atomic Bomb which proved its working of atoms. But do you realize how much more our spiritual Light Atoms can do?

Let us take the symbol of nature. Now the nature atoms are divided into the positive and the negative. The electrical charges gather on the metal spheres. Bolts of lightning are discharged and so burst into atoms. It is the same in body. The spiritual atoms of mind and the negative human heart gather and charge on the body and senses or spheres in bolts of vibrations and are then united into the spiritual light atoms. So "What ye sow so shall ye reap" of light or darkness of your created atoms.

In the nature atoms, the splitting of the atoms is done by the uranium atom to release the forces and energy of the nature atom so as to concentrate and transmute a part into a new element so that it can be smashed one by one—each releasing its energy—which is the same with the spiritual atoms. As our spirit lives only in the spiritual vibration of light atom energy, we must therefore create spiritual senses.

To throw out the dark human and spiritual atom vibration, each sense must help and respond to the Light Laws to create vibrations of each sense with vibration labor to smash or dissolve the dark atoms and the vibration which shows its

color in your aura, and in learning how to get rid of the past which you have created. By analyzing and making your first aura, you will feel as though sickness and discouragement is leaving you. Your suffering will be gone like a miracle. A new life begins which is only natural; for the light vibration and atoms are building a new body and spirit in you—as you have developed the real love feeling for God.

After many years of seeing the black and dark atoms in auras and finding them hidden and close together like ants infested in people which could be easily removed when knowing this Atom Law, the Aura Scientist gives it out so simple to get rid of them. It has given many years of release of sins, suffering, insanity, sickness and saved many people from operations. If the Rules are obeyed it works like magic: for all that have used them are happy now; so why not you, dear one? It is so easy if you love God and your soul and want to help your body from long ailments and sorrow by building the Light Atoms in you. You become free and no longer flesh creed-bound, released from their bonds with the value of cooperation and belonging united with the Laws with souls of Light. Their light will help you more than being united with those of black atoms no matter how much you love them. Love in Light.

This great discovery is given you to learn and to live in this Superet Aura Chart, so start, dear one. Be alone and quiet; relax and say, "In

Jesus' Name," and pray the Lord's Prayer. Then take a school notebook and mark your date and year; then copy the Superet Aura Picture—but leave the human body out.

The four rings represent: the spiritual is the inside ring, next is the physical ring, then the mental, and last, the moral ring. Those four rings are the holders of your twelve vibrations which the twelve lines represent—as each number shows you the different sense.

You must, therefore, have the vibration Key of the twelve senses before you; also your color Chart explanations which make it so easy that you can figure and analyze all in one. It will become very interesting as you study yourself and your future blessings.

Do not be half hearted, because that will not help the atoms. But being whole hearted, you are determined to win out to have success, freedom and happiness which you will have in a short time.

As you start with your number 1, which is the mind, you must have the truthful vibration, which means truthfully loving God. Find out how many years you were deceiving, pretending, excusing, loving self—in holding those thoughts in your mind. Figure how many years, starting from your seventh year of birth, you were truthful. Go through all the senses and find whether truthful or not truthful.

Then follow with the second number, the will, if it was sincere, sincerely loving God. Follow according to all the numbers of the senses. As you mark all the sins,

mistakes and acts with facts of colors, you will find each sin described with colors and will easily now know how many black atoms you have created or light atoms, dark or colored atoms for each of the twelve senses. For each sense must vibrate alike.

For instance, if you were half of the time truthful and the rest of the time lying, you have created colored vibrations. Say, for instance, a dark green coloring is jealousy, or dark red, lust, desires or acts. But when you have deliberately with feeling, made sex or degeneration your life, you have then positively created black atoms, also hatred and lukewarmness even though you repeat Jesus' Teachings of purity or are a religious person—as you say—but deceiving and living in sin. No matter what you say or because of the religion you lived in, your black atoms will show your life up.

Now as you know positively that your heart feeling substance creates the atoms of black, dark and white colors, you must now examine how much body lust love and feeling of your heart senses and energy you have spent and wasted for self willingly and given to darkness. Even though the birth of children has some colored and dark atoms in the aura, these are not light atoms—no matter how many children you have.

Now you will find out your light atoms of your heart feeling of purity and love for God which you have developed living spiritually, physically, mentally and morally.

With yes or no for God, or for self.

Now mark each ring, starting with the spiritual, inside, then with the following mark on the ring, the number of how many black atoms. Maybe you have fifty or more. Then mark the second ring, the physical aura line with the physical sins, spiritual or mental sins.

Mark them all separately with your numbers of good, light, dark or bad atoms with B - and C - D - and W. They mean, black, colored, dark and light atoms. Mark the number of sins on top of each ring of each sense sins. The rings will show you if it was the spiritual, or etc.

Remember that an atom is an atom and means atom with no excuses even if you are married or single. The atom you've created in lust passion shows the color of your atom. Marriage is really a business for mating to bear children, to protect and to take care of them which is just as all animals do. The only difference with us is, parents can teach their children Jesus' spiritual Life by living the spiritual life first, then they earn the vibration or the light atom.

To live without sex, only being spiritually united, it then becomes a spiritual spirit real marriage to help each other to love God with Light Atoms. This can come only by loving God, and is according to Jesus' Atoms Science in Jesus' Light.

Why did Jesus call the Apostles, "Ye are light" or bearers? Because they gave up the sex life to live with Jesus in Light. Also, why did

He say, "Hate your father and mother"? It means to overcome flesh love. And, "Call no man your father"? To bear light seed atoms. The flesh seed is where many human and animals mate and bear the same—but not the Light Seed.

Don't you worry, there will be too many children born without your help; so have no excuse, but watch and pray that the evil will not come and steal your goods which are your light atoms for your soul. You must bear them yourself.

Now you have marked and examined your twelve senses; we say that maybe for the last forty years. You started from your seventh year. You now know what you have created and how much you are an Apostle of Light, a follower of Jesus. No matter what religion you belong to, the religion cannot save you nor change your atoms without Jesus' Superet Light Science and Laws of Atoms just as the nature atoms cannot be changed with prayers, but they must be harnessed. But a religion will enlighten you just like your parents help you. But they cannot create or uncreate your atoms. You must do the labor yourself. Then only Jesus, through His Light Atoms-Connection, can save you.

Now we are coming to the point where we really have found our self out. Now in the forty years let us figure, for instance, you have created maybe 1,000 black atoms, 5,000 dark and 5,000 colored atoms; but even only with the 5 light atoms you created unconsciously by loving God and living

in sin, they will help you to undo quicker the black, dark and colored atoms.

In counting the twelve senses' good vibrations united, is one atom of light, or twelve sinful vibrations of darkness is one black atom. You will now see what you have created. And as you have written down your sins, acts, habits, motives and facts, you know positively just as you count pennies and dollars—the same—of black, dark, colored or light atoms. And only by the sins and their colors you will know them. Those are facts like pennies which you do not ignore.

It is natural that you will be horrified, even scared just as many people who told me they never thought of having done so many sins. Now that is your real senses' spirit soul confessing, and only to God in your examination of yourself. God sees.

Now comes the real repentance. You must undo the black and dark atoms. Now feel the shame in your heart with prayers in asking God's forgiveness and mercy. This is the start to earn the Light Atoms—but first by harnessing the black atoms with a disgust of the sins, and by watching each of your motives to love God above the old habits and desires—as temptations will come.

Now as you make your second Aura Chart the next month, you will find that many of the black vibrations have gone when you count, and you will find many old habits and sins which you also have overcome and now the light atoms have started. By following this

every month, you will find that maybe in a year, if you have been very conscientious in following the Rules which are very plainly described (as you must), you will now have developed and built through all your senses the twelve light atoms which are floating at the heart's door of the white soul atom, ready for Jesus, the Bridegroom of our soul, to open the heart's door with His Light Vibration, His Superet Light, as a reward which He brings from God's Heart; as It is light food for your star within your soul-heart. Then you will feel and know that you are baptized with "Fire." Jesus said, "I shall baptize you with fire." He meant the Light which He puts on your white atom soul through your twelve light atoms. Only this chemicalization is needed. It cannot be done otherwise.

You will now lead others without self or wanting to be a personality (as you would lose out through a religious vanity). Only with Jesus' Light your light atoms can keep up in feeding your soul. So you must keep yourself filled with His Words, Acts and Facts; then your mark of Light is known by God. As He seeks, you have earned His mark of Light—no longer the mark of the beast with black atoms to prove it. Maybe you did not have it, but out of a hundred, seventy-five people have it—which has the number 666, which means many black atoms. Those three numbers mean 6 black atoms in mind, 6 in the heart, and 6 in the sex. This brings the evil. So if you have this

number you are connected with him.

You must find out positively if you have these numbers in the mind, heart and sex. If you find it, be not afraid; but be very careful in counting. It is better that you know the truth than being ignorant and live in danger—as you want to earn and to become marked with God's Light Star which God wants. For God seeks it; so does the evil and Satan seek it.

When the evil has lost you, he will tempt you in every way again through your three senses mostly. So you must now close your senses, mind, heart and sex to everything, and watch your motives. Then hold and protect your soul white atom which holds now the twelve light atoms within—as you have become a light bearer—now a real God's lover and a worshipper of God's Heart—and now baptized with His Superet Fire which created your soul and gave the Life-light to all souls.

This secret is now yours, so please watch and make your Aura Chart all the time so as to find out your acts, thoughts, motives, sins, desires and old habits that they will not come back. And if you should give into them again, at once find them and harness them. Throw them out by watching and praying. That is why we have the Jesus Christ Religion Book which explains how to keep in it, with vibration prayers to hold the Vibration of Light to remain in God's Heart Light as a worshipper. You must remain in Light spiritually,

physically, mentally and morally.

Realize this Truth: for the Aura Scientist has studied the vibration of all religions, their formulas, atoms, creeds, ceremonies. Their vibration and atoms show very little pure light; for they have created through the years a love for themselves only. But this Atom and Aura Science of Jesus' Light Science is Jesus' holy Science of Light. That is why you could and can create the Light Atoms through and by the scientific Laws as given here in this Superet Aura Chart which are absolutely facts of twenty-five years findings.

Naturally It is not made by Jesus' Words alone; but through His Light Vibrations and Atoms. From His Light Atoms came the Light, which was not known before and cannot be made by any religion alone without this Science; neither of creeds, nations or colors of peoples' skins or material—not even from long prayers alone, or in man's religions or to be just religious, but not living it, not knowing this Truth. But now you know It.

This shows to you and proves why no religion or creed can prove with spiritual light atoms and vibrations of Light, neither only by thinking or believing but not having yet earned the substance of this Light Energy for the soul to have the Light knowingly. Only by this Science.

Now you will know that this is not created nor could be by hypnotism, astrology, numerology, spiritualism, theosophy, Rosicrucian or

new thought; neither by the 500 different old Christian religions which are all connected with the good of God. But the substance of the spiritual Light Atom can only be made and earned and developed through Jesus' Superet Light Science which you must use no matter what religion you're in. And no matter how you fight or argue, it stands in Jesus' Light Laws of Vibration and Name. So the evil that will fight through you will prove you have black atoms through this Jesus' Science. It shows then that you will not overcome your black atoms and will not change, as you are not making the effort. Are you afraid, a coward?

No matter what you or anyone says, know, dear one, with an oath before God Almighty, the Aura Scientist would die a thousands of deaths of torment for this Truth—because It is the Truth. It's Jesus' pure Light spiritual Science, found after hard labor—but only after twenty-five years of study of the Light Atoms of nature, then of the Bible. Only Jesus' Words proved this Light with this great scientific Fact in His Words of "Many are called but few are chosen"; which means, that have light atoms.

Those with the Light Atoms will know this Truth when they begin to feel It. The higher and the more you develop in the Light Atoms, the closer you will come to Jesus, thus becoming connected with His Light and Radio Activity in soul, and with His Light, ready to work for Him and with Him.

Please come; start; be not afraid,

for you shall gain to live in the Light Kingdom of God which is Light. Then you will no longer blame the evil, when it was you alone who created the black atoms. By you and all living in it for years,—we have invited the evil.

"Lead us not into temptation," means, we have a free will which God has given us. Also it says, "Deliver us from evil"; first we must free ourselves from the black atoms, then God will not allow the evil to use us.

As you have started, even though you have not yet developed the light atoms, you are laboring and the Protection of God is with you: for He loves you. He is your soul Parent. Naturally God wants your soul, but He can only have you with light atoms. He cannot use you otherwise.

Jesus died to give His Light Atoms in payment so that we could earn the Light Atoms from and through Him. He saved us through Light. And we are only saved as we come to His Light.

You see, Jesus' Light Science is not made just alone of a religion, but of a Substance. So remember that when twelve good vibrations are going steadily through twelve senses, and of each sense separately, the whole makes one light atom. If you have accomplished the good through the twelve, you will have twelve light atoms for your soul. It is not imagination or guess work which is the same with the black vibrations and atoms that you have for the connection with satan. To harness them you must be positive

that your motives are for God, the good, only. And to break them up is by confessing which the Superet Aura Chart Picture helps you to do. You also know that the nature atoms are not guess work.

Realize that we only live by vibration and atoms; so you must develop the spiritual, physical, mental and moral vibration and atoms in light through your twelve senses. So know the number of how many acts and thoughts by facts of light, dark, colored or black atoms you have created which is so simple, plain and natural—and it takes place no matter what you say!

Just as the sun, moon, stars and every living thing must vibrate and have atoms to live, so must we and our spirit vibrate in a substance of God's Law—no longer just in a physical substance of atoms. Jesus said, "Who will not forsake father and mother (He meant flesh love, also self or sex love), cannot be my follower" in Light Atoms.

Nothing counts when we pass on. God will not ask you "what religion were you in; (but) have you the Light?" And by the brilliancy He will know how many Light Atoms you've created, and that you have earned the Light.

In 1930 the Aura Scientist made America's Aura and spiritual vibration atoms aura which had Light, and said, "Soon you will know that the nature's atoms can be harnessed by the Light Atoms Power" before many scientists at Carnegie Hall; and encouraged them to find how. Now you can see that this was accepted by the re-

sults of the Atomic Bomb.

You must get the "300" Atoms Book which describes to you the wonders that can be accomplished by them. This will help you—but you must now seek your self out and earn the spiritual Light Atom Bomb to destroy all the evil, sin, sickness. Wars and tribulation, all will vanish.

You might be a little confused about your personal life and the sex life. Your body life must come to a point someday if you want it or not. Your atoms will prove its vice by its aura; and even if you were to live now in seclusion, you would carry it with you after death. So do not live any longer in sentimental dreams of your great personality or profession. Nothing can alter the situation of your past life and your creation of black atoms. All the money of charity or of giving to your church and creed will not change it; but the Superet Aura Chart in Jesus' Name of Light will change the black atoms to Light by scientific facts.

Your prayers for the future happiness will not help you when you are harnessed with darkness. Satan, who is made all of black atoms, would no longer be Satan if he had just one light atom.

Cannot you see the truth of giving up the skeleton of life, of the highlights, the lowest depths of your life that you have reached? You have nothing to look forward to but the only change of making good now with God. Do it now; it is so easy, so wonderful, so true and pure. It costs no money—just prov-

ing Jesus' Laws, which you cannot do without knowing what you have done and created, which are just your elemental emotions of body lust—not love or searching for your soul to love God.

Your autobiography is now released through your atoms color in your aura. You are known through all the planets by your colors of your life—not of your skin—where you have lived by the so called decency of your body heart lust love. And, you need courage and honor to be truthful to God now, as you understand the facts of Jesus' Laws, and as you are no longer ignorant or self-righteous.

Come; start now to be honest with the symbol of truce. And with the trust and decency, you're now depositing the secret of your life by sifting down to the smallest of habits of sins, motives and old ideals and infatuations. You're no longer a bon vivant with protests, saying that you were just a human and blaming all on God.

Start now to compensate each day to undo instead of upholding your ignorance which was a deadly steel trap cover for a tribe of vultures, waiting for an updraft of a disgrace, having grown to a bitter old age, saying that you could not renounce the old sins and habits so as to remain a gentleman or genteel woman, vibrating with the darkness of past passion, lust and vanity. If there is any decency left in you, you will acknowledge this truth in Jesus' Name before God with Jesus' Chart and will become a free soul in Light, a laborer of

loving God—a real lover and worshipper of God—proving it with light atoms—no longer a carcass for the vultures of passion to devour your soul and body with its sinful lust and fame.

Start on Jesus' Way of purity to earn His Light and Light Atoms in purity. You will no longer just pride yourself of your old aristocracy, or that you came with the Mayflower's old stock. But the new stock of light atoms must start and now be embedded in you, as you have become a real victor, earning light through the Victor, Conqueror, Jesus Christ.

Start now your life Chart by following in the Superet Chart to purify all your senses; and know that these were the Commandments of Jesus for the twelve senses.

St. John 5:7—Mind sense.

St. John 7:17—Will sense.

St. Matthew 21:21—Eye sense.

St. Matthew 28:20—Ear sense.

St. Mark 10:19—Sense sense.

St. John 12:50—Mouth sense.

St. John 13:34—Spirit sense.

St. Matthew 22:39—Heart sense.

St. John 14:21—Soul sense.

St. Matthew 22:37-38—Soul consciousness sense.

St. Matthew 28:19—Aura sense.

St. John 8:44—Sex sense.

HOW TO MAKE YOUR AURA CHART

Take a large sheet of paper and write down as follows: The sins of my twelve senses from my tenth year until now. Say I am forty: I'm writing down the deeds and

sins of thirty years of my twelve senses or centers of the mind, will, eyes, ears, nose, mouth, spirit, heart, soul, soul consciousness, aura and sex.

(Remember as closely as you can the sins of every year—of what sin is mostly in your mind, or thought that stays with you, and the one you've overcome.)

1. Sins through my mind sense—sinful thoughts, lies, excuses, giving into temptations, etc.

2. The will sense—self-will, love, fighting to get self-will, excusing others in their self-will, willing to sin, etc.

3. Eyes—looking with resentment, misusing them for lust, jealousy, hatred, envy, vanity, flattery, enticing others to sin, etc.

4. Ears—misused in listening to unclean stories, condemnations, lies, hatred, etc.

5. Nose—sensing evil temptations, surrendering to sinful sensations, sinful desires, sinful ambitions, etc.

6. Mouth—speaking lies, lustful kisses, gluttonous, drunkard, etc.

7. Heart—flesh love, self-love, love of lust, vain, being a personality, ego, power, selfish love, etc.

8. Spirit—living a life only for self and excusing its own, protecting only self will, having self glory, self and its own, living for money power, name and personality, etc.

9. Soul—impatient, (soul can only live by patience) discouraged, disheartened, disappointed in love of flesh and lust, etc.

10. Soul heart consciousness—not loving to pray, forced, duty-

bound prayers, pretending, religion only an excuse or farce, hypocritical, etc.

11. Inner Aura—made of emotions, ego, loving emotions of the body, mind, spirit or soul, unholy emotions, exaltations, pretending, antagonistic to other religions and people, self-righteous, etc.

12. Sex organ—loving sex life, living in fornication, (married or single, you build the same atom) etc.

Study the senses' laws; then start by reading the senses' sins and how to awaken your memories and your atoms color examinations through which you will now begin to know how much light or darkness you have created.

Start with the mind, number one, and keep up strictly in finding out all the twelve senses' color atoms auras. This is more important than beauty or your personality. All the riches are in your life in light.

After twenty-five years of work in this Atom Science, the Aura Scientist can tell you of the many men, women and thousands of young innocent beautiful girls who came with bad diseases, tumors, who wanted to commit suicide, and young boys starting their lives only with adultery and sex. What kind of children will they have? Many have come with tumors and cancers, begging on their knees for help, telling of the same atmosphere their parents lived in and where they were raised. Many were healed and got rid of the darkness and evil by overcoming the animal to earn that they could love God in

Light. Everybody has been benefited, healed and helped that has followed Jesus' Light Law with the Superet Chart.

You must choose now, for so long as you have the body you can make good for your past sins. Do not delay, for tomorrow may be your last day. No one will remember you—only your sins. But your past is before God, which you will be known by. Do not be lukewarm and stick to your excuses, as black atoms kill your body and soul. Jesus spoke of the black Satan atom fire and of the White Atom Light Fire, God's Light.

The Superet Chart teaches you your body's love subjection to God. Without Jesus Chart Laws you cannot earn the Light Atoms which prove your love in purity and light to God (Jesus' Life); only then you begin to live for God.

Jesus spoke in symbols—which was to those with colored atoms of different beliefs—for all those have different colors in atoms. They feared, doubted, were half-hearted in their obedience. Jesus also spoke to those of dark atoms, that were unbelievers, that would not change because of their old religion, that were narrow and self-satisfied, afraid. They had clouds of darkness which their closed minds proved in their not accepting His Teaching of Light.

Even until this day, after 2,000 years, unbelievers have been fighting Jesus' Light. He spoke to them

of their black atoms, calling them vampires, hypocrites, liars; they were lukewarm and pretending, living in fornication, adultery, hatred, vanity and praising their old religions as a cover for their darkness.

As you study the Bible, you will find that all of Jesus' Words lead to Light. And all must earn His Light Atoms—as we cannot live physically or spiritually without light atoms.

You might feel your self above all this—a great good person. You might persist just in breeding and be arrogant about yourself, even pretending and being bewildered in excuses about yourself for not coming to Jesus' Light. And as you've had a self-will development through your lavender-flesh-love years and have become a relic to that society of "make believe" and have now become isolated from Light like a lost child, and do not want to know your black life and atoms, thinking it is ridiculous because it encroaches upon your aristocratic sensitivity; and as a genteel escapist you live in a self exalted atmosphere of your "make believe," and reasoning that all is right and human, that God made it so; but when you face God, He will not ask, "What religion did you belong to; (but) how many light atoms have you developed as a follower of Jesus through your earthly body? Have you overcome your body?" Your aura will speak for you as you stand silently before God!

The Miracle Woman's Biography and Start of Woman's Age

THIS is to introduce to you the 'Miracle Woman'—as she was called in the New York papers years ago because of the many miracles. She is also known as the Atom and Aura Scientist who helped many scientists years ago when lecturing in Carnegie Hall about the Aura of the Nature Atoms—when encouraging them to find out and how to make the contact with them.

She was also called a Scientist of Chemistry when explaining the affinities of the Atoms Aura and of the chemicals. She was called a 'healer' when going to hospitals and explaining to doctors how to see the Aura and how she saw their sickness in atoms and auras.

And last but not the least—she was also called the Founder of Jesus Christ's Religion; as she found His Religion of Light and the new Name in Revelation, Superet, which is God's Heart Fire and Light. She is also the Pastor, as she started the first Superet Church here (in Los Angeles,) and in the Holy Land—at which time she started the Prince of Peace Movement which now has over 75,000 members here, in Europe and in the Holy Land.

In person, she is only a little plain woman whose name is Josephine De Croix Trust. She claims to be an 'old soul' of ages and ages

old: for she only counts the soul Light age—not the body age of dust. Even after working hard and in hardships for many years, she feels as young as a girl and is the picture of health and happiness which everyone feels when being with her. And in helping and loving all, she has been affectionately called, Mother Trust—as a spiritual Mother for souls.

Eight years ago Mother Trust traveled around the world; and studying the Auras of the different countries and people, she gave advice from what she saw in their country's Aura. But most of the people laughed in France when she told them that their country's (France) Aura was bent on one side and with a very dark color all around which meant war and defeat. No one believed.

Also when she arrived at the depot in Berlin, she saw the great mist of black vapor mingling with red. Mother Trust advised and told the Germans that they might all be prepared to fight with cannons, but that they could not win with such a dark black striped Aura. Of course no one believed her there, for they all were sure and thought they could win with their man power. . . . But Mother Trust says, "you can never win without Light. You might think so, but God's Vic-

tory is in His Light, and comes to us only in the Victory of Light and Light Atoms.

Mother Trust now explains her God-given Gift: As a young child, she could see Light, different colors of light and also dark lights around people, animals, trees, flowers, etc.

Her story is somewhat like that of Joan of Arc who also loved Jesus, and who even though she was being burned for helping France, prayed to Jesus. Her heart was not burned because she loved Jesus. This same heart-fire was proven to be in this child's heart—which was to serve and love Jesus, and to bring out His Light, which He told her to do in later years—to bring out His Religion, and by degrees of Light to come to God's Heart Light, which was Fire called, Superet.

Her parents, who were good, respectable people, lived according to the style of their old Polish and French Aristocracy (being a Count), and were very particular that their children were raised according to their Ancestors; so they were very strict with the children.

Now think of the Count's surprise when the small child of four years of age told him what she saw around him; and what she saw in other people—that everyone had black tiny ink spots inside with large rings around their bodies, with some being dark and others of different colors. And, that a long shining Light came right to her but not to him or anybody else. Think of the great disappointment to their ancestral family pride when they

thought they had an insane child in their family.

Her oldest sister, a few years older, told her the story of her birth after their parents death. She said that the grandmother and also the parents had often told the story of her birth: That when the mother was expecting the child, she went to her mother's home in Poland to be secluded, as it was in the mountains and had many pine trees and flowers.

When the time arrived for the child's birth, that night the grandmother called all the Help to pray with her that God would send a boy who could carry the old family name. And, as there were already two girls, she did not want another; so she was praying that God would 'please send a boy' . . . Everyone knew that the grandmother was kind and religious; and she wanted her daughter to be happy.

That night as she was walking around the garden, she carried a lantern, as it was a very dark night—but she wanted to be alone and pray. She became frightened when suddenly she saw a light coming which came like lightning; and upon looking up to the sky, she saw a large cross forming on the Heaven of a white Light. She then fell to her knees to thank God, that now her prayer, she was sure, would be answered—that a boy would be born, that God had answered her prayers.

Think of her surprise when she arrived in the house and the nurse came running and saying that a

girl had been born. Now think what a great disappointment to all around. But, only then the grandmother knew that the girl child was marked with Jesus' Cross. Shortly afterward she died.

After telling this, the oldest sister continued, telling her that the parents had always said that she was a strange child, and different than the family. That, always as a baby, she would lay quiet for hours without crying, and would look up at the ceiling, laughing and stretching her little hands like in a prayer.

That, when she was about five years old, she saw an old Christ Picture hanging on the wall and wanted It to lay beside her in bed instead of the dolls, which she wanted taken away. And instead of the dolls, she would kiss the Picture. She would prick her finger until the blood came and would put it on the Feet of a little crucifix—which was her way of telling Him that she suffered with Him, and that she wanted to show Him that she loved Him.

Often in the kindergarten school, she would speak to the little boys and girls about Jesus; that if they did not love Him, she would not play with them—so the teacher sent her home.

Once when the governess was taking her and her oldest sister for a walk, she disappeared. After a long search they found her sitting high up in a tree. They told her to come down; and scolded her for her torn dress and her misbehaviour—that she was going to be punished. As she was afraid of the punish-

ment, she told them the truth: That she was talking to God—if He would please send back her mother (who had passed away), because only she understood and loved her. And that as she had often asked God and He didn't seem to hear her because she was so far away, she thought that she would climb as high as she could so that God could hear her.

Another strange thing which caused concern, was when she would stand on top of a table and lecture to empty chairs about the Light coming, and Jesus. So her people at last had her head examined by doctors, who all said that they found her to be a healthy child, and that there was nothing wrong with her brain.

This shows a little of her childhood, and in which she mostly wanted to be alone. In her hunger for Jesus and God, she would sing to flowers and was a happy child. All thought she was indeed a strange child. But many poor children would sit around her, as they liked to be with her and to listen to her. Most of them carried her dolls which she had given them. But before they received the dolls, the candy and cakes, they would have to repeat the prayers she had made up. She would tell them of the Light she saw, and because they were Catholics, their parents would not allow them to listen to her any longer. So being afraid to speak of this again, when she would see Jesus' Light and hear His Voice, she would climb up high trees to speak to God alone.

As her people were Catholic (on the mother's side), and Protestant (on the father's side), she was often missed when not at the Catholic Sunday School, (being in a high tree instead of church) so she received a whipping and punishment. She would tell them, that when she was in the Catholic or Protestant Church, she could only dimly see Jesus' Light; where in the tree, she would see a golden Light which looked like a rainbow of gold before her—which was the same even in her room. . . . After hearing this, her parents made her promise never to speak of this to anybody.

Because of all of this, the child grew up fearing her relatives and people, and so kept quiet; but all the time she lived in it, which is now coming out after those long and suffering years of silence and ridicule. Nevertheless, Jesus was with her.

After the parents death, the oldest sister disposed of everything and took her to America, and sent her to school. When she was fifteen, she started to earn her own living by nursing little children.

Later the oldest sister returned to Paris to see an old aunt and stayed with them for sometime, so the younger sister was left alone. Through the day she earned her living, and at night she worked and studied the Atoms vibration and Auras she saw until she got sick with a cold which turned into consumption, and was sent to the Adirondacks Sanitarium.

After being there a few months

she began getting worse; and instead of getting better she heard the doctor say one night that there was no hope and that she would only last a few weeks. So she took her little postcard photograph which she had taken before entering the Sanitarium and put it in an envelope to send the next day with a letter to her sister with the news, and to tell her the truth.

That night, as she could not sleep, she prayed to God, as she was suffering and coughing. And as she had nothing to live for, being only a young girl of sixteen and having no money and no home, she was ready and happy to die. Then she thought how Jesus had given her the revelation of the Atoms Light Aura and Vibration which she could see, and had given her the Gift to help the people, which would bring them to love God more. So she prayed to Jesus: That she would give her life all to Him if she could get well; and on her knees she implored God to let her live.

When going back to bed, she saw a small Light at the opposite wall which was getting larger and larger; also brighter, then radiant, coming in a long stream, gently touching her chest. As she was lying very quiet and afraid to move, she heard The Voice saying, "You shall live and bring out my Light Teaching." Then the Voice and Light disappeared.

She felt she could breathe deeply without coughing, and felt the healing warmth from the Light. So she knew and cried, "I am healed.

God has healed me through Jesus.' The next day the doctor and nurses could not believe her until she was examined. Then they told her she could leave the Sanitarium as she was healed.

The next day she took her little photograph postcard out of the envelope as she would not need to send it to her sister now. Looking at it she saw a little light spot near her heart and Jesus' Face looking faintly at her. What a surprise! Later this photo healed many people, and everytime. Later she had a photo taken and there was Christ's Face on it; so she knew that Jesus was with her and that she was marked by Him (which again and again proved on about fifteen others and everytime!) for her to keep her promise—for her now to bring out His Teaching.

Leaving the Sanitarium, she went as a missionary to the Water Mission in New York, where she helped the poor and needy, blessing them with her Christ Picture; and many were healed.

In a year she married a young Inventor whose Invention was used by the United States American Government. He died shortly after his success came. After his death, as she was not a business woman, neither interested in that kind of work, she was ready for this Atom Science.

One day while looking for a place to start, she met a woman. Talking to her about her aura which she had drawn in a picture, she showed the vibration that had made her ill for many years—this woman was an

artist herself and lived in Carnegie Hall. She invited her friends to see this 'wonder young woman'—as she called her to come and lecture about the Aura and that the Atoms live in it—that she would teach them something new which they had never heard before. This was a tremendous success and spread like a wild fire.

She laughingly tells you the story of her start. Getting ready for that occasion, she sewed a white dress, making it large and long, as she only weighed 105 pounds. Being small, she wanted to make an impression, as she looked so young for a Scientist.

As she was drawing on a black board and gesticulating with her arms, her sleeve ripped; but as she was so intent on her work, she did not pay any attention until the sleeve almost fell off. All enjoyed it and joined her Classes at Carnegie Hall.

The well known Editor of a New York paper heard of the new Scientist and of the miracles and healings, and asked her to teach him also. His wife was healed; so he knew it was the Truth and wrote her up in the New York papers as the Miracle Woman.

Then she started lecturing at the University, giving lessons to the different scientists; and was invited by surgeons at the hospitals to teach them to see the Auras so as to save from operations, and how she healed people. But all the time she was working with the Aura Atoms Science to find the Secrets in the Bible.

In the Bible she found only Jesus' Words shone in Light. The Old Testament had many different, dark and also colored auras in their words. But each of Jesus' Words had a different Light. Some vibrations were stronger, more brilliant and longer or had little spots of Light.

This great Discovery was so wonderful to study. This was the start of her real work as she says, because she had found Jesus' Light which He had given out not so plain in His Words, but plainer by the Light Vibrations. So she found, after studying, Jesus' Religion of Light which He had only given to the Apostles—which was proven when He called them, "light or light bearers." It proved that they were connected with Jesus' Light, which could only be done by first earning the Light Atoms.

Then, when seeking the new Name in Revelation, she found the same Vibration with the same Light with little purple coloring when He said, "I shall baptize you with Fire." The new Name, Superet, had the same coloring as the Word, Fire—with a purple and gold.

What a discovery! How she thanked Jesus for giving It to her—when again the Voice came and said, "This is the new name, Superet, which is the everlasting Fire in God's Sacred Purple Heart." But, in Jesus' Words she found the secret: That there are two Purple Hearts united in One—two separate but in One—That the Holy Ghost was the Mother God; which was what Jesus meant when He

said, "When the Holy Ghost shall come, He will teach you all things."

"I asked the Lord why He did not speak of the Mother God, only mentioning the Holy Ghost. And it was explained to me: That those countries were primitive and man's countries, where men only looked at the woman as a breeder and were not allowed to speak or learn much; so they were kept in the dark.

"Jesus gave me the secrets through His Words in Light in finding His spiritual Light Atoms Aura which showed the Light Vibration. And He asked me to bring the secret of the Mother God out to the world, which is now coming through this revelation so much closer to this earth.

"Jesus always, when on this earth, knew that the Mother God was His only Mother. The holy Mother Mary was only used to bear His Body; but His Spirit and Soul came from Mother God's Purple Heart's Love. That's why He is the only begotten Son of God, coming from God's Superet Heart's Fire—where we are only born as spirit atoms of spirit that must develop the soul through Jesus, and through ages for His Light with spiritual Atoms.

"Some years ago, I received from Jesus, for me not to be afraid to give this out: for those that would not accept this Truth, had black atoms, and that their vapors were clouding their minds and feelings of heart so that they could not be used for Light or to become lovers for God, only sex lovers for their

body's lust; and that they would hate me if I told them this Truth—which they did.

"Jesus again warned me not to give up as He would help me in healings, also in writing about His Religion, His Atoms and Light, which I did in the 9 books; all of which had to be written in the war time as a sacrifice for peace, and ready for the atmosphere to become cleaned with the Vibration of Light. As the wondrous Mother God would come with a sign which would bring peace. And that I would see it.

"It came suddenly with the Atomic Bomb, otherwise we would have had war for many years. So the Mother God saved the world. Jesus said that only She could do it, as the Father God is giving this world one more chance through the Mother God; because we have developed so much darkness with sins, lust, hatred, anger and vanity.

Come; start to follow Jesus; and if you do follow, dear ones, this wonder Light Superet Chart, you will receive your reward and many blessings on this earth. And hereafter you will be in the Light without affirming, demonstrating or praying for it. But it will absolutely be done by the scientific spiritual Jesus' Light Laws.

You will earn it as you conduct it with feeling. You will unlock your stiff locked joints and nerves when the dawn (aura) of your labor begins. You will say, "I must be about my Father's Light Business" uncomplaining and courageous. Christ did it.

The Aura Scientist always had this before her eyes and in her heart, "This is the Truth. God will help me to bring It out; and no matter what people do, it is what I do that counts."

In the beginning she could not grasp it when she saw people with black atoms and with elementals. Sometimes twenty or fifty would be hanging on persons, looking like small vapors; but they could breathe and talk in English. Often she would be scared and would want to go away so as not to see them. But when the Message came for her to start to administer this Truth, people began to feel the Power that was around her. Sometimes they saw a vapor like fire coming from her eyes.

She told her sister and all their friends to join in Jesus' Religion. The Catholic priest and the Protestant minister begged her to give this up and join their churches. But she told them that Jesus wanted His Own Church of Light, as He never had one on this earth, and that she was going to give Him one.

She got help from God, as Jesus healed through her with His Photo which she blessed the people with. They were healed and offered money in gratitude which she did not want to accept, as she was earning her living by sewing. But Jesus told her that God would supply her, as she was working for God's Heart Light, and for her to accept it and start a Church for Him—so the proof is here in Los Angeles.

All the members can verify that

she refused charity or money from people unless they joined in Jesus' Light Religion. God sent her help through Jesus by healing and helping many in such miracles that they were unbelievable.

She has lectured at the Church for twenty years and has never prepared a lesson. She never knew what she was going to talk about. She always started with "Father thy will be done." She says it was like a dream, and such a wonderful life for God. She loved the insults and blessed them in return.

As she is in her sixtieth year, she is praying that she can live long enough to see Jesus Christ's Light Religion, Superet, the Atomic Religion of the world, spread out all over the world. Then all will be able to see Jesus and His Light.

When this Science of Jesus' Light is taught in all churches with the explanations as given in this little book of the different Atoms, and all the scientific Principles applied, this will lead all into Jesus' Light and His Religion. Then only will it be possible for Jesus' Light to come—not only a stream of consciousness, but with a Light Substance, a Matter of Light.

You can therefore see that It is not just a man-made religion or a mind science, but an absolute labor, to earn through the twelve senses, our own soul-light for the Superet Star through the Superet Chart. We must follow Jesus' Science of Light to earn the spiritual Light Atoms.

Once a woman came for comfort and healing which she received; as

she was leaving she said, "You do not remember me. I was once in your Class and made fun of you, and talked against you." Mother Trust said, "I know; and I blessed you for it, because you helped me to want to help you. I knew you would come back, because your repentance would draw you to Him."

Another time a man came and said, "I have come for a healing of my one eye" (as he already had one glass eye). Mother Trust said, "First give up those mistresses you have, and tell your wife the truth; and bring her here. Only then God will help you." The man acknowledged it and returned with his wife; and both received healing and help.

Many cases of healings have been witnessed by many who declared it unbelievable. But God was with her.

One night Mother Trust prayed to the Mother God, when she heard Jesus say, "Mother God is sending you blessing, and help will come tomorrow." And it did come when she thought the Church would be closed because of not having enough money—as there had been so many poor, and all wanted money.

Often the Lord Jesus would say, "Our Mother God hears your prayers. She is so wonderful, merciful, loving and kind. She asks for Father God's Mercy for all of us," to help us when so many do not deserve it. When the war stopped and peace came, the Lord said that it was only given through our Almighty Wondrous Mother God: for She sent Light from Her Purple

Heart with Her Superet Fire, which saved the world, as the world was almost doomed.

Christians have not lived the life for God, but have lived lower than the animals, pretending with Jesus' Name in man-made religions.

Then again the Lord came saying, "Mother God is coming closer to the earth because you have been bringing my Light Religion to the people for the last twenty years, standing abuse so that the people would get help and would do better, as the Mother God loves all and wants to help all. She is the Love-Mother, as She gave us the soul-love and wants us to live the soul-life to come to Her as souls with light."

The Lord, with Blessings, left and showed a great stream of Light with a Purple Fire going through the atmosphere, preparing the way for our Precious Mother God to come.

How Jesus loves Her, and He wants us all to love Her more. So pray often with all your heart to the Almighty Mother God. No one could have saved us; even Jesus could not come closer to us any more with His Light—for the atmosphere was filled with black atoms of hatred and the evil was loose. Satan with elementals from the darker spheres was drawn by our sins to inhabit this planet. This you can see and know by the vile things our enemies did to the poor helpless countries and people.

This Atomic Bomb could only be brought out in America, because, here in this country, Jesus' Superet

Atom Light Religion, (now called the Superet Atomic Religion of the world) was started. Therefore, if humanity would now follow in Jesus' Religion, the black atoms could not stand His Superet Light, and would soon be dissolved through following His Laws as given here and explained more thoroughly in "Jesus' Wondrous, Uncanny Superet Book."

In the Superet Book, called the 'Uncanny Wonder Book,' you will learn many secrets as given in the 922 pages. Many were healed just reading it. But you must follow it with the 'Gospel of God' Book which holds every Word of Jesus, which explains His Vibration. Also there is the '300 Light Atoms' book which explains each different Light Atom, of how to earn their light.

You can see that the Aura Scientist was used and busy in starting the Superet Church with Jesus' Light Religion, through which many have earned light atoms, have been healed and helped.

Eight years ago when the Lord gave her the Message to go to the Holy Land, to get ready to leave in a few days to go to Jerusalem, she obeyed and there started the Prince of Peace Movement through which they have had peace all these years, where before for fifteen years they had war.

Just think, after fifteen years of war, in two weeks it stopped. Mother Trust told them that all Europe would have war, but that they would be saved from it—which really happened. They have had peace ever since, so the Peace

Movement grew to 75,000 people, all praying united with the Superet Church in Los Angeles. Now they have a Superet Church in the Holy Land.

They are all praying for Mother Trust to come back, which she will do as soon as things are settled to teach Jesus' Religion, the Superet Atomic Religion of the world, to all of Europe. So there will soon be Superet Churches everywhere; then you will see the 'wonders' that will happen, where people will earn the spiritual Light Atoms through Jesus' Religion, and will draw our Father and Mother God's Light closer to this planet. Then there can never be a war again. It will become a paradise. . . . Come all you that read this, and help to start for our Mother God.

Only now this secret could be revealed to the world. The Aura Scientist was not allowed to do it before. Also the price is made so cheap that everyone could and can buy it. It does not even cover the cost of the printing, but Mother Trust does not want anything to stand in the way. You will know when you follow Its Laws that not even a million could pay for what this little book holds.

Now you can see the years of struggles and sufferings to get it all through; and also because of being a woman it was made so much harder. All friends left her, so she stood alone, until at last those that were healed became students and members, Superetists which means men and women alike. For God does not consider the male or female

body. It is the soul of either one in equality that can serve Him.

It is not for man alone to spread His Words. He has given the privilege to women to do the same, otherwise He would not be a just God. Jesus never restricted women from preaching His Words. It was the man who took it upon himself of the man-made law that forbid women to preach. Not Jesus. And He never said for the woman to obey the man to live in sex to satisfy lust. That's why Jesus gave the Message of Light to Mary Magdalene, and now to the Aura Scientist, or Mother Trust.

Mother Trust started alone this Jesus' Light Science Teaching: That It was not a theory, for just as It produces through the Atoms Nature Light, so through us the spiritual Light if we live in Jesus' Laws spiritually, physically, mentally and morally.

Now this gives life to goodness; and virtue must have a light purity lustre so that the diamond in soul can shine in Light. Therefore open your hearts. Let the mist out of doubts and fears. Accept this Truth; then indeed you will feel and know that in God's Light we all will live more and have our being. But there must be Light Atoms to be in Him. Then the flecks will uphold the glory of our souls through this spiritual scientific growth; for Jesus operated in the Laws of the spiritual Atoms.

In the case of Jairus' daughter, He kept all the unbelievers away, and put them out. Why? Because they did not accept Light. He only

kept His Apostles, Peter, John and James who were in the Light with Him. He raised the daughter to live. You can see that it was not an illusion, but He proved His Light by Light Atoms. He did not want any atoms of darkness to interfere.

When Jesus cast out the devils, He said, "Having eyes to see, see ye not this truth of my Light" Science? So we must have our senses spiritualized in order to apprehend the Spirit and become children of Light—as God is Light.

We are so blessed in America. Let us give thanks. Mother Trust is a true American with her whole heart. Coming to America as a small child, she knows no other country's love—only her country, America. She also loves the Holy Land. America is the most beautiful country in the world, and we must be grateful to God that we have such a wonderful Constitution, which no one will ever dare to change.

We all are equal in the flesh, only differing in atoms. We all are hungry for love, for charity that heals and saves the antagonistic spirit of darkness which cannot fight us any longer with the Christ Light, with all churches as one in Light.

What manner of man is it that can discover an improvement on Jesus' Religion of Light which leads to God's Heart, Superet? This Truth cannot be mixed with all grades of darkness and light, and unclean substances; as words and prayers do not produce the substance, which proves to those of self interest.

The Founder of this Science knows that when this book of the Superet Atom Science is taught, naturally it will produce a stir. But it is according to the nature's scientific and terrestrial calculations above the horizon, and after watching the small lights of nature and how much God's Light differed from the heavenly nature flecks with so many colors, of orange, crimson, a beautiful light violet, topaz, turquoise and sapphire. All had the light in the heaven with gold flecks which were so small and were only a web of glory in the heavens. But the Celestial Atoms are like suns; and to earn Them, we must breathe in Them first.

We also must have within a web or an aura so as to rise from the gloom of the sins or clouds and darkness, which will lead us from sadness to gladness. Then suffering will disappear!

We now know positively through this discovery, that we have a real Mother-God's Love, that we have the Wondrous Mother God with us with Her Love and Light, which over-shadows us when we earn the Light Atoms. She is the only One that can save us now: for Jesus sent the Message to the world. Our God-Father in His Justice gives us this chance only through the Mother God when we accept, worship and love Her with purity in heart.

How can we draw Her close to us? Only by earning the Light Atoms. Talking will not help—only praying to live the life to earn the Light Atoms. That's why it has to be done scientifically—to prove if

we have created the substance by our living in purity—which will show by our aura.

The Lord Jesus gave us this Superet Chart to help us all. Use it now, dear ones, old, young and children. Then you will show our beloved God Parents how you love Them with shining lights of hearts.

The Aura Scientist wants everyone to know that this is given only to bring out the Almighty Mother God with this Secret of Atoms in You, and How to Harness and Earn the Light Atoms for Her connection with our hearts.

She says that she would gladly give her life for this Truth; for she knows that the Mother God has now come to us, showing and proving with the peace which She brought from Heaven with the Atom Bomb. The world would have been doomed because of our sins and darkness. We would have been lost.

Once Jesus saved us with His Light, but we misused It and therefore lost the opportunity. This came straight from Jesus; so do not doubt, but change and follow what is given here. This is the whole truth so help me God.

Those millions of soldiers that died for our country on the battlefields also implore you, in Jesus' Name, to accept Jesus' Light, and to pray to our Mother God. She will help us now—which is a Message of comfort to all. "Be of good cheer," Jesus said.

Jesus often said to me in visions and dreams, that God-Father demands that we all make good for

the neglect of 2,000 years in which Christianity and humanity have not lived in God's Command to come to His Light. So only through our Mother God's Love can our dead, sinful, stony, closed hearts be awakened and opened to love God, and to earn God's Love.

We've also read in the past ages and ancient times where they had a religion of a father-god and a mother-god, a goddess of love. They called her Ishtar. So they believed in a parent God—not just a father-god alone. That's why Jesus always spoke of the Holy Ghost—so that people would want to seek what the Holy Ghost meant—which is the Mother God.

At last the Founder of Jesus' Religion, discovered the Mother God's Love, and that She is our soul's loving Mother—that It was She Who gave love to our flesh mothers' hearts to bear and love us, and to bring us to Her. For She is the Creator of love—but only in purity—not lust.

Come all and let us love our Almighty Mother-God, and pray to Her, as She is One with the Father-God. We need not fear or be afraid, because She knows our weakness. She bore our souls, and will help us. She wants all women to live a purer life—For she will raise them in Light to Her Heart, and will bless all children that now will be raised to love and worship God as our beloved Father and Mother God—our Parent.

How God-Father will rejoice that we love and have found our Mother God—that we now have

Her with us. For His Love, which is in Mother God, is also Her Love in Father-God. She will watch and over-shadow Her children all over the world to become souls of Light, to come to the Sacred Purple Heart of God with the Superet Fire.

Let us pray to Her daily with this Prayer which is so great and Powerful; for the Lord gave It to me. So pray with your heart and learn It by heart. It will comfort, help, heal and open up your hearts to love our Mother and Father God Parent. And, receive ye the Holy Ghost, our Almighty Mother God, Superet.

*The Powerful Prayer to God
to Earn Light*

“Father and Mother God of the Universe, we realize Your Presence everywhere. Your Light has been Superet, and is guiding us. We give thanks and praises to Thee, Father and Mother God. We adore Thee and worship at Thy holy Feet. We are Thy humble servants; and in all humility we beseech Thee, Father and Mother God, to guide our footsteps. Help us to be clean in mind, and with a contrite spirit to be in Thy Presence. Help us to be brave and true in the Name of Superet, the highest Teaching of the Lord Jesus Christ. May we honor and obey His Command to enter into Eternal Light, and be worthy of the Sacred Purple Heart, which is the Heart of God. Amen.”

Pray this Prayer every day and teach It to your children. This Prayer is so Powerful that you will

see your children change. And, you yourself will be covered with the Light Vapor from Jesus to earn the Light Atoms.

The Aura Scientist has seen the Vapor of Light coming to people who prayed this Prayer, and who earned the Light Atoms quicker. You need many Light Atoms for your soul to be fed and to overcome your sins.

Start now Jesus' Way, which is the Heart way. It feels more—therefore it creates atoms. Then it is not just reasons—because, it feels more than just thinking. For God's Light Truth is in feeling. Feeling recreates truth in Light.

Therefore, we must develop the feeling of loving God—not the feeling of loving flesh any longer—but that we rule its desires.

As we have created gaseous and different atoms, the dark atoms have to die so that the light atoms can be born within. Neither will mix. “You must die daily,” Jesus said. So we must discipline the body to become a Christ soldier.

St. Paul and Mary Magdalene were chosen by Jesus even though they were filled with black atoms—but it was shown by Light that they became Messengers of Light. His Light Power has not ceased. It is still working on us to find one. So pray without ceasing to earn this Light.

We must be in peace with labor and sacrifice from which our vibration will show its magnetic value—like when the mind becomes empty.

You must prove the purity of your motives and love to God by

your twelve senses. Therefore, you do not see but must feel it in your heart. So it is not enough to believe, but it has to be proven on earth and in heaven by Light and loving God. Even Satan wants love; for his body love is all of lust and bears evils of darkness.

You must realize the difference of soul light love and flesh love of darkness. There is a cleaner love if it is only for mating to bring children; and a light love to bring them to God. All of those are steps of different loves of darkness and light.

We therefore must create an atmosphere of purity so that Mother God can come closer to our aura. For She wants us all. She sacrifices so much for us, to save us from our body sins of darkness. So let us love Her every moment. . . Send love to Her; and in Her Name we are praying to Father-God for His Mercy upon us all sinners. But we will no longer remain sinners, because we are now starting to become a holder of Jesus' Light Vibration, as our light atom will be upheld by His Light coming from His Celestial Light Atoms when we have surrendered our selves and our self flesh love entirely—which is only self-satisfaction.

Once while Mother Trust was lecturing one Sunday, there was a woman sitting in the front bench who was watching her closely. After the Service, the woman came with a few ladies and said, "Reverend Trust, we would like you to

prove to us that you are not putting something over on us. All through the service, this lady saw little tiny electric bulbs coming out and shining through your white dress. And, also, they were all around your heart, and some even in your hair, which we think you put there; so we would like you to take off your clothes so that we can be sure you're not deceiving us, as you're teaching Jesus' Light Doctrine, and want us to believe you. So you have laid wires around your body and have fastened them to electric bulbs. Even though we have been healed, which we thank Jesus for, and believe in you, we will not come here or send our children to Sunday School if we're being deceived. We don't know much about your Superet Religion, but so far we have believed in your sincerity that It is the Truth."

After they all had investigated and found nothing, the woman broke down crying with Mother Trust embracing them, as they were all ashamed and sorry for what they had done to her. After they left, Mother Trust went on her knees, for she knew Jesus had baptized her with Fire, with His Celestial Light Vibration from His Atoms, and had let the people see this Truth which they had to tell her, as she would have doubted it herself, and would not have believed that she had Light Atoms.

Jesus proved it to the people, which caused quite a stir. Many believed. Others doubted, saying, "Why don't we have the same?" There are some of the members

here at the Church who can verify this truth.

Mother Trust is now preparing a City of Light for Jesus; and she is seeking for a place—which has to be made into a little City of Light. Where there will be a College for students, and living quarters, with a little Light Church for those who have developed some Light Atoms, to unite with her to draw Jesus' Light, and in worshipping Father and Mother God's Sacred Purple Heart, to send their Superet Fire to baptize us on this plane, to keep us protected from evil and darkness so that there can no longer be the terrible wars and suffering for the poor people, and to get fortified with Jesus' Light to go out as teachers of Light to help others.

Mother Trust has some teachers which she has prepared for the last seventeen years who are ready to help to teach classes in the development of Light Atoms—which, sometimes, takes from six months to a year—which can be longer or sooner, depending upon the person, as to how many black or dark atoms he (or she) has developed.

The poor, sick, rich and healthy, young and old of any religion, color and nationality will be chosen by Jesus. It will not be advertised, but kept quiet; for Jesus will lead us all in Light—because, He is now starting His Government of Light, and He will need a Place to keep His Light protected away from darkness.

All people shall be benefited through this little City or Place of

Light. It will be a very humble and plain Place—not riches, just love, Light and worship to God with Light Atoms.

This will prove to the world of Jesus' Coming in Light—as Light will be seen in that little Place—because there will be no deceit or make believe, but the Truth by living It in the heart-core and in all senses.

As Mother Trust will see the Aura, she will know each one, and will mark them with numbers by their light atoms. Names will not be needed. Many will be sent out to help in becoming lecturers, teachers and leaders. Therefore, we will no longer have criminal-leaders, but leaders through which Jesus can lead the world.

This little booklet will start you on a little way of consciousness of the spiritual Light Atoms. And by applying the scientific Principles, everyone will know that it is not a mind spiritualism science, but an absolute Jesus Christ Light Science, His Religion and Doctrine of Light. So there cannot be self-suggestions but a strict following of Jesus' Light Laws which Mother Trust through the twenty-five years has received and learned by finding the Light Atoms and Jesus' Light by His Words being in Light. So there is nothing of man-made ideas or suggestions, neither a man-made religion—but all from Jesus.

You who might doubt, just go into a room where there is hate and feel that atmosphere. You will feel the same where people live in lust; also with sick people, you can

feel the change in the atmosphere. If you are sensitive and more spiritual you will want to get away quickly, and will pray for protection from that atmosphere which is filled with their black and dark atoms. You will find out for yourself now how much. If you are sensitive, you will feel this truth in this little booklet, and will feel the spiritual Light Atmosphere which you will want to be in forever hereafter.

Be of good cheer with a new courage and strength. You are going the Way of Jesus which is only

with the Light Atoms, which give out the Light you have created that will show forever in your aura—even when the body is dead, for centuries.

Have before you the Picture of Jesus, of how He fought. He also had the flesh desires coming to Him which He overcame; and He showed us how to overcome the body. We must follow Him to be led to Father and Mother God's Sacred Purple Heart with the Love Light Superet, to give us all our Parent-God's Blessing of Light.

Start of Woman's Age

WOMEN must now start, as this Atomic Age is Woman's Age with Jesus' Superet Atomic Religion of the world. Also the U.S.A. Constitution must be lived up to, as it is the Government of the people. It does not say that man should rule alone—but women also.

Women, you must awaken out of your sentimental state and stand together with men in upholding the laws. Also help with the politics. Women, you must start your soul-age and not think so much of your body age and beauty, which is just to entice and to seek admiration only. For you must help men to overcome the life of lust and vanity

which leads to crimes and wars, and suffering.

Women, pray to Mother-God, as She is now helping to lead the women to light that they can help men to the Light. Not an artificial or new woman's teaching such as one woman spoke of. "I believe in teaching my children the facts of life gradually, starting with the artificial flowers," which is only for an artificial life or make believe.

Women, you have a brain of the same quality as man's, so do not surrender and obey men — only God. "Thou shalt have no other God beside me." How many heart-broken women have come to me for

help with diseased hearts and bodies. So uphold your honor, women. Do not kill your soul for lust and vanity. Comé, lead men spiritually now; and help the world. Your vote will be for peace—but, God's Peace of Light.

Who can understand better than you what is needed for the honor and dignity for mankind? So, women, start for your children's sake to follow Jesus' Rules of Light. That will draw Mother God to you with Light. Not just that women will bring children to the world alone, but also that they will rule with virtue and equally with men: for only then God will help the world.

You must not just surrender to man's passion in a useless and egotistical sinful existence for self desires and love for flesh. For Jesus said, "Thou shalt not commit adultery."

It is every woman's duty to start a spiritual life and to rule the political life united with man honorably. Good women will not give in to please husbands or any man in voting, if it is not right. Also women must become free from degrading desires and servitude to vanity, but in dignity to God as Jesus' Religion of Light teaches—in a spiritual matrimony with the motive in virtue and not for wiles that make wars—not enticing men with your actions and clothing—but helping them and giving them the spiritual help to live a moral life, united with you women as mothers. Think of your children's

souls, for you are responsible for them.

Women, on you depends the future generation and happiness! Think of your children, brave and true in one common worship to God, with their hearts so honor-bound, and having their body desires under control, and giving it up to God in exchange for His Love and Light for their soul.

God's Planet which we are living in, is a Wonderland on this plane. It is made of beautiful colors, a lush green, purple pastures with fields of golden grain, surrounded with the wild flowers' colors that give energy and prayer with their colors, and a joy to our hearts. But how much more we must give all our purity-energy, love and joy to God. We have thought so little of giving God our love, as we have been so filled with the flesh lust dark atoms love only.

Now in the new Atom Age, we are starting the Government of Light Atoms ruling us within. So women, you must rekindle Jesus' Love which will guide men to peace. Be the instruments to lead them to the Holy Grail. And as you have now destroyed every vestige of the enemy of self love and vanity, your beauty is greater now, as it is intelligence and wisdom—for you are growing wiser and not older when starting in the Light Age. And Light is always light and never grows old.

But we must start and not stop like the Inventor of Light 2,500 years ago. He found that by rubbing amber, he could pick up straw.

He said it was the coming power of electricity. So Jesus came with Light. His Words must be rubbed into our hearts; then we will have Light. Let us have the Light Power and not rely on manpower which is darkness and not everlasting, and has no light.

Women, you will become rejuvenated with finer and nobler vibrations of desires, and will convert and lead your children and men in Jesus' Way to God. Then Mother God's Heart will take you all to Her Heart.

"United with the angel world,

we pray in Jesus' Name. We love Thee and Thy Sacred Purple Heart, our beloved Parent God. Send us Thy Superet Light."

Now as you read your Bible daily, make your Aura Chart every month. And, teach your children to become united in the one Love Brotherhood of Light and pray, "For Thine is the kingdom, and the Power and the Glory forever. Amen." You yourself will positively earn the Light Atoms; and your children will feel it and follow you. They will respect and love you. Then all will be united in peace—never again war.

The Aura Scientist Gives Secret How to Harness White Atoms

TO love God. Not just as children of the earth that just want to live and remain in it; but as children of Light. Then you will know God, and will learn how to release the vital force of Light Atoms to give Him your light as a prayer.

To understand the moral and spiritual conflict of the Ages, in the new Bible Revision in the Gospel of God, we behold what manner of love God wants from us.

Therefore, let us start with a new desire, which you've never had before. That is to earn Light and Light Atoms, starting with the three essential foundations for the

everlasting and permanent love.

All seek and want love; but this love vibration is needed—that is the Love Atom which Jesus had for God.

Start with your Superet Chart and work with your twelve faculties until you begin to feel the loathing of your past. Then feel the repentance deep from within your heart. Now you have the start—just a connection of Light in the mind—because you have become conscious of your life of the past, and are filled with a disgust and remorse of your sins.

Keep in your mind, when looking

at the Superet Chart Picture, of the starved soul's heart—the start with Light Atoms, which is the first food it has ever had. Do not just dream or affirm; but start now in laboring for it. Feel the spiritual movements in the six physical senses for purity. And now in the six spiritual senses feel the reaction.

The response is, that all are united; for you have chartered all the devastation of the black atoms or darkness of your senses. So do not let your mind retreat or your heart lose the love feeling for God.

Do not try to escape with thoughts of doubt or fear, but become aware of the normal and spiritual actions of the body and faculties. Try to think and become aware of the emotion and feelings. Do not go out of the pathway in order to let out all the unclean desires, motives and ambitions of the past. For all must harmonize in purity.

You might not feel the response at once to do it, as you only have old habits-vibrations left in you. Therefore, you must generate the sensation of a pure love to God by wanting to feel the light vibration in your heart. Hook all your thoughts that you want to feel it. Do not throw the impulse down. If it does not come at once, try again—because, as you have thrown out this great energy on your physical senses only, you must now learn the spiritual feeling before your senses can rise out of the old mire of sins and darkness and sickness.

Ask in Jesus' Name, "I pray for the Superet Light. Help me to feel the love for God." Try until the

impulse responds in every sense with feeling that it does not go again to the wrong sense of sex lust—so that it will go to the soul.

This is your responsibility. You cannot shun your duty for your soul any longer with a failure—but that you will have the burning feeling of love to God in a success. "As you are neither hot or cold I will spew you out of my mouth," Jesus said. 'Hot' is when earning the Light Atoms. 'Cold' is when you have overcome the black atoms. You are on your own now, and have stood the test. Your training for soul has started.

Do not let any doubt enter or temptation when counting the returning habits and motives; otherwise it will be a slow progress. Then the armor of your flesh feeling and sins will crumble—as you have forced honesty and your honor to prove, even if it was a slow battle, tiresome, dull or even unexcitable because no flesh attachment was felt in the senses and body. But by your trust in God and faith in Jesus, you are sure to win in harnessing the Light Atoms, which means breaking through all the senses.

Perhaps you cannot help other people or relatives now; but you are helping your self. Why not? Aren't you entitled to it? And, as they are almost harnessed, the soul is becoming alive—you will begin to feel every sense responding for God's Love and to love Him.

Remember, even if you don't feel anything on that sense, try again. Work stealthily on your diseased

sense. Do not become afraid or discouraged; but keep up. You will feel it soon, which would be the same if you couldn't move your leg. You would do everything until you succeeded in moving it. But how much more for your soul? You have to bring that to God.

Think; work, and do not give in. Do not get confused but be firm in and to your promise, your oath to give Him all your soul and body love. Your common sense tells you that you must try and you will succeed—because you cannot be a failure or defeated. You must win because your soul needs the Light. And Light Atoms make Light for the soul.

By keeping up your impulse through struggle and effort, you must win and move all the senses into a spiritual rhythm in the harmony of purity in loving God. So be positive and compel all your senses to obey your call. And settle yourself to the feeling of a pure love to God.

Now as you have won in the harnessing of the twelve senses with twelve light atoms, you have won the battle of life for Eternity as a

lover and worshipper or Superet-ists for God's Heart Love, with all your love atoms.

As Jesus said, "Watch and pray," you will need the Superet Prayer book so "that the thief will not come and steal your goods." He meant the Light Atoms. In the daily experiences the temptations will come. So have patience and find at once if you have failed in acknowledging. Start again, for the lesson will be given you when you least expect it.

Be prepared—for you must win the spiritual light atom bomb which will destroy all darkness or sins out of you—but only when you have harnessed them. And when the soul white atom has received this, you will feel the love for God so intensely. You have won, Superetists!

Remember Jesus' Words when He said, "Ye fools, deceivers." You cannot deceive God, as He sees in your aura whatever atoms are hiding there. Your aura reveals. So start; do not delay. This is the most important thing in your life. For without Light your soul cannot live!

Superet Atomic Religion of the World, and Brotherhood

THE United States Charter was granted in 1926, proving that this was a Christian Religion, and was Jesus Christ's Light Doctrine, and leading by stages of development to God's Sacred Purple Heart with Its Superet Fire. That is why Jesus said, "I shall baptize you with fire," to the members or followers of Jesus Christ's Light.

All promised to live and follow Jesus' Teaching in every Word to become spiritual burning electric bulbs—no longer confused with and only for material aspirations or clothed with deceit, but as worshippers of God's Heart, to earn the connection to God's Light with Light Atoms.

The Superet Atomic Religion with Its Chart is a magnetic Compass and deviation, which will forewarn you, showing you light and darkness, educating the ignorant and controlling the unruly, polishing the crude, purifying the selfish, healing the sick, and releasing the creed-bound from their bonds with Jesus' Light Religion and Laws.

The Founder of Jesus' Religion, as a child, had a mysterious depth of love to Jesus. There were things about her loving Jesus and God which nobody knew or could understand, except by the light of her eyes when she mentioned Jesus' God's Name. She was as a rock

when it came to living Jesus' Life, the clean life in body and soul. Nothing could sway her, neither with money, riches or honor. So she stood to follow Jesus' Life with deeds, acts and facts, spiritually, physically, mentally and morally; and more as she became conscious of Jesus' Truth, to earn the Light Atoms.

Take this without any illusions any longer; but have the conception for the truth and to conquer self. Then no longer have a counterfeit power, but a power of purity and light. A new heart will be given you, with a new spirit put within you to know the Love of Father and Mother God's Sacred Purple Heart. To be filled with their Superet Love-Fire, you must be prepared first with Light Atoms through His Religion.

Jesus Christ's Words translated into a living reality for all life, human and spiritual here and after of His great Wisdom is given in the 'Gospel of God,' a book for all the different religions, as five hundred Christian religions were seeking Jesus Christ's Religion. It only deals with facts, proving by His Light Atoms' Vibrations, which we must earn to become connected with Him and His Light Science.

This is given here with scientific facts. For as you read and study

each lesson of Jesus' Words with Light with this little booklet, not only will it be instructive but it will give you a constructive service. Just like the chemicals rays of the earth and sun are needed for you, so are the lessons which will chemicalize your whole system. And as each molecule and atom has a pattern of its own, not just your body but your characteristics show in vapors or rays, an electronic force. The Odoriferous substance, sprays actual particles into the air and form themselves into thin layers or vibrations with mellow emanations of harmony around you, which helps others that come into your aura. Those are facts.

This Superet Light Science is not a cover of religion, but it is a fact—the secret balance of connecting with Jesus' Light Chemicals and Atoms. This will not only help you (your soul) but it will prolong your life.

God has organized everything so systematically with a spiritual Light system that can not be artificial, as It is so holy. And, as everything has to balance, how much more your soul life. You must defend it more than your life or country. To protect the Superet God's Church from all darkness, Superetists must live the pure life, and never deviate from Jesus' Life and the Teaching of His Light. He had no representative, only followers who were all equal but of different vibrations of Light.

God leaves it to men and women to control their fluidic stream, blood and sex substance upward so that

it will no longer be on a level with the lowest degree of their nature. That they can raise it to the point of Jesus' spiritual Light Liquid within. So your feeling of that love will show in your atoms and vibration in your aura as a proof—not just flashes of consciousness. It is the substance of Light that counts.

The Aura Scientist had to develop the 'third eye' before she could discern the Celestial Light of Jesus' Words; and also the development of the 'third ear' to hear His Light Words. So the twelve senses have to be developed mentally, morally and spiritually to become connected with this holy of holiest Light Substance of God. Just as a baby has to learn to walk before it can run, so we must prepare to see the Celestial Light. . . Jesus said, "If your eye is single, your whole body shall be full of Light."

You need the Superet Book to know the truth, which teaches you Jesus Christ's Religion. Jesus said, "I am the light of the world." Believe Him as Light.

Just as we do not see the air but know by the breath, we feel the atoms. Which is just as we don't see the power but know by the engine. It is the same atom power within us that controls our heart—that which ever controls your heart—if it is the black or white atom. That is the same with your love to God from your body and soul no matter what creed without. But, it is only what is within that counts.

Mother Trust says that the Lord Jesus now demands—and not just

asks—that His Light Religion be accepted and lived in: For It is the Light of God; and for that He only came to this world to save us from darkness, as God wants souls-light children.

Let us pray to earn Light in the twelve senses. "Let there be light," God said.

Light Prayer

"I affirm my daily belief in my God, and the Teaching given of God through Jesus Christ. I affirm my love to the Source of all, the proof of creation, and the guiding Light of my life. I affirm my allegiance to God, Father and Mother God, Superet, the Sacred Purple Heart—united with the holy angels of Light, to love and worship God, Superet, forever. Amen."

Pray this healing Prayer often, Superetists, members of Jesus' Religion.

The Bible tells us that God sent Messengers to warn people, so He is now sending us this Messenger, the Atom and Aura Scientist to give you God's Message for all people with scientific facts of Light.

For God now demands that His Light will be worshipped by all nations and religions.—For He has given us the heavenly sign with His nature in Light Atoms in an Atom Bomb—not alone to win over our enemies, but as a sign that we must obey and now start to harness our physical, spiritual, mental and moral atoms within us, and not live in the filthiness of the flesh as we have those 2,000 years in ignoring Jesus' Religion, His Science of

Light and the Laws how to earn the Light Vibration which creates the Light Atoms with His spiritual Light.

The Bible with Jesus' Words gives us many symbols of Light which this Atom and Aura Scientist has studied for twenty-five years in the scientific spiritual Jesus' Light Law, and how to apply Them to earn His Light.

We can no longer keep on 'fooling' or 'make believe' and live in the darkness (sin) of those black dark atoms. For like the laws in the science of electricity, they must be obeyed and used to have Light; so we must use Jesus' Superet Light Laws for the spiritual Light.

God now demands this Science to be obeyed by Christianity in all Christian religions, to worship God with Light, and with the Superet Light Law—not with any other Name of Light; as Superet is God's Heart Light. It is no longer just a mouth religion which has no light. That's why every religion must use the Superet Light Laws of Jesus' Science to earn Jesus' Light with facts proving to God—and also proving to people who begin to see in living the Laws. And, through this Science, they will see the Aura Facts of their own life and atoms, and also of all Christian people and their religions.

Now they will know if one has Light within and what they are, and if they have the Light to be trusted, which proves; as words do not count any longer—only Light or darkness with facts which all will show positively in each one's

aura no matter what religion they have.

The Superet Brotherhood For Mankind will spread out not only in words but with Vibrations and Atoms of Jesus' Light. Then the Pentecost of the Holy Ghost or Mother God with Her Love-Light Superet will come to us, as we have the 'rally' of harnessing Atoms within us for here and hereafter, for we must have Light Atoms.

The connection with Jesus' Light must be made and will take place when this Superet Science scientifically and by the Laws is used, which will herald Jesus Christ's Superet Atomic Religion of the world!

Jesus' Religion was made of Light White Celestial Light Atoms. That's why It is Atomic. And Its Aura must prove in us as to how high we are charged with the Current of Jesus' Light. We can no longer talk of our religion, but must be a shining light by facts. For this Superet is the oldest Religion made by God.

When God made the Nature Atoms, He also made the spiritual Atoms; but Jesus had to come to bring Them to us. And, just as we need the internal ventilation, which is produced by normal breathing of the nature atoms, so we need, but much more, the spiritual Atoms which are by Themselves—for They belong to God's Spirit, because God is a Spirit and He breathes in Them.

Now just as the escaping radiation of the nature atoms with their atomic power is dangerous to use

without the law, so is it with the White Spiritual Atoms with their radiation. That is why you must absolutely obey all Atom laws to draw and hold the Atoms within you—as each wave length of light or darkness proves its vibration-value in you, and for the atmosphere, nature or spiritual. As a symbol, it is like a neon light in you. Therefore, you must be marked in light with the spiritual atoms, which only, positively Jesus Christ's Superet Religion gives you.

Now you will believe when Jesus said, "I am the light of the world" that His Religion was Light—Which leads by Light steps to God's Purple Heart. With His Superet Fire "I shall baptize you with fire," Jesus said. Jesus worshipped God's Heart—for God's Purple Heart is Superet. God is Superet Love.

The Superet Teaching will heal the soul and strengthen the mind. The Superet Light of God shall brighten every heart, for Superet is the Pearl of Wisdom. It is God's Message to the world to seek His Kingdom of Heaven through the Love of the Purple Heart.

The soul-children of the earth are the spiritual offspring of Father and Mother God, Superet, the holy Family. The Purple Heart is the Sacred Heart of God.

We must love God more through the Inner Light so that It will shine for the Purple Heart, which will give strength and comfort. It will be yours when God's Will sets in.

Speaking of a new name, the

new Heaven and the new earth that shall open and reveal to mankind the understanding of life. Superet is the new Name as given by God, which He gave in Revelation through Jesus Christ. Superet is the Light Substance of God's Heart; and That Light shines from God's Heart, as It is His Life-Energy. For God's Superet is the Power and the Love from His Heart.

The dawn of a beautiful tomorrow is before you. In the hope of eternal life, accept the Purple Heart of God, the Ruler of the Universe. His Life of Superet is everlasting, forever. And, It will bring us into the understanding of God's Purple Heart. As God is everywhere, God is the Essence and predominates the Universe. God is Everything and is in each one, and in all in one Power. "I and the Father are one."

When you pray, pray to the Father and Mother God, that you will be worthy to even wear the symbol of the Purple Heart of God so that all the world will know what It stands for. This symbol of the Purple Heart stands to bring you into the Light of more understanding of Superet. It will give you strength and courage. And, you will have no fear for God is Love.

May the Superet Love so shine through all the world that all will know the Superet Gospel of the Purple Heart, and love God with all their hearts, as the Purple Heart means God's Royalty which proves the Power in His Heart color. He

rules independent above all things, as He is the only creative Force in nature.

The heart will grow stronger in Light and in color as we develop in the spiritual lines of the royal colors of God. He is the Master of all mysteries which is explained in the Knowledge of Superet.

As the whole of our heart is revealed to God by our thoughts and love as proven in facts, nothing can be greater than God's Teachings in Superet in which our soul may be opened to receive the Holy Communion of the Doctrine of Jesus Christ.

Jesus Christ's Religion, His Gospel of the Purple Heart, Superet, is now the Religion for all, with the magic Word, Superet, and which is the Atomic Religion of the world that creates Light.

Jesus said, "Man loveth darkness rather than light," which proves that they had dark atoms within. He gave us this lesson to analyze and to realize what is vital for your soul existence—which is more vital than flesh and personal knowledge and power.

Why did God send Jesus to Palestine, knowing that He would be crucified in Jerusalem? Because, God's Light, through Jesus, would save the doomed city and its people from sins, darkness, and would start the birth of Light Christianity. That Light we as Christians must uphold and protect the Holy Land for Christ's Memory and the birthplace of Christianity, the start of Jesus' Light Religion, Superet.

Let us learn how to use the un-

failing Law of God's Light within us, which has to be done before we can help others. There is the Law of Increase, that when we bless every small job, and bless money, the supply will multiply. For in blessing all, it is a symbol of God's Love and abundance. He blessed everything; so the watchword of 'God Bless You' is the passport of the Superet Brotherhood.

Realize that the basic magnet is your light atoms. And, upon the quality and activity of the spiritual light atom depends the good or evil, which will be drawn to you. You are the architect, making your own life and circumstance.

"Seek ye first the kingdom of heaven." Therefore Light is the first step and is given you here in this book towards finding the Kingdom of Light. Those steps are set forth one by one as given in Jesus' Light Religion, Superet, the Light Doctrine Book. (Send for It.)

In the Book you will see your difficulties disappear, for now is the accepted time. "Behold the day of salvation" of Light is coming to you to raise you out of darkness, sin and fear; so do not delay or pay dividends of darkness, suffering. But through the magic Word, Superet, and Its Laws, you will earn the Light of God.

For just as God Blesses all, so must you, as God gave you dominion over the earth. And as you bless and praise, so will they return to you. For evil has no power when you are living in the Light Law. Then your light atoms will begin to rule over all your enemies—and

your body sickness will leave, because God's Light Superet, blesses your efforts and protects His little child. You will increase in light as you bless everyone. Your enemy will respond to your blessing. Jesus did it.

Mother Trust also had many experiences in blessing those that wanted to harm her. She says that every time we praise people, and bless them in the Name of Superet, all are helped—because the whole creation responds to praises and blessings. It also helps children. They even glow with joy when you praise them instead of scolding them. Let us start praising God from Whom all Blessings flow.

Let us praise His Light. It gives us the good all the time. Use the magic Word, Superet. "I praise You and bless You Superet," which means God's Fire and Light. Then It will increase in coming to you—but there must be no resistance or darkness in your senses and body, so that the full Current of God's Light can enter your light atoms, if you have any. So the amount of light vibration delivered depends upon the power available divided by your resistance.

Never be discouraged again, for when the dark atoms leave, your mind and heart open to God. You are free of your past, for temptation or evil has no power.

Now the devil once held a sale of all the tools (or our senses within us). Under each was a price set of light or darkness. He found that the heart and sex were the highest of all the tools (or senses, clothed

with darkness). So he said, "I can rely on them always when all others fail."

The heart and sex open the way for everything—for good or for sins. Therefore, if they have been used only for the body self-desires, then all senses show darkness in their aura. So let us watch and pray for God's Blessings all the time. It helps to overcome discouragement. So awaken, dear ones, by blessing yourself and others often.

The Aura Scientist wants to impress you that all the energy of the Universe is around you. And you can have anything of this planet you desire for the material; also the spiritual—if you will let God's Light go through you. But you won't let It with sins—because you put up more resistance to the good than to all the non-conductors, such as with an electrical circuit. You cannot believe that the good through the Light Atoms are so easily available. You feel that they can only come to you after hard struggles, disappointments, pain, sickness and sufferings; so you insist on putting these non-conductors or black atoms in their path and so stop the Light. Through this you add worries, fears, hate, envy and doubts, so that by the time the good vibrations of faith and sacrifice reach you, their vibration or current is so weak that there is little left. Remember, like attracts like, so keep attracting the good.

Start in this Jesus' Superet Doctrine. Bless every circumstance that surrounds you. Bless everyone that comes in contact with you. Bless the difficulties you meet. By blessing them, you change them. That's why we have given out a million leaflets—to bring the good and the Light Atoms to everyone. For they give blessing and revolve at a high plane of expansion, that increase, spread and multiply.

You must respond to the activity of the Light Vibration so that you can key your twelve senses' activity to that level of blessing and praising the good in them. And all blessings will return to you with Light. Use the magic Word SUPERET often.

Jesus said, "Receive ye the Holy Ghost (the Mother God with Her Superet Love-Fire)" then we shall be like the Apostles who earned the Light Atoms, and who received the Tongues or Vibrations of Fire from Mother God, which are the Vibrations of the Superet Light. She only can give the Light; so let us pray without ceasing. Only with prayers we can earn and hold the Light. This is the greatest victory; then we can celebrate the Pentecost, united, like the Apostles who were anointed with God's Light. Then the revival will be of our Atoms within, more than just the revival without, in shouting prayers yet continuing to live in sin. We must prove facts of Light to God—no longer 'fooling.'

SUPERET BROTHERHOOD FOR MANKIND

THE everlasting Basic Truth of God's Light builds a Brotherhood. The Apostles started this Brotherhood to live connected with Jesus' Light to keep in purity, all united in living in Jesus' Light Laws morally and spiritually. They proved it; so we have started this Brotherhood, and it is going to be all over the world.

We have the blessing with the symbol of God's Purple Heart button which is not only a protection, but which proves that we belong to God's Purple Heart, the start of the spiritual evolution.

The human evolution is very slow for the spiritual progress, and is a broader mind outlook for the expansion of the soul's consciousness. Man has refused to go forward, for he only sticks tenaciously to the old primitive life of body and desires, of loving self-satisfaction only, and absolutely revolts morally of living in the Light as a light-bearer of the old and new Jesus' Religion of Light Science. That's the cause of wars, suffering, bigotry and strife among members of the human family of one basic truth, which man is now able to understand—that of the one Brotherhood of mankind, which is in Jesus' Light.

Let us realize that the basic Light is the only Truth of the Brotherhood of man; and the necessity of it is so imperative, as it is the only

'out' left to humanity, which is to know self first and to help others to know self, to know your vibration of light—which explains why you belong to the Light Brotherhood.

Many old Scientists set to organize and to apply laws for their brotherhoods. The Scientist in Egypt was Sais and Heliopolis. In Greece the Scientist was Pythagoras who started the Pythagorean University Brotherhood for all members who lived as brothers, studying, working and living together, sharing all worldly things. This progress was broken by violence, greed and refraining in discipline; so it failed.

We ask: why? Because they did not know nor follow the Light Leader, Jesus Christ, Who taught us to first become light bearers—then only could we become honest, steadfast and no longer rulers, but brothers.

Therefore, only through Jesus' Light Science the real Brotherhood was established, which has now many members, and is ready to spread all over the world. For it will reach Greenland's Icy Mountains to India Coral Strands, and throughout all Europe.

We have started it here in America, with Jesus Christ as the Leader of the Superet Brotherhood For Mankind—the only one in the world—which will live forever; as it produces the vibration of har-

mony and love in colors of peace by facts and acts in His Light. Not just peace words, but the vibration of peace, which counts. This Brotherhood For Mankind was originated in Light Vibrations by Jesus through His Apostles and Martyrs.

This Superet Brotherhood is called S. B. for short, and is united with the Prince of Peace Movement Club, or the Annex to the Superet Church. Both pray on Tuesday evenings for God's Peace.

Now in the S. B., all members are praying for Jesus' Light Religion, Superet, the Superet Atomic Religion of the world, to grow, and to spread all over the world.

Jesus started this organized Light Brotherhood with the Apostles in the 'Upper Room' in Jerusalem when He broke bread with them, which was the first Communion of Light in the first Superet Church. But It went to sleep for 2,000 years and has only now been awakened to become conscious through the Founder's discovery of Jesus' Religion.

Let us all pray at twelve for all members to open their hearts for Father and Mother God's Sacred Purple Heart with Prayers to be baptized with their Superet Fire, as we all need help and unity, love and harmony. Therefore, when we pray at noon time, all together, the

Lord's Prayer with the Superet Miracle Prayer, we will be sending out a light wave of love to God.

Bless everyone with our watchword, 'God Bless You.' And help to distribute the leaflet. One million have gone out here and in Europe. Read this leaflet, and ask us for more. We will send them to you freely.

God bless you, Superet Brotherhood For Mankind. The enlightenment and Laws are needed for you. And you will need all the Superet Books to give you the consciousness, and how to earn the vibration, which is in those Books, of the greatest Wisdom and Knowledge ever revealed; as it is new to the world, and has never been given or revealed before. It is all from the Bible and Jesus' Words only.

The Book of the Superet Ancient Aura Symbols shows you the Light Atoms of the different Light Development, which was given out six years before the Atom Bomb was discovered. Then you need the Aura Atom Language to vibrate with the twelve senses; and the 'wonder book,' the Superet Light Doctrine of Jesus' Religion. For the children, you will want 'Jesus' Childhood Story.'

(All these books are beautifully bound, with gold edges and Pictures. They are the most valuable books in the world.)

How the Bible Revealed the New Name, Superet, Through the Aura

THE Aura Scientist as a child could see the Aura (as told before in other chapters), so she studied the Bible and Words of Jesus, which had the colors of Celestial White Light Atoms which nothing else in the Bible had.

Often reading Jesus' Words, "Seek and ye shall find," after years, the Scientist found His Light Religion, and that Alpha and Omega meant Father and Mother God by the same one Light, the Purple color Aura; and that all of Jesus' Words gave out in Light.

Those were the Heavenly Auras and things which Jesus spoke of when He said, "If I have told you earthly things and ye believe not, then how shall ye believe if I tell you of heavenly things?" For the Heavenly things are the different Lights leading up to God's Heart Light. Therefore, God's Heart must hold the Treasure, the Dynamo, which creates Light.

The first step was started—but how to find the Name of that Treasure?—as Jesus only gave It secretly to the Apostles. But It was kept silent.

Again "Seek and ye shall find" was ringing around in Mother Trust's heart and head. The Voice said, "You will find It; for It is a new Name not given in any language, neither in the dictionary.

The Name is not of this world. It is of Vibration."

Now as the name, soul, and soul-matter is vibration and etheric and being of matter, it is chemical. And its greatest element is radium, even though the amount is small. However, even in matter, the spiritual radium acts upon the same in the spiritual elements or chemicals to refine and purify them to make them radio active, so that in a course of time they also become radium.

Therefore, the proof came in the Bible, "They shall shine as stars forever." In this development we all as souls would develop the star in our souls—but how to transmute this creative energy into radium? The start was in the study of vibration in how to transmute desires and using our organs of the twelve senses.

Jesus said, "I have manifested thy name to those (twelve) men thou gavest me"; so He started within in Light Vibration first. And, as God's Name is Light, Jesus gave His Light Vibration to the Apostles. They had to transmute their human and sex desires into a sacrifice for the higher purer desire for the higher energy substance in Light Vibration.

For we can transmute upwards or downwards (earth-bound) when-

ever we choose. I found this out in the great study of vibration. Then I saw through so many higher upward vibrations the forming of the spiritual Light Atoms. This was the start in finding the Light Atoms with and in the spiritual Light—but only forming through the twelve senses' vibration. It needed all the twelve senses to be in one vibration of that purity with harmony in each sense, showing in Light Vibration.

This was a tremendous study which took two years to find how to harness those vibrations into a Light Atom.

The study of the Four Gospels of Jesus' Words, Word for Word in Vibration, had to be found first. Just to believe did not bring the spiritual consciousness. Why? Because the self-will and spiritual ego had lots of dark vibrations and dark clouds. So, it was how to overcome them to bring Christ's Light into a living Substance into our hearts? Not just to talk Light, for the Jews, Hindus, Egyptians, etc., all spoke of the coming Light—but, no one explained how Jesus came as Light.

Jesus proved His three Peace Words in Vibration, starting with Light; because when we speak of peace it is different. His Peace Vibrations are different than the man-made peace vibrations. For Jesus brought only God's Peace Laws with Vibration. When He said Peace three times, He gave the three Peace Law-Formulas to the Apostles—the only Peace System that will give an absolute universal

peace, a personal peace and a spiritual peace.

*The First Peace Law—
Universal Peace*

Jesus said, "Peace be unto you." He gave the Apostles His Light Peace System, as they confessed their sins, asking God for mercy and forgiveness for themselves and their enemies alike with a heart-peace.

*Second Peace Law—
Personal Peace*

Jesus said, "Peace be unto you." He gave the Apostles His Light Peace Vibration to their twelve senses, saying to each sense, "Peace be unto you."

*Third Peace Law—
Spirit Peace*

Jesus said, "Peace be unto you." He gave them the Peace connection in starting the Prince of Peace Movement.

In the study of religion, It proved the Light Vibration and how to connect the Light or White or Celestial Atoms Aura when Jesus said, "And I will give him the morning star," which is made of White Atoms.

After this great study, I realized that John the Revelator had seen those things in visions in Light Vibrations and Auras. And herein I found was the secret of the new Name in that one verse of Revelations 2:17, He that hath an ear, let him hear what the Spirit saith unto the churches; To him that overcometh (body) I will give to eat of the hidden manna, and will give

him a white stone (or light consciousness), and in the stone (or soul-heart) a new name written, which no man knoweth saving he that receiveth It.

This was the start in which for one year I studied each vibration in Revelation, combining with Jesus' Words in Light. I said, "How could I find the new Name, and see which letters in the alphabet had Celestial Light; for that Name belongs to the Celestial, which I could see only in Jesus' Words."

Seeking in the letters' color in our alphabet, they were all covered with a mist of a clouded grey and red yellow mist, all vibrating in some darker and some lighter colors. So I had to keep on seeking through all the languages alphabets of all nations, Egyptians, Jewish, and even the Chinese alphabet. They were all in a darker mist, more so than others that I will not go into detail of the different sounds of alphabets, which also show the vibration of that alphabet, in what class of light they belong. Some even had black Atoms Auras.

The specks are so fine that you can hardly see them; but the Aura explains, as it gives out the light or dark specks, a thin shadow or vapor.

Now, how to find the Light alphabet? It could only be found in Jesus' Words. So starting with Jesus' Words and letters which held the Celestial Aura of deep gold colors, it was very difficult to find sometimes, as they intermingled only with the Light or White Atoms

Aura color. But those letters for the new Name all had to have a clear celestial vibration.

After two years of study—but not always having the time to spare as I had to earn my living—this great secret was found, and the letters spelled SUPERET all in Celestial colors from Jesus' Words. I was so afraid I could hardly believe it, but there It was. I wept for joy, but could hardly believe it, but still the Light remained on the Name, SUPERET. And a golden Aura formed all around It. I knew the Truth. There was the Light, and It stayed.

That night I heard the Voice saying, "God's Light in me, in my heart, is the Superet God's Fire, which I connect to your heart (of "I in you and you in me"), as you have proved your love to me. I in you, vibrate in love to God, together."

Superet, the golden Name, came down from Heaven; and was revealed afterwards from the Lord, that God's Sacred Purple Heart holds the Fire called Superet (of "I shall baptize you with fire"), but that Light Vibration had to be earned with Light.

That night, I wept and prayed, thanking Jesus all night. And, His, the same Light, came to me—as it was that night when It healed me of consumption. What a joy came to my heart. I was afraid to lose It, and would have been glad to die in that joy of receiving this wonderful revelation from God through Jesus.

What a surprise and an agony of

sorrow when people turned down that holy Name, Superet. Even after explaining the Name from the Bible with Jesus' Voice, and of His Miracle Picture of His Face on the Photograph, people would not accept this and of the thousands of healings which were done only by working within Jesus' Superet Light Doctrine Laws in Vibrations of Light.

For over twenty-two years, unceasingly explaining to people of this Truth, and telling them that no name in any Christian religion had the golden or White Light Vibration as the Name, Superet, Mother Trust fought. But it is now won, for the Name, Superet, is now known all over the world.

The old religions do not show the White or Celestial Atoms deep golden Aura Light, but all Christian religions likewise have different lights; some stronger, brighter, others dimmer, which are like steps of light development, as they all believe in God, and believe that Jesus Christ was the only begotten Son of God for 2,000 years. So all religions are needed for light vibration development for our souls. And people must have those light developments before they can come to Jesus' Heart-Light, and through Jesus to God's Light.

Now dear ones, you can see that this was not a man-made religion when I found Jesus' Superet Light Doctrine, which is now going out into the world as the Atomic Religion of the world; as It is made of Celestial and White Atoms.

In this Religion, we must develop

the purity of the body twelve senses so that the soul can hold that Aura. It is so easy if you love God and Jesus, and follow the Laws as given in the Superet Light Doctrine Book.

So many people objected to the sacrifice of the body unto God; but Jesus had to sacrifice by suffering in His Body for our body sins—because, no one and nothing could pay the price. For Satan's power of darkness became stronger on this planet. Everyone lived for sex and made it their god—which only held black and dark atoms. That's why Jesus said, "Man loveth darkness rather than light." Why?

Even today, after all those years, people are fighting this holy Name, Superet, and the Religion, saying that the Bible does not speak of that Name; neither does it mention in the Bible, Catholic, Protestant, etc. Jesus said, "I am the light of the world."

We all must only seek Light, which I did for all those years to find Jesus' Light; and I found It. God sent the great Message of the Atoms nature Light through the Atomic Bomb to help to bring this Truth of Jesus' Religion, Superet, out—not only for peace—as God speaks in Light to show the White Light.

We all must develop the Light no matter how old your religions are—as it had to go through 2,000 years of purification to get the white stone or White Atoms. Now only through the Atom Age it will be recognized; and the people will become conscious of Light.

You must first earn the Light Vibration—and that is to be truthful to God, to give Him your life before the first vibration of Light can form. It will not form through speaking. You have to have the substance which must be created through the twelve senses as the Aura Chart teaches you, which develops slowly the alphabetical Light Vibration in you.

Therefore, it is not alone that you see, but that you feel It. You must become conscious. And that secret you must find out yourself. The more you love God, the more you will feel the Light and bear the love to God in Light. The more you live for flesh love for mating, you bear flesh love, which is a business; for all animals use it.

Jesus said, "I have to be about my Father's business"; so It was Light, as God is all Light.

The Name, Superet, has seven letters, and that number is often mentioned in Revelation. He was bringing out the Vibration of that Name, but was not allowed to reveal It. The time was not ready then. We had to develop through many wars of purification before this could be revealed.

Mother Trust explains the spiritual Atoms and alphabet in the '300' Light Atom Book with their colors of Celestial White Light Atoms. This holds the greatest and highest Teaching of Jesus, which vibrates in them of Light, and which took years to get together. . . In our Superet Library you can see them and get the Books to study.

Dear ones, do you realize that this is the Almighty God's Truth, and that I was not allowed to explain It before? Because, It was and is so holy that the human minds cannot grasp It. They have to first be purified and educated spiritually. There is yet more to be revealed which I am not allowed to reveal until the time is allowed by the Lord.

Why has God allowed the Jewish woman Scientist to give to the men Scientists of how to break the nature atoms and to harness them? Again, why has God allowed a Christian woman Scientist of Light to discover Jesus' Light Atoms of the spiritual Light? This proves that God does not select just men or women, but souls that are honest, true, and loving God. God gives each a gift to bring out. No matter what we think, God is the Judge, the Creator of souls!

The humbler we become spiritually, with a pure heart, serving God and not looking for material or personal glory, then there is nothing impossible for God to do and to give us all in Light. That is how this revelation could come to Mother Trust.

We can only become God's children of Light through Jesus, Who can make us His children; then the Light Vibrations are drawn to each other's Light—to soul not to flesh. What we want to serve, that we create. All those developments and experiences are needed in life. What you think is bad that the one is doing, is good for you to learn that lesson. So all develop

ments are for some good to bring us to the Light.

To see the Light, we now have the Sacred Purple Heart Superet Picture which the Lord gave us. It performs miracles of Light when you look at It. Then if looking at a white paper, you can see the Image of the Heart in gold with Light surrounding It. That's why we have made the Superet buttons for everyone to wear the wondrous symbol of loving God, and for protection.

Also as a material symbol of the Purple Heart, brave soldiers have been decorated, which came afterwards. For God is showing to the world in material symbols also to accept His Light Symbol from His Sacred Purple Heart, Superet,—for all must accept It sooner or later to come to God's Heart. We must become His worshippers, which the Superet Brotherhood is bringing out.

Now the Scientists of the nature atoms are finding the different light strength of the different atoms according to their chemicals within. For some atoms are older; but all must keep in one order of obedience in the movement in the Order until they burn out like the old planets, which are burning out slowly and being reborn in obedience to the nature light laws.

But how much more we must obey God's Laws of Light! Heed the warning of Jesus—for there will be a few nations ready with atomic bombs in a year. Then only that country will be saved that has the Light Atoms developed within,

as that will draw God's Light for protection. For even the atom bomb will lose its power—as the spiritual Light White and Celestial Atoms Light is a Radium which forms a Superet Bomb!

As this Atom Bomb secret was given to America first to use only for a time, it proves that God works through the Atoms!

The Aura Scientist must go to other countries to bring out Jesus' Religion, Superet, and to develop teachers for the Science of the Light and Atoms. Now you can see why Jesus' Religion is atomic, made of the Atoms of the higher Light, which forms oceans of Light.

Americans, do you want other countries to get ahead of us by living Jesus' Light Science? For the Superet Laws are needed. Which-ever country uses this Law will have the power from God; neither prayers, money or country, nor the atom bomb will create Light—for now God's Power is starting in Light with a Superet Bomb!

Dear women, it relies on you as to how you will bear your children and raise men. You can teach them this Truth only by living It yourself first. "Watch that the thief will not come and steal your goods," the children you love in the next war to be sacrificed again. That is why we must be prepared with a purity-storage of magnetism.

Please remember that your aura tells the truth and emanates in the form of clouds which are illuminated of Light or of darkness, and by the magnetism of collective action within the radius of your heart to

nourish the White Atoms in soul—
or black atoms to kill the soul!

The time has come for all to put their armor or aura of light around them with light atoms, which build the light and which will prove in the aura, but only through Jesus. But the Light of Jesus can only come to us when we are free of all sin and darkness within us, and all united in His Light Love as one, which He started with the Apostles and this Superet Brotherhood. For all are proving with their vibration. Nothing can be hidden in the Aura, for the atoms tell the truth.

Dear ones, can't you see and feel this love which we all want and must give unto God now and all united? Could you stay away when you realize how little love you have given unto our God?

Please come all, and join with us of all religions, nations and colors to love God more. No matter what creed, just pray this prayer of the God Bless You leaflet at noon time. From the million we have given out, people have told us that they felt the love for God more when they read it and prayed the prayer at noon time. We all unite in the Superet Brotherhood (or S. B.) in saying this prayer. Come all and join with hearts.

Let us know if you need help, prayers or want to become members. We shall send you leaflets to give out to others so that it will grow into one Light-Love to God. The watch word is 'God Bless You' to all, friend and enemy alike, to keep in Light.

Do you realize that the Name,

Superet, has been given by the Lord, as no language or dictionary has It? Which proves that It is from God; and means that God is and only has the Superet Light forever. He is the only Creator and of all Light. You can see now that It is not a man-made Name, but written in Light letters from Jesus, as given in Revelation. Therefore It is a Vibration, a Heavenly Name from God.

The Superet Religion will live forever, for nothing can down this Truth. There are and will be many atomic religions starting; but they will have different vibrations—not the Superet Light. For Superet is Jesus' Name of His Religion—which has been incorporated, chartered and protected—so no one will or can interfere. Superet is the Light of the world—the Superet Atomic Religion. No one can misuse the Name, Superet.

Why wasn't Superet ever mentioned before? No one knew the Name—only through the Celestial and White Atoms the Founder discovered It. If any other religion profess an atomic religion, know that it is only from a material stand point—not a religion connected with Jesus' Light Atoms. It will not be the Superet Atomic Religion of the world! For it was only through the Superet Religion that this Jesus' Religion of His Atoms was studied and crystallized until positively the Light of Jesus Christ was manifested in Light to souls; also with healings and many miracles.

Now you will believe and become

conscious that only through Jesus' Teaching and understanding of His Light, Mother Trust found the Word, Superet, which is Jesus' highest Teaching ever given to mankind.

The way is opened for you to be benefited if you will seek that one blessed Light known as Superet. What blessings, joy and happiness is waiting for you. You will never fear anything if you only earn one Light Atom. You must earn it.

Remember, if the evil only had the willingness to earn a light atom, he would not be evil any longer!

As the Atomic Bomb has altered profoundly and abruptly the nature of the world, it will also change the atmosphere in many places. There will be a tremendous earthquake coming—which is needed for this planet. Since the crucifixion of Jesus, it has been displaced 18 inches. Through the earthquake it will be replaced in the right position.

All the Atoms that have been taken out of the atmosphere now will have to be filled with spiritual Atoms to keep the planet from burning out—because, for some time it has started in the lower earth-part.

Now the heart of the planet shows an Aura in the shape of two wings of an aeroplane, with one wing going south-west in a color of yellow and blue, and the other towards the north-east, looking like a club foot. It appears that the foot carries a heavy substance of a decayed black matter with the wing bending towards the center and

going to the heart.

It seems, that in taking the Atoms out of the atmosphere, it relieved the pressure. And by the spiritual Atoms' Fire, it will purify the atmosphere with Light.

The two wars have brought forth poisonous gases which have gone into matter and entered in the Atoms, which must travel in order with their rhythm of movement, thus becoming connected with the ones of the new spiritual Atoms and their magnetism. For that great Light travels for miles and gives them something like a blessing from God, and a healing into that stream or wave. Then that Aura changes and shows a red with silver rings for a new life and Light of a new Atoms Life.

But those are the higher spiritual nature Atoms—not our spiritual or human Atoms; as they all differ in color and shape.

This is a great study and further than the eye can see. And it is hard for those who cannot see to believe. But Mother Trust can see many things through the Atoms Aura Science, and proved it even twenty-nine years ago to Scientists in New York; but they could not believe—not until later when it was proven to them through science, which has to be proven with scientific facts.

It is not just for the curiosity seekers—only to help all, and to warn humanity, or they will and must take the consequences if they do not listen. This same advice was given to the people of France when Mother Trust was there in Paris

eight years ago, and which could have prevented their defeat if the men had accepted it. But they said that it was just a woman talking.

The same occurred when a place was shown in the colors in the Aura here of where a submarine base was located, which afterwards was proven that the enemy had entered. Also with the L. A. water system twenty-two years ago when the Aura showed streams of red and black colors of danger. The city had to acknowledge the finding of a dead animal decaying.

Why was Mother Trust led there? How did she know—you might ask. When studying the U. S. Aura, she went to different cities; so when she arrived in L. A., coming from New York, she drove around to see the city and surroundings, intending to return in a week to New York, and not expecting to do any work—as she thought the people of L. A. did not have the intellect as the people of New York, being too slow and lazy to learn this Science.

Why did she stay? Because, in a dream she heard that the Aura of Los Angeles needed help and cleaning. But she fought, saying that she did not like L. A. But she stayed and now loves L. A. Many surrounding towns have been helped through the change in the Aura colors of L. A. which are brighter, and which have saved the city from earthquakes.

When you know the Law of the Atoms and Aura, then you will not only help your self with the Law, but others. Also you can help the

city's atmosphere. There is nothing miraculous about it, as it is absolutely natural to obey the Laws which do wonders.

That is why she started the Superet and P.O.P.M. Brotherhood, to give them the Jesus' Light Laws of great importance. These Laws are given to them and in the Superet Book, the Laws of the Atoms and Vibration.

This Superet Brotherhood will now grow all over the world to bring the spiritual wave of absolute purity and love to each and all places, which will travel with Jesus' Light, which only the White Atoms can carry, for their auras will show; as the auras are shields and armors of Light which give protection to the Atoms and persons.

The city that will not accept this Superet Brotherhood will be dealt with the same as Jesus gave to the Apostles with the Law, that "If they will not receive ye and accept the teaching and your warning, then leave and shake off the dust (which means their city's people vibration and atoms of darkness), and return there no more (stay away)."

So this is the start now: for only those will be chosen by the Lord whom He wants in the Superet Brotherhood—men and women—so it isn't for you to decide but to obey and be willing to learn of Jesus' Light Laws. . . Even the primitive people of the olden times seemed to want to learn, and were seeking Light.

The people of today think more

of the body desires, power, money, material and leave their minds clouded with becoming great—just satisfying their body desires. Even in the olden times the people lived cleaner lives than we do today. They had a fear of God, and worshipped Him even though they did not have Christ or His Teaching of Light.

So it is up to you. Do you really want to learn to become conscious of your energy of feeling, which is the substance or radium-giving life to soul which you throw away so freely on sinful lust desires of and for the body, knowing that punishment will follow?

The planet only draws from the atmosphere; but we also create and draw from our body's heat and live in that sinful dark atmosphere of the body's magnetism. Therefore the planet can draw very little spiritual vibration and atoms from us. For we are so lazy and only relying on a religion for protection and a covering of our mistakes, but live in darkness.

For in all Christian churches we are conscious to repeat Jesus' Words, as we are learned—but stubborn and self-loving, and thus have fallen lower than the primitive man. So let us now come out of our prolonged infancy and grow spiritually in multiplying the good vibrations by bringing them out alive for the spiritual actions with our spiritualized senses, and no longer for the animal habits for the body alone.

The primitive man was not spiritual; for they were uneducated

men and women—only living in body and sex desires, to fight and to kill. But they also had a religion in which they prayed to God for help. Are we any different, we who have had Jesus' Teachings for 2,000 years?

The day has come now for a greater understanding of character with nobler acts of kindness, to forgive and to see the good in each one no matter what sins they have committed, by giving everyone another chance, by helping and cheering them, and to awaken them to Light.

These Words of Jesus must be repeated over and over again to feel His Light.

Through the twenty-two years, Mother Trust had many sick people of all kinds of diseases who were healed in and through Jesus' Superet Religion. She praised their efforts, and in taking their fears away until they could feel the vibration of love and harmony, and prayers — repeating the Lord's Prayer with many of the Superet Prayers which gave new vibrations of peace and harmony—not with fear or forces, but with a faith of loving kindness — gently leading each heart to God.

Mother Trust says if you wish, "continue to go to whatever church and religion you belong to. You will receive help. God will always help you when you call on Him with all your heart. But to get the Light, you must learn Jesus' Light Laws of Superet Science."

Think of the Apostles and the Martyrs who gave up their bodies

to earn this Light. They called with faith to God, to accept their sacrifices. Even when Emperor Julian who was trying to bring paganism back and was met with defeat, before he died, he said, "Thou hast conquered, O Galilean."

So now men and women can never hold excuses or protect themselves when they have caught the vision of the Christ Light to follow Him in Light, and have become Light conscious.

Yes, years ago a young girl had to learn this lesson. A young haggard faced girl stood alone before a house, looking with a farewell look at it and to the world, for the doctor had told her that she had consumption which was hopeless, and for her to go to a Sanitarium. So, with hollow eyes and looking at the future as hopeless, but still praying, when suddenly there came one single ray of hope. She said that Jesus had said, "If you have faith as big as a mustard seed you can remove mountains." So she proved her faith in God, and was healed through God's Light, Superet.

This was Mother Trust's start, which she relates was her awakening in life to this Light and faith in God, which never left her. For all alone she fought for Jesus' Religion, Superet, those years—knowing with faith, that God's Light, Superet, must and would be accepted all over the world, and that people with white hearts filled with love to God with golden specks or Light Atoms would no longer have black or dark atoms which

lead to darkness, evil, crimes, wars, sickness and suffering.

She has prayed with a living faith that the time will come when the Superet Brotherhood will be established all over the world.

Mother Trust studied night and day to discover how to come to Jesus' Light, when she discovered Jesus' Light Alphabet first, and made the three degrees of the Light White and Celestial Atoms vibration Alphabet.

Once she told the students her childhood start (which she remembered) when she was sent to a very exclusive school for little girls of the kindergarten. She was all dressed up and ready to bow before the teacher, ready to learn the A.B.C.s. When she arrived she was clutching her books and slate; but with trembling knees she forgot to make her bow. And looking at the black board with the A.B.C.s, she dropped her books and slate and could not utter a sound in answer to the teacher. How little did she know of the great discovery waiting for her to find—of this wondrous Teaching of Jesus' Light!

It is so simple, no mystery, no secret, all so true. Just as a record is played on a beam of light, so is your record brought out through the vibration of your senses and is played on a beam of light which comes from your heart-battery.

Going back in history of centuries ago, 2,780 B. C., we read of a great and learned counselor, Iem Hotep, who was an architect, a physician, a high priest, magician, author, a maker of proverbs and

symbols and a great scientist, and was the outstanding scientist of that time. People came from afar whenever he translated from the symbols of the old books and writings. He comprehended the first principle of radio, which he only used to make magic.

Mother Trust now explains to you the Symbols of Jesus' Words in Light — as she sees the Vibration of Atoms and the spiritual Light, chemicals and auras, and how to start to follow Jesus in Light. For then there can be no sorrow, heart-aches or wars any longer, as the Light from God will lead the Superet Brotherhood like a mighty army, causing the darkness and evil to be dissolved, but never to return to that city again if it will not live in the Light Laws of Jesus' Superet Science to earn the Light Atoms.

Mother Trust teaches Christ's Principles to develop the spiritual Light Atoms, as those vital elements in all religious faiths are needed. The faith and unity with democracy are linked in this Superet Brotherhood of love. And as God's Love is a Force that touches with tender Vibrations those souls that are praying humbly for God's Love Light and help, there will no longer be spiritual personality pride and just church rituals; but that the Inner heart will be decorated with the purity of the heavenly White Atoms, proving with its Aura shining for miles. That all people will see in time or feel your life is really of Truth and no longer 'make believe' with a religious out-

side exaltations, darkness, personality, emotions of sin and deceit within and just pretending.

Mother Trust says, that one day, after a hard day's work she felt sad and discouraged and disgusted because so many people had come sick and would not even accept the advice given, only wanting healing and money—which they received—but not wanting Jesus Christ's Light Religion, Superet, as all had their own religion, but only wanting the healing from Jesus' Religion, Superet, which was just the same with my own sister. She had the nuns in Chicago, New York, also in Lakewood and her priest praying for her to get well. But she got worse, with tears, telling me this.

She told me, "You have helped so many of all kinds of diseases. Why not help me?" I told her to apply the Superet Laws, which she rejected, for her religion would not allow it,—the same as you would reject the building of aeroplane machinery today and say, "I want to live in the law of my grandfather's old machinery," which was only a candle light.

She afterwards found out by accepting this Jesus' Superet Religion that the pain left her at once, after which she told many people of the miracle.

Mother Trust once had a woman come to her with a black veil and dark eye glasses. As she removed this, she said, "I am weary of all of this; because all men stare at me." She was a beautiful woman. I asked her why, but I knew before

she said it." She said, "Because they all are sending me their lust vibration desires and I feel it; for I am disgusted with that life and need your help." So she got it from the Lord Jesus, and continued to make herself homely, but was beautiful within, for she accepted Jesus' Religion, Superet.

Not many women could do this, for all are trying to make themselves only beautiful to arouse the admiration, which means lust in men. Some women only want the vanity and admirations to encourage the men, and others want only money.

As I was lecturing and drawing Auras in Carnegie Hall, a man of big stature and very handsome, spoke to my secretary about seeing the Artist. When I saw him, he told me that he was short of money and would be willing to stand without clothes for his beautiful perfectly shaped body and his face to be painted, which he said was admired by most of the women; and that he could have plenty, for many silly women would give him money, as they were so weak, only admiring the face and physical beauty of men but not the spiritual beauty, but he wanted to earn it. He had lived with many love sick women before, which he and other men could get so easily—even married women with children.

I said to him, "But how about you men that entice those poor women, even encouraging them instead of teaching them to live a cleaner life? You yourself now want to entice women and arouse

their animal instinct by your nude picture, which you want to make money with so as not to be bothered with them. You have a wife and children." I showed him his aura which was dark and filled with many black atoms. I also told him that every young girl's life he had ruined by pretending that it was love when it was only body lust, he had to undo.

He asked me, "How?" . . . By starting with the Superet Laws first in confessing to God, with repentance, then helping young girls and women, also men to give up their sinful lives as he was doing. He promised with an oath. So his wife thanked me. She said, "He is healed, dressed in overalls, and working in a coal underground mine." Which he did to make good for having lived that life in soul in the underground fornication sins. The wife had to surrender to live the spiritual life with him instead of only the animal life. Both accepted Jesus' Religion, Superet.

How many brave men are there with that love for God? The same with you women. What courage and sacrifice! There are many good people who have fallen so easily to that kind of life, as they are only seeking flesh love and not God's Love. But they do not know any better, as they have a religion but not Jesus' Laws of Light to give them the Vibration, which gives them the strength and the courage to overcome their body desires.

This is proven in the Superet Religion, where not only just the Superet ministers give up the sex

life, but also the members, freely, with their body sacrifice proving their love to God from their hearts. Cowards could not do this. It takes heroes. Do not worry that there won't be many children without your help, only to be cannon food again for the next war if you don't care to change.

Remember, the world laughed at Jesus for not living the worldly or sex life; but He knew that He would have lost His Light otherwise. Mother Trust was also condemned for teaching Jesus' Religion of Light to live His Life. But the people scorned and belittled her which did not make any impression on her. She kept up all those years because she saw the Light and the auras of the people, also of spirits, light and darkness of their atoms.

Come; start now to give your body life up to God.

Mother Trust once had such a wonderful dream that was so real. She dreamt that her spirit was leaving her body—seeing the long string attached to her. She knew she was not dead. She saw herself lifted up. Looking, she saw Jesus smiling and saying to her, "Come child of Light . . . And carrying me, Jesus put me down in a beautiful desert where all was in a golden Light with thousands of angels of Light, and there was silence.

"The Holy Mother Mary came and put a white dress, stockings, shoes and veil on me, and whispered to me that a great celebration was going to take place, and for me not to speak or even move

while this great event was taking place. I was all curiosity, and thought of how I was allowed to be among such holy angels with such beautiful Lights, when suddenly Jesus said, 'Mother God, Superet Light, we love and worship Thee'; and all the angels started to sing very softly.

"Looking up, I saw Jesus kneeling, and a most wondrous Lady, who had a large Purple Heart which started from her heart center, going down to her ankles with golden stars and golden purple streams of Fire coming out. She was so wonderful, so beautiful I could never describe. She blessed Jesus, then turning, She blessed all.

"I knew then that She was our Mother God. I began crying for joy and saying out loud, 'Oh, Mother God, I love You. I am a sinner.' She heard me and came slowly towards me. I was stretched on the floor before Her, afraid to look up.

"She said, 'Stand up my child, and do not be afraid. I have sent you to the world to give out my Message of my Heart-Love Fire, Superet, which you have followed in obedience to Jesus' Religion, Superet, which He established on this earth, teaching all men of His Father God's Justice. You must help the women to live in Light—not only bearing children, but teaching men to live in Light by establishing the Light Vibration in themselves first before they give birth.'

"She blessed me, and said, In the Name of Superet, I bless you.

Go forth and have no fear. Have patience. Tell all the world that Mother God loves you all and wants you all to come Home someday to Father and Mother God's Heart.

"Sobbing, I said, 'I will,' and I thanked Her. With convulsion, crying to break my heart, and covered with a cold sweat, I woke with a feeling of love to God, with a joy and happiness all in one, and started at once to write the nine books without ceasing, and praying to Mother God not to leave us, and to give us peace.

"When I finished the books, the Atomic Bomb came and brought peace, an answer to my prayer. Mother God sent help. Through the Atoms, peace came."

This dream was for all of us, to give us Light, and to give you this Message. Please read all the books then you will feel the truth of what I have told you, and you will earn the Light Vibration. You must know the Light of God.

Our Almighty Mother God is close to us to help us now. All pray to Her in Jesus' Name to bring us to the Father God.

God bless you all, Superet Brotherhood for Mankind, for Jesus Christ's Superet Light Government through His Superet Atomic Religion of the world will and is now starting. The world's humanity will now start to live more Jesus' Life in Light to draw Almighty Mother God's Superet Love to us.

As the triumph over a crippling pain needs material courage and a tenacious faith to the very last,

how much more we must have a spiritual courage to earn the Light to travel into Eternity! To come to the Light of God, we must labor in Light as Jesus did—not just imagining, affirming or demonstrating and suggesting any longer. But we must absolutely earn it like we labor for our daily bread.

The Superet Books teach and give you the Vibration for the mental and heart equipment—for we must create a living light substance. "As the man thinketh in his heart so is he." No longer just having vibrations of the mind, but the heart vibrations which give Light substance.

(Benefits are untold, with so many wonderful healings and help received. Those who wish to become members in the Superet Brotherhood and to ask for prayers, write to us and we will unite to pray for you at noon time. Over 75,000 hearts are praying the Miracle Prayer.)

We've often asked, "Why are our light atoms and aura our only destiny here and hereafter?" Because God is Light!

This new discovery with scientific facts not only proves in the use of the nature Atoms discovery of harnessing, but also that of a greater discovery, of the harnessing of our own physical and spiritual Atoms—which will add ten years to your life if you make a full use of this scientific Knowledge, now available.

You will also become prepared for the sublime moment of passing on—which is for all, even the least

or the greatest. All must strive to be worthy of this supreme opportunity given (a little) in this little book—in which you are led to God's Truth which God gave us to find—not only in the nature Atoms, but in our hearts—the real power, energy and strength—a love substance of Light for God.

You will feel the exalted justice in your whole being; for you know, as true Christian Americans, we all have proven, the greater the labor, the better we do it, provided the purpose is clearly defined. For we plan together for our country's development. So let us also plan for our own physical welfare in the spiritual 'plant' with the natural resources. For all things are possible which the genius of America

have proved to all the world—also to become real Light followers of Jesus Christ.

But now comes to us a warning: Listen America. The Aura of our country shows marks of darkness in color, going in stripes, which is similar to that which the Aura Scientist saw while in France and through Europe eight years ago before the war. So let us prepare within to have the Light Atoms. For God is Light, and demands it now. He will help us only through our Light Atoms. So we must prove if we are worthy of His Help.

This Superet Science gives us the Law of Light. Let us not just rely on the Atom Bomb. For a few other countries also have it! Accept God's Message. God bless you.

God Bless You

THIS wonder leaflet has brought blessings to many. Blessings will be showered upon you, dear one, when you read this true little story of the God Bless You Leaflet. It started in Los Angeles in 1939. Already almost one million leaflets have traveled through America, the Holy Land, Egypt, France, England, Italy and Switzerland. Many sent us testimonials of the great benefits they received through the Miracle Prayer who were healed,

helped, changed in character, saved from suicide, soldiers protected, children healed with thanks from the mothers, and all through the war the Holy Land and America received protection.

A tremendous power has started now: for thousands of people of all religions, creeds, nations and colors are united with us praying the same Prayer, and at the same time—at noon time—so naturally it has formed a great spiritual electric

wave of loving God and blessing all humanity in unity—saints and sinners alike—giving a love present of a pure heart Love-Chain unto God, which must go around the world.

As we all have neglected loving our God, we have therefore brought suffering and tribulation on us. We must now sincerely follow Jesus—for He loved God above all. His Vibrations of Light are living through His Words of loving God which will help us: for He was also human and He knew our human cry, which always was and will be after God.

To know God better—we all have a deep home sickness for our God-Father Who is all Justice and Peace. But never never could our heart hunger be satisfied without knowing the Mother God Who is all Love and Mercy; and She is coming to us now—for we are longing and praying to Her to take us to Her Heart to save us and to heal our hearts and wounds. We are praying for Mother God's Love, and to bring us to the Father-God's Heart Who wants justice. For Jesus promised us the Holy Ghost—which is the Mother God—would come to us if we all would pray united in love and follow Jesus. That's why we have started this one Brotherly Love-Chain in bringing out a pure love current from all our hearts to God, and praying to draw our precious Mother God's Heart Love to come closer to us: for we have confessed our sins to God, and repented and promised to live in loving God with all our

hearts with body purity and blessing each other—so proving our pure love to God.

Jesus gave us the Law how to love God. He proved His Love to Mother-God above His flesh Mother, the holy Mother Mary. He proved His Love for Father-God and Mother-God; for the wondrous Mother God charged our flesh mothers' heart with an unselfish love . . . Let us follow Jesus and prove our love now to Mother-God, for She is our everlasting Mother. Let us love Her spiritually, physically, mentally and morally because She gave us life!

Now at last this secret has come to light—but only through the discovery of Jesus' Religion, of His white Heart's purity and love-connection with His Father and Mother God's Royal Sacred Purple Heart with Its Fire, Superet (the new Name which He gave in Revelation). Jesus said, "Seek and ye shall find (His Religion). I shall baptize you with fire (the only Fire which comes from God's Heart). My doctrine is not of this world." The Doctrine of Superet Light means Father and Mother God's Heart Light. Jesus said, "I am the light of the world."

Jesus spoke living Words of Light which were Peace, Love and Harmony. We must repeat those Words by proving them with facts; then their Vibrations become alive, and will vibrate in us with facts. You will feel their warmth and power instantly. But if you speak words of disharmony, proving with acts, then no longer can you draw

from this holy electric current . . . Say, often, "God's Peace, Love and Harmony come to me."

As this tremendous Love-Chain is the Superet Brotherhood For Mankind and stands on Jesus' Love—to love God—we must keep it alive, to follow Jesus' Rules as they live forever here and hereafter. Let us pray sincerely every day at noon time the Miracle Prayer. United with us are seventy-five thousand members of the Prince of Peace Movement which was started with the God Bless You leaflet. All members are praying with us daily, night and day, for day in America is night in other countries. Come and pray with us in this ceaseless God Bless You Chain and become a God's Love Link.

This God Bless You leaflet gives untold God's Blessings for each one. We have proof not only with benefits of healing, help and protection, but in loving God more and following Jesus, reading the Bible and overcoming self daily. Through this leaflet, ten Books of the greatest value were published in the war time. Even though there was hardly enough paper, the Book of Jesus' Religion of 928 pages was published. Now you will know the

blessings we have received, and what blessings you will receive in joining with the God Bless You Chain. So pass this leaflet to others, and bless each one with, God Bless You.

*The Miracle Prayer of the
God Bless You Chain or
the Superet Brotherhood
For Mankind*

"Father and Mother God of the Universe, we all love Thee above all spiritually, physically, mentally and morally. Please accept our love in this God Bless You Chain from the Superet Brotherhood for Mankind. We humbly pray for Thy Superet Sacred Purple Heart's Love. We thank Thee, Father and Mother God in Jesus Christ's Name. Amen."

Note: Join us in distributing the leaflets and earn the blessings by helping others. This is the greatest charity. For further information or leaflets, write to us.

Superet Lucky Library

'Lucky'—because of the many who have felt the 'good luck,' the happiness they've received while reading and passing out Books and leaflets, the joy because of the inspiration and encouragement and the scientific Wisdom given to the young and old. Among many letters, one read, "So deeply was I in trouble that only a miracle could help me. Every article read in your book was a revelation. Your Superet Book is a 'wonder book.' I put It under my pillow after reading It. I was healed, so I left the hospital the next day."

Letters from old, poor and rich tell of the wondrous help and healings received. The '300 Prayer Book' has given much comfort and encouragement. One woman was told by her doctor in Long Beach that she could not walk for one year. After reading the Prayer Book for two weeks she now walks and is thanking God.

From prison a letter was received thanking us for the help and change of character. Missionaries of all religions are using our Gospel of God. Another, a great Bible study, is the book of the '300 colored

Atoms' which explains the Old and New Testament, which can not only be used in churches, but in Colleges. Many people have been helped from insanity just by looking at the colorings of the Pictures.

Outstanding of the million leaflets distributed of the 'God Bless You,' was when one was found lying on the pavement by a woman who wanted to commit suicide. She stared at the God Bless You and started a new life. She asked for more leaflets.

Children love the little Childhood of Christ history book. The Prince of Peace Movement book started the Prince of Peace Club of 75,000 people. Many people have felt the Vibration in the Vibration Language book when using it.

All books bring a spiritualization to each one along with an unfathomable science of the white Atoms with the Superet Brotherhood For Mankind. All carry the beautiful Superet Flag, decorated with the Superet button, and sing the Superet Hymns of Glory be to God, marching in the Holy Land and all over the world as the worshippers of God's Purple Sacred Heart.
